33509	AORTIC ENDARTERECTOMY, including closure by suture, not being a service associated with another procedure on the aorta (Anaes.) (Assist.) Fee: \$1,465.75 Benefit: 75% = \$1099.35	
33512	AORTO-ILIAC ENDARTERECTOMY (1 or both iliac arteries), including closure by suture not being a service associated with a service to which item 33515 applies (Anaes.) (Assist.) Fee: \$1,628.60 Benefit: 75% = \$1221.45	
33515	AORTO-FEMORAL ENDARTERECTOMY (1 or both femoral arteries) or BILATERAL ILIO-FEMORAL ENDARTERECTOMY, including closure by suture, not being a service associated with a service to which item 33512 applies (Anaes.) (Assist.) Fee: \$1,791.55 Benefit: 75% = \$1343.70	
33518	ILIAC ENDARTERECTOMY, including closure by suture, not being a service associated with another procedure on the iliac artery (Anaes.) (Assist.) Fee: \$1,310.60 Benefit: 75% = \$982.95 85% = \$1225.90	
33521	ILIO-FEMORAL ENDARTERECTOMY (1 side), including closure by suture (Anaes.) (Assist.) Fee: \$1,419.05 Benefit: 75% = \$1064.30	
33524	RENAL ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$1,675.05 Benefit: 75% = \$1256.30	
33527	RENAL ARTERIES (both), endarterectomy of (Anaes.) (Assist.) Fee: \$1,946.30 Benefit: 75% = \$1459.75	
33530	COELIAC OR SUPERIOR MESENTERIC ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$1,675.05 Benefit: 75% = \$1256.30	
33533	COELIAC AND SUPERIOR MESENTERIC ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$1,946.30 Benefit: 75% = \$1459.75	
33536	INFERIOR MESENTERIC ARTERY, endarterectomy of, not being a service associated with a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$1,388.15 Benefit: 75% = \$1041.15	
33539	ARTERY OF EXTREMITIES, endarterectomy of, including closure by suture (Anaes.) (Assist.) Fee: \$1,000.35 Benefit: 75% = \$750.30	
33542	EXTENDED DEEP FEMORAL ENDARTERECTOMY where the endarterectomy is at least 7cms long (Anaes.) (Assist.) Fee: \$1,426.90 Benefit: 75% = \$1070.20	
33545	ARTERY, VEIN OR BYPASS GRAFT, patch grafting to by vein or synthetic material where patch is less than 3cm long (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$282.20 Benefit: 75% = \$211.65	

T8. SURGICAL OPERATIONS		3. VASCULAR
33548	ARTERY, VEIN OR BYPASS GRAFT, patch grafting to by vein or synthetic material where patch is 3cm long or greater (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$574.00 Benefit: 75% = \$430.50	
33551	VEIN, harvesting of from leg or arm for patch when not performed through same incision as operation (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$282.20 Benefit: 75% = \$211.65	
33554	ENDARTERECTOMY, in conjunction with an arterial bypass operation to prepare the site for anastomosis - each site (Anaes.) (Assist.) Fee: \$280.90 Benefit: 75% = \$210.70	
EMBOLECTOMY, THROMBECTOMY AND VASCULAR TRAUMA		
33800	EMBOLUS, removal of, from artery of neck (Anaes.) (Assist.) Fee: \$1,217.50 Benefit: 75% = \$913.15 85% = \$1132.80	
33803	EMBOLECTOMY or THROMBECTOMY, by abdominal approach, of an artery or bypass graft of trunk (Anaes.) (Assist.) Fee: \$1,163.30 Benefit: 75% = \$872.50	
33806	Embolectomy or thrombectomy (including the infusion of thrombolytic or other agents) from an artery or bypass graft of extremities, or embolectomy of abdominal artery via the femoral artery, item to be claimed once per extremity, regardless of the number of incisions required to access the artery or bypass graft (Anaes.) (Assist.) Fee: \$837.55 Benefit: 75% = \$628.20 85% = \$752.85	
33810	INFERIOR VENA CAVA OR ILIAC VEIN, closed thrombectomy by catheter via the femoral vein (Anaes.) (Assist.) Fee: \$611.00 Benefit: 75% = \$458.25 85% = \$526.30	
33811	INFERIOR VENA CAVA OR ILIAC VEIN, open removal of thrombus or tumour (Anaes.) (Assist.) Fee: \$1,818.90 Benefit: 75% = \$1364.20	
33812	THROMBUS, removal of, from femoral or other similar large vein (Anaes.) (Assist.) Fee: \$961.55 Benefit: 75% = \$721.20 85% = \$876.85	
33815	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by lateral suture (Anaes.) (Assist.) Fee: \$884.05 Benefit: 75% = \$663.05	
33818	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by direct anastomosis (Anaes.) (Assist.) Fee: \$1,031.40 Benefit: 75% = \$773.55	
33821	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by interposition graft of synthetic material or vein (Anaes.) (Assist.) Fee: \$1,178.70 Benefit: 75% = \$884.05	
33824	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by lateral	

T8. SURGICAL OPERATIONS		3. VASCULAR
	suture (Anaes.) (Assist.) Fee: \$1,124.40 Benefit: 75% = \$843.30	
33827	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by direct anastomosis (Anaes.) (Assist.) Fee: \$1,318.30 Benefit: 75% = \$988.75	
33830	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by interposition graft of synthetic material or vein (Anaes.) (Assist.) Fee: \$1,512.10 Benefit: 75% = \$1134.10	
33833	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by lateral suture (Anaes.) (Assist.) Fee: \$1,372.75 Benefit: 75% = \$1029.60	
33836	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by direct anastomosis (Anaes.) (Assist.) Fee: \$1,636.35 Benefit: 75% = \$1227.30	
33839	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by means of interposition graft (Anaes.) (Assist.) Fee: \$1,915.40 Benefit: 75% = \$1436.55	
33842	ARTERY OF NECK, re-operation for bleeding or thrombosis after carotid or vertebral artery surgery (Anaes.) (Assist.) Fee: \$946.10 Benefit: 75% = \$709.60	
33845	LAPAROTOMY for control of post operative bleeding or thrombosis after intra-abdominal vascular procedure, where no other procedure is performed (Anaes.) (Assist.) Fee: \$659.20 Benefit: 75% = \$494.40	
33848	EXTREMITY, re-operation on, for control of bleeding or thrombosis after vascular procedure, where no other procedure is performed (Anaes.) (Assist.) Fee: \$659.20 Benefit: 75% = \$494.40	
LIGATION, EXCISION, ELECTIVE REPAIR, DECOMPRESSION OF VESSELS		
34100	MAJOR ARTERY OF NECK, elective ligation or exploration of, not being a service associated with any other vascular procedure (Anaes.) (Assist.) Fee: \$729.05 Benefit: 75% = \$546.80	
34103	Great artery (aorta or pulmonary artery) or great vein (superior or inferior vena cava), ligation or exploration of immediate branches or tributaries, or ligation or exploration of the subclavian, axillary, iliac, femoral or popliteal arteries or veins, if the service is not associated with item 32508, 32511, 32520, 32522, 32523, 32526, 32528 or 32529 - for a maximum of 2 services provided to the same patient on the same occasion (H) (Anaes.) (Assist.) Fee: \$426.45 Benefit: 75% = \$319.85	
34106	ARTERY OR VEIN (including brachial, radial, ulnar or tibial), ligation of, by elective operation, or exploration of, not being a service associated with any other vascular procedure except those services to which items 32508, 32511, 32514 or 32517 apply (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$300.80 Benefit: 75% = \$225.60 85% = \$255.70 Extended Medicare Safety Net Cap: \$240.65	
34109	TEMPORAL ARTERY, biopsy of (Anaes.) (Assist.) Fee: \$348.90 Benefit: 75% = \$261.70 85% = \$296.60	
34112	ARTERIO-VEINUS FISTULA OF AN EXTREMITY, dissection and ligation (Anaes.) (Assist.) Fee: \$884.05 Benefit: 75% = \$663.05	
34115	ARTERIO-VEINUS FISTULA OF THE NECK, dissection and ligation (Anaes.) (Assist.) Fee: \$1,000.35 Benefit: 75% = \$750.30	
34118	ARTERIO-VEINUS FISTULA OF THE ABDOMEN, dissection and ligation (Anaes.) (Assist.) Fee: \$1,426.90 Benefit: 75% = \$1070.20 85% = \$1342.20	
34121	ARTERIO-VEINUS FISTULA OF AN EXTREMITY, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,139.90 Benefit: 75% = \$854.95	
34124	ARTERIO-VEINUS FISTULA OF THE NECK, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,248.60 Benefit: 75% = \$936.45	
34127	ARTERIO-VEINUS FISTULA OF THE ABDOMEN, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,636.35 Benefit: 75% = \$1227.30	
34130	SURGICALLY CREATED ARTERIO-VEINUS FISTULA OF AN EXTREMITY, closure of (Anaes.) (Assist.) Fee: \$511.80 Benefit: 75% = \$383.85 85% = \$435.05	
34133	SCALENOTOMY (Anaes.) (Assist.) Fee: \$574.00 Benefit: 75% = \$430.50	
34136	FIRST RIB, resection of portion of (Anaes.) (Assist.) Fee: \$922.70 Benefit: 75% = \$692.05	
34139	CERVICAL RIB, removal of, or other operation for removal of thoracic outlet compression, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$922.70 Benefit: 75% = \$692.05	
34142	COELIAC ARTERY, decompression of, for coeliac artery compression syndrome, as an independent procedure (Anaes.) (Assist.) Fee: \$1,139.90 Benefit: 75% = \$854.95	
34145	POPLITEAL ARTERY, exploration of, for popliteal entrapment, with or without division of fibrous tissue and muscle (Anaes.) (Assist.) Fee: \$829.75 Benefit: 75% = \$622.35	
34148	CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or reconstruction of internal	

T8. SURGICAL OPERATIONS		3. VASCULAR
	or common carotid arteries, when tumour is 4cm or less in maximum diameter (Anaes.) (Assist.)	
	Fee: \$1,481.20 Benefit: 75% = \$1110.90	
34151	CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or reconstruction of internal or common carotid arteries, when tumour is greater than 4cm in maximum diameter (Anaes.) (Assist.)	
	Fee: \$2,023.95 Benefit: 75% = \$1518.00	
34154	RECURRENT CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or replacement of portion of internal or common carotid arteries (Anaes.) (Assist.)	
	Fee: \$2,411.80 Benefit: 75% = \$1808.85 85% = \$2327.10	
34157	NECK, excision of infected bypass graft, including closure of vessel or vessels (Anaes.) (Assist.)	
	Fee: \$1,225.30 Benefit: 75% = \$919.00	
34160	AORTO-DUODENAL FISTULA, repair of, by suture of aorta and repair of duodenum (Anaes.) (Assist.)	
	Fee: \$2,295.40 Benefit: 75% = \$1721.55	
34163	AORTO-DUODENAL FISTULA, repair of, by insertion of aortic graft and repair of duodenum (Anaes.) (Assist.)	
	Fee: \$2,946.80 Benefit: 75% = \$2210.10	
34166	AORTO-DUODENAL FISTULA, repair of, by oversewing of abdominal aorta, repair of duodenum and axillo-bifemoral grafting (Anaes.) (Assist.)	
	Fee: \$2,946.80 Benefit: 75% = \$2210.10	
34169	INFECTED BYPASS GRAFT FROM TRUNK, excision of, including closure of arteries (Anaes.) (Assist.)	
	Fee: \$1,636.35 Benefit: 75% = \$1227.30	
34172	INFECTED AXILLO-FEMORAL OR FEMORO-FEMORAL GRAFT, excision of, including closure of arteries (Anaes.) (Assist.)	
	Fee: \$1,333.80 Benefit: 75% = \$1000.35	
34175	INFECTED BYPASS GRAFT FROM EXTREMITIES, excision of including closure of arteries (Anaes.) (Assist.)	
	Fee: \$1,225.30 Benefit: 75% = \$919.00	
OPERATIONS FOR VASCULAR ACCESS		
34500	ARTERIOVENOUS SHUNT, EXTERNAL, insertion of (Anaes.) (Assist.)	
	Fee: \$318.05 Benefit: 75% = \$238.55 85% = \$270.35	
34503	ARTERIOVENOUS ANASTOMOSIS OF UPPER OR LOWER LIMB, in conjunction with another venous or arterial operation (Anaes.) (Assist.)	
	Fee: \$426.45 Benefit: 75% = \$319.85	
34506	ARTERIOVENOUS SHUNT, EXTERNAL, removal of (Anaes.) (Assist.)	
	Fee: \$217.00 Benefit: 75% = \$162.75	
34509	ARTERIOVENOUS ANASTOMOSIS OF UPPER OR LOWER LIMB, not in conjunction with	

T8. SURGICAL OPERATIONS		3. VASCULAR
	another venous or arterial operation (Anaes.) (Assist.) Fee: \$1,008.10 Benefit: 75% = \$756.10	
34512	ARTERIOVENOUS ACCESS DEVICE, insertion of (Anaes.) (Assist.) Fee: \$1,109.00 Benefit: 75% = \$831.75	
34515	ARTERIOVENOUS ACCESS DEVICE, thrombectomy of (Anaes.) (Assist.) Fee: \$790.95 Benefit: 75% = \$593.25	
34518	STENOSIS OF ARTERIOVENOUS FISTULA OR PROSTHETIC ARTERIOVENOUS ACCESS DEVICE, correction of (Anaes.) (Assist.) Fee: \$1,325.90 Benefit: 75% = \$994.45	
34521	INTRA-ABDOMINAL ARTERY OR VEIN, cannulation of, for infusion chemotherapy, by open operation (excluding aftercare) (Anaes.) (Assist.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$814.65 Benefit: 75% = \$611.00	
34524	ARTERIAL CANNULATION for infusion chemotherapy by open operation, not being a service to which item 34521 applies (excluding after-care) (Anaes.) (Assist.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$426.45 Benefit: 75% = \$319.85	
34527	CENTRAL VEIN CATHETERISATION by open technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, including any associated percutaneous central vein catheterization, on a person 10 years of age or over (Anaes.) Fee: \$568.85 Benefit: 75% = \$426.65 85% = \$484.15	
34528	CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, on a person 10 years of age or over (Anaes.) Fee: \$280.90 Benefit: 75% = \$210.70 85% = \$238.80	
34529	CENTRAL VEIN CATHETERISATION by open technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, including any associated percutaneous central vein catheterization, on a person under 10 years of age (Anaes.) Fee: \$739.50 Benefit: 75% = \$554.65 85% = \$654.80	
34530	CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital on a person 10 years of age or over (Anaes.) Fee: \$210.60 Benefit: 75% = \$157.95 85% = \$179.05	
34533	ISOLATED LIMB PERFUSION, including cannulation of artery and vein at commencement of procedure, regional perfusion for chemotherapy, or other therapy, repair of arteriotomy and venotomy at conclusion of procedure (excluding aftercare) (Anaes.) (Assist.) Fee: \$1,279.40 Benefit: 75% = \$959.55 85% = \$1194.70	
34534	CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, on a person under 10 years of age (Anaes.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$365.15 Benefit: 75% = \$273.90 85% = \$310.40	
34538	CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnelled cuffed catheter or similar device, for the administration of haemodialysis or parenteral nutrition (Anaes.) Fee: \$280.90 Benefit: 75% = \$210.70 85% = \$238.80	
34539	TUNNELLED CUFFED CATHETER, OR SIMILAR DEVICE, removal of, by open surgical procedure (Anaes.) Fee: \$210.60 Benefit: 75% = \$157.95 85% = \$179.05	
34540	CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital, on a person under 10 years of age (Anaes.) Fee: \$273.80 Benefit: 75% = \$205.35 85% = \$232.75	
COMPLEX VENOUS OPERATIONS		
34800	INFERIOR VENA CAVA, plication, ligation, or application of caval clip (Anaes.) (Assist.) Fee: \$837.55 Benefit: 75% = \$628.20 85% = \$752.85	
34803	INFERIOR VENA CAVA, reconstruction of or bypass by vein or synthetic material (Anaes.) (Assist.) Fee: \$1,845.80 Benefit: 75% = \$1384.35	
34806	CROSS LEG BYPASS GRAFTING, saphenous to iliac or femoral vein (Anaes.) (Assist.) Fee: \$1,000.35 Benefit: 75% = \$750.30	
34809	SAPHENOUS VEIN ANASTOMOSIS to femoral or popliteal vein for femoral vein bypass (Anaes.) (Assist.) Fee: \$1,000.35 Benefit: 75% = \$750.30	
34812	VENOUS STENOSIS OR OCCLUSION, vein bypass for, using vein or synthetic material, not being a service associated with a service to which item 34806 or 34809 applies (Anaes.) (Assist.) Fee: \$1,209.70 Benefit: 75% = \$907.30	
34815	VEIN STENOSIS, patch angioplasty for, (excluding vein graft stenosis)-using vein or synthetic material (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$1,000.35 Benefit: 75% = \$750.30	
34818	VENOUS VALVE, plication or repair to restore valve competency (Anaes.) (Assist.) Fee: \$1,101.15 Benefit: 75% = \$825.90	
34821	VEIN TRANSPLANT to restore valvular function (Anaes.) (Assist.) Fee: \$1,496.75 Benefit: 75% = \$1122.60 85% = \$1412.05	
34824	EXTERNAL STENT, application of, to restore venous valve competency to superficial vein - 1 stent (Anaes.) (Assist.) Fee: \$511.80 Benefit: 75% = \$383.85	
34827	EXTERNAL STENTS, application of, to restore venous valve competency to superficial vein or veins - more than 1 stent (Anaes.) (Assist.) Fee: \$620.45 Benefit: 75% = \$465.35	

T8. SURGICAL OPERATIONS		3. VASCULAR
34830	EXTERNAL STENT, application of, to restore venous valve competency to deep vein (1 stent) (Anaes.) (Assist.) Fee: \$729.05 Benefit: 75% = \$546.80 85% = \$644.35	
34833	EXTERNAL STENTS, application of, to restore venous valve competency to deep vein or veins (more than 1 stent) (Anaes.) (Assist.) Fee: \$946.10 Benefit: 75% = \$709.60	
SYMPATHECTOMY		
35000	LUMBAR SYMPATHECTOMY (Anaes.) (Assist.) Fee: \$729.05 Benefit: 75% = \$546.80 85% = \$644.35	
35003	CERVICAL OR UPPER THORACIC SYMPATHECTOMY by any surgical approach (Anaes.) (Assist.) Fee: \$946.10 Benefit: 75% = \$709.60	
35006	CERVICAL OR UPPER THORACIC SYMPATHECTOMY, where operation is a reoperation for previous incomplete sympathectomy by any surgical approach (Anaes.) (Assist.) Fee: \$1,186.50 Benefit: 75% = \$889.90	
35009	LUMBAR SYMPATHECTOMY, where operation is following chemical sympathectomy or for previous incomplete surgical sympathectomy (Anaes.) (Assist.) Fee: \$922.70 Benefit: 75% = \$692.05	
35012	SACRAL or PRE-SACRAL SYMPATHECTOMY (Anaes.) (Assist.) Fee: \$729.05 Benefit: 75% = \$546.80	
DEBRIDEMENT AND AMPUTATIONS FOR VASCULAR DISEASE		
35100	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, when debridement includes muscle, tendon or bone (Anaes.) (Assist.) Fee: \$380.05 Benefit: 75% = \$285.05	
35103	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, superficial tissue only (Anaes.) Fee: \$241.85 Benefit: 75% = \$181.40	
MISCELLANEOUS VASCULAR PROCEDURES		
35200	OPERATIVE ARTERIOGRAPHY OR VENOGRAPHY, 1 or more of, performed during the course of an operative procedure on an artery or vein, 1 site (Anaes.) Fee: \$176.85 Benefit: 75% = \$132.65	
35202	MAJOR ARTERIES OR VEINS IN THE NECK, ABDOMEN OR EXTREMITIES, access to, as part of RE-OPERATION after prior surgery on these vessels (Anaes.) (Assist.) Fee: \$842.60 Benefit: 75% = \$631.95	
ENDOVASCULAR INTERVENTIONAL PROCEDURES		
35300	TRANSLUMINAL BALLOON ANGIOPLASTY of 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$531.45 Benefit: 75% = \$398.60 85% = \$451.75	
35303	<p>TRANSLUMINAL BALLOON ANGIOPLASTY of aortic arch branches, aortic visceral branches, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$681.40 Benefit: 75% = \$511.05 85% = \$596.70</p>	
35306	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.)</p> <p>Fee: \$628.95 Benefit: 75% = \$471.75 85% = \$544.25</p>	
35307	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents (not drug-eluting), with or without associated balloon dilatation, for 1 carotid artery, percutaneous (not direct), with or without the use of an embolic protection device, in patients who:</p> <ul style="list-style-type: none"> - meet the indications for carotid endarterectomy; and - have medical or surgical comorbidities that would make them at high risk of perioperative complications from carotid endarterectomy, <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.37 of explanatory notes to this Category)</p> <p>Fee: \$1,156.20 Benefit: 75% = \$867.15</p>	
35309	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for visceral arteries or veins, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.)</p> <p>Fee: \$786.15 Benefit: 75% = \$589.65 85% = \$701.45</p>	
35312	<p>PERIPHERAL ARTERIAL ATHERECTOMY including associated balloon dilatation of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$891.00 Benefit: 75% = \$668.25</p>	
35315	<p>PERIPHERAL LASER ANGIOPLASTY including associated balloon dilatation of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$891.00 Benefit: 75% = \$668.25</p>	
35317	<p>PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY CONTINUOUS INFUSION, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35319 or 35320 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)</p> <p>(See para TN.8.38 of explanatory notes to this Category)</p> <p>Fee: \$366.90 Benefit: 75% = \$275.20 85% = \$311.90</p>	
35319	<p>PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY PULSE SPRAY TECHNIQUE, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35317 or 35320</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
	applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)	
	Fee: \$657.70 Benefit: 75% = \$493.30 85% = \$573.00	
35320	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY OPEN EXPOSURE, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35317 or 35319 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)	
	Fee: \$883.45 Benefit: 75% = \$662.60 85% = \$798.75	
35321	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION to administer agents to occlude arteries, veins or arterio-venous fistulae or to arrest haemorrhage, (but not for the treatment of uterine fibroids or varicose veins) percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare, not being a service associated with photodynamic therapy with verteporfin (Anaes.) (Assist.)	
	(See para TN.8.32 of explanatory notes to this Category)	
	Fee: \$838.70 Benefit: 75% = \$629.05 85% = \$754.00	
35324	ANGIOSCOPY not combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)	
	Fee: \$314.50 Benefit: 75% = \$235.90	
35327	ANGIOSCOPY combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)	
	Fee: \$421.50 Benefit: 75% = \$316.15	
35330	INSERTION of INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)	
	Fee: \$531.45 Benefit: 75% = \$398.60 85% = \$451.75	
35331	RETRIEVAL OF INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare (Anaes.)	
	Fee: \$611.00 Benefit: 75% = \$458.25	
35360	Retrieval of foreign body in PULMONARY ARTERY, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare	
	(foreign body does not include an instrument inserted for the purpose of a service being rendered) (Anaes.) (Assist.)	
	Fee: \$854.05 Benefit: 75% = \$640.55	
35361	Retrieval of foreign body in RIGHT ATRIUM, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare	
	(foreign body does not include an instrument inserted for the purpose of a service being rendered) (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$732.45 Benefit: 75% = \$549.35	
	Retrieval of foreign body in INFERIOR VENA CAVA or AORTA, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare <i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)	
35362	Fee: \$611.00 Benefit: 75% = \$458.25	
	Retrieval of foreign body in PERIPHERAL VEIN or PERIPHERAL ARTERY, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare <i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)	
35363	Fee: \$489.50 Benefit: 75% = \$367.15	
INTERVENTIONAL RADIOLOGY PROCEDURES		
	DOSIMETRY, HANDLING AND INJECTION OF SIR-SPHERES for selective internal radiation therapy of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies The procedure must be performed by a specialist or consultant physician recognised in the specialties of nuclear medicine or radiation oncology on an admitted patient in a hospital. To be claimed once in the patient's lifetime only. (See para TN.3.1, TN.8.40 of explanatory notes to this Category)	
35404	Fee: \$357.45 Benefit: 75% = \$268.10	
	Trans-femoral catheterisation of the hepatic artery to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) (See para TN.3.1, TN.8.40 of explanatory notes to this Category)	
35406	Fee: \$838.70 Benefit: 75% = \$629.05	
	Catheterisation of the hepatic artery via a permanently implanted hepatic artery port to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) (See para TN.3.1, TN.8.40 of explanatory notes to this Category)	
35408	Fee: \$629.15 Benefit: 75% = \$471.90	
35410	UTERINE ARTERY CATHETERISATION with percutaneous administration of occlusive agents, for the treatment of symptomatic uterine fibroids in a patient who has been referred for uterine artery	

T8. SURGICAL OPERATIONS		3. VASCULAR
	embolisation by a specialist gynaecologist, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) (See para TN.8.34 of explanatory notes to this Category) Fee: \$838.70 Benefit: 75% = \$629.05 85% = \$754.00	
35412	Intracranial aneurysm, ruptured or unruptured, endovascular occlusion with detachable coils, and assisted coiling if performed, with parent artery preservation, not for use with liquid embolics only, including aftercare, including intra-operative imaging, but in association with the following pre-operative diagnostic imaging items: - either 60009 or 60010; and - either 60072, 60073, 60075, 60076, 60078 or 60079 (Anaes.) (Assist.) (See para TN.8.35 of explanatory notes to this Category) Fee: \$2,946.80 Benefit: 75% = \$2210.10 85% = \$2862.10	
35414	Mechanical thrombectomy, in a patient with a diagnosis of acute ischaemic stroke caused by occlusion of a large vessel of the anterior cerebral circulation, including intra-operative imaging and aftercare, if: (a) the diagnosis is confirmed by an appropriate imaging modality such as computed tomography, magnetic resonance imaging or angiography; and (b) the service is performed by a specialist or consultant physician with appropriate training that is recognised by the Conjoint Committee for Recognition of Training in Interventional Neuroradiology; and (c) the service is provided in an eligible stroke centre. For any particular patient - applicable once per presentation by the patient at an eligible stroke centre, regardless of the number of times mechanical thrombectomy is attempted during that presentation (Anaes.) (Assist.) (See para TR.8.1 of explanatory notes to this Category) Fee: \$3,609.35 Benefit: 75% = \$2707.05	
T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Group T8. Surgical Operations	
	Subgroup 4. Gynaecological	
35500	GYNAECOLOGICAL EXAMINATION UNDER ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$83.85 Benefit: 75% = \$62.90 85% = \$71.30	
35502	INTRAUTERINE DEVICE, INTRODUCTION OF, for the control of idiopathic menorrhagia, AND ENDOMETRIAL BIOPSY to exclude endometrial pathology, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$82.65 Benefit: 75% = \$62.00 85% = \$70.30	
35503	Intra uterine contraceptive device, introduction of, if the service is not associated with a service to which another item in this Group applies (other than a service mentioned in item 30062) (Anaes.) Fee: \$55.20 Benefit: 75% = \$41.40 85% = \$46.95	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35506	INTRAUTERINE CONTRACEPTIVE DEVICE, REMOVAL OF UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$55.35 Benefit: 75% = \$41.55 85% = \$47.05	
35507	VULVAL OR VAGINAL WARTS, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block) requiring admission to a hospital, where the time taken is less than or equal to 45 minutes - not being a service associated with a service to which item 32177 or 32180 applies (Anaes.) Fee: \$179.90 Benefit: 75% = \$134.95 85% = \$152.95	
35508	VULVAL OR VAGINAL WARTS, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block) requiring admission to a hospital, where the time taken is greater than 45 minutes - not being a service associated with a service to which item 32177 or 32180 applies (Anaes.) (Assist.) Fee: \$264.95 Benefit: 75% = \$198.75 85% = \$225.25	
35509	HYMENECTOMY (Anaes.) Fee: \$92.25 Benefit: 75% = \$69.20 85% = \$78.45	
35513	BARTHOLIN'S CYST, excision of (Anaes.) Fee: \$228.65 Benefit: 75% = \$171.50 85% = \$194.40	
35517	BARTHOLIN'S CYST OR GLAND, marsupialisation of (Anaes.) Fee: \$150.60 Benefit: 75% = \$112.95 85% = \$128.05	
35518	OVARIAN CYST ASPIRATION, for cysts of at least 4cm in diameter in a premenopausal person and at least 2cm in diameter in a postmenopausal person, by abdominal or vaginal route, using interventional imaging techniques and not associated with services provided for assisted reproductive techniques (Anaes.) (See para TN.4.11 of explanatory notes to this Category) Fee: \$214.35 Benefit: 75% = \$160.80 85% = \$182.20	
35520	BARTHOLIN'S ABSCESS, incision of (Anaes.) Fee: \$60.15 Benefit: 75% = \$45.15 85% = \$51.15	
35523	URETHRA OR URETHRAL CARUNCLE, cauterisation of (Anaes.) Fee: \$60.15 Benefit: 75% = \$45.15 85% = \$51.15	
35527	URETHRAL CARUNCLE, excision of (Anaes.) Fee: \$150.60 Benefit: 75% = \$112.95 85% = \$128.05	
35530	CLITORIS, amputation of, where medically indicated (Anaes.) (Assist.) Fee: \$278.25 Benefit: 75% = \$208.70	
35533	Vulvoplasty or labioplasty, for repair of: (a) female genital mutilation; or (b) an anomaly associated with a major congenital anomaly of the uro-gynaecological tract	

T8. SURGICAL OPERATIONS	4. GYNAECOLOGICAL
	<p>other than a service associated with a service to which item 35536, 37836, 37050, 37842, 37851 or 43882 applies (Anaes.)</p> <p>(See para TN.8.123 of explanatory notes to this Category)</p> <p>Fee: \$360.80 Benefit: 75% = \$270.60</p>
35534	<p>Vulvoplasty or labioplasty, in a patient aged 18 years or more, performed by a specialist in the practice of the specialist's specialty, for a structural abnormality that is causing significant functional impairment, if the patient's labium extends more than 8 cm below the vaginal introitus while the patient is in a standing resting position (Anaes.)</p> <p>(See para TN.8.123 of explanatory notes to this Category)</p> <p>Fee: \$360.80 Benefit: 75% = \$270.60</p>
35536	<p>VULVA, wide local excision of suspected malignancy or hemivulvectomy, 1 or both procedures (Anaes.) (Assist.)</p> <p>Fee: \$359.35 Benefit: 75% = \$269.55 85% = \$305.45</p>
35539	<p>COLPOSCOPICALLY DIRECTED CO² LASER THERAPY for previously confirmed intraepithelial neoplastic changes of the cervix, vagina, vulva, urethra or anal canal, including any associated biopsies 1 anatomical site (Anaes.)</p> <p>Fee: \$281.45 Benefit: 75% = \$211.10 85% = \$239.25</p>
35542	<p>COLPOSCOPICALLY DIRECTED CO² LASER THERAPY for previously confirmed intraepithelial neoplastic changes of the cervix, vagina, vulva, urethra or anal canal, including any associated biopsies 2 or more anatomical sites (Anaes.) (Assist.)</p> <p>Fee: \$329.55 Benefit: 75% = \$247.20 85% = \$280.15</p>
35545	<p>COLPOSCOPICALLY DIRECTED CO² LASER THERAPY for condylomata, unsuccessfully treated by other methods (Anaes.)</p> <p>Fee: \$189.35 Benefit: 75% = \$142.05 85% = \$160.95</p>
35548	<p>VULVECTOMY, radical, for malignancy (Anaes.) (Assist.)</p> <p>Fee: \$860.10 Benefit: 75% = \$645.10</p>
35551	<p>PELVIC LYMPH NODES, excision of (radical) (Anaes.) (Assist.)</p> <p>Fee: \$705.25 Benefit: 75% = \$528.95</p>
35554	<p>VAGINA, DILATATION OF, as an independent procedure including any associated consultation (Anaes.)</p> <p>Fee: \$44.85 Benefit: 75% = \$33.65 85% = \$38.15</p>
35557	<p>VAGINA, removal of simple tumour (including Gartner duct cyst) (Anaes.)</p> <p>Fee: \$221.20 Benefit: 75% = \$165.90 85% = \$188.05</p>
35560	<p>VAGINA, partial or complete removal of (Anaes.) (Assist.)</p> <p>Fee: \$705.25 Benefit: 75% = \$528.95</p>
35561	<p>VAGINECTOMY, radical, for proven invasive malignancy - 1 surgeon (Anaes.) (Assist.)</p> <p>Fee: \$1,422.55 Benefit: 75% = \$1066.95</p>
35562	<p>VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - abdominal surgeon</p>

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(including aftercare) (Anaes.) (Assist.) Fee: \$1,167.95 Benefit: 75% = \$876.00	
35564	VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - perineal surgeon (Assist.) Fee: \$539.15 Benefit: 75% = \$404.40	
35565	VAGINAL RECONSTRUCTION for congenital absence, gynatresia or urogenital sinus (Anaes.) (Assist.) Fee: \$705.25 Benefit: 75% = \$528.95	
35566	VAGINAL SEPTUM, excision of, for correction of double vagina (Anaes.) (Assist.) Fee: \$409.65 Benefit: 75% = \$307.25	
35568	SACROSPINOUS COLPOPEXY FOR MANAGEMENT OF UPPER VAGINAL PROLAPSE (Anaes.) (Assist.) Fee: \$644.10 Benefit: 75% = \$483.10	
35569	PLASTIC REPAIR TO ENLARGE VAGINAL ORIFICE (Anaes.) Fee: \$165.85 Benefit: 75% = \$124.40	
35570	Anterior vaginal compartment repair by vaginal approach for pelvic organ prolapse (involving repair of urethrocele and cystocele), using native tissue without graft, other than a service associated with a service to which item 35573, 35577 or 35578 applies. (Anaes.) (Assist.) Fee: \$571.15 Benefit: 75% = \$428.40	
35571	Posterior vaginal compartment repair by vaginal approach for pelvic organ prolapse involving repair of one or more of the following: (a) perineum; (b) rectocele; (c) enterocele; using native tissue without graft, other than a service associated with a service to which item 35573, 35577 or 35578 applies. (Anaes.) (Assist.) Fee: \$571.15 Benefit: 75% = \$428.40	
35572	COLPOTOMY not being a service to which another item in this Group applies (Anaes.) Fee: \$127.70 Benefit: 75% = \$95.80	
35573	Anterior and posterior vaginal compartment repair by vaginal approach for pelvic organ prolapse (involving anterior and posterior compartment defects), using native tissue without graft, other than a service associated with a service to which item 35577 or 35578 applies. (Anaes.) (Assist.) Fee: \$856.85 Benefit: 75% = \$642.65	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35577	<p>Manchester (Donald Fothergill) operation for pelvic organ prolapse (includes cervical amputation, anterior and posterior native tissue vaginal wall repairs without graft).</p> <p>(Anaes.) (Assist.)</p> <p>Fee: \$695.60 Benefit: 75% = \$521.70</p>	
35578	<p>LE FORT OPERATION for genital prolapse, not being a service associated with a service to which another item in this Subgroup applies (Anaes.) (Assist.)</p> <p>Fee: \$695.60 Benefit: 75% = \$521.70</p>	
35581	<p>Vaginal procedure for excision of graft material in symptomatic patients with graft related complications, including graft related pain or discharge and bleeding related to graft exposure, less than 2cm² in its maximum area, either singly or in multiple pieces, other than a service associated with a service to which item 35582 or 35585 applies.</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.140 of explanatory notes to this Category)</p> <p>Fee: \$571.15 Benefit: 75% = \$428.40</p>	
35582	<p>Vaginal procedure for excision of graft material in symptomatic patients with graft related complications, including graft related pain or discharge and bleeding related to graft exposure, more than 2cm² in its maximum area, either singly or in multiple pieces, other than a service associated with a service to which item 35581 or 35585 applies.</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.140 of explanatory notes to this Category)</p> <p>Fee: \$856.85 Benefit: 75% = \$642.65</p>	
35585	<p>Abdominal procedure either open, laparoscopic or robotic, for removal of graft material in patients symptomatic with graft related complications, including graft related pain or discharge and bleeding related to graft exposure or where the graft has penetrated adjacent organs such as the bladder (including urethra) or bowel, including retroperitoneal dissection and mobilisation of bladder and/or bowel, other than a service associated with a service to which item 35581 or 35582 applies.</p> <p>(Anaes.) (Assist.)</p> <p>Fee: \$1,519.20 Benefit: 75% = \$1139.40</p>	
35595	<p>LAPAROSCOPIC OR ABDOMINAL PELVIC FLOOR REPAIR INCORPORATING THE FIXATION OF THE UTEROSACRAL AND CARDINAL LIGAMENTS TO RECTOVAGINAL AND PUBOCERVICAL FASCIA for symptomatic upper vaginal vault prolapse (Anaes.) (Assist.)</p> <p>Fee: \$1,191.10 Benefit: 75% = \$893.35</p>	
35596	<p>FISTULA BETWEEN GENITAL AND URINARY OR ALIMENTARY TRACTS, repair of, not being a service to which item 37029, 37333 or 37336 applies (Anaes.) (Assist.)</p> <p>Fee: \$705.25 Benefit: 75% = \$528.95</p>	
35597	<p>SACRAL COLPOPEXY, laparoscopic or open procedure where graft or mesh secured to vault, anterior and posterior compartment and to sacrum for correction of symptomatic upper vaginal vault prolapse</p>	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(Anaes.) (Assist.) Fee: \$1,519.20 Benefit: 75% = \$1139.40	
35599	STRESS INCONTINENCE, sling operation for, with or without mesh or tape, not being a service associated with a service to which item 30405 applies (Anaes.) (Assist.) Fee: \$695.60 Benefit: 75% = \$521.70	
35602	STRESS INCONTINENCE, combined synchronous ABDOMINOVAGINAL operation for; abdominal procedure, with or without mesh, (including aftercare), not being a service associated with a service to which item 30405 applies (Anaes.) (Assist.) Fee: \$695.60 Benefit: 75% = \$521.70	
35605	STRESS INCONTINENCE, combined synchronous ABDOMINOVAGINAL operation for; vaginal procedure, with or without mesh, (including aftercare), not being a service associated with a service to which item 30405 applies (Assist.) Fee: \$377.40 Benefit: 75% = \$283.05 85% = \$320.80	
35608	CERVIX, cauterisation (other than by chemical means), ionisation, diathermy or biopsy of, with or without dilatation of cervix (Anaes.) Fee: \$65.95 Benefit: 75% = \$49.50 85% = \$56.10	
35611	CERVIX, removal of polyp or polypi, with or without dilatation of cervix, not being a service associated with a service to which item 35608 applies (Anaes.) Fee: \$65.95 Benefit: 75% = \$49.50 85% = \$56.10	
35612	CERVIX, RESIDUAL STUMP, removal of, by abdominal approach (Anaes.) (Assist.) Fee: \$521.80 Benefit: 75% = \$391.35 85% = \$443.55	
35613	CERVIX, RESIDUAL STUMP, removal of, by vaginal approach (Anaes.) (Assist.) Fee: \$417.45 Benefit: 75% = \$313.10	
35614	EXAMINATION OF LOWER TRACT by a Hinselmann type colposcope in a patient with a previous abnormal cervical smear screen result or a history of maternal ingestion of oestrogen or where a patient, because of suspicious signs of cancer, has been referred by another medical practitioner (Anaes.) (See para TN.8.42 of explanatory notes to this Category) Fee: \$65.85 Benefit: 75% = \$49.40 85% = \$56.00	
35615	VULVA, biopsy of, when performed in conjunction with a service to which item 35614 applies Fee: \$55.35 Benefit: 75% = \$41.55 85% = \$47.05	
35616	ENDOMETRIUM, endoscopic examination of and ablation of, by microwave or thermal balloon or radiofrequency electrosurgery, for chronic refractory menorrhagia including any hysteroscopy performed on the same day, with or without uterine curettage (Anaes.) Fee: \$463.65 Benefit: 75% = \$347.75	
35618	CERVIX, cone biopsy, amputation or repair of, other than a service to which item 35577 or 35578 applies (Anaes.) Fee: \$224.80 Benefit: 75% = \$168.60 85% = \$191.10	
35620	ENDOMETRIAL BIOPSY where malignancy is suspected in patients with abnormal uterine bleeding or	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	post menopausal bleeding (Anaes.) Fee: \$55.00 Benefit: 75% = \$41.25 85% = \$46.75	
35622	ENDOMETRIUM, endoscopic ablation of, by laser or diathermy, for chronic refractory menorrhagia including any hysteroscopy performed on the same day, with or without uterine curettage, not being a service associated with a service to which item 30390 applies (Anaes.) Fee: \$621.30 Benefit: 75% = \$466.00	
35623	HYSTEROSCOPIC RESECTION of myoma, or myoma and uterine septum resection (where both are performed), followed by endometrial ablation by laser or diathermy (Anaes.) Fee: \$844.85 Benefit: 75% = \$633.65	
35626	HYSTEROSCOPY, including biopsy, performed by a specialist in the practice of his or her specialty where the patient is referred to him or her for the investigation of suspected intrauterine pathology (with or without local anaesthetic), not being a service associated with a service to which item 35627 or 35630 applies (See para TN.8.43 of explanatory notes to this Category) Fee: \$85.35 Benefit: 75% = \$64.05 85% = \$72.55	
35627	HYSTEROSCOPY with dilatation of the cervix performed in the operating theatre of a hospital - not being a service associated with a service to which item 35626 or 35630 applies (Anaes.) Fee: \$110.50 Benefit: 75% = \$82.90	
35630	HYSTEROSCOPY, with endometrial biopsy, performed in the operating theatre of a hospital - not being a service associated with a service to which item 35626 or 35627 applies (Anaes.) Fee: \$188.75 Benefit: 75% = \$141.60	
35633	HYSTEROSCOPY with uterine adhesiolysis or polypectomy or tubal catheterisation (including for insertion of device for sterilisation) or removal of IUD which cannot be removed by other means, 1 or more of (Anaes.) Fee: \$224.80 Benefit: 75% = \$168.60 85% = \$191.10	
35634	HYSTEROSCOPIC RESECTION of uterine septum followed by endometrial ablation by laser or diathermy (Anaes.) Fee: \$707.10 Benefit: 75% = \$530.35 85% = \$622.40	
35635	HYSTEROSCOPY involving resection of the uterine septum (Anaes.) Fee: \$308.80 Benefit: 75% = \$231.60	
35636	HYSTEROSCOPY, involving resection of myoma, or resection of myoma and uterine septum (where both are performed) (Anaes.) Fee: \$446.55 Benefit: 75% = \$334.95	
35637	LAPAROSCOPY, involving puncture of cysts, diathermy of endometriosis, ventrosuspension, division of adhesions or similar procedure - 1 or more procedures with or without biopsy - not being a service associated with any other laparoscopic procedure or hysterectomy (Anaes.) (Assist.) (See para TN.1.4 of explanatory notes to this Category) Fee: \$419.35 Benefit: 75% = \$314.55	
35638	COMPLICATED OPERATIVE LAPAROSCOPY, including use of laser when required, for 1 or more of the following procedures; oophorectomy, ovarian cystectomy, myomectomy, salpingectomy or	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	salpingostomy, ablation of moderate or severe endometriosis requiring more than 1 hours operating time, or division of utero-sacral ligaments for significant dysmenorrhoea - not being a service associated with any other intraperitoneal or retroperitoneal procedure except item 30393 (Anaes.) (Assist.)	
	Fee: \$733.75 Benefit: 75% = \$550.35	
35640	UTERUS, CURETTAGE OF, with or without dilatation (including curettage for incomplete miscarriage) under general anaesthesia, or under epidural or spinal (intrathecal) nerve block, including procedures to which item 35626, 35627 or 35630 applies, if performed (Anaes.) (See para TN.8.44 of explanatory notes to this Category)	
	Fee: \$188.75 Benefit: 75% = \$141.60	
35641	ENDOMETRIOSIS LEVEL 4 OR 5, LAPAROSCOPIC RESECTION OF, involving any two of the following procedures, resection of the pelvic side wall including dissection of endometriosis or scar tissue from the ureter, resection of the Pouch of Douglas, resection of an ovarian endometrioma greater than 2 cms in diameter, dissection of bowel from uterus from the level of the endocervical junction or above: where the operating time exceeds 90 minutes (Anaes.) (Assist.)	
	Fee: \$1,281.50 Benefit: 75% = \$961.15	
35643	EVACUATION OF THE CONTENTS OF THE GRAVID UTERUS BY CURETTAGE OR SUCTION CURETTAGE other than a service to which item 35640 applies, including procedures to which item 35626, 35627 or 35630 applies, if performed (Anaes.)	
	Fee: \$224.80 Benefit: 75% = \$168.60 85% = \$191.10	
35644	CERVIX, electrocoagulation diathermy with colposcopy, for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, other than a service associated with a service to which item 35640 or 35647 applies (Anaes.) (See para TN.8.45 of explanatory notes to this Category)	
	Fee: \$210.00 Benefit: 75% = \$157.50 85% = \$178.50	
35645	CERVIX, electrocoagulation diathermy with colposcopy, for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, in conjunction with ablative therapy of additional areas of intraepithelial change in 1 or more sites of vagina, vulva, urethra or anus, not being a service associated with a service to which item 35648 applies (Anaes.) (See para TN.8.45 of explanatory notes to this Category)	
	Fee: \$328.65 Benefit: 75% = \$246.50 85% = \$279.40	
35646	CERVIX, colposcopy with radical diathermy of, with or without cervical biopsy, for previously confirmed intraepithelial neoplastic changes of the cervix (Anaes.) (See para TN.8.45 of explanatory notes to this Category)	
	Fee: \$210.00 Benefit: 75% = \$157.50 85% = \$178.50	
35647	CERVIX, large loop excision of transformation zone together with colposcopy for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, not being a service associated with a service to which item 35644 applies (Anaes.) (See para TN.8.45 of explanatory notes to this Category)	
	Fee: \$210.00 Benefit: 75% = \$157.50 85% = \$178.50	
35648	CERVIX, large loop excision diathermy for previously confirmed intraepithelial neoplastic changes of the cervix, including any local anaesthesia and biopsies, in conjunction with ablative treatment of additional areas of intraepithelial change of 1 or more sites of vagina, vulva, urethra or anus, not being a service associated with a service to which item 35645 applies (Anaes.)	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(See para TN.8.45 of explanatory notes to this Category) Fee: \$328.65 Benefit: 75% = \$246.50 85% = \$279.40	
35649	HYSTEROTOMY or UTERINE MYOMECTOMY, abdominal (Anaes.) (Assist.) Fee: \$552.75 Benefit: 75% = \$414.60	
35653	HYSTERECTOMY, ABDOMINAL, SUBTOTAL or TOTAL, with or without removal of uterine adnexae (Anaes.) (Assist.) Fee: \$695.80 Benefit: 75% = \$521.85	
35657	HYSTERECTOMY, VAGINAL, with or without uterine curettage, not being a service to which item 35673 applies <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim.</i> (Anaes.) (Assist.) (See para TN.8.46 of explanatory notes to this Category) Fee: \$695.80 Benefit: 75% = \$521.85	
35658	UTERUS (at least equivalent in size to a 10 week gravid uterus), debulking of, prior to vaginal removal at hysterectomy (Anaes.) (Assist.) (See para TN.8.47 of explanatory notes to this Category) Fee: \$429.05 Benefit: 75% = \$321.80	
35661	HYSTERECTOMY, ABDOMINAL, requiring extensive retroperitoneal dissection, with or without exposure of 1 or both ureters, for the management of severe endometriosis, pelvic inflammatory disease or benign pelvic tumours, with or without conservation of the ovaries (Anaes.) (Assist.) Fee: \$898.55 Benefit: 75% = \$673.95	
35664	RADICAL HYSTERECTOMY with radical excision of pelvic lymph nodes (with or without excision of uterine adnexae) for proven malignancy including excision of any 1 or more of parametrium, paracolpos, upper vagina or contiguous pelvic peritoneum and involving ureterolysis where performed (Anaes.) (Assist.) Fee: \$1,497.60 Benefit: 75% = \$1123.20	
35667	RADICAL HYSTERECTOMY without gland dissection (with or without excision of uterine adnexae) for proven malignancy including excision of any 1 or more of parametrium, paracolpos, upper vagina or contiguous pelvic peritoneum and involving ureterolysis where performed (Anaes.) (Assist.) Fee: \$1,272.80 Benefit: 75% = \$954.60	
35670	HYSTERECTOMY, abdominal, with radical excision of pelvic lymph nodes, with or without removal of uterine adnexae (Anaes.) (Assist.) Fee: \$1,048.05 Benefit: 75% = \$786.05	
35673	HYSTERECTOMY, VAGINAL (with or without uterine curettage) with salpingectomy, oophorectomy or excision of ovarian cyst, 1 or more, 1 or both sides (Anaes.) (Assist.) Fee: \$781.45 Benefit: 75% = \$586.10	
35674	ULTRASOUND GUIDED NEEDLING and injection of ectopic pregnancy (See para TN.4.11 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Fee: \$214.35 Benefit: 75% = \$160.80 85% = \$182.20	
35677	ECTOPIC PREGNANCY, removal of (Anaes.) (Assist.) Fee: \$552.75 Benefit: 75% = \$414.60	
35678	ECTOPIC PREGNANCY, laparoscopic removal of (Anaes.) (Assist.) Fee: \$666.45 Benefit: 75% = \$499.85	
35680	BICORNUATE UTERUS, plastic reconstruction for (Anaes.) (Assist.) Fee: \$600.20 Benefit: 75% = \$450.15 85% = \$515.50	
35684	UTERUS, SUSPENSION OR FIXATION OF, as an independent procedure (Anaes.) (Assist.) Fee: \$485.90 Benefit: 75% = \$364.45	
35688	STERILISATION BY TRANSECTION OR RESECTION OF FALLOPIAN TUBES, via abdominal or vaginal routes or via laparoscopy using diathermy or any other method <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</i> (See para TN.8.46 of explanatory notes to this Category) Fee: \$409.65 Benefit: 75% = \$307.25	
35691	STERILISATION BY INTERRUPTION OF FALLOPIAN TUBES, when performed in conjunction with Caesarean section <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</i> (See para TN.8.46 of explanatory notes to this Category) Fee: \$163.65 Benefit: 75% = \$122.75	
35694	TUBOPLASTY (salpingostomy, salpingolysis or tubal implantation into uterus), UNILATERAL or BILATERAL, 1 or more procedures (Anaes.) (Assist.) Fee: \$657.60 Benefit: 75% = \$493.20	
35697	MICROSURGICAL TUBOPLASTY (salpingostomy, salpingolysis or tubal implantation into uterus), UNILATERAL or BILATERAL, 1 or more procedures (Anaes.) (Assist.) Fee: \$975.75 Benefit: 75% = \$731.85	
35700	FALLOPIAN TUBES, unilateral microsurgical anastomosis of, using operating microscope (Anaes.) (Assist.) Fee: \$752.90 Benefit: 75% = \$564.70	
35703	HYDROTUBATION OF FALLOPIAN TUBES as a nonrepetitive procedure not being a service associated with a service to which another item in this Sub-group applies (Anaes.) Fee: \$69.65 Benefit: 75% = \$52.25 85% = \$59.25	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	RUBIN TEST FOR PATENCY OF FALLOPIAN TUBES (Anaes.)	
35706	Fee: \$69.65	Benefit: 75% = \$52.25 85% = \$59.25
	FALLOPIAN TUBES, hydrotubation of, as a repetitive postoperative procedure (Anaes.)	
35709	Fee: \$44.85	Benefit: 75% = \$33.65 85% = \$38.15
	FALLOPOSCOPY, unilateral or bilateral, including hysteroscopy and tubal catheterization (Anaes.) (Assist.)	
35710	Fee: \$477.75	Benefit: 75% = \$358.35
	LAPAROTOMY, involving OOPHORECTOMY, SALPINGECTOMY, SALPINGO-OOPHORECTOMY, removal of OVARIAN, PARAOVARIAN, FIMBRIAL or BROAD LIGAMENT CYST - one such procedure, other than a service associated with hysterectomy (Anaes.) (Assist.)	
35713	Fee: \$467.00	Benefit: 75% = \$350.25
	LAPAROTOMY, involving OOPHORECTOMY, SALPINGECTOMY, SALPINGO-OOPHORECTOMY, removal of OVARIAN, PARAOVARIAN, FIMBRIAL or BROAD LIGAMENT CYST - 2 or more such procedures, unilateral or bilateral, other than a service associated with hysterectomy (Anaes.) (Assist.)	
35717	Fee: \$562.30	Benefit: 75% = \$421.75
	RADICAL OR DEBULKING OPERATION for advanced gynaecological malignancy, with or without omentectomy (Anaes.) (Assist.)	
35720	(See para TN.8.57 of explanatory notes to this Category) Fee: \$695.60 Benefit: 75% = \$521.70	
	RETROPERITONEAL LYMPH NODE BIOPSIES from above the level of the aortic bifurcation, for staging or restaging of gynaecological malignancy (Anaes.) (Assist.)	
35723	Fee: \$498.20	Benefit: 75% = \$373.65
	INFRACOLIC OMENTECTOMY with multiple peritoneal biopsies for staging or restaging of gynaecological malignancy (Anaes.) (Assist.)	
35726	Fee: \$498.20	Benefit: 75% = \$373.65
	OVARIAN TRANSPOSITION out of the pelvis, in conjunction with radical hysterectomy for invasive malignancy (Anaes.)	
35729	Fee: \$224.60	Benefit: 75% = \$168.45
	Ovarian repositioning for one or both ovaries to preserve ovarian function, prior to gonadotoxic radiotherapy when the treatment volume and dose of radiation have a high probability of causing infertility (Anaes.)	
35730	Fee: \$224.60	Benefit: 75% = \$168.45
	LAPAROSCOPICALLY ASSISTED HYSTERECTOMY, including any associated laparoscopy (Anaes.) (Assist.)	
35750	Fee: \$809.10	Benefit: 75% = \$606.85
	LAPAROSCOPICALLY ASSISTED HYSTERECTOMY with one or more of the following procedures: salpingectomy, oophorectomy, excision of ovarian cyst or treatment of moderate endometriosis, one or both sides, including any associated laparoscopy (Anaes.) (Assist.)	
35753		

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Fee: \$894.70 Benefit: 75% = \$671.05	
35754	LAPAROSCOPICALLY ASSISTED HYSTERECTOMY which requires dissection of endometriosis, or other pathology, from the ureter, one or both sides, including any associated laparoscopy, including when performed with one or more of the following procedures: salpingectomy, oophorectomy, excision of ovarian cyst, or treatment of endometriosis, not being a service to which item 35641 applies (Anaes.) (Assist.) Fee: \$1,126.00 Benefit: 75% = \$844.50	
35756	LAPAROSCOPICALLY ASSISTED HYSTERECTOMY, when procedure is completed by open hysterectomy, including any associated laparoscopy (Anaes.) (Assist.) Fee: \$809.10 Benefit: 75% = \$606.85	
35759	Procedure for the control of POST OPERATIVE HAEMORRHAGE following gynaecological surgery, under general anaesthesia, utilising a vaginal or abdominal and vaginal approach where no other procedure is performed (Anaes.) (Assist.) Fee: \$580.90 Benefit: 75% = \$435.70	
T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Group T8. Surgical Operations	
	Subgroup 5. Urological	
37226 S	Prostate or prostatic bed, needle biopsy of, using prostatic magnetic resonance imaging techniques and obtaining 1 or more prostatic specimens. (Anaes.) (Anaes.) (See para TN.8.2 of explanatory notes to this Category) Fee: \$289.65 Benefit: 75% = \$217.25 85% = \$246.25	
	GENERAL	
36502	PELVIC LYMPHADENECTOMY, open or laparoscopic, or both, unilateral or bilateral (Anaes.) (Assist.) Fee: \$705.25 Benefit: 75% = \$528.95	
36503	RENAL TRANSPLANT (not being a service to which item 36506 or 36509 applies) (Anaes.) (Assist.) Fee: \$1,434.60 Benefit: 75% = \$1075.95	
36506	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together vascular anastomosis including aftercare (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36509	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together ureterovesical anastomosis including aftercare (Assist.) Fee: \$807.45 Benefit: 75% = \$605.60	
36516	NEPHRECTOMY, complete (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36519	NEPHRECTOMY, complete, complicated by previous surgery on the same kidney (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60	
36522	NEPHRECTOMY, partial (Anaes.) (Assist.) Fee: \$1,142.60 Benefit: 75% = \$856.95	
36525	NEPHRECTOMY, partial, complicated by previous surgery on the same kidney (Anaes.) (Assist.) Fee: \$1,623.65 Benefit: 75% = \$1217.75	
36526	NEPHRECTOMY, radical with en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour less than 10cms in diameter, where performed if malignancy is clinically suspected but not confirmed by histopathological examination (Anaes.) (Assist.) (See para TN.8.48 of explanatory notes to this Category) Fee: \$1,331.45 Benefit: 75% = \$998.60 85% = \$1246.75	
36527	NEPHRECTOMY, radical with en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour 10cms or more in diameter, or complicated by previous open or laparoscopic surgery on the same kidney, where performed if malignancy is clinically suspected but not confirmed by histopathological examination (Anaes.) (Assist.) (See para TN.8.48 of explanatory notes to this Category) Fee: \$1,643.20 Benefit: 75% = \$1232.40 85% = \$1558.50	
36528	NEPHRECTOMY, radical with en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour less than 10 cms in diameter (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60	
36529	NEPHRECTOMY, radical with en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour 10 cms or more in diameter, or complicated by previous open or laparoscopic surgery on the same kidney (Anaes.) (Assist.) Fee: \$1,643.20 Benefit: 75% = \$1232.40	
36531	NEPHROURETERECTOMY, complete, including associated bladder repair and any associated endoscopic procedures (Anaes.) (Assist.) Fee: \$1,194.05 Benefit: 75% = \$895.55	
36532	NEPHRO-URETERECTOMY, for tumour, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic procedures (Anaes.) (Assist.) Fee: \$1,713.80 Benefit: 75% = \$1285.35	
36533	NEPHRO-URETERECTOMY, for tumour, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic procedures, complicated by previous open or laparoscopic surgery on the same kidney or ureter (Anaes.) (Assist.) Fee: \$2,025.55 Benefit: 75% = \$1519.20	
36537	KIDNEY OR PERINEPHRIC AREA, EXPLORATION OF, with or without drainage of, by open exposure, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$713.00 Benefit: 75% = \$534.75	
36540	NEPHROLITHOTOMY OR PYELOLITHOTOMY, or both, through the same skin incision, for 1 or 2 stones (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$1,142.60 Benefit: 75% = \$856.95 85% = \$1057.90	
36543	NEPHROLITHOTOMY OR PYEOLITHOTOMY, or both, extended, for staghorn stone or 3 or more stones, including 1 or more of the following: nephrostomy, pyelostomy, pedicle control with or without freezing, calyorrhaphy or pyeloplasty (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60 85% = \$1246.75	
36546	EXTRACORPOREAL SHOCK WAVE LITHOTRIPSY (ESWL) to urinary tract and posttreatment care for 3 days, including pretreatment consultation, unilateral (Anaes.) Fee: \$713.00 Benefit: 75% = \$534.75 85% = \$628.30	
36549	URETEROLITHOTOMY (Anaes.) (Assist.) Fee: \$859.15 Benefit: 75% = \$644.40	
36552	NEPHROSTOMY or pyelostomy, open, as an independent procedure (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
36558	RENAL CYST OR CYSTS, excision or unroofing of (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60 85% = \$585.40	
36561	RENAL BIOPSY (closed) (Anaes.) Fee: \$177.90 Benefit: 75% = \$133.45 85% = \$151.25	
36564	PYELOPLASTY, (plastic reconstruction of the pelvi-ureteric junction) by open exposure, laparoscopy or laparoscopic assisted techniques (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36567	PYELOPLASTY in a kidney that is congenitally abnormal in addition to the presence of PUJ obstruction, or in a solitary kidney, by open exposure (Anaes.) (Assist.) Fee: \$1,048.05 Benefit: 75% = \$786.05	
36570	PYELOPLASTY, complicated by previous surgery on the same kidney, by open exposure (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60	
36573	DIVIDED URETER, repair of (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36576	KIDNEY, exposure and exploration of, including repair or nephrectomy, for trauma, not being a service associated with any other procedure performed on the kidney, renal pelvis or renal pedicle (Anaes.) (Assist.) Fee: \$1,194.05 Benefit: 75% = \$895.55	
36579	URETERECTOMY, COMPLETE OR PARTIAL, with or without associated bladder repair, not being a service associated with a service to which item 37000 applies (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
36585	URETER, transplantation of, into skin (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36588	URETER, reimplantation into bladder (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36591	URETER, reimplantation into bladder with psoas hitch or Boari flap or both (Anaes.) (Assist.) Fee: \$1,142.60 Benefit: 75% = \$856.95	
36594	URETER, transplantation of, into intestine (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36597	URETER, transplantation of, into another ureter (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
36600	URETER, transplantation of, into isolated intestinal segment, unilateral (Anaes.) (Assist.) Fee: \$1,142.60 Benefit: 75% = \$856.95 85% = \$1057.90	
36603	URETERS, transplantation of, into isolated intestinal segment, bilateral (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60	
36604	URETERIC STENT, passage of through percutaneous nephrostomy tube, using interventional imaging techniques (Anaes.) Fee: \$276.05 Benefit: 75% = \$207.05 85% = \$234.65	
36605	URETERIC STENT, insertion of, with removal of calculus from: (a) the pelvicalyceal system; or (b) ureter; or (c) the pelvicalyceal system and ureter; through a nephrostomy tube using interventional imaging techniques (Anaes.) Fee: \$712.30 Benefit: 75% = \$534.25	
36606	INTESTINAL URINARY RESERVOIR, continent, formation of, including formation of nonreturn valves and implantation of ureters (1 or both) into reservoir (Anaes.) (Assist.) Fee: \$2,388.15 Benefit: 75% = \$1791.15	
36607	URETERIC STENT insertion of, with balloon dilatation of: (a) the pelvicalyceal system; or (b) ureter; or (c) the pelvicalyceal system and ureter; through a nephrostomy tube using interventional imaging techniques (Anaes.) Fee: \$712.30 Benefit: 75% = \$534.25	
36608	URETERIC STENT, exchange of, percutaneously through either the ileal conduit or bladder, using interventional imaging techniques, not being a service associated with a service to which items 36811 to 36854 apply (Anaes.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$276.05 Benefit: 75% = \$207.05	
36609	INTESTINAL URINARY CONDUIT OR URETEROSTOMY, revision of (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
36612	URETER, exploration of, with or without drainage of, as an independent procedure (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
36615	URETEROLYSIS, with or without repositioning of the ureter, for obstruction of the ureter, evident either radiologically or by proximal ureteric dilatation at operation, secondary to retroperitoneal fibrosis, or similar condition (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
36618	REDUCTION URETEROPLASTY (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
36621	CLOSURE OF CUTANEOUS URETEROSTOMY (Anaes.) (Assist.) Fee: \$479.05 Benefit: 75% = \$359.30	
36624	NEPHROSTOMY, percutaneous, using interventional imaging techniques (Anaes.) (Assist.) Fee: \$575.55 Benefit: 75% = \$431.70 85% = \$490.85	
36627	NEPHROSCOPY, percutaneous, with or without any 1 or more of; stone extraction, biopsy or diathermy, not being a service to which item 36639, 36642, 36645 or 36648 applies (Anaes.) Fee: \$713.00 Benefit: 75% = \$534.75	
36630	NEPHROSCOPY, BEING A SERVICE TO WHICH ITEM 36627 APPLIES, WHERE, after a substantial portion of the procedure has been performed, IT IS NECESSARY TO DISCONTINUE THE OPERATION DUE TO BLEEDING (Anaes.) (Assist.) Fee: \$352.15 Benefit: 75% = \$264.15	
36633	NEPHROSCOPY, percutaneous, with incision of any 1 or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, not being a service associated with a service to which item 36627, 36639, 36642, 36645 or 36648 applies (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50 85% = \$679.95	
36636	NEPHROSCOPY, percutaneous, with incision of any 1 or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, being a service associated with a service to which item 36627, 36639, 36642, 36645 or 36648 applies (Anaes.) (Assist.) Fee: \$412.40 Benefit: 75% = \$309.30	
36639	NEPHROSCOPY, percutaneous, with destruction and extraction of 1 or 2 stones using ultrasound or electrohydraulic shock waves or lasers (not being a service to which item 36645 or 36648 applies) (Anaes.) Fee: \$859.15 Benefit: 75% = \$644.40	
36642	NEPHROSCOPY, BEING A SERVICE TO WHICH ITEM 36639 APPLIES, WHERE, after a substantial portion of the procedure has been performed, IT IS NECESSARY TO DISCONTINUE THE OPERATION DUE TO BLEEDING (Anaes.) (Assist.) Fee: \$429.45 Benefit: 75% = \$322.10	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36645	NEPHROSCOPY, percutaneous, with removal or destruction of a stone greater than 3 cm in any dimension, or for 3 or more stones (Anaes.) (Assist.) Fee: \$1,099.60 Benefit: 75% = \$824.70	
36648	NEPHROSCOPY, being a service to which item 36645 applies, WHERE, after a substantial portion of the procedure has been performed, IT IS NECESSARY TO DISCONTINUE THE OPERATION (Anaes.) (Assist.) Fee: \$979.25 Benefit: 75% = \$734.45	
36649	NEPHROSTOMY DRAINAGE TUBE, exchange of - but not including imaging (Anaes.) (Assist.) Fee: \$276.05 Benefit: 75% = \$207.05 85% = \$234.65	
36650	NEPHROSTOMY TUBE, removal of, if the ureter has been stented with a double J ureteric stent and that stent is left in place, using interventional imaging techniques (Anaes.) Fee: \$154.40 Benefit: 75% = \$115.80	
36652	PYELOSCOPY, retrograde, of one collecting system, with or without any one or more of, cystoscopy, ureteric meatotomy, ureteric dilatation, not being a service associated with a service to which item 36803, 36812 or 36824 applies (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
36654	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus 1 or more of extraction of stone from the renal pelvis or calyces, or biopsy or diathermy of the renal pelvis or calyces, not being a service associated with a service to which item 36656 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) Fee: \$859.15 Benefit: 75% = \$644.40	
36656	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus extraction of 2 or more stones in the renal pelvis or calyces or destruction of stone with ultrasound, electrohydraulic or kinetic lithotripsy, or laser in the renal pelvis or calyces, with or without extraction of fragments, not being a service associated with a service to which item 36654 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) Fee: \$1,099.60 Benefit: 75% = \$824.70	
OPERATIONS ON BLADDER		
36504	RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with biopsy of bladder, not being a service associated with a service to which item 36505, 36507, 36508, 36812, 36830, 36836, 36840, 36845, 36848, 36854, 37203, 37206, 37215, 37230 or 37233 applies. (Anaes.) (See para TN.8.2 of explanatory notes to this Category) Fee: \$304.05 Benefit: 75% = \$228.05 85% = \$258.45	
36505	RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with urethroscopy with or without urethral dilatation, not being a service associated with any other urological endoscopic procedure on the lower urinary tract except a service to which item 37327 applies.	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	<p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$238.95 Benefit: 75% = \$179.25 85% = \$203.15</p>	
36507	<p>RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with resection, diathermy or visual laser destruction of bladder tumour or other lesion of the bladder, not being a service to which item 36840 or 36845 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$400.30 Benefit: 75% = \$300.25 85% = \$340.30</p>	
36508	<p>RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with diathermy, resection or visual laser destruction of multiple tumours in more than 2 quadrants of the bladder or solitary tumour greater than 2cm in diameter, not being a service to which item 36845 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$780.05 Benefit: 75% = \$585.05 85% = \$695.35</p>	
36663	<p>Both:</p> <p>(a) percutaneous placement of sacral nerve lead or leads using fluoroscopic guidance, or open placement of sacral nerve lead or leads; and</p> <p>(b) intra-operative test stimulation, to manage:</p> <p style="padding-left: 40px;">(i) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p style="padding-left: 40px;">(ii) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p>(Anaes.)</p> <p>Fee: \$681.60 Benefit: 75% = \$511.20 85% = \$596.90</p>	
36664	<p>Both:</p> <p>(a) percutaneous repositioning of sacral nerve lead or leads using fluoroscopic guidance, or open repositioning of sacral nerve lead or leads; and</p> <p>(b) intra-operative test stimulation, to correct displacement or unsatisfactory positioning, if inserted for the management of:</p> <p style="padding-left: 40px;">(i) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p style="padding-left: 40px;">(ii) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p style="padding-left: 40px;">—other than a service to which item 36663 applies (Anaes.)</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$612.10 Benefit: 75% = \$459.10 85% = \$527.40	
36665	Sacral nerve electrode or electrodes, management and adjustment of the pulse generator by a medical practitioner, to manage detrusor overactivity or non obstructive urinary retention - each day Fee: \$129.30 Benefit: 75% = \$97.00 85% = \$109.95	
36666	Pulse generator, subcutaneous placement of, and placement and connection of extension wire or wires to sacral nerve electrode or electrodes, for the management of: (a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or (b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment (Anaes.) Fee: \$344.45 Benefit: 75% = \$258.35 85% = \$292.80	
36667	Sacral nerve lead or leads, removal of, if the lead was inserted to manage: (a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or (b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment (Anaes.) Fee: \$161.20 Benefit: 75% = \$120.90 85% = \$137.05	
36668	Pulse generator, removal of, if the pulse generator was inserted to manage: (a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or (b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment (Anaes.) Fee: \$161.20 Benefit: 75% = \$120.90 85% = \$137.05	
36671	Percutaneous tibial nerve stimulation, initial treatment protocol, for the treatment of overactive bladder, by a specialist urologist, gynaecologist or urogynaecologist, if: (a) the patient has been diagnosed with idiopathic overactive bladder; and (b) the patient has been refractory to, is contraindicated or otherwise not suitable for conservative treatments (including anti-cholinergic agents); and (c) the patient is contraindicated or otherwise not a suitable candidate for botulinum toxin type A therapy; and (d) the patient is contraindicated or otherwise not a suitable candidate for sacral nerve stimulation; and (e) the patient is willing and able to comply with the treatment protocol; and Fee: \$161.20 Benefit: 75% = \$120.90 85% = \$137.05	

T8. SURGICAL OPERATIONS	5. UROLOGICAL
	<p>(f) the initial treatment protocol comprises 12 sessions, delivered over a 3 month period; and</p> <p>(g) each session lasts for a minimum of 45 minutes, of which neurostimulation lasts for 30 minutes.</p> <p>For each patient—applicable only once, unless the patient achieves at least a 50% reduction in overactive bladder symptoms from baseline at any time during the 3 month treatment period.</p> <p>Not applicable for a service associated with a service to which item 36672 or 36673 applies</p> <p>Fee: \$206.25 Benefit: 75% = \$154.70 85% = \$175.35</p>
36672	<p>Percutaneous tibial nerve stimulation, tapering treatment protocol, for the treatment of overactive bladder, including any associated consultation at the time the percutaneous tibial nerve stimulation treatment is administered, if:</p> <p>(a) the patient responded to the percutaneous tibial nerve stimulation initial treatment protocol and has achieved at least a 50% reduction in overactive bladder symptoms from baseline at any time during the treatment period for the initial treatment protocol; and</p> <p>(b) the tapering treatment protocol comprises no more than 5 sessions, delivered over a 3 month period, and the interval between sessions is adjusted with the aim of sustaining therapeutic benefit of the treatment; and</p> <p>(c) each session lasts for a minimum of 45 minutes, of which neurostimulation lasts for 30 minutes.</p> <p>Not applicable for a service associated with a service to which item 36671 or 36673 applies</p> <p>Fee: \$206.25 Benefit: 75% = \$154.70 85% = \$175.35</p>
36673	<p>Percutaneous tibial nerve stimulation, maintenance treatment protocol, for the treatment of overactive bladder, including any associated consultation at the time the percutaneous tibial nerve stimulation treatment is administered, if:</p> <p>(a) the patient responded to the percutaneous tibial nerve stimulation initial treatment protocol and to the tapering treatment protocol, and has achieved at least a 50% reduction in overactive bladder symptoms from baseline at any time during the treatment period for the initial treatment protocol; and</p> <p>(b) the maintenance treatment protocol comprises no more than 12 sessions, delivered over a 12 month period, and the interval between sessions is adjusted with the aim of sustaining therapeutic benefit of the treatment; and</p> <p>(c) each session lasts for a minimum of 45 minutes, of which neurostimulation lasts for 30 minutes.</p> <p>Not applicable for service associated with a service to which item 36671 or 36672 applies</p> <p>Fee: \$206.25 Benefit: 75% = \$154.70 85% = \$175.35</p>
36800	<p>BLADDER, catheterisation of, where no other procedure is performed (Anaes.)</p> <p>Fee: \$28.45 Benefit: 75% = \$21.35 85% = \$24.20</p>
36803	<p>URETEROSCOPY, of one ureter, with or without any one or more of; cystoscopy, ureteric meatotomy</p>

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	or ureteric dilatation, not being a service associated with a service to which item 36652, 36654, 36656, 36806, 36809, 36812, 36824, 36848 or 36857 applies (Anaes.) (Assist.) (See para TN.8.51 of explanatory notes to this Category) Fee: \$480.90 Benefit: 75% = \$360.70 85% = \$408.80	
36806	URETEROSCOPY, of one ureter, with or without any one or more of, cystoscopy, ureteric meatotomy or ureteric dilatation, plus one or more of extraction of stone from the ureter, or biopsy or diathermy of the ureter, not being a service associated with a service to which item 36803 or 36812 applies, or a service associated with a service to which item 36809, 36824, 36848 or 36857 applies to a procedure performed on the same ureter (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
36809	URETEROSCOPY, of one ureter, with or without any one or more of, cystoscopy, ureteric meatotomy or ureteric dilatation, PLUS destruction of stone in the ureter with ultrasound, electrohydraulic or kinetic lithotripsy, or laser, with or without extraction of fragments, not being a service associated with a service to which item 36803 or 36812 applies, or a service associated with a service to which item 36806, 36824, 36848 or 36857 applies to a procedure performed on the same ureter (Anaes.) (Assist.) Fee: \$859.15 Benefit: 75% = \$644.40	
36811	CYSTOSCOPY with insertion of urethral prosthesis (Anaes.) Fee: \$333.50 Benefit: 75% = \$250.15 85% = \$283.50	
36812	CYSTOSCOPY with urethroscopy with or without urethral dilatation, not being a service associated with any other urological endoscopic procedure on the lower urinary tract except a service to which item 37327 applies (Anaes.) Fee: \$171.90 Benefit: 75% = \$128.95 85% = \$146.15	
36815	CYSTOSCOPY, with or without urethroscopy, for the treatment of penile warts or urethral warts, not being a service associated with a service to which item 30189 applies (Anaes.) (See para TN.8.9 of explanatory notes to this Category) Fee: \$245.35 Benefit: 75% = \$184.05 85% = \$208.55	
36818	CYSTOSCOPY with ureteric catheterisation including fluoroscopic imaging of the upper urinary tract, unilateral or bilateral, not being a service associated with a service to which item 36824 or 36830 applies (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
36821	CYSTOSCOPY with 1 or more of; ureteric dilatation, insertion of ureteric stent, or brush biopsy of ureter or renal pelvis, unilateral, not being a service associated with a service to which item 36824 or 36830 applies (Anaes.) (Assist.) Fee: \$333.30 Benefit: 75% = \$250.00 85% = \$283.35	
36824	CYSTOSCOPY, with ureteric catheterisation, unilateral or bilateral, not being a service associated with a service to which item 36818 or 36821 applies (Anaes.) Fee: \$219.80 Benefit: 75% = \$164.85 85% = \$186.85	
36825	CYSTOSCOPY, with endoscopic incision of pelviureteric junction or ureteric stricture, including removal or replacement of ureteric stent, not being a service associated with a service to which item 36818, 36821, 36824, 36830 or 36833 applies (Anaes.) (Assist.) Fee: \$599.45 Benefit: 75% = \$449.60	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
36827	CYSTOSCOPY, with controlled hydrodilatation of the bladder (Anaes.) Fee: \$237.05 Benefit: 75% = \$177.80 85% = \$201.50	
36830	CYSTOSCOPY, with ureteric meatotomy (Anaes.) Fee: \$209.60 Benefit: 75% = \$157.20	
36833	CYSTOSCOPY, with removal of ureteric stent or other foreign body (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
36836	CYSTOSCOPY, with biopsy of bladder, not being a service associated with a service to which item 36812, 36830, 36840, 36845, 36848, 36854, 37203, 37206, 37215, 37230 or 37233 applies (Anaes.) (See para TN.8.2 of explanatory notes to this Category) Fee: \$237.05 Benefit: 75% = \$177.80 85% = \$201.50	
36840	CYSTOSCOPY, with resection, diathermy or visual laser destruction of bladder tumour or other lesion of the bladder, not being a service to which item 36845 applies (Anaes.) Fee: \$333.30 Benefit: 75% = \$250.00 85% = \$283.35	
36842	CYSTOSCOPY, with lavage of blood clots from bladder including any associated diathermy of prostate or bladder and not being a service associated with a service to which item 36812, 36827 to 36863, 37203 or 37206 apply (Anaes.) (Assist.) Fee: \$335.35 Benefit: 75% = \$251.55	
36845	CYSTOSCOPY, with diathermy, resection or visual laser destruction of multiple tumours in more than 2 quadrants of the bladder or solitary tumour greater than 2cm in diameter (Anaes.) Fee: \$713.00 Benefit: 75% = \$534.75 85% = \$628.30	
36848	CYSTOSCOPY, with resection of ureterocele (Anaes.) Fee: \$237.05 Benefit: 75% = \$177.80	
36851	Cystoscopy, with injection into bladder wall, other than a service associated with a service to which item 18375 or 18379 applies (H) (Anaes.) Fee: \$237.05 Benefit: 75% = \$177.80	
36854	CYSTOSCOPY, with endoscopic incision or resection of external sphincter, bladder neck or both (Anaes.) Fee: \$480.90 Benefit: 75% = \$360.70	
36857	ENDOSCOPIC MANIPULATION OR EXTRACTION of ureteric calculus (Anaes.) Fee: \$377.90 Benefit: 75% = \$283.45	
36860	ENDOSCOPIC EXAMINATION of intestinal conduit or reservoir (Anaes.) Fee: \$171.90 Benefit: 75% = \$128.95 85% = \$146.15	
36863	LITHOLAPAXY, with or without cystoscopy (Anaes.) (Assist.) Fee: \$480.90 Benefit: 75% = \$360.70	
37000	BLADDER, partial excision of (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37004	BLADDER, repair of rupture (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
37008	CYSTOSTOMY OR CYSTOTOMY, suprapubic, not being a service to which item 37011 applies and not being a service associated with other open bladder procedure (Anaes.) Fee: \$429.45 Benefit: 75% = \$322.10 85% = \$365.05	
37011	SUPRAPUBIC STAB CYSTOTOMY, not being a service associated with a service to which items 37200 to 37221 apply (Anaes.) Fee: \$96.25 Benefit: 75% = \$72.20 85% = \$81.85	
37014	BLADDER, total excision of (Anaes.) (Assist.) Fee: \$1,099.60 Benefit: 75% = \$824.70	
37020	BLADDER DIVERTICULUM, excision or obliteration of (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
37023	VESICAL FISTULA, cutaneous, operation for (Anaes.) Fee: \$429.45 Benefit: 75% = \$322.10	
37026	CUTANEOUS VESICOSTOMY, establishment of (Anaes.) (Assist.) Fee: \$429.45 Benefit: 75% = \$322.10	
37029	VESICOVAGINAL FISTULA, closure of, by abdominal approach (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37038	VESICOINTESTINAL FISTULA, closure of, excluding bowel resection (Anaes.) (Assist.) Fee: \$713.35 Benefit: 75% = \$535.05	
37040	Bladder stress incontinence, sling procedure for, using a non-adjustable synthetic male sling system, with or without mesh, other than a service associated with a service to which item 30405, 35599 or 37042 applies (Anaes.) (Assist.) Fee: \$939.80 Benefit: 75% = \$704.85	
37041	BLADDER ASPIRATION by needle Fee: \$48.05 Benefit: 75% = \$36.05 85% = \$40.85	
37042	BLADDER STRESS INCONTINENCE, sling procedure for, using autologous fascial sling, including harvesting of sling, with or without mesh, not being a service associated with a service to which item 30405 or 35599 applies (Anaes.) (Assist.) Fee: \$939.80 Benefit: 75% = \$704.85	
37043	BLADDER STRESS INCONTINENCE, Stamey or similar type needle colposuspension, with or without mesh, not being a service associated with a service to which item 30405 or 35599 applies (Anaes.) (Assist.) Fee: \$695.60 Benefit: 75% = \$521.70	
37044	BLADDER STRESS INCONTINENCE, suprapubic procedure for, eg Burch colposuspension, with or without mesh, not being a service associated with a service to which item 30405 or 35599 applies (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$713.35 Benefit: 75% = \$535.05	
37045	CONTINENT CATHETERISATION BLADDER STOMAS (eg. Mitrofanoff), formation of (Anaes.) (Assist.) Fee: \$1,473.35 Benefit: 75% = \$1105.05	
37047	BLADDER ENLARGEMENT using intestine (Anaes.) (Assist.) Fee: \$1,718.10 Benefit: 75% = \$1288.60	
37050	BLADDER EXSTROPHY CLOSURE, not involving sphincter reconstruction (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
37053	BLADDER TRANSECTION AND RE-ANASTOMOSIS TO TRIGONE (Anaes.) (Assist.) Fee: \$883.45 Benefit: 75% = \$662.60	
OPERATIONS ON PROSTATE		
37200	PROSTATECTOMY, open (Anaes.) (Assist.) Fee: \$1,048.05 Benefit: 75% = \$786.05	
37201	PROSTATE, transurethral radio-frequency needle ablation of, with or without cystoscopy and with or without urethroscopy, in patients with moderate to severe lower urinary tract symptoms who are not medically fit for transurethral resection of the prostate (that is, prostatectomy using diathermy or cold punch) and including services to which item 36854, 37203, 37206, 37207, 37208, 37245, 37303, 37321 or 37324 applies (Anaes.) (See para TN.8.53 of explanatory notes to this Category) Fee: \$854.75 Benefit: 75% = \$641.10	
37202	PROSTATE, transurethral radio-frequency needle ablation of, with or without cystoscopy and with or without urethroscopy, in patients with moderate to severe lower urinary tract symptoms who are not medically fit for transurethral resection of the prostate (that is prostatectomy using diathermy or cold punch) and including services to which item 36854, 37245, 37303, 37321 or 37324 applies, continuation of, within 10 days of the procedure described by item 37201, 37203 or 37207 which had to be discontinued for medical reasons (Anaes.) (See para TN.8.53 of explanatory notes to this Category) Fee: \$429.05 Benefit: 75% = \$321.80 85% = \$364.70	
37203	PROSTATECTOMY (endoscopic, using diathermy or cold punch), with or without cystoscopy and with or without urethroscopy, and including services to which item 36854, 37201, 37202, 37207, 37208, 37245, 37303, 37321 or 37324 applies (Anaes.) Fee: \$1,074.70 Benefit: 75% = \$806.05	
37206	PROSTATECTOMY (endoscopic, using diathermy or cold punch), with or without cystoscopy and with or without urethroscopy, and including services to which item 36854, 37303, 37321 or 37324 applies, continuation of, within 10 days of the procedure described by item 37201, 37203, 37207 or 37245 which had to be discontinued for medical reasons (Anaes.) Fee: \$575.55 Benefit: 75% = \$431.70	
37207	PROSTATE, endoscopic non-contact (side firing) visual laser ablation, with or without cystoscopy and with or without urethroscopy, and including services to which items 36854, 37201, 37202, 37203, 37206, 37245, 37303, 37321 or 37324 applies (Anaes.) Fee: \$1,074.70 Benefit: 75% = \$806.05	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37208	PROSTATE, endoscopic non-contact (side firing) visual laser ablation, with or without cystoscopy and with or without urethroscopy, and including services to which item 36854, 37303, 37321 or 37324 applies, continuation of, within 10 days of the procedure described by items 37201, 37203, 37207 or 37245 which had to be discontinued for medical reasons (Anaes.) Fee: \$575.55 Benefit: 75% = \$431.70	
37209	PROSTATE, and/or SEMINAL VESICLE/AMPULLA OF VAS, unilateral or bilateral, total excision of, not being a service associated with a service to which item number 37210 or 37211 applies (Anaes.) (Assist.) Fee: \$1,331.45 Benefit: 75% = \$998.60	
37210	PROSTATECTOMY, radical, involving total excision of the prostate, sparing of nerves around the bladder and bladder neck reconstruction, not being a service associated with a service to which item 35551, 36502 or 37375 applies (Anaes.) (Assist.) Fee: \$1,643.20 Benefit: 75% = \$1232.40	
37211	PROSTATECTOMY, radical, involving total excision of the prostate, sparing of nerves around the bladder and bladder neck reconstruction, <i>with pelvic lymphadenectomy</i> , not being a service associated with a service to which item 35551, 36502 or 37375 applies (Anaes.) (Assist.) Fee: \$1,995.65 Benefit: 75% = \$1496.75	
37212	PROSTATE, open perineal biopsy or open drainage of abscess (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95	
37215	PROSTATE, biopsy of, endoscopic, with or without cystoscopy (Anaes.) (Assist.) Fee: \$429.45 Benefit: 75% = \$322.10 85% = \$365.05	
37217	Prostate, implantation of radio-opaque fiducial markers into the prostate gland or prostate surgical bed (Anaes.) (See para TN.8.54 of explanatory notes to this Category) Fee: \$142.60 Benefit: 75% = \$106.95 85% = \$121.25	
37218	PROSTATE, needle biopsy of, or injection into, excluding for insertion of radiopaque markers (Anaes.) Fee: \$142.60 Benefit: 75% = \$106.95 85% = \$121.25	
37219	PROSTATE, needle biopsy of, using prostatic ultrasound techniques and obtaining 1 or more prostatic specimens, being a service associated with a service to which item 55600 or 55603 applies (Anaes.) (Assist.) Fee: \$289.65 Benefit: 75% = \$217.25 85% = \$246.25	
37220	PROSTATE, radioactive seed implantation of, urological component, using transrectal ultrasound guidance, for localised prostatic malignancy at clinical stages T1 (clinically inapparent tumour not palpable or visible by imaging) or T2 (tumour confined within prostate), with a Gleason score of less than or equal to 7 and a prostate specific antigen (PSA) of less than or equal to 10ng/ml at the time of diagnosis. The procedure must be performed by a urologist at an approved site in association with a radiation oncologist, and be associated with a service to which item 55603 applies. (Anaes.) (See para TN.8.55 of explanatory notes to this Category) Fee: \$1,076.80 Benefit: 75% = \$807.60	
37221	PROSTATIC ABSCESS, endoscopic drainage of (Anaes.) (Assist.) Fee: \$480.90 Benefit: 75% = \$360.70	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37223	PROSTATIC COIL, insertion of, under ultrasound control (Anaes.) Fee: \$212.70 Benefit: 75% = \$159.55	
37224	PROSTATE, diathermy or visual laser destruction of lesion of, not being a service associated with a service to which item 37201, 37202, 37203, 37206, 37207, 37208 or 37215 applies (Anaes.) Fee: \$333.30 Benefit: 75% = \$250.00 85% = \$283.35	
37227	PROSTATE, transperineal insertion of catheters into, for high dose rate brachytherapy using ultrasound guidance including any associated cystoscopy. The procedure must be performed at an approved site in association with a radiation oncologist, and be associated with a service to which item 15331 or 15332 applies. (Anaes.) (See para TN.8.56 of explanatory notes to this Category) Fee: \$583.50 Benefit: 75% = \$437.65 85% = \$498.80	
37230	PROSTATE, high-energy transurethral microwave thermotherapy of, with or without cystoscopy and with or without urethroscopy and including services to which item 36854, 37203, 37206, 37207, 37208, 37303, 37321 or 37324 applies (Anaes.) Fee: \$1,074.70 Benefit: 75% = \$806.05 85% = \$990.00	
37233	PROSTATE, high-energy transurethral microwave thermotherapy of, with or without cystoscopy and with or without urethroscopy and including services to which item 36854, 37303, 37321 or 37324 applies, continuation of, within 10 days of the procedure described by item 37201, 37203, 37207, 37230 which had to be discontinued for medical reasons (Anaes.) Fee: \$575.55 Benefit: 75% = \$431.70 85% = \$490.85	
37245	Prostate, endoscopic enucleation of, using high powered Holmium:YAG laser and an end-firing, non-contact fibre, with or without tissue morcellation, cystoscopy or urethroscopy, for the treatment of benign prostatic hyperplasia, and other than a service associated with a service to which item 36854, 37201, 37202, 37203, 37206, 37207, 37208, 37303, 37321, or 37324 applies. (Anaes.) Fee: \$1,301.60 Benefit: 75% = \$976.20	
OPERATIONS ON URETHRA, PENIS OR SCROTUM		
37300	URETHRAL SOUNDS, passage of, as an independent procedure (Anaes.) Fee: \$48.05 Benefit: 75% = \$36.05 85% = \$40.85	
37303	URETHRAL STRICTURE, dilatation of (Anaes.) Fee: \$76.40 Benefit: 75% = \$57.30 85% = \$64.95	
37306	URETHRA, repair of rupture of distal section (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
37309	URETHRA, repair of rupture of prostatic or membranous segment (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37315	URETHROSCOPY, as an independent procedure (Anaes.) Fee: \$142.60 Benefit: 75% = \$106.95 85% = \$121.25	
37318	URETHROSCOPY with any 1 or more of - biopsy, diathermy, visual laser destruction of stone or removal of foreign body or stone (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37321	URETHRAL MEATOTOMY, EXTERNAL (Anaes.) Fee: \$96.25 Benefit: 75% = \$72.20 85% = \$81.85	
37324	URETHROTOMY OR URETHROSTOMY, internal or external (Anaes.) Fee: \$237.05 Benefit: 75% = \$177.80	
37327	URETHROTOMY, optical, for urethral stricture (Anaes.) (Assist.) Fee: \$333.30 Benefit: 75% = \$250.00	
37330	URETHRECTOMY, partial or complete, for removal of tumour (Anaes.) (Assist.) Fee: \$670.10 Benefit: 75% = \$502.60	
37333	URETHROVAGINAL FISTULA, closure of (Anaes.) (Assist.) Fee: \$575.55 Benefit: 75% = \$431.70	
37336	URETHRORECTAL FISTULA, closure of (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
37338	Urethral synthetic male sling system, division or removal of, for urethral obstruction or erosion, following previous surgery for urinary incontinence, other than a service associated with a service to which item 37340 or 37341 applies (Anaes.) (Assist.) Fee: \$939.80 Benefit: 75% = \$704.85	
37339	Periurethral or transurethral injection of materials for the treatment of urinary incontinence, including cystoscopy and urethroscopy, other than a service associated with a service to which item 18375 or 18379 applies (Anaes.) Fee: \$247.35 Benefit: 75% = \$185.55 85% = \$210.25	
37340	URETHRAL SLING, division or removal of, for urethral obstruction or erosion, following previous surgery for urinary incontinence, vaginal approach, not being a service associated with a service to which item number 37341 applies (Anaes.) (Assist.) Fee: \$438.30 Benefit: 75% = \$328.75	
37341	URETHRAL SLING, division or removal of, for urethral obstruction or erosion, following previous surgery for urinary incontinence, suprapubic or combined suprapubic/vaginal approach, not being a service associated with a service to which item number 37340 applies (Anaes.) (Assist.) Fee: \$939.80 Benefit: 75% = \$704.85	
37342	URETHROPLASTY single stage operation (Anaes.) (Assist.) Fee: \$859.15 Benefit: 75% = \$644.40	
37343	URETHROPLASTY, single stage operation, transpubic approach via separate incisions above and below the symphysis pubis, excluding laparotomy, symphysectomy and suprapubic cystotomy, with or without re-routing of the urethra around the crura (Anaes.) (Assist.) Fee: \$1,434.60 Benefit: 75% = \$1075.95	
37345	URETHROPLASTY 2 stage operation first stage (Anaes.) (Assist.) Fee: \$713.00 Benefit: 75% = \$534.75	
37348	URETHROPLASTY 2 stage operation second stage (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$713.00 Benefit: 75% = \$534.75	
37351	URETHROPLASTY, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95	
37354	HYPOSPADIAS, meatotomy and hemircumcision (Anaes.) (Assist.) Fee: \$333.30 Benefit: 75% = \$250.00	
37369	URETHRA, excision of prolapse of (Anaes.) Fee: \$192.45 Benefit: 75% = \$144.35	
37372	URETHRAL DIVERTICULUM, excision of (Anaes.) (Assist.) Fee: \$480.90 Benefit: 75% = \$360.70	
37375	URETHRAL SPHINCTER, reconstruction by bladder tubularisation technique or similar procedure (Anaes.) (Assist.) Fee: \$1,194.05 Benefit: 75% = \$895.55	
37381	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, perineal approach (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
37384	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, abdominal approach (Anaes.) (Assist.) Fee: \$1,194.05 Benefit: 75% = \$895.55	
37387	ARTIFICIAL URINARY SPHINCTER, insertion of pressure regulating balloon and pump (Anaes.) (Assist.) Fee: \$333.30 Benefit: 75% = \$250.00	
37390	ARTIFICIAL URINARY SPHINCTER, revision or removal of, with or without replacement (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37393	PRIAPISM, decompression by glanular stab cavernospongiosum shunt or penile aspiration with or without lavage (Anaes.) Fee: \$237.05 Benefit: 75% = \$177.80 85% = \$201.50	
37396	PRIAPISM, shunt operation for, not being a service to which item 37393 applies (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50	
37402	PENIS, partial amputation of (Anaes.) (Assist.) Fee: \$480.90 Benefit: 75% = \$360.70	
37405	PENIS, complete or radical amputation of (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37408	PENIS, repair of laceration of cavernous tissue, or fracture involving cavernous tissue (Anaes.) (Assist.) Fee: \$480.90 Benefit: 75% = \$360.70	
37411	PENIS, repair of avulsion (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20 85% = \$868.90	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37415	PENIS, injection of, for the investigation and treatment of impotence - 2 services only in a period of 36 consecutive months Fee: \$48.05 Benefit: 75% = \$36.05 85% = \$40.85	
37417	PENIS, correction of chordee, with or without excision of fibrous plaque or plaques and with or without grafting (Anaes.) (Assist.) Fee: \$575.55 Benefit: 75% = \$431.70	
37418	PENIS, correction of chordee, with or without excision of fibrous plaque or plaques and with or without grafting, involving mobilization of the urethra (Anaes.) (Assist.) Fee: \$764.65 Benefit: 75% = \$573.50 85% = \$679.95	
37420	PENIS, surgery to inhibit rapid penile drainage causing impotence, by ligation of veins deep to Buck's fascia including 1 or more deep cavernosal veins with or without pharmacological erection test (Anaes.) (Assist.) Fee: \$377.90 Benefit: 75% = \$283.45	
37423	PENIS, lengthening by translocation of corpora (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37426	PENIS, artificial erection device, insertion of, into 1 or both corpora (Anaes.) (Assist.) Fee: \$1,005.00 Benefit: 75% = \$753.75	
37429	PENIS, artificial erection device, insertion of pump and pressure regulating reservoir (Anaes.) (Assist.) Fee: \$333.30 Benefit: 75% = \$250.00	
37432	PENIS, artificial erection device, complete or partial revision or removal of components, with or without replacement (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37435	PENIS, frenuloplasty as an independent procedure (Anaes.) Fee: \$96.25 Benefit: 75% = \$72.20 85% = \$81.85	
37438	SCROTUM, partial excision of (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
37444	URETEROLITHOTOMY COMPLICATED BY PREVIOUS SURGERY at the same site of the same ureter (Anaes.) (Assist.) Fee: \$1,030.90 Benefit: 75% = \$773.20 85% = \$946.20	
OPERATIONS ON TESTES, VASA OR SEMINAL VESICLES		
37601	SPERMATOCELE OR EPIDIDYMAL CYST, excision of, 1 or more of, on 1 side (Anaes.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
37604	EXPLORATION OF SCROTAL CONTENTS, with or without fixation and with or without biopsy, unilateral, not being a service associated with sperm harvesting for IVF (Anaes.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
37605	Transcutaneous sperm retrieval, unilateral, from either the testis or the epididymis, for the purposes of intracytoplasmic sperm injection, for male factor infertility, excluding a service to which item 13218	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	applies. (Anaes.) (See para TN.8.58, TN.1.5 of explanatory notes to this Category) Fee: \$385.15 Benefit: 75% = \$288.90 85% = \$327.40	
37606	Open surgical sperm retrieval, unilateral, including the exploration of scrotal contents, with our without biopsy, for the purposes of intracytoplasmic sperm injection, for male factor infertility, performed in a hospital, excluding a service to which item 13218 or 37604 applies. (Anaes.) (See para TN.1.5, TN.8.59 of explanatory notes to this Category) Fee: \$571.85 Benefit: 75% = \$428.90 85% = \$487.15	
37607	RETROPERITONEAL LYMPH NODE DISSECTION, unilateral, not being a service associated with a service to which item 36528 applies (Anaes.) (Assist.) Fee: \$953.60 Benefit: 75% = \$715.20	
37610	RETROPERITONEAL LYMPH NODE DISSECTION, unilateral, not being a service associated with a service to which item 36528 applies, following previous similar retroperitoneal dissection, retroperitoneal irradiation or chemotherapy (Anaes.) (Assist.) Fee: \$1,434.60 Benefit: 75% = \$1075.95	
37613	EPIDIDYMECTOMY (Anaes.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50	
37616	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, using operating microscope, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.) Fee: \$713.00 Benefit: 75% = \$534.75	
37619	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.) Fee: \$285.25 Benefit: 75% = \$213.95 85% = \$242.50 Extended Medicare Safety Net Cap: \$228.20	
37623	VASOTOMY OR VASECTOMY, unilateral or bilateral <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.)</i> (See para TN.8.46 of explanatory notes to this Category) Fee: \$237.05 Benefit: 75% = \$177.80 85% = \$201.50	
PAEDIATRIC GENITURINARY SURGERY		
37800	PATENT URACHUS, excision of, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$537.55 Benefit: 75% = \$403.20	
37801	PATENT URACHUS, excision of, when performed on a person under 10 years of age (Anaes.) (Assist.) Fee: \$698.85 Benefit: 75% = \$524.15	
37803	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37806 applies, on a person 10 years of age or over. (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$537.55 Benefit: 75% = \$403.20	
37804	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37807 applies, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$698.85 Benefit: 75% = \$524.15	
37806	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a person 10 years of age or over (Anaes.) (Assist.) Fee: \$621.10 Benefit: 75% = \$465.85 85% = \$536.40	
37807	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$807.45 Benefit: 75% = \$605.60 85% = \$722.75	
37809	UNDESCENDED TESTIS, revision orchidopexy for, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$621.10 Benefit: 75% = \$465.85	
37810	UNDESCENDED TESTIS, revision orchidopexy for, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$807.45 Benefit: 75% = \$605.60	
37812	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37803, 37806 and 37809 applies, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$573.35 Benefit: 75% = \$430.05	
37813	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37804, 37807 and 37810 applies, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$745.35 Benefit: 75% = \$559.05	
37815	HYPOSPADIAS, examination under anaesthesia with erection test on a person 10 years of age or over. (Anaes.) Fee: \$95.65 Benefit: 75% = \$71.75	
37816	HYPOSPADIAS, examination under anaesthesia with erection test, on a person under 10 years of age (Anaes.) Fee: \$124.40 Benefit: 75% = \$93.30	
37818	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a person 10 years of age or over (Anaes.) (Assist.) Fee: \$506.80 Benefit: 75% = \$380.10 85% = \$430.80	
37819	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$658.85 Benefit: 75% = \$494.15 85% = \$574.15	
37821	HYPOSPADIAS, distal, 1 stage repair, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$859.15 Benefit: 75% = \$644.40	
37822	HYPOSPADIAS, distal, 1 stage repair, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$1,116.90 Benefit: 75% = \$837.70	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37824	HYPOSPADIAS, proximal, 1 stage repair on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$1,194.50 Benefit: 75% = \$895.90	
37825	HYPOSPADIAS, proximal, 1 stage repair, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$1,552.85 Benefit: 75% = \$1164.65	
37827	HYPOSPADIAS, staged repair, first stage, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$550.30 Benefit: 75% = \$412.75	
37828	HYPOSPADIAS, staged repair, first stage, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$715.35 Benefit: 75% = \$536.55	
37830	HYPOSPADIAS, staged repair, second stage, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$713.00 Benefit: 75% = \$534.75 85% = \$628.30	
37831	HYPOSPADIAS, staged repair, second stage, on a person under 10 years of age. (Anaes.) (Assist.) Fee: \$927.00 Benefit: 75% = \$695.25 85% = \$842.30	
37833	HYPOSPADIAS, repair of post-operative urethral fistula, on a person 10 years of age or over. (Anaes.) (Assist.) Fee: \$340.30 Benefit: 75% = \$255.25	
37834	HYPOSPADIAS, repair of post-operative urethral fistula, on a person under 10 years of age (Anaes.) (Assist.) Fee: \$442.35 Benefit: 75% = \$331.80	
37836	EPISPADIAS, staged repair, first stage (Anaes.) (Assist.) Fee: \$716.70 Benefit: 75% = \$537.55	
37839	EPISPADIAS, staged repair, second stage (Anaes.) (Assist.) Fee: \$812.20 Benefit: 75% = \$609.15	
37842	EXSTROPHY OF BLADDER OR EPISPADIAS, secondary repair with bladder neck tightening, with or without ureteric reimplantation (Anaes.) (Assist.) Fee: \$1,576.85 Benefit: 75% = \$1182.65	
37845	AMBIGUOUS GENITALIA WITH UROGENITAL SINUS, reduction clitoroplasty, with or without endoscopy (Anaes.) (Assist.) Fee: \$716.70 Benefit: 75% = \$537.55	
37848	AMBIGUOUS GENITALIA WITH UROGENITAL SINUS, reduction clitoroplasty with endoscopy and vaginoplasty (Anaes.) (Assist.) Fee: \$1,290.10 Benefit: 75% = \$967.60	
37851	CONGENITAL ADRENAL HYPERPLASIA, mixed gonadal dysgenesis or similar condition, vaginoplasty for, with or without endoscopy (Anaes.) (Assist.) Fee: \$955.75 Benefit: 75% = \$716.85	
37854	URETHRAL VALVE, destruction of, including cystoscopy and urethroscopy (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$377.90	Benefit: 75% = \$283.45
T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Group T8. Surgical Operations	
	Subgroup 6. Cardio-Thoracic	
	CARDIOLOGY PROCEDURES	
38200	RIGHT HEART CATHETERISATION, with any one or more of the following: fluoroscopy, oximetry, dye dilution curves, cardiac output measurement by any method, shunt detection or exercise stress test (Anaes.) Fee: \$459.35 Benefit: 75% = \$344.55 85% = \$390.45	
38203	LEFT HEART CATHETERISATION by percutaneous arterial puncture, arteriotomy or percutaneous left ventricular puncture with any one or more of the following: fluoroscopy, oximetry, dye dilution curves, cardiac output measurements by any method, shunt detection or exercise stress test (Anaes.) Fee: \$548.15 Benefit: 75% = \$411.15 85% = \$465.95	
38206	RIGHT HEART CATHETERISATION WITH LEFT HEART CATHETERISATION via the right heart or by any other procedure with any one or more of the following: fluoroscopy, oximetry, dye dilution curves, cardiac output measurements by any method, shunt detection or exercise stress test (Anaes.) Fee: \$662.75 Benefit: 75% = \$497.10 85% = \$578.05	
38209	CARDIAC ELECTROPHYSIOLOGICAL STUDY up to and including 3 catheter investigation of any 1 or more of syncope, atrioventricular conduction, sinus node function or simple ventricular tachycardia studies, not being a service associated with a service to which item 38212 or 38213 applies (Anaes.) (See para TN.8.60 of explanatory notes to this Category) Fee: \$850.95 Benefit: 75% = \$638.25 85% = \$766.25	
38212	CARDIAC ELECTROPHYSIOLOGICAL STUDY 4 or more catheter supraventricular tachycardia investigation; or complex tachycardia inductions, or multiple catheter mapping, or acute intravenous antiarrhythmic drug testing with pre and post drug inductions; or catheter ablation to intentionally induce complete AV block; or intraoperative mapping; or electrophysiological services during defibrillator implantation not being a service associated with a service to which item 38209 or 38213 applies (Anaes.) (See para TN.8.60 of explanatory notes to this Category) Fee: \$1,415.30 Benefit: 75% = \$1061.50 85% = \$1330.60	
38213	CARDIAC ELECTROPHYSIOLOGICAL STUDY, for follow-up testing of implanted defibrillator - not being a service associated with a service to which item 38209 or 38212 applies (Anaes.) Fee: \$421.50 Benefit: 75% = \$316.15 85% = \$358.30	
38215	SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material into the native coronary arteries, not being a service associated with a service to which item 38218, 38220, 38222, 38225, 38228, 38231, 38234, 38237, 38240 or 38246 applies (Anaes.) (See para TN.8.52 of explanatory notes to this Category) Fee: \$366.00 Benefit: 75% = \$274.50 85% = \$311.10	
38218	SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material with right or left heart catheterisation or both, or aortography, not being a service associated with a service to which item 38215, 38220, 38222, 38225, 38228, 38231, 38234, 38237, 38240 or 38246	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<p>applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$548.85 Benefit: 75% = \$411.65 85% = \$466.55</p>	
38220	<p>SELECTIVE CORONARY GRAFT ANGIOGRAPHY placement of catheter(s) and injection of opaque material into free coronary graft(s) attached to the aorta (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38222, 38225, 38228, 38231, 38234, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$182.95 Benefit: 75% = \$137.25 85% = \$155.55</p>	
38222	<p>SELECTIVE CORONARY GRAFT ANGIOGRAPHY, placement of catheter(s) and injection of opaque material into direct internal mammary artery graft(s) to one or more coronary arteries (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38225, 38228, 38231, 38234, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$366.00 Benefit: 75% = \$274.50 85% = \$311.10</p>	
38225	<p>SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material into the native coronary arteries and placement of catheter(s) and injection of opaque material into free coronary graft(s) attached to the aorta (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38228, 38231, 38234, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$548.95 Benefit: 75% = \$411.75 85% = \$466.65</p>	
38228	<p>SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material into the native coronary arteries and placement of catheter(s) and injection of opaque material into direct internal mammary artery graft(s) to one or more coronary arteries (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38231, 38234, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$732.05 Benefit: 75% = \$549.05 85% = \$647.35</p>	
38231	<p>SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material into the native coronary arteries and placement of catheter(s) and injection of opaque material into the free coronary graft(s) attached to the aorta (irrespective of the number of grafts), and placement of catheter(s) and injection of opaque material into direct internal mammary artery graft(s) to one or more coronary arteries (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38228, 38234, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$914.95 Benefit: 75% = \$686.25 85% = \$830.25</p>	
38234	<p>SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material with right or left heart catheterisation or both, or aortography and placement of catheter(s) and injection of opaque material into free coronary graft(s) attached to the aorta (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38228, 38231, 38237, 38240 or 38246 applies (Anaes.)</p> <p>(See para TN.8.52 of explanatory notes to this Category) Fee: \$731.90 Benefit: 75% = \$548.95 85% = \$647.20</p>	
38237	<p>SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material with right or left heart catheterisation or both, or aortography and placement of catheter(s) and injection</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	of opaque material into direct internal mammary artery graft(s) to one or more coronary arteries (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38228, 38231, 38234, 38240 or 38246 applies (Anaes.) (See para TN.8.52 of explanatory notes to this Category) Fee: \$914.90 Benefit: 75% = \$686.20 85% = \$830.20	
38240	SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material with right or left heart catheterisation or both, or aortography and placement of catheter(s) and injection of opaque material into free coronary graft(s) attached to the aorta (irrespective of the number of grafts) and placement of catheter(s) and injection of opaque material into direct internal mammary artery graft(s) to one or more coronary arteries (irrespective of the number of grafts), not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38228, 38231, 38234, 38237 or 38246 applies (Anaes.) (See para TN.8.52 of explanatory notes to this Category) Fee: \$1,097.85 Benefit: 75% = \$823.40 85% = \$1013.15	
38241	USE OF A CORONARY PRESSURE WIRE during selective coronary angiography to measure fractional flow reserve (FFR) and coronary flow reserve (CFR) in one or more intermediate coronary artery or graft lesions (stenosis of 30-70%), to determine whether revascularisation should be performed where previous stress testing has either not been performed or the results are inconclusive (Anaes.) Fee: \$484.35 Benefit: 75% = \$363.30 85% = \$411.70	
38243	PLACEMENT OF CATHETER(S) and injection of opaque material into any coronary vessel(s) or graft(s) prior to any coronary interventional procedure, not being a service associated with a service to which item 38246 applies (Anaes.) (See para TN.8.52 of explanatory notes to this Category) Fee: \$457.45 Benefit: 75% = \$343.10 85% = \$388.85	
38246	SELECTIVE CORONARY ANGIOGRAPHY, placement of catheters and injection of opaque material with right or left heart catheterisation or both, or aortography followed by placement of catheters prior to any coronary interventional procedure, not being a service associated with a service to which item 38215, 38218, 38220, 38222, 38225, 38228, 38231, 38234, 38237, 38240 or 38243 applies (Anaes.) (See para TN.8.52 of explanatory notes to this Category) Fee: \$914.90 Benefit: 75% = \$686.20 85% = \$830.20	
38256	TEMPORARY TRANSVENOUS PACEMAKING ELECTRODE, insertion of (Anaes.) Fee: \$275.60 Benefit: 75% = \$206.70 85% = \$234.30	
38270	BALLOON VALVULOPLASTY OR ISOLATED ATRIAL SEPTOSTOMY, including cardiac catheterisations before and after balloon dilatation (Anaes.) (Assist.) Fee: \$940.80 Benefit: 75% = \$705.60 85% = \$856.10	
38272	ATRIAL SEPTAL DEFECT closure, with septal occluder or other similar device, by transcatheter approach (Anaes.) (Assist.) Fee: \$940.80 Benefit: 75% = \$705.60 85% = \$856.10	
38273	Patent ductus arteriosus, transcatheter closure of, including cardiac catheterisation and any imaging associated with the service (Anaes.) (Assist.) Fee: \$940.80 Benefit: 75% = \$705.60	
38274	Ventricular septal defect, transcatheter closure of, with imaging and cardiac catheterisation (Anaes.)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(Assist.) Fee: \$940.80 Benefit: 75% = \$705.60	
38275	MYOCARDIAL BIOPSY, by cardiac catheterisation (Anaes.) Fee: \$307.50 Benefit: 75% = \$230.65 85% = \$261.40	
38276	<p>Transcatheter occlusion of left atrial appendage, and cardiac catheterisation performed by the same practitioner, for stroke prevention in a patient who has non-valvular atrial fibrillation and a contraindication to life-long oral anticoagulation therapy, and is at increased risk of thromboembolism demonstrated by:</p> <p>(a) a prior stroke (whether of an ischaemic or unknown type), transient ischaemic attack or non-central nervous system systemic embolism; or</p> <p>(b) at least 2 of the following risk factors:</p> <p>(i) an age of 65 years or more;</p> <p>(ii) hypertension;</p> <p>(iii) diabetes mellitus;</p> <p>(iv) heart failure or left ventricular ejection fraction of 35% or less (or both);</p> <p>(v) vascular disease (prior myocardial infarction, peripheral artery disease or aortic plaque)</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.132 of explanatory notes to this Category)</p> Fee: \$940.80 Benefit: 75% = \$705.60	
38285	<p>IMPLANTABLE ECG LOOP RECORDER, insertion of, for diagnosis of primary disorder in patients with recurrent unexplained syncope where:</p> <ul style="list-style-type: none"> - a diagnosis has not been achieved through all other available cardiac investigations; and - a neurogenic cause is not suspected; and - it has been determined that the patient does not have structural heart disease associated with a high risk of sudden cardiac death. <p>including initial programming and testing, as an admitted patient in an approved hospital (Anaes.)</p> <p>(See para TN.8.61 of explanatory notes to this Category)</p> Fee: \$198.95 Benefit: 75% = \$149.25 85% = \$169.15	
38286	<p>IMPLANTABLE ECG LOOP RECORDER, removal of, as an admitted patient in an approved hospital (Anaes.)</p> Fee: \$179.20 Benefit: 75% = \$134.40 85% = \$152.35	
38288	<p>Implantable loop recorder, insertion of, for diagnosis of atrial fibrillation, if:</p> <p>(a) the patient to whom the service is provided has been diagnosed as having had an embolic stroke of undetermined source; and</p>	

T8. SURGICAL OPERATIONS	6. CARDIO-THORACIC
	<p>(b) the bases of the diagnosis included the following:</p> <p>(i) the medical history of the patient;</p> <p>(ii) physical examination;</p> <p>(iii) brain and carotid imaging;</p> <p>(iv) cardiac imaging;</p> <p>(v) surface ECG testing including 24-hour Holter monitoring; and</p> <p>(c) atrial fibrillation is suspected; and</p> <p>(d) the patient:</p> <p>(i) does not have a permanent indication for oral anticoagulants; or</p> <p>(ii) does not have a permanent oral anticoagulants contraindication;</p> <p>including initial programming and testing</p> <p>(Anaes.)</p> <p>Fee: \$198.95 Benefit: 75% = \$149.25 85% = \$169.15</p>
CATHETER BASED ARRHYTHMIA ABLATION	
38287	<p>ABLATION OF ARRHYTHMIA CIRCUIT OR FOCUS or isolation procedure involving 1 atrial chamber (Anaes.) (Assist.)</p> <p>Fee: \$2,164.05 Benefit: 75% = \$1623.05 85% = \$2079.35</p>
38290	<p>ABLATION OF ARRHYTHMIA CIRCUITS OR FOCI, or isolation procedure involving both atrial chambers and including curative procedures for atrial fibrillation (Anaes.) (Assist.)</p> <p>Fee: \$2,755.40 Benefit: 75% = \$2066.55</p>
38293	<p>VENTRICULAR ARRHYTHMIA with mapping and ablation, including all associated electrophysiological studies performed on the same day (Anaes.) (Assist.)</p> <p>Fee: \$2,957.65 Benefit: 75% = \$2218.25 85% = \$2872.95</p>
ENDOVASCULAR INTERVENTIONAL PROCEDURES	
38300	<p>TRANSLUMINAL BALLOON ANGIOPLASTY of 1 coronary artery, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$531.45 Benefit: 75% = \$398.60 85% = \$451.75</p>
38303	<p>TRANSLUMINAL BALLOON ANGIOPLASTY of more than 1 coronary artery, percutaneous or by open exposure, excluding associated radiological services or preparation and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$681.40 Benefit: 75% = \$511.05 85% = \$596.70</p>
38306	<p>Transluminal insertion of stent or stents into one occlusional site, including associated balloon dilatation of coronary artery, percutaneous or by open exposure, excluding associated radiological services,</p>

T8. SURGICAL OPERATIONS	6. CARDIO-THORACIC
	<p>radiological preparation and after-care (Anaes.) (Assist.)</p> <p>(See para TN.8.62 of explanatory notes to this Category)</p> <p>Fee: \$786.15 Benefit: 75% = \$589.65 85% = \$701.45</p>
38309	<p>PERCUTANEOUS TRANSLUMINAL ROTATIONAL ATHERECTOMY of 1 coronary artery, including balloon angioplasty with no stent insertion, where:</p> <ul style="list-style-type: none"> - no lesion of the coronary artery has been stented; and - each lesion of the coronary artery is complex and heavily calcified; and - balloon angioplasty with or without stenting is not suitable; <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.41 of explanatory notes to this Category)</p> <p>Fee: \$913.10 Benefit: 75% = \$684.85 85% = \$828.40</p>
38312	<p>PERCUTANEOUS TRANSLUMINAL ROTATIONAL ATHERECTOMY of 1 coronary artery, including balloon angioplasty with insertion of 1 or more stents, where:</p> <ul style="list-style-type: none"> - no lesion of the coronary artery has been stented; and - each lesion of the coronary artery is complex and heavily calcified; and - balloon angioplasty with or without stenting is not suitable; <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.41 of explanatory notes to this Category)</p> <p>Fee: \$1,167.70 Benefit: 75% = \$875.80 85% = \$1083.00</p>
38315	<p>PERCUTANEOUS TRANSLUMINAL ROTATIONAL ATHERECTOMY of more than 1 coronary artery, including balloon angioplasty with no stent insertion, where:</p> <ul style="list-style-type: none"> - no lesion of the coronary arteries has been stented; and - each lesion of the coronary arteries is complex and heavily calcified; and - balloon angioplasty with or without stenting is not suitable; <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.41 of explanatory notes to this Category)</p> <p>Fee: \$1,253.85 Benefit: 75% = \$940.40 85% = \$1169.15</p>
38318	<p>PERCUTANEOUS TRANSLUMINAL ROTATIONAL ATHERECTOMY of more than 1 coronary artery, including balloon angioplasty, with insertion of 1 or more stents, where:</p> <ul style="list-style-type: none"> - no lesion of the coronary arteries has been stented; and - each lesion of the coronary arteries is complex and heavily calcified; and - balloon angioplasty with or without stenting is not suitable, <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.41 of explanatory notes to this Category)</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Fee: \$1,635.95 Benefit: 75% = \$1227.00 85% = \$1551.25	
	MISCELLANEOUS CARDIAC PROCEDURES	
38350	SINGLE CHAMBER PERMANENT TRANSVENOUS ELECTRODE, insertion, removal or replacement of, including cardiac electrophysiological services where used for pacemaker implantation (Anaes.) (See para TN.8.60 of explanatory notes to this Category) Fee: \$658.60 Benefit: 75% = \$493.95	
38353	PERMANENT CARDIAC PACEMAKER, insertion, removal or replacement of, not for cardiac resynchronisation therapy, including cardiac electrophysiological services where used for pacemaker implantation (Anaes.) (See para TN.8.60 of explanatory notes to this Category) Fee: \$263.45 Benefit: 75% = \$197.60	
38356	DUAL CHAMBER PERMANENT TRANSVENOUS ELECTRODES, insertion, removal or replacement of, including cardiac electrophysiological services where used for pacemaker implantation (Anaes.) (See para TN.8.60 of explanatory notes to this Category) Fee: \$863.50 Benefit: 75% = \$647.65	
38358	Extraction of chronically implanted transvenous pacing or defibrillator lead or leads, by percutaneous method where the leads have been in situ for greater than six months and require removal with locking stylets, snares and/or extraction sheaths in a facility where cardiac surgery is available, in association with item 61109 or 60509 (Anaes.) (Assist.) (See para TN.8.64 of explanatory notes to this Category) Fee: \$2,957.65 Benefit: 75% = \$2218.25	
38359	PERICARDIUM, paracentesis of (excluding aftercare) (Anaes.) Fee: \$137.75 Benefit: 75% = \$103.35 85% = \$117.10	
38362	INTRA-AORTIC BALLOON PUMP, percutaneous insertion of (Anaes.) Fee: \$396.95 Benefit: 75% = \$297.75 85% = \$337.45	
38365	Permanent cardiac synchronisation device (including a cardiac synchronisation device that is capable of defibrillation), insertion, removal or replacement of, for a patient who: (a) has: (i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 120 ms; or (b) satisfied the requirements mentioned in paragraph (a) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode (Anaes.) (See para TN.8.63 of explanatory notes to this Category) Fee: \$263.45 Benefit: 75% = \$197.60	
38368	Permanent transvenous left ventricular electrode, insertion, removal or replacement of through the	

T8. SURGICAL OPERATIONS

6. CARDIO-THORACIC

	<p>coronary sinus, for the purpose of cardiac resynchronisation therapy, including right heart catheterisation and any associated venogram of left ventricular veins, other than a service associated with a service to which item 35200 or 38200 applies, for a patient who:</p> <p>(a) has:</p> <ul style="list-style-type: none"> (i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 120 ms; or <p>(b) has:</p> <ul style="list-style-type: none"> (i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 150 ms; or <p>(c) satisfied the requirements mentioned in paragraph (a) or (b) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode (Anaes.)</p> <p>(See para TN.8.63 of explanatory notes to this Category) Fee: \$1,262.85 Benefit: 75% = \$947.15</p>
38371	<p>Permanent cardiac synchronisation device capable of defibrillation, insertion, removal or replacement of, for a patient who:</p> <p>(a) has:</p> <ul style="list-style-type: none"> (i) moderate to severe chronic heart failure (New York Heart Association ((NYHA) class III or IV) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 120 ms; or <p>(b) has:</p> <ul style="list-style-type: none"> (i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 150 ms (Anaes.) <p>(See para TN.8.65 of explanatory notes to this Category)</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Fee: \$296.85 Benefit: 75% = \$222.65	
	<p>AUTOMATIC DEFIBRILLATOR, insertion of patches for, or insertion of transvenous endocardial defibrillation electrodes for, primary prevention of sudden cardiac death in:</p> <ul style="list-style-type: none"> - patients with a left ventricular ejection fraction of less than or equal to 30% at least one month after a myocardial infarct when the patient has received optimised medical therapy; or - patients with chronic heart failure associated with mild to moderate symptoms (NYHA II and III) and a left ventricular ejection fraction less than or equal to 35% when the patient has received optimised medical therapy. <p>Not being a service associated with a service to which item 38213 applies (Anaes.) (Assist.)</p>	
38384	Fee: \$1,085.55 Benefit: 75% = \$814.20 85% = \$1000.85	
	<p>AUTOMATIC DEFIBRILLATOR GENERATOR, insertion or replacement of for, primary prevention of sudden cardiac death in:</p> <ul style="list-style-type: none"> - patients with a left ventricular ejection fraction of less than or equal to 30% at least one month after a myocardial infarct when the patient has received optimised medical therapy; or - patients with chronic heart failure associated with mild to moderate symptoms (NYHA II and III) and a left ventricular ejection fraction less than or equal to 35% when the patient has received optimised medical therapy. <p>Not being a service associated with a service to which item 38213 applies, not for defibrillators capable of cardiac resynchronisation therapy (Anaes.) (Assist.)</p>	
38387	Fee: \$296.85 Benefit: 75% = \$222.65 85% = \$252.35	
	<p>AUTOMATIC DEFIBRILLATOR, insertion of patches for, or insertion of transvenous endocardial defibrillation electrodes for - not for patients with heart failure or as primary prevention for tachycardia arrhythmias. Not being a service associated with a service to which item 38213 applies (Anaes.) (Assist.)</p>	
38390	Fee: \$1,085.55 Benefit: 75% = \$814.20 85% = \$1000.85	
	<p>AUTOMATIC DEFIBRILLATOR GENERATOR, insertion or replacement of for - not for patients with heart failure or as primary prevention for tachycardia arrhythmias. Not being a service associated with a service to which item 38213 applies. (Anaes.) (Assist.)</p>	
38393	Fee: \$296.85 Benefit: 75% = \$222.65 85% = \$252.35	
THORACIC SURGERY		

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38415	EMPHYEMA, radical operation for, involving resection of rib (Anaes.) (Assist.) Fee: \$411.85 Benefit: 75% = \$308.90 85% = \$350.10	
38418	THORACOTOMY, exploratory, with or without biopsy (Anaes.) (Assist.) Fee: \$988.35 Benefit: 75% = \$741.30	
38421	THORACOTOMY, with pulmonary decortication (Anaes.) (Assist.) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38424	THORACOTOMY, with pleurectomy or pleurodesis, OR ENUCLEATION OF HYDATID cysts (Anaes.) (Assist.) Fee: \$988.35 Benefit: 75% = \$741.30	
38427	THORACOPLASTY (complete) - 3 or more ribs (Anaes.) (Assist.) Fee: \$1,220.40 Benefit: 75% = \$915.30	
38430	THORACOPLASTY (in stages) each stage (Anaes.) (Assist.) Fee: \$628.95 Benefit: 75% = \$471.75	
38436	THORACOSCOPY, with or without division of pleural adhesions, including insertion of intercostal catheter where necessary, with or without biopsy (Anaes.) Fee: \$257.55 Benefit: 75% = \$193.20	
38438	PNEUMONECTOMY or LOBECTOMY or SEGMENTECTOMY not being a service associated with a service to which Item 38418 applies (Anaes.) (Assist.) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38440	LUNG, wedge resection of (Anaes.) (Assist.) Fee: \$1,183.05 Benefit: 75% = \$887.30	
38441	RADICAL LOBECTOMY or PNEUMONECTOMY including resection of chest wall, diaphragm, pericardium, or formal mediastinal node dissection (Anaes.) (Assist.) Fee: \$1,871.90 Benefit: 75% = \$1403.95	
38446	THORACOTOMY or STERNOTOMY, for removal of thymus or mediastinal tumour (Anaes.) (Assist.) Fee: \$1,220.40 Benefit: 75% = \$915.30	
38447	PERICARDIECTOMY via sternotomy or anterolateral thoracotomy without cardiopulmonary bypass (Anaes.) (Assist.) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38448	MEDIASTINUM, cervical exploration of, with or without biopsy (Anaes.) (Assist.) Fee: \$374.40 Benefit: 75% = \$280.80	
38449	PERICARDIECTOMY via sternotomy or anterolateral thoracotomy with cardiopulmonary bypass (Anaes.) (Assist.) Fee: \$2,210.15 Benefit: 75% = \$1657.65	
38450	PERICARDIUM, transthoracic open surgical drainage of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Fee: \$883.40 Benefit: 75% = \$662.55	
38452	PERICARDIUM, subxiphoid open surgical drainage of (Anaes.) (Assist.) Fee: \$591.65 Benefit: 75% = \$443.75	
38453	TRACHEAL excision and repair without cardiopulmonary bypass (Anaes.) (Assist.) Fee: \$1,774.70 Benefit: 75% = \$1331.05	
38455	TRACHEAL EXCISION AND REPAIR OF, with cardiopulmonary bypass (Anaes.) (Assist.) Fee: \$2,400.40 Benefit: 75% = \$1800.30	
38456	INTRATHORACIC OPERATION on heart, lungs, great vessels, bronchial tree, oesophagus or mediastinum, or on more than 1 of those organs, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38457	PECTUS EXCAVATUM or PECTUS CARINATUM, repair or radical correction of (Anaes.) (Assist.) Fee: \$1,474.95 Benefit: 75% = \$1106.25	
38458	PECTUS EXCAVATUM, repair of, with implantation of subcutaneous prosthesis (Anaes.) (Assist.) Fee: \$786.15 Benefit: 75% = \$589.65	
38460	STERNAL WIRE OR WIRES, removal of (Anaes.) Fee: \$284.00 Benefit: 75% = \$213.00	
38462	STERNOTOMY WOUND, debridement of, not involving reopening of the mediastinum (Anaes.) Fee: \$336.60 Benefit: 75% = \$252.45	
38464	STERNOTOMY WOUND, debridement of, involving curettage of infected bone with or without removal of wires but not involving reopening of the mediastinum (Anaes.) Fee: \$365.90 Benefit: 75% = \$274.45	
38466	STERNUM, reoperation on, for dehiscence or infection involving reopening of the mediastinum, with or without rewiring (Anaes.) (Assist.) Fee: \$987.95 Benefit: 75% = \$741.00	
38468	STERNUM AND MEDIASTINUM, reoperation for infection of, involving muscle advancement flaps or greater omentum (Anaes.) (Assist.) Fee: \$1,522.25 Benefit: 75% = \$1141.70	
38469	STERNUM AND MEDIASTINUM, reoperation for infection of, involving muscle advancement flaps and greater omentum (Anaes.) (Assist.) Fee: \$1,774.70 Benefit: 75% = \$1331.05	
CARDIAC SURGERY PROCEDURES		
38470	PERMANENT MYOCARDIAL ELECTRODE, insertion of, by thoracotomy or sternotomy (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$988.35 Benefit: 75% = \$741.30	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38473	PERMANENT PACEMAKER ELECTRODE, insertion by open surgical approach (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$591.65 Benefit: 75% = \$443.75	
VALVULAR PROCEDURES		
38475	VALVE ANNULOPLASTY without insertion of ring, not being a service associated with a service to which item 38480 or 38481 applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$857.75 Benefit: 75% = \$643.35	
38477	VALVE ANNULOPLASTY with insertion of ring not being a service to which item 38478 applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,065.95 Benefit: 75% = \$1549.50	
38478	VALVE ANNULOPLASTY with insertion of ring performed in conjunction with item 38480 or 38481 (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,000.75 Benefit: 75% = \$750.60	
38480	VALVE REPAIR, 1 leaflet (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,065.95 Benefit: 75% = \$1549.50	
38481	VALVE REPAIR, 2 or more leaflets (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,351.90 Benefit: 75% = \$1763.95	
38483	AORTIC VALVE LEAFLET OR LEAFLETS, decalcification of, not being a service to which item 38475, 38477, 38480, 38481, 38488 or 38489 applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,774.70 Benefit: 75% = \$1331.05	
38485	MITRAL ANNULUS, reconstruction of, after decalcification, when performed in association with valve surgery (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$842.60 Benefit: 75% = \$631.95	
38487	MITRAL VALVE, open valvotomy of (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,774.70 Benefit: 75% = \$1331.05	
38488	VALVE REPLACEMENT with BIOPROSTHESIS OR MECHANICAL PROSTHESIS (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,969.25 Benefit: 75% = \$1476.95	
38489	VALVE REPLACEMENT with allograft (subcoronary or cylindrical implant), or unstented xenograft (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,342.00 Benefit: 75% = \$1756.50	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38490	<p>SUB-VALVULAR STRUCTURES, reconstruction and re-implantation of, associated with mitral and tricuspid valve replacement (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$571.85 Benefit: 75% = \$428.90</p>	
38493	<p>OPERATIVE MANAGEMENT of acute infective endocarditis, in association with heart valve surgery (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,018.75 Benefit: 75% = \$1514.10</p>	
38495	<p>TAVI, for the treatment of symptomatic severe aortic stenosis, performed via transfemoral delivery, unless transfemoral delivery is contraindicated or not feasible, in a TAVI Hospital on a TAVI Patient by a TAVI Practitioner – includes all intraoperative diagnostic imaging that the TAVI Practitioner performs upon the TAVI Patient.</p> <p>(Not payable more than once per patient in a five year period.) (Anaes.) (Assist.)</p> <p>(See para AN.33.1, TN.8.135 of explanatory notes to this Category)</p> <p>Fee: \$1,476.95 Benefit: 75% = \$1107.75 85% = \$1392.25</p>	
SURGERY FOR ISCHAEMIC HEART DISEASE		
38496	<p>ARTERY HARVESTING (other than internal mammary), for coronary artery bypass (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$643.45 Benefit: 75% = \$482.60</p>	
38497	<p>CORONARY ARTERY BYPASS with cardiopulmonary bypass, using saphenous vein graft or grafts only, including harvesting of vein graft material where performed, not being a service associated with a service to which items 38498, 38500, 38501, 38503 or 38504 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,111.55 Benefit: 75% = \$1583.70</p>	
38498	<p>CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using saphenous vein graft or grafts only, including harvesting of vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38500, 38501, 38503, 38504 or 38600 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,111.55 Benefit: 75% = \$1583.70</p>	
38500	<p>CORONARY ARTERY BYPASS with cardiopulmonary bypass, using single arterial graft, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, not being a service associated with a service to which items 38497, 38498, 38501, 38503 or 38504 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,268.75 Benefit: 75% = \$1701.60</p>	
38501	<p>CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using single arterial graft, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38498, 38500, 38503, 38504 or 38600 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,268.75 Benefit: 75% = \$1701.60</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38503	<p>CORONARY ARTERY BYPASS with cardiopulmonary bypass, using 2 or more arterial grafts, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, not being a service associated with a service to which items 38497, 38498, 38500, 38501 or 38504 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,463.30 Benefit: 75% = \$1847.50</p>	
38504	<p>CORONARY ARTERY BYPASS with the aid of tissue stabilisers, performed without cardiopulmonary bypass, using 2 or more arterial grafts, with or without vein graft or grafts, including harvesting of internal mammary artery or vein graft material where performed, either via a median sternotomy or other minimally invasive technique and where a stand-by perfusionist is present, not being a service associated with a service to which items 38497, 38498, 38500, 38501, 38503 or 38600 apply (Anaes.) (Assist.)</p> <p>(See para TN.8.68, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,463.30 Benefit: 75% = \$1847.50</p>	
38505	<p>CORONARY ENDARTERECTOMY, by open operation, including repair with 1 or more patch grafts, each vessel (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$285.95 Benefit: 75% = \$214.50</p>	
38506	<p>LEFT VENTRICULAR ANEURYSM, plication of (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,677.05 Benefit: 75% = \$1257.80</p>	
38507	<p>LEFT VENTRICULAR ANEURYSM resection with primary repair (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,968.85 Benefit: 75% = \$1476.65</p>	
38508	<p>LEFT VENTRICULAR ANEURYSM resection with patch reconstruction of the left ventricle (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,463.30 Benefit: 75% = \$1847.50</p>	
38509	<p>ISCHAEMIC VENTRICULAR SEPTAL RUPTURE, repair of (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,463.30 Benefit: 75% = \$1847.50</p>	
ARRHYTHMIA SURGERY		
38512	<p>DIVISION OF ACCESSORY PATHWAY, isolation procedure, procedure on atrioventricular node or perinodal tissues involving 1 atrial chamber only (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,164.05 Benefit: 75% = \$1623.05</p>	
38515	<p>DIVISION OF ACCESSORY PATHWAY, isolation procedure, procedure on atrioventricular node or perinodal tissues involving both atrial chambers and including curative surgery for atrial fibrillation (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,755.40 Benefit: 75% = \$2066.55</p>	
38518	<p>VENTRICULAR ARRHYTHMIA with mapping and muscle ablation, with or without aneurysmeotomy (Anaes.) (Assist.)</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(See para TN.8.67 of explanatory notes to this Category) Fee: \$2,957.65 Benefit: 75% = \$2218.25	
	PROCEDURES ON THORACIC AORTA	
38550	ASCENDING THORACIC AORTA, repair or replacement of, not involving valve replacement or repair or coronary artery implantation (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,213.20 Benefit: 75% = \$1659.90	
38553	ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, without implantation of coronary arteries (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,804.70 Benefit: 75% = \$2103.55	
38556	ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, and implantation of coronary arteries (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$3,201.70 Benefit: 75% = \$2401.30	
38559	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, not involving valve replacement or repair or coronary artery implantation (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,610.05 Benefit: 75% = \$1957.55	
38562	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, without implantation of coronary arteries (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$3,201.70 Benefit: 75% = \$2401.30	
38565	AORTIC ARCH and ASCENDING THORACIC AORTA, repair or replacement of, with aortic valve replacement or repair, and implantation of coronary arteries (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$3,591.00 Benefit: 75% = \$2693.25	
38568	DESCENDING THORACIC AORTA, repair or replacement of, without shunt or cardiopulmonary bypass, by open exposure, percutaneous or endovascular means (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,921.15 Benefit: 75% = \$1440.90	
38571	DESCENDING THORACIC AORTA, repair or replacement of, using shunt or cardiopulmonary bypass (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,115.85 Benefit: 75% = \$1586.90	
38572	OPERATIVE MANAGEMENT OF ACUTE RUPTURE OR DISSECTION, in conjunction with procedures on the thoracic aorta (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,049.15 Benefit: 75% = \$1536.90	
38577	CANNULATION FOR, and supervision and monitoring of, the administration of retrograde cerebral perfusion during deep hypothermic arrest (Assist.) (See para TN.8.67 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Fee: \$571.85	Benefit: 75% = \$428.90
	TECHNIQUES FOR PRESERVATION OF ARRESTED HEART	
38588	CANNULATION of the coronary sinus for, and supervision of, the retrograde administration of blood or crystalloid for cardioplegia, including pressure monitoring (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$429.05 Benefit: 75% = \$321.80	
	CIRCULATORY SUPPORT PROCEDURES	
38600	CENTRAL CANNULATION for cardiopulmonary bypass excluding post-operative management, not being a service associated with a service to which another item in this Subgroup applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38603	PERIPHERAL CANNULATION for cardiopulmonary bypass excluding post-operative management (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$988.35 Benefit: 75% = \$741.30	
38609	INTRA-AORTIC BALLOON PUMP, insertion of, by arteriotomy (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$494.10 Benefit: 75% = \$370.60	
38612	INTRA-AORTIC BALLOON PUMP, removal of, with closure of artery by direct suture (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$553.90 Benefit: 75% = \$415.45 85% = \$470.85	
38613	INTRA-AORTIC BALLOON PUMP, removal of, with closure of artery by patch graft (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$695.10 Benefit: 75% = \$521.35	
38615	<p>Insertion of a left or right ventricular assist device, for use as:</p> <p>(a) a bridge to cardiac transplantation in patients with refractory heart failure who are:</p> <p style="padding-left: 20px;">(i) currently on a heart transplant waiting list, or</p> <p style="padding-left: 20px;">(ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular assist device; or</p> <p>(b) acute post cardiectomy support for failure to wean from cardiopulmonary transplantation; or</p> <p>(c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6 weeks;</p> <p>not being a service associated with the use of a ventricular assist device as destination therapy in the management of patients with heart failure who are not expected to be suitable candidates for cardiac</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	transplantation (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,579.85 Benefit: 75% = \$1184.90	
38618	Insertion of a left and right ventricular assist device, for use as: (a) a bridge to cardiac transplantation in patients with refractory heart failure who are: (i) currently on a heart transplant waiting list, or (ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular assist device; or (b) acute post cardiectomy support for failure to wean from cardiopulmonary transplantation; or (c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6 weeks; not being a service associated with the use of a ventricular assist device as destination therapy in the management of patients with heart failure who are not expected to be suitable candidates for cardiac transplantation (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,969.25 Benefit: 75% = \$1476.95	
38621	LEFT OR RIGHT VENTRICULAR ASSIST DEVICE, removal of, as an independent procedure (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$786.15 Benefit: 75% = \$589.65	
38624	LEFT AND RIGHT VENTRICULAR ASSIST DEVICE, removal of, as an independent procedure (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$883.40 Benefit: 75% = \$662.55	
38627	EXTRA-CORPOREAL MEMBRANE OXYGENATION, BYPASS OR VENTRICULAR ASSIST DEVICE CANNULAE, adjustment and re-positioning of, by open operation, in patients supported by these devices (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$690.50 Benefit: 75% = \$517.90	
	RE-OPERATION	
38637	PATENT DISEASED coronary artery bypass vein graft or grafts, dissection, disconnection and oversewing of (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$571.85 Benefit: 75% = \$428.90	
38640	RE-OPERATION via median sternotomy, for any procedure, including any divisions of adhesions where the time taken to divide the adhesions is 45 minutes or less (Anaes.) (Assist.) (See para TN.8.69, TN.8.67 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	Fee: \$988.35	Benefit: 75% = \$741.30
MISCELLANEOUS CARDIOTHORACIC SURGICAL PROCEDURES		
38643	<p>THORACOTOMY OR STERNOTOMY involving division of adhesions where the time taken to divide the adhesions exceeds 45 minutes (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,100.75 Benefit: 75% = \$825.60</p>	
38647	<p>THORACOTOMY OR STERNOTOMY involving division of extensive adhesions where the time taken to divide the adhesions exceeds 2 hours (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,201.20 Benefit: 75% = \$1650.90</p>	
38650	<p>MYOMECTIONY or MYOTOMY for hypertrophic obstructive cardiomyopathy (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,969.25 Benefit: 75% = \$1476.95</p>	
38653	<p>OPEN HEART SURGERY, not being a service to which another item in this Group applies (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,969.25 Benefit: 75% = \$1476.95</p>	
38654	<p>Permanent left ventricular electrode, insertion, removal or replacement of via open thoracotomy, for the purpose of cardiac resynchronisation therapy, for a patient who:</p> <p>(a) has:</p> <ul style="list-style-type: none"> (i) moderate to severe chronic heart failure (New York Heart Association (NYHA) class III or IV) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 120 ms; or <p>(b) has:</p> <ul style="list-style-type: none"> (i) mild chronic heart failure (New York Heart Association (NYHA) class II) despite optimised medical therapy; and (ii) sinus rhythm; and (iii) a left ventricular ejection fraction of less than or equal to 35%; and (iv) a QRS duration greater than or equal to 150 ms; or <p>(c) satisfied the requirements mentioned in paragraph (a) or (b) immediately before the insertion of a cardiac resynchronisation therapy device and transvenous left ventricle electrode</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.63, TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$1,262.85 Benefit: 75% = \$947.15</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38656	THORACOTOMY or median sternotomy for post-operative bleeding (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$988.35 Benefit: 75% = \$741.30	
CARDIAC TUMOURS		
38670	CARDIAC TUMOUR, excision of, involving the wall of the atrium or inter-atrial septum, without patch or conduit reconstruction (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,968.85 Benefit: 75% = \$1476.65	
38673	CARDIAC TUMOUR, excision of, involving the wall of the atrium or inter-atrial septum, requiring reconstruction with patch or conduit (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,216.00 Benefit: 75% = \$1662.00	
38677	CARDIAC TUMOUR arising from ventricular myocardium, partial thickness excision of (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,073.15 Benefit: 75% = \$1554.90	
38680	CARDIAC TUMOUR arising from ventricular myocardium, full thickness excision of including repair or reconstruction (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$2,459.05 Benefit: 75% = \$1844.30 85% = \$2374.35	
CONGENITAL CARDIAC SURGERY		
38700	PATENT DUCTUS ARTERIOSUS, shunt, collateral or other single large vessel, division or ligation of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,100.75 Benefit: 75% = \$825.60	
38703	PATENT DUCTUS ARTERIOSUS, shunt, collateral or other single large vessel, division or ligation of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,984.20 Benefit: 75% = \$1488.15	
38706	AORTA, anastomosis or repair of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,879.30 Benefit: 75% = \$1409.50	
38709	AORTA, anastomosis or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38712	AORTIC INTERRUPTION, repair of, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,643.20 Benefit: 75% = \$1982.40	
38715	MAIN PULMONARY ARTERY, banding, debanding or repair of, without cardiopulmonary bypass, for	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,759.60 Benefit: 75% = \$1319.70	
38718	MAIN PULMONARY ARTERY, banding, debanding or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38721	VENA CAVA, anastomosis or repair of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,542.55 Benefit: 75% = \$1156.95	
38724	VENA CAVA, anastomosis or repair of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38727	INTRATHORACIC VESSELS, anastomosis or repair of, without cardiopulmonary bypass, not being a service to which item 38700, 38703, 38706, 38709, 38712, 38715, 38718, 38721 or 38724 applies, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,542.55 Benefit: 75% = \$1156.95	
38730	INTRATHORACIC VESSELS, anastomosis or repair of, with cardiopulmonary bypass, not being a service to which item 38700, 38703, 38706, 38709, 38712, 38715, 38718, 38721 or 38724 applies, for congenital heart disease (Anaes.) (Assist.) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38733	SYSTEMIC PULMONARY or CAVO-PULMONARY SHUNT, creation of, without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,542.55 Benefit: 75% = \$1156.95	
38736	SYSTEMIC PULMONARY or CAVO-PULMONARY SHUNT, creation of, with cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38739	ATRIAL SEPTECTOMY, with or without cardiopulmonary bypass, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,984.20 Benefit: 75% = \$1488.15	
38742	ATRIAL SEPTAL DEFECT, closure by open exposure direct suture or patch, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,984.20 Benefit: 75% = \$1488.15	
38745	INTRA-ATRIAL BAFFLE, insertion of, for congenital heart disease (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38748	VENTRICULAR SEPTECTOMY, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38751	Ventricular septal defect, closure by direct suture or patch (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38754	INTRAVENTRICULAR BAFFLE OR CONDUIT, insertion of, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,755.40 Benefit: 75% = \$2066.55	
38757	EXTRACARDIAC CONDUIT, insertion of, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38760	EXTRACARDIAC CONDUIT, replacement of, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38763	VENTRICULAR MYECTOMY, for relief of ventricular obstruction, right or left, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
38766	VENTRICULAR AUGMENTATION, right or left, for congenital heart disease (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,201.20 Benefit: 75% = \$1650.90	
	MISCELLANEOUS PROCEDURES ON THE CHEST	
38800	THORACIC CAVITY, aspiration of, for diagnostic purposes, not being a service associated with a service to which item 38803 applies Fee: \$39.70 Benefit: 75% = \$29.80 85% = \$33.75	
38803	THORACIC CAVITY, aspiration of, with therapeutic drainage (paracentesis), with or without diagnostic sample Fee: \$79.30 Benefit: 75% = \$59.50 85% = \$67.45	
38806	INTERCOSTAL DRAIN, insertion of, not involving resection of rib (excluding aftercare) (Anaes.) Fee: \$137.75 Benefit: 75% = \$103.35 85% = \$117.10	
38809	INTERCOSTAL DRAIN, insertion of, with pleurodesis and not involving resection of rib (excluding aftercare) (Anaes.) Fee: \$169.70 Benefit: 75% = \$127.30 85% = \$144.25	
38812	PERCUTANEOUS NEEDLE BIOPSY of lung (Anaes.) Fee: \$215.70 Benefit: 75% = \$161.80 85% = \$183.35

	Group T8. Surgical Operations	
	Subgroup 7. Neurosurgical	
	GENERAL	
	LUMBAR PUNCTURE (Anaes.)	
39000	Fee: \$77.65	Benefit: 75% = \$58.25 85% = \$66.05
	CISTERNAL PUNCTURE (Anaes.)	
39003	Fee: \$88.30	Benefit: 75% = \$66.25 85% = \$75.10
	VENTRICULAR PUNCTURE (not including burr-hole) (Anaes.)	
39006	Fee: \$164.40	Benefit: 75% = \$123.30 85% = \$139.75
	SUBDURAL HAEMORRHAGE, tap for, each tap (Anaes.)	
39009	Fee: \$61.20	Benefit: 75% = \$45.90
	BURR-HOLE, single, preparatory to ventricular puncture or for inspection purpose - not being a service to which another item applies (Anaes.)	
39012	Fee: \$245.00	Benefit: 75% = \$183.75
	INJECTION UNDER IMAGE INTENSIFICATION with 1 or more of contrast media, local anaesthetic or corticosteroid into 1 or more zygo-apophyseal or costo-transverse joints or 1 or more primary posterior rami of spinal nerves (Anaes.)	
	(See para TN.8.4 of explanatory notes to this Category)	
39013	Fee: \$112.55	Benefit: 75% = \$84.45 85% = \$95.70
	VENTRICULAR RESERVOIR, EXTERNAL VENTRICULAR DRAIN or INTRACRANIAL PRESSURE MONITORING DEVICE, insertion of - including burr-hole (excluding after-care) (Anaes.) (Assist.)	
	(See para TN.8.4 of explanatory notes to this Category)	
39015	Fee: \$387.75	Benefit: 75% = \$290.85
	CEREBROSPINAL FLUID reservoir, insertion of (Anaes.) (Assist.)	
39018	Fee: \$387.75	Benefit: 75% = \$290.85
	PAIN RELIEF	
	INJECTION OF PRIMARY BRANCH OF TRIGEMINAL NERVE with alcohol, cortisone, phenol, or similar substance (Anaes.)	
	(See para TN.8.4 of explanatory notes to this Category)	
39100	Fee: \$245.00	Benefit: 75% = \$183.75 85% = \$208.25
	NEURECTOMY, INTRACRANIAL, for trigeminal neuralgia (Anaes.) (Assist.)	
39106	Fee: \$1,225.30	Benefit: 75% = \$919.00
	TRIGEMINAL GANGLIOTOMY by radiofrequency, balloon or glycerol (Anaes.)	
39109	Fee: \$457.55	Benefit: 75% = \$343.20 85% = \$388.95
39112	CRANIAL NERVE, intracranial decompression of, using microsurgical techniques (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$1,589.65 Benefit: 75% = \$1192.25	
39115	<p>PERCUTANEOUS NEUROTOMY of posterior divisions (or rami) of spinal nerves by any method, including any associated spinal, epidural or regional nerve block (payable once only in a 30 day period) (Anaes.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$77.65 Benefit: 75% = \$58.25 85% = \$66.05</p>	
39118	<p>PERCUTANEOUS NEUROTOMY for facet joint denervation by radio-frequency probe or cryoprobe using radiological imaging control (Anaes.) (Assist.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$307.15 Benefit: 75% = \$230.40 85% = \$261.10</p>	
39121	<p>PERCUTANEOUS CORDOTOMY (Anaes.) (Assist.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$651.50 Benefit: 75% = \$488.65 85% = \$566.80</p>	
39124	<p>CORDOTOMY OR MYELOTOMY, partial or total laminectomy for, or operation for dorsal root entry zone (Drez) lesion (Anaes.) (Assist.)</p> <p>Fee: \$1,667.30 Benefit: 75% = \$1250.50</p>	
39125	<p>Intrathecal or epidural SPINAL CATHETER insertion or replacement of, and connection to a subcutaneous implanted infusion pump, for the management of chronic intractable pain (Anaes.) (Assist.)</p> <p>Fee: \$307.35 Benefit: 75% = \$230.55</p>	
39126	<p>INFUSION PUMP, subcutaneous implantation or replacement of, and connection of the pump to an intrathecal or epidural catheter, and filling of reservoir with a therapeutic agent or agents, with or without programming the pump, for the management of chronic intractable pain (Anaes.) (Assist.)</p> <p>Fee: \$373.20 Benefit: 75% = \$279.90</p>	
39127	<p>SUBCUTANEOUS RESERVOIR AND SPINAL CATHETER, insertion of, for the management of chronic intractable pain (Anaes.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$488.45 Benefit: 75% = \$366.35</p>	
39128	<p>INFUSION PUMP, subcutaneous implantation of, AND intrathecal or epidural SPINAL CATHETER insertion of, and connection of pump to catheter, and filling of reservoir with a therapeutic agent or agents, with or without programming the pump, for the management of chronic intractable pain (Anaes.) (Assist.)</p> <p>Fee: \$680.55 Benefit: 75% = \$510.45</p>	
39130	<p>EPIDURAL LEAD, percutaneous placement of, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, to a maximum of 4 leads (Anaes.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$695.20 Benefit: 75% = \$521.40</p>	
39131	<p>ELECTRODES, epidural or peripheral nerve, management of patient and adjustment or reprogramming of neurostimulator by a medical practitioner, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris - each day</p> <p>Fee: \$131.80 Benefit: 75% = \$98.85 85% = \$112.05</p>	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
39133	Removal of subcutaneously IMPLANTED INFUSION PUMP OR removal or repositioning of intrathecal or epidural SPINAL CATHETER, for the management of chronic intractable pain (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$164.40 Benefit: 75% = \$123.30	
39134	NEUROSTIMULATOR or RECEIVER, subcutaneous placement of, including placement and connection of extension wires to epidural or peripheral nerve electrodes, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris (Anaes.) (Assist.) Fee: \$351.25 Benefit: 75% = \$263.45	
39135	NEUROSTIMULATOR or RECEIVER, that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, removal of, performed in the operating theatre of a hospital (Anaes.) Fee: \$164.40 Benefit: 75% = \$123.30	
39136	LEAD, epidural or peripheral nerve that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, removal of, performed in the operating theatre of a hospital (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$164.40 Benefit: 75% = \$123.30	
39137	LEAD, epidural or peripheral nerve that was inserted for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, surgical repositioning to correct displacement or unsatisfactory positioning, including intraoperative test stimulation, not being a service to which item 39130, 39138 or 39139 applies (Anaes.) Fee: \$624.30 Benefit: 75% = \$468.25	
39138	PERIPHERAL NERVE LEAD, surgical placement of, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris, to a maximum of 4 leads (Anaes.) (Assist.) Fee: \$695.20 Benefit: 75% = \$521.40	
39139	Epidural lead, surgical placement of one or more by partial or total laminectomy, including intraoperative test stimulation, for the management of chronic intractable neuropathic pain or pain from refractory angina pectoris—to a maximum of 4 leads (H) (Anaes.) (Assist.) Fee: \$933.40 Benefit: 75% = \$700.05	
39140	EPIDURAL CATHETER, insertion of, under imaging control, with epidurogram and epidural therapeutic injection for lysis of adhesions (Anaes.) Fee: \$302.00 Benefit: 75% = \$226.50 85% = \$256.70	
PERIPHERAL NERVES		
39300	CUTANEOUS NERVE (including digital nerve), primary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$364.40 Benefit: 75% = \$273.30	
39303	CUTANEOUS NERVE (including digital nerve), secondary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$480.65 Benefit: 75% = \$360.50	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
39306	NERVE TRUNK, primary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$697.95 Benefit: 75% = \$523.50	
39309	NERVE TRUNK, secondary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$736.70 Benefit: 75% = \$552.55	
39312	NERVE TRUNK, (interfascicular), neurolysis of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$411.00 Benefit: 75% = \$308.25	
39315	NERVE TRUNK, nerve graft to, (cable graft) including harvesting of nerve graft using microsurgical techniques (Anaes.) (Assist.) Fee: \$1,062.40 Benefit: 75% = \$796.80	
39318	CUTANEOUS NERVE (including digital nerve), nerve graft to, using microsurgical techniques (Anaes.) (Assist.) Fee: \$659.20 Benefit: 75% = \$494.40	
39321	NERVE, transposition of (Anaes.) (Assist.) Fee: \$488.45 Benefit: 75% = \$366.35	
39323	PERCUTANEOUS NEUROTOMY by cryotherapy or radiofrequency lesion generator, not being a service to which another item applies (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65	
39324	NEURECTOMY, NEUROTOMY or removal of tumour from superficial peripheral nerve, by open operation (Anaes.) (Assist.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65	
39327	NEURECTOMY, NEUROTOMY or removal of tumour from deep peripheral or cranial nerve, by open operation, not being a service to which item 41575, 41576, 41578 or 41579 applies (Anaes.) (Assist.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$488.55 Benefit: 75% = \$366.45	
39330	NEUROLYSIS by open operation without transposition, not being a service associated with a service to which item 39312 applies (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10	
39331	CARPAL TUNNEL RELEASE (division of transverse carpal ligament), by any method (Anaes.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65	
39333	BRACHIAL PLEXUS, exploration of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$411.00 Benefit: 75% = \$308.25 85% = \$349.35	
CRANIAL NERVES		
39500	VESTIBULAR NERVE, section of, via posterior fossa (Anaes.) (Assist.) Fee: \$1,310.60 Benefit: 75% = \$982.95	
39503	FACIO-HYPOGLOSSAL nerve or FACIO-ACCESSORY nerve, anastomosis of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$984.85 Benefit: 75% = \$738.65	
	CRANIO-CEREBRAL INJURIES

39603	INTRACRANIAL HAEMORRHAGE, osteoplastic craniotomy or extensive craniectomy and removal of haematoma (Anaes.) (Assist.) Fee: \$1,233.05 Benefit: 75% = \$924.80	
39606	FRACTURED SKULL, depressed or comminuted, operation for (Anaes.) (Assist.) Fee: \$822.00 Benefit: 75% = \$616.50	
39609	FRACTURED SKULL, compound, without dural penetration, operation for (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
39612	FRACTURED SKULL, compound, depressed or complicated, with dural penetration and brain laceration, operation for (Anaes.) (Assist.) Fee: \$1,155.50 Benefit: 75% = \$866.65	
39615	FRACTURED SKULL with rhinorrhoea or otorrhoea, repair of by cranioplasty or endoscopic approach (Anaes.) (Assist.) Fee: \$1,233.05 Benefit: 75% = \$924.80	
	SKULL BASE SURGERY	
39640	TUMOUR INVOLVING ANTERIOR CRANIAL FOSSA, removal of, involving craniotomy, radical excision of the skull base, and dural repair (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,126.35 Benefit: 75% = \$2344.80	
39642	TUMOUR INVOLVING ANTERIOR CRANIAL FOSSA, removal of, involving frontal craniotomy with lateral rhinotomy for clearance of paranasal sinus extension (intracranial procedure) (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,286.80 Benefit: 75% = \$2465.10	
39646	TUMOUR INVOLVING ANTERIOR CRANIAL FOSSA, removal of, involving frontal craniotomy with lateral rhinotomy and radical clearance of paranasal sinus and orbital fossa extensions, with intracranial decompression of the optic nerve, (intracranial procedure) (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,767.75 Benefit: 75% = \$2825.85	
39650	TUMOUR INVOLVING MIDDLE CRANIAL FOSSA AND INFRA-TEMPORAL FOSSA, removal of, craniotomy and radical or sub-total radical excision, with division and reconstruction of zygomatic arch, (intracranial procedure) (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$2,725.55 Benefit: 75% = \$2044.20	
39653	PETRO-CLIVAL AND CLIVAL TUMOUR, removal of, by supra and infratentorial approaches for radical or sub-total radical excision (intracranial procedure), not being a service to which item 39654 or	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	39656 applies (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$4,850.10 Benefit: 75% = \$3637.60	
39654	PETRO-CLIVAL AND CLIVAL TUMOUR, removal of, by supra and infratentorial approaches for radical or sub-total radical excision, (intracranial procedure), conjoint surgery, principal surgeon (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,527.40 Benefit: 75% = \$2645.55	
39656	PETRO-CLIVAL AND CLIVAL TUMOUR, removal of, by supra and infratentorial approaches for radical or sub-total radical excision, (intracranial procedure) conjoint surgery, co-surgeon (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$2,645.45 Benefit: 75% = \$1984.10	
39658	TUMOUR INVOLVING THE CLIVUS, radical or sub-total radical excision of, involving transoral or transmaxillary approach (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,126.35 Benefit: 75% = \$2344.80	
39660	TUMOUR OR VASCULAR LESION OF CAVERNOUS SINUS, radical excision of, involving craniotomy with or without intracranial carotid artery exposure (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,126.35 Benefit: 75% = \$2344.80	
39662	TUMOUR OR VASCULAR LESION OF FORAMEN MAGNUM, radical excision of, via transcondylar or far lateral suboccipital approach (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,126.35 Benefit: 75% = \$2344.80	
INTRA-CRANIAL NEOPLASMS		
39700	SKULL TUMOUR, benign or malignant, excision of, excluding cranioplasty (Anaes.) (Assist.) Fee: \$574.00 Benefit: 75% = \$430.50	
39703	INTRACRANIAL tumour, cyst or other brain tissue, burr-hole and biopsy of, or drainage of, or both (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40	
39706	INTRACRANIAL tumour, biopsy or decompression of via osteoplastic flap OR biopsy and decompression of via osteoplastic flap (Anaes.) (Assist.) Fee: \$1,147.60 Benefit: 75% = \$860.70	
39709	CRANIOTOMY for removal of glioma, metastatic carcinoma or any other tumour in cerebrum, cerebellum or brain stem - not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$1,636.35 Benefit: 75% = \$1227.30	
39712	CRANIOTOMY FOR REMOVAL OF MENINGIOMA, pinealoma, cranio-pharyngioma, intraventricular tumour or any other intracranial tumour, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$2,954.50 Benefit: 75% = \$2215.90	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
39715	PITUITARY TUMOUR, removal of, by transcranial or transphenoidal approach (Anaes.) (Assist.) Fee: \$2,047.30 Benefit: 75% = \$1535.50	
39718	ARACHNOIDAL CYST, craniotomy for (Anaes.) (Assist.) Fee: \$899.55 Benefit: 75% = \$674.70	
39721	CRANIOTOMY, involving osteoplastic flap, for re-opening post-operatively for haemorrhage, swelling, etc (Anaes.) (Assist.) Fee: \$822.00 Benefit: 75% = \$616.50	
CEREBROVASCULAR DISEASE		
39800	ANEURYSM, clipping or reinforcement of sac (Anaes.) (Assist.) Fee: \$2,946.80 Benefit: 75% = \$2210.10	
39803	INTRACRANIAL ARTERIOVENOUS MALFORMATION, excision of (Anaes.) (Assist.) Fee: \$2,946.80 Benefit: 75% = \$2210.10	
39806	ANEURYSM, or arteriovenous malformation, intracranial proximal artery clipping of (Anaes.) (Assist.) Fee: \$1,325.90 Benefit: 75% = \$994.45	
39812	INTRACRANIAL ANEURYSM or arteriovenous fistula, ligation of cervical vessel or vessels (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65	
39815	CAROTID-CAVERNOUS FISTULA, obliteration of - combined cervical and intracranial procedure (Anaes.) (Assist.) Fee: \$1,884.35 Benefit: 75% = \$1413.30 85% = \$1799.65	
39818	EXTRACRANIAL TO INTRACRANIAL BYPASS using superficial temporal artery (Anaes.) (Assist.) Fee: \$1,884.35 Benefit: 75% = \$1413.30	
39821	EXTRACRANIAL TO INTRACRANIAL BYPASS using saphenous vein graft (Anaes.) (Assist.) Fee: \$2,237.50 Benefit: 75% = \$1678.15	
INFECTION		
39900	INTRACRANIAL INFECTION, drainage of, via burr-hole - including burr-hole (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40	
39903	INTRACRANIAL ABSCESS, excision of (Anaes.) (Assist.) Fee: \$1,636.35 Benefit: 75% = \$1227.30	
39906	OSTEOMYELITIS OF SKULL or removal of infected bone flap, craniectomy for (Anaes.) (Assist.) Fee: \$822.00 Benefit: 75% = \$616.50	
CEREBROSPINAL FLUID CIRCULATION DISORDERS		
40000	VENTRICULO-CISTERNOSTOMY (Torkildsen's operation) (Anaes.) (Assist.) Fee: \$946.10 Benefit: 75% = \$709.60	
40003	CRANIAL OR CISTERNAL SHUNT DIVERSION, insertion of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$946.10 Benefit: 75% = \$709.60	
40006	LUMBAR SHUNT DIVERSION, insertion of (Anaes.) (Assist.) Fee: \$744.50 Benefit: 75% = \$558.40	
40009	CRANIAL, CISTERNAL OR LUMBAR SHUNT, revision or removal of (Anaes.) (Assist.) Fee: \$542.80 Benefit: 75% = \$407.10	
40012	THIRD VENTRICULOSTOMY (open or endoscopic) with or without endoscopic septum pellucidotomy (Anaes.) (Assist.) Fee: \$1,062.40 Benefit: 75% = \$796.80	
40015	SUBTEMPORAL DECOMPRESSION (Anaes.) (Assist.) Fee: \$658.60 Benefit: 75% = \$493.95	
40018	LUMBAR CEREBROSPINAL FLUID DRAIN, insertion of (Anaes.) Fee: \$164.40 Benefit: 75% = \$123.30 85% = \$139.75	
CONGENITAL DISORDERS		
40100	MENINGOCELE, excision and closure of (Anaes.) (Assist.) Fee: \$713.35 Benefit: 75% = \$535.05	
40103	MYELOMENINGOCELE, excision and closure of, including skin flaps or Z plasty where performed (Anaes.) (Assist.) Fee: \$1,046.95 Benefit: 75% = \$785.25	
40106	ARNOLD-CHIARI MALFORMATION, decompression of (Anaes.) (Assist.) Fee: \$1,062.40 Benefit: 75% = \$796.80	
40109	ENCEPHALOCOELE, excision and closure of (Anaes.) (Assist.) Fee: \$1,147.60 Benefit: 75% = \$860.70	
40112	TETHERED CORD, release of, including lipomeningocele or diastematomyelia (Anaes.) (Assist.) Fee: \$1,473.35 Benefit: 75% = \$1105.05	
40115	CRANIOSTENOSIS, operation for - single suture (Anaes.) (Assist.) Fee: \$744.50 Benefit: 75% = \$558.40	
40118	CRANIOSTENOSIS, operation for - more than 1 suture (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
SKULL RECONSTRUCTION		
40600	CRANIOPLASTY, reconstructive (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
EPILEPSY		
40700	CORPUS CALLOSUM, anterior section of, for epilepsy (Anaes.) (Assist.) Fee: \$1,799.15 Benefit: 75% = \$1349.40	
40701	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, subcutaneous placement of	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	<p>electrical pulse generator, for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p>Fee: \$351.25 Benefit: 75% = \$263.45</p>	
40702	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of electrical pulse generator inserted for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p>Fee: \$164.40 Benefit: 75% = \$123.30</p>	
40703	<p>CORTICECTOMY, TOPECTOMY or PARTIAL LOBECTOMY for epilepsy (Anaes.) (Assist.)</p> <p>Fee: \$1,512.10 Benefit: 75% = \$1134.10</p>	
40704	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical placement of lead, including connection of lead to left vagus nerve and intra-operative test stimulation, for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p>Fee: \$695.20 Benefit: 75% = \$521.40</p>	
40705	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of lead attached to left vagus nerve for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p>Fee: \$624.30 Benefit: 75% = \$468.25</p>	
40706	<p>HEMISPHERECTOMY for intractable epilepsy (Anaes.) (Assist.)</p> <p>Fee: \$2,210.05 Benefit: 75% = \$1657.55 85% = \$2125.35</p>	
40707	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, electrical analysis and programming of vagus nerve stimulation therapy device using external wand, for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery</p> <p>Fee: \$195.65 Benefit: 75% = \$146.75 85% = \$166.35</p>	
40708	<p>Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical replacement of battery in electrical pulse generator inserted for:</p> <p>(a) management of refractory generalised epilepsy; or</p> <p>(b) treating refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.)</p> <p>Fee: \$351.25 Benefit: 75% = \$263.45</p>	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
40709	BURR-HOLE PLACEMENT of intracranial depth or surface electrodes (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40	
40712	INTRACRANIAL ELECTRODE PLACEMENT via craniotomy (Anaes.) (Assist.) Fee: \$1,077.85 Benefit: 75% = \$808.40	
STEREOTACTIC PROCEDURES		
40800	STEREOTACTIC ANATOMICAL LOCALISATION, as an independent procedure (Anaes.) (Assist.) Fee: \$658.60 Benefit: 75% = \$493.95 85% = \$573.90	
40801	FUNCTIONAL STEREOTACTIC procedure including computer assisted anatomical localisation, physiological localisation, and lesion production in the basal ganglia, brain stem or deep white matter tracts, not being a service associated with deep brain stimulation for Parkinson's disease, essential tremor or dystonia (Anaes.) (Assist.) Fee: \$1,800.35 Benefit: 75% = \$1350.30	
40803	INTRACRANIAL STEREOTACTIC PROCEDURE BY ANY METHOD, not being a service to which item 40800 or 40801 applies (Anaes.) (Assist.) Fee: \$1,233.05 Benefit: 75% = \$924.80 85% = \$1148.35	
40850	DEEP BRAIN STIMULATION (unilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of: Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or Essential tremor or dystonia where the patient's symptoms cause severe disability (Anaes.) (Assist.) Fee: \$2,335.20 Benefit: 75% = \$1751.40	
40851	DEEP BRAIN STIMULATION (bilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of: Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.) Fee: \$4,086.80 Benefit: 75% = \$3065.10	
40852	DEEP BRAIN STIMULATION (unilateral) subcutaneous placement of neurostimulator receiver or pulse generator for the treatment of: Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or	

T8. SURGICAL OPERATIONS	7. NEUROSURGICAL
	<p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.)</p> <p>Fee: \$351.25 Benefit: 75% = \$263.45</p>
40854	<p>DEEP BRAIN STIMULATION (unilateral) revision or removal of brain electrode for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$542.80 Benefit: 75% = \$407.10</p>
40856	<p>DEEP BRAIN STIMULATION (unilateral) removal or replacement of neurostimulator receiver or pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$263.45 Benefit: 75% = \$197.60</p>
40858	<p>DEEP BRAIN STIMULATION (unilateral) placement, removal or replacement of extension lead for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$542.80 Benefit: 75% = \$407.10</p>
40860	<p>DEEP BRAIN STIMULATION (unilateral) target localisation incorporating anatomical and physiological techniques, including intra-operative clinical evaluation, for the insertion of a single neurostimulation wire for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$2,085.90 Benefit: 75% = \$1564.45</p>
40862	<p>DEEP BRAIN STIMULATION (unilateral) electronic analysis and programming of neurostimulator pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$195.65 Benefit: 75% = \$146.75 85% = \$166.35</p>

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	MISCELLANEOUS	
40903	NEUROENDOSCOPY, for inspection of an intraventricular lesion, with or without biopsy including burr hole (Anaes.) (Assist.) Fee: \$571.85 Benefit: 75% = \$428.90	
40905	CRANIOTOMY, performed in association with items 45767, 45776, 45782 and 45785 for the correction of craniofacial abnormalities (Anaes.) Fee: \$620.50 Benefit: 75% = \$465.40 85% = \$535.80	
T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	Group T8. Surgical Operations	
	Subgroup 8. Ear, Nose And Throat	
41500	EAR, foreign body (other than ventilating tube) in, removal of, other than by simple syringing (Anaes.) (See para TN.8.72 of explanatory notes to this Category) Fee: \$85.05 Benefit: 75% = \$63.80 85% = \$72.30	
41501	Examination of glottal cycles and vibratory characteristics of the vocal folds by a specialist in the practice of the specialist's specialty of otolaryngology using videostroboscopy, including capturing audio, video, frequency and intensity, for confirmation of diagnosis, or for confirmation of treatment effectiveness where there is failure to progress or respond as expected, for: <ul style="list-style-type: none"> a. dysphonia where non stroboscopic techniques of the visualising the larynx have failed to identify any frank abnormality of the vocal folds; or b. benign or malignant vocal fold lesions; or c. premalignant or malignant laryngeal lesions; or d. vocal fold motion impairment or glottal insufficiency; or e. evaluation of vocal fold function after treatment or phonosurgery other than a service associated with a service to which item 41764 applies or with a services associated with the administration of a general anaesthetic (See para TN.8.76 of explanatory notes to this Category) Fee: \$191.40 Benefit: 75% = \$143.55 85% = \$162.70	
41503	EAR, foreign body in, removal of, involving incision of external auditory canal (Anaes.) Fee: \$246.25 Benefit: 75% = \$184.70 85% = \$209.35	
41506	AURAL POLYP, removal of (Anaes.) Fee: \$148.50 Benefit: 75% = \$111.40 85% = \$126.25	
41509	EXTERNAL AUDITORY MEATUS, surgical removal of keratosis obturans from, not being a service to which another item in this Group applies (Anaes.) Fee: \$168.05 Benefit: 75% = \$126.05 85% = \$142.85	
41512	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, not being a service to which item 41515 applies (Anaes.) (Assist.) Fee: \$604.20 Benefit: 75% = \$453.15	
41515	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, being a service	

T8. SURGICAL OPERATIONS	8. EAR, NOSE AND THROAT
	associated with a service to which item 41530, 41548, 41557, 41560 or 41563 applies (Anaes.) (Assist.) (See para TN.8.73 of explanatory notes to this Category) Fee: \$396.55 Benefit: 75% = \$297.45
41518	EXTERNAL AUDITORY MEATUS, removal of EXOSTOSES IN (Anaes.) (Assist.) Fee: \$957.75 Benefit: 75% = \$718.35
41521	Correction of AUDITORY CANAL STENOSIS, including meatoplasty, with or without grafting (Anaes.) (Assist.) Fee: \$1,019.70 Benefit: 75% = \$764.80
41524	RECONSTRUCTION OF EXTERNAL AUDITORY CANAL, being a service associated with a service to which items 41557, 41560 and 41563 apply (Anaes.) (Assist.) (See para TN.8.74 of explanatory notes to this Category) Fee: \$294.60 Benefit: 75% = \$220.95
41527	MYRINGOPLASTY, transcanal approach (Rosen incision) (Anaes.) (Assist.) Fee: \$605.95 Benefit: 75% = \$454.50
41530	MYRINGOPLASTY, postaural or endaural approach with or without mastoid inspection (Anaes.) Fee: \$987.20 Benefit: 75% = \$740.40
41533	ATTICOTOMY without reconstruction of the bony defect, with or without myringoplasty (Anaes.) (Assist.) Fee: \$1,180.05 Benefit: 75% = \$885.05
41536	ATTICOTOMY with reconstruction of the bony defect, with or without myringoplasty (Anaes.) (Assist.) Fee: \$1,321.75 Benefit: 75% = \$991.35
41539	OSSICULAR CHAIN RECONSTRUCTION (Anaes.) (Assist.) Fee: \$1,123.95 Benefit: 75% = \$843.00
41542	OSSICULAR CHAIN RECONSTRUCTION AND MYRINGOPLASTY (Anaes.) (Assist.) Fee: \$1,231.55 Benefit: 75% = \$923.70
41545	MASTOIDECTOMY (CORTICAL) (Anaes.) (Assist.) Fee: \$537.55 Benefit: 75% = \$403.20
41548	OBLITERATION OF THE MASTOID CAVITY (Anaes.) (Assist.) Fee: \$713.35 Benefit: 75% = \$535.05
41551	MASTOIDECTOMY, intact wall technique, with myringoplasty (Anaes.) (Assist.) Fee: \$1,642.85 Benefit: 75% = \$1232.15
41554	MASTOIDECTOMY, intact wall technique, with myringoplasty and ossicular chain reconstruction (Anaes.) (Assist.) Fee: \$1,935.60 Benefit: 75% = \$1451.70
41557	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL) (Anaes.) (Assist.) Fee: \$1,123.95 Benefit: 75% = \$843.00

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41560	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL) AND MYRINGOPLASTY (Anaes.) Fee: \$1,231.55 Benefit: 75% = \$923.70	
41563	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL), MYRINGOPLASTY AND OSSICULAR CHAIN RECONSTRUCTION (Anaes.) (Assist.) Fee: \$1,524.60 Benefit: 75% = \$1143.45	
41564	MASTOIDECTOMY (RADICAL OR MODIFIED RADICAL), OBLITERATION OF THE MASTOID CAVITY, BLIND SAC CLOSURE OF EXTERNAL AUDITORY CANAL AND OBLITERATION OF EUSTACHIAN TUBE (Anaes.) (Assist.) Fee: \$1,971.55 Benefit: 75% = \$1478.70	
41566	REVISION OF MASTOIDECTOMY (radical, modified radical or intact wall), including myringoplasty (Anaes.) (Assist.) Fee: \$1,123.95 Benefit: 75% = \$843.00	
41569	DECOMPRESSION OF FACIAL NERVE in its mastoid portion (Anaes.) (Assist.) Fee: \$1,231.55 Benefit: 75% = \$923.70	
41572	LABYRINTHOTOMY OR DESTRUCTION OF LABYRINTH (Anaes.) (Assist.) Fee: \$1,065.50 Benefit: 75% = \$799.15	
41575	CEREBELLO PONTINE ANGLE TUMOUR, removal of by 2 surgeons operating conjointly, by transmastoid, translabyrinthine or retromastoid approach transmastoid, translabyrinthine or retromastoid procedure (including aftercare) (Anaes.) (Assist.) Fee: \$2,511.75 Benefit: 75% = \$1883.85	
41576	CEREBELLO - PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach - intracranial procedure (including aftercare) not being a service to which item 41578 or 41579 applies (Anaes.) (Assist.) Fee: \$3,767.75 Benefit: 75% = \$2825.85	
41578	CEREBELLO PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, principal surgeon (Anaes.) (Assist.) Fee: \$2,511.75 Benefit: 75% = \$1883.85	
41579	CEREBELLO-PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, co-surgeon (Assist.) Fee: \$1,883.85 Benefit: 75% = \$1412.90	
41581	TUMOUR INVOLVING INFRA-TEMPORAL FOSSA, removal of, involving craniotomy and radical excision of (Anaes.) (Assist.) Fee: \$2,889.05 Benefit: 75% = \$2166.80	
41584	PARTIAL TEMPORAL BONE RESECTION for removal of tumour involving mastoidectomy with or without decompression of facial nerve (Anaes.) (Assist.) Fee: \$1,982.70 Benefit: 75% = \$1487.05	
41587	TOTAL TEMPORAL BONE RESECTION for removal of tumour (Anaes.) (Assist.) Fee: \$2,700.40 Benefit: 75% = \$2025.30	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41590	ENDOLYMPHATIC SAC, TRANSMASTOID DECOMPRESSION with or without drainage of (Anaes.) (Assist.) Fee: \$1,231.55 Benefit: 75% = \$923.70	
41593	TRANSLABYRINTHINE VESTIBULAR NERVE SECTION (Anaes.) (Assist.) Fee: \$1,605.10 Benefit: 75% = \$1203.85	
41596	RETROLABYRINTHINE VESTIBULAR NERVE SECTION or COCHLEAR NERVE SECTION, or BOTH (Anaes.) (Assist.) Fee: \$1,793.85 Benefit: 75% = \$1345.40	
41599	INTERNAL AUDITORY MEATUS, exploration by middle cranial fossa approach with cranial nerve decompression (Anaes.) (Assist.) Fee: \$1,793.85 Benefit: 75% = \$1345.40	
41603	OSSEO-INTEGRATION PROCEDURE - implantation of titanium fixture for use with implantable bone conduction hearing system device, in patients: - With a permanent or long term hearing loss; and - Unable to utilise conventional air or bone conduction hearing aid for medical or audiological reasons; and - With bone conduction thresholds that accord to recognised criteria for the implantable bone conduction hearing device being inserted. Not being a service associated with a service to which items 41554, 45794 or 45797 (Anaes.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70	
41604	OSSEO-INTEGRATION PROCEDURE - fixation of transcutaneous abutment implantation of titanium fixture for use with implantable bone conduction hearing system device, in patients: - With a permanent or long term hearing loss; and - Unable to utilise conventional air or bone conduction hearing aid for medical or audiological reasons; and - With bone conduction thresholds that accord to recognised criteria for the implantable bone conduction hearing device being inserted. Not being a service associated with a service to which items 41554, 45794 or 45797 (Anaes.) Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50	
41608	STAPEDECTOMY (Anaes.) (Assist.) Fee: \$1,123.95 Benefit: 75% = \$843.00	
41611	STAPES MOBILISATION (Anaes.) (Assist.) Fee: \$723.20 Benefit: 75% = \$542.40	
41614	ROUND WINDOW SURGERY including repair of cochleotomy (Anaes.) (Assist.) Fee: \$1,123.95 Benefit: 75% = \$843.00 85% = \$1039.25	
41615	OVAL WINDOW SURGERY, including repair of fistula, not being a service associated with a service	

T8. SURGICAL OPERATIONS	8. EAR, NOSE AND THROAT
	<p>to which any other item in this Group applies (Anaes.) (Assist.)</p> <p>Fee: \$1,123.95 Benefit: 75% = \$843.00 85% = \$1039.25</p>
41617	<p>COCHLEAR IMPLANT, insertion of, including mastoidectomy (Anaes.) (Assist.)</p> <p>Fee: \$1,954.40 Benefit: 75% = \$1465.80</p>
41618	<p>Middle ear implant, partially implantable, insertion of, via mastoidectomy, for patients with:</p> <p>(a) stable sensorineural hearing loss; and</p> <p>(b) outer ear pathology that prevents the use of a conventional hearing aid; and</p> <p>(c) a PTA4 of less than 80 dBHL; and</p> <p>(d) bilateral, symmetrical hearing loss with PTA thresholds in both ears within 20 dBHL (0.5-4kHz) of each other; and</p> <p>(e) speech perception discrimination of at least 65% correct for word lists with appropriately amplified sound; and</p> <p>(f) a normal middle ear; and</p> <p>(g) normal tympanometry; and</p> <p>(h) on audiometry, an air-bone gap of less than 10 dBHL (0.5-4kHz) across all frequencies; and</p> <p>(i) no other inner ear disorders</p> <p>(Anaes.) (Assist.)</p> <p>Fee: \$1,935.60 Benefit: 75% = \$1451.70</p>

42515	GLOBE, EVISCERATION OF, AND INSERTION OF INTRASCLERAL BALL OR CARTILAGE (Anaes.) (Assist.) Fee: \$628.10 Benefit: 75% = \$471.10	
42518	ANOPHTHALMIC ORBIT, INSERTION OF CARTILAGE OR ARTIFICIAL IMPLANT as a delayed procedure, or REMOVAL OF IMPLANT FROM SOCKET, or PLACEMENT OF A MOTILITY INTEGRATING PEG by drilling into an existing orbital implant (Anaes.) (Assist.) Fee: \$364.40 Benefit: 75% = \$273.30	
42521	ANOPHTHALMIC SOCKET, treatment of, by insertion of a wired-in conformer, integrated implant or dermofat graft, as a secondary procedure (Anaes.) (Assist.) Fee: \$1,240.80 Benefit: 75% = \$930.60	
42524	ORBIT, SKIN GRAFT TO, as a delayed procedure (Anaes.) Fee: \$210.95 Benefit: 75% = \$158.25 85% = \$179.35	
42527	CONTRACTED SOCKET, RECONSTRUCTION INCLUDING MUCOUS MEMBRANE GRAFTING AND STENT MOULD (Anaes.) (Assist.) Fee: \$418.75 Benefit: 75% = \$314.10	
42530	ORBIT, EXPLORATION with or without biopsy, requiring REMOVAL OF BONE (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65	
42533	ORBIT, EXPLORATION OF, with drainage or biopsy not requiring removal of bone (Anaes.) (Assist.) Fee: \$418.75 Benefit: 75% = \$314.10	
42536	ORBIT, EXENTERATION OF, with or without skin graft and with or without temporalis muscle transplant (Anaes.) (Assist.) Fee: \$860.65 Benefit: 75% = \$645.50	
42539	ORBIT, EXPLORATION OF, with removal of tumour or foreign body, requiring removal of bone (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$1,225.30	Benefit: 75% = \$919.00
42542	ORBIT, exploration of anterior aspect with removal of tumour or foreign body (Anaes.) (Assist.) Fee: \$519.60 Benefit: 75% = \$389.70	
42543	ORBIT, exploration of retrobulbar aspect with removal of tumour or foreign body (Anaes.) (Assist.) Fee: \$911.45 Benefit: 75% = \$683.60	
42545	ORBIT, decompression of, for dysthyroid eye disease, by fenestration of 2 or more walls, or by the removal of intraorbital peribulbar and retrobulbar fat from each quadrant of the orbit, 1 eye (Anaes.) (Assist.) Fee: \$1,318.30 Benefit: 75% = \$988.75	
42548	OPTIC NERVE MENINGES, incision of (Anaes.) (Assist.) Fee: \$783.10 Benefit: 75% = \$587.35	
42551	EYE, PENETRATING WOUND OR RUPTURE OF, not involving intraocular structures repair involving suture of cornea or sclera, or both, not being a service to which item 42632 applies (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65 85% = \$566.80	
42554	EYE, PENETRATING WOUND OR RUPTURE OF, with incarceration or prolapse of uveal tissue repair (Anaes.) (Assist.) Fee: \$760.05 Benefit: 75% = \$570.05	
42557	EYE, PENETRATING WOUND OR RUPTURE OF, with incarceration of lens or vitreous repair (Anaes.) (Assist.) Fee: \$1,062.40 Benefit: 75% = \$796.80	
42563	INTRAOCULAR FOREIGN BODY, removal from anterior segment (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40 85% = \$454.95	
42569	INTRAOCULAR FOREIGN BODY, removal from posterior segment (Anaes.) (Assist.) Fee: \$1,062.40 Benefit: 75% = \$796.80	
42572	ORBITAL ABSCESS OR CYST, drainage of (Anaes.) Fee: \$121.05 Benefit: 75% = \$90.80 85% = \$102.90	
42573	DERMOID, periorbital, excision of, on a person 10 years of age or over (Anaes.) Fee: \$234.55 Benefit: 75% = \$175.95 85% = \$199.40	
42574	DERMOID, orbital, excision of (Anaes.) (Assist.) Fee: \$498.35 Benefit: 75% = \$373.80 85% = \$423.60	
42575	TARSAL CYST, extirpation of (Anaes.) Fee: \$85.30 Benefit: 75% = \$64.00 85% = \$72.55	
42576	DERMOID, periorbital, excision of, on a person under 10 years of age (Anaes.) Fee: \$304.95 Benefit: 75% = \$228.75 85% = \$259.25	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42581	ECTROPION OR ENTROPION, tarsal cauterisation of (Anaes.) Fee: \$121.05 Benefit: 75% = \$90.80 85% = \$102.90	
42584	TARSORRHAPHY (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65	
42587	TRICHIASIS (due to causes other than trachoma), treatment of by cryotherapy, laser or electrolysis - each eyelid (Anaes.) Fee: \$53.60 Benefit: 75% = \$40.20 85% = \$45.60	
42588	TRICHIASIS (due to trachoma), treatment of by cryotherapy, laser or electrolysis - each eyelid (Anaes.) Fee: \$53.60 Benefit: 75% = \$40.20 85% = \$45.60	
42590	CANTHOPLASTY, medial or lateral (Anaes.) (Assist.) Fee: \$348.90 Benefit: 75% = \$261.70 85% = \$296.60 Extended Medicare Safety Net Cap: \$279.15	
42593	LACRIMAL GLAND, excision of palpebral lobe (Anaes.) Fee: \$210.95 Benefit: 75% = \$158.25	
42596	LACRIMAL SAC, excision of, or operation on (Anaes.) (Assist.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70	
42599	LACRIMAL CANALICULAR SYSTEM, establishment of patency by closed operation using silicone tubes or similar, 1 eye (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65 85% = \$566.80	
42602	LACRIMAL CANALICULAR SYSTEM, establishment of patency by open operation, 1 eye (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65 85% = \$566.80	
42605	LACRIMAL CANALICULUS, immediate repair of (Anaes.) (Assist.) Fee: \$480.65 Benefit: 75% = \$360.50 85% = \$408.60	
42608	LACRIMAL DRAINAGE by insertion of glass tube, as an independent procedure (Anaes.) (Assist.) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65	
42610	NASOLACRIMAL TUBE (unilateral), removal or replacement of, or LACRIMAL PASSAGES, probing for obstruction, unilateral, with or without lavage - under general anaesthesia (Anaes.) Fee: \$99.25 Benefit: 75% = \$74.45 85% = \$84.40	
42611	NASOLACRIMAL TUBE (bilateral), removal or replacement of, or LACRIMAL PASSAGES, probing for obstruction, bilateral, with or without lavage - under general anaesthesia (Anaes.) Fee: \$148.85 Benefit: 75% = \$111.65 85% = \$126.55	
42614	NASOLACRIMAL TUBE (unilateral), removal or replacement of, or LACRIMAL PASSAGES, probing to establish patency of the lacrimal passage and/or site of obstruction, unilateral, including lavage, not being a service associated with a service to which item 42610 applies (excluding aftercare) (See para TN.8.4 of explanatory notes to this Category) Fee: \$49.80 Benefit: 75% = \$37.35 85% = \$42.35	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42615	NASOLACRIMAL TUBE (bilateral), removal or replacement of, or LACRIMAL PASSAGES, probing to establish patency of the lacrimal passage and/or site of obstruction, bilateral, including lavage, not being a service associated with a service to which item 42611 applies (excluding aftercare)	Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35
42617	PUNCTUM SNIP operation (Anaes.)	Fee: \$141.25 Benefit: 75% = \$105.95 85% = \$120.10
42620	PUNCTUM, occlusion of, by use of a plug (Anaes.)	Fee: \$54.30 Benefit: 75% = \$40.75 85% = \$46.20
42622	PUNCTUM, permanent occlusion of, by use of electrical cautery (Anaes.)	Fee: \$85.30 Benefit: 75% = \$64.00 85% = \$72.55
42623	DACRYOCYSTORHINOSTOMY (Anaes.) (Assist.)	Fee: \$721.30 Benefit: 75% = \$541.00
42626	DACRYOCYSTORHINOSTOMY where a previous dacryocystorhinostomy has been performed (Anaes.) (Assist.)	Fee: \$1,163.30 Benefit: 75% = \$872.50 85% = \$1078.60
42629	CONJUNCTIVORHINOSTOMY including dacryocystorhinostomy and fashioning of conjunctival flaps (Anaes.) (Assist.)	Fee: \$876.25 Benefit: 75% = \$657.20
42632	CONJUNCTIVAL PERITOMY OR REPAIR OF CORNEAL LACERATION by conjunctival flap (Anaes.)	Fee: \$121.05 Benefit: 75% = \$90.80 85% = \$102.90
42635	CORNEAL PERFORATIONS, sealing of, with tissue adhesive (Anaes.) (Assist.)	Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65
42638	CONJUNCTIVAL GRAFT OVER CORNEA (Anaes.) (Assist.)	Fee: \$387.75 Benefit: 75% = \$290.85 85% = \$329.60
42641	AUTOCONJUNCTIVAL TRANSPLANT, or mucous membrane graft (Anaes.) (Assist.)	Fee: \$504.00 Benefit: 75% = \$378.00 85% = \$428.40
42644	CORNEA OR SCLERA, complete removal of embedded foreign body from - not more than once on the same day by the same practitioner (excluding aftercare) (Anaes.) (See para TN.8.78, TN.8.4 of explanatory notes to this Category)	Fee: \$74.40 Benefit: 75% = \$55.80 85% = \$63.25
42647	CORNEAL SCARS, removal of, by partial keratectomy, not being a service associated with a service to which item 42686 applies (Anaes.)	Fee: \$210.95 Benefit: 75% = \$158.25 85% = \$179.35
42650	CORNEA, epithelial debridement for corneal ulcer or corneal erosion (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category)	Fee: \$74.40 Benefit: 75% = \$55.80 85% = \$63.25

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42651	CORNEA, epithelial debridement for eliminating band keratopathy (Anaes.) Fee: \$165.80 Benefit: 75% = \$124.35 85% = \$140.95	
42652	Corneal collagen cross linking, on a person with a corneal ectatic disorder, with evidence of progression—per eye. (Anaes.) (See para TN.8.136 of explanatory notes to this Category) Fee: \$1,237.50 Benefit: 75% = \$928.15 85% = \$1152.80	
42653	CORNEA transplantation of (Anaes.) (Assist.) Fee: \$1,348.60 Benefit: 75% = \$1011.45	
42656	CORNEA, transplantation of, second and subsequent procedures (Anaes.) (Assist.) Fee: \$1,721.60 Benefit: 75% = \$1291.20	
42662	SCLERA, transplantation of, full thickness, including collection of donor material (Anaes.) (Assist.) Fee: \$930.50 Benefit: 75% = \$697.90	
42665	SCLERA, transplantation of, superficial or lamellar, including collection of donor material (Anaes.) (Assist.) Fee: \$620.45 Benefit: 75% = \$465.35 85% = \$535.75	
42667	RUNNING CORNEAL SUTURE, manipulation of, performed within 4 months of corneal grafting, to reduce astigmatism where a reduction of 2 dioptres of astigmatism is obtained, including any associated consultation Fee: \$146.35 Benefit: 75% = \$109.80 85% = \$124.40	
42668	CORNEAL SUTURES, removal of, not earlier than 6 weeks after operation requiring use of slit lamp or operating microscope (Anaes.) Fee: \$77.65 Benefit: 75% = \$58.25 85% = \$66.05	
42672	CORNEAL INCISIONS, to correct corneal astigmatism of more than 1 ¹ / ₂ dioptres following anterior segment surgery, including appropriate measurements and calculations, performed as an independent procedure (Anaes.) (Assist.) (See para TN.8.79 of explanatory notes to this Category) Fee: \$930.50 Benefit: 75% = \$697.90 85% = \$845.80	
42673	ADDITIONAL CORNEAL INCISIONS, to correct corneal astigmatism of more than 1 ¹ / ₂ dioptres, including appropriate measurements and calculations, performed in conjunction with other anterior segment surgery (Anaes.) (Assist.) Fee: \$465.15 Benefit: 75% = \$348.90 85% = \$395.40	
42676	CONJUNCTIVA, biopsy of, as an independent procedure Fee: \$119.30 Benefit: 75% = \$89.50 85% = \$101.45	
42677	CONJUNCTIVA, CAUTERY OF, INCLUDING TREATMENT OF PANNUS each attendance at which treatment is given including any associated consultation (Anaes.) Fee: \$62.90 Benefit: 75% = \$47.20 85% = \$53.50	
42680	CONJUNCTIVA, cryotherapy to, for melanotic lesions or similar using CO ² or N ² O (Anaes.) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42683	CONJUNCTIVAL CYSTS, removal of, requiring admission to hospital or approved day-hospital facility (Anaes.) Fee: \$124.15 Benefit: 75% = \$93.15	
42686	PTERYGIUM, removal of (Anaes.) Fee: \$282.20 Benefit: 75% = \$211.65 85% = \$239.90	
42689	PINGUECULA, removal of, not being a service associated with the fitting of contact lenses (Anaes.) Fee: \$121.05 Benefit: 75% = \$90.80 85% = \$102.90	
42692	LIMBIC TUMOUR, removal of, excluding Pterygium (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65	
42695	LIMBIC TUMOUR, excision of, requiring keratectomy or sclerectomy, excluding Pterygium (Anaes.) (Assist.) Fee: \$465.15 Benefit: 75% = \$348.90 85% = \$395.40	
42698	LENS EXTRACTION, excluding surgery performed for the correction of refractive error <i>except for anisometropia greater than 3 diopres following the removal of cataract in the first eye</i> (Anaes.) (See para TN.8.80 of explanatory notes to this Category) Fee: \$613.30 Benefit: 75% = \$460.00 85% = \$528.60	
42701	INTRAOCULAR LENS, insertion of, excluding surgery performed for the correction of refractive error <i>except for anisometropia greater than 3 diopres following the removal of cataract in the first eye</i> (Anaes.) (See para TN.8.80 of explanatory notes to this Category) Fee: \$342.05 Benefit: 75% = \$256.55 85% = \$290.75	
42702	LENS EXTRACTION AND INSERTION OF INTRAOCULAR LENS, excluding surgery performed for the correction of refractive error except for anisometropia greater than 3 diopres following the removal of cataract in the first eye (Anaes.) Fee: \$784.40 Benefit: 75% = \$588.30 85% = \$699.70 Extended Medicare Safety Net Cap: \$117.70	
42703	INTRAOCULAR LENS or IRIS PROSTHESIS insertion of, into the posterior chamber with fixation to the iris or sclera (Anaes.) (Assist.) Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$505.20	
42704	INTRAOCULAR LENS, REMOVAL or REPOSITIONING of by open operation, not being a service associated with a service to which item 42701 applies (Anaes.) Fee: \$480.65 Benefit: 75% = \$360.50 85% = \$408.60	
42705	LENS EXTRACTION AND INSERTION OF INTRAOCULAR LENS, excluding surgery performed for the correction of refractive error except for anisometropia greater than 3 diopres following the removal of cataract in the first eye, performed in association with insertion of a trans-trabecular drainage device or devices, in a patient diagnosed with open angle glaucoma who is not adequately responsive to topical anti-glaucoma medications or who is intolerant of anti-glaucoma medication. (Anaes.) Fee: \$939.60 Benefit: 75% = \$704.70 85% = \$854.90 Extended Medicare Safety Net Cap: \$140.95	
42707	INTRAOCULAR LENS, REMOVAL of and REPLACEMENT with a different lens, excluding surgery	

T8. SURGICAL OPERATIONS	9. OPHTHALMOLOGY
	<p>performed for the correction of refractive error except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye (Anaes.)</p> <p>Fee: \$822.00 Benefit: 75% = \$616.50 85% = \$737.30</p>
42710	<p>INTRAOCULAR LENS, removal of, and replacement with a lens inserted into the posterior chamber and fixated to the iris or sclera (Anaes.) (Assist.)</p> <p>Fee: \$930.50 Benefit: 75% = \$697.90 85% = \$845.80</p>
42713	<p>IRIS SUTURING, McCannell technique or similar, for fixation of intraocular lens or repair of iris defect (Anaes.) (Assist.)</p> <p>Fee: \$387.75 Benefit: 75% = \$290.85 85% = \$329.60</p>
42716	<p>CATARACT, JUVENILE, removal of, including subsequent needlings (Anaes.) (Assist.)</p> <p>Fee: \$1,233.05 Benefit: 75% = \$924.80 85% = \$1148.35</p>
42719	<p>REMOVAL OF VITREOUS, and/or CAPSULAR or LENS MATERIAL, via a limbal approach, not being a service associated with a service to which item 42698, 42702, 42716, 42725 or 42731 applies (Anaes.) (Assist.)</p> <p>Fee: \$535.20 Benefit: 75% = \$401.40 85% = \$454.95</p>
42725	<p>Vitrectomy via pars plana sclerotomy, including one or more of the following:</p> <p>(a) removal of vitreous;</p> <p>(b) division of vitreous bands;</p> <p>(c) removal of epiretinal membranes;</p> <p>(d) capsulotomy (Anaes.) (Assist.)</p> <p>Fee: \$1,380.25 Benefit: 75% = \$1035.20</p>
42731	<p>LIMBAL OR PARS PLANA LENSECTOMY combined with vitrectomy, not being a service associated with items 42698, 42702, 42719, or 42725 (Anaes.) (Assist.)</p> <p>Fee: \$1,566.45 Benefit: 75% = \$1174.85</p>
42734	<p>Capsulotomy, other than by laser, and other than a service associated with a service to which item 42725 or 42731 applies (Anaes.) (Assist.)</p> <p>Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65</p>
42738	<p>PARACENTESIS OF ANTERIOR CHAMBER OR VITREOUS CAVITY, or both, for the injection of therapeutic substances, or the removal of aqueous or vitreous humours for diagnostic or therapeutic purposes, 1 or more of, as an independent procedure.</p> <p>(See para TN.8.121 of explanatory notes to this Category)</p> <p>Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65</p> <p>Extended Medicare Safety Net Cap: \$248.15</p>
42739	<p>PARACENTESIS OF ANTERIOR CHAMBER OR VITREOUS CAVITY, or both, for the injection of therapeutic substances, or the removal of aqueous or vitreous humours for diagnostic or therapeutic purposes, 1 or more of, as an independent procedure, for a patient requiring anaesthetic services. (Anaes.)</p> <p>(See para TN.8.121 of explanatory notes to this Category)</p>

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65 Extended Medicare Safety Net Cap: \$248.15	
42740	INTRA-VITREAL INJECTION OF THERAPEUTIC SUBSTANCES, or the removal of vitreous humour for diagnostic purposes, 1 or more of, as a procedure associated with other intraocular surgery. (Anaes.) (See para TN.8.121 of explanatory notes to this Category) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65 Extended Medicare Safety Net Cap: \$248.15	
42741	Posterior juxtasclear depot injection of a therapeutic substance, for the treatment of subfoveal choroidal neovascularisation due to age-related macular degeneration, 1 or more of (Anaes.) (See para TN.8.81 of explanatory notes to this Category) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65	
42743	ANTERIOR CHAMBER, IRRIGATION OF BLOOD FROM, as an independent procedure (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65 85% = \$566.80	
42744	Needle revision of glaucoma filtration bleb, following glaucoma filtering procedure (Anaes.) Fee: \$309.95 Benefit: 75% = \$232.50 85% = \$263.50	
42746	GLAUCOMA, filtering operation for, where conservative therapies have failed, are likely to fail, or are contraindicated (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
42749	GLAUCOMA, filtering operation for, where previous filtering operation has been performed (Anaes.) (Assist.) Fee: \$1,233.05 Benefit: 75% = \$924.80	
42752	GLAUCOMA, insertion of drainage device incorporating an extraocular reservoir for, such as a Molteno device (Anaes.) (Assist.) (See para TN.8.83 of explanatory notes to this Category) Fee: \$1,380.25 Benefit: 75% = \$1035.20	
42755	GLAUCOMA, removal of drainage device incorporating an extraocular reservoir for, such as a Molteno device (Anaes.) Fee: \$170.60 Benefit: 75% = \$127.95 85% = \$145.05	
42758	Goniotomy for the treatment of primary congenital glaucoma, excluding the minimally invasive implantation of glaucoma drainage devices (Anaes.) (Assist.) Fee: \$721.30 Benefit: 75% = \$541.00	
42761	DIVISION OF ANTERIOR OR POSTERIOR SYNECHIAE, as an independent procedure, other than by laser (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40 85% = \$454.95	
42764	IRIDECTOMY (including excision of tumour of iris) OR IRIDOTOMY, as an independent procedure, other than by laser (Anaes.) (Assist.) Fee: \$535.20 Benefit: 75% = \$401.40 85% = \$454.95	
42767	TUMOUR, INVOLVING CILIARY BODY OR CILIARY BODY AND IRIS, excision of (Anaes.)	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	(Assist.) Fee: \$1,124.40 Benefit: 75% = \$843.30	
42770	CYCLODESTRUCTIVE procedures for the treatment of intractable glaucoma, treatment to 1 eye, to a maximum of 2 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.82 of explanatory notes to this Category) Fee: \$304.00 Benefit: 75% = \$228.00 85% = \$258.40	
42773	DETACHED RETINA, pneumatic retinopexy for, not being a service associated with a service to which item 42776 applies (Anaes.) (Assist.) Fee: \$930.50 Benefit: 75% = \$697.90 85% = \$845.80	
42776	DETACHED RETINA, buckling or resection operation for (Anaes.) (Assist.) Fee: \$1,380.25 Benefit: 75% = \$1035.20	
42779	DETACHED RETINA, revision of scleral buckling operation for (Anaes.) (Assist.) Fee: \$1,721.60 Benefit: 75% = \$1291.20	
42782	LASER TRABECULOPLASTY, for the treatment of glaucoma. Each treatment to 1 eye, to a maximum of 4 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.84 of explanatory notes to this Category) Fee: \$465.15 Benefit: 75% = \$348.90 85% = \$395.40	
42785	LASER IRIDOTOMY - each treatment episode to 1 eye, to a maximum of 3 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.85 of explanatory notes to this Category) Fee: \$364.40 Benefit: 75% = \$273.30 85% = \$309.75	
42788	Laser capsulotomy—each treatment episode to one eye, to a maximum of 2 treatments to that eye in a 2 year period—other than a service associated with a service to which item 42702 applies (Anaes.) (Assist.) (See para TN.8.86 of explanatory notes to this Category) Fee: \$364.40 Benefit: 75% = \$273.30 85% = \$309.75	
42791	Laser vitreolysis or corticolysis of lens material or fibrinolysis, excluding vitreolysis in the posterior vitreous cavity—each treatment to one eye, to a maximum of 3 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.87 of explanatory notes to this Category) Fee: \$364.40 Benefit: 75% = \$273.30 85% = \$309.75	
42794	DIVISION OF SUTURE BY LASER following glaucoma filtration surgery, each treatment to 1 eye, to a maximum of 2 treatments to that eye in a 2 year period (Anaes.) (See para TN.8.88 of explanatory notes to this Category) Fee: \$69.80 Benefit: 75% = \$52.35 85% = \$59.35	
42801	EPISCLERAL RADIOACTIVE PLAQUE (Ruthenium 106 or Iodine 125), for the treatment of choroidal melanomas, insertion of (Anaes.) (Assist.) Fee: \$1,082.50 Benefit: 75% = \$811.90	
42802	EPISCLERAL RADIOACTIVE PLAQUE (Ruthenium 106 or Iodine 125), for the treatment of choroidal melanomas, removal of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$541.10 Benefit: 75% = \$405.85	
42805	TANTALUM MARKERS, surgical insertion to the sclera to localise the tumour base to assist in planning of radiotherapy of choroidal melanomas, 1 or more (Anaes.) (Assist.) Fee: \$604.85 Benefit: 75% = \$453.65 85% = \$520.15	
42806	IRIS TUMOUR, laser photocoagulation of (Anaes.) (Assist.) Fee: \$364.40 Benefit: 75% = \$273.30 85% = \$309.75	
42807	PHOTOMYDRIASIS, laser Fee: \$366.90 Benefit: 75% = \$275.20 85% = \$311.90	
42808	Laser peripheral iridoplasty Fee: \$366.90 Benefit: 75% = \$275.20 85% = \$311.90	
42809	RETINA, photocoagulation of, not being a service associated with photodynamic therapy with verteporfin (Anaes.) (Assist.) Fee: \$465.15 Benefit: 75% = \$348.90 85% = \$395.40	
42810	PHOTOTHERAPEUTIC KERATECTOMY, by laser, for corneal scarring or disease, excluding surgery for refractive error (Anaes.) Fee: \$585.45 Benefit: 75% = \$439.10 85% = \$500.75	
42811	TRANSPUPILLARY THERMOTHERAPY, for treatment of choroidal and retinal tumours or vascular malformations (Anaes.) Fee: \$465.15 Benefit: 75% = \$348.90 85% = \$395.40	
42812	Removal of scleral buckling material, from an eye having undergone previous scleral buckling surgery (Anaes.) Fee: \$170.60 Benefit: 75% = \$127.95 85% = \$145.05	
42815	VITREOUS CAVITY, removal of silicone oil or other liquid vitreous substitutes from, during a procedure other than that in which the vitreous substitute is inserted (Anaes.) (Assist.) Fee: \$651.50 Benefit: 75% = \$488.65	
42818	RETINA, CRYOTHERAPY TO, as an independent procedure, or when performed in conjunction with item 42809 or 42770 (Anaes.) Fee: \$604.85 Benefit: 75% = \$453.65 85% = \$520.15	
42821	OCULAR TRANSILLUMINATION, for the diagnosis and measurement of intraocular tumours (Anaes.) Fee: \$93.20 Benefit: 75% = \$69.90 85% = \$79.25	
42824	RETROBULBAR INJECTION OF ALCOHOL OR OTHER DRUG, as an independent procedure Fee: \$72.05 Benefit: 75% = \$54.05 85% = \$61.25	
42833	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 1 OR 2 MUSCLES on a patient aged 15 years or over (Anaes.) (Assist.) Fee: \$604.85 Benefit: 75% = \$453.65	
42836	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 1 OR 2	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	MUSCLES, on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.)	
	Fee: \$752.20 Benefit: 75% = \$564.15	
42839	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 3 OR MORE MUSCLES on a patient aged 15 years or over (Anaes.) (Assist.)	
	Fee: \$721.30 Benefit: 75% = \$541.00	
42842	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 3 or MORE MUSCLES, on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.)	
	Fee: \$899.55 Benefit: 75% = \$674.70	
42845	READJUSTMENT OF ADJUSTABLE SUTURES, 1 or both eyes, as an independent procedure following an operation for correction of squint (Anaes.) (See para TN.8.89 of explanatory notes to this Category)	
	Fee: \$195.35 Benefit: 75% = \$146.55 85% = \$166.05	
42848	SQUINT, muscle transplant for (Hummelsheim type, or similar operation) on a patient aged 15 years or over (Anaes.) (Assist.)	
	Fee: \$721.30 Benefit: 75% = \$541.00	
42851	SQUINT, muscle transplant for (Hummelsheim type, or similar operation) on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.)	
	Fee: \$899.55 Benefit: 75% = \$674.70	
42854	RUPTURED MEDIAL PALPEBRAL LIGAMENT or ruptured EXTRAOCULAR MUSCLE, repair of (Anaes.) (Assist.)	
	Fee: \$418.75 Benefit: 75% = \$314.10 85% = \$355.95	
42857	RESUTURING OF WOUND FOLLOWING INTRAOCULAR PROCEDURES with or without excision of prolapsed iris (Anaes.) (Assist.)	
	Fee: \$418.75 Benefit: 75% = \$314.10 85% = \$355.95	
42860	EYELID (upper or lower), scleral or Goretex or other non-autogenous graft to, with recession of the lid retractors (Anaes.) (Assist.)	
	Fee: \$930.50 Benefit: 75% = \$697.90 85% = \$845.80	
42863	EYELID, recession of (Anaes.) (Assist.)	
	Fee: \$798.75 Benefit: 75% = \$599.10 85% = \$714.05	
42866	ENTROPION or TARSAL ECTROPION, repair of, by tightening, shortening or repair of inferior retractors by open operation across the entire width of the eyelid (Anaes.) (Assist.)	
	Fee: \$775.35 Benefit: 75% = \$581.55 85% = \$690.65	
42869	EYELID closure in facial nerve paralysis, insertion of foreign implant for (Anaes.) (Assist.)	
	Fee: \$566.15 Benefit: 75% = \$424.65 85% = \$481.45	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42872	EYEBROW, elevation of, by skin excision, to correct for a reduced field of vision caused by parietic, involuntional, or traumatic eyebrow descent/ptosis to a position below the superior orbital rim (Anaes.) Fee: \$248.20 Benefit: 75% = \$186.15 85% = \$211.00	
43021	Photodynamic therapy, one eye, including the infusion of Verteporfin continuously through a peripheral vein, using a non-thermal laser at a wavelength of 689nm, for the treatment of choroidal neovascularisation. Fee: \$469.30 Benefit: 75% = \$352.00 85% = \$398.95	
43022	Photodynamic therapy, both eyes, including the infusion of Verteporfin continuously through a peripheral vein, using a non-thermal laser at a wavelength of 689nm, for the treatment of choroidal neovascularisation. Fee: \$563.20 Benefit: 75% = \$422.40 85% = \$478.75	
43023	Infusion of Verteporfin for discontinued photodynamic therapy, where a session of therapy which would have been provided under item 43021 or 43022 has been discontinued on medical grounds. Fee: \$91.25 Benefit: 75% = \$68.45 85% = \$77.60	
T8. SURGICAL OPERATIONS		10. OPERATIONS FOR OSTEOMYELITIS
	Group T8. Surgical Operations	
	Subgroup 10. Operations For Osteomyelitis	
	ACUTE	
	OPERATION ON PHALANX (Anaes.)	
43500	Fee: \$127.20 Benefit: 75% = \$95.40	
	OPERATION ON STERNUM, CLAVICLE, RIB, ULNA, RADIUS, CARPUS, TIBIA, FIBULA, TARSUS, SKULL, MANDIBLE OR MAXILLA (other than alveolar margins) 1 BONE (Anaes.)	
43503	Fee: \$211.10 Benefit: 75% = \$158.35	
	OPERATION ON HUMERUS OR FEMUR 1 BONE (Anaes.) (Assist.)	
43506	Fee: \$367.50 Benefit: 75% = \$275.65	
	OPERATION ON SPINE OR PELVIC BONES 1 BONE (Anaes.) (Assist.)	
43509	Fee: \$367.50 Benefit: 75% = \$275.65	
	CHRONIC	
	OPERATION ON SCAPULA, STERNUM, CLAVICLE, RIB, ULNA, RADIUS, METACARPUS, CARPUS, PHALANX, TIBIA, FIBULA, METATARSUS, TARSUS, MANDIBLE OR MAXILLA (other than alveolar margins) 1 BONE or ANY COMBINATION OF ADJOINING BONES (Anaes.) (Assist.)	
43512	Fee: \$367.50 Benefit: 75% = \$275.65	
	OPERATION ON HUMERUS OR FEMUR 1 BONE (Anaes.) (Assist.)	
43515	Fee: \$367.50 Benefit: 75% = \$275.65 85% = \$312.40	
	OPERATION ON SPINE OR PELVIC BONES 1 BONE (Anaes.) (Assist.)	
43518		

T8. SURGICAL OPERATIONS		10. OPERATIONS FOR OSTEOMYELITIS
	Fee: \$605.95 Benefit: 75% = \$454.50	
43521	OPERATION ON SKULL (Anaes.) (Assist.) Fee: \$479.05 Benefit: 75% = \$359.30	
43524	OPERATION ON ANY COMBINATION OF ADJOINING BONES, being bones referred to in item 43515, 43518 or 43521 (Anaes.) (Assist.) Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25	
T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	Group T8. Surgical Operations	
	Subgroup 11. Paediatric	
	SURGERY IN NEONATE OR YOUNG CHILD	
43801	INTESTINAL MALROTATION with or without volvulus, laparotomy for, not involving bowel resection (Anaes.) (Assist.) Fee: \$987.20 Benefit: 75% = \$740.40	
43804	INTESTINAL MALROTATION with or without volvulus, laparotomy for, with bowel resection and anastomosis, with or without formation of stoma (Anaes.) (Assist.) Fee: \$1,051.10 Benefit: 75% = \$788.35	
43805	UMBILICAL, EPIGASTRIC OR LINEA ALBA HERNIA, repair of, on a person under 10 years of age (Anaes.) Fee: \$367.50 Benefit: 75% = \$275.65	
43807	DUODENAL ATRESIA or STENOSIS, duodenoduodenostomy or duodenojejunosomy for (Anaes.) (Assist.) Fee: \$1,146.75 Benefit: 75% = \$860.10	
43810	JEJUNAL ATRESIA, bowel resection and anastomosis for, with or without tapering (Anaes.) (Assist.) Fee: \$1,337.85 Benefit: 75% = \$1003.40	
43813	MECONIUM ILEUS, laparotomy for, complicated by 1 or more of associated volvulus, atresia, intestinal perforation with or without meconium peritonitis (Anaes.) (Assist.) Fee: \$1,337.85 Benefit: 75% = \$1003.40	
43816	ILEAL ATRESIA, COLONIC ATRESIA OR MECONIUM ILEUS not being a service associated with a service to which item 43813 applies, laparotomy for (Anaes.) (Assist.) Fee: \$1,242.20 Benefit: 75% = \$931.65	
43819	Aganglions Coli, laparotomy for, with or without frozen section biopsies and formation of stoma (Anaes.) (Assist.) Fee: \$1,003.35 Benefit: 75% = \$752.55	
43822	ANORECTAL MALFORMATION, laparotomy and colostomy for (Anaes.) (Assist.) Fee: \$1,003.35 Benefit: 75% = \$752.55	
43825	NEONATAL ALIMENTARY OBSTRUCTION, laparotomy for, not being a service to which any other	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	item in this Subgroup applies (Anaes.) (Assist.)	
	Fee: \$1,146.75 Benefit: 75% = \$860.10	
43828	ACUTE NEONATAL NECROTISING ENTEROCOLITIS, laparotomy for, with resection, including any anastomoses or stoma formation (Anaes.) (Assist.)	
	Fee: \$1,266.90 Benefit: 75% = \$950.20	
43831	ACUTE NEONATAL NECROTISING ENTEROCOLITIS where no definitive procedure is possible, laparotomy for (Anaes.) (Assist.)	
	Fee: \$987.20 Benefit: 75% = \$740.40	
43832	BRANCHIAL FISTULA, on a person under 10 years of age. Removal of, (Anaes.) (Assist.)	
	Fee: \$673.35 Benefit: 75% = \$505.05	
43834	BOWEL RESECTION for necrotising enterocolitis stricture or strictures, including any anastomoses or stoma formation (Anaes.) (Assist.)	
	Fee: \$1,146.75 Benefit: 75% = \$860.10	
43835	STRANGULATED, INCARCERATED OR OBSTRUCTED HERNIA, repair of, without bowel resection, on a person under 10 years of age (Anaes.) (Assist.)	
	Fee: \$698.85 Benefit: 75% = \$524.15	
43837	CONGENITAL DIAPHRAGMATIC HERNIA, repair by thoracic or abdominal approach, with diagnosis confirmed in the first 24 hours of life (Anaes.) (Assist.)	
	Fee: \$1,433.35 Benefit: 75% = \$1075.05	
43838	Diaphragmatic hernia, congenital repair of, by thoracic or abdominal approach, not being a service to which any of items 31569 to 31581 apply, on a person under 10 years of age (Anaes.) (Assist.)	
	Fee: \$1,283.35 Benefit: 75% = \$962.55	
43840	CONGENITAL DIAPHRAGMATIC HERNIA, repair by thoracic or abdominal approach, diagnosed after the first day of life and before 20 days of age (Anaes.) (Assist.)	
	Fee: \$1,242.20 Benefit: 75% = \$931.65	
43841	FEMORAL OR INGUINAL HERNIA OR INFANTILE HYDROCELE, repair of, not being a service to which item 30403 or 43835 applies, on a person under 10 years of age (Anaes.) (Assist.)	
	Fee: \$622.70 Benefit: 75% = \$467.05	
43843	OESOPHAGEAL ATRESIA (with or without repair of tracheo-oesophageal fistula), complete correction of, not being a service to which item 43846 applies (Anaes.) (Assist.)	
	Fee: \$1,911.25 Benefit: 75% = \$1433.45	
43846	OESOPHAGEAL ATRESIA (with or without repair of tracheo-oesophageal fistula), complete correction of, in infant of birth weight less than 1500 grams (Anaes.) (Assist.)	
	Fee: \$2,054.55 Benefit: 75% = \$1540.95	
43849	OESOPHAGEAL ATRESIA, gastrostomy for (Anaes.) (Assist.)	
	Fee: \$525.55 Benefit: 75% = \$394.20	
43852	OESOPHAGEAL ATRESIA, thoracotomy for, and division of tracheo-oesophageal fistula without	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	anastomosis (Anaes.) (Assist.)	
	Fee: \$1,672.20 Benefit: 75% = \$1254.15	
43855	OESOPHAGEAL ATRESIA, delayed primary anastomosis for (Anaes.) (Assist.)	
	Fee: \$1,767.95 Benefit: 75% = \$1326.00	
43858	OESOPHAGEAL ATRESIA, cervical oesophagostomy for (Anaes.) (Assist.)	
	Fee: \$621.10 Benefit: 75% = \$465.85	
43861	CONGENITAL CYSTADENOMATOID MALFORMATION OR CONGENITAL LOBAR EMPHYSEMA, thoracotomy and lung resection for (Anaes.) (Assist.)	
	Fee: \$1,720.15 Benefit: 75% = \$1290.15	
43864	GASTROSCHISIS, operation for (Anaes.) (Assist.)	
	Fee: \$1,290.10 Benefit: 75% = \$967.60	
43867	GASTROSCHISIS or Exomphalos, secondary operation for, with removal of silo (Anaes.) (Assist.)	
	Fee: \$716.70 Benefit: 75% = \$537.55	
43870	EXOMPHALOS containing small bowel only, operation for (Anaes.) (Assist.)	
	Fee: \$1,003.35 Benefit: 75% = \$752.55	
43873	EXOMPHALOS containing small bowel and other viscera, operation for (Anaes.) (Assist.)	
	Fee: \$1,337.85 Benefit: 75% = \$1003.40	
43876	SACROCOCCYGEAL TERATOMA, excision of, by posterior approach (Anaes.) (Assist.)	
	Fee: \$1,146.75 Benefit: 75% = \$860.10	
43879	SACROCOCCYGEAL TERATOMA, excision of, by combined posterior and abdominal approach (Anaes.) (Assist.)	
	Fee: \$1,337.85 Benefit: 75% = \$1003.40	
43882	CLOACAL EXSTROPHY, operation for (Anaes.) (Assist.)	
	Fee: \$1,720.15 Benefit: 75% = \$1290.15 85% = \$1635.45	
THORACIC SURGERY		
43900	TRACHEO-OESOPHAGEAL FISTULA without atresia, division and repair of (Anaes.) (Assist.)	
	Fee: \$1,146.75 Benefit: 75% = \$860.10	
43903	OESOPHAGEAL ATRESIA or CORROSIVE OESOPHAGEAL STRICTURE, oesophageal replacement for, utilizing gastric tube, jejunum or colon (Anaes.) (Assist.)	
	Fee: \$1,911.25 Benefit: 75% = \$1433.45	
43906	OESOPHAGUS, resection of congenital, anastomotic or corrosive stricture and anastomosis, not being a service to which item 43903 applies (Anaes.) (Assist.)	
	Fee: \$1,672.20 Benefit: 75% = \$1254.15	
43909	TRACHEOMALACIA, aortopexy for (Anaes.) (Assist.)	
	Fee: \$1,672.20 Benefit: 75% = \$1254.15	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	THORACOTOMY and excision of 1 or more of bronchogenic or enterogenous cyst or mediastinal teratoma (Anaes.) (Assist.)	
43912	Fee: \$1,579.85	Benefit: 75% = \$1184.90
	EVENTRATION, plication of diaphragm for (Anaes.) (Assist.)	
43915	Fee: \$1,194.50	Benefit: 75% = \$895.90
	ABDOMINAL SURGERY	
	HYPERTROPHIC PYLORIC STENOSIS, pyloromyotomy for (Anaes.) (Assist.)	
43930	Fee: \$459.35	Benefit: 75% = \$344.55
	IDIOPATHIC INTUSSUSCEPTION, laparotomy and manipulative reduction of (Anaes.) (Assist.)	
43933	Fee: \$537.70	Benefit: 75% = \$403.30
	INTUSSUSCEPTION, laparotomy and resection with anastomosis (Anaes.) (Assist.)	
43936	Fee: \$1,003.35	Benefit: 75% = \$752.55
	VENTRAL HERNIA following neonatal closure of exomphalos or gastroschisis, repair of (Anaes.) (Assist.)	
43939	Fee: \$764.45	Benefit: 75% = \$573.35
	ABDOMINAL WALL VITELLO INTESTINAL REMNANT, excision of (Anaes.)	
43942	Fee: \$238.95	Benefit: 75% = \$179.25
	PATENT VITELLO INTESTINAL DUCT, excision of (Anaes.) (Assist.)	
43945	Fee: \$1,003.35	Benefit: 75% = \$752.55
	UMBILICAL GRANULOMA, excision of, under general anaesthesia (Anaes.)	
43948	Fee: \$143.45	Benefit: 75% = \$107.60
	GASTRO-OESOPHAGEAL REFLUX with or without hiatus hernia, laparotomy and fundoplication for, without gastrostomy (Anaes.) (Assist.)	
43951	Fee: \$898.55	Benefit: 75% = \$673.95
	GASTRO-OESOPHAGEAL REFLUX with or without hiatus hernia, laparotomy and fundoplication for, with gastrostomy (Anaes.) (Assist.)	
43954	Fee: \$1,099.05	Benefit: 75% = \$824.30
	GASTRO-OESOPHAGEAL REFLUX, LAPAROTOMY AND FUNDOPLICATION for, with or without hiatus hernia, in child with neurological disease, with gastrostomy (Anaes.) (Assist.)	
43957	Fee: \$1,194.50	Benefit: 75% = \$895.90
	ANORECTAL MALFORMATION, perineal anoplasty of (Anaes.) (Assist.)	
43960	Fee: \$420.20	Benefit: 75% = \$315.15
	ANORECTAL MALFORMATION, posterior sagittal anorectoplasty of (Anaes.) (Assist.)	
43963	Fee: \$1,672.20	Benefit: 75% = \$1254.15
43966	ANORECTAL MALFORMATION, posterior sagittal anorectoplasty of, with laparotomy (Anaes.)	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	(Assist.) Fee: \$1,911.25 Benefit: 75% = \$1433.45	
43969	PERSISTENT CLOACA, total correction of, with genital repair using posterior sagittal approach, with or without laparotomy (Anaes.) (Assist.) Fee: \$2,627.95 Benefit: 75% = \$1971.00	
43972	CHOLEDOCHAL CYST, resection of, with 1 duct anastomosis (Anaes.) (Assist.) Fee: \$1,911.25 Benefit: 75% = \$1433.45	
43975	CHOLEDOCHAL CYST, resection of, with 2 duct anastomoses (Anaes.) (Assist.) Fee: \$2,245.75 Benefit: 75% = \$1684.35	
43978	BILIARY ATRESIA, portoenterostomy for (Anaes.) (Assist.) Fee: \$1,911.25 Benefit: 75% = \$1433.45	
43981	NEPHROBLASTOMA, NEUROBLASTOMA OR OTHER MALIGNANT TUMOUR, laparotomy (exploratory), including associated biopsies, where no other intra-abdominal procedure is performed (Anaes.) (Assist.) Fee: \$525.55 Benefit: 75% = \$394.20	
43984	NEPHROBLASTOMA, radical nephrectomy for (Anaes.) (Assist.) Fee: \$1,337.85 Benefit: 75% = \$1003.40	
43987	NEUROBLASTOMA, radical excision of (Anaes.) (Assist.) Fee: \$1,481.30 Benefit: 75% = \$1111.00	
43990	Aganglioneosis Coli, definitive resection with pull-through anastomosis, with or without frozen section biopsies, when aganglionic segment extends to sigmoid colon (Anaes.) (Assist.) Fee: \$1,815.75 Benefit: 75% = \$1361.85	
43993	Aganglioneosis Coli, definitive resection with pull-through anastomosis, with or without frozen section biopsies, when aganglionic segment extends into descending or transverse colon with or without resiting of stoma (Anaes.) (Assist.) Fee: \$1,959.00 Benefit: 75% = \$1469.25	
43996	Aganglioneosis Coli, total colectomy for total colonic aganglioneosis with ileoanal pull-through, with or without side to side ileocolic anastomosis (Anaes.) (Assist.) Fee: \$2,197.95 Benefit: 75% = \$1648.50	
43999	Aganglioneosis Coli, anal sphincterotomy as an independent procedure for (Anaes.) (Assist.) Fee: \$274.85 Benefit: 75% = \$206.15	
44101	RECTUM, examination of, on a person under 2 years of age, under general anaesthesia with full thickness biopsy or removal of polyp or similar lesion (Anaes.) (Assist.) Fee: \$344.50 Benefit: 75% = \$258.40	
44102	RECTUM, examination of, on a person 2 years of age or over, under general anaesthesia with full thickness biopsy or removal of polyp or similar lesion (Anaes.) (Assist.) Fee: \$264.95 Benefit: 75% = \$198.75	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
44104	RECTAL PROLAPSE, SUBMUCOSAL or perirectal injection for, on a person under 2 years of age, under general anaesthesia (Anaes.) Fee: \$60.50 Benefit: 75% = \$45.40 85% = \$51.45	
44105	RECTAL PROLAPSE, SUBMUCOSAL or perirectal injection for, on a person 2 years of age or over, under general anaesthesia (Anaes.) Fee: \$46.50 Benefit: 75% = \$34.90 85% = \$39.55	
44108	INGUINAL HERNIA repair at age less than 12 months (Anaes.) (Assist.) Fee: \$506.80 Benefit: 75% = \$380.10	
44111	OBSTRUCTED OR STRANGULATED INGUINAL HERNIA, repair, at age, less than 12 months including orchidopexy when performed (Anaes.) (Assist.) Fee: \$593.60 Benefit: 75% = \$445.20 85% = \$508.90	
44114	INGUINAL HERNIA repair at age less than 12 months when orchidopexy also required (Anaes.) (Assist.) Fee: \$593.60 Benefit: 75% = \$445.20	
MISCELLANEOUS SURGERY		
44130	LYMPHADENECTOMY, for atypical mycobacterial infection or other granulomatous disease (Anaes.) (Assist.) Fee: \$477.75 Benefit: 75% = \$358.35 85% = \$406.10	
44133	TORTICOLLIS, open division of sternomastoid muscle for (Anaes.) (Assist.) Fee: \$379.25 Benefit: 75% = \$284.45	
44136	INGROWN TOE NAIL, operation for, under general anaesthesia (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60

45491	FREE GRAFTING (split skin) to burns, including excision of burnt tissue - the whole of 4 digits of the hand (Anaes.) (Assist.) Fee: \$1,163.30 Benefit: 75% = \$872.50		
45492	FREE GRAFTING (split skin) to burns, including excision of burnt tissue - the whole of 5 digits of the hand (Anaes.) (Assist.) Fee: \$1,395.90 Benefit: 75% = \$1046.95		
45493	FREE GRAFTING (split skin) to burns, including excision of burnt tissue - portion of digit of hand (Anaes.) (Assist.) Fee: \$418.75 Benefit: 75% = \$314.10		
45494	FREE GRAFTING (split skin) to burns, including excision of burnt tissue - whole of face (excluding ears) (Anaes.) (Assist.) Fee: \$1,689.85 Benefit: 75% = \$1267.40 85% = \$1605.15		
OTHER GRAFTS AND MISCELLANEOUS PROCEDURES			
45496	FLAP, free tissue transfer using microvascular techniques - <i>revision of</i> , by open operation (Anaes.) Fee: \$429.05 Benefit: 75% = \$321.80		
45497	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>complete revision of</i> , by liposuction (Anaes.) Fee: \$335.10 Benefit: 75% = \$251.35		
45498	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>staged revision of</i> , by liposuction - first stage (Anaes.) Fee: \$269.75 Benefit: 75% = \$202.35		
45499	FLAP, free tissue transfer using microvascular techniques, <i>or</i> any autogenous breast reconstruction - <i>staged revision of</i> , by liposuction - second stage (Anaes.) Fee: \$201.05 Benefit: 75% = \$150.80		
45500	MICROVASCULAR REPAIR using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit (Anaes.) (Assist.) Fee: \$1,124.40 Benefit: 75% = \$843.30		
45501	MICROVASCULAR ANASTOMOSIS of artery using microsurgical techniques, for re-implantation of limb or digit (Anaes.) (Assist.) Fee: \$1,830.15 Benefit: 75% = \$1372.65		
45502	MICROVASCULAR ANASTOMOSIS of vein using microsurgical techniques, for re-implantation of limb or digit (Anaes.) (Assist.) Fee: \$1,830.15 Benefit: 75% = \$1372.65		
45503	MICRO-ARTERIAL OR MICRO-VEINOUS GRAFT using microsurgical techniques (Anaes.) (Assist.) Fee: \$2,093.80 Benefit: 75% = \$1570.35		

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45504	<p>MICROVASCULAR ANASTOMOSIS of artery using microsurgical techniques, for free transfer of tissue including setting in of free flap (Anaes.) (Assist.)</p> <p>Fee: \$1,830.15 Benefit: 75% = \$1372.65</p>
45505	<p>MICROVASCULAR ANASTOMOSIS of vein using microsurgical techniques, for free transfer of tissue including setting in of free flap (Anaes.) (Assist.)</p> <p>Fee: \$1,830.15 Benefit: 75% = \$1372.65</p>
45506	<p>SCAR, of face or neck, not more than 3 cm in length, revision of, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$226.80 Benefit: 75% = \$170.10 85% = \$192.80</p>
45512	<p>SCAR, of face or neck, more than 3 cm in length, revision of, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$304.95 Benefit: 75% = \$228.75 85% = \$259.25</p>
45515	<p>SCAR, other than on face or neck, not more than 7 cms in length, revision of, as an independent procedure, where undertaken in the operating theatre of a hospital or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50</p>
45518	<p>SCAR, other than on face or neck, more than 7 cms in length, revision of, as an independent procedure, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$232.75 Benefit: 75% = \$174.60 85% = \$197.85</p>
45519	<p>EXTENSIVE BURN SCARS OF SKIN (more than 1 percent of body surface area), excision of, for correction of scar contracture (Anaes.) (Assist.)</p> <p>Fee: \$442.45 Benefit: 75% = \$331.85</p>
45520	<p>Reduction mammoplasty (unilateral) with surgical repositioning of nipple, in the context of breast cancer or developmental abnormality of the breast (Anaes.) (Assist.)</p> <p>Fee: \$928.55 Benefit: 75% = \$696.45</p>
45522	<p>Reduction mammoplasty (unilateral) without surgical repositioning of the nipple:</p> <p>(a) excluding the treatment of gynaecomastia; and</p> <p>(b) not with insertion of any prosthesis (Anaes.) (Assist.)</p> <p>Fee: \$651.50 Benefit: 75% = \$488.65</p>
45523	<p>Reduction mammoplasty (bilateral) with surgical repositioning of the nipple:</p> <p>(a) for patients with macromastia and experiencing pain in the neck or shoulder region; and</p> <p>(b) not with insertion of any prosthesis (Anaes.) (Assist.)</p> <p>Fee: \$1,392.90 Benefit: 75% = \$1044.70</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45524	<p>Mammoplasty, augmentation (unilateral) in the context of:</p> <p>(a) breast cancer; or</p> <p>(b) developmental abnormality of the breast, if there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least:</p> <p style="padding-left: 40px;">(i) 20% in normally shaped breasts; or</p> <p style="padding-left: 40px;">(ii) 10% in tubular breasts or in breasts with abnormally high inframammary folds.</p> <p>Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p>Fee: \$764.80 Benefit: 75% = \$573.60</p>
45527	<p>Breast reconstruction (unilateral), following mastectomy, using a permanent prosthesis (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p>Fee: \$764.80 Benefit: 75% = \$573.60</p>
45528	<p>Mammoplasty, augmentation, bilateral (other than a service to which item 45527 applies), if:</p> <p>(a) reconstructive surgery is indicated because of:</p> <p style="padding-left: 40px;">(i) developmental malformation of breast tissue (excluding hypomastia); or</p> <p style="padding-left: 40px;">(ii) disease of or trauma to the breast (other than trauma resulting from previous elective cosmetic surgery); or</p> <p style="padding-left: 40px;">(iii) amastia secondary to a congenital endocrine disorder; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category)</p> <p>Fee: \$1,147.10 Benefit: 75% = \$860.35</p>
45530	<p>Breast reconstruction (unilateral), using a latissimus dorsi or other large muscle or myocutaneous flap, including repair of secondary skin defect, if required, excluding repair of muscular aponeurotic layer, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177 or 30179 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.97 of explanatory notes to this Category)</p> <p>Fee: \$1,133.75 Benefit: 75% = \$850.35</p>
45533	<p>BREAST RECONSTRUCTION using breast sharing technique (first stage) including breast reduction, transfer of complex skin and breast tissue flap, split skin graft to pedicle of flap or other similar procedure (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$1,283.95 Benefit: 75% = \$963.00</p>
45536	<p>BREAST RECONSTRUCTION using breast sharing technique (second stage) including division of pedicle, inseting of breast flap, with closure of donor site or other similar procedure (Anaes.) (Assist.)</p> <p>Fee: \$472.20 Benefit: 75% = \$354.15</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45539	<p>BREAST RECONSTRUCTION (unilateral), following mastectomy, using tissue expansion - insertion of tissue expansion unit and all attendances for subsequent expansion injections (Anaes.) (Assist.)</p> <p>Fee: \$1,104.70 Benefit: 75% = \$828.55</p>
45542	<p>BREAST RECONSTRUCTION (unilateral), following mastectomy, using tissue expansion - removal of tissue expansion unit and insertion of permanent prosthesis (Anaes.) (Assist.)</p> <p>Fee: \$632.55 Benefit: 75% = \$474.45</p>
45545	<p>NIPPLE OR AREOLA or both, reconstruction of, by any surgical technique (Anaes.) (Assist.)</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p>Fee: \$642.00 Benefit: 75% = \$481.50 85% = \$557.30</p> <p>Extended Medicare Safety Net Cap: \$513.60</p>
45546	<p>NIPPLE OR AREOLA or both, intradermal colouration of, following breast reconstruction after mastectomy or for congenital absence of nipple</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p>Fee: \$204.00 Benefit: 75% = \$153.00 85% = \$173.40</p>
45548	<p>BREAST PROSTHESIS, removal of, as an independent procedure (Anaes.)</p> <p>Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65</p>
45551	<p>Breast prosthesis, removal of, with excision of at least half of the fibrous capsule, not with insertion of any prosthesis. The excised specimen must be sent for histopathology and the volume removed must be documented in the histopathology report (Anaes.) (Assist.)</p> <p>Fee: \$457.55 Benefit: 75% = \$343.20</p>
45553	<p>Breast prosthesis, removal of and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), if:</p> <p>(a) either:</p> <p style="padding-left: 40px;">(i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or</p> <p style="padding-left: 40px;">(ii) the original implant was inserted in the context of breast cancer or developmental abnormality; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98 of explanatory notes to this Category)</p> <p>Fee: \$589.45 Benefit: 75% = \$442.10</p>
45554	<p>Breast prosthesis, removal and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), including excision of at least half of the fibrous capsule or formation of a new pocket, or both, if:</p> <p>(a) either:</p> <p style="padding-left: 40px;">(i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or</p> <p style="padding-left: 40px;">(ii) the original implant was inserted in the context of breast cancer or developmental abnormality;</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>and</p> <p>(b) the excised specimen is sent for histopathology and the volume removed is documented in the histopathology report; and</p> <p>(c) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98 of explanatory notes to this Category) Fee: \$721.30 Benefit: 75% = \$541.00</p>
45556	<p>Breast ptosis, correction of (unilateral), in the context of breast cancer or developmental abnormality, if photographic evidence (including anterior, left lateral and right lateral views) and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)</p> <p>(See para TN.8.99 of explanatory notes to this Category) Fee: \$789.95 Benefit: 75% = \$592.50</p>
45558	<p>Breast ptosis, correction by mastopexy of (bilateral), if:</p> <p>(a) at least two-thirds of the breast tissue, including the nipple, lies inferior to the infra-mammary fold where the nipple is located at the most dependent, inferior part of the breast contour; and</p> <p>(b) if the patient has been pregnant—the correction is performed not less than 1 year, or more than 7 years, after completion of the most recent pregnancy of the patient; and</p> <p>(c) photographic evidence (including anterior, left lateral and right lateral views), with a marker at the level of the inframammary fold, demonstrating the clinical need for this service, is documented in the patient notes</p> <p>Applicable only once per lifetime (Anaes.) (Assist.)</p> <p>(See para TN.8.99 of explanatory notes to this Category) Fee: \$1,184.85 Benefit: 75% = \$888.65</p>
45560	<p>HAIR TRANSPLANTATION for the treatment of alopecia of congenital or traumatic origin or due to disease, excluding male pattern baldness, not being a service to which another item in this Group applies (Anaes.)</p> <p>Fee: \$488.45 Benefit: 75% = \$366.35 85% = \$415.20 Extended Medicare Safety Net Cap: \$171.00</p>
45561	<p>MICROVASCULAR ANASTOMOSIS of artery or vein using microsurgical techniques, for supercharging of pedicled flaps (Anaes.) (Assist.)</p> <p>Fee: \$1,830.15 Benefit: 75% = \$1372.65</p>
45562	<p>FREE TRANSFER OF TISSUE involving raising of tissue on vascular or neurovascular pedicle, including direct repair of secondary cutaneous defect if performed, excluding flap for male pattern baldness (Anaes.) (Assist.)</p> <p>Fee: \$1,133.75 Benefit: 75% = \$850.35 85% = \$1049.05</p>
45563	<p>NEUROVASCULAR ISLAND FLAP, including direct repair of secondary cutaneous defect if performed, excluding flap for male pattern baldness (Anaes.) (Assist.)</p> <p>Fee: \$1,133.75 Benefit: 75% = \$850.35 85% = \$1049.05</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45564	<p>Free transfer of tissue reconstructive surgery for the repair of major tissue defect due to congenital deformity, surgery or trauma, involving anastomoses of up to 2 vessels using microvascular techniques and including raising of tissue on a vascular or neurovascular pedicle, preparation of recipient vessels, transfer of tissue, inseting of tissue at recipient site and direct repair of secondary cutaneous defect if performed, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177, 30179, 45501, 45502, 45504, 45505 or 45562 applies-conjoint surgery, principal specialist surgeon (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$2,625.85 Benefit: 75% = \$1969.40</p>
45565	<p>Free transfer of tissue reconstructive surgery for the repair of major tissue defect due to congenital deformity, surgery or trauma, involving anastomoses of up to 2 vessels using microvascular techniques and including raising of tissue on a vascular or neurovascular pedicle, preparation of recipient vessels, transfer of tissue, inseting of tissue at recipient site and direct repair of secondary cutaneous defect if performed, other than a service associated with a service to which item 30165, 30168, 30171, 30172, 30176, 30177, 30179, 45501, 45502, 45504, 45505 or 45562 applies-conjoint surgery, conjoint specialist surgeon (H) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$1,969.45 Benefit: 75% = \$1477.10</p>
45566	<p>TISSUE EXPANSION not being a service to which item 45539 or 45542 applies - insertion of tissue expansion unit and all attendances for subsequent expansion injections (Anaes.) (Assist.)</p> <p>Fee: \$1,104.70 Benefit: 75% = \$828.55</p>
45568	<p>TISSUE EXPANDER, removal of, with complete excision of fibrous capsule (Anaes.) (Assist.)</p> <p>Fee: \$457.55 Benefit: 75% = \$343.20</p>
45569	<p>CLOSURE OF ABDOMEN WITH RECONSTRUCTION OF UMBILICUS, with or without lipectomy, being a service associated with items 45562, 45564, 45565 or 45530 (Anaes.) (Assist.)</p> <p>Fee: \$698.80 Benefit: 75% = \$524.10</p>
45570	<p>CLOSURE OF ABDOMEN, repair of musculoaponeurotic layer, being a service associated with item 45569 (Anaes.) (Assist.)</p> <p>Fee: \$943.55 Benefit: 75% = \$707.70 85% = \$858.85</p>
45572	<p>INTRA OPERATIVE TISSUE EXPANSION performed during an operation when combined with a service to which another item in Group T8 applies including expansion injections and excluding treatment of male pattern baldness (Anaes.)</p> <p>Fee: \$300.80 Benefit: 75% = \$225.60 85% = \$255.70</p>
45575	<p>FACIAL NERVE PARALYSIS, free fascia graft for (Anaes.) (Assist.)</p> <p>Fee: \$742.70 Benefit: 75% = \$557.05 85% = \$658.00</p>
45578	<p>FACIAL NERVE PARALYSIS, muscle transfer for (Anaes.) (Assist.)</p> <p>Fee: \$860.10 Benefit: 75% = \$645.10</p>
45581	<p>FACIAL NERVE PALSY, excision of tissue for (Anaes.)</p> <p>Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65</p>
45584	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), for treatment of post traumatic pseudolipoma, if photographic and/or diagnostic imaging evidence demonstrating the clinical</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.8, TN.8.101 of explanatory notes to this Category)</p> <p>Fee: \$651.50 Benefit: 75% = \$488.65</p>
45585	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), other than a service associated with a service to which item 31525 applies, if:</p> <p>(a) the liposuction is for:</p> <p style="padding-left: 40px;">(i) the treatment of Barraquer-Simons syndrome, lymphoedema or macrodystrophia lipomatosa; or</p> <p style="padding-left: 40px;">(ii) the reduction of a buffalo hump that is secondary to an endocrine disorder or pharmacological treatment of a medical condition; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.8, TN.8.101 of explanatory notes to this Category)</p> <p>Fee: \$651.50 Benefit: 75% = \$488.65</p>
45587	<p>Meloplasty for correction of facial asymmetry if:</p> <p>(a) the asymmetry is secondary to trauma (including previous surgery), a congenital condition or a medical condition (such as facial nerve palsy); and</p> <p>(b) the meloplasty is limited to one side of the face (Anaes.) (Assist.)</p> <p>(See para TN.8.102 of explanatory notes to this Category)</p> <p>Fee: \$918.70 Benefit: 75% = \$689.05</p>
45588	<p>Meloplasty (excluding browlifts and chinlift platysmaplasties), bilateral, if:</p> <p>(a) surgery is indicated to correct a functional impairment due to a congenital condition, disease (excluding post-acne scarring) or trauma (other than trauma resulting from previous elective cosmetic surgery); and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.102 of explanatory notes to this Category)</p> <p>Fee: \$1,378.15 Benefit: 75% = \$1033.65</p>
45590	<p>ORBITAL CAVITY, reconstruction of a wall or floor, with or without foreign implant (Anaes.) (Assist.)</p> <p>Fee: \$498.35 Benefit: 75% = \$373.80</p>
45593	<p>ORBITAL CAVITY, bone or cartilage graft to orbital wall or floor including reduction of prolapsed or entrapped orbital contents (Anaes.) (Assist.)</p> <p>Fee: \$585.40 Benefit: 75% = \$439.05</p>
45596	<p>MAXILLA, total resection of (Anaes.) (Assist.)</p> <p>Fee: \$928.55 Benefit: 75% = \$696.45</p>
45597	<p>MAXILLA, total resection of both maxillae (Anaes.) (Assist.)</p> <p>Fee: \$1,243.05 Benefit: 75% = \$932.30</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
45599	<p>MANDIBLE, total resection of both sides, including condylectomies where performed (Anaes.) (Assist.)</p> <p>Fee: \$965.80 Benefit: 75% = \$724.35 85% = \$881.10</p>
45602	<p>MANDIBLE, including lower border, OR MAXILLA, sub-total resection of (Anaes.) (Assist.)</p> <p>Fee: \$721.30 Benefit: 75% = \$541.00</p>
45605	<p>MANDIBLE OR MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.)</p> <p>Fee: \$605.95 Benefit: 75% = \$454.50</p>
45608	<p>MANDIBLE, hemimandibular reconstruction with bone graft, not being a service associated with a service to which item 45599 applies (Anaes.) (Assist.)</p> <p>Fee: \$853.15 Benefit: 75% = \$639.90</p>
45611	<p>MANDIBLE, condylectomy (Anaes.) (Assist.)</p> <p>Fee: \$488.55 Benefit: 75% = \$366.45</p>
45614	<p>EYELID, WHOLE THICKNESS RECONSTRUCTION OF other than by direct suture only (Anaes.) (Assist.)</p> <p>Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25</p> <p>Extended Medicare Safety Net Cap: \$484.80</p>
45617	<p>Upper eyelid, reduction of, if:</p> <p>(a) the reduction is for any of the following:</p> <ul style="list-style-type: none"> (i) skin redundancy that causes a visual field defect (confirmed by an optometrist or ophthalmologist) or intertriginous inflammation of the eyelid; (ii) herniation of orbital fat in exophthalmos; (iii) facial nerve palsy; (iv) post-traumatic scarring; (v) the restoration of symmetry of contralateral upper eyelid in respect of one of the conditions mentioned in subparagraphs (i) to (iv); and <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.103 of explanatory notes to this Category)</p> <p>Fee: \$242.40 Benefit: 75% = \$181.80 85% = \$206.05</p> <p>Extended Medicare Safety Net Cap: \$193.95</p>
45620	<p>Lower eyelid, reduction of, if:</p> <p>(a) the reduction is for:</p> <ul style="list-style-type: none"> (i) herniation of orbital fat in exophthalmos, facial nerve palsy or post-traumatic scarring; or (ii) the restoration of symmetry of the contralateral lower eyelid in respect of one of these conditions; and <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>documented in the patient notes (Anaes.)</p> <p>(See para TN.8.103 of explanatory notes to this Category)</p> <p>Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80</p> <p>Extended Medicare Safety Net Cap: \$269.00</p>
45623	<p>Ptosis of upper eyelid (unilateral), correction of, by:</p> <p>(a) sutured elevation of the tarsal plate on the eyelid retractors (Muller's or levator muscle or levator aponeurosis); or</p> <p>(b) sutured suspension to the brow/frontalis muscle;</p> <p>Not applicable to a service for repair of mechanical ptosis to which item 45617 applies (Anaes.) (Assist.)</p> <p>Fee: \$745.60 Benefit: 75% = \$559.20 85% = \$660.90</p> <p>Extended Medicare Safety Net Cap: \$596.50</p>

45761	GENIOPLASTY, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para TN.8.108 of explanatory notes to this Category)	Fee: \$772.05	Benefit: 75% = \$579.05
45767	HYPERTELORISM, correction of, intracranial (Anaes.) (Assist.)	Fee: \$2,590.15	Benefit: 75% = \$1942.65 85% = \$2505.45
45770	HYPERTELORISM, correction of, subcranial (Anaes.) (Assist.)	Fee: \$1,984.00	Benefit: 75% = \$1488.00
45773	TREACHER COLLINS SYNDROME, PERIORBITAL CORRECTION OF, with rib and iliac bone grafts (Anaes.) (Assist.)	Fee: \$1,808.15	Benefit: 75% = \$1356.15 85% = \$1723.45
45776	ORBITAL DYSTOPIA (UNILATERAL), CORRECTION OF, with total repositioning of 1 orbit, intracranial (Anaes.) (Assist.)	Fee: \$1,808.15	Benefit: 75% = \$1356.15
45779	ORBITAL DYSTOPIA (UNILATERAL), CORRECTION OF, with total repositioning of 1 orbit, extracranial (Anaes.) (Assist.)	Fee: \$1,329.45	Benefit: 75% = \$997.10
45782	FRONTOORBITAL ADVANCEMENT, UNILATERAL (Anaes.) (Assist.)	Fee: \$1,016.45	Benefit: 75% = \$762.35 85% = \$931.75
45785	CRANIAL VAULT RECONSTRUCTION for oxycephaly, brachycephaly, turricephaly or similar condition (bilateral frontoorbital advancement) (Anaes.) (Assist.)	Fee: \$1,720.20	Benefit: 75% = \$1290.15
45788	GLENOID FOSSA, ZYGOMATIC ARCH AND TEMPORAL BONE, RECONSTRUCTION OF, (Obwegeser technique) (Anaes.) (Assist.)	Fee: \$1,700.65	Benefit: 75% = \$1275.50

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY	
45791	ABSENT CONDYLE AND ASCENDING RAMUS in hemifacial microsomia, CONSTRUCTION OF, not including harvesting of graft material (Anaes.) (Assist.) Fee: \$918.70 Benefit: 75% = \$689.05		
45794	OSSEO-INTEGRATION PROCEDURE - extra-oral, implantation of titanium fixture, not for implantable bone conduction hearing system device (Anaes.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70		
45797	OSSEO-INTEGRATION PROCEDURE, fixation of transcutaneous abutment, not for implantable bone conduction hearing system device (Anaes.) Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50		
ORAL AND MAXILLOFACIAL SURGERY			
45799	ASPIRATION BIOPSY of 1 or MORE JAW CYSTS as an independent procedure to obtain material for diagnostic purposes and not being a service associated with an operative procedure on the same day (Anaes.) Fee: \$30.35 Benefit: 75% = \$22.80 85% = \$25.80		
45801	TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), in the oral and maxillofacial region, up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, not being a service to which item 45803 applies (Anaes.) (See para TN.8.109 of explanatory notes to this Category) Fee: \$130.90 Benefit: 75% = \$98.20 85% = \$111.30		
45803	TUMOURS, CYSTS, ULCERS OR SCARS, (other than a scar removed during the surgical approach at an operation), in the oral and maxillofacial region, up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, and the procedure is performed on more than 3 but not more than 10 lesions (Anaes.) (Assist.) (See para TN.8.109 of explanatory notes to this Category) Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80		
45805	TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), in the oral and maxillofacial region, more than 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane (Anaes.) (See para TN.8.109 of explanatory notes to this Category) Fee: \$177.90 Benefit: 75% = \$133.45 85% = \$151.25		
45807	TUMOUR, CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), ULCER OR SCAR (other than a scar removed during the surgical approach at an operation), in the oral and maxillofacial region, removal of, not being a service to which another item in this Subgroup applies, involving muscle, bone, or other deep tissue (Anaes.) (See para TN.8.109 of explanatory notes to this Category) Fee: \$254.20 Benefit: 75% = \$190.65 85% = \$216.10		
45809	TUMOUR OR DEEP CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), in the oral and maxillofacial region, removal of, requiring wide excision, not being a service to which		

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>another item in this Subgroup applies (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$383.10 Benefit: 75% = \$287.35 85% = \$325.65</p>
45811	<p>TUMOUR, in the oral and maxillofacial region, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, without skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$517.95 Benefit: 75% = \$388.50 85% = \$440.30</p>
45813	<p>TUMOUR, in the oral and maxillofacial region, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, with skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25</p>
45815	<p>OPERATION ON MANDIBLE OR MAXILLA (other than alveolar margins) for chronic osteomyelitis - 1 bone or in combination with adjoining bones (Anaes.) (Assist.)</p> <p>Fee: \$367.50 Benefit: 75% = \$275.65 85% = \$312.40</p>
45817	<p>OPERATION on SKULL for OSTEOMYELITIS (Anaes.) (Assist.)</p> <p>Fee: \$479.05 Benefit: 75% = \$359.30 85% = \$407.20</p>
45819	<p>OPERATION ON ANY COMBINATION OF ADJOINING BONES IN THE ORAL AND MAXILLOFACIAL REGION, being bones referred to in item 45817 (Anaes.) (Assist.)</p> <p>Fee: \$605.90 Benefit: 75% = \$454.45 85% = \$521.20</p>
45821	<p>BONE GROWTH STIMULATOR IN THE ORAL AND MAXILLOFACIAL REGION, insertion of (Anaes.) (Assist.)</p> <p>Fee: \$392.70 Benefit: 75% = \$294.55 85% = \$333.80</p>
45823	<p>ARCH BARS, 1 or more, which were inserted for dental fixation purposes to the maxilla or mandible, <u>removal of</u>, requiring general anaesthesia where undertaken in the operating theatre of a hospital (Anaes.)</p> <p>Fee: \$112.30 Benefit: 75% = \$84.25</p>
45825	<p>MANDIBULAR OR PALATAL EXOSTOSIS, excision of (Anaes.) (Assist.)</p> <p>Fee: \$348.90 Benefit: 75% = \$261.70 85% = \$296.60</p>
45827	<p>MYLOHYOID RIDGE, reduction of (Anaes.) (Assist.)</p> <p>Fee: \$333.50 Benefit: 75% = \$250.15 85% = \$283.50</p>
45829	<p>MAXILLARY TUBEROSITY, reduction of (Anaes.)</p> <p>Fee: \$254.40 Benefit: 75% = \$190.80 85% = \$216.25</p>
45831	<p>PAPILLARY HYPERPLASIA OF THE PALATE, removal of - less than 5 lesions (Anaes.) (Assist.)</p> <p>Fee: \$333.50 Benefit: 75% = \$250.15 85% = \$283.50</p>
45833	<p>PAPILLARY HYPERPLASIA OF THE PALATE, removal of - 5 to 20 lesions (Anaes.) (Assist.)</p> <p>Fee: \$418.75 Benefit: 75% = \$314.10 85% = \$355.95</p>
45835	<p>PAPILLARY HYPERPLASIA OF THE PALATE, removal of - more than 20 lesions (Anaes.) (Assist.)</p>

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY	
	Fee: \$519.60	Benefit: 75% = \$389.70	85% = \$441.70
45837	VESTIBULOPLASTY, submucosal or open, including excision of muscle and skin or mucosal graft when performed - unilateral or bilateral (Anaes.) (Assist.)		
	Fee: \$604.85	Benefit: 75% = \$453.65	85% = \$520.15
45839	FLOOR OF MOUTH LOWERING (Obwegeser or similar procedure), including excision of muscle and skin or mucosal graft when performed - unilateral (Anaes.) (Assist.)		
	Fee: \$604.85	Benefit: 75% = \$453.65	85% = \$520.15
45841	ALVEOLAR RIDGE AUGMENTATION with bone or alloplast or both - unilateral (Anaes.) (Assist.)		
	Fee: \$488.45	Benefit: 75% = \$366.35	85% = \$415.20
45843	ALVEOLAR RIDGE AUGMENTATION - unilateral, insertion of tissue expanding device into maxillary or mandibular alveolar ridge region for (Anaes.) (Assist.)		
	Fee: \$299.60	Benefit: 75% = \$224.70	85% = \$254.70
45845	OSSEO-INTEGRATION PROCEDURE - intra-oral implantation of titanium fixture to facilitate restoration of the dentition following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.)		
	Fee: \$519.60	Benefit: 75% = \$389.70	85% = \$441.70
45847	OSSEO-INTEGRATION PROCEDURE - fixation of transmucosal abutment to fixtures placed following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.)		
	Fee: \$192.35	Benefit: 75% = \$144.30	85% = \$163.50
45849	MAXILLARY SINUS, BONE GRAFT to floor of maxillary sinus following elevation of mucosal lining (sinus lift procedure), (unilateral) (Anaes.) (Assist.)		
	Fee: \$599.05	Benefit: 75% = \$449.30	85% = \$514.35
45851	TEMPOROMANDIBULAR JOINT, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in this Subgroup applies (Anaes.)		
	Fee: \$147.45	Benefit: 75% = \$110.60	
45853	ABSENT CONDYLE and ASCENDING RAMUS in hemifacial microsomia, construction of, not including harvesting of graft material (Anaes.) (Assist.)		
	Fee: \$918.70	Benefit: 75% = \$689.05	85% = \$834.00
45855	TEMPOROMANDIBULAR JOINT, arthroscopy of, with or without biopsy, not being a service associated with any other arthroscopic procedure of that joint (Anaes.) (Assist.)		
	Fee: \$421.50	Benefit: 75% = \$316.15	85% = \$358.30
45857	TEMPOROMANDIBULAR JOINT, arthroscopy of, removal of loose bodies, debridement, or treatment of adhesions - 1 or more such procedure of that joint, not being a service associated with any other arthroscopic procedure of the temporomandibular joint (Anaes.) (Assist.)		
	Fee: \$674.20	Benefit: 75% = \$505.65	85% = \$589.50
45859	TEMPOROMANDIBULAR JOINT, arthrotomy of, not being a service to which another item in this Subgroup applies (Anaes.) (Assist.)		
	Fee: \$339.85	Benefit: 75% = \$254.90	85% = \$288.90

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY	
45861	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$899.55 Benefit: 75% = \$674.70 85% = \$814.85		
45863	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with condylectomy or condylotomy, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$997.20 Benefit: 75% = \$747.90 85% = \$912.50		
45865	ARTHROCENTESIS, irrigation of temporomandibular joint after insertion of 2 cannuli into the appropriate joint space(s) (Anaes.) (Assist.) Fee: \$299.60 Benefit: 75% = \$224.70 85% = \$254.70		
45867	TEMPOROMANDIBULAR JOINT, synovectomy of, not being a service to which another item in this Subgroup applies (Anaes.) (Assist.) Fee: \$322.05 Benefit: 75% = \$241.55 85% = \$273.75		
45869	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without meniscus or capsular surgery, including partial or total meniscectomy when performed, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,225.30 Benefit: 75% = \$919.00 85% = \$1140.60		
45871	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with meniscus, capsular and condylar head surgery, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,380.25 Benefit: 75% = \$1035.20 85% = \$1295.55		
45873	TEMPOROMANDIBULAR JOINT, surgery of, involving procedures to which items 45863, 45867, 45869 and 45871 apply and also involving the use of tissue flaps, or cartilage graft, or allograft implants, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,551.00 Benefit: 75% = \$1163.25 85% = \$1466.30		
45875	TEMPOROMANDIBULAR JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Subgroup applies (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05 85% = \$412.60		
45877	TEMPOROMANDIBULAR JOINT, arthrodesis of, with synovectomy if performed, not being a service to which another item in this Subgroup applies (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05 85% = \$412.60		
45879	TEMPOROMANDIBULAR JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.) Fee: \$322.05 Benefit: 75% = \$241.55 85% = \$273.75		
45882	The treatment of a premalignant lesion of the oral mucosa by a treatment using cryotherapy, diathermy or carbon dioxide laser. Fee: \$44.35 Benefit: 75% = \$33.30 85% = \$37.70		
45885	Facial, mandibular or lingual artery or vein or artery and vein, ligation of, not being a service to which item 41707 applies (Anaes.) (Assist.) Fee: \$457.55 Benefit: 75% = \$343.20 85% = \$388.95		

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY	
45888	FOREIGN BODY, in the oral and maxillofacial region, deep, removal of using interventional imaging techniques (Anaes.) (Assist.)	Fee: \$426.45	Benefit: 75% = \$319.85 85% = \$362.50
45891	SINGLE-STAGE LOCAL FLAP where indicated, repair to 1 defect, using temporalis muscle (Anaes.) (Assist.)	Fee: \$621.30	Benefit: 75% = \$466.00 85% = \$536.60
45894	FREE GRAFTING, in the oral and maxillofacial region, (mucosa or split skin) of a granulating area (Anaes.)	Fee: \$211.10	Benefit: 75% = \$158.35 85% = \$179.45
45897	ALVEOLAR CLEFT (congenital) unilateral, grafting of, including plastic closure of associated oro-nasal fistulae and ridge augmentation (Anaes.) (Assist.)	Fee: \$1,102.50	Benefit: 75% = \$826.90 85% = \$1017.80
45900	MANDIBLE, fixation by intermaxillary wiring, excluding wiring for obesity	Fee: \$248.65	Benefit: 75% = \$186.50 85% = \$211.40
45939	PERIPHERAL BRANCHES OF THE TRIGEMINAL NERVE, cryosurgery of, for pain relief (Anaes.) (Assist.)	Fee: \$461.05	Benefit: 75% = \$345.80 85% = \$391.90
45945	MANDIBLE, treatment of a dislocation of, requiring open reduction (Anaes.)	Fee: \$122.40	Benefit: 75% = \$91.80 85% = \$104.05
45975	MAXILLA, unilateral or bilateral, treatment of fracture of, not requiring splinting (See para TN.8.110 of explanatory notes to this Category)	Fee: \$133.20	Benefit: 75% = \$99.90 85% = \$113.25
45978	MANDIBLE, treatment of fracture of, not requiring splinting (See para TN.8.110 of explanatory notes to this Category)	Fee: \$162.80	Benefit: 75% = \$122.10 85% = \$138.40
45981	ZYGOMATIC BONE, treatment of fracture of, not requiring surgical reduction (See para TN.8.110 of explanatory notes to this Category)	Fee: \$88.30	Benefit: 75% = \$66.25 85% = \$75.10
45984	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para TN.8.110 of explanatory notes to this Category)	Fee: \$635.90	Benefit: 75% = \$476.95 85% = \$551.20
45987	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para TN.8.110 of explanatory notes to this Category)	Fee: \$635.90	Benefit: 75% = \$476.95 85% = \$551.20
45990	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves requiring open reduction involving the use of plate(s) (Anaes.) (Assist.)		

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY	
	(See para TN.8.110 of explanatory notes to this Category) Fee: \$868.60 Benefit: 75% = \$651.45 85% = \$783.90		
45993	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.) (See para TN.8.110 of explanatory notes to this Category) Fee: \$868.60 Benefit: 75% = \$651.45 85% = \$783.90		
45996	MANDIBLE, treatment of a closed fracture of, involving a joint surface (Anaes.) (See para TN.8.110 of explanatory notes to this Category) Fee: \$246.25 Benefit: 75% = \$184.70 85% = \$209.35		
T8. SURGICAL OPERATIONS		14. HAND SURGERY	
	Group T8. Surgical Operations		
	Subgroup 14. Hand Surgery		
	<i>Note: Items 46300 to 46534 are restricted to surgery on the hand/s.</i>		
46300	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$348.95 Benefit: 75% = \$261.75		
46303	CARPOMETACARPAL JOINT, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$387.85 Benefit: 75% = \$290.90		
46306	INTERPHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, interposition arthroplasty of and including tendon transfers or realignment on the 1 ray (Anaes.) (Assist.) Fee: \$542.90 Benefit: 75% = \$407.20		
46307	INTERPHALANGEAL JOINT OR METACARPOPHALANGEAL JOINT - volar plate arthroplasty for traumatic deformity including tendon transfers or realignment on the 1 ray (Anaes.) (Assist.) Fee: \$542.90 Benefit: 75% = \$407.20		
46309	INTERPHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, total replacement arthroplasty or hemiarthroplasty of, including associated synovectomy, tendon transfer or realignment - 1 joint (Anaes.) (Assist.) Fee: \$542.90 Benefit: 75% = \$407.20		
46312	INTERPHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, total replacement arthroplasty or hemiarthroplasty of, including associated synovectomy, tendon transfer or realignment - 2 joints (Anaes.) (Assist.) Fee: \$698.10 Benefit: 75% = \$523.60		
46315	INTERPHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, total replacement arthroplasty or hemiarthroplasty of, including associated synovectomy, tendon transfer or realignment - 3 joints (Anaes.) (Assist.) Fee: \$930.75 Benefit: 75% = \$698.10		
46318	INTERPHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, total replacement		

T8. SURGICAL OPERATIONS		14. HAND SURGERY
	arthroplasty or hemiarthroplasty of, including associated synovectomy, tendon transfer or realignment - 4 joints (Anaes.) (Assist.)	
	Fee: \$1,163.50 Benefit: 75% = \$872.65	
46321	INTERPHALANGEAL JOINT OR METACARPOPHALANGEAL JOINT, total replacement arthroplasty or hemiarthroplasty of, including associated synovectomy, tendon transfer or realignment - 5 or more joints (Anaes.) (Assist.)	
	Fee: \$1,396.20 Benefit: 75% = \$1047.15 85% = \$1311.50	
46324	CARPAL BONE REPLACEMENT ARTHROPLASTY including associated tendon transfer or realignment when performed (Anaes.) (Assist.)	
	Fee: \$832.55 Benefit: 75% = \$624.45	
46325	CARPAL BONE REPLACEMENT OR RESECTION ARTHROPLASTY using adjacent tendon or other soft tissue including associated tendon transfer or realignment when performed (Anaes.) (Assist.)	
	Fee: \$868.85 Benefit: 75% = \$651.65	
46327	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, arthrotomy of (Anaes.)	
	Fee: \$209.50 Benefit: 75% = \$157.15 85% = \$178.10	
46330	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, ligamentous or capsular repair with or without arthrotomy (Anaes.) (Assist.)	
	Fee: \$356.90 Benefit: 75% = \$267.70	
46333	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, ligamentous repair of, using free tissue graft or implant (Anaes.) (Assist.)	
	Fee: \$581.65 Benefit: 75% = \$436.25	
46336	INTER-PHALANGEAL JOINT or METACARPOPHALANGEAL JOINT, synovectomy, capsulectomy or debridement of, not being a service associated with any procedure related to that joint (Anaes.) (Assist.)	
	Fee: \$271.50 Benefit: 75% = \$203.65 85% = \$230.80	
46339	EXTENSOR TENDONS or FLEXOR TENDONS of hand or wrist, synovectomy of (Anaes.) (Assist.)	
	Fee: \$480.75 Benefit: 75% = \$360.60 85% = \$408.65	
46342	DISTAL RADIOULNAR JOINT or CARPOMETACARPAL JOINT OR JOINTS, synovectomy of (Anaes.) (Assist.)	
	Fee: \$480.75 Benefit: 75% = \$360.60	
46345	DISTAL RADIOULNAR JOINT, reconstruction or stabilisation of, including fusion, or ligamentous arthroplasty and excision of distal ulna, when performed (Anaes.) (Assist.)	
	Fee: \$581.65 Benefit: 75% = \$436.25	
46348	DIGIT, synovectomy of flexor tendon or tendons - 1 digit (Anaes.)	
	Fee: \$252.10 Benefit: 75% = \$189.10 85% = \$214.30	
46351	DIGIT, synovectomy of flexor tendon or tendons - 2 digits (Anaes.) (Assist.)	
	Fee: \$376.20 Benefit: 75% = \$282.15	

T8. SURGICAL OPERATIONS		14. HAND SURGERY
46354	DIGIT, synovectomy of flexor tendon or tendons - 3 digits (Anaes.) (Assist.) Fee: \$504.10 Benefit: 75% = \$378.10	
46357	DIGIT, synovectomy of flexor tendon or tendons - 4 digits (Anaes.) (Assist.) Fee: \$628.25 Benefit: 75% = \$471.20	
46360	DIGIT, synovectomy of flexor tendon or tendons - 5 digits (Anaes.) (Assist.) Fee: \$756.30 Benefit: 75% = \$567.25	
46363	TENDON SHEATH OF HAND OR WRIST, open operation on, for STENOSING TENOVAGINITIS (Anaes.) Fee: \$217.15 Benefit: 75% = \$162.90 85% = \$184.60	
46366	DUPUYTREN'S CONTRACTURE, subcutaneous fasciotomy for - each hand (Anaes.) Fee: \$131.90 Benefit: 75% = \$98.95 85% = \$112.15	
46369	DUPUYTREN'S CONTRACTURE, palmar fasciectomy for - 1 hand (Anaes.) Fee: \$217.15 Benefit: 75% = \$162.90 85% = \$184.60	
46372	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 1 ray, including dissection of nerves - 1 hand (Anaes.) (Assist.) Fee: \$441.30 Benefit: 75% = \$331.00 85% = \$375.15	
46375	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 2 rays, including dissection of nerves - 1 hand (Anaes.) (Assist.) Fee: \$523.55 Benefit: 75% = \$392.70 85% = \$445.05	
46378	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 3 or more rays, including dissection of nerves - 1 hand (Anaes.) (Assist.) Fee: \$698.10 Benefit: 75% = \$523.60	
46381	INTER-PHALANGEAL JOINT, joint capsule release when performed in conjunction with operation for Dupuytren's Contracture - each procedure (Anaes.) (Assist.) Fee: \$310.20 Benefit: 75% = \$232.65	
46384	Z PLASTY (or similar local flap procedure) when performed in conjunction with operation for Dupuytren's Contracture - 1 such procedure (Anaes.) (Assist.) Fee: \$310.20 Benefit: 75% = \$232.65	
46387	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 1 ray, including dissection of nerves - operation for recurrence in that ray (Anaes.) (Assist.) Fee: \$640.00 Benefit: 75% = \$480.00 85% = \$555.30	
46390	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 2 rays, including dissection of nerves - operation for recurrence in those rays (Anaes.) (Assist.) Fee: \$853.35 Benefit: 75% = \$640.05	
46393	DUPUYTREN'S CONTRACTURE, fasciectomy for, from 3 or more rays, including dissection of nerves - operation for recurrence in those rays (Anaes.) (Assist.) Fee: \$988.95 Benefit: 75% = \$741.75	

T8. SURGICAL OPERATIONS		14. HAND SURGERY
46396	PHALANX OR METACARPAL OF THE HAND, osteotomy or osteectomy of, and excluding services to which item 47933 or 47936 apply (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90 85% = \$288.90	
46399	PHALANX OR METACARPAL OF THE HAND, osteotomy of, with internal fixation (Anaes.) (Assist.) Fee: \$534.00 Benefit: 75% = \$400.50	
46402	PHALANX or METACARPAL, bone grafting of, for pseudarthrosis (non-union), including obtaining of graft material (Anaes.) (Assist.) Fee: \$534.00 Benefit: 75% = \$400.50	
46405	PHALANX or METACARPAL, bone grafting of, for pseudarthrosis (non-union), involving internal fixation and including obtaining of graft material (Anaes.) (Assist.) Fee: \$651.65 Benefit: 75% = \$488.75	
46408	TENDON, reconstruction of, by tendon graft (Anaes.) (Assist.) Fee: \$713.60 Benefit: 75% = \$535.20	
46411	FLEXOR TENDON PULLEY, reconstruction of, by graft (Anaes.) (Assist.) Fee: \$418.85 Benefit: 75% = \$314.15	
46414	ARTIFICIAL TENDON PROSTHESIS, INSERTION OF, in preparation for tendon grafting (Anaes.) (Assist.) Fee: \$542.80 Benefit: 75% = \$407.10 85% = \$461.40	
46417	TENDON transfer for restoration of hand function, each transfer (Anaes.) (Assist.) Fee: \$504.10 Benefit: 75% = \$378.10	
46420	EXTENSOR TENDON OF HAND OR WRIST, primary repair of, each tendon (Anaes.) Fee: \$210.95 Benefit: 75% = \$158.25 85% = \$179.35	
46423	EXTENSOR TENDON OF HAND OR WRIST, secondary repair of, each tendon (Anaes.) (Assist.) Fee: \$337.40 Benefit: 75% = \$253.05 85% = \$286.80	
46426	FLEXOR TENDON OF HAND OR WRIST, primary repair of, proximal to A1 pulley, each tendon (Anaes.) (Assist.) Fee: \$348.95 Benefit: 75% = \$261.75	
46429	FLEXOR TENDON OF HAND OR WRIST, secondary repair of, proximal to A1 pulley, each tendon (Anaes.) (Assist.) Fee: \$426.55 Benefit: 75% = \$319.95 85% = \$362.60	
46432	FLEXOR TENDON OF HAND, primary repair of, distal to A1 pulley, each tendon (Anaes.) (Assist.) Fee: \$465.45 Benefit: 75% = \$349.10	
46435	FLEXOR TENDON OF HAND, secondary repair of, distal to A1 pulley, each tendon (Anaes.) (Assist.) Fee: \$542.90 Benefit: 75% = \$407.20	

T8. SURGICAL OPERATIONS		14. HAND SURGERY
46438	MALLET FINGER, closed pin fixation of (Anaes.) Fee: \$139.65 Benefit: 75% = \$104.75 85% = \$118.75	
46441	MALLET FINGER, open repair of, including pin fixation when performed (Anaes.) (Assist.) Fee: \$337.40 Benefit: 75% = \$253.05 85% = \$286.80	
46442	MALLET FINGER with intra articular fracture involving more than one third of base of terminal phalanx - open reduction (Anaes.) (Assist.) Fee: \$289.65 Benefit: 75% = \$217.25	
46444	BOUTONNIERE DEFORMITY without joint contracture, reconstruction of (Anaes.) (Assist.) Fee: \$504.10 Benefit: 75% = \$378.10	
46447	BOUTONNIERE DEFORMITY with joint contracture, reconstruction of (Anaes.) (Assist.) Fee: \$628.25 Benefit: 75% = \$471.20	
46450	EXTENSOR TENDON, TENOLYSIS OF, following tendon injury, repair or graft (Anaes.) Fee: \$232.75 Benefit: 75% = \$174.60	
46453	FLEXOR TENDON, TENOLYSIS OF, following tendon injury, repair or graft (Anaes.) (Assist.) Fee: \$387.85 Benefit: 75% = \$290.90	
46456	FINGER, percutaneous tenotomy of (Anaes.) Fee: \$100.85 Benefit: 75% = \$75.65 85% = \$85.75	
46459	OPERATION for OSTEOMYELITIS on distal phalanx (Anaes.) Fee: \$193.90 Benefit: 75% = \$145.45 85% = \$164.85	
46462	OPERATION for OSTEOMYELITIS on middle or proximal phalanx, metacarpal or carpus (Anaes.) (Assist.) Fee: \$310.20 Benefit: 75% = \$232.65 85% = \$263.70	
46464	AMPUTATION of a supernumerary complete digit (Anaes.) Fee: \$232.75 Benefit: 75% = \$174.60 85% = \$197.85	
46465	AMPUTATION of SINGLE DIGIT, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover (Anaes.) Fee: \$232.75 Benefit: 75% = \$174.60 85% = \$197.85	
46468	AMPUTATION of 2 DIGITS, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover (Anaes.) (Assist.) Fee: \$407.20 Benefit: 75% = \$305.40	
46471	AMPUTATION of 3 DIGITS, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover (Anaes.) (Assist.) Fee: \$581.65 Benefit: 75% = \$436.25 85% = \$496.95	
46474	AMPUTATION of 4 DIGITS, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		14. HAND SURGERY
	Fee: \$756.30	Benefit: 75% = \$567.25
46477	AMPUTATION of 5 DIGITS, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover (Anaes.) (Assist.)	
	Fee: \$930.75	Benefit: 75% = \$698.10
46480	AMPUTATION of SINGLE DIGIT, proximal to nail bed, involving section of bone or joint and requiring soft tissue cover, including metacarpal (Anaes.) (Assist.)	
	Fee: \$387.85	Benefit: 75% = \$290.90 85% = \$329.70
46483	REVISION of AMPUTATION STUMP to provide adequate soft tissue cover (Anaes.) (Assist.)	
	Fee: \$310.20	Benefit: 75% = \$232.65 85% = \$263.70
46486	NAIL BED, accurate reconstruction of nail bed laceration using magnification, undertaken in the operating theatre of a hospital (Anaes.)	
	Fee: \$232.75	Benefit: 75% = \$174.60
46489	NAIL BED, secondary exploration and accurate repair of nail bed deformity using magnification, undertaken in the operating theatre of a hospital (Anaes.) (Assist.)	
	Fee: \$271.50	Benefit: 75% = \$203.65
46492	CONTRACTURE OF DIGITS OF HAND, flexor or extensor, correction of, involving tissues deeper than skin and subcutaneous tissue (Anaes.) (Assist.)	
	Fee: \$372.35	Benefit: 75% = \$279.30
46494	GANGLION OF HAND, excision of, not being a service associated with a service to which another item in this Group applies (Anaes.)	
	Fee: \$226.80	Benefit: 75% = \$170.10 85% = \$192.80
46495	GANGLION OR MUCOUS CYST OF DISTAL DIGIT, excision of, other than a service associated with a service to which item 30107 applies (Anaes.)	
	Fee: \$209.50	Benefit: 75% = \$157.15 85% = \$178.10
46498	GANGLION OF FLEXOR TENDON SHEATH, excision of, other than a service associated with a service to which item 30107 applies (Anaes.)	
	Fee: \$226.80	Benefit: 75% = \$170.10 85% = \$192.80
46500	GANGLION OF DORSAL WRIST JOINT, excision of, other than a service associated with a service to which item 30107 applies (Anaes.) (Assist.)	
	Fee: \$271.50	Benefit: 75% = \$203.65 85% = \$230.80
46501	GANGLION OF VOLAR WRIST JOINT, excision of, other than a service associated with a service to which item 30107 applies (Anaes.) (Assist.)	
	Fee: \$339.45	Benefit: 75% = \$254.60 85% = \$288.55
46502	RECURRENT GANGLION OF DORSAL WRIST JOINT, excision of, other than a service associated with a service to which item 30107 applies (Anaes.) (Assist.)	
	Fee: \$312.40	Benefit: 75% = \$234.30 85% = \$265.55
46503	RECURRENT GANGLION OF VOLAR WRIST JOINT, excision of, other than a service associated with a service to which item 30107 applies (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		14. HAND SURGERY
	Fee: \$390.20 Benefit: 75% = \$292.65 85% = \$331.70	
46504	NEUROVASCULAR ISLAND FLAP, for pulp innervation (Anaes.) (Assist.) Fee: \$1,140.10 Benefit: 75% = \$855.10 85% = \$1055.40	
46507	DIGIT OR RAY, transposition or transfer of, on vascular pedicle, complete procedure (Anaes.) (Assist.) Fee: \$1,326.40 Benefit: 75% = \$994.80	
46510	MACRODACTYLY, surgical reduction of enlarged elements - each digit (Anaes.) (Assist.) Fee: \$361.95 Benefit: 75% = \$271.50	
46513	DIGITAL NAIL OF FINGER OR THUMB, removal of, not being a service to which item 46516 applies (Anaes.) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
46516	DIGITAL NAIL OF FINGER OR THUMB, removal of, in the operating theatre of a hospital (Anaes.) Fee: \$116.35 Benefit: 75% = \$87.30	
46519	MIDDLE PALMAR, THENAR OR HYPOTHENAR SPACES OF HAND, drainage of (excluding aftercare) (Anaes.) Fee: \$145.65 Benefit: 75% = \$109.25 85% = \$123.85	
46522	FLEXOR TENDON SHEATH OF FINGER OR THUMB, open operation and drainage for infection (Anaes.) (Assist.) Fee: \$434.35 Benefit: 75% = \$325.80	
46525	PULP SPACE INFECTION, PARONYCHIA OF HAND, incision for, when performed in an operating theatre of a hospital, not being a service to which another item in this Group applies (excluding after-care) (Anaes.) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
46528	INGROWING NAIL OF FINGER OR THUMB, wedge resection for, including removal of segment of nail, unguis fold and portion of the nail bed (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60	
46531	INGROWING NAIL OF FINGER OR THUMB, partial resection of nail, including phenolisation but not including excision of nail bed (Anaes.) Fee: \$87.80 Benefit: 75% = \$65.85 85% = \$74.65	
46534	NAIL PLATE INJURY OR DEFORMITY, radical excision of nail germinal matrix (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45	
T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Group T8. Surgical Operations	
	Subgroup 15. Orthopaedic	
	TREATMENT OF DISLOCATIONS	
47000	MANDIBLE, treatment of dislocation of, by closed reduction (Anaes.)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Fee: \$72.90	Benefit: 75% = \$54.70 85% = \$62.00
47003	CLAVICLE, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$87.45	Benefit: 75% = \$65.60 85% = \$74.35
47006	CLAVICLE, treatment of dislocation of, by open reduction (Anaes.) Fee: \$175.55	Benefit: 75% = \$131.70 85% = \$149.25
47009	SHOULDER, treatment of dislocation of, requiring general anaesthesia, not being a service to which item 47012 applies (Anaes.) Fee: \$174.80	Benefit: 75% = \$131.10 85% = \$148.60
47012	SHOULDER, treatment of dislocation of, requiring general anaesthesia, open reduction (Anaes.) (Assist.) Fee: \$349.40	Benefit: 75% = \$262.05
47015	SHOULDER, treatment of dislocation of, not requiring general anaesthesia Fee: \$87.45	Benefit: 75% = \$65.60 85% = \$74.35
47018	ELBOW, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$203.75	Benefit: 75% = \$152.85 85% = \$173.20
47021	ELBOW, treatment of dislocation of, by open reduction (Anaes.) (Assist.) Fee: \$271.80	Benefit: 75% = \$203.85
47024	RADIOULNAR JOINT, DISTAL or PROXIMAL, treatment of dislocation of, by closed reduction, not being a service associated with fracture or dislocation in the same region (Anaes.) Fee: \$203.75	Benefit: 75% = \$152.85 85% = \$173.20
47027	RADIOULNAR JOINT, DISTAL or PROXIMAL, treatment of dislocation of, by open reduction, not being a service associated with fracture or dislocation in the same region (Anaes.) (Assist.) Fee: \$271.80	Benefit: 75% = \$203.85
47030	CARPUS, or CARPUS on RADIUS and ULNA, or CARPOMETACARPAL JOINT, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$203.75	Benefit: 75% = \$152.85 85% = \$173.20
47033	CARPUS, or CARPUS on RADIUS and ULNA, or CARPOMETACARPAL JOINT, treatment of dislocation of, by open reduction (Anaes.) (Assist.) Fee: \$271.80	Benefit: 75% = \$203.85 85% = \$231.05
47036	INTERPHALANGEAL JOINT, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$87.45	Benefit: 75% = \$65.60 85% = \$74.35
47039	INTERPHALANGEAL JOINT, treatment of dislocation of, by open reduction (Anaes.) Fee: \$116.35	Benefit: 75% = \$87.30 85% = \$98.90
47042	METACARPOPHALANGEAL JOINT, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$116.35	Benefit: 75% = \$87.30 85% = \$98.90

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
47045	METACARPOPHALANGEAL JOINT, treatment of dislocation of, by open reduction (Anaes.) Fee: \$155.45 Benefit: 75% = \$116.60 85% = \$132.15	
47048	HIP, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$334.95 Benefit: 75% = \$251.25 85% = \$284.75

47066	ANKLE or TARSUS, treatment of dislocation of, by open reduction (Anaes.) (Assist.) Fee: \$349.40 Benefit: 75% = \$262.05	
47069	TOE, treatment of dislocation of, by closed reduction (Anaes.) Fee: \$72.90 Benefit: 75% = \$54.70 85% = \$62.00	
47072	TOE, treatment of dislocation of, by open reduction (Anaes.) Fee: \$96.95 Benefit: 75% = \$72.75 85% = \$82.45	
TREATMENT OF FRACTURES		
47301	Phalanx, middle or proximal, treatment of fracture of, by closed reduction, requiring anaesthesia, not provided on the same occasion as a service described in item 47304, 47307, 47310, 47313, 47316 or 47319 (Anaes.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$89.50 Benefit: 75% = \$67.15 85% = \$76.10	
47304	Metacarpal, treatment of fracture of, by closed reduction, requiring anaesthesia, not provided on the same occasion as a service described in item 47301, 47307, 47310, 47313, 47316 or 47319 (Anaes.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$102.00 Benefit: 75% = \$76.50	
47307	Phalanx or metacarpal, treatment of fracture of, by closed reduction with percutaneous K wire fixation (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$206.25 Benefit: 75% = \$154.70	
47310	Phalanx or metacarpal, treatment of fracture of, by open reduction with fixation (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$340.35 Benefit: 75% = \$255.30	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
47313	Phalanx or metacarpal, treatment of intra articular fracture of, by closed reduction with percutaneous K wire fixation (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$330.00 Benefit: 75% = \$247.50	
47316	Phalanx or metacarpal, treatment of intra articular fracture of, by open reduction with fixation, not provided on the same occasion as a service to which item 47319 applies (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$654.85 Benefit: 75% = \$491.15	
47319	Middle phalanx, proximal end, treatment of intra articular fracture of, by open reduction with fixation, not provided on the same occasion as a service to which item 47316 applies (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$670.30 Benefit: 75% = \$502.75	
47348	CARPUS (excluding scaphoid), treatment of fracture of, not being a service to which item 47351 applies (Anaes.) Fee: \$96.95 Benefit: 75% = \$72.75 85% = \$82.45	
47351	CARPUS (excluding scaphoid), treatment of fracture of, by open reduction (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45	
47354	CARPAL SCAPHOID, treatment of fracture of, not being a service to which item 47357 applies (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60	
47357	CARPAL SCAPHOID, treatment of fracture of, by open reduction (Anaes.) (Assist.) Fee: \$388.30 Benefit: 75% = \$291.25 85% = \$330.10	
47361	Radius or ulna, or radius and ulna, distal end of, treatment of fracture of, by cast immobilisation, other than a service associated with a service to which item 47362, 47364, 47367, 47370 or 47373 applies (See para TN.8.124 of explanatory notes to this Category) Fee: \$135.95 Benefit: 75% = \$102.00 85% = \$115.60	
47362	Radius or ulna, or radius and ulna, distal end of, treatment of fracture of, by closed reduction, requiring general or major regional anaesthesia, but excluding local infiltration, other than a service associated with a service to which item 47361, 47364, 47367, 47370 or 47373 applies (Anaes.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$203.75 Benefit: 75% = \$152.85 85% = \$173.20	
47364	Radius or ulna, distal end of, not involving joint surface, treatment of fracture of, by open reduction with fixation, other than a service associated with a service to which item 47361 or 47362 applies (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$288.75 Benefit: 75% = \$216.60	
47367	Radius, distal end of, treatment of fracture of, by closed reduction with percutaneous fixation, other than a service associated with a service to which item 47361 or 47362 applies (Anaes.) (Assist.) (See para TN.8.124 of explanatory notes to this Category) Fee: \$230.60 Benefit: 75% = \$172.95	
47370	Radius, distal end of, treatment of intra articular fracture of, by open reduction with fixation, other than a

47768	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 2 sites (Anaes.) (Assist.) Fee: \$495.35 Benefit: 75% = \$371.55	
47771	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 3 sites (Anaes.) (Assist.) Fee: \$569.10 Benefit: 75% = \$426.85	
47774	MAXILLA, treatment of fracture of, requiring open operation (Anaes.) (Assist.) Fee: \$449.25 Benefit: 75% = \$336.95	
47777	MANDIBLE, treatment of fracture of, requiring open reduction (Anaes.) (Assist.) Fee: \$449.25 Benefit: 75% = \$336.95	
47780	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) Fee: \$584.05 Benefit: 75% = \$438.05	
47783	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) Fee: \$584.05 Benefit: 75% = \$438.05 85% = \$499.35	
47786	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) Fee: \$741.20 Benefit: 75% = \$555.90	
47789	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) Fee: \$741.20 Benefit: 75% = \$555.90	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	GENERAL	
47900	BONE CYST, injection into or aspiration of (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60	
47903	EPICONDYLITIS, open operation for (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45	
47904	DIGITAL NAIL OF TOE, removal of, not being a service to which item 47906 applies (Anaes.) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
47906	DIGITAL NAIL OF TOE, removal of, in the operating theatre of a hospital (Anaes.) Fee: \$116.35 Benefit: 75% = \$87.30	
47912	PULP SPACE INFECTION, PARONYCHIA of FOOT, incision for, not being a service to which another item in this Group applies (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
47915	INGROWING NAIL OF TOE, wedge resection for, with removal of segment of nail, unguial fold and portion of the nail bed (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60	
47916	INGROWING NAIL OF TOE, partial resection of nail, with destruction of nail matrix by phenolisation, electrocautery, laser, sodium hydroxide or acid but not including excision of nail bed (Anaes.) Fee: \$87.80 Benefit: 75% = \$65.85 85% = \$74.65	
47918	INGROWING TOENAIL, radical excision of nailbed (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45	
47920	BONE GROWTH STIMULATOR, insertion of (Anaes.) (Assist.) Fee: \$392.70 Benefit: 75% = \$294.55	
47921	ORTHOPAEDIC PIN OR WIRE, insertion of, as an independent procedure (Anaes.) Fee: \$116.35 Benefit: 75% = \$87.30 85% = \$98.90	
47924	BURIED WIRE, PIN OR SCREW, 1 or more of, which were inserted for internal fixation purposes, removal of requiring incision and suture, not being a service to which item 47927 or 47930 applies - per bone (Anaes.) Fee: \$38.80 Benefit: 75% = \$29.10 85% = \$33.00	
47927	BURIED WIRE, PIN OR SCREW, 1 or more of, which were inserted for internal fixation purposes, removal of, in the operating theatre of a hospital - per bone (Anaes.) Fee: \$145.65 Benefit: 75% = \$109.25	
47930	PLATE, ROD OR NAIL AND ASSOCIATED WIRES, PINS OR SCREWS, 1 or more of, all of which were inserted for internal fixation purposes, <u>removal of</u> , not being a service associated with a service to which item 47924 or 47927 applies - per bone (Anaes.) (Assist.) Fee: \$271.80 Benefit: 75% = \$203.85	
47933	SMALL EXOSTOSIS (NOT MORE THAN 20MM OF GROWTH ABOVE BONE), excision of, or	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	simple removal of bunion and any associated bursa, not being a service associated with a service for removal of bursa (Anaes.) (See para TN.8.112 of explanatory notes to this Category) Fee: \$213.45 Benefit: 75% = \$160.10 85% = \$181.45	
47936	LARGE EXOSTOSIS (GREATER THAN 20MM GROWTH ABOVE BONE), excision of (Anaes.) (Assist.) (See para TN.8.112 of explanatory notes to this Category) Fee: \$262.10 Benefit: 75% = \$196.60	
47948	EXTERNAL FIXATION, removal of, in the operating theatre of a hospital (Anaes.) Fee: \$165.05 Benefit: 75% = \$123.80	
47951	EXTERNAL FIXATION, removal of, in conjunction with operations involving internal fixation or bone grafting or both (Anaes.) Fee: \$194.05 Benefit: 75% = \$145.55 85% = \$164.95	
47954	TENDON, repair of, as an independent procedure (Anaes.) (Assist.) Fee: \$388.30 Benefit: 75% = \$291.25 85% = \$330.10	
47957	TENDON, large, lengthening of, as an independent procedure (Anaes.) (Assist.) Fee: \$291.15 Benefit: 75% = \$218.40	
47960	TENOTOMY, SUBCUTANEOUS, not being a service to which another item in this Group applies (Anaes.) Fee: \$135.95 Benefit: 75% = \$102.00 85% = \$115.60	
47963	TENOTOMY, OPEN, with or without tenoplasty, not being a service to which another item in this Group applies (Anaes.) Fee: \$223.25 Benefit: 75% = \$167.45 85% = \$189.80	
47966	TENDON OR LIGAMENT, TRANSFER, as an independent procedure (Anaes.) (Assist.) Fee: \$446.50 Benefit: 75% = \$334.90	
47969	TENOSYNOVECTOMY, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$271.80 Benefit: 75% = \$203.85	
47972	TENDON SHEATH, open operation for teno-vaginitis, not being a service to which another item in this Group applies (Anaes.) Fee: \$217.15 Benefit: 75% = \$162.90	
47975	FOREARM OR CALF, decompression fasciotomy of, for acute compartment syndrome, requiring excision of muscle and deep tissue (Anaes.) (Assist.) Fee: \$380.70 Benefit: 75% = \$285.55	
47978	FOREARM OR CALF, decompression fasciotomy of, for chronic compartment syndrome, requiring excision of muscle and deep tissue (Anaes.) Fee: \$231.20 Benefit: 75% = \$173.40	
47981	FOREARM, CALF OR INTEROSSEOUS MUSCLE SPACE OF HAND, decompression fasciotomy of,	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	not being a service to which another item applies (Anaes.) Fee: \$155.25 Benefit: 75% = \$116.45 85% = \$132.00	
47982	FORAGE (Drill decompression), of NECK OR HEAD of FEMUR, or BOTH (Anaes.) (Assist.) Fee: \$376.30 Benefit: 75% = \$282.25	
	BONE GRAFTS	
48200	FEMUR, bone graft to (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48203	FEMUR, bone graft to, with internal fixation (Anaes.) (Assist.) Fee: \$941.75 Benefit: 75% = \$706.35	
48206	TIBIA, bone graft to (Anaes.) (Assist.) Fee: \$583.10 Benefit: 75% = \$437.35	
48209	TIBIA, bone graft to, with internal fixation (Anaes.) (Assist.) Fee: \$747.60 Benefit: 75% = \$560.70	
48212	HUMERUS, bone graft to (Anaes.) (Assist.) Fee: \$583.10 Benefit: 75% = \$437.35	
48215	HUMERUS, bone graft to, with internal fixation (Anaes.) (Assist.) Fee: \$747.60 Benefit: 75% = \$560.70	
48218	RADIUS AND ULNA, bone graft to (Anaes.) (Assist.) Fee: \$583.10 Benefit: 75% = \$437.35	
48221	RADIUS AND ULNA, bone graft to, with internal fixation of 1 or both bones (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48224	RADIUS OR ULNA, bone graft to (Anaes.) (Assist.) Fee: \$388.30 Benefit: 75% = \$291.25	
48227	RADIUS OR ULNA, bone graft to, with internal fixation of 1 or both bones (Anaes.) (Assist.) Fee: \$504.85 Benefit: 75% = \$378.65	
48230	SCAPHOID, bone graft to, for non-union (Anaes.) (Assist.) Fee: \$437.00 Benefit: 75% = \$327.75	
48233	SCAPHOID, bone graft to, for non-union, with internal fixation (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
48236	SCAPHOID, bone graft to, for mal-union, including osteotomy, bone graft and internal fixation (Anaes.) (Assist.) Fee: \$825.20 Benefit: 75% = \$618.90	
48239	BONE GRAFT, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$456.30 Benefit: 75% = \$342.25	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	BONE GRAFT, with internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.)	
48242	Fee: \$631.05	Benefit: 75% = \$473.30
	OSTEOTOMY AND OSTEECTOMY	
	PHALANX, METATARSAL, ACCESSORY BONE OR SESAMOID BONE, osteotomy or osteectomy of, excluding services to which item 49848 or 49851 applies, any of items 49848, 49851, 47933 or 47936 apply (Anaes.) (Assist.)	
48400	Fee: \$339.85	Benefit: 75% = \$254.90
	PHALANX OR METATARSAL, osteotomy or osteectomy of, with internal fixation, and excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48403	Fee: \$534.00	Benefit: 75% = \$400.50
	FIBULA, RADIUS, ULNA, CLAVICLE, SCAPULA (other than acromion), RIB, TARSUS OR CARPUS, osteotomy or osteectomy of, excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48406	Fee: \$339.85	Benefit: 75% = \$254.90
	FIBULA, RADIUS, ULNA, CLAVICLE, SCAPULA (other than Acromion), RIB, TARSUS OR CARPUS, osteotomy or osteectomy of, with internal fixation, and excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48409	Fee: \$534.00	Benefit: 75% = \$400.50
	HUMERUS, osteotomy or osteectomy of, excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48412	Fee: \$650.35	Benefit: 75% = \$487.80
	HUMERUS, osteotomy or osteectomy of, with internal fixation, and excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48415	Fee: \$825.20	Benefit: 75% = \$618.90
	TIBIA, osteotomy or osteectomy of, excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48418	Fee: \$650.35	Benefit: 75% = \$487.80
	TIBIA, osteotomy or osteectomy of, with internal fixation, and excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48421	Fee: \$825.20	Benefit: 75% = \$618.90
	Femur or pelvis, osteotomy or osteectomy of, other than a service associated with surgery for femoroacetabular impingement, or to which item 47933 or 47936 applies (H) (Anaes.) (Assist.) (See para TN.8.127 of explanatory notes to this Category)	
48424	Fee: \$776.80	Benefit: 75% = \$582.60
	FEMUR OR PELVIS, osteotomy or osteectomy of, with internal fixation, and excluding services to which items 47933 or 47936 apply (Anaes.) (Assist.)	
48427	Fee: \$941.75	Benefit: 75% = \$706.35
	EPIPHYSEODESIS	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
48500	FEMUR, epiphysiodesis of (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90	
48503	TIBIA AND FIBULA, epiphysiodesis of (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90	
48506	FEMUR, TIBIA AND FIBULA, epiphysiodesis of (Anaes.) (Assist.) Fee: \$504.85 Benefit: 75% = \$378.65	
48509	EPIPHYSIODESIS, staple arrest of hemiepiphysis (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15	
48512	EPIPHYSIOLYSIS, operation to prevent closure of plate (Anaes.) (Assist.) Fee: \$922.35 Benefit: 75% = \$691.80	
SHOULDER		
48900	SHOULDER, excision of coraco-acromial ligament or removal of calcium deposit from cuff or both (Anaes.) (Assist.) Fee: \$291.15 Benefit: 75% = \$218.40 85% = \$247.50	
48903	SHOULDER, decompression of subacromial space by acromioplasty, excision of coraco-acromial ligament and distal clavicle, or any combination (Anaes.) (Assist.) Fee: \$582.50 Benefit: 75% = \$436.90	
48906	SHOULDER, repair of rotator cuff, including excision of coraco-acromial ligament or removal of calcium deposit from cuff, or both - not being a service associated with a service to which item 48900 applies (Anaes.) (Assist.) Fee: \$582.50 Benefit: 75% = \$436.90	
48909	SHOULDER, repair of rotator cuff, including decompression of subacromial space by acromioplasty, excision of coraco-acromial ligament and distal clavicle, or any combination, not being a service associated with a service to which item 48903 applies (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48912	SHOULDER, arthroscopy of (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90 85% = \$288.90	
48915	SHOULDER, hemi-arthroplasty of (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48918	SHOULDER, total replacement arthroplasty of, including any associated rotator cuff repair (Anaes.) (Assist.) Fee: \$1,553.50 Benefit: 75% = \$1165.15	
48921	SHOULDER, total replacement arthroplasty, revision of (Anaes.) (Assist.) Fee: \$1,601.90 Benefit: 75% = \$1201.45	
48924	SHOULDER, total replacement arthroplasty, revision of, requiring bone graft to scapula or humerus, or both (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Fee: \$1,844.70 Benefit: 75% = \$1383.55	
48927	SHOULDER prosthesis, removal of (Anaes.) (Assist.) Fee: \$378.50 Benefit: 75% = \$283.90	
48930	SHOULDER, stabilisation procedure for recurrent anterior or posterior dislocation (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48933	SHOULDER, stabilisation procedure for multi-directional instability, including anterior or posterior (or both) repair when performed (Anaes.) (Assist.) Fee: \$1,019.40 Benefit: 75% = \$764.55	
48936	SHOULDER, synovectomy of, as an independent procedure (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
48939	SHOULDER, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$1,116.50 Benefit: 75% = \$837.40	
48942	SHOULDER, arthrodesis of, with synovectomy if performed, with removal of prosthesis, requiring bone grafting or internal fixation (Anaes.) (Assist.) Fee: \$1,456.30 Benefit: 75% = \$1092.25	
48945	SHOULDER, diagnostic arthroscopy of (including biopsy) - not being a service associated with any other arthroscopic procedure of the shoulder region (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10	
48948	SHOULDER, arthroscopic surgery of, involving any 1 or more of: removal of loose bodies; decompression of calcium deposit; debridement of labrum, synovium or rotator cuff; or chondroplasty - not being a service associated with any other arthroscopic procedure of the shoulder region (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
48951	SHOULDER, arthroscopic division of coraco-acromial ligament including acromioplasty - not being a service associated with any other arthroscopic procedure of the shoulder region (Anaes.) (Assist.) Fee: \$922.35 Benefit: 75% = \$691.80	
48954	SHOULDER, arthroscopic total synovectomy of, including release of contracture when performed - not being a service associated with any other arthroscopic procedure of the shoulder region (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	
48957	SHOULDER, arthroscopic stabilisation of, for recurrent instability including labral repair or reattachment when performed - not being a service associated with any other arthroscopic procedure of the shoulder region (Anaes.) (Assist.) Fee: \$1,116.50 Benefit: 75% = \$837.40	
48960	SHOULDER, reconstruction or repair of, including repair of rotator cuff by arthroscopic, arthroscopic assisted or mini open means; arthroscopic acromioplasty; or resection of acromioclavicular joint by separate approach when performed - not being a service associated with any other procedure of the shoulder region (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	ELBOW	
49100	ELBOW, arthrotomy of, involving 1 or more of lavage, removal of loose body or division of contracture (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90	
49103	ELBOW, ligamentous stabilisation of (Anaes.) (Assist.) Fee: \$728.10 Benefit: 75% = \$546.10	
49106	ELBOW, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15 85% = \$886.15	
49109	ELBOW, total synovectomy of (Anaes.) (Assist.) Fee: \$728.10 Benefit: 75% = \$546.10	
49112	ELBOW, silastic or other replacement of radial head (Anaes.) (Assist.) Fee: \$728.10 Benefit: 75% = \$546.10	
49115	ELBOW, total joint replacement of (Anaes.) (Assist.) Fee: \$1,164.90 Benefit: 75% = \$873.70	
49116	ELBOW, total replacement arthroplasty of, revision procedure, including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,537.70 Benefit: 75% = \$1153.30	
49117	ELBOW, total replacement arthroplasty of, revision procedure, requiring bone grafting, including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,845.25 Benefit: 75% = \$1383.95	
49118	ELBOW, diagnostic arthroscopy of, including biopsy and lavage, not being a service associated with any other arthroscopic procedure of the elbow (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10	
49121	ELBOW, arthroscopic surgery involving any 1 or more of: drilling of defect, removal of loose body; release of contracture or adhesions; chondroplasty; or osteoplasty - not being a service associated with any other arthroscopic procedure of the elbow (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
	WRIST	
49200	WRIST, arthrodesis of, with synovectomy if performed, with or without bone graft and internal fixation of the radiocarpal joint (Anaes.) (Assist.) (See para TN.8.116 of explanatory notes to this Category) Fee: \$844.55 Benefit: 75% = \$633.45	
49203	WRIST, limited arthrodesis of the intercarpal joint, with synovectomy if performed, with or without bone graft (Anaes.) (Assist.) (See para TN.8.116 of explanatory notes to this Category) Fee: \$631.05 Benefit: 75% = \$473.30	
49206	WRIST, proximal carpectomy of, including styloidectomy when performed (Anaes.) (Assist.) (See para TN.8.116 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC

49306	HIP arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$1,116.50 Benefit: 75% = \$837.40	
49309	HIP, arthroectomy or excision arthroplasty of, including removal of prosthesis (Austin Moore or similar (non cement)) (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
49312	HIP, arthroectomy or excision arthroplasty of, including removal of prosthesis (cemented, porous coated or similar) (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	
49315	HIP, arthroplasty of, unipolar or bipolar (Anaes.) (Assist.) Fee: \$873.80 Benefit: 75% = \$655.35	
49318	HIP, total replacement arthroplasty of, including minor bone grafting (Anaes.) (Assist.) Fee: \$1,359.00 Benefit: 75% = \$1019.25	
49319	HIP, total replacement arthroplasty of, including associated minor grafting, if performed - bilateral (Anaes.) (Assist.) Fee: \$2,387.65 Benefit: 75% = \$1790.75	
49321	HIP, total replacement arthroplasty of, including major bone grafting, including obtaining of graft (Anaes.) (Assist.) Fee: \$1,650.65 Benefit: 75% = \$1238.00	
49324	HIP, total replacement arthroplasty of, revision procedure including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,941.80 Benefit: 75% = \$1456.35	
49327	HIP, total replacement arthroplasty of, revision procedure requiring bone grafting to acetabulum, including obtaining of graft (Anaes.) (Assist.) Fee: \$2,233.00 Benefit: 75% = \$1674.75	
49330	HIP, total replacement arthroplasty of, revision procedure requiring bone grafting to femur, including obtaining of graft (Anaes.) (Assist.) Fee: \$2,233.00 Benefit: 75% = \$1674.75	
49333	HIP, total replacement arthroplasty of, revision procedure requiring bone grafting to both acetabulum and femur, including obtaining of graft (Anaes.) (Assist.) Fee: \$2,524.30 Benefit: 75% = \$1893.25	
49336	HIP, treatment of a fracture of the femur where revision total hip replacement is required as part of the treatment of the fracture (not including intra-operative fracture), being a service associated with a service to which items 49324 to 49333 apply (Anaes.) (Assist.) Fee: \$368.85 Benefit: 75% = \$276.65	
49339	HIP, revision total replacement of, requiring anatomic specific allograft of proximal femur greater than 5	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	cm in length (Anaes.) (Assist.)	
	Fee: \$2,864.10 Benefit: 75% = \$2148.10	
49342	HIP, revision total replacement of, requiring anatomic specific allograft of acetabulum (Anaes.) (Assist.)	
	Fee: \$2,864.10 Benefit: 75% = \$2148.10	
49345	HIP, revision total replacement of, requiring anatomic specific allograft of both femur and acetabulum (Anaes.) (Assist.)	
	Fee: \$3,398.00 Benefit: 75% = \$2548.50	
49346	HIP, revision arthroplasty with replacement of acetabular liner or ceramic head, not requiring removal of femoral component or acetabular shell (Anaes.) (Assist.)	
	Fee: \$873.80 Benefit: 75% = \$655.35	
49360	HIP, diagnostic arthroscopy of, not being a service associated with any other arthroscopic procedure of the hip (Anaes.) (Assist.)	
	Fee: \$354.70 Benefit: 75% = \$266.05	
49363	HIP, diagnostic arthroscopy of, with synovial biopsy, not being a service associated with any other arthroscopic procedure of the hip (Anaes.) (Assist.)	
	Fee: \$427.15 Benefit: 75% = \$320.40 85% = \$363.10	
49366	Hip, arthroscopic surgery of, other than a service associated with another arthroscopic procedure of the hip, or a service associated with surgery for femoroacetabular impingement (H) (Anaes.) (Assist.) (See para TN.8.127 of explanatory notes to this Category)	
	Fee: \$631.05 Benefit: 75% = \$473.30	
KNEE		
49500	KNEE, arthrotomy of, involving 1 or more of; capsular release, biopsy or lavage, or removal of loose body or foreign body (Anaes.) (Assist.)	
	Fee: \$388.30 Benefit: 75% = \$291.25	
49503	KNEE, partial or total meniscectomy of, repair of collateral or cruciate ligament, patellectomy of, chondroplasty of, osteoplasty of, patellofemoral stabilisation or single transfer of ligament or tendon (not being a service to which another item in this Group applies) - any 1 procedure (Anaes.) (Assist.)	
	Fee: \$504.85 Benefit: 75% = \$378.65	
49506	KNEE, partial or total meniscectomy of, repair of collateral or cruciate ligament, patellectomy of, chondroplasty of, osteoplasty of, patellofemoral stabilisation or single transfer of ligament or tendon (not being a service to which another item in this Group applies) - any 2 or more procedures (Anaes.) (Assist.)	
	Fee: \$757.35 Benefit: 75% = \$568.05	
49509	KNEE, total synovectomy or arthrodesis with synovectomy if performed (Anaes.) (Assist.)	
	Fee: \$776.80 Benefit: 75% = \$582.60	
49512	KNEE, arthrodesis of, with synovectomy if performed, with removal of prosthesis (Anaes.) (Assist.)	
	Fee: \$1,116.50 Benefit: 75% = \$837.40	
49515	KNEE, removal of prosthesis, cemented or uncemented, including associated cement, as the first stage	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	of a 2 stage procedure (Anaes.) (Assist.) Fee: \$873.80 Benefit: 75% = \$655.35	
49517	KNEE, hemiarthroplasty of (Anaes.) (Assist.) Fee: \$1,244.05 Benefit: 75% = \$933.05	
49518	KNEE, total replacement arthroplasty of (Anaes.) (Assist.) Fee: \$1,359.00 Benefit: 75% = \$1019.25	
49519	KNEE, total replacement arthroplasty of, including associated minor grafting, if performed - bilateral (Anaes.) (Assist.) Fee: \$2,387.65 Benefit: 75% = \$1790.75	
49521	KNEE, total replacement arthroplasty of, requiring major bone grafting to femur or tibia, including obtaining of graft (Anaes.) (Assist.) Fee: \$1,650.65 Benefit: 75% = \$1238.00	
49524	KNEE, total replacement arthroplasty of, requiring major bone grafting to femur and tibia, including obtaining of graft (Anaes.) (Assist.) Fee: \$1,941.80 Benefit: 75% = \$1456.35	
49527	KNEE, total replacement arthroplasty of, revision procedure, including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,650.65 Benefit: 75% = \$1238.00	
49530	KNEE, total replacement arthroplasty of, revision procedure, requiring bone grafting to femur or tibia, including obtaining of graft and including removal of prosthesis (Anaes.) (Assist.) Fee: \$2,039.00 Benefit: 75% = \$1529.25	
49533	KNEE, total replacement arthroplasty of, revision procedure, requiring bone grafting to both femur and tibia, including obtaining of graft and including removal of prosthesis (Anaes.) (Assist.) Fee: \$2,330.25 Benefit: 75% = \$1747.70	
49534	KNEE, patello-femoral joint of, total replacement arthroplasty as a primary procedure (Anaes.) (Assist.) Fee: \$463.60 Benefit: 75% = \$347.70	
49536	KNEE, repair or reconstruction of, for chronic instability (open or arthroscopic, or both) involving either cruciate or collateral ligaments, including notchplasty when performed, not being a service associated with any other arthroscopic procedure of the knee (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	
49539	KNEE, reconstructive surgery of cruciate ligament or ligaments (open or arthroscopic, or both), including notchplasty when performed and surgery to other internal derangements, not being a service to which another item in this Group applies or a service associated with any other arthroscopic procedure of the knee (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	
49542	KNEE, reconstructive surgery to cruciate ligament or ligaments (open or arthroscopic, or both), including notchplasty, meniscus repair, extracapsular procedure and debridement when performed, not being a service associated with any other arthroscopic procedure of the knee (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Fee: \$1,359.00 Benefit: 75% = \$1019.25	
49545	KNEE, revision arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
49548	KNEE, revision of patello-femoral stabilisation (Anaes.) (Assist.) Fee: \$970.85 Benefit: 75% = \$728.15	
49551	KNEE, revision of procedures to which item 49536, 49539 or 49542 applies (Anaes.) (Assist.) Fee: \$1,359.00 Benefit: 75% = \$1019.25	
49554	KNEE, revision of total replacement of, by anatomic specific allograft of tibia or femur (Anaes.) (Assist.) Fee: \$1,941.80 Benefit: 75% = \$1456.35	
49557	KNEE, diagnostic arthroscopy of (including biopsy, simple trimming of meniscal margin or plica) - not being a service associated with autologous chondrocyte implantation or matrix-induced autologous chondrocyte implantation or any other arthroscopic procedure of the knee region (Anaes.) (Assist.) (See para TN.8.117 of explanatory notes to this Category) Fee: \$281.45 Benefit: 75% = \$211.10	
49558	KNEE, arthroscopic surgery of, involving 1 or more of: debridement, osteoplasty or chondroplasty - not associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10	
49559	KNEE, arthroscopic surgery of, involving chondroplasty requiring multiple drilling or carbon fibre (or similar) implant; including any associated debridement or oestoplasty - not associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.) Fee: \$421.50 Benefit: 75% = \$316.15	
49560	KNEE, arthroscopic surgery of, involving 1 or more of: partial or total meniscectomy, removal of loose body or lateral release - not being a service associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.) Fee: \$568.85 Benefit: 75% = \$426.65	
49561	KNEE, ARTHROSCOPIC SURGERY OF, involving 1 or more of: partial or total meniscectomy, removal of loose body or lateral release; where the procedure includes associated debridement, osteoplasty or chondroplasty - not associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.) Fee: \$695.05 Benefit: 75% = \$521.30	
49562	KNEE, ARTHROSCOPIC SURGERY OF, involving 1 or more of: partial or total meniscectomy, removal of loose body or lateral release; where the procedure includes chondroplasty requiring multiple drilling or carbon fibre (or similar) implant and associated debridement or osteoplasty - not associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.) Fee: \$758.45 Benefit: 75% = \$568.85	
49563	KNEE, arthroscopic surgery of, involving 1 or more of: meniscus repair; osteochondral graft; or chondral graft (excluding autologous chondrocyte implantation or matrix-induced autologous chondrocyte implantation) -not associated with any other arthroscopic procedure of the knee region (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	(See para TN.8.117 of explanatory notes to this Category) Fee: \$821.60 Benefit: 75% = \$616.20	
49564	KNEE, patello-femoral stabilisation of, combined arthroscopic and open procedure, including lateral release, medial capsulorrhaphy and tendon transfer, not being a service associated with any other arthroscopic procedure of the knee (Anaes.) (Assist.) Fee: \$947.75 Benefit: 75% = \$710.85	
49566	KNEE, arthroscopic total synovectomy of, not being a service associated with any other arthroscopic procedure of the knee (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
49569	KNEE, mobilisation for post-traumatic stiffness, by multiple muscle or tendon release (quadricepsplasty) (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
ANKLE		
49700	ANKLE, diagnostic arthroscopy of, including biopsy (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10	
49703	ANKLE, arthroscopic surgery of, not being a service associated with any other arthroscopic procedure of the ankle (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
49706	ANKLE, arthrotomy of, involving 1 or more of: lavage, removal of loose body or division of contracture (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90	
49709	ANKLE, ligamentous stabilisation of (Anaes.) (Assist.) Fee: \$728.10 Benefit: 75% = \$546.10	
49712	ANKLE, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
49715	ANKLE, total joint replacement of (Anaes.) (Assist.) Fee: \$1,164.90 Benefit: 75% = \$873.70	
49716	ANKLE, total replacement arthroplasty of, revision procedure, including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,537.70 Benefit: 75% = \$1153.30	
49717	ANKLE, total replacement arthroplasty of, revision procedure, requiring bone grafting, including removal of prosthesis (Anaes.) (Assist.) Fee: \$1,845.25 Benefit: 75% = \$1383.95	
49718	ANKLE, Achilles' tendon or other major tendon, repair of (Anaes.) (Assist.) Fee: \$388.30 Benefit: 75% = \$291.25	
49721	ANKLE, Achilles' tendon rupture managed by non-operative treatment Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
49724	ANKLE, Achilles' tendon, secondary repair or reconstruction of (Anaes.) (Assist.) Fee: \$679.75 Benefit: 75% = \$509.85	
49727	ANKLE, Achilles' tendon, operation for lengthening (Anaes.) (Assist.) Fee: \$291.15 Benefit: 75% = \$218.40	
49728	ANKLE, lengthening of the gastrocnemius aponeurosis and soleus fascia, for the correction of equinus deformity in children with cerebral palsy (Anaes.) (Assist.) Fee: \$582.35 Benefit: 75% = \$436.80	
	FOOT	
49800	FOOT, flexor or extensor tendon, primary repair of (Anaes.) Fee: \$135.95 Benefit: 75% = \$102.00 85% = \$115.60	
49803	FOOT, flexor or extensor tendon, secondary repair of (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60	
49806	FOOT, subcutaneous tenotomy of, 1 or more tendons (Anaes.) Fee: \$135.95 Benefit: 75% = \$102.00 85% = \$115.60	
49809	FOOT, open tenotomy of, with or without tenoplasty (Anaes.) Fee: \$223.25 Benefit: 75% = \$167.45	
49812	FOOT, tendon or ligament transplantation of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$446.50 Benefit: 75% = \$334.90	
49815	FOOT, triple arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
49818	FOOT, excision of calcaneal spur (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10	
49821	FOOT, correction of hallux valgus or hallux rigidus by excision arthroplasty (Keller's or similar procedure) - unilateral (Anaes.) (Assist.) Fee: \$446.50 Benefit: 75% = \$334.90	
49824	FOOT, correction of hallux valgus or hallux rigidus by excision arthroplasty (Keller's or similar procedure) - bilateral (Anaes.) (Assist.) Fee: \$781.65 Benefit: 75% = \$586.25	
49827	FOOT, correction of hallux valgus by transfer of adductor hallucis tendon - unilateral (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05	
49830	FOOT, correction of hallux valgus by transfer of adductor hallucis tendon - bilateral (Anaes.) (Assist.) Fee: \$849.50 Benefit: 75% = \$637.15	
49833	FOOT, correction of hallux valgus by osteotomy of first metatarsal with or without internal fixation and with or without excision of exostoses associated with the first metatarsophalangeal joint - unilateral	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	(Anaes.) (Assist.) Fee: \$534.00 Benefit: 75% = \$400.50	
49836	FOOT, correction of hallux valgus by osteotomy of first metatarsal with or without internal fixation and with or without excision of exostoses associated with the first metatarsophalangeal joint - bilateral (Anaes.) (Assist.) Fee: \$922.35 Benefit: 75% = \$691.80	
49837	FOOT, correction of hallux valgus by osteotomy of first metatarsal and transfer of adductor hallicus tendon, with or without internal fixation and with or without excision of exostoses associated with the first metatarsophalangeal joint - unilateral (Anaes.) (Assist.) Fee: \$667.45 Benefit: 75% = \$500.60	
49838	FOOT, correction of hallux valgus by osteotomy of first metatarsal and transfer of adductor hallicus tendon, with or without internal fixation and with or without excision of exostoses associated with the first metatarsophalangeal joint - bilateral (Anaes.) (Assist.) Fee: \$1,152.70 Benefit: 75% = \$864.55	
49839	FOOT, correction of hallux rigidus or hallux valgus by prosthetic arthroplasty - unilateral (Anaes.) (Assist.) Fee: \$534.00 Benefit: 75% = \$400.50	
49842	FOOT, correction of hallux rigidus or hallux valgus by prosthetic arthroplasty - bilateral (Anaes.) (Assist.) Fee: \$922.35 Benefit: 75% = \$691.80	
49845	FOOT, arthrodesis of, first metatarso-phalangeal joint, with synovectomy if performed (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05	
49848	FOOT, correction of claw or hammer toe (Anaes.) Fee: \$165.05 Benefit: 75% = \$123.80 85% = \$140.30	
49851	FOOT, correction of claw or hammer toe with internal fixation (Anaes.) Fee: \$213.45 Benefit: 75% = \$160.10	
49854	FOOT, radical plantar fasciotomy or fasciectomy of (Anaes.) (Assist.) Fee: \$388.30 Benefit: 75% = \$291.25	
49857	FOOT, metatarso-phalangeal joint replacement (Anaes.) (Assist.) Fee: \$359.20 Benefit: 75% = \$269.40	
49860	FOOT, synovectomy of metatarso-phalangeal joint, single joint (Anaes.) (Assist.) Fee: \$291.15 Benefit: 75% = \$218.40	
49863	FOOT, synovectomy of metatarso-phalangeal joint, 2 or more joints (Anaes.) (Assist.) Fee: \$437.00 Benefit: 75% = \$327.75	
49866	FOOT, neurectomy for plantar or digital neuritis (Morton's or Bett's syndrome) (Anaes.) (Assist.) Fee: \$310.45 Benefit: 75% = \$232.85	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
49878	TALIPES EQUINOVARUS, calcaneo valgus or metatarsus varus, treatment by cast, splint or manipulation - each attendance (Anaes.) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
OTHER JOINTS		
50100	JOINT, diagnostic arthroscopy of (including biopsy), not being a service to which another item in this Group applies and not being a service associated with any other arthroscopic procedure (Anaes.) (Assist.) Fee: \$281.45 Benefit: 75% = \$211.10 85% = \$239.25	
50102	JOINT, arthroscopic surgery of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
50103	JOINT, arthrotomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$339.85 Benefit: 75% = \$254.90	
50104	JOINT, synovectomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$322.05 Benefit: 75% = \$241.55 85% = \$273.75	
50106	JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05	
50109	JOINT, arthrodesis of, not being a service to which another item in this Group applies, with synovectomy if performed (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05	
50112	CICATRICAL FLEXION OR EXTENSION CONTRACTION OF JOINT, correction of, involving tissues deeper than skin and subcutaneous tissue, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$372.35 Benefit: 75% = \$279.30	
50115	JOINT or JOINTS, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$147.45 Benefit: 75% = \$110.60	
50118	SUBTALAR JOINT, arthrodesis of, with synovectomy if performed (Anaes.) (Assist.) Fee: \$446.50 Benefit: 75% = \$334.90	
50121	GREATER TROCHANTER, transplplantation of ileopsoas tendon to (Anaes.) (Assist.) Fee: \$873.80 Benefit: 75% = \$655.35	
50127	JOINT OR JOINTS, arthroplasty of, by any technique not being a service to which another item applies (Anaes.) (Assist.) Fee: \$724.45 Benefit: 75% = \$543.35	
50130	JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Fee: \$322.05 Benefit: 75% = \$241.55	
	MALIGNANT DISEASE	
50200	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, biopsy of (not including aftercare) (Anaes.) Fee: \$194.05 Benefit: 75% = \$145.55 85% = \$164.95	
50201	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, involving neurovascular structures, open biopsy of (not including aftercare) (Anaes.) (Assist.) Fee: \$339.75 Benefit: 75% = \$254.85	
50203	BONE OR MALIGNANT DEEP SOFT TISSUE TUMOUR, lesional or marginal excision of (Anaes.) (Assist.) Fee: \$427.20 Benefit: 75% = \$320.40 85% = \$363.15	
50206	BONE TUMOUR, lesional or marginal excision of, combined with any 1 of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30	
50209	BONE TUMOUR, lesional or marginal excision of, combined with any 2 or more of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60	
50212	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR affecting the long bones of leg or arm, enbloc resection of, with compartmental or wide excision of soft tissue, without reconstruction (Anaes.) (Assist.) Fee: \$1,699.00 Benefit: 75% = \$1274.25	
50215	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR affecting the long bones of leg or arm, enbloc resection of, with compartmental or wide excision of soft tissue, with intercalary reconstruction (prosthesis, allograft or autograft) (Anaes.) (Assist.) Fee: \$2,135.90 Benefit: 75% = \$1601.95	
50218	MALIGNANT TUMOUR of LONG BONE, enbloc resection of, with replacement or arthrodesis of adjacent joint, with synovectomy if performed (Anaes.) (Assist.) Fee: \$2,815.60 Benefit: 75% = \$2111.70	
50221	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR of PELVIS, SACRUM or SPINE; or SCAPULA and SHOULDER, enbloc resection of (Anaes.) (Assist.) Fee: \$2,621.25 Benefit: 75% = \$1965.95	
50224	MALIGNANT or AGGRESSIVE SOFT TISSUE TUMOUR of PELVIS, SACRUM or SPINE; or SCAPULA and SHOULDER, enbloc resection of, with reconstruction by prosthesis, allograft or autograft (Anaes.) (Assist.) Fee: \$2,912.60 Benefit: 75% = \$2184.45 85% = \$2827.90	
50227	MALIGNANT BONE TUMOUR, enbloc resection of, with massive anatomic specific allograft or autograft, with or without prosthetic replacement (Anaes.) (Assist.) Fee: \$3,398.00 Benefit: 75% = \$2548.50	
50230	BENIGN TUMOUR, resection of, requiring anatomic specific allograft, with or without internal fixation	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	(Anaes.) (Assist.) Fee: \$1,747.55 Benefit: 75% = \$1310.70	
50233	MALIGNANT TUMOUR, amputation for, hemipelvectomy or interscapulo-thoracic (Anaes.) (Assist.) Fee: \$2,233.00 Benefit: 75% = \$1674.75	
50236	MALIGNANT TUMOUR, amputation for, hip disarticulation, shoulder disarticulation or proximal third femur (Anaes.) (Assist.) Fee: \$1,747.55 Benefit: 75% = \$1310.70	
50239	MALIGNANT TUMOUR, amputation for, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$1,164.90 Benefit: 75% = \$873.70	
LIMB LENGTHENING AND DEFORMITY CORRECTION		
50300	JOINT DEFORMITY, slow correction of, using ring fixator or similar device, including all associated attendances - payable only once in any 12 month period (Anaes.) (Assist.) Fee: \$1,193.85 Benefit: 75% = \$895.40	
50303	LIMB LENGTHENING, 5cm or less, by gradual distraction, with application of an external fixator or intra-medullary device, in the operating theatre of a hospital - payable only once per limb in any 12 month period (Anaes.) (Assist.) Fee: \$1,630.00 Benefit: 75% = \$1222.50	
50306	LIMB LENGTHENING , where the lengthening is bipolar, or bone transport is performed or where the fixator is extended to correct an adjacent joint deformity, or where the lengthening is greater than 5cm (Anaes.) (Assist.) Fee: \$2,545.00 Benefit: 75% = \$1908.75 85% = \$2460.30	
50309	RING FIXATOR OR SIMILAR DEVICE, adjustment of, with or without insertion or removal of fixation pins, performed under general anaesthesia in the operating theatre of a hospital, not being a service to which item 50303 or 50306 applies (Anaes.) (Assist.) Fee: \$314.60 Benefit: 75% = \$235.95	
50312	ANKLE, synovectomy of, by arthroscopic or open means - not associated with any other arthroscopic procedure of the ankle (Anaes.) (Assist.) Fee: \$721.95 Benefit: 75% = \$541.50	
50315	TALIPES EQUINOVARUS, posterior release of (Anaes.) (Assist.) Fee: \$714.95 Benefit: 75% = \$536.25	
50318	TALIPES EQUINOVARUS, medial release of (Anaes.) (Assist.) Fee: \$714.95 Benefit: 75% = \$536.25	
50321	TALIPES EQUINOVARUS, combined postero-medial release of (Anaes.) (Assist.) Fee: \$957.85 Benefit: 75% = \$718.40	
50324	TALIPES EQUINOVARUS, combined postero-medial release of, revision procedure (Anaes.) (Assist.) Fee: \$1,365.55 Benefit: 75% = \$1024.20	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50327	TALIPES EQUINOVARUS, bilateral procedures (Anaes.) (Assist.) Fee: \$1,665.60 Benefit: 75% = \$1249.20	
50330	TALIPES EQUINOVARUS, or talus, vertical congenital - post operative manipulation and change of plaster, performed under general anaesthesia in the operating theatre of a hospital, not being a service to which item 50315, 50318, 50321, 50324 or 50327 applies (Anaes.) Fee: \$235.85 Benefit: 75% = \$176.90	
50333	TARSAL COALITION, excision of, with interposition of muscle, fat graft or similar graft (Anaes.) (Assist.) Fee: \$636.10 Benefit: 75% = \$477.10	
50336	TALUS, VERTICAL, CONGENITAL, combined anterior and posterior reconstruction (Anaes.) (Assist.) Fee: \$950.85 Benefit: 75% = \$713.15	
50339	FOOT AND ANKLE, tibialis anterior tendon (split or whole) transfer to lateral column (Anaes.) (Assist.) Fee: \$579.10 Benefit: 75% = \$434.35	
50342	FOOT AND ANKLE, tibialis or tibialis posterior tendon transfer, through the interosseous membrane to anterior or posterior aspect of foot (Anaes.) (Assist.) Fee: \$672.00 Benefit: 75% = \$504.00	
50345	HYPEREXTENSION DEFORMITY OF TOE, release incorporating V-Y plasty of skin, lengthening of extensor tendons and release of capsule contracture (Anaes.) (Assist.) Fee: \$357.50 Benefit: 75% = \$268.15	
	<i>HIP, KNEE AND LEG PROCEDURES</i>	
50348	KNEE, deformity of, post-operative manipulation and change of plaster, performed under general anaesthesia in the operating theatre of a hospital (Anaes.) Fee: \$235.85 Benefit: 75% = \$176.90	
50349	HIP, congenital dislocation of, treatment of, by closed reduction (Anaes.) Fee: \$330.15 Benefit: 75% = \$247.65 85% = \$280.65	
50351	HIP, developmental dislocation of, open reduction of (Anaes.) (Assist.) Fee: \$1,647.15 Benefit: 75% = \$1235.40	
50352	HIP, congenital dislocation of, treatment of, involving supervision of splint, harness or cast - each attendance (Anaes.) Fee: \$58.25 Benefit: 75% = \$43.70 85% = \$49.55	
50353	HIP SPICA, initial application of, for congenital dislocation of hip (excluding aftercare) (Anaes.) (Assist.) Fee: \$365.90 Benefit: 75% = \$274.45	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50354	TIBIA, pseudarthrosis of, congenital, resection and internal fixation (Anaes.) (Assist.) Fee: \$1,351.05 Benefit: 75% = \$1013.30 85% = \$1266.35	
50357	KNEE, LEG OR THIGH, rectus femoris tendon transfer, or medial or lateral hamstring tendon transfer (Anaes.) (Assist.) Fee: \$579.10 Benefit: 75% = \$434.35	
50360	KNEE, LEG OR THIGH, combined medial and lateral hamstring tendon transfer (Anaes.) (Assist.) Fee: \$672.00 Benefit: 75% = \$504.00	
50363	KNEE, contracture of, posterior release involving multiple tendon lengthening or tenotomies, unilateral (Anaes.) (Assist.) Fee: \$514.65 Benefit: 75% = \$386.00	
50366	KNEE, contracture of, posterior release involving multiple tendon lengthening or tenotomies, bilateral (Anaes.) (Assist.) Fee: \$900.75 Benefit: 75% = \$675.60	
50369	KNEE, contracture of, posterior release involving multiple tendon lengthening with or without tenotomies and release of joint capsule with or without cruciate ligaments, unilateral (Anaes.) (Assist.) Fee: \$672.00 Benefit: 75% = \$504.00	
50372	KNEE, contracture of, posterior release involving multiple tendon lengthening with or without tenotomies and release of joint capsule with or without cruciate ligaments, bilateral (Anaes.) (Assist.) Fee: \$1,179.55 Benefit: 75% = \$884.70	
50375	HIP, contracture of, medial release, involving lengthening of, or division of the adductors and psoas with or without division of the obturator nerve, unilateral (Anaes.) (Assist.) Fee: \$514.65 Benefit: 75% = \$386.00	
50378	HIP, contracture of, medial release, involving lengthening of, or division of the adductors and psoas with or without division of the obturator nerve, bilateral (Anaes.) (Assist.) Fee: \$900.75 Benefit: 75% = \$675.60	
50381	HIP, contracture of, anterior release, involving lengthening of, or division of the hip flexors and psoas with or without division of the joint capsule, unilateral (Anaes.) (Assist.) Fee: \$672.00 Benefit: 75% = \$504.00	
50384	HIP, contracture of, anterior release, involving lengthening of, or division of the hip flexors and psoas with or without division of the joint capsule, bilateral (Anaes.) (Assist.) Fee: \$1,179.55 Benefit: 75% = \$884.70	
50387	HIP, iliopsoas tendon transfer to greater trochanter, or transfer of abdominal musculature to greater trochanter, or transfer of adductors to ischium (Anaes.) (Assist.) Fee: \$672.00 Benefit: 75% = \$504.00	
50390	PERTHES, CEREBRAL PALSY, or other neuromuscular conditions, affecting hips or knees, application of cast under general anaesthesia, performed in the operating theatre of a hospital (Anaes.) Fee: \$235.85 Benefit: 75% = \$176.90	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50393	<p>PELVIS, bone graft or shelf procedures for acetabular dysplasia (Anaes.) (Assist.)</p> <p>Fee: \$872.05 Benefit: 75% = \$654.05</p>	
50394	<p>ACETABULAR DYSPLASIA, treatment of, by multiple peri-acetabular osteotomy, including internal fixation where performed (Anaes.) (Assist.)</p> <p>Fee: \$2,864.10 Benefit: 75% = \$2148.10</p>	
<i>SHOULDER, ARM AND FOREARM PROCEDURES</i>		
50396	<p>HAND, congenital abnormalities or duplication of digits, amputation or splitting of phalanx or phalanges, with ligament or joint reconstruction (Anaes.) (Assist.)</p> <p>Fee: \$479.10 Benefit: 75% = \$359.35</p>	
50399	<p>FOREARM, RADIAL APLASIA OR DYSPLASIA (radial club hand), centralisation or radialisation of (Anaes.) (Assist.)</p> <p>Fee: \$950.85 Benefit: 75% = \$713.15</p>	
50402	<p>TORTICOLLIS, bipolar release of sternocleidomastoid muscle and associated soft tissue (Anaes.) (Assist.)</p> <p>Fee: \$436.15 Benefit: 75% = \$327.15</p>	
50405	<p>ELBOW, flexorplasty, or tendon transfer to restore elbow function (Anaes.) (Assist.)</p> <p>Fee: \$593.35 Benefit: 75% = \$445.05</p>	
50408	<p>SHOULDER, congenital or developmental dislocation, open reduction of (Anaes.) (Assist.)</p> <p>Fee: \$1,029.40 Benefit: 75% = \$772.05</p>	
50411	<p>AMPUTATIONS OR RECONSTRUCTIONS FOR CONGENITAL DEFORMITIES LOWER LIMB DEFICIENCY, treatment of congenital deficiency of the femur by resection of the distal femur and proximal tibia followed by knee fusion (Anaes.) (Assist.)</p> <p>Fee: \$1,351.05 Benefit: 75% = \$1013.30 85% = \$1266.35</p>	
50414	<p>LOWER LIMB DEFICIENCY, treatment of congenital deficiency of the femur by resection of the distal femur and proximal tibia followed by knee fusion and rotationplasty (Anaes.) (Assist.)</p> <p>Fee: \$1,822.85 Benefit: 75% = \$1367.15 85% = \$1738.15</p>	
50417	<p>LOWER LIMB DEFICIENCY, treatment of congenital deficiency of the tibia by reconstruction of the knee, involving transfer of fibula or tibia, and repair of quadriceps mechanism (Anaes.) (Assist.)</p> <p>Fee: \$1,351.05 Benefit: 75% = \$1013.30 85% = \$1266.35</p>	
50420	<p>PATELLA, congenital dislocation of, reconstruction of the quadriceps (Anaes.) (Assist.)</p> <p>Fee: \$1,115.15 Benefit: 75% = \$836.40</p>	
50423	<p>TIBIA, FIBULA OR BOTH, congenital deficiency of, transfer of the fibula to tibia, with internal fixation (Anaes.) (Assist.)</p> <p>Fee: \$1,029.40 Benefit: 75% = \$772.05 85% = \$944.70</p>

50552	HUMERUS, proximal, <i>with open growth plate</i> , treatment of fracture of, by closed reduction, undertaken in the operating theatre, neonatal unit or nursery of a hospital (Anaes.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$469.00 Benefit: 75% = \$351.75	
50556	HUMERUS, proximal, <i>with open growth plate</i> , treatment of fracture of, by open reduction (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$625.15 Benefit: 75% = \$468.90	
50560	HUMERUS, shaft of, <i>with open growth plate</i> , treatment of fracture of, by closed reduction, undertaken in the operating theatre, neonatal unit or nursery of a hospital (Anaes.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$489.25 Benefit: 75% = \$366.95	
50564	HUMERUS, shaft of, <i>with open growth plate</i> , treatment of fracture of, by internal or external fixation (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$652.40 Benefit: 75% = \$489.30	
50568	HUMERUS, <i>with open growth plate</i> , supracondylar or condylar, treatment of fracture of, by closed reduction, undertaken in the operating theatre of a hospital (Anaes.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$570.90 Benefit: 75% = \$428.20	
50572	HUMERUS, <i>with open growth plate</i> , supracondylar or condylar, treatment of fracture of, by reduction with or without internal fixation by open or percutaneous means, undertaken in the operating theatre of a hospital (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$761.15 Benefit: 75% = \$570.90	
50576	FEMUR, <i>with open growth plate</i> , treatment of fracture of, by closed reduction or traction (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$625.15 Benefit: 75% = \$468.90 85% = \$540.45	
50580	TIBIA, <i>with open growth plate</i> , plateau or condyles, medial or lateral, treatment of fracture of, by	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	reduction with or without internal fixation by open or percutaneous means (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$652.40 Benefit: 75% = \$489.30	
50584	TIBIA, distal, <i>with open growth plate</i> , treatment of fracture of, by reduction with or without internal fixation by open or percutaneous means (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$625.15 Benefit: 75% = \$468.90	
50588	TIBIA AND FIBULA, <i>with open growth plates</i> , treatment of fracture of, by internal fixation (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$815.40 Benefit: 75% = \$611.55	
SPINE SURGERY FOR SCOLIOSIS AND KYPHOSIS IN PAEDIATRIC PATIENTS		
50600	SCOLIOSIS OR KYPHOSIS, in a growing child, manipulation of deformity and application of a localiser cast, under general anaesthesia, in a hospital (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$448.25 Benefit: 75% = \$336.20	
50604	SCOLIOSIS or KYPHOSIS, in a child or adolescent, spinal fusion for (without instrumentation) (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$1,902.65 Benefit: 75% = \$1427.00	
50608	SCOLIOSIS OR KYPHOSIS, in a child or adolescent, treatment by segmental instrumentation and fusion of the spine, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$3,534.05 Benefit: 75% = \$2650.55	
50612	SCOLIOSIS OR KYPHOSIS, in a child or adolescent, with spinal deformity, treatment by segmental instrumentation, utilising separate anterior and posterior approaches, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$5,026.80 Benefit: 75% = \$3770.10	
50616	SCOLIOSIS, in a child or adolescent, re-exploration for adjustment or removal of segmental instrumentation used for correction of spine deformity (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$638.70 Benefit: 75% = \$479.05	
50620	SCOLIOSIS, in a child or adolescent, revision of failed scoliosis surgery, involving more than 1 of osteotomy, fusion, removal of instrumentation or instrumentation, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$3,534.05 Benefit: 75% = \$2650.55	
50624	SCOLIOSIS, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar) - not more than 4 levels (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$3,534.05 Benefit: 75% = \$2650.55	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50628	SCOLIOSIS, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar) - more than 4 levels (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$4,365.45 Benefit: 75% = \$3274.10	
50632	SCOLIOSIS OR KYPHOSIS, in a child or adolescent, requiring segmental instrumentation and fusion of the spine down to and including the pelvis or sacrum, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$3,669.85 Benefit: 75% = \$2752.40	
50636	SCOLIOSIS, in a child or adolescent, requiring anterior decompression of the spinal cord with vertebral resection and instrumentation in the presence of spinal cord involvement, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$4,077.60 Benefit: 75% = \$3058.20	
50640	SCOLIOSIS, in a child or adolescent, congenital, resection and fusion of abnormal vertebra via an anterior or posterior approach, not being a service to which item 51011 to 51171 applies (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$2,254.05 Benefit: 75% = \$1690.55	
50644	SPINE, bone graft to, for a child or adolescent, associated with surgery for correction of scoliosis or kyphosis or both (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$2,174.85 Benefit: 75% = \$1631.15	
TREATMENT OF HIP DYSPLASIA OR DISLOCATION IN PAEDIATRIC PATIENTS		
50650	HIP DYSPLASIA or DISLOCATION, in a child, examination, manipulation and arthrography of the hip under anaesthesia (Anaes.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$427.70 Benefit: 75% = \$320.80 85% = \$363.55	
50654	HIP DYSPLASIA or DISLOCATION, in a child, application or reapplication of a hip spica, including examination of the hip (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$512.15 Benefit: 75% = \$384.15	
50658	HIP DYSPLASIA or DISLOCATION, in a child, examination and manipulation of the hip under anaesthesia (Anaes.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$203.90 Benefit: 75% = \$152.95 85% = \$173.35	
T8. SURGICAL OPERATIONS		16. RADIOFREQUENCY AND MICROWAVE TISSUE ABLATION
	Group T8. Surgical Operations	
	Subgroup 16. Radiofrequency And Microwave Tissue Ablation	
50950	Unresectable primary malignant tumour of the liver, destruction of, by percutaneous radiofrequency	

T8. SURGICAL OPERATIONS		16. RADIOFREQUENCY AND MICROWAVE TISSUE ABLATION
	<p>ablation or percutaneous microwave tissue ablation (including any associated imaging services), other than a service associated with a service to which item 30419 or 50952 applies</p> <p>(Anaes.)</p> <p>Fee: \$842.60 Benefit: 75% = \$631.95 85% = \$757.90</p>	
50952	<p>Unresectable primary malignant tumour of the liver, destruction of, by open or laparoscopic radiofrequency ablation or open or laparoscopic microwave tissue ablation (including any associated imaging services), if a multi-disciplinary team has assessed that percutaneous radiofrequency ablation or percutaneous microwave tissue ablation cannot be performed or is not practical because of one or more of the following clinical circumstances:</p> <p>(a) percutaneous access cannot be achieved;</p> <p>(b) vital organs or tissues are at risk of damage from the percutaneous radiofrequency ablation or percutaneous microwave tissue ablation procedure;</p> <p>(c) resection of one part of the liver is possible, however there is at least one primary liver tumour in an unresectable portion of the liver that is suitable for radiofrequency ablation or microwave tissue ablation;</p> <p>other than a service associated with a service to which item 30419 or 50950 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.120 of explanatory notes to this Category)</p> <p>Fee: \$842.60 Benefit: 75% = \$631.95 85% = \$757.90</p>	
T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	Group T8. Surgical Operations	
		Subgroup 17. Spinal Surgery
51011	<p>Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, one motion segment, not being a service associated with a service to which item 51012, 51013, 51014 or 51015 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$1,480.35 Benefit: 75% = \$1110.30</p>	
51012	<p>Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, 2 motion segments, not being a service associated with a service to which item 51011, 51013, 51014 or 51015 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$1,973.55 Benefit: 75% = \$1480.20</p>	
51013	<p>Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, 3 motion segments, not being a service associated with a service to which item 51011, 51012, 51014 or 51015 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p>	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	Fee: \$2,467.00 Benefit: 75% = \$1850.25	
51014	Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, 4 motion segments, not being a service associated with a service to which item 51011, 51012, 51013 or 51015 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.142 of explanatory notes to this Category) Fee: \$2,960.40 Benefit: 75% = \$2220.30	
51015	Spinal decompression or exposure via partial or total laminectomy, partial vertebrectomy or posterior spinal release, more than 4 motion segments, not being a service associated with a service to which item 51011, 51012, 51013 or 51014 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.142 of explanatory notes to this Category) Fee: \$3,453.80 Benefit: 75% = \$2590.35	
51020	Simple fixation of part of one vertebra (not motion segment) including pars interarticularis, spinous process or pedicle, or simple interspinous wiring between 2 adjacent vertebral levels, not being a service associated with: (a) interspinous dynamic stabilisation devices; or (b) a service to which item 51021, 51022, 51023, 51024, 51025 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$789.35 Benefit: 75% = \$592.05	
51021	Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, one motion segment, not being a service associated with a service to which item 51020, 51022, 51023, 51024, 51025 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$1,321.25 Benefit: 75% = \$990.95	
51022	Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 2 motion segments, not being a service associated with a service to which item 51020, 51021, 51023, 51024, 51025 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$1,643.50 Benefit: 75% = \$1232.65	
51023	Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 3 or 4 motion segments, not being a service associated with a service to which item 51020, 51021, 51022, 51024, 51025 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$1,955.85 Benefit: 75% = \$1466.90	
51024	Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 5 or 6 motion segments, not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51025 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$2,258.00 Benefit: 75% = \$1693.50	
51025	Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 7 to 12 motion segments, not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51024 or 51026 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$2,639.15 Benefit: 75% = \$1979.40	

T8. SURGICAL OPERATIONS	17. SPINAL SURGERY
51026	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, more than 12 motion segments, not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51024 or 51025 applies (Anaes.) 51066	Spinal fusion, anterior and posterior, including spinal instrumentation at 12 or more motion segments, posterior and/or posterolateral bone graft, and anterior column fusion not being a service associated with a service to which item 51061, 51062, 51063, 51064 or 51065 applies (Anaes.) (Assist.) (See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$5,947.70 Benefit: 75% = \$4460.80	
51071	Removal of intradural lesion, not being a service associated with a service to which item 51072 or 51073 applies (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$2,578.10 Benefit: 75% = \$1933.60	
51072	Cranio-cervical junction lesion, transoral approach for, not being a service associated with a service to which item 51071 or 51073 applies (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$2,681.20 Benefit: 75% = \$2010.90	
51073	Removal of intramedullary tumour or arteriovenous malformation, not being a service associated with a service to which item 51071 or 51072 applies (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$3,403.10 Benefit: 75% = \$2552.35	
51102	Thoracoplasty in combination with thoracic scoliosis correction—3 or more ribs (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$1,220.40 Benefit: 75% = \$915.30	
51103	Odontoid screw fixation (Anaes.) (Assist.) (See para TN.8.141, TN.8.148 of explanatory notes to this Category) Fee: \$2,144.75 Benefit: 75% = \$1608.60	
51110	Spine, treatment of fracture, dislocation or fracture dislocation, with immobilisation by calipers or halo, not including application of skull tongs or calipers as part of operative positioning (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$776.80 Benefit: 75% = \$582.60 85% = \$692.10	
51111	Skull calipers or halo, insertion of, as an independent procedure (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$330.15 Benefit: 75% = \$247.65	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
51112	<p>Plaster jacket, application of, as an independent procedure (Anaes.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$223.25 Benefit: 75% = \$167.45 85% = \$189.80</p>	
51113	<p>Halo, application of, in addition to spinal fusion for scoliosis, or other conditions (Anaes.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$247.55 Benefit: 75% = \$185.70</p>	
51114	<p>Halo thoracic orthosis—application of both halo and thoracic jacket (Anaes.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$437.00 Benefit: 75% = \$327.75</p>	
51115	<p>Halo femoral traction, as an independent procedure (Anaes.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$437.00 Benefit: 75% = \$327.75 85% = \$371.45</p>	
51120	<p>Bone graft, harvesting of autogenous graft, via separate incision or via subcutaneous approach, in conjunction with spinal fusion, other than for the purposes of bone graft obtained from the cervical, thoracic, lumbar or sacral spine (Anaes.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$242.85 Benefit: 75% = \$182.15</p>	
51130	<p>Lumbar artificial intervertebral total disc replacement, at one motion segment only, including removal of disc and marginal osteophytes:</p> <p>(a) for a patient who:</p> <p>(i) has not had prior spinal fusion surgery at the same lumbar level; and</p> <p>(ii) does not have vertebral osteoporosis; and</p> <p>(iii) has failed conservative therapy; and</p> <p>(b) not being a service associated with a service to which item 51011, 51012, 51013, 51014 or 51015 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$1,849.70 Benefit: 75% = \$1387.30</p>	
51131	<p>Cervical artificial intervertebral total disc replacement, at one motion segment only, including removal of disc and marginal osteophytes, for a patient who:</p> <p>(a) has not had prior spinal surgery at the same cervical level; and</p> <p>(b) is skeletally mature; and</p> <p>(c) has symptomatic degenerative disc disease with radiculopathy; and</p> <p>(d) does not have vertebral osteoporosis; and</p> <p>(e) has failed conservative therapy (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$1,116.50 Benefit: 75% = \$837.40</p>	
51140	<p>Previous spinal fusion, re-exploration for, involving adjustment or removal of instrumentation up to 3</p>	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	<p>motion segments, not being a service associated with a service to which item 51141 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$456.30 Benefit: 75% = \$342.25</p>	
51141	<p>Previous spinal fusion, re-exploration for, involving adjustment or removal of instrumentation more than 3 motion segments, not being a service associated with a service to which item 51140 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$844.10 Benefit: 75% = \$633.10</p>	
51145	<p>Wound debridement or excision for post operative infection or haematoma following spinal surgery (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$456.30 Benefit: 75% = \$342.25</p>	
51150	<p>Coccyx, excision of (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$459.35 Benefit: 75% = \$344.55</p>	
51160	<p>Anterior exposure of thoracic or lumbar spine, one motion segment, not being a service to which item 51165 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.149 of explanatory notes to this Category) Fee: \$1,185.95 Benefit: 75% = \$889.50</p>	
51165	<p>Anterior exposure of thoracic or lumbar spine, more than one motion segment, not being a service to which item 51160 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.149 of explanatory notes to this Category) Fee: \$1,495.30 Benefit: 75% = \$1121.50</p>	
51170	<p>Syringomyelia or hydromyelia, craniotomy for, with or without duraplasty, intradural dissection, plugging of obex or local cerebrospinal fluid shunt (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$2,252.85 Benefit: 75% = \$1689.65</p>	
51171	<p>Syringomyelia or hydromyelia, treatment by direct cerebrospinal fluid shunt (for example, syringosubarachnoid shunt, syringopleural shunt or syringoperitoneal shunt) (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$946.10 Benefit: 75% = \$709.60</p>	
T9. ASSISTANCE AT OPERATIONS		
	Group T9. Assistance At Operations	
51300	<p>Assistance at any operation identified by the word "Assist." for which the fee does not exceed \$575.75 or at a series or combination of operations identified by the word "Assist." where the fee for the series or combination of operations identified by the word "Assist." does not exceed \$575.75</p> <p>(See para TN.9.2, TN.9.1 of explanatory notes to this Category) Fee: \$89.00 Benefit: 75% = \$66.75 85% = \$75.65</p>	
51303	<p>Assistance at any operation identified by the word "Assist." for which the fee exceeds \$575.75 or at a series of operations identified by the word "Assist." for which the aggregate fee exceeds \$575.75</p>	

T9. ASSISTANCE AT OPERATIONS	
	(See para TN.9.1, TN.9.3 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the operation or combination of operations
51306	Assistance at a birth involving Caesarean section (See para TN.9.1 of explanatory notes to this Category) Fee: \$128.55 Benefit: 75% = \$96.45 85% = \$109.30
51309	Assistance at a series or combination of operations that include “(Assist.)” and assistance at a birth involving Caesarean section (See para TN.9.1, TN.9.4 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the operation or combination of operations (the fee for item 16520 being the Schedule fee for the Caesarean section component in the calculation of the established fee)
51312	Assistance at any interventional obstetric procedure covered by items 16606, 16609, 16612, 16615 and 16627 (See para TN.4.11, TN.9.1 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the procedure or combination of procedures
51315	Assistance at cataract and intraocular lens surgery covered by item 42698, 42701, 42702, 42704 or 42707, when performed in association with services covered by item 42551 to 42569, 42653, 42656, 42725, 42746, 42749, 42752, 42776 or 42779 (See para TN.9.1 of explanatory notes to this Category) Fee: \$280.90 Benefit: 75% = \$210.70 85% = \$238.80
51318	Assistance at cataract and intraocular lens surgery where patient has: - total loss of vision, including no potential for central vision, in the fellow eye; or - previous significant surgical complication in the fellow eye; or - pseudo exfoliation, subluxed lens, iridodonesis, phacodonesis, retinal detachment, corneal scarring, pre-existing uveitis, bound down miosed pupil, nanophthalmos, spherophakia, Marfan's syndrome, homocysteinuria or previous blunt trauma causing intraocular damage (See para TN.9.5, TN.9.1 of explanatory notes to this Category) Fee: \$185.40 Benefit: 75% = \$139.05 85% = \$157.60

21906	INITIATION OF MANAGEMENT OF ANAESTHESIA for injection procedure for myelography: lumbar or thoracic (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21908	INITIATION OF MANAGEMENT OF ANAESTHESIA for injection procedure for myelography: cervical (6 basic units) Fee: \$122.40 Benefit: 75% = \$91.80 85% = \$104.05
21910	INITIATION OF MANAGEMENT OF ANAESTHESIA for injection procedure for myelography: posterior fossa (9 basic units) Fee: \$183.60 Benefit: 75% = \$137.70 85% = \$156.10
21912	INITIATION OF MANAGEMENT OF ANAESTHESIA for injection procedure for discography: lumbar or thoracic (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21914	INITIATION OF MANAGEMENT OF ANAESTHESIA for injection procedure for discography: cervical (6 basic units) Fee: \$122.40 Benefit: 75% = \$91.80 85% = \$104.05
21915	INITIATION OF MANAGEMENT OF ANAESTHESIA for peripheral arteriogram (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21916	INITIATION OF MANAGEMENT OF ANAESTHESIA for arteriograms: cerebral, carotid or vertebral (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21918	INITIATION OF MANAGEMENT OF ANAESTHESIA for retrograde arteriogram: brachial or femoral (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21922	INITIATION OF MANAGEMENT OF ANAESTHESIA for computerised axial tomography scanning, magnetic resonance scanning, digital subtraction angiography scanning (6 basic units) Fee: \$122.40 Benefit: 75% = \$91.80 85% = \$104.05
21925	INITIATION OF MANAGEMENT OF ANAESTHESIA for retrograde cystography, retrograde urethrography or retrograde cystourethrography (4 basic units) Fee: \$81.60 Benefit: 75% = \$61.20 85% = \$69.40
21926	INITIATION OF MANAGEMENT OF ANAESTHESIA for fluoroscopy (4 basic units) Fee: \$81.60 Benefit: 75% = \$61.20 85% = \$69.40
21930	INITIATION OF MANAGEMENT OF ANAESTHESIA for bronchography (6 basic units) Fee: \$122.40 Benefit: 75% = \$91.80 85% = \$104.05
21935	INITIATION OF MANAGEMENT OF ANAESTHESIA for phlebography (5 basic units)

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

17. ANAESTHESIA FOR RADIOLOGICAL OR OTHER DIAGNOSTIC OR THERAPEUTIC PROCEDURES

	Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21936	INITIATION OF MANAGEMENT OF ANAESTHESIA for heart, 2 dimensional real time transoesophageal examination (5 basic units) (See para TN.10.26 of explanatory notes to this Category) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21939	INITIATION OF MANAGEMENT OF ANAESTHESIA for peripheral venous cannulation (3 basic units) Fee: \$61.20 Benefit: 75% = \$45.90 85% = \$52.05
21941	INITIATION OF MANAGEMENT OF ANAESTHESIA for cardiac catheterisation including coronary arteriography, ventriculography, cardiac mapping, insertion of automatic defibrillator or transvenous pacemaker (7 basic units) (See para TN.10.25 of explanatory notes to this Category) Fee: \$142.80 Benefit: 75% = \$107.10 85% = \$121.40
21942	INITIATION OF MANAGEMENT OF ANAESTHESIA for cardiac electrophysiological procedures including radio frequency ablation (10 basic units) Fee: \$204.00 Benefit: 75% = \$153.00 85% = \$173.40
21943	INITIATION OF MANAGEMENT OF ANAESTHESIA for central vein catheterisation or insertion of right heart balloon catheter (via jugular, subclavian or femoral vein) by percutaneous or open exposure (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21945	INITIATION OF MANAGEMENT OF ANAESTHESIA for lumbar puncture, cisternal puncture, or epidural injection (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21949	INITIATION OF MANAGEMENT OF ANAESTHESIA for harvesting of bone marrow for the purpose of transplantation (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21952	Initiation of the management of anaesthesia for diagnostic muscle biopsy to assess for malignant hyperpyrexia (4 basic units) Fee: \$81.60 Benefit: 75% = \$61.20 85% = \$69.40
21955	INITIATION OF MANAGEMENT OF ANAESTHESIA for electroencephalography (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21959	INITIATION OF MANAGEMENT OF ANAESTHESIA for brain stem evoked response audiometry (5 basic units) Fee: \$102.00 Benefit: 75% = \$76.50 85% = \$86.70
21962	INITIATION OF MANAGEMENT OF ANAESTHESIA for electrocochleography by extratympanic method or transtympanic membrane insertion method (5 basic units)

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE		17. ANAESTHESIA FOR RADIOLOGICAL OR OTHER DIAGNOSTIC OR THERAPEUTIC PROCEDURES	
	Fee: \$102.00	Benefit: 75% = \$76.50	85% = \$86.70
21965	INITIATION OF MANAGEMENT OF ANAESTHESIA as a therapeutic procedure if there is a clinical need for anaesthesia, not for headache of any etiology (5 basic units)		
	Fee: \$102.00	Benefit: 75% = \$76.50	85% = \$86.70
21969	INITIATION OF MANAGEMENT OF ANAESTHESIA during hyperbaric therapy where the medical practitioner is not confined in the chamber (including the administration of oxygen) (8 basic units)		
	Fee: \$163.20	Benefit: 75% = \$122.40	85% = \$138.75
21970	INITIATION OF MANAGEMENT OF ANAESTHESIA during hyperbaric therapy where the medical practitioner is confined in the chamber (including the administration of oxygen) (15 basic units)		
	Fee: \$306.00	Benefit: 75% = \$229.50	85% = \$260.10
21973	INITIATION OF MANAGEMENT OF ANAESTHESIA for brachytherapy using radioactive sealed sources (5 basic units)		
	Fee: \$102.00	Benefit: 75% = \$76.50	85% = \$86.70
21976	INITIATION OF MANAGEMENT OF ANAESTHESIA for therapeutic nuclear medicine (5 basic units)		
	Fee: \$102.00	Benefit: 75% = \$76.50	85% = \$86.70
21980	INITIATION OF MANAGEMENT OF ANAESTHESIA for radiotherapy (5 basic units)		
	Fee: \$102.00	Benefit: 75% = \$76.50	85% = \$86.70

18362	<p>Botulinum Toxin type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of severe primary axillary hyperhidrosis, including all injections on any one day, if:</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>(a) the patient is at least 12 years of age; and</p> <p>(b) the patient has been intolerant of, or has not responded to, topical aluminium chloride hexahydrate; and</p> <p>(c) the patient has not had treatment with botulinum toxin within the immediately preceding 4 months; and</p> <p>(d) if the patient has had treatment with botulinum toxin within the previous 12 months - the patient had treatment on no more than 2 separate occasions (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$254.40 Benefit: 75% = \$190.80 85% = \$216.25</p>
18365	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox) or Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of moderate to severe spasticity of the upper limb following a stroke, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) treatment is provided as:</p> <p>(i) second line therapy when standard treatment for the condition has failed; or</p> <p>(ii) an adjunct to physical therapy; and</p> <p>(c) the patient does not have established severe contracture in the limb that is to be treated; and</p> <p>(d) the treatment is for all or any of the muscles subserving one functional activity and supplied by one motor nerve, with a maximum of 4 sets of injections for the patient on any one day (with a maximum of 2 sets of injections for each upper limb), including all injections per set; and</p> <p>(e) for a patient who has received treatment on 2 previous separate occasions - the patient has responded to the treatment</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>
18366	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of strabismus, including all such injections on any one day and associated electromyography (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$161.30 Benefit: 75% = \$121.00 85% = \$137.15</p>
18368	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of spasmodic dysphonia, including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$275.35 Benefit: 75% = \$206.55 85% = \$234.05</p>
18369	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$46.45 Benefit: 75% = \$34.85 85% = \$39.50</p>
18370	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 12 years of age, including all such injections on any</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$46.45 Benefit: 75% = \$34.85 85% = \$39.50</p>
18372	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of bilateral blepharospasm, in a patient who is at least 12 years of age; including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>
18374	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of bilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>
18375	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <ul style="list-style-type: none"> (a) the urinary incontinence is due to neurogenic detrusor overactivity as demonstrated by urodynamic study of a patient with: <ul style="list-style-type: none"> (i) multiple sclerosis; or (ii) spinal cord injury; or (iii) spina bifida and who is at least 18 years of age; and (b) the patient has urinary incontinence that is inadequately controlled by anti-cholinergic therapy, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin type A; and (c) the patient is willing and able to self-catheterise; and (d) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with; and (e) treatment is not provided on the same occasion as a service described in item 104, 105, 110,

T11. BOTULINUM TOXIN INJECTIONS

	<p>116, 119, 11900 or 11919</p> <p>For each patient - applicable not more than once except if the patient achieves at least a 50% reduction in urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$237.05 Benefit: 75% = \$177.80</p>
18377	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of chronic migraine, including all injections in 1 day, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) the patient has experienced an inadequate response, intolerance or contraindication to at least 3 prophylactic migraine medications before commencement of treatment with botulinum toxin, as manifested by an average of 15 or more headache days per month, with at least 8 days of migraine, over a period of at least 6 months, before commencement of treatment with botulinum toxin; and</p> <p>(c) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with</p> <p>For each patient-applicable not more than twice except if the patient achieves and maintains at least a 50% reduction in the number of headache days per month from baseline after 2 treatment cycles (each of 12 weeks duration)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>
18379	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <p>(a) the urinary incontinence is due to idiopathic overactive bladder in a patient: and</p> <p>(b) the patient is at least 18 years of age; and</p> <p>(c) the patient has urinary incontinence that is inadequately controlled by at least 2 alternative anti-cholinergic agents, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin; and</p> <p>(d) the patient is willing and able to self-catheterise; and</p> <p>(e) treatment is not provided on the same occasion as a service mentioned in item 104, 105, 110, 116, 119, 11900 or 11919</p> <p>For each patient-applicable not more than once except if the patient achieves at least a 50% reduction in urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment</p>

T11. BOTULINUM TOXIN INJECTIONS	
	(H) (Anaes.) (See para TN.11.1 of explanatory notes to this Category) Fee: \$237.05 Benefit: 75% = \$177.80

INDEX

(

(other than acromion), osteectomy/osteotomy 48406, 48409
 - controlled hydrodilatation of bladder 36827
 - diathermy or resection of bladder tumour/s 36845
 - endoscopic incision/resection 36825, 36854
 - formation of 45227
 - injection into bladder wall 36851
 - insertion of ureteric stent, or brush biopsy 36821
 - insertion of urethral prosthesis 36811
 - laser destruction of bladder tumours 36840
 - lavage of blood clots from bladder 36842
 - or primary restoration of alimentary continuity after 41843
 - preparation of site and attachment to site 45233
 - removal of foreign body 36833
 - removal of, twelve years or over 41793
 - removal of, under twelve years 41789
 - resection of ureterocele 36848
 - spreading of pedicle 45236
 - ureteric catheterisation 36818, 36824
 - ureteric meatotomy 36830
 - urethroscopy with/without urethral dilatation 36812
 - with tracheostomy and plastic reconstruction 30294
 - without litholapaxy 36863
 - without urethroscopy 36815
 - Achilles, repair of 49718, 49721, 49724, 49727
 - and mastoidectomy 41551, 41560
 - and ossicular chain reconstruction 41542
 - and revision of mastoidectomy 41566
 - artificial prosthesis, insertion of for grafting 46414
 - control under GA, independent 30058
 - diabetes or anaemia 16502
 - following circumcision, with GA 30663
 - following tonsillectomy, with GA 41797
 - foot, adductor hallucis, transfer of 49827, 49830
 - foot, repair of 49800, 49803, 49806, 49809, 49812
 - foreign body in, removal 30068
 - hand/digit, synovectomy of 46336, 46339, 46342, 46345
 46348, 46351, 46354, 46357, 46360
 - hand/wrist, repair of 46420, 46423, 46426, 46429, 46432
 46435
 - insertion of pressure regulating balloon, pump 37387
 - into bladder 36588, 36591
 - into intestine 36594
 - into isolated intestinal segment 36600, 36603
 - into skin 36585
 - intrauterine growth retardation 16508
 - laparotomy for control of 30385
 - lengthening of 47957, 47960, 47963
 - major, of ankle, repair of 49718, 49721, 49724, 49727
 - or ligament transfer 47966
 - prosthesis, artificial, insertion for grafting 46414
 - reconstruction of, by tendon graft 46408
 - reconstruction, congenital atresia 45662
 - removal of foreign body, incision 41503
 - repair of 47954, 49718
 - retromastoid removal of 41575-41576, 41578-41579
 - revision or removal of 37390

- sheath, open operation for tenovaginitis 46363, 47972
 - tenotomy 47960, 47963
 - threatened premature labour 16502, 16508
 - tonsils/adenoids, arrest, under GA 41797
 - transfer of, to restore elbow function 50405
 - transfer of, to restore hand function 46417
 - translabyrinthine removal 41575-41576, 41578-41579
 - transmastoid removal 41575-41576, 41578-41579
 - transplantation of 47966
 - with arytenoidectomy 41867
 - with division of laryngeal web 41868
 - with mastoidectomy and ossicular chain recon 41554
 41563
 - with removal of juvenile papillomata 41858
 - with removal of papillomata by laser surgery 41861
 - with removal of tumour 41864
 abbe 45701, 45704

A

Abbe flap, reconstruction of cleft lip 45701
 Abdomen, burst, repair of 30403
 abdomen, lower 20800, 20802-20804, 20806, 20810, 20815
 20820, 20830, 20832, 20840-20842, 20844-20848, 20850
 20855, 20860, 20862-20864, 20866-20868, 20880, 20882
 20884
 abdomen, upper 20700, 20702-20704, 20706, 20730, 20740
 20745, 20750, 20752, 20754, 20756, 20770, 20790-20794
 20798-20799
 abdominal aortic aneurysm, endovascular repair 33116, 33119
 Abdominal apron, wedge excision 30165
 abdominal contouring post diabetic injections 31346
 Abdomino-perineal resection, rectum and anus 32039, 32042
 32045-32046
 Abdomino-vaginal op for stress incontinence 35602, 35605
 ablation of, by radiofrequency electrosurgery 35616
 abnormality detected by mammography 31506
 Abortion, threatened, treatment of 16505
 Abrasive therapy 45021, 45024
 Abscess, anal, drainage of 32174-32175
 abscess, incision with drainage 30223
 abscess, laparotomy for drainage of 30394
 abscess, open drainage of 37212
 access device, prosthetic, correction of 34518
 access device, thrombectomy of 34515
 Accessory bone, osteotomy or osteectomy of 48400
 Acetabular dysplasia, pelvis, bone graft/shelf procedure 50393
 Acetabulum, treatment of fracture of 47492, 47495, 47498
 47501, 47504, 47507, 47510
 achilles tendon, repair of 49718, 49721, 49724
 Achilles' tendon, operation for lengthening 49727
 Acoustic neuroma, removal of 41575-41576, 41578-41579
 additional incisions for astigmatism 42673
 Adductors to ischium transfer 50387
 Adenoids and tonsils, removal of 41789, 41793
 adhesiolysis, with hysteroscopy 35633
 Adhesions, division of, via laparoscope 31450, 31452, 35637
 adhesions, laparoscopic division 35638
 Administration of 16018
 adnexae, removal, with abdominal hysterectomy 35653
 alba hernia, repair of, over 10 years 30621
 alcohol, cortisone, phenol into trigeminal nerve 39100

Alcohol, injection of trigeminal nerve/s	39100	21790, 21800, 21810, 21820, 21830, 21832, 21834, 21840
alcohol, retrobulbar	42824	21842, 21850, 21860, 21865, 21870, 21872, 21878-21887
Alimentary continuity, primary restoration	41843	21900, 21906, 21908, 21910, 21912, 21914-21916, 21918
Alopecia, hair transplantation for	45560	21922, 21925-21926, 21930, 21935-21936, 21939, 21941-21943
Alveolar ridge augmentation	45841, 45843	21945, 21949, 21952, 21955, 21959, 21962, 21965
Amnio-infusion	16621	21969-21970, 21973, 21976, 21980, 21990, 21992, 21997
Amniocentesis, diagnostic	16600	22002, 22007-22008, 22012, 22014-22015, 22020, 22025
Amputation, limb, digit etc.	44325, 44328, 44331, 44334	22031, 22036, 22051, 22055, 22060, 22065, 22075, 22900
44338, 44342, 44346, 44350, 44354, 44358-44359, 44361		22905, 23010, 23091, 23101, 23111-23119, 23121, 23170
44364, 44367, 44370, 44373, 44376		23180, 23190, 23200, 23210, 23220, 23230, 23240, 23250
anaesthesia in connection with burns	21878-21887	23260, 23270, 23280, 23290, 23300, 23310, 23320, 23330
anaesthesia in connection with dental services	22900	23340, 23350, 23360, 23370, 23380, 23390, 23400, 23410
anaesthesia in connection with radiological diagnostic or		23420, 23430, 23440, 23450, 23460, 23470, 23480, 23490
therapeutic procedures	21900, 21906, 21908, 21910, 21912	23500, 23510, 23520, 23530, 23540, 23550, 23560, 23570
21914-21916, 21918, 21922, 21925-21926, 21930		23580, 23590, 23600, 23610, 23620, 23630, 23640, 23650
21935-21936, 21939, 21941-21943, 21945, 21949, 21952		23660, 23670, 23680, 23690, 23700, 23710, 23720, 23730
21955, 21959, 21962, 21965, 21969-21970, 21973, 21976		23740, 23750, 23760, 23770, 23780, 23790, 23800, 23810
21980		23820, 23830, 23840, 23850, 23860, 23870, 23880, 23890
anaesthesia modifiers	25000, 25005, 25010, 25020, 25025	23900, 23910, 23920, 23930, 23940, 23950, 23960, 23970
25030		23980, 23990, 24100-24136, 25000, 25005, 25010, 25020
anaesthesia time	23010, 23091, 23101, 23111-23119, 23121	25025, 25030, 25050, 25200, 25205
23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240		Anal canal, laser therapy (restriction)
23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320		anal, excision/repair
23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400		32159, 32162, 32165-32166
23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480		anal, stretching of
23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560		32153
23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640		anastomosis of upper or lower limb
23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720		34503, 34509
23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800		Anastomosis, aorta, congenital heart disease
23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880		and ankle, tibialis tendon transfer
23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960		50339, 50342
23970, 23980, 23990, 24100-24136		and excision of cyst/teratoma
Anaesthetic, Relative Value Guide	20100, 20102, 20104, 20120	43912
20124, 20140, 20142-20148, 20160, 20162, 20164, 20170		and foot, tibialis tendon transfer
20172, 20174, 20176, 20190, 20192, 20210, 20212, 20214		50339, 50342
20216, 20220, 20222, 20225, 20230, 20300, 20305		and sclerectomy, for glaucoma (Lagrange's op)
20320-20321, 20330, 20350, 20352, 20355, 20400-20406		42746
20410, 20420, 20440, 20450, 20452, 20470, 20472		Aneurysm, cerebrovascular, clipping/reinforcement
20474-20475, 20500, 20520, 20522, 20524, 20526, 20528		aneurysm, clipping or reinforcement of sac
20540, 20542, 20546, 20548, 20560, 20600, 20604, 20620		39800
20622, 20630, 20632, 20634, 20670, 20680, 20690, 20700		aneurysm, endovascular coiling
20702-20704, 20706, 20730, 20740, 20745, 20750, 20752		35412
20754, 20756, 20770, 20790-20794, 20798-20800, 20802-20804		aneurysm, ligation of cervical vessel/s
20806, 20810, 20815, 20820, 20830, 20832, 20840-20842		39812
20844-20848, 20850, 20855, 20860, 20862-20864, 20866-20868		aneurysm, resection
20880, 20882, 20884, 20886, 20900, 20902, 20904-20906		38507-38508
20910-20912, 20914, 20916, 20920, 20924, 20926, 20928		Angiofibroma, face/neck, removal by laser excision
20930, 20932, 20934, 20936, 20938, 20940, 20942-20944		30190
20946, 20948, 20950, 20952, 20954, 20956, 20958, 20960		angiography, selected coronary
21100, 21110, 21112, 21114, 21116, 21120, 21130, 21140		38215, 38218, 38220, 38222
21150, 21155, 21160, 21170, 21195, 21199-21200, 21202		38225, 38228, 38231, 38234, 38237, 38240-38241, 38243
21210, 21212, 21214, 21216, 21220, 21230, 21232, 21234		38246
21260, 21270, 21272, 21274-21275, 21280, 21300, 21321		angiography, selective
21340, 21360, 21380, 21382, 21390, 21392, 21400		38215, 38218, 38220, 38222, 38225
21402-21404, 21420, 21430, 21432, 21440, 21445		38228, 38231, 38234, 38237, 38240-38241, 38243, 38246
21460-21462, 21464, 21472, 21474, 21480, 21482, 21484		Angioma, cauterisation/injection into
21486, 21490, 21500, 21502, 21520, 21522, 21530, 21532		45027
21535, 21600, 21610, 21620, 21622, 21630, 21632, 21634		angioplasty, peripheral
21636, 21638, 21650, 21652, 21654, 21656, 21670, 21680		35315
21682, 21685, 21700, 21710, 21712, 21714, 21716, 21730		Angioplasty, peripheral laser
21732, 21740, 21756, 21760, 21770, 21772, 21780, 21785		35315
		Angioscopy
		35324, 35327
		Ankle, achilles tendon, operation for lengthening
		49727
		Annuloplasty, heart valve
		38475, 38477-38478
		Anophthalmic orbit, insertion cartilage/implant
		42518
		Anophthalmic, placement of motility integrating peg
		42518
		Anoplasty for anal stricture
		32123
		Anorectal carcinoma, excision of
		32105
		Anorectoplasty of anorectal malformation
		43963, 43966
		antenatal
		16500
		Antenatal cardiotocography (restriction)
		16514
		Antepartum haemorrhage, treatment of
		16509
		Anterior chamber, irrigation of blood from
		42743
		anterior or posterior chamber or both
		42740
		anterior resection of
		32024-32026, 32028
		antireflux operation by
		31464, 31466
		Antireflux operations
		30527, 30529-30530
		Antrectomy and/or vagotomy
		30497, 30503
		Antrobuccal fistula operation
		41722

antrobuccol, operation for	41722	arthrectomy or arthrodesis	48939, 48942
Antroscopy of temporomandibular joint	45855, 45857	Arthroectomy, hip	49309, 49312
Antrostomy, radical	41710, 41713	Arthrocentesis. with irrigation of temporomandibular joint	45865
Antrum, drainage of, through tooth socket	41719	arthrodesis	45877, 49306
antrum, proof puncture and lavage of	41698, 41701	arthrodesis of	49512, 49545, 49712, 49815, 49845, 50109
Anus, dilatation of (Lord's procedure)	32153	Arthrodesis, ankle	49712
Aorta, anastomosis, congenital heart disease	38706, 38709	arthroplasty	49309, 49312, 49315, 49318-49319, 49321
aorta, operative management of rupture/dissection	38572		49324, 49327, 49330, 49333, 49336, 49339, 49342
aorta, repair or replacement procedures	38550, 38553		49345-49346
38556, 38559, 38562, 38565, 38568, 38571		arthroplasty of	49209, 49518-49519, 49521, 49524, 49527
aortic aneurysm, endovascular repair of	33116, 33119		49530, 49533-49534
Aortic bypass	32708, 32710-32711	arthroplasty of, not otherwise covered	50127
Aorto-duodenal fistula, repair of	34160, 34163, 34166	Arthroplasty, ankle	49715
aorto-duodenal, repair of	34160, 34163, 34166	arthroplasty, revision	49346
Aorto-femoral endarterectomy	33515	arthroscopic surgery	48948, 48951, 48954, 48957, 48960
Aorto-iliac endarterectomy	33512		49221, 49224, 49227
Aortopexy for tracheomalacia	43909	arthroscopic surgery of	49121, 49703
Appendiceal abscess, laparotomy for drainage	30394	arthroscopy	48945, 49360, 49363, 49366
appendiceal, laparotomy for drainage	30394	arthroscopy of	45855, 45857, 49218, 49557-49564, 49566
Appendectomy	30571-30572, 30574, 30645	50100	
Appendectomy, laparoscopic	30646	arthroscopy of, diagnostic	49118, 49700
Appendix, ruptured, laparotomy for drainage	30394	Arthroscopy, ankle	49700, 49703
application of a localiser cast to	50600	arthrotomy	45859, 46327, 46330, 48912, 49303
application of formalin	32212	arthrotomy of	49100, 49212, 49500, 49706, 50103
Arachnoidal cyst, craniotomy for	39718	Arthrotomy, ankle	49706
Arch Bars, to maxilla or mandible, removal of	45823	artificial erection device, insertion	37426, 37429
area, exploration of	36537	Artificial erection device, insertion of	37426, 37429
Areola, reconstruction of	45545-45546	artificial erection device, revision or removal of	37432
Arm, amputation or disarticulation of	44328	artificial, removal and replacement	42707, 42710
arm, upper (and elbow)	21700, 21710, 21712, 21714, 21716	artificial, removal or repositioning	42704
21730, 21732, 21740, 21756, 21760, 21770, 21772, 21780		Arytenoidectomy with microlaryngoscopy	41867
21785, 21790		aspiration biopsy of cyst/s	45799
Arnold Chiari malformation, decompression of	40106	Aspiration biopsy, bone marrow	30087
arrest of post-operative haemorrhage	30663	assist device, insertion of	38615, 38618
Arrhythmia ablation	38287, 38290, 38293	assist device, removal of, independent	38621, 38624
arrhythmia, surgery for	38287, 38290, 38293, 38390, 38393	assistance at anaesthesia	25200, 25205
38512, 38515, 38518		Assistance at operations	51300, 51303, 51306, 51309, 51312
Arterial anastomosis, not otherwise covered	32766, 32769	51315, 51318	
arterial catheterisation	35321	assistance time	23010, 23091, 23101, 23111-23119, 23121
arterial, collection for pathology	13839, 13842	23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240	
arterial/venous, independent	32766	23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320	
arterial/venous, with other operation	32769	23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400	
Arteries, major, access as part of re-operation	35202	23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480	
Arteriography, operative	35200	23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560	
Arteriography, preparation for	38215, 38218	23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640	
Arteriovenous access device, insertion of	34512	23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720	
arteriovenous malformation, excision of	39803	23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800	
arteriovenous, dissection, ligation	34112, 34115, 34118	23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880	
arteriovenous, dissection, repair	34121, 34124, 34127	23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960	
34130		23970, 23980, 23990, 24100-24136	
arteriovenous, external, insertion/removal	34500, 34506	assistance, modifiers	25000, 25005, 25010, 25020, 25025
arteriovenous, ligation cervical vessel/s	39812	25030	
arteriovenous, upper or lower limb	34503, 34509	Assisted reproductive technologies	13200, 13203, 13206
artery bypass vein graft, dissection	38637	13209, 13212, 13215, 13218, 13221	
artery catheterisation	13818	atherectomy, peripheral	35312
artery catheterisation for SIRT	35406, 35408	Atherectomy, peripheral arterial	35312
artery embolisation	35410	atresia, auditory canal reconstruction	45662
Artery, anastomosis of, microvascular	45502	Atresia, choanal, repair/correction	45645-45646
Artery, great ligation/exploration, other	34103	atresia/corrosive stricture, replacement for	43903
artery, internal, transection/resection	32703	Atrial chamber/s, operations for arrhythmia	38512, 38515
artery, transantral ligation of	41707	Atticotomy	41533, 41536
arthrectomy	49309, 49312	auditory canal, correction of	41521

Auditory canal, external	41524	bladder, laser destruction with cystoscopy	36840
auditory meatus, removal of exostoses	41518	bladder, removal of	36863
augmentation	38766	Bladder, stress incontinence, sling procedure	37040, 37338
Augmentation mammoplasty	45524, 45527-45528	blepharospasm	18369-18370, 18372, 18374
Aural polyp, removal of	41506	blood pressure monitoring	13876
aural, removal of	41506, 41509	body tumour, resection of	34148, 34151, 34154
Autoconjunctival transplant	42641	bone conduction hearing system	41603-41604
Avulsion, penis, repair of	37411	bone graft to	50644
Axilla, lymph glands, excision of	30332	bone grafting for pseudarthrosis	46405
Axillary hyperhidrosis, excision for	30180, 30183	bone grafting of phalanx for	46402, 46405
Axillary hyperhidrosis, vessel, ligation/exploration, other	34103	bone marrow	30081, 30084, 30087
Axillofemoral graft, infected, excision of	34172	bone, benign, requiring allograft, resection of	50230
		Bone, cysts, injection into or aspiration of	47900
		bone, fracture, treatment of	45981, 47762, 47765, 47768 47771
		bone, injection into or aspiration of	47900
		bone, innocent, excision of	30241
		bone, malignant, operations for	50200-50201, 50203, 50206 50209, 50212, 50215, 50218, 50221, 50224, 50227, 50230 50233, 50236, 50239
		bone, operation on, for osteomyelitis	43509, 43518
		bone, osteectomy or osteotomy of	48424, 48427
		bone, reconstruction of	45788
		bone, removal of styloid process of	30244
		bone, resection for removal of tumour	41584, 41587
		bones, bone grafting, pseudarthrosis	46402, 46405
		bones, fracture, treatment of	47735, 47738, 47741
		bones, operation for osteomyelitis	46462
		bones, osteotomy/osteectomy	46396, 46399
		Botulinum toxin, injection for	18350-18351, 18353-18354 18360, 18362, 18365-18366, 18368-18370, 18372, 18374 18377, 18379
		Boutonniere deformity, reconstruction of	46444, 46447
		bowel intubation	30488
		bowel stricturoplasty	30564
		Bowel, colectomy, total	30608, 30622, 32009, 32012, 32015 32018, 32021
		bowel, endoscopic examination of	32095
		Brachial fistula	43832
		Brachial plexus, exploration of	39333
		Brachial, removal of	30287
		Brachycephaly, cranial vault reconstruction for	45785
		Brachytherapy planning	15536
		brain, operations for	39703
		Branchial cyst, removal of	30286-30287
		branchial, removal of	30286, 30289
		breast	31530, 31533, 31548
		Breast, biopsy, fine needle, imaging guided	31533
		breast, correction of (unilateral)	45556
		breast, exploration and drainage	31551
		Breast, malignant tumour, targeted intraoperative radiotherapy	15900
		Breast, malignant tumour, complete local excision	31516
		breast, removal and/or replacement	45548, 45551 45553-45554
		Broad ligament cyst/tumour, excision/removal	35713, 35717
		broad ligament, excision of	35713, 35717
		broad ligament, removal of	35713, 35717
		Brodie's abscess, operation for	43515
		bronchogenic, thoracotomy and excision	43912
		Bronchial tree, intrathoracic operation on, other	38456
		Bronchoscopy, as an independent procedure	41889
B			
Baker's cyst, excision of	30114		
Baker's, excision of	30114		
Balloon catheter, right heart, insertion of	13818		
balloon dilatation of	41832		
Balloon enteroscopy	30680, 30682, 30684, 30686		
balloon pump, insertion of	38362, 38609		
balloon pump, removal of	38612-38613		
bands or lingual tonsils, removal of	41804		
Bariatric Surgery	31569, 31572, 31575, 31578, 31581, 31584		
Bariatric surgery, surgical reversal of	31584		
Bartholin's abscess, incision of	35520		
Bartholin's, cautery destruction of	35517		
Bartholin's, excision of	35513		
Bartholin's, incision of	35520		
Bartholin's, marsupialisation of	35517		
base tumour, removal, infra-temporal	41581		
Bat ear or similar deformity, correction of	45659		
bed, reconstruction of laceration	46486		
benign lesion	31500, 31503		
benign, of soft tissue, removal	31350		
Bicornuate uterus, plastic reconstruction for	35680		
bicornuate, plastic reconstruction for	35680		
Bile duct, common, radical resection	30461, 30463-30464		
Biliary atresia, paediatric, portoenterostomy for	43978		
biliary dilatation	30495		
biliary drainage	30440, 30451, 30495		
biliary stenting	30492		
biliary/renal tract, extraction of	30450		
biopsies, multiple, with infracolic omentectomy	35726		
biopsy	30409, 30411-30412		
biopsy (closed)	36561		
biopsy of	30075, 30081, 30084, 30087, 42676		
biopsy of for suspected malignancy	35620		
biopsy of prostate	37212, 37218		
biopsy of solid tumour, vacuum-assisted, image guided	31530		
biopsy of vertebra	30093		
biopsy of with hysteroscopy	35630		
biopsy of, with cystoscopy	36836		
biopsy of, with IUD insertion for idiopathic menorrhagia	35502		
Biopsy, aggressive bone/deep tissue tumour	50200-50201		
biopsy, by cardiac catheterisation	38275		
biopsy, deep organ, imaging guided	30094		
bladder stress, suprapubic operation	37044		
Bladder, aspiration of, by needle	37041		
bladder, cystoscopic removal of	36833		
bladder, diathermy/resection with cystoscopy	36840, 36845		
bladder, endoscopic incision/resection	36854		

Bronchus, dilatation of stricture and stent insertion	41905	Carotid artery, aneurysm, graft replacement	33100
bronchus, removal of	41895	carotid body, resection of	34148, 34151, 34154
Broviac catheter, insertion of, for chemotherapy	34527-34528	carotid-cavernous, obliteration of	39815
34540		carpal bone	46324-46325
Bubonocele operation	30614	Carpal bone, replacement arthroplasty	46324-46325
Bunion, excision of	47933	Carpometacarpal joint, arthrodesis of	46303
Burch colposuspension	37044	carpus	48406, 48409
Burns, dressing of (not involving grafting)	30003, 30006	Carpus dislocation, treatment of	47030, 47033
30010, 30014		carpus, operation for	46462
Burr-hole craniotomy, intracranial haemorrhage	39600	caruncle, cauterisation of	35523
burr-hole for intracranial haemorrhage	39600	caruncle, excision of	35527
Burst abdomen, repair of	30403	Caruncle, urethral, cauterisation of	35523
by open exposure of the trachea	41881	Cataract, juvenile, removal of	42716
bypass	30460, 30466-30467, 38627	catheter, insertion and fixation of	13109
bypass for venous stenosis or occlusion	34812	catheter, insertion of	39140
bypass grafting, occlusive arterial disease	32700, 32703	catheter, insertion of for infusion device	39125, 39128
32708, 32710-32712, 32715, 32718, 32721, 32724, 32730		Catheter, peritoneal insertion and fixation	13109
32733, 32736, 32739, 32742, 32745, 32748, 32751, 32754		catheter, removal of	13110, 34530, 34540
32757, 32760, 32763		catheterisation	38200, 38203, 38206, 38209, 38212-38213
Bypass, extracranial to intracranial	39818	38215, 38218, 38220, 38222	
bypass, for occlusive arterial disease	32700, 32703, 32708	catheterisation - for myocardial biopsy	38275
32710-32712, 32715, 32718, 32721, 32724, 32730, 32733		catheterisation of	36800, 38200, 38203, 38206
32736, 32739, 32742, 32745, 32748, 32751, 32754, 32757		catheterisation with cystoscopy	36818, 36824
32760, 32763		Catheterisation, bladder, independent procedure	36800
		catheterisation, peripheral	35317, 35319-35321
		cauterisation of, for ectropion or entropion	42581
		cauterisation of, other than by chemical means	35608
		Cauterisation, angioma (restriction applies)	45027
		Cautery, conjunctiva, including treatment of pannus	42677
		caval filter, insertion of	35330
		cavernous fistula, obliteration of	39815
		Cavernous sinus, tumour or vascular lesion, excision	39660
		cavity and/or post nasal space, examination of	41653
		cavity, aspiration of	38800, 38803
		cavity, packing for arrest of haemorrhage	41677
		cavity, reconstruction of	45590
		Cavopulmonary shunt, creation of	38733, 38736
		Cellulitis, incision with drainage, under GA	30223
		Central cannulation for cardiopulmonary bypass	38600
		central ducts, excision for benign condition	31557
		central vein	13318-13319, 13815
		central vein, for haemodialysis or parenteral nutrition	34538
		central vein, subcutaneous tunnel	34527-34528
		central vein, tunnelled cuffed	34538
		central vein, tunnelled cuffed catheter	34538
		central, catheterisation	13318-13319, 13815
		central, catheterisation, subcutaneous tunnel	34527-34528
		cephalic version	16501
		Cerebello-pontine angle tumour	41575-41576, 41578-41579
		cerebello-pontine angle, removal of	41575-41576
		41578-41579	
		Cerebral palsy, hips or knees, application of cast under GA	50390
		Cerebrospinal fluid drain, lumbar, insertion of	40018
		cervical	30294
		cervical, neonatal oesophageal atresia	43858
		cervix	35608, 35646
		Cervix, amputation or repair of	35618
		cervix, cone	35618
		cervix, punch	35608
		cervix, removal of	35611
		cervix-residual, removal of, abdominal approach	35612
		cervix-residual, removal of, vaginal approach	35613
C			
Caecostomy,	30375, 30637		
Caesarean section	16520, 16522		
calcaneal spur, excision of	49818		
Calcaneal spur, of foot, excision of	49818		
Calcanean bursa, excision of	30111		
Calcaneum fracture, treatment of	47606, 47609, 47612, 47615		
47618			
Calculus, biliary, extraction of	30454-30455, 30457-30458		
Caldwell-Luc operation	41710		
Calf, decompression fasciotomy of	47975, 47978, 47981		
canal external, blind sac closure	41564		
canal stenosis, correction of, with meatoplasty	41521		
canaliculus, immediate repair of	42605		
Cancer of skin/mucous membrane, removal	30196, 30202		
cancer, treatment of	30196, 30202		
Cannulae, membrane oxygenation	38627		
cannulation for cardiopulmonary bypass	38603		
cannulation for infusion chemotherapy, open	34524		
cannulation of, in a neonate	13300		
Cannulation, arterial, for infusion chemotherapy	34524		
Canthoplasty	42590		
Capsulectomy	42719, 42731		
capsulotomy	42788		
Capsulotomy, laser	42788		
Carbon dioxide laser resurfacing, face or neck	45025-45026		
Caruncle, incision and drainage, with GA	30223		
cardiac	38200, 38203, 38206, 38209, 38212-38213, 38215		
38218, 38220, 38222			
Cardiac by-pass, whole body perfusion	22060		
cardiac, excision of	38670, 38673, 38677, 38680		
Cardiopexy, antireflux operation	30530		
Cardiopulmonary bypass, cannulation for	38600, 38603		
Cardiotocography, antenatal (restriction)	16514		
Cardioversion	13400		
care, independent of confinement	16500		

Chalazion, extirpation of	42575	coil, insertion of	37223
chamber, operation for arrhythmia	38518	Colectomy, subtotal, of large intestine	32004-32005
chemical peel	45019	collateral or cruciate ligament repair	49503, 49506
Chemical peel, full face	45019	collection of blood for	13709
Chemotherapy 13915, 13918, 13921, 13924, 13927, 13930, 13933		collection of, for transfusion	13709
13936, 34529, 34534		collection of, in infants, for pathology	13312
chemotherapy, cannulation for	34521, 34524	Colonic atresia, neonatal, laparotomy for	43816
Chest, or limb, decompression escharotomy	45054	Colonic stent, insertion of	32023
Chloasma, full face chemical peel	45019	colonic, total, intra-operative	32186
Choanal atresia, repair/correction	45645-45646	colonoscopy	32084, 32087
cholangio-pancreatography	30484	Colonoscopy, fibreoptic	32084, 32087
Cholangiogram, percutaneous transhepatic	30440	Colorectal strictures, endoscopic dilatation of	32094
cholangiography or pancreatography	30439	colostomy	30375
Cholangiography, operative	30439	Colostomy, closure of	30562, 30639
Cholangiopancreatography	30484	Colotomy	30375
Cholecystectomy	30443, 30445-30446, 30448-30449	Colpoperineorrhaphy	35571, 35573
Cholecystoduodenostomy	30460, 31472	colpopexy	35597
Cholecystoenterostomy	30460, 31472	Colpopexy, sacral	35597
Cholecystostomy	30375	colposcopic examination of	35614
Choledochal cyst, resection of	43972, 43975	colposcopy with biopsy and diathermy	35646
choledochal, resection of	43972, 43975	Colposcopy, using Hinselmann-type instrument	35614
Choledochoduodenostomy	30460-30461	Colpotomy	35572
Choledochenterostomy	30460-30461	compartment repair, anterior	35570
Choledochogastrostomy	30461	compartment repair, anterior/posterior	35573
Choledochojejunostomy	30460-30461	compartment repair, posterior	35571
Choledochoscopy	30442, 30452	complicated by previous surgery	37444
Choledochotomy	30454-30455, 30457	complicated operative	35638, 35641
Chondro-cutaneous or chondro-mucosal graft	45656	composite (chondro-cutaneous/mucosal)	45656
Chondroplasty of knee	49503, 49506	composite graft to	45656
Chordee, correction of	37417	Composite graft to nose, ear or eyelid	45656
Chorionic villus sampling	16603	conduit, revision of	36609
cicatricial flexion contracture of, correction	50112	Condylectomy	45611, 48406, 48424
Cicatricial flexion/extension contracture, joint, correction	50112	Condylectomy/condylotomy	45863
Ciliary body and/or iris, excision of tumour	42767	cone biopsy of	35618
Circulatory support device, management of	13851, 13854	Cone biopsy of cervix	35618
Circumcision	30649, 30654, 30658	Confinement	16515, 16518-16520, 16522
Cisternal puncture	39003	congenital abnormalities, amputation of phalanges	50396
clavicle	48406, 48409	congenital abnormalities, splitting of phalanges	50396
Clavicle, dislocation, treatment of	47003, 47006	Congenital absence of vagina, reconstruction for	35565
claw or hammer toe, correction of	49848, 49851	congenital deficiency, treatment of	50411, 50414, 50417
Claw toe, correction of	49848	50423	
Cleft lip, operations for	45677, 45680, 45683, 45686, 45689	congenital deformity, post-op manipulation, plaster	50348
45692, 45695, 45698, 45701, 45704		congenital dislocation, open reduction	50351
Clitoris, amputation of, medically indicated	35530	congenital dislocation, reconstruction of quadriceps	50420
Clitoroplasty, reduction, ambiguous genitalia	37845, 37848	congenital pseudarthrosis, resection, fixation	50354
Clival tumour, removal of	39653-39654, 39656, 39658	congenital, vertebral resection and fusion for	50640
Cloaca, persistent, correction of	43969	conjunctiva	42676
Cloacal exstrophy, neonatal, operation for	43882	Conjunctiva, cautery of	42677
closure of	30103, 30562	conjunctiva, cautery of	42677
closure of and repair of musculoaponeurotic layer	45570	Conjunctival cysts, removal of	42683
closure of, in conjunction with free tissue transfer or breast		conjunctival graft	42638
reconstruction	45569	conjunctival over cornea	42638
closure of, with rectal resection	32060, 32063, 32066	Conjunctivorhinostomy	42629
closure of, without resection of bowel	30562	Contour reconstruction, insertion of foreign implant	45051
closure or plastic repair of	30293	Contraceptive device, intra-uterine, introduction of	35503
Club hand, radial, centralisation/radialisation	50399	contraceptive device, removal of under GA	35506
coalition, excision of	50333	Contracted socket, reconstruction	42527
Coccyx, excision of	30672	contracture of, medial/anterior release	50375, 50378
Cochlear implant, insertion with mastoidectomy	41617	50381, 50384	
Cochleotomy, or repair of round window	41614	contracture of, posterior release	50363, 50366, 50369
Coeliac artery, decompression of	34142	50372	
coeliac, decompression of	34142	Contracture, cicatricial flexion/extension of joint, correction	50112

Diaphyseal aclasia, removal of lesion/s from bone	50426		
Diastematomyelia, tethered cord, release of	40112		
diathermy of	35608, 35646, 37318		
Diathermy of bladder tumours	36840, 36845		
diathermy or visual laser destruction of	37224		
diathermy/visual laser for lesion of prostate	37224		
Digit, amputation of	46464-46465, 46468, 46471, 46474, 46477 46480		
digital nail, removal of	46513, 46516		
Digital nail, toe, removal of	47904, 47906		
digital, of finger or thumb, removal of	46513, 46516		
digital, of toe, removal of	47904, 47906		
digits, flexor/extensor contracture, correction	46492		
dilatation	36821		
dilatation of	41822, 41825, 41828, 41831		
dilatation of colorectal strictures	32094		
dilatation of, as an independent procedure	35554		
dilatation with cystoscopy	36812		
dilatation, endoscopic	30494		
dilatation, percutaneous	30495		
Direct flap repair	45209, 45212, 45215, 45218, 45221, 45224		
direct, indirect or local, revision of	45239-45240		
discontinuation of surgical procedure on medical groups	30001		
disease, neonatal, laparotomy for	43819		
disease, paediatric, operations for	43990, 43993, 43996 43999		
Disimpaction of faeces under GA	32153		
dislocation, acetabulum fracture, treatment	47495, 47498		
dislocation, congenital, treatment of	50349, 50352		
dislocation, congenital, treatment of including paediatric	50650, 50654, 50658		
dislocation, treatment of	41686, 47009, 47012, 47015 47018, 47021, 47024, 47027, 47030, 47033, 47036, 47039 47042, 47045, 47048, 47051, 47054, 47057, 47060, 47063 47066, 47069, 47072		
dislocations, treatment of	47000		
Dissection, lymph nodes of neck	30618, 31423, 31426, 31429 31432, 31435, 31438		
distal, devascularisation of	32200		
distal, excision of ganglion/mucous cyst	46495		
distal, for osteomyelitis	46459		
diverticulum of, excision or obliteration	37020		
Diverticulum, bladder, excision/obliteration	37020		
diverticulum, excision of	37372		
divided, repair of	36573		
division of adhesions	30393, 35637		
division of suture, eye	42794		
division of suture, laser	42794		
division of, with laparoscopy	30393		
division of, with laparotomy	30376, 30378-30379		
Dohlman's operation	41773		
Donald-Fothergill operation	35577		
Donor haemapheresis	13755		
donor, continuous perfusion of	22055		
Double vagina, excision of septum	35566		
drainage by insertion of glass tube	42608		
drainage of deep abscess, imaging guided	30224		
drainage of empyema, without rib resection	38806, 38809		
drainage of, transthoracic	38450		
drainage tube exchange, imaging guided	30451		
drainage tube, exchange of	30225		
drainage tube, exchange of, imaging guided	36649		
dressing and removal of, requiring GA		30055	
dressing of, requiring GA		30055	
Drez lesion, operation for		39124	
Drill biopsy of lymph gland/deep tissue/organ		30078	
drill decompression of head/neck or both		47982	
drill, lymph gland, deep tissue/organ		30078	
Drug delivery device, loading of	13939, 13942, 13945		
drug delivery system	39125-39126, 39128, 39133		
drug delivery system for spasticity management	14227		
	14230, 14233, 14236, 14239, 14242		
drum perforation, excision of rim		41644	
duct, common, repair of		30472	
duct, endoscopic stenting of		30491	
duct, meatotomy or marsupialisation		30266	
duct, patent vitello, excision of		43945	
duct, removal of calculus		30266	
duct, repair of,		30246	
Duct, salivary gland, diathermy/dilatation		30262	
Ducts submandibular, removal of		30255	
ducts, relocation of		30255	
ducts, Roux-en-Y bypass		30466-30467	
ductus arteriosus, division/ligation		38700, 38703	
Duodenal atresia, duodeno-duodenostomy/jejunostomy		43807	
duodenal, perforated, suture of		30375	
Duodenoduodenostomy for duodenal atresia/stenosis		43807	
Duodenojejunostomy for duodenal atresia/stenosis		43807	
Duodenoscopy		30473, 30478	
duplication of digits, amputation of phalanges		50396	
duplication of digits, splitting of phalanges		50396	
Dupuytren's contracture, operations for	46366, 46369, 46372 46375, 46378, 46381, 46384, 46387, 46390, 46393		
Dupuytren's, subcutaneous fasciotomy for		46366	
dynamic equinus foot deformity		18354	
Dysthyroid eye disease, decompression of orbit		42545	
dystopia, correction of		45776, 45779	
E			
E.C.T.		14224	
ear, complex total reconstruction of		45660-45661	
Ear, composite graft to		45656	
ear, exploration of		41629	
ear, insertion of tube for drainage of		41632	
ear, operation for abscess or inflammation of		41626	
ear, removal of		41500, 41503	
Eclampsia, treatment of		16509	
Ectopic bladder, 'turning-in' operation		37842	
ectopic, 'turning-in' operation		37842	
ectropion or entropion, correction of		45626-45627	
Ectropion, correction of		45626-45627	
elbow	49100, 49106, 49118, 49121		
Elbow, arthrodesis of		49106	
electrical stimulation of		13400	
electrocoagulation diathermy		35644-35645	
electrocoagulation, of cervix		35644-35645	
Electroconvulsive therapy		14224	
electrode placement		40709, 40712	
Electrode(s), epidural, insertion by laminectomy		39139	
electrode, insertion		39130, 39139	
electrode, management, adjustment etc.		39131	
Electrolysis epilation, for trichiasis		42587-42588	
electrophysiological studies		38209, 38212-38213	

Electrophysiological studies, cardiac	38209, 38212-38213	epidural, percutaneous insertion of	39130
Embolectomy	33803, 33806	epidural, percutaneous, management of	39131
embolectomy of	33800, 33803, 33806	Epigastric hernia, repair of	30621
Embolus, removal from artery of neck	33800	Epilation electrolysis, for trichiasis	42587-42588
Empysema, lobar, neonatal, thoracotomy & lung resection	43861	Epilepsy, operations for	40700-40709, 40712
Empyema, intercostal drainage of	38806, 38809	Epiphyseal arrest	48500, 48503, 48506, 48509
Enbloc resection of tumour	50212, 50215, 50218, 50221, 50224 50227	epiphysodesis	48500, 48503, 48506
Encephalocoele, excision and closure of	40109	Epiphysodesis, femur/fibula/tibia	48500, 48503, 48506
Enderectomy	33500, 33506, 33509, 33512, 33515, 33518 33521, 33524, 33527, 33530, 33533, 33536, 33539, 33542	Epiphysiolysis, to prevent closure of plate	48512
enderectomy	33509, 33521	Epispadias, repair of	37836, 37839, 37842
enderectomy of	33500, 33506, 33509, 33512, 33515, 33518 33521, 33524, 33527, 33530, 33533, 33536, 33539, 33542	Epistaxis, treatment of	41656, 41677
enderectomy, open operation	38505	Epithelial debridement for corneal ulcer/erosion	42650
Endobronchial tumour, endoscopic laser resection	41901	epithelial debridement for corneal ulcer/erosion	42650
endobronchial ultrasound, lung tumours	30710	epithelial debridement for keratoplasty	42651
Endocarditis, operative management of	38493	equinovarus, procedures for	50315, 50318, 50321, 50324 50327, 50330
Endocrine tumour, exploration of	30578, 30580-30581	erection device, revision or removal of	37432
endocrine, exploration of	30578, 30580-30581	ESWL	36546
Endolymphatic sac, transmastoid decompression	41590	Ethmoidal artery, transorbital ligation of	41725
endometrial	35616	ethmoidal, external operation on	41749
Endometrial biopsy for suspected malignancy	35620	ethmoidal, transorbital ligation of	41725
endometrial, for suspected malignancy	35620	Ethmoidectomy, fronto-nasal	41731
Endometriosis, laparoscopic ablation	35638	Etonogestral, subcutaneous implant, removal of	30062
Endometrium, ablation of, endoscopic	35622	eustachian tube	41755
endoscopic	30485, 36854	Eustachian tube, catheterisation of	41755
Endoscopic biliary dilatation	30494	Evacuation of retained products of conception	16564
endoscopic examination and ablation by microwave or thermal		Eversion, plication of diaphragm for	43915
balloon	35616	Evisceration of globe of eye	42512, 42515
endoscopic examination with cystoscopy	36812	examination of intestinal conduit/reservoir	36860
endoscopic gastrotomy	30481-30482	examination of small bowel	30569, 32095
endoscopic laser ablation	37207-37208	examination under GA, paediatric	44101-44102
Endoscopic ultrasound fine needle aspiration	30696	examination, under GA	32171
Endoscopy with balloon dilatation gastric stricture	30475	excavatum, repair or radical correction	38457-38458
enlargement of, using intestine	37047	excision of	30099, 30103, 30226, 30229, 30443, 30445-30446 30448-30449, 30583, 37000, 37014, 45030, 45033 45035-45036
entero-	30515	excision of infected by-pass graft	34157
Enterocoele, repair of	35571	excision of lip, eyelid or ear, full thickness	45665
Enterocolitis, acute neonatal necrotising, laparotomy	43828 43831	excision of rectal tumour	32103-32104, 32106
Enterocolostomy	30515	excision of tumour of	42764
Enterocutaneous fistula, radical repair of	30382	excision of under GA (not involving grafting)	30017, 30020
enterocutaneous, radical resection	30382	excision of, in oral & maxillofacial region	45801, 45803 45805, 45807, 45809
Enteroenterostomy	30515	excision of, oral & maxillofacial region	45801, 45803 45805, 45807, 45809
enterogenous, thoracotomy and excision	43912	excision of, with melanoma	31340
enterostomy	30375	excision of, with melanoma	31340
Enterostomy, closure of	30562	excision, repair, without cardiopulmonary bypass	38453
enterotomy	30375	excision, tumours of face/neck	30190
Enterotomy, intra-operative, for endoscopy	30568	Exenteration of orbit of eye	42536
Entropion, correction of	45626-45627	Exomphalos, neonatal, operations for	43870, 43873
enucleation of	42506, 42509-42510	Exostoses in external auditory meatus, removal	41518
Enucleation of eye	42506, 42509	Exostosis, excision of	47933, 47936
Epicondylitis, open operation for	47903	expander, insertion of	45566
Epididymal cyst, excision of	37601	expander, removal of	45568
epididymal, removal of	37601	expansion, intra-operative	45572
Epididymectomy	37613	exploration of	36537, 36612, 39330
Epidural blood patch	18233	exploration of, for hyperparathyroidism	30318, 30320
epidural electrode, insertion	39130	exploration/drainage, operating theatre	31551
epidural electrodes, management of	39131	exploratory	30373
epidural implant, removal	39136	exstrophy closure	37050
epidural, for pain management, removal of	39136	exstrophy of, repair of	37842
epidural, insertion of	39140		

Exstrophy, cloacal, neonatal, operation for	43882	Feto-amniotic shunt, insertion of	16627
extension, percutaneous gastrostomy tube	31460	Fibreoptic bronchoscopy	41898
extensive, multiple injections of hydrocortisone	30210	fibreoptic examination of	41764
Extensor tendon of hand or wrist, repair of	46420, 46423	fibreoptic, with examination of larynx	41764
extensor tendon of, repair of	46420, 46423	Fibrinolysis	42791
extensor tendon of, tenolysis of	46450	fibrinolysis	42791
External auditory canal, reconstruction	41524, 45662	fibula	48406, 48409
external auditory canal, reconstruction	45662	Fibula, congenital deficiency, transfer fibula to tibia	50423
external auditory, removal of keratosis obturans	41509	field setting	15500, 15503, 15506, 15509, 15512-15513
External cephalic version	16501	15515	
external operation on	41876	Filtering and allied operations for glaucoma	42746
external, complex total reconstruction of	45660-45661	Fimbrial cyst, removal of	35713, 35717
Extra digit, amputation of	46464	fimbrial, excision of	35713, 35717
extra, amputation of	46464	Finger, amputation of	46465, 46468, 46471, 46474, 46477
extra-ocular, ruptured, repair of	42854	46480, 46483	
Extracardiac conduit, insertion/replacement	38757, 38760	finger, open repair of text test	46441
Extracorporeal shock wave lithotripsy	36546	finger, with intra-articular fracture, open reduction	46442
Extracranial to intracranial bypass	39818, 39821	finger/hand	46300, 46303, 46306-46307, 46309, 46312, 46315
extraction	42698	46318, 46321, 46327, 46330	
extraction and insertion of artificial lens	42702	finger/hand, debridement of	46336
extremity, reoperation for control of	33848	first, resection of portion	34136
Eye, capsulotomy, laser	42788	Fissure in ano, operation for	32150
eye, decompression of	42545	fissure, operation for, including excision	32150
eye, exenteration of	42536	fistula extremity, surgically created, closure	34130
eye, exploration of	42530, 42533	fistula in ano, excision of	32156
eye, removal tumour/foreign body	42539, 42542-42543	Fistula, alimentary, repair of	35596, 37834
eye, skin graft to	42524	fistula, closure of	37038, 37333, 37336, 37833
Eyeball, repair of perforating wound	42551, 42554, 42557	fistula, dissection and ligation/repair	34112, 34115
Eyebrow, elevation of	42872	34118, 34121, 34124, 34127	
Eyelashes, ingrowing, operation for	45626	fistula, excision/repair	32156, 32159, 32162, 32165
Eyelid closure in facial nerve paralysis, implant insertion	42869	fistula, ligation of cervical vessel/s	39812
face or neck, revision of (restriction applies)	45506	fistula, readjustment of Seton	32166
45512		fistula, removal of	30289
		fistula, repair of	30269
		fistula, repair or closure of	35596, 37029, 37333
		fistula, stenosis of, correction of	34518
		Fixation, external, removal of	47948, 47951
		fixation, orthopaedic, removal	47948, 47951
		flap for velo-pharyngeal incompetence	45716
		flap repair	45000, 45003, 45006, 45009, 45012, 45200
		45203, 45206	
		flap revision	45239-45240
		flap, delay of	45015
		flap, infected, craniectomy for	39906
		flexor tendon of, repair of	46423, 46426, 46429, 46432
		46435	
		flexor tendon of, tenolysis of	46453
		flexor tendon sheath, open operation	46522
		Flexor tendon, hand, repair of	46426, 46429, 46432, 46435
		flexor/extensor contracture, correction of	46492
		flexor/extensor, digits of hand, correction of	46492
		Flexorplasty to restore elbow function	50405
		flexorplasty/tendon transfer to restore function	50405
		floor repair, laparoscopic or abdominal	35595
		Fluid Filled Cavity, drainage of	16624
		fluid filled cavity, drainage of	16624
		fluid reservoir, insertion of	39018
		focal spasticity	18360
		following gynaecological surgery, under GA	35759
		following intraocular procedures	42857
		foot	49815, 49833, 49836-49839, 49842, 49845
		foot deformities due to spasticity	18354
F			
Face, injections of poly-L-Lactic acid	14201		
Face, repair of complex fractures	45753-45754		
face/neck, laser excision	30190		
Facet joint denervation by percutaneous neurotomy	39118		
Facial, nerve, decompression of	41569		
facio-hypoglossal or facio-accessory, anastomosis of	39503		
facio-hypoglossal/accessory nerve	39503		
Facio-hypoglossal/accessory nerve, anastomosis of	39503		
Faecal incontinence, sacral nerve stimulation for	32213-32218		
Fallopian tubes, catheterisation, with hysteroscopy	35633		
Fallopscopy, unilateral/bilateral	35710		
Fascia, deep, repair of, for herniated muscle	30238		
Fasciectomy, for Dupuytren's Contracture	46369, 46372, 46375		
46378, 46381, 46384, 46387, 46390, 46393			
Fasciotomy, forearm or calf	47975, 47978, 47981		
fasciotomy, hand	47981		
feeding jejunostomy	31462		
femoral bypass, saphenous vein anastomosis	34809		
Femoral hernia, repair of	30609, 30614		
Femoral hernia, vessel, ligation/exploration, other	34103		
femoral or inguinal, repair of	30609, 30614, 43841		
Femoro-femoral crossover bypass grafting	32718		
femoro-femoral, infected, excision of	34172		
femur	48424, 48427		
Femur, bone graft to	48200, 48203		
Fetal blood sampling	16606		

Foot, amputation or disarticulation of	44359, 44361, 44364		
For anaesthesia	20100, 20102, 20104, 20120, 20124, 20140

 45477-45478, 45480-45481, 45483-45494
 frenuloplasty 37435
 Frenulum, mandibular or maxillary, repair 30281
 frenulum, repair of 30281
 frontal sinus 41740
 Frontal sinus, catheterisation of 41740
 frontal, catheterisation of 41740
 frontal, radical obliteration of 41746
 frontal, trephine of 41743
 Fronto-ethmoidectomy, radical 41734
 Fronto-nasal ethmoidectomy 41731
 Fronto-orbital advancement 45782, 45785
 fronto-radical 41734
 full face chemical peel 45019
 Full thickness grafts, free 45451
 full thickness laceration, repair 30052
 full thickness laceration, repair of 30052
 full thickness repair of laceration (restriction) 30052
 full thickness wedge excision 45665
 full thickness wedge excision of 45665
 Fundoplasty/plication, antireflux operation 30527
 30529-30530
 Funnel chest, elevation of 38457-38458
 Furuncle, incision with drainage of 30219, 30223

G

Gallbladder, drainage of 30375
 Galvanocautery of skin lesions 30192
 Gamete intra-fallopian transfer 13200, 13203, 13206, 13209
 13212, 13215, 13218, 13221
 Ganglion, excision of 30107
 _ganglion, excision of 46494
 Gangliotomy, radiofrequency trigeminal 39109
 Gangrenous tissue, debridement of 35100, 35103
 Gartner duct cyst, removal of 35557
 Gastrectomy, partial 30518
 Gastrectomy, sleeve 31575
 Gastric band reservoir, adjustment of 31590
 Gastric band, adjustable, placement of 31569
 Gastric band, adjustment of 31587
 Gastric bypass by Roux-en-Y 31572
 Gastric bypass, by Biliopancreatic diversion, with or without
 duodenal switch 31581
 gastric ulcer, suture of 30375
 gastric, perforated, suture of 30375
 gastric, removal of 30520
 Gastro-camera investigation 30473
 Gastro-oesophageal balloon intubation 13506
 gastrocnemius aponeurosis, operation for lengthening 49728
 Gastroduodenal stricture, balloon dilatation 30475
 Gastroduodenostomy 30515
 Gastroenterostomy 30515
 Gastroplasty 31578
 Gastroschisis, operations for 43864, 43867
 Gastroscopy 30473, 30478
 gastrostomy 30375

Gastrostomy button, non-endoscopic insertion/replacement 30483,
 30636
 gastrostomy tube, jejunal extension 31460
 gastrostomy, percutaneous 30481-30482
 Genioplasty 45761
 genito-urinary, repair 35596
 Gilliam's operation 35684
 gland bearing area, excision of 30180, 30183
 gland tumour, excision of 30324
 gland, excision of palpebral lobe 42593
 gland, extirpation of 30256, 30259
 gland, meatotomy or marsupialisation 30266
 gland, operations on 30262, 30266, 30269
 gland, superficial lobectomy/removal of tumour 30253
 gland, total extirpation of 30247, 30250
 glands, biopsy of 30075, 30078
 glands, groin, excision of 30329-30330
 glands, pelvic, radical excision of 35551
 Glaucoma, filtering and allied operations for 42746, 42749
 Glenoid fossa, reconstruction of 45788
 Glioma, craniotomy for removal of 39709
 Globe of eye, evisceration of 42512, 42515
 globe of, evisceration of 42512
 Glomus tumour, transmastoid removal of 41623
 glomus, removal of 41620, 41623
 Glossectomy, with partial pharyngectomy 41785
 Gonadal dysgenesis, vaginoplasty for 37851
 Goniotomy 42758
 gracilis neosphincter 32210
 graciloplasty 32203, 32209
 Graciloplasty procedures 32200, 32203, 32206, 32209-32210
 graciloplasty, insert. stimulator & electrode 32209
 graciloplasty, insertion of 32206
 graciloplasty, insertion of stimulator & electrode 32209
 Grafenberg's (or Graf) ring, introduction of 35503
 graft 45018
 graft for priapism 37396
 graft over cornea 42638
 graft to femur 48200, 48203
 graft to humerus 48212, 48215
 graft to lid 42860
 graft to nerve trunk 39315
 graft to orbit 42524
 graft to other bones 48239
 graft to phalanx or metacarpal 46402, 46405
 graft to radius and ulna 48221
 graft to radius or ulna 48218, 48224, 48227
 graft to scaphoid 48230, 48233, 48236
 graft to tibia 48206, 48209
 Graft, axillo-femoral, infected, excision of 34172
 graft, harvesting of 47726, 47729, 47732
 graft, infected, excision of 34172
 graft, infected, of extremities, excision of 34175
 graft, infected, of neck, excision of 34157
 graft, infected, of trunk, excision of 34169
 graft, with internal fixation 48242
 grafting for aneurysm 33050, 33055
 grafting for symblepharon 45629
 grafting to artery or vein 33545, 33548
 grafting, arterial, for occlusive arterial disease 32700
 32703, 32708, 32710-32712, 32715, 32718, 32721, 32724
 32730, 32733, 32736, 32739, 32742, 32745, 32748, 32751

32754, 32757, 32760, 32763
grafting, cross leg, saphenous to iliac or femoral vein 34806
Granuloma, cautery of 42677
granuloma, excision under GA 43948
granulomatous disease 44130
granuloplasty, meatal advancement 37818-37819
Gravid uterus, evacuation of contents by curettage 35643
gravid, evacuation of contents 35643
Great vessel, intrathoracic operation on, other 38456
Great vessel, ligation or exploration, other 34103
Greater trochanter, transplant of ileopsoas tendon 50121
greater trochanter, transplantation of 50121
Groin, lymph, excision of 30329-30330
growth retardation, attendance for 16508
growth stimulator 45821
Gunderson flap operation 42638
Gynaecological examination under GA 35500
gynaecological, radical or debulking operation 35720
Gynatresia, vaginal reconstruction for 35565

H

Haemangioma, cauterisation of (restriction) 45027
Haemapheresis 13750, 13755
Haematoma, aspiration of 30216
haematoma, drainage of 30387
Haemochromatosis 13757
Haemodialysis, in hospital 13100, 13103
Haemofiltration, continuous (ICU) 13885, 13888
Haemoperfusion, in hospital 13100, 13103
Haemorrhage, antepartum, treatment of 16509
haemorrhage, arrest of 41656, 41677
haemorrhage, burr-hole craniotomy for 39600, 39603
Haemorrhoidectomy 32138-32139
Hair transplants, congenital/traumatic alopecia 45560
Hallux rigidus/valgus, correction of 49821, 49824, 49827
49830, 49833, 49836-49839, 49842
hallux valgus or hallux rigidus, correction of 49821
49824, 49827, 49830, 49833, 49836-49839, 49842
hammer or claw, correction of 49848, 49851
Hammer toe, correction of 49848
hamstring tendon transfer 50357, 50360
Hand, amputation or disarticulation of 44325, 44328
hand, excision of 46494-46495, 46498
Hartmann's operation 32030
harvesting for coronary bypass 38496
harvesting, leg/arm, for bypass, not same limb 32760
harvesting, leg/arm, for patch graft, not same incision 33551
head 20100, 20102, 20104, 20120, 20124, 20140, 20142-20148
20160, 20162, 20164, 20170, 20172, 20174, 20176, 20190
20192, 20210, 20212, 20214, 20216, 20220, 20222, 20225
Heart arrhythmia, ablation of 38287, 38290, 38293
heart disease, operations for 38700, 38703, 38706, 38709
38712, 38715, 38718, 38721, 38724, 38727, 38730, 38733
38736, 38739, 38742, 38745, 38748, 38751, 38754, 38757
38760, 38763, 38766
Heller's operation 30532-30533
hemi-arthroplasty of 48915
hemi-mandibular reconstruction with bone graft 45608
hemiarthroplasty of 49517
Hemiarthroplasty, hand 46309, 46312, 46315, 46318, 46321
Hemicircumcision, for hypospadias 37354

Hemicolectomy 32000, 32003, 32006
hemicolectomy 32000, 32003, 32006
Hemiepiphysis, staple arrest of 48509
Hemifacial microsomia, construction condyle and ramus 45791
hemifacial spasm 18350-18351
Hemilaryngectomy, vertical, with tracheostomy 41837
Hemispherectomy, for intractible epilepsy 40706
Hemithyroidectomy 30306
Hemivulvectomy 35536
Hepatic duct, common, resection for carcinoma 30463-30464
hepatic, destruction of liver tumours 30419
Hernia, antireflux operations for 30527, 30529-30530, 43838
43841
Hernia, epigastric or Linea Alba Hernia 43805
hernia, repair of 30403, 30600-30601, 30609, 30614, 30621
hernia, repair, age less than 3 months 44108, 44111, 44114
Hernia, scrotal, large and irreducible, repair of 30640
Herniated muscle, fascia, deep, repair of 30238
Hiatus hernia, antireflux operations for 30527, 30529-30530
Hickman catheter, insertion of, for chemotherapy 34527-34528
High dose rate brachytherapy 37227
high energy transurethral microwave thermotherapy 37230
37233
Hindquarter, amputation or disarticulation of 44373
Hinselmann colposcope, examination uterine cervix 35614
hip 49303, 49306, 49309, 49312, 49315, 49318-49319, 49321
49324, 49327, 49330, 49333, 49346, 49360, 49363, 49366
Hip, amputation or disarticulation at 44370
Hirschsprung's disease, colostomy/enterostomy for 30375
Home, dialysis 13104
Hormone implantation, by cannula 14206
hormone or living tissue 14203, 14206
humerus 48412, 48415
Humerus, bone graft to 48212, 48215
Hummelsheim type muscle transplant, squint 42848
Hydatid cyst, liver, total excision of 30437-30438
hydatid cyst, removal of contents of 30434, 30436
hydatid cyst, total excision of 30437-30438
hydatid cysts of lung 38424
hydatid cysts, enucleation of 38424
hydatid, liver, treatment of 30434, 30436-30438
hydatid, lungs, enucleation of 38424
Hydradenitis, excision for 31245
Hydrocele, infantile, repair of 30614
Hydrocephalus, operations for 40000, 40003, 40006, 40009
Hydrocortisone, injections into keloid with GA 30210
Hydrodilatation of bladder with cystoscopy 36827
Hydrotubation of Fallopian tubes 35703, 35709
Hymenectomy 35509
Hyperbaric oxygen therapy 13020, 13025, 13030
Hyperemesis gravidarum, treatment of 16505
Hyperextension deformity of toe, release, lengthening 50345
hyperextension deformity, release, lengthening 50345
Hyperhidrosis, axillary, excision for 30180, 30183
Hyperparathyroidism, operations for 30315, 30317-30318
30320
hyperplasia, congenital, vaginoplasty for 37851
Hyperplasia, papillary, of palate, removal of 45831, 45833
45835
Hypertelorism, correction, intra/sub-cranial 45767, 45770
Hypertension, portal, treatment of 30602-30603, 30605-30606
hypertrophic obstructive cardiomyopathy 38650

Hypertrophied tissue, removal of	45801, 45803, 45805, 45807	indirect	45227, 45230, 45233, 45236
Hypospadias, examination under GA	37815-37816, 37819, 37822 37825, 37828	Indirect flap	45227, 45230, 45233, 45236, 45239
Hypothenar spaces of hand, drainage of	46519	Indwelling oesophageal tube, gastrostomy for fixation	30375
Hysterectomy	35653, 35657-35658, 35661, 35664, 35667, 35670 35673	Infantile hydrocele, repair of	30614
hysterectomy	35657, 35673	Infection, acute intercurrent, complicating pregnancy	16508
Hysteroscopic resection of myoma or uterine septum	35623	infection, drainage of via burr-hole	39900
35634		Inferior vena cava, thrombectomy	33810-33811
Hysteroscopy	35626-35627, 35630, 35633-35636	Inflammation of middle ear, operation for	41626
Hysterotomy	35649	Infliximab	14245
		Infusion chemotherapy	13915, 13918, 13921, 13924, 13927 13930, 13933, 13936
		infusion chemotherapy	13927, 13930, 13933, 13936
		infusion, cannulation for	34521, 34524
		infusion, of sympatholytic agent	14209
		Ingrowing eyelashes, operation for	45626-45627
		ingrowing nail, resection	46528, 46531
		ingrowing nail, resection of	46528, 46531
		ingrowing, of finger or thumb, resection	46528, 46531
		ingrowing, of toe, excision/resection	47915-47916, 47918
		ingrown, of toe, operation under GA, paediatric	44136
		ingrown, operation with GA, paediatric	44136
		Inguinal abscess, incision of	30223
		inguinal, repair, age less than 3 months	44108, 44111 44114
		injection for impotence	37415
		injection of alcohol	42824
		injection of sclerosant fluid under anaesthesia	30679
		injection, peri-urethral	37339
		Injections, multiple, for skin lesions	30207
		Inlay graft, using a mould	45445
		inlay, using a mould	45445
		Innocent bone tumour, excision of	30241
		Innominate artery, endarterectomy of	33506
		insemination services	13203, 13209, 13221
		insertion of	41632
		insertion of nasogastric/nasoenteral tube	31456, 31458
		insertion of patches for	38390
		insertion of, for drainage of middle ear	41632
		insertion or removal from eye socket	42518
		insertion, transluminal	35306-35307, 35309
		insertion, transluminal, rotational atherectomy	38312 38318
		Insufflation Fallopien tubes, for patency (Rubin test)	35706
		intact wall technique, with myringoplasty	41551, 41554
		Intensive care management/procedures	13815, 13818, 13830 13839, 13842, 13848, 13851, 13854, 13857, 13870, 13873 13876, 13881-13882, 13885, 13888
		intensive care unit (specialist)	13870, 13873
		Intercostal drain, insertion of	38806, 38809
		Internal auditory meatus, exploration of	41599
		internal auditory, exploration of	41599
		internal radiation therapy	35404, 35406, 35408
		interosseous muscle space of hand	47981
		Interosseous muscle space of hand, fasciotomy of	47981
		Interphalangeal joint, arthrodesis of	46300
		interruption, repair of	38712
		Interscapulothoracic amputation or disarticulation	44334
		Interventional endovascular procedures	35300, 35303 35306-35307, 35309, 35312, 35315, 35317, 35319-35321 35324, 35327, 35330, 35414, 38306
		Intestinal conduit or reservoir, endoscopic examination	36860
		intestinal remnant, abdominal wall, excision of	43942
I			
IGRT	15715		
Ileal atresia, neonatal, laparotomy for	43816		
Ileo-femoral by-pass grafting	32712, 32718		
ileo-rectal, with total colectomy	32012		
Ileorectal anastomosis	32012		
Ileostomy	30639, 32009, 32012, 32015, 32018, 32021		
ileostomy closure/reservoir	32060, 32063, 32066, 32069		
Iliac endarterectomy	33518		
Iliac vessel, ligation or exploration not otherwise covered	34103		
Iliopsoas tendon transfer to greater trochanter	50387		
iliopsoas tendon transfer to greater trochanter	50387		
impalpable, exploration of groin	37812		
Implanon, removal of	30062		
Implant, cochlear, insertion of	41617		
implant, contour reconstruction, insertion	45051		
implant, enucleation of eye	42506, 42509		
implant, evisceration of eye and insertion of	42515		
implant, removal of	39136		
implantable bone conduction hearing system	41603-41604		
Implantable Cardioverter Defibrillator	38371, 38384, 38387		
implantation of Fallopien tubes into	35694, 35697		
implantation, direct, incision and suture	14203		
Implantation, fallopien tubes into uterus	35694, 35697		
implanted drug delivery system	14227, 14230, 14233, 14236 14239, 14242		
Impotence, injection for investigation/treatment	37415		
IMRT	15275, 15555, 15565		
in ano, subcutaneous, excision of	32156		
in conjunction with Caesarean section	35691		
in hospital	13100, 13103		
in oral & maxillofacial, complicated, removal	45811 45813		
in oral & maxillofacial, uncomplicated, removal of	45801		
45803, 45805, 45807, 45809			
in oral and maxillofacial region	45801, 45803, 45805 45807		
in relation to eye	42734		
in situ in drum, removal of	41500		
Incidental appendicectomy	30574		
incision and drainage, without GA	30219		
incision of palate	41787		
incision/resection, external sphincter/bladder neck	36854		
Incisional hernia, repair of	30403		
incisions for astigmatism	42672		
Incomplete confinement	16518		
incomplete, curettage for	35640		
Incontinence, anal, Parks' intersphincteric procedure	32126		
incontinence, Parks' procedure	32126		

intestine, resection of	30565-30566	involving ciliary body an/or iris, excision of	42767
intestine, subtotal colectomy	32004-32005	involving division of adhesions	38643, 38647
into angioma (restriction applies)	45027	involving gynaecology (exc. hysterectomy)	35713, 35717
into prostate	37218	involving procedures via laparoscope	35637-35638
into spinal joints or nerves	39013	ionisation of	35608
Intra-abdominal artery/vein, cannulation, chemotherapy	34521	Ionisation, cervix	35608
intra-abdominal vessel, for chemotherapy	34521	Iridectomy	42764
intra-abdominal, cannulation, infusion chemotherapy	34521	iridectomy and sclerectomy for	42746
Intra-anal abscess, drainage of	32174-32175	iridectomy or iridotomy	42764
Intra-aortic balloon, counterpulsation, management	13848	Iridenclieisis	42746
Intra-arterial cannulisation for blood collection	13842	Iridocyclectomy	42767
intra-arterial, sympatholytic agent	14209	Iridotomy	42764
Intra-atrial baffle, insertion of	38745	iridotomy	42785
Intra-epithelial neoplasia, laser therapy for	35539, 35542	iridotomy, laser	42785
35545		Iris and ciliary body, excision of tumour of	42767
Intra-ocular excision of dermoid of eye	42574	iris tumour, laser photocoagulation	42806
intra-ocular, removal of	42563, 42569	iris, excision of	42764
Intra-operative ultrasound, biliary tract	30439	Ischaemic limb, debridement of deep tissue	35100
Intra-oral tumour, radical excision of	30275	ischaemic, debridement of tissue	35100, 35103
intra-oral, radical excision of	30275	Ischio-rectal abscess, drainage of	32174-32175
Intra-orbital abscess, drainage of	42572	ischio-rectal, drainage of	32174-32175
intra-orbital, drainage of	42572	island flap, with vascular pedicle	45563
intra-temporal fossa, removal of	41578		
Intracerebral tumour, craniotomy and removal of	39709	J	
intracerebral, craniotomy and removal of	39709	Jaw, dislocation, treatment of	47000
Intracranial abscess, excision of	39903	Jejunal atresia, bowel resection and anastomosis	43810
intracranial placement	40709, 40712	Jejunostomy, operative feeding	31462
intracranial proximal artery clipping	39806	joint disruption, treatment of	47513
intracranial, biopsy/decompression, osteoplastic flap	39706	Joint, application of external fixator, not for fracture	50130
intracranial, burr-hole biopsy or drainage	39703	joint, arthroplasty	46306-46307, 46309, 46312, 46315
intracranial, burr-hole craniotomy for	39600	46318, 46321	
intracranial, craniotomy and removal of	39709, 39712	joint, arthrotomy	46327, 46330
intracranial, excision of	39903	joint, arthrotomy of	46327, 46330
intracranial, for pressure monitoring	13830	joint, dislocation, treatment of	47030, 47033, 47036
intracranial, for trigeminal neuralgia	39106	47039, 47042, 47045	
intracranial, ligation cervical vessels	39812	joint, distal, reconstruction/stabilisation	46345
intracranial, needling and drainage of	39703	joint, distal, synovectomy	46342
Intrahepatic bypass	30466-30467	joint, external fixation, application of	45879
intranasal operation on	41737	joint, hemiarthroplasty	46309, 46312, 46315, 46318, 46321
Intranasal operation on antrum/removal of foreign body	41716	joint, interposition arthroplasty of	46306
intranasal, operation on	41716	joint, irrigation of	45865
intraocular, repositioning of	42713	joint, joint capsule release of	46381
intraperitoneal blood transfusion	16612, 16615	joint, ligamentous repair	46333
Intrascleral ball or cartilage, insertion of	42515	joint, ligamentous repair of	46333
Intrathecal infusion device, revision of	39133	joint, Lisfranc's amputation of	44364
intrathoracic	20500, 20520, 20522, 20524, 20526, 20528	joint, manipulation of	45851
20540, 20542, 20546, 20548, 20560		joint, open surgical exploration of	45861, 45863, 45865
Intrathoracic operation on heart, lungs, etc, other	38456	45867, 45869, 45871, 45873	
intrathoracic operation on, not otherwise covered	38456	joint, other	50100, 50102-50103, 50109, 50127
intrathoracic operation, not otherwise covered	38456	joint, synovectomy of	46342
intrathoracic, congenital heart disease	38727, 38730	joint, synovectomy/capsulectomy/debridement	46336
Intrauterine contraceptive device, introduction of	35503	joint, total replacement arthroplasty of	46309, 46312
intravascular blood transfusion	16609	46315, 46318, 46321	
Intravenous infusion chemotherapy	13915, 13918, 13921, 13924	joint, total replacement of	49857
Intraventricular baffle, insertion of	38754	joint, volar plate arthroplasty	46307
intubation	30488	juice, collection of	30488
intubation, gastro-oesophageal	13506	Juvenile cataract, removal of	42716
Intubation, small bowel	30488	juxtasceral Depot injection	42741
Intussusception, reduction of	30375		
inverted, surgical eversion of	31563		
Invitro fertilisation	13200, 13203, 13206, 13209, 13212	K	
13215, 13218, 13221			

Keratotomy, partial, for corneal scars	42647	Laser: ablation of prostate, endoscopic	37207-37208
Keratoplasty	42653, 42656	Lateral pharyngeal bands, removal of	41804
keratoplasty, epithelial debridement for	42651	Lavage and proof puncture of maxillary antrum	41698, 41701
Keratosis, obturans, surgical removal	41509	lavage, total, intra-operative	32186
Kidney, dialysis, in hospital	13100, 13103	Le Fort osteotomies	45753-45754
kidney, removal from	36558	leaflet/s, aortic, decalcification of	38483
kidney, removal of	36540, 36543	left ventricular, plication of	38506
Kirschner wire, insertion of	47921	left ventricular, resection	38507-38508
knee 49500, 49509, 49512, 49517-49519, 49521, 49524, 49527		Leg, amputation	44367, 44370
49530, 49533-49534, 49545, 49557-49564, 49566		leg, lower (below knee)	21460-21462, 21464, 21472, 21474
knee & popliteal area	21300, 21321, 21340, 21360, 21380	21480, 21482, 21484, 21486, 21490, 21500, 21502, 21520	
21382, 21390, 21392, 21400, 21402-21404, 21420, 21430		21522, 21530, 21532	
21432, 21440		leg, upper (except knee)	21195, 21199-21200, 21202, 21210
Knee, amputation at or below	44367	21212, 21214, 21216, 21220, 21230, 21232, 21234, 21260	
knee, removal of	49515	21270, 21272, 21274-21275, 21280	
		lengthening by translocation of corpora	37423
		lengthening procedures	50303, 50306
		Lens, artificial, insertion of	42701, 42703
		lens, insertion of	42701
		lens, removal of	42704
		lens, removal, replacement different lens	42707
		lens, repositioning of, open operation	42704
		Lensectomy	42731
		lesion, pre-op localisation, imaging guided	31536
		lesion/s, removal, diaphyseal aclasia	50426
		lesions, multiple injections for	30207
		Lesions, skin, multiple injections for	30207
		lesions, treatment of	30192
		Leveen shunt, insertion of	30408
		Lid, ophthalmic, suturing of	42584
		ligament or tendon transfer	49503, 49506
		Ligament, finger joint, repair of	46333
		ligament, transverse, division of	39331
		ligamentous stabilisation of	49103, 49709
		ligation of maxillary artery	41707
		ligation or exploration not otherwise covered	34106
		Ligation, great vessel	34103
		ligation/exploration not otherwise covered	34106
		Ligature of cervix, purse string, removal of	16512
		light coagulation for	42782
		limb, debridement of superficial tissue	35103
		Limb, fasciotomy of	30226
		Limbic tumour, removal or excision of	42692, 42695
		limbic, removal of	42692
		line for blood pressure monitoring	13876
		Lingual tonsil, removal of	41804
		Lip, cleft, operations for	45677, 45680, 45683, 45686, 45689
		45692, 45695, 45698, 45701, 45704	
		Lipectomy, circumferential	30179
		Lipectomy, radical abdominoplasty	30176-30177
		lipoma, liposuction or surgical removal of	31345
		Lipomeningocoele, tethered cord, release of	40112
		Liposuction, for post-traumatic pseudolipoma	45584-45585
		Lippe's loop, introduction of	35503
		Lisfranc's amputation	44364
		Litholapaxy, with or without cystoscopy	36863
		Lithotripsy, extracorporeal shock wave (ESWL)	36546
		Little's Area, cautery of	41674
		liver	30409, 30411
		Liver abscess, open abdominal drainage of	30431, 30433
		liver biopsy	30409
		liver, destruction of by cryotherapy	30419
L			
Labyrinth, destruction of	41572		
Labyrinthotomy	41572		
Laceration, ear/eyelid/nose/lip, full thickness, repair	30052		
lacerations not involving sclera	30032		
Lacrimal canicular system, establishment patency	42599		
42602			
lacrimal, excision of palpebral lobe	42593		
Lagrange's operation (iridectomy and sclerectomy)	42746		
Laminectomy and insertion of epidural implant	39139		
Laparoscopic division of adhesions	31450, 31452, 35637		
laparoscopic	30391, 31470, 35638		
Laparoscopic resection of	35641		
laparoscopically assisted	35750, 35753-35754, 35756		
laparoscopically assisted hysterectomy	35750, 35753-35754		
35756			
Laparoscopy and hysteroscopy under GA	35636		
laparoscopy, complicated	35641		
Laparoscopy, diagnostic	30627		
Laparostomy	30397, 30399		
Laparotomy and division of adhesions	30376, 30378-30379		
30623, 30626			
laparotomy for drainage of	30394		
Large intestine, resection of	32000, 32003		
large loop excision	35647-35648		
large, excision of	30111		
large, incision and drainage, with GA	30223		
large, resection of	32000, 32003		
large, subtotal colectomy	32004-32005		
Laryngeal web, division of	41868		
Laryngectomy	41834		
Laryngofissure, external operation on	41876		
Laryngopharyngectomy	41843		
Laryngoplasty	41876, 41879		
laser	30191, 42785		
laser ablation of prostate	37207-37208		
laser angioplasty	35315		
laser photocoagulation	42806		
laser resection of endobronchial tumours	41901		
laser therapy (restriction applies)	35539, 35542, 35545		
laser therapy for intraepithelial neoplasia	35539, 35542		
35545			
laser therapy of gastrointestinal tract	30479		
laser therapy, intraepithelial neoplasia	35539, 35542		
35545			

liver, laparoscopic marsupialisation	30416-30417	malignancy, radical or debulking operation	30392
liver, open abdominal drainage of	30431	malignant of soft tissue, removal of	31355
liver, other than for trauma	30418, 30421	malignant tumour	31509, 31512
Living tissue, implantation of	14203, 14206	malignant upper aerodigestive tract	31400, 31403, 31406
living, implantation of	14203, 14206	Malignant upper aerodigestive tract tumour	31400, 31403
Lobar emphysema, neonatal, thoracotomy & lung resection	43861	31406	
lobe of lacrimal gland, excision of	42593	malignant, bone, operations for	50200-50201, 50203, 50206
lobectomy of, for trauma	30428, 30430	50209, 50212, 50215, 50218, 50221, 50224, 50227, 50230	
lobectomy of, other than for trauma	30418, 30421	50233, 50236, 50239	
Lobectomy, liver, for trauma	30428, 30430	Mallet finger, closed pin fixation of	46438
local excision for tumour	30559	mallet, fixation/repair	46438, 46441
loop, removal of under GA	35506	malrotation, neonatal, laparotomy for	43801, 43804
Lop ear or similar deformity, correction of	45659	mammoplasty	45524, 45527-45528
lop, bat or similar deformity, correction of	45659	Mammoplasty, augmentation	45524, 45527-45528
Lord's procedure, massive dilatation of anus	32153	Mammary prosthesis, removal of	45548, 45551
lower, congenital deficiency, treatment of	50411, 50414	management fluid/gas reduction for	14212
50417		Manchester operation for genital prolapse	35577
Lumbar cerebrospinal fluid drain, insertion of	40018	mandible or maxilla	45720, 45723, 45726, 45729
lumbar, insertion of	40006	45731-45732, 45735, 45738, 45741, 45744, 45747, 45752	
lumbar, revision or removal of	40009	Mandible, condylectomy	45611
Lunate bone, osteectomy or osteotomy of	48406	mandible, segmental resection for	45605
lung	38438, 38441	mandibular or palatal	45825
lung, percutaneous needle	38812	Mandibular, frenulum, repair of, under GA	30281
lymph gland, muscle, other deep tissue/organ	30075	manipulation of	50115
Lymph glands, axilla, excision of	30332, 30335-30336	manipulation/extraction of ureteric calculus	36857
lymph glands, excision of	35551, 35664, 35670	marrow, administration of	13706
lymph node biopsies	35723	marrow, aspiration biopsy of	30087
lymph node dissection	37607, 37610	marrow, harvesting of for transplantation	13700
lymph node of neck	31420	marrow, in vitro processing/cryopreservation	13760
lymph nodes, excision of	30335-30336	Marshall-Marchetti operation for urethropexy	35599, 37044
lymph, biopsy of	30075	Marshall-Marchetti, urethropexy	35599, 37044
lymph, drill biopsy of	30078	Marsupialisation of Bartholin's cyst or gland	35517
lymph, pelvic, excision of	35551	Mastitis, granulomatous, exploration and drainage	31551
lymph, pelvic, excision of, with hysterectomy	35664	Mastoid cavity, obliteration of	41548, 41564
Lymphadenectomy, atypical mycobacterial infection	44130	Mastoidectomy, cortical	41545
Lymphangiectasis, limbs, major excision	45048	Maxilla, operation on, for acute osteomyelitis	43503
Lymphangioma, excision of	45030, 45033, 45035-45036	maxillary antrum	41704
Lymphoedema, major excision of	45048	Maxillary antrum, lavage of	41704
Lymphoid patches, removal of	45801, 45803, 45805, 45807	maxillary sinus, removal of	41716
45809		maxillary, drainage of, through tooth socket	41719
		maxillary, lavage of	41704
		maxillary, proof puncture, lavage	41698, 41701
		maxillary, transantral ligation of	41707
		Meatoplasty, with correction of auditory canal stenosis	41521
		meatotomy	36830
		meatotomy and hemi-circumcision	37354
		Meatotomy and hemi-circumcision, hypospadias	37354
		Meatus, external auditory, removal of exostoses in	41518
		meatus, external, removal of exostoses in	41518
		meatus, internal, exploration	41599
		Meckel's diverticulum, removal of	30375
		Meckel's, removal of	30375
		Meconium ileus, laparotomy for	43813, 43816
		Medial palpebral ligament, ruptured, repair of	42854
		Median bar, endoscopic resection of	36854
		median, for post-operative bleeding	38656
		mediastinal, removal by thoracotomy or sternotomy	38446
		Mediastinum, cervical exploration of	38448
		Meibomian cyst, extirpation of	42575
		Melasma, full face chemical peel	45019
		Meloplasty, for correction of facial asymmetry	45587-45588
		membrane, cancer, treatment	30196, 30202

M

Macrocheilia, operation for	45675
Macroductyly, surgical reduction of enlarged elements	46510
Macroglossia, operation for	45675
Macrostomia, operation for	45676
major artery, replacement/repair	33050, 33055, 33070
33075, 33080, 33100, 33103, 33109, 33112, 33115-33116	
33118-33119, 33121, 33124, 33127, 33130, 33133, 33136	
33139, 33142, 33145, 33148, 33151, 33154, 33157, 33160	
33163, 33166, 33169, 33172, 33175, 33178, 33181	
major tendon repair	49718
major, of neck, ligation/exploration, other	34100
major, repair of wound of	33815, 33818, 33821, 33824
33827, 33830, 33833, 33836, 33839	
male urinary, injection for treatment of	37339
malformation, excision of	45039, 45042, 45045
malformation, intracranial artery clipping of	39806
malformation, intracranial, excision of	39803
malformation, neonatal, laparotomy and colostomy	43822
malformation, paediatric, operations	43960, 43963, 43966

membrane, graft	42641	mucous membrane	30072
membrane, micro-inspection with ear toilet	41647	mucous, of mouth, removal	30283
membrane, punch biopsy of	30087	multiple, attendance other than routine antenatal	16502
membrane, repair of recent wound	30026, 30029, 30032	Multiple, injections for varicose veins	32500
30035, 30038, 30042, 30045, 30049		muscle	30226
Membranes, retained, evacuation of	16564	muscle, repair of	30232, 30235
membranes, threatened premature labour	16508	muscle/deep tissue, removal of	30068
Meningeal haemorrhage, operations for	39600, 39603	musculature transfer to greater trochanter	50387
Meningocele, excision and closure of	40100	Myelomeningocele, excision and closure of	40103
meniscectomy	45755	Myelotomy, laminectomy for	39124
meniscectomy of	49503, 49506	Mylohyloid ridge, reduction of	45827
Meniscectomy, knee	49503, 49506	Myocardial electrode, permanent, insertion, thoracotomy	38470
Mesenteric artery, inferior, operation on	32736	myocardial, by cardiac catheterisation	38275
Meso caval shunt for portal hypertension	30603	myocardial, permanent, insertion, thoracotomy	38470
Metacarpal bones, amputation of	44325	Myocutaneous flap, delay of	45015
metacarpal, operation for	46462	myocutaneous, delay of	45015
Metacarpophalangeal joint, arthrodesis	46300	myocutaneous, for breast reconstruction	45530
Metacarpus, operation on, for chronic osteomyelitis	43512	Myoma, hysteroscopic resection	35623
metastases, selective internal radiation therapy for	35404	myomectomy	35649, 38763
35406, 35408		Myomectomy, hypertrophic obstructive cardiomyopathy	38650
Metastatic carcinoma, craniotomy for removal of	39709	Myotomy, cricopharyngeal	41770, 41776
metatarsal	48400, 48403	Myringoplasty	41527, 41530
Metatarsal bones, osteotomy or osteectomy of	48400, 48403	Myringotomy	41626
metatarso-phalangeal joint, replacement of	49857		
Metatarso-phalangeal joint, synovectomy of	49860, 49863	N	
metatarso-phalangeal joint, synovectomy of	49860, 49863		
Metatarsus, amputation or disarticulation of	44358	Nail bed, exploration and repair of deformity	46489
Micro-arterial graft	45503	nail of finger or thumb, resection of	46528, 46531
micro-arterial or micro-venous	45503	nail of toe, resection of	47915-47916
microdochotomy	31554	Nasal adhesions, division of	41683
Microdochotomy of breast, benign or malignant condition	31554	nasal, arrest of	41656, 41677
Microlaryngoscopy	41855	nasal, cauterisation/diathermy	41674
microlaryngoscopy with removal of	41864	nasal, division of	41683
Microsomnia, construction of condyle and ramus	45791	nasal, excision of	41729
Microvascular anastomosis using microsurgical techniques	45502	nasal, for arrest of haemorrhage	41677
microvascular, in plastic surgery	45502	nasal, reconstruction of	41672
Microvenous graft	45503	nasal, removal of	41662, 41668
Middle ear, clearance of	41635, 41638	nasal, septoplasty or submucous resection	41671
middle ear, operation for	41626	Nasendoscopy	41764
middle or proximal, for osteomyelitis	46462	Naso-lacrimal tube, replacement of	42610-42611, 42614-42615
middle palmar/thenar/hypothenar spaces, drainage	46519	Nasopharyngeal angiofibroma, transpalatal removal	41767
middle, clearance of	41635, 41638	nasopharyngeal, removal	41767
middle, exploration of	41629	Nasopharynx, fiberoptic examination of	41764
middle, insertion of tube for drainage of	41632	neck	20300, 20305, 20320-20321, 20330, 20350, 20352
middle, operation for abscess or inflammation of	41626	neck reconstruction, prostatectomy	37210-37211
midfacial	45753-45754	neck resection, endoscopic	36854
Midtarsal amputation of foot	44364	Neck, deep-seated haemangioma, excision of	45036
Miles' operation	32039	neck, reoperation for bleeding/thrombosis	33842
Minitracheostomy insertion	41884	necrosectomy	30577
Minnesota tube, insertion of	13506	Necrosectomy, pancreatic	30577
miscarriage, purse string ligation of cervix	16511	Necrotic material, debridement of	35100, 35103
miscarriage, treatment of	16505	necrotising stricture, bowel resection	43834
Mitral annulus, reconstruction after decalcification	38485	needle biopsy of	38812
mitral annulus, reconstruction after decalcification	38485	needle biopsy of lung	38812
mitral, open valvotomy of	38487	Needling of cataract	42734
Mitrofanoff continent valve, formation of	37045	needling of encysted bleb	42744
mobilisation, for post-traumatic stiffness	49569	Neonatal alimentary obstruction, laparotomy for	43825
Moh's procedure	31000-31005	neonatal, repair of	30387
Molluscum contagiosum, removal in operating theatre	30189	Neoplasia, intraepithelial, laser therapy	35539, 35542
Molteno valve, insertion of	42752	35545	
Molteno valve, removal of	42755	Nephrectomy	36516, 36519, 36522, 36525-36529
monitoring, intravascular	13876	Nephro-ureterectomy, complete, with bladder repair	36531

Nephroblastoma, operations for 43981, 43984
 Nephrolithotomy 36540, 36543
 Nephroscopy 36627, 36630, 36633, 36636, 36639, 36642, 36645
 36648
 Nephrostomy 36552
 nerve 39315, 39318
 Nerve block, regional or field 18213, 18216, 18219, 18222
 18225-18228, 18230, 18232-18234, 18236, 18238, 18240
 18242, 18244, 18248, 18250, 18252, 18254, 18256, 18258
 18260, 18262, 18264, 18266, 18268, 18270, 18272, 18274
 18276, 18278, 18280, 18282, 18284, 18286, 18288, 18290
 18292, 18294, 18296, 18298
 nerve meninges, incision of 42548
 nerve palsy, excision of tissue for 45581
 nerve paralysis, plastic operation for 45575, 45578
 nerve section, translabyrinthine 41593
 nerve section, via posterior fossa 39500
 nerve stimulation for faecal incontinence 32213-32218
 nerve, injection with alcohol, cortisone etc 39100
 nerve, nerve graft to 39318
 nerve, neurectomy/neuromy/tumour 39324, 39327
 nerve, repair of 39300, 39303
 nerves, injection into 39013
 nerves, percutaneous neurotomy 39115
 neuralgia, intracranial neurectomy 39106
 neurectomy for plantar digital neuritis 49866
 Neurectomy, foot, for plantar digital neuritis 49866
 neurectomy, for trigeminal neuralgia 39106
 Neuroblastoma, operations for 43981, 43984, 43987
 neuroendocrine tumour, removal of 30323
 Neuroendocrine tumour, retroperitoneal, removal of 30323
 neuroendocrine, removal of 30323
 Neuroendoscopy 40903
 Neurolysis, by open operation 39330
 Neuroma, acoustic, removal of 41575-41576, 41578-41579
 Neurostimulator receiver, spinal, subcutaneous placement 39134
 neurostimulator receiver, subcutaneous placement 39134
 neurotomy for facet joint denervation 39118
 neurotomy of peripheral nerves 39323
 neurotomy of spinal nerves 39115
 Neurotomy, of peripheral nerves 39327
 neurovascular island 45563, 46504
 Neurovascular island flap, for pulp innervation 46504
 Nipple, accessory, excision of 31566
 nipple, accessory, excision of 31566
 Noble type intestinal plication with enterolysis 30375
 node biopsies, retroperitoneal 35723
 node dissection, retroperitoneal 37607, 37610
 node of neck, biopsy of 31420
 Node, lymph, biopsy of 30075
 nodes of axilla, excision of 30335-30336
 nodes of neck, dissection of 31423, 31426, 31429, 31432
 31435, 31438
 Nodes, lymph, pelvic, excision of 35551
 Non-gravid uterus, suction curettage of 35640
 Nose, cauterisation or packing, for haemorrhage 41677
 nose, removal of 41659
 not otherwise covered, removal of (OMS) 45801, 45803
 45805, 45807, 45809
 obliteration of 41564
 obstruction, neonatal, laparotomy for 43825
 obstruction, surgical relief of 30387

O

Ocular muscle, torn, repair of 42854
 ocular muscles 42833, 42839, 42851
 oesophageal atresia, neonatal 43855
 Oesophageal atresia, neonatal, operations for 43843, 43846
 43849, 43852, 43855, 43858
 oesophageal, insertion of 30490
 Oesophagectomy 30535-30536, 30538-30539, 30541-30542
 30544-30545, 30547-30548, 30550-30551, 30553-30554
 30556-30557
 oesophagectomy 30294
 oesophagogastric (Heller's operation) 30532-30533
 Oesophagogastric myotomy 30532-30533
 Oesophagoscopy 30473, 30475, 30478
 Oesophagostomy, cervical 30293-30294
 oesophagostomy, closure or plastic repair of 30293
 oesophagus, removal of 41825
 Oesophagus, resection of stricture, paediatric 43906
 of Arnold-Chiari malformation 40106
 of artery or vein 33803, 33806, 33812
 of bladder, closure 37050
 of bladder, needle 37041
 of bladder, repair of 37842
 of elbow 49109
 of facial nerve, mastoid portion 41569
 of finger joints 46336
 of foot, repair of 49812
 of haematoma 30216
 of hand tendons 46336, 46342
 of hand, incision for 46525
 of intracranial tumour 39706
 of joint, not otherwise covered 50104
 of joints 50115
 of limb or organ 22055
 of mandible 45611
 of metatarso-phalangeal joint 49860, 49863
 of neck, deep-seated, excision of 45036
 of nerve 39321
 of nerve trunk 39312
 of Oddi, transduodenal operation on 30458
 of peripheral nerves 39323
 of shoulder 48936
 of skin lesions 30189, 30192
 of tendons of digit 46348, 46351, 46354, 46357, 46360
 of thoracic cavity 38800, 38803
 of tissue, ischaemic limb 35100, 35103
 of tympanum 41626
 of ureteric calculus, endoscopic 36857
 of xenon arc 42782
 Olecranon, excision of bursa of 30111
 Omentectomy, infra-colic 35726
 on abdominal viscera 30375, 30387
 oncology treatment 15211, 15214-15215, 15218, 15221, 15224
 15227, 15230, 15233, 15236, 15239, 15242, 15245, 15248
 15251, 15254, 15257, 15260, 15263, 15266, 15269, 15272
 one or more jaw cysts 45799
 Oophorectomy, laparoscopic 35638
 open 37200
 Open heart surgery, not otherwise covered 38653
 open reduction for congenital dislocation 50408

paracentesis	30406, 42734	peptic ulcer, suture of	30375
Paracentesis abdominis	30406	peptic, bleeding, control of	30505-30506, 30508-30509
Paralysis, facial nerve, plastic operations for	45575, 45578	peptic, perforated, suture of	30375
Parapharyngeal tumour, excision of	31409, 31412	Per anal release, rectal stricture	32114
parapharyngeal, excision of, cervical approach	31409	percutaneous	39121
31412		Percutaneous aspiration biopsy of deep organ	30094
Paraphimosis, reduction of under GA	30666	percutaneous aspiration, deep organ	30094
paraphimosis, reduction of under GA	30666	percutaneous endoscopic	30481-30482
Parathyroid operation for hyperparathyroidism	30315	percutaneous technique, sequential dilation, partial splitting	
parathyroid, removal of	30306	method	41880
Paretic states, eyebrows, elevation of	42872	percutaneous tenotomy of	46456
Parks' intersphincteric operation	32126	percutaneous transluminal angioplasty with stenting	35307
Paronychia of foot, incision for	47912	percutaneous tube, jejunal extension	31460
paronychia of, pulp space infection, incision	47912	percutaneous, for facet joint denervation	39118
paronychia/pulp space infection, incision for	46525	percutaneous, of finger	46456
Parotid duct, diathermy or dilatation	30262	percutaneous, of spinal nerves	39115
parotid gland, removal of	30253	percutaneous, using interventional imaging	36624
parotid gland, repair of	30269	Perforated duodenal ulcer, suture of	30375
parotid, excision of	30251	Perforating wound of eyeball, repair of	42551, 42554, 42557
parotid, superficial lobectomy/tumour removal	30253	perforation of tympanum	41641
parotid, total extirpation of	30247, 30250	perforation, closure of	41671
Parovarian cyst, removal of	35713, 35717	perforation, repair of, by thoracotomy	30560
parovarian, excision of, with laparotomy	35713, 35717	perforations, sealing of	42635
partial amputation of	37402	perfusion of	22055, 34533
partial excision of	37438	perfusion of a sympatholytic agent	14209
partial or complete removal of	35560	Perfusion of donor kidney, continuous	22055
partial, for epilepsy	40703	perfusion, modifiers	25000, 25005, 25010, 25020, 25050
passages, obstruction, probing for	42610-42611	perfusion, retrograde, cannulation for	38577
42614-42615		perfusion, time	23010, 23091, 23101, 23111-23119, 23121
Patch angioplasty for vein stenosis	34815	23170, 23180, 23190, 23200, 23210, 23220, 23230, 23240	
patch grafting to	33545, 33548	23250, 23260, 23270, 23280, 23290, 23300, 23310, 23320	
patch, to artery or vein	33545, 33548	23330, 23340, 23350, 23360, 23370, 23380, 23390, 23400	
Patella, bursa, excision of	30111	23410, 23420, 23430, 23440, 23450, 23460, 23470, 23480	
Patellar bursa, excision of	30111	23490, 23500, 23510, 23520, 23530, 23540, 23550, 23560	
Patellectomy	49503, 49506	23570, 23580, 23590, 23600, 23610, 23620, 23630, 23640	
Patello-femoral stabilisation	49503, 49506, 49564	23650, 23660, 23670, 23680, 23690, 23700, 23710, 23720	
patello-femoral stabilisation	49503, 49506, 49564	23730, 23740, 23750, 23760, 23770, 23780, 23790, 23800	
patello-femoral stabilisation, revision of	49548	23810, 23820, 23830, 23840, 23850, 23860, 23870, 23880	
Patent diseased coronary bypass vein graft, dissection	38637	23890, 23900, 23910, 23920, 23930, 23940, 23950, 23960	
Patent ductus arteriosus, transcatheter closure	38273	23970, 23980, 23990, 24100-24136	
Patent Urachus	37801	perfusion, whole body, cardiac bypass	22060
Pectus carinatum, repair or radical correction	38457	Perianal abscess, drainage of	32174-32175
Pedicle, tubed, or indirect flap	45230	Pericardectomy	38447, 38449
Pelvi-ureteric junction, plastic procedures to	36564	Pericardium, drainage of, sub-xyphoid	38452
pelvic	35551, 36502	Perineal anoplasty, ano-rectal malformation	43960
Pelvic abscess, drainage via rectum or vagina	30223	perineal proctectomy	32047
pelvic bone	48424	perineal resection of	32047
Pelvic lymphadenectomy	36502	perineal, for rectal prolapse	32112
pelvic, drainage of	30387	Perineorrhaphy	35571
pelvic, laparotomy for drainage of	30394	Perinephric abscess, drainage of	36537
pelvic, operation involving laparotomy	30387	perineum	20900, 20902, 20904-20906, 20910-20912, 20914
pelvis	48427	20916, 20920, 20924, 20926, 20928, 20930, 20932, 20934	
pelvis (except hip)	21100, 21110, 21112, 21114, 21116	20936, 20938, 20940, 20942-20944, 20946, 20948, 20950	
21120, 21130, 21140, 21150, 21155, 21160, 21170		20952, 20954, 20956, 20958, 20960	
Pelvis, bone graft/shelf procedure, acetabular dysplasia	50393	Periorbital correction of Treacher Collins Syndrome	45773
pelvis, brush biopsy of, with cystoscopy	36821	periorbital, excision of	42573, 42576
penile or urethral, cystoscopy for treatment of	36815	peripheral arterial	35317, 35319-35321
Penile warts, cystoscopy for treatment of	36815	Peripheral arterial atherectomy	35312
penis erection test with examination	37815	peripheral nerve	39324, 39327
Penis, amputation of	37402, 37405	peripheral nerve stimulation for pain	39131, 39133-39137
Penis, circumcision of	30654, 30658	peripheral nerve, removal from	39324, 39327
Peptic ulcer, bleeding, control of	30505-30506, 30508-30509	peripheral venous	35317, 35319-35320

peripheral, invitro processing, cryopreservation	13760	Plantar fasciotomy, radical	49854
peripheral, removal of tumour from	39324, 39327	plantar, radical	49854
peritomy	42632	plastic operations	45632, 45635, 45641, 45644-45647, 45650 45652-45653
Peritomy, conjunctival	42632	Plastic procedures to pelvi-ureteric junction	36564
Peritoneal adhesions, division, with laparotomy	30376	plate injury/deformity, radical excision	46534
30378-30379		plate or rod, removal of	47930
peritoneal, for dialysis	13109-13110	plate, prevention of closure	48512
Peritoneo venous (Leveen) shunt, insertion of	30408	Plate, rod or nail, removal of	47930
Peritonitis, laparotomy for	30394	pleura	30090
Peritonsillar abscess, incision of	41807	Pleura, percutaneous biopsy of	30090
peritonsillar, incision of	41807	Pleural effusion	38803
Periurethral injection for urinary incontinence	37339	Pleurectomy with thoracotomy	38424
permanent, insertion or replacement	38353	pleurodesis	38424, 38436
Perthes, hips or knees, application of cast under GA	50390	Plexus, brachial, exploration of	39333
Petro-clival and clival tumour, removal of	39653-39654 39656	Plication, intestinal, with enterolysis, Noble type	30375
Peyronie's plaque, operation for	37417	plication, Noble type, with enterolysis	30375
Phalanges, amputation/splitting, congenital abnormalities	50396	Pneumectomy	38438, 38441
phalanx	48400, 48403	Polycythemia	13757
phalanx of, operation for acute osteomyelitis	43500	Polyhydramnios, attendance, not routine antenatal	16502
Phalanx, bone grafting of, for pseudarthrosis	46402, 46405	polyp or polypi, removal of	41662, 41668
phalanx, operation for	46459, 46462	Polyp, anal, excision of	32142, 32145
pharyngeal, for velo-pharyngeal incompetence	45716	Polypectomy, with hysteroscopy	35633
pharyngeal, removal of	41813	Popliteal artery, exploration of, for popliteal entrapment	34145
Pharyngectomy, partial	41782, 41785	Popliteal artery, vessel, ligation or exploration, other	34103
Pharyngoplasty	45716	popliteal, exploration for popliteal entrapment	34145
pharyngotomy	41779	Porta hepatitis, radical resection for carcinoma	30461
Pharyngotomy (lateral)	41779	Portacath, laparotomy with insertion of	30400
photocoagulation of	42809	Portal hypertension, operations for	30602-30603, 30605-30606
photocoagulation of iris tumour	42806	portion, decompression of facial nerve	41569
photocoagulation of vascular lesions	14100, 14106, 14115 14118, 14124	Porto caval shunt for portal hypertension	30602
Photocoagulation, laser, vascular lesions	14100, 14106	Portoenterostomy for biliary atresia	43978
14115, 14118, 14124		post-op, control under GA, independent	30058
photoiridosyneresis	42808	post-operative, following gynaecological surgery	35759
Photoiridosyneresis, laser	42808	post-operative, laparotomy for	30385
photomydriasis	42807	Posterior chamber, removal of silicone oil	42815
Photomydriasis, laser	42807	Postnasal space, examination under GA	41653
phototherapeutic	42810	Postnatal care	16564, 16567, 16570-16571, 16573
phototherapeutic keratectomy, laser	42810	Postoperative haemorrhage	30058
Phototherapeutic, keratectomy	42810	Postpartum haemorrhage, treatment of	16567
Pigeon chest, correction of	38457	postpartum, treatment of	16567
Pilonidal cyst or sinus, excision of	30676	pouch, endoscopic resection (Dohlman's op)	41773
pilonidal, excision of	30676	pouch, removal of	41770
pin or screw, buried, removal of	47924, 47927	Pre-auricular sinus, excision of	30104-30105
pin or wire, insertion of	47921	Pre-auricular, excision of	30105
Pin, orthopaedic, insertion of	47921	pre-auricular, excision of	30104
Pinealoma, craniotomy for removal of	39712	pre-detachment of, cryotherapy for	42818
Pinguecula, removal of	42689	Preeclampsia, treatment of	16509
pinguecula, surgical excision	42689	Pregnancy, attendance for complication by	16508
Pinhole urinary meatus, dilatation of	37300	pregnancy, removal of	35677-35678
pinhole urinary, dilatation of	37300	pregnancy, ultrasound guided needling and injection	35674
Pirogoff's amputation of foot	44361	Premalignant skin lesions, treatment of	30192
Pituitary tumour, removal of	39715	Premature labour, attendances not routine antenatal	16502
pituitary, hypophysectomy or removal of	39715	16508	
Placement of catheters	38220, 38222, 38243	premature labour, treatment of	16502, 16508
placement of catheters and injection of opaque material	38243	Prepuce, breakdown of adhesions of	30649
placement of intracranial electrodes	40709	Prepuce, operations on	30654, 30658
Placenta, retained, evacuation of	16564	Presacral and sacrococcygeal tumour, excision of	32036
Placentography, preparation for	36800	pressure monitoring	13876
planning	15500, 15503, 15506, 15509, 15512-15513, 15515 15518, 15521, 15524, 15527, 15530, 15533, 15536	pressure monitoring device, insertion of	39015
		pressure monitoring, catheter/subarachnoid bolt	13830
		pressure monitoring, indwelling catheter (ICU only)	13876

Pressure monitoring, intracranial	13830	Pyloroplasty	30375
Priapism, decompression of	37393	Pylorus, dilation of, with vagotomy	30502
Primary repair of cutaneous nerve	39300	Pyonephrosis, drainage of	36537
procedure, intestinal, prior to radiotherapy	32183		
procedures, resuturing of wound after	42857	Q	
processing of bone marrow	13760	Quadriceps, patella, reconstruction, congenital dislocation	50420
Proctectomy, perineal	32047	Quadricepsplasty, for knee mobilisation	49569
proctitis, anorectal application of formalin	32212	Quinsy, incision of	41807
Proctocolectomy with ileostomy	32015, 32018, 32021	radial aplasia/dysplasia, centralisation/radialisation	50399
Products of conception, retained, evacuation of	16564	radial head, replacement of	49112
Progesterone implant	14203, 14206		
prolapse, abdominal rectopexy of	32117	R	
prolapse, Delorme procedure for	32111	Radial vessel, ligation or exploration, other	34106
prolapse, paediatric, injection under GA	44105	Radiation dosimetry	15518, 15521, 15524, 15527, 15530, 15533
prolapse, perineal recto-sigmoidectomy for	32112	15536	
prolapse, perineal repair of	32120	radical	37210-37211
prolapse, rubber band ligation of	32135	radical for malignancy	35548
prolapse, sclerotherapy for	32132	radical operation for	38415
prolapsed, excision of	37369	radical or modified radical	41557, 41560, 41563-41564
Proof puncture of maxillary antrum	41698, 41701	radical plantar fasciotomy or fasciectomy of	49854
prostate	37212, 37215, 37218	radical, for nephroblastoma, paediatric	43984
Prostate, biopsy of	37212, 37215, 37218-37219	radioactive plaques, construction, insertion & removal	42801-42802
prostate, drainage of	37212, 37221	radioactive sources, sealed	15303-15304, 15307-15308
Prostate, impantation of gold fiducial markers	37217	15311-15312, 15315-15316, 15319-15320, 15323-15324	
prostatectomy	37200, 37203, 37206	15327-15328, 15331-15332, 15335-15336, 15338-15339	
Prostatectomy, endoscopic	37203, 37206	15342, 15345, 15348, 15351, 15354, 15357	
Prostatic abscess, endoscopic drainage of	37221	radioactive sources, unsealed	16003, 16006, 16009, 16012
prosthesis operations	45548, 45551, 45553-45554	16015, 16018	
prosthesis, insertion of	30490	Radioisotope, therapeutic dose, administration of	16003
prosthesis, operation on	49315	16006, 16009, 16012	
prosthesis, removal of	48927, 49515	Radiosurgery, stereotactic	15600
prosthesis, replacement of	45553-45554	Radiotherapy, deep or orthovoltage	15100, 15103, 15106
prosthesis, with cystoscopy	36811	15109, 15112, 15115	
proximal carpectomy	49206	Radioulnar joint, dislocation, treatment of	47024, 47027
Pseudarthrosis, bone grafting of metatarsal for	46402, 46405	radius	48406, 48409
ptosis, correction of (unilateral)	45556	Radius, bone graft to	48218, 48221, 48224, 48227
Pterygium, removal of	42686	Ranula, removal of	30283
Ptosis of eyelid, correction of	45623-45625	re-exploration for	50616
ptosis, correction of	45623	re-exploration for hyperparathyroidism	30317
ptosis, correction of (bilateral)	45558	readjustment of adjustable sutures	42845
pulmonary artery	13818	reconstruction	45530, 45533, 45536, 45539, 45542, 45671
Pulmonary artery, banding of	38715, 38718	45674	
Pulp space infection of foot, incision for	47912	reconstruction for bicornuate uterus	35680
Pulse generator, subcutaneous placement	39134	reconstruction of	30517, 45545-45546, 49215
pump or reservoir, loading of	14218	reconstruction of lacrimal canaliculus	42602
Pump or resevoir, loading of	14218	reconstruction of lip or eyelid	45671
punch biopsy	35608	reconstruction of, whole thickness	45614, 45671, 45674
Punch biopsy of synovial membrane	30087	reconstruction operation	45596-45597, 45599, 45602, 45605
punch, of synovial membrane	30087	45608, 45611	
Punctum, occlusion of	42620, 42622	reconstruction with oesophagectomy	30535
puncture	39000, 39006	reconstruction, congenital absence/gynatresia	35565
puncture and blood collection, diagnostic	13839	reconstruction, hypospadias/epispadias	37815-37816
purse string ligation	16511	37827-37828, 37830	
Purse string ligation, cervix	16511	reconstruction/repair	49536, 49539
purse string, cervix	16511	reconstructive	40600
Puva therapy	14050	Rectal biopsy, full thickness	32096
Pyelography retrograde, preparation for	36824	Rectal prolapse, submucosal or perirectal injection	44104
Pyelolithotomy	36540, 36543	rectal, dilatation of	32115
Pyeloplasty, by open exposure	36564, 36567, 36570	rectal, excision of	32099, 32102, 32108
Pyeloscopy, retrograde	36652, 36654, 36656		
Pyelostomy, open	36552		
Pyloromyotomy for pyloric stenosis	43930		

recto-sigmoidectomy for rectal prolapse	32112	reoperation for dehiscence or infection	38466
Rectocele, perineal repair of	32131	reoperation on extremity for	33848
Rectopexy, abdominal, of rectal prolapse	32117	repair - H-flap or double advancement	45207
rectosigmoidectomy (Hartmann's op)	32030	repair and suturing of	30026, 30029, 30032, 30035, 30038
Rectosigmoidectomy (Hartmann's operation)	32030	30042, 30045, 30049	
Rectovaginal fistula, repair of	35596	repair of	35570, 35573, 37821-37822, 37824-37825
Rectum and anus, abdomino-perineal resection of suction biopsy of	32039, 32042, 32045-32046, 44101	37827-37828, 37830, 37833, 42866	
rectum and anus, resection	32039, 32042, 32045-32046	repair of abdominal aortic aneurysm	33116, 33119
rectum, abdominal rectopexy	32117	repair of avulsion	37411
rectum, full thickness	32096	repair of extensive laceration/s	16571
rectum, perineal repair of	32120	repair of extensor tendon of hand or wrist	46420
rectum, plastic operation to	30387	repair of flexor tendon of hand or wrist	46426, 46429
rectum, resection of	32024-32026, 32028	46432	
rectum, rubber band ligation of	32135	repair of laceration of cavernous tissue, or fracture	37408
rectum, sclerotherapy for	32132	repair of laceration/s, for trauma	30422, 30425
rectus femoris tendon transfer	50357	repair of nerve trunk	39306
Recurrent hernia, repair of	30403	repair of recent wound of	30026, 30029, 30032, 30035
recurrent, operation for	42851	30038, 30042, 30045, 30049	
reduction	45520, 45522-45523	repair of rectocele	32131
Reduction mammoplasty (unilateral)	45520, 45522-45523	repair of rupture	37004
reduction of	45617, 45620	repair of, not otherwise covered	35618
Reduction ureteroplasty	36618	repair using microsurgical techniques	45500-45501, 45504
refashioning of	30563	repair, direct	45209, 45212, 45215, 45218, 45221, 45224
reflux, correction of	36588	repair, direct flap	45209, 45212, 45215, 45218, 45221
Reflux, gastro-oesophageal, correction	43951, 43954, 43957	45224	
reflux, operations for	43951, 43954, 43957	repair, heart	38480-38481
regional anaesthesia of limb	18213	repair, local, single stage	45200, 45203, 45206
remnant, abdominal wall vitello, excision of	43942	repair, muscle, single stage	45000, 45003, 45006, 45009
removal	34539	45012	
removal from eye, surgical excision	42689	repair, of cervical oesophagostomy	30293
removal in operating theatre	30189	repair, rectal prolapse	32120
removal in oral & maxillofacial region	45801, 45803, 45805	repair, single stage, local flap	45200, 45203, 45206
45807, 45809		repair, to enlarge vaginal orifice	35569
removal of	30631, 32138-32139, 41801, 47904, 47906	replacement procedures	49318-49319, 49321, 49324, 49327
removal of by laser surgery	41861	49330, 49333, 49336, 49339, 49342, 49345, 49518-49519	
removal of calcium deposit from cuff	48900	49521, 49524, 49527, 49530, 49533-49534	
removal of cancer of skin/mucous membrane	30196	replacement, heart	38488-38489
removal of cyst from	42575	requiring anterior decompression of spinal cord	50636
removal of foreign body from	30061, 30068, 41500, 41503	resection arthroplasty	46325
41716, 41886		resection for enterocolitis stricture, neonatal	43834
removal of foreign body in	41825, 41895	resection for jejunal atresia, neonatal	43810
removal of glomus tumour	41623	resection of	45599, 45602, 45605
removal of imbedded foreign body	42644	resection of pharyngeal pouch	41773
removal of palmar/plantar warts	30187	resection of rectum	32024-32025
removal of polyp from	35611	resection of turbinates	41692
removal of purse string ligature	16512	resection of uterine septum	35634
removal of simple tumour of	35557	resection of, segmental, for tumour/cyst	45605
removal of superficial foreign body	30061	resection of, sub-total	45602
removal of tunnelled cuffed catheter	34539	resection of, total	45596-45597
removal of, by lateral rhinotomy	41728	resection, congenital cystadenomatoid malformation	43861
removal of, by neurectomy, neurotomy	39327	resection, congenital lobar emphysema	43861
removal of, by temporal bone resection	41584, 41587	resection, large	32000, 32003
removal of, by urethrectomy	37330	resection, small	30565-30566
removal of, by urethroscopy	36540, 36543	resection, with radical operation for empyema	38415
removal of, in oral and maxillofacial region	45801, 45803	reservoir or external drain, insertion of	39015
45805, 45807, 45809, 45811, 45813		reservoir, construction of	32029
renal (closed)	36561	reservoir, continent type, creation of	32069
Renal artery, aberrant, operation for	36537	reservoir, formation of	36606
renal, excision of	36558	residual stump, removal of, abdominal approach	35612
renal, extraction of	36627, 36630, 36633, 36636, 36639	residual stump, removal of, vaginal approach	35613
36642, 36645, 36648		restoration following Hartmann's op	32029, 32033
		restoration of alimentary continuity	41843

restoration of face, autologous bone/cartilage graft 45647
 resurfacing, carbon dioxide, face or neck 45025-45026
 resuturing following intraocular procedures 42857
 Resuturing of wound following intraocular procedures 42857
 resynchronisation therapy 38365, 38368, 38371, 38654
 retained, evacuation of 16564
 Retina, cryotherapy of 42818
 retina, removal of silicone band 42812
 retina, resection/buckling/revision 42776
 retrieval of foreign body 35360-35363
 retrieval of inferior vena caval filter 35331
 Retrobulbar abscess, operation for 42572
 retrobulbar injection of 42824
 retrocaval, correction of, by open exposure 36564, 36567
 retrograde admin for cardioplegia 38588
 retrograde, cerebral (if performed) 22075
 retrograde, intravenous, sympatholytic agent 14209
 Retrolabyrinthine vestibular nerve section 41596
 Retroperitoneal abscess, drainage of 30402
 retroperitoneal, drainage of 30402
 Retropharyngeal abscess, incision with drainage 30223
 Retropubic prostatectomy 37200
 Retroversion, operation for 35684
 revision arthroplasty 49116-49117, 49210-49211
 49716-49717
 revision of 36609
 revision of failed surgery 50620
 revision of orthopaedic procedures 49551, 49554
 revision of, by incision and suture 45239
 revision of, by liposuction 45240
 revision of, with myringoplasty 41566
 Rhinophyma, carbon dioxide laser ablation/excision 45652
 Rhinoplasty procedures 45632, 45635, 45641, 45644, 45650
 rhinotomy with removal of tumour 41728
 Rhinotomy, lateral, with removal of tumour 41728
 rhythm, restoration, electrical stimulation 13400
 rib 48406, 48409
 Rib, cervical, removal of 34139
 rib, removal of 34139
 right heart balloon 13818
 Ring fixator, adjustment of 50309
 ring fixator, adjustment of 50309
 ring, fracture, treatment of 47474, 47477, 47480, 47483
 47486, 47489
 ring, removal under GA 35506
 Rod, plate or nail, removal of 47930
 Rosen incision, myringoplasty 41527
 rotational atherectomy with stent insertion 38312, 38318
 rotational atherectomy without stent insertion 38309
 38315
 Rotational atherectomy, of the coronary artery 38309, 38312
 38315, 38318
 rotational, coronary artery 38309, 38312, 38315, 38318
 Rotator cuff of shoulder, repair of 48906, 48909
 rotator cuff, repair of 48906, 48909
 Round window repair or cochleotomy 41614
 Roux-en-Y biliary bypass 30460, 30466-30467
 Rovsing's operation 36537
 rubber band ligation of 32135
 rubber band, of haemorrhoids or rectal prolapse 32135
 Rubin test for patency of Fallopiian tubes 35706
 Ruptured medial palpebral ligament, repair of 42854

ruptured medial palpebral, repair of 42854
 ruptured, exposure and exploration of 36576
 ruptured, repair 30375
 ruptured, repair of 30232, 30235, 37306, 37309
 sac, excision of 42596

S

Sacral nerve lead(s) 36663
 Sacral sinus, excision of 30676
 sacral, stimulation for faecal incontinence 32213-32218
 sacro-iliac joint 49300
 Sacro-iliac joint, arthrodesis of 49300
 sacro-iliac, arthrodesis 49300
 sacro-iliac, disruption of 47513
 Sacrococcygeal and presacral tumour, excision of 32036
 sacrococcygeal and presacral, excision of 32036
 sacrococcygeal, excision of 30676
 sacrococcygeal, neonatal, excision of 43876, 43879
 sacrospinous 35568
 sacrospinous colpopexy 35568
 salivary gland 30266
 salivary gland duct 30262
 salivary gland, major, transposition of 41910
 Salivary gland, major, transposition of duct 41910
 salivary gland, marsupialisation 30266
 salivary gland, meatotomy 30266
 salivary gland, removal of calculus 30266
 salivary, duct, dilatation or diathermy of 30262
 salivary, duct, marsupialisation 30266
 salivary, duct, meatotomy 30266
 salivary, duct, removal of calculus 30266
 salivary, operations on 30262, 30266, 30269
 Salpingectomy, laparoscopic 35638
 Salpingo-oophorectomy not with hysterectomy 35713, 35717
 Salpingolysis 35694, 35697
 Salpingostomy 35694, 35697
 sampling, fetal 16606
 Saphenous vein anastomosis 34809
 saphenous vein, for femoral vein bypass 34809
 saphenous, cross leg by-pass graft 34806
 scalene node 30096
 Scalene node biopsy 30096
 scalene, biopsy 30096
 Scalenotomy 34133
 Scalp vein catheterisation in a neonate 13300
 scalp, catheterisation of 13300
 Scaphoid, bone graft to 48230, 48233, 48236
 scaphoid, fracture, treatment of 47354, 47357
 scapula (other than acromion) 48406, 48409
 Scapula, fracture, treatment of 47468
 Scar, abrasive therapy to 31220, 31225, 45021, 45024
 scar, revision of (restriction applies) 45506, 45512
 Scars, corneal, removal of, by partial keratectomy 42647
 scars, excision of 42647, 45519
 Sclera, removal of imbedded foreign body 42644
 scleral graft to 42860
 Sclerectomy and iridectomy for glaucoma 42746
 sclerosant fluid into pilonidal sinus 30679
 Sclerosant fluid, injection of into pilonidal sinus 30679
 sclerotherapy for 32132
 sclerotomy 42734

Screw, pin or wire, buried, removal of	47924, 47927	shunt, declotting of	13106
Scrotal contents, exploration of	37604	shunt, external, insertion/removal	34500, 34506
Scrotum, excision of abscess of	30223	shunt, revision or removal of	40009
secondary revision of	45650	Sigmoidoscopic examination	32072, 32075
Secondary, repair of extensor tendon of hand or wrist	46423	Sigmoidoscopy, fiberoptic, flexible	32084, 32087
section of corpus callosum for epilepsy	40700	Silicone band, encircling, removal from detached retina	42812
section, retrolabyrinthine, vestibular/cochlear	41596	single event multilevel surgery	50450-50451, 50455-50456
section, translabyrinthine, vestibular	41593	50460-50461, 50465-50466, 50470-50471, 50475-50476	
segmental resection of	30414-30415, 30427	single, preparatory to ventricular puncture	39012
segmental resection of, for tumours	45605	Sinoscopy	41764
Segmentectomy	38438	sinus lift procedure	45849
Selective coronary angiography	38215, 38218, 38220, 38222	sinus, drainage of, through tooth socket	41719
38225, 38228, 38231, 38234, 38237, 38240-38241, 38243		sinus, injection of sclerosant fluid	30679
38246		sinus, intranasal operation on	41737
Semen, collection of	13290, 13292	sinus, operations on	41710, 41713, 41716, 41719, 41722
Semimembranosus bursa, excision of	30114	sinus, radical obliteration of	41746
semimembranosus, excision of	30114	sinus, trephine of	41743
Seminal vesicle/ampulla of vas, total excision of	37209	sinuses, operation on	41737, 41749
Sengstaken-Blakemore tube, insertion of	13506	SIR-Spheres administration	35404, 35406, 35408
Sentinel lymph node biopsy for breast cancer	30299-30300	skin free grafts to one defect	45439, 45442, 45445, 45448
30302-30303		skin tags or polyps, excision of	32142, 32145
sentinel lymph node, for breast cancer	30299-30300	Skin, biopsy of	30071
30302-30303		skin, micrographic serial excision	31000-31005
sentinel node biopsy for breast cancer	30299-30300	skin, to orbit	42524
30302-30303		skin/subcutaneous/mucuous membrane, removal of	31220, 31225
septal defect closure, surgical	38742	Skull base surgery for tumour removal	39640, 39642, 39646
septal defect closure, transcatheter approach	38272	39650, 39653-39654, 39656, 39658, 39660, 39662	
Septal defect, atrial, closure of	38742	skull base, removal of	39640, 39642, 39646, 39650
septal defect, closure of	38751	39653-39654, 39656, 39658, 39660, 39662	
septal rupture, ischaemic, repair of	38509	skull, craniectomy for	39906
septectomy	38739, 38748	skull, excision of	39700
Septectomy, cardiac	38739, 38748	sling operation	35599, 37042
Septoplasty of nasal septum	41671	Sling operation for stress incontinence	35599
Septostomy, or balloon valvuloplasty	38270	sling procedure prior to radiotherapy	32183
septum	41674	Slough, debridement of	35100, 35103
septum button, insertion of	41907	Small bone, exostosis, excision of	47933
Septum button, nasal, insertion of	41907	small, excision of	30107
septum, excision for correction of double vagina	35566	small, incision, drainage, without GA	30219
septum, hysteroscopic resection	35623	small, intubation	30488
septum, reconstruction of	41672	small, resection of	30565-30566
septum, septoplasty or submucous resection	41671	small, strictureplasty	30564
Sequestrectomy	43512, 43515, 43518, 43521, 43524	Smith-Petersen nail, removal of	47924, 47927
Seroma, breast, exploration, drainage, operating theatre	31551	snip operation	42617
service provided by a midwife, nurse or ATSI health practitioner	16400	Socket, eye, contracted, reconstruction of	42527
sesamoid bone	48400	socket, treatment as secondary procedure	42521
Sesamoid bone, osteotomy or osteectomy of	48400	solitary, pyeloplasty by open exposure	36567
Seton, readjustment of, in anal fistula	32166	sounds, passage of, as an independent procedure	37300
shaving of	45653	space infection of hand, incision for	46525
shirodkar	16511	Spermatic cord, exploration of, inguinal approach	30643-30644
Shirodkar suture	16511	Spermatocoele, excision of	37601
shoulder	48912, 48915, 48918, 48921, 48924, 48939, 48942	Sphenoidal sinus, intranasal operation on	41752
48945, 48948, 48951, 48954, 48957, 48960		sphenoidal, intranasal operation on	41752
shoulder & axilla	21600, 21610, 21620, 21622, 21630, 21632	Sphincter, anal, direct repair of	32129
21634, 21636, 21638, 21650, 21652, 21654, 21656, 21670		sphincter, artificial	37381, 37384
21680, 21682		sphincter, direct repair of	32129
Shoulder, amputation or disarticulation at	44331	sphincter, reconstruction of	37375
shoulder, removal of	48927	sphincterotomy	30485
shunt diversion, insertion of	40003, 40006	Sphincterotomy, anal, independent procedure	43999
shunt for hydrocephalus	40006	sphincterotomy, independent, Hirschsprung's	43999
shunt operation for	37396	spica, application of	47540, 50564
Shunt, aorto-pulmonary or cavo-pulmonary	38733, 38736	spica, application, congenital dislocation	50353, 50564
		spigelian, repair of	30403, 30405

spinal and peripheral nerve stimulation	39130-39131	stress incontinence, sling procedure	37042
39133-39139		stress incontinence, Stamey or similar	37043
spinal stimulation, for pain	39131, 39133-39139	stress incontinence, suprapubic procedure	37044
spine & spinal cord	20600, 20604, 20620, 20622, 20630	stress, sling operation for	35599
20632, 20634, 20670, 20680, 20690		Stricture, anal, anoplasty for	32123
Spleen, ruptured, repair of	30375	stricture, anoplasty for	32123
Splenectomy	30597, 30599, 30619	stricture, dilatation of	32115, 37303
splenectomy	31470	stricture, dilatation of with bronchoscopy	41904
Spleno renal shunt, selective, for portal hypertension	30605	stricture, endoscopy with balloon dilatation	30475
Splenorrhaphy	30596	stricture, optical urethrotomy for	37327
Split skin free grafts, granulating areas	45400, 45403	stricture, per anal release of	32114
split skin, to burns	45460-45462, 45464-45466, 45468-45469	stricture, plastic repair of	37342-37343, 37345, 37348
45471-45472, 45474-45475, 45477-45478, 45480-45481		37351	
45483-45493		stricture, repair of	30469
Squint, muscle transplant (Hummelsheim type)	42848	Strictureplasty, small bowel	30564
stab cystotomy	37011	string ligature of cervix, removal	16512
stabilisation of	45875	Strontium 89, administration of	16015
Stabilisation procedure for recurrent anterior or posterior		Stump, amputation, reamputation of	44376
dislocation	48930	stump, reamputation of	44376
stabilisation, for multidirection instability	48933	stump, revision of	46483
stabilisation, repair capsule/ligament	50106	Styloid process of temporal bone, removal of	30244
stabilisation, revision of	49548	sub-total, radical, for carcinoma	30523
staghorn, nephrolithotomy and/or pyelolithotomy	36543	Sub-valvular structures, heart, reconstruction, re-implant	38490
Staging laparotomy for gynaecological malignancy	35726	Subclavian artery, endarterectomy	33506
staging of intra-abdominal tumours	30441	Subclavian artery, vessel, ligation/exploration, other	34103
Stamey or similar type needle colposuspension	37043	subcutaneous	31524
Stapedectomy	41608	Subcutaneous fasciotomy, Dupuytren's contracture	46366
Stapes mobilisation	41611	subcutaneous tissue, extensive excision	31245
Staple arrest of hemi-epiphysis	48509	subcutaneous, Dupuytren's contracture	46366
staple arrest of hemi-epiphysis	48509	subcutaneous, removal of	30064
stem tumour, craniotomy for removal	39709	subcutaneous, repair of recent wound of	30026, 30029
Stenosing tendovaginitis, hand/wrist, open operation	46363	30032, 30035, 30038, 30042, 30045, 30049	
stenosis or occlusion, vein bypass for	34812	Subdural haemorrhage, tap for	39009
Stenosis, arteriovenous fistula/access device, correction of	34518	subdural, tap for	39009
stenosis, duodeno-duodenostomy/jejunostomy	43807	Sublingual gland, duct, removal of calculus	30266
stenosis, patch angioplasty for	34815	sublingual, extirpation of	30259
stent insertion	35306, 35309	sublingual/salivary gland duct, removal of	30266
stent, application	34824, 34827, 34830, 34833	Submandibular abscess, incision of	30223
Stent, external, application restore valve competency	34824	submandibular, extirpation of	30256
34827, 34830, 34833		Submaxillary gland, repair of cutaneous fistula	30269
stent, insertion of	36605, 36607, 36821	submucous resection of	41692
stent, removal/replacement of	36825	Submucous resection of nasal septum	41671
stent, through nephrostomy tube	36604	subperiosteal	43500, 43503, 43506, 43509, 43512, 43515
stenting of bile duct	30491	43518, 43521, 43524	
stenting, percutaneous	30492	Subperiosteal abscess	43500, 43503, 43506, 43509, 43512
Stereotactic procedures	40800-40801, 40803	43515, 43518, 43521, 43524	
stereotactic procedures	40800, 40803	Subphrenic abscess, laparotomy for drainage of	30394
Sterilisation (female)	35688	subphrenic, laparotomy for drainage	30394
sterilisation via	35688	Subtalar arthrodesis	50118
Sternal wire/s, removal of	38460	subtalar joint	50118
Sternocleidomastoid muscle, bipolar release, torticollis	50402	subtalar, arthrodesis of	50118
sternotomy for post-operative bleeding	38656	subtemporal	40015
Sternotomy for removal of thymus or mediastinal tumour	38446	Subtemporal decompression	40015
Sternum and mediastinum, reoperation for infection	38468-38469	Subungual haematoma, incision of	30219
steroid injection	18232	subvalvular structures, reconstruction, re-implantation	38490
stimulation for pain	39130-39131, 39133-39139	Suction biopsy of rectum	30071
stimulation, restoration cardiac rhythm	13400	superficial	15000, 15003, 15006, 15009, 15012
stimulator, revision of	39133	superficial, of parotid gland	30253
Strabismus, operation for	42833, 42836, 42839	superficial, removal of	30061
strangulated, incarcerated or obstructed, repair of	30615	supervision in home	13104
43835		supervision in hospital	13100, 13103
Stress incontinence, abdomino-vaginal operation	35602, 35605	support procedures	13815, 13818, 13830, 13839, 13842

13848, 13851, 13854, 13857, 38362, 38600, 38603, 38609
38612-38613, 38615, 38618, 38621, 38624

supraglottic 41840
Supraglottic laryngectomy with tracheostomy 41840
Suprapubic cystostomy or cystotomy 37008
suprapubic procedure for 37044
surgery 38390, 38393, 38512, 38515, 38518, 42702, 43801
43804, 43807, 43810, 43813, 43816, 43819, 43822
surgery for congenital heart disease 38700, 38703, 38706
38709, 38712, 38715, 38718, 38721, 38724, 38727, 38730
38733, 38736, 38739, 38742, 38745, 38748, 38751, 38754
38757, 38760, 38763, 38766
surgery for penile drainage causing impotence 37420
surgery, for congenital heart disease 38700, 38703, 38706
38709, 38712, 38715, 38718, 38721, 38724, 38727, 38730
38733, 38736, 38739, 38742, 38745, 38748, 38751, 38754
38757, 38760, 38763, 38766
surgery, open, not otherwise covered 38653
surgery, re-operation via median sternotomy 38640
surgical 35000, 35003, 35006, 35009, 35012
Surgical reduction of enlarged elements, macrodactyly 46510
Suspension of uterus 35684
suspension or fixation of 35684
Suture, laser division of, eye, following trabeculoplasty 42794
suture, running, manipulation of 42667
Sutures, adjustable, readjustment of, for squint 42845
sutures, removal of 42668
Swann-Ganz catheterisation 13818
Sycosis barbae/nuchae, excision of 31245
Symblepharon, grafting for 45629
Syme's amputation of foot 44361
sympathectomy 35000, 35003, 35006, 35009, 35012
Symphysis pubis, fracture, treatment of 47474, 47477, 47480
47483, 47486, 47489
Synacthen stimulation testing 30097
Synechia, division of 42761
synechia, division of 42761
synovectomy of 45867, 48936, 49509, 50312
synovectomy of tendon/s 46348, 46351, 46354, 46357, 46360
synovectomy of, not otherwise covered 50104
Synovectomy, of ankle 50312
tags, anal, excision of 32142, 32145

T

Talipes equinovarus, cast/manipulation/splint 49878
Talus fracture, treatment of 47606, 47609, 47612, 47615
47618
tantalum marker, insertion and removal 42805
Tantalum markers, surgical insertion of 42805
tapping of 30628
tarsal cauterisation for 42581
tarsal, extirpation of 42575
Tarsometatarsal joint, fracture, treatment of 47621, 47624
Tarsorrhaphy 42584
tarsorrhaphy 42584
tarsus 48406, 48409
Tarsus, dislocation, treatment of 47063, 47066
tarsus, for ectropian/entropian 42581
Tear duct, probing of 42610-42611, 42614-42615
Teflon injection, into vocal cord 41870
Temporal artery, biopsy of 34109

temporal, biopsy of 34109
temporo-mandibular 45755
temporomandibular joint 45758
Temporomandibular joint, arthroplasty 45758
tenckhoff peritoneal dialysis, removal of 13110
Tendon 49718, 49721, 49724, 49727
tendon of hand, tenolysis of 46450
tendon of, repair of 49800, 49803
tendon or ligament transplantation of 49812
tendon pulley, reconstruction 46411
tendon sheath, finger or thumb, open operation 46522
tendon sheath, open operation 46363
tendon sheath, operation for tendovaginitis 46363
tendon transfer for restoration of function 46417
tendon, hand, tenolysis of 46453
tendon, hand/wrist, synovectomy of 46339
tendon, removal of 30068
tendon, repair of 46420, 46423, 46426, 46429, 46432, 46435
49718, 49721, 49724
tendon, synovectomy of 46339
tendon, wrist, repair of 46426, 46429
tendon/s, digit, synovectomy of 46348, 46351, 46354, 46357
46360
Tenolysis, hand 46450, 46453
Tenoplasty 47963
Tenosynovectomy 47969
Tenosynovitis, open operation, tendon sheath hand/wrist 46363
Tenotomy 47960, 47963, 49806, 49809
tenotomy 47960
tenotomy of 49806, 49809
Tenovaginitis, open operation for 46363, 47972
Teratoma, mediastinal, thoracotomy and excision 43912
teratoma, neonatal, excision of 43876, 43879
Testicular implant 45051
Testis, exploration of 37604, 37810, 37813
Testopexy 37803
Tethered cord, release of 40112
Thenar spaces of hand, drainage of 46519
therapeutic 13757, 16618
Therapeutic haemapheresis 13750
Therapeutic venesection 13757
therapy for intraepithelial neoplasia 35539, 35542, 35545
therapy, hyperbaric 13020, 13025, 13030
thickness wedge excision of lip, eyelid or ear 45665
Thigh, amputation through 44367
Third degree tear, repair of 16573
third degree, repair of 16573
Thompson arthroplasty of hip 49315
Thoracic aneurysm, replacement by graft 33103
thoracic aorta, operative management of 38572
thoracic cavity 38803
thoracic, management of rupture/dissection 38572
thoracic, repair/replacement procedures 38550, 38553
38556, 38559, 38562, 38565, 38568, 38571
Thoracoplasty 38427, 38430
Thoracoscopy 38436
Thoracotomy 38418, 38421, 38424
thorax 20400-20406, 20410, 20420, 20440, 20450, 20452
20470, 20472, 20474
Threatened abortion, treatment of 16505
threatened, ligation of cervix 16511
threatened, treatment of 16505

Three snip operation	42617	Trachea, dilatation of stricture and stent insertion	41905
thrombectomy of	33803, 33806, 33810-33812	trachea, removal of	41886
Thrombectomy of arteriovenous access device	34515	Tracheal excision, repair, with cardiopulmonary bypass	38455
thrombosis, incision of	32147	tracheal, dilatation of, with bronchoscopy	41904
Thrombosis, peri-anal, incision of	32147	Trachelorrhaphy	35618
Thrombus, removal of	33803, 33806, 33812	Tracheo-oesophageal fistula, division and repair	43900
Thumb, digital nail, removal of	46513, 46516	tracheo-oesophageal, division and repair	43900
Thymectomy	38456	Tracheomalacia, aortopexy for	43909
Thymoma, malignant, removal from mediastinum	38456	Tracheoplasty or laryngoplasty with tracheostomy	41879
Thymus, removal of by thoracotomy or sternotomy	38446	transanal endoscopic microsurgery	32103-32104, 32106
Thyroglossal cyst and/or fistula, removal of	30314, 30326	Transantral ethmoidectomy with radical antrostomy	41713
Thyroglossal, radical removal of	30326	transantral vidian, with antrostomy	41713
thyroglossal, radical removal of	30314	transantral, of maxillary artery	41707
thyroglossal, removal of	30314	transantral, with radical antrostomy	41713
thyroid, removal of	30310	transection for portal hypertension	30606
Thyroidectomy	30296-30297, 30299-30300, 30302-30303, 30306	transection, with re-anastomosis to trigone	37053
30310		transfer for facial nerve paralysis	45578
tibia	48418, 48421	transfer of abdominal musculature to greater trochanter	50387
Tibia, bone graft to	48206, 48209	transfer of adductors to ischium	50387
Tibial vessel, ligation/exploration not otherwise covered	34106	transfer of tissue	45562-45565
tibialis tendon transfer	50339, 50342	transfer of tissue, anastomosis artery/vein	45502
Tic douloureux, injection for	39100	Transfusion	13703, 13706
tie, repair of	30278, 30281	transfusion	13703, 13706
tissue or organ, biopsy of	30075, 30078	transfusion, fetal	16609, 16612, 16615
tissue, accessory, excision of	31560	transfusion, paediatric/neonatal	13306, 13309
Tissue, expansion for breast reconstruction	45539, 45542	transhepatic cholangiogram, imaging guided	30440
tissue, repair of recent wound of	30026, 30029, 30032	Transillumination, ocular	42821
30035, 30038, 30042, 30045, 30049		transillumination	42821
to femoral bypass grafting	32715	Translabyrinthine vestibular nerve section	41593
to haemorrhoids with rubber band ligation	32135	transluminal balloon	35300, 35303
to prepare bypass site for anastomosis	33554	Transluminal balloon angioplasty	35300, 35303
to retina, independent procedure	42818	Transmastoid decompression of endolymphatic sac	41590
Toe, amputation or disarticulation of	44338, 44342, 44346	Transmetacarpal amputation of hand	44325
44350, 44354, 44358		Transmetatarsal amputation of foot	44364
toe, fracture, treatment of	47663, 47666, 47672, 47678	Transorbital ligation of ethmoidal arteries	41725
Toenail, ingrowing, excision or resection for	47915-47916	transplant	36503, 36506, 36509
47918		transplant (Hummelsheim type), for squint	42848
toilet, using operating microscope	41647	transplant to restore valvular function	34821
Tongue, partial or complete excision of	30272, 41779, 41782	transplantation	47966
41785		transplantation of	36597, 42653, 42656, 42662, 42665
Tonsils, lingual, removal of	41804	Transplantation, cornea	42653, 42656
Topectomy, for epilepsy	40703	transposition of	39321
Torkildsen's operation	40000	Transposition of digit	46507
Torticollis, bipolar release sternocleidomastoid muscle	50402	transposition with hysterectomy for malignancy	35729
total	30521, 30524, 30526	transposition/transfer, vascular pedicle	46507
total body	22065	Transpupillary thermotherapy	42811
total excision of	37209-37211	Transthoracic drainage of pericardium	38450
total joint replacement	49715	Transtympanic removal of glomus tumour	41620
total replacement of	48918, 48921, 48924, 49115	Transurethral injection for urinary incontinence	37339
total synovectomy of	49109	transurethral microwave thermotherapy	37230, 37233
total, for Hirschsprung's, paediatric	43996	Transvenous electrode/s, permanent, insertion of	38350
total, of knee	49509	38356	
total, of wrist	49224	transvenous, insertion of	38256, 38356
total, with excision rectum/anastomosis	32051, 32054	traumatic wounds	30026, 30029, 30032, 30035, 30038, 30042
32057		30045, 30049	
total, with excision rectum/ileostomy	32015, 32018, 32021	traumatic, suture of	30026, 30029, 30032, 30035, 30038
total, with ileo-rectal anastomosis	32012	30042, 30045, 30049	
total, with ileostomy	32009	Treacher Collins Syndrome, peri-orbital correction of	45773
Trabeculectomy for glaucoma	42746	treatment of including paediatric	50600, 50604, 50608
trabeculoplasty	42782	50612, 50616, 50620, 50624, 50628, 50632, 50636, 50640	
trabeculoplasty, laser	42782	50644, 50650, 50654, 50658	
Trabeculoplasty, laser, of eye	42782	treatment of paediatric	50508, 50512

treatment, eye 42782, 42785, 42788, 42791, 42794
42801-42802, 42805-42806

Trephine of frontal sinus 41743

Trichiasis, treatment of 42587-42588

Trichoepitheliomas, face/neck, removal by laser excision 30190

Trigeminal gangliotomy, radiofrequency/balloon/glycerol 39109

trigeminal, primary branch, injection with alcohol etc 39100

Trigger finger, correction of 46363

trigger, correction of 46363

trunk, internal (interfascicular), neurolysis of 39312

trunk, microsurgical repair 39306, 39309

trunk, nerve graft to 39315

tube, indwelling, gastrostomy for fixation 30375

Tubed pedicle or indirect flap 45230

tuberosity, reduction of 45829

tubes, hydrotubation of 35703, 35709

tubes, implantation of, into uterus 35694, 35697

tubes, insufflation of, for patency (Rubin test) 35706

tubes, microsurgical anastomosis 35700

tubes, Rubin test for patency 35706

tubes, sterilisation 35688

tubes, sterilisation with Caesarean section 35691

Tuboplasty 35694, 35697

tuberos, tubular or constricted breast, treatment by 45060-45062

tuberos, tubular or constricted, correction of 45060-45062

tumour site, re-excision 31515

Tumour, adrenal gland, excision of other, removal of 30324
31220, 31225

Tumour, benign of soft tissue removal 30611

tumour, benign, resection of 50230

tumour, biopsy and/or decompression 39706

tumour, burr-hole biopsy for 39703, 39706

tumour, craniotomy and removal of 39709, 39712

tumour, craniotomy for removal 39712

tumour, excision of 30251, 32099, 32102-32104, 32106
32108, 38670, 38673, 38677, 38680, 39700

tumour, innocent, excision of 30241

tumour, laser photocoagulation of 42806

tumour, malignant, operations for 50200-50201, 50203
50206, 50209, 50212, 50215, 50218, 50221, 50224, 50227
50230, 50233, 50236, 50239

tumour, radical or debulking operation for 35720

tumour, removal of 30520

tumour, removal of by urethrectomy 37330

tumour, transtympanic, removal of 41620

tumour/s, diathermy/resection 36840, 36845

tumour/s, laser destruction with cystoscopy 36840

tumours destruction by radiofrequency ablation 50950
50952

tumours, destruction of by cryotherapy 30419

tunnel release 39331

turbinates 41674

Turbinates, cauterisation or diathermy of 41674

Turbinectomy 41689

Turriccephaly, cranial vault reconstruction for 45785

Tympani, paracentesis of 41626

Tympanic membrane, micro-inspection of 41650

Tympanum, perforation, cauterisation or diathermy 41641

U

Ulcer, corneal, epithelial debridement for 31220, 31225

42650

ulcer, epithelial debridement of cornea for 42650

ulcer, perforated, suture 30375

ulcer, perforated, suture of 30375

ulna 48406, 48409

Ulna, bone graft to 48218, 48221, 48224, 48227

Ulnar vessel, ligation/exploration not otherwise covered 34106

ultrasound 30688, 30690, 30692, 30694

Ultrasound, intraoperative, biliary tract 30439

umbilical artery 13303

Umbilical artery catheterisation 13303

umbilical or scalp vein in a neonate 13300

umbilical, catheterisation of 13300

umbilical, epigastric, or linea alba, repair of 30621

umbilical, excision under GA 43948

umbilical/scalp vein in neonate 13300

Undescended testis, orchidopexy for 37803-37804, 37806-37807
37809-37810

undescended, orchidopexy for 37803, 37806, 37809-37810

Unstable lie, attendances other than routine antenatal 16502

upper prolapse, sacrospinous colpopexy for 35568

upper recession of 42863

upper vault prolapse, pelvic floor repair 35595

upper vault prolapse, sacral colpopexy 35597

urachus, excision of 37800

Urachus, patent, excision of 37800

ureter 36585, 36588, 36591, 36594, 36597, 36600, 36603

Ureter, brush biopsy of, with cystoscopy 36821

ureter, removal of 36549

Ureterectomy 36579

Ureteric calculus, endoscopic extraction/manipulation 36857

ureteric stent exchange 36608

ureteric, endoscopic removal/manipulation 36857

ureteric, passage through nephrostomy tube 36604

ureteric, with cystoscopy 30266, 36824, 36830

Ureterolithotomy 36549

Ureterolysis 36615

Ureteroplasty 36618

Ureteroscopy 36803, 36806, 36809

ureterostomy, closure of 36621

Ureterostomy, cutaneous, closure of 36621

urethra 35570, 35573, 37318

urethra or urethral caruncle 35523

Urethra, cauterisation of 35523

urethra, excision of 37369

urethra, removal of 37318

urethra, repair of 37306, 37309

urethral 37321

Urethral abscess, drainage of 30223, 37816, 37828

urethral fistula repair 37833

Urethral sling, division or removal of 37340-37341

urethral, closure of 37833

urethral, dilatation of 37303

urethral, excision of 35527, 37372

urethral, reconstruction 37375

Urethrectomy 37330

urethro-rectal 37336

urethro-vaginal 37333

Urethrocoele, repair of 35570

Urethropexy (Marshall-Marchetti operation) 35599, 37044

Urethroplasty 37342-37343, 37345, 37348, 37351

Urethroscopy, as an independent procedure 37315

vitrectomy/corticolysis 42791
 Volvulus, reduction of 30375
 Vulva, biopsy of, with colposcopy 35615
 Vulval warts, removal under GA or nerve block 35507-35508
 vulval/vaginal, removal, GA or nerve block 35507-35508
 Vulvectomy, hemi 35536
 Vulvoplasty, for localised gigantism 35534
 Vulvoplasty, for repair of female genital mutilation or anomalies of the uro-gyn 35533
 wall vitello intestinal remnant, excision of 43942

W

Warts, anal, removal under GA or nerve block 32177, 32180
 warts, cystoscopy for the treatment of 36815
 warts, removal of 30187
 warts, removal under GA or nerve block 32177, 32180
 35507-35508
 wedge excision 30165, 30168, 30171-30172
 Wedge excision for axillary hyperhidrosis 30180
 wedge resection of 38440
 Wertheim's operation 35664
 Whipple's operation (pancreatico-duodenectomy) 30584
 whole body 22060
 wide local excision of suspected malignancy 35536
 wire or screw, buried, removal of 47924, 47927
 Wire, orthopaedic, insertion of 47921
 with biopsy 30391
 with biopsy or other procedure 41892
 with biopsy/diathermy/foreign body/stone 37318
 with cystoscopy 36812
 with cystoscopy and injection for incontinence 37339
 with debulking operation 35720
 with dilatation of tracheal stricture 41904
 with division of extensive adhesions 30379
 with drainage of pus 31454
 with insertion of cochlear implant 41617
 with insertion of portacath 30400
 with laparotomy, neonatal anorectal malformation 43822
 with laparotomy, not with hysterectomy 35713, 35717
 with laryngoplasty or tracheoplasty 41879
 with laser destruction of stone 37318
 with other procedures 35644-35647
 with ovarian transposition, malignancy 35729
 with proctocolectomy 32015
 with removal of cartilage and/or bone 41512, 41515
 with rigid oesophagoscope 41816, 41822, 41825
 with supraglottic laryngectomy 41840
 with surgical repositioning of nipple 45520, 45523
 with total colectomy 32009
 with transbronchial lung biopsy 41898
 with transection/resection Fallopian tubes 35688
 with transmastoid removal of glomus tumour 41623
 with vaginal hysterectomy 35673
 with vertical hemi-laryngectomy 41837
 without surgical repositioning of nipple 45522
 Wolfe graft 45451
 wound, debridement of 38462, 38464
 Wound, debridement under GA or major block 30023
 wound, review under GA, independent 32168
 wrist 49200, 49203, 49209, 49212, 49218, 49221, 49224
 49227

wrist joint, excision of 46500-46503
 Wrist, arthrodesis of 49200, 49203
 Wry neck, operation for 44133

X

Xenon arc photo-coagulation 42782

Z

Z-plasty, in association with Dupuytren's Contracture 46384
 Zygo-apophyseal joint, injection into 39013
 Zygorama, osteotomy or osteectomy of 45720, 45723, 45726
 45729, 45731-45732, 45735, 45738, 45741, 45744, 45747
 45752
 Zygomatic arch, reconstruction of 45788

CATEGORY 4: ORAL AND MAXILLOFACIAL SERVICES

SUMMARY OF CHANGES FROM 21/07/2020

The 21/07/2020 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 21/07/2020

ORAL AND MAXILLOFACIAL SERVICES NOTES

ON.1.1 Benefits for Medical Services Performed by Approved Dental Practitioners

Under the provisions of the *Health Insurance Act 1973* (the Act), Medicare benefits are payable where an eligible person incurs medical expenses in respect of certain professional services rendered by a approved dental practitioner approved before 1 November 2004.

Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004 for the provision of oral and maxillofacial surgery services and relevant attendances.

Approved dental practitioners may also request certain diagnostic imaging services - refer to Category 5 - Diagnostic Imaging Services for more information.

ON.1.2 Changes to the Scheme Effective from 1 November 2004

From 1 November 2004, access to Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004. No new approvals will be granted after that date.

Background

Since 2000, practitioners performing oral and maxillofacial surgery in Australia are required to have both dental and medical qualifications in order to sit for their FRACDS(OMS) exam. This effectively means that since then, any practitioner who has obtained an FRACDS(OMS) or equivalent can access Category 3 of the MBS because they are medically qualified. The Government, in consultation with the Australian and New Zealand Association of Oral and Maxillofacial Surgeons, the Australian Dental Association, the Royal Australian College of Surgeons, the Royal Australian College of Dental Surgeons and the Australian Medical Association, has agreed that access by new practitioners to Category 4 will be withdrawn from 1 November 2004. Practitioners who were approved prior to that date will continue to have access to Category 4. The long-term proposal is that once all practitioners who currently access Category 4 have left the workforce, Category 4 will be removed from the Medicare Benefits Schedule.

Details of the services attracting Medicare benefits are set out in the Medicare Benefits Schedule.

ON.2.1 Definition of Oral and Maxillofacial Surgery

Oral and Maxillofacial Surgery is defined as the surgical specialty which deals with the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects of the oral and maxillofacial region.

ON.2.2 Services That Can Be Provided

Dental practitioners holding the FRACDS (OMS) or equivalent who were approved by the Minister prior to 1 November 2004 may perform prescribed oral and maxillofacial services listed in this category. All dental practitioners approved for the purposes of subsection 3(1) of the Act are also recognised to perform those items of oral and maxillofacial surgery listed in Group C2 of the booklet "Medicare Benefits for Treatment of Cleft Lip and Cleft Palate Conditions".

It is emphasised that -

- the sole purpose of granting approval to dental practitioners is to enable payment of Medicare benefits;
- the services set out in Groups 01 to 011 of the Medicare Benefits Schedule book, and in the Cleft Lip and Cleft Palate Schedule are the only ones for which Medicare benefits are payable when the services are performed by an eligible dental practitioner.

ON.3.1 Principles of Interpretation

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

ON.3.2 Multiple Operation Rule

The Schedule fees for two or more operations performed on a patient on the one occasion are calculated by the following rule:-

100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

NOTE:

1. Fees so calculated which result in a sum which is not a multiple of 5 cents are to be taken to the next higher multiple of 5 cents
2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes all services in Groups O3 to O9.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

ON.3.3 After Care (Post-operative Treatment)

The fee specified for each of the operations listed in the Schedule contains a component for the consequential after-care customarily provided unless otherwise indicated. After-care is deemed to include all post-operative treatment rendered by practitioners and need not necessarily be limited to treatment given by the approved dental practitioner or to treatment given by any one practitioner. This does not preclude, however, the payment of benefit for professional services for the treatment by a dental practitioner of an intercurrent condition or an unusual complication arising from the operation.

Some minor operations are merely stages in the treatment of a particular condition. Professional services by dental practitioners subsequent to such operations should not be regarded as after-care but rather as continuation of the treatment of the original condition and should attract benefit. Item 52057 is a service to which this policy applies.

ON.3.4 Administration of Anaesthetics by Medical Practitioners

When a medical practitioner administers an anaesthetic in connection with a procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an approved dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

The Schedule fee for anaesthesia is established using the RVG schedule at Category 3 - Group T10.

Before the payment of benefits for the administration of anaesthesia, or for the services of an assistant anaesthetist, a number of additional details are required on the anaesthetist's account:

- The anaesthetist's account must show the name/s of the medical practitioner/s who performed the associated operation/s. Also, where the after hours emergency modifier applies to the anaesthesia service, the account must include the start time, the end time and the total time of the anaesthesia;

- The assistant anaesthetist's account must show the name/s of the medical practitioners who performed the associated operation/s, as well as the name of the principle anaesthetist. In addition, where the after hours emergency modifier applies, the assistant anaesthetist's account must record the start time, the end time and the total time for which he or she was providing professional attention to the patient during the anaesthesia.

ON.4.1 Consultations - (Items 51700 and 51703)

The consultation item numbers (51700 and 51703) are to be used by approved dental practitioners in the practice of oral and maxillofacial surgery.

The referral must be from a registered dental practitioner or a medical practitioner.

ON.4.2 Assistance at Operations - (Items 51800 and 51803)

Items covering operations which are eligible for benefits for assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery or surgical assistance have been identified by the inclusion of the word "Assist" in the item description. Medicare benefits are not payable for surgical assistance associated with procedures which have not been so identified.

The assistance must be rendered by a practitioner other than the surgeon, the anaesthetist or the assistant anaesthetist.

Where more than one practitioner provides assistance to an approved dental practitioner no additional benefits are payable. The assistance benefit is the same irrespective of the number of practitioners providing assistance.

Benefits payable under item 51800

Medicare benefits are payable under Item 51800 for assistance rendered at the following procedures:

51900, 51904, 52010, 52018, 52039, 52048, 52051, 52062, 52063, 52066, 52078, 52090, 52092, 52095, 52105, 52108, 52111, 52130, 52138, 52141, 52144, 52147, 52182, 52300, 52303, 52312, 52315, 52321, 52324, 52336, 52339, 52424, 52440, 52452, 52480, 52482, 52600, 52603, 52609, 52612, 52615, 52624, 52626, 52627, 52800, 52803, 52806, 52809, 52818, 52824, 52828, 52830, 53006, 53009, 53016, 53215, 53220, 53225, 53226, 53236, 53239, 53242, 53406, 53409, 53412, 53413, 53415, 53416, 53453, 53460.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under item 51300.

Benefits payable under Item 51803

Medicare benefits are payable under Item 51803 for assistance rendered at the following procedures:

51906, 52054, 52094, 52114, 52117, 52120, 52122, 52123, 52126, 52129, 52131, 52148, 52158, 52184, 52186, 52306, 52330, 52333, 52337, 52342, 52345, 52348, 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375, 52378, 52379, 52380, 52382, 52430, 52442, 52444, 52446, 52456, 52484, 52618, 52621, 52812, 52815, 52821, 52832, 53015, 53017, 53019, 53209, 53212, 53218, 53221, 53224, 53227, 53230, 53233, 53414, 53418, 53419, 53422, 53423, 53424, 53425, 53427, 53429, 53455.

or at a combination of procedures (including those identified as payable under item 51800 above) for which the aggregate fee exceeds the amount specified in the item.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under Item 51303.

Assistance at multiple operations

Where assistance is provided at two or more operations performed on a patient on the one occasion the multi operation formula is applied to all the operations to determine the surgical fee payable to each approved dental

practitioner. The multi-operation formula is then applied to those items at which assistance was rendered and for which Medicare benefits for assistance is payable to determine the abated fee level for assistance. The abated fee is used to determine the appropriate Schedule item covering the surgical assistance (ie either Items 51800/51300 or 51803/51303).

The derived fee applicable to Item 51803/51303 is calculated on the basis of one-fifth of the abated Schedule fee for the surgery.

ON.4.3 Repair of Wound - (Item 51900)

Item 51900 covers debridement of "deep and extensively contaminated" wound. Benefits are not payable under this item for debridement which would be expected to be encountered as part of an operative approach to the treatment of fractures.

ON.4.4 Lipectomy, Wedge Excision - Two or More Excisions - (Item 51906)

Multiple lipectomies attract benefits under Item 51906 once only, i.e. the multiple operation rule does not apply.

Medicare benefits are not payable in respect of liposuction.

ON.4.5 Upper Aerodigestive Tract Endoscopic Procedure - (Item 52035)

The following are guidelines of appropriate minimum standards for the performance of GI endoscopy in relation to (a) cleaning, disinfection and sterilisation procedures, and (b) anaesthetic and resuscitation equipment. These guidelines are based on the advice of the Gastroenterological Society of Australia, the Sections of HPB and Upper GI and of Colon and Rectal Surgery of the Royal Australasian College of Surgeons, and the Colorectal Surgical Society of Australia.

Cleaning, disinfection and sterilisation procedures

Endoscopic procedures should be performed in facilities where endoscope and accessory reprocessing protocols follow procedures outlined in:-

- (i) 'Infection and Endoscopy' (3rd edition), Gastroenterological Society of Australia;
- (ii) 'Infection control in the health care setting - Guidelines for the prevention of transmission of infectious diseases', National Health and Medical Research Council; and
- (iii) Australian Standard AS 4187-1994 (and Amendments), Standards Association of Australia.

Anaesthetic and resuscitation equipment

Where the patient is anaesthetised, anaesthetic equipment, administration and monitoring, and post operative and resuscitation facilities should conform to the standards outlined in 'Sedation for Endoscopy', Australian & New Zealand College of Anaesthetists, Gastroenterological Society of Australia and Royal Australasian College of Surgeons. These guidelines will be taken into account in determining appropriate practice in the context of the Professional Services Review process.

ON.4.6 Tumour, cyst, Ulcer or Scar - (Items 52036 to 52054)

It is recognised that odontogenic keratocysts, although not neoplastic, often require the surgical management of benign tumours.

ON.4.7 Aspiration of Haematoma - (Item 52056)

Aspiration of haematoma is indicated in clinical situations where incision may leave an unsightly scar or where access is difficult for conventional drainage.

ON.4.8 Osteotomy of Jaw - (Items 52342 to 52375)

The fee and benefit for these items include the various forms of internal or dental fixation, jaw immobilisation, the transposition of nerves and vessels and bone grafts taken from the same site.

Bone grafts taken from a separate site, e.g. iliac crest, would attract additional benefit under Item 52318 or 52319 for the harvesting, plus item 52130 or 52131 for the grafting.

Where the site of grafting under item 52131 requires closure by single stage local flap, item 52300 may be claimed where clinically appropriate. Clinically appropriate in this instance means that the flap is required to close defects because the defect cannot be closed directly.

A local skin flap is an area of skin or subcutaneous tissue designed to be elevated from the skin adjoining a defect requiring closure. The flap remains partially attached by pedicle and is moved to the defect by rotation, advancement or transposition, or a combination of these manoeuvres.

Benefits are only payable where the flap is required for adequate wound closure. A secondary defect will be created which may be closed by direct suture, skin grafting or sometimes a further local skin flap. This latter procedure will also attract benefit if closed by graft or flap repair but not been closed by direct suture.

By definition, direct wound closure (e.g. by suture) does not constitute skin flap. Similarly, angled, curved or trapdoor incisions which are used for exposure and which are sutured back into the same position relative to the adjacent tissues are not skin flap repairs. Undermining of the edges of the wound prior to suturing is considered a normal part of wound closure and is not considered to skin flap repair.

For the purposes of these items, a reference to maxilla includes the zygoma.

ON.4.9 Genioplasty - (Item 52378)

Genioplasty attracts benefit once only although a section is made on both sides of the symphysis of the mandible.

ON.4.10 Fracture of Mandible or Maxilla - (Items 53400 to 53439)

There are two maxillae in the skull and for the purpose of these items the mandible is regarded as comprising two bones.

Hence a bilateral fracture of the mandible would be assessed as:

- Item 53409 x 1½;
- two maxillae and one side of the mandible as Item 53406 x 1½ + 53409 x ¼.

Splinting in Item 53406 or 53409 refers to cap splints, arch bars, silver (cast metal) or acrylic splints.

ON.4.12 Destruction of Nerve Branch by Neurolytic Agent - (Item 53706)

Item 53706 includes the use of botulinum toxin as a neurolytic agent.

ORAL AND MAXILLOFACIAL SERVICES ITEMS

O1. CONSULTATIONS	
	Group O1. Consultations
	APPROVED DENTAL PRACTITIONER, REFERRED CONSULTATION - SURGERY, HOSPITAL OR RESIDENTIAL AGED CARE FACILITY
	Professional attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner, at consulting rooms, hospital or residential aged care facility where the patient is referred to him or her
	(See para ON.4.1 of explanatory notes to this Category)
51700	Fee: \$88.20 Benefit: 75% = \$66.15 85% = \$75.00
	Professional attendance by an approved dental practitioner, each attendance subsequent to the first in a single course of treatment at consulting rooms, hospital or residential aged care facility where the patient is referred to him or her
	(See para ON.4.1 of explanatory notes to this Category)
51703	Fee: \$44.35 Benefit: 75% = \$33.30 85% = \$37.70
O1. CONSULTATIONS	
1. DENTAL PRACTITIONER TELEHEALTH SERVICES	
	Group O1. Consultations
	Subgroup 1. Dental practitioner telehealth services
	Telehealth attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner in the practice of oral and maxillofacial surgery, if the patient is referred to the approved dental practitioner
54001	Fee: \$88.20 Benefit: 85% = \$75.00
	Telehealth attendance by an approved dental practitioner in the practice of oral and maxillofacial surgery, each attendance after the first in a single course of treatment, if the patient is referred to the approved dental practitioner
54002	Fee: \$44.35 Benefit: 85% = \$37.70
O1. CONSULTATIONS	
2. DENTAL PRACTITIONER PHONE SERVICES	
	Group O1. Consultations
	Subgroup 2. Dental practitioner phone services
	Phone attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner in the practice of oral and maxillofacial surgery, if the patient is referred to the approved dental practitioner
54003	Fee: \$88.20 Benefit: 85% = \$75.00
	Phone attendance by an approved dental practitioner in the practice of oral and maxillofacial surgery, each attendance after the first in a single course of treatment, if the patient is referred to the approved dental practitioner
54004	Fee: \$44.35 Benefit: 85% = \$37.70
O2. ASSISTANCE AT OPERATION	
	Group O2. Assistance At Operation
51800	Assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery at any

02. ASSISTANCE AT OPERATION	
	operation identified by the word "Assist." for which the fee does not exceed \$575.75 or at a series or combination of operations identified by the word "Assist." where the fee for the series or combination of operations identified by the word "Assist." does not exceed \$575.75 (See para ON.4.2 of explanatory notes to this Category) Fee: \$89.00 Benefit: 75% = \$66.75 85% = \$75.65
51803	Assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery at any operation specified in an item that includes '(Assist.)' for which the fee exceeds \$575.75 or at a series or combination of operations specified in items that include '(Assist)' if the aggregate fee exceeds \$575.75 (See para ON.4.2 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the operation or combination of operations
03. GENERAL SURGERY	
	Group O3. General Surgery
51900	WOUND OF SOFT TISSUE, deep or extensively contaminated, debridement of, under general anaesthesia or regional or field nerve block, including suturing of that wound when performed (Anaes.) (Assist.) (See para ON.4.3 of explanatory notes to this Category) Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80
51902	WOUNDS, DRESSING OF, under general anaesthesia, with or without removal of sutures, not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.) Fee: \$76.25 Benefit: 75% = \$57.20 85% = \$64.85
51904	LIPECTOMY - wedge excision of skin or fat - 1 EXCISION (Anaes.) (Assist.) Fee: \$469.10 Benefit: 75% = \$351.85 85% = \$398.75
51906	LIPECTOMY - wedge excision of skin or fat - 2 OR MORE EXCISIONS (Anaes.) (Assist.) (See para ON.4.4 of explanatory notes to this Category) Fee: \$713.35 Benefit: 75% = \$535.05 85% = \$628.65
52000	SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, small (NOT MORE THAN 7 CM LONG), superficial (Anaes.) Fee: \$85.05 Benefit: 75% = \$63.80 85% = \$72.30
52003	SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, small (NOT MORE THAN 7 CM LONG), involving deeper tissue (Anaes.) Fee: \$121.25 Benefit: 75% = \$90.95 85% = \$103.10
52006	SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, large (MORE THAN 7 CM LONG), superficial (Anaes.) Fee: \$121.25 Benefit: 75% = \$90.95 85% = \$103.10
52009	SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, large (MORE THAN 7 CM LONG), involving deeper tissue (Anaes.) Fee: \$191.40 Benefit: 75% = \$143.55 85% = \$162.70
52010	FULL THICKNESS LACERATION OF EAR, EYELID, NOSE OR LIP, repair of, with accurate apposition of each layer of tissue (Anaes.) (Assist.) Fee: \$261.90 Benefit: 75% = \$196.45 85% = \$222.65
52012	SUPERFICIAL FOREIGN BODY, removal of, as an independent procedure (Anaes.) Fee: \$24.25 Benefit: 75% = \$18.20 85% = \$20.65

03. GENERAL SURGERY	
	SUBCUTANEOUS FOREIGN BODY, removal of, requiring incision and suture, as an independent procedure (Anaes.)
52015	Fee: \$113.30 Benefit: 75% = \$85.00 85% = \$96.35
	FOREIGN BODY IN MUSCLE, TENDON OR OTHER DEEP TISSUE, removal of, as an independent procedure (Anaes.) (Assist.)
52018	Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65
	ASPIRATION BIOPSY of 1 or MORE JAW CYSTS as an independent procedure to obtain material for diagnostic purposes and not being a service associated with an operative procedure on the same day (Anaes.)
52021	Fee: \$30.35 Benefit: 75% = \$22.80 85% = \$25.80
	BIOPSY OF SKIN OR MUCOUS MEMBRANE, as an independent procedure (Anaes.)
52024	Fee: \$53.85 Benefit: 75% = \$40.40 85% = \$45.80
	LYMPH NODE OF NECK, biopsy of (Anaes.)
52025	Fee: \$189.65 Benefit: 75% = \$142.25 85% = \$161.25
	BIOPSY OF LYMPH NODE, MUSCLE OR OTHER DEEP TISSUE OR ORGAN, as an independent procedure and not being a service to which item 52025 applies (Anaes.)
52027	Fee: \$154.45 Benefit: 75% = \$115.85 85% = \$131.30
	SINUS, excision of, involving superficial tissue only (Anaes.)
52030	Fee: \$92.80 Benefit: 75% = \$69.60 85% = \$78.90
	SINUS, excision of, involving muscle and deep tissue (Anaes.)
52033	Fee: \$189.65 Benefit: 75% = \$142.25 85% = \$161.25
	PREMALIGNANT LESIONS of the oral mucous, treatment by <u>cryotherapy, diathermy or carbon dioxide laser</u>
52034	Fee: \$44.35 Benefit: 75% = \$33.30 85% = \$37.70
	ENDOSCOPIC LASER THERAPY for neoplasia and benign vascular lesions of the oral cavity (Anaes.) (See para ON.4.5 of explanatory notes to this Category)
52035	Fee: \$490.95 Benefit: 75% = \$368.25 85% = \$417.35
	TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, not being a service to which item 52039 applies (Anaes.) (See para ON.4.6 of explanatory notes to this Category)
52036	Fee: \$130.90 Benefit: 75% = \$98.20 85% = \$111.30
	TUMOURS, CYSTS, ULCERS OR SCARS, (other than a scar removed during the surgical approach at an operation), up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, and the procedure is performed on more than 3 but not more than 10 lesions (Anaes.) (Assist.) (See para ON.4.6 of explanatory notes to this Category)
52039	Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80
	TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), more than 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane (Anaes.)
52042	(See para ON.4.6 of explanatory notes to this Category)

03. GENERAL SURGERY	
	Fee: \$177.90 Benefit: 75% = \$133.45 85% = \$151.25
	TUMOUR, CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), ULCER OR SCAR (other than a scar removed during the surgical approach at an operation), removal of, not being a service to which another item in Groups O3 to O9 applies, involving muscle, bone, or other deep tissue (Anaes.) (See para ON.4.6 of explanatory notes to this Category)
52045	Fee: \$254.20 Benefit: 75% = \$190.65 85% = \$216.10
	TUMOUR OR DEEP CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), removal of, requiring wide excision, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.) (See para ON.4.6 of explanatory notes to this Category)
52048	Fee: \$383.10 Benefit: 75% = \$287.35 85% = \$325.65
	TUMOUR, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, without skin or mucosal graft (Anaes.) (Assist.) (See para ON.4.6 of explanatory notes to this Category)
52051	Fee: \$517.95 Benefit: 75% = \$388.50 85% = \$440.30
	TUMOUR, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, with skin or mucosal graft (Anaes.) (Assist.) (See para ON.4.6 of explanatory notes to this Category)
52054	Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25
	HAEMATOMA, SMALL ABSCESS OR CELLULITIS, not requiring admission to a hospital, INCISION WITH DRAINAGE OF (excluding after care)
52055	Fee: \$28.20 Benefit: 75% = \$21.15 85% = \$24.00
	HAEMATOMA, aspiration of (Anaes.) (See para ON.4.7 of explanatory notes to this Category)
52056	Fee: \$28.20 Benefit: 75% = \$21.15 85% = \$24.00
	LARGE HAEMATOMA, LARGE ABSCESS, CARBUNCLE, CELLULITIS or similar lesion, requiring admission to a hospital, INCISION WITH DRAINAGE OF (excluding aftercare) (Anaes.) (See para ON.3.3 of explanatory notes to this Category)
52057	Fee: \$168.05 Benefit: 75% = \$126.05 85% = \$142.85
	PERCUTANEOUS DRAINAGE OF DEEP ABSCESS, using interventional imaging techniques - but not including imaging (Anaes.)
52058	Fee: \$245.00 Benefit: 75% = \$183.75 85% = \$208.25
	ABSCESS, DRAINAGE TUBE, exchange of using interventional imaging techniques - but not including imaging (Anaes.)
52059	Fee: \$276.05 Benefit: 75% = \$207.05 85% = \$234.65
	MUSCLE, excision of (Anaes.)
52060	Fee: \$195.35 Benefit: 75% = \$146.55 85% = \$166.05
	MUSCLE, RUPTURED, repair of (limited), not associated with external wound (Anaes.)
52061	Fee: \$230.60 Benefit: 75% = \$172.95 85% = \$196.05

03. GENERAL SURGERY	
52062	MUSCLE, RUPTURED, repair of (extensive), not associated with external wound (Anaes.) (Assist.) Fee: \$304.95 Benefit: 75% = \$228.75 85% = \$259.25
52063	BONE TUMOUR, INNOCENT, excision of, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.) Fee: \$367.50 Benefit: 75% = \$275.65 85% = \$312.40
52064	BONE CYST, injection into or aspiration of (Anaes.) Fee: \$174.80 Benefit: 75% = \$131.10 85% = \$148.60
52066	SUBMANDIBULAR GLAND, extirpation of (Anaes.) (Assist.) Fee: \$459.35 Benefit: 75% = \$344.55 85% = \$390.45
52069	SUBLINGUAL GLAND, extirpation of (Anaes.) Fee: \$204.75 Benefit: 75% = \$153.60 85% = \$174.05
52072	SALIVARY GLAND, DILATATION OR DIATHERMY of duct (Anaes.) Fee: \$60.65 Benefit: 75% = \$45.50 85% = \$51.60
52073	SALIVARY GLAND, repair of CUTANEOUS FISTULA OF (Anaes.) Fee: \$154.45 Benefit: 75% = \$115.85 85% = \$131.30
52075	SALIVARY GLAND, removal of CALCULUS from duct or meatotomy or marsupialisation, 1 or more such procedures (Anaes.) Fee: \$154.45 Benefit: 75% = \$115.85 85% = \$131.30
52078	TONGUE, partial excision of (Anaes.) (Assist.) Fee: \$304.95 Benefit: 75% = \$228.75 85% = \$259.25
52081	TONGUE TIE, division or excision of frenulum (Anaes.) Fee: \$47.95 Benefit: 75% = \$36.00 85% = \$40.80
52084	TONGUE TIE, MANDIBULAR FRENULUM OR MAXILLARY FRENULUM, division or excision of frenulum, in a person aged not less than 2 years (Anaes.) Fee: \$123.20 Benefit: 75% = \$92.40 85% = \$104.75
52087	RANULA OR MUCOUS CYST OF MOUTH, removal of (Anaes.) Fee: \$211.10 Benefit: 75% = \$158.35 85% = \$179.45
52090	OPERATION ON MANDIBLE OR MAXILLA (other than alveolar margins) for chronic osteomyelitis - 1 bone or in combination with adjoining bones (Anaes.) (Assist.) Fee: \$367.50 Benefit: 75% = \$275.65 85% = \$312.40
52092	OPERATION on SKULL for OSTEOMYELITIS (Anaes.) (Assist.) Fee: \$479.05 Benefit: 75% = \$359.30 85% = \$407.20
52094	OPERATION ON ANY COMBINATION OF ADJOINING BONES, being bones referred to in item 52092 (Anaes.) (Assist.) Fee: \$605.90 Benefit: 75% = \$454.45 85% = \$521.20
52095	BONE GROWTH STIMULATOR, insertion of (Anaes.) (Assist.) Fee: \$392.70 Benefit: 75% = \$294.55 85% = \$333.80
52096	ORTHOPAEDIC PIN OR WIRE, insertion of, into maxilla or mandible or zygoma, as an independent procedure (Anaes.)

03. GENERAL SURGERY	
	Fee: \$116.35 Benefit: 75% = \$87.30 85% = \$98.90
52097	EXTERNAL FIXATION, removal of, in the operating theatre of a hospital (Anaes.) Fee: \$165.05 Benefit: 75% = \$123.80
52098	EXTERNAL FIXATION, removal of, in conjunction with operations involving internal fixation or bone grafting or both (Anaes.) Fee: \$194.05 Benefit: 75% = \$145.55 85% = \$164.95
52099	BURIED WIRE, PIN or SCREW, 1 or more, which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, per bone, not being a service associated with a service to which item 52102 or 52105 applies (Anaes.) Fee: \$145.65 Benefit: 75% = \$109.25 85% = \$123.85
52102	BURIED WIRE, PIN or SCREW, 1 or more, which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, where undertaken in the operating theatre of a hospital, per bone (Anaes.) Fee: \$145.65 Benefit: 75% = \$109.25 85% = \$123.85
52105	PLATE, 1 or more of, and associated screw and wire which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, per bone, not being a service associated with a service to which item 52099 or 52102 applies (Anaes.) (Assist.) Fee: \$271.80 Benefit: 75% = \$203.85 85% = \$231.05
52106	ARCH BARS, 1 or more, which were inserted for dental fixation purposes to the maxilla or mandible, removal of, requiring general anaesthesia where undertaken in the operating theatre of a hospital (Anaes.) Fee: \$112.30 Benefit: 75% = \$84.25
52108	LIP, full thickness wedge excision of, with repair by direct sutures (Anaes.) (Assist.) Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80
52111	VERMILIONECTOMY (Anaes.) (Assist.) Fee: \$336.20 Benefit: 75% = \$252.15 85% = \$285.80
52114	MANDIBLE or MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.) Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25
52117	MANDIBLE, including lower border, or MAXILLA, sub-total resection of (Anaes.) (Assist.) Fee: \$721.30 Benefit: 75% = \$541.00 85% = \$636.60
52120	MANDIBLE, hemimandiblectomy of, including condylectomy where performed (Anaes.) (Assist.) Fee: \$853.15 Benefit: 75% = \$639.90 85% = \$768.45
52122	MANDIBLE, hemi-mandibular reconstruction of, OR MAXILLA, reconstruction of, with BONE GRAFT, PLATE, TRAY OR ALLOPLAST, not being a service associated with a service to which item 52123 applies (Anaes.) (Assist.) Fee: \$853.15 Benefit: 75% = \$639.90 85% = \$768.45
52123	MANDIBLE, total resection of both sides, including condylectomies where performed (Anaes.) (Assist.) Fee: \$965.80 Benefit: 75% = \$724.35 85% = \$881.10
52126	MAXILLA, total resection of (Anaes.) (Assist.) Fee: \$928.55 Benefit: 75% = \$696.45 85% = \$843.85

O3. GENERAL SURGERY	
	MAXILLA, total resection of both maxillae (Anaes.) (Assist.)
52129	Fee: \$1,243.05 Benefit: 75% = \$932.30 85% = \$1158.35
	BONE GRAFT, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.)
52130	Fee: \$456.30 Benefit: 75% = \$342.25 85% = \$387.90
	BONE GRAFT WITH INTERNAL FIXATION, not being a service to which an item in the range
	(a) 51900 to 52186; or
	(b) 52303 to 53460 applies (Anaes.) (Assist.)
52131	Fee: \$631.05 Benefit: 75% = \$473.30 85% = \$546.35
	TRACHEOSTOMY (Anaes.)
52132	Fee: \$256.75 Benefit: 75% = \$192.60 85% = \$218.25
	CRICOTHYROSTOMY by direct stab or Seldinger technique, using Minitrache or similar device (Anaes.)
52133	Fee: \$93.90 Benefit: 75% = \$70.45 85% = \$79.85
	POST-OPERATIVE or POST-NASAL HAEMORRHAGE, or both, control of, where undertaken in the operating theatre of a hospital (Anaes.)
52135	Fee: \$148.85 Benefit: 75% = \$111.65
	MAXILLARY ARTERY, ligation of (Anaes.) (Assist.)
52138	Fee: \$462.60 Benefit: 75% = \$346.95 85% = \$393.25
	FACIAL, MANDIBULAR or LINGUAL ARTERY or VEIN or ARTERY and VEIN, ligation of, not being a service to which item 52138 applies (Anaes.) (Assist.)
52141	Fee: \$457.55 Benefit: 75% = \$343.20 85% = \$388.95
	FOREIGN BODY, deep, removal of using interventional imaging techniques (Anaes.) (Assist.)
52144	Fee: \$426.45 Benefit: 75% = \$319.85 85% = \$362.50
	DUCT OF MAJOR SALIVARY GLAND, transposition of (Anaes.) (Assist.)
52147	Fee: \$402.45 Benefit: 75% = \$301.85 85% = \$342.10
	PAROTID DUCT, repair of, using micro-surgical techniques (Anaes.) (Assist.)
52148	Fee: \$711.35 Benefit: 75% = \$533.55 85% = \$626.65
	SUBMANDIBULAR DUCTS, relocation of, for surgical control of drooling (Anaes.) (Assist.)
52158	Fee: \$1,145.35 Benefit: 75% = \$859.05 85% = \$1060.65
	MALIGNANT DISEASE
	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, biopsy of (not including aftercare) (Anaes.)
52180	Fee: \$194.05 Benefit: 75% = \$145.55 85% = \$164.95
	BONE OR MALIGNANT DEEP SOFT TISSUE TUMOUR, lesional or marginal excision of (Anaes.) (Assist.)
52182	

O3. GENERAL SURGERY	
	Fee: \$427.20 Benefit: 75% = \$320.40 85% = \$363.15
52184	BONE TUMOUR, lesional or marginal excision of, combined with any 1 of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$631.05 Benefit: 75% = \$473.30 85% = \$546.35
52186	BONE TUMOUR, lesional or marginal excision of, combined with any 2 or more of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$776.80 Benefit: 75% = \$582.60 85% = \$692.10
O4. PLASTIC & RECONSTRUCTIVE	
	Group O4. Plastic & Reconstructive
52300	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with skin or mucosa (Anaes.) (Assist.) Fee: \$293.25 Benefit: 75% = \$219.95 85% = \$249.30
52303	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with buccal pad of fat (Anaes.) (Assist.) Fee: \$418.75 Benefit: 75% = \$314.10 85% = \$355.95
52306	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, using temporalis muscle (Anaes.) (Assist.) Fee: \$621.30 Benefit: 75% = \$466.00 85% = \$536.60
52309	FREE GRAFTING (mucosa or split skin) of a granulating area (Anaes.) Fee: \$211.10 Benefit: 75% = \$158.35 85% = \$179.45
52312	FREE GRAFTING (mucosa, split skin or connective tissue) to 1 defect, including elective dissection (Anaes.) (Assist.) Fee: \$293.25 Benefit: 75% = \$219.95 85% = \$249.30
52315	FREE GRAFTING, FULL THICKNESS, to 1 defect (mucosa or skin) (Anaes.) (Assist.) Fee: \$488.55 Benefit: 75% = \$366.45 85% = \$415.30
52318	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - small quantity (Anaes.) Fee: \$145.65 Benefit: 75% = \$109.25 85% = \$123.85
52319	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - large quantity (Anaes.) Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45
52321	FOREIGN IMPLANT (NON-BIOLOGICAL), insertion of, for CONTOUR RECONSTRUCTION of pathological deformity, not being a service associated with a service to which item 52624 applies (Anaes.) (Assist.) Fee: \$488.55 Benefit: 75% = \$366.45 85% = \$415.30
52324	DIRECT FLAP REPAIR, using tongue, first stage (Anaes.) (Assist.) Fee: \$488.55 Benefit: 75% = \$366.45 85% = \$415.30
52327	DIRECT FLAP REPAIR, using tongue, second stage (Anaes.) Fee: \$242.40 Benefit: 75% = \$181.80 85% = \$206.05
52330	PALATAL DEFECT (oro-nasal fistula), plastic closure of, including services to which item 52300, 52303, 52306 or 52324 applies (Anaes.) (Assist.)

O4. PLASTIC & RECONSTRUCTIVE	
	Fee: \$806.35 Benefit: 75% = \$604.80 85% = \$721.65
52333	CLEFT PALATE, primary repair (Anaes.) (Assist.) Fee: \$806.35 Benefit: 75% = \$604.80 85% = \$721.65
52336	CLEFT PALATE, secondary repair, closure of fistula using local flaps (Anaes.) (Assist.) Fee: \$504.00 Benefit: 75% = \$378.00 85% = \$428.40
52337	ALVEOLAR CLEFT (congenital) unilateral, grafting of, including plastic closure of associated oronasal fistulae and ridge augmentation (Anaes.) (Assist.) Fee: \$1,102.50 Benefit: 75% = \$826.90 85% = \$1017.80
52339	CLEFT PALATE, secondary repair, lengthening procedure (Anaes.) (Assist.) Fee: \$574.00 Benefit: 75% = \$430.50 85% = \$489.30
52342	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$997.00 Benefit: 75% = \$747.75
52345	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,124.40 Benefit: 75% = \$843.30
52348	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,270.55 Benefit: 75% = \$952.95
52351	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,426.90 Benefit: 75% = \$1070.20
52354	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,446.55 Benefit: 75% = \$1084.95
52357	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,628.50 Benefit: 75% = \$1221.40
52360	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,661.40 Benefit: 75% = \$1246.05
52363	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation

04. PLASTIC & RECONSTRUCTIVE	
	with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,869.00 Benefit: 75% = \$1401.75
52366	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,827.65 Benefit: 75% = \$1370.75
52369	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$2,054.95 Benefit: 75% = \$1541.25
52372	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,993.95 Benefit: 75% = \$1495.50
52375	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (H) (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$2,233.40 Benefit: 75% = \$1675.05
52378	GENIOPLASTY including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.9 of explanatory notes to this Category) Fee: \$772.05 Benefit: 75% = \$579.05 85% = \$687.35
52379	FACE, contour reconstruction of 1 region, using autogenous bone or cartilage graft (Anaes.) (Assist.) Fee: \$1,319.40 Benefit: 75% = \$989.55 85% = \$1234.70
52380	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) Fee: \$2,246.65 Benefit: 75% = \$1685.00 85% = \$2161.95
52382	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) Fee: \$2,693.20 Benefit: 75% = \$2019.90 85% = \$2608.50
52420	MANDIBLE, fixation by intermaxillary wiring, excluding wiring for obesity Fee: \$248.65 Benefit: 75% = \$186.50 85% = \$211.40
52424	DERMIS, DERMOFAT OR FASCIA GRAFT (excluding transfer of fat by injection) (Anaes.) (Assist.) Fee: \$488.45 Benefit: 75% = \$366.35 85% = \$415.20
52430	MICROVASCULAR REPAIR OF, using microsurgical techniques, with restoration of continuity of

O4. PLASTIC & RECONSTRUCTIVE	
	artery or vein of distal extremity or digit (Anaes.) (Assist.) Fee: \$1,124.40 Benefit: 75% = \$843.30 85% = \$1039.70
52440	CLEFT LIP, unilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) Fee: \$558.25 Benefit: 75% = \$418.70 85% = \$474.55
52442	CLEFT LIP, unilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) Fee: \$697.95 Benefit: 75% = \$523.50 85% = \$613.25
52444	CLEFT LIP, bilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) Fee: \$775.35 Benefit: 75% = \$581.55 85% = \$690.65
52446	CLEFT LIP, bilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) Fee: \$915.25 Benefit: 75% = \$686.45 85% = \$830.55
52450	CLEFT LIP, partial revision, including minor flap revision alignment and adjustment, including revision of minor whistle deformity if performed (Anaes.) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65
52452	CLEFT LIP, total revision, including major flap revision, muscle reconstruction and revision of major whistle deformity (Anaes.) (Assist.) Fee: \$504.00 Benefit: 75% = \$378.00 85% = \$428.40
52456	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), first stage (Anaes.) (Assist.) Fee: \$853.15 Benefit: 75% = \$639.90 85% = \$768.45
52458	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), second stage (Anaes.) Fee: \$310.15 Benefit: 75% = \$232.65 85% = \$263.65
52460	VELO-PHARYNGEAL INCOMPETENCE, pharyngeal flap for, or pharyngoplasty for (Anaes.) Fee: \$806.35 Benefit: 75% = \$604.80 85% = \$721.65
52480	COMPOSITE GRAFT (Chondro-cutaneous or chondro-mucosal) to nose, ear or eyelid (Anaes.) (Assist.) Fee: \$517.95 Benefit: 75% = \$388.50 85% = \$440.30
52482	MACROCHEILIA or macroglossia, operation for (Anaes.) (Assist.) Fee: \$498.35 Benefit: 75% = \$373.80 85% = \$423.60
52484	MACROSTOMIA, operation for (Anaes.) (Assist.) Fee: \$593.25 Benefit: 75% = \$444.95 85% = \$508.55
O5. PREPROSTHETIC	
	Group O5. Preprosthetic
52600	MANDIBULAR OR PALATAL EXOSTOSIS, excision of (Anaes.) (Assist.) Fee: \$348.90 Benefit: 75% = \$261.70 85% = \$296.60
52603	MYLOHYOID RIDGE, reduction of (Anaes.) (Assist.) Fee: \$333.50 Benefit: 75% = \$250.15 85% = \$283.50
52606	MAXILLARY TUBEROSITY, reduction of (Anaes.) Fee: \$254.40 Benefit: 75% = \$190.80 85% = \$216.25

O5. PREPROSTHETIC	
52609	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - less than 5 lesions (Anaes.) (Assist.) Fee: \$333.50 Benefit: 75% = \$250.15 85% = \$283.50
52612	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - 5 to 20 lesions (Anaes.) (Assist.) Fee: \$418.75 Benefit: 75% = \$314.10 85% = \$355.95
52615	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - more than 20 lesions (Anaes.) (Assist.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70
52618	VESTIBULOPLASTY, submucosal or open, including excision of muscle and skin or mucosal graft when performed - unilateral or bilateral (Anaes.) (Assist.) Fee: \$604.85 Benefit: 75% = \$453.65 85% = \$520.15
52621	FLOOR OF MOUTH LOWERING (Obwegeser or similar procedure), including excision of muscle and skin or mucosal graft when performed - unilateral (Anaes.) (Assist.) Fee: \$604.85 Benefit: 75% = \$453.65 85% = \$520.15
52624	ALVEOLAR RIDGE AUGMENTATION with bone or alloplast or both - unilateral (Anaes.) (Assist.) Fee: \$488.45 Benefit: 75% = \$366.35 85% = \$415.20
52626	ALVEOLAR RIDGE AUGMENTATION - unilateral, insertion of tissue expanding device into maxillary or mandibular alveolar ridge region for (Anaes.) (Assist.) Fee: \$299.60 Benefit: 75% = \$224.70 85% = \$254.70
52627	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, extra oral implantation of titanium fixture (Anaes.) (Assist.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70
52630	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, fixation of transcutaneous abutment (Anaes.) Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50
52633	OSSEO-INTEGRATION PROCEDURE - intra-oral implantation of titanium fixture to facilitate restoration of the dentition following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70
52636	OSSEO-INTEGRATION PROCEDURE - fixation of transmucosal abutment to fixtures placed following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.) Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50
O6. NEUROSURGICAL	
	Group O6. Neurosurgical
52800	NEUROLYSIS BY OPEN OPERATION, without transposition, not being a service associated with a service to which item 52803 applies (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65
52803	NERVE TRUNK, internal (interfascicular), NEUROLYSIS of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$411.00 Benefit: 75% = \$308.25 85% = \$349.35
52806	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from superficial peripheral nerve (Anaes.) (Assist.) Fee: \$285.45 Benefit: 75% = \$214.10 85% = \$242.65

O6. NEUROSURGICAL	
	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from deep peripheral nerve (Anaes.) (Assist.)
52809	Fee: \$488.55 Benefit: 75% = \$366.45 85% = \$415.30
	NERVE TRUNK, PRIMARY repair of, using microsurgical techniques (Anaes.) (Assist.)
52812	Fee: \$697.95 Benefit: 75% = \$523.50 85% = \$613.25
	NERVE TRUNK, SECONDARY repair of, using microsurgical techniques (Anaes.) (Assist.)
52815	Fee: \$736.70 Benefit: 75% = \$552.55 85% = \$652.00
	NERVE, TRANSPOSITION OF (Anaes.) (Assist.)
52818	Fee: \$488.55 Benefit: 75% = \$366.45 85% = \$415.30
	NERVE GRAFT TO NERVE TRUNK, (cable graft) including harvesting of nerve graft using microsurgical techniques (Anaes.) (Assist.)
52821	Fee: \$1,062.40 Benefit: 75% = \$796.80 85% = \$977.70
	PERIPHERAL BRANCHES OF THE TRIGEMINAL NERVE, cryosurgery of, for pain relief (Anaes.) (Assist.)
52824	Fee: \$457.55 Benefit: 75% = \$343.20 85% = \$388.95
	INJECTION OF PRIMARY BRANCH OF TRIGEMINAL NERVE with alcohol, cortisone, phenol, or similar substance (Anaes.)
52826	Fee: \$245.00 Benefit: 75% = \$183.75 85% = \$208.25
	CUTANEOUS NERVE, primary repair of, using microsurgical techniques (Anaes.) (Assist.)
52828	Fee: \$364.40 Benefit: 75% = \$273.30 85% = \$309.75
	CUTANEOUS NERVE, secondary repair of, using microsurgical techniques (Anaes.) (Assist.)
52830	Fee: \$480.65 Benefit: 75% = \$360.50 85% = \$408.60
	CUTANEOUS NERVE, nerve graft to, using microsurgical techniques (Anaes.) (Assist.)
52832	Fee: \$659.20 Benefit: 75% = \$494.40 85% = \$574.50
O7. EAR, NOSE & THROAT	
	Group O7. Ear, Nose & Throat
	MAXILLARY ANTRUM, PROOF PUNCTURE AND LAVAGE OF (Anaes.)
53000	Fee: \$33.55 Benefit: 75% = \$25.20 85% = \$28.55
	MAXILLARY ANTRUM, proof puncture and lavage of, under general anaesthesia (requiring admission to hospital) not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.)
53003	Fee: \$94.75 Benefit: 75% = \$71.10 85% = \$80.55
	MAXILLARY ANTRUM, LAVAGE OF - each attendance at which the procedure is performed, including any associated consultation (Anaes.)
53004	Fee: \$36.70 Benefit: 75% = \$27.55 85% = \$31.20
	ANTROSTOMY (RADICAL) (Anaes.) (Assist.)
53006	Fee: \$537.55 Benefit: 75% = \$403.20 85% = \$456.95
	ANTRUM, intranasal operation on, or removal of foreign body from (Anaes.) (Assist.)
53009	Fee: \$304.95 Benefit: 75% = \$228.75 85% = \$259.25

07. EAR, NOSE & THROAT	
	ANTRUM, drainage of, through tooth socket (Anaes.)
53012	Fee: \$121.25 Benefit: 75% = \$90.95 85% = \$103.10
	ORO-ANTRAL FISTULA, plastic closure of (Anaes.) (Assist.)
53015	Fee: \$605.95 Benefit: 75% = \$454.50 85% = \$521.25
	NASAL SEPTUM, septoplasty, submucous resection or closure of septal perforation (Anaes.) (Assist.)
53016	Fee: \$498.35 Benefit: 75% = \$373.80 85% = \$423.60
	NASAL SEPTUM, reconstruction of (Anaes.) (Assist.)
53017	Fee: \$621.70 Benefit: 75% = \$466.30 85% = \$537.00
	MAXILLARY SINUS, BONE GRAFT to floor of maxillary sinus following elevation of mucosal lining (sinus lift procedure), (unilateral) (Anaes.) (Assist.)
53019	Fee: \$599.05 Benefit: 75% = \$449.30 85% = \$514.35
	POST-NASAL SPACE, direct examination of, with or without biopsy (Anaes.)
53052	Fee: \$126.65 Benefit: 75% = \$95.00 85% = \$107.70
	NASENOSCOPY or SINOSCOPY or FIBROPTIC EXAMINATION of NASOPHARYNX one or more of these procedures (Anaes.)
53054	Fee: \$126.65 Benefit: 75% = \$95.00 85% = \$107.70
	EXAMINATION OF NASAL CAVITY or POST-NASAL SPACE, or NASAL CAVITY AND POST-NASAL SPACE, UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.)
53056	Fee: \$74.20 Benefit: 75% = \$55.65 85% = \$63.10
	NASAL HAEMORRHAGE, POSTERIOR, ARREST OF, with posterior nasal packing with or without cauterisation and with or without anterior pack (excluding aftercare) (Anaes.)
53058	Fee: \$126.65 Benefit: 75% = \$95.00 85% = \$107.70
	CAUTERISATION (other than by chemical means) OR CAUTERISATION by chemical means when performed under general anaesthesia OR DIATHERMY OF SEPTUM, TURBINATES FOR OBSTRUCTION OR HAEMORRHAGE SECONDARY TO SURGERY (OR TRAUMA) - 1 or more of these procedures (including any consultation on the same occasion) not being a service associated with any other operation on the nose (Anaes.)
53060	Fee: \$103.65 Benefit: 75% = \$77.75 85% = \$88.15
	POST SURGICAL NASAL HAEMORRHAGE, arrest of during an episode of epistaxis by cauterisation or nasal cavity packing or both (Anaes.)
53062	Fee: \$92.80 Benefit: 75% = \$69.60 85% = \$78.90
	CRYOTHERAPY TO NOSE in the treatment of nasal haemorrhage (Anaes.)
53064	Fee: \$168.05 Benefit: 75% = \$126.05 85% = \$142.85
	TURBINECTOMY or TURBINECTOMIES, partial or total, unilateral (Anaes.)
53068	Fee: \$140.80 Benefit: 75% = \$105.60 85% = \$119.70
	TURBINATES, submucous resection of, unilateral (Anaes.)
53070	Fee: \$183.60 Benefit: 75% = \$137.70 85% = \$156.10
08. TEMPOROMANDIBULAR JOINT	
	Group 08. Temporomandibular Joint

08. TEMPOROMANDIBULAR JOINT	
	MANDIBLE, treatment of a dislocation of, not requiring open reduction (Anaes.)
53200	Fee: \$72.90 Benefit: 75% = \$54.70 85% = \$62.00
	MANDIBLE, treatment of a dislocation of, requiring open reduction (Anaes.)
53203	Fee: \$122.40 Benefit: 75% = \$91.80 85% = \$104.05
	TEMPOROMANDIBULAR JOINT, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.)
53206	Fee: \$147.45 Benefit: 75% = \$110.60
	GLENOID FOSSA, ZYGOMATIC ARCH and TEMPORAL BONE, reconstruction of (Obwegeser technique) (Anaes.) (Assist.)
53209	Fee: \$1,700.65 Benefit: 75% = \$1275.50 85% = \$1615.95
	ABSENT CONDYLE and ASCENDING RAMUS in hemifacial microsomia, construction of, not including harvesting of graft material (Anaes.) (Assist.)
53212	Fee: \$918.70 Benefit: 75% = \$689.05 85% = \$834.00
	TEMPOROMANDIBULAR JOINT, arthroscopy of, with or without biopsy, not being a service associated with any other arthroscopic procedure of that joint (Anaes.) (Assist.)
53215	Fee: \$421.50 Benefit: 75% = \$316.15 85% = \$358.30
	TEMPOROMANDIBULAR JOINT, arthroscopy of, removal of loose bodies, debridement, or treatment of adhesions - 1 or more such procedures (Anaes.) (Assist.)
53218	Fee: \$674.20 Benefit: 75% = \$505.65 85% = \$589.50
	TEMPOROMANDIBULAR JOINT, arthrotomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53220	Fee: \$339.85 Benefit: 75% = \$254.90 85% = \$288.90
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without microsurgical techniques (Anaes.) (Assist.)
53221	Fee: \$899.55 Benefit: 75% = \$674.70 85% = \$814.85
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with condylectomy or condylotomy, with or without microsurgical techniques (Anaes.) (Assist.)
53224	Fee: \$997.20 Benefit: 75% = \$747.90 85% = \$912.50
	ARTHROCENTESIS, irrigation of temporomandibular joint after insertion of 2 cannuli into the appropriate joint space(s) (Anaes.) (Assist.)
53225	Fee: \$299.60 Benefit: 75% = \$224.70 85% = \$254.70
	TEMPOROMANDIBULAR JOINT, synovectomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53226	Fee: \$322.05 Benefit: 75% = \$241.55 85% = \$273.75
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without meniscus or capsular surgery, including meniscectomy when performed, with or without microsurgical techniques (Anaes.) (Assist.)
53227	Fee: \$1,225.30 Benefit: 75% = \$919.00 85% = \$1140.60
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with meniscus, capsular and condylar head surgery, with or without microsurgical techniques (Anaes.) (Assist.)
53230	Fee: \$1,380.25 Benefit: 75% = \$1035.20 85% = \$1295.55
53233	TEMPOROMANDIBULAR JOINT, surgery of, involving procedures to which items 53224, 53226,

08. TEMPOROMANDIBULAR JOINT	
	53227 and 53230 apply and also involving the use of tissue flaps, or cartilage graft, or allograft implants, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,551.00 Benefit: 75% = \$1163.25 85% = \$1466.30
53236	TEMPOROMANDIBULAR JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05 85% = \$412.60
53239	TEMPOROMANDIBULAR JOINT, arthrodesis of, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$485.40 Benefit: 75% = \$364.05 85% = \$412.60
53242	TEMPOROMANDIBULAR JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.) Fee: \$322.05 Benefit: 75% = \$241.55 85% = \$273.75
09. TREATMENT OF FRACTURES	
	Group 09. Treatment Of Fractures
53400	MAXILLA, unilateral or bilateral, treatment of fracture of, not requiring splinting (See para ON.4.10 of explanatory notes to this Category) Fee: \$133.20 Benefit: 75% = \$99.90 85% = \$113.25
53403	MANDIBLE, treatment of fracture of, not requiring splinting (See para ON.4.10 of explanatory notes to this Category) Fee: \$162.80 Benefit: 75% = \$122.10 85% = \$138.40
53406	MAXILLA, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$419.35 Benefit: 75% = \$314.55 85% = \$356.45
53409	MANDIBLE, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$419.35 Benefit: 75% = \$314.55 85% = \$356.45
53410	ZYGOMATIC BONE, treatment of fracture of, not requiring surgical reduction (See para ON.4.10 of explanatory notes to this Category) Fee: \$88.30 Benefit: 75% = \$66.25 85% = \$75.10
53411	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction by a temporal, intra-oral or other approach (Anaes.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$246.25 Benefit: 75% = \$184.70 85% = \$209.35
53412	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation at 1 site (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$404.35 Benefit: 75% = \$303.30 85% = \$343.70
53413	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 2 sites (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$495.35 Benefit: 75% = \$371.55 85% = \$421.05

09. TREATMENT OF FRACTURES

53414	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 3 sites (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$569.10 Benefit: 75% = \$426.85 85% = \$484.40
53415	MAXILLA, treatment of fracture of, requiring open reduction (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$449.25 Benefit: 75% = \$336.95 85% = \$381.90
53416	MANDIBLE, treatment of fracture of, requiring open reduction (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$449.25 Benefit: 75% = \$336.95 85% = \$381.90
53418	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$584.05 Benefit: 75% = \$438.05 85% = \$499.35
53419	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$584.05 Benefit: 75% = \$438.05 85% = \$499.35
53422	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$741.20 Benefit: 75% = \$555.90 85% = \$656.50
53423	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$741.20 Benefit: 75% = \$555.90 85% = \$656.50
53424	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$635.90 Benefit: 75% = \$476.95 85% = \$551.20
53425	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$635.90 Benefit: 75% = \$476.95 85% = \$551.20
53427	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$868.60 Benefit: 75% = \$651.45 85% = \$783.90
53429	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$868.60 Benefit: 75% = \$651.45 85% = \$783.90
53439	MANDIBLE, treatment of a closed fracture of, involving a joint surface (Anaes.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$246.25 Benefit: 75% = \$184.70 85% = \$209.35

O9. TREATMENT OF FRACTURES	
53453	<p>ORBITAL CAVITY, reconstruction of a wall or floor with or without foreign implant (Anaes.) (Assist.)</p> <p>Fee: \$498.35 Benefit: 75% = \$373.80 85% = \$423.60</p>
53455	<p>ORBITAL CAVITY, bone or cartilage graft to orbital wall or floor including reduction of prolapsed or entrapped orbital contents (Anaes.) (Assist.)</p> <p>Fee: \$585.40 Benefit: 75% = \$439.05 85% = \$500.70</p>
53458	<p>NASAL BONES, treatment of fracture of, not being a service to which item 53459 or 53460 applies</p> <p>Fee: \$44.40 Benefit: 75% = \$33.30 85% = \$37.75</p>
53459	<p>NASAL BONES, treatment of fracture of, by reduction (Anaes.)</p> <p>Fee: \$242.85 Benefit: 75% = \$182.15 85% = \$206.45</p>
53460	<p>NASAL BONES, treatment of fractures of, by open reduction involving osteotomies (Anaes.) (Assist.)</p> <p>Fee: \$495.35 Benefit: 75% = \$371.55 85% = \$421.05</p>
O11. REGIONAL OR FIELD NERVE BLOCKS	
	<p>Group O11. Regional Or Field Nerve Blocks</p> <p>(Note. Where an anaesthetic combines a regional nerve block with a general anaesthetic for an operative procedure, benefits will be paid only under the anaesthetic item relevant to the operation. The items in this Group are to be used in the practice of oral and maxillofacial surgery and are not to be used for dental procedures (eg. restorative dentistry or dental extraction.))</p> <p>TRIGEMINAL NERVE, primary division of, injection of an anaesthetic agent</p>
53700	<p>Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>
53702	<p>TRIGEMINAL NERVE, peripheral branch of, injection of an anaesthetic agent</p> <p>Fee: \$64.45 Benefit: 75% = \$48.35 85% = \$54.80</p>
53704	<p>FACIAL NERVE, injection of an anaesthetic agent</p> <p>Fee: \$38.80 Benefit: 75% = \$29.10 85% = \$33.00</p>
53706	<p>NERVE BRANCH, destruction by a neurolytic agent, not being a service to which any other item in this Group applies</p> <p>(See para ON.4.12 of explanatory notes to this Category)</p> <p>Fee: \$128.75 Benefit: 75% = \$96.60 85% = \$109.45</p>

INDEX

A

Abscess, incision with drainage, requiring admission 52055
 Abscess, large, incision with drainage, requiring admission 52057
 Alveolar ridge augmentation 52624, 52626
 Alveolar ridge augmentation, cleft grafting of 52337
 Antrobuccal fistula operation 53015
 Antroscopy of temporomandibular joint 53215, 53218
 Antrostomy, radical 53006
 Antrum, drainage of, through tooth socket 53012
 Antrum, intranasal operation, or removal of foreign body 53009
 Antrum, maxillary, proof puncture and lavage of 53000, 53003
 Antrum, maxillary, removal of foreign body from 53009
 Arch bars, to maxilla or mandible, removal of 52106
 Artery, facial, mandibular or lingual, ligation of 52141
 Artery, maxillary, ligation of 52138
 Arthrocentesis, with irrigation of temporomandibular joint 53225
 Aspiration biopsy, one or more jaw cysts 52021
 Assistance at operation 51800, 51803
 Attendance 51700, 51703
 Axillary sinus, excision of 52033

B

Basal cell carcinoma, complicated, removal 52051, 52054
 Basal cell carcinoma, uncomplicated, removal 52036, 52039
 52045, 52048
 Basal cell carcinoma, uncomplicated, removal 52042
 Biopsy, aspiration of jaw cysts 52021
 Biopsy, aspiration of jaw cysts, lymph gland, muscle or other deep
 tissue or org 52027
 Biopsy, aspiration of jaw cysts, skin or mucous membrane 52024
 bone, fracture, treatment of 53410-53411
 Bone, graft, harvesting of, via separate incision 52319
 Bone, graft, harvesting of, via separate incision 52318
 Bone, graft, to other bones 52130
 Bone, graft, with internal fixation 52131
 Bone, growth stimulator 52095
 Bone, tumour, malignant, operations for 52180, 52182, 52184
 52186
 Bone, cyst, injection into or aspiration of 52064

C

Calculus, removal of, salivary gland duct 52075
 Caldwell-Luc's operation 53006
 Carbuncle, incision with drainage, in operating theatre 52057
 Cauterisation, septum/turbinates/pharynx 53060
 Cellulitis, incision with drainage, not requiring GA 52055
 Cleft lip, operations for 52440, 52442, 52444, 52446, 52450
 52452, 52456, 52458
 Cleft palate, palate, secondary repair, closure of fistula 52336
 Cleft palate, palate, secondary repair, lengthening procedure 52339
 Cleft palate, primary repair 52333
 Composite graft to nose, ear or eyelid 52482
 Condylectomy/condylotomy 53224
 Contour reconstruction, insertion of foreign implants 52321
 Cricothyrostomy 52133

Cutaneous nerve, nerve graft to 52832
 Cutaneous nerve, repair of 52828, 52830
 Cyst, jaw, aspiration biopsy of, mandible or maxilla, segmental
 resection of 52114
 Cyst, jaw, not otherwise covered, removal of 52036, 52039
 52042, 52045, 52048
 Cyst, jaw, aspiration biopsy of 52021

D

Deep tissue or organ, biopsy of 52027
 deep, percutaneous drainage 52058
 Dermis, dermofat or fascia graft 52424
 Dermoid, excision 52036, 52039, 52042, 52045
 Diathermy, salivary gland duct 52072
 Dilatation, salivary gland duct 52072
 Dislocation, mandible, treatment of 53200, 53203
 drainage tube, exchange of 52059
 Duct, salivary gland, diathermy or dilatation of 52072
 Duct, salivary gland, removal of calculus from 52075
 Duct, sublingual gland, removal of calculus from 52075

E

Endo-biopsy 52024, 52027
 Endoscopic, laser therapy of upper aerodigestive tract 52035
 Exostosis, mandibular or palatal, excision of 52600
 External fixation, orthopaedic, removal 52097-52098

F

Face, contour reconstruction 52379
 Facial artery or vein, ligation of 52141
 Fibroma, removal of 52036, 52039, 52042, 52045
 Fistula, antrobuccal, operation for 53015
 Fistula, oro-antral, plastic closure of 53015
 Flap repair, direct 52324, 52327
 Flap repair, single stage local 52300, 52303, 52306
 Foreign body, antrum, removal of 53009
 Foreign body, deep, removal, interventional imaging 52144
 Foreign body, implants for contour reconstruction, insertion of
 52321
 Foreign body, maxillary sinus, removal of 53009
 Foreign body, muscle/other deep tissue, removal of 52018
 Foreign body, subcutaneous, removal, other 52015
 Foreign body, superficial removal, other 52012
 Foreign body, tendon, removal of 52018, 52144
 Fracture, mandible or maxilla, treatment of 53400, 53403
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429
 53439
 Fracture, zygomatic bone, treatment of 53411-53414
 Free grafts, full thickness 52315
 Free grafts, full thickness grafts, mucosa/split skin/connective
 tissue 52309, 52312
 Frenulum, mandibular or maxillary, repair of 52084
 Furuncle, incision with drainage, in operating theatre 52057

G

Genioplasty 52378
 Gland, lymph, biopsy of 52027

Gland, salivary, incision of 52057
 Gland, salivary, meatotomy or marsupialisation 52075
 Gland, salivary, removal of calculus from duct 52075
 Gland, salivary, transportation of duct 52147
 Gland, salivary, dilation or diathermy of duct 52072
 Gland, sublingual, extirpation of 52069
 Gland, submandibular, extirpation of 52066
 Gland, submaxillary, extirpation of 52066
 Gland, submaxillary, incision of 52057, 52147
 Glenoid fossa, zygomatic arch, temporal bone, reconstruction 53209
 Grafts, composite (chondrocutaneous/mucosal) 52480
 Grafts, free, full thickness 52315
 Grafts, mucosa or split skin 52309, 52312

H

Haematoma, aspiration of 52056
 Haematoma, incision with drainage, not requiring GA 52055
 Haematoma, large, incision with drainage, in operating theatre 52057
 Haemorrhage, post-nasal and/or post-operative, control of 52135
 Hemifacial microsomia, construction condyle and ramus 53212
 Hyperplasia, papillary, of palate, removal of 52609, 52612
 52615
 Hypertrophied tissue, removal of 52036, 52039, 52042, 52045

I

Innocent bone tumour, excision of 52063
 Intranasal operation on antrum/foreign body 53009

J

Jaw dislocation, treatment of 53200
 Jaw, aspiration biopsy of cyst/s 52021
 Jaw, dislocation, treatment of 53203
 Jaw, fracture, treatment of 53400, 53403, 53406, 53409-53416
 53418-53419, 53422-53425, 53427, 53429, 53439
 Jaw, operation on, for osteomyelitis 52090
 Jaw, plastic and reconstructive operation on 52342, 52345
 52348, 52351, 52354, 52357, 52360, 52363, 52366, 52369
 52372, 52375

K

Keloid, excision of 52036, 52039, 52042, 52045
 Kirschner wire, insertion of 52096

L

Lacerations, ear/eyelid/nose/lip, full thickness, repair of 52010
 Lacerations, repair and suturing of 52000, 52003, 52006
 52009
 Lavage and proof puncture of maxillary antrum 53000, 53003
 Le Fort osteotomies 52380, 52382
 Lingual artery or vein, ligation of 52141
 Lip, full thickness wedge excision of 52108
 Lipoma, removal of 52036, 52039, 52042, 52045
 Local flap repair, single stage 52300, 52303, 52306
 Lymph gland, muscle or other deep tissue or organ biopsy of 52027

Lymph node, biopsy of 52025
 Lymphoid patches, removal of 52036, 52039, 52042, 52045

M

Macrocheilia, operation for 52482
 Macrostomia, operation for 52484
 Mandible, dislocation, treatment of 53200, 53203
 Mandible, fixation by intermaxillary wiring 52420
 Mandible, hemi-mandiblectomy of 52120
 Mandible, hemi-mandibular reconstruction with bone graft 52122
 Mandible, operation on, for osteomyelitis 52090
 Mandible, or maxilla, fractures, treatment of 53400, 53403
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429
 53439
 Mandible, osteectomy or osteotomy of 53400, 53403, 53406
 53409-53416, 53418-53419, 53422-53425, 53427, 53429, 53439
 Mandible, removal of buried wire, pin or screw 52099, 52102
 Mandible, removal of one or more plates 52342, 52345, 52348
 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372
 52375
 Mandible, segmental resection of, for tumours or cysts 52114
 Mandible, sub-total resection of 52117
 Mandible, total resection of 52123
 Mandibular artery or vein, exostosis, excision of 52600
 Mandibular artery or vein, frenulum, repair of 52084
 Mandibular artery or vein, ligation of 52141
 Maxilla, operation on, for osteomyelitis 52090
 Maxilla, or mandible, fractures, treatment of 53400, 53403
 53406, 53409-53416, 53418-53419, 53422-53425, 53427, 53429
 53439
 Maxilla, osteectomy or osteotomy of 52342, 52345, 52348
 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372
 52375
 Maxilla, removal of buried wire, pin or screw 52099, 52102
 Maxilla, removal of one or more plates 52105
 Maxilla, sub-total resection of 52117
 Maxilla, total resection of 52126, 52129
 Maxillary antrum, artery, ligation of 52138
 Maxillary antrum, frenulum, repair of 52084
 Maxillary antrum, lavage of 53004
 Maxillary antrum, proof puncture and lavage of 53000, 53003
 Maxillary antrum, sinus, drainage of, through tooth socket 53012
 Maxillary antrum, sinus, operations on 53006, 53009
 Maxillary antrum, sinus, sinus lift procedure 53019
 Maxillary antrum, tuberosity, reduction of 52606
 Melanoma, excision of 52036, 52039, 52042, 52045, 52048
 Microvascular anastomosis repair using microsurgical techniques 52424
 Microvascular anastomosis using microsurgical techniques 52430
 Mouth, lowering of floor of (Oswegeser or similar) 52621
 Mucous membrane, biopsy of 52024
 Mucous membrane, repair of recent wound of 52000, 52003
 52006, 52009
 Muscle, biopsy of 52027
 Muscle, excision of 52060
 Muscle, or other deep tissue, removal of foreign body 52018
 Muscle, ruptured repair of 52061-52062
 Mylohyoid ridge, reduction of 52603

N

Naevus, excision of 52036, 52039, 52042, 52045
 Nasal bones, treatment of fracture/s 53458-53460
 Nasal cavity and/or post nasal space, examination of 53056
 Nasal cavity, packing for arrest of haemorrhage 53062
 Nasal haemorrhage, arrest of 53058
 Nasal haemorrhage, cryotherapy to 53064
 Nasal septum, reconstruction 53017
 Nasal septum, septoplasty 53016
 Nasal, space, post, direct examination of 53052
 Nasendoscopy 53054
 Nerve, clock, regional or field 53700, 53702, 53704
 Nerve, peripheral, neurectomy/neurotomy/tumour 52806, 52809
 Nerve, transposition of 52818
 Nerve, trigeminal, cryosurgery of 52824
 Nerve, trunk, graft to 52821
 Nerve, trunk, neurolysis of 52803
 Nerve, trunk, repair of 52812, 52815
 Neurectomy, peripheral nerve 52806, 52809
 Neurolysis by open operation 52800
 Neurolysis, of nerve trunk 52803
 Node, lymph, biopsy of 52027

O

Orbital cavity, bone or cartilage graft to wall or floor 53455
 Orbital cavity, reconstruction of wall or floor 53453
 Oro-antral fistula, plastic closure of 53015
 Orthopaedic pin or wire, insertion of 52096
 Orthopaedic pin or wire, removal of 52099, 52102
 Orthopaedic, plates, removal of 52105
 Osseointegration procedure 52627, 52630, 52633, 52636
 Osteectomy of mandible or maxilla 52342, 52345, 52348, 52351
 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375
 Osteomyelitis, operation on mandible or maxilla 52090
 Osteomyelitis, operation on skull 52092
 Osteomyelitis, operation on combination of adjoining bones 52094
 Osteotomies, mid-facial 52380, 52382
 Osteotomy, of mandible or maxilla 52342, 52345, 52348, 52351
 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375

P

Palatal exostosis, excision of 52600
 Palate, cleft, repair of 52333, 52336, 52339
 Palate, papillary hyperplasia removal of 52609, 52612, 52615
 Palate, plastic closure of defect of 52330
 Papillary hyperplasia of the palate, removal of 52609, 52612
 52615
 papillary hyperplasia removal of 52609, 52612, 52615
 Papilloma, removal of 52036, 52039, 52042, 52045
 Parotid duct, repair of 52148
 Pharyngeal flap for velo-pharyngeal incompetence 52460
 Pin, orthopaedic removal of 52102
 Pin, orthopaedic, insertion of 52096
 Pin, orthopaedic, removal of 52099
 Plastic repair, free grafts 52309, 52312, 52315
 Plastic repair, single stage, local flap 52300, 52303, 52306
 Plates, orthopaedic, removal of 52015, 52018
 Post nasal space, direct examination of with/without biopsy 53052
 Post nasal space, examination under GA 53056
 preauricular sinus operation 52030

Premalignant lesions, cryotherapy, diathermy or carbon dioxide
 laser 52034
 Proof puncture of maxillary antrum 53000, 53003

R

Radical anrostomy 53006
 Ranula, removal of 52087
 Reduction, of dislocation of mandible 53200, 53203
 Rodent ulcer, operation for 52036, 52039, 52042, 52045

S

Salivary gland duct, diathermy or dilatation of 52072
 Salivary gland duct, removal of calculus from 52075
 Salivary gland duct, transposition of 52147
 Salivary gland, incision of 52057
 Salivary gland, repair of cutaneous fistula of 52073
 Scar, removal of, not otherwise covered 52036, 52039, 52042
 52045
 Sebaceous cyst, removal of 52036, 52039, 52042, 52045
 Segmental resection, of mandible or maxilla for tumours 52114
 Single stage local flap repair 52303, 52306
 Single stage local flap repair 52300
 Sinus, excision of 52030, 52033
 Sinus, maxillary, drainage of, through tooth socket 53012
 Skin biopsy repair of recent wound 52000, 52003, 52006
 52009
 Skin biopsy, of 52024
 Skull, operation on, for osteomyelitis 52092
 Subcutaneous, foreign body, removal, other 52015
 Subcutaneous, tissue, repair of recent wound 52000, 52003
 52006, 52009
 Sublingual gland duct, removal of calculus from 52075
 Sublingual gland, extirpation of 52069
 Submandibular abscess, incision of 52057
 Submandibular ducts, relocation of 52158
 Submandibular gland, extirpation of 52066
 Submandibular gland, incision of 52057
 Submaxillary gland, extirpation of 52066
 Submaxillary gland, incision of 52057
 Superficial foreign body, removal of 52012
 Superficial, wound repair of 52000, 52009
 Suture, of traumatic wounds 52000, 52003, 52006, 52009

T

Temporal, bone glenoid fossa/zygomatic arch, reconstruction of 53209
 Temporomandibular joint, arthrodesis 53239
 Temporomandibular joint, arthroscopy of 53215, 53218
 Temporomandibular joint, arthrotomy 53220
 Temporomandibular joint, external fixation, application of 53242
 Temporomandibular joint, irrigation of 53225
 Temporomandibular joint, manipulation of 53206
 Temporomandibular joint, open surgical exploration of 53221
 53224-53227, 53230, 53233
 Temporomandibular joint, stabilisation of 53236
 Temporomandibular joint, synovectomy of 53226
 Tendon, foreign body in, removal of 52018
 Tendon, or other deep tissue, foreign body in, removal of 52018

Tissue, subcutaneous, repair of recent wound	52000, 52003
52006, 52009	
Tongue, partial excision of	52078
Tongue, tie, repair of	52081, 52084
Tracheostomy	52132
Traumatic wounds, repair of	52000, 52003, 52006, 52009
Trigeminal nerve, injection with alcohol, cortisone, etc	52826
Tuberosity, maxillary, reduction of	52606
Tumour, bone, innocent, excision of	52063
Tumour, mandible or maxilla, segmental resection of	52114
Tumour, not otherwise covered, removal of	52036, 52039
52042, 52045, 52048	
Tumour, peripheral nerve, removal of	52806, 52809
Tumour, soft tissue, excision of	52051, 52054
Turbinates, submucous resection of	53070

V

Vein, facial, mandibular or lingual, ligation of	52141
Vermilionectomy	52111
Vestibuloplasty, unilateral or bilateral	52618

W

Washout, antrum	53000, 53003
wedge excision	51904, 51906
Wire, orthopaedic, insertion of	52096
Wire, orthopaedic, removal of	52099, 52102
Wound, debridement under GA or major block	51900
Wound, dressing of, requiring GA	51902
Wound, traumatic, suture of	52000, 52003, 52006, 52009

Z

Zygomatic arch, reconstruction of	53209
-----------------------------------	-------

CATEGORY 5: DIAGNOSTIC IMAGING SERVICES

SUMMARY OF CHANGES FROM 21/07/2020

The 21/07/2020 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 21/07/2020

DIAGNOSTIC IMAGING SERVICES NOTES

IN.0.1 Diagnostic Imaging Services – Overview

Section 4AA of the Health Insurance Act 1973 (the Act) enables the Health Insurance (Diagnostic Imaging Services Table) Regulations to prescribe a table of diagnostic imaging services that sets out rules for interpretation of the table, items of diagnostic imaging services and the amount of fees applicable to each item. For further information on diagnostic imaging, visit the Department of Health's website.

IN.0.2 What is a Diagnostic Imaging Service

A diagnostic imaging service is defined in the Act as "an R-type diagnostic imaging service or an NR-type diagnostic imaging service to which an item in the DIST applies".

A diagnostic imaging service includes the diagnostic imaging procedure, which is defined in the Act as 'a procedure for the production of images (for example x-rays, computerised tomography scans, ultrasound scans, magnetic resonance imaging scans and nuclear scans) for use in the rendering of diagnostic imaging services as well as the report'.

The Schedule fee for each diagnostic imaging service described in the DIST covers both the diagnostic imaging procedure and the reading and report on that procedure by the diagnostic imaging service provider. Exceptions to the reporting requirement are as follows:

- where the service is provided in conjunction with a surgical procedure, the findings may be noted on the operation record (items 55054, 55130, 55135, 55848, 59312, 59314, 60506, 60509 and 61109);
- where a service is provided in preparation of a radiological procedure (items 60918 and 60927).

As for all Medicare services, diagnostic imaging services have to be clinically relevant before they are eligible for Medicare benefits. A clinically relevant service is a service that is generally accepted by the profession as being necessary for the appropriate treatment of the patient.

For R-type services rendered at the request of another practitioner, responsibility for determining the clinical relevance of the service lies with the requesting practitioner. For NR-type services (and R-type services provided without a request under the exemption provisions - see IN.0.6 - 'Exemptions from the written request requirements for R-type diagnostic imaging services'), the clinical relevance of the service is determined by the providing practitioner.

IN.0.3 Registration of Sites Undertaking Diagnostic Imaging Procedures

All sites (including hospitals) and bases for mobile equipment at or from which diagnostic imaging procedures are performed need to be registered with Services Australia in order for Medicare benefits to be payable for diagnostic imaging procedures provided at the site, or in the case of procedures reported remotely, for procedures reported for the site.

Registered sites and bases for mobile equipment are allocated a Location Specific Practice Number (LSPN). The LSPN is a unique identifier comprising a six digit numeric and is required on all accounts, receipts and Medicare assignment of benefits forms for diagnostic imaging services before patients can receive Medicare benefits. In addition, benefits are not payable unless there is equipment of appropriate type listed on the register for the practice.

Sites or bases for mobile equipment need only register once. To maintain registration, sites are required to advise of any changes to their primary information within 28 days of the change occurring. Primary information is:

- proprietor details;
- ACN (for companies);
- business name and ABN;

- address of practice site or base for mobile equipment;
- type of equipment located at the site;
- information about any health care provider not employed at, or contracted to provide services for the site or base, who has an interest in any of the equipment listed on the register.

Suspension or Cancellation

Registration will be suspended if a proprietor fails to respond to notices from Services Australia about registration details. The suspension will be lifted as soon as the notices are responded to and Medicare benefits will be backdated for the period of suspension.

Registration will be cancelled after a continuous period of three months suspension. Cancellation under these circumstances is taken to have commenced from the date of suspension.

The proprietor may, at any time, request cancellation of the registration of a practice site or base for mobile equipment. Otherwise, registration may be cancelled by Service Australia if the registration was obtained improperly (false information supplied) or if the proprietor fails to notify Services Australia of changes to primary information. A decision to cancel a registration will only be made following due consideration of a submission by the site or base. The proprietor may apply to the Administrative Appeals Tribunal for a review of this decision. If registration is cancelled involuntarily, the proprietor may not apply to re-register the site or base for a period of 12 months unless permitted to do so.

Proprietors of unregistered practices (including where the registration is under suspension or has been cancelled) need to either advise patients in writing or display a notice that no Medicare benefits will be payable for the diagnostic imaging services.

From 1 July 2010 practices applying for an LSPN will also need to apply for and be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order to be eligible to provide diagnostic imaging services under Medicare. Information about DIAS is available here: [Diagnostic Imaging Accreditation Scheme \(the DIAS\)](#).

For full details about LSPNs including how to register a practice site are available at Services Australia' website at <https://www.servicesaustralia.gov.au/search/LSPN>.

IN.0.4 Accreditation of Practices

Background

All practices providing diagnostic imaging services needed to be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order for Medicare benefits to be payable for those services.

First time accreditation

New practices entering the Scheme may choose to be accredited against either three entry-level Standards or the full suite of Standards. Practices initially choosing to be accredited against the entry level Standards have a further period of two years to become accredited against the full suite of Standards.

Re-accreditation of Practices

Practices previously accredited must seek re-accreditation against the full suite of Standards and cannot apply for re-accreditation against the entry level Standards. Accreditation against the full suite of Standards is for a four year period.

Non-Accredited Practices

Practices may choose not to be accredited and still provide diagnostic imaging services, but these services do not attract a Medicare rebate.

Practices which are not accredited under the DIAS must inform patients prior to carrying out the service that the practice is not accredited and as such the service does not attract a Medicare rebate. It is an offence under the Health Insurance Act 1973 not to do so.

The Medical Imaging Accreditation Program (MIAP)

The Royal Australian and New Zealand College of Radiologist (RANZCR) offers a voluntary accreditation program jointly with the National Association of Testing Authorities (NATA).

Practices participating in MIAP can seek recognition of their MIAP accreditation under the DIAS. This recognition will grant MIAP Practices accreditation against the full suite of Standards until the date of the expiration of the recognised MIAP accreditation. By this date Practices will need to either provide their Approved Accreditor with evidence of renewal of MIAP accreditation or have been granted accreditation against the full suite of Standard.

The Standards

The current Standards are made up of three entry level Standards and the full suite of Practice Accreditation Standards. If a practice is applying for accreditation against the entry level Standards, an accreditation decision will be made by an Approved Accreditor within 15 business days of the lodgement of an application for accreditation.

If a practice is applying for accreditation against the full suite of Standards, an accreditation decision will be made by an Approved Accreditor within 30 business days of the lodgement of an application for accreditation.

From the date of being granted accreditation, the practice site can provide diagnostic imaging services under Medicare.

Entry Level Standards

- Registration and Licensing Standard (Standard 1.2)
- Radiation Safety Standard (Standard 1.3)
- Equipment Inventory Standard (Standard 1.4)

Full Suite Standards

- Part 1 - Organisational Standards
- Part 2 - Pre-procedure Standards
- Part 3 - Procedure Standards
- Part 4 - Post Procedure Standards

Applying for accreditation

Whether a practice is applying for accreditation against entry-level Standards or the full suite Standards, the application process is the same. A practice is required to submit to an Approved Accreditor either:

- an application for accreditation providing written documentary evidence of compliance with the entry level Standards or the full suite Standards; or
- written evidence of accreditation under the Medical Imaging Accreditation Program (MIAP) jointly administered by RANZCR and NATA.

Renewal of Accreditation

Practices awarded accreditation against the full suite of Standards enter the maintenance program which requires them to be re-accredited every 4 years.

Approved Accreditors

There are three Accreditation agencies approved by the Minister for Health to provide Accreditation services:

HDAA Australia	(HDAA)	Ph: 1800 601 696
National Association of Testing Authorities	(NATA)	Ph: 1800 621 666
Quality Innovation Performance	(QIP)	Ph: 1300 888 329

Further information can be obtained from:

Website: www.diagnosticimaging.health.gov.au

Email: DIAS@health.gov.au

Phone: 02 6289 8859

IN.0.5 Capital Sensitivity Diagnostic Imaging Equipment

Except where there is an exemption in force, Medicare benefits are not payable for diagnostic imaging services rendered using equipment, other than positron emission tomography (PET), that has exceeded its 'effective life age' for new equipment or 'maximum extended life age' for upgraded equipment as shown in the table below.

This is known as capital sensitivity and is intended to ensure that patients have access to quality diagnostic imaging services by encouraging providers to upgrade and replace aged equipment as appropriate.

Life ages of diagnostic imaging equipment

Type of Equipment	Definition of type of equipment	Effective life age for new equipment (years)	Maximum extended life age (years)
Ultrasound	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I1 applies	10	15
CT	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I2 applies	10	15
Mammography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 10 of Group I3 applies	10	15
Angiography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 13 of Group I3 applies	10	15
Other diagnostic radiology	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroups 1 to 9, 12, 14, 15 or 17 of Group I3 applies	15	20
Nuclear medicine imaging (other than for PET)	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I4 applies (other than items 61523 to 61647)	10	15

MRI	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I5 applies	10	20
-----	--	----	----

Capital sensitivity exemptions

A regional exemption automatically applies if services are provided in a location in Remoteness Area (RA) outer regional, remote, or very remote. Exemptions may be granted by the Department of Health (subject to particular criteria) to practices located in inner regional areas, where the location was previously under the Rural, Remote and Metropolitan Area (RRMA) classification system, RRMA4 or RRMA5.

From 1 May 2020, a further exemption is available for practices located in any region where they have not been able to replace or upgrade equipment due to delays beyond the control of the practice.

For full details about the rules for capital sensitivity, the exemptions, and the definition of upgrade, providers should access the Department of Health's website at www.health.gov.au/capitalsensitivity or send an email enquiry to capsens@health.gov.au.

IN.0.6 Requests for R-type Diagnostic Imaging Services

Request requirements

Medicare benefits are not payable for diagnostic imaging services that are classified as R-type (requested) services unless, prior to commencing the relevant service, the practitioner receives a request from a requesting practitioner who determined the service was necessary.

There are exemptions to the request requirements in specified circumstances. These circumstances are detailed below under 'Exemptions from the written request requirements for R-type diagnostic imaging services'.

Form of a diagnostic imaging request

Responsibility for the adequacy of requesting details rests with the requesting practitioner. A request for a diagnostic imaging service does not have to be in a particular form, however, the legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested.

The *Electronic Transactions Act 1999* allows for documents required by law to be in writing, to instead be provided electronically in a range of circumstances. Diagnostic imaging requests may be made by email or other electronic medium, either directly to the imaging practice (with the patient's consent), or via the patient, as long as:

- the recipient agrees to the request being made in that form;
- it would be accessible for subsequent reference; and
- it contains the information prescribed as for requests made in writing.

There is no requirement for a diagnostic imaging request to be signed.

A written request must contain the name and address or name and provider number in respect of the place of practice of the requesting practitioner.

A request to a medical imaging specialist for a diagnostic imaging service should include sufficient clinical information to assist the service provider to accurately provide the diagnostic imaging service requested and:

- ensure compliance with the MBS item descriptors, and

- where the requested service involves ionising radiation (x-ray, CT etc.), make a decision whether to expose the patient to radiation, consistent with the diagnostic imaging providers' obligations under the International Commission on Radiological Protection's (ICRP) doctrine of radiation protection.

Unless sufficient clinical information is provided, the requesting practitioner may be asked to provide additional information to the diagnostic imaging provider, which could result in delays for the patient.

The following should be provided on a request for a diagnostic imaging service:

- **A clear and legible request** - a request must be in writing, dated and be legible so that all information contained is transferred between requestor and provider without loss of content or meaning, or risk of misinterpretation. The use of abbreviations should be avoided. Where permitted, verbal referrals should ensure clear communication between the requestor and provider.
 - Under the Electronic Transactions Act 1999, this information can be provided in electronic form.
- **Identity of the patient** – a request should include details which confirm the identity of the patient, including their contact details.
- **Identity of the requestor** – a request should include the identity and contact details of the requesting practitioner, including their Medicare provider number, to ensure effective and timely communication.
- **Clinical detail** - a request should include a clinical justification for each examination requested and performed to support the performance of the diagnostic imaging examination.
 - Requests should contain information to enable the provider to confirm that the requested diagnostic imaging modality and examination are appropriate to that individual patient's presentation and circumstances, to answer the referrer's diagnostic question with the least number of diagnostic steps (with due regard for patient safety, radiation dose, local expertise and cost).
 - Where the request is for diagnostic imaging involving ionising radiation (e.g. x-ray, CT) the request should include clinical information for the provider to determine whether the expected clinical benefit to the patient of being exposed to diagnostic radiation outweighs the risk of radiation exposure ('justification for medical radiation exposure').
 - The provider must have sufficient information to justify and approve a medical radiation procedure. Where known, this information should include pregnancy status for women of child-bearing age.
 - Before requesting a diagnostic imaging service, the requesting practitioner must turn their mind to the clinical relevance of the request and determine that the service is necessary. For example, an ultrasound to determine the sex of a foetus is generally not a clinically relevant service, unless there is an indication this service will determine further courses of treatment (e.g. where there is a genetic risk of a sex-related disease or condition).

The requestor should consider whether:

- they are duplicating recent tests.
- the results would change the diagnosis, affect patient management or do more harm than good.
- RANZCR's Education Modules for appropriate Imaging Referrals contains decision support tools for select clinical scenarios.
- the Australian Radiation Protection and Nuclear Safety Agency's Radiation Protection of the Patient Module provides information about diagnostic imaging for medical practitioners, to ensure radiation use is justified, and may aid in communicating benefits and risks of diagnostic imaging modalities to patients.

- the benefits and risks to the patient or carer have been communicated, including any alternatives available, and
- there is information available to the patient about the tests requested. Consumer resources available include the:
 - o NPS Medicine Wise Choosing Wisely program
 - o Consumers Health Forum's Why do I even need this test? A Diagnostic Imaging and Informed Consent Consumer Resource
 - o RANZCR's Inside Radiology website.
- **MBS requirements** - a request should meet any specific MBS item requirements. Failure to provide this information may mean that a Medicare benefit is not paid for the service.

Who may request a diagnostic imaging service?

The following practitioners may request a diagnostic imaging service:

Medical practitioners, specialists and consultant physicians

Specialists and consultant physicians can request any diagnostic imaging service (some exceptions apply, for example, obstetric ultrasound item 55712 where the requester needs to have obstetric qualifications).

Other medical practitioners can request any service and specific MRI Services – including on behalf of the treating practitioner, for example, by a resident medical officer at a hospital on behalf of the patient's treating practitioner.

Dental practitioners

All dental practitioners may request the following items:

57509, 57515, 57521, 57523, 57527, 57901 to 57969, 58100, 58300, 58503, 58903, 59733, 59739, 59751, 60500 and 60503.

Oral and maxillofacial surgeons, prosthodontists, approved dental practitioners, dental specialists (periodontists, endodontists, pedodontists, orthodontists) and specialists in oral medicine and oral pathology are also able to request the following items:

Oral and maxillofacial surgeons (without medical specialist registration i.e. approved dental practitioners)

55028, 55030, 55032, 56001 to 56220, 56224, 56301 to 56507, 56801 to 57007, 57341, 57362, 57703, 57709, 57712, 57715, 58103 to 58115, 58306, 58506, 58521 to 58527, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

Note: Approved dental practitioners are dentists who were approved by the Medical Benefits (Dental Practitioners) Advisory Committee to provide oral and maxillofacial MRI services and request certain diagnostic imaging services. This committee no longer exists. Practices should contact Services Australia to determine their eligibility for providing and requesting these services.

Oral and maxillofacial surgeons (with medical specialist registration)

Oral and maxillofacial surgeons who also have a medical qualification and are registered as medical specialist can request any item in the Diagnostic Imaging Services Table, subject to their scope of practice and any clauses or requirements relevant to the individual item.

Prosthodontists

55028, 56013, 56016, 56022, 56028, 57362, 58306, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462 and 63334.

Dental specialists (periodontists, endodontists, pedeodontists, orthodontists).

56022, 57362, 58306, 61421, 61454, 61457 and 63334.

Specialists in oral medicine and/or oral pathology

55028, 55030, 55032, 56001, 56007, 56010, 56013, 56016, 56022, 56028, 56101, 56107, 56301, 56307, 56401, 56407, 57341, 57362, 58306, 58506, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

Chiropractors

57712, 57715, 58100 to 58106, 58109 and 58112.

Physiotherapists and Osteopaths

57712, 57715, 58100 to 58106, 58109, 58112, 58120 and 58121.

Podiatrists

55844, 55888, 55889, 55890, 55891, 55892, 55893, 55894, 55895, 57521, 57523 and 57527.

Participating Nurse Practitioners

55036, 55066, 55070, 55071, 55076, 55600, 55768, 55812, 55844, 55848, 55850, 55852, 55856, 55857, 55858, 55859, 55860, 55861, 55862, 55863, 55864, 55865, 55866, 55867, 55868, 55869, 55870, 55871, 55872, 55873, 55874, 55875, 55876, 55877, 55878, 55879, 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894, 55895, 57509, 57515, 57521, 57523, 57527, 57703, 57709, 57712, 57715, 57721, 58503 to 58527.

Participating Midwives

57712, 57715, 57901, 57902, 57907, 57915, 57921, 58100 to 58115, 58521, 58524, 58527, 58700 and 59103.

Request to specified provider not required

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider. Request forms containing relevant information about a diagnostic imaging provider supplied, or made available to, a requesting practitioner by a diagnostic imaging provider must include a statement that informs the patient that the request may be taken to a diagnostic imaging provider of the patient's choice.

Request for more than one service and limit on time to render services

The requesting practitioner may use a single request to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after the rendering of the first service.

Contravention of request requirements

A practitioner who, without reasonable excuse makes a request for a diagnostic imaging service that does not include the required information in his or her request or in a request made on his or her behalf is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of up to 10 penalty units.

A practitioner who renders "R-type" diagnostic imaging services and who, without reasonable excuse, provides either directly or indirectly, to a requesting practitioner a document to be used in the making of a request which

would contravene the request information requirements is guilty of an offence under the Health Insurance Act 1973. The offence is punishable, upon conviction, by a fine of up to 10 penalty units.

Exemptions from the written request requirements for R-type diagnostic imaging services

There are exemptions from the general written request requirements (R-type) diagnostic imaging services and these are outlined as follows:

Consultant physician or specialist

A consultant physician or specialist is a medical practitioner recognised for the purposes of the Health Insurance Act 1973 as a specialist or consultant physician, in a particular specialty.

A written request is not required for the payment of Medicare benefits when the diagnostic imaging service is provided by or on behalf of a consultant physician or a specialist (other than a specialist in diagnostic radiology) in his or her specialty and after clinical assessment he/she determines that the service was necessary.

However, if in the referral to the consultant physician or specialist, the referring practitioner specifically requests a diagnostic imaging service (eg to a cardiologist to perform an echocardiogram) the service provided is a requested, not self-determined service. If further services are subsequently provided, these further services are self-determined - see "Additional services".

Additional services

A written request is not required for a diagnostic imaging service if that service was provided after one which has been formally requested and the providing practitioner determines that, on the basis of the results obtained from the requested service, that an additional service was necessary. However, the following services cannot be self-determined as "additional services":

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8

Substituted services

A provider may substitute a service for the service originally requested when:

- the provider determines, from the clinical information provided on the request, that the substituted service would be more appropriate for the diagnosis of the patient's condition; and
- the provider has consulted with the requesting practitioner or taken all reasonable steps to do so before providing the substituted service; and
- the substituted service was one that would be accepted as a more appropriate service in the circumstances by the practitioner's speciality group.

However, the following services cannot be substituted:

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8.

Remote areas

A written request is not required for the payment of Medicare benefits for a R-type diagnostic imaging service rendered by a medical practitioner in a remote area provided:

- the R-type service is not one for which there is a corresponding NR-type service; and
- the medical practitioner rendering the service has been granted a remote area exemption for that service.

For details required for accounts/receipts see Note IN.0.8.

Definition of remote area

The definition of a remote area is one that is more than 30 kilometres by road from:

- a) a hospital which provides a radiology service under the direction of a specialist in the specialty of diagnostic radiology; and
- b) a free-standing radiology facility under the direction of a specialist in the specialty of diagnostic radiology.

Application for remote area exemption

A medical practitioner, other than a consultant physician or specialist, who believes that he or she qualifies for exemption under the remote area definition, should obtain an application form from Services Australia website <https://www.servicesaustralia.gov.au> or by contacting Services Australia' Provider Eligibility Section, by email at prov.elig@servicesaustralia.gov.au or via phone on 1800 032 259 Monday to Friday, between 8.30 am and 5.00 pm, Australian Eastern Standard Time.

Quality assurance requirement for remote area exemption

Application for, or continuation of, a remote area exemption will be contingent on practitioners being enrolled in an approved continuing medical education and quality assurance program. For further information, please visit the Australian College of Rural and Remote Medicine (ACRRM) website at www.acrrm.org.au, or call the ACRRM on 1800 223 226.

Emergencies

The written request requirement does not apply if the providing practitioner determines that, because the need for the service arose in an emergency, the service should be performed as quickly as possible.

For details required for accounts/receipts see Note IN.0.8.

Lost requests

The written request requirement does not apply where:

- the person who received the diagnostic imaging service, or someone acting on that person's behalf, claimed that a written request had been made for such a service but that the request had been lost; and
- the provider of the diagnostic imaging service or that provider's agent or employee obtained confirmation from the requesting practitioner that the request had been made.

The lost request exemption is applicable only to services that the practitioner could originally request.

For details required for accounts/receipts see Note IN.0.8.

Pre-existing diagnostic imaging practices

The legislation provides for exemption from the written request requirement for services provided by practitioners who have operated pre-existing diagnostic imaging practices. The exemption applies to the services covered by the following items: 57712, 57715, 57901, 57902, 57907, 57915, 57921, 58100 to 58115, 58521, 58524, 58527, 58700 and 59103.

To qualify for this pre-existing exemption the providing practitioner must:

- be treating his or her own patient;
- have determined that the service was necessary;
- have rendered between 17 October 1988 and 16 October 1990 at least 50 services (which resulted in the payment of Medicare benefits) of the kind which have been designated "R-type" services from 1 May 1991;
- provide the exempted services at the practice location where the services which enabled the practitioner to qualify for the this exemption were rendered; and
- be enrolled in an approved continuing medical education and quality assurance program from 1 January 2001. For further information, please contact the Royal Australian College of General Practitioners (RACGP), at www.racgp.org.au, on 1800 472 247 or via email to racgp@racgp.org.au, or the Australian College of Rural and Remote Medicine (ACRRM), at www.acrrm.org.au or by calling 1800 223 226.

Benefits are only payable for services exempted under these provisions where the service was provided by the exempted medical practitioner at the exempted location. Exemptions are not transferable.

For details required for accounts/receipts see Note IN.0.8.

Retention of requests

A medical practitioner who has rendered an R-type diagnostic imaging service in response to a written request must retain that request for a period of two years commencing on the day on which the service was rendered.

A medical practitioner must, if requested by Services Australia, produce written requests retained by that practitioner for an R-type diagnostic imaging service as soon as practicable and in any case by the end of the day after the day on which Services Australia's request was made. An employee of Services Australia is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations of lost requests.

A medical practitioner who, without reasonable excuse, fails to comply with the above requirements is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of up to 10 penalty units.

The Department of Health has developed a Health Practitioner Guideline to substantiate that a valid request existed (pathology or diagnostic imaging), which is located online at www.health.gov.au.

IN.0.7 Maintaining Records of Diagnostic Imaging Services

Providers of diagnostic imaging services must keep records of diagnostic imaging services in a manner that facilitates retrieval on the basis of the patient's name and date of service. Records of R-type diagnostic imaging services must be retained for a period of 2 years commencing on the day on which the service was rendered.

The records must include the report by the providing practitioner on the diagnostic imaging service. For ultrasound services, where the service is performed on behalf of a medical practitioner the report must record the name of the sonographer.

- Where the provider substitutes a service for the service originally requested, the provider's records must include:
 - words indicating that the providing practitioner has consulted with the requesting practitioner and the date of consultation; or

- if the providing practitioner has not consulted with the requesting practitioner, sufficient information to demonstrate that he or she has taken all reasonable steps to do so.

- o For services rendered after a lost request, the records must include words to the effect that the request was lost but confirmed by the requesting practitioner and the manner of confirmation, e.g. how and when.

- o For emergency services, the records must indicate the nature of the emergency.

If requested by Services Australia, records retained by a providing practitioner must be produced to an officer of Services Australia as soon as practicable but in any event within seven days after the request. Service Australia officers may make and retain copies, or take and retain extracts, of such records. A medical practitioner who, without reasonable excuse, contravenes any of the above provisions is guilty of an offence under the Health Insurance Act 1973 punishable, upon conviction, by a fine of \$1000.

IN.0.8 Details Required on Accounts, Receipts and Medicare Assignment of Benefit Forms

In addition to the normal particulars of the patient, date of service, the services performed and the fees charged, the details which must be entered on accounts or receipts, and Medicare assignment of benefits forms in respect of diagnostic imaging services are as follows:

- the LSPN of the diagnostic imaging premises or mobile facility where the diagnostic imaging procedure was undertaken;
- if the professional service is provided by a specialist in diagnostic radiology the name and either the address of the place of practice, or the provider number, of that specialist;
- if the medical practitioner is not a specialist in diagnostic radiology the name and either the practice address or provider number of the practitioner who is claiming or receiving fees;
- for R-type (requested) services and services rendered subsequent to lost requests, the account or receipt or the Medicare assignment form must indicate the date of the request and the name and provider number, or the name and address, of the requesting practitioner.
- services that are self-determined must be endorsed with the letters 'SD' to indicate that the service was self-determined. Services are classified as self-determined when rendered:
 - by a consultant physician or specialist, in the course of that consultant physician or specialist practicing his or her specialty (other than a specialist in diagnostic radiology), or - to provide additional services to those specified in the original request and the additional services are of the type that would have otherwise required a referral from a specialist or consultant physician in a remote area, or
 - under a pre-existing diagnostic imaging practice exemption.
 - substituted services the account etc. must be endorsed 'SS'.
 - emergencies, the account etc. must be endorsed 'emergency'.
 - lost requests the account etc. must be endorsed 'lost request'.

IN.0.9 Contravention of State and Territory Laws and Disqualified Practitioners

Medicare benefits are not payable where a diagnostic imaging service is provided by, or on behalf of, a medical practitioner, and the provision of that service by that practitioner or any other person contravenes a state or territory law which, directly or indirectly, relates to the use of diagnostic imaging procedures or equipment. The Managing Director of Services Australia may notify the relevant state or territory authorities if he/she believes that a person may have contravened a law of a state or territory relating directly or indirectly to the use of diagnostic imaging procedures or equipment.

IN.0.10 Prohibited Practices

Part IIBA of the Health Insurance Act 1973 contains a number of provisions prohibiting inducements to request diagnostic imaging (and pathology) services.

Who might be affected?

Anyone who can provide or request a Medicare-funded diagnostic imaging service.

Anyone who has a relevant connection to a provider or a requester, including relatives, bodies corporate, trusts, partnerships and employees may also be affected.

What is prohibited?

- it is unlawful to ask for, accept, offer or provide a benefit, or make a threat, that is reasonably likely to induce a requester to make diagnostic imaging requests, or is related to the business of providing diagnostic imaging services.
- it is a criminal offence to ask for, accept, offer, or provide a benefit, or make a threat that is intended to induce requests to a particular provider.
- the prohibitions apply to the provision of benefits, or the making of threats, that are directed to a requester by a provider, whether directly or through another person.

A requester of diagnostic imaging services means:

- a medical practitioner;
- a dental practitioner, a chiropractor, a physiotherapist, a podiatrist or an osteopath (in relation to certain types of services prescribed in Regulations);
- a person who employs, or engages under a contract for services, one of the people mentioned above; or
- a person who exercises control or direction over one of the people mentioned above (in his or her professional capacity).

A provider of a diagnostic imaging service means:

- a person who renders that kind of service;
- a person who carries on a business of rendering that kind of service;
- a person who employs, or engages under a contract for services, one of the people detailed above; or
- a person who exercises control or direction over a person who renders that kind of service or a person who carries on a business of rendering that kind of service.

What is permitted?

Under the Act it is permitted to:

- share the profits of a diagnostic imaging business, provided the dividend is in proportion to the beneficiary's interest in the business;
- accept or pay remuneration, including salary, wages, commission, provided the remuneration is not substantially different from the usual remuneration paid to people engaged in similar employment;
- make or accept payments for property, goods or services, provided the amount paid is not substantially different from the market value of the property, goods or services;

- make or accept payments for shared property, goods or services, provided the amount paid is proportionate to the person's share of the cost of the property, goods or services and shared staff and/or equipment are not used to provide diagnostic imaging services;
- provide or accept property, goods or services, provided the benefit exchanged is not substantially different from the market value of the property, goods or services;
- provide benefits of a type determined by the Minister. These include items to support a requester to view diagnostic imaging reports, such as specially designed computer monitors. Modest gifts and hospitality may also be permitted, under certain circumstances. A full list of the Ministerial determined permitted benefits are contained in the Health Insurance (Permitted benefits — diagnostic imaging services) Determination 2018.

What are the penalties for those not complying with the provisions?

If the provisions are breached, a range of penalties would apply, depending on the kind of breach, including: civil penalties; criminal offences; referral to a Medicare Participation Review Committee (MPRC), possibly resulting in loss of access to Medicare. For further information on prohibited practices visit the Department of Health's publication 'Guidance on Laws Relating to Pathology and Diagnostic Imaging - Prohibited Practices'.

IN.0.11 Multiple Services Rules

Background

There are several rules that may apply when calculating Medicare benefits payable when multiple diagnostic imaging services are provided to a patient at the same attendance (same day). These rules were developed in association with the diagnostic imaging profession representative organisations and reflect that there are efficiencies to the provider when these services are performed on the same occasion. Unless there are clinical reasons for doing so, they should be provided to the patient at the one attendance and the efficiencies from doing this reflected in the overall fee charged.

General diagnostic imaging - multiples services

The diagnostic imaging multiple services rules apply to all diagnostic imaging services. There are three rules, and more than one rule may apply in a patient episode. The rules do not apply to diagnostic imaging services rendered in a remote area by a medical practitioner who has a remote area exemption for that area - see IN.0.6.

Rule A. When a medical practitioner renders two or more diagnostic imaging services to a patient on the same day, then:

- the diagnostic imaging service with the highest Schedule fee has an unchanged Schedule fee; and
- the Schedule fee for each additional diagnostic imaging service is reduced by \$5.

Rule B. When a medical practitioner renders at least one R-type diagnostic imaging service and at least one consultation to a patient on the same day, there is a deduction to the Schedule fee for the diagnostic imaging service with the highest Schedule fee as follows:

- if the Schedule fee for the consultation is \$40 or more - by \$35; or
- if the Schedule fee for the consultation is less than \$40 but more than \$15 - by \$15; or
- if the Schedule fee for the consultation is less than \$15 - by the amount of that fee.

The deduction under Rule B is made once only. If there is more than one consultation, the consultation with the highest Schedule fee determines the deduction amount. There is no further deduction for additional consultations.

A 'consultation' is a service rendered under an item from Category 1 of the MBS, that is, items 1 to 10816 inclusive.

Rule C. When a medical practitioner renders an R-type diagnostic imaging service and at least one non-consultation service to the same patient on the same day, the Schedule fee for the diagnostic imaging service with the highest Schedule fee is reduced by \$5.

A deduction under Rule C is made once only. There is no further deduction for any additional medical services.

For Rule C, a 'non-consultation' is defined as any following item from the MBS:

- Category 2, items 11000 to 12533;
- Category 3, items 13020 to 51318;
- Category 4, items 51700 to 53460;
- Cleft Lip and Palate services, items 75001 to 75854 (as specified in the 'Medicare Benefits for the treatment of cleft lip and cleft palate conditions' book.)

Pathology services are not included in Rule C.

When both Rules B and C apply, the sum of the deductions in the Schedule fee for the diagnostic imaging service with the highest Schedule fee is not to exceed that Schedule fee.

Ultrasound - Vascular

This rule applies to all vascular ultrasound items claimed on the same day of service ie whether performed at the same attendance by the same practitioner or at different attendances.

Where more than one vascular ultrasound service is provided to the same patient by the same practitioner on the same date of service, the following formula applies to the Schedule fee for each service:

- 100% for the item with the greatest Schedule fee
- plus 60% for the item with the next greatest Schedule fee
- plus 50% for each other item.

When the Schedule fee for some of the items are the same, the reduction is calculated in the following order:

- 100% for the item with the greatest Schedule fee and the lowest item number
- plus 60% for the item with the greatest Schedule fee and the second lowest item number
- plus 50% for each other item.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee e.g. item 55238 and 55280, item 55238 would be considered the highest.

When calculating the benefit, it should be noted that despite the reduction, the collective items are treated as one service for the application of Rule A of the General Diagnostic Imaging Multiple Services rules and the patient gap. Examples can be found on the Services Australia website.

Magnetic Resonance Imaging (MRI) - Musculoskeletal

If a medical practitioner performs 2 or more scans from subgroup 12 and 13 for the same patient on the same day, the fees specified for items that apply to the service are affected as follows:

- the item with the highest schedule fee retains 100% of the schedule fee; and
- any other fee, except the highest is reduced by 50%.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee eg. item 63322 and 63331, item 63322 would be considered the highest.

If the reduced fee is not a multiple of 5 cents, the reduced fee is taken to be the nearest amount that is a multiple of 5 cents.

In addition, the modifying item for contrast may only be claimed once for a group of services subject to this rule.

If a medical practitioner provides:

- 2 or more MRI services from subgroups 12 and 13 for the same patient on the same day; and
- 1 or more other diagnostic imaging services for that patient on that day

the amount of the fees payable for the MRI services is taken, for the purposes of this rule, to be an amount payable for 1 diagnostic imaging service in applying Rule A of the General Diagnostic Imaging Multiple Services rules.

IN.0.12 Co-claiming consultations with DIST items – Specialist Radiologists

From 1 May 2020, specialist radiologists will no longer be able to claim a consultation in conjunction with one of the following diagnostic imaging services:

- All musculoskeletal ultrasound – Group I1, Subgroup 6 (items 55800 – 55855)
- Diagnostic radiology items as follows:
 - Group I3, Subgroup 1 – Radiographic Examination of the Extremities - items 57506 to 57539
 - Group I3, Subgroup 2 – Radiographic Examination of Shoulder and Pelvis - items 57700 to 57723
 - Group I3, Subgroup 3 – Radiographic Examination of the Head - items 57901 to 57969
 - Group I3, Subgroup 4 – Radiographic Examination of the Spine - items 58100 to 58127
 - Group I3, Subgroup 5 – Bone Age Study and Skeletal Survey - items 58300 to 58308
 - Group I3, Subgroup 6 – Radiographic Examination of Thoracic Region - items - 58500 to 58529
 - Group I3, Subgroup 7 – Radiographic Examination of Urinary Tract - items 58700 to 58723
 - Group I3, Subgroup 8 – Radiographic Examination of Alimentary Tract and Biliary System - items 58900 to 58905
 - Group I3, Subgroup 9 – Radiographic Examination of Localisation of Foreign Bodies - items 59103 to 59104

Radiologists may claim consultation items when they attend the patient before, during or after the rendering of other diagnostic imaging services. Consultation items should only be claimed where the attendance on the patient is meaningful. That is:

- the radiologist utilises their medical knowledge, clinical acumen, technical skills and personal experience in clinical radiology to consult with a patient so as to alter, or potentially alter, the course of the patient's management in the best interests of the patient.
- the radiologist takes primary clinical responsibility for the management decisions made during the consultation (even if the decision is to proceed with the planned course of management).
- the consultation itself includes components of history taking; physical examination; discussion with the patient; formulation of management plans; and referral for additional opinion or tests.

Not all the components need be present in any one consultation, but presence of at least some indicates that a meaningful consultation occurred.

To claim a specialist referred consultation (item 104 or 105), the specialist radiologist must have received a valid request (not simply a request for a diagnostic imaging service) from a medical practitioner for the investigation, opinion, treatment and/or management of a condition or problem of a patient or for the performance of a specific examination(s) or test(s). The requesting practitioner must have undertaken a professional attendance with the

patient and turned their mind to the patient's need for referral and have communicated relevant information about the patient to the specialist or consultant physician (this need not mean an attendance on the occasion of the referral) – see note GN.6.16.

A referral for the undertaking of a diagnostic imaging service in the absence of the other elements of a referral as noted above does not constitute a valid referral for a specialist referred consultation.

The new consultation co-claiming rules do not apply to consultant physicians, other specialists and specialist radiologists who are also specialists in other medical disciplines. However, where a specialist radiologist has more than one qualification, co-claiming is only permitted where the patient has been referred to the provider in their non-radiologist capacity.

Where a specialist or consultant physician receives a request for diagnostic imaging service only, for example, a request to a cardiologist to do an echocardiogram, a consultation should not be claimed.

In addition, consultations must not be claimed in place of claiming a diagnostic imaging service.

IN.0.13 Ultrasound

Professional supervision for ultrasound services - R-type eligible services

Ultrasound services (items 55028 to 55895) marked with the symbol (R) with the exception of items 55600 and 55603 are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

(a) specialist or a consultant physician in the practice of his or her specialty who is available to monitor and influence the conduct and diagnostic quality of the examination, and if necessary to personally attend the patient; or

(b) practitioner who is not a specialist or consultant physician who meets the requirements of A or B hereunder, and who is available to monitor and influence the conduct and diagnostic quality of the examination and, if necessary, to personally attend the patient.

A. Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner at the location where the service was rendered and the rendering of those services entitled the payment of Medicare benefits.

B. Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner in nursing homes or patients' residences and the rendering of those services entitled payment of Medicare benefits.

If paragraph (a) or (b) cannot be complied with, ultrasound services are eligible for a Medicare rebate:

- in an emergency; or
- in a location that is not less than 30 kilometres by the most direct road route from another practice where services that comply with paragraph (a) or (b) are available.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Sonographer accreditation

Sonographers performing medical ultrasound examinations (either R or NR type items) on behalf of a medical practitioner must be suitably qualified, involved in a relevant and appropriate Continuing Professional Development program and be Registered on the Register of Accredited Sonographers held by Services Australia.

Eligibility for registration

To be eligible for registration on the Register of Accredited Sonographers held by Services Australia, the person must be accredited with the Australian Sonographer Accreditation Registry. For accreditation with the Australian Sonographer Accreditation Registry the person must hold an accredited postgraduate qualification in medical ultrasound or be studying ultrasound.

For further information, please contact Services Australia, Provider Liaison Section, on 132 150 for the cost of a local call or the Australian Sonographer Accreditation Registry through its website at www.asar.com.au.

Report requirements

The sonographer's initial and surname is to be written on the report. It is not required on billing documents. The name of the sonographer is not required to be included on the copy of the report given to the patient. For the purpose of this rule, the "name" means the sonographer's initial and surname.

Benefits payable

As a rule, benefit is payable once only for ultrasonic examination at the one attendance, irrespective of the areas involved.

Except as indicated in the succeeding paragraphs, attendance means that there is a clear separation between one service and the next. For example, where there is a short time between one ultrasound and the next, benefits will be payable for one service only. As a guide, Services Australia will look to a separation of three hours between services and this must be stated on accounts issued for more than one service on the one day.

Where more than one ultrasound service is rendered on the one occasion and the service relates to a non-contiguous body area, and they are "clinically relevant", (i.e. the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered), benefits greater than the single rate may be payable. Accounts should be marked "non-contiguous body areas".

Benefits for two contiguous areas may be payable where it is generally accepted that there are different preparation requirements for the patient and a clear difference in set-up time and scanning. Accounts should be endorsed "contiguous body area with different set-up requirements".

Subgroup 1 - General Ultrasound

Abdominal Ultrasound Items 55036 and 55037

Medicare benefits are not payable for ultrasound items 55036 and 55037 unless a morphological assessment of the abdomen has been performed. That is, the items should be used for imaging purposes, not for non-imaging procedures such as transient elastography.

Urinary ultrasound item 55084 and 55085

When a post-void residual is the only service clinically indicated and/or rendered, it is inappropriate to report a pelvic, urinary or abdominal ultrasound, instead of or in addition to this service (55084 or 55085). Similarly, if a complete pelvic, urinary or abdominal ultrasound is billed, it is inappropriate to bill separately for a post-void residual determination, since payment of this has already been included in the payment for the complete scans.

The report must contain an entry denoting the post-void residual amount and/or bladder capacity as calculated/estimated from the ultrasound device. In addition, the medical record must contain documentation of the indication for the service and the number of times performed.

Subgroup 3 – Vascular Ultrasound

General

Medicare benefits are only payable for:

- a maximum of two vascular ultrasound studies in a seven-day period. A vascular ultrasound study may include one or more items. Additionally where a patient is referred for a bilateral study of both arms or both legs, the account should indicate 'bilateral' or 'left' and 'right' to enable a benefit to be paid.
- clinically relevant services, that is, the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered. Any decision to have a patient return on a different day to complete a multi-area diagnostic imaging service should only be made on the basis of clinical necessity.

Deep vein thrombosis (DVT) – items 55244 and 55246

Medical practitioners referring patients for duplex ultrasound for suspected lower limb DVT (items 55244 and 55246) should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such RANZCR Choosing Wisely recommendations that succeed it.

Examination of peripheral vessels

Vascular ultrasound services can be claimed in conjunction with item 11612 (Exercises study for the evaluation of lower extremity arterial disease).

Subgroup 4: Urological ultrasound Prostate ultrasound - Items 55600 and 55603

Benefits for these items are payable where the service is rendered in the following circumstances:

- a digital rectal examination of the prostate was personally performed by the medical practitioner who also personally rendered the ultrasound service; and
- the transducer probe or probes used can obtain both axial and sagittal scans in 2 planes at right angles; and
- the patient was assessed prior to the service by a medical practitioner recognised in one or more of the specialties specified, not more than 60 days prior to the ultrasound service.

Items 55600 applies where the service is rendered by a medical practitioner who did not assess the patient, whereas items 55603 applies where the service was rendered by a medical practitioner who did assess the patient.

Subgroup 5: Obstetric and Gynaecological ultrasound

NR Services

Medicare benefits are not payable for more than three NR-type ultrasound services in Subgroup 5 of Group I1 (ultrasound) that are performed on the same patient in any one pregnancy.

Pre-requisite services

A patient must have previously had either a 55706 or 55709 ultrasound in the same pregnancy to be eligible to claim for either a 55712 or 55715 obstetric service. To be eligible to claim for either a 55721 or 55725 obstetric service, a patient must have previously had either a 55718 or 55723 ultrasound in the same pregnancy.

Dating of pregnancy

When dating a pregnancy for the purpose of items 55700 to 55774, a patient is:

- "less than 12 weeks of gestation" means up to 11 weeks and 6 days of pregnancy;
- "12 to 16 weeks of gestation" means from 12 weeks 0 days of pregnancy up to 16 weeks plus 6 days of pregnancy (inclusive);
- "17 to 22 weeks of gestation" means from 17 weeks 0 days of pregnancy up to 22 weeks plus 6 days of pregnancy (inclusive);
- "after 22 weeks of gestation" means from 23 weeks 0 days of pregnancy onwards;
- "after 24 weeks of gestation" means from 25 weeks 0 days of pregnancy onwards.

Nuchal Translucency Testing

Where a nuchal translucency measurement is performed when the pregnancy is dated by a crown rump length of 45-84mm in conjunction with items 55700 (R) or 55703 (NR) or 55704 (R) or 55705 (NR), then items 55707 (R) or 55708 (NR) should be claimed. If nuchal translucency measurement for risk of foetal abnormality is performed in conjunction with any additional condition in items 55700, 55703, 55704 or 55705, only one fee is payable.

The Royal Australian and New Zealand College of Obstetricians and Gynaecologists provides a credentialling program for providers of nuchal translucency scans.

Multiple pregnancies

Obstetric ultrasound items 55759 to 55774 cover scanning of a patient who is experiencing a multiple pregnancy. The items incorporate a fee adjustment in recognition of the added complexity and costs associated with scanning multiple pregnancies. Based on the recommendations of the profession, the items apply only to patients where a multiple pregnancy has been confirmed by ultrasound. The items include identical restrictions and provisions as the second and third trimester items (55706-55725), and include items for requested and non-requested services.

Obstetric ultrasound and non-metropolitan providers (items 55712, 55721, 55764 and 55772)

Where a practitioner has obstetric privileges at a non-metropolitan hospital and refers for items 55712, 55721 and 55764 and 55772, the practitioner must confirm his/her eligibility by stating 'non-metropolitan obstetric privileges' on the referral form.

In relation to items 55712, 55721, 55764 and 55772, a non-metropolitan area includes any location outside of the Sydney, Melbourne, Brisbane, Adelaide, Perth, Greater Hobart, Darwin or Canberra major statistical divisions, as defined in the Australian Standard Geographical Classification 2010 published by the Australian Bureau of Statistics (publication number 1216.0 of 2010).

Subgroup 6: Musculoskeletal (MSK)

Personal attendance

Medicare benefits are only payable for a musculoskeletal ultrasound service (items 55812 to 55895) if the medical practitioner responsible for the conduct and report of the examination personally attends during the performance of the scan and personally examines the patient. Services that are performed because of medical necessity in a remote location are exempt from this requirement - see IN.0.6 for definition of remote area. Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Multiple Musculoskeletal Ultrasound Scans

Generally Medicare benefits are payable for more than one musculoskeletal ultrasound scan performed on the same day, however the scans are subject to Rule A of the general diagnostic imaging multiple services rules.

It is not permitted to split a bilateral scan. Where bilateral ultrasound scans are performed, the relevant item should be itemised once only on accounts and receipts or Medicare bulk billing forms. For example if both shoulders are

scanned, item 55866 or 55867, as the case may be, should be claimed once only. This is because the item descriptor for these items covers both sides. A patient should not be asked to make a second appointment in order to attract a benefit for multiple scans.

Shoulder and knee (items 55864 to 55867 and 55880 to 55883)

Benefits for shoulder and knee ultrasound items are only payable when the request is based on the clinical indicators outlined in the item descriptions. Benefits are not payable when referred for non-specific shoulder or knee pain alone or other specific conditions such as meniscal and cruciate ligament tears and assessment of chondral surfaces.

IN.0.14 Restriction anaesthetic items in conjunction with item 55054

An item in Group T10 (Relative Value Guide) cannot be claimed in association with item 55054 (ultrasound when used in conjunction with procedures). Medicare benefits will continue to be available for the procedures alone and whether individual anaesthetists choose to use ultrasound to assist with those procedures is a matter of clinical judgement for those providers.

IN.0.15 Group I2 - Computed Tomography (CT)

Professional supervision

CT services (items 56001 to 57360) are not eligible for a Medicare rebate unless the service is performed:

- (a) under the professional supervision of a specialist in the specialty of diagnostic radiology who is available:
 - to monitor and influence the conduct and diagnostic quality of the examination; and
 - if necessary, to personally attend on the patient; or
- (b) if the above criterion cannot be complied with
 - in an emergency, or
 - because of medical necessity in a remote area - refer to IN.06 for definition of remote area.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Item 57360 applies only to a CT service that is:

- (a) performed under the professional supervision of a specialist or consultant physician recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography who is available:
 - to monitor and influence the conduct and diagnostic quality of the examination; and
 - if necessary, to attend on the patient personally; and
- (b) reported by a specialist or consultant physician recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography; or
- (c) if paragraphs a and b cannot be complied with
 - in an emergency, or
 - because of medical necessity in a remote area - refer to IN.06 for definition of remote area.

Use of PET/CT or SPECT/CT machines

CT scans rendered on Positron Emission Tomography (PET)/CT Single Photon Emission Computed Tomography (SPECT)/CT units are eligible for a Medicare benefit provided:

- the CT scan is not solely used for the purposes of attenuation correction and anatomical correlation of any associated PET or SPECT scan; and
- the CT scan is rendered under the same conditions as those applying to services rendered on stand-alone CT equipment. For example, the service would need to be properly requested and performed under the professional supervision of a specialist radiologist, including specialist radiologists with dual nuclear medicine qualifications.

Scan of more than one area/region

Where regions are scanned on the one occasion which are not covered by a combination item, for example, item 56219 (scan of the spine) with item 56620 (scan of lower limbs), both examinations would attract a separate benefit.

Items covering individual contiguous regions must not be used when scans of multiple regions are performed.

More than one attendance of the patient to complete a scan

Items 56220 to 56238 (CT of the spine) and 56620 to 56630 (CT of the extremities) apply once only for a service described in any of those items, regardless of the number of patient attendances required to complete the service. For example, where a request relates to two or more regions of the spine and one region only is scanned on one occasion with the balance of regions being scanned on a subsequent occasion, benefits are payable for one combination service only upon completion.

Pre-contrast scans

Pre-contrast scans are included in an item of service with contrast medium only when the pre-contrast scans are of the same region.

Scan of Head

Exclusion of acoustic neuroma

If an axial scan is performed for the exclusion of acoustic neuroma, Medicare benefits are payable under item 56001 or 56007.

Assessment of headache

If item 56007 is used for the assessment of headache of a patient, the fee mentioned in the item applies only if:

- a. a scan without intravenous contrast medium has been undertaken on the patient; and
- b. the service is required because the result of the scan is abnormal.

This rule applies to a patient who:

- is under 50 years; and
- is (apart from the headache) otherwise well; and
- has no localising symptoms or signs; and
- has no history of malignancy or immunosuppression.

Scan of Spine

Multiple regions

CT items exist which separate the examination of the spine into the cervical, thoracic and lumbosacral regions.

These items are 56220 to 56238 inclusive. They include items for CT scans of two regions of the spine (56233 and 56234) and for all three regions of the spine (56237 and 56238). Restrictions apply to the following items:

- item 56233 is used where two examinations of the kind referred to in items 56220, 56221 and 56223 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.
- item 56234 is used where two examinations of the kind referred to in items 56224, 56225 and 56226 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.

Example: for a CT examination of the spine where the cervical and thoracic regions are to be studied (item 56233), item numbers 56220 and 56221 must be specified.

With intrathecal contrast medium - item 56219

The item incorporates the cost of contrast medium for intrathecal injection and associated x-rays. Benefits are not payable for this item when rendered in association with myelograms (items 59724 and 59725). Where a myelogram is rendered under item 59724 and a CT is necessary, the relevant item would be scan of spine without intravenous contrast (items 56220, 56221 or 56223).

Scan of the upper abdomen and pelvis

Items 56501 and 56507 are not eligible for benefits if performed for the purpose of performing a virtual colonoscopy (otherwise known as CT colonography and CT colography). CT Colonography is covered by item 56553.

Scan of the colon (Item 56553)

In item 56553, the terms 'high risk' and 'incomplete colonoscopy' are defined as follows:

High Risk

Asymptomatic people fit into this category if they have:

- three or more first-degree or a combination of first-degree and second-degree relatives on the same side of the family diagnosed with bowel cancer (suspected hereditary non-polyposis colorectal cancer or NPCC), or
- two or more first-degree or second-degree relatives on the same side of the family diagnosed with bowel cancer, including any of the following high-risk features, or
- multiple bowel cancers in the one person, or
- bowel cancer before the age of 50 years, or
- at least one relative with cancer of the endometrium, ovary, stomach, small bowel, ureter, biliary tract or brain, or
- at least one first-degree relative with a large number of adenomas throughout the large bowel (suspected familial adenomatous polyposis or FAP), or
- somebody in the family in whom the presence of a high-risk mutation in the adenomatous polyposis coli (APC) gene or one of the mismatch repair (MMR) genes has been identified.

Source: NHMRC 2005 Clinical Practice Guidelines for the Prevention, Early Detection and Management of Colorectal Cancer - Category 3 - those at potentially high risk.

Incomplete Colonoscopy

For audit purposes, an incomplete colonoscopy is defined as one that is not completed for technical or medical reasons and must have been performed in the preceding 3 months.

CT angiography

Other than coronary arteries - items 57351 to 57354

CT angiography items 57351 applies under the circumstances specified in the item including where a service to which items 57352, 57353 or 57354 have been performed on the same patient within the previous 12 months,

Item 57352, 57353 and 57354 apply under the circumstances specified in the items and where the service has not been performed on the same patient within the previous 12 months.

Coronary arteries – item 57360

Payment of Medicare rebates for item 57360 is limited to specialists or consultant physicians who have fulfilled the training and credentialing requirements developed by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography (CTCA).

Pulmonary Embolism (PE) – Item 57351

Medical practitioners requesting imaging for suspected PE (item 57351) should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such clinical RANZCR Choosing Wisely recommendations as succeed it.

IN.0.16 Group I3 - Diagnostic Radiology

Examination and report

As for all diagnostic imaging services, the benefits allocated to each item from 57506 to 60509 inclusive cover the total service, i.e. the image, reading and report. Separate benefits are not payable for individual components of the service, e.g. preliminary reading. Benefits are not separately payable for associated plain films involved with these items.

Exposure of more than one film

Where the radiographic examination of a specific area involves the exposure of more than one film, benefits are payable once only, except where special provision is made in the description of the item for the inclusion of all films taken for the purpose of the examination. This means that if an x-ray of the foot is requested, regardless of the number of exposures from different angles, the completed service comprises x-ray of the foot by one or more exposures and the report. The exception to this would be the plain x-ray of the spine items (58100 to 58121) where the item number differs dependent upon the regions of the spine that are examined at the same occasion, ie. 58112 applies where two regions are examined.

Comparison X-rays

Where it is necessary for one or more films of the opposite limb to be taken for comparison purposes, benefits are payable for radiographic examination and reporting of one limb only. Comparison views are considered to be part of the examination requested.

Images produced using Dual Energy X-ray Absorptiometry (DEXA) equipment

X-ray items of the spine 58100 to 58121 and hip 57712 cannot be claimed when images are produced using Dual Energy X-ray Absorptiometry (DEXA) equipment. DEXA should be claimed under General Medical Services Table items 12306 to 12322.

Subgroup 1 – Radiographic examination of the extremities

Hand and wrist combination X-ray

An examination of the hand and the wrist on the same side should be claimed as item 57512 (NR) or 57515 (R). If items 57506 (NR) or 57509 (R) are claimed for multiple non-adjacent areas on the same side, or areas on different sides, the account should include annotation on this e.g. L and R hand, or hand and humerus.

Subgroup 4: Radiographic examination of the spine

Multiple regions

Multiple region items require that the regions of the spine to be studied must be specified on any account issued or patient assignment form completed.

Item 58112 - spine, two regions

Where item 58112 is rendered (spine, two regions), the item numbers for the regions of the spine being studied must be specified (i.e. from items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical and thoracic regions are to be studied, item numbers 58100 and 58103 must be specified on any account issued or patient assignment forms completed.

Item 58115 - spine, three region

Where item 58115 is rendered (spine, three regions), the item numbers for the regions of the spine being studied must be specified (items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical, the thoracic and the lumbosacral regions are to be studied, item numbers 58100, 58103 and 58106 must be specified on any accounts issued or patient assignment forms completed.

Item 58115 and 58108 - spine, three and four regions – request by medical practitioner

Three and four region radiographic examinations items 58115 and 58108 only apply when requested by a medical practitioner.

Items 58120 and 58121 - spine, three and four regions – request by non-medical practitioner

Items 58120 and 58121 apply to physiotherapists and osteopaths who request a three or four region x-ray. Benefits are payable for one of these items only per patient per calendar year.

Subgroup 8: Radiographic examination of alimentary tract and biliary system

Plain abdominal film - items 58900 and 58903

Benefits are not payable for items 58900 and 58903 in association with barium meal examinations or cholecystograms whether provided on the same day or previous day. Preliminary plain films are covered in each study.

Subgroup 10: Radiographic examination of the breasts

Request requirements - items 59300 and 59303

Benefits under items 59300 and 59303 are payable only where the patient has been referred in specific circumstances as indicated in the description of the items. To facilitate these provisions, the requesting medical practitioner is required to include in the request the clinical indication for the procedure.

Professional supervision

Mammography services (items 59300 to 59318) are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

- specialist in the specialty of diagnostic radiology who is available to monitor and influence the conduct and diagnostic quality of the examination, and, if necessary, to personally attend on the patient; or
- if paragraph (a) cannot be complied with:
- in an emergency; or
- because of medical necessity in a remote location.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Subgroup 12: Radiographic examination with opaque or contrast media

Myelogram- item 59724

Benefits are not payable where a myelogram is rendered in association with a CT myelogram (item 56219 – see IN.0.16). Where it is necessary to render a CT and a myelogram, CT items 56220, 56221 and 56223 would apply.

Subgroup 13: Angiography

Digital subtraction angiography (DSA) - items 60000-60078

Benefits are payable only where these services are rendered in an angiography suite (a room that contains only equipment designed for angiography that is able to perform digital subtraction or rapid-sequence film angiography). Benefits are not payable when these services are rendered using mobile DSA imaging equipment as these services are covered by item 59970.

Each item includes all preparation and contrast injections other than for selective catheterisation. For DSA, benefits are payable for a maximum of one DSA item (from Items 60000 to 60069). For selective DSA - one DSA item (from 60000 to 60069) and one item covering selective catheterisation (from 60072, 60075 or 60078).

If a DSA examination covers more than one of the specified regions/combinations, then the region/combination forming the major part of the examination should be selected, with itemisation to cover the total number of film runs obtained. A run is the injection of contrast, data acquisition, and the generation of a hard copy record.

Subgroup 16: Preparation for radiological procedure

Preparation items - 60918 and 60927

Items 60918 and 60927 apply only to the preparation of a patient for a radiological procedure for a service to which any of items 59903 to 59970 apply. A report is not required for these services.

IN.0.17 Group I4 - Nuclear Medicine Imaging

General

Benefits for a nuclear scanning service (other than PET) are only payable when the service is performed:

- by a credentialed specialist or consultant physician, or by a person acting on behalf of the specialist; and
- the final report of the service is compiled by the specialist or consultant physician who performed the preliminary examination of the patient and the estimation and administration of the dosage.

Additional benefits will only be attracted for specialist physician or consultant physician attendance under Category 1 of the Schedule where there is a request for a full medical examination accompanied by a referral letter or note of referral.

Credentialling for nuclear medicine imaging services

Payment of Medicare rebates for nuclear medicine imaging services is limited to specialists or consultant physicians who are credentialled by the Joint Nuclear Medicine Credentialling and Accreditation Committee of the Royal Australian College of Physicians (RACP) and RANZCR.

The scheme was developed by the profession in consultation with Government to ensure that specialists in nuclear medicine are appropriately trained and licensed, provide appropriate personal supervision of procedures and are involved in ongoing continuing medical education.

For information regarding the Scheme and for application forms, please phone the RACP or RANZCR.

Temporary Nuclear Medicine Items

Nuclear medicine items 61311, 61332, 61333, 61336, 61337, 61341 and 61344 may only be used during specified time periods, following a valid request for the equivalent nuclear medicine imaging item on which it is based. The items were available for a period from 14 September 2019 until 20 December 2019.

In the event that there is a future national shortage in the supply of technetium, these items may again become available. Announcements about the commencement of temporary nuclear medicine items will be published on the Department of Health's Nuclear Medicine and Positron Emission Tomography (PET) webpage.

Radiopharmaceuticals

The schedule fees for nuclear medicine imaging services incorporate the costs of radiopharmaceuticals.

Single myocardial perfusion studies -items 61302 and 61303

Items 61302 and 61303 apply to single myocardial perfusion studies which can only be used once and cannot be used in conjunction with any other myocardial perfusion study for an individual patient referral.

Myocardial perfusion - items 61306 and 61307

Items 61306 and 61307 refer to all myocardial perfusion studies involving two or more sets of imaging times related to an individual patient referral. This includes stress/rest, stress/re-injection, stress/rest and re-injection thallium studies, one or two-day technetium-based perfusion agent protocols, mixed technetium-based perfusion agent/thallium protocols and the use of gated SPECT when undertaken.

Pulmonary Embolism (PE) – items 61328, 61340 and 61348

Medical practitioners requesting imaging for suspected PE should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such clinical RANZCR Choosing Wisely recommendations as succeed it.

Hepatobiliary study (pre-treatment) - item 61360

Item 61360 - the standard hepatobiliary item - also includes allowance of the pre-procedural chologogue administration for preparatory emptying of the gall bladder and also morphine augmentation.

Hepatobiliary study (infusion) - item 61361

Item 61361 applies specifically to a standard hepatobiliary study to which has been added an infusion of chologogue following which acquisition is continued and quantification of gallbladder ejection fraction and/or common bile duct activity time curves are performed.

Whole body studies - items 61426-61438

"Whole body" studies must include the trunk, head and upper and lower limbs down to the elbow and knee joints respectively, whether acquired as multiple overlapping camera views or whole body sweeps (runs) with additional camera views as required. Any study that does not fulfil these criteria is a localised study.

Repeat studies - item 61462

Item 61462 covers repeat planar (whole body or localised) and/or SPECT imaging performed on a separate occasion using the same administration of radiopharmaceutical. The repeat planar and SPECT imaging when performed on a separate occasion using the same administration of radiopharmaceutical should be itemised as item 61462 and the original item and date of service should be indicated for reference purposes.

This item does not apply to bone scans, adrenal studies or gastro-oesophageal reflux studies, myocardial perfusion studies, colonic transit or CFS transport studies, where allowance for performance of the delayed study is incorporated into the baseline benefit fee.

Thyroid study - item 61473

Item 61473 incorporates the measurement of thyroid uptake on a gamma camera using a proven technique, where clinically indicated.

Positron Emission Tomography (PET) - items 61523 to 61647

General

Payment of Medicare rebates for PET services is limited to credentialed specialists or consultant physicians who meet eligibility requirements in the Diagnostic Imaging Services Table Regulations. PET services must be:

- performed under the supervision of:
 - specialist or consultant physician credentialed under the Joint Nuclear Medicine Specialist Credentialling Program for the Recognition of the Credentials of Nuclear Medicine Specialists for Positron Emission Tomography overseen by the Joint Nuclear Medicine Credentialling and Accreditation Committee of the RACP and RANZCR; or
 - practitioner who is a Fellow of either the RACP or RANZCR, and who, prior to 1 November 2011, reported 400 or more studies forming part of PET services for which a Medicare benefit was payable, and who holds a current license from the relevant State radiation licensing body to prescribe and administer the intended PET radiopharmaceuticals to humans;
- provided in a comprehensive facility that can provide a full range of diagnostic imaging services (including PET, CT, X-Ray and diagnostic ultrasound) and cancer treatment services (including chemotherapy, radiation oncology and surgical oncology) at the one site;
- provided using equipment that meets the Requirements for PET Accreditation (Instrumentation & Radiation Safety) 3rd Edition (2017) issued by the Australian and New Zealand Society of Nuclear Medicine Inc; and
- only provided following referral from a recognised specialist or consultant physician.

All PET providers must complete a specific PET provider Statutory Declaration prior to being eligible to claim Medicare rebates. Statutory declarations can be obtained directly from Services Australia.

Whole body FDG PET

In patients with Hodgkin and non- Hodgkin lymphoma (excluding indolent non- Hodgkin lymphoma), whole body FDG PET studies should not be used for surveillance nor for assessment of patients with suspected (as opposed to confirmed) disease recurrence.

Whole body FDG PET studies should be used as an alternative rather than additional to conventional CT scanning.

IN.0.18 Group I5 - Magnetic Resonance Imaging

Itemisation

Items in Group I5 are divided into subgroups defined according to the area of the body to be scanned, (ie head, spine, musculoskeletal system, cardiovascular system or body) and the number of occasions in a defined period in which Medicare benefits may be claimed by a patient. Subgroups are divided into individual items, with each item being for a specific clinical indication.

Eligible services

Items in Subgroups 1 to 21 of Group I5 (other than items 63541 to 63544) apply to a MRI or MRA service performed:

- a. on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment.

Items 63395 to 63397 and the items in Subgroups 19, 20 and 21 (other than items 63455 and 63461) of Group I5 apply to a MRI service performed:

- a. on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with partial eligible equipment.

Items in Subgroup 22 of Group I5 apply to a MRI or MRA service performed:

- a. on request by a medical practitioner, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment or partial eligible equipment.

Items in Subgroups 33 and 34 of Group I5 apply to a MRI service performed

- a. on request by a medical practitioner other than a specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- b. under the professional supervision of an eligible provider; and
- c. with eligible equipment or partial eligible equipment.

Prostate Multiparametric MRI items 63541 to 63544 apply to a service performed:

- a. at the request of a specialist in the speciality of urology, radiation oncology, or medical oncology; and
- b. in a permissible circumstance; and
- c. using:

- eligible equipment; or
- partial eligible equipment.

Requests

A request must identify the clinical indications for the service.

MRI services can only be requested by a recognised specialist medical practitioner or consultant physician for the purposes of the Health Insurance Act 1973. However, there are exceptions to this provision for a limited number of MRI services:

- all dental specialists, prosthodontists, oral and maxillofacial surgeons, oral medicine specialists and oral pathology specialists may request item 63334 - scan of musculoskeletal system for derangement of the temporomandibular joint (s); and
- oral and maxillofacial surgeons and oral medicine and oral pathology specialists can also request item 63007 - scan of the head for skull base or orbital tumour; and
- items in subgroup 33 and 34 may only be requested by a medical practitioner other than a specialist or a consultant physician.

For cardiac MRI items 63395 and 63397 (scan for diagnosis of arrhythmogenic right ventricular cardiomyopathy (ARVC)), the request must specify that ARVC is suspected on the basis of diagnostic criteria endorsed by the Cardiac Society of Australia and New Zealand (CSANZ), in force at the time the service is requested.

Permissible circumstances for performance of service

Benefits are only payable for MRI when performed as follows:

- a. both:
 - under the professional supervision of an eligible provider who is available to monitor and influence the conduct and diagnostic quality of the examination, including, if necessary, by personal attendance on the patient; and
 - reported by an eligible provider; or
- b. if paragraph (a) is not complied with:
 - in an emergency; or
 - because of medical necessity, in a remote location (refer to IN.0.7.)

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Eligible providers

For items in Group I5 (excluding cardiac MRI items 63395 to 63397), an eligible provider is a specialist in diagnostic radiology who satisfies the Chief Executive Medicare (Services Australia) that he or she is a participant of the RANZCR Quality and Accreditation Program.

For cardiac MRI items 63395 to 63397, an eligible provider is a specialist in diagnostic radiology or a consultant physician, who is recognised by the Conjoint Committee for Certification in Cardiac MRI. The conjoint committee is comprised of specialists from RANZCR and the Cardiac Society of Australia and New Zealand (CSANZ).

Eligible equipment is equipment which:

- a. is located at premises of a comprehensive practice; and

- b. is made available to the practice by a person:
 - who is subject to a deed with the Commonwealth that relates to the equipment; and
 - for whom the deed has not been terminated; and
- c. is not identified as partial eligible equipment in the deed

Partial eligible equipment is equipment which:

- a. is located at premises of a comprehensive practice; and
- b. is made available to the practice by a person:
 - who is subject to a deed with the Commonwealth that relates to the equipment; and
 - for whom the deed has not been terminated; and
- c. is identified as partial eligible equipment in the deed

The location of Medicare-eligible MRI machines is available at the Department of Health's website at <http://www.health.gov.au>.

Number of eligible services

Services in subgroups 1, 4, 6, 8, 11 and 18 have no frequency restriction.

Item	MRI or MRA items	Limitation Period	Maximum number of services
1	63040 to 63073	12 months	3
2	63101	12 months	3
3	63125 to 63131	12 months	3
4	63161 to 63185	12 months	3
5	63219 to 63243	12 months	3
6	63271 to 63280	12 months	3
7	63322 to 63340	12 months	3
8	63361	12 months	2
9	63385 to 63391	12 months	2
10	63395	12 months	1
11	63397	36 months	1
12	63401 to 63404	12 months	3
13	63416	12 months	1
14	63425 to 63428	12 months	2
15	63454 to 63467	12 months	1
16	63547	patient's lifetime	1
17	63482	12 months	3
18	63507 to 63522 and 63551 to 63560	12 months	3

Items 63470 or 63473 in subgroup 20 may be claimed only once ever.

Items in subgroup 22 (modifying items) may only be ordered in conjunction with an eligible MRI/MRA service.

Example: Item 63271 in subgroup 10 can be claimed by a patient on three occasions in any 12 month period. If the patient had claimed Medicare benefits for the following:

Item	Date of Service
63271	10/12/04
63271	18/04/05
63271	16/10/05
63271	11/12/05

The following table provides examples of further dates of service would, and would not, be eligible:

Date of Service	Claimable	Why?
12/03/05	No	Between 10/12/04 and 9/12/05, the patient would have had 4 x 63271 in 12 months - 10/12/04, 12/03/05, 18/4/05 and 16/10/05
04/03/06	No	Between 5/03/05 and 4/03/06, the patient would have had 4 x 63271 in 12 months - 18/04/05, 16/10/05, 11/12/05 and 4/03/06
20/04/06	Yes	Between 21/04/05 and 20/04/06, the patient would have had 3 x 63271 in 12 months - 16/10/05, 11/12/05 and 20/04/06

The frequency restrictions are therefore considered to be rolling restrictions and not based on calendar or financial years.

In addition, restrictions on the number of services of the kind described in subgroup 12 apply to specific anatomical sites. Where an item description applies to more than one anatomical site the restriction on the number of services applies to each site.

Item 63328, MRI scan for derangement of the knee or its supporting structures, applies to two specific anatomical sites, ie, right knee and left knee. Each anatomical site may be scanned up to 3 times in any 12-month period.

IN.0.19 Bulk Billing Incentive

Out-of-hospital services (except item 61369) attract higher benefits when they are bulk billed by the provider.

For other than items in Group I5 – Magnetic Resonance Imaging (MRI) - benefits for bulk billed services are payable at 95% of the schedule fee for the item. For MRI services, benefits for bulk billed services are payable at 100% of the schedule for the item.

IN.0.20 Management of bulk-billed services

Additional bulk billing payment for diagnostic imaging services (item 64990 and 64991)

Item 64990 operates in the same way as item 10990 and item 64991 operates in the same way as item 10991, apart from the following differences:

- Item 64990 and 64991 can only be used in conjunction with items in the Diagnostic Imaging Services Table of the MBS;
- Item 64990 and 64991 applies to diagnostic imaging services self-determined by general practitioners and specialists with dual qualifications acting in their capacity as general practitioners;
- Specialists and consultant physicians who provide diagnostic imaging services are not able to claim item 64990 or 64991 unless, for the purposes of the Health Insurance Act 1973, the medical practitioner is also a general practitioner and the service provided by the medical practitioner has not been referred to that practitioner by another medical practitioner or person with referring rights.

DIAGNOSTIC IMAGING SERVICES ITEMS

I1. ULTRASOUND		1. GENERAL
	Group I1. Ultrasound	
	Subgroup 1. General	
	Head, ultrasound scan of (R)	
55028	(See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15	
	Head, ultrasound scan of (NR)	
55029	(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65	
	Orbital contents, ultrasound scan of (R)	
55030	(See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15	
	Orbital contents, ultrasound scan of (NR)	
55031	(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65	
	Neck, one or more structures of, ultrasound scan of (R)	
55032	(See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15	
	Neck, one or more structures of, ultrasound scan of (NR)	
55033	(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65	
	Abdomen, ultrasound scan of (including scan of urinary tract when performed), for morphological assessment, if: (a) the service is not solely a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra; and (b) within 24 hours of the service, a service mentioned in item 55038 is not performed on the same patient by the providing practitioner (R)	
55036	(See para IN.0.19 of explanatory notes to this Category) Fee: \$112.95 Benefit: 75% = \$84.75 85% = \$96.05	
	Abdomen, ultrasound scan of (including scan of urinary tract when performed), for morphological assessment, if the service is not solely a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra (NR)	
55037	(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65	
55038	Urinary tract, ultrasound scan of, if:	

I1. ULTRASOUND	1. GENERAL
	<p>(a) the service is not solely a transrectal ultrasonic examination of any of the following:</p> <p>(i) prostate gland;</p> <p>(ii) bladder base;</p> <p>(iii) urethra; and</p> <p>(b) within 24 hours of the service, a service mentioned in item 55036 or 55065 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15</p>
55039	<p>Urinary tract, ultrasound scan of, if the service is not solely a transrectal ultrasonic examination of any of the following:</p> <p>(a) prostate gland;</p> <p>(b) bladder base;</p> <p>(c) urethra (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65</p>
55048	<p>Scrotum, ultrasound scan of (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$111.15 Benefit: 75% = \$83.40 85% = \$94.50</p>
55049	<p>Scrotum, ultrasound scan of (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65</p>
55054	<p>Ultrasonic cross-sectional echography, in conjunction with a surgical procedure (other than a procedure to which item 55848 or 55850 applies) using interventional techniques, not being a service associated with a service to which any other item in this Group applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15 Extended Medicare Safety Net Cap: \$0.00</p>
55065	<p>Pelvis, ultrasound scan of, by any or all approaches, if:</p> <p>(a) the service is not solely:</p> <p>(i) a service to which an item in Subgroup 5 of this Group applies, or</p> <p>(ii) a transrectal ultrasonic examination of the prostate gland, bladder base and urethra, or any of those organs; and</p> <p>(b) within 24 hours of the service, a service mentioned in item 55038 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$99.70 Benefit: 75% = \$74.80 85% = \$84.75</p>
55066	<p>Breasts, both, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if:</p> <p>(a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and</p>

I1. ULTRASOUND		1. GENERAL
	(b) the service is not performed in conjunction with any other item in this Group (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$221.45 Benefit: 75% = \$166.10 85% = \$188.25	
55068	Pelvis, ultrasound scan of, by any or all approaches, if the service is not solely a service to which an item in Subgroup 5 of this Group applies or a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$35.50 Benefit: 75% = \$26.65 85% = \$30.20	
55070	Breast, one, ultrasound scan of (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$99.70 Benefit: 75% = \$74.80 85% = \$84.75	
55071	Breast, one, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if: (a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and (b) the service is not performed in conjunction with any other item in this group (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$210.45 Benefit: 75% = \$157.85 85% = \$178.90	
55073	Breast, one, ultrasound scan of (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40	
55076	Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15	
55079	Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$38.40 Benefit: 75% = \$28.80 85% = \$32.65	
55084	Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55036, 55038, 55065, 55600 or 55603 is not performed on the same patient by the providing practitioner (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$99.70 Benefit: 75% = \$74.80 85% = \$84.75	
55085	Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55037, 55039, 55068, 55600 or 55603 is not performed on the same patient by the providing practitioner (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40	
I1. ULTRASOUND		2. CARDIAC
	Group I1. Ultrasound	
	Subgroup 2. Cardiac	
55113	M-mode and two-dimensional real time echocardiographic examination of the heart from at least 2 acoustic windows for the investigation of symptoms or signs of cardiac failure, or suspected or known ventricular hypertrophy or dysfunction, or chest pain, if:	

11. ULTRASOUND	2. CARDIAC
	<p>(a) the service involves all of the following: (i) measurement of blood flow velocities across the cardiac valves using pulsed wave and continuous wave Doppler techniques; (ii) real time colour flow mapping from at least 2 acoustic windows; (iii) recordings on video tape or digital media; and (b) the service is not associated with a service to which another item in this Subgroup (except items 55118 and 55130), applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$234.10 Benefit: 75% = \$175.60 85% = \$199.00</p>
55114	<p>M-mode and two dimensional real time echocardiographic examination of the heart from at least 2 acoustic windows for the investigation of suspected or known acquired valvular, aortic, pericardial, thrombotic or embolic disease or heart tumour, if: (a) the service involves all of the following: (i) measurement of blood flow velocities across the cardiac valves using pulsed wave and continuous wave Doppler techniques; (ii) real time colour flow mapping from at least 2 acoustic windows; (iii) recordings on video tape or digital media; and (b) the service is not associated with a service to which another item in this Subgroup (except items 55118 and 55130), applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$234.10 Benefit: 75% = \$175.60 85% = \$199.00</p>
55115	<p>M-mode and two dimensional real time echocardiographic examination of the heart from at least 2 acoustic windows for the investigation of symptoms or signs of congenital heart disease, if: (a) the service involves all of the following: (i) measurement of blood flow velocities across the cardiac valves using pulsed wave and continuous wave Doppler techniques; (ii) real time colour flow mapping from at least 2 acoustic windows; (iii) recordings on video tape or digital media; and (b) the service is not associated with a service to which another item in this Subgroup (except items 55118 and 55130), applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$234.10 Benefit: 75% = \$175.60 85% = \$199.00</p>
55116	<p>Exercise stress echocardiography performed in conjunction with a service mentioned in item 11712, if: (a) the service involves all of the following: (i) two dimensional recordings before exercise (baseline) from at least 3 acoustic windows; (ii) matching recordings from the same windows at, or immediately after, peak exercise; (iii) recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and (b) the service is not associated with a service to which another item in this Subgroup (except items 55118 and 55130), applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$265.55 Benefit: 75% = \$199.20 85% = \$225.75</p>
55117	<p>Pharmacological stress echocardiography performed in conjunction with a service mentioned in item 11712, if: (a) the service involves all of the following: (i) two dimensional recordings before drug infusion (baseline) from at least 3 acoustic windows; (ii) matching recordings from the same windows at least twice during drug infusion, including a recording at the peak drug dose; (iii) recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and</p>

11. ULTRASOUND		2. CARDIAC
	(b) the service is not associated with a service to which another item in this Subgroup (except items 55118 and 55130), applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$265.55 Benefit: 75% = \$199.20 85% = \$225.75	
55118	Heart, two dimensional real time transoesophageal examination of, from at least 2 levels, and in more than one plane at each level, if: (a) the service includes: (i) real time colour flow mapping and, if indicated, pulsed wave Doppler examination; and (ii) recordings on video tape or digital medium; and (b) the service is not an intra operative service (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$279.65 Benefit: 75% = \$209.75 85% = \$237.75	
55130	Intra-operative two-dimensional real time transoesophageal echocardiography incorporating Doppler techniques with colour flow mapping and recording onto video tape or digital medium, performed during cardiac surgery incorporating sequential assessment of cardiac function before and after the surgical procedure, not being a service associated with a service to which item 55135 applies (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$172.55 Benefit: 75% = \$129.45 85% = \$146.70	
55135	Intra-operative two-dimensional real time transoesophageal echocardiography incorporating Doppler techniques with colour flow mapping and recording onto video tape or digital medium, performed during cardiac valve surgery (replacement or repair) incorporating sequential assessment of cardiac function and valve competence before and after the surgical procedure, not being a service associated with a service to which item 55130 applies (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10	
11. ULTRASOUND		3. VASCULAR
	Group 11. Ultrasound	
		Subgroup 3. Vascular
55238	Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or bypass grafts in the lower limb or of arteries and bypass grafts in the lower limb, below the inguinal ligament, not being a service associated with any of the following: (a) a service to which an item in Subgroup 4 applies; (b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25	
55244	Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the lower limb, below the inguinal ligament, for acute venous thrombosis, not being a service associated with any of the following: (a) a service to which item 55246 applies; (b) a service to which an item in Subgroup 4 applies; (c) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R) (See para IN.0.19 of explanatory notes to this Category)	

11. ULTRASOUND		3. VASCULAR
	Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25	
55246	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the lower limb, below the inguinal ligament, for chronic venous disease, not being a service associated with any of the following:</p> <p>(a) a service to which item 55244 applies;</p> <p>(b) a service to which an item in Subgroup 4 applies;</p> <p>(c) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55248	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or bypass grafts in the upper limb or of arteries and bypass grafts in the upper limb, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55252	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of veins in the upper limb, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55274	<p>Duplex scanning, bilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of extra cranial bilateral carotid and vertebral vessels, with or without subclavian and innominate vessels, with or without oculoplethysmography or peri orbital Doppler examination, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55276	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of intra-abdominal, aorta and iliac arteries or inferior vena cava and iliac veins or of intra-abdominal, aorta and iliac arteries and inferior vena cava and iliac veins, excluding pregnancy related studies, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55278	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of renal or visceral vessels or of renal and visceral vessels, including aorta, inferior vena cava and iliac vessels as required excluding pregnancy related studies, not being a service</p>	

11. ULTRASOUND	3. VASCULAR
	<p>associated with any of the following: (a) a service to which an item in Subgroup 4 applies; (b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>
55280	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of intra cranial vessels, not being a service associated with any of the following: (a) a service to which an item in Subgroup 4 applies; (b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>
55282	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements: (a) by spectral analysis of cavernosal artery of the penis following intracavernosal administration of a vasoactive agent; and (b) performed during the period of pharmacological activity of the injected agent, to confirm a diagnosis of vascular aetiology for impotence; and (c) if a specialist in diagnostic radiology, nuclear medicine, urology, general surgery (sub specialising in vascular surgery) or a consultant physician in nuclear medicine attends the patient in person at the practice location where the service is performed, immediately before or for a period during the performance of the service; and (d) if the specialist or consultant physician interprets the results and prepares a report, not being a service associated with any of the following: (i) a service to which an item in Subgroup 4 applies; (ii) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>
55284	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements: (a) by spectral analysis of cavernosal tissue of the penis to confirm a diagnosis; and (b) if indicated, assess the progress and management of: (i) priapism; or (ii) fibrosis of any type; or (iii) fracture of the tunica; or (iv) arteriovenous malformations; and (c) if a specialist in diagnostic radiology, nuclear medicine, urology, general surgery (sub specialising in vascular surgery) or a consultant physician in nuclear medicine attends the patient in person at the practice location where the service is performed, immediately before or for a period during the performance of the service; and (d) if the specialist or consultant physician interprets the results and prepares a report, not being a service associated with any of the following: (i) a service to which an item in Subgroup 4 applies; (ii) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>
55292	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of surgically created arteriovenous fistula or surgically created arteriovenous access grafts in the upper or lower limbs, not being a service associated with any of the</p>

I1. ULTRASOUND		3. VASCULAR
	<p>following:</p> <p>(a) a service to which an item in Subgroup 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55294	<p>Duplex scanning involving B mode ultrasound imaging and integrated Doppler flow measurements by spectral analysis of arteries or veins, or both, including any associated skin marking, for mapping of bypass conduit before vascular surgery, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 3 or 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
55296	<p>Duplex scanning, unilateral, involving B mode ultrasound imaging and integrated Doppler flow spectral analysis and marking of veins in the lower limbs below the inguinal ligament before varicose vein surgery, including any associated skin marking, not being a service associated with any of the following:</p> <p>(a) a service to which an item in Subgroup 3 or 4 applies;</p> <p>(b) a service to which item 55880, 55881, 55882, 55883, 55884, 55885, 55886, 55887, 55888, 55889, 55890, 55891, 55892, 55893, 55894 or 55895 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$112.70 Benefit: 75% = \$84.55 85% = \$95.80</p>	
I1. ULTRASOUND		4. UROLOGICAL
	Group I1. Ultrasound	
		Subgroup 4. Urological
55600	<p>Prostate, bladder base and urethra, ultrasound scan of, if performed:</p> <p>(a) personally by a medical practitioner (not being the medical practitioner who assessed the patient as specified in paragraph (c)) using one or more transducer probes that can obtain both axial and sagittal scans in 2 planes at right angles; and</p> <p>(b) after a digital rectal examination of the prostate by that medical practitioner; and</p> <p>(c) on a patient who has been assessed by:</p> <p>(i) a specialist in urology, radiation oncology or medical oncology; or</p> <p>(ii) a consultant physician in medical oncology;</p> <p>who has:</p> <p>(iii) examined the patient in the 60 days before the scan; and</p> <p>(iv) recommended the scan for the management of the patient's current prostatic disease</p> <p>(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15</p>	
55603	<p>Prostate, bladder base and urethra, ultrasound scan of, if performed:</p> <p>(a) personally by a medical practitioner who made the assessment mentioned in paragraph (c) using one or more transducer probes that can obtain both axial and sagittal scans in 2 planes at right angles; and</p> <p>(b) after a digital rectal examination of the prostate by that medical practitioner; and</p> <p>(c) on a patient who has been assessed by:</p> <p>(i) a specialist in urology, radiation oncology or medical oncology; or</p> <p>(ii) a consultant physician in medical oncology;</p> <p>who has:</p> <p>(iii) examined the patient in the 60 days before the scan; and</p>	

I1. ULTRASOUND		4. UROLOGICAL
	(iv) recommended the scan for the management of the patient's current prostatic disease (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$110.75 Benefit: 75% = \$83.10 85% = \$94.15	
I1. ULTRASOUND		5. OBSTETRIC AND GYNAECOLOGICAL
	Group I1. Ultrasound	
	Subgroup 5. Obstetric And Gynaecological	
	Pelvis or abdomen, pregnancy related or pregnancy complication, ultrasound scan of, by any or all approaches, for determining the gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is less than 12 weeks of gestation (R)	
55700	(See para IN.0.19 of explanatory notes to this Category) Fee: \$60.90 Benefit: 75% = \$45.70 85% = \$51.80 Extended Medicare Safety Net Cap: \$32.95	
55703	Pelvis or abdomen, pregnancy related or pregnancy complication, ultrasound scan of, by any or all approaches, for determining the gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is less than 12 weeks of gestation (NR)	
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$35.50 Benefit: 75% = \$26.65 85% = \$30.20 Extended Medicare Safety Net Cap: \$16.55	
55704	Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, for determining the structure, gestation, location, viability	

11. ULTRASOUND	5. OBSTETRIC AND GYNAECOLOGICAL
	<p>or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is 12 to 16 weeks of gestation (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$71.05 Benefit: 75% = \$53.30 85% = \$60.40 Extended Medicare Safety Net Cap: \$38.50</p>
55705	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, for determining the structure, gestation, location, viability or number of foetuses, if the dating of the pregnancy (as confirmed by ultrasound) is 12 to 16 weeks of gestation (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$35.50 Benefit: 75% = \$26.65 85% = \$30.20 Extended Medicare Safety Net Cap: \$16.55</p>
55706	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, with measurement of all parameters for dating purposes, if: (a) the dating for the pregnancy (as confirmed by ultrasound) is 17 to 22 weeks of gestation; and (b) the service is not performed in the same pregnancy as item 55709 (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$101.50 Benefit: 75% = \$76.15 85% = \$86.30 Extended Medicare Safety Net Cap: \$54.90</p>
55707	<p>Pelvis or abdomen, pregnancy related or pregnancy complication, fetal development and anatomy, ultrasound scan of, by any or all approaches, if: (a) the pregnancy (as confirmed by ultrasound) is dated by a fetal crown rump length of 45 to 84 mm; and (b) nuchal translucency measurement is performed to assess the risk of fetal abnormality; and (c) the service is not performed with item 55700, 55703, 55704 or 55705 on the same patient within 24 hours (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$71.05 Benefit: 75% = \$53.30 85% = \$60.40 Extended Medicare Safety Net Cap: \$38.50</p>

I2. COMPUTED TOMOGRAPHY		7. EXTREMITIES
	being a service to which item 56620 applies (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$223.30 Benefit: 75% = \$167.50 85% = \$189.85	
56630	Computed tomography—scan of upper limb and lower limb, left or right or both, any one region (other than knee), or more than one region (which may include knee) with intravenous contrast medium with any scans of the limbs before intravenous contrast injection, when performed, not being a service to which item 56626 applies (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$339.65 Benefit: 75% = \$254.75 85% = \$288.75	
I2. COMPUTED TOMOGRAPHY		8. CHEST, ABDOMEN, PELVIS AND NECK
	Group I2. Computed Tomography	
	Subgroup 8. Chest, abdomen, pelvis and neck	
56801	Computed tomography—scan of chest, abdomen and pelvis with or without scans of soft tissues of neck without intravenous contrast medium, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.55 Benefit: 75% = \$355.20 85% = \$402.55	
56807	Computed tomography—scan of chest, abdomen and pelvis with or without scans of soft tissues of neck with intravenous contrast medium and with any scans of chest, abdomen and pelvis with or without scans of soft tissue of neck before intravenous contrast injection, when performed, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$568.40 Benefit: 75% = \$426.30 85% = \$483.70	
I2. COMPUTED TOMOGRAPHY		9. BRAIN, CHEST AND UPPER ABDOMEN
	Group I2. Computed Tomography	
	Subgroup 9. Brain, chest and upper abdomen	
57001	Computed tomography—scan of brain and chest with or without scans of upper abdomen without intravenous contrast medium, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.65 Benefit: 75% = \$355.25 85% = \$402.65	
57007	Computed tomography—scan of brain and chest with or without scans of upper abdomen with intravenous contrast medium and with any scans of brain and chest and upper abdomen before intravenous contrast injection, when performed, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$576.25 Benefit: 75% = \$432.20 85% = \$491.55	
I2. COMPUTED TOMOGRAPHY		10. PELVIMETRY
	Group I2. Computed Tomography	
	Subgroup 10. Pelvimetry	

I2. COMPUTED TOMOGRAPHY		10. PELVIMETRY
57201	<p>Computed tomography—pelvimetry (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$157.55 Benefit: 75% = \$118.20 85% = \$133.95</p>	
I2. COMPUTED TOMOGRAPHY		11. INTERVENTIONAL TECHNIQUES
	Group I2. Computed Tomography	
		Subgroup 11. Interventional techniques
57341	<p>Computed tomography, in conjunction with a surgical procedure using interventional techniques (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$477.05 Benefit: 75% = \$357.80 85% = \$405.50</p>	
I2. COMPUTED TOMOGRAPHY		12. SPIRAL ANGIOGRAPHY
	Group I2. Computed Tomography	
		Subgroup 12. Spiral angiography
57351	<p>Computed tomography—angiography with intravenous contrast medium, including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(a) the service is not a service to which another item in this group applies; and</p> <p>(b) the service is performed for the exclusion of acute or recurrent pulmonary embolism, acute symptomatic arterial occlusion, post-operative complication of arterial surgery, acute ruptured aneurysm, or acute dissection of the aorta, carotid or vertebral artery; and</p> <p>(c) a service to which item 57352, 57353 or 57354 applies has been performed on the same patient within the previous 12 months; and</p> <p>(d) the service is not a study performed to image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$517.65 Benefit: 75% = \$388.25 85% = \$440.05</p>	
57352	<p>Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of:</p> <p>(a) the arch of the aorta; or</p> <p>(b) the carotid arteries; or</p> <p>(c) the vertebral arteries and their branches (head and neck);</p> <p>including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(d) either:</p> <p>(i) the service is requested by a specialist or consultant physician; or</p> <p>(ii) the service is requested by a general practitioner and the request indicates that the patient's case has</p>	

12. COMPUTED TOMOGRAPHY

12. SPIRAL ANGIOGRAPHY

	<p>been discussed with a specialist or consultant physician; and</p> <p>(e) the service is not a service to which another item in this group applies; and</p> <p>(f) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and</p> <p>(g) the service is not a study performed to image the coronary arteries (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$517.65 Benefit: 75% = \$388.25 85% = \$440.05</p>
57353	<p>Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of:</p> <p>(a) the ascending and descending aorta; or</p> <p>(b) the common iliac and abdominal branches including upper limbs (chest, abdomen and upper limbs);</p> <p>including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(c) either:</p> <p>(i) the service is requested by a specialist or consultant physician; or</p> <p>(ii) the service is requested by a general practitioner and the request indicates that the patient’s case has been discussed with a specialist or consultant physician; and</p> <p>(d) the service is not a service to which another item in this group applies; and</p> <p>(e) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and</p> <p>(f) the service is not a study performed to image the coronary arteries (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$517.65 Benefit: 75% = \$388.25 85% = \$440.05</p>
57354	<p>Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of:</p> <p>(a) the descending aorta; or</p> <p>(b) the pelvic vessels (aorto-iliac segment) and lower limbs;</p> <p>including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(c) either:</p> <p>(i) the service is requested by a specialist or consultant physician; or</p> <p>(ii) the service is requested by a general practitioner and the request indicates that the patient’s case has been discussed with a specialist or consultant physician; and</p> <p>(d) the service is not a service to which another item in this group applies; and</p> <p>(e) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and</p>

I2. COMPUTED TOMOGRAPHY		12. SPIRAL ANGIOGRAPHY
	(f) the service is not a study performed to image the coronary arteries (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$517.65 Benefit: 75% = \$388.25 85% = \$440.05	
57360	Computed tomography of the coronary arteries performed on a minimum of a 64 slice (or equivalent) scanner if: (a) the request is made by a specialist or consultant physician; and (b) one of the following subparagraphs applies to the patient: (i) the patient has stable symptoms consistent with coronary ischaemia, is at low to intermediate risk of coronary artery disease and would have been considered for coronary angiography; (ii) the patient requires exclusion of coronary artery anomaly or fistula; (iii) the patient will be undergoing non coronary cardiac surgery (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$710.50 Benefit: 75% = \$532.90 85% = \$625.80	
I2. COMPUTED TOMOGRAPHY		13. CONE BEAM COMPUTED TOMOGRAPHY
	Group I2. Computed Tomography	
	Subgroup 13. Cone beam computed tomography	
57362	Cone beam computed tomography—dental and temporo mandibular joint imaging (without contrast medium) for diagnosis and management of any of the following: (a) mandibular and dento alveolar fractures; (b) dental implant planning; (c) orthodontics; (d) endodontic conditions; (e) periodontal conditions; (f) temporo mandibular joint conditions Applicable once per patient per day, not being for a service to which any of items 57960 to 57969 apply, and not being a service associated with another service in Group I2 (R) (Anaes.) Fee: \$114.85 Benefit: 75% = \$86.15 85% = \$97.65	
I3. DIAGNOSTIC RADIOLOGY		1. RADIOGRAPHIC EXAMINATION OF EXTREMITIES
	Group I3. Diagnostic Radiology	
	Subgroup 1. Radiographic Examination Of Extremities	
57506	Hand, wrist, forearm, elbow or humerus (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$30.20 Benefit: 75% = \$22.65 85% = \$25.70	
57509	Hand, wrist, forearm, elbow or humerus (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$40.35 Benefit: 75% = \$30.30 85% = \$34.30	
57512	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$41.10 Benefit: 75% = \$30.85 85% = \$34.95	
57515	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (R) (See para IN.0.19 of explanatory notes to this Category)	

I3. DIAGNOSTIC RADIOLOGY		1. RADIOGRAPHIC EXAMINATION OF EXTREMITIES
	Fee: \$54.80 Benefit: 75% = \$41.10 85% = \$46.60	
	Foot, ankle, leg or femur (NR) (See para IN.0.19 of explanatory notes to this Category)	
57518	Fee: \$33.00 Benefit: 75% = \$24.75 85% = \$28.05	
	Foot, ankle, leg or femur (R) (See para IN.0.19 of explanatory notes to this Category)	
57521	Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
	Knee (NR) (See para IN.0.19 of explanatory notes to this Category)	
57522	Fee: \$33.00 Benefit: 75% = \$24.75 85% = \$28.05	
	Knee (R) (See para IN.0.19 of explanatory notes to this Category)	
57523	Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (NR) (See para IN.0.19 of explanatory notes to this Category)	
57524	Fee: \$50.15 Benefit: 75% = \$37.65 85% = \$42.65	
	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (R) (See para IN.0.19 of explanatory notes to this Category)	
57527	Fee: \$66.75 Benefit: 75% = \$50.10 85% = \$56.75	
I3. DIAGNOSTIC RADIOLOGY		2. RADIOGRAPHIC EXAMINATION OF SHOULDER OR PELVIS
	Group I3. Diagnostic Radiology	
	Subgroup 2. Radiographic Examination Of Shoulder Or Pelvis	
	Shoulder or scapula (NR) (See para IN.0.19 of explanatory notes to this Category)	
57700	Fee: \$41.10 Benefit: 75% = \$30.85 85% = \$34.95	
	Shoulder or scapula (R) (See para IN.0.19 of explanatory notes to this Category)	
57703	Fee: \$54.80 Benefit: 75% = \$41.10 85% = \$46.60	
	Clavicle (NR) (See para IN.0.19 of explanatory notes to this Category)	
57706	Fee: \$33.00 Benefit: 75% = \$24.75 85% = \$28.05	
	Clavicle (R) (See para IN.0.19 of explanatory notes to this Category)	
57709	Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
	Hip joint (R) (See para IN.0.19 of explanatory notes to this Category)	
57712	Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70	
57715	Pelvic girdle (R)	

I3. DIAGNOSTIC RADIOLOGY		2. RADIOGRAPHIC EXAMINATION OF SHOULDER OR PELVIS	
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$61.80 Benefit: 75% = \$46.35 85% = \$52.55		
57721	Femur, internal fixation of neck or intertrochanteric (pertrochanteric) fracture (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$100.75 Benefit: 75% = \$75.60 85% = \$85.65		
I3. DIAGNOSTIC RADIOLOGY		3. RADIOGRAPHIC EXAMINATION OF HEAD	
	Group I3. Diagnostic Radiology		
	Subgroup 3. Radiographic Examination Of Head		
57901	Skull, not in association with item 57902 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$65.45 Benefit: 75% = \$49.10 85% = \$55.65		
57902	Cephalometry, not in association with item 57901 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$65.45 Benefit: 75% = \$49.10 85% = \$55.65		
57905	Mastoids or petrous temporal bones (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$65.45 Benefit: 75% = \$49.10 85% = \$55.65		
57907	Sinuses or facial bones – orbit, maxilla or malar, any or all (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.00 Benefit: 75% = \$36.00 85% = \$40.80		
57915	Mandible, not by orthopantomography technique (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70		
57918	Salivary calculus (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70		
57921	Nose (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70		
57924	Eye (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70		
57927	Temporo mandibular joints (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$50.40 Benefit: 75% = \$37.80 85% = \$42.85		

I3. DIAGNOSTIC RADIOLOGY		3. RADIOGRAPHIC EXAMINATION OF HEAD
57930	Teeth—single area (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$33.40 Benefit: 75% = \$25.05 85% = \$28.40	
57933	Teeth - full mouth (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$79.40 Benefit: 75% = \$59.55 85% = \$67.50	
57939	Palato pharyngeal studies with fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$65.45 Benefit: 75% = \$49.10 85% = \$55.65	
57942	Palato pharyngeal studies without fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$50.40 Benefit: 75% = \$37.80 85% = \$42.85	
57945	Larynx, lateral airways and soft tissues of the neck, not being a service associated with a service to which item 57939 or 57942 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
57960	Orthopantomography for diagnosis or management (or both) of trauma, infection, tumour or a congenital or surgical condition of the teeth or maxillofacial region (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.10 Benefit: 75% = \$36.10 85% = \$40.90	
57963	Orthopantomography for diagnosis or management (or both) of any of the following conditions, if the signs and symptoms of the condition is present: (a) impacted teeth; (b) caries; (c) periodontal pathology; (d) periapical pathology (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.10 Benefit: 75% = \$36.10 85% = \$40.90	
57966	Orthopantomography for diagnosis or management (or both) of missing or crowded teeth, or developmental anomalies of the teeth or jaws (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.10 Benefit: 75% = \$36.10 85% = \$40.90	
57969	Orthopantomography for diagnosis or management (or both) of temporo mandibular joint arthroses or dysfunction (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.10 Benefit: 75% = \$36.10 85% = \$40.90	
I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE
	Group I3. Diagnostic Radiology	
	Subgroup 4. Radiographic Examination Of Spine	
58100	Spine—cervical (R) (See para IN.0.19 of explanatory notes to this Category)	

I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE	
	Fee: \$68.15	Benefit: 75% = \$51.15	85% = \$57.95
	Spine—thoracic (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58103	Fee: \$55.95	Benefit: 75% = \$42.00	85% = \$47.60
	Spine—lumbosacral (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58106	Fee: \$78.15	Benefit: 75% = \$58.65	85% = \$66.45
	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58108	Fee: \$111.65	Benefit: 75% = \$83.75	85% = \$94.95
	Spine—sacrococcygeal (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58109	Fee: \$47.70	Benefit: 75% = \$35.80	85% = \$40.55
	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i>		
	Spine—2 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58112	Fee: \$98.70	Benefit: 75% = \$74.05	85% = \$83.90
	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i>		
	Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R)		
	(See para IN.0.19 of explanatory notes to this Category)		
58115	Fee: \$111.65	Benefit: 75% = \$83.75	85% = \$94.95
	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R)		
58120	Fee: \$111.65	Benefit: 75% = \$83.75	85% = \$94.95
	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i>		
	Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R)		
58121	Fee: \$111.65	Benefit: 75% = \$83.75	85% = \$94.95
I3. DIAGNOSTIC RADIOLOGY		5. BONE AGE STUDY AND SKELETAL SURVEYS	
	Group I3. Diagnostic Radiology		
	Subgroup 5. Bone Age Study And Skeletal Surveys		

I3. DIAGNOSTIC RADIOLOGY		5. BONE AGE STUDY AND SKELETAL SURVEYS
58300	Bone age study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$40.70 Benefit: 75% = \$30.55 85% = \$34.60	
58306	Skeletal survey (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$90.75 Benefit: 75% = \$68.10 85% = \$77.15	
I3. DIAGNOSTIC RADIOLOGY		6. RADIOGRAPHIC EXAMINATION OF THORACIC REGION
	Group I3. Diagnostic Radiology	
	Subgroup 6. Radiographic Examination Of Thoracic Region	
58500	Chest (lung fields) by direct radiography (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$35.90 Benefit: 75% = \$26.95 85% = \$30.55	
58503	Chest (lung fields) by direct radiography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70	
58506	Chest (lung fields) by direct radiography with fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$61.65 Benefit: 75% = \$46.25 85% = \$52.45	
58509	Thoracic inlet or trachea (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$40.35 Benefit: 75% = \$30.30 85% = \$34.30	
58521	Left ribs, right ribs or sternum (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
58524	Left and right ribs, left ribs and sternum, or right ribs and sternum (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$57.35 Benefit: 75% = \$43.05 85% = \$48.75	
58527	Left ribs, right ribs and sternum (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$70.45 Benefit: 75% = \$52.85 85% = \$59.90	
I3. DIAGNOSTIC RADIOLOGY		7. RADIOGRAPHIC EXAMINATION OF URINARY TRACT
	Group I3. Diagnostic Radiology	
	Subgroup 7. Radiographic Examination Of Urinary Tract	
58700	Plain renal only (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$46.75 Benefit: 75% = \$35.10 85% = \$39.75	

13. DIAGNOSTIC RADIOLOGY		7. RADIOGRAPHIC EXAMINATION OF URINARY TRACT
58706	Intravenous pyelography, with or without preliminary plain films and with or without tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$160.25 Benefit: 75% = \$120.20 85% = \$136.25	
58715	Antegrade or retrograde pyelography with or without preliminary plain films and with preparation and contrast injection, one side (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$153.80 Benefit: 75% = \$115.35 85% = \$130.75	
58718	Retrograde cystography or retrograde urethrography with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$128.00 Benefit: 75% = \$96.00 85% = \$108.80	
58721	Retrograde micturating cysto urethrography, with preparation and contrast injection (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$140.30 Benefit: 75% = \$105.25 85% = \$119.30	
13. DIAGNOSTIC RADIOLOGY		8. RADIOGRAPHIC EXAMINATION OF ALIMENTARY TRACT AND BILIARY SYSTEM
	Group 13. Diagnostic Radiology	
	Subgroup 8. Radiographic Examination Of Alimentary Tract And Biliary System	
58900	Plain abdominal only, not being a service associated with a service to which item 58909, 58912 or 58915 applies (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$36.25 Benefit: 75% = \$27.20 85% = \$30.85	
58903	Plain abdominal only, not being a service associated with a service to which item 58909, 58912 or 58915 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.30 Benefit: 75% = \$36.25 85% = \$41.10	
58909	Barium or other opaque meal of one or more of pharynx, oesophagus, stomach or duodenum, with or without preliminary plain films of pharynx, chest or duodenum, not being a service associated with a service to which item 57939, 57942 or 57945 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$91.30 Benefit: 75% = \$68.50 85% = \$77.65	
58912	Barium or other opaque meal of oesophagus, stomach, duodenum and follow through to colon, with or without screening of chest and with or without preliminary plain film (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$111.90 Benefit: 75% = \$83.95 85% = \$95.15	
58915	Barium or other opaque meal, small bowel series only, with or without preliminary plain film (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$80.15 Benefit: 75% = \$60.15 85% = \$68.15	
58916	Small bowel enema, barium or other opaque study of the small bowel, including duodenal intubation, with or without preliminary plain films, not being a service associated with a service to which item 30488 applies (R) (Anaes.)	

I3. DIAGNOSTIC RADIOLOGY		8. RADIOGRAPHIC EXAMINATION OF ALIMENTARY TRACT AND BILIARY SYSTEM
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$140.60 Benefit: 75% = \$105.45 85% = \$119.55	
58921	Opaque enema, with or without air contrast study and with or without preliminary plain films (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$137.30 Benefit: 75% = \$103.00 85% = \$116.75	
58927	Cholegraphy direct, with or without preliminary plain films and with preparation and contrast injection, not being a service associated with a service to which item 30439 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$77.60 Benefit: 75% = \$58.20 85% = \$66.00	
58933	Cholegraphy, percutaneous transhepatic, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$208.70 Benefit: 75% = \$156.55 85% = \$177.40	
58936	Cholegraphy, drip infusion, with or without preliminary plain films, with preparation and contrast injection and with or without tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$198.90 Benefit: 75% = \$149.20 85% = \$169.10	
58939	Defaecogram (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$141.40 Benefit: 75% = \$106.05 85% = \$120.20	
I3. DIAGNOSTIC RADIOLOGY		9. RADIOGRAPHIC EXAMINATION FOR LOCALISATION OF FOREIGN BODIES
	Group I3. Diagnostic Radiology	
	Subgroup 9. Radiographic Examination For Localisation Of Foreign Bodies	
59103	Localisation of foreign body, if provided in conjunction with a service described in Subgroups 1 to 12 of Group I3 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$21.60 Benefit: 75% = \$16.20 85% = \$18.40	
I3. DIAGNOSTIC RADIOLOGY		10. RADIOGRAPHIC EXAMINATION OF BREASTS
	Group I3. Diagnostic Radiology	
	Subgroup 10. Radiographic Examination Of Breasts	
59300	Mammography of both breasts if there is reason to suspect the presence of malignancy because of: (a) the past occurrence of breast malignancy in the patient; or (b) significant history of breast or ovarian malignancy in the patient's family; or (c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner (R) (Note: These items are intended for use in the investigation of a clinical abnormality of the breast/s and	

13. DIAGNOSTIC RADIOLOGY

10. RADIOGRAPHIC EXAMINATION OF BREASTS

	<p>NOT for individual, group or opportunistic screening of asymptomatic patients)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$90.85 Benefit: 75% = \$68.15 85% = \$77.25</p>
59302	<p>Three dimensional tomosynthesis of both breasts, if there is reason to suspect the presence of malignancy because of:</p> <ul style="list-style-type: none"> a) the past occurrence of breast malignancy in the patient; or b) significant history of breast or ovarian malignancy in the patient’s family; or c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner <p>Not being a service to which item 59300 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$205.05 Benefit: 75% = \$153.80 85% = \$174.30</p>
59303	<p>Mammography of one breast if:</p> <ul style="list-style-type: none"> (a) the service is specifically requested for a unilateral mammogram; and (b) there is reason to suspect the presence of malignancy because of: <ul style="list-style-type: none"> (i) the past occurrence of breast malignancy in the patient; or (ii) significant history of breast or ovarian malignancy in the patient’s family; or (iii) symptoms or indications of breast disease found on examination of the patient by a medical practitioner (R) <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$54.75 Benefit: 75% = \$41.10 85% = \$46.55</p>
59305	<p>Three dimensional tomosynthesis of one breast, if there is reason to suspect the presence of malignancy because of:</p> <ul style="list-style-type: none"> a) the past occurrence of breast malignancy in the patient; or b) significant history of breast or ovarian malignancy in the patient’s family; or c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner <p>Not being a service to which item 59303 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$115.70 Benefit: 75% = \$86.80 85% = \$98.35</p>

13. DIAGNOSTIC RADIOLOGY		10. RADIOGRAPHIC EXAMINATION OF BREASTS
59312	Radiographic examination of both breasts, in conjunction with a surgical procedure on each breast, using interventional techniques (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$88.30 Benefit: 75% = \$66.25 85% = \$75.10	
59314	Radiographic examination of one breast, in conjunction with a surgical procedure using interventional techniques (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$53.30 Benefit: 75% = \$40.00 85% = \$45.35	
59318	Radiographic examination of excised breast tissue to confirm satisfactory excision of one or more lesions in one breast or both following pre-operative localisation in conjunction with a service under item 31536 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.75 Benefit: 75% = \$35.85 85% = \$40.60	
13. DIAGNOSTIC RADIOLOGY		12. RADIOGRAPHIC EXAMINATION WITH OPAQUE OR CONTRAST MEDIA
	Group 13. Diagnostic Radiology	
	Subgroup 12. Radiographic Examination With Opaque Or Contrast Media	
59700	Discography, each disc, with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$98.00 Benefit: 75% = \$73.50 85% = \$83.30	
59703	Dacryocystography, one side, with or without preliminary plain film and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$77.05 Benefit: 75% = \$57.80 85% = \$65.50	
59712	Hysterosalpingography, with or without preliminary plain films and with preparation and contrast injection (R)(Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$115.40 Benefit: 75% = \$86.55 85% = \$98.10	
59715	Bronchography, one side, with or without preliminary plain films and with preparation and contrast injection, on a person under 16 years of age (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$145.70 Benefit: 75% = \$109.30 85% = \$123.85	
59718	Phlebography, one side, with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$136.65 Benefit: 75% = \$102.50 85% = \$116.20	
59724	Myelography, one or more regions, with or without preliminary plain films and with preparation and contrast injection, not being a service associated with a service to which item 56219 applies (R)(Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$229.85 Benefit: 75% = \$172.40 85% = \$195.40	

13. DIAGNOSTIC RADIOLOGY		12. RADIOGRAPHIC EXAMINATION WITH OPAQUE OR CONTRAST MEDIA
59733	Sialography, one side, with preparation and contrast injection, not being a service associated with a service to which item 57918 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$109.30 Benefit: 75% = \$82.00 85% = \$92.95	
59739	Sinogram or fistulogram, one or more regions, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$74.85 Benefit: 75% = \$56.15 85% = \$63.65	
59751	Arthrography, each joint, excluding the facet (zygapophyseal) joints of the spine, single or double contrast study, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$141.25 Benefit: 75% = \$105.95 85% = \$120.10	
59754	Lymphangiography, one or both sides, with preliminary plain films and follow-up radiography and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$222.65 Benefit: 75% = \$167.00 85% = \$189.30	
59763	Air insufflation during video—fluoroscopic imaging including associated consultation (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$135.90 Benefit: 75% = \$101.95 85% = \$115.55	
13. DIAGNOSTIC RADIOLOGY		13. ANGIOGRAPHY
	Group 13. Diagnostic Radiology	
	Subgroup 13. Angiography	
59903	Angiocardiography, including the service mentioned in item 59970 or 61109, not being a service to which item 59912 or 59925 applies (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$116.25 Benefit: 75% = \$87.20 85% = \$98.85	
59912	Selective coronary arteriography, including the service mentioned in item 59970 or 61109, not being a service to which item 59903 or 59925 applies (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$309.80 Benefit: 75% = \$232.35 85% = \$263.35	
59925	Selective coronary arteriography and angiocardiography, including a service mentioned in item 59903, 59912, 59970 or 61109 (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$367.90 Benefit: 75% = \$275.95 85% = \$312.75	
59970	Angiography or digital subtraction angiography, or both, with fluoroscopy and image acquisition, using a mobile image intensifier, including any preliminary plain films, preparation and contrast injection— one or more regions (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$170.80 Benefit: 75% = \$128.10 85% = \$145.20	
60000	Digital subtraction angiography, examination of head and neck with or without arch aortography—1 to 3 data acquisition runs (R) (Anaes.)	

I3. DIAGNOSTIC RADIOLOGY	13. ANGIOGRAPHY
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75
60003	Digital subtraction angiography, examination of head and neck with or without arch aortography—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80
60006	Digital subtraction angiography, examination of head and neck with or without arch aortography—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05
60009	Digital subtraction angiography, examination of head and neck with or without arch aortography—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25
60012	Digital subtraction angiography, examination of thorax—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75
60015	Digital subtraction angiography, examination of thorax—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80
60018	Digital subtraction angiography, examination of thorax—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05
60021	Digital subtraction angiography, examination of thorax—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25
60024	Digital subtraction angiography, examination of abdomen—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75
60027	Digital subtraction angiography, examination of abdomen—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80
60030	Digital subtraction angiography, examination of abdomen—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05
60033	Digital subtraction angiography, examination of abdomen—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25
60036	Digital subtraction angiography, examination of upper limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)

13. DIAGNOSTIC RADIOLOGY		13. ANGIOGRAPHY
	Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75	
60039	Digital subtraction angiography, examination of upper limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80	
60042	Digital subtraction angiography, examination of upper limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05	
60045	Digital subtraction angiography, examination of upper limb or limbs—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25	
60048	Digital subtraction angiography, examination of lower limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75	
60051	Digital subtraction angiography, examination of lower limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80	
60054	Digital subtraction angiography, examination of lower limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05	
60057	Digital subtraction angiography, examination of lower limb or limbs—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25	
60060	Digital subtraction angiography, examination of aorta and lower limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$572.45 Benefit: 75% = \$429.35 85% = \$487.75	
60063	Digital subtraction angiography, examination of aorta and lower limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$839.50 Benefit: 75% = \$629.65 85% = \$754.80	
60066	Digital subtraction angiography, examination of aorta and lower limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,193.75 Benefit: 75% = \$895.35 85% = \$1109.05	
60069	Digital subtraction angiography, examination of aorta and lower limb or limbs—10 or more data acquisition runs (R) (Anaes.)	

I3. DIAGNOSTIC RADIOLOGY		13. ANGIOGRAPHY
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$1,396.95 Benefit: 75% = \$1047.75 85% = \$1312.25	
60072	Selective arteriography or selective venography by digital subtraction angiography technique—one vessel (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$48.80 Benefit: 75% = \$36.60 85% = \$41.50	
60075	Selective arteriography or selective venography by digital subtraction angiography technique—2 vessels (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$97.55 Benefit: 75% = \$73.20 85% = \$82.95	
60078	Selective arteriography or selective venography by digital subtraction angiography technique—3 or more vessels (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$146.40 Benefit: 75% = \$109.80 85% = \$124.45	
I3. DIAGNOSTIC RADIOLOGY		15. FLUOROSCOPIC EXAMINATION
	Group I3. Diagnostic Radiology	
	Subgroup 15. Fluoroscopic Examination	
60500	Fluoroscopy, with general anaesthesia (not being a service associated with a radiographic examination) (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45	
60503	Fluoroscopy, without general anaesthesia (not being a service associated with a radiographic examination) (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$30.20 Benefit: 75% = \$22.65 85% = \$25.70	
60506	Fluoroscopy using a mobile image intensifier, in conjunction with a surgical procedure lasting less than 1 hour, not being a service associated with a service to which another item in this Group applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$64.70 Benefit: 75% = \$48.55 85% = \$55.00	
60509	Fluoroscopy using a mobile image intensifier, in conjunction with a surgical procedure lasting 1 hour or more, not being a service associated with a service to which another item in this Group applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$100.40 Benefit: 75% = \$75.30 85% = \$85.35	
I3. DIAGNOSTIC RADIOLOGY		16. PREPARATION FOR RADIOLOGICAL PROCEDURE
	Group I3. Diagnostic Radiology	
	Subgroup 16. Preparation For Radiological Procedure	
60918	Arteriography (peripheral) or phlebography—one vessel, when used in association with a service to which item 59903, 59912, 59925 or 59970 applies, not being a service associated with a service to which	

I3. DIAGNOSTIC RADIOLOGY		16. PREPARATION FOR RADIOLOGICAL PROCEDURE
	any of items 60000 to 60078 apply (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70	
60927	Selective arteriogram or phlebogram, when used in association with a service to which item 59903, 59912, 59925 or 59970 applies, not being a service associated with a service to which any of items 60000 to 60078 apply (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$38.60 Benefit: 75% = \$28.95 85% = \$32.85	
I3. DIAGNOSTIC RADIOLOGY		17. INTERVENTIONAL TECHNIQUES
	Group I3. Diagnostic Radiology	
	Subgroup 17. Interventional Techniques	
61109	Fluoroscopy in an angiography suite with image intensification, in conjunction with a surgical procedure using interventional techniques, not being a service associated with a service to which another item in this Group applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$262.80 Benefit: 75% = \$197.10 85% = \$223.40	
I3. DIAGNOSTIC RADIOLOGY		18. MISCELLANEOUS
	Group I3. Diagnostic Radiology	
	Subgroup 18. Miscellaneous	
57541	<p>Fee for a service rendered using first eligible x-ray procedure carried out during attendance at residential aged care facility, where the service has been requested by a medical practitioner who has attended the patient in person and the request identifies one or more of the following indications:</p> <ul style="list-style-type: none"> a. the patient has experienced a fall and one or more of the following items apply to the service 57509, 57515, 57521, 57527, 57530, 57533, 57539, 57703, 57705, 57709, 57711, 57712, 57714, 57715, 57717, 58521, 58523, 58524, 58526, 58527, 58529, 57536; or b. pneumonia or heart failure is suspected and item 58503 or 58505 applies to the service; or c. acute abdomen or bowel obstruction is suspected and item 58903 or 58905 applies to the service. <p>This call-out fee can be claimed once only per visit at a residential aged care facility irrespective of the number of patients attended.</p> <p>NOTE: If the service is bulked billed 95% of the fee is payable. The multiple services rule does not apply to this item.</p> <p>(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$74.75 Benefit: 75% = \$56.10 85% = \$63.55</p>	
I4. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET

14. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	Group 14. Nuclear Medicine Imaging	
	Subgroup 1. Nuclear medicine - non PET	
61302	Single stress or rest myocardial perfusion study—planar imaging (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.85 Benefit: 75% = \$336.65 85% = \$381.55	
61303	Single stress or rest myocardial perfusion study—with single photon emission tomography and with planar imaging when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$565.30 Benefit: 75% = \$424.00 85% = \$480.60	
61306	Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion—planar imaging (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$709.70 Benefit: 75% = \$532.30 85% = \$625.00	
61307	Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion—with single photon emission tomography and with planar imaging when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$834.90 Benefit: 75% = \$626.20 85% = \$750.20	
61310	Myocardial infarct avid study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$367.30 Benefit: 75% = \$275.50 85% = \$312.25	
61311	Single stress or rest myocardial perfusion study—with PET (R) Item 61311 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information. Fee: \$565.30 Benefit: 75% = \$424.00 85% = \$480.60	
61313	Gated cardiac blood pool study, (equilibrium) (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$303.35 Benefit: 75% = \$227.55 85% = \$257.85	
61314	Gated cardiac blood pool study, with or without intervention, and first pass blood flow or cardiac shunt study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$420.00 Benefit: 75% = \$315.00 85% = \$357.00	
61328	Lung perfusion study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$227.65 Benefit: 75% = \$170.75 85% = \$193.55	
61332	Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion—with PET (R) Item 61332 was only available from 14 September 2019 until 20 December 2019, during a national	

14. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	<p>shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$834.90 Benefit: 75% = \$626.20 85% = \$750.20</p>	
61333	<p>Lung perfusion study and lung ventilation study using galligas or 68Ga-MAA, with PET (R)</p> <p>Item 61333 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$443.35 Benefit: 75% = \$332.55 85% = \$376.85</p>	
61336	<p>Cerebral perfusion study, with PET (R)</p> <p>Item 61336 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$605.05 Benefit: 75% = \$453.80 85% = \$520.35</p>	
61337	<p>Bone study—whole body, with PET, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R)</p> <p>Item 61337 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$479.80 Benefit: 75% = \$359.85 85% = \$407.85</p>	
61340	<p>Lung ventilation study using aerosol, technegas or xenon gas (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$253.00 Benefit: 75% = \$189.75 85% = \$215.05</p>	
61341	<p>Bone study—whole body and PET, with, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R)</p> <p>Item 61341 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$600.70 Benefit: 75% = \$450.55 85% = \$516.00</p>	
61344	<p>Computed tomography performed at the same time and covering the same body area as positron emission tomography covered by items 61311, 61332, 61333, 61336, 61337 and 61341, for the purpose of anatomic localisation or attenuation correction if no separate diagnostic CT report is issued (R)</p> <p>Item 61344 was only available from 14 September 2019 until 20 December 2019, during a national shortage of technetium. See the <i>Health Insurance (Section 3C Diagnostic Imaging - Nuclear Medicine Services) Amendment (No. 2) Determination 2019</i> on the Federal Register of Legislation for further information.</p> <p>Fee: \$100.00 Benefit: 75% = \$75.00 85% = \$85.00</p>	

14. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
61348	Lung perfusion study and lung ventilation study using aerosol, technegas or xenon gas (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$443.35 Benefit: 75% = \$332.55 85% = \$376.85
61353	Liver and spleen study (colloid) (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$386.60 Benefit: 75% = \$289.95 85% = \$328.65
61356	Red blood cell spleen or liver study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$392.80 Benefit: 75% = \$294.60 85% = \$333.90
61360	Hepatobiliary study, including morphine administration or pre-treatment with a cholagogue when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.35 Benefit: 75% = \$302.55 85% = \$342.85
61361	Hepatobiliary study with formal quantification following baseline imaging, using a cholagogue (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$461.40 Benefit: 75% = \$346.05 85% = \$392.20
61364	Bowel haemorrhage study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$496.95 Benefit: 75% = \$372.75 85% = \$422.45
61368	Meckel's diverticulum study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65
61369	Indium-labelled octreotide study (including single photon emission tomography when undertaken), if: (a) a gastro-entero-pancreatic endocrine tumour is suspected on the basis of biochemical evidence with negative or equivocal conventional imaging; or (b) both: (i) a surgically amenable gastro-entero-pancreatic endocrine tumour has been identified on the basis of conventional techniques; and (ii) the study is to exclude additional disease sites (R) Fee: \$2,015.75 Benefit: 75% = \$1511.85 85% = \$1931.05
61372	Salivary study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65
61373	Gastro-oesophageal reflux study, including delayed imaging on a separate occasion when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$489.70 Benefit: 75% = \$367.30 85% = \$416.25
61376	Oesophageal clearance study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$143.35 Benefit: 75% = \$107.55 85% = \$121.85
61381	Gastric emptying study, using single tracer (R) (See para IN.0.19 of explanatory notes to this Category)

14. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	Fee: \$574.35 Benefit: 75% = \$430.80 85% = \$489.65	
61383	Combined solid and liquid gastric emptying study using dual isotope technique or the same isotope on separate days (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$624.95 Benefit: 75% = \$468.75 85% = \$540.25	
61384	Radionuclide colonic transit study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$687.70 Benefit: 75% = \$515.80 85% = \$603.00	
61386	Renal study, including perfusion and renogram images and computer analysis or cortical study with planar imaging (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$332.50 Benefit: 75% = \$249.40 85% = \$282.65	
61387	Renal cortical study, with single photon emission tomography and planar quantification (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$430.75 Benefit: 75% = \$323.10 85% = \$366.15	
61389	Single renal study with pre-procedural administration of a diuretic or angiotensin converting enzyme (ACE) inhibitor (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$370.55 Benefit: 75% = \$277.95 85% = \$315.00	
61390	Renal study with diuretic administration after a baseline study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$409.95 Benefit: 75% = \$307.50 85% = \$348.50	
61393	Combined examination involving a renal study following angiotensin converting enzyme (ACE) inhibitor provocation and a baseline study, in either order and related to a single referral episode (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$605.50 Benefit: 75% = \$454.15 85% = \$520.80	
61397	Cystoureterogram (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$246.85 Benefit: 75% = \$185.15 85% = \$209.85	
61402	Cerebral perfusion study, with single photon emission tomography and with planar imaging when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$605.05 Benefit: 75% = \$453.80 85% = \$520.35	
61409	Cerebro spinal fluid transport study, with imaging on 2 or more separate occasions (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$873.50 Benefit: 75% = \$655.15 85% = \$788.80	
61413	Cerebro spinal fluid shunt patency study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$225.95 Benefit: 75% = \$169.50 85% = \$192.10	
61421	Bone study—whole body, with, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R) (See para IN.0.19 of explanatory notes to this Category)	

14. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	Fee: \$479.80 Benefit: 75% = \$359.85 85% = \$407.85	
61425	Bone study—whole body and single photon emission tomography, with, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$600.70 Benefit: 75% = \$450.55 85% = \$516.00	
61426	Whole body study using iodine (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$554.80 Benefit: 75% = \$416.10 85% = \$471.60	
61429	Whole body study using gallium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$543.00 Benefit: 75% = \$407.25 85% = \$461.55	
61430	Whole body study using gallium, with single photon emission tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$659.45 Benefit: 75% = \$494.60 85% = \$574.75	
61433	Whole body study using cells labelled with technetium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$496.95 Benefit: 75% = \$372.75 85% = \$422.45	
61434	Whole body study using cells labelled with technetium, with single photon emission tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$615.40 Benefit: 75% = \$461.55 85% = \$530.70	
61438	Whole body study using thallium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$672.95 Benefit: 75% = \$504.75 85% = \$588.25	
61441	Bone marrow study—whole body using technetium labelled bone marrow agents (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$489.70 Benefit: 75% = \$367.30 85% = \$416.25	
61442	Whole body study, using gallium—with single photon emission tomography of 2 or more body regions acquired separately (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$752.35 Benefit: 75% = \$564.30 85% = \$667.65	
61445	Bone marrow study—localised using technetium labelled agent (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$286.80 Benefit: 75% = \$215.10 85% = \$243.80	
61446	Regional scintigraphic study, using an approved bone scanning agent, including when undertaken, blood flow imaging, blood pool imaging and repeat imaging on a separate occasion (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$333.55 Benefit: 75% = \$250.20 85% = \$283.55	
61449	Regional scintigraphic study, using an approved bone scanning agent and single photon emission tomography, including when undertaken, blood flow imaging, blood pool imaging and repeat imaging	

14. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
61495	<p>Tear duct study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65</p>	
61499	<p>Particle perfusion study (infra arterial) or Le Veen shunt study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$253.00 Benefit: 75% = \$189.75 85% = \$215.05</p>	
61505	<p>CT scan performed at the same time and covering the same body area as single photon emission tomography or positron emission tomography for the purpose of anatomic localisation or attenuation correction if no separate diagnostic CT report is issued and only in association with items 61302 to 61647 (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$100.00 Benefit: 75% = \$75.00 85% = \$85.00</p>	
61650	<p>LeukoScan study of the long bones and feet for suspected osteomyelitis, if:</p> <p>(a) the patient does not have access to ex vivo white blood cell scanning; and</p> <p>(b) the patient is not being investigated for other sites of infection (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$878.70 Benefit: 75% = \$659.05 85% = \$794.00</p>	
14. NUCLEAR MEDICINE IMAGING		2. PET
	Group 14. Nuclear Medicine Imaging	
		Subgroup 2. PET
61523	<p>Whole body FDG PET study, performed for evaluation of a solitary pulmonary nodule where the lesion is considered unsuitable for transthoracic fine needle aspiration biopsy, or for which an attempt at pathological characterisation has failed.(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30</p>	
61524	<p>Whole body FDG PET study, performed for the staging of locally advanced (Stage III) breast cancer, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30</p>	
61525	<p>Whole body FDG PET study, performed for the evaluation of suspected metastatic or suspected locally or regionally recurrent breast carcinoma, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p>	

14. NUCLEAR MEDICINE IMAGING		2. PET
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61529	Whole body FDG PET study, performed for the staging of proven non-small cell lung cancer, where curative surgery or radiotherapy is planned (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61538	FDG PET study of the brain for evaluation of suspected residual or recurrent malignant brain tumour based on anatomical imaging findings, after definitive therapy (or during ongoing chemotherapy) in patients who are considered suitable for further active therapy. (R) Fee: \$901.00 Benefit: 75% = \$675.75 85% = \$816.30	
61541	Whole body FDG PET study, following initial therapy, for the evaluation of suspected residual, metastatic or recurrent colorectal carcinoma in patients considered suitable for active therapy (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61553	Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected metastatic or recurrent malignant melanoma in patients considered suitable for active therapy (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$914.30	
61559	FDG PET study of the brain, performed for the evaluation of refractory epilepsy which is being evaluated for surgery (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$918.00 Benefit: 75% = \$688.50 85% = \$833.30	
61565	Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected residual, metastatic or recurrent ovarian carcinoma in patients considered suitable for active therapy. (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61571	Whole body FDG PET study, for the further primary staging of patients with histologically proven carcinoma of the uterine cervix, at FIGO stage IB2 or greater by conventional staging, prior to planned radical radiation therapy or combined modality therapy with curative intent. (R) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61575	Whole body FDG PET study, for the further staging of patients with confirmed local recurrence of carcinoma of the uterine cervix considered suitable for salvage pelvic chemoradiotherapy or pelvic exenteration with curative intent. (R) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61577	Whole body FDG PET study, performed for the staging of proven oesophageal or GEJ carcinoma, in patients considered suitable for active therapy (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61598	Whole body FDG PET study performed for the staging of biopsy-proven newly diagnosed or recurrent head and neck cancer (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61604	Whole body FDG PET study performed for the evaluation of patients with suspected residual head and neck cancer after definitive treatment, and who are suitable for active therapy (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	

14. NUCLEAR MEDICINE IMAGING		2. PET
61610	Whole body FDG PET study performed for the evaluation of metastatic squamous cell carcinoma of unknown primary site involving cervical nodes (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61620	Whole body FDG PET study for the initial staging of newly diagnosed or previously untreated Hodgkin or non-Hodgkin lymphoma (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61622	Whole body FDG PET study to assess response to first line therapy either during treatment or within three months of completing definitive first line treatment for Hodgkin or non-Hodgkin lymphoma (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61628	Whole body FDG PET study for restaging following confirmation of recurrence of Hodgkin or non-Hodgkin lymphoma (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61632	Whole body FDG PET study to assess response to second-line chemotherapy if haemopoietic stem cell transplantation is being considered for Hodgkin or non-Hodgkin lymphoma (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
61640	Whole body FDG PET study for initial staging of patients with biopsy-proven bone or soft tissue sarcoma (excluding gastrointestinal stromal tumour) considered by conventional staging to be potentially curable. (R) Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$914.30	
61646	Whole body FDG PET study for the evaluation of patients with suspected residual or recurrent sarcoma (excluding gastrointestinal stromal tumour) after the initial course of definitive therapy to determine suitability for subsequent therapy with curative intent. (R) Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$914.30	
61647	Whole body ⁶⁸ Ga DOTA peptide PET study, if: (a) a gastro entero pancreatic neuroendocrine tumour is suspected on the basis of biochemical evidence with negative or equivocal conventional imaging; or (b) both: (i) a surgically amenable gastro entero pancreatic neuroendocrine tumour has been identified on the basis of conventional techniques; and (ii) the study is for excluding additional disease sites (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$868.30	
15. MAGNETIC RESONANCE IMAGING		1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 1. Scan Of Head - For Specified Conditions	
63001	MRI—scan of head (including MRA, if performed) for tumour of the brain or meninges (R) (Anaes.)	

15. MAGNETIC RESONANCE IMAGING		1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	(Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63004	MRI—scan of head (including MRA, if performed) for inflammation of brain or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63007	MRI—scan of head (including MRA, if performed) for skull base or orbital tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63010	MRI—scan of head (including MRA, if performed) for stereotactic scan of brain, with fiducials in place, for the sole purpose of allowing planning for stereotactic neurosurgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$336.00 Benefit: 75% = \$252.00 85% = \$285.60	
15. MAGNETIC RESONANCE IMAGING		2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 2. Scan Of Head - For Specified Conditions	
63040	MRI—scan of head (including MRA, if performed) for acoustic neuroma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$336.00 Benefit: 75% = \$252.00 85% = \$285.60	
63043	MRI—scan of head (including MRA, if performed) for pituitary tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63046	MRI—scan of head (including MRA, if performed) for toxic or metabolic or ischaemic encephalopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63049	MRI—scan of head (including MRA, if performed) for demyelinating disease of the brain (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63052	MRI—scan of head (including MRA, if performed) for congenital malformation of the brain or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63055	MRI—scan of head (including MRA, if performed) for venous sinus thrombosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)	

15. MAGNETIC RESONANCE IMAGING		2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63058	MRI—scan of head (including MRA, if performed) for head trauma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63061	MRI—scan of head (including MRA, if performed) for epilepsy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63064	MRI—scan of head (including MRA, if performed) for stroke (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63067	MRI—scan of head (including MRA, if performed) for carotid or vertebral artery dissection (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63070	MRI—scan of head (including MRA, if performed) for intracranial aneurysm (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63073	MRI—scan of head (including MRA, if performed) for intracranial arteriovenous malformation (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
15. MAGNETIC RESONANCE IMAGING		3. SCAN OF HEAD AND NECK VESSELS - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 3. Scan Of Head And Neck Vessels - For Specified Conditions	
63101	MRI and MRA of extracranial or intracranial circulation (or both)—scan of head and neck vessels for stroke (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90	
15. MAGNETIC RESONANCE IMAGING		4. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 4. Scan Of Head And Cervical Spine - For Specified Conditions	
63111	MRI—scan of head and cervical spine (including MRA, if performed) for tumour of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90	
63114	MRI—scan of head and cervical spine (including MRA, if performed) for inflammation of the central	

15. MAGNETIC RESONANCE IMAGING		4. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS	
	nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90		
15. MAGNETIC RESONANCE IMAGING		5. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 5. Scan Of Head And Cervical Spine - For Specified Conditions		
63125	MRI—scan of head and cervical spine (including MRA, if performed) for demyelinating disease of the central nervous system (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90		
63128	MRI—scan of head and cervical spine (including MRA, if performed) for congenital malformation of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90		
63131	MRI—scan of head and cervical spine (including MRA, if performed) for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90		
15. MAGNETIC RESONANCE IMAGING		6. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 6. Scan Of Spine - One Region Or Two Contiguous Regions - For Infection or Tumour		
63151	MRI—scan of one region or 2 contiguous regions of the spine for infection (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65		
63154	MRI—scan of one region or 2 contiguous regions of the spine for tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65		
15. MAGNETIC RESONANCE IMAGING		7. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR OTHER CONDITIONS	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 7. Scan Of Spine - One Region Or Two Contiguous Regions - For Other Conditions		
63161	MRI—scan of one region or 2 contiguous regions of the spine for demyelinating disease (R) (Anaes.) (Contrast) (Anaes.)		

15. MAGNETIC RESONANCE IMAGING		7. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR OTHER CONDITIONS
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63164	MRI—scan of one region or 2 contiguous regions of the spine for congenital malformation of the spinal cord or the cauda equina or the meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63167	MRI—scan of one region or 2 contiguous regions of the spine for myelopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63170	MRI—scan of one region or 2 contiguous regions of the spine for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63173	MRI—scan of one region or 2 contiguous regions of the spine for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63176	MRI—scan of one region or 2 contiguous regions of the spine for sciatica (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63179	MRI—scan of one region or 2 contiguous regions of the spine for spinal canal stenosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63182	MRI—scan of one region or 2 contiguous regions of the spine for previous spinal surgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
63185	MRI—scan of one region or 2 contiguous regions of the spine for trauma (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65	
15. MAGNETIC RESONANCE IMAGING		8. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR
	Group 15. Magnetic Resonance Imaging	
	Subgroup 8. Scan Of Spine - Three Contiguous Regions Or Two Non-Contiguous Regions - For Infection or Tumour	
63201	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for infection (R) (Anaes.) (Contrast) (Anaes.)	

15. MAGNETIC RESONANCE IMAGING		8. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63204	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
15. MAGNETIC RESONANCE IMAGING		9. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR OTHER CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 9. Scan Of Spine - Three Contiguous Regions Or Two Non-Contiguous Regions - For Other Conditions	
63219	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for demyelinating disease (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63222	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for congenital malformation of the spinal cord or the cauda equina or the meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63225	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for myelopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63228	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63231	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63234	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for sciatica (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63237	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for spinal canal stenosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63240	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for previous spinal surgery (R)	

9. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR OTHER CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	(Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80
63243	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for trauma (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80
10. SCAN OF CERVICAL SPINE AND BRACHIAL PLEXUS - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 10. Scan Of Cervical Spine And Brachial Plexus - For Specified Conditions
63271	MRI—scan of cervical spine and brachial plexus for tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90
63274	MRI—scan of cervical spine and brachial plexus for trauma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90
63277	MRI—scan of cervical spine and brachial plexus for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90
63280	MRI—scan of cervical spine and brachial plexus for previous surgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90
11. SCAN OF MUSCULOSKELETAL SYSTEM - FOR TUMOUR, INFECTION OR OSTEONECROSIS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 11. Scan Of Musculoskeletal System - For Tumour, Infection or Osteonecrosis
63301	MRI—scan of musculoskeletal system for tumour arising in bone or musculoskeletal system, excluding tumours arising in breast, prostate or rectum (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$380.80 Benefit: 75% = \$285.60 85% = \$323.70
63304	MRI—scan of musculoskeletal system for infection arising in bone or musculoskeletal system, excluding infection arising in breast, prostate or rectum (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$380.80 Benefit: 75% = \$285.60 85% = \$323.70
63307	MRI—scan of musculoskeletal system for osteonecrosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$380.80 Benefit: 75% = \$285.60 85% = \$323.70

15. MAGNETIC RESONANCE IMAGING		12. SCAN OF MUSCULOSKELETAL SYSTEM - FOR JOINT DERANGEMENT
	Group 15. Magnetic Resonance Imaging	
	Subgroup 12. Scan Of Musculoskeletal System - For Joint Derangement	
63322	MRI—scan of musculoskeletal system for derangement of hip or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63325	MRI—scan of musculoskeletal system for derangement of shoulder or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63328	MRI—scan of musculoskeletal system for derangement of knee or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63331	MRI—scan of musculoskeletal system for derangement of ankle or foot (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
63334	MRI—scan of musculoskeletal system for derangement of one or both temporomandibular joints or their supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$336.00 Benefit: 75% = \$252.00 85% = \$285.60	
63337	MRI—scan of musculoskeletal system for derangement of wrist or hand (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80	
63340	MRI—scan of musculoskeletal system for derangement of elbow or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
15. MAGNETIC RESONANCE IMAGING		13. SCAN OF MUSCULOSKELETAL SYSTEM - FOR GAUCHER DISEASE
	Group 15. Magnetic Resonance Imaging	
	Subgroup 13. Scan Of Musculoskeletal System - For Gaucher Disease	
63361	MRI—scan of musculoskeletal system for Gaucher disease (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75	
15. MAGNETIC RESONANCE IMAGING		14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	

15. MAGNETIC RESONANCE IMAGING		14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS
Subgroup 14. Scan Of Cardiovascular System - For Specified Conditions		
63385	<p>MRI—scan of cardiovascular system for congenital disease of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80</p>	
63388	<p>MRI—scan of cardiovascular system for tumour of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80</p>	
63391	<p>MRI—scan of cardiovascular system for abnormality of thoracic aorta (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75</p>	
63395	<p>MRI—scan of cardiovascular system for assessment of myocardial structure and function involving:</p> <p>(a) dedicated right ventricular views; and</p> <p>(b) 3D volumetric assessment of the right ventricle; and</p> <p>(c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that:</p> <p>(d) the patient presented with symptoms consistent with arrhythmogenic right ventricular cardiomyopathy (ARVC); or</p> <p>(e) investigative findings in relation to the patient are consistent with ARVC</p> <p>(R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$855.20 Benefit: 75% = \$641.40 85% = \$770.50</p>	
63397	<p>MRI—scan of cardiovascular system for assessment of myocardial structure and function involving:</p> <p>(a) dedicated right ventricular views; and</p> <p>(b) 3D volumetric assessment of the right ventricle; and</p> <p>(c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that the patient:</p> <p>(d) is asymptomatic; and</p> <p>(e) has one or more first degree relatives diagnosed with confirmed arrhythmogenic right ventricular cardiomyopathy (ARVC)</p> <p>(R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$855.20 Benefit: 75% = \$641.40 85% = \$770.50</p>	
15. MAGNETIC RESONANCE IMAGING		15. MAGNETIC RESONANCE ANGIOGRAPHY - SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS

15. MAGNETIC RESONANCE ANGIOGRAPHY - SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 15. Magnetic Resonance Angiography - Scan Of Cardiovascular System - For Specified Conditions
63401	MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for vascular abnormality in a patient with a previous anaphylactic reaction to an iodinated contrast medium (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63404	MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for obstruction of the superior vena cava, inferior vena cava or a major pelvic vein (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
16. MAGNETIC RESONANCE ANGIOGRAPHY - FOR SPECIFIED CONDITIONS - PERSON UNDER THE AGE OF 16 YEARS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 16. Magnetic Resonance Angiography - For Specified Conditions - Person Under The Age Of 16 Years
63416	MRA—scan of person under the age of 16 for the vasculature of limbs prior to limb or digit transfer surgery in congenital limb deficiency syndrome (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
17. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR PHYSEAL FUSION OR GAUCHER DISEASE	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 17. Magnetic Resonance Imaging - Person Under the Age of 16 Years - For Physeal Fusion or Gaucher Disease
63425	MRI—scan of person under the age of 16 for post inflammatory or post traumatic physeal fusion (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63428	MRI—scan of person under the age of 16 for Gaucher disease (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
18. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR OTHER CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	

18. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR OTHER CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 18. Magnetic Resonance Imaging - Person Under The Age Of 16 Years - For Other Conditions
63440	<p>MRI—scan of person under the age of 16 for pelvic or abdominal mass (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75</p>
63443	<p>MRI—scan of person under the age of 16 for mediastinal mass (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75</p>
63446	<p>MRI—scan of person under the age of 16 for congenital uterine or anorectal abnormality (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75</p>
19. SCAN OF BODY - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 19. Scan Of Body - For Specified Conditions
63454	<p>MRI – scan of the pelvis or abdomen, if:</p> <p>(a) the pregnancy is at, or after, 18 weeks gestation; and</p> <p>(b) fetal central nervous system abnormality is suspected; and</p> <p>(c) an ultrasound has been performed and is provided by, or on behalf of, or at the request of, a specialist who is practising in the specialty of obstetrics; and</p> <p>(d) the diagnosis is indeterminate or requires further examination; and</p> <p>(e) the service is requested by a specialist practising in the specialty of obstetrics (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
63461	<p>MRI—scan of the body for adrenal mass in a patient with a malignancy that is otherwise resectable (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65</p>
63464	<p>MRI—scan of both breasts for the detection of cancer, if a dedicated breast coil is used, the request for the scan identifies that the person is asymptomatic and is younger than 50 years of age, and the request for the scan identifies:</p> <p>(a) that the patient is at high risk of developing breast cancer, due to one of the following:</p> <p>(i) 3 or more first or second degree relatives on the same side of the family diagnosed with breast or ovarian cancer;</p> <p>(ii) 2 or more first or second degree relatives on the same side of the family diagnosed with breast or</p>

15. MAGNETIC RESONANCE IMAGING	19. SCAN OF BODY - FOR SPECIFIED CONDITIONS
	<p>ovarian cancer, if any of the relatives has been diagnosed with bilateral breast cancer, had onset of breast cancer before the age of 40 years, had onset of ovarian cancer before the age of 50 years, has been diagnosed with breast and ovarian cancer (at the same time or at different times), has Ashkenazi Jewish ancestry or is a male relative who has been diagnosed with breast cancer;</p> <p>(iii) one first or second degree relative diagnosed with breast cancer at age 45 years or younger, and another first or second degree relative on the same side of the family with bone or soft tissue sarcoma at age 45 years or younger; or</p> <p>(b) that genetic testing has identified the presence of a high risk breast cancer gene mutation (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>
63467	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the person has had an abnormality detected as a result of a service mentioned in item 63464 performed in the previous 12 months (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>
63487	<p>MRI—scan of both breasts, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <p>(i) the patient has been diagnosed with metastatic cancer restricted to the regional lymph nodes; and</p> <p>(ii) clinical examination and conventional imaging have failed to identify the primary cancer (R) (Anaes.)</p> <p>Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>
63489	<p>MRI—guided biopsy, if:</p> <p>(a) the request for the scan identifies that the patient has a suspicious lesion seen on MRI but not on conventional imaging; and</p> <p>(b) an ultrasound scan of the affected breast, performed immediately before the biopsy, confirms that the lesion is not amenable to biopsy guided by conventional imaging; and</p> <p>(c) a dedicated breast coil is used (R) (Anaes.)</p> <p>Fee: \$1,440.00 Benefit: 75% = \$1080.00 85% = \$1355.30</p>
63531	<p>MRI—scan of both breasts, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <p>(i) the patient has a breast lesion; and</p> <p>(ii) the results of conventional imaging are inconclusive for the presence of breast cancer; and</p> <p>(iii) biopsy has not been possible (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>

15. MAGNETIC RESONANCE IMAGING

19. SCAN OF BODY - FOR SPECIFIED CONDITIONS

63533	<p>MRI—scan of both breasts, if:</p> <ul style="list-style-type: none"> (a) a dedicated breast coil is used; and (b) the request for the scan identifies that: <ul style="list-style-type: none"> (i) the patient has been diagnosed with a breast cancer; and (ii) there is a discrepancy between the clinical assessment and the conventional imaging assessment of the extent of the malignancy; and (c) the results of breast MRI imaging may alter treatment planning (R) (Contrast) <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>
63541	<p>Multiparametric Magnetic Resonance Imaging scan of the prostate for the detection of cancer, if the patient is referred by an urologist, radiation oncologist, or medical oncologist and the request for the scan identifies:</p> <p>that the patient is suspected of developing prostate cancer, due to one of the following:</p> <ul style="list-style-type: none"> (i) a digital rectal examination which is suspicious for prostate cancer; or (ii) in a person under 70 years, at least two prostate specific antigen (PSA) tests performed within an interval of 1- 3 months are greater than 3.0 ng/ml, and the free/total PSA ratio is less than 25% or the repeat PSA exceeds 5.5 ng/ml; or (iii) in a person under 70 years, whose risk of developing prostate cancer based on relevant family history is at least double the average risk, at least two PSA tests performed within an interval of 1- 3 months are greater than 2.0 ng/ml, and the free/total PSA ratio is less than 25%; or (iv) in a person 70 years or older, at least two PSA tests performed within an interval of 1- 3 months are greater than 5.5ng/ml and the free/total PSA ratio is less than 25%. <p>using a standardised image acquisition protocol involving T2 Weighted Imaging, Diffusion Weighted Imaging, and Dynamic Contrast Enhancement (unless contraindicated)</p> <p>(R)</p> <p>Note: Benefits are payable on one occasion only in any 12 month period.</p> <p>Relevant family history is a first degree relative with prostate cancer, or suspected of carrying a BRCA 1 or BRCA 2 mutation.</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$450.00 Benefit: 75% = \$337.50 85% = \$382.50</p>
63543	<p>Multiparametric Magnetic Resonance Imaging scan of the prostate for the assessment of cancer, if the patient is referred by an urologist, radiation oncologist, or medical oncologist and:</p> <p>the request for the scan identifies:</p> <ul style="list-style-type: none"> (i) the patient is under active surveillance following a confirmed diagnosis of prostate cancer by biopsy histopathology; and (ii) the patient is not planning or undergoing treatment for prostate cancer. <p>using a standardised image acquisition protocol involving T2 Weighted Imaging, Diffusion Weighted</p>

15. MAGNETIC RESONANCE IMAGING		19. SCAN OF BODY - FOR SPECIFIED CONDITIONS
	<p>Imaging, and Dynamic Contrast Enhancement (unless contraindicated) (R)</p> <p>Note: Benefits are payable at the time of diagnosis of prostate cancer, 12 months following diagnosis and then every 3rd year thereafter or at any time, if there is a clinical concern, including PSA progression. This item is not to be used for the purposes of treatment planning or for monitoring after treatment.</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$450.00 Benefit: 75% = \$337.50 85% = \$382.50</p>	
63547	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <p>(a) a dedicated breast coil is used; and (b) the request for the scan identifies that: (i) the patient has a breast implant in situ; and (ii) anaplastic large cell lymphoma has been diagnosed (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$690.00 Benefit: 75% = \$517.50 85% = \$605.30</p>	
15. MAGNETIC RESONANCE IMAGING		20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 20. Scans Of Pelvis And Upper Abdomen - For Specified Conditions	
63470	<p>MRI—scan of the pelvis for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and (b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75</p>	
63473	<p>MRI—scan of the pelvis and upper abdomen, in a single examination, for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for the scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and (b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$627.20 Benefit: 75% = \$470.40 85% = \$542.50</p>	
63476	<p>MRI—scan of the pelvis for the initial staging of rectal cancer, if:</p> <p>(a) a phased array body coil is used; and</p>	

15. MAGNETIC RESONANCE IMAGING		20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS	
	(b) the request for the scan identifies that the indication is for the initial staging of rectal cancer (including cancer of the rectosigmoid and anorectum) (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75		
63740	MRI—scan to evaluate small bowel Crohn’s disease if the service is provided to a patient for: (a) evaluation of disease extent at time of initial diagnosis of Crohn’s disease; or (b) evaluation of exacerbation, or suspected complications, of known Crohn’s disease; or (c) evaluation of known or suspected Crohn’s disease in pregnancy; or (d) assessment of change to therapy in a patient with small bowel Crohn’s disease (R) (Contrast) Fee: \$457.20 Benefit: 75% = \$342.90 85% = \$388.65		
63741	MRI—scan with enteroclysis for Crohn’s disease if the service is related to item 63740 (R) Fee: \$265.25 Benefit: 75% = \$198.95 85% = \$225.50		
63743	MRI—scan for fistulising perianal Crohn’s disease if the service is provided to a patient for: (a) evaluation of pelvic sepsis and fistulas associated with established or suspected Crohn’s disease; or (b) assessment of change to therapy of pelvis sepsis and fistulas from Crohn’s disease (R) (Contrast) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75		
15. MAGNETIC RESONANCE IMAGING		21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 21. Scan Of Body - For Suspected Hepato-biliary or Pancreatic Pathology		
63482	MRI—scan of pancreas and biliary tree for suspected biliary or pancreatic pathology (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75		
63545	MRI – multiphase scans of liver (including delayed imaging, if performed) with a contrast agent, for characterisation or intervention planning, if: (a) the patient has: (i) known colorectal carcinoma; and (ii) known, suspected, or possible liver metastasis; and		

21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY	
15. MAGNETIC RESONANCE IMAGING	
	<p>(b) computed tomography, or ultrasound imaging, has identified a mass lesion in patient's liver. For any particular patient—applicable not more than once in a 12 month period (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$550.00 Benefit: 75% = \$412.50 85% = \$467.50</p>
63546	<p>MRI – multiphase scans of the liver (including delayed imaging, if performed) with a contrast agent, for diagnosis or staging, if:</p> <p>(a) the patient has:</p> <p>(i) known or suspected hepatocellular carcinoma; and</p> <p>(ii) chronic liver disease that has been confirmed by a specialist or consultant physician; and</p> <p>(b) the patient's liver function has been identified as Child Pugh class A or B; and</p> <p>(c) the patient has an identified hepatic lesion over 10 mm in diameter.</p> <p>For any particular patient—applicable not more than once in a 12 month period (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$550.00 Benefit: 75% = \$412.50 85% = \$467.50</p>
15. MAGNETIC RESONANCE IMAGING	
22. MODIFYING ITEMS	
	Group 15. Magnetic Resonance Imaging
	Subgroup 22. Modifying Items
63491	<p>NOTE: Benefits in Subgroup 22 are only payable for modifying items where claimed simultaneously with MRI services. Modifiers for sedation and anaesthesia may not be claimed for the same service.</p> <p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and</p> <p>(b) the item for the service includes in its description '(Contrast)'; and</p> <p>(c) the service is performed using a contrast agent</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$44.80 Benefit: 75% = \$33.60 85% = \$38.10</p>
63494	<p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and</p> <p>(b) the service is performed using intravenous or intra muscular sedation</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$44.80 Benefit: 75% = \$33.60 85% = \$38.10</p>
63496	NOTE: Benefits in Subgroup 22 are only payable for modifying items where claimed simultaneously

15. MAGNETIC RESONANCE IMAGING		22. MODIFYING ITEMS
	with MRI services. Modifiers for sedation and anaesthesia may not be claimed for the same service. MRI service to which item 63545 or 63546 applies if: (a) the service is performed on a person under the supervision of an eligible provider; and (b) the service is performed using an hepatobiliary specific contrast agent (See para IN.0.19 of explanatory notes to this Category) Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50	
63497	MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if: (a) the service is performed on a person in accordance with clause 2.5.1; and (b) the service is performed under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic (See para IN.0.19 of explanatory notes to this Category) Fee: \$156.80 Benefit: 75% = \$117.60 85% = \$133.30	
63498	MRI service to which item 63501, 63502, 63504 or 63505 applies if: (a) the service is performed in accordance with the determination; and (b) the service is performed on a person using intravenous or intra muscular sedation (See para IN.0.19 of explanatory notes to this Category) Fee: \$44.80 Benefit: 75% = \$33.60 85% = \$38.10	
63499	MRI service to which item 63501, 63502, 63504 or 63505 applies if: (a) the service is performed in accordance with the determination; and (b) the service is performed on a person under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic. (See para IN.0.19 of explanatory notes to this Category) Fee: \$156.80 Benefit: 75% = \$117.60 85% = \$133.30	
15. MAGNETIC RESONANCE IMAGING		32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT
	Group 15. Magnetic Resonance Imaging	
		Subgroup 32. Magnetic Resonance Imaging - Pip Breast Implant
63501	MRI – scan of one or both breasts for the evaluation of implant integrity where: (a) a dedicated breast coil is used; and (b) the request for the scan identifies that the patient: (i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and (ii) the result of the scan confirms a loss of integrity of the implant. (R) Note: Benefits are payable on one occasion only in any 24 Month Period (See para IN.0.19 of explanatory notes to this Category)	

15. MAGNETIC RESONANCE IMAGING		32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT
	Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00	
63502	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p style="padding-left: 40px;">(ii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p> <p>Note: Benefits are payable on one occasion only in any 24 Month Period</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>	
63504	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p style="padding-left: 40px;">(ii) presents with symptoms where implant rupture is suspected; and</p> <p style="padding-left: 40px;">(iii) the result of the scan confirms a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>	
63505	<p>MRI - scan of one or both breasts for the evaluation of implant integrity where:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p style="padding-left: 40px;">(ii) presents with symptoms where implant rupture is suspected; and</p> <p style="padding-left: 40px;">(iii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>	
15. MAGNETIC RESONANCE IMAGING		33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 33. Scan of Body - Person Under the Age of 16 Years - General Practice Requests	
63507	<p>MRI—scan of head for a patient under 16 years if the service is for:</p> <p>(a) an unexplained seizure; or</p> <p>(b) an unexplained headache if significant pathology is suspected; or</p>	

33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS	
15. MAGNETIC RESONANCE IMAGING	
	(c) paranasal sinus pathology that has not responded to conservative therapy (R) (Contrast) (Anaes.) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63510	MRI—scan of spine following radiographic examination for a patient under 16 years if the service is for: (a) significant trauma; or (b) unexplained neck or back pain with associated neurological signs; or (c) unexplained back pain if significant pathology is suspected (R) (Contrast) (Anaes.) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80
63513	MRI—scan of knee for internal joint derangement for a patient under 16 years (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63516	MRI—scan of hip following radiographic examination for a patient under 16 years if any of the following is suspected: (a) septic arthritis; (b) slipped capital femoral epiphysis; (c) Perthes disease (R) (Contrast) (Anaes.) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63519	MRI—scan of elbow following radiographic examination for a patient under 16 years if a significant fracture or avulsion injury, which would change the way in which the patient is managed, is suspected (R) (Contrast) (Anaes.) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63522	MRI—scan of wrist following radiographic examination for a patient under 16 years if a scaphoid fracture is suspected (R) (Contrast) (Anaes.) Fee: \$448.00 Benefit: 75% = \$336.00 85% = \$380.80
34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 34. Scan of Body - Person Over the Age of 16 Years - General Practice Requests
63551	MRI - scan of head for a patient 16 years or older, after a request by a medical practitioner (other than a specialist or consultant physician), for any of the following: (a) unexplained seizure(s); (b) unexplained chronic headache with suspected intracranial pathology (R) (Contrast)

34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS

15. MAGNETIC RESONANCE IMAGING

	(Anaes.) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75
63554	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical radiculopathy (R) (Contrast) (Anaes.) Fee: \$358.40 Benefit: 75% = \$268.80 85% = \$304.65
63557	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical spinal trauma (R) (Contrast) (Anaes.) Fee: \$492.80 Benefit: 75% = \$369.60 85% = \$418.90
63560	MRI - scan of knee following acute knee trauma, after referral by a medical practitioner (other than a specialist or consultant physician), for a patient 16 to 49 years with: (a) inability to extend the knee suggesting the possibility of acute meniscal tear; or (b) clinical findings suggesting acute anterior cruciate ligament tear (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$403.20 Benefit: 75% = \$302.40 85% = \$342.75

16. MANAGEMENT OF BULK-BILLED SERVICES

	Group 16. Management Of Bulk-Billed Services
64990	A diagnostic imaging service to which an item in this table (other than this item or item 64991) applies if: (a) the service is an unreferred service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: (i) this item; and (ii) the other item in this table applying to the service (See para IN.0.19 of explanatory notes to this Category) Fee: \$14.30 Benefit: 85% = \$12.20
64991	A diagnostic imaging service to which an item in this table (other than this item or item 64990) applies if: (a) the service is an unreferred service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and

16. MANAGEMENT OF BULK-BILLED SERVICES

- (d) the service is bulk-billed in respect of the fees for:
 - (i) this item; and
 - (ii) the other item in this table applying to the service; and
- (e) the service is provided at, or from, a practice location within Modified Monash areas 2 to 7.

(See para IN.0.19, AN.0.19 of explanatory notes to this Category)

Fee: \$21.60 **Benefit:** 85% = \$18.40

INDEX

A

Abdomen, barium X-ray 58909
Abdominal x-ray, plain 58900, 58903
Air contrast study, with opaque enema 58921
Air insufflation 59763

60057, 60060, 60063, 60066, 60069
Angiography, with mobile image intensification 59970
Ankle, x-ray of 57518, 57521, 57524, 57527
Antegrade pyelography 58715
Arm, x-ray of 57506, 57509, 57512, 57515
Arteriogram - selective, preparation 60927
Arteriography 59912
Arteriography or venography, selective 60072, 60075, 60078
Arteriography, preparation for 60918
Arteriography, selective 59912
Arthrography 59751

B

Barium, alimentary tract 58909, 58912, 58915
Biliary system, x-ray of 58927, 58933, 58936
Bone, age study 58300
Bowel - small, barium x-ray of 58912, 58915
Bowel - small, enema 58916
Breast x-ray, excised tissue 59318
Breast x-ray, restriction applies 59300, 59303
Breast x-ray, with surgical procedure 59312, 59314
Bronchography 59715
Bulk-billing 64990-64991

C

Calculus, salivary, x-ray of 57918
CBCT dental imaging 57362
Cephalometry, x-ray 57902
Cerebral angiography, preparation for 60918
Cervical spine, x-ray of 58100
Chest, x-ray of 58500, 58503, 58506, 58509
Cholegraphy 58927, 58933, 58936
Clavicle, x-ray of 57706, 57709
Coccyx, x-ray of 58109
Colon, x-ray of 58912, 58921
Computed Tomography of the colon 56553
Computerised tomography, brain, chest and upper abdomen 57001,
57007
Computerised tomography, chest and upper abdomen 56301
56307
Computerised tomography, coronary arteries 57360
Computerised tomography, facial bones 56022, 56028

Computerised tomography, head, brain 56001, 56007
Computerised tomography, interventional technique 57341
Computerised tomography, middle ear 56016
Computerised tomography, neck 56101, 56107
Computerised tomography, orbits 56013
Computerised tomography, pelvimetry 57201
Computerised tomography, pelvis 56409, 56412
Computerised tomography, pituitary fossa 56010
Computerised tomography, spine 56219-56221, 56223-56226
56233-56234, 56237-56238
Computerised tomography, spiral angiography 57352-57354
Computerised tomography, upper abdomen 56401, 56407
Computerised tomography, upper abdomen & pelvis 56501, 56507
Computerised tomography, chest, abdomen, pelvis, neck 56801
56807
Contrast media, intro for radiology 60918
Coronary arteriography, selective 59912
Cysto-urethrography, retrograde micturating 58721
Cystography, retrograde 58718

D

Dacryocystography 59703
Defaecogram 58939
Digits & phalanges 57506, 57509, 57512, 57515, 57518, 57521
57524, 57527
Discography 59700
Duodenum, barium x-ray of 58909, 58912
Duplex scanning, carotid and vertebral vessels 55274
Duplex scanning, of abdominal aorta, arteries, iliac arteries and
veins 55276
Duplex scanning, of arteries/grafts lower limb 55238
Duplex scanning, of arteries/grafts upper limb 55248
Duplex scanning, of intra-cranial vessels 55280
Duplex scanning, of penis, cavernosal artery 55282
Duplex scanning, of penis, cavernosal tissue 55284
Duplex scanning, of renal/visceral vessels 55278
Duplex scanning, of veins lower limb, venous disease 55246
Duplex scanning, of veins lower limb, venous thrombosis 55244
Duplex scanning, veins upper limb 55252

E

Echocardiographic, exam of heart 55113-55118, 55130, 55135
Echography, ultrasonic 55029-55033, 55036-55039, 55048-55049
55054, 55073, 55113-55118
Elbow, x-ray 57506, 57509
Enema, opaque x-ray 58921
Eye, x-ray of 57924

F

Femur, x-ray of 57518, 57527, 57721
Fistulogram 59739
Fluoroscopic exam 60500, 60503, 60506, 60509, 61109
Foot, x-ray of 57518, 57521, 57524, 57527
Forearm, x-ray of 57506, 57515
Foreign body, localisation of and report 59103

G

Gallbladder, x-ray of 58927, 58933, 58936

H

Hand/wrist/forearm/elbow 57506, 57509, 57512, 57515
Hip joint, x-ray of 57712
Humerus, x-ray of 57506, 57509, 57512, 57515
Hysterosalpingography 59712

I

Intravenous pyelogram 58706

K

Knee/foot/ankle/leg/femur x-ray 57518, 57521, 57524, 57527

L

Larynx, neck tissues, x-ray of 57945
Leg, x-ray of 57518, 57521, 57524, 57527
Lumbo-sacral spine, x-ray of 58106
Lung fields, x-ray of 58500, 58503, 58506
Lymphangiography 59754

M

Magnetic Resonance Angiography, cardiovascular system 63401
63404
Magnetic Resonance Angiography, persons under 16 years 63416
Magnetic Resonance Imaging, body 63461
Magnetic Resonance Imaging, cardiovascular system 63385
63388, 63391
Magnetic Resonance Imaging, cervical spine and brachial plexus
63271, 63274, 63277, 63280
Magnetic Resonance Imaging, Head 63001
Magnetic Resonance Imaging, head 63004, 63007, 63010, 63040
63043, 63046, 63049, 63052, 63055, 63058, 63061, 63064
63067, 63070, 63073
Magnetic Resonance Imaging, head and cervical spine 63125
63128, 63131
Magnetic Resonance Imaging, head and neck vessels 63101
Magnetic Resonance Imaging, modifying items 63491, 63494
63497-63499
Magnetic Resonance Imaging, musculoskeletal system 63301
63304, 63307, 63322, 63325, 63328, 63331, 63334, 63337
63340, 63361
Magnetic Resonance Imaging, pelvis and upper abdomen 63470
63473
Magnetic Resonance Imaging, person under 16 years 63425
63428, 63440, 63443, 63446
Magnetic Resonance Imaging, PIP Breast Implant 63501-63502
63504-63505
Magnetic Resonance Imaging, spine - one region or two
contiguous regions 63151, 63154, 63161, 63164, 63167, 63170,
63173
63176, 63179, 63182, 63185
Magnetic Resonance Imaging, spine - three contiguous or two non
contiguous regio 63201, 63204, 63219, 63222, 63225
63228, 63231, 63234, 63237
Mammography, (restriction applies) 59300, 59303

Mandible, X-ray of 57915
Myelography 59724

N

Nephography 58700, 58715
Nose, X-ray of 57921
Nuclear Medicine Imaging, brain study 61402
Nuclear medicine imaging, cardiovascular, gated cardiac study -
1st pass/cardiac 61314
Nuclear medicine imaging, cardiovascular, gated cardiac study-
planar or spect 61313
Nuclear Medicine Imaging, cerebro spinal fluid study 61409
61413
Nuclear Medicine Imaging, endocrine, adrenal study 61485
Nuclear Medicine Imaging, endocrine, parathyroid study 61480
Nuclear Medicine Imaging, endocrine, thyroid study 61473
Nuclear Medicine Imaging, gastrointestinal, bowel haemorrhage
study 61364
Nuclear Medicine Imaging, gastrointestinal, colonic transit study
61384
Nuclear Medicine Imaging, gastrointestinal, gastric emptying
61381, 61383
Nuclear Medicine Imaging, gastrointestinal, gastro-oesophageal
reflux study 61373
Nuclear Medicine Imaging, gastrointestinal, hepatobiliary study
61360-61361
Nuclear Medicine Imaging, gastrointestinal, oesophageal clearance
study 61376
Nuclear Medicine Imaging, genitourinary, cystoureterogram 61397
Nuclear Medicine Imaging, genitourinary, renal cortical study
61387
Nuclear Medicine Imaging, genitourinary, renal study 61386
61389-61390, 61393
Nuclear Medicine Imaging, genitourinary, renal study including
renogram or plana 61386
Nuclear Medicine Imaging, Indium, labelled octreotide study
61369
Nuclear Medicine Imaging, Indium, Meckel's diverticulum study
61368
Nuclear Medicine Imaging, Indium, red blood cell spleen/liver
SPECT 61356
Nuclear Medicine Imaging, Indium, salivary study 61372
Nuclear Medicine Imaging, liver and spleen study 61353
Nuclear Medicine Imaging, localised study, gallium 61450
61453
Nuclear Medicine Imaging, localised study, technetium 61454
61457
Nuclear Medicine Imaging, localised study, thallium 61461
Nuclear Medicine Imaging, lymphoscintigraphy 61469
Nuclear Medicine Imaging, myocardial infarct-avid imaging 61310
Nuclear Medicine Imaging, myocardial perfusion central nervous
61302-61303, 61306-61307
Nuclear Medicine Imaging, positron emission tomography 61523
61529, 61541, 61553, 61559, 61565, 61575, 61577, 61598
61604, 61610, 61620, 61632
Nuclear Medicine Imaging, pulmonary, lung perfusion &
ventilation 61348
Nuclear Medicine Imaging, pulmonary, lung perfusion study 61328
Nuclear Medicine Imaging, pulmonary, lung ventilation study
61340
Nuclear Medicine Imaging, repeat planar or SPECT 61462

Nuclear Medicine Imaging, skeletal, bone marrow study 61441
61445
Nuclear Medicine Imaging, skeletal, bone study 61421, 61425
Nuclear Medicine Imaging, skeletal, bone/joint localised 61446
Nuclear Medicine Imaging, tear duct study 61495
Nuclear Medicine Imaging, vascular, particle perfusion or Le Veen
61499
Nuclear Medicine Imaging, whole body study, gallium 61429-
61430, 61442
Nuclear Medicine Imaging, whole body study, iodine 61426
Nuclear Medicine Imaging, whole body study, technetium 61433-
61434
Nuclear Medicine Imaging, whole body study, thallium 61438

O

Oesophagus, barium X-ray of 58909, 58912
Opaque enema 58921
Opaque enema, meal 58909, 58912, 58915
Opaque enema, media, radiology prep 60918, 60927
Orthopantomography 57960, 57963, 57966, 57969

P

Palato-pharyngeal studies 57942
Palato-pharyngeal studies 57939
Pelvic girdle, X-ray of 57715
Pelvis, X-ray of 57715
Phalanges & digits 57506, 57509, 57512, 57515, 57518, 57521
57524, 57527
Pharynx, barium X-ray of 58909
Phlebogram, preparation 60927
Phlebography 59718
Phlebography, preparation for 60918
Plain abdominal X-ray 58900
Plain, abdominal X-ray 58903
Plain, renal X-ray 58700
Pleura, X-ray of 58503
Pleura, X-ray of 58500
Positron emission tomography 61523, 61529, 61538, 61541
61553, 61559, 61565, 61571, 61575, 61577, 61598, 61604
61610, 61620, 61622, 61628, 61632, 61640, 61646
Prep, for radiological procedure 60918, 60927
Prostate, bladder base and urethra, ultrasound scan of 55600
Pyelography - intravenous 58706
Pyelography - intravenous, retrograde/antegrade 58715

R

Renal, plain X-ray 58700
Retrograde - pyelography 58715
Retrograde - pyelography, cysto-urethrography 58721
Retrograde - pyelography, cystography 58718
Ribs, X-ray of 58521, 58524, 58527

S

Sacro-coccygeal spine, X-ray of 58109
Salivary calculus, X-ray of 57918
Scapula, X-ray of 57700, 57703
Screening with x-ray of chest 58506

Screening, palate/pharynx, x-ray 57939
Serial, angiocardiology 59903
Shoulder or scapula, X-ray of 57700, 57703
Sialography 59733
Sinogram, or fistulogram 59739
Skeletal survey 58306
Skull, X-ray 57901
Small bowel series, barium, X-ray 58912, 58915
Spine, X-ray of 58100, 58103, 58106, 58108-58109, 58112
58115
Sternum, X-ray of 58521, 58524, 58527
Stomach, barium X-ray 58909, 58912

T

Teeth, orthopantomography 57960, 57963, 57966, 57969
Teeth, X-ray of 57930, 57933
Temporo-mandibular joints, X-ray of 57927
Thigh (femur), X-ray of 57518, 57521
Thoracic inlet, spine, X-ray of 58103
Thoracic inlet, X-ray of 58509
Trachea, X-ray of 58509

U

Ultrasound, cardiac examination 55113-55118, 55130, 55135
Ultrasound, general 55029-55033, 55036-55039, 55048-55049
55054, 55065, 55070, 55073, 55076, 55079, 55084-55085
Ultrasound, musculoskeletal 55854
Ultrasound, obstetric and gynaecological 55700, 55703-55709
55712, 55715, 55718, 55721, 55723, 55725, 55729, 55736
55739, 55759, 55762, 55764, 55766, 55768, 55770, 55772
55774
Ultrasound, urological 55603
Ultrasound, vascular 55238, 55244, 55246, 55248, 55252
55274, 55276, 55278, 55280, 55282, 55284, 55292, 55294
55296
Upper forearm & elbow, leg and knee, X-ray of 57524, 57527
Upper forearm & elbow, X-ray 57512, 57515
Urethrography, retrograde 58718
Urinary tract, X-ray of 58700, 58706, 58715, 58718, 58721

V

Venography, selective 60072, 60075, 60078

W

Wrist/hand/forearm/elbow/humerus X-ray of 57506, 57509
57512, 57515

X

X-ray, alimentary tract and biliary system 58900, 58903
58909, 58912, 58915-58916, 58921, 58927, 58933, 58936
58939
X-ray, bone age study and skeletal surveys 58300, 58306
X-ray, breasts 59300, 59303
X-ray, breasts, in conjunction with a surgical procedure 59312,
59314
X-ray, extremities 57509, 57512, 57515, 57518, 57521, 57524

57527

X-ray, extremities 57506
X-ray, head 57901-57902, 57915, 57918, 57921, 57924, 57927
57930, 57933, 57939, 57942, 57945, 57960, 57963, 57966
57969
X-ray, image intensification 60500, 60503
X-ray, of excised breast tissue 59318
X-ray, shoulder or pelvis 57700, 57703, 57706, 57709, 57712
57715, 57721
X-ray, spine 58100, 58103, 58106, 58108-58109, 58112, 58115
X-ray, thoracic region 58500, 58503, 58506, 58509, 58521
58524, 58527, 58706, 58715, 58718, 58721
X-ray, Urinary tract 58700
X-ray, with opaque or contrast media 59700, 59703, 59712
59715, 59718, 59724, 59733, 59739, 59751, 59754, 59763

CATEGORY 6: PATHOLOGY SERVICES

SUMMARY OF CHANGES FROM 21/07/2020

The 21/07/2020 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 21/07/2020

PATHOLOGY SERVICES NOTES

PN.0.1 Changes to the Pathology Services Table Health Insurance Regulations

The *Health Insurance Act 1973* allows the Minister for Health to determine an appropriate Pathology Services Table which is then prescribed by Regulation.

The Minister has established the Pathology Services Table Committee (PSTC) to assist in determining changes to the Table (except new medical services and technologies - see below). Any person or organisation seeking to make a submission to this Committee can contact the PSTC Secretariat on (02) 6289 4080 or e-mail pstc.secretariat@health.gov.au and/or write to: Secretary, PSTC, MDP 107, Department of Health and Ageing, GPO Box 9848, CANBERRA ACT 2601.

Pathology submissions relating to new medical services and technologies should be forwarded to the Medical Services Advisory Committee (MSAC). MSAC has been established to advise the Minister on the strength of evidence pertaining to new and emerging medical technologies and procedures in relation to their safety, effectiveness and cost effectiveness, and under what circumstances public funding should be supported.

Any person or organisation seeking to make a submission to MSAC can contact the MSAC Secretariat on (02) 6289 7550 or email msac.secretariat@health.gov.au and/or write to: MSAC Secretariat, Australian Government, Department of Health, MDP 106, GPO Box 9848, CANBERRA ACT 2601. The application form and guidelines for applying can also be obtained from MSAC's website - www.msac.gov.au

PN.0.2 Explanatory Notes - Definitions Excessive Pathology Service

This means a pathology service for which a Medicare benefit has become or may become payable and which is not reasonably necessary for the adequate medical or dental care of the patient concerned.

PN.0.3 Group of Practitioners

This means:

- (i) a practitioner conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice together with another practitioner, or other practitioners, participating (whether as employees or otherwise) in the provision of professional services as part of that practice; or
- (ii) two or more practitioners conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice as partners; or
- (iii) those partners together with any other practitioner who participates (whether as an employee or otherwise) in the provision of professional services as part of that practice.

PN.0.4 Initiate

In relation to a pathology service this means to request the provision of pathology services for a patient.

PN.0.5 Patient Episode

A patient episode comprises a pathology service or services specified in one or more items which are provided for a single patient, the need for which was determined under subsection 16A(1) of the Act on the same day, whether they were provided by one or more approved pathology practitioners on one day or over several days and whether they are requested by one or more treating practitioners. Even if a treating practitioner writes separate request forms to cover the collection of specimens at different times, where the decision to collect the multiple specimens was made at the same time, the multiple tests are deemed to belong to the same patient episode. In addition, if more than one

request is made, on the same or different days, for tests on the same specimen within 14 days, they are part of the same patient episode.

Rule 4 of the Pathology Services Table provides an exemption to the above and enables services requested on one day which are performed under strictly limited circumstances for seriously or chronically ill patients with certain specified conditions to each be classified as a patient episode. See PD.2 for further information on exemptions.

Rule 14.(8) also provides that only a single patient episode initiation fee will be payable for all the specimens collected on one day from one patient in or by one Approved Pathology Authority.

PN.0.7 Personal Supervision

This means that an Approved Pathology Practitioner will, to the fullest extent possible, be responsible for exercising an acceptable level of control over the rendering of pathology services. See PM.1 to PM.3 for a full description of the responsibilities involved in personal supervision.

PN.0.8 Prescribed Pathology Service

These are simple basic pathology services which are included in Group P9 and may be performed by a medical practitioner in the practitioner's surgery without the need to obtain Approved Pathology Authority, Approved Pathology Practitioner or Accredited Pathology Laboratory status.

PN.0.9 Proprietor of a Laboratory

This means in relation to a pathology laboratory the person, authority or body of persons having effective control of:

- (i) the laboratory premises, whether or not the holder of an estate or interest in the premises;
- (ii) the use of equipment used in the laboratory; and
- (iii) the employment of staff in the laboratory.

PN.0.10 Specialist Pathologist

This means a medical practitioner recognised for the purposes of the Health Insurance Act 1973 as a specialist in pathology (see 5.1 of the "General Explanatory Notes" in Section 1 of this book). The principal specialty of pathology includes a number of sectional specialties. Accordingly, a medical practitioner who is recognised as a specialist in a sectional specialty of pathology is recognised as a specialist pathologist for this purpose.

PN.0.11 Designated Pathology Service

This means a pathology service specified in items 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some but not all the estimations in a coned item and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the rest, the service provided by the second practitioner is deemed to be the "designated pathology service". Thus the first practitioner claims under the appropriate item for the services which he/she provides while the second practitioner claims one of items 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some, but not all estimations and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the remainder, the first Approved Pathology Practitioner can raise a "patient episode initiation fee". The second Approved Pathology Practitioner who receives the specimen can raise a "specimen referred fee".

PN.0.12 Interpretation of The Schedule - Items Referring to 'The Detection Of'

Items that contain the term 'detection of' should be taken to mean 'testing for the presence of'.

PN.0.13 Blood Grouping - (Item 65096)

Where a request includes 'Group and Hold' or 'Group and Save', the appropriate item is 65096.

PN.0.14 Glycosylated Haemoglobin - (Item 66551)

The requirement of "established diabetes" in this item may be satisfied by:

- (a) a statement of the diagnosis by the ordering practitioner on the current request form or on a previous request form held in the database of the Approved Pathology Authority; or
- (b) two or more blood glucose levels that are in the diabetic range and is contained in the database of the Approved Pathology Authority; or
- (c) an oral glucose tolerance test result that is in the diabetic range and is contained in the database of the Approved Pathology Authority.

PN.0.15 Iron Studies - (Item 66596)

Where a request includes 'Iron Studies', 'IS', 'Fe', '% saturation' or 'Iron', the relevant item is 66596.

PN.0.16 Faecal Occult Blood - (Items 66764 to 66770)**PN.0.17 Antibiotics/Antimicrobial Chemotherapeutic Agents**

A test for the quantitation of antibiotics/antimicrobial chemotherapeutic agents is claimable under item 66800 or 66812 - 'quantitation of a drug being used therapeutically'.

PN.0.18 Human Immunodeficiency Virus (HIV) Diagnostic Tests - (included in Items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413 and 69415)

Prior to ordering an HIV diagnostics tests (included in items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413, 69415) the ordering practitioner should ensure that the patient has given informed consent. Appropriate discussion should be provided to the patient. Further discussion may be necessary upon receipt of the test results.

PN.0.19 Hepatitis - (Item 69481)

Benefits for item 69481 are payable only if the request from the ordering practitioner indicates in writing that the patient is suspected of suffering from acute or chronic hepatitis; either by the use of the provisional diagnosis of hepatitis or by relevant clinical or laboratory information eg "hepatomegaly", "jaundice" or "abnormal liver function tests".

PN.0.20 Eosinophil Cationic Protein - (Item 71095)

Item 71095 applies to children aged less than 12 years who cannot be reliably monitored by spirometry or flowmeter readings.

PN.0.21 Tissue Pathology and Cytology - (Items 72813 to 73061)

When services described in Group P5 need to be performed upon material which is submitted for cytology items listed in Group P6 only the fee for the P6 item can be claimed.

PN.0.22 Cervical and Vaginal Screening - (Items 73070 to 73076)

It is the responsibility of the treating healthcare practitioner to determine if the sample is being collected as part of the routine screening program under 73070 or 73071 or represents a sample falling under 73072 or 73073 or 73074 or 73075 or 73076, and to indicate this on the request form. Unless a co-test is specifically requested, requiring the pathology laboratory to perform both a human papillomavirus (HPV) test and a liquid based cytology (LBC) test on

the same specimen, the pathology laboratory will by default perform an HPV test and then only undertake reflex LBC testing if oncogenic HPV (any type) is detected. The pathology laboratory will issue the HPV test result, the LBC test result and overall screening risk rating as a combined report as prescribed by the National Pathology Accreditation Advisory Council (NPAAC) Requirements for Laboratories reporting tests for the National Cervical Screening Program (NPAAC Requirements).

The test used for detecting oncogenic HPV must allow partial HPV genotyping to identify HPV16, HPV18 with or without HPV45 as well as meet the criteria for a population based screening test as prescribed by the NPAAC Requirements.

When used together, the self-collection device and the HPV test must meet the NPAAC Requirements, including the HPV test must be a polymerase chain reaction (PCR) test.

73070 applies to an HPV test on a cervical specimen for primary screening purposes and collected by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner) from an asymptomatic patient as part of routine five yearly screening recommended by the National Cervical Screening Program. The Health Insurance Act 1973 excludes payment of Medicare Benefits for health screening services except where Ministerial directions have been issued to enable benefits to be paid, this includes HPV testing that is performed in accordance with the policy of the National Cervical Screening Program (available at www.cancerscreening.gov.au). This policy provides for a screening interval of five years for an asymptomatic patient commencing at 24 years and 9 months of age and for a patient aged between 70 to 74 years of age to cease cervical screening if the last test result is normal (i.e. low risk). A patient aged 75 years of age or older who has never had a cervical screening test or has not had one in the previous five years, may request a cervical screening test and be screened.

In accordance with the national policy for the National Cervical Screening Program, where oncogenic HPV (any type) is detected, the pathology laboratory will conduct reflex LBC automatically under 73076 (a) without requiring an additional request by the treating healthcare professional.

73071 only applies to HPV tests for primary screening purposes requested by a healthcare practitioner on a self-collected vaginal specimen if a specimen collected by a healthcare practitioner has been declined.

HPV testing on self collected vaginal specimens carried out under 73071 should be in accordance with the agreed National Cervical Screening Program Self Collection Policy. The Policy allows self collection where a patient is \geq 30 years of age and has either never screened or is under screened (i.e. overdue for cervical screening by at least two years, being greater than 7 years since the patient's last HPV screening test). A patient aged 75 years of age or older who has never had a cervical screening test or has not had one in the previous seven years, may request a self collected vaginal sample and be screened.

During the early years of the transition, this may include a patient who is overdue since the patient's last conventional Pap test (i.e. greater than four years since last conventional Pap).

It is the intention of the National Cervical Screening Program where oncogenic HPV has previously been detected under this Item, the healthcare practitioner collected liquid based sample from the cervix that follows, can be claimed under 73076 (a) with a further request by the treating healthcare practitioner.

73072 applies to HPV tests where the specimen has been collected in accordance with the National Cervical Screening Program: Guidelines for the Management of Screen Detected Abnormalities, Screening in Specific Populations and Investigation of Abnormal Vaginal Bleeding (2016 Guidelines) which provides for:

- (a) an HPV test (and reflex LBC) performed on a patient within a specific population suggestive of a higher risk of pre cancerous or cancerous cervical changes. HPV tests carried out in specific populations under Item 73072 should be in accordance with the 2016 Guidelines including:
 - (i) screening with a primary HPV test (and reflex LBC) every 3 years for an immune-deficient patient; or

- (ii) a single HPV test between 20 and 24 years of age could be considered by healthcare practitioners on a case by case basis for a patient who experienced first sexual activity at a young age (less than 14 years of age) and who has not received the HPV vaccine before sexual debut; or
- (b) an HPV test (and reflex LBC) performed for the follow up management of previously detected oncogenic HPV infection with a negative or possible/low grade squamous intraepithelial lesion (LSIL) cytology result; or
- (c) a co-test (HPV+LBC) for the investigation of symptoms of cervical cancer, most commonly abnormal vaginal bleeding; or
- (d) co-test (HPV+LBC) for the management of a patient following treatment of high grade squamous intraepithelial lesions (HSIL) of the cervix as part of a 'test of cure' process performed at 12 months after treatment and annually thereafter, until receiving a negative co-test on two separate consecutive occasions, then the patient can return to routine five yearly screening. In accordance with the 2016 Guidelines this also applies to a patient undergoing follow up or post-treatment for a glandular abnormality as part of annual surveillance performed indefinitely; or
- (e) a co-test (HPV+LBC) for the follow up management of glandular abnormalities; or
- (f) a co-test (HPV+LBC) for screening a patient exposed to diethylstilbestrol (DES) in utero and daughters of patients exposed to DES in utero, if requested.

A co-test requires both HPV and LBC tests to be performed irrespective of the HPV test result. A reflex LBC is only required if oncogenic HPV (any type) is detected; where oncogenic HPV (any type) has been detected in a liquid based sample from the cervix by a healthcare professional, the pathology laboratory will conduct LBC automatically without requiring an additional request.

73073 applies to the management of a patient with previously detected oncogenic HPV (any type) infection on a self collected vaginal sample if a specimen collected by a healthcare practitioner has been declined. It may only be claimed when the test is performed within in a 21 month period following detection of oncogenic HPV (any type) associated with 73071.

It is expected that most patients who are undergoing follow up, after detection of oncogenic HPV (any type) on a self collected vaginal sample, will agree to have a clinician collected cervical sample at the follow up visit. Some patients may decline and this Item applies to this group of patients. It is the intention of the National Cervical Screening Program where oncogenic HPV has previously been detected under this Item, the healthcare practitioner collected liquid based sample from the cervix that follows, can be claimed under 73076 (a) with a further request by the treating healthcare practitioner.

73074 applies to an HPV test on a vaginal vault specimen collected by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner) from a patient with past history of total hysterectomy, in accordance with the 2016 Guidelines which provides for:

- (a) an HPV test for a patient who has no evidence of cervical pathology and the patient's screening history is not available, performed at 12 months following a total hysterectomy and annually thereafter until a patient has two negative HPV tests (i.e. oncogenic HPV not detected) on two separate consecutive occasions and can be advised that no further testing is required; or
- (b) a co-test (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months following a total hysterectomy and annually thereafter until two consecutive co-tests are negative:
 - (i) if unexpected LSIL or HSIL is identified in the cervix at the time of total hysterectomy after completed 'test of cure' process; or
 - (ii) if the total hysterectomy was for treatment of high-grade cervical intraepithelial neoplasia in the presence of benign gynaecological disease; or

(iii) if the total hysterectomy was after histologically confirmed HSIL without Test of Cure and there is no cervical pathology; or

(c) indefinite co-testing (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months after treatment and annually thereafter if the total hysterectomy was after adenocarcinoma in situ (AIS).

73075 applies to HPV tests repeated due to an unsatisfactory HPV test under 73070 or 73071 or 73072 or 73073 or 73074.

73076 applies to a liquid-based cytology (LBC) test on a cervical or vaginal vault specimen:

(a) as part of a reflex test following detection of oncogenic HPV described in the national policy and 2016 Guidelines associated with items 73070 or 73071 or 73072 (a) or (b) or 73073 or 73074 or 73075; or

(b) as part of a co-test described in the national policy and 2016 Guidelines under 73072 (c) or (d) or (e) of (f) or 73074; or

(c) where the previous specimen collected is unsatisfactory; or

(d) for the follow up management of a patient with a past history of total hysterectomy for endometrial adenocarcinoma.

PN.0.23 Detection of mutation tests (Items 73297, 73300, 73305, 73334, 73339 and 73340)

Prior to ordering these tests (73297, 73300, 73305, 73334, 73339 and 73340) the ordering practitioner should ensure the patient (or approximate proxy) has given informed consent. Testing should only be performed after genetic counselling. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral. Further counselling may be necessary upon receipt of the test results.

PN.0.24 Additional Bulk Billing Payment for Pathology Services - (Item 74990 and 74991)

Item 74990 operates in the same way as item 10990 and item 74991 operates in the same way as item 10991, apart from the following differences:

- Item 74990 and 74991 can only be used in conjunction with items in the Pathology Services Table of the MBS;
- Item 74990 and 74991 applies to unREFERRED pathology services performed by a medical practitioner which are included in Group P9 of the Pathology Services Table, and unREFERRED pathology services provided by category M laboratories;
- Item 74990 and item 74991 applies to pathology services self determined by general practitioners and specialists with dual qualifications acting in their capacity as general practitioners;
- Specialists and consultant physicians who provide pathology services are not able to claim item 74990 or item 74991 unless, for the purposes of the Health Insurance Act, the medical practitioner is also a general practitioner and the service provided by the medical practitioner has not been referred to that practitioner by another medical practitioner or person with referring rights.

Rules 3 and 18 of the *Health Insurance (Pathology Services Table) Regulations 2003* have been amended to exclude item 74990 and 74991 from the Multiple Services Rule and the Coning Rule.

Item 74991 can only be used where the service is provided at, or from, a practice location in an eligible area that is regional, rural or remote area (Monash Modified Model (MMM) 2 to 7 under the MMM geographical classification system).

PN.0.25 Transfer of Existing Items from Group P1 (Haematology) to Group P7 Genetics Effective 1 May 2006.

P16.14 has been created to note the transfer of existing items from Group P1 (Haematology) items 65168, 65174, 65200 and item 66794 from Group P2 (Chemistry) to Group P7 (Genetics) as items 73308, 73311, 73314, 73317 and the introduction of the new item in Group P7 (Genetics) item 73320 HLA-B27 typing by nucleic acid amplification (NAA) which was effective as of 1 May 2006.

PN.0.26 RAS gene mutation status (Item 73338)

Item 73338 provides for testing of RAS mutations to limit subsidy of anti-EGFR antibodies to only those patients demonstrated to have no RAS mutations.

For a Medicare benefit to be payable, the test must be conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3 and 4, or until a RAS mutation is found.

Enabling the requirements of the item descriptor to be met once any RAS mutation is found means that once the test indicates that the patient is not RAS wild-type and therefore not suitable for access to cetuximab and panitumumab under the PBS, a pathologist is not required to continue testing for other clinically relevant mutations.

PN.0.27 Germline BRCA gene mutation tests (Items 73295, 73296 and 73333)

Patients who are found to have any form of affected allele should be referred for post-test genetic counselling as there may be implications for other family members. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral.

PN.0.28 Abbreviations, Groups of Tests

As stated at P3.2 of the Outline, details that must be recorded on accounts, receipts or assignment forms of an Approved Pathology Practitioner/Authority include a description of the pathology service that is of sufficient detail to identify the specific service rendered. The lists of abbreviations for group tests are contained in PQ.4. The lists of abbreviations for individual tests are contained in the Index to this Section. The abbreviations are provided to allow users to identify and refer to particular pathology services, or particular groups of pathology services, more accurately and conveniently.

The above requirements may be used for billing purposes but treating practitioners requesting pathology services are encouraged to use the approved abbreviations. In this regard treating practitioners should note that:

- pathology services cannot be self determined by a rendering pathologist responding to a request. This places the onus for medical necessity on the treating practitioner who, in normal circumstances would, if he or she was unclear in deciding the appropriate test for a clinical situation, consult a pathologist for assistance; and
- Approved Pathology Practitioners/Authorities undertake not to issue accounts etc unless the pathology service was rendered in response to an unambiguous request.

PN.0.29 Tests not Listed

Tests which are not listed in the Pathology Services Table do not attract Medicare benefits. As explained at PN.1 of the Outline, changes to the Pathology Services Table can only be made by the Minister for Health and Ageing.

PN.0.30 Audit of Claims

The Department of Human Services is undertaking routine audits of claims for pathology benefits against requested services to ensure compliance with the provisions of the Health Insurance Act 1973.

PN.0.31 Groups of Tests

For the purposes of recording a description of the pathology service on accounts etc, an Approved Pathology Practitioner /Authority may use group abbreviations or group descriptions for the following specified groups of

tests. These groups consist of two or more tests within the same item. These groups exclude abbreviations such as MBA and TORCH.

Treating practitioners are encouraged to use these group abbreviations or group descriptions where appropriate.

For ease of identification of group tests, it is recommended that practitioners use the following abbreviations. Tests requested individually may attract Medicare benefits.

Group	Estimations included in Group	Group Abbreviation	Item Numbers
Cardiac enzymes or cardiac markers	Creatine kinase isoenzymes, Myoglobin, Troponin	CE / CM	66518, 66519
Coagulation studies	Full blood count, Prothrombin time, Activated partial thromboplastin time and two or more of the following tests - Fibrinogen, Thrombin, Clotting time, Fibrinogen degradation products, Fibrin monomer, D-dimer factor XIII screening tests	COAG	65129, 65070
Electrolytes	Sodium (NA), Potassium (K), Chloride (CL) and Bicarbonate (HCO ₃)	E	66509
Full Blood Examination	Erythrocyte count, Haematocrit, Haemoglobin, Platelet count, Red cell count, Leucocyte count, Manual or instrument generated differential, Morphological assessment of blood film where appropriate	FBE, FBC, CBC	65070
Lipid studies	Cholesterol (CHOL) and Triglycerides (TRIG)	FATS	66503
Liver function tests	Alkaline phosphatase (ALP), Alanine aminotransferase (ALT), Aspartate aminotransferase (AST), Albumin (ALB), Bilirubin (BIL), Gamma glutamyl transpeptidase (GGT), Lactate dehydrogenase (LDH), and Protein (PROT)	LFT	66512
Syphilis serology	Rapid plasma regain test (RPR), or Venereal disease research laboratory test (VDRL), and Treponema pallidum haemagglutination test (TPHA), or Fluorescent treponemal antibody-absorption test (FTA)	STS	69387
Urea, Electrolytes, Creatinine	Urea, Electrolytes, Creatinine	U&E	66512

PN.0.32 Complexity Levels for Histopathology Items

Only one of these histopathology examination items (72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838) can be claimed in a patient episode.

The remaining items (72844, 72846, 72847, 72848, 72849, 72850, 72851, 72852, 72855, 72856 and 72857) are add-on items, covering enzyme histochemistry and immunohistochemistry, electron microscopy and frozen sections, which can be claimed in addition to the main item.

The list of complexity levels by type of specimen are contained at the back of this Section.

PN.0.33 Pathology Services Table

Rules for the Interpretation of the Pathology Services Table

Please note that in the Health Insurance (Pathology Services Table) Regulations 2019 (effective 4 April 2019) rules and sub-rules are referred to as clauses and sub-clauses. In addition in the Regulations a rule that refers to specific items within a pathology group, for example Group P1 Haematology, is listed directly above the Schedule of Services for that group. A table cross referencing the following rules with the clauses in the Regulations is at the end of this section.

1. (1) In this table

patient episode means:

(a) a pathology service or pathology services (other than a pathology service to which paragraph 1 (1) (b) refers) provided for a single patient whose need for the service or services was determined under section 16A of the Act:

- (i) on the same day; or
- (ii) if more than 1 test is performed on the 1 specimen within 14 days - on the same or different days;

whether the services:

- (iii) are requested by 1 or more practitioners; or
- (iv) are described in a single item or in more than 1 item; or
- (v) are rendered by 1 approved pathology practitioner or more than 1 approved pathology practitioner; or
- (vi) are rendered on the same or different days; or

(b) a pathology service to which rule 4 refers that is provided in the circumstances set out in that rule that relates to the service.

receiving APP means an approved pathology practitioner in an approved pathology authority who performs one or more pathology services in respect of a single patient episode following receipt of a request for those services from a referring APP.

recognised pathologist means a medical practitioner recognised as a specialist in pathology by a determination under section 3D, 3DB or 3E of the Act.

referring APP means an approved pathology practitioner in an approved pathology authority who:

- (i) has been requested to render 1 or more pathology services, all of which are requested in a single patient episode; and
- (ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the pathology services; and
- (iii) requests an approved pathology practitioner (the *receiving APP*) in another approved pathology authority to render the pathology service or services that the referring APP is unable to render; and

(iv) renders each pathology service (if any) included in that patient episode, other than the pathology service or services in respect of which the request mentioned in subparagraph (iii) is made.

serial examinations means a series of examinations requested on 1 occasion whether or not:

- (a) the materials are received on different days by the approved pathology practitioner; or
- (b) the examinations or cultures were requested on 1 or more request forms by the treating practitioner.

the Act means the *Health Insurance Act 1973*.

1. (2) In these rules, a reference to a request to an approved pathology practitioner includes a reference to a request for a pathologist-determinable service to which subsection 16A (6) of the Act applies.

1. (3) A reference in this table by number to an item that is not included in this table is a reference to the item that has that number in the general medical services table or the diagnostic imaging services table, as the case requires.

1. (4) A reference to a **Group** in the table includes every item in the Group and a reference to a **Subgroup** in the table includes every item in the Subgroup.

Precedence of items

2. (1) If a service is described:

- (a) in an item in general terms; and
- (b) in another item in specific terms;

only the item that describes the service in specific terms applies to the service.

2. (2) Subject to subrule (3), if:

- (a) subrule (1) does not apply; and
- (b) a service is described in 2 or more items;

only the item that provides the lower or lowest fee for the service applies to the service.

2. (3) If an item is expressed to include a pathology service that is described in another item, the other item does not apply to the service in addition to the first-mentioned item, whether or not the services described in the 2 items are requested separately.

Application of item 74990 and 74991

2. (4) Despite subrules (1), (2) and (3):

- (a) if the pathology service described in item 74991 is provided to a person, either that item or item 74990, but not both those items, applies to the service; and
- (b) if item 74990 or 74991 applies to a pathology service, the fee specified in that item applies in addition to the fee specified in any other item in the table that applies to the service.

2. (5) For items 74990 and 74991:

bulk-billed, in relation to a pathology service, means:

- (a) a medicare benefit is payable to a person in respect of the service; and

(b) under an agreement entered into under section 20A of the Act:

(i) the person assigns to the practitioner by whom, or on whose behalf, the service is provided, his or her right to the payment of the medicare benefit; and

(ii) the practitioner accepts the assignment in full payment of his or her fee for the service provided.

Commonwealth concession card holder means a person who is a concessional beneficiary within the meaning given by subsection 84(1) of the *National Health Act 1953*.

unreferred service means a pathology service that:

(a) is provided to a person by, or on behalf of, a medical practitioner, being a medical practitioner who is not a consultant physician, or specialist, in any speciality (other than a medical practitioner who is, for the purposes of the Act, both a general practitioner and a consultant physician, or specialist, in a particular speciality); and

(b) has not been referred to the medical practitioner by another medical practitioner or person with referring rights.

2. (6) For item 74991:

practice location, in relation to the provision of a pathology service, means the place of practice in respect of which the practitioner by whom, or on whose behalf, the service is provided, has been allocated a provider number by the Commission.

Circumstances in which services rendered following 2 requests to be taken to have been rendered following 1 request

3. (1) In subrule 3(2), **service** includes assay, estimation and test.

3. (2) Two or more pathology services (other than services to which, under rule 4, this rule does not apply) rendered for a patient following 2 or more requests are taken to have been rendered following a single request if:

(a) the services are listed in the same item; and

(ab) that item is not item 74990 or 74991; and

(b) the patient's need for the services was determined under subsection 16A (1) of the Act on the same day even if the services are rendered by an approved pathology practitioner on more than one day.

Services to which rule 3 does not apply

4. (1) Rule 3 does not apply to a pathology service described in item 65060, 65070, 65120, 65123, 65126, 65129, 65150, 65153, 65156, 66500, 66503, 66506, 66509, 66512, 66584 or 66800, if:

(a) the service is rendered in relation to one or more specimens taken on each of not more than 6 separate occasions in a period of 24 hours; and

(b) the service is rendered to an inpatient in a hospital; and

(c) each service must be rendered as soon as possible after collection and after authorization of the result of the previous specimen; and

(d) the account for the service is endorsed 'Rule 3 Exemption'.

4. (2) Rule 3 does not apply to any of the following pathology services:

(a) estimation of prothrombin time (INR) in respect of a patient undergoing anticoagulant therapy;

(b) quantitative estimation of lithium in respect of a patient undergoing lithium therapy;

- (c) a service described in item 65070 in relation to a patient undergoing chemotherapy for neoplastic disease or immunosuppressant therapy;
- (d) a service described in item 65070 in relation to clozaril, ticlopidine hydrochloride, methotrexate, gold, sulphasalazine or penicillamine therapy of a patient;
- (e) a service described in item 66500 - 66512 in relation to methotrexate or leflunomide therapy of a patient;
- (f) quantitative estimation of urea, creatinine and electrolytes in relation to:
 - (i) cis-platinum or cyclosporin therapy of a patient; or
 - (ii) chronic renal failure of a patient being treated in a dialysis program conducted by a recognised hospital;
- (g) quantitative estimation of albumin and calcium in relation to therapy of a patient with vitamin D, its metabolites or analogues;
- (h) quantitative estimation of calcium, phosphate, magnesium, urea, creatinine and electrolytes in cancer patients receiving bisphosphonate infusions.

if:

- (i) under a request for a service, other than a request for a service described in paragraph (a), no more than 6 tests are requested; and
- (ii) the tests are performed within 6 months of the request; and
- (iii) the account for the service is endorsed "Rule 3 Exemption".

4. (3) Rule 3 does not apply to a pathology service described in items 65109 or 65110 if:

- (a) The service is rendered on not more than 5 separate occasions in the case of item 65109 and 2 separate occasions in the case of item 65110 in a period of 24 hours; and
- (b) The service is rendered in response to a written request separated in time from the previous request; and
- (c) The account for the service is endorsed "Rule 3 Exemption".

Item taken to refer only to the first service of a particular kind

5. (1) For an item in Group P1 (Haematology):

- (a) if pathology services of a kind referred to in item 65090 or 65093 are rendered for a patient during a period when the patient is in hospital, the item applies only to the first pathology service of that kind rendered for the patient during the period; and
- (b) if:
 - (i) tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out in relation to a patient episode; and
 - (ii) specimen material from the patient episode is stored; and
 - (iii) in response to a request made within 14 days of the patient episode, further tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out on the stored material; the later tests and the earlier tests are taken to be part of one patient episode.

5. (2) Benefits for items 65102 and 65108 are payable only if a minimum of 6 units are issued for the patient's care in any 1 day.

5.(3) For items 65099 and 65102:

compatibility tests by crossmatch means that, in addition to all the tests described in paragraphs (a) and (b) of the item, donor red cells from each unit must have been tested directly against the serum of the patient by 1 or more accepted crossmatching techniques.

Certain items not to apply to a service referred by one pathology practitioner to another

6. (1) In this rule:

designated pathology service means a pathology service in respect of tests relating to a single patient episode that are tests of the kind described in item 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165.

6. (2) This rule applies in respect of a designated pathology service where:

- (a) an approved pathology practitioner (**practitioner A**) in an approved pathology authority:
 - (i) has been requested to render the designated pathology service; and
 - (ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the tests included in the service; and
 - (iii) requests an approved pathology practitioner (**practitioner B**) in another approved pathology authority to render the test or tests that practitioner A is unable to render; and
 - (iv) renders each test (if any) included in the service, other than the test or tests in respect of which the request mentioned in subparagraph (iii) is made; and
- (b) the tests mentioned in subparagraph (a) (iv) that practitioner A renders are not tests constituting a service described in item 65156, 65179, 66653, 66712, 66734, 66788, 66806, 66815, 66822, 66828, 69496, 71093, 71159 or 71168.

6. (3) If this rule applies in respect of a designated pathology service:

- (a) item 65150, 65153, 65175, 65176, 65177, 65178, 66650, 66695, 66698, 66701, 66704, 66707, 66711, 66722, 66725, 66728, 66731, 66785, 66800, 66803, 66812, 66819, 66825, 69384, 69387, 69390, 69393, 69396, 69494, 69495, 71089, 71091, 71153, 71155, 71157, 71165, 71166 or 71167 (as the case requires) applies in respect of the test or tests rendered by practitioner A; and
- (b) where practitioner B renders a service under a request referred to in subparagraph (2) (a) (iii) and:
 - (i) practitioner A has rendered one or more of the tests that the service comprises - subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each test that the service comprises; or
 - (ii) practitioner A has not rendered any of the tests that the service comprises -
 - (A) the amount specified in item 65157, 65180, 66651, 66696, 66714, 66723, 66789, 66804, 66816, 66820, 66826, 69400, 69497, 71090, 71154 or 71169 (as the case requires) shall be taken to be the fee for the first test that the service comprises; and
 - (B) subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each subsequent test that the service comprises.

6. (4) For paragraph (3) (b), the maximum number of tests to which item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 applies is:

(a) for item 66652, 66715, 66790, 66817, 66821 or 66827:

2 - X; and

(b) for item 65158, 66805, 69498 or 71092:

3 - X; and

(c) for item 71156 or 71170:

4 - X; and

(d) for item 65181 or 66724:

5 - X; and

where X is the number of tests rendered by practitioner A in relation to the designated pathology service in respect of which the request mentioned in that paragraph is made.

6. (5) Items in Group P10 (Patient episode initiation) do not apply to the second mentioned approved pathology practitioner in subrule (2).

Items not to be split

7. Except as stated in rule 6, the amount specified in an item is payable only to one approved pathology practitioner in respect of a single patient episode.

Creatinine ratios - Group P2 (chemical)

8. A pathology service mentioned in an item (except item 66500) in Group P2 (chemical) that:

(a) involves the measurement of a substance in urine; and

(b) requires calculation of a substance/creatinine ratio;

is taken to include the measurement of creatinine necessary for the calculation.

Thyroid function testing

9. (1) For item 66719:

abnormal level of TSH means a level of TSH that is outside the normal reference range in respect of the particular method of assay used to determine the level.

9. (2) Except where paragraph (a) of item 66719 is satisfied, the amount specified in the item is not payable in respect of a pathology service described in the item unless the pathologist who renders the service has a written statement from the medical practitioner who requested the service that satisfies subrule (3).

9. (3) The written statement from the medical practitioner must indicate:

(a) that the tests are required for a particular purpose, being a purpose specified in paragraph (b) of item 66719; or

(b) that the medical practitioner who requested the tests suspects the patient has pituitary dysfunction; or

(c) that the patient is on drugs that interfere with thyroid hormone metabolism or function.

Meaning of "serial examinations or cultures"

10. For an item in Group P3 (Microbiology):

(a) *serial examinations or cultures* means a series of examinations or cultures requested on 1 occasion whether or not:

- (i) the materials are received on different days by the approved pathology practitioner; or
- (ii) the examinations or cultures were requested on 1 or more request forms by the treating practitioner; and

(b) if:

- (i) tests are carried out in relation to a patient episode; and
- (ii) specimen material from the patient episode is stored; and

(iii) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

Investigation for hepatitis serology

11. A medicare benefit is not payable in respect of more than one of items 69475, 69478 and 69481 in a patient episode.

Tests in Group P4 (Immunology) relating to antibodies

12. For items in Group P4 (Immunology), in items 71119, 71121, 71123 and 71125, if:

- (a) tests are carried out in relation to a patient episode; and
- (b) specimen material from the patient episode is stored; and
- (c) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

Tests on biopsy material - Group P5 (Tissue pathology) and Group P6 (Cytology)

13. (1) For items in Group P5 (Tissue pathology):

(a) *biopsy material* means all tissue received by the Approved Pathology Practitioner:

- (i) from a medical procedure or group of medical procedures performed on a patient at the same time; or
- (ii) after being expelled spontaneously from a patient.

(b) *cytology* means microscopic examination of 1 or more stained preparations of cells separated naturally or artificially from their normal environment by methods recognised as adequate to demonstrate their structure to a degree sufficient to enable an opinion to be formed about whether they are likely to be normal, abnormal but benign, or abnormal and malignant but, in accordance with customary laboratory practice, does not include examination of a blood film and a bone marrow aspirate; and

(c) *separately identified specimen* means an individual specimen collected, identified so that it is clearly distinguished from any other specimen, and sent for testing by or on behalf of the treating practitioner responsible for the procedure in which the specimen was taken.

13. (2) For Groups P5 and P6 of the pathology services table, services in Group P6 include any services described in Group P5 on the material submitted for a test in Group P6.

13. (3) For subrule (2), any sample submitted for cytology from which a cell block is prepared does not qualify for a Group P5 item.

13.(4) If more than 1 of the services mentioned in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 are performed in a single patient episode, only the fee for the item performed having the highest specified fee is applicable to the services.

13.(5) If more than 1 histopathological examinations are performed on separate specimens, of different complexity levels, from a single patient episode, a medicare benefit is payable only for the examination that has the highest schedule fee.

13.(6) In items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 a reference to a **complexity level** is a reference to the level given to a specimen type mentioned in Part 4 of this Table.

13.(7) If more than 1 of the services mentioned in items 72846, 72847, 72848; 72849 and 72850 or 73059, 73060, 73061, 73064 and 73065 are performed in a single patient episode, a medicare benefit is payable only for the item performed that has the highest scheduled fee.

13.(8) If more than 1 of the services mentioned in items 73049, 73051, 73062, 73063, 73066 and 73067 are performed in a single patient episode, only the fee for the item performed having the higher or highest specified fee applies to the services.

Items in Groups P10 (Patient episode initiation) and P11 (Specimen referred) not to apply in certain circumstances

14. (1) For this rule and items in Groups P10 (Patient episode initiation) and P11 (Specimen referred):

approved collection centre has the same meaning as in Part IIA of the Act.

institution means a place at which residential accommodation or day care is, or both residential accommodation and day care are, made available to:

- (a) disadvantaged children; or
- (b) juvenile offenders; or
- (c) aged persons; or
- (d) chronically ill psychiatric patients; or
- (e) homeless persons; or
- (f) unemployed persons; or
- (g) persons suffering from alcoholism; or
- (h) persons addicted to drugs; or
- (i) physically or mentally handicapped persons;

but does not include:

- (j) a hospital; or
- (k) a residential aged care home; or

(l) accommodation for aged persons that is attached to a residential aged care home or situated within a residential aged care home.

prescribed laboratory means a laboratory operated by:

- (a) the Australian Government; or
- (b) an authority of the Commonwealth; or
- (c) a State or internal Territory; or
- (d) an authority of a State or internal Territory; or
- (e) an Australian tertiary education institution.

specimen collection centre has the same meaning as in Part IIA of the Act.

treating practitioner has the same meaning as in paragraph 16A(1)(a) of the Act.

14. (2) If a service described in an item in Group P10 is rendered by, or on behalf of, an approved pathology practitioner who is a recognised pathologist, the relevant one of those items does not apply to the service if:

(a) the service is rendered upon a request made in the course of a service provided to a public patient in a recognised hospital or when attending an outpatient service of a recognised hospital.

14. (3) An item in Group P10 or P11 does not apply to a pathology service to which subsection 16A(7) of the Act applies.

14. (4) An item in Group P10 or P11 does not apply to a pathology service unless at least 1 item in Groups P1 to P8 also applies to the service.

14. (5) Subject to subrule (7), if one item in Group P10 applies to a patient episode, no other item in the Group applies to the patient episode.

14. (6) An item in Group P11 applies only to the approved pathology practitioner or approved pathology authority to whom the specimen mentioned in the item was referred.

14. (7) If, in respect of the same patient episode:

(a) services referred to in 1 or more items in Group P5 and 1 or more of Groups P1, P2, P3, P4, P6, P7 and P8 are rendered by an approved pathology practitioner in the laboratory of another approved pathology authority; or

(b) services referred to in 1 or more items in Group P6 and 1 or more of Groups P1, P2, P3, P4, P5, P7 and P8 are rendered by another approved pathology practitioner in the laboratory of another approved pathology authority;

the fee specified in the applicable item in Group P10 is payable to both approved pathology practitioners.

14. (8) If more than one specimen is collected from a person on the same day for the provision of pathology services:

(a) in accordance with more than 1 request; and

(b) in or by a single approved pathology authority;

the fee specified in the applicable item in Group P10 applies once only to the services unless an exemption listed in Rule 4 applies or an exemption has been granted under Rule 3 "S4B(3)".

14. (9) The amount specified in item 73940 is payable only once in respect of a single patient episode.

Application of an item in Group P11 (Specimen referred) to a service excludes certain other items

15. If item 73940 applies to a patient episode, none of the items in Group P10 applies to any pathology service rendered by the approved pathology authority or approved pathology practitioner who claimed item 73940 in respect of the patient episode.

Circumstances in which an item in Group P11 (Specimen referred) does not apply

16. (1) An item in Group P11 does not apply to a referral if:

- (a) a service in respect of the same patient episode has been carried out by the referring approved pathology authority; and
- (b) the approved pathology authority to which the referral is made is related to the referring approved pathology authority.

16. (2) An approved pathology authority is *related to* another approved pathology authority for subrule (1) if:

- (a) both approved pathology authorities are employed (including employed under contract) by the same person, whether or not the person is also an approved pathology authority; or
- (b) either of the approved pathology authorities is employed (including employed under contract) by the other; or
- (c) both approved pathology authorities are corporations and are related corporations within the meaning of the Corporations Act; or
- (d) the approved pathology authorities are partners (whether or not either or both of the approved pathology authorities are individuals and whether or not other persons are in partnership with either or both of the approved pathology authorities); or
- (e) both approved pathology authorities are operated by the Commonwealth or an authority of the Commonwealth; or
- (f) both approved pathology authorities are operated by the same State or internal Territory or an authority of the same State or internal Territory.

16. (3) An item in Group P11 does not apply to a referral if the following common tests are referred either singly or in combination (except if the following items are referred in combination with other items not similarly specified): 65060, 65070, 65120, 66500, 66503, 66506, 66509, 66512, 66536, 66596, 69300, 69303, 69333 or 73527.

Abbreviations

17. (1) The abbreviations in Part 4 of this table may be used to identify particular pathology services or groups of pathology services.

17. (2) The names of services or drugs not listed in Part 4 of this table must be written in full.

Certain pathology services to be treated as 1 service

18. (1) In this rule:

general practitioner means a medical practitioner who:

- (a) is not a consultant physician in any specialty; and
- (b) is not a specialist in any specialty.

set of pathology services means a group of pathology services:

- (a) that consists of services that are described in at least 4 different items; and
- (b) all of which are requested in a single patient episode; and
- (c) each of which relates to a patient who is not an admitted patient of a hospital; and
- (d) excludes services referred to in an item in Group P10, Group P11, Group P12 or Group P13, items 66900, 69484, 73070, 73071, 73072, 73073, 73074, 73075 or 73076; and
- (e) excludes services described in the following items:

65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66610, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 66832, 66834, 66837, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69484, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318, 73321 and 73324;

where those services are performed by an approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority following referral by another approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority which is not **related to** the first mentioned approved pathology authority.

(1A) An approved pathology authority is **related to** another approved pathology authority for the purposes of paragraph 18(1)(e) if that approved pathology authority would be related to the other approved pathology authority for the purposes of rule 16(2).

18. (2) If a general practitioner requests a set of pathology services, the pathology services in the set are to be treated as individual pathology services in accordance with this rule.

18. (3) If the fee specified in 1 item that describes any of the services in the set of pathology services is higher than the fees specified in the other items that describe the services in the set:

- (a) the pathology service described in the first-mentioned item is to be treated as 1 pathology service; and

- (b) either:

- (i) the pathology service in the set that is described in the item that specifies the second-highest fee is to be treated as 1 pathology service; or

- (ii) if 2 or more items that describe any of those services specify the second-highest fee, the pathology service described in the item that specifies the second-highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

- (c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

18. (4) If the fees specified in 2 or more items that describe any of the services in the set of pathology services are the same, and higher than the fees specified in the other items that describe the services in the set:

- (a) the pathology service in the set that is described in the item that specifies the highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

- (b) the pathology service in the set that is described in the item that specifies the highest fee, and has the second-lowest item number, is to be treated as 1 pathology service; and

(c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

18. (5) If pathology services are to be treated as 1 pathology service under paragraph (3)(c) or (4)(c), the fee for the 1 pathology service is the highest fee specified in any of the items that describe the pathology services that are to be treated as the 1 pathology service.

Hepatitis C viral RNA testing

19. For item 69499 and 69500:

Hepatitis C sero-positive, for a patient, means 2 different assays of Hepatitis C antibodies are positive.

serological status is uncertain, for a patient, means any result where 2 different assays of Hepatitis C antibodies are inconclusive.

Haemochromatosis testing

20. For items 73317 and 73318:

elevated serum ferritin for a patient, means a level of ferritin above the normal reference range in respect of the particular method of assay used to determine the level.

Nutritional and toxicity metals testing

22. (1) For this rule:

nutritional metals testing group means items 66819, 66820, 66821 and 66822.

metal toxicity testing group means items 66825, 66826, 66827, 66828, 66831 and 66832.

22. (2) An item in the nutritional metals testing group or the metal toxicity testing group does not apply in relation to a service performed if medicare benefits are paid or payable for tests that are performed for the same patient in 3 patient episodes requested within 6 months before the request for that service, under any of:

- (a) that item; or
- (b) the other item in the same group; or
- (c) an item in the other group.

Antineutrophil Cytoplasmic Antibody

23. A request for Antineutrophil Cytoplasmic Antibody immunofluorescence test (ANCA) shall be deemed to include requests for antineutrophil proteinase 3 antibody test (PR-3 ANCA) and antimyeloperoxidase antibody test (MPO ANCA) where the immunofluorescence test for ANCA is abnormal, or has been abnormal, or those specific antibodies have been previously detected.

Satisfying Requirements Described in Items

24. Unless stated elsewhere in these rules, where an item contains a requirement, this requirement is satisfied if:

- (a) The requirement/s as stipulated in the item descriptor are contained in the request form; or
- (b) The requirement/s as stipulated in the item descriptor were supplied previously in writing to the APA and this documentation is retained by the APA; or
- (c) The results of other laboratory tests performed in the same episode meet the requirement/s as stipulated in the item descriptor; or

(d) The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are supplied on the request form; or

The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are contained in the APA's records.

Limitation on certain items

25. (a) For any particular patient, items 66539, 66605, 66606, 66607, 66610, 69380, 69488, 69489, 71075, 71127, 71135 or 71137 is applicable not more than twice in a 12 month period.

(b) For any particular patient, item 66626 is applicable not more than 36 times in a 12 month period.

(c) For any particular patient, items 66655, 66659, 66838, 66841, 69482, 69491, 69499 or 69500 are applicable not more than once in a 12 month period.

(d) For any particular patient, item 66750 or 66751 is applicable not more than once in a pregnancy.

(e) For any particular patient, item 69336 is applicable not more than once in each period of 7 days.

(f) For any particular patient, items 66551, 66660, 69445, 69451, 69483, 71079 or 73523 are applicable not more than 4 times in a 12 month period.

(g) For any particular patient, items 66554, 66830 and 71077 are applicable not more than 6 times in a 12 month period.

(h) For any particular patient, item 66819, 66820, 66821, 66822, 66825, 66826, 66827 or 66828 is applicable not more than 3 times in a 6 month period.

(i) For any particular patient, items 73339 and 73340 are applicable not more than once.

Antigen Detection - Group P3 (Microbiology)

26. If the service listed in 69316, 69317, 69319, 69494, 69495, 69496, 69497 or 69498 is a pathologist determinable service the specialist pathologist is required to record the reasons for determining the need for this service.

27. If the service rendered in 71148, 73320 or 73321 is a pathologist determinable service, the specialist pathologist is required to record the reason for determining the need for this service including the result of the service in 71147.

Second Opinion morphology, limitations on items 72858 and 72859

28.1 Items 72858 and 72859 apply:

(a) only to a service that is covered by:

(i) item 65084 or 65087; or

(ii) item 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 or 72838; or

(iii) an item in Group P6 (other than item 73070, 73071, 73072, 73073, 73074, 73075 or 73076);

and

(b) only if the treating practitioner and the approved pathology practitioner who provided the original opinion on the patient specimen agree that a second opinion is reasonably necessary for diagnostic purposes.

28.2 Items 72858 and 72859 do not apply if the accredited pathology laboratory in which the second opinion is provided is the same laboratory in which the original opinion was provided.

**PN.1.1 Pathology Services in Relation to Medicare Benefits - Outline of Arrangements
Basic Requirements**

Determination of Necessity of Service

The treating practitioner must determine that the pathology service is necessary.

Request for Service

The service may only be provided:

- (i) in response to a request from the treating practitioner, including a participating midwife or a participating nurse practitioner, or from another Approved Pathology Practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days); or

- (ii) if determined to be necessary by an Approved Pathology Practitioner who is treating the patient.

Services requested by participating midwives and participating nurse practitioners:

- (i) A participating midwife can request the following services:

Items 65060, 65070, 65090 to 65099 (inclusive), 65114, 66500 to 66512 (inclusive), 66545, 66548, 66566, 66743, 66750, 66751, 69303 to 69317 (inclusive), 69324, 69384 to 69415 (inclusive), 73070, 73071, 73075, 73076 and 73529.

- (ii) A participating nurse practitioner can request items in the range 65060 to 73529 (inclusive).

Provision of Service

The following conditions relate to provision of services:

- (i) the service has to be provided by or on behalf of an Approved Pathology Practitioner;
- (ii) the service has to be provided in a pathology laboratory accredited for that kind of service;
- (iii) the proprietor of the laboratory where the service is performed must be an Approved Pathology Authority;
- (iv) the Approved Pathology Practitioner providing the service must either be the proprietor of the laboratory or party to an agreement, either by way of contract of employment or otherwise, with the proprietor of the laboratory in which the service is provided; and
- (v) no benefit will be payable for services provided by an Approved Pathology Practitioner on behalf of an Approved Pathology Authority if they are not performed in the laboratories of that particular Approved Pathology Authority.

Therapeutic Goods Act 1989

For any service listed in the MBS to be eligible for a Medicare rebate, the service must be rendered in accordance with the provisions of the relevant Commonwealth and State and Territory laws. Approved Pathology Practitioners have the responsibility to ensure that the supply of medicines or medical devices used in the provision of pathology services is strictly in accordance with the provisions of the *Therapeutic Goods Act 1989*.

PN.1.2 Exemptions to Basic Requirements

Satisfying requirements described in pathology service

Unless the contrary intention appears, a requirement contained in the description of a pathology service in Part 2 is satisfied if:

- (a) for a requirement for information - the information:
 - (i) is included in the request for the service; or
 - (ii) was supplied in writing on an earlier occasion to the approved pathology authority that rendered the service, and has been kept by the approved pathology authority; or
- (b) for a requirement for laboratory test results ζ the results are:
 - (i) included in the request for the service; or
 - (ii) obtained from another laboratory test performed in the same patient episode; or
 - (iii) included in results from an earlier laboratory test that have been kept by the approved pathology authority.

Services Where Request Not Required

- (i) a pathologist determinable service. A pathologist-determinable service is a pathology service:
- (a) that is rendered by or on behalf of an approved pathology practitioner for a person who is a patient of that approved pathology practitioner who has determined that the service is necessary; or
- (b) that is specified in item 73332, 73336, 73337, 73341, 73342, 73344 or only one immunohistochemistry items 72846, 72847, 72848, 72849, 72850 and 72860 or electronmicroscopy items 72851 and 72852 or immunocytochemistry items 73059, 73060 or 73061, and 73364 to 73383 and is considered necessary by the approved pathology practitioner as a consequence of information resulting from a pathology service contained in tissue examination items 72813 - 72838 or cytology items 73045 - 73051 respectively.

Please note: a written request is required for a service contained in items 72813 to 72838 and items 73045 to 73051.

- (c) that is specified in one of the antigen detection items 69494, 69495 or 69496 is considered necessary by the approved pathology practitioner as a consequence of information provided by the requesting practitioner or by the nature or appearance of the specimen or as a consequence of information resulting from a pathology service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

Please note: a written request is required for a service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

- (d) that is specified in item 73320, HLA-B27 typing by nucleic acid amplification, and is considered necessary by the approved pathology practitioner because the results of HLA-B27 typing described in item 71147 are unsatisfactory.
- (e) that is specified in item 73305, detection of mutation of the FMRI gene by Southern Blot analysis where the results in item 73300 are inconclusive.

PN.1.3 Circumstances Where Medicare Benefits Not Attracted *Services Rendered by Disqualified Practitioner*

Medicare benefits are not payable for pathology services if at the time the service is rendered, the person, by or on whose behalf the service is rendered, is a person in relation to whom a determination is in force in relation to that class of services. That is, where an Approved Pathology Practitioner has breached an undertaking, and a determination has been made that Medicare benefits should not be paid during a specified period (of up to five years) in respect of specified pathology services rendered by the practitioner.

Note: An Approved Pathology Practitioner may be disqualified for reasons other than a breach of undertaking.

Certain Pathology Tests Do Not Attract Medicare Benefits

Certain tests of public health significance do not qualify for payment of Medicare benefits. Examples of services in this category are:

- examination by animal inoculation;
- Guthrie test for phenylketonuria;
- neonatal screening for hypothyroidism (T4/TSH estimation);
- neonatal screening for Cystic Fibrosis;
- neonatal screening for Galactosemia;

- pathology services used with the intention of monitoring the performance enhancing effects of any substance;
- pathology tests carried out on specimens collected from persons occupationally exposed to sexual transmission of disease where the purpose of the collection of specimens is for testing in accordance with conditions determined by the health authority of the State or Territory in which the service is performed.

In addition to the above, certain other tests do not qualify for payment of Medicare benefits. These include:

- cytotoxic food testing;
- pathology services performed for the purposes of control estimation, repeat tests (eg. for confirmation of earlier tests on the same specimen, etc);
- preparation of autogenous vaccines;
- tissue banking and preparation procedures;
- pathology services performed on stillborn babies or cadavers;
- pathology services which are performed routinely in association with the termination of pregnancy without there being any indication for the necessity of the services.

However, benefits will be paid for the following pathology tests:

- item 65060 - haemoglobin estimation;
- item 65090 - blood grouping ABO and Rh (D antigen);
- item 65096 - examination of serum for Rh and other blood group antibodies.

PN.2.1 Responsibilities of Treating/Requesting Practitioners

Form of Request

A treating practitioner may request a pathology service either orally or in writing but oral requests must be confirmed in writing within fourteen days from the day when the oral request was made.

Pathology request forms and combined pathology request/offer to assign forms which are prepared by the pathologists and distributed to requesting practitioners on or after 1 August 2012 must include the minimum information detailed under P.2.2.

All written requests for pathology services should contain the following particulars:

- (i) a description of the individual pathology services, or recognised groups of pathology tests to be rendered (see P.17.4 and the Index for acceptable terms and abbreviations). The description must be sufficient to enable the item in which the service is specified to be identified;
- (ii) the date of request;
- (iii) the name of the requesting practitioner and their practice address or provider number;
- (iv) the patient's name and address;
- (v) details of the hospital status of the patient, as follows (for benefit rate assessment). That is, whether the patient was or will be, at the time of the service and when the specimen is obtained:
 - (a) a private patient in a private hospital, or approved day hospital facility;

- (b) a private patient in a recognised hospital;
- (c) a public patient in a recognised hospital;
- (d) an outpatient of a recognised hospital;

Offence Not to Confirm an Oral Request

A requesting practitioner who, without reasonable excuse, does not confirm in writing an oral request within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding \$1,100 (10 Penalty Units in accordance with the Crimes Act 1914), and the request is deemed never to have been made.

The Department of Human Services (DHS) has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the DHS website.

PN.2.2 Responsibilities of Approved Pathology Practitioners

Form of Request

There is no official "request in writing" form, and the requesting practitioner's own stationery, or pre-printed forms supplied by Approved Pathology Practitioners/Authorities are acceptable.

For the purposes of Medicare eligible services, the minimum information requirements for a pre-printed pathology request and combined pathology request/offer to assign are detailed within the: *Health Insurance Act 1973*; *Health Insurance Regulations 2018*; and the *Privacy Act 1988*.

The following table presents the minimum details that pre-printed pathology request forms and combined pathology request/offer to assign forms must contain for the purposes of a subsequent Medicare claim:

Requesting Practitioner
a) name
b) practice address or provider number

Patient Details
a) name - surname, first name
b) address
c) date of birth
d) sex
e) Medicare card number
f) hospital status Two acceptable versions are as follows: State the patient's status at the time of the service or when the specimen was collected: OR cross out the statements that do not apply Was or will the patient be, at the time of the service or when the specimen is obtained: (a) a private patient in a private hospital or approved day hospital facility (b) a private patient in a recognised hospital (c) a public patient in a recognised hospital (d) an outpatient of a recognised hospital

Tests Requested
a) an area titled "Tests Requested"

Self Determined (SD)
A tick box is required for SD. This is used when the APP determines that pathologist-determinable tests are necessary. This tick box can be put in the Clinical Notes area.

Mandatory patient advisory statement
One of the following statements: 'Your doctor has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your doctor has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your doctor.' 'Your treating practitioner has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your treating practitioner has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your treating practitioner.'

Privacy Note
The wording of the note must be: "Privacy Note: The information provided will be used to assess any Medicare benefit payable for the services rendered and to facilitate the proper administration of government health programs, and may be used to update enrolment records. Its collection is authorised by the provisions of the <i>Health Insurance Act 1973</i> . The information may be disclosed to the Department of Health or to a person in the medical practice associated with this claim, or as authorised/required by law." The placement of the note is only necessary on the patient's copy and could be incorporated into the clinical notes area. Alternatively, the back of the patient copy could be used if that is more practicable.

The Department of Human Services (DHS) has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the DHS website.

Combined Request/Assignment form only
Offer to Assign and Reference to Section 20A
An example of a Section 20A Offer to Assign is as follows: "Medicare Agreement (Section 20A of the Health Insurance Act 1973) I offer to assign my right to benefits to the approved pathology practitioner who will render the requested pathology service(s) and any eligible pathologist determinable service(s) established as necessary by the practitioner. Patient signature _____ Date / /
Practitioners Use Only
A text box is also required for 'Practitioner's Use Only' this section is used where the patient is unable to sign and an appropriate person endorses on behalf of patient, eg. Practitioner's Use Only _____ (Reason patient cannot sign)

An Approved Pathology Practitioner or Approved Pathology Authority who, without reasonable excuse, provides to practitioners (directly or indirectly) combined request/assignment forms which are not in accordance with the legislation is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*).

Patient Copy

Assignment of benefits requires the patient to receive a copy of the request. The doctor must cause the particulars relating to the professional service (tests requested) to be set out on the assignment form, before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

Authority to lodge a Patient Claim electronically

Where an Approved Pathology Practitioner or Approved Pathology Authority renders a service and the patient has not assigned the benefit the Approved Pathology Practitioner or Approved Pathology Authority can lodge a claim electronically to the Department of Human Services on behalf of the patient where consent is provided. This consent can be provided verbally.

Combined Online Patient Claiming Authority

Authority for APP/APA to submit an electronic patient claim on behalf of the claimant

An example of wording that could be used is:

'I authorise the approved pathology practitioner who will render the requested pathology services, and any further pathology services which the practitioner determines to be necessary, to submit my unpaid account to Medicare, so that Medicare can assess my claim and issue me a cheque made payable to the practitioner, for the Medicare benefit.'

Patient Signature _____ Date ____/____/____

Verbal consent was provided by patient to submit unpaid account to Medicare. No signature available.

Request to Approved Pathology Authority

It is acceptable for a request to be made to an Approved Pathology Authority who is the proprietor or one of the proprietors of a laboratory instead of making the request to the Approved Pathology Practitioner who renders the service or on whose behalf the service is rendered.

Holding, Retention, Recording and Production of Request Forms

Approved Pathology Practitioners must hold a request in writing for all services requested by any other practitioner before billing patients. An Approved Pathology Practitioner is required to retain written requests/confirmation of requests for pathology services for 2 years from the day when the service was rendered. This also applies to requests which an Approved Pathology Practitioner receives of which only some tests are referred to another Approved Pathology Practitioner (the first Approved Pathology Practitioner would retain the request for 2 years). If all tests were referred, the second pathologist would retain the original request.

If the written request or written confirmation has been recorded on film or other magnetic medium approved by the Minister for Health and Ageing, for the purposes of storage and subsequent retrieval, the record so made shall be deemed to be a retention of the request or confirmation. The production or reproduction of such a record shall be deemed to be a production of the written request or written confirmation.

An Approved Pathology Practitioner or an Approved Pathology Authority is required to produce, on request from the Department of Human Services CEO, no later than the end of the day following the request from the CEO, a written request or written confirmation retained pursuant to the above paragraphs. An employee of the Department

of Human Services is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations.

Offences in Relation to Retaining and Producing Request Forms

The following offences are punishable upon conviction by a fine not exceeding 10 penalty units:

- i. an Approved Pathology Practitioner who, without reasonable excuse, does not keep request forms for 2 years;
- ii. an Approved Pathology Practitioner who, without reasonable excuse, does not produce a request form to an employee of the Department of Human Services before the end of the day following the day of the Department of Human Services CEO's request;
- iii. an Approved Pathology Authority which, without reasonable excuse, does not keep request forms for 2 years;
- iv. an Approved Pathology Authority which, without reasonable excuse, does not produce a request form to an employee of the Department of Human Services before the end of the day following the day of the Department of Human Services CEO's request.

Referral From An Approved Pathology Practitioner To Another Approved Pathology Practitioner

Where an Approved Pathology Practitioner refers some or all services requested to another Approved Pathology Practitioner not associated with the same Approved Pathology Authority the following apply:

- i. where all the services are referred, the first Approved Pathology Practitioner should forward the original request to the second Approved Pathology Practitioner, and the document bearing the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare;
- ii. where some of the services which are listed in different items in the Schedule are referred, the first Approved Pathology Practitioner must issue his/her own request in writing listing the tests to be performed, and when necessary, forward a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare

in addition to the details of the first Approved Pathology Practitioner, the second Approved Pathology Practitioner must show on the account/receipt/assignment form:

- a. name and provider number of the original requesting practitioner; and
 - b. date of original request;
- iii. under the item coning rules (which limit benefits for multiple services) only one Medicare benefit is payable for services included in coned items except for estimations covered by Rule 6 entitled "designated pathology services". The exemption allows payment of more than one Medicare benefit where various components of the one item number from the same request e.g. drug assays (items 66800 and 66812) are performed by two Approved Pathology Authorities.

Although the provisions concerning designated pathology services in Rule 6 permit similar services (e.g. hormone estimations) to be performed by 2 or more laboratories, with different Approved Pathology Authorities, the sum of the Medicare benefit payable for services provided by the laboratories concerned will not exceed the maximum amount payable under the item coning rules when a single laboratory performs all the estimations.

Notes:

- i. the patient should be billed by each Approved Pathology Practitioner only for those services rendered by or on his/her behalf;
- ii. photocopies of requests are not acceptable;
- iii. in the case of "designated pathology services" 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165 a patient episode initiation fee (PEI) is payable for the services provided by the laboratory which receives the original request and performs one or more of the estimations. However, no PEI is payable for services provided by the other laboratory which performs the remainder of the estimations. A "specimen referred fee" is payable instead. One Approved

Pathology Practitioner cannot claim both a PEI and a "specimen referred fee" in relation to the same patient episode.

Offence Not To Confirm An Oral Request

An Approved Pathology Practitioner who, without reasonable excuse, does not confirm in writing an oral request to another Approved Pathology Practitioner within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*), and the request is deemed never to have been made.

PN.2.3 Pathology Tests not Covered by Request

An Approved Pathology Practitioner, who has been requested to perform one or more pathology services, may consider it necessary, in the interest of the patient, that additional tests to those requested be carried out. The Approved Pathology Practitioner must discuss this need with the requesting practitioner, and if the requesting practitioner determines that additional tests are necessary, the Approved Pathology Practitioner must arrange with the requesting practitioner to forward an amended or second request for those services. The account will then be issued in the ordinary way and the additional services will attract benefits providing the Approved Pathology Practitioner is a recognised specialist pathologist.

PN.3.1 Details Required on Accounts, Receipts or Assignment Forms General

Medicare benefit is not payable in respect of a pathology service unless specified details are provided, by the practitioner rendering the service, on his or her account, receipt or assignment form.

PN.3.2 Approved Pathology Practitioners

In addition to holding a request in writing from the treating medical or dental practitioner or from another Approved Pathology Practitioner, the following additional details must be recorded on the account, receipt or assignment form of the Approved Pathology Practitioner providing the service:

- (i) the surname and initials of the Approved Pathology Practitioner who performed the service and either his/her practice address or the provider number for the address;
- (ii) the name of the person to whom the service was rendered;
- (iii) the date on which the service was rendered;
- (iv) the name of the requesting practitioner; or in the case of a referred test, the name of the original requesting practitioner;
- (v) the date on which the request was made; or in the case of a referred test, the date on which the original request was made;
- (vi) the requesting practitioner's provider number;
- (vii) a description of the pathology service in words which are derived from the item description in the Schedule and are of sufficient detail to identify the specific test in the Schedule that was rendered. Instead of such a full description, the abbreviations contained in the index and the group abbreviations listed at PQ.4 are acceptable alternatives (see PQ.1);
- (viii) where the Approved Pathology Practitioner determines or provides a pathology service on his/her own patient, the account must be endorsed "sd"; and
- (ix) provide collection centre identification number if the specimen was collected in a licensed collection centre (or approved pathology collection centre).

Where some services are referred from one Approved Pathology Practitioner to another Approved Pathology Practitioner, the request details to be shown on the second Approved Pathology Practitioner's account, receipt or assignment form must be identical to those of the original requesting practitioner including the date of request.

PN.3.3 Prescribed Pathology Services

For Prescribed Pathology Services (that is, pathology items in Group P9) the medical practitioner who renders the service must ensure his or her account, receipt or assignment form includes his or her name, address or provider number, the date of the service, and a description to clearly identify the service in the Schedule that was rendered.

If the service was determined necessary by another medical practitioner who is a member of the same group practice as the practitioner who rendered the service, the name of the requesting practitioner, sufficient to identify the practitioner from other practitioners in the same group practice with the same surname, must also be included together with the date on which the request was made.

PN.3.4 Interferon Gamma Release Assay (IGRA) for detection of latent tuberculosis - (Item 69471)

Before undertaking testing it is advisable to consult with a medical practitioner experienced in the management of tuberculosis. Neither IGRA tests or the tuberculin skin test (Mantoux) can absolutely exclude latent tuberculosis and following close contact exposure preventative therapy should always be considered in young children and immunosuppressed patients.

IGRA testing for the diagnosis of latent tuberculosis should be requested in compliance with recommendations made by the National Tuberculosis Advisory Committee in 2016 or later.

<http://www.health.gov.au/internet/main/publishing.nsf/Content/cdna-ntac-pubs.htm> including:

- IGRAs have no place in the initial investigation of active TB disease and cannot and should not be used to exclude suspected TB disease.
- IGRA should not be used for the purpose of screening prior to BCG vaccination.
- While IGRA tests can be used in children less than 5 years of age, there may be a higher proportion of indeterminate test results and tuberculin skin testing is preferred, unless there is a history of BCG.

At least eight weeks should elapse following last possible TB exposure before testing of a contact of a confirmed case of active tuberculosis – testing of contacts should be performed only after discussion with appropriate State or Territory public health authorities.

PN.3.5 Non-Public Health Laboratory Network laboratory use of item 69480

Accredited pathology laboratories providing or planning to provide clinical diagnostic testing and reporting for SARS-CoV-2 (MBS item 69480 and 69479) must be enrolled and participate in a relevant External Quality Assurance Program for testing methods.

The Royal College of Pathologists of Australasia (RCPA) Quality Assurance Programs offers a SARS-CoV-2 Quality Assurance Program. Further details can be found at this link: <https://rcpaqap.com.au>

In addition, it is recommended that laboratories:

- a) Access and utilise positive control material provided by a state or territory reference laboratory (usually a Public Health Laboratory Network (PHLN) laboratory; and
- b) Arrange for confirmatory testing to be conducted by a PHLN laboratory to verify the results. This means referring all positive samples for confirmatory testing, and referring a subset of negative samples where a strong clinical or epidemiological suspicion exists.

PN.4.1 Inbuilt Multiple Services Rule

The term "Multiple Services Rule" (Rule 3 of the Pathology Services Table) describes an arrangement which places limits on the benefits payable for items in the Pathology Services Table depending on the range of services performed during a single patient episode. A patient episode is defined in PO.4 of these notes.

PN.4.2 Exemptions

Under Rule 4 of the Pathology Services Table, exemptions to the multiple services rule have been granted for certain specified tests. In some circumstances tests which are repeated up to 6 times over a 24 hour period, or tests which are requested up to 6 times on a single request form and are performed within 6 months of the date of request may be eligible for separate Medicare benefits. The services to which the exemptions apply are listed under Rule 4.(1 and 2) and cover seriously or chronically ill patients who require particular tests under specified circumstances. In order to claim the exemptions, accounts should be endorsed "Rule 3 Exemption".

Where a practitioner seeks an exemption to the multiple services rule for a patient whose condition requires a series of pathology investigations at various times throughout any one day or over a longer period of time, and the services required are not exempted under Rule 4, an application for exemption can be made which is endorsed "S4B(3)". Some factors that the delegate of the Minister may take into consideration in approving an exemption are: the patient is seriously ill; there are distinct and separate collections and performances of tests; and the services involve substantial additional expenses for the Approved Pathology Practitioner. These, and other clinical details, should be supplied by the practitioner when seeking an S4B(3) exemption.

If Rule 3 exemptions are endorsed "S4B(3)", claim assessment could take longer as all S4B(3) claims are passed to the delegate for assessment. S4B(3) covers all exemptions to the multiple services rule but, where applicable, specific "Rule 3 exemption" endorsements will speed up the payment of claims. Rule 3 and S4B(3) exemptions cannot be used to overcome time based restrictions within items e.g. "-. each test to a maximum of 4 tests in a 12 month period".

PN.5.1 Episode Cone Description of Rule 18

The term "Episode Cone" describes an arrangement under which Medicare benefits payable in a patient episode for a set of pathology services, containing more than three items, ordered by a general practitioner for a non-hospitalised patient, will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Further information on the episode coning arrangements is provided in PO.5 of these notes.

PN.5.2 Exemptions

Some items are not included in the count of the items performed when applying episode coning. The items which have been exempted from the cone include all the items identified in Rule 18.(1)(d) and (e).

PN.6.1 Bulk Billing Incentives for Episodes Consisting of a P10 Service

The Fees for items in Group P13 are additional payments for bulk billing a patient episode consisting of a pathology service to which a Group P10 item (Pathology Episode Initiation fee) applies.

PN.6.2 Patient Episode Initiation Fees (PEIs)

Items in Groups P10 of the Pathology Services Table are only applicable to services performed:

- (i) by or on behalf of an Approved Pathology Practitioner who is a recognised specialist pathologist; and
- (ii) in private practice.

Accordingly, these fees are not payable for pathology services rendered by an Approved Pathology Practitioner, being a specialist pathologist when requested for a privately referred out-patient of a recognised hospital.

The patient episode initiation fees (PEIs) will be applicable on an episodic basis i.e. a claim may be made for the provision of pathology services requested by a practitioner in respect of one individual on the same day. For example, if a practitioner orders three pathology tests for a person on the one day, Medicare benefits will be payable for each of those tests but only one PEI will be applicable.

This Rule applies even when the treating practitioner has requested pathology tests from two or more Approved Pathology Practitioners. Thus a PEI will only be paid for the first account submitted unless an exemption listed in Rule 4 or 14.(7) applies or an exemption has been granted under "S4B(3)".

Under Rule 14.(7) two PEIs are payable in relation to the same patient episode where a referring practitioner refers two different specimens to two different Approved Pathology Authorities in the following circumstances:

- a tissue pathology specimen and any other non-tissue pathology specimen; or
- a cytopathology specimen and any other non-cytopathology specimen.

Rule 14.(8) also provides that only one PEI will be paid for the collection of specimens from a patient on one day in or by a single Approved Pathology Authority.

The patient episode initiation benefits are two-tiered. Higher benefits are paid for the collection of specimens from patients who are not private inpatients or private outpatients of a recognised hospital where the specimens are tested in a private laboratory.

A lower and uniform PEI benefit is paid where patients are private patients associated with a recognised hospital and the specimens are tested in a private laboratory or where the testing is performed by a prescribed laboratory on specimen collected from a patient eligible to claim Medicare benefits.

PN.6.3 Patient Episode Initiation Fees for Certain Tissue Pathology and Screening Items

Tissue Pathology items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72830 and 72836 and Cervical screening items 73070, 73071, 73072, 73073, 73074, 73075, 73076 will be subject to a different patient episode initiation fee structure - items 73922 to 73939 refer.

PN.6.4 Hospital, Government etc Laboratories

The following laboratories have been prescribed for the purposes of payment of Medicare benefits as outlined in paragraphs PF.2 and PF.3:

- (i) laboratories operated by the Australian Government (these include health laboratories operated by the Australian Government Department of Health as well as the laboratories operated by other Departments, e.g. the Departments of Defence and Veterans' Affairs operate laboratories from which pathology services are provided);
- (ii) laboratories operated by a State Government or authority of a State (laboratories operated or associated with recognised hospitals are also included);
- (iii) laboratories operated by the Northern Territory and the Australian Capital Territory; and
- (iv) laboratories operated by Australian tertiary education institutions eg Universities.

PN.7.1 Assignment of Medicare Benefits - Patient Assignment

In addition to the general arrangements relating to the assignment of benefits, as outlined at paragraph 7 of the "General Explanatory Notes" in Section 1 of this book, it should be noted that, where the treating practitioner requests pathology services but the patient does not physically attend the Approved Pathology Practitioner, the patient may complete an assignment voucher at the time of the visit to the requesting doctor offering to assign benefits for the Approved Pathology Practitioner's services.

If an Approved Pathology Practitioner refers some of the tests requested by the treating practitioner to another Approved Pathology Authority, he/she should provide the second Approved Pathology Authority with a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can also direct-bill Medicare.

PN.7.2 Approved Pathology Practitioner Eligibility

If a practitioner requests an Approved Pathology Practitioner to perform a necessary pathology service, that Approved Pathology Practitioner must personally perform the service or have it performed on his/her behalf in order to be eligible to receive benefits by way of assignment. If, however, the first Approved Pathology Practitioner arranges for the service to be rendered by a second Approved Pathology Practitioner with the same Approved Pathology Authority, the second Approved Pathology Practitioner and not the first, is eligible to receive an assignment of the Medicare benefit for the service in question.

PN.7.3 Cystic fibrosis gene testing

(1) For any particular patient, item 73345, 73347, 73348 and 73349 is applicable not more than once in a lifetime.

(2) For any particular patient, item 73346 and 73350 is applicable not more than once in a pregnancy.

(3) The testing laboratory used to undertake tests for items 73345, 73346, 73347, 73348, 73349 and 73350 must use a cystic fibrosis transmembrane conductance regulator methodology appropriate to the clinical setting with:

(a) sufficient diagnostic range and sensitivity to detect at least 95% of pathogenic cystic fibrosis transmembrane conductance regulator variants likely to be present in the patient; and

(b) with at least 25 of the most frequently encountered cystic fibrosis transmembrane conductance regulator variants in the Australian population.

PN.7.4 Intellectual disability or global developmental delay

Intellectual disability or global developmental delay of at least moderate severity, to be determined by a specialist paediatrician according to Diagnostic and Statistical Manual of Mental Disorders (DSM) criteria.

PN.8.1 Accredited Pathology Laboratories - Need for Accreditation

A pathology service will not attract Medicare benefits unless that service is provided in a pathology laboratory which is accredited for that kind of service. Details of the administration of the pathology laboratory accreditation arrangements are set out below.

PN.8.2 Applying for Accreditation

To become an Accredited Pathology Laboratory it is necessary to lodge a completed application form with the Manager, Pathology Section, the Department of Human Services, PO Box 1001, TUGGERANONG ACT 2901. The prescribed fees for Approved Pathology Laboratories are:

- \$2500 for Category GX labs
- \$2000 for Category GY labs
- \$1500 for Category B labs
- \$ 750 for Category M & S labs.

It is necessary for an application for inspection be made to the National Association of Testing Authorities (NATA) NATA is the independent body chosen to act on the Australian Government's behalf as the primary inspection agency. The Royal Australian College of General Practitioners (RACGP) has also been appointed to inspect laboratories in Category M (general practitioner) in Victoria only.

Details of laboratory categories and associated supervisory requirements can be found on the Department's internet site (www.health.gov.au/pathology).

PN.8.3 Effective Period of Accreditation

Accreditation takes effect from the date of approval by the Minister for Health and Ageing. The Minister has no power to backdate an approval. Transitional accreditation may be given pending full accreditation. An application and fee are required annually.

PN.8.4 Assessment of Applications for Accreditation

The principles of accreditation for pathology laboratories as determined by the Minister are used to assess applications for accreditation. These principles also require pathology laboratories to address National Pathology Accreditation Advisory Council standards. Copies of the principles and standards are available from the Secretariat, National Pathology Accreditation Advisory Council (see PH.6) on (02) 6289 4017 or email npaac@health.gov.au.

PN.8.5 Refusal of Accreditation and Right of Review

An applicant who has been notified of the intention to refuse accreditation may, within 28 days of being notified, provide further information to the Minister which may be taken into consideration prior to a final decision being made.

Applicants refused accreditation or any person affected by the decision have the right to appeal to the Administrative Appeals Tribunal.

PN.8.6 National Pathology Accreditation Advisory Council (NPAAC)

NPAAC was established in 1979. Its functions are to develop policy for accreditation of pathology laboratories, introduce and maintain uniform standards of practice in pathology services throughout Australia and initiate and coordinate educational programs in relation to pathology practice. The agencies used to inspect laboratories on the Australian Government's behalf are required to conduct inspections using the standards set down by NPAAC. For further information the NPAAC Secretariat can be contacted on (02) 6289 4017 or email npaac@health.gov.au.

PN.8.7 Change of Address/Location

Laboratories are accredited for the particular premises given on the application form. Where a laboratory is relocated to other premises, any previously issued approvals for that Accredited Pathology Laboratory lapse. Medicare benefits are not payable for any pathology services performed at the new location until a new application has been approved by the Minister for Health and Ageing. Paragraph PH.2 sets out the method for applying for accreditation.

PN.8.8 Change of Ownership of a Laboratory

Part of the assessment of an application for an Accredited Pathology Laboratory relates to the Approved Pathology Authority status. Where the ownership, or some other material change occurs affecting the laboratory, the Minister for Health and Ageing must be provided with those changed details. Medicare benefits will not be payable for any pathology services performed on any premises other than those premises for which approval has been given.

PN.8.9 Approved Collection Centres (ACC)

New arrangements for specimen collection centres commenced on 1 December 2001 and replaced the Licensed Collection Centre (LCC) Scheme.

To enable the payment of Medicare benefits for pathology services performed on pathology specimens collected in a collection centre, the centre must first be approved. The exception to this rule is collection centres on the premises of recognised hospitals (recognised hospital in this context means the same as "recognized hospital" in Part 1 Section 3 of the Health Insurance Act 1973) as they do not need approval.

In order for a collection centre to be approved, a public or private Approved Pathology Authority must submit a completed application form to the Department of Human Services including details of the type of application (renewal, new or cancellation of collection centre), the location of the premises, the owner, and any leasing arrangements.

Application forms can be accessed by going to the [Department of Human Services website](#). Completed application forms and any enquiries should be forwarded to Pathology Registration, PO Box 9822 MELBOURNE VIC 3001.

PN.9.1 Approved Pathology Practitioners

Introduction

A pathology service will not attract Medicare benefits unless that service is provided by or on behalf of an Approved Pathology Practitioner. (Approved Pathology Practitioners must be registered medical practitioners.) Set out below is information which relates to Approved Pathology Practitioner requirements.

PN.9.2 Applying for Acceptance of the Approved Pathology Practitioner Undertaking

To apply for acceptance of an Approved Pathology Practitioner Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Practitioner Undertaking; and
- (ii) a signed Approved Pathology Practitioner Undertaking to the Pathology Registration, the Department of Human Services,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

Payment of Acceptance Fee

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and
- (iv) there will therefore be a period during which Medicare benefits cannot be paid.

PN.9.3 Undertakings

Consideration of Undertakings

The Minister is unable to accept an undertaking from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, amongst other things, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Practitioner.

When an undertaking has been given, the Minister may require the person giving the undertaking to provide additional information within a fixed period of time and if the person does not comply the Minister may refuse to accept the undertaking.

Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, for any of the reasons shown above, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

Effective Period of Undertaking

The following applies:

- (i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;
- (ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving undertakings of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;
- (iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by the Department of Human Services until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and
- (iv) **Cessation of Undertaking** the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Practitioner may terminate an undertaking at any time providing that the practitioner gives at least 30 days notice of his/her intention to do so.

PN.9.4 Obligations and Responsibilities of Approved Pathology Practitioners

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Practitioners and the Minister. The more complex of these not already dealt with are considered in PK, PL and PM dealing with Breaches of Undertakings, Excessive Pathology Services and Personal Supervision.

PN.10.1 Approved Pathology Authorities

Introduction

A pathology service will not attract Medicare benefits unless the proprietor of the laboratory in which the pathology service is performed is an Approved Pathology Authority. Following is information which relates to Approved Pathology Authority requirements.

PN.10.2 Applying for Acceptance of an Approved Pathology Authority Undertaking

To apply for acceptance of an Approved Pathology Authority Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Authority Undertaking; and
- (ii) a signed Approved Pathology Authority Undertaking to the Pathology Registration, the Department of Human Services,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

Payment of Acceptance Fee

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$1,500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and
- (iv) there will therefore be a period during which Medicare benefits cannot be paid.

PN.10.3 Undertakings

Consideration of Undertakings

The Minister is unable to accept undertakings from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, inter alia, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Authority.

When an undertaking has been given the Minister may require the person giving the undertaking to provide additional information within a specified period of time and if the person does not comply the Minister may refuse to accept the undertaking.

Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

Effective Period of Undertaking

The following applies:

- (i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;

(ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving an undertaking of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;

(iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by the Department of Human Services until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and

(iv) **Cessation of Undertaking** the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Authority may terminate an undertaking at any time providing that at least 30 days notice of the intention to terminate the undertaking is given.

PN.10.4 Obligations and Responsibilities of Approved Pathology Authorities

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Authorities and the Minister. The more complex of these which have not already been covered are considered in paragraphs PK and PL dealing with Breaches of Undertakings and Excessive Pathology Services.

PN.11.1 Breaches of Undertakings Notice Required

Where the Minister has reasonable grounds for believing that an Approved Pathology Practitioner or an Approved Pathology Authority has breached the undertaking, the Minister is required to give notice in writing to the person explaining the grounds for that belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

PN.11.2 Decisions by Minister

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively the Minister may refer the matter to a Medicare Participation Review Committee, notifying the grounds for believing that the undertaking has been breached. If after 28 days no submission has been received from the person, the Minister must refer that matter to the Committee.

PN.11.3 Appeals

The Minister is empowered to suspend an undertaking where notice has been given to a Medicare Participation Review Committee of its possible breach, pending the outcome of the Committee's proceedings. The Minister must give notice in writing to the person who provided the undertaking of the determination to suspend it, and the notice shall inform the person of a right of appeal against the determination to the Administrative Appeals Tribunal. The Minister may also publish a notice of a determination in the Public Service Gazette. Rights of appeal to the Administrative Appeals Tribunal also exist in respect of any determination made by a Medicare Participation Review Committee.

PN.12.1 Initiation of Excessive Pathology Services Notice Required

Where the Minister has reasonable grounds for believing that a person, of a specified class of persons, has initiated, or caused or permitted the initiation of excessive pathology services the Minister is required to give notice in writing to the person explaining the grounds for the belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

PN.12.2 Classes of Persons

The classes of persons are:

- (i) the practitioner who initiated the services;
- (ii) the employer of the practitioner who caused or permitted the practitioner to initiate the services; or
- (iii) an officer of the body corporate employing the practitioner who caused or permitted the practitioner to initiate the services.

PN.12.3 Decisions by Minister for Health and Ageing

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively, the Minister may refer the matter to a Professional Services Review (PSR) Committee, notifying the grounds for believing that excessive pathology services have been initiated. If after 28 days no submission has been received from the person, the Minister must refer the matter to the Committee. The Minister must give to the person notice in writing of the decision.

PN.12.4 Appeals

Unlike the procedures relating to breaches of undertaking there is no power given to the Minister to determine a penalty. The Minister's role is either deciding to take no further action or referring the matter to a PSR Committee. Accordingly, there are no rights of appeal to the Administrative Appeals Tribunal applicable to the above procedures. However, rights of appeal to the Administrative Appeals Tribunal exist in respect of any determination made by a Medicare Participation Review Committee.

PN.13.1 Personal Supervision

Introduction

The *Health Insurance Act 1973* provides that the form of undertaking to be given by an Approved Pathology Practitioner may make provision for pathology services carried out under the personal supervision of the Approved Pathology Practitioner.

PN.13.2 Extract from Undertaking

The following is an extract from the Approved Pathology Practitioner (APP) undertaking:

Part 2 - Personal supervision

2.1 I acknowledge that it is my obligation, subject to Parts 2.2 and 2.4, personally to supervise any person who renders any service on my behalf and I undertake to accept personal responsibility for the rendering of that service under the following conditions of personal supervision:

- (i) Subject to the following conditions, I will usually be physically available in the laboratory while services are being provided at the laboratory;
- (ii) I may, subject to paragraph (vi) below, be physically absent from the laboratory while services are being rendered outside its normal hours of operation but in that event I will leave with the person rendering the service particulars of the manner in which I may be contacted while the service is being rendered and I must be able to personally attend at the laboratory while the service is being rendered or formally designate another APP present while I am absent;

(iii) I may, subject to paragraph (vi) below, be absent from the laboratory for brief periods due to illness or other personal necessity, or to take part in activities which, in accordance with normal and accepted practice, relate to the provision of services by that laboratory;

(iv) I will personally keep a written log of my absences from the laboratory that extend beyond one workday in respect of that laboratory and will retain that log in the laboratory for 18 months from date of last entry;

(v) If I am to be absent from the laboratory for more than 7 consecutive workdays, I will arrange for another APP to personally supervise the rendering of services in the laboratory. That arrangement shall be recorded in writing and retained in the laboratory for 18 months from date of last entry. Until such person is appointed, and his or her appointment is recorded in writing, I will remain personally responsible to comply with this undertaking;

(vi) If a service is being rendered on my behalf by a person who is not:

(a) a medical practitioner;

(b) a scientist; or

(c) a person having special qualifications or skills relevant to the service being rendered;

and no person in the above groups is physically present in the laboratory, then I must be physically present in the laboratory and closely supervise the rendering of the service;

(vii) I accept responsibility for taking all reasonable steps to ensure that in regard to services rendered by me or on my behalf:

(a) all persons who render services are adequately trained;

(b) all services which are to be rendered in the laboratory are allocated to persons employed by the APA and, these persons shall have appropriate qualifications and experience to render the services;

(c) the methods and procedures in operation in the laboratory for the purpose of rendering services are in accordance with proper and correct practices;

(d) for services rendered, proper quality control methods are established and reviewed to ensure their reliability and effectiveness; and

(e) results of services and tests rendered are accurately recorded and sent to the treating practitioner and, where applicable, a referring practitioner;

(viii) If I perform, or there is performed on my behalf, a service which consists of the analysis of a specimen which I know, or have reason to believe, has been taken other than in accordance with the provisions of section 16A(5AA) of the Act I will endorse, or cause to be endorsed, on the assignment form or the account for that service, as the case may be, particulars of the circumstances in which I believe, or have reason to believe, the specimen was taken.

2.2 Where services are to be rendered on my behalf in a Category B laboratory as defined in the Health Insurance (Accredited Pathology Laboratories - Approval) Principles 2002, I undertake to take all reasonable measures to ensure that the service is rendered under the supervision of an appropriate person as required by those Principles as in force from time to time.

2.3 I acknowledge to the best of my ability that any act or omission by a person, when acting with my authority, whether express or implied, that would, had it been done by me, have resulted in a breach of this undertaking, constitutes a breach of this undertaking by me.

2.4 Parts 2.1(i) to 2.1(vi) and 2.2 of this undertaking do not apply where a laboratory is limited to services (and associated equipment for those services) as detailed in Schedule 3.

PN.13.3 Notes on the Above

Part 2 of the APP Undertaking outlines the requirements for the personal supervision by an Approved Pathology Practitioner where a pathology service is rendered by another person on behalf of the APP. It should be noted that "on behalf of" does not relieve an Approved Pathology Practitioner of professional responsibility for the service or from being personally involved in the supervision of services in the laboratory.

PR.5.1 Limitation of item 72860

(1) Item 72860 applies to a service (the relevant service) for a patient if:

(a) a service (the initial service) described in an item in Group P5 (other than item 72860), or a service described in an item in Group P6 or P7 of the pathology services table, was rendered in a patient episode (the initial patient episode) for the patient; and

(b) tissue material was collected for the initial service; and

(c) the tissue material was biopsy material, or samples submitted for cytology, from which a tissue block was prepared; and

(d) the tissue material was archived in a formalin fixed paraffin embedded block; and

(e) following the initial service, the treating practitioner determines that a service described in an item in Group P7 (the subsequent P7 service) is clinically necessary for the patient; and

(f) that subsequent P7 service is rendered in another patient episode (the subsequent patient episode) for the patient; and

(g) the relevant service is also rendered in the subsequent patient episode.

(2) However, item 72860 does not apply to the relevant service if:

(a) it is rendered in the accredited pathology laboratory in which the subsequent P7 service is rendered; or

(b) it is rendered in association with a service to which item 72858 or 72859 applies; or

(c) it is rendered in association with, and in the same patient episode as, a service to which an item in Group P5, P6, P10 or P11 applies.

(3) For any particular patient, item 72860 is applicable for a maximum of one retrieval and review of an archived formalin fixed paraffin embedded block per subsequent patient episode.

PR.6.1 Episode Cone

The episode cone is an arrangement, described in Rule 18, which effectively places an upper limit on the number of items for which Medicare benefits are payable in a patient episode. This cone only applies to services requested by general practitioners for their non-hospitalised patients. Pathology services requested for hospital in-patients, or ordered by specialists, are not subject to these coning arrangements.

When more than 3 items are requested by a general practitioner in a patient episode, the benefits payable will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Rule 18 provides that for the two items with the highest Schedule fees, Medicare benefits will be payable for each item. The remaining items are regarded as one service for which the benefit payable will be equivalent to that for the item with the third highest Schedule fee. Where items have the same Schedule fee, their item numbers are used as an artificial means to rank them.

The episode cone will apply even when the pathology services in a patient episode are performed by 2 or more Approved Pathology Authorities, with the exception of the services listed below.

The following items are not included in the count of the items performed when applying the episode cone:

- (i) all the items in Groups P10, P11, P12 and P13;
- (ii) Cervical Screening (items 73070, 73071, 73072, 73073, 73074, 73075, 73076);
- (iii) all the items detailed at Rule 18 (e) (items 65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66609, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318);
- (iv) supplementary test for Hepatitis B and Hepatitis C (item 69484); and
- (v) the carbon-labelled urea breath test to confirm or monitor *Helicobacter pylori* (item 66900).

PR.9.1 Quality Assurance in Aboriginal Medical Services (QAAMS) Program items

Item numbers 73839, 73840 and 73844 can only be performed in the following circumstances:

- a) the service is rendered by or on behalf of a medical practitioner;
- b) the practitioner referred to in paragraph (a), or the organisation for which the practitioner works, is participating in the Quality Assurance in Aboriginal Medical Services Program; and
- c) the service is provided in accordance with that Program; and
- d) the practitioner referred to in paragraph (a) has determined the service to be necessary for his or her patient.

PATHOLOGY SERVICES ITEMS

P1. HAEMATOLOGY	
	Group P1. Haematology
65060	<p>Haemoglobin, erythrocyte sedimentation rate, blood viscosity - 1 or more tests</p> <p>(See para PN.0.33, PN.1.1 of explanatory notes to this Category)</p> <p>Fee: \$7.85 Benefit: 75% = \$5.90 85% = \$6.70</p>
65066	<p>Examination of:</p> <p>(a) a blood film by special stains to demonstrate Heinz bodies, parasites or iron; or</p> <p>(b) a blood film by enzyme cytochemistry for neutrophil alkaline phosphatase, alpha-naphthyl acetate esterase or chloroacetate esterase; or</p> <p>(c) a blood film using any other special staining methods including periodic acid Schiff and Sudan Black; or</p> <p>(d) a urinary sediment for haemosiderin</p> <p>including a service described in item 65072</p> <p>Fee: \$10.40 Benefit: 75% = \$7.80 85% = \$8.85</p>
65070	<p>Erythrocyte count, haematocrit, haemoglobin, calculation or measurement of red cell index or indices, platelet count, leucocyte count and manual or instrument generated differential count - not being a service where haemoglobin only is requested - one or more instrument generated sets of results from a single sample; and (if performed)</p> <p>(a) a morphological assessment of a blood film;</p> <p>(b) any service in item 65060 or 65072</p> <p>Fee: \$16.95 Benefit: 75% = \$12.75 85% = \$14.45</p>
65072	<p>Examination for reticulocytes including a reticulocyte count by any method - 1 or more tests</p> <p>Fee: \$10.20 Benefit: 75% = \$7.65 85% = \$8.70</p>
65075	<p>Haemolysis or metabolic enzymes - assessment by:</p> <p>(a) erythrocyte autohaemolysis test; or</p> <p>(b) erythrocyte osmotic fragility test; or</p> <p>(c) sugar water test; or</p> <p>(d) G-6-P D (qualitative or quantitative) test; or</p> <p>(e) pyruvate kinase (qualitative or quantitative) test; or</p> <p>(f) acid haemolysis test; or</p> <p>(g) quantitation of muramidase in serum or urine; or</p> <p>(h) Donath Landsteiner antibody test; or</p>

P1. HAEMATOLOGY	
	<p>(i) other erythrocyte metabolic enzyme tests</p> <p>1 or more tests</p> <p>Fee: \$51.95 Benefit: 75% = \$39.00 85% = \$44.20</p>
65078	<p>Tests for the diagnosis of thalassaemia consisting of haemoglobin electrophoresis or chromatography and at least 2 of:</p> <p>(a) examination for HbH; or</p> <p>(b) quantitation of HbA2; or</p> <p>(c) quantitation of HbF;</p> <p>including (if performed) any service described in item 65060 or 65070</p> <p>Fee: \$90.20 Benefit: 75% = \$67.65 85% = \$76.70</p>
65079	<p>Tests described in item 65078 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$90.20 Benefit: 75% = \$67.65 85% = \$76.70</p>
65081	<p>Tests for the investigation of haemoglobinopathy consisting of haemoglobin electrophoresis or chromatography and at least 1 of:</p> <p>(a) heat denaturation test; or</p> <p>(b) isopropanol precipitation test; or</p> <p>(c) tests for the presence of haemoglobin S; or</p> <p>(d) quantitation of any haemoglobin fraction (including S, C, D, E);</p> <p>including (if performed) any service described in item 65060, 65070 or 65078</p> <p>Fee: \$96.60 Benefit: 75% = \$72.45 85% = \$82.15</p>
65082	<p>Tests described in item 65081 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$96.60 Benefit: 75% = \$72.45 85% = \$82.15</p>
65084	<p>Bone marrow trephine biopsy - histopathological examination of sections of bone marrow and examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p>Fee: \$165.85 Benefit: 75% = \$124.40 85% = \$141.00</p>
65087	<p>Bone marrow - examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p>Fee: \$83.10 Benefit: 75% = \$62.35 85% = \$70.65</p>
65090	<p>Blood grouping (including back-grouping if performed) - ABO and Rh (D antigen)</p> <p>(See para PN.0.33, PN.1.1 of explanatory notes to this Category)</p>

P1. HAEMATOLOGY	
	Fee: \$11.15 Benefit: 75% = \$8.40 85% = \$9.50
65093	Blood grouping - Rh phenotypes, Kell system, Duffy system, M and N factors or any other blood group system - 1 or more systems, including item 65090 (if performed) Fee: \$22.00 Benefit: 75% = \$16.50 85% = \$18.70
65096	Blood grouping (including back-grouping if performed), and examination of serum for Rh and other blood group antibodies, including: (a) identification and quantitation of any antibodies detected; and (b) (if performed) any test described in item 65060 or 65070 (See para PN.1.1 of explanatory notes to this Category) Fee: \$41.00 Benefit: 75% = \$30.75 85% = \$34.85
65099	Compatibility tests by crossmatch - all tests performed on any 1 day for up to 6 units, including: (a) direct testing of donor red cells from each unit against the serum of the patient by one or more accepted crossmatching techniques; and (b) all grouping checks of the patient and donor; and (c) examination for antibodies, and if necessary identification of any antibodies detected; and (d) (if performed) any tests described in item 65060, 65070, 65090 or 65096 (Item is subject to rule 5) Fee: \$108.90 Benefit: 75% = \$81.70 85% = \$92.60
65102	Compatibility tests by crossmatch - all tests performed on any 1 day in excess of 6 units, including: (a) direct testing of donor red cells from each unit against serum of the patient by one or more accepted crossmatching techniques; and (b) all grouping checks of the patient and donor; and (c) examination for antibodies, and if necessary identification of any antibodies detected; and (d) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105 (Item is subject to rule 5) Fee: \$164.60 Benefit: 75% = \$123.45 85% = \$139.95
65105	Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day for up to 6 units, including: (a) all grouping checks of the patient and donor; and (b) examination for antibodies and, if necessary, identification of any antibodies detected; and (c) (if performed) any tests described in item 65060, 65070, 65090 or 65096 (Item is subject to rule 5) Fee: \$108.90 Benefit: 75% = \$81.70 85% = \$92.60

P1. HAEMATOLOGY	
	Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day in excess of 6 units, including: (a) all grouping checks of the patient and donor; and (b) examination for antibodies and, if necessary, identification of any antibodies detected; and (c) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105 (Item is subject to rule 5)
65108	Fee: \$164.60 Benefit: 75% = \$123.45 85% = \$139.95
	Release of fresh frozen plasma or cryoprecipitate for the use in a patient for the correction of a coagulopathy - 1 release.
65109	Fee: \$12.90 Benefit: 75% = \$9.70 85% = \$11.00
	Release of compatible fresh platelets for the use in a patient for platelet support as prophylaxis to minimize bleeding or during active bleeding - 1 release.
65110	Fee: \$12.90 Benefit: 75% = \$9.70 85% = \$11.00
	Examination of serum for blood group antibodies (including identification and, if necessary, quantitation of any antibodies detected)
65111	Fee: \$23.20 Benefit: 75% = \$17.40 85% = \$19.75
	1 or more of the following tests: (a) direct Coombs (antiglobulin) test; (b) qualitative or quantitative test for cold agglutinins or heterophil antibodies
65114	Fee: \$9.10 Benefit: 75% = \$6.85 85% = \$7.75
	1 or more of the following tests: (a) Spectroscopic examination of blood for chemically altered haemoglobins; (b) detection of methaemalbumin (Schumm's test)
65117	Fee: \$20.25 Benefit: 75% = \$15.20 85% = \$17.25
	Prothrombin time (including INR where appropriate), activated partial thromboplastin time, thrombin time (including test for the presence of heparin), test for factor XIII deficiency (qualitative), Echis test, Stypven test, reptilase time, fibrinogen, or 1 of fibrinogen degradation products, fibrin monomer or D-dimer - 1 test
65120	Fee: \$13.70 Benefit: 75% = \$10.30 85% = \$11.65
	2 tests described in item 65120
65123	Fee: \$20.35 Benefit: 75% = \$15.30 85% = \$17.30
	3 tests described in item 65120
65126	Fee: \$27.85 Benefit: 75% = \$20.90 85% = \$23.70
	4 or more tests described in item 65120
65129	(See para PN.0.28 of explanatory notes to this Category)

P1. HAEMATOLOGY	
	Fee: \$35.50 Benefit: 75% = \$26.65 85% = \$30.20
65137	Test for the presence of lupus anticoagulant not being a service associated with any service to which items 65175, 65176, 65177, 65178 and 65179 apply Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55
65142	Confirmation or clarification of an abnormal or indeterminate result from a test described in item 65175, by testing a specimen collected on a different day - 1 or more tests Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55
65144	Platelet aggregation in response to ADP, collagen, 5HT, ristocetin or other substances; or heparin, low molecular weight heparins, heparinoid or other drugs - 1 or more tests Fee: \$56.55 Benefit: 75% = \$42.45 85% = \$48.10
65147	Quantitation of anti-Xa activity when monitoring is required for a patient receiving a low molecular weight heparin or heparinoid - 1 test Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
65150	Quantitation of von Willebrand factor antigen, von Willebrand factor activity (ristocetin cofactor assay), von Willebrand factor collagen binding activity, factor II, factor V, factor VII, factor VIII, factor IX, factor X, factor XI, factor XII, factor XIII, Fletcher factor, Fitzgerald factor, circulating coagulation factor inhibitors other than by Bethesda assay - 1 test (Item is subject to rule 6) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65153	2 tests described in item 65150 (Item is subject to rule 6) Fee: \$141.85 Benefit: 75% = \$106.40 85% = \$120.60
65156	3 or more tests described in item 65150 (Item is subject to rule 6) Fee: \$212.75 Benefit: 75% = \$159.60 85% = \$180.85
65157	A test described in item 65150, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65158	Tests described in item 65150, other than that described in 65157, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65159	Quantitation of circulating coagulation factor inhibitors by Bethesda assay - 1 test Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65162	Examination of a maternal blood film for the presence of fetal red blood cells (Kleihauer test) Fee: \$10.45 Benefit: 75% = \$7.85 85% = \$8.90

P1. HAEMATOLOGY	
65165	<p>Detection and quantitation of fetal red blood cells in the maternal circulation by detection of red cell antigens using flow cytometric methods including (if performed) any test described in item 65070 or 65162</p> <p>Fee: \$34.45 Benefit: 75% = \$25.85 85% = \$29.30</p>
65166	<p>A test described in item 65165 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$34.45 Benefit: 75% = \$25.85 85% = \$29.30</p>
65171	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency or activated protein C resistance in a first degree relative of a person who has a proven defect of any of the above - 1 or more tests</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65175	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency, lupus anticoagulant, activated protein C resistance - where the request for the test(s) specifically identifies that the patient has a history of venous thromboembolism - quantitation by 1 or more techniques - 1 test</p> <p>(Item is subject to Rule 6)</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65176	<p>2 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$48.65 Benefit: 75% = \$36.50 85% = \$41.40</p>
65177	<p>3 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$71.95 Benefit: 75% = \$54.00 85% = \$61.20</p>
65178	<p>4 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$95.20 Benefit: 75% = \$71.40 85% = \$80.95</p>
65179	<p>5 tests described in item 65175</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$118.50 Benefit: 75% = \$88.90 85% = \$100.75</p>
65180	<p>A test described in item 65175, if rendered by a receiving APA, where no tests in the item have been rendered by the referring APA - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65181	<p>A test described in item 65175, if rendered by a receiving APP, if one or more tests described in the item have been rendered by the referring APP - one test</p> <p>(Item is subject to rule 6 and 18)</p>

P1. HAEMATOLOGY	
	Fee: \$23.30 Benefit: 75% = \$17.50 85% = \$19.85
P2. CHEMICAL	
	Group P2. Chemical
	Quantitation in serum, plasma, urine or other body fluid (except amniotic fluid), by any method except reagent tablet or reagent strip (with or without reflectance meter) of: acid phosphatase, alanine aminotransferase, albumin, alkaline phosphatase, ammonia, amylase, aspartate aminotransferase, bicarbonate, bilirubin (total), bilirubin (any fractions), C-reactive protein, calcium (total or corrected for albumin), chloride, creatine kinase, creatinine, gamma glutamyl transferase, globulin, glucose, lactate dehydrogenase, lipase, magnesium, phosphate, potassium, sodium, total protein, total cholesterol, triglycerides, urate or urea - 1 test
66500	Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
	2 tests described in item 66500
66503	Fee: \$11.65 Benefit: 75% = \$8.75 85% = \$9.95
	3 tests described in item 66500
66506	Fee: \$13.65 Benefit: 75% = \$10.25 85% = \$11.65
	4 tests described in item 66500
66509	Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35
	5 or more tests described in item 66500
66512	Fee: \$17.70 Benefit: 75% = \$13.30 85% = \$15.05
	Quantitation of bile acids in blood in pregnancy. Applicable not more than 3 times in a pregnancy.
66517	Fee: \$19.65 Benefit: 75% = \$14.75 85% = \$16.75
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 1 specimen in a 24 hour period
66518	Fee: \$20.05 Benefit: 75% = \$15.05 85% = \$17.05
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 2 or more specimens in a 24 hour period
66519	Fee: \$40.15 Benefit: 75% = \$30.15 85% = \$34.15
	Quantitation of HDL cholesterol
66536	Fee: \$11.05 Benefit: 75% = \$8.30 85% = \$9.40
	Electrophoresis of serum for demonstration of lipoprotein subclasses, if the cholesterol is >6.5 mmol/L and triglyceride >4.0 mmol/L or in the diagnosis of types III and IV hyperlipidaemia - (Item is subject to rule 25)
66539	Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
	Oral glucose tolerance test for the diagnosis of diabetes mellitus that includes:
	(a) administration of glucose; and
66542	(b) at least 2 measurements of blood glucose; and

P2. CHEMICAL	
	(c) (if performed) any test described in item 66695 Fee: \$18.95 Benefit: 75% = \$14.25 85% = \$16.15
66545	Oral glucose challenge test in pregnancy for the detection of gestational diabetes that includes: (a) administration of glucose; and (b) 1 or 2 measurements of blood glucose; and (c) (if performed) any test in item 66695 Fee: \$15.80 Benefit: 75% = \$11.85 85% = \$13.45
66548	Oral glucose tolerance test in pregnancy for the diagnosis of gestational diabetes that includes: (a) administration of glucose; and (b) at least 3 measurements of blood glucose; and (c) any test in item 66695 (if performed) Fee: \$19.90 Benefit: 75% = \$14.95 85% = \$16.95
66551	Quantitation of glycated haemoglobin performed in the management of established diabetes - (Item is subject to rule 25) Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
66554	Quantitation of glycated haemoglobin performed in the management of pre-existing diabetes where the patient is pregnant - including a service in item 66551 (if performed) - (Item is subject to rule 25) Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
66557	Quantitation of fructosamine performed in the management of established diabetes - each test to a maximum of 4 tests in a 12 month period Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
66560	Microalbumin - quantitation in urine Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
66563	Osmolality, estimation by osmometer, in serum or in urine - 1 or more tests Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00
66566	Quantitation of: (a) blood gases (including pO ₂ , oxygen saturation and pCO ₂); and (b) bicarbonate and pH; including any other measurement (eg. haemoglobin, lactate, potassium or ionised calcium) or calculation performed on the same specimen - 1 or more tests on 1 specimen Fee: \$33.70 Benefit: 75% = \$25.30 85% = \$28.65
66569	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 2 specimens performed within any 1 day Fee: \$42.60 Benefit: 75% = \$31.95 85% = \$36.25

P2. CHEMICAL	
66572	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 3 specimens performed within any 1 day Fee: \$51.55 Benefit: 75% = \$38.70 85% = \$43.85
66575	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 4 specimens performed within any 1 day Fee: \$60.45 Benefit: 75% = \$45.35 85% = \$51.40
66578	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 5 specimens performed within any 1 day Fee: \$69.35 Benefit: 75% = \$52.05 85% = \$58.95
66581	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 6 or more specimens performed within any 1 day Fee: \$78.25 Benefit: 75% = \$58.70 85% = \$66.55
66584	Quantitation of ionised calcium (except if performed as part of item 66566) - 1 test Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
66587	Urine acidification test for the diagnosis of renal tubular acidosis including the administration of an acid load, and pH measurements on 4 or more urine specimens and at least 1 blood specimen Fee: \$47.55 Benefit: 75% = \$35.70 85% = \$40.45
66590	Calculus, analysis of 1 or more Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66593	Ferritin - quantitation, except if requested as part of iron studies Fee: \$18.00 Benefit: 75% = \$13.50 85% = \$15.30
66596	Iron studies, consisting of quantitation of: (a) serum iron; and (b) transferrin or iron binding capacity; and (c) ferritin Fee: \$32.55 Benefit: 75% = \$24.45 85% = \$27.70
66605	Vitamins - quantitation of vitamins B1, B2, B3, B6 or C in blood, urine or other body fluid - 1 or more tests Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66606	A test described in item 66605 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18 and 25) Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66607	Vitamins - quantitation of vitamins A or E in blood, urine or other body fluid - 1 or more tests within a 6 month period Fee: \$75.75 Benefit: 75% = \$56.85 85% = \$64.40

P2. CHEMICAL	
	A test described in item 66607 if rendered by a receiving APP - 1 or more tests
66610	Fee: \$75.75 Benefit: 75% = \$56.85 85% = \$64.40
	All qualitative and quantitative tests on blood, urine or other body fluid for: (a) a drug or drugs of abuse (including illegal drugs and legally available drugs taken other than in appropriate dosage); or (b) ingested or absorbed toxic chemicals; including a service described in item 66800, 66803, 66806, 66812 or 66815 (if performed), but excluding: (c) the surveillance of sports people and athletes for performance improving substances; and (d) the monitoring of patients participating in a drug abuse treatment program
66623	Fee: \$41.50 Benefit: 75% = \$31.15 85% = \$35.30
	Detection or quantitation or both (not including the detection of nicotine and metabolites in smoking withdrawal programs) of a drug, or drugs, of abuse or a therapeutic drug, on a sample collected from a patient participating in a drug abuse treatment program; but excluding the surveillance of sports people and athletes for performance improving substances; including all tests on blood, urine or other body fluid (Item is subject to rule 25)
66626	Fee: \$24.10 Benefit: 75% = \$18.10 85% = \$20.50
	Beta-2-microglobulin - quantitation in serum, urine or other body fluids - 1 or more tests
66629	Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
	Caeruloplasmin, haptoglobins, or prealbumin - quantitation in serum, urine or other body fluids - 1 or more tests
66632	Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
	Alpha-1-antitrypsin - quantitation in serum, urine or other body fluid - 1 or more tests
66635	Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
	Isoelectric focussing or similar methods for determination of alpha-1-antitrypsin phenotype in serum - 1 or more tests
66638	Fee: \$49.05 Benefit: 75% = \$36.80 85% = \$41.70
	A test described in item 66638 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)
66639	Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
	Electrophoresis of serum or other body fluid to demonstrate: (a) the isoenzymes of lactate dehydrogenase; or (b) the isoenzymes of alkaline phosphatase;
66641	

P2. CHEMICAL	
	including the preliminary quantitation of total relevant enzyme activity - 1 or more tests Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
66642	A test described in item 66641 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
66644	C-1 esterase inhibitor - quantitation Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
66647	C-1 esterase inhibitor - functional assay Fee: \$45.10 Benefit: 75% = \$33.85 85% = \$38.35
66650	Alpha-fetoprotein, CA-15.3 antigen (CA15.3), CA-125 antigen (CA125), CA-19.9 antigen (CA19.9), cancer associated serum antigen (CASA), carcinoembryonic antigen (CEA), human chorionic gonadotrophin (HCG), neuron specific enolase (NSE), thyroglobulin in serum or other body fluid, in the monitoring of malignancy or in the detection or monitoring of hepatic tumours, gestational trophoblastic disease or germ cell tumour - quantitation - 1 test (Item is subject to rule 6) Fee: \$24.35 Benefit: 75% = \$18.30 85% = \$20.70
66651	A test described in item 66650 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$24.35 Benefit: 75% = \$18.30 85% = \$20.70
66652	A test described in item 66650 if rendered by a receiving APP - other than that described in 66651, if rendered by a receiving APP, 1 test (Item is subject to rule 6 and 18) Fee: \$20.30 Benefit: 75% = \$15.25 85% = \$17.30
66653	2 or more tests described in item 66650 (Item is subject to rule 6) Fee: \$44.60 Benefit: 75% = \$33.45 85% = \$37.95
66655	Prostate specific antigen - quantitation - 1 of this item in a 12 month period (Item is subject to rule 25) Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
66656	Prostate specific antigen - quantitation in the monitoring of previously diagnosed prostatic disease (including a test described in item 66655) Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
66659	Prostate specific antigen - quantitation of 2 or more fractions of PSA and any derived index including (if performed) a test described in item 66656, in the follow up of a PSA result that lies at or above the age related median but below the age related, method specific 97.5% reference limit - 1 of this item in a 12

P2. CHEMICAL	
	<p>month period</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$37.30 Benefit: 75% = \$28.00 85% = \$31.75</p>
66660	<p>Prostate specific antigen - quantitation of 2 or more fractions of PSA and any derived index including (if performed) a test described in item 66656, in the follow up of a PSA result that lies at or above the age related, method specific 97.5% reference limit, but below a value of 10 ug/L - 4 of this item in a 12 month period.</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$37.30 Benefit: 75% = \$28.00 85% = \$31.75</p>
66662	<p>Quantitation of hormone receptors on proven primary breast or ovarian carcinoma or a metastasis from a breast or ovarian carcinoma or a subsequent lesion in the breast - 1 or more tests</p> <p>Fee: \$79.95 Benefit: 75% = \$60.00 85% = \$68.00</p>
66663	<p>A test described in item 66662 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$79.95 Benefit: 75% = \$60.00 85% = \$68.00</p>
66665	<p>Lead quantitation in blood or urine (other than for occupational health screening purposes) to a maximum of 3 tests in a 6 month period - each test</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66666	<p>A test described in item 66665 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66667	<p>Quantitation of serum zinc in a patient receiving intravenous alimentation - each test</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66671	<p>Quantitation of serum aluminium in a patient in a renal dialysis program - each test</p> <p>Fee: \$36.90 Benefit: 75% = \$27.70 85% = \$31.40</p>
66674	<p>Quantitation of:</p> <p>(a) faecal fat; or</p> <p>(b) breath hydrogen in response to loading with disaccharides;</p> <p>1 or more tests within a 28 day period</p> <p>Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00</p>
66677	<p>Test for tryptic activity in faeces in the investigation of diarrhoea of longer than 4 weeks duration in children under 6 years old</p> <p>Fee: \$11.15 Benefit: 75% = \$8.40 85% = \$9.50</p>
66680	<p>Quantitation of disaccharidases and other enzymes in intestinal tissue - 1 or more tests</p>

P2. CHEMICAL	
	Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66683	Enzymes - quantitation in solid tissue or tissues other than blood elements or intestinal tissue - 1 or more tests Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66686	Performance of 1 or more of the following procedures: (a) growth hormone suppression by glucose loading; (b) growth hormone stimulation by exercise; (c) dexamethasone suppression test; (d) sweat collection by iontophoresis for chloride analysis; (e) pharmacological stimulation of growth hormone Fee: \$50.65 Benefit: 75% = \$38.00 85% = \$43.10
66695	Quantitation in blood or urine of hormones and hormone binding proteins - ACTH, aldosterone, androstenedione, C-peptide, calcitonin, cortisol, DHEAS, 11-deoxycortisol, dihydrotestosterone, FSH, gastrin, glucagon, growth hormone, hydroxyprogesterone, insulin, LH, oestradiol, oestrone, progesterone, prolactin, PTH, renin, sex hormone binding globulin, somatomedin C(IGF-1), free or total testosterone, urine steroid fraction or fractions, vasoactive intestinal peptide, - 1 test (Item is subject to rule 6) (See para TN.1.4 of explanatory notes to this Category) Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95
66696	A test described in item 66695, if rendered by a receiving APP - where no tests in the item have been rendered by the referring APP (Item is subject to rule 6 and 18) Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95
66697	Tests described in item 66695, other than that described in 66696, if rendered by a receiving APP - each test to a maximum of 4 tests (Item is subject to rule 6 and 18) Fee: \$13.20 Benefit: 75% = \$9.90 85% = \$11.25
66698	2 tests described in item 66695 (Item is subject to rule 6) (See para TN.1.4 of explanatory notes to this Category) Fee: \$43.70 Benefit: 75% = \$32.80 85% = \$37.15
66701	3 tests described in item 66695

P2. CHEMICAL	
	<p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$56.90 Benefit: 75% = \$42.70 85% = \$48.40</p>
66704	<p>4 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$70.15 Benefit: 75% = \$52.65 85% = \$59.65</p>
66707	<p>5 or more tests described in item 66695</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$83.35 Benefit: 75% = \$62.55 85% = \$70.85</p>
66711	<p>Quantitation in saliva of cortisol in:</p> <p>(a) the investigation of Cushing's syndrome; or</p> <p>(b) the management of children with congenital adrenal hyperplasia</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$30.15 Benefit: 75% = \$22.65 85% = \$25.65</p>
66712	<p>Two tests described in item 66711</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$43.05 Benefit: 75% = \$32.30 85% = \$36.60</p>
66714	<p>A test described in item 66711, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$30.15 Benefit: 75% = \$22.65 85% = \$25.65</p>
66715	<p>Tests described in item 66711, other than that described in 66714, if rendered by a receiving APP, each test to a maximum of 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95</p>
66716	<p>TSH quantitation</p> <p>Fee: \$25.05 Benefit: 75% = \$18.80 85% = \$21.30</p>

P2. CHEMICAL

	<p>Thyroid function tests (comprising the service described in item 66716 and either or both of a test for free thyroxine and a test for free T3) for a patient, if:</p> <ul style="list-style-type: none">(a) the patient has a level of TSH that is outside the normal reference range for the particular method of assay used to determine the level; or(b) the request from the requesting medical practitioner indicates that the tests are performed:<ul style="list-style-type: none">(i) for the purpose of monitoring thyroid disease in the patient; or(ii) to investigate the sick euthyroid syndrome if the patient is an admitted patient; or(iii) to investigate dementia or psychiatric illness of the patient; or(iv) to investigate amenorrhoea or infertility of the patient; or(c) the request from the requesting medical practitioner indicates that the medical practitioner suspects the patient has a pituitary dysfunction; or(d) the request from the requesting medical practitioner indicates that the patient is on drugs that interfere with thyroid hormone metabolism or function
66719	Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60
	<p>TSH quantitation described in item 66716 and 1 test described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p>
66722	Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
	<p>Tests described in item 66722, that is, TSH quantitation and 1 test described in 66695, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p>
66723	Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
	<p>Tests described in item 66722, if rendered by a receiving APP, other than that described in 66723. It is to include a quantitation of TSH - each test to a maximum of 4 tests described in item 66695</p> <p>(Item is subject to rule 6 and 18)</p>
66724	Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20
	<p>TSH quantitation described in item 66716 and 2 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 tests specified on the request form or performs 3 tests and refers the rest to the laboratory of a separate APA)</p>
66725	

P2. CHEMICAL	
	<p>(Item is subject to rule 6)</p> <p>Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40</p>
66728	<p>TSH quantitation described in item 66716 and 3 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$64.20 Benefit: 75% = \$48.15 85% = \$54.60</p>
66731	<p>TSH quantitation described in item 66716 and 4 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 tests specified on the request form or performs 5 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$77.40 Benefit: 75% = \$58.05 85% = \$65.80</p>
66734	<p>TSH quantitation described in item 66716 and 5 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs 6 or more tests specified on the request form)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$90.55 Benefit: 75% = \$67.95 85% = \$77.00</p>
66743	<p>Quantitation of alpha-fetoprotein in serum or other body fluids during pregnancy except if requested as part of items 66750 or 66751</p> <p>Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10</p>
66749	<p>Amniotic fluid, spectrophotometric examination of, and quantitation of:</p> <p>(a) lecithin/sphingomyelin ratio; or</p> <p>(b) palmitic acid, phosphatidylglycerol or lamellar body phospholipid; or</p> <p>(c) bilirubin, including correction for haemoglobin</p> <p>1 or more tests</p> <p>Fee: \$32.95 Benefit: 75% = \$24.75 85% = \$28.05</p>
66750	<p>Quantitation, in pregnancy, of any 2 of the following to detect foetal abnormality - total human chorionic gonadotrophin (total HCG), free alpha human chorionic gonadotrophin (free alpha HCG), free beta human chorionic gonadotrophin (free beta HCG), pregnancy associated plasma protein A (PAPP-A),</p>

P2. CHEMICAL	
	<p>unconjugated oestriol (uE₃), alpha-fetoprotein (AFP) - including (if performed) a service described in item 73527 or 73529 - Applicable not more than once in a pregnancy</p> <p>Fee: \$39.75 Benefit: 75% = \$29.85 85% = \$33.80</p>
66751	<p>Quantitation, in pregnancy, of any three or more tests described in 66750</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$55.25 Benefit: 75% = \$41.45 85% = \$47.00</p>
66752	<p>Quantitation of acetoacetate, beta-hydroxybutyrate, citrate, oxalate, total free fatty acids, cysteine, homocysteine, cystine, lactate, pyruvate or other amino acids and hydroxyproline (except if performed as part of item 66773 or 66776) - 1 test</p> <p>Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00</p>
66755	<p>2 or more tests described in item 66752</p> <p>Fee: \$38.85 Benefit: 75% = \$29.15 85% = \$33.05</p>
66756	<p>Quantitation of 10 or more amino acids for the diagnosis of inborn errors of metabolism - up to 4 tests in a 12 month period on specimens of plasma, CSF and urine.</p> <p>Fee: \$98.30 Benefit: 75% = \$73.75 85% = \$83.60</p>
66757	<p>Quantitation of 10 or more amino acids for monitoring of previously diagnosed inborn errors of metabolism in 1 tissue type.</p> <p>Fee: \$98.30 Benefit: 75% = \$73.75 85% = \$83.60</p>
66758	<p>Quantitation of angiotensin converting enzyme, or cholinesterase - 1 or more tests</p> <p>Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00</p>
66761	<p>Test for reducing substances in faeces by any method (except reagent strip or dipstick)</p> <p>Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20</p>
66764	<p>Examination for faecal occult blood (including tests for haemoglobin and its derivatives in the faeces except by reagent strip or dip stick methods)</p> <p>with a maximum of 3 examinations on specimens collected on separate days in a 28 day period</p> <p>Fee: \$8.90 Benefit: 75% = \$6.70 85% = \$7.60</p>
66767	<p>2 examinations described in item 66764 performed on separately collected and identified specimens</p> <p>Fee: \$17.85 Benefit: 75% = \$13.40 85% = \$15.20</p>
66770	<p>3 examinations described in item 66764 performed on separately collected and identified specimens</p> <p>Fee: \$26.70 Benefit: 75% = \$20.05 85% = \$22.70</p>
66773	<p>Quantitation of products of collagen breakdown or formation for the monitoring of patients with proven low bone mineral density, and if performed, a service described in item 66752 - 1 or more tests</p> <p><i>(Low bone densitometry is defined in the explanatory notes to Category 2 - Diagnostic Procedures and Investigations of the Medicare Benefits Schedule)</i></p>

P2. CHEMICAL	
	Fee: \$24.65 Benefit: 75% = \$18.50 85% = \$21.00
66776	Quantitation of products of collagen breakdown or formation for the monitoring of patients with metabolic bone disease or Paget's disease of bone, and if performed, a service described in item 66752 - 1 or more tests Fee: \$24.65 Benefit: 75% = \$18.50 85% = \$21.00
66779	Adrenaline, noradrenaline, dopamine, histamine, hydroxyindoleacetic acid (5HIAA), hydroxymethoxymandelic acid (HMMA), homovanillic acid (HVA), metanephrines, methoxyhydroxyphenylethylene glycol (MHPG), phenylacetic acid (PAA) or serotonin quantitation - 1 or more tests Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00
66780	A test described in item 66779 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00
66782	Porphyryns or porphyryns precursors - detection in plasma, red cells, urine or faeces - 1 or more tests Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20
66783	A test described in item 66782 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20
66785	Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 1 test (Item is subject to rule 6) Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00
66788	Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 2 or more tests (Item is subject to rule 6) Fee: \$65.85 Benefit: 75% = \$49.40 85% = \$56.00
66789	A test described in item 66785 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00
66790	A test described in item 66785 other than that described in 66789, if rendered by a receiving APP - to a maximum of 1 test (Item is subject to rule 6 and 18) Fee: \$25.90 Benefit: 75% = \$19.45 85% = \$22.05
66791	Porphyryn biosynthetic enzymes - measurement of activity in blood cells or other tissues - 1 or more tests Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66792	A test described in item 66791 if rendered by a receiving APP - 1 or more tests

P2. CHEMICAL	
	(Item is subject to rule 18) Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66800	Quantitation in blood, urine or other body fluid by any method (except reagent tablet or reagent strip) of any of the following being used therapeutically by the patient from whom the specimen was taken: amikacin, carbamazepine, digoxin, disopyramide, ethanol, ethosuximide, gentamicin, lithium, lignocaine, netilmicin, paracetamol, phenobarbitone, primidone, phenytoin, procainamide, quinidine, salicylate, theophylline, tobramycin, valproate or vancomycin - 1 test (Item to be subject to rule 6) (See para PN.0.17 of explanatory notes to this Category) Fee: \$18.15 Benefit: 75% = \$13.65 85% = \$15.45
66803	2 tests described in item 66800 (Item is subject to rule 6) Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95
66804	A test described in item 66800 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$18.15 Benefit: 75% = \$13.65 85% = \$15.45
66805	A test described in item 66800 other than that described in 66804, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18) Fee: \$12.35 Benefit: 75% = \$9.30 85% = \$10.50
66806	3 tests described in item 66800 (Item is subject to rule 6) Fee: \$41.85 Benefit: 75% = \$31.40 85% = \$35.60
66812	Quantitation, not elsewhere described in this Table by any method or methods, in blood, urine or other body fluid, of a drug being used therapeutically by the patient from whom the specimen was taken - 1 test (This fee applies where 1 laboratory performs the only test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6) (See para PN.0.17 of explanatory notes to this Category) Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60
66815	2 tests described in item 66812 (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a

P2. CHEMICAL	
	<p>separate APA) (Item is subject to rule 6)</p> <p>Fee: \$59.55 Benefit: 75% = \$44.70 85% = \$50.65</p>
66816	<p>A test described in item 66812 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60</p>
66817	<p>A test described in item 66812, other than that described in 66816, if rendered by a receiving APP - to a maximum of 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$24.75 Benefit: 75% = \$18.60 85% = \$21.05</p>
66819	<p>Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 1 test.</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66820	<p>A test described in item 66819 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6, 18, 22 and 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66821	<p>A test described in item 66819 other than that described in 66820 if rendered by a receiving APP to a maximum of 1 test</p> <p>(Item is subject to rule 6, 18, 22 and 25)</p> <p>Fee: \$21.80 Benefit: 75% = \$16.35 85% = \$18.55</p>
66822	<p>Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 2 or more tests.</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p>Fee: \$52.45 Benefit: 75% = \$39.35 85% = \$44.60</p>
66825	<p>Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 1 test. To a maximum of 3 of this item in a 6 month period</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66826	<p>A test described in item 66825 if rendered by a receiving APP where no tests have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rules 6, 18, 22 and 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66827	<p>A test described in item 66825, other than that described in 66826, if rendered by a receiving APP to a</p>

P2. CHEMICAL	
	<p>maximum of 1 test</p> <p>(Item is subject to rules 6, 18, 22 and 25)</p> <p>Fee: \$21.80 Benefit: 75% = \$16.35 85% = \$18.55</p>
66828	<p>Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 2 or more tests. To a maximum of 3 of this item in a 6 month period</p> <p>(Item is subject to rule 6, 22 and 25)</p> <p>Fee: \$52.45 Benefit: 75% = \$39.35 85% = \$44.60</p>
66830	<p>Quantitation of BNP or NT-proBNP for the diagnosis of heart failure in patients presenting with dyspnoea to a hospital Emergency Department</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$58.50 Benefit: 75% = \$43.90 85% = \$49.75</p>
66831	<p>Quantitation of copper or iron in liver tissue biopsy</p> <p>Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35</p>
66832	<p>A test described in item 66831 if rendered by a receiving APP</p> <p>(Item is subject to rule 18A and 22)</p> <p>Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35</p>
66833	<p>25-hydroxyvitamin D, quantification in serum, for the investigation of a patient who:</p> <ul style="list-style-type: none"> (a) has signs or symptoms of osteoporosis or osteomalacia; or (b) has increased alkaline phosphatase and otherwise normal liver function tests; or (c) has hyperparathyroidism, hypo- or hypercalcaemia, or hypophosphataemia; or (d) is suffering from malabsorption (for example, because the patient has cystic fibrosis, short bowel syndrome, inflammatory bowel disease or untreated coeliac disease, or has had bariatric surgery); or (e) has deeply pigmented skin, or chronic and severe lack of sun exposure for cultural, medical, occupational or residential reasons; or (f) is taking medication known to decrease 25OH-D levels (for example, anticonvulsants); or (g) has chronic renal failure or is a renal transplant recipient; or (h) is less than 16 years of age and has signs or symptoms of rickets; or (i) is an infant whose mother has established vitamin D deficiency; or (j) is a exclusively breastfed baby and has at least one other risk factor mentioned in a paragraph in this item; or (k) has a sibling who is less than 16 years of age and has vitamin D deficiency <p>Fee: \$30.05 Benefit: 75% = \$22.55 85% = \$25.55</p>

P2. CHEMICAL	
	A test described in item 66833 if rendered by a receiving APP (Item is subject to Rule 18)
66834	Fee: \$30.05 Benefit: 75% = \$22.55 85% = \$25.55
	1, 25-dihydroxyvitamin D - quantification in serum, if the request for the test is made by, or on advice of, the specialist or consultant physician managing the treatment of the patient
66835	Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20
	1, 25-dihydroxyvitamin D-quantification in serum, if: (a) the patient has hypercalcaemia; and (b) the request for the test is made by a general practitioner managing the treatment of the patient
66836	Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20
	A test described in item 66835 or 66836 if rendered by a receiving APP (Item is subject to Rule 18)
66837	Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20
	Serum vitamin B12 test (Item is subject to Rule 25)
66838	Fee: \$23.60 Benefit: 75% = \$17.70 85% = \$20.10
	Quantification of vitamin B12 markers such as holoTranscobalamin or methylmalonic acid, where initial serum vitamin B12 result is low or equivocal
66839	Fee: \$42.95 Benefit: 75% = \$32.25 85% = \$36.55
	Serum folate test and, if required, red cell folate test for a patient at risk of folate deficiency, including patients with malabsorption conditions, macrocytic anaemia or coeliac disease
66840	Fee: \$23.60 Benefit: 75% = \$17.70 85% = \$20.10
	Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk. (Item is subject to rule 25)
66841	Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
	CARBON-LABELLED UREA BREATH TEST using oral C-13 or C-14 urea, including the measurement of exhaled ¹³ CO ₂ or ¹⁴ CO ₂ (except if item 12533 applies) for either:- (a) the confirmation of <i>Helicobacter pylori</i> colonisation OR (b) the monitoring of the success of eradication of <i>Helicobacter pylori</i> .
66900	Fee: \$77.65 Benefit: 75% = \$58.25 85% = \$66.05
P3. MICROBIOLOGY	
	Group P3. Microbiology
	Microscopy of wet film material other than blood, from 1 or more sites, obtained directly from a patient (not cultures) including: (a) differential cell count (if performed); or
69300	

P3. MICROBIOLOGY	
	<p>(b) examination for dermatophytes; or</p> <p>(c) dark ground illumination; or</p> <p>(d) stained preparation or preparations using any relevant stain or stains;</p> <p>1 or more tests</p> <p>Fee: \$12.50 Benefit: 75% = \$9.40 85% = \$10.65</p>
69303	<p>Culture and (if performed) microscopy to detect pathogenic micro-organisms from nasal swabs, throat swabs, eye swabs and ear swabs (excluding swabs taken for epidemiological surveillance), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in item 69300;</p> <p>specimens from 1 or more sites</p> <p>Fee: \$22.00 Benefit: 75% = \$16.50 85% = \$18.70</p>
69306	<p>Microscopy and culture to detect pathogenic micro-organisms from skin or other superficial sites, including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p>Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70</p>
69309	<p>Microscopy and culture to detect dermatophytes and other fungi causing cutaneous disease from skin scrapings, skin biopsies, hair and nails (excluding swab specimens) and including (if performed):</p> <p>(a) the detection of antigens not elsewhere specified in this Schedule; or</p> <p>(b) a service described in items 69300, 69303, 69306, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p>Fee: \$48.15 Benefit: 75% = \$36.15 85% = \$40.95</p>
69312	<p>Microscopy and culture to detect pathogenic micro-organisms from urethra, vagina, cervix or rectum (except for faecal pathogens), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69306 and 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p>Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70</p>
69316	<p>Detection of Chlamydia trachomatis by any method - 1 test (Item is subject to rule 26)</p> <p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>

P3. MICROBIOLOGY	
69317	1 test described in item 69494 and a test described in 69316. (Item is subject to rule 26) Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50
69318	Microscopy and culture to detect pathogenic micro-organisms from specimens of sputum (except when part of items 69324, 69327 and 69330), including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in items 69300, 69303, 69306 and 69312; 1 or more tests on 1 or more specimens Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70
69319	2 tests described in item 69494 and a test described in 69316. (Item is subject to rule 26) Fee: \$42.95 Benefit: 75% = \$32.25 85% = \$36.55
69321	Microscopy and culture of post-operative wounds, aspirates of body cavities, synovial fluid, CSF or operative or biopsy specimens, for the presence of pathogenic micro-organisms involving aerobic and anaerobic cultures and the use of different culture media, and including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in item 69300, 69303, 69306, 69312 or 69318; specimens from 1 or more sites Fee: \$48.15 Benefit: 75% = \$36.15 85% = \$40.95
69324	Microscopy (with appropriate stains) and culture for mycobacteria - 1 specimen of sputum, urine, or other body fluid or 1 operative or biopsy specimen, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service described in item 69300 Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
69325	A test described in item 69324 if rendered by a receiving APP (Item is subject to rule 18) Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
69327	Microscopy (with appropriate stains) and culture for mycobacteria - 2 specimens of sputum, urine, or other body fluid or 2 operative or biopsy specimens, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service mentioned in item 69300 Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25
69328	A test described in item 69327 if rendered by a receiving APP

P3. MICROBIOLOGY	
	(Item is subject to rule 18) Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25
69330	Microscopy (with appropriate stains) and culture for mycobacteria - 3 specimens of sputum, urine, or other body fluid or 3 operative or biopsy specimens, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service mentioned in item 69300 Fee: \$128.00 Benefit: 75% = \$96.00 85% = \$108.80
69331	A test described in item 69330 if rendered by a receiving APP (Item is subject to rule 18) Fee: \$128.00 Benefit: 75% = \$96.00 85% = \$108.80
69333	Urine examination (including serial examinations) by any means other than simple culture by dip slide, including: (a) cell count; and (b) culture; and (c) colony count; and (d) (if performed) stained preparations; and (e) (if performed) identification of cultured pathogens; and (f) (if performed) antibiotic susceptibility testing; and (g) (if performed) examination for pH, specific gravity, blood, protein, urobilinogen, sugar, acetone or bile salts Fee: \$20.55 Benefit: 75% = \$15.45 85% = \$17.50
69336	Microscopy of faeces for ova, cysts and parasites that must include a concentration technique, and the use of fixed stains or antigen detection for cryptosporidia and giardia - including (if performed) a service described in item 69300 - 1 of this item in any 7 day period Fee: \$33.45 Benefit: 75% = \$25.10 85% = \$28.45
69339	Microscopy of faeces for ova, cysts and parasites using concentration techniques examined subsequent to item 69336 on a separately collected and identified specimen collected within 7 days of the examination described in 69336 - 1 examination in any 7 day period Fee: \$19.10 Benefit: 75% = \$14.35 85% = \$16.25
69345	Culture and (if performed) microscopy without concentration techniques of faeces for faecal pathogens, using at least 2 selective or enrichment media and culture in at least 2 different atmospheres including (if performed): (a) pathogen identification and antibiotic susceptibility testing; and

P3. MICROBIOLOGY	
	<p>(b) the detection of clostridial toxins; and</p> <p>(c) a service described in item 69300;</p> <p>- 1 examination in any 7 day period</p> <p>Fee: \$52.90 Benefit: 75% = \$39.70 85% = \$45.00</p>
69354	<p>Blood culture for pathogenic micro-organisms (other than viruses), including sub-cultures and (if performed):</p> <p>(a) identification of any cultured pathogen; and</p> <p>(b) necessary antibiotic susceptibility testing;</p> <p>to a maximum of 3 sets of cultures - 1 set of cultures</p> <p>Fee: \$30.75 Benefit: 75% = \$23.10 85% = \$26.15</p>
69357	<p>2 sets of cultures described in item 69354</p> <p>Fee: \$61.45 Benefit: 75% = \$46.10 85% = \$52.25</p>
69360	<p>3 sets of cultures described in item 69354</p> <p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
69363	<p>Detection of <i>Clostridium difficile</i> or <i>Clostridium difficile</i> toxin (except if a service described in item 69345 has been performed) - one or more tests</p> <p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>
69378	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of a HIV sero-positive patient not on antiretroviral therapy - 1 or more tests</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69379	<p>A test described in item 69378 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69380	<p>Genotypic testing for HIV antiretroviral resistance in a patient with confirmed HIV infection if the patient's viral load is greater than 1,000 copies per ml at any of the following times:</p> <p>(a) at presentation; or</p> <p>(b) before antiretroviral therapy; or</p> <p>(c) when treatment with combination antiretroviral agents fails;</p> <p>maximum of 2 tests in a 12 month period</p> <p>Fee: \$770.30 Benefit: 75% = \$577.75 85% = \$685.60</p>
69381	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of antiretroviral therapy in a HIV sero-positive patient - 1 or more tests on 1 or more specimens</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69382	<p>Quantitation of HIV viral RNA load in cerebrospinal fluid in a HIV sero-positive patient - 1 or more</p>

P3. MICROBIOLOGY	
	<p>tests on 1 or more specimens</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69383	<p>A test described in item 69381 if rendered by a receiving APP - 1 or more tests on 1 or more specimens</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69384	<p>Quantitation of 1 antibody to microbial antigens not elsewhere described in the Schedule - 1 test</p> <p>(This fee applies where a laboratory performs the only antibody test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69387	<p>2 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 estimations specified on the request form or performs 2 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$29.00 Benefit: 75% = \$21.75 85% = \$24.65</p>
69390	<p>3 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 estimations specified on the request form or performs 3 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$42.35 Benefit: 75% = \$31.80 85% = \$36.00</p>
69393	<p>4 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 estimations specified on the request form or performs 4 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p>

P3. MICROBIOLOGY	
	Fee: \$55.70 Benefit: 75% = \$41.80 85% = \$47.35
69396	<p>5 or more tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 estimations specified on the request form or performs 5 of the antibody tests specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$69.10 Benefit: 75% = \$51.85 85% = \$58.75</p>
69400	<p>A test described in item 69384, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rules 6 and 18)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69401	<p>A test described in item 69384, other than that described in 69400, if rendered by a receiving APP - each test to a maximum of 4 tests</p> <p>(Item is subject to rule 6, 18 and 18A)</p> <p>Fee: \$13.35 Benefit: 75% = \$10.05 85% = \$11.35</p>
69405	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 1 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69408	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 2 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$29.00 Benefit: 75% = \$21.75 85% = \$24.65</p>
69411	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 3 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p>

P3. MICROBIOLOGY	
	<p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$42.35 Benefit: 75% = \$31.80 85% = \$36.00</p>
69413	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 4 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$55.70 Benefit: 75% = \$41.80 85% = \$47.35</p>
69415	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of all 5 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$69.10 Benefit: 75% = \$51.85 85% = \$58.75</p>
69445	<p>Detection of Hepatitis C viral RNA in a patient undertaking antiviral therapy for chronic HCV hepatitis (including a service described in item 69499) - 1 test. To a maximum of 4 of this item in a 12 month period</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
69451	<p>A test described in item 69445 if rendered by a receiving APP - 1 test.</p> <p>(Item is subject to rule 18 and 25)</p> <p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
69471	<p>Test of cell-mediated immune response in blood for the detection of latent tuberculosis by interferon gamma release assay (IGRA) in the following people:</p> <p>(a) a person who has been exposed to a confirmed case of active tuberculosis;</p> <p>(b) a person who is infected with human immunodeficiency virus;</p> <p>(c) a person who is to commence, or has commenced, tumour necrosis factor (TNF) inhibitor therapy;</p> <p>(d) a person who is to commence, or has commenced, renal dialysis;</p> <p>(e) a person with silicosis;</p> <p>(f) a person who is, or is about to become, immunosuppressed because of a disease, or a medical</p>

P3. MICROBIOLOGY	
	<p>treatment, not mentioned in paragraphs (a) to (e)</p> <p>(See para PN.3.4 of explanatory notes to this Category)</p> <p>Fee: \$34.90 Benefit: 75% = \$26.20 85% = \$29.70</p>
69472	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 1 test</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69474	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 2 or more tests</p> <p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>
69475	<p>One test for hepatitis antigen or antibodies to determine immune status or viral carriage following exposure or vaccination to Hepatitis A, Hepatitis B, Hepatitis C or Hepatitis D</p> <p>(Item subject to rule 11)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69478	<p>2 tests described in 69475</p> <p>(Item subject to rule 11)</p> <p>Fee: \$29.25 Benefit: 75% = \$21.95 85% = \$24.90</p>
69479	<p>Detection of a SARS-CoV-2 nucleic acid 1 or more tests if:</p> <p>(a) the person is a private patient in a recognised hospital; or</p> <p>(b) the person receives the service from a prescribed laboratory as described in 4.1 of the Pathology Services Table</p> <p>Where the service is bulk-billed.</p> <p>(See para PN.3.5 of explanatory notes to this Category)</p> <p>Fee: \$50.00 Benefit: 75% = \$37.50 85% = \$42.50</p>
69480	<p>Detection of a SARS-CoV-2 nucleic acid 1 or more tests if:</p> <p>(a) the service is not covered by item 69479</p> <p>Where the service is bulk billed</p> <p>(See para PN.3.5 of explanatory notes to this Category)</p> <p>Fee: \$100.00 Benefit: 75% = \$75.00 85% = \$85.00</p>
69481	<p>Investigation of infectious causes of acute or chronic hepatitis - 3 tests for hepatitis antibodies or antigens,</p> <p>(Item subject to rule 11)</p> <p>(See para PN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50</p>
69482	<p>Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and have chronic hepatitis B, but are not receiving antiviral therapy - 1 test</p>

P3. MICROBIOLOGY	
	(Item is subject to rule 25) Fee: \$152.10 Benefit: 75% = \$114.10 85% = \$129.30
69483	Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and who have chronic hepatitis B and are receiving antiviral therapy - 1 test (Item is subject to rule 25) Fee: \$152.10 Benefit: 75% = \$114.10 85% = \$129.30
69484	Supplementary testing for Hepatitis B surface antigen or Hepatitis C antibody using a different assay on the specimen which yielded a reactive result on initial testing (Item is subject to rule 18) Fee: \$17.10 Benefit: 75% = \$12.85 85% = \$14.55
69488	Quantitation of HCV RNA load in plasma or serum in: (a) the pre-treatment evaluation, of a patient with chronic HCV hepatitis, for antiviral therapy; or (b) the assessment of efficacy of antiviral therapy for such a patient (including a service in item 69499 or 69445) (Item is subject to rule 18 and 25) Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25
69489	A test described in item 69488 if rendered by a receiving APP (Item is subject to rule 18 and 25) Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25
69491	Nucleic acid amplification and determination of Hepatitis C virus (HCV) genotype if the patient is HCV RNA positive and is being evaluated for antiviral therapy of chronic HCV hepatitis. To a maximum of 1 of this item in a 12 month period Fee: \$204.80 Benefit: 75% = \$153.60 85% = \$174.10
69492	A test described in item 69491 if rendered by a receiving APP - 1 test (Item is subject to rule 18 and 25) Fee: \$204.80 Benefit: 75% = \$153.60 85% = \$174.10
69494	Detection of a virus or microbial antigen or microbial nucleic acid (not elsewhere specified) 1 test (Item is subject to rule 6 and 26) Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
69495	2 tests described in 69494 (Item is subject to rule 6 and 26)

P3. MICROBIOLOGY	
	Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50
	3 or more tests described in 69494 (Item is subject to rule 6 and 26)
69496	Fee: \$43.05 Benefit: 75% = \$32.30 85% = \$36.60
	A test described in item 69494, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6, 18 and 26)
69497	Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
	A test described in item 69494, other than that described in 69497, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6, 18 and 26)
69498	Fee: \$7.20 Benefit: 75% = \$5.40 85% = \$6.15
	Detection of Hepatitis C viral RNA if at least 1 of the following criteria is satisfied: (a) the patient is Hepatitis C seropositive; (b) the patient's serological status is uncertain after testing; (c) the test is performed for the purpose of: (i) determining the Hepatitis C status of an immunosuppressed or immunocompromised patient; or (ii) the detection of acute Hepatitis C prior to seroconversion where considered necessary for the clinical management of the patient; To a maximum of 1 of this item in a 12 month period (Item is subject to rule 19 and 25)
69499	Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40
	A test described in item 69499 if rendered by a receiving APP - 1 test (Item is subject to rule 18,19 and 25)
69500	Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40
P4. IMMUNOLOGY	
	Group P4. Immunology
	Electrophoresis, quantitative and qualitative, of serum, urine or other body fluid all collected within a 28 day period, to demonstrate: (a) protein classes; or (b) presence and amount of paraprotein; including the preliminary quantitation of total protein, albumin and globulin - 1 specimen type
71057	Fee: \$32.90 Benefit: 75% = \$24.70 85% = \$28.00

P4. IMMUNOLOGY	
71058	Examination as described in item 71057 of 2 or more specimen types Fee: \$50.50 Benefit: 75% = \$37.90 85% = \$42.95
71059	Immunofixation or immunoelectrophoresis or isoelectric focusing of: (a) urine for detection of Bence Jones proteins; or (b) serum, plasma or other body fluid; and characterisation of a paraprotein or cryoglobulin - examination of 1 specimen type (eg. serum, urine or CSF) Fee: \$35.65 Benefit: 75% = \$26.75 85% = \$30.35
71060	Examination as described in item 71059 of 2 or more specimen types Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45
71062	Electrophoresis and immunofixation or immunoelectrophoresis or isoelectric focussing of CSF for the detection of oligoclonal bands and including if required electrophoresis of the patient's serum for comparison purposes - 1 or more tests Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45
71064	Detection and quantitation of cryoglobulins or cryofibrinogen - 1 or more tests Fee: \$20.75 Benefit: 75% = \$15.60 85% = \$17.65
71066	Quantitation of total immunoglobulin A by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71068	Quantitation of total immunoglobulin G by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71069	2 tests described in items 71066, 71068, 71072 or 71074 Fee: \$22.75 Benefit: 75% = \$17.10 85% = \$19.35
71071	3 or more tests described in items 71066, 71068, 71072 or 71074 Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35
71072	Quantitation of total immunoglobulin M by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71073	Quantitation of all 4 immunoglobulin G subclasses Fee: \$106.15 Benefit: 75% = \$79.65 85% = \$90.25
71074	Quantitation of total immunoglobulin D by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71075	Quantitation of immunoglobulin E (total), 1 test. (Item is subject to rule 25) Fee: \$23.00 Benefit: 75% = \$17.25 85% = \$19.55

P4. IMMUNOLOGY	
	A test described in item 71073 if rendered by a receiving APP - 1 test (Item is subject to rule 18)
71076	Fee: \$106.15 Benefit: 75% = \$79.65 85% = \$90.25
	Quantitation of immunoglobulin E (total) in the follow up of a patient with proven immunoglobulin-E-secreting myeloma, proven congenital immunodeficiency or proven allergic bronchopulmonary aspergillosis, 1 test. (Item is subject to rule 25)
71077	Fee: \$27.05 Benefit: 75% = \$20.30 85% = \$23.00
	Detection of specific immunoglobulin E antibodies to single or multiple potential allergens, 1 test (Item is subject to rule 25)
71079	Fee: \$26.80 Benefit: 75% = \$20.10 85% = \$22.80
	Quantitation of total haemolytic complement
71081	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	Quantitation of complement components C3 and C4 or properdin factor B - 1 test
71083	Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
	2 tests described in item 71083
71085	Fee: \$28.95 Benefit: 75% = \$21.75 85% = \$24.65
	3 or more tests described in item 71083
71087	Fee: \$37.70 Benefit: 75% = \$28.30 85% = \$32.05
	Quantitation of complement components or breakdown products of complement proteins not elsewhere described in an item in this Schedule - 1 test (Item is subject to rule 6)
71089	Fee: \$29.15 Benefit: 75% = \$21.90 85% = \$24.80
	A test described in item 71089, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18)
71090	Fee: \$29.15 Benefit: 75% = \$21.90 85% = \$24.80
	2 tests described in item 71089 (Item is subject to rule 6)
71091	Fee: \$52.85 Benefit: 75% = \$39.65 85% = \$44.95
	Tests described in item 71089, other than that described in 71090, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18)
71092	Fee: \$23.70 Benefit: 75% = \$17.80 85% = \$20.15

P4. IMMUNOLOGY	
	3 or more tests described in item 71089 (Item is subject to rule 6)
71093	Fee: \$76.45 Benefit: 75% = \$57.35 85% = \$65.00
	Quantitation of serum or plasma eosinophil cationic protein, or both, to a maximum of 3 assays in 1 year, for monitoring the response to therapy in corticosteroid treated asthma, in a child aged less than 12 years (See para PN.0.20 of explanatory notes to this Category)
71095	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	A test described in item 71095 if rendered by a receiving APP. (Item is subject to rule 18)
71096	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	Antinuclear antibodies - detection in serum or other body fluids, including quantitation if required
71097	Fee: \$24.45 Benefit: 75% = \$18.35 85% = \$20.80
	Double-stranded DNA antibodies - quantitation by 1 or more methods other than the Crithidia method
71099	Fee: \$26.50 Benefit: 75% = \$19.90 85% = \$22.55
	Antibodies to 1 or more extractable nuclear antigens - detection in serum or other body fluids
71101	Fee: \$17.40 Benefit: 75% = \$13.05 85% = \$14.80
	Characterisation of an antibody detected in a service described in item 71101 (including that service)
71103	Fee: \$52.05 Benefit: 75% = \$39.05 85% = \$44.25
	Rheumatoid factor - detection by any technique in serum or other body fluids, including quantitation if required
71106	Fee: \$11.30 Benefit: 75% = \$8.50 85% = \$9.65
	Antibodies to tissue antigens not elsewhere specified in this Table - detection, including quantitation if required, of 1 antibody (See para PN.0.33 of explanatory notes to this Category)
71119	Fee: \$17.35 Benefit: 75% = \$13.05 85% = \$14.75
	Detection of 2 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category)
71121	Fee: \$20.80 Benefit: 75% = \$15.60 85% = \$17.70
	Detection of 3 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category)
71123	Fee: \$24.25 Benefit: 75% = \$18.20 85% = \$20.65
	Detection of 4 or more antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category)
71125	Fee: \$27.65 Benefit: 75% = \$20.75 85% = \$23.55
71127	Functional tests for lymphocytes - quantitation other than by microscopy of:

P4. IMMUNOLOGY	
	<p>(a) proliferation induced by 1 or more mitogens; or</p> <p>(b) proliferation induced by 1 or more antigens; or</p> <p>(c) estimation of 1 or more mixed lymphocyte reactions;</p> <p>including a test described in item 65066 or 65070 (if performed), 1 of this item to a maximum of 2 in a 12 month period</p> <p>Fee: \$176.35 Benefit: 75% = \$132.30 85% = \$149.90</p>
71129	<p>2 tests described in item 71127</p> <p>Fee: \$217.85 Benefit: 75% = \$163.40 85% = \$185.20</p>
71131	<p>3 or more tests described in item 71127</p> <p>Fee: \$259.35 Benefit: 75% = \$194.55 85% = \$220.45</p>
71133	<p>Investigation of recurrent infection by qualitative assessment for the presence of defects in oxidative pathways in neutrophils by the nitroblue tetrazolium (NBT) reduction test</p> <p>Fee: \$10.40 Benefit: 75% = \$7.80 85% = \$8.85</p>
71134	<p>Investigation of recurrent infection by quantitative assessment of oxidative pathways by flow cytometric techniques, including a test described in 71133 (if performed)</p> <p>Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45</p>
71135	<p>Quantitation of neutrophil function, comprising at least 2 of the following:</p> <p>(a) chemotaxis;</p> <p>(b) phagocytosis;</p> <p>(c) oxidative metabolism;</p> <p>(d) bactericidal activity;</p> <p>including any test described in items 65066, 65070, 71133 or 71134 (if performed), 1 of this item to a maximum of 2 in a 12 month period</p> <p>Fee: \$207.95 Benefit: 75% = \$156.00 85% = \$176.80</p>
71137	<p>Quantitation of cell-mediated immunity by multiple antigen delayed type hypersensitivity intradermal skin testing using a minimum of 7 antigens, 1 of this item to a maximum of 2 in a 12 month period</p> <p>Fee: \$30.25 Benefit: 75% = \$22.70 85% = \$25.75</p>
71139	<p>Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations, including a total lymphocyte count or total leucocyte count by any method, on 1 or more specimens of blood, CSF or serous fluid</p> <p>Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45</p>
71141	<p>Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations on 1 or more disaggregated tissue specimens</p> <p>Fee: \$197.35 Benefit: 75% = \$148.05 85% = \$167.75</p>
71143	<p>Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an</p>

P4. IMMUNOLOGY	
	immunological or haematological malignancy, including a service described in 1 or both of items 71139 and 71141 (if performed), on a specimen of blood, CSF, serous fluid or disaggregated tissue Fee: \$260.00 Benefit: 75% = \$195.00 85% = \$221.00
71145	Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an immunological or haematological malignancy, including a service described in 1 or more of items 71139, 71141 and 71143 (if performed), on 2 or more specimens of disaggregated tissues or 1 specimen of disaggregated tissue and 1 or more specimens of blood, CSF or serous fluid Fee: \$424.50 Benefit: 75% = \$318.40 85% = \$360.85
71146	Enumeration of CD34+ cells, only for the purposes of autologous or directed allogeneic haemopoietic stem cell transplantation, including a total white cell count on the pheresis collection Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45
71147	HLA-B27 typing (Item is subject to rule 27) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71148	A test described in item 71147 if rendered by a receiving APP. (Item is subject to rule 18 and 27) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71149	Complete tissue typing for 4 HLA-A and HLA-B Class I antigens (including any separation of leucocytes), including (if performed) a service described in item 71147 Fee: \$108.25 Benefit: 75% = \$81.20 85% = \$92.05
71151	Tissue typing for HLA-DR, HLA-DP and HLA-DQ Class II antigens (including any separation of leucocytes) - phenotyping or genotyping of 2 or more antigens Fee: \$118.85 Benefit: 75% = \$89.15 85% = \$101.05
71153	Investigations in the assessment or diagnosis of systemic inflammatory disease or vasculitis - antineutrophil cytoplasmic antibody immunofluorescence (ANCA test), antineutrophil proteinase 3 antibody (PR-3 ANCA test), antimyeloperoxidase antibody (MPO ANCA test) or antiglomerular basement membrane antibody (GBM test) - detection of 1 antibody (Item is subject to rule 6 and 23) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71154	A test described in item 71153, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test. (Item is subject to rule 6, 18 and 23) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71155	Detection of 2 antibodies described in item 71153 (Item is subject to rule 6 and 23) Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35

P4. IMMUNOLOGY	
71156	<p>Tests described in item 71153, other than that described in 71154, if rendered by a receiving APP - each test to a maximum of 3 tests</p> <p>(Item is subject to rule 6, 18 and 23)</p> <p>Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95</p>
71157	<p>Detection of 3 antibodies described in item 71153</p> <p>(Item is subject to rule 6 and 23)</p> <p>Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30</p>
71159	<p>Detection of 4 or more antibodies described in item 71153</p> <p>(Item is subject to rule 6 and 23)</p> <p>Fee: \$73.15 Benefit: 75% = \$54.90 85% = \$62.20</p>
71163	<p>Detection of one of the following antibodies (of 1 or more class or isotype) in the assessment or diagnosis of coeliac disease or other gluten hypersensitivity syndromes and including a service described in item 71066 (if performed):</p> <p>a) Antibodies to gliadin; or</p> <p>b) Antibodies to endomysium; or</p> <p>c) Antibodies to tissue transglutaminase;</p> <p>- 1 test</p> <p>Fee: \$24.75 Benefit: 75% = \$18.60 85% = \$21.05</p>
71164	<p>Two or more tests described in 71163 and including a service described in 71066 (if performed)</p> <p>Fee: \$39.90 Benefit: 75% = \$29.95 85% = \$33.95</p>
71165	<p>Antibodies to tissue antigens (acetylcholine receptor, adrenal cortex, heart, histone, insulin, insulin receptor, intrinsic factor, islet cell, lymphocyte, neuron, ovary, parathyroid, platelet, salivary gland, skeletal muscle, skin basement membrane and intercellular substance, thyroglobulin, thyroid microsome or thyroid stimulating hormone receptor) - detection, including quantitation if required, of 1 antibody</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40</p>
71166	<p>Detection of 2 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35</p>
71167	<p>Detection of 3 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30</p>
71168	<p>Detection of 4 or more antibodies described in item 71165</p>

P4. IMMUNOLOGY	
	(Item is subject to rule 6) Fee: \$73.15 Benefit: 75% = \$54.90 85% = \$62.20
71169	A test described in item 71165, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71170	Tests described in item 71165, other than that described in 71169, if rendered by a receiving APP - each test to a maximum of 3 tests (Item is subject to rule 6 and 18) Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95
71180	Antibody to cardiolipin or beta-2 glycoprotein I - detection, including quantitation if required; one antibody specificity (IgG or IgM) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71183	Detection of two antibodies described in item 71180 Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35
71186	Detection of three or more antibodies described in item 71180 Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30
71189	Detection of specific IgG antibodies to 1 or more respiratory disease allergens not elsewhere specified. Fee: \$15.50 Benefit: 75% = \$11.65 85% = \$13.20
71192	2 items described in item 71189. Fee: \$28.35 Benefit: 75% = \$21.30 85% = \$24.10
71195	3 or more items described in item 71189. Fee: \$40.05 Benefit: 75% = \$30.05 85% = \$34.05
71198	Estimation of serum tryptase for the evaluation of unexplained acute hypotension or suspected anaphylactic event, assessment of risk in stinging insect anaphylaxis, exclusion of mastocytosis, monitoring of known mastocytosis. Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71200	Detection and quantitation, if present, of free kappa and lambda light chains in serum for the diagnosis or monitoring of amyloidosis, myeloma or plasma cell dyscrasias. Fee: \$59.60 Benefit: 75% = \$44.70 85% = \$50.70
71203	Determination of HLAB5701 status by flow cytometry or cytotoxicity assay prior to the initiation of Abacavir therapy including item 73323 if performed. Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
P5. TISSUE PATHOLOGY	
	Group P5. Tissue Pathology

P5. TISSUE PATHOLOGY	
72813	<p>Examination of complexity level 2 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$71.50 Benefit: 75% = \$53.65 85% = \$60.80</p>
72814	<p>Immunohistochemical examination by immunoperoxidase or other labelled antibody techniques using the programmed cell death ligand 1 (PD-L1) antibody of tumour material from a patient diagnosed with non-small cell lung cancer, to determine if the requirements relating to PD-L1 status for access to pembrolizumab under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35</p>
72816	<p>Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 separately identified specimen</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$86.35 Benefit: 75% = \$64.80 85% = \$73.40</p>
72817	<p>Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 2 to 4 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$96.80 Benefit: 75% = \$72.60 85% = \$82.30</p>

P5. TISSUE PATHOLOGY	
	<p>separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$141.35 Benefit: 75% = \$106.05 85% = \$120.15</p>
72825	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 5 to 7 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
72826	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 8 to 11 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$194.60 Benefit: 75% = \$145.95 85% = \$165.45</p>
72827	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 12 to 17 separately identified specimens</p> <p>(Item is subject to Rule 13)</p> <p>Fee: \$208.95 Benefit: 75% = \$156.75 85% = \$177.65</p>
72828	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 18 or more separately identified specimens</p> <p>(Item is subject to Rule 13)</p> <p>Fee: \$223.30 Benefit: 75% = \$167.50 85% = \$189.85</p>
72830	<p>Examination of complexity level 5 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$274.15 Benefit: 75% = \$205.65 85% = \$233.05</p>
72836	<p>Examination of complexity level 6 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens</p>

P5. TISSUE PATHOLOGY	
	(Item is subject to rule 13) Fee: \$417.20 Benefit: 75% = \$312.90 85% = \$354.65
72838	Examination of complexity level 7 biopsy material with multiple tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens. (Item is subject to rule 13) Fee: \$466.85 Benefit: 75% = \$350.15 85% = \$396.85
72844	Enzyme histochemistry of skeletal muscle for investigation of primary degenerative or metabolic muscle diseases or of muscle abnormalities secondary to disease of the central or peripheral nervous system - 1 or more tests Fee: \$30.75 Benefit: 75% = \$23.10 85% = \$26.15
72846	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 72848 (Item is subject to rule 13) Fee: \$59.60 Benefit: 75% = \$44.70 85% = \$50.70
72847	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4-6 antibodies (Item is subject to rule 13) Fee: \$89.40 Benefit: 75% = \$67.05 85% = \$76.00
72848	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2 (HER2) (Item is subject to rule 13) Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35
72849	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7-10 antibodies (Item is subject to rule 13) Fee: \$104.30 Benefit: 75% = \$78.25 85% = \$88.70
72850	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies (Item is subject to rule 13) Fee: \$119.20 Benefit: 75% = \$89.40 85% = \$101.35
72851	Electron microscopic examination of biopsy material - 1 separately identified specimen

P5. TISSUE PATHOLOGY	
	<p>(Item is subject to rule 13)</p> <p>Fee: \$565.00 Benefit: 75% = \$423.75 85% = \$480.30</p>
72852	<p>Electron microscopic examination of biopsy material - 2 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$753.00 Benefit: 75% = \$564.75 85% = \$668.30</p>
72855	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 1 separately identified specimen</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$184.35 Benefit: 75% = \$138.30 85% = \$156.70</p>
72856	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 2 to 4 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$245.80 Benefit: 75% = \$184.35 85% = \$208.95</p>
72857	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 5 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$286.75 Benefit: 75% = \$215.10 85% = \$243.75</p>
72858	<p>A second opinion, provided in a written report, where the opinion and report together require no more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$180.00 Benefit: 75% = \$135.00 85% = \$153.00</p>
72859	<p>A second opinion, provided in a written report, where the opinion and report together require more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$370.00 Benefit: 75% = \$277.50 85% = \$314.50</p>
72860	<p>Retrieval and review of one or more archived formalin fixed paraffin embedded block(s) to determine the appropriate sample(s) for the purpose of conducting genetic testing</p> <p>(See para PR.5.1 of explanatory notes to this Category)</p> <p>Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25</p>
P6. CYTOLOGY	

P6. CYTOLOGY	
	Group P6. Cytology
73043	Cytology (including serial examinations) of nipple discharge or smears from skin, lip, mouth, nose or anus for detection of precancerous or cancerous changes 1 or more tests Fee: \$22.85 Benefit: 75% = \$17.15 85% = \$19.45
73045	Cytology (including serial examinations) for malignancy (other than an examination mentioned in item 73076); and including any Group P5 service, if performed on: (a) specimens resulting from washings or brushings from sites not specified in item 73043; or (b) a single specimen of sputum or urine; or (c) 1 or more specimens of other body fluids; 1 or more tests Fee: \$48.60 Benefit: 75% = \$36.45 85% = \$41.35
73047	Cytology of a series of 3 sputum or urine specimens for malignant cells Fee: \$94.70 Benefit: 75% = \$71.05 85% = \$80.50
73049	Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 1 identified site Fee: \$68.15 Benefit: 75% = \$51.15 85% = \$57.95
73051	Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if a recognized pathologist: (a) performs the aspiration; or (b) attends the aspiration and performs cytological examination during the attendance Fee: \$170.35 Benefit: 75% = \$127.80 85% = \$144.80
73059	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 73061 (Item is subject to rule 13) Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
73060	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4 to 6 antibodies (Item is subject to rule 13) Fee: \$57.35 Benefit: 75% = \$43.05 85% = \$48.75
73061	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2

P6. CYTOLOGY	
	<p>(HER2)</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$51.20 Benefit: 75% = \$38.40 85% = \$43.55</p>
73062	<p>Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 2 or more separately identified sites.</p> <p>Fee: \$89.00 Benefit: 75% = \$66.75 85% = \$75.65</p>
73063	<p>Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy</p> <p>Fee: \$99.35 Benefit: 75% = \$74.55 85% = \$84.45</p>
73064	<p>Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7 to 10 antibodies</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$71.70 Benefit: 75% = \$53.80 85% = \$60.95</p>
73065	<p>Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$86.00 Benefit: 75% = \$64.50 85% = \$73.10</p>
73066	<p>Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if a recognized pathologist:</p> <p>(a) performs the aspiration; or</p> <p>(b) attends the aspiration and performs cytological examination during the attendance</p> <p>Fee: \$221.45 Benefit: 75% = \$166.10 85% = \$188.25</p>
73067	<p>Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy</p> <p>Fee: \$129.15 Benefit: 75% = \$96.90 85% = \$109.80</p>
73070	<p>73070</p> <p>A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer:</p>

P6. CYTOLOGY	
	<p>(a) performed on a liquid based cervical specimen; and</p> <p>(b) for an asymptomatic patient who is at least 24 years and 9 months of age</p> <p>For any particular patient, once only in a 57 month period</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73071	<p>73071</p> <p>A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer:</p> <p>(a) performed on a self-collected vaginal specimen; and</p> <p>(b) for an asymptomatic patient who is at least 30 years of age</p> <p>For any particular patient, once only in a 7 year period</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73072	<p>A test, including partial genotyping, for oncogenic human papillomavirus, performed on a liquid based cervical specimen:</p> <p>(a) for the investigation of a patient in a specific population that appears to have a higher risk of cervical pre-cancer or cancer; or</p> <p>(b) for the follow-up management of a patient with a previously detected oncogenic human papillomavirus infection or cervical pre-cancer or cancer; or</p> <p>(c) for the investigation of a patient with symptoms suggestive of cervical cancer; or</p> <p>(d) for the follow-up management of a patient after treatment of high grade squamous intraepithelial lesions or adenocarcinoma in situ of the cervix; or</p> <p>(e) for the follow-up management of a patient with glandular abnormalities; or</p> <p>(f) for the follow-up management of a patient exposed to diethylstilboestrol in utero</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73073	<p>A test, including partial genotyping, for oncogenic human papillomavirus:</p> <p>(a) performed on a self-collected vaginal specimen; and</p> <p>(b) for the follow-up management of a patient with oncogenic human papillomavirus infection or cervical pre-cancer or cancer that was detected by a test to which item 73071 applies</p> <p>For any particular patient, once only in a 21 month period</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>

P6. CYTOLOGY	
73074	<p>A test, including partial genotyping, for oncogenic human papillomavirus:</p> <p>(a) performed on a liquid based vaginal vault specimen; and</p> <p>(b) for the investigation of a patient following a total hysterectomy</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73075	<p>A test, including partial genotyping, for oncogenic human papillomavirus, if:</p> <p>(a) the test is a repeat of a test to which item 73070, 73071, 73072, 73073, 73074 or this item applies; and</p> <p>(b) the specimen collected for the previous test is unsatisfactory</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73076	<p>Cytology of a liquid-based cervical or vaginal vault specimen, where the stained cells are examined microscopically or by automated image analysis by or on behalf of a pathologist, if:</p> <p>(a) the cytology is associated with the detection of oncogenic human papillomavirus infection by:</p> <p>(i) a test to which item 73070, 73071, 73073, 73074 or 73075 applies; or</p> <p>(ii) a test to which item 73072 applies for a patient mentioned in paragraph (a) or (b) of that item; or</p> <p>(b) the cytology is associated with a test to which item 73072 applies for a patient mentioned in paragraph (c), (d), (e) or (f) of that item; or</p> <p>(c) the cytology is associated with a test to which item 73074 applies; or</p> <p>(d) the test is a repeat of a test to which this item applies, if the specimen collected for the previous test is unsatisfactory; or</p> <p>(e) the cytology is for the follow-up management of a patient treated for endometrial adenocarcinoma</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$46.00 Benefit: 75% = \$34.50 85% = \$39.10</p>
P7. GENETICS	
	Group P7. Genetics
73287	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on 1 or more of any tissue or fluid except blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p>Fee: \$394.55 Benefit: 75% = \$295.95 85% = \$335.40</p>
73289	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p>Fee: \$358.95 Benefit: 75% = \$269.25 85% = \$305.15</p>
73290	<p>The study of the whole of each chromosome by cytogenetic or other techniques, performed on blood or bone marrow, in the diagnosis and monitoring of haematological malignancy (including a service in</p>

P7. GENETICS	
	<p>items 73287 or 73289, if performed). - 1 or more tests.</p> <p>Fee: \$394.55 Benefit: 75% = \$295.95 85% = \$335.40</p>
73291	<p>Analysis of one or more chromosome regions for specific constitutional genetic abnormalities of blood or fresh tissue in</p> <p>a) diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities, in whom cytogenetic studies (item 73287 or 73289) are either normal or have not been performed; or</p> <p>b) studies of a relative for an abnormality previously identified in such an affected person.</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73292	<p>Analysis of chromosomes by genome-wide micro-array including targeted assessment of specific regions for constitutional genetic abnormalities in diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities (including a service in items 73287, 73289 or 73291, if performed)</p> <p>- 1 or more tests.</p> <p>Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$505.20</p>
73293	<p>Analysis of one or more regions on all chromosomes for specific constitutional genetic abnormalities of fresh tissue in diagnostic studies of the products of conception, including exclusion of maternal cell contamination.</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73294	<p>Analysis of the PMP22 gene for constitutional genetic abnormalities causing peripheral neuropathy, either as:</p> <p>a) diagnostic studies of an affected person; or</p> <p>b) studies of a relative for an abnormality previously identified in an affected person</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73295	<p>Detection of germline <i>BRCA1</i> or <i>BRCA2</i> gene mutations, in a patient with platinum-sensitive relapsed ovarian, fallopian tube or primary peritoneal cancer with high grade serous features or a high grade serous component, and who has responded to subsequent platinum-based chemotherapy, requested by a specialist or consultant physician, to determine whether the eligibility criteria for olaparib under the Pharmaceutical Benefits Scheme (PBS) are fulfilled.</p> <p>Maximum one test per lifetime</p> <p>(See para PN.0.27 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73296	<p>Characterisation of germline gene mutations, requested by a specialist or consultant physician, including copy number variation in <i>BRCA1</i> and <i>BRCA2</i> genes and one or more of the following genes <i>STK11</i>, <i>PTEN</i>, <i>CDH1</i>, <i>PALB2</i>, or <i>TP53</i> in a patient with breast or ovarian cancer for whom clinical and family</p>

P7. GENETICS	
	<p>history criteria, as assessed by the specialist or consultant physician who requests the service using a quantitative algorithm, place the patient at >10% risk of having a pathogenic mutation identified in one or more of the genes specified above.</p> <p>(See para PN.0.27 of explanatory notes to this Category) Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73297	<p>Characterisation of germline gene mutations, requested by a specialist or consultant physician, including copy number variation in BRCA1 and BRCA2 genes and one or more of the following genes STK11, PTEN, CDH1, PALB2, or TP53 in a patient who is a biological relative of a patient who has had a pathogenic mutation identified in one or more of the genes specified above, and has not previously received a service under item 73296.</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73298	<p>Characterisation of germline gene variants in the following genes:</p> <p>(a) COL4A3; and (b) COL4A4; and (c) COL4A5;</p> <p>in a patient for whom clinical and relevant family history criteria have been assessed by a specialist or consultant physician, who requests the service to be strongly suggestive of Alport syndrome.</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73299	<p>Characterisation of germline gene variants:</p> <p>(a) in the following genes:</p> <p style="padding-left: 40px;">(i) COL4A3; and (ii) COL4A4; and (iii) COL4A5;</p> <p>(b) in a patient who:</p> <p style="padding-left: 40px;">(i) is a first degree biological relative of a patient who has had a pathogenic mutation identified in one or more of the genes mentioned in subparagraphs (a)(i), (ii) and (iii); and (ii) has not previously received a service which item 73298 applies; requested by a specialist or consultant physician.</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73300	<p>Detection of mutation of the FMR1 gene where:</p> <p>(a) the patient exhibits intellectual disability, ataxia, neurodegeneration, or premature ovarian failure consistent with an FMRI mutation; or (b) the patient has a relative with a FMR1 mutation</p> <p>1 or more tests</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p>

P7. GENETICS	
	Fee: \$101.30 Benefit: 75% = \$76.00 85% = \$86.15
73305	Detection of mutation of the FMR1 gene by Southern Blot analysis where the results in item 73300 are inconclusive (See para PN.0.23 of explanatory notes to this Category) Fee: \$202.65 Benefit: 75% = \$152.00 85% = \$172.30
73308	Characterisation of the genotype of a patient for Factor V Leiden gene mutation, or detection of the other relevant mutations in the investigation of proven venous thrombosis or pulmonary embolism - 1 or more tests Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73309	A test described in item 73308, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73311	Characterisation of the genotype of a person who is a first degree relative of a person who has proven to have 1 or more abnormal genotypes under item 73308 - 1 or more tests Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73312	A test described in item 73311, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73314	Characterisation of gene rearrangement or the identification of mutations within a known gene rearrangement, in the diagnosis and monitoring of patients with laboratory evidence of: (a) acute myeloid leukaemia; or (b) acute promyelocytic leukaemia; or (c) acute lymphoid leukaemia; or (d) chronic myeloid leukaemia; Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35
73315	A test described in item 73314, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35
73317	Detection of the C282Y genetic mutation of the HFE gene and, if performed, detection of other mutations for haemochromatosis where: (a) the patient has an elevated transferrin saturation or elevated serum ferritin on testing of repeated specimens; or (b) the patient has a first degree relative with haemochromatosis; or (c) the patient has a first degree relative with homozygosity for the C282Y genetic mutation, or with compound heterozygosity for recognised genetic mutations for haemochromatosis

P7. GENETICS	
	(Item is subject to rule 20) Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73318	A test described in item 73317, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18 and 20) Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
73320	Detection of HLA-B27 by nucleic acid amplification includes a service described in 71147 unless the service in item 73320 is rendered as a pathologist determinable service. (Item is subject to rule 27) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
73321	A test described in item 73320, if rendered by a receiving APP - 1 or more tests. (Item is subject to rule 18 and 27) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
73323	Determination of HLAB5701 status by molecular techniques prior to the initiation of Abacavir therapy including item 71203 if performed. Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
73324	A test described in item 73323 if rendered by a receiving APP 1 or more tests (Item is subject to Rule 18) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85
73325	Characterisation of mutations in: (a) the JAK2 gene; or (b) the MPL gene; or (c) both genes; in the diagnostic work-up, by, or on behalf of, the specialist or consultant physician, of a patient with clinical and laboratory evidence of: a) polycythaemia vera; or b) essential thrombocythaemia; 1 or more tests Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35

P7. GENETICS	
73326	<p>Characterisation of the gene rearrangement FIP1L1-PDGFRα in the diagnostic work-up and management of a patient with laboratory evidence of:</p> <ul style="list-style-type: none"> a) mast cell disease; or b) idiopathic hypereosinophilic syndrome; or c) chronic eosinophilic leukaemia; <p>1 or more tests</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73327	<p>Detection of genetic polymorphisms in the Thiopurine S-methyltransferase gene for the prevention of dose-related toxicity during treatment with thiopurine drugs; including (if performed) any service described in item 65075.</p> <p>1 or more tests</p> <p>Fee: \$51.95 Benefit: 75% = \$39.00 85% = \$44.20</p>
73332	<p>An in situ hybridization (ISH) test of tumour tissue from a patient with breast cancer requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to human epidermal growth factor receptor 2 (HER2) gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme (PBS) or the Herceptin Program are fulfilled.</p> <p>Fee: \$315.40 Benefit: 75% = \$236.55 85% = \$268.10</p>
73333	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene:</p> <ul style="list-style-type: none"> (a) in a patient who has a clinical diagnosis of VHL syndrome and: <ul style="list-style-type: none"> (i) a family history of VHL syndrome and one of the following: <ul style="list-style-type: none"> (A) haemangioblastoma (retinal or central nervous system); (B) pheochromocytoma; (C) renal cell carcinoma; or (i) 2 or more haemangioblastomas; or (ii) one haemangioblastoma and a tumour or a cyst of: <ul style="list-style-type: none"> (A) the adrenal gland; or (B) the kidney; or (C) the pancreas; or (D) the epididymis; or (E) a broad ligament (other than epididymal and single renal cysts, which are

P7. GENETICS	
	<p>common in the general population); or</p> <p>(a) in a patient presenting with one or more of the following clinical features suggestive of VHL syndrome:</p> <p>(i) haemangioblastomas of the brain, spinal cord, or retina;</p> <p>(ii) pheochromocytoma;</p> <p>(iii) functional extra-adrenal paraganglioma</p> <p>(See para PN.0.27 of explanatory notes to this Category) Fee: \$600.00 Benefit: 75% = \$450.00 85% = \$515.30</p>
73334	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene in biological relatives of a patient with a known mutation in the VHL gene</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73335	<p>Detection of somatic mutations of the von Hippel-Lindau (VHL) gene in a patient with:</p> <p>(a) 2 or more tumours comprising:</p> <p>(i) 2 or more haemangioblastomas, or</p> <p>(ii) one haemangioblastoma and a tumour of:</p> <p>(A) the adrenal gland; or</p> <p>(B) the kidney; or</p> <p>(C) the pancreas; or</p> <p>(D) the epididymis; and</p> <p>(b) no germline mutations of the VHL gene identified by genetic testing</p> <p>Fee: \$470.00 Benefit: 75% = \$352.50 85% = \$399.50</p>
73336	<p>A test of tumour tissue from a patient with stage III or stage IV metastatic cutaneous melanoma, requested by, or on behalf of, a specialist or consultant physician, to determine if the requirements relating to BRAF V600 mutation status for access to dabrafenib, vemurafenib or encorafenib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73337	<p>A test of tumour tissue from a patient diagnosed with non-small cell lung cancer, shown to have non-squamous histology or histology not otherwise specified, requested by, or on behalf of, a specialist or consultant physician, to determine if the requirements relating to epidermal growth factor receptor (EGFR) gene status for access to erlotinib, gefitinib or afatinib under the Pharmaceutical Benefits Scheme (PBS) are fulfilled.</p> <p>Fee: \$397.35 Benefit: 75% = \$298.05 85% = \$337.75</p>
73338	<p>A test of tumour tissue from a patient with metastatic colorectal cancer (stage IV), requested by a specialist or consultant physician, to determine if the requirements relating to rat sarcoma oncogene (RAS) gene mutation status for access to cetuximab or panitumumab under the Pharmaceutical Benefits</p>

P7. GENETICS	
	<p>Scheme (PBS) are fulfilled, if:</p> <p>(a) the test is conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3, and 4; or</p> <p>(b) a RAS mutation is found.</p> <p>(See para PN.0.26 of explanatory notes to this Category)</p> <p>Fee: \$362.60 Benefit: 75% = \$271.95 85% = \$308.25</p>
73339	<p>Detection of germline mutations in the RET gene in patients with a suspected clinical diagnosis of multiple endocrine neoplasia type 2 (MEN2) requested by a specialist or consultant physician who manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73340	<p>Detection of a known mutation in the RET gene in an asymptomatic relative of a patient with a documented pathogenic germline RET mutation requested by a specialist or consultant physician who manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$200.00 Benefit: 75% = \$150.00 85% = \$170.00</p>
73341	<p>Fluorescence in situ hybridisation (FISH) test of tumour tissue from a patient with locally advanced or metastatic non-small cell lung cancer, which is of non-squamous histology or histology not otherwise specified, with documented evidence of anaplastic lymphoma kinase (ALK) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score > 0, and with documented absence of activating mutations of the epidermal growth factor receptor (EGFR) gene, requested by a specialist or consultant physician to determine if requirements relating to ALK gene rearrangement status for access to an anaplastic lymphoma kinase inhibitor under the Pharmaceutical Benefits Scheme (PBS) are fulfilled</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73342	<p>An in situ hybridisation (ISH) test of tumour tissue from a patient with metastatic adenocarcinoma of the stomach or gastro-oesophageal junction, with documented evidence of human epidermal growth factor receptor 2 (<i>HER2</i>) overexpression by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+ on the same tumour tissue sample, requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to <i>HER2</i> gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.1.2 of explanatory notes to this Category)</p> <p>Fee: \$315.40 Benefit: 75% = \$236.55 85% = \$268.10</p>
73343	<p>Detection of 17p chromosomal deletions by fluorescence <i>in situ</i> hybridisation, in a patient with relapsed or refractory chronic lymphocytic leukaemia or small lymphocytic lymphoma, on a peripheral blood or bone marrow sample, requested by a specialist or consultant physician, to determine if the requirements</p>

P7. GENETICS	
	<p>for access to idelalisib, ibrutinib or venetoclax on the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73344	<p>Fluorescence in situ hybridization (FISH) test of tumour tissue from a patient with locally advanced or metastatic non-small-cell lung cancer (NSCLC), which is of non-squamous histology or histology not otherwise specified, with documented evidence of ROS proto-oncogene 1 (ROS1) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+; and with documented absence of both activating mutations of the epidermal growth factor receptor (EGFR) gene and anaplastic lymphoma kinase (ALK) immunoreactivity by IHC, requested by a specialist or consultant physician to determine if requirements relating to ROS1 gene rearrangement status for access to crizotinib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.1.2 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73345	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of investigating, making or excluding a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73347, 73348, or 73349 applies.</p> <p>The patient must have clinical or laboratory findings suggesting there is a high probability suggestive of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73346	<p>Testing of a pregnant patient whose carrier status for pathogenic cystic fibrosis transmembrane conductance regulator variants, as well as their reproductive partner carrier status is unknown, for the purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus, in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73350 applies.</p> <p>The fetus must have ultrasonic findings of echogenic gut, with unknown familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73347	<p>Testing of a prospective parent for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the risk of their fetus having pathogenic cystic fibrosis transmembrane conductance regulator variants. This is indicated when the fetus has ultrasonic evidence of echogenic gut when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73348, or 73349 applies.</p> <p>(See para PN.7.3 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73348	<p>Testing of a patient with a laboratory-established family history of pathogenic cystic fibrosis transmembrane conductance regulator variants, for the purpose of determining whether the patient is an asymptomatic genetic carrier of the pathogenic cystic fibrosis transmembrane conductance regulator variants that have been laboratory established in the family history, not being a service associated with a</p>

P7. GENETICS	
	<p>service to which item 73345, 73347, or 73349 applies.</p> <p>The patient must have a positive family history, confirmed by laboratory findings of pathogenic cystic fibrosis transmembrane conductance regulator variants, with a personal risk of being a heterozygous genetic carrier of at least 6%. (This includes family relatedness of: parents, children, full-siblings, half-siblings, grand-parents, grandchildren, aunts, uncles, first cousins, and first cousins once-removed, but excludes relatedness of second cousins or more distant relationships).</p> <p>(See para PN.7.3 of explanatory notes to this Category) Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>
73349	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the reproductive risk of the patient with their reproductive partner because their reproductive partner is already known to have pathogenic cystic fibrosis transmembrane conductance regulator variants requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73347, or 73348 applies.</p> <p>(See para PN.7.3 of explanatory notes to this Category) Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73350	<p>Testing of a pregnant patient, where one or both prospective parents are known to be a genetic carrier of pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus, when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73346 applies.</p> <p>The fetus must be at 25% or more risk of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder because of known familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3 of explanatory notes to this Category) Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>
73351	<p>A test of tumour tissue that is derived from a new sample from a patient with locally advanced (Stage IIIb) or metastatic (Stage IV) non-small cell lung cancer (NSCLC), who has progressed on or after treatment with an epidermal growth factor receptor tyrosine kinase inhibitor (EGFR TKI). The test is to be requested by a specialist or consultant physician, to determine if the requirements relating to EGFR T790M gene status for access to osimertinib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$397.35 Benefit: 75% = \$298.05 85% = \$337.75</p>
73352	<p>Characterisation of germline variants causing familial hypercholesterolaemia (which must include the LDLR, PCSK9 and APOB genes), requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> (a) for whom no familial mutation has been identified; and (b) who has any of the following: <ul style="list-style-type: none"> (i) a Dutch Lipid Clinic Network score of at least 6; (ii) an LDL-cholesterol level of at least 6.5 mmol/L in the absence of secondary causes; (iii) an LDL-cholesterol level of between 5.0 and 6.5 mmol/L with signs of premature or

P7. GENETICS	
	<p>accelerated atherogenesis</p> <p>Applicable only once per lifetime</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73353	<p>Detection of a familial mutation for a patient who has a first- or second-degree relative with a documented pathogenic germline gene variant for familial hypercholesterolaemia</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73354	<p>Characterisation of germline gene variants, including copy number variation, in the MLH1, MSH2, MSH6, PMS2 and EPCAM genes, requested by a specialist or consultant physician, for:</p> <p>(a) a patient with suspected Lynch syndrome following immunohistochemical examination of neoplastic tissue that has demonstrated loss of expression of one or more mismatch repair proteins; or</p> <p>(b) a patient:</p> <p>(i) who has endometrial cancer; and</p> <p>(ii) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having Lynch syndrome, on the basis of clinical and family history criteria</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73355	<p>Characterisation of germline gene variants, including copy number variation, in the APC and MUTYH genes, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has adenomatous polyposis; and</p> <p>(b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having either of the following, on the basis of clinical and family history criteria:</p> <p>(i) familial adenomatous polyposis;</p> <p>(ii) MUTYH-associated polyposis</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>
73356	<p>Characterisation of germline gene variants, including copy number variation, in the SMAD4, BMPR1A, STK11 and GREM1 genes, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has non-adenomatous polyposis; and</p> <p>(b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having any of the following, on the basis of clinical and family history criteria:</p> <p>(i) juvenile polyposis syndrome;</p> <p>(ii) Peutz-Jeghers syndrome;</p> <p>(iii) hereditary mixed polyposis syndrome</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1115.30</p>

P7. GENETICS	
73357	<p>Characterisation of germline gene variants, including copy number variation, in the genes mentioned in item 73354, 73355 or 73356, requested by a specialist or consultant physician, for a patient:</p> <p>(a) who has a first-degree relative with a pathogenic mutation identified in one or more of those genes; and</p> <p>(b) who has not previously received a service to which any of items 73354, 73355 and 73356 apply</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73358	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <p>(a) the characterisation is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of:</p> <p style="padding-left: 40px;">(i) dysmorphic facial appearance and one or more major structural congenital anomalies; or</p> <p style="padding-left: 40px;">(ii) intellectual disability or global developmental delay of at least moderate severity, as determined by a specialist paediatrician; and</p> <p>(c) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and</p> <p>(d) the characterisation is not performed in conjunction with a service to which item 73359 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category)</p> <p>Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2015.30</p>
73359	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <p>(a) the characterisation is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the request for the characterisation states that singleton testing is inappropriate; and</p> <p>(c) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of:</p> <p style="padding-left: 40px;">(i) dysmorphic facial appearance and one or more major structural congenital anomalies; or</p> <p style="padding-left: 40px;">(ii) intellectual disability or global developmental delay of at least moderate severity, as</p>

P7. GENETICS

	<p>determined by a specialist paediatrician; and</p> <p>(d) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and</p> <p>(e) the characterisation is performed using a sample from the patient and a sample from each of the patient's biological parents; and</p> <p>(f) the characterisation is not performed in conjunction with a service to which item 73358 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category) Fee: \$2,900.00 Benefit: 75% = \$2175.00 85% = \$2815.30</p>
73360	<p>Re-analysis of whole exome or genome data obtained in performing a service to which item 73358 or 73359 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient is aged 15 years or younger and is strongly suspected of having a monogenic condition; and</p> <p>(c) the re-analysis is performed at least 18 months after:</p> <p style="padding-left: 40px;">(i) a service to which item 73358 or 73359 applies; or</p> <p style="padding-left: 40px;">(ii) a service to which this item applies</p> <p>Applicable only twice per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73361	<p>Detection of a single gene variant for diagnostic purposes, if:</p> <p>(a) the detection is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient has a biological sibling with a known monogenic condition; and</p> <p>(c) a service to which item 73358, 73359 or 73360 applies has identified the causative variant for the sibling's condition; and</p> <p>(d) the results of the testing performed for the sibling are made available for the purpose of</p>

P7. GENETICS

	<p>providing the detection for the patient; and</p> <p>(e) the detection is not performed in conjunction with a service to which item 73362 or 73363 applies</p> <p>Applicable only once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73362	<p>Detection of a single gene variant for the purpose of reproductive decision making, if:</p> <p>(a) the detection is requested by a consultant physician or specialist; and</p> <p>(b) the patient has a first-degree relative with a known monogenic condition; and</p> <p>(c) a service to which item 73358, 73359 or 73360 applies has identified the causative variant for the relative; and</p> <p>(d) the results of the testing performed for the relative are made available for the purpose of providing the detection for the patient; and</p> <p>(e) the detection is not performed in conjunction with item 73361 or 73363</p> <p>Applicable only once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73363	<p>Detection of a single gene variant for segregation purposes in relation to a person, if:</p> <p>(a) the detection is:</p> <p>(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p>(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the patient:</p> <p>(i) is a biological parent or other biological relative of the person and has a known phenotype of the person; or</p> <p>(ii) is a biological parent of the person and has a suspected monogenic condition; and</p> <p>(c) a sample has not previously been tested for the patient for a service to which item 73359 applies; and</p> <p>(d) a service to which item 73358, 73359 or 73360 applies has identified a potentially causative variant for the person; and</p> <p>(e) the results of the testing performed for the patient are made available for the purpose of providing the detection for the person; and</p> <p>(f) the detection is not performed in conjunction with item 73361 or 73362</p> <p>Applicable only once per variant per lifetime</p>

P7. GENETICS	
	<p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for:</p> <p>(i) the characterisation of MYC gene rearrangement; and</p> <p>(ii) if the results of the characterisation mentioned in subparagraph (i) are positive—the characterisation of either or both of BCL2 gene rearrangement and BCL6 gene rearrangement; and</p> <p>(b) is for a patient:</p> <p>(i) for whom MYC immunohistochemistry is non-negative; and</p> <p>(ii) with clinical or laboratory evidence, including morphological features, of diffuse large B-cell lymphoma or high grade B-cell lymphoma; and</p> <p>(c) is not performed in conjunction with item 73365</p> <p>Applicable only once per lifetime</p>
73364	<p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MYC gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of Burkitt lymphoma; and</p> <p>(c) is not performed in conjunction with item 73364</p> <p>Applicable only once per lifetime</p>
73365	<p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) CCND1 gene rearrangement;</p> <p>(ii) CCND2 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of mantle cell lymphoma</p> <p>Applicable only once per lifetime</p>
73366	<p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73367	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the presence of isochromosome 7q; and</p>

P7. GENETICS	
	<p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of hepatosplenic T-cell lymphoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73368	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) DUSP22 gene rearrangement;</p> <p>(ii) TP63 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of ALK negative anaplastic large cell lymphoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73369	<p>Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) TCL1A gene rearrangement;</p> <p>(ii) MTCP1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of T-cell prolymphocytic leukaemia</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73370	<p>Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of the following:</p> <p>(i) chromosome translocations t(4;14), t(14;16), t(14;20);</p> <p>(ii) 1q gain;</p> <p>(iii) 17p deletion; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of plasma cell myeloma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73371	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the detection of chromosome 1p/19q co-deletion; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of glial</p>

P7. GENETICS	
	<p>neoplasm with probable oligodendroglial component</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73372	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the identification of IDH1/2 pathological variant status; and</p> <p>(b) is for a patient with:</p> <p>(i) negative IDH1 (R132H) immunohistochemistry; and</p> <p>(ii) clinical or laboratory evidence, including morphological features, of glial neoplasm</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73373	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MGMT promoter methylation status; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of glioblastoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73374	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes in one of the following genes:</p> <p>(i) MDM2 CNV;</p> <p>(ii) FUS;</p> <p>(iii) DDIT3;</p> <p>(iv) EWSR1;</p> <p>(v) ETV6;</p> <p>(vi) NTRK1;</p> <p>(vii) NTRK3;</p> <p>(viii) COL1A1;</p> <p>(ix) PDGFB;</p> <p>(x) STAT6;</p> <p>(xi) PAX3;</p>

P7. GENETICS	
	<p>(xii) PAX7; (xiii) SS18; (xiv) BCOR; (xv) CIC; (xvi) HEY1; (xvii) ALK; (xviii) USP6; (xix) NR4A3; (xx) NCOA2; (xxi) FOXO1; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73375	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 2 or 3 of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73376	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 4 or more of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$800.00 Benefit: 75% = \$600.00 85% = \$715.30</p>
73377	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the detection of FOXL2.402C>G status; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of granulosa cell ovarian tumour</p> <p>Applicable only once per lifetime</p> <p>Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>

P7. GENETICS	
73378	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of NUTM1 gene status at 15q14; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of midline NUT carcinoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73379	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of secretory carcinoma of the breast</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73380	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MAML2 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of mucoepidermoid carcinoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73381	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of mammary analogue secretory carcinoma of the salivary gland</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73382	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of EWSR1 gene rearrangement, with or without PLAG1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of hyalinising clear cell carcinoma of the salivary gland</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73383	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p>

P7. GENETICS	
	(i) TFE3 gene rearrangement; (ii) TFEB gene rearrangement; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of renal cell carcinoma Applicable only once per lifetime Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00
P8. INFERTILITY AND PREGNANCY TESTS	
	Group P8. Infertility And Pregnancy Tests
73521	Semen examination for presence of spermatozoa or examination of cervical mucus for spermatozoa (Huhner's test) (See para TN.1.4 of explanatory notes to this Category) Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
73523	Semen examination (other than post-vasectomy semen examination), including: (a) measurement of volume, sperm count and motility; and (b) examination of stained preparations; and (c) morphology; and (if performed) (d) differential count and 1 or more chemical tests; (Item is subject to rule 25) Fee: \$41.75 Benefit: 75% = \$31.35 85% = \$35.50
73525	Sperm antibodies - sperm-penetrating ability - 1 or more tests (See para TN.1.4 of explanatory notes to this Category) Fee: \$28.35 Benefit: 75% = \$21.30 85% = \$24.10
73527	Human chorionic gonadotrophin (HCG) - detection in serum or urine by 1 or more methods for diagnosis of pregnancy - 1 or more tests Fee: \$10.00 Benefit: 75% = \$7.50 85% = \$8.50
73529	Human chorionic gonadotrophin (HCG), quantitation in serum by 1 or more methods (except by latex, membrane, strip or other pregnancy test kit) for diagnosis of threatened abortion, or follow up of abortion or diagnosis of ectopic pregnancy, including any services performed in item 73527 - 1 test (See para PN.0.33 of explanatory notes to this Category) Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
P9. SIMPLE BASIC PATHOLOGY TESTS	
	Group P9. Simple Basic Pathology Tests
73801	Semen examination for presence of spermatozoa Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90
73802	Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential

P9. SIMPLE BASIC PATHOLOGY TESTS	
	leucocyte count), haemoglobin, haematocrit or erythrocyte count - 1 test Fee: \$4.55 Benefit: 75% = \$3.45 85% = \$3.90
73803	2 tests described in item 73802 Fee: \$6.35 Benefit: 75% = \$4.80 85% = \$5.40
73804	3 or more tests described in item 73802 Fee: \$8.15 Benefit: 75% = \$6.15 85% = \$6.95
73805	Microscopy of urine, excluding dipstick testing. Fee: \$4.55 Benefit: 75% = \$3.45 85% = \$3.90
73806	Pregnancy test by 1 or more immunochemical methods Fee: \$10.15 Benefit: 75% = \$7.65 85% = \$8.65
73807	Microscopy for wet film other than urine, including any relevant stain Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90
73808	Microscopy of Gram-stained film, including (if performed) a service described in item 73805 or 73807 Fee: \$8.65 Benefit: 75% = \$6.50 85% = \$7.40
73809	Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method Fee: \$2.35 Benefit: 75% = \$1.80 85% = \$2.00
73810	Microscopy for fungi in skin, hair or nails - 1 or more sites Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90
73811	Mantoux test Fee: \$11.20 Benefit: 75% = \$8.40 85% = \$9.55
73828	Semen examination for presence of spermatozoa by a participating nurse practitioner Fee: \$6.90 Benefit: 85% = \$5.90
73829	Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count by a participating nurse practitioner - 1 test Fee: \$4.55 Benefit: 85% = \$3.90
73830	2 tests described in item 73829 by a participating nurse practitioner Fee: \$6.35 Benefit: 85% = \$5.40
73831	3 or more tests described in item 73829 by a participating nurse practitioner Fee: \$8.15 Benefit: 85% = \$6.95
73832	Microscopy of urine, excluding dipstick testing by a participating nurse practitioner. Fee: \$4.55 Benefit: 85% = \$3.90
73833	Pregnancy test by 1 or more immunochemical methods by a participating nurse practitioner Fee: \$10.15 Benefit: 85% = \$8.65

P9. SIMPLE BASIC PATHOLOGY TESTS	
73834	Microscopy for wet film other than urine, including any relevant stain by a participating nurse practitioner Fee: \$6.90 Benefit: 85% = \$5.90
73835	Microscopy of Gram-stained film, including (if performed) a service described in item 73832 or 73834 by a participating nurse practitioner Fee: \$8.65 Benefit: 85% = \$7.40
73836	Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method by a participating nurse practitioner Fee: \$2.35 Benefit: 85% = \$2.00
73837	Microscopy for fungi in skin, hair or nails by a participating nurse practitioner - 1 or more sites Fee: \$6.90 Benefit: 85% = \$5.90
73839	Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk - not more than once in a 12 month period. (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category) (See para PR.9.1 of explanatory notes to this Category) Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
73840	Quantitation of glycosylated haemoglobin performed in the management of established diabetes – each test to a maximum of 4 tests in a 12 month period. (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category) (See para PR.9.1 of explanatory notes to this Category) Fee: \$17.00 Benefit: 75% = \$12.75 85% = \$14.45
73844	Quantitation of urinary microalbumin as determined by urine albumin excretion on a timed overnight urine sample or urine albumin/creatinine ratio as determined on a first morning urine sample in the management of established diabetes. (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category) (See para PR.9.1 of explanatory notes to this Category) Fee: \$20.35 Benefit: 75% = \$15.30 85% = \$17.30
P10. PATIENT EPISODE INITIATION	
	Group P10. Patient Episode Initiation
73899	Initiation of a patient episode that consists of a service described in item 72858 or 72859 in circumstances other than those mentioned in item 73900 Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
73900	Initiation of a patient episode that consists of a service described in item 72858 or 72859 if the service is rendered in a prescribed laboratory. Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73920	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre that the APA operates in the same premises as it operates a category GX or GY

P10. PATIENT EPISODE INITIATION	
	<p>pathology laboratory</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73922	<p>Initiation of a patient episode that consists of a service described in item 73070, 73071, 73072, 73073, 73074, 73075 or 73076 (in circumstances other than those described in item 73923).</p> <p>Fee: \$8.20 Benefit: 75% = \$6.15 85% = \$7.00</p>
73923	<p>Initiation of a patient episode that consists of a service described in items 73070, 73071, 73072, 73073, 73074, 73075 or 73076 if: (a) the person is a private patient in a recognised hospital; or (b) the person receives the service from a prescribed laboratory</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73924	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73925) from a person who is an in-patient of a hospital.</p> <p>Fee: \$14.65 Benefit: 75% = \$11.00 85% = \$12.50</p>
73925	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 if the person is:</p> <p>(a) a private patient of a recognised hospital; or</p> <p>(b) a private patient of a hospital who receives the service or services from a prescribed laboratory.</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73926	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73927) from a person who is not a patient of a hospital.</p> <p>Fee: \$8.20 Benefit: 75% = \$6.15 85% = \$7.00</p>
73927	<p>Initiation of a patient episode by a prescribed laboratory that consists of 1 or more services described in items, 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 from a person who is not a patient of a hospital.</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73928	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre. Unless item 73920 or 73929 applies</p> <p>Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10</p>
73929	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, if the specimen is collected in an approved pathology collection centre</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73930	<p>Initiation of a patient episode by collection of a specimen for a service for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person who is an in-patient of a hospital other than a recognised hospital. Unless item 73931 applies</p>

P10. PATIENT EPISODE INITIATION	
	Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if: <ul style="list-style-type: none"> () the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person who is a private patient in a hospital or () the person is a private patient in a recognised hospital and the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority
73931	Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73932	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in the place where the person was residing. Unless item 73933 applies Fee: \$10.25 Benefit: 75% = \$7.70 85% = \$8.75
73933	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in the place where the person is residing Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73934	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 and 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in a residential aged care home or institution. Unless 73935 applies Fee: \$17.60 Benefit: 75% = \$13.20 85% = \$15.00
73935	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in a residential aged care home or institution Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73936	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected from the person by the person. Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
73937	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected from the person by the person and if: <ul style="list-style-type: none"> () the service is performed in a prescribed laboratory or () the person is a private patient in a recognised hospital Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73938	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by or on behalf of the

P10. PATIENT EPISODE INITIATION	
	treating practitioner. Unless item 73939 applies Fee: \$7.95 Benefit: 75% = \$6.00 85% = \$6.80
	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected by or on behalf of the treating practitioner and if: <ul style="list-style-type: none"> () the service is performed in a prescribed laboratory or () the person is a private patient in a recognised hospital
73939	Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
P11. SPECIMEN REFERRED	
	Group P11. Specimen Referred
	Receipt of a specimen by an approved pathology practitioner of an approved pathology authority from another approved pathology practitioner of a different approved pathology authority or another approved pathology authority (Item is subject to rules 14, 15 and 16)
73940	Fee: \$10.25 Benefit: 75% = \$7.70 85% = \$8.75
P12. MANAGEMENT OF BULK-BILLED SERVICES	
	Group P12. Management Of Bulk-Billed Services
	A pathology service to which an item in this table (other than this item or item 74991) applies if: <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this table applying to the service (See para PN.0.24 of explanatory notes to this Category)
74990	Fee: \$14.30 Benefit: 85% = \$12.20
	A pathology service to which an item in this table (other than this item or item 74990) applies if: <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and
74991	

P12. MANAGEMENT OF BULK-BILLED SERVICES

	<p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p style="padding-left: 20px;">(i) this item; and</p> <p style="padding-left: 20px;">(ii) the other item in this table applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location within Modified Monash areas 2 to 7.</p> <p>(See para PN.0.24 of explanatory notes to this Category) Fee: \$21.60 Benefit: 85% = \$18.40</p>

P13. BULK-BILLING INCENTIVE

Group P13. Bulk-Billing Incentive	
74992	<p>A payment when the episode is bulk billed and includes item 73920.</p> <p>Fee: \$1.60 Benefit: 75% = \$1.20 85% = \$1.40</p>
74993	<p>A payment when the episode is bulk billed and includes item 73922 or 73926.</p> <p>Fee: \$3.75 Benefit: 75% = \$2.85 85% = \$3.20</p>
74994	<p>A payment when the episode is bulk billed and includes item 73924.</p> <p>Fee: \$3.25 Benefit: 75% = \$2.45 85% = \$2.80</p>
74995	<p>A payment when the episode is bulk billed and includes item 73899, 73900, 73928, 73930 or 73936.</p> <p>Fee: \$4.00 Benefit: 75% = \$3.00 85% = \$3.40</p>
74996	<p>A payment when the episode is bulk billed and includes item 73932 or 73940.</p> <p>Fee: \$3.70 Benefit: 75% = \$2.80 85% = \$3.15</p>
74997	<p>A payment when the episode is bulk billed and includes item 73934.</p> <p>Fee: \$3.30 Benefit: 75% = \$2.50 85% = \$2.85</p>
74998	<p>A payment when the episode is bulk billed and includes item 73938.</p> <p>Fee: \$2.00 Benefit: 75% = \$1.50 85% = \$1.70</p>
74999	<p>A payment when the episode is bulk billed and includes item 73923, 73925, 73927, 73929, 73931, 73933, 73935, 73937 or 73939.</p> <p>Fee: \$1.60 Benefit: 75% = \$1.20 85% = \$1.40</p>

INDEX

1			
11 - Deoxycortisol DCOR	66695		
A			
Abnormal heamoglobins AH	65117		
Acetoacetate ACP	66500		
Acid phosphatase ACP	66500		
Actinimycetes - microbial antibody testing ACT	69384		
Activated Protein C resistance APC	65142, 65171		
Adenovirus - microbial antibody testing ADE	69384		
Adrenocorticotrophic hormone (ACTH) ACTH	66695		
AFB microscopy & culture of sputum - 1 specimen AFB1	69324		
AFB microscopy & culture of sputum - 2 specimens AFB2	69327		
AFB microscopy & culture of sputum - 3 specimens AFB3	69330		
Alanine aminotransferase ALT	66500		
Albumin ALB	66500		
Alcohol (ethanol) ETOH	66626, 66800		
Aldosterone ALDS	66695		
ALK gene testing	73341		
Alkaline phosphatase - isoenzymes ALPI	66641		
Alkaline phosphatase ALP	66500		
Alpha-1-antitrypsin AAT	66635		
Alpha-fetoprotein AFP	66650-66653, 66743		
Aluminium - renal dialysis ALR	66671		
Amikacin	66800		
Amino acids AA	66752		
Amiodarone AMIO	66812		
Amitriptyline AMIT	66812		
Ammonia NH3	66500		
Amniotic fluid examination AFE	66749		
Amylase AMS	66500		
Amylobarbitone AMYL	66812		
Androstenedione ANDR	66695		
Angiotensin converting exzyme ACE	66758		
Anti - Xa activity QAXA	65147		
Antibiotic & antimicrobial chemotherapeutic agents - quantitation QQA	66812		
Antibiotic & antimicrobial chemotherapeutic agents - quantitation QAA	66800		
Antibodies to extractable nuclear antigens - characterisation of antibodies if p	71103		
Antibodies to extractable nuclear antigens - detection ENA	71101		
Antibodies to nuclear antigens - detection ANA	71097		
Antibodies to nuclear antigens - quantitation & measurement of DNA binding if po	71099		
Antibodies to tissue antibodies - liver/kidney microsomes LKA	71119		
Antibodies to tissue antigens - ANCA - myeloperoxidase MPO	71153		
Antibodies to tissue antigens - ANCA - PR3 PR3	71153		
Antibodies to tissue antigens - anti - actin AACT	71119		
Antibodies to tissue antigens - anti - endomysial EMA	71163		
Antibodies to tissue antigens - coeliac disease panel CLC	71163-71164		
Antibodies to tissue antigens - gastric parietal cell PCA	71119		
Antibodies to tissue antigens - gliadin IgA GLIA	71163		
Antibodies to tissue antigens - gliadin IgG GLIG	71163		
Antibodies to tissue antigens - Jo-1 JO1	71119		
Antibodies to tissue antigens - keratin KERA	71119		
Antibodies to tissue antigens - mitochondria MA	71119		
Antibodies to tissue antigens - neutrophil cytoplasm ANCA	71153		
Antibodies to tissue antigens - PM-Scl PM1	71119		
Antibodies to tissue antigens - reticulin RCA	71119		
Antibodies to tissue antigens - Scl-70 SCL	71119		
Antibodies to tissue antigens - smooth muscle SMA	71119		
Antibodies to tissue antigens - tissue transglutaminase TTG	71163		
Antibodies to tissue antigens - TSH receptor antibody test TSHA	71165		
Antibodies to tissue antigens -glomerular basement membrane GBM	71153		
Antibody to cardiolipin or beta 2 glycoprotein ACB	71180		
Antithrombin III ATH	65142, 65171, 65175-65179		
Anus - cytology on specimens from SMCY	73043		
Apolipoprotein B/A1 ratio APO	66536		
Arsenic AS	66825-66828		
Aspartate aminotransferase AST	66500		
Aspergillus - microbial antibody testing ASP	69384		
Avian precipitins (bird fancier's disease) - microbial antibody testing APP	69384		
B			
B12 markers vitamin B12M	66839		
B12 vitamin B12	66838		
Barbiturate BARB	66800		
Beryllium BE	66825-66828		
Beta-2 microglobulin BMIC	66629		
Beta-hydroxybutrate BHYB	66500		
Bicarbonate HCO3	66500		
Bilirubin (all fractions) - in urine UBIL	66500		
Bilirubin (all fractions) - neonatal BILN	66749		
Bilirubin (all fractions) BILI	66500		
Bird fancier's disease (see avian precipitins) APP	69384		
Blastomyces - microbial antibody testing BLM	69384		
Blood - compatability testing XMAT	65099, 65102, 65105 65108		
Blood - culture BC	69354, 69357, 69360		
Blood - faecal occult FOB	66764, 66767, 66770		
Blood - film BF	65066		
Blood - full examination FBE	65070		
Blood - gas GAS	66566		
Blood - group & blood group antibodies BGAB	65096		
Blood - group antibodies BGA	65111		
Blood - group systems BGS	65093		
Blood - grouping - ABO & RH (D antigens) BG	65090		
Blood - viscosity VISC	65060		
BNP or NT-proBNP quantitation BNP	66830		
Body cavities - aspirations of - microscopy & culture of material from MCOP	69321		
Body fluids - cytology BFCY	73045		
Bone - low mineral densities CBLB	66773		
Bone - metabolic bone disease CBMB	66776		
Bone marrow examination - aspirate BMEA	65087		
Bone marrow examination - trephine BMET	65084		
Bordetella pertussis - microbial antibody testing BOR	69384		
Borrelia burgdorferi - microbial antibody testing BOB	69384		
Breath hydrogen test BHT	66674		

Bromide BRMD	66812	Combatability testing XMAT	65099, 65102, 65105, 65108
Brucella - microbial antibody testing BRU	69384	Complement, total haemolytic - components C3 C3	71083
Bulk billing incentive	74995	Complement, total haemolytic - components C4 C4	71083
C			
C-1 esterase inhibitor - functional CEIF	66647	Complement, total haemolytic - other components COMP	71089
C-1 esterase inhibitor - quantitation CEIQ	66644	Complement, total haemolytic - properdin factor B PFB	71083
C-Peptide CPEP	66695	Complement, total haemolytic COM	71081
C-Reactive protein CRP	66500	Copper CU	66831
CA-125 antigen C125	66650	Cortisol CORT	66695
CA-15.3 antigen CA15	66650	Cortisol in saliva CORS	66711-66712
CA-19.9 antigen	66650	Coxsackie B1-6 - microbial antibody testing COX	69384
Caeruloplasmin CPLS	66632	Creatine Kinase - isoenzyme (electrophoresis) CKIE	66518
Calcitonin CALT	66695	Creatine kinase - isoenzymes CKI	66518
Calcium (total or corrected for albumin) CA	66500	Creatine kinase CK	66500
Calcium - ionised ICA	66584	Creatinine C	66500
Calculus analysis CALC	66590	Cryofibrinogen - detection and quantitation CFID	71064
Campylobacter jejuni - microbial testing antibody CAM	69384	Cryoglobulins - characterisation by electrophoresis, and immunoelectrophoresis o	71059
Candida - microbial antibody testing CAN	69384	Cryoglobulins - detection and quantitation CGLD	71064
Carbamazepine (Tegretol) CARB	66800	Cryptococcus - microbial antibody testing CRY	69384
Carboxyhaemoglobin COHB	65117	Cultural examination of faeces FCS	69345
Carcinoembryonic antigen CEA	66650	Cyclic AMP CAMP	66695
Cardiac enzymes (see test groups at PQ.4) CE	66506	Cyclosporin A CLSA	66812
Catecholamines CAT	66779	Cystine - qualitative UCYS	66752
Cell mediated immunity - delayed type - hypersensitivity test CMI	71137	Cystine - quantitative CYST	66752
Cell-mediated immunity in blood CMIB	69471	Cytology - fine needle aspiration of solid tissues - aspiration or attendance by	73051
Cervix - microscopy & culture of material from MCGR	69312	Cytology - fine needle aspiration of solid tissues FNCY	73049
CFS - microscopy & culture of material from MCPO	69321	Cytology - from 3 sputum or urine specimens SPCY	73047
Characterisation of antibodies if positive ENA ENAP	71103	Cytology - from body fluids, sputum (1 specimen), urine, washings or brushings B	73045
Chemicals, toxic (ingested or absorbed) - assays DRGO	66623	Cytology - from skin, nipple discharge, lip, mouth, nose or anus SMCY	73043
Chlamydia - microbial antibody testing CHL	69384	Cytomegalovirus - microbial antibody testing CMV	69384
Chloral hydrate CHHY	66812	Cytomegalovirus serology in pregnancy - microbial antibody testing CMVP	69405, 69408, 69411
Chlorazepate CHZP	66812	D	
Chloride CL	66500	D-dimer test DD	65120
Chloroquinine CLOQ	66812	Dehydroepiandrosterone sulphate (DHEAS) DHEA	66695
Chlorpromazine CHLO	66812	Dengue - microbial antibody testing DEN	69384
Cholesterol - HDL HDLC	66536	Desipramine DESI	66812
Cholesterol CHOL	66500	Dexamethasone - suppression test DEXA	66686
Cholinesterase CHSE	66758	Dexamethasone DXST	66686
Chorionic gonadotrophin - detection for pregnancy diagnosis HCGP	73527, 73529	DHEAS (Dehydroepiandrosterone sulphate) DHEA	66695
Chorionic gonadotrophin - quantitation HCG	66650-66653 73529	Diazepam DIAZ	66812
Chromosome identification - studies - blood CSB	73289	Differential cell count DIFF	66812
Chromosome identification - studies - other than blood CS	73287	Digoxin DIG	66800
Chromosome identification and banding	73287	Dihydrotestosterone DHTS	66695
Chromosome identification and banding	73289	Diphenylhydantoin (Dilantin) DIL	66812
Chronic eosinophilic leukaemia	73326	Diphtheria - microbial antibody testing DIP	69384
Cimetidine CMTD	66812	Direct Coombs test CMBS	65114
Clobazam CLOB	66812	Disopyramide (Rythmodan) DISO	66800
Clomipramine CLOM	66812	DNA binding - quantitation & measurement if positive ANA ANAP	71099
Clonazepam (Rivotril) CLON	66812	DNA, (double-stranded DNA) antibody DSDNA	71099
Clostridium difficile - microbial antigen testing CLDT	69363	Donath Landsteiner antibody test DLAT	65075
Coagulation - studies (see test groups at para PQ4) COAG	65120	Doxepin hydrochloride DOXE	66812
Coagulation factor inhibitors by Bethesda assay BETH	65159	Drugs - abuse treatment programme - assay DATP	66626
Coccidiodes - microbial antibody testing CCC	69384	Drugs - inappropriate dosage - assay DRGO	66623
Coeliac antibodies CLC	71163-71164	Drugs - therapeutic - assay (See individual drugs)	66800
Cold agglutinins CAG	65114		66812
Collagen - low bone CBLB	66773		
Collagen - metabolic disease CBMB	66776		

Legionella pneumophila - serogroup 2 - microbial antibody testing LP2	69384	Microbial antibody testing - cryptococcus CRY	69384
Leishmaniasis - microbial antibody testing LEI	69384	Microbial antibody testing - cytomegalovirus CMV	69384
Leptospira - microbial antibody testing LEP	69384	Microbial antibody testing - cytomegalovirus serology in pregnancy CMVP	69384
Leucocyte count - 3 surface markers - blood, CSF, serous fluid LMH3	71139	Microbial antibody testing - dengue DEN	69384
Leucocyte count - 3 surface markers - tissue LMT3	71141	Microbial antibody testing - diphtheria DIP	69384
Leucocyte count - 6 surface markers - blood, CSF, serous fluid & tissue(s) LMHT	71145	Microbial antibody testing - echinococcus ECC	69384
Leucocyte count - 6 surface markers - blood, CSF, serous fluid or tissue LM6	71143	Microbial antibody testing - echo-coxsackie group ECH	69384
Leucocyte count - CD34 surface marker only - blood LMCD34	71146	Microbial antibody testing - Entamoeba histolytica AMO	69384
Leucocyte count WCC	65070	Microbial antibody testing - Epstein Barr virus EBV	69474
Light chains - free kappa or lambda LCHS	71200	Microbial antibody testing - Eptein Barr virus EBV	69472
Lignocaine LIGN	66800	Microbial antibody testing - fluorescent treponemal antibody - absorption test (69384
Lip - cytology on specimens from SMCY	73043	Microbial antibody testing - Haemophilus influenzae HUS	69384
Lipase LIP	66500	Microbial antibody testing - herpes simplex virus HPA	69384
Lipid studies (see test groups at para PQ.4)	66500	Microbial antibody testing - Histoplasma HIP	69384
Lipoprotein subclasses - electrophoresis LEPG	66539	Microbial antibody testing - Human Immunodeficiency Virus	69384
Listeria - microbial antibody testing LIS	69384	Microbial antibody testing - hydatid HYD	69384
Lithium LI	66800	Microbial antibody testing - infectious mononucleosis IM	69384
Liver/kidney microsomes - tissue antigens - antibodies LKA71119		Microbial antibody testing - influenza A FLA	69384
Lupus anticoagulant LUPA	65137, 65142	Microbial antibody testing - influenza B FLB	69384
Luteinizing hormone LH	66695	Microbial antibody testing - Legionella pneumophila - serogroup 1 LP1	69384
Lymphocytes - functional tests - 1 test LF1	71127	Microbial antibody testing - Legionella pneumophila - serogroup 2 LP2	69384
Lymphocytes - functional tests - 2 test LF2	71129	Microbial antibody testing - leishmaniasis LEI	69384
Lymphocytes - functional tests - 3 tests LF3	71131	Microbial antibody testing - Leptospira LEP	69384
		Microbial antibody testing - Listeria LIS	69384
		Microbial antibody testing - measles MEA	69384
		Microbial antibody testing - Micropolyspora faeni MIC	69384
		Microbial antibody testing - mumps MUM	69384
		Microbial antibody testing - Murray Valley encephalitis MVE	69384
		Microbial antibody testing - Mycoplasma pneumoniae MYC69384	69384
		Microbial antibody testing - Neisseria meningitidis MEN	69384
		Microbial antibody testing - Newcastle disease NCD	69384
		Microbial antibody testing - parainfluenza 1 PF1	69384
		Microbial antibody testing - parainfluenza 2 PF2	69384
		Microbial antibody testing - parainfluenza 3 PF3	69384
		Microbial antibody testing - paratyphi PTY	69384
		Microbial antibody testing - pertussis PER	69384
		Microbial antibody testing - poliomyelitis PLO	69384
		Microbial antibody testing - Proteus OX 19 POX	69384
		Microbial antibody testing - Proteus OXK POK	69384
		Microbial antibody testing - Q fever QFF	69384
		Microbial antibody testing - rapid plasma reagin test RPR	69384
		Microbial antibody testing - respiratory syncytial virus RSV	69384
		Microbial antibody testing - Ross River virus RRV	69384
		Microbial antibody testing - rubella RUB	69384
		Microbial antibody testing - Salmonella typhi (H) SAH	69384
		Microbial antibody testing - Salmonella typhi (O) SAO	69384
		Microbial antibody testing - Schistosoma STO	69384
		Microbial antibody testing - streptococcal serology - anti DNASE B titre ADNB	69384
		Microbial antibody testing - streptococcal serology - anti-streptolysin O titre	69384
		Microbial antibody testing - Strptococcus pneumoniae PCC	69384
		Microbial antibody testing - tetanus TET	69384
		Microbial antibody testing - Thermoactinomyces vulgaris THE	69384
		Microbial antibody testing - thermopolyspora TPS	69384

M

Thyroid stimulating hormone (if requested with other hormones referred to in it	66722-66725, 66728, 66731	Von Hippel-Lindau - Diagnostics (germline)	73333
Tissue transglutaminase antibodies TTG	71163	Von Hippel-Lindau - Predictive (relatives)	73334
Tobramycin	66800	Von Hippel-Lindau - Somatic	73335
Total protein PROT	66500	Von Willebrand's factor antigen VWA	65150
Toxocara - microbial antibody testing TOC	69384	Von Willebrand's factor VWF	65150
Toxoplasma - microbial antibody testing TOX	69384		
TPHA (Treponema pallidum haemagglutination test)	69384	W	
Treponema pallidum haemagglutination test	69384	Warfarin WFR	66812
Trichinosis - microbial antibody testing TOS	69384		
Triglycerides TRIG	66500	Y	
Trimipramine TRIM	66812	Yersinia enterocolitica - microbial antibody testing YER	69384
Troponin TROP	66518		
Tryptase - serum TRYP	71198	Z	
Tryptic activity in faeces TAF	66677	Zinc ZN	66667
Tuberculosis MANT	73811		
Tumour markers - CA-125 antigen C125	66650		
Tumour markers - CA-15.3 antigen CA15	66650		
Tumour markers - CA-19.9 antigen CA19	66650		
Tumour markers - carcinoembryonic antigen CEA	66650		
Tumour markers - mammary serum antigen MSA	66650		
Tumour markers - prostate specific antigen PSA	66656		
Tumour markers - prostatic acid phosphatase - 1 or more fractions			
ACP	66656		
Tumour markers - thyroglobulin TGL	66650		
Typhus, Weil-Felix - microbial antibody testing TYP	69384		

U

Urate URAT	66500
Urea U	66500
Urethra - microscopy & culture of material from MCGR	69312
Urine - acidification test UAT	66587
Urine - cystine (cysteine) UCYS	66782
Urine - cytology - on 1 specimen BFCY	73045
Urine - cytology - on 3 specimens SPCY	73047
Urine - haemoglobin UHB	66782
Urine - microscopy, culture, identification & sensitivity UMCS	69333
Urine - porphyrins - qualitative test UPR	66782
Urine - urobilinogen UPG	66782
Urine - steroid fraction or fractions USF	66695
Urine - urobilinogen UUB	66782

V

Vagina - microscopy & culture of material from MCGR	69312
Valproate (Epilim) VALP	66800
Vancomycin VAN	66800
Varicella zoster - microbial antibody testing VCZ	69384
Vasoactive intestinal peptide VIP	66695
Vasopressin ADH	66695
VDRL (Venereal Disease Research Laboratory) - microbial antibody testing VDRL	69384
Viscosity of blood or plasma VISC	65060
Vitamins - 1,25-dihydroxyvitamin D	66835-66836
Vitamins - 25-hydroxyvitamin D	66833
Vitamins - B12 B12	66838
Vitamins - B12 markers B12M	66839
Vitamins - D VITD	66833, 66835-66836
Vitamins - quantitation of A or E	66607
Vitamins - quantitation of B1, B2, B3, B6 or C	66605

COMPLEXITY LEVELS FOR HISTOPATHOLOGY ITEMS

Specimen Type	Complexity level
Adrenal resection, neoplasm	5
Adrenal resection, not neoplasm	4
Anus, all specimens not otherwise specified	3
Anus, neoplasm, biopsy	4
Anus, neoplasm, radical resection	6
Anus, submucosal resection – neoplasm	5
Appendix	3
Artery, all specimens not otherwise specified	3
Artery, biopsy	4
Bartholin's gland - cyst	3
Bile duct, resection - all specimens	6
Bone, biopsy, curettings or fragments - lesion	5
Bone, biopsy or curettings quantitation - metabolic disease	6
Bone, femoral head	4
Bone, resection, neoplasm - all sites and types	6
Bone marrow, biopsy	4
Bone - all specimens not otherwise specified	4
Brain neoplasm, resection - cerebello-pontine angle	4
Brain or meninges, biopsy - all lesions	5
Brain or meninges, not neoplasm - temporal lobe	6
Brain or meninges, resection - neoplasm (intracranial)	5
Brain or meninges, resection - not neoplasm	4
Branchial cleft, cyst	4
Breast, excision biopsy, guidewire localisation - non-palpable lesion	6
Breast, excision biopsy, or radical resection, malignant neoplasm or atypical proliferative disease - all specimen types	6
Breast, incision biopsy or needle biopsy, malignant neoplasm - all specimen types	4
Breast – microdochoectomy	6
Breast, orientated wide local excision for carcinoma, with margin assessment	7
Breast tissue - all specimens not otherwise specified	4
Bronchus, biopsy	4
Carotid body - neoplasm	5
Cholesteatoma	3
Digits, amputation - not traumatic	4
Digits, amputation - traumatic	2
Ear, middle and inner - not cholesteatoma	4
Endocrine neoplasm - not otherwise specified	5
Extremity, amputation or disarticulation – neoplasm	6

Specimen Type	Complexity level
Extremity, amputation - not otherwise specified	4
Eye, conjunctiva - biopsy or pterygium	3
Eye, cornea	4
Eye, enucleation or exenteration - all lesions	6
Eye - not otherwise specified	4
Fallopian tube, biopsy	4
Fallopian tube, ectopic pregnancy	4
Fallopian tube, sterilization	2
Fetus with dissection	6
Foreskin - new born	2
Foreskin - not new born	3
Gallbladder	3
Gallbladder and porta hepatis-radical resection	6
Ganglion cyst, all sites	3
Gum or oral mucosa, biopsy	4
Heart valve	4
Heart - not otherwise specified	5
Hernia sac	2
Hydrocele sac	2
Jaw, upper or lower, including bone, radical resection for neoplasm	6
Joint and periarticular tissue, without bone - all specimens	3
Joint tissue, including bone - all specimens	4
Kidney, biopsy including transplant	5
Kidney, nephrectomy transplant	5
Kidney, partial or total nephrectomy or nephroureterectomy - neoplasm	6
Kidney, partial or total nephrectomy - not neoplasm	4
Large bowel (including rectum), biopsy - all sites	4
Large bowel, colostomy - stoma	3
Large bowel (including rectum), biopsy, for confirmation or exclusion of Hirschsprung's Disease	5
Large bowel (including rectum), polyp	4
Large bowel, segmental resection - colon, not neoplasm	5
Large bowel (including rectum), segmental resection, neoplasm	6
Large bowel (including rectum), submucosal resection – neoplasm	5
Larynx, biopsy	4
Larynx, partial or total resection	5
Larynx, resection with nodes or pharynx or both	6
Lip, biopsy - all specimens not otherwise specified	3
Lip, wedge resection or local excision with orientation	4
Liver, hydatid cyst or resection for trauma	4
Liver, total or subtotal hepatectomy - neoplasm	6
Liver - all specimens not otherwise specified	5

Specimen Type	Complexity level
Lung, needle or transbronchial biopsy	4
Lung, resection - neoplasm	6
Lung, wedge biopsy	5
Lung segment, lobar or total resection	6
Lymph node, biopsy - all sites	4
Lymph node, biopsy – for lymphoma or lymphoproliferative disorder	5
Lymph nodes, regional resection - all sites	5
Mediastinum mass	5
Muscle, biopsy	6
Nasopharynx or oropharynx, biopsy	4
Nerve, biopsy neuropathy	5
Nerve, neurectomy or removal of neoplasm	4
Nerve - not otherwise specified	3
Nose, mucosal biopsy	4
Nose or sinuses, polyps	3
Odontogenic neoplasm	5
Odontogenic or dental cyst	4
Oesophagus, biopsy	4
Oesophagus, diverticulum	3
Oesophagus, partial or total resection	6
Oesophagus, submucosal resection – neoplasm	5
Omentum, biopsy	4
Ovary with or without tube - neoplasm	5
Ovary with or without tube - not neoplasm	4
Pancreas, biopsy	5
Pancreas, cyst	4
Pancreas, subtotal or total with or without splenectomy	6
Parathyroid gland(s)	4
Penisectomy with node dissection	5
Penisectomy - simple	4
Peritoneum, biopsy	4
Pituitary neoplasm	4
Placenta - not third trimester	4
Placenta - third trimester, abnormal pregnancy or delivery	4
Pleura or pericardium, biopsy or tissue	4
Products of conception, spontaneous or missed abortion	4
Products of conception, termination of pregnancy	3
Prostate, radical prostatectomy or cystoprostatectomy for carcinoma	7
Prostate, radical resection	6
Prostate - all types of specimen not otherwise specified	4
Retroperitoneum, neoplasm	5
Salivary gland, Mucocele	3
Salivary gland, neoplasm - all sites	5

Specimen Type	Complexity level
Salivary gland - all specimens not otherwise specified	4
Sinus, paranasal, biopsy	4
Sinus, paranasal, resection - neoplasm	6
Skin, biopsy - blistering skin diseases	4
Skin biopsy - for investigation of alopecia other than for male pattern baldness, where serial horizontal sections are taken	5
Skin, biopsy - for investigation of lymphoproliferative disorder	5
Skin, biopsy - inflammatory dermatosis	4
Skin, eyelid, wedge resection	4
Skin, local resection - orientation	4
Skin, resection of malignant melanoma or melanoma in-situ	5
Skin - all specimens not otherwise specified including all neoplasms and cysts	3
Small bowel - biopsy, all sites	4
Small bowel, diverticulum	3
Small bowel, resection - neoplasm	6
Small bowel – resection, all specimens	5
Small bowel, submucosal resection – neoplasm	5
Soft tissue, infiltrative lesion, extensive resections at least 5cm in maximal dimension	6
Soft tissue, lipoma and variants	3
Soft tissue, neoplasm, not lipoma - all specimens	5
Soft tissue - not otherwise specified	4
Spleen	5
Stomach, endoscopic biopsy or endoscopic polypectomy	4
Stomach, resection, neoplasm - all specimens	6
Stomach, submucosal resection – neoplasm	5
Stomach - all specimens not otherwise specified	4
Tendon or tendon sheath, giant cell neoplasm	4
Tendon or tendon sheath - not otherwise specified	3
Testis, biopsy	5
Testis and adjacent structures, castration	2
Testis and adjacent structures, neoplasm with or without nodes	5
Testis and adjacent structures, vas deferens sterilization	2
Testis and adjacent structures - not otherwise specified	3
Thymus - not otherwise specified	5
Thyroglossal duct - all lesions	4
Thyroid - all specimens	5
Tissue or organ not otherwise specified, abscess	3
Tissue or organ not otherwise specified, haematoma	3
Tissue or organ not otherwise specified, malignant neoplasm with regional nodes	6
Tissue or organ not otherwise specified, neoplasm local	4

Specimen Type	Complexity level
Tissue or organ not otherwise specified, pilonidal cyst or sinus	3
Tissue or organ not otherwise specified, thrombus or embolus	3
Tissue or organ not otherwise specified, veins varicosity	3
Tissue or organ - all specimens not otherwise specified	3
Tongue, biopsy	4
Tongue or tonsil, neoplasm local	5
Tongue or tonsil, neoplasm with nodes	6
Tonsil, biopsy - excluding resection of whole organ	4
Tonsil or adenoids or both	2
Trachea, biopsy	4
reter, biopsy	4
Ureter, resection	5
Urethra, biopsy	4
Urethra, resection	5
Urinary bladder, partial or total with or without prostatectomy	6
Urinary bladder, transurethral resection of neoplasm	5
Urinary bladder - all specimens not otherwise specified	4
Uterus, cervix, curettings or biopsy	4
Uterus, cervix cone, biopsy (including LLETZ or LEEP biopsy)	5
Uterus, endocervix, polyp	3
Uterus, endometrium, polyp	3
Uterus with or without adnexa, malignant neoplasm - all specimen types not otherwise specified	6
Uterus with or without adnexa, neoplasm, Wertheim's or pelvic clearance	6
Uterus and/or cervix - all specimens not otherwise specified	4
Vagina, biopsy	4
Vagina, radical resection	6
Vaginal mucosa, incidental	3
Vulva or labia, biopsy	4
Vulval, subtotal or total with or without nodes	6

CATEGORY 7: CLEFT LIP AND CLEFT PALATE SERVICES

SUMMARY OF CHANGES FROM 21/07/2020

The 21/07/2020 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 21/07/2020

CLEFT LIP AND CLEFT PALATE SERVICES NOTES

CN.0.1 Schedule Fees and Medicare Benefits

Medicare benefits are based on fees determined for each Schedule service. The fee is referred to in these notes as the "Schedule fee". The fee for any item listed in the Schedule is that which is regarded as being reasonable on average for that service having regard to usual and reasonable variations in the time involved in performing the service on different occasions and to reasonable ranges of complexity and technical difficulty encountered.

The Schedule fee and Medicare benefit levels for the medical services contained in the Schedule are located with the item descriptions. Where appropriate, the calculated benefit has been rounded to the nearest higher 5 cents. However, in no circumstances will the Medicare benefit payable exceed the fee actually charged.

There are presently two levels of Medicare benefit payable for cleft lip and cleft palate services:

(a) **75% of the Schedule fee:**

for professional services rendered to a patient as part of an episode of hospital treatment (other than public patients). Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing an asterisk '*' or the letter 'H' directly after an item number where used; or a description of the professional service and an indication the service was rendered as an episode of hospital treatment (for example, 'in hospital', 'admitted' or 'in patient');

for professional services rendered as part of an episode of hospital-substitute treatment, and the patient who receives the treatment chooses to receive a benefit from a private health insurer. Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing the words 'hospital-substitute treatment' directly after an item number where used; or a description of the professional service, preceded by the words 'hospital-substitute treatment'.

(b) **85% of the Schedule fee**, or the Schedule fee less \$84.70 (indexed annually), whichever is the greater, for all other professional services.

It should be noted that the Health Insurance Act makes provision for private medical insurance to cover the "patient gap" (ie, the difference between the Medicare benefit and the Schedule fee) for services attracting benefit at the 75% level. Patients may insure with private health insurance organisations for the gap between the 75% Medicare benefit and the Schedule fee or for amounts in excess of the Schedule fee where the patient has an agreement with their health fund.

CN.0.2 Where Medicare Benefits are not Payable

Medicare benefits are not payable in respect of a professional service where the medical expenses for the service:-

- (a) are paid/payable to a public hospital;
- (b) are for a compensable injury or illness for which the patient's insurer or compensation agency has accepted liability. (Please note that if the medical expenses relate to a compensable injury/illness for which the insurer/compensation agency is disputing liability, then Medicare benefits are payable until the liability is accepted);
- (c) are for a medical examination for the purposes of life insurance, superannuation, a provident account scheme, or admission to membership of a friendly society; or
- (d) are incurred in mass immunisation.

Unless the Minister otherwise directs, Medicare benefits are not payable where:

- (a) the service is rendered by or on behalf of, or under an arrangement with the Australian Government, a State or Territory, a local government body or an authority established under Commonwealth, State or Territory law;

- (b) the medical expenses are incurred by the employer of the person to whom the service is rendered;
- (c) the person to whom the service is rendered is employed in an industrial undertaking and that service is rendered for the purposes related to the operation of the undertaking; or
- (d) the services is a health screening service.

Benefits are not payable for items 75150 to 75621 unless the patient was referred by letter of Referral by an eligible orthodontist.

CN.0.3 Limiting Rule

In no circumstances will the benefit payable for a professional service exceed the fee charged for the service.

CN.0.4 Penalties

Penalties of up to \$10,000 or imprisonment for up to five years, or both, may be imposed on any person who makes a statement (oral or written) or who issues or presents a document that is false or misleading in a material particular and which is capable of being used with a claim for benefits. In addition, any practitioner who is found guilty of such offences by a court shall be subject to examination by a Medicare Participation Review Committee and may be counselled or reprimanded or may have services wholly or partially disqualified from the Medicare benefit arrangements.

A penalty of up to \$1,000 or imprisonment for up to three months, or both, may be imposed on any person who obtains a patient's signature on a direct-billing form without the obligatory details having been entered on the form before the person signs, or who fails to cause a patient to be given a copy of the completed form.

CN.0.5 Billing of the Patient

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the Health Insurance Act and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) A description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital or day-hospital facility (other than a Medicare hospital patient), that is, the words (ie, accommodation and nursing care) "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;
- (d) The name and practice address or name and provider number of the practitioner who actually rendered the service; (Where the practitioner has more than one practice location recorded with the Department of Human Services, the provider number used should be that which is applicable to the practice location at or from which the service was given).

A medical or dental practitioner must notate 'certified dental patient' on the patient's account or include 'certified dental patient' in the text field when submitting a Medicare claim for benefits.

Where a practitioner wishes to apportion the total fee between the appropriate professional fee for the particular service and any balance outstanding in respect of services rendered previously, the practitioner should ensure that the balance is described in such a way (eg balance of account) that it cannot be mistaken as being a separate service. In particular no item number should be shown against the balance.

Only one original itemised account should be issued in respect of any one medical service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

CN.0.6 Claiming of Benefits

Claiming Benefits

The patient, upon receipt of a practitioner's account, has three courses open for paying the account and receiving benefits as outlined below.

Paid Accounts

The patient may pay the account and subsequently present the receipt at a Medicare customer service centre for assessment and payment of the Medicare benefit in cash. In these circumstances, where a claimant personally attends a customer service centre, the claimant is not required to complete a Medicare Patient Claim Form (PC1).

In circumstances where the claimant is seeking a cheque payment of the Medicare benefit or is arranging for an agent to receive the Medicare benefit on the claimant's behalf, completion of a Medicare Patient Claim Form (PC1) is still required.

Unpaid and Partially Paid Accounts

Where the patient has not paid the account, the unpaid account may be presented to Medicare with a Medicare claim form. In this case Medicare will forward to the claimant a benefit cheque made payable to the practitioner.

It will be the patient's responsibility to forward the cheque to the practitioner and make arrangements for payment of the balance of the account if any. "Pay doctor" cheques involving Medicare benefits cannot be sent direct to practitioners or to patients at a practitioner's address (even if requested by the patient to do so). "Pay doctor" cheques will be forwarded to the claimant's last known address.

When issuing a receipt to a patient in respect of an account that is being paid wholly or in part by a Medicare "pay doctor" cheque the practitioner should indicate on the receipt that a "Medicare" cheque for \$.....was involved in the payment of the account.

Assignment of Benefits (Direct-Billing) Arrangements

Under the Health Insurance Act the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need. If a practitioner direct-bills, the practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the Health Insurance Act.
- The practitioner must cause the particulars relating to the professional service to be set out on the assignment form before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form:

- the signature of the patient's parent, guardian or other responsible person (other than the doctor, doctor's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable; or

- In the absence of a "responsible person" the patient signature section should be left blank.

Where the signature space is either left blank or another person signs on the patient's behalf, the form **must** include:

- the notation "Patient unable to sign" and
- in the section headed 'Practitioner's Use', an explanation should be given as to why the patient was unable to sign (e.g. unconscious, injured hand etc.) and this note should be signed or initialled by the doctor. If in the opinion of the practitioner the reason is of such a "sensitive" nature that revealing it would constitute an unacceptable breach of patient confidentiality or unduly embarrass or distress the recipient of the patient's copy of the assignment of benefits form, a concessional reason "due to medical condition" to signify that such a situation exists may be substituted for the actual reason. However, this should not be used routinely and in most cases it is expected that the reason given will be more specific.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of **the Department of Human Services**. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

Under Medicare any eligible dental practitioner can accept assignment of benefit and direct-bill for any eligible person.

Use of Medicare Cards in Direct Billing

An eligible person who applies to enrol for Medicare benefits (using a Medicare Enrolment/Amendment Application) will be issued with a uniquely numbered Medicare card which shows the Medicare card number, the patient identification number (reference number), the applicant's first given name, initial of second given name, surname and an effective "valid to" date. These cards may be issued on an individual or family basis. Up to 5 persons may be listed on the one Medicare card, and up to 9 persons may be listed under the one Medicare card number.

The Medicare card plays an important part in direct billing as it can be used to imprint the patient details (including Medicare number) on the basic direct-billing forms. A special Medicare imprinter has been developed for this purpose and is available free of charge, on request, from Medicare.

The patient details can of course be entered on the direct-bill forms by hand, but the use of a card to imprint patient details assists practitioners and ensures accuracy of information. The latter is essential to ensure that the processing of a claim by Medicare is expedited.

The Medicare card number must be quoted on direct-bill forms. If the number is not available, then the assignment of benefit facility should not be used. To do so would incur a risk that the patient is not eligible and Medicare benefits not payable.

Where a patient presents without a Medicare card and indicates that he/she has been issued with a card but does not know the details, the practitioner may contact a Medicare telephone enquiry number to obtain the number.

Assignment of Benefit Forms

To meet varying requirements the following types of stationery are available from Medicare. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of the Department of Human Services.

(a) *Form DB2*. This form is used to assign benefits for services other than requested pathology. It is loose leaf for imprinting and comprises a throw away cover sheet (after imprinting), a Medicare copy, a Patient copy and a Practitioner copy.

(b) *Form DB4*. Is a continuous stationery version of Form DB2, and has been designed for use on most office accounting machines.

The Claim for Assigned Benefits (Form DB1N, DB1H)

Practitioners who accept assigned benefits must claim from Medicare using either Claim for Assigned Benefits form DB1N or DB1H. The DB1N form should be used where services are rendered to persons for treatment provided out of hospital or day hospital treatment. The DB1H form should be used where services are rendered to persons while hospital treatment is provided in a hospital or day hospital facility (other than public patients). Both forms have been designed to enable benefit for a claim to be directed to a practitioner other than the one who rendered the services. The facility is intended for use in situations such as where a short term locum is acting on behalf of the principal doctor and setting the locum up with a provider number and pay-group link for the principal doctor's practice is impractical. Practitioners should note that this facility cannot be used to generate payments to or through a person who does not have a provider number.

The DB1N and DB1H are also loose leaf to enable imprinting of practitioner details using the special Medicare imprinter. For this purpose, practitioner cards, showing the practitioner's name, practice address and provider numbers are available from Medicare on request.

Direct-Bill Stationery

Medical practitioners and eligible dental practitioners wishing to direct-bill may obtain information on direct-bill stationery by telephoning **132150**. Information on the completion of the forms and direct-bill procedures are provided with the forms. Information on direct-billing is available from any Medicare office.

Time Limits Applicable to Lodgement of Claims for Assigned Benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (eg hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

CN.0.7 Interpretation of the Cleft Lip and Cleft Palate Scheme

The prescribed services in this section have been grouped according to the general nature of the services: orthodontic, oral surgical and general and prosthodontic.

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

CN.0.8 Multiple Operation Rule

The Schedule fee for two or more operations performed on a patient on the one occasion is calculated by the following rule:-

· 100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

- NOTE:**
1. Fees so calculated which result in a sum which is not a multiple of 5 cents are taken to the next higher multiple of 5 cents.
 2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
 3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this

case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes items 75200- 75615.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

CN.0.9 Administration of Anaesthetics

When a medical practitioner administers an anaesthetic in connection with a dental procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an eligible dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

To ascertain the Schedule fee for the anaesthetic, medical practitioners should refer to Group T10 - Relative Value Guide for Anaesthesia - of the Medicare Benefits Schedule Book.

CN.0.10 Definitions

Orthodontic treatment planning

Orthodontic treatment planning is defined as the measurement and analysis of the face and jaws and occlusion providing a diagnosis and planned prescription of appliances and treatment required.

Study models

Study models are defined as orthodontic plaster casts of the upper and lower teeth and alveolar processes.

CN.0.11 Referral of Oral and Maxillofacial Surgical Services - (Items 75150 to 75621)

Benefits are payable for items 75150 to 75621 only where the service has been rendered to a patient who has been referred by letter of Referral by an eligible orthodontist.

Item 75621 may be claimed in association with items 45720 to 45754 where the service is performed by a practitioner holding a FRACDS (OMS) qualification with access to Category 3 of the MBS.

CN.0.12 General and Prosthodontic Services - (Item 75800)

Item number 75800 refers to a consultation by a dentist for prevention and prophylaxis and includes such services as dietary advice, oral hygiene and fluoride treatment.

CN.0.13 Over-servicing

Over-servicing must be avoided. In the case of denture services, examples of over-servicing might be:-

- Unjustifiably frequent replacement of dentures;
- Provision of new dentures when relining or re-modelling of an existing prosthesis would meet the clinical need;
- Provision of metal dentures where an acrylic denture would meet the clinical need.

The Schedule includes an item for metal dentures to allow for the provision of a precise, long-term prosthesis. The item is not intended for use during the period of growth, where prostheses must be replaced or altered frequently, unless there is some definite and extraordinary clinical requirement.

CN.1.1 Introduction - Medicare Benefits

The Medicare Benefits Schedule includes certain professional services in respect of the treatment of cleft lip and cleft palate conditions for which Medicare benefits are payable. These services are normally described as dental services. However, for the purposes of these Notes the word "medical" is to be interpreted to include "dental". The definition of professional service as contained in the Health Insurance Act provides that such a service must be "clinically relevant". A clinically relevant service means a service rendered by a medical or dental practitioner or optometrist that is generally accepted in the medical, dental or optometrical profession (as the case may be) as being necessary for the appropriate treatment of the patient to whom it is rendered.

Medicare benefits are payable in respect of services listed in the Schedule, when the services are rendered by eligible dental practitioners to prescribed dental patients.

The Schedule lists three categories of professional services:

- (Group C1) Orthodontic Services
- (Group C2) Oral and Maxillofacial Surgical Services
- (Group C3) General and Prosthodontic Services

CN.2.1 Dental Practitioner Eligibility

In order to attract Medicare benefits, all treatment must be carried out by eligible dental practitioners who are resident in Australia.

All registered dental practitioners are entitled to perform simple extraction services covered by Items 75200-75206 listed in Group C2 of the Schedule and the general and prosthodontic services listed in Group C3 of the Schedule.

Dental practitioners who wish to perform those orthodontic services listed in Group C1 of the Schedule must be registered in the specialty of orthodontics.

Dental practitioners who were previously accredited to provide Cleft Lip and Cleft Palate services who do not meet the registration requirements as a dental specialist will be grandfathered under legislative arrangements that came into force on 1 November 2012.

Oral and maxillofacial services listed in Group C2 may be performed by:

- Medical practitioners who are specialists in the practice of their specialty of oral and maxillofacial surgery; and
- Dental practitioners who were approved by the Minister prior to 1 November 2004 for the purposes of Subsection 3 (1) of the Act to carry out prescribed medical services (oral and maxillofacial surgery) contained in the Medicare Benefits Schedule.
- Following a referral from an eligible orthodontist.

CN.3.1 Patient Eligibility

To be eligible to claim benefits for Schedule services performed by eligible dental practitioners, a patient must satisfy the following criteria:

- a. The patient must be an Australian resident or any other person or class of persons whom the Minister declares to be eligible. All eligible persons will be issued with a Medicare card on application as evidence of their eligibility.
- b. Under the provisions of Section 3BA of the Health Insurance Act a patient must be a prescribed dental patient, ie
 - a person aged up to 22 years, in respect of whom, has been certified as a prescribed dental patient by a medical practitioner or dental practitioner approved by the Minister, that the person is suffering from a cleft lip or cleft palate condition*;
 - a person aged up to 28 years, in respect of whom, prior to turning 22 years,
 - has been certified as a prescribed dental patient by a medical practitioner or dental practitioner approved by the Minister, that the person is suffering from a cleft lip or cleft palate condition*, and
 - that person commenced treatment for a cleft lip or cleft palate condition;
 - a person aged 28 and over requiring a specific course of treatment for the repair of previous reconstructive surgery, provided that:
 - prior to turning 22 years, in respect of whom, has been certified as a prescribed dental patient by a medical practitioner or dental practitioner approved by the Minister, that the person is suffering from a cleft lip or cleft palate condition*, and
 - the person received treatment for a cleft lip or cleft palate condition prior to turning 28 years, and
 - if the Minister has declared in writing that he or she is satisfied that:
 - i. because of exceptional circumstances, the person required repair of previous reconstructive surgery in connection with the condition, and
 - ii. the person therefore needs to undergo that course of treatment; and
 - a person aged up to 22 years who has been certified as a prescribed dental patient by a medical practitioner or dental practitioner approved by the Minister, that the person is suffering from a condition determined by the Minister to be a condition to which the definition of a prescribed dental patient under Section 3BA of the Act applies.

In consultation with the professions, the Department of Health has completed a review of the conditions described as 'other' underpinning the Cleft Lip and Cleft Palate Scheme. A Ministerial Determination is now in place for these 'other' conditions, enabling the payment of Medicare benefits for the conditions listed below:

1. Oral and/or facial clefting	
<i>Limited to</i>	Cleft lip, alveolus and/or palate
	Tessier facial cleft
2. Congenital or hereditary craniofacial malformation, deformation or disruption	
<i>Limited to</i>	Achondroplasia
	Branchial arch disorders including: Hemifacial/craniofacial microsomia, Goldenhar syndrome, DiGeorge syndrome, Velocardiofacial syndrome
	CHARGE syndrome
	Congenital hemifacial hyperplasia
	Congenital lymphatic and/or vascular malformations of the head & neck, cystic hygroma, Sturge-Weber syndrome, excluding haemangiomas, birth marks and naevi.
	Craniofacial Neurofibromatosis Type 1
	Cranio-metaphyseal dysplasia
	Ectodermal dysplasia
	Hemifacial atrophy (Parry Romberg syndrome)

	Mandibulofacial dysostosis (Treacher Collins syndrome)
	Maxillonasal dysplasia (Binder syndrome)
	Oral-facial digital syndrome Type 1
	Pierre Robin sequence
	Rubinstein-Taybi syndrome
	Sphrintzen-Goldberg syndrome
	Solitary median maxillary central incisor syndrome
	Stickler syndrome
	Syndromic craniosynostoses including: Apert, Crouzon, Pfeiffer, Saethre Chotzen, and Muenke syndromes
	Trichorhinophalangeal syndrome Type 1
3. Hereditary conditions presenting with the absence of 6 (six) or more permanent teeth, excluding 3rd molars	
4. Hereditary conditions where the presence of supernumerary teeth is a major feature	
5. Hereditary conditions affecting the formation of enamel and/or dentine of all teeth	
<i>Limited to</i>	Amelogenesis imperfecta
	Dentinogenesis imperfecta
	Regional odontodysplasia

*Note: The above conditions have been listed in the terminology that they are generally known under. Some conditions are similar to, or otherwise known as, other conditions on the list.

Please contact the Department of Human Services on 132 150 if the condition is not listed here.

Application for special consideration of a condition not listed above:

Applications for special consideration of a condition not approved by the Minister should include the following:

- a clinical report from the treating professional, describing the nature of the condition and an outline of the treatment to be undertaken;
- a treatment plan devised by the treating professional, including:
 - an indicative time period for which the patient requires treatment
 - date/s the treatment is expected to commence and
 - date/s the treatment is expected to be completed.
- Imaging reports should also be provided, where available.

This information can be forwarded to the Department of Human Services (DHS) for special consideration of a condition by the Department of Health.

CN.3.2 Application for approval for repairs to previous reconstructive work

Applicants aged 28 and over seeking approval for repairs to previous reconstructive work under the Cleft Lip and Cleft Palate Scheme will be required to provide clinical details outlining the need for the repair of previous reconstructive surgery.

NOTE: *Patients aged over 28 years of age are not eligible to receive Medicare payments for treatment until approval from the Minister's delegate has been obtained.*

Applications should include the following:

- proof that the patient has been certified as a prescribed dental patient;
- a treatment plan devised by the treating professional, for the repair of the reconstructive surgery to be performed, including:
 - o an indicative time period for which patient eligibility for claiming related treatments should be reinstated
 - o date/s the treatment is expected to commence and
 - o date/s the treatment is expected to be completed.
- proof of previous eligibility and treatment under the Cleft Lip and Cleft Palate Scheme. This should take the form of a letter from the treating practitioner, which lists the patient details as follows:
 - o full name
 - o date of birth
 - o address
 - o condition
 - o date (or approximate) of original surgery
- a clinical report from the treating professional, describing the nature of the repair, information detailing the previous reconstructive surgery provided and an outline of the work to be undertaken.

This information will be forwarded to the Department of Human Services (DHS) for confirmation of eligibility.

Further information about the Scheme is available on the DHS' website at:

<http://www.humanservices.gov.au/customer/services/medicare/cleft-lip-and-cleft-palate-scheme>

Assessment of Applications

Assessment will take into account the information provided by the applicant and consider the circumstances surrounding each individual application. In the assessment, "previous reconstructive surgery" means surgery undertaken to repair structural defects in connection with a cleft lip or cleft palate condition. Repairs to this surgery must be in relation to the failure or deterioration of this surgery and due to that failure or deterioration, the patient requires further surgical intervention to restore optimal function.

Repair to previous reconstructive surgery may involve items in both the main Medicare Benefits Schedule, and items in the Cleft Lip and Cleft Palate Schedule. Under Section 3BA (2A), upon gaining the Minister's approval, applicants will have full access to items in the Cleft Lip and Cleft Palate Schedule that are necessary for the restoration of optimal function (provided the items are rendered by suitably qualified / approved practitioners).

Patients are eligible for Medicare benefits for treatment under the scheme once they are certified by a medical or dental practitioner as a prescribed dental patient.

CN.3.3 Visitors to Australia

Medicare benefits for the Cleft Lip and Cleft Palate Scheme are generally not payable to visitors to Australia or temporary residents.

CN.3.4 Health Care Expenses Incurred Overseas

Medicare does not cover medical or hospital expenses incurred outside Australia.

CLEFT LIP AND CLEFT PALATE SERVICES ITEMS

C1. ORTHODONTIC SERVICES	
	Group C1. Orthodontic Services
	<p><i>Note: In this Group, benefit is only payable where the service has been rendered to a patient by a dental practitioner who is registered in the specialty of orthodontics, except for the services covered by Items 75009-75023 which may also be rendered by a medical practitioner who is a specialist in the practice of his or her specialty of oral and maxillofacial surgery.</i></p> <p style="text-align: center;">CONSULTATIONS</p> <p>INITIAL PROFESSIONAL ATTENDANCE in a single course of treatment by an eligible orthodontist (AO)</p>
75001	Fee: \$88.20 Benefit: 75% = \$66.15 85% = \$75.00
	PROFESSIONAL ATTENDANCE by an eligible orthodontist subsequent to the first professional attendance by the orthodontist in a single course of treatment (AO)
75004	Fee: \$44.35 Benefit: 75% = \$33.30 85% = \$37.70
	<p>PRODUCTION OF DENTAL STUDY MODELS (not being a service associated with a service to which item 75004 applies) prior to provision of a service to which:</p> <p>(a) item 75030, 75033, 75034, 75036, 75037, 75039, 75045 or 75051 applies; or</p> <p>(b) an item in Group T8 or Groups 03 to 09 applies;</p> <p>in a single course of treatment</p>
75006	Fee: \$78.60 Benefit: 75% = \$58.95 85% = \$66.85
	RADIOGRAPHY
	ORTHODONTIC RADIOGRAPHY orthopantomography (panoramic radiography), including any consultation on the same occasion
75009	Fee: \$70.30 Benefit: 75% = \$52.75 85% = \$59.80
	ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR CEPHALOMETRIC RADIOGRAPHY with cephalometric tracings OR LATERAL CEPHALOMETRIC RADIOGRAPHY with cephalometric tracings including any consultation on the same occasion
75012	Fee: \$111.45 Benefit: 75% = \$83.60 85% = \$94.75
	ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR AND LATERAL CEPHALOMETRIC RADIOGRAPHY, with cephalometric tracings including any consultation on the same occasion
75015	Fee: \$153.20 Benefit: 75% = \$114.90 85% = \$130.25
75018	ORTHODONTIC RADIOGRAPHY ANTEROPOSTERIOR AND LATERAL CEPHALOMETRIC RADIOGRAPHY, with cephalometric tracings and orthopantomography including any consultation on

C1. ORTHODONTIC SERVICES	
	the same occasion Fee: \$195.20 Benefit: 75% = \$146.40 85% = \$165.95
75021	ORTHODONTIC RADIOGRAPHY hand-wrist studies (including growth prediction) including any consultation on the same occasion Fee: \$239.30 Benefit: 75% = \$179.50 85% = \$203.45
75023	INTRAORAL RADIOGRAPHY - single area, periapical or bitewing film Fee: \$47.90 Benefit: 75% = \$35.95 85% = \$40.75
	PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING
75024	PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING including supply of appliances and all adjustments of appliances and supervision - WHERE 1 APPLIANCE IS USED Fee: \$618.85 Benefit: 75% = \$464.15 85% = \$534.15
75027	PRESURGICAL INFANT MAXILLARY ARCH REPOSITIONING including supply of appliances and all adjustments of appliances and supervision WHERE 2 APPLIANCES ARE USED Fee: \$848.60 Benefit: 75% = \$636.45 85% = \$763.90
	DENTITION TREATMENT
75030	MAXILLARY ARCH EXPANSION not being a service associated with a service to which item 75039, 75042, 75045 or 75048 applies, including supply of appliances, all adjustments of the appliances, removal of the appliances and retention Fee: \$755.55 Benefit: 75% = \$566.70 85% = \$670.85
75033	MIXED DENTITION TREATMENT - incisor alignment using fixed appliances in maxillary arch, including supply of appliances, all adjustments of appliances, removal of the appliances and retention Fee: \$1,238.45 Benefit: 75% = \$928.85 85% = \$1153.75
75034	MIXED DENTITION TREATMENT - incisor alignment with or without lateral arch expansion using a removable appliance in the maxillary arch, including supply of appliances, associated adjustments and retention Fee: \$630.35 Benefit: 75% = \$472.80 85% = \$545.65
75036	MIXED DENTITION TREATMENT - lateral arch expansion and incisor alignment using fixed appliances in maxillary arch, including supply of appliances, all adjustments of appliances, removal of appliances and retention Fee: \$1,710.60 Benefit: 75% = \$1282.95 85% = \$1625.90
75037	MIXED DENTITION TREATMENT - lateral arch expansion and incisor correction - 2 arch (maxillary and mandibular) using fixed appliances in both maxillary and mandibular arches, including supply of appliances, all adjustments of appliances, removal of appliances and retention Fee: \$2,154.45 Benefit: 75% = \$1615.85 85% = \$2069.75
75039	PERMANENT DENTITION TREATMENT SINGLE ARCH (mandibular or maxillary) TREATMENT

C1. ORTHODONTIC SERVICES	
	(correction and alignment) using fixed appliances, including supply of appliances - initial 3 months of active treatment Fee: \$572.60 Benefit: 75% = \$429.45 85% = \$487.90
75042	PERMANENT DENTITION TREATMENT - SINGLE ARCH (mandibular or maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - each 3 months of active treatment (including all adjustments and maintenance and removal of the appliances) after the first for a maximum of a further 33 months Fee: \$214.00 Benefit: 75% = \$160.50 85% = \$181.90
75045	PERMANENT DENTITION TREATMENT 2 ARCH (mandibular and maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - initial 3 months of active treatment Fee: \$1,146.30 Benefit: 75% = \$859.75 85% = \$1061.60
75048	PERMANENT DENTITION TREATMENT - 2 ARCH (mandibular and maxillary) TREATMENT (correction and alignment) using fixed appliances, including supply of appliances - each subsequent 3 months of active treatment (including all adjustments and maintenance, and removal of the appliances) after the first for a maximum of a further 33 months Fee: \$293.95 Benefit: 75% = \$220.50 85% = \$249.90
75049	RETENTION, FIXED OR REMOVABLE, single arch (mandibular or maxillary) - supply of retainer and supervision of retention Fee: \$344.05 Benefit: 75% = \$258.05 85% = \$292.45
75050	RETENTION, FIXED OR REMOVABLE, 2-arch (mandibular and maxillary) - supply of retainers and supervision of retention Fee: \$664.15 Benefit: 75% = \$498.15 85% = \$579.45
	JAW GROWTH GUIDANCE
75051	JAW GROWTH guidance using removable or functional appliances, including supply of appliances and all adjustments to appliances Fee: \$1,019.50 Benefit: 75% = \$764.65 85% = \$934.80
C2. ORAL AND MAXILLOFACIAL SERVICES	
	Group C2. Oral And Maxillofacial Services
	<i>Note: (i) In this Group, benefit is only payable where the service has been rendered to a patient who has been referred by an eligible orthodontist.</i> <i>(ii) While benefit is payable for simple extractions performed by a registered dental practitioner, benefit is only payable for surgical extractions and other surgical procedures where the service is rendered by a medical practitioner who is a specialist in the practice of his or her speciality of oral and maxillofacial surgery.</i>
75150	CONSULTATIONS

C2. ORAL AND MAXILLOFACIAL SERVICES	
	<p>INITIAL PROFESSIONAL attendance in a single course of treatment by an eligible oral and maxillofacial surgeon where the patient is referred to the surgeon by an eligible orthodontist (AOS)</p> <p>Fee: \$88.20 Benefit: 75% = \$66.15 85% = \$75.00</p>
75153	<p>PROFESSIONAL ATTENDANCE by an eligible oral and maxillofacial surgeon subsequent to the first professional attendance by the surgeon in a single course of treatment where the patient is referred to the surgeon by an eligible orthodontist</p> <p>Fee: \$44.35 Benefit: 75% = \$33.30 85% = \$37.70</p>
75156	<p>PRODUCTION OF DENTAL STUDY MODELS (not being a service associated with a service to which item 75153 applies) prior to provision of a service:</p> <p>(a) to which item 52321, 53212 or 75618 applies; or</p> <p>(b) to which an item in the series 52330 to 52382, 52600 to 52630, 53400 to 53409 or 53415 to 53429 applies;</p> <p>in a single course of treatment if the patient is referred by an eligible orthodontist (AOS)</p> <p>Fee: \$78.60 Benefit: 75% = \$58.95 85% = \$66.85</p>
	<p>SIMPLE EXTRACTIONS</p>
75200	<p>Removal of tooth or tooth fragment (other than treatment to which item 75400, 75403, 75406, 75409, 75412 or 75415 applies), if the patient is referred by an eligible orthodontist (AD)</p> <p>Fee: \$56.65 Benefit: 75% = \$42.50 85% = \$48.20</p>
75203	<p>REMOVAL OF TOOTH OR TOOTH FRAGMENT under general anaesthesia, if the patient is referred by an eligible orthodontist (AD)</p> <p>Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25</p>
75206	<p>Removal of each additional tooth or tooth fragment at the same attendance at which a service to which item 75200 or 75203 applies is rendered, if the patient is referred by an eligible orthodontist (AD)</p> <p>Fee: \$28.20 Benefit: 75% = \$21.15 85% = \$24.00</p>
	<p>SURGICAL EXTRACTIONS</p>
75400	<p>Surgical removal of erupted tooth, if the patient is referred by an eligible orthodontist (AOS)</p> <p>Fee: \$169.90 Benefit: 75% = \$127.45 85% = \$144.45</p>
75403	<p>Surgical removal of tooth with soft tissue impaction, if the patient is referred by an eligible orthodontist (AOS)</p> <p>Fee: \$195.20 Benefit: 75% = \$146.40 85% = \$165.95</p>
75406	<p>Surgical removal of tooth with partial bone impaction, if the patient is referred by an eligible orthodontist (AOS)</p>

C2. ORAL AND MAXILLOFACIAL SERVICES	
	Fee: \$222.40 Benefit: 75% = \$166.80 85% = \$189.05
75409	Surgical removal of tooth with complete bone impaction, if the patient is referred by an eligible orthodontist (AOS) Fee: \$251.85 Benefit: 75% = \$188.90 85% = \$214.10
75412	Surgical removal of tooth fragment requiring incision of soft tissue only, if the patient is referred by an eligible orthodontist (AOS) Fee: \$140.70 Benefit: 75% = \$105.55 85% = \$119.60
75415	Surgical removal of tooth fragment requiring removal of bone, if the patient is referred by an eligible orthodontist (AOS) Fee: \$169.90 Benefit: 75% = \$127.45 85% = \$144.45
	OTHER SURGICAL PROCEDURES
75600	Surgical exposure, stimulation and packing of unerupted tooth, if the patient is referred by an eligible orthodontist (AOS) Fee: \$239.30 Benefit: 75% = \$179.50 85% = \$203.45
75603	Surgical exposure of unerupted tooth for the purpose of fitting a traction device, if the patient is referred by an eligible orthodontist (AOS) Fee: \$281.25 Benefit: 75% = \$210.95 85% = \$239.10
75606	Surgical repositioning of unerupted tooth, if the patient is referred by an eligible orthodontist (AOS) Fee: \$281.25 Benefit: 75% = \$210.95 85% = \$239.10
75609	Transplantation of tooth bud, if the patient is referred by an eligible orthodontist (AOS) Fee: \$419.85 Benefit: 75% = \$314.90 85% = \$356.90
75612	Surgical procedure for intra oral implantation of osseointegrated fixture (first stage), if the patient is referred by an eligible orthodontist (AOS) Fee: \$519.60 Benefit: 75% = \$389.70 85% = \$441.70
75615	Surgical procedure for fixation of trans mucosal abutment (second stage of osseointegrated implant), if the patient is referred by an eligible orthodontist (AOS) Fee: \$192.35 Benefit: 75% = \$144.30 85% = \$163.50
75618	Provision and fitting of a bite rising appliance or dental splint for the management of temporomandibular joint dysfunction syndrome, if the patient is referred by an eligible orthodontist (AOS) Fee: \$238.85 Benefit: 75% = \$179.15 85% = \$203.05
75621	The provision and fitting of surgical template in conjunction with orthognathic surgical procedures in association with: (a) an item in the series: (i) 45720 to 45754; or

C2. ORAL AND MAXILLOFACIAL SERVICES	
	(ii) 52342 to 52375; or (b) item 52380 or 52382; if the patient is referred by an eligible orthodontist (AOS) Fee: \$238.85 Benefit: 75% = \$179.15 85% = \$203.05
C3. GENERAL AND PROSTHODONTIC SERVICES	
	Group C3. General And Prosthodontic Services
	<i>Note: Benefit is payable for services listed in this Group where they are rendered by a registered dental practitioner</i> <p style="text-align: center;">CONSULTATIONS</p> <p>ATTENDANCE BY AN ELIGIBLE DENTAL PRACTITIONER involving consultation, preventive treatment and prophylaxis, of not less than 30 minutes' duration each attendance to a maximum of 3 attendances in any period of 12 months</p> <p>(See para CN.0.12 of explanatory notes to this Category)</p>
75800	Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25
	PROSTHODONTIC
	PROVISION AND FITTING OF ACRYLIC BASE PARTIAL DENTURE, including retainers 1 TOOTH
75803	Fee: \$340.10 Benefit: 75% = \$255.10 85% = \$289.10
	PROVISION AND FITTING OF ACRYLIC BASE PARTIAL DENTURE, including retainers 2 TEETH

CATEGORY 8: MISCELLANEOUS SERVICES

SUMMARY OF CHANGES FROM 21/07/2020

The 21/07/2020 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

(a) new item	New
(b) amended description	Amend
(c) fee amended	Fee
(d) item number changed	Renum
(e) EMSN changed	EMSN

There are no changes to this Category for 21/07/2020

MISCELLANEOUS SERVICES NOTES

MN.1.1 Additional Bulk Billing Payment for General Medical Services - (Items 10990 and 10991)

Item 10990 can only be claimed where all of the conditions set out in paragraphs (a) to (d) of item 10990 have been met.

Item 10991 can only be claimed where all of the conditions set out in paragraphs (a) to (e) of item 10991 have been met:

- Item 10991 can only be used where the service is provided at, or from, a practice location that is in a regional, rural or remote area (MMM 2 to 7 areas under the Modified Monash Model classification system). A locator map that can be used to identify a medical practice's MMM classification is available at the DoctorConnect website at <http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator>.

Practice location is the place associated with the medical practitioner's provider number from which the service has been provided. This includes services performed either at the medical practitioner's surgery, or those services performed away from the surgery using the provider number for that surgery (eg home visits or visits to aged care facilities).

Where a medical practitioner has a practice location in both an eligible and ineligible area, item 10991 can only be claimed in respect of those services provided at, or from, the eligible practice location.

Item 10990 and item 10991 can only be used in conjunction with items in the General Medical Services Table of the MBS. There are similar items to be used in conjunction with diagnostic imaging services (item 64990 or 64991) or pathology services (item 74990 or 74991).

Item 10990 or item 10991 can be claimed for each item of service claimable under the MBS (other than diagnostic imaging services and pathology services), provided the conditions of the relevant item, 10990 or 10991, are satisfied. For example, item 10990 or 10991 can be claimed in conjunction with attendance items, procedural items (other than diagnostic imaging or pathology items) or services provided by a practice nurse on behalf of a medical practitioner (items 10983, 10984, 10987 and 10997). In some cases, this will mean that item 10990 or 10991 can be claimed more than once in respect of a patient visit.

Item 10990 or 10991 cannot be claimed in conjunction with each other.

Where a Medicare benefit is not payable for a particular service (eg because the patient has exceeded the number of allowable services in a period of time), the additional bulk billing payment will not be paid for that service.

All GPs whether vocationally registered or not are eligible to claim the additional bulk billing payment.

Commonwealth concession card holder means a person listed on a Pensioner Concession Card, Health Care Card or Commonwealth Seniors Health Card issued by either Centrelink or the Department of Veterans' Affairs. Gold or White Cards issued by the Department of Veterans' Affairs do not attract the additional bulk billing payment. However, if a Gold or White Card holder also holds a recognised Commonwealth concession card and chooses to be treated under the Medicare arrangements, then that patient is an eligible concession card holder.

Unreferred service means a medical service provided to a patient by, or on behalf of, a medical practitioner, being a service that has not been referred to that practitioner by another medical practitioner or person with referring rights.

The Department of Health will undertake regular post payment auditing to ensure that the additional bulk billing payment is being claimed correctly.

MN.1.2 After-hours services provided in areas eligible for the higher bulk billing payment - (Item 10992)

Item 10992 can only be claimed where all of the conditions set out in paragraphs (a) to (g) of item 10992 have been met:

- Item 10992 must be claimed in conjunction with one of the items 585, 588, 591, 594, 599, 600, 761, 763, 766, 769, 772, 776, 788, 789, 5003, 5010, 5023, 5028, 5043, 5049, 5063, 5067, 5220, 5223, 5227, 5228, 5260, 5263 5265, or 5267. These items are for services provided after-hours outside of consulting rooms or hospital.
- Item 10992 can only be used where the service is provided in one of the designated areas listed in item 10992, by a medical practitioner whose practice location (i.e. the location associated with the medical practitioner's provider number) is not in one of these areas.
- This includes all regional, rural and remote areas (RRMA 3 to 7 under the Rural Remote Metropolitan Areas classification system), all of Tasmania and those areas covered by a Statistical Subdivision (SSD) or Statistical Local Areas (SLA) listed in item 10992. SSDs and SLAs are specified in the Australian Standard Geographical Classification (ASGC) 2002. A locator map that can be used to identify a specific location's RRMA and ASGC classification is available at the DoctorConnect website at <http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/locator>.

Medical practitioners whose practice location is inside one of the designated locations should claim item 10991 for eligible services.

Item 10992 cannot be claimed in conjunction with item 10990 or 10991.

Where a Medicare benefit is not payable for a particular service the payment for item 10992 will not be paid for that service.

All GPs, whether vocationally recognised or not, are eligible to claim the additional bulk billing payment.

Commonwealth concession card holder means a person listed on a Pensioner Concession Card, Health Care Card or Commonwealth Seniors Health Card issued by either Centrelink or the Department of Veterans' Affairs. Gold or White Cards issued by the Department of Veterans' Affairs do not attract the additional bulk billing payment. However, if a Gold or White Card holder also holds a recognised Commonwealth concession card and chooses to be treated under the Medicare arrangements, then that patient is an eligible concession card holder.

Unreferred service means a medical service provided to a patient by, or on behalf of, a medical practitioner, being a service that has not been referred to that practitioner by another medical practitioner or person with referring rights.

The Department of Health will undertake regular post payment auditing to ensure that the additional bulk billing payment is being claimed correctly.

MN.3.1 Individual Allied Health Services (Items 10950 to 10970) for Chronic Disease Management - Eligible Patients

ELIGIBLE PATIENTS

Medicare benefits are available for certain services provided by eligible allied health professionals to people with chronic conditions and complex care needs who are being managed by a GP or medical practitioner using certain Chronic Disease Management (CDM) Medicare items or are enrolled in a Health Care Home. The allied health services must be recommended in the patient's plan as part of the management of their chronic condition.

Chronic medical conditions and complex care needs

A chronic medical condition is one that has been or is likely to be present for at least six months, e.g. asthma, cancer, cardiovascular illness, diabetes mellitus, musculoskeletal conditions and stroke. A patient is considered to have complex care needs if they require ongoing care from a multidisciplinary team consisting of their GP or medical practitioner and at least two other health or care providers.

Prerequisite CDM services

Patients must have received the following MBS CDM services:

- GP Management Plan - MBS GP item 721 or medical practitioner item 229 (or GP review item 732 or medical practitioner review item 233 for a review of a GPMP); and
- Team Care Arrangements - MBS GP item 723 or medical practitioner item 230 (or GP review items 732 or medical practitioner review item 233 for a review of TCAs)

Alternatively, for patients who are permanent residents of an aged care facility, their GP or medical practitioner must have contributed to, or contributed to a review of, a multidisciplinary care plan prepared for them by the aged care facility (MBS GP item 731 or medical practitioner item 232).

Alternatively, for patients who are enrolled with a Health Care Home, a shared care plan must have been prepared by the medical practitioner who is leading the patient's care.

For more information on the CDM planning items, refer to the explanatory notes for these items.

Allied health membership of a TCAs team

The allied health professional providing the service may be a member of the TCAs team convened by the GP or medical practitioner to manage a patient's chronic condition and complex care needs. However, the service may also be provided by an allied health professional who is not a member of the TCAs team, provided that the service has been identified as necessary by the patient's GP or medical practitioner and recommended in the patient's care plan/s.

Group services

In addition to individual services, patients who have type 2 diabetes may also access MBS items 81100 to 81125 which provide group allied health services. Patients only need to have MBS GP items 721 or 723 or medical practitioner items 229 or 230 or a Health Care Home shared care plan in place to be eligible for the group services.

MN.3.2 Individual Allied Health Services (Items 10950 to 10970) for Chronic Disease Management - Referral Requirements

Referral form

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP or medical practitioner using a referral form that has been issued by the Australian Government Department of Health or a form that contains all the components of this form.

The form issued by the department is available at www.health.gov.au/mbsprimarycareitems (click on the link for allied health individual services).

GPs and medical practitioners are encouraged to attach a copy of the relevant part of the patient's care plan to the referral form.

GPs and medical practitioners may use one referral form to refer patients for single or multiple services of the same service type (e.g. five chiropractic services). If referring a patient for single or multiple services of different service types (e.g. two dietetic services and three podiatry services), a separate referral form will be needed for each service type.

The patient will need to present the referral form to the allied health professional at the first consultation, unless the GP or medical practitioner has previously provided it directly to the allied health professional.

It is required that allied health professionals retain the referral form for 2 years from the date the service was rendered (for the Department of Human Services auditing purposes).

A copy of the referral form is not required to accompany Medicare claims, and allied health professionals do not need to attach a signed copy of the form to patients' itemised accounts/receipts or assignment of benefit forms.

Completed forms do not have to be sent to the Department of Health.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment. A Health Care Home Shared care plan must be kept for 2 years after the date it was created.

Referral validity

Medicare benefits are available for up to five allied health services per patient per calendar year. Where a patient receives more than the limit of five services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If a patient has not used all of their allied health services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of five services for which the patient is eligible in that calendar year.

When patients have used all of their referred services, or require a referral for a different type of allied health service recommended in their CDM plan/s or Health Care Home shared care plan, they will need to obtain a new referral from their GP or medical practitioner. GPs and medical practitioners may choose to use this visit to undertake a review of the patient's CDM plan/s or, where appropriate, to manage the process using a GP/medical practitioner consultation item.

It is not necessary to have a new CDM plan/s prepared each calendar year in order to access a new referral/s for eligible allied health services. Patients continue to be eligible for rebates for allied health services while they are being managed under the prerequisite CDM items or Health Care Home shared care plan as long as the need for eligible services continues to be recommended in their plan. However, regular reviews using MBS GP item 732 or medical practitioner item 233 are encouraged.

MN.3.3 Individual Allied Health Services - (Items 10950 to 10970) for Chronic Disease Management - Eligible Providers and Services

Eligible allied health providers

The following allied health professionals are eligible to provide services under Medicare for patients with a chronic or terminal medical condition and complex care needs when they meet the provider eligibility requirements set out the next section and are registered with the Department of Human Services.

- Aboriginal and Torres Strait Islander health practitioners
- Aboriginal health workers
- Audiologists
- Chiropractors
- Diabetes educators

- Dietitians
- Exercise physiologists
- Mental health workers
- Occupational therapists
- Osteopaths
- Physiotherapists
- Podiatrists
- Psychologists
- Speech pathologists

Number of services per year

Medicare benefits are available for up to five allied health services per eligible patient, per calendar year. The five allied health services can be made up of one type of service (e.g. five physiotherapy services) or a combination of different types of services (e.g. one dietetic and four podiatry services). Five services per calendar year are the legal maximum per patient and exemptions to this are not possible.

Checking patient eligibility for allied health services

Patients seeking Medicare rebates for allied health services will need to have a valid referral form. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm the number of allied health services already claimed by the patient during the calendar year. The allied health professional or the patient can call the Department of Human Services to check this information (132 150 for provider enquiries; 132 011 for public enquiries).

Service length and type

Individual allied health services under Medicare for patients with a chronic medical condition and complex care needs (items 10950 to 10970) must be of at least 20 minutes duration and provided to an individual patient, not to a group. The allied health professional must personally attend the patient.

Reporting back to the Practitioner

Where an allied health professional provides a single service to the patient under a referral, they must provide a written report back to the referring GP or medical practitioner after each service.

Where an allied health professional provides multiple services to the same patient under the one referral, they must provide a written report back to the referring GP or medical practitioner after the first and last service only, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Out-of-pocket expenses and Medicare Safety Net

Allied health professionals can determine their own fees for the professional service. Charges in excess of the Medicare benefit are the responsibility of the patient. However, out-of-pocket costs will count toward the Medicare Safety Net for that patient. Allied health services in excess of five in a calendar year will not attract a Medicare benefit and the Safety Net arrangements will not apply to costs incurred by the patient for such services.

Publicly funded services

Items 10950 to 10970 do not apply for services that are provided by any Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 10950 to 10970 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.3.4 Individual Allied Health Services - (Items 10950 to 10970) for Chronic Disease Management - Professional Eligibility

The individual allied health items (10950 to 10970) can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, allied health professionals must meet the specific eligibility requirements detailed below.

Aboriginal and Torres Strait Islander health practitioners must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia. Aboriginal and Torres Strait Islander health practitioners may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioners; Aboriginal and Torres Strait Islander health practitioners; or Torres Strait Islander health practitioners.

Aboriginal health workers in a State or Territory other than the Northern Territory must have been awarded either:

- a. a Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care (or an equivalent or higher qualification) by a registered training organisation; or
- b. a Certificate III in Aboriginal and Torres Strait Islander Health (or an equivalent or higher qualification) by a registered training organisation before 1 July 2012.

Note: Where individuals consider their qualification to be equivalent to or higher than the qualifications listed above, they will need to contact a registered training organisation in their State or Territory to have the qualification assessed as such before they can register with the Department of Human Services. In the Northern Territory, a practitioner must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia.

Audiologists must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

Diabetes educators must be a Credentialed Diabetes Educator (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

Chiropractors must be registered with the Chiropractic Board of Australia.

Dietitians must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

Exercise physiologists must be an 'Accredited Exercise Physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

Mental health workers

'Mental health' can include services provided by members of five different allied health professional groups. 'Mental health workers' are drawn from the following:

- psychologists;
- mental health nurses;
- occupational therapists;
- social workers;
- Aboriginal and Torres Strait Islander health practitioners; and
- Aboriginal health workers.

Psychologists, occupational therapists, Aboriginal and Torres Strait Islander health practitioners and Aboriginal health workers are eligible in separate categories for these items.

Mental health nurses must be a credentialed mental health nurse, as certified by the Australian College of Mental Health Nurses.

Mental health nurses who were registered in the ACT or Tasmania prior to the introduction of the National Registration and Accreditation Scheme (NRAS) on 1 July 2010, will have until 31 December 2010 to be certified by the Australian College of Mental Health Nurses.

Social workers must be a 'Member' of the Australian Association of Social Workers (AASW) and be certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers' as in force on 8 November 2008.

Occupational therapists must be registered with the Occupational Therapy Board of Australia.

Osteopaths must be registered with the Osteopathy Board of Australia.

Physiotherapists must be registered with the Physiotherapy Board of Australia.

Podiatrists must be registered with the Podiatry Board of Australia.

Psychologists must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

Speech pathologists must be a 'Practising Member' of Speech Pathology Australia.

Registering with the Department of Human Services

Provider registration forms may be obtained from the [Department of Human Services](#) on 132 150 or at the Department of Human Services website.

Chiropractors, osteopaths, physiotherapists and podiatrists who were already registered with the Department of Human Services on 1 July 2004 to order diagnostic imaging under Medicare, do not need to re-register to provide services under this initiative. Allied health professionals registering with the Department of Human Services for the

first time only need to fill in one application form which will give them rights to provide services under this initiative and order diagnostic imaging tests etc., where appropriate, under Medicare.

Changes to provider details

Allied health providers must notify the Department of Human Services in writing of all changes to mailing details to ensure that they continue to receive information about Medicare rebateable allied health services.

The individual allied health items (10950 to 10970) can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, allied health professionals must meet the specific eligibility requirements detailed below.

MN.3.5 Individual Allied Health Services (10950 to 10970) for Chronic Disease Management - Further Information

Further information about Medicare Benefits Schedule items is available on the Department of Health's website at www.health.gov.au/mbsprimarycareitems

MN.6.1 Provision of Psychological Therapy Services by Clinical Psychologists - (Items 80000 TO 80021)

OVERVIEW

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy (items 80000 to 80021) - provided by eligible clinical psychologists; and
- focussed psychological strategies - allied mental health (items 80100 to 80171) - provided by eligible psychologists, occupational therapists and social workers.

MN.6.2 Psychological Therapy Services Attracting Medicare Rebates

Eligible psychological therapy services

There are eight MBS items for the provision of psychological therapy services to eligible patients by a clinical psychologist, including five items for face-to-face consultations and three items for video conference consultations. Clinical psychologists must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals and Referral Validity

Services provided under the Psychological Therapy items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282);
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291);
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals); or

- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a Health Care Home shared care plan.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

Number of services per year

Medicare rebates are available for up to 10 individual allied mental health services in a calendar year. The 10 services may consist of: GP/medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287); and/or psychological therapy services (items 80000 to 80015); and/or focussed psychological strategies - allied mental health services (items 80100 to 80115; 80125 to 80140; 80150 to 80165).

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and patient need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80020 (psychological therapy - clinical psychologist), 80021 (psychological therapy by video conference - clinical psychologist), 80120 (focussed psychological strategies - psychologist), 80121 (focussed psychological strategies by video conference - psychologist), 80145 (focussed psychological strategies - occupational therapist), 80146 (focussed psychological strategies by video conference - occupational therapist), 80170 (focussed psychological strategies - social worker) and 80171 (focussed psychological strategies by video conference - social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

In the instance where a patient has received the 10 psychological therapy services (items 80000 to 80021), focussed psychological services -allied mental health services (items 80100 to 80171) or GP/medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287) available under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

Service length and type

Services provided by eligible clinical psychologists under these items must be within the specified time period within the item descriptor. The clinical psychologist must personally attend the patient face-to-face, or by video conference for items 80001, 80011, 80021, 80101, 80111, 80121, 80126, 80136, 80146, 80151, 80161 and 80171.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

Course of treatment and reporting back to the referring medical practitioner

Patients are eligible to receive up to 10 individual services and up to 10 group sessions in a calendar year.

Within this maximum service allocation, the clinical psychologist can provide one or more courses of treatment. For the purposes of these services, a course of treatment consists of the number of services stated in the patient's referral (up to a maximum of six in any one referral). This enables the referring medical practitioner to consider a report from the clinical psychologist on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the clinical psychologist must provide a written report to the referring GP or medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring GP or medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

Out of pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out-of-hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Eligible patients

Items 80000 to 80021 (inclusive) apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), under a Health Care Home shared care plan, under a referred psychiatrist assessment and management plan (item 291), or on referral from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Checking patient eligibility for psychological therapy services

Patients seeking Medicare rebates for psychological therapy services will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm whether a GP Mental Health Treatment Plan; shared care plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Clinical psychologists can call the Department of Human Services on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the clinical psychologist should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Publicly funded services

Psychological therapy items 80000 to 80021 do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital. However, where an

exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the items apply for services that are provided by eligible clinical psychologists salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.6.3 Referral Requirements (GPs, Medical Practitioners, Psychiatrists or Paediatricians to Clinical Psychologists for Psychological Therapy)

Referrals

Patients must be referred for psychological therapy services by a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), or a referred psychiatrist assessment and management plan (item 291); on referral from a psychiatrist or a paediatrician; or a Health Care Home shared care plan.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible clinical psychologist signed and dated by the referring practitioner.

The clinical psychologist must be in receipt of the referral at the first allied mental health consultation. It is recommended that the clinical psychologist retain the referral for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

The Health Care Home shared care plan should also include a record of the patient's agreement to mental health services; an outline of assessment of the patient's mental disorder, including the mental health formulation and diagnosis or provisional diagnosis; and if appropriate, a plan for one or more of crisis intervention and relapse prevention.

Referral validity

Medicare benefits are available for up to 10 individual and/or 10 group psychological therapy services and/or focussed psychological strategies services per patient per calendar year.

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and the patient's clinical need) to a maximum of 10 services per calendar year. For the

purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

If a patient has not used all of their psychological therapy services and/or focussed psychological strategies services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of 10 services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan, Health Care Home shared care plan, and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

MN.6.4 Clinical Psychologist Professional Eligibility **Eligible clinical psychologists**

A person is an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. is endorsed by the Psychology Board of Australia to practice in clinical psychology.

Until 31 October 2015, a person was also an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. on 31 October 2015 was an allied health professional in relation to the provision of a psychological therapy health service because the person:
 - i. was a member of the College of Clinical Psychologists of the Australian Psychological Society; or
 - ii. had been assessed by the College of Clinical Psychologists of the Australian Psychological Society as meeting the requirements for membership of that College.

The clinical psychologist must be registered with the Department of Human Services.

Registering with the Department of Human Services

Advice about registering with the Department of Human Services to provide psychological therapy services using items 80000-80021 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at www.health.gov.au/mbsonline.

For providers, further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

MN.6.5 Telehealth Psychological Therapy Services

These notes provide information on the telehealth psychological therapy MBS video consultation items by clinical psychologists. A video consultation involves a single clinical psychologist attending a patient, or a group of 6 to 10 patients.

MBS item numbers 80001 and 80011 provide for attendance via videoconferencing by a clinical psychologist to an individual patient. MBS item number 80021 provide for attendance via videoconferencing by a clinical psychologist to a group of 6 to 10 patients. The items are stand-alone items and do not have a derived fee.

These therapies are time limited, being deliverable in up to 10 planned sessions in a calendar year (including services to which items 80001, 80011, 80101, 80111, 80126, 80136, 80151 and 80161 apply).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80021 (psychological therapy via video conference – clinical psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80146 (focussed psychological strategies via video conference – occupational therapist) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

Clinical indications

The clinical psychologist must be satisfied that it is clinically appropriate to provide a video consultation to a patient, or a group of 6 to 10 patients.

Restrictions

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote clinical psychologist. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Billing Requirements

All video consultations provided by clinical psychologists must be separately billed. That is, only the relevant telehealth MBS consultation item is to be itemised on the account/bill/voucher. Any other service/item billed should be itemised on a separate account/bill/voucher. This will ensure the claim is accurately assessed as being a video consultation and paid accordingly.

Clinical psychologists should not use the notation ‘telehealth’, ‘verbal consent’ or ‘Patient unable to sign’ to overcome administrative difficulties to obtaining a patient signature for bulk-billed claims (for further information see mbsonline.gov.au/telehealth).

Eligible Geographical Areas

Geographic eligibility for psychological telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health’s website (http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM_locator).

There is a requirement for the patient and clinical psychologist to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between clinical psychologist and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the clinical psychologist is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

Record Keeping

Participating telehealth clinical psychologists must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Extended Medicare Safety Net (EMSN)

All telehealth consultations (with the exception of the participating optometrist telehealth items) are subject to EMSN caps. The EMSN caps for telehealth consultation items in Groups M6 and M7 are equal to 300% of the schedule fee (to a maximum of \$500).

Aftercare Rule

Video consultations are subject to the same aftercare rules as clinical psychologists providing face-to-face consultations.

Multiple attendances on the same day

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different clinical psychologist on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same clinical psychologist, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Clinical psychologists will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

Technical requirements

In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote clinical psychologist. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a videoconference meets the applicable laws for security and privacy.

MN.7.1 Provision of Focussed Psychological Strategies Services by Allied Health Providers - (Items 80100 to 80170)

OVERVIEW

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy (items 80000 to 80021) - provided by eligible clinical psychologists; and
- focussed psychological strategies – allied mental health (items 80100 to 80171) - provided by eligible psychologists, occupational therapists and social workers.

FOCUSSED PSYCHOLOGICAL STRATEGIES – ALLIED MENTAL HEALTH SERVICES ATTRACTING MEDICARE REBATES

Eligible focussed psychological strategies services

There are 24 MBS items for the provision of focussed psychological strategies (FPS) - allied mental health services to eligible patients by allied health professionals:

- 80100, 80105, 80110, 80115 and 80120 for provision of FPS services by a psychologist;
- 80101, 80111 and 80121 for provision of video conference FPS services by a psychologist;
- 80125, 80130, 80135, 80140 and 80145 for provision of FPS services by an occupational therapist;
- 80126, 80136 and 80146 for provision of video conference FPS services by an occupational therapist;
- 80150, 80155, 80160, 80165 and 80170 for provision of FPS services by a social worker; and
- 80151, 80161 and 80171 for provision of video conference FPS services by a social worker.

The allied health professional must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals and Referral Validity

Services provided under the focussed psychological strategies – allied mental health items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282);
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a shared care plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291); or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals).

Number of services per year

Medicare rebates are available for up to 10 individual allied mental health services in a calendar year. The 10 services may consist of: GP or medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287); and/or psychological therapy services (items 80000 to 80015); and/or focussed psychological strategies - allied mental health services (items 80100 to 80115; 80125 to 80140; 80150 to 80165).

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and patient need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80020 (psychological therapy – clinical psychologist), 80021 (psychological therapy via video conference – clinical psychologist), 80120 (focussed psychological strategies – psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80145 (focussed psychological strategies – occupational therapist), 80146 (focussed psychological strategies via video conference – occupational therapist), 80170 (focussed psychological strategies - social worker) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

In the instance where a patient has received the 10 psychological therapy services (items 80000 to 80021), focussed psychological services-allied mental health services (items 80100 to 80171) or GP or medical practitioner focussed psychological strategies services (GP items 2721 to 2727 or medical practitioner items 283 to 287) available under

the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

Service length and type

Services provided by eligible allied health professionals under these items must be within the specified time period within the item descriptor. The allied mental health professional must personally attend the patient face to face, or via video conference for items 80001, 80011, 80021, 80101, 80111, 80121, 80126, 80136, 80146, 80151, 80161 and 80171.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

A range of acceptable strategies has been approved for use by allied mental health professionals utilising the FPS items.

These are:

1. Psycho-education

(including motivational interviewing)

2. Cognitive-behavioural therapy including:

• Behavioural interventions

- Behaviour modification
- Exposure techniques
- Activity scheduling

• Cognitive interventions

- Cognitive therapy

3. Relaxation strategies

- Progressive muscle relaxation
- Controlled breathing

4. Skills training

- Problem solving skills and training
- Anger management
- Social skills training
- Communication training
- Stress management
- Parent management training

5. Interpersonal therapy (especially for depression)

6. Narrative therapy (for Aboriginal and Torres Strait Islander people).

7. Eye-Movement Desensitisation Reprocessing (EMDR)

Course of treatment and reporting back to the referring medical practitioner

Patients are eligible to receive up to 10 individual services and up to 10 group sessions in a calendar year.

Within this maximum service allocation, the allied mental health professional can provide one or more courses of treatment. For the purposes of these services, a course of treatment consists of the number of services stated in the patient's referral (up to a maximum of six services in any one referral). This enables the referring medical practitioner to consider a report from the allied mental health professional on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the allied mental health professional must provide a written report to the referring medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

Out-of-pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out of hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Eligible patients

Items 80100 to 80171 (inclusive) apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282) under a referred psychiatrist assessment and management plan (item 291) or Health Care Home shared care plan; or from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Checking patient eligibility for focussed psychological strategies – allied mental health services

Patients seeking Medicare rebates for focussed psychological strategies – allied mental health services will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm whether a GP Mental Health Treatment Plan, Health Care Home shared care plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Allied mental health professionals can call the Department of Human Services on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied mental health professional should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Publicly funded services

Focussed psychological strategies (FPS) services items 80100 to 80171 do not apply for services that are provided by any other Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the FPS services items apply for services that are provided by eligible allied mental health professionals salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

REFERRAL REQUIREMENTS (GPs, MEDICAL PRACTITIONERS, PSYCHIATRISTS OR PAEDIATRICIANS TO ALLIED MENTAL HEALTH PROFESSIONALS)

Referrals

Patients must be referred for focussed psychological strategies – allied mental health services by either a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan (GP items 2700, 2701, 2715, 2717 or medical practitioner items 272, 276, 281, 282), a Health Care Home shared care plan or referred by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan (item 291); or on referral from a psychiatrist or a paediatrician.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied mental health professional signed and dated by the referring practitioner.

The allied mental health professional must be in receipt of the referral at the first allied mental health consultation. It is required that the allied health professional retain the referral for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

Referral validity

Medicare benefits are available for up to 10 individual and/or 10 group psychological therapy services and/or focussed psychological strategies services per patient per calendar year.

Referrals should be provided, as required, for an initial course of treatment (a maximum of six services but may be less depending on the referral and the patient's clinical need) to a maximum of 10 services per calendar year. For the purposes of these services, a course of treatment will consist of the number of services stated in the patient's referral (up to a maximum of six in any one referral).

If a patient has not used all of their psychological therapy services and/or focussed psychological strategies services under a referral in a calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total of 10 services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan, Home Health Care shared care plan and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan, Home Health Care shared care plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan, Home Health Care shared care plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment. Additionally, a Health Care Home shared care plan must include a record of the patient's agreement to mental health services; an outline of assessment of the patient's mental disorder, including the mental health formulation and diagnosis or provisional diagnosis; and if appropriate, a plan for one or more of crisis intervention and relapse prevention.

ALLIED MENTAL HEALTH PROFESSIONAL ELIGIBILITY

Eligible allied health professionals

A person is an allied health professional in relation to the provision of a FPS service if the person meets one of the following requirements:

- a. the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- b. the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- c. the person:
 - i. is an occupational therapist who is registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and
 - ii. is accredited by Occupational Therapy Australia as:
 - having a minimum of two years experience in mental health; and
 - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational Therapists and Social Workers providing FPS services are required to have completed 10 hours FPS CPD.

A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

Registering with the Department of Human Services

Advice about registering with the Department of Human Services to provide focussed psychological strategies - allied mental health services using items 80100-80171 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at www.health.gov.au/mbsonline

For providers, further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

The Department of Human Services (DHS) has developed a Health Practitioner Guideline to substantiate that a valid Allied Mental Health service has been provided (for allied health professionals) which is located on the DHS website.

MN.7.2 Telehealth Focussed Psychological Strategies Services

These notes provide information on the telehealth focussed psychological strategies MBS video consultation items by psychologists, occupational therapists and social workers. A video consultation involves a single psychologist, occupational therapist or social worker attending a patient, or a group of 6 to 10 patients.

MBS item numbers 80101, 80111, 80126, 80136, 80151 and 80161 provide for attendance via videoconferencing by a psychologist, occupational therapist or social worker to an individual patient. MBS item numbers 80121, 80146 and 80171 provide for attendance via videoconferencing by a psychologist, occupational therapist or social worker to a group of 6 to 10 patients. The items are stand-alone items and do not have a derived fee.

These therapies are time limited, being deliverable in up to 10 planned sessions in a calendar year (including services to which items 80001, 80011, 80101, 80111, 80126, 80136, 80151 and 80161 apply).

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services involving 6-10 patients to which items 80021 (psychological therapy via video conference – clinical psychologist), 80121 (focussed psychological strategies via video conference – psychologist), 80146 (focussed psychological strategies via video conference – occupational therapist) and 80171 (focussed psychological strategies via video conference – social worker) apply. These group services are separate from the individual services and do not count towards the 10 individual services per calendar year maximum associated with those items.

Clinical indications

The psychologist, occupational therapist or social worker must be satisfied that it is clinically appropriate to provide a video consultation to a patient, or a group of 6 to 10 patients.

Restrictions

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote psychologist, occupational therapist or social worker. If the remote psychologist, occupational therapist or social worker is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Billing Requirements

All video consultations provided by psychologists, occupational therapists or social workers must be separately billed. That is, only the relevant telehealth MBS consultation item is to be itemised on the account/bill/voucher. Any other service/item billed should be itemised on a separate account/bill/voucher. This will ensure the claim is accurately assessed as being a video consultation and paid accordingly.

Psychologists, occupational therapists or social workers should not use the notation 'telehealth', 'verbal consent' or 'Patient unable to sign' to overcome administrative difficulties to obtaining a patient signature for bulk-billed claims (for further information see mbsonline.gov.au/telehealth).

Eligible Geographical Areas

Geographic eligibility for psychological telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health's website (http://www.health.gov.au/internet/otd/publishing.nsf/Content/MMM_locator).

There is a requirement for the patient and psychologist, occupational therapist or social worker to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between psychologist, occupational therapist or social worker and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the psychologist, occupational therapist or social worker is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

Record Keeping

Participating telehealth psychologists, occupational therapists and social workers must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Extended Medicare Safety Net (EMSN)

All telehealth consultations (with the exception of the participating optometrist telehealth items) are subject to EMSN caps. The EMSN caps for telehealth consultation items in Groups M6 and M7 are equal to 300% of the schedule fee (to a maximum of \$500).

Aftercare Rule

Video consultations are subject to the same aftercare rules as psychologists, occupational therapists and social workers providing face-to-face consultations.

Multiple attendances on the same day

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different psychologist, occupational therapist or social worker on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same psychologist, occupational therapist or social worker, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Psychologists, occupational therapists and social workers will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

Technical requirements

In order to fulfil the item descriptor there must be a visual and audio link between the patient and the remote psychologist, occupational therapist or social worker. If the remote clinical psychologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a videoconference meets the applicable laws for security and privacy.

MN.8.1 Pregnancy Support Counselling - Eligible Patients - (Items 81000 to 81010)

Medicare benefits are available for non-directive pregnancy support counselling services provided to a person who is pregnant or who has been pregnant in the 12 months preceding the first service to which item 81000, 81005 or 81010 applies in relation to that pregnancy. Services can be provided either by an eligible GP or by an eligible psychologist, social worker or mental health nurse on referral from a GP.

The term 'GP' is used hereafter as a generic reference to medical practitioners (including a general practitioner, but not including a specialist or consultant physician).

The items may be used to address any pregnancy related issues for which non-directive counselling is appropriate.

MN.8.2 Pregnancy Support Counselling - Eligible Services - (Items 81000 to 81010)

There are four MBS items for the provision of non-directive pregnancy support counselling services:

Item 4001 - services provided by an eligible GP;

Item 81000 - services provided by an eligible psychologist;

Item 81005 - services provided by an eligible social worker; and

Item 81010 - services provided by an eligible mental health nurse.

These notes relate to items 81000-81010. Each individual allied health professional must meet the provider eligibility requirements set out below and be registered with the Department of Human Services.

Service length and type

Non-directive pregnancy support counselling services provided by eligible psychologists, social workers and mental health nurses using items 81000-81010 inclusive must be of at least 30 minutes duration and provided to an individual patient. The allied health professional must personally attend the patient.

The service involves the psychologist, social worker or mental health nurse undertaking a safe, confidential process that helps the patient explore concerns they have about a current pregnancy or a pregnancy that occurred in the preceding 12 months. This includes providing, on request, unbiased, evidence-based information about all options and services available to the patient.

Non-directive counselling is a form of counselling that is based on the understanding that, in many situations, people can resolve their own problems without being provided with a solution by the counsellor. The counsellor's role is to encourage the person to express their feelings but not suggest what decision the person should make. By listening and reflecting back what the person reveals to them, the counsellor helps them to explore and understand their feelings. With this understanding, the person is able to make the decision that is best for them.

Number of services per year

Medicare benefits are available for up to three (3) eligible non-directive pregnancy support counselling services per patient, per pregnancy, provided using items 81000, 81005, 81010 and 4001.

Partners of eligible patients may attend each or any counselling session, however, only one fee applies to each service.

Out-of-pocket expenses and Medicare Safety Net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare safety net for that patient. Non-directive pregnancy support counselling services in excess of three (3) per pregnancy will not attract a Medicare benefit and the safety net arrangements will not apply to costs incurred by the patient for such services.

Publicly funded services

Items 81000, 81005 and 81010 do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital.

However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory clinic, items 81000, 81005 and 81010 can be claimed for services provided by an eligible psychologist, social worker or mental health nurse salaried by or contracted to the service, where all requirements of the relevant item are met, including registration with the Department of Human Services. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.8.3 Pregnancy Support Counselling - Referral Requirements - (Items 81000 to 81010)

Patients must be referred for non-directive pregnancy support counselling services by a GP or medical practitioner. GPs/medical practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied health professional signed and dated by the referring GP/medical practitioner.

Patients may be referred by a GP or medical practitioner to more than one eligible allied health professional for eligible non-directive pregnancy support counselling services (for example, where a patient does not wish to continue receiving services from the provider they were referred to in the first instance). However, Medicare benefits are only available for a maximum of three (3) non-directive pregnancy support counselling services to which items 792, 4001, 81000, 81005 and 81010 apply, per patient, per pregnancy.

Where the patient is unsure of the number of Medicare rebated non-directive pregnancy support counselling services they have already accessed, the patient may check with the Department of Human Services on 132 011. Alternatively, the psychologist, social worker or mental health nurse may check with the Department of Human Services.

The relevant allied health professional must be in receipt of the referral at the first non-directive pregnancy support counselling service and must retain the referral for 2 years from the date the service was rendered, for the Department of Human Services auditing purposes.

A copy of the referral is not required to accompany Medicare claims. However, referral details are required to be included on patients' itemised accounts/receipts or Medicare assignment of benefit forms.

Referral validity

The referral is valid for up to three (3) non-directive pregnancy support counselling services, per patient, per pregnancy.

Subsequent Referrals

A new referral is required where the patient seeks to access non-directive pregnancy support counselling in relation to a different pregnancy or where the patient wishes to be referred to a different allied health professional than the one they were referred to in the first instance.

MN.8.4 Pregnancy Support Counselling - Allied Health Professional Eligibility -(Items 81000 to 81010)

Eligible allied health professionals

Items 81000, 81005 and 81010 can only be claimed for services provided by psychologists, social workers and mental health nurses who meet the following specific eligibility requirements, and are registered with the Department of Human Services.

To be eligible to provide services using MBS Item 81000, a psychologist must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided and be certified by the Australian Psychological Society as appropriately trained in non-directive pregnancy counselling.

To be eligible to provide services using MBS Item 81005, a social worker must be a 'Member' of the Australian Association of Social Workers (AASW), be certified by AASW either as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014 or as an Accredited Social Worker, and have completed appropriate non-directive pregnancy counselling training;

To be eligible to provide services using MBS Item 81010, a mental health nurse must be a 'Credentialled Mental Health Nurse' as certified by the Australian College of Mental Health Nurses, and have completed appropriate non-directive pregnancy counselling training.

Registering with the Department of Human Services

Advice about registering with the Department of Human Services to provide non-directive pregnancy support counselling services using items 81000-81010 inclusive is available from the Department of Human Services provider inquiry line on 132 150.

Further information

A copy of the Medicare Allied Health Supplement can be accessed from www.health.gov.au/mbsonline. The Supplement includes more information about Medicare, including how to make a claim from Medicare.

Further information is also available for providers from the Department of Human Services provider inquiry line on 132 150.

MN.9.1 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Eligible Patients

MBS items (81100 to 81125) are available for group allied health services for patients with type 2 diabetes. These items apply to services provided by eligible diabetes educators, exercise physiologists and dietitians, on referral from a GP or medical practitioner.

Services available under these items are in addition to the five individual allied health services available to patients each calendar year (refer to items 10950 to 10970).

To be eligible for these services, the patient must have in place one of the following:

- a GP Management Plan (GPMP) (GP item 721 or medical practitioner item 229); OR
- for a resident of a residential aged care facility, the GP or medical practitioner must have contributed to, or contributed to a review of, a care plan prepared for them by the facility (GP item 731 or medical practitioner item 232). [Note: Generally, residents of an aged care facility rely on the facility for assistance to manage their type 2 diabetes. Therefore, the resident may not need to be referred for group allied health services under these items, as the self-management approach offered in group services may not be appropriate.]; OR

- a Health Care Home shared care plan.

Unlike the individual allied health services under items 10950 to 10970, there is no additional requirement for a Team Care Arrangement (GP item 723 or medical practitioner item 230) in order for the patient to be referred for group allied health services.

Once the patient has been referred by their GP or medical practitioner, a diabetes educator, exercise physiologist or dietitian will conduct an individual assessment (under items 81100, 81110 or 81120). A maximum of one (1) assessment service is available per calendar year. After assessment, the patient may receive up to eight (8) group services per calendar year from an eligible diabetes educator, exercise physiologist and/or dietitian (under items 81105, 81115 and 81125). A collaborative approach, where diabetes educators, exercise physiologists and dietitians work together to develop group service programs in their local area, is encouraged.

MN.9.2 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - GP Referral Requirements

Patients must be referred by their GP to an eligible allied health professional (diabetes educator, exercise physiologist or dietitian) who will undertake an individual assessment of their suitability for a group services program (under item 81100, 81110 or 81120).

When referring patients, **GPs** must use a referral form that has been issued by the Australian Government Department of Health or a Health Care Home shared care plan or a form that contains all the components of this form. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

GPs are also encouraged to provide a copy of the relevant part of the patient's care plan to the allied health professional.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

MN.9.3 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Eligible Allied Health Professionals

Items 81100 to 81125 only apply to services provided by eligible diabetes educators, exercise physiologists and dietitians who are registered with the Department of Human Services. If providers are already registered with the Department of Human Services to use item 10951, 10953 or 10954, they do not need to register separately for items 81100 to 81125. Eligibility criteria are as follows:

Diabetes educator: must be a 'credentialed diabetes educator' (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

Exercise physiologist: must be an 'accredited exercise physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

Dietitian: must be an 'accredited practising dietitian' as recognised by the Dietitians Association of Australia (DAA).

The Department of Human Services registration forms may be obtained from the Department of Human Services on 132 150 or at the [Department of Human Services' website](#).

MN.9.4 Assessment for Group Allied Health Services (Items 81100, 81110 and 81120) for People with Type 2 Diabetes

An assessment service is provided by a diabetes educator (item 81100), an exercise physiologist (item 81110) or a dietitian (item 81120), on referral from a GP.

The purpose of this service is to undertake an individual assessment and determine the patient's suitability for a group services program. It involves taking a comprehensive patient history and identification of individual goals. This may also provide an opportunity to identify any patient who is likely to be unsuitable for group services.

Number of services per year

Patients are eligible for a maximum of one assessment for group services (item 81100 **or** 81110 **or** 81120) per calendar year. If more than one assessment service is provided in a calendar year, the subsequent service/s will not attract a Medicare rebate and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for items 81100, 81110 or 81120, the allied health professional should contact the Department of Human Services to confirm the number of assessment services already claimed by the patient in the calendar year. Allied health professionals can call the Department of Human Services on 132 150 to check this information.

Referral form

The GP must refer the patient using the *Referral form for group allied health services under Medicare for patients with type 2 diabetes* or a Health Care Home shared care plan or a form that contains all the components of this form. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

The allied health professional undertaking the assessment service will need to complete Part B of this form, and the patient will then need to present this form to the provider/s of group services.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

Length of service

This service must be of at least 45 minutes duration and provided to an individual patient. The allied health professional must personally attend the patient.

Reporting requirements

On completion of the assessment service, the allied health professional must provide a written report back to the referring GP outlining the assessment undertaken, whether the patient is suitable for group services and, if so, the nature of the group services to be delivered.

MN.9.5 Group Allied Health Services (Items 81105, 81115 and 81125) for People with Type 2 Diabetes - Service Requirements and Referral Forms

These services are provided in a group setting to assist with the management of type 2 diabetes.

Number of services per year

Patients are eligible for up to eight group allied health services in total (items 81105, 81115 and 81125 inclusive) per calendar year. Each separate group service must be provided to the patient by only one type of allied health professional (i.e. by a diabetes educator, or by an exercise physiologist or by a dietitian). However, the overall group services program provided for the patient could be comprised of one type of service only (e.g. eight diabetes education services) or a combination of services (e.g. three diabetes education services, three dietitian services and two exercise physiology services). An eligible allied health professional with more than one Medicare provider number (e.g. for the provision of diabetes education and dietetics) may provide separate services under each of these provider numbers.

Group allied health service providers are strongly encouraged to deliver multidisciplinary group services programs that allow patients to benefit from a range of interventions designed to assist in the management of their type 2 diabetes.

Where a patient receives more than the limit of eight group services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for group services, the allied health professional should contact the Department of Human Services to confirm the number of group services already claimed by the patient in the calendar year. Allied health professionals can call the Department of Human Services on 132 150 to check this information.

Multiple services on the same day

Where clinically relevant, up to two group services may be provided consecutively on the same day by the same allied health professional.

Referral form

The allied health professional/s undertaking the group services will need to receive the *Referral form for group allied health services under Medicare for patients with type 2 diabetes issued by the Department of Health* or the Health Care Home shared care plan or a form that contains all the components of this form, with Part B completed by the provider who has undertaken the assessment service. The form issued by the department is available at <http://www.health.gov.au/mbsprimarycareitems> (click on the link for group allied health services).

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

Group size

The service must be provided to a person who is part of a group of between two and 12 persons.

Length of service

Each group service must be of at least 60 minutes duration.

Reporting requirements

On completion of the group services program, each allied health professional must provide, or contribute to, a written report back to the referring GP in respect of each patient. The report should describe the group services provided for the patient and indicate the outcomes achieved. While each allied health professional is required to provide feedback to the GP in relation to the group services that they provide to the patient, allied health professionals involved in the provision of a multidisciplinary program are encouraged to combine feedback into a single report to the referring GP.

MN.9.6 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Additional Requirements

Retention of Referral Form for the Department of Human Services Audit Purposes

It is recommended that Allied health professionals retain a copy of the referral form for 24 months from the date the service was rendered (for the Department of Human Services auditing purposes).

Publicly funded services

Items 81100 - 81125 do not apply for services that are provided by any other Commonwealth or state-funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or a state/territory government health clinic, items 81100-81125 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. These services must also be bulk billed.

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid.

Out-of-pocket expenses and Medicare Safety Net

Allied health professionals are free to determine their own fees for the professional service. Charges in excess of the Medicare benefit for the allied health items are the responsibility of the patient. However, such out of pocket costs will count toward the Medicare Safety Net for that patient.

MN.9.7 Group Allied Health Services (Items 81100 to 81125) for People with Type 2 Diabetes - Further Information

Further information about these items is available on the Department of Health's website at www.health.gov.au/mbsprimarycareitems

MN.10.1 Provision of Autism, Pervasive Developmental Disorder or Disability Services by Allied Health Professionals - (Items 82000 to 82035) Eligible patients

MBS items 82000 to 82035 provide Medicare-rebateable allied health services to children with autism or any other pervasive developmental disorder (PDD) through the Helping Children with Autism program, and to children with an eligible disability through the Better Start for Children with Disability program. Children with both autism/PDD and an eligible disability can access either program, but not both.

The conditions classified as PDD in 2008 for the purposes of these services were informed by the American Psychiatric Association: Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV-TR), Washington, DC, American Psychiatric Association, 2000.

'Eligible disabilities' for the purpose of these services means any of the following conditions:

- (a) sight impairment that results in vision of less than or equal to 6/18 vision or equivalent field loss in the better eye, with correction.
- (b) hearing impairment that results in:
 - (iii) a hearing loss of 40 decibels or greater in the better ear, across 4 frequencies; or
 - (iv) permanent conductive hearing loss and auditory neuropathy.
- (c) deafblindness
- (d) cerebral palsy
- (e) Down syndrome
- (f) Fragile X syndrome
- (g) Prader-Willi syndrome
- (h) Williams syndrome
- (i) Angelman syndrome
- (j) Kabuki syndrome
- (k) Smith-Magenis syndrome
- (l) CHARGE syndrome
- (m) Cri du Chat syndrome
- (n) Cornelia de Lange syndrome
- (o) microcephaly if a child has:
 - (iii) a head circumference less than the third percentile for age and sex; and
 - (iv) a functional level at or below 2 standard deviations below the mean for age on a standard developmental test, or an IQ score of less than 70 on a standardised test of intelligence.
- (p) Rett's disorder

"standard developmental test" refers to the Bayley Scales of Infant Development or the Griffiths Mental Development Scales; "standardised test of intelligence" means the Wechsler Intelligence Scale for Children (WISC) or the Wechsler Preschool and Primary Scale of Intelligence (WPPSI). It is up to the clinical judgement of the diagnosing practitioner if other tests are appropriate to be used.

Allied health services available under Medicare

Items are available for **assessment/diagnosis** services, the results of which can contribute to development of a treatment and management plan by the referring medical practitioner, and for **treatment** services.

The **assessment/diagnosis** items (82000, 82005, 82010, 82030) can be accessed when:

- a child with autism/PDD is aged under 13 years and referred by an eligible consultant psychiatrist or paediatrician; or
- a child with an eligible disability is aged under 13 years and referred by a specialist, consultant physician or GP.

The **treatment** items (82015, 82020, 82025 and 82035) can be accessed when:

- A child with autism/PDD is aged under 15 years and a treatment and management plan has been put in place for them before their 13th birthday, and they have been referred by an eligible consultant psychiatrist or paediatrician.
- A child with an eligible disability is aged under 15 years and a treatment and management plan has been put in place for them before their 13th birthday, and they have been referred by a specialist, consultant physician or GP.

The allied health assessment and treatment services can be provided by eligible audiologists, occupational therapists, optometrists, orthoptists, physiotherapists, psychologists and speech pathologists.

Number of assessment services

Medicare rebates are available for up to four services in total per eligible child, to assist with assessment and diagnosis and development of a treatment plan. The four services may consist of any combination of items 82000, 82005, 82010 and 82030. It is the responsibility of the referring practitioner to allocate these services in keeping with the child's individual needs and to refer the child to appropriate allied health professional(s) accordingly.

These services will not attract a Medicare rebate unless a referral has been made by a consultant psychiatrist (using items 296-370) or paediatrician (using items 110-131) for a child with autism/PDD, or by a specialist or consultant physician (using items 104-131 or 296-370 excluding item 359) or GP (using items 3-51) for a child with a disability.

Number of treatment services

Medicare rebates are available for up to twenty allied health treatment services in total per eligible child. The twenty services may consist of any combination of items 82015, 82020, 82025 and 82035. It is the responsibility of the referring practitioner to allocate these services in keeping with the child's individual treatment needs and to refer the child to appropriate allied health professional(s) accordingly.

These services will not attract a Medicare rebate unless referral has been made by a consultant psychiatrist (using item 289) or paediatrician (using item 135) for children with autism/PDD, or by a specialist or consultant physician (using item 137) or a GP for disability (using item 139) for children with disability.

Service length and type

Services under these items must be for the time period specified within the item descriptor. The allied health professional must personally attend the child.

A child may receive up to four Medicare eligible services from an allied health professional on the same day.

It is anticipated that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

It is also expected that participating allied health providers will deliver treatment under these items that is consistent with the autism/PDD or disability treatment plan prepared by the medical practitioner, and is in keeping with commonly established autism/PDD or disability interventions as practised by their profession and appropriate for the age and particular needs of the child being treated.

Eligible allied health professionals

Allied health professionals providing services under these items must be registered with the Department of Human Services. To register with the Department of Human Services to provide these services, an allied health professional must meet the specific eligibility requirements detailed below:

- **Audiologist** must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).
- **Occupational Therapist** must be registered with the Occupational Therapy Board of Australia.
- **Optometrist** must be registered as an optometrist or optician under a law of a State or an internal Territory that provides for the registration of optometrists or opticians, and be a participating optometrist.
- **Orthoptist** must be registered with the Australian Orthoptic Board and have a Certificate of Currency; and be a member of Orthoptics Australia.
- **Physiotherapist** must be registered with the Physiotherapy Board of Australia.
- **Psychologist** must hold General Registration with the Psychology Board of Australia.
- **Speech Pathologist** must be a 'Practising Member' of Speech Pathology Australia.

In addition to meeting the above mentioned credentialing requirements, it is expected that eligible providers will "self-select" for the autism/PDD and disability items (i.e. possess the skills and experience appropriate for provision of these services and be oriented to work with children with autism/PDD or disability).

Referral requirements

An allied health professional wanting to provide any of the items 82000-82035 must be in receipt of a current referral provided by an eligible medical practitioner. Referrals are only valid when prerequisite MBS services have been provided.

An eligible allied health professional can provide assessment items (82000, 82005, 82010 and 82030) to a child under the Helping Children with Autism program when:

- the child has previously been provided with any MBS service covering items 110 through 131 inclusive by a consultant paediatrician; or
- the child has previously been provided with any MBS service covering items 296 through 370 (excluding item 359) inclusive by a consultant psychiatrist.

An eligible allied health professional can provide assessment items (82000, 82005, 82010 and 82030) to a child under the Better Start for Children with Disability program when:

- the child has previously been provided with any MBS service covering items 104 through 131 inclusive, or items 296 through 370 (excluding item 359) inclusive by a specialist or consultant physician; or
- the child has previously been provided with any MBS service covering items 3 through 51 by a GP.

An eligible allied health professional can provide treatment items (82015-82025 and 82035) to a child under the Helping Children with Autism program when:

- the child has previously been provided with a treatment plan (item 135) by a consultant paediatrician; or
- the child has previously been provided with a treatment plan (item 289) by a consultant psychiatrist.

An eligible allied health professional can provide treatment items (82015-82025 and 82035) to a child under the Better Start for Children with Disability program when:

- the child has previously been provided with a treatment plan (MBS item 137) by a specialist or consultant physician; or
- the child has previously been provided with a treatment plan (MBS item 139) by a GP.

If the referring service has not yet been claimed, the Department of Human Services (DHS) will not be aware of the child's eligibility and Medicare benefits cannot be paid. DHS will be able to confirm whether a relevant MBS service has been claimed and/or the number of allied health services already claimed by the child. Allied health professionals can call the DHS provider line on 132 150. Parents and carers can call the patient information line on 132 011.

It is recommended that allied health professionals retain the referral for 24 months from the date the service was rendered for Medicare auditing purposes.

Referring medical practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied health professional signed and dated by the referring practitioner.

Referral validity

Medicare benefits are available for up to four allied health assessment and diagnosis services and up to twenty allied health treatment services per patient in total.

Patients will require a separate referral for each allied health professional they are referred to and they will also need new referrals for each new course of treatment.

A course of treatment for the allied health treatment services consists of the number of allied health services stated on the child's referral. This enables the referring practitioner to consider a report from the allied health professional(s) about the services provided to the child, and the need for further treatment.

Within the maximum service allocation of twenty services for the treatment items, the allied health professional(s) can provide one or more courses of treatment. Up to 4 services may be provided to the same child on the same day.

Reporting requirements

A written report must be provided to the referring medical practitioner by the allied health professional(s) after having provided the assessment and diagnosis and development of a treatment plan service(s) to the child.

On completion of a course of treatment, the eligible audiologist, occupational therapist, optometrist, orthoptist, physiotherapist, psychologist and speech pathologist must provide a written report to the referring medical practitioner which includes information on:

- treatment provided;
- recommendations on future management of the child's disorder; and
- any advice provided to third parties (e.g. parents, schools).

A written report must also be provided to the referring medical practitioner at the completion of any subsequent course(s) of treatment provided to the child.

Further information

For more information refer to the [MBS online website](#) or the [MBS Primary Care Items](#) information page.

MN.11.1 Follow-up Allied Health Services for people of Aboriginal or Torres Strait Islander descent (Items 81300 to 81360)

Eligible Patients

A person who is of Aboriginal or Torres Strait Islander descent may be referred by their GP for follow-up allied health services under items 81300 to 81360 when the GP has undertaken a health assessment or a Health Care Home shared care plan and identified a need for follow-up allied health services.

These items are similar to the individual allied health items (items 10950 to 10970) available to patients who have a chronic or terminal medical condition and complex care needs and have a GP Management Plan and Team Care Arrangements or a Health Care Home shared care plan prepared by their GP. However items 81300 to 81360 provide an alternative referral pathway for Aboriginal or Torres Strait Islander people to access allied health services. If a patient meets the eligibility criteria for individual allied health services under the Chronic Disease Management items or the Health Care Home shared care plan and for follow-up allied health services, they can access both sets of services and are eligible for up to ten allied health services under Medicare per calendar year.

A practice nurse/Aboriginal and Torres Strait Islander health practitioner item (10987) is also available for Indigenous Australians who have received a health check. This item enables Aboriginal or Torres Strait Islander people to receive follow-up services from a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of a GP. More detail on this item is provided at explanatory note M.12.4 of the Medicare Benefits Schedule.

Eligible Allied Health Services

The following allied health professionals are eligible to provide services under these items:

- Aboriginal and Torres Strait Islander health practitioners
- Aboriginal Health Workers
- Audiologists
- Chiropractors
- Diabetes Educators
- Dietitians
- Exercise Physiologists
- Mental Health Workers
- Occupational Therapists
- Osteopaths
- Physiotherapists
- Podiatrists
- Psychologists
- Speech Pathologists

Publicly funded services

Items 81300 to 81360 do not apply for services that are provided by any Commonwealth or state or territory government funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 81300 to 81360 can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

Number of services per year

Medicare benefits are available for up to five follow-up allied health services per eligible patient, per calendar year. The five allied health services can be made up of one type of service (e.g. five physiotherapy services) or a combination of different types of services (e.g. one dietetic, two podiatry and two physiotherapy services).

The annual limit of five allied health services per patient under items 81300 to 81360 is in addition to the individual allied health services for patients with a chronic or terminal medical condition and complex care needs (items 10950 to 10970).

Checking patient eligibility for items 81300 to 81360

If there is any doubt about a patient's eligibility, the Department of Human Services will be able to confirm the number of allied health services already claimed by the patient during the calendar year. Allied health professionals can call the Department of Human Services on 132 150 and patients can call the Department of Human Services on 132 011 or alternatively the Indigenous Access Line for the Department of Human Services on 1800 556 955.

Service length and type

Services provided by eligible allied health professionals under these items must meet the specific requirements set out in the item descriptors. These requirements include that:

- the service is of at least 20 minutes duration;
- the service is provided to the person individually (i.e. not as part of a group service) and in person (i.e. the allied health professional must personally attend the patient);
- the person is not an admitted patient of a hospital;
- the allied health professional must provide a written report to the GP; and
- if the patient has private health insurance, he/she cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for these services.

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

Reporting back to the GP

Where an allied health professional provides a single service to the patient under a referral, the allied health professional must provide a written report back to the referring GP after that service.

Where an allied health professional provides multiple services to the same patient under a referral, the allied health professional must provide a written report back to the referring GP after the first and last service, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

Allied health professionals are required to retain the referral form 24 months.

Out-of-pocket expenses and Medicare safety net

Allied health professionals can determine their own fees for the professional service, except where the service is provided under a subsection 19(2) exemption. Charges in excess of the Medicare benefit for the allied health items

are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare safety net for that patient. Allied health services in excess of five in a calendar year will not attract a Medicare benefit and the safety net arrangements will not apply to costs incurred by the patient for such services.

Referral Requirements

Referral form

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP using a referral form that has been issued by the Australian Government Department of Health or a form that contains all the components of this form.

The form issued by the department is available at the [MBS Primary Care Items](#) information page (click on the link for follow-up allied health services).

GPs are encouraged to attach a copy of the relevant part of the patient's care plan to the referral form.

GPs may use one referral form to refer patients for single or multiple services of the same service type (e.g. five dietetic services). If referring a patient for single or multiple services of different service types (e.g. two dietetic services and three podiatry services), a separate referral form will be needed for each service type.

The patient will need to present the referral form to the allied health professional at the first consultation, unless the GP has previously provided it directly to the allied health professional.

Allied health professionals are required to retain the referral form for 2 years from the date the service was rendered (for the Department of Human Services auditing purposes). A copy of the referral form is not required to accompany Medicare claims, and allied health professionals do not need to attach a signed copy of the form to patients' itemised accounts/receipts or assignment of benefit forms.

Completed forms do not have to be sent to the Department of Health.

Health Care Home shared care plan

A Health Care Home shared care plan means a written plan that is prepared for a patient enrolled at a Health Care Home trial site; is prepared by a medical practitioner (including a general practitioner but not including a specialist or consultant physician) who is leading the patient's care at the Health Care Home trial site; and includes: an outline of the patient's agreed current and long-term goals; the person or people responsible for each activity; arrangements to review the plan by a day mentioned in the plan; and if authorised by the patient, arrangements for the transfer of information between the medical practitioner and other health care providers supporting patient care about the patient's condition or conditions and treatment.

Referral validity

A referral is valid for the stated number of services. If all services are not used during the calendar year in which the patient was referred, the unused services can be used in the next calendar year. However, those services will be counted as part of the five rebates for allied health services available to the patient during that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from their GP.

Allied health Professional Eligibility

Items 81300 to 81360 can only be claimed for services provided by eligible allied health professionals who are registered with the Department of Human Services. Allied health professionals already registered with Medicare (e.g. for items 10950 to 10970) do not need to register again to claim these items.

Specific eligibility requirements for allied health professionals providing services under these items are:

Aboriginal and Torres Strait Islander health practitioners must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia. Aboriginal and Torres Strait Islander health practitioners may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioners; Aboriginal and Torres Strait Islander health practitioners; or Torres Strait Islander health practitioners.

Aboriginal health workers in a State or Territory other than the Northern Territory must have been awarded either:

- a. a Certificate III in Aboriginal and/or Torres Strait Islander Primary Health Care (or an equivalent or higher qualification) by a registered training organisation; or
- b. a Certificate III in Aboriginal and Torres Strait Islander Health (or an equivalent or higher qualification) by a registered training organisation before 1 July 2012.

Note: Where individuals consider their qualification to be equivalent to or higher than the qualifications listed above, they will need to contact a registered training organisation in their State or Territory to have the qualification assessed as such before they can register with the Department of Human Services. In the Northern Territory, a practitioner must be registered with the Aboriginal and Torres Strait Islander Health Practice Board of Australia.

Audiologists must be either a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

Chiropractors must be registered with the Chiropractic Board of Australia.

Diabetes educators must be a Credentialed Diabetes Educator (CDE) as credentialed by the Australian Diabetes Educators Association (ADEA).

Dietitians must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

Exercise physiologists must be an 'Accredited Exercise Physiologist' as accredited by Exercise and Sports Science Australia (ESSA).

Mental health workers can include services provided by members of five different allied health professional groups. 'Mental health workers' are drawn from the following:

- psychologists;
- mental health nurses;
- occupational therapists;
- social workers;
- Aboriginal and Torres Strait Islander health practitioners; and
- Aboriginal health workers.

Psychologists, occupational therapists, Aboriginal and Torres Strait Islander health practitioners and Aboriginal health workers are eligible in separate categories for these items.

Mental health nurses must be a credentialed mental health nurse, as certified by the Australian College of Mental Health Nurses.

Mental health nurses who were registered in the ACT or Tasmania prior to the introduction of the National Registration and Accreditation Scheme (NRAS) on 1 July 2010, will have until 31 December 2010 to be certified by the Australian College of Mental Health Nurses.

Social workers must be a 'Member' of the Australian Association of Social Workers (AASW); and be certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers' as in force on 8 November 2008.

Occupational therapists must be registered with the Occupational Therapy Board of Australia.

Osteopaths must be registered with the Osteopathy Board of Australia.

Physiotherapists must be registered with the Physiotherapy Board of Australia.

Podiatrists must be registered with the Podiatry Board of Australia.

Psychologists must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

Speech pathologists must be a 'Practising Member' of Speech Pathology Australia.

Registering with the Department of Human Services

Provider registration forms may be obtained from the Department of Human Services on 132 150 or by visiting the [Department of Human Services](#) website and then searching for "allied health application".

Further information

Further information about these items, including a fact sheet and the referral form, is available on the Department of Health's [MBS Primary Care Items](#) information page. For providers, information is also available from the Department of Human Services provider inquiry line on 132 150. The Indigenous Access Line for the Department of Human Services on 1800 556 955 is also a useful source of information.

MN.12.1 Immunisation services provided by an Aboriginal and Torres Strait Islander health practitioner - (Item 10988)

Item 10988 can only be claimed by a medical practitioner where an immunisation is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10988 can be claimed only once per patient visit, even if more than one vaccine is administered during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to provide immunisations. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the immunisation is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The immunisation must be performed by the Aboriginal and Torres Strait Islander health practitioner in accordance with the current edition of the Australian Immunisation Handbook and the Central Australian Rural Practitioners Association (CARPA) Standard Treatment Manual.

Immunisation means the administration of a registered vaccine to a patient for any purpose other than as part of a mass immunisation of persons.

A registered vaccine means a vaccine that is included on the Australian Register of Therapeutic Goods. This includes all vaccines on the Australian Standard Vaccination Schedule and vaccines covered in the current edition of the Australian Immunisation Handbook. The following substances cannot be claimed under this item: vaccines used experimentally; homeopathic substances; immunotherapy for allergies (eg de-sensitisation preparations); and other substances that are not vaccines. There may also be territory limitations on the administration of some vaccines, such as those for tuberculosis, yellow fever and Q-fever.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by the Northern Territory Department of Health and Community Services are also eligible to claim this item.

Where the medical practitioner provides a professional attendance to the patient (in addition to the immunisation service provided by the Aboriginal and Torres Strait Islander health practitioner), the medical practitioner may also claim for the professional attendance they provide to the patient.

Item 10991 can also be claimed in conjunction with item 10988 provided the conditions of both items are satisfied.

Related Items: 10988

MN.12.2 Wound management services provided by an Aboriginal and Torres Strait Islander health practitioner (item 10989)

Item 10989 can only be claimed by a medical practitioner where wound management (other than normal aftercare) is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10989 can be claimed only once per patient visit, even if more than one wound is treated during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or 806 retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to treat wounds. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the treatment is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The medical practitioner must conduct an initial assessment of the patient (including under a distance supervision arrangement if the medical practitioner is not physically present) in order to give instruction in relation to the treatment of the wound.

Where an Aboriginal and Torres Strait Islander health practitioner provides ongoing wound management, the medical practitioner is not required to give instruction or see the patient during each subsequent visit.

MN.12.3 Follow up service provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner, on behalf of a Medical Practitioner, for an Indigenous person who has received a health assessment (Item 10987)

Item 10987 may be claimed by a medical practitioner, where a follow up service is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner for an Indigenous person who has received a health check.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by state/territory health Departments are also eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10987 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government Health clinic, item 10987 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioner salaried or contracted to, the Service or Health clinic. All requirements of the item must be met.

Item 10987 will assist Indigenous patients who have received a health check which has identified a need for follow up services which can be provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner between further consultations with the patient's GP.

Item 10987 may be used to provide:

- Examinations/interventions as indicated by the health check;
- Education regarding medication compliance and associated monitoring;
- Checks on clinical progress and service access;
- Education, monitoring and counselling activities and lifestyle advice;
- Taking a medical history; and
- Prevention advice for chronic conditions, and associated follow up.

Item 10987 may be claimed up to a maximum of 10 times per patient per calendar year.

Item 10987 may be accessed by an Indigenous patient who has received the Aboriginal and Torres Strait Islander Peoples Health Assessment (item 715), which is available to:

- a) children between the ages of 0 and 14 years;
- b) adults between the ages of 15 and 54 years; and
- c) older people over the age of 55 years.

The item can also be accessed by a child who has received a health check as part of the Northern Territory Emergency Response (NTER).

Patients whose condition is unstable/deteriorating should be referred to their GP for further treatment.

A practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a general practice or by a health service that has an exemption to claim Medicare benefits under sub-section 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP under whose supervision the health check follow-up is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP must be satisfied that the practice nurse or Aboriginal and Torres Strait Islander health practitioner is appropriately qualified and trained to provide the relevant follow up for the patient. GPs are advised to consult their insurer concerning indemnity coverage for services provided on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioners provide follow up for Indigenous people who have received a health check, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and an Aboriginal and Torres Strait Islander health practitioners providing follow up services for Indigenous people who have received a health check.

Supervision of the practice nurse/Aboriginal and Torres Strait Islander health practitioner by the GP at a distance is recognised as an acceptable form of supervision. This means that the claiming GP does not have to be physically present at the time the service is provided. However the GP should be able to be contacted if required.

Where the GP and practice nurse/Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP is not required to be present while the health check follow up is undertaken. It is up to the GP to decide whether they need to see the patient. Where the GP has a consultation with the patient, then the GP is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10987 and should not be counted as part of the Medicare items claimed for time spent with the GP. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation, cervical screening) on the same day, the GP is able to claim for all practice nurse/Aboriginal and Torres Strait Islander health practitioner services provided.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10987 provided the conditions of item 10990 or 10991 are satisfied.

MN.12.4 Provision of monitoring and support for a person with a chronic disease by a practice nurse or Aboriginal and Torres Strait Islander health practitioner (item 10997)

Item 10997 may be claimed by a medical practitioner, where a monitoring and support service for a person with a chronic disease care plan is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner.

All GPs whether vocationally registered or not are eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10997 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government health clinic, item 10997 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioners salaried by or contracted to, the Service or health clinic. All requirements of the item must be met.

Item 10997 will assist patients who require access to ongoing care, routine treatment and ongoing monitoring and support between the more structured reviews of the care plan by the patient's usual GP.

Item 10997 may be used to provide:

- checks on clinical progress;
- monitoring medication compliance;
- self management advice, and;
- collection of information to support GP/medical practitioner reviews of Care Plans.

The services provided by the practice nurse or Aboriginal and Torres Strait Islander health practitioner should be consistent with the scope of the GP Management Plan, Team Care Arrangements, or Multidisciplinary Care Plan.

Item 10997 may be claimed up to a maximum of 5 times per patient per calendar year.

Item 10997 may only be accessed by a patient with a GP Management Plan, Team Care Arrangements or Multidisciplinary Care Plan (GP items 721, 723, 729, 731, 732 or medical practitioner items 229, 230, 231, 232, 233).

Patients whose condition is unstable/deteriorating should be referred to their GP or medical practitioner for further treatment.

A practice nurse means a registered or enrolled nurse or Nurse Practitioner who is employed by, or whose services are otherwise retained by a general practice.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP or medical practitioner under whose supervision the chronic disease monitoring and support is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP or medical practitioner must be satisfied that the practice nurse is appropriately qualified and trained to provide chronic disease support and monitoring. GPs and medical practitioners are advised to consult their insurer concerning indemnity coverage for services performed on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioner provide chronic disease support and monitoring, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and Aboriginal and Torres Strait Islander health practitioners providing chronic disease monitoring and support.

Supervision by the GP or medical practitioner at a distance is recognised as an acceptable form of supervision. This means that the claiming GP or medical practitioner does not have to be physically present at the time the service is provided. However, the GP/medical practitioner should be able to be contacted if required.

Where the GP/medical practitioner and the practice nurse/ Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP/medical practitioner is not required to be present while the chronic disease monitoring and support is undertaken. It is up to the GP/medical practitioner to decide whether they need to see the

patient. Where the GP/medical practitioner has a consultation with the patient, then the GP/medical practitioner is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10997 and should not be counted as part of the Medicare item claimed for time spent with the GP/medical practitioner. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation) on the same day, the GP/medical practitioner is able to claim for both practice nurse/ Aboriginal and Torres Strait Islander health practitioner items.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10997 provided the conditions of item 10990 or 10991 are satisfied (see explanatory note M.1).

MN.12.5 Telehealth Support Services by Health Professionals

These notes provide information on the telehealth MBS attendance items for health professionals to provide clinical support to their patients during video consultations with a specialist, consultant physicians and psychiatrists under items 10945 to 10948 in Group A10 which are available for participating optometrists, items 82150, 82151 and 82152 in Group M13 which are available for participating midwives, items 82220 to 82225 in Group M14 for participating nurse practitioners and items 10983 and 10984 in Group M12 for practice nurses, Aboriginal and Torres Strait Islander health practitioners or Aboriginal health workers for services provided for and on behalf of a medical practitioner.

Telehealth patient-end support services can only be claimed where:

- a Medicare eligible specialist service is claimed;
- the service is rendered in Australia; and
- where this is necessary for the provision of the specialist service.

The above patient-end support services provide for attendances in various settings including eligible residential aged care services, eligible Aboriginal Medical Service or Aboriginal Community Controlled Health Service to which a 19(2) direction under the Health Insurance Act 1973 applies.

Clinical indications

The specialist, consultant physician or psychiatrist must be satisfied that it is clinically appropriate to provide a video consultation to a patient. The decision to provide clinically relevant support to the patient is the responsibility of the specialist, consultant physician or psychiatrist.

Telehealth specialist services can be provided to patients when there is no patient-end support service provided.

Collaborative Consultation

The practitioner, who provides assistance to the patient where this is necessary for the provision of the specialist service, may seek assistance from a health professional (e.g. a practice nurse, Aboriginal and Torres Strait Islander health practitioner or Aboriginal health worker) but only one item is billable for the patient-end support service. The practitioner must be present during part or all of the consultation in order to bill an appropriate time-tiered MBS item. Any time spent by another health professional called to assist with the consultation may not be counted against the overall time taken to complete the video consultation.

Restrictions

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Eligible Geographical Areas

Geographic eligibility for telehealth services funded under Medicare are determined according to the Australian Standard Geographical Classification Remoteness Area (ASGC-RA) classifications. Telehealth Eligible Areas are areas that are outside a Major City (RA1) according to ASGC-RA (RA2-5). Patients and providers are able to check their eligibility by following [the links on the MBS Online website](#).

There is a requirement for the patient and specialist to be located a minimum of 15km apart at the time of the consultation. Minimum distance between specialist and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the specialist is not permitted to travel to an area outside the minimum 15 km distance in order to claim a video conference.

This rule will not apply to specialist video consultation with patients who are a care recipient in a residential care service; or at an Aboriginal Medical Service or an Aboriginal Community Controlled Health Service for which a direction, made under subsection 19(2) of the Health Insurance Act 1973, as these patients are to receive telehealth services anywhere in Australia.

Telehealth Eligible Service Areas are defined at the [MBS Online website](#).

Record Keeping

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Multiple attendances on the same day

In some situations a patient may receive a telehealth consultation and a face to face consultation by the same or different practitioner on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same practitioner, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Practitioners will need to provide the times of each consultation on the patient's account or bulk billing voucher.

Aftercare Rule

Video consultations are subject to the same aftercare rules as face to face consultations.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

Technical requirements

In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a video conference meets the applicable laws for security and privacy.

Bulk billing

Bulk bill incentive items 10990 or 10991 may be billed in conjunction with the MBS medical practitioner telehealth items 812, 827, 829, 867, 868, 869, 873, 876, 881, 885, 892 or GP items 2100, 2122, 2125, 2126, 2137, 2138, 2143, 2147, 2179, 2195, 2199 and 2220.

Duration of attendance

The practitioner attending at the patient end of the video consultation does not need to be present for the entire consultation, only as long as is clinically relevant - this can be established in consultation with the specialist. The MBS fee payable for the supporting practitioner will be determined by the total time spent assisting the patient. This time does not need to be continuous.

Aboriginal health workers

For the purpose of items 10983 and 10984 an Aboriginal health worker means a person who:

- a) holds a Certificate III in Aboriginal or Torres Strait Islander Health Worker Primary Health Care (Clinical) or other appropriate qualifications; or
- b) is registered, and holds a current registration issued by a State or Territory regulatory authority, as an Aboriginal health worker; and
- c) is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes health service in relation to which a direction made under subsection 19(2) of the Act applies.

Aboriginal and Torres Strait Islander health practitioners

For the purpose of items 10983 and 10984 an Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the Health Insurance Act 1973.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

Practice Nurse

For the purpose of items 10983 and 10984 a practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes a health service in relation to which a direction made under subsection 19(2) of the Health Insurance Act 1973 applies.

MN.13.1 Maternity Services by Participating Midwives - Overview

As at 1 November 2010, Medicare benefits are payable for antenatal, intrapartum and postnatal care for the first 6 weeks after the delivery, provided by eligible privately practising midwives. Eligible midwives can also request certain pathology and diagnostic imaging services for their patients and refer patients to obstetricians and paediatricians, as the clinical need arises. Each service that attracts a Medicare benefit is identified in the Medicare Benefits Schedule (MBS) by an item number. Each item describes the service that the item covers.

MN.13.2 Participating Midwives

To provide services under Medicare, the legislation requires that a midwife be a participating midwife. A participating midwife is an eligible midwife who provides services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

For more details on collaborative arrangements required under the regulations see Point M.13.5.

MN.13.3 Eligible Midwives

Under the legislation, to be an eligible midwife the midwife must be registered or authorised (however described) under State and Territory law to practice midwifery. The midwife must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia.

Information regarding eligibility can be found on the Nursing and Midwifery Board of Australia (NMBA) site of the Australian Health Practitioner Regulatory Agency (AHPRA) website at:

<http://www.nursingmidwiferyboard.gov.au/>.

MN.13.4 Midwife Professional Indemnity Insurance

Under National Law, which governs the National Registration and Accreditation Scheme (NRAS), it is a requirement for midwives to have appropriate professional indemnity insurance. All privately practising midwives who wish to provide private midwifery services in must have appropriate professional indemnity insurance from the date the State or Territory in which they were registered enacted National Law.

Further information about professional indemnity insurance for midwives can be found at:

<http://www.health.gov.au/internet/main/publishing.nsf/Content/Maternity+Services+Review-Q&A-PIMI>

MN.13.5 Collaborative Arrangements

To provide Medicare rebate-able services an eligible midwife must have a collaborative arrangement in place that must provide for consultation, referral or transfer of care as clinical needs dictate, to ensure safe, high quality maternity care.

Under the legislation a collaborative arrangement can be with the following "specified" medical practitioners:

1. an obstetrician;
2. a medical practitioner who provides obstetric services; or
3. a medical practitioner employed or engaged by a hospital authority and authorised by the hospital authority to participate in a collaborative arrangement.

The types of practitioners listed 1) and 2) are defined in the Regulations as "obstetric specified medical practitioners".

Collaborative arrangement can be established in the following ways:

- a. where the midwife:
 - i. is employed or engaged by 1 or more obstetric specified medical practitioners or by an entity that employs or engages 1 or more obstetric specified medical practitioners; or
 - ii. has an agreement, in writing, with an entity, other than a hospital, that employs or engages one or more obstetric specified medical practitioners, OR
- b. receiving patients by referral in writing to the midwife for midwifery treatment from a specified medical practitioner, OR
- c. having a signed written agreement with one or more specified medical practitioners, OR
- d. having an arrangement with and acknowledged by at least one specified medical practitioner
 - i. an arrangement requires that the eligible midwife must record the following in the midwife's written records:-
 - i. The name of at least one specified medical practitioner who is, or will be, collaborating with the midwife in the patient's care (a named medical practitioner);
 - ii. That the midwife has told the patient that the midwife will be providing midwifery services to the patient in collaboration with one or more specified medical practitioners;
 - iii. Acknowledgement by a named medical practitioner that the practitioner will be collaborating in the patient's care;

- iv. Plans for the circumstances in which the midwife will do any of the following:
 - i. consult with an obstetric specified medical practitioner;
 - ii. refer the patient to a specified medical practitioner;
 - iii. transfer the patient's care to an obstetric specified medical practitioner.
 - ii. The midwife must also record the following in the midwife's written records:
 - i. Any consultation or other communication between the midwife and an obstetric specified medical practitioner about the patient's care;
 - ii. Any referral of the patient by the midwife to a specified medical practitioner;
 - iii. Any transfer by the midwife of the patient's care to an obstetric specified medical practitioner;
 - iv. When the midwife gives a copy of the hospital booking letter for the patient to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
 - v. When the midwife gives a copy of the patient's maternity care plan prepared by the midwife to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
 - vi. If the midwife requests diagnostic imaging or pathology services for the patient - when the midwife gives the results of the services to a named medical practitioner
 - vii. That the midwife has given a discharge summary at the end of the midwife's care for the patient to:
 - i. a named medical practitioner; and
 - ii. the patient's usual general practitioner, OR
- e. In relation to a hospital, the midwife is:
 - i. credentialed to provide midwifery services after successfully completing a formal process to assess the midwife's competence, performance and professional suitability; and
 - ii. given clinical privileges for a defined scope of clinical practice for the hospital; and
 - iii. permitted to provide midwifery care to his or her own patients at the hospital.

The legislation requires that collaborative arrangements must be in place at the time the participating midwife provides the service.

- a. Being employed or engaged by a medical practice or an entity or having a written agreement with an entity
An entity may refer to, for example, a community health centre or a medical practice. For a midwife to have a collaborative arrangement in these circumstances, that midwife must be employed or engaged by or have a written agreement with an entity that also employs or engages 1 or more obstetric specified medical practitioners.
The terms employ or engage covers both employees and contractors. This will cover an eligible midwife who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one obstetrician or medical practitioner that provides obstetric services.
There must be at least one obstetric specified medical practitioner employed or engaged by the entity each time the midwife renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.
- b. Referral from a medical practitioner
A participating midwife's patient will be able to access the MBS and PBS if a patient has been referred in writing to the midwife by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.
- c. Written agreement with a medical practitioner
A participating midwife's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more specified medical practitioners. The agreement must be signed by the nurse practitioner and doctor. The arrangement must provide for consultation, referral and transfer of care.
- d. Arrangement with, acknowledged by a medical practitioner
Evidence of 'acknowledgement' by an obstetrician/GP obstetrician for each woman for whom the midwife provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a midwife could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the midwife's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the midwife documents in their written records.

The midwife is required to record in written records communications in regard to consultations, referral and transfer of the woman's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The midwife is also required to send a copy of all pathology and diagnostic imaging results to a named medical practitioner and to record in the midwife's written records when this occurs (however, there is no requirement that the midwife consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

e. Collaborative arrangement with a hospital

This type of collaborative arrangement applies where an eligible midwife is credentialed for a hospital, having successfully completed a formal assessment of his or her qualifications, skills, experience and professional standing. It is expected that the assessment would involve an appropriately qualified medical practitioner/s. The midwife is also required to have a defined scope of clinical practice at the hospital and be eligible to treat his or her own patients at the hospital. The hospital must employ or engage at least one obstetric specified medical practitioner. It is expected that the hospital will have a formal written agreement with such midwives, addressing consultation, referral and transfer of care, relevant clinical guidelines and locally determined policies.

MN.13.6 Provider Numbers

To access the Medicare arrangements, eligible midwives will need to apply to the Department of Human Services for a provider number. A separate provider number is required for each location at which a midwife practices.

Advice about registering with the Department of Human Services to provide midwifery services using items 82100 to 82140 inclusive, is available from the Department of Human Services provider inquiry line on 132 150.

Medicare provider application forms for midwives can be downloaded from the following site:

www.medicareaustralia.gov.au

MN.13.7 Schedule Fees and Medicare Benefits

Each midwifery service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description.

There are two levels of benefit payable for midwifery services:

75% of the Schedule fee for midwifery services rendered to privately insured patients as part of an episode of hospital treatment (other than for public patients); or

85% of the Schedule fee for antenatal and postnatal services rendered to non-admitted patients.

MN.13.8 Safety Nets

Where practitioners charge more than the Medicare benefit, the resultant out-of-pocket costs are the responsibility of the patient.

Assistance is provided to families and singles for out-of-pocket costs for out-of-hospital services through the "original" and "extended" Medicare safety nets:

- the original safety net provides that once the threshold is met, the Medicare benefit increases to 100 per cent of the Schedule fee. The threshold in 2020 is \$477.90; and

- under the Extended Medicare Safety Net (EMSN), once certain thresholds are met, Medicare reimburses 80 per cent of the out-of-pocket costs. However, where the item has an EMSN benefit cap, there is a maximum limit on the EMSN benefit that will be paid for that item.

In 2020, the annual EMSN threshold for concession cardholders and people who receive Family Tax Benefits (Part A) is \$692.20. For all other singles and families the annual threshold is \$2,169.20. These amounts are indexed by Consumer Price Index on 1 January each year.

MN.13.9 Safety Net Capping for Midwifery Items

Midwifery services will be subject to a benefit limit or cap under the EMSN. This is in line with obstetric services which are also subject to a safety net cap. The caps that apply to midwifery services are outlined below:

Item	Maximum increase (\$)
82100	21.70
82105	16.30
82110	21.70
82115	54.10
82130	16.30
82135	21.70
82140	16.30

MN.13.10 Where Medicare Benefits are not payable

Medicare benefits are not available:

- a. for services listed in the MBS, where the service rendered does *not* meet the item description and associated requirements;
- b. where the midwifery service is *not* personally performed by the participating midwife;
- c. for MBS services that are time based, the inclusion of any time period in the consultation periods when the patient is *not* receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings; and
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances;
- f. group sessions; and
- g. The issuing of repeat prescriptions, updating patient notes or telephone consultations.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

MN.13.11 Billing of Patient

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the Health Insurance Act and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;
- (d) The name and practice address and provider number of the participating midwife who actually rendered the service; (where the participating midwife has more than one practice location recorded with the Department of Human Services, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

MN.13.12 Assignment of Benefits (Direct-Billing) Arrangements

Under the Health Insurance Act the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If a participating midwife direct-bills, the participating midwife undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the Health Insurance Act.
- The practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient to receive a copy of the form as soon as practicable after the patient signs it.
- Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the practitioner, practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of **the Department of Human Services**. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

MN.13.13 Assignment of Benefit Forms

Participating midwives wishing to direct-bill are required to use a specific form available from the Department of Human Services. This stationary is available from the Department of Human Services. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of the Department of Human Services. Further information about direct-billing stationary can be obtained by telephoning **132150**.

MN.13.14 Time Limits Applicable to Lodgement of Claims for Assigned Benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

MN.13.15 Overview of the Maternity Items

Antenatal, intrapartum and postnatal care provided by participating midwives are covered by MBS items 82100, 82105, 82110, 82115, 82120, 82125, 82130, 82135, 82140. These items cover nine specific types of service that allow the participating midwife to:

- undertake an initial antenatal attendance of more than 40 minutes duration (item 82100)
- provide a short antenatal attendance of up to 40 minutes duration (item 82105)
- provide a long antenatal attendance of more than 40 minutes duration (item 82110);
- make an assessment of and prepare a maternity care plan for a woman across a pregnancy that has progressed beyond 20 weeks (item 82115);
- undertake management of a confinement for up to 12 hours, including delivery (item 82120);
- undertake management of a confinement in excess of 12 hours including delivery (item 82125);
- provide a short postnatal attendance of up to 40 minutes duration (item 82130);
- provide long postnatal attendance of at least 40 minutes duration (item 82135); and
- provide a comprehensive postnatal check to a woman six weeks after the birth of her baby (item 82140).

MN.13.16 Maternity Services Attracting Medicare Rebates

Medicare Benefits are only payable for clinically relevant services. *Clinically relevant* in relation to midwifery care means a service generally accepted by the midwifery profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating midwife provides care to not more than one patient on the one occasion.

Antenatal Care

Eligible maternity care plan service

There is one MBS item available for eligible midwife practitioners to undertake a comprehensive assessment of and prepare a written maternity care plan for a woman, who is not an admitted patient of a hospital, across a pregnancy that has progressed beyond 20 weeks. It is expected that the care plan would be agreed with the woman and detail such things as agreed expectation, health problems and care needs and appropriate referrals, medication and diagnostic tests.

Number of services

Only one (1) midwifery care plan is payable in any pregnancy.

Antenatal Attendances

Medicare benefits are payable for an antenatal service where a midwife provides a clinically relevant service in respect of a miscarriage. Medicare benefits are not payable for an antenatal attendance associated with the confinement. The confinement items 82120 and 82125 include all associated attendances.

Any clinically relevant indication that requires an antenatal attendance by a midwife on an admitted patient in hospital, but that is not associated with the confinement, will attract a Medicare benefit.

Number of services

Only one (1) initial antenatal attendance under item 82100 is payable in any pregnancy.

There is no limit attached to long and short antenatal attendances by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

Management of Confinement

The MBS includes two items for management of confinement by a participating midwife; 82120 for a confinement of up to 12 hours, and 82125 for a confinement where labour is in excess of 12 hours, and the woman's care has been transferred to another participating midwife.

Medicare benefits are payable under items 82120 and 82125 whether or not the participating midwife undertakes the delivery i.e. including where the woman's care is escalated to an obstetrician during labour or for the delivery.

Medicare benefits are only payable where the service is provided to a woman who is an admitted patient of a hospital, including a hospital birthing centre. For Medicare benefit purposes a confinement is taken to commence when the participating midwife attends a patient that is in labour and who has been admitted to the hospital for confinement and delivery. The time period for these items is the period for which the midwife is in exclusive and continuous attendance on the woman for labour, and delivery where performed.

Medicare benefits are only payable for management of confinement where the participating midwife undertaking the service has provided the patient's antenatal care or who is a member of a practice that provided the patient's antenatal care.

It is not intended that these items be claimed routinely by midwives who do not intend to undertake the delivery i.e. where the midwife has arranged beforehand for a medical practitioner to undertake the delivery. Where the midwife does not undertake the delivery it is because:

- care was transferred to a second midwife for management of labour which had exceeded 12 hours; or
- there was a clinical need to escalate care to an obstetrician or medical practitioner who provides obstetric services; or
- the patient's care was transferred from the first midwife to another participating midwife in exceptional circumstances.

Number of services

Only one (1) confinement item 82120 is payable in any pregnancy, except where exceptional circumstances have required the patient's care to be transferred from the first midwife to another participating midwife. In these circumstances, both midwives may bill an item 82120 service.

Medicare rebates are only payable for (1) confinement item 82125.

Postnatal Care

In addition to the long and short antenatal attendance items for postnatal care in the first 6 weeks post delivery the MBS provides for a 6 week postnatal check, after which the woman would be referred back to her usual GP.

Number of services

Only one (1) postnatal check by a participating midwife is payable in any pregnancy.

There is no limit attached to long and short postnatal attendances by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

MN.13.17 Conditions Governing the Provision and Claiming of Items

Service length and type

Services under these items must be for the time period specified within the item descriptor.

Professional attendance for MBS items 82100, 82105, 82110, 82115, 82130, 82135, 82140 may be provided in an appropriate setting that includes but is not limited to: the woman's home, a midwifery group practice, a midwife practitioner's rooms or a medical practice.

MN.13.18 Referral Requirements

A participating midwife will be able to refer women to specialist obstetricians and paediatricians as clinical services dictate.

This measure does not include referral by a midwife for allied health care. If a participating midwife refers a patient to an allied health practitioner, no benefits would be payable for that service.

Medicare benefits are not payable specifically for services provided by a lactation consultant at this time. Medicare benefits would be payable for breast feeding support provide as part of the postnatal care by the participating midwife.

A referral is valid for 12 months to cover the confinement (antenatal, birthing and postnatal care for 6 weeks post delivery). Should there be a new pregnancy in that period, a new referral will be required.

A new pregnancy represents a new episode of care.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring midwife. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

If a specialist provides a consultation without a referral, the specialist's consultation would not attract Medicare benefits at the specialist rate.

There are exemptions from this requirement in an emergency if the specialist considers the patient's condition requires immediate attention without a referral. In that situation, the specialist is taken to be the referring practitioner.

If a referral is lost, stolen or destroyed, the midwife would need to provide a replacement referral as soon as is practicable after the service is provided.

If the woman is a privately admitted patient of a hospital a letter or note is not required. The referring midwife would make a notation in the woman's hospital, which he or she would sign, approving the referral.

A referral is not required to transfer a woman's care during the intra-partum period under items 16527 and 16528. The midwife would make a signed notation in the woman's clinical record approving the transfer of care.

A referral is not required to refer the woman back to her GP after the 6 week postnatal period. The midwife would provide a discharge summary to the GP outlining her maternity history and any relevant clinical issues, which would also be recorded on the patient's notes.

MN.13.19 Requesting Requirements
Pathology Services

Determination of Necessity of Service

The participating midwife requesting a pathology service for a woman must determine that the pathology service is necessary.

Request for Service

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

Pathology Services approved for participating midwives

FBC (item 65070)	vaginal /anal swab/GBS (69312)* varicella 69384 - 69401 (antibody test) parvo virus 69384 - 69401
Hb (item 65060)	rubella titre syphilis Hep B/C - items 69405, 69408, 69411, 69413 or 69415 HIV
Group and antibodies (items 65090, 65093, 65096) glucose load (items 66545, 66548)	Serum Bilirubin (SBR); 66500
Downs Syndrome/ Spina Bifida (items 66743, 66750, 66751)	Direct Coombs; 65114
eye swab (69303)	Blood glucose level (item 66500)
skin swab (69306)	Cord PH and gases cord (O2 and CO2) (Item 66566)
skin scrapings (69309)	Group and Hold (item 65099)
Chlamydia (item 69316)	Coagulation Studies (items 65129, 65070)
Gonorrhea (item 69317)	Mid stream urine (item 69324)
Cervical screening (items 73070, 73071, 73075, 73076)	HCG (item 73529)

Diagnostic Imaging Services

Determination of Necessity of Service

The participating midwife requesting a diagnostic imaging service for a woman must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

Request for Service

The service may only be provided in response to a request from the treating practitioner, and the request must be in writing, signed and dated.

The request does not have to be in a particular form. However, legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

Ultrasound:

Routine morphology scan (item 55706)	Nuchal Translucency (item 55707)
Early dating scan (item 55700)	Post 22 weeks scan (item 55718)
Scan at 12-16 weeks (item 55704)	

MN.14.1 Participating Nurse Practitioners Services - Overview

As at 1 November 2010, Medicare benefits are payable for services provided by privately practising participating nurse practitioners in collaboration with other health care providers. Participating nurse practitioners can also request certain pathology and diagnostic imaging services for their patients and refer patients to specialist, as the clinical need arises. The nurse practitioner services that attract a Medicare benefit are identified in the Medicare Benefits Schedule (MBS) by an item number and the each item describes the service requirements and schedule fee.

MN.14.2 Eligible Nurse Practitioners

Under the legislation, to be an eligible nurse practitioner the nurse practitioner must be registered or authorised (however described) under State and Territory law. The nurse practitioner must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia (NMBA).

This standard was developed for the purposes of the National Registration and Accreditation Scheme (NRAS), a single regulation and accreditation scheme for health professionals, including nurse practitioners. Additional information is available at the Australian Health Practitioners Regulation Agency (AHPRA) website at: <http://www.ahpra.gov.au/index.php>

MN.14.3 Provider Numbers

To access the Medicare arrangements, eligible nurse practitioners will need to apply to the Department of Human Services for a provider number. A separate provider number is required for each location at which a nurse practitioner practices.

Advice about registering with the Department of Human Services to provide nurse practitioner services using items 82200 to 82215 inclusive, is available from the Department of Human Services provider inquiry line on 132 150.

Medicare provider application forms for nurse practitioners can be downloaded from [the Department of Human Services' website](#).

MN.14.4 Participating Nurse Practitioners

To provide services under Medicare, the legislation requires that a nurse practitioner be a participating nurse practitioner. A participating nurse practitioner is an eligible nurse practitioner who has a Medicare provider number and who provides Medicare services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

MN.14.5 Collaborative Arrangements

Under the Medicare program collaboration is having arrangements in place with a medical practitioner/s to consult, refer or transfer care as clinical needs dictate, to ensure safe, high quality maternity care. Under Medicare a collaborative arrangement can be with any medical practitioner.

Collaborative arrangement can be established in the following ways:

- a) being employed or engaged by 1 or more specified medical practitioners or by an entity that employs or engages 1 or more specified medical practitioners; OR
- b) receiving patients by referral in writing to the nurse practitioner for treatment from a specified medical practitioner, OR
- c) having a signed written agreement with one or more specified medical practitioners, OR
- d) having an arrangement with and acknowledged by at least one specified medical practitioners. This includes keeping comprehensive notes on all instances of consultation, referral and transfer of care, diagnostic tests requested and the test results and providing the collaborating practitioner/s with those results.

The legislation requires that collaborative arrangements must be in place at the time the participating nurse practitioner provides the service. The legislation requires that for each kind of collaborative arrangement, at least one medical practitioner is needed; it is not possible for the nurse practitioner to have a collaborative arrangement with an entity such as a health service.

- a) Being employed or engaged by a medical practice or an entity

An entity may refer to a hospital or community health centre. For a nurse practitioner to have a collaborative arrangement in these circumstances, that nurse practitioner must be employed or engaged by an entity that also employs or engages 1 or more specified medical practitioners.

The terms employ or engage covers both employees and contractors. This will cover an eligible nurse practitioner who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one medical practitioner.

There must be at least one specified medical practitioner employed or engaged by the entity each time the nurse practitioner renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.

- b) Referral from a medical practitioner

A participating nurse practitioner's patient will be able to access the MBS and PBS if a patient has been referred in writing to the nurse practitioner by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.

- c) Written agreement with a medical practitioner

A nurse practitioner's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more doctors. The agreement must be signed by the nurse practitioner and a doctor. The arrangement must deal with consultation, referral and transfer to a doctor.

- d) Arrangement with, acknowledged by a medical practitioner.

Evidence of 'acknowledgement' by a medical practitioner for each patient for whom the nurse practitioner provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a nurse practitioner could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the nurse practitioner's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

The nurse practitioner is required to record in written records any communications in regard to consultations, referral and transfer of the patient's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The nurse practitioner is also required to send a copy of all pathology and diagnostic

imaging results to a named medical practitioner and to record in the nurse practitioner's written records when this occurs (however, there is no requirement that the nurse practitioner consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

MN.14.6 Schedule Fees and Medicare Benefits

Each nurse practitioner service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description. The Medicare benefit for nurse practitioner services rendered to non-admitted patients is 85% of the Schedule fee.

MN.14.7 Where Medicare Benefits are not payable

Medicare benefits are not available:

- a. where the service rendered does not meet the item description and associated requirements;
- b. where the nurse practitioner service is not personally performed by the participating nurse practitioner;
- c. for any time period in the consultation periods when the patient is not receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings;
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances; and
- f. group sessions.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings.

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

MN.14.8 Billing of the Patient

Where the nurse practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the Health Insurance Act and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;

(d) The name and practice address and provider number of the participating nurse practitioner who actually rendered the service; (where the participating nurse practitioner has more than one practice location recorded with the Department of Human Services, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

MN.14.9 Assignment of Benefits (Direct-Billing Arrangements)

Under the Health Insurance Act the Assignment of Benefit (direct billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If a participating nurse practitioner direct-bills, the participating nurse practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient.

Under these arrangements:

The patient's Medicare card number must be quoted on all direct bill forms for that patient.

The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.

The forms include information required by Regulations under Subsection 19(6) of the Health Insurance Act.

The nurse practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient to receive a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the nurse practitioner, nurse practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the direct billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of the Department of Human Services. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

MN.14.10 Assignment of Benefit Forms

Participating nurse practitioners wishing to direct-bill are required to use a specific form available from the Department of Human Services. This stationary is available from the Department of Human Services. Note that these forms are approved forms under the Health Insurance Act, and no other forms can be used to assign benefits without the approval of the Department of Human Services. Further information about direct-billing stationary can be obtained by telephoning 132150.

MN.14.11 Time Limits applicable to lodgement of claims for assigned benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

MN.14.12 Overview of the Nurse Practitioner items

Services provided by participating nurse practitioners are covered by MBS items 82200, 82205, 82210, 82215. These items cover four time-tiered specific types of service that allow the participating nurse practitioner to perform a:

professional attendance for an obvious problem, straight forward in nature, with limited examination and management required (82200)

professional attendance for a patient presenting with clinical signs and symptoms with an easily identifiable underlying cause following a short consultation lasting less than 20 minutes duration (item 82205)

professional attendance for a patient presenting with clinical signs and symptoms with no obvious underlying cause requiring a more detailed consultation lasting at least 20 minutes duration (item 82210);

professional attendance for a patient presenting with multiple clinical signs and symptoms with the possibility of multiple causes and outcomes requiring an extensive consultation of at least 40 minutes (item 82215);

MN.14.13 Nurse Practitioner services attracting Medicare rebates

Medicare Benefits are only payable for clinically relevant services. Clinically relevant in relation to nurse practitioner care means a service generally accepted by the nursing profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating nurse practitioner provides care to not more than one patient on one occasion.

MN.14.14 Conditions governing the provision and claiming of items

Service length and type

Services under these items must be for the time period specified within the item descriptor.

Professional attendance for MBS items 82200, 82205, 82210, 82215, may be provided in an appropriate setting that includes but is not limited to: the patient's home, a nurse practitioner group practice, a nurse practitioner's rooms or a medical practice.

MN.14.15 Referral requirements

A participating nurse practitioner will be able to refer private patients to a specialist and consultant physician as clinical services dictate.

This measure does not include referral by a nurse practitioner for allied health care. If a participating nurse practitioner refers a patient to an allied health practitioner, no benefits would be payable for that service provided by the allied health professional.

A referral given by a participating nurse practitioner is valid until 12 months after the first service given in accordance with the referral.

If the referral is lost, stolen or destroyed, the nurse practitioner would need to provide a replacement referral as soon as is practicable after the service is provided.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring nurse practitioner. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

There are exemptions from this requirement in an emergency if the specialist considers the patient's condition requires immediate attention without a referral. In that situation, the specialist is taken to be the referring practitioner.

MN.14.16 Requesting requirements **Pathology Services**

Determination of Necessity of Service

The participating nurse practitioner requesting a pathology service for a patient must determine that the pathology service is necessary.

Request for Service

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

Pathology Services approved for participating nurse practitioners

Nurse practitioners may request MBS pathology items 65060 - 73810 (inclusive). Requesting pathology services must be within the nurse practitioner's scope of practice.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health's website at www.health.gov.au/mbsonline.

Diagnostic Imaging Services

Determination of Necessity of Service

The participating nurse practitioner requesting a diagnostic imaging service for a patient must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

Request for Service

The service may only be provided in response to a request from the treating nurse practitioner, and the request must be in writing, signed and dated. The legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

Ultrasound:

Subgroup 1: General Ultrasound

MBS item: 55036 (abdomen)

MBS items: 55070, 55076 (breast)

Subgroup 4: Urological

MBS item: 55600 (prostate)

Subgroup 5: Obstetric and Gynaecological

MBS item: 55768

Subgroup 6: Musculoskeletal

MBS items: 55800, 55804, 55808, 55812, 55816, 55820, 55824, 55828, 55832, 55836, 55840, 55844, 55848, 55850, 55852

X-ray:

Subgroup 1: Radiographic examination of the extremities

MBS items: 57509, 57515, 57521

subgroup 6: Radiographic examination of the thoracic region

MBS items: 58503 - 58527 (inclusive)

MN.15.1 Brain Stem Evoked Response Audiometry - (Item 82300)

Item 82300 can be claimed for the programming of a cochlear speech processor.

MN.15.2 Non-Determinate Audiometry - (Item 82306)

This refers to audiometry covering those services, one or more, referred to in Items 82309-82318 when not performed under the conditions set out in paragraph M15.3.

MN.15.3 Conditions for Audiology Services - (Items 82309 to 82318)

A service specified in Items 82309 to 82318 shall be taken to be a service for the purposes of payment of benefits if, and only if, it is rendered:

- (a) in conditions that allow the establishment of determinate thresholds;
- (b) in a sound attenuated environment with background noise conditions that comply with Australian Standard AS/NZS 1269.3-2005; and
- (c) using calibrated equipment that complies with Australian Standard AS IEC 60645.1-22002, ASIEC60645.2-2002 and AS IEC 60645.3-2002.

MN.15.4 Oto-Acoustic Emission Audiometry - (Item 82332)

Medicare benefits are not payable under Item 82332 for routine screening of infants. The equipment used to provide this service must be capable of displaying the recorded emission and not just a pass/fail indicator.

MN.15.5 Provision of Diagnostic Audiology Services by Audiologists - (Items 82300 to 82332)

OVERVIEW

The diagnostic audiology services available through MBS items 82300 to 82332 enable an eligible audiologist to perform diagnostic tests upon written request from an Ear, Nose and Throat (ENT) specialist (a specialist in the

specialty of otolaryngology head and neck surgery); or for some services, a written request from a neurologist (a specialist or consultant physician in the specialty of neurology).

These diagnostic audiology services assist ENT specialists and neurologists in their medical diagnosis and/or treatment and/or management of ear disease or related disorders. The new diagnostic audiology items supplement the existing Otolaryngology items for services delivered by, or on behalf of medical practitioners (MBS items 11300 to 11339, excluding 11304).

Requesting arrangements

Medicare benefits are payable only under the following circumstances:

- For items 82300 and 82306, the written request must be made by an eligible practitioner who is a specialist in the specialty of otolaryngology head and neck surgery;
- For items 82309 to 82332, the written request must be made by an eligible practitioner who is a specialist in the specialty of otolaryngology head and neck surgery or a specialist or consultant physician in the specialty of neurology.

The written request must be in writing and must contain:

- (a) the date of the request; and
- (b) the name of the eligible practitioner who requested the service and either the address of his or her place of practice or the provider number in respect of his or her place of practice; and
- (c) a description of the service which provides sufficient information to identify the service as relating to a particular item (but need not specify the item number).

Written requests should, where possible, note the clinical indication/s for the requested service/s.

A request may be for the performance of more than one diagnostic audiology service making up a single audiological assessment, but cannot be for more than one audiological assessment. This means that for Medicare benefits to be payable, any re-evaluation of the patient should be made at the discretion of the ENT specialist or neurologist through a separate request.

Audiologists do not have the discretion to self-determine diagnostic tests under items 82300 to 82332. If a written request is incomplete or requires clarification, the audiologist should contact the requesting ENT specialist or neurologist for further information. If an audiologist considers that additional tests may be necessary, the audiologist should contact the requesting ENT specialist or neurologist to discuss the need and if the requesting practitioner determines that additional tests are necessary, an amended or separate written request must be arranged.

It is recommended that audiologists retain the written request for 24 months from the date the service was rendered (for Medicare auditing purposes). A copy of the written request is not required to accompany Medicare claims or be attached to patients' itemised accounts/receipts or assignment of benefit forms.

Eligibility requirements for audiologists

The diagnostic audiology items (82300 to 82332) can only be claimed by audiologists who are registered with the Department of Human Services. To be eligible to register with the Department of Human Services to provide these services, audiologists must meet the following requirements:

Audiologists must be either:

- a 'Full Member' of the Audiological Society of Australia Inc (ASA), who holds a 'Certificate of Clinical Practice' issued by the ASA; or
- an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

Registering with the Department of Human Services

Provider registration forms may be obtained from Medicare on 132 150 or at www.humanservices.gov.au.

Changes to provider details

Audiologists must notify the Department of Human Services in writing of all changes to mailing details to ensure that they continue to receive information about Medicare services.

Reporting requirements

Where an audiologist provides diagnostic audiology service/s to the patient under a written request, they must provide a copy of the results of the service/s performed together with relevant written comments on those results to the requesting ENT specialist or neurologist. It is recommended that these be provided within 7 days of the date the service was performed.

Out-of-pocket expenses and Medicare Safety Net

Audiologists can determine their own fees for the professional service. Charges in excess of the Medicare benefit are the responsibility of the patient. However, out-of-pocket costs will count toward the Medicare Safety Net for that patient.

Publicly funded services

Items 82300 to 82332 do not apply for services that are provided by any Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the Health Insurance Act 1973 has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 82300 to 82332 can be claimed for services provided by audiologists salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the audiologist with the Department of Human Services. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e. the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.16.1 Eating Disorders General Explanatory Notes

Eating Disorders General Explanatory Notes (items 82350-82383)

This note provides a general overview of the full range of 1 November 2019 eating disorders items and supporting information more specifically on the on the Category 8 – Miscellaneous Services: Group M16 – Eating disorders services (82350-82383).

It includes an overview of the items, model of care, patient eligibility, and links to other guidance and resources.

Overview

All 1 November 2019 Eating Disorders new items:

The Eating Disorders items define services for which Medicare rebates are payable where service providers undertake assessment and management of patients with a diagnosis of anorexia nervosa and patients with other specified eating disorder diagnoses who meet the eligibility criteria (see – patient eligibility). It is expected that there will be a multidisciplinary approach to patient management through these items.

The items mean eligible patients are able to receive a Medicare rebate for development of an eating disorders treatment plan by a medical practitioner in general practice (Group A36, subgroup 1), psychiatry or paediatrics (Group A36, subgroup 2). Patients with an eating disorders treatment and management plan (EDP) will be eligible for comprehensive treatment and management services for a 12 month period, including:

- Up to 20 dietetic services under items 10954, 82350 and 82351.
- Up to 40 eating disorder psychological treatment services (EDPT service).
- Review and ongoing management services to ensure that the patient accesses the appropriate level of intervention (Group A36, subgroup 3).

An EDPT service includes mental health treatment services which are provided by an allied health professional or a medical practitioner in general practice with appropriate mental health training. These treatment services include:

- Medicare mental health treatment services currently provided to patients under the 'Better Access to Psychiatrists, Psychologists and General Practitioners through the MBS ('Better Access') initiative.
 - This includes medical practitioner items 2721, 2723, 2725, 2727, 283, 285, 286, 287, 371, 372; and
 - This includes allied health items in Groups M6 and M7 of Category 8; and
- new items for EDPT services provided by suitably trained medical practitioners in general practice (items 90271, 90272, 90273, 90274, 90275, 90276, 90277, 90278, 90279, 90280, 90281, 90282)
- new items for EDPT services provided by eligible clinical psychologists (items 82352-82359), eligible psychologists (items 82360-82367), eligible occupational therapists (items 82368-82375) and eligible social workers (items 82376-82383)

For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.

Patient Eligibility

The eating disorder items are available to eligible patients in the community. These items do not apply to services provided to admitted (in-hospital) patients.

The referring practitioner is responsible for determining that a patient is eligible for an EDP and therefore EDPT and dietetic services.

'Eligible patient' defines the group of patients who can access the new eating disorder services. There are two cohorts of eligible patients.

1. Patients with a clinical diagnosis of anorexia nervosa; or
2. Patients who meet the eligibility criteria (below), and have a clinical diagnosis of any of the following conditions:
 - i. bulimia nervosa;
 - ii. binge-eating disorder;
 - iii. other specified feeding or eating disorder.

The eligibility criteria, for a patient, is:

- a. a person who has been assessed as having an Eating Disorder Examination Questionnaire score of 3 or more; and
- b. the condition is characterised by rapid weight loss, or frequent binge eating or inappropriate compensatory behaviour as manifested by 3 or more occurrences per week; and
- c. a person who has at least two of the following indicators:

- i. clinically underweight with a body weight less than 85% of expected weight where weight loss is directly attributable to the eating disorder;
- ii. current or high risk of medical complications due to eating disorder behaviours and symptoms;
- iii. serious comorbid medical or psychological conditions significantly impacting on medical or psychological health status with impacts on function;
- iv. the person has been admitted to a hospital for an eating disorder in the previous 12 months;
- v. inadequate treatment response to evidence based eating disorder treatment over the past six months despite active and consistent participation.

The Eating Disorders Items Stepped Model of Care

The eating disorder items incorporate a ‘stepped model’ for best practice care for eligible patients with eating disorders that comprise:

- assessment and treatment planning
- provision of and/or referral for appropriate evidence based eating disorder specific treatment services by allied mental health professionals and provision of services by dietitians
- review and ongoing management items to ensure that the patient accesses the appropriate level of intervention.

The Stepped Model

‘STEP 1’ – PLANNING (trigger eating disorders pathway) 90250-90257 and 90260-90263

An eligible patient receives an eating disorder plan (EDP) developed by a medical practitioner in general practice (items 90250-90257), psychiatry (items 90260-90262) or paediatrics (items 90261-90263).

‘STEP 2’ – COMMENCE INITIAL COURSE OF TREATMENT (psychological & dietetic services)

Once an eligible patient has an EDP in place, the 12 month period commences, and the patient is eligible for an initial course of treatment up to 20 dietetic services and 10 eating disorder psychological treatment (EDPT) services. A patient will be eligible for an additional 30 EDPT services in the 12 month period, subject to reviews from medical practitioners to determine appropriate intensity of treatment.

‘STEP 3’ – CONTINUE ON INITIAL COURSE OF TREATMENT 90264-90269 (managing practitioner review and progress up to 20 EDPT services)

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90269), to assess the patient’s progress against the EDP or update the EDP, before they can access more than 10 EDPT services. This is known as the ‘first review’. The first review should be provided by the patient’s managing practitioner, where possible.

‘STEP 4’ FORMAL SPECIALIST AND PRACTITIONER REVIEW 90266-90269 (continue beyond 20 EDPT services)

A patient must have two additional reviews before they can access more than 20 EDPT services. One review (the ‘second review’) must be performed by a medical practitioner in general practice (who is expected to be the managing practitioner), and the other (the ‘third review’) must be performed by a paediatrician (90267 or 90269) or psychiatrist (90266 or 90268). Should both recommend the patient requires more intensive treatment, the patient would be able to access an additional 10 EDPT services in the 12 month period. These reviews are required to determine that the patient has not responded to treatment at the lower intensity levels.

The patient’s managing practitioner should be provided with a copy of the specialist review.

The specialist review by the psychiatrist or paediatrician can occur at any point before 20 EDPT services. The practitioner should refer the patient for specialist review as early in the treatment process as appropriate. If the

practitioner is of the opinion that the patient should receive more than 20 EDPT services, the referral should occur at the first practitioner review (after the first course of treatment) if it has not been initiated earlier.

Practitioners should be aware that the specialist review can be provided via telehealth (90268 and 90269). Where appropriate, provision has been made for practitioner participation on the patient-end of the telehealth consultation.

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90269), to assess the patient's progress against the EDP or update the EDP, before they can access the next course of treatment.

‘STEP 5’ ACCESS TO MAXIMUM INTENSITY OF TREATMENT 90266-90269 (continue beyond 30 EDPT services)

To access more than 30 EDPT treatment services in the 12 month period, patients are required to have an additional review (the ‘fourth review’) to ensure the highest intensity of treatment is appropriate. Subject to this review, a patient could access the maximum of 40 EDPT treatment services in a 12 month period. The fourth review should be provided by the patient's managing practitioner, where possible.

An Integrated Team Approach

A patient's family and/or carers should be involved in the treatment planning and discussions where appropriate. The family can be involved in care options throughout the diagnosis and assessment, and are usually the support unit that help to bridge the gap between initial diagnosis and eating disorder specific treatment.

The National Standards for the safe treatment of eating disorders specify a multi-disciplinary treatment approach that provides coordinated psychological, physical, behavioural, nutritional and functional care to address all aspects of eating disorders. People with eating disorders require integrated inter-professional treatment that is able to work within a framework of shared goals, care plans and client and family information. Frequent communication is required between treatment providers to prevent deterioration in physical and mental health (RANZCP Clinical Guidelines: Hay et al., 2014). Consider regular case conferencing to ensure that the contributing team members are able to work within a shared care plan and with client and carers to achieve best outcomes.

Clinical guidelines and other resources

Eating Disorders Training

It is expected that allied health professionals who are providing services under these items have appropriate training, skills and experience in treatment of patients with eating disorders and meet [the national workforce core competencies](#) for the safe and effective identification of and response to eating disorders more information available at [National Eating Disorders Collaboration](#)

Training Services

Allied health professionals should contact their professional organisation to identify education and training which may assist to practitioners to gain the skills and knowledge to provide services under these items.

The following organisations provide training which may assist practitioners to meet the workforce competency standards:

- The Australia and New Zealand Academy of eating disorders (ANZAED) - National
- InsideOut Institute - National
- The Victorian Centre of Excellence in Eating Disorders (CEED) - VIC
- Queensland Eating Disorder Service (QuEDS) - QLD
- Statewide Eating Disorder Service (SEDS) - SA
- WA Eating Disorders Outreach & Consultation Service (WAEDOCS) – WA

This list is not exhaustive, but has been included to provide examples on the types of training available which may assist practitioners to upskill in this area.

MN.16.2 Eating Disorders Dietetic Treatment Services

Eating Disorders Dietetic Treatment Services (82350 and 82351)

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroup 1 (82350-82351) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes.

Eating Disorder Dietetic Treatment Services Overview

Provision of eating disorder dietetic services by a suitably trained Dietitian (82350 and 82351) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

A patient with an EDP plan can access up to 20 dietetic services under items 10954, 82350 and 82351 in a 12 Month Period. For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing eating disorders dietetic services.

Provider Eligibility

In order to provide eating disorder dietetic services, Dietitians must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

Checking patient eligibility for services

Note: The 12 month period commences from the date of the EDP.

Patients seeking rebates for eating disorders dietetic services must have had an Eating Disorder Treatment Plan (EDP) 90250-90257 or 90260-90263 in the previous 12 Months. The plan must require that the patient needs dietetic services for treatment of their eating disorder, and the patient must be provided with a referral for access to the dietetic health services.

If the EDP service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

Support:

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call the Department of Human Services on 132 150 to check this information, while patients can seek clarification by calling 132 011.

Additional Claiming Information (general conditions and limitations)

Reporting Back

After each course of treatment, the relevant dietitian is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

Written reports should include, at a minimum:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

MN.16.3 Eating Disorders Psychological Treatment (EDPT) Services

Eating Disorders Psychological Treatment (EDPT) services (82352-82383)

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroups 2-5 (82352-82383) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes

For the purpose of this note Allied mental health professional is the generic term used to describe providers eligible to provider services under these items, including; clinical psychologists, registered psychologists, eligible accredited mental health social workers and eligible occupational therapists.

Eating Disorder Psychological Treatment (EDPT) Services Overview

Provision of EDPT services by a suitably trained Allied mental health professional (82352-82383) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

There are 24 items for the provision of eating disorder specific evidence based psychological treatment services by eligible allied mental health professionals:

- clinical psychologists (item 82352-82359)
- registered psychologists (item 82360-82367)
- occupational therapists (82368- 82375)
- accredited mental health social workers (items 82376-82383)

Psychological Treatment Service

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90263 in the previous 12 Months.

An 'eating disorder psychological treatment service' (EDPT) is defined in the MN.16.1 Eating Disorders General Explanatory Note. For any particular patient, an eating disorder treatment and management plan expires at the end of

a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.

Rendering an EDPT item

Who can provide the service

In order to provide EDPT services, the allied mental health professional must be recognised by the Department of Human Services as eligible to provide focussed psychological strategies (FPS) services under the Better Access to Mental Health items (see Provider Eligibility for more information).

What is Involved in an EDPT service

The eating disorder items incorporate a 'stepped model' for best practice care for eligible patients with eating disorders. Under the Eating Disorders Items Stepped Model of Care a course of treatment is defined as 10 eating disorder psychological treatment (EDPT) services. It is required that a patient must have a review (an EDR item in subgroup 3 of A36) after each course of treatment (see MN.16.1 Eating Disorders General Explanatory Notes).

A range of acceptable treatments has been approved for use by practitioners in this context. It is expected that professionals will have the relevant education and training to deliver these services. The approved treatments are:

- Family Based Treatment for Eating Disorders (EDs) (including whole family, Parent Based Therapy, parent only or separated therapy)
- Adolescent Focused Therapy for EDs
- Cognitive Behavioural Therapy (CBT) for EDs (CBT-ED)
- CBT-Anorexia Nervosa (AN) (CBT-AN)
- CBT for Bulimia Nervosa (BN) and Binge-eating Disorder (BED) (CBT-BN and CBT-BED)
- Specialist Supportive Clinical Management (SSCM) for EDs
- Maudsley Model of Anorexia Treatment in Adults (MANTRA)
- Interpersonal Therapy (IPT) for BN, BED
- Dialectical Behavioural Therapy (DBT) for BN, BED
- Focal psychodynamic therapy for EDs

After each course of treatment, the relevant allied mental health professional is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

Written reports should include, at a minimum:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

Checking patient eligibility for services

Note: The 12 month period commences from the date of the EDP.

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90263 in the previous 12 Months. The plan must require that the patient needs mental health services for treatment of their eating disorder, and the patient must be provided with a referral for access to the allied health services.

If the EDP service has not yet been claimed, the Department of Human Services will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

Support:

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call the Department of Human Services on 132 150 to check this information, while patients can seek clarification by calling 132 011.

Provider Eligibility

Advice about registering with the Department of Human Services to provide focussed psychological strategies - allied mental health services is available from the Department of Human Services provider inquiry line on 132 150.

Eligible clinical psychologist - [MN.6.4 - Clinical Psychologist Professional Eligibility](#)

Eligible allied health professionals

A person is an allied health professional in relation to the provision of Better Access to Mental Health items if the person meets one of the following requirements:

- a. the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- b. the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- c. the person:
 - i. is an occupational therapist who is registered with the Australian Health Practitioners Regulatory Agency as a person who can provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and
 - ii. is accredited by Occupational Therapy Australia as:
 - having a minimum of two years experience in mental health; and
 - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006; and
 - having undertaken to observe the standards set out in the 2018 'Australian Occupational Therapy Competency Standards' published the Occupational Therapy Board of Australia.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational therapists and accredited mental health social workers providing FPS services are required to have completed 10hours FPS CPD. A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

Additional Claiming Information (general conditions and limitations)

Other than Consultation Room (items 82354, 82357, 82362, 82365, 82370, 82373, 82378, 82381)

It is expected that this service would be provided only for patients who are unable to attend the practice.

MN.16.4 Eating Disorders Services Telehealth

Eating Disorders Services Telehealth – (items 82351, 82353, 82356, 82359, 82361, 82364, 82367, 82369, 82372, 82375, 82377, 82380, 82383)

This note provides telehealth supporting information for eating disorders Items provided via telehealth by a medical practitioner in general practice and should be read in conjunction with Eating Disorders General Explanatory Notes.

Eligible Geographical Areas

Geographic eligibility for eating disorders telehealth services funded under Medicare (in Group M16) is determined according to the Modified Monash Model (MMM) classifications. Telehealth Eligible Areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health's website at Health Workforce Locator.

There is a requirement for the patient and practitioner to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between practitioner and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the practitioner is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

Record Keeping

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Aftercare Rule

Video consultations are subject to the same aftercare rules as allied health practitioners providing face-to-face consultations.

Multiple Attendances on the Same Day

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different clinical psychologist on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same clinical psychologist, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Clinical psychologists will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

MN.17.1 Bushfire Recovery Access Initiative – Mental Health Services Attracting Medicare Rebates

There are 36 MBS items for the provision of psychological therapy and focussed psychological strategies (FPS) services to patients who are considered to have had their mental health adversely affected by bushfire in the 2019-20 financial year, including 24 items for face-to-face consultations and 12 items for video conference consultations.

Patient eligibility and access to mental health services

Any patient who is considered to have had their mental health adversely affected by bushfire in the 2019-20 financial year is eligible for mental health services. Eligible patients may be identified by a medical or allied health practitioner. Alternatively, they may identify themselves and request a mental health service. The services are available to anyone whose mental health has been affected by the bushfire crisis, including residents of residential aged care facilities. Access is not restricted to people living in areas directly affected by bushfire.

Patients are not required to have a diagnosed mental health condition, GP mental health treatment plan or a referral to access the services.

Patients wishing to access the services via video conference are not required to have an existing relationship with the treating practitioner. In addition, no minimum distance requirement applies to these video conference services.

Number of services per year

Under the Bushfire Recovery Access Initiative, Medicare rebates are available for up to 10 individual mental health services in a calendar year.

The 10 services may consist of: GP/medical practitioner focussed psychological strategies services (GP items 91721 to 91731 or medical practitioner items 91283 to 91372); and/or psychological therapy services (items 91000 to 91015); and/or focussed psychological strategies - allied mental health services (items 91100 to 91115; 91125 to 91140; 91150 to 91165).

Note: Patients who meet the eligibility requirements of the Better Access to Psychiatrists, Psychologists and General Practitioners through the MBS (Better Access) initiative may receive services under that initiative and the Bushfire Recovery Access Initiative. Services received under the Bushfire Recovery Access Initiative do not count against a patient's quota of services under the Better Access Initiative.

Provider Eligibility

Eligible psychological therapy services provided by a clinical psychologist: MBS items 91000, 91001, 91005, 91010, 91011, and 91015

- An eligible clinical psychologist must be registered with Services Australia (Department of Human Services).

Focussed psychological strategies provided by an eligible GP: MBS items 91721, 91723, 91725, 91727, 91729 and 91731

Focussed psychological strategies provided by an eligible medical practitioner: 91283, 91285, 91286, 91287, 91371 and 91372

- An eligible GP or medical practitioners must registered with Services Australia (Department of Human Services) as having satisfied the requirements for higher level mental health skills for provision of the service, as determined by the General Practice Mental Health Standards Collaboration.

Focussed psychological strategies provided by an eligible psychologist: 91100, 91101, 91105, 91110, 91111 and 91115

- An eligible psychologist must hold general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided.

Focussed psychological strategies provided by an eligible occupational therapist: 91125, 91126, 91130, 91135, 91136 and 91140

- An eligible occupational therapist must be registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided, and be accredited by Occupational Therapy Australia as:
 - having a minimum of two years' experience in mental health; and
 - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

Focussed psychological strategies provided by an eligible social worker: 91150, 91151, 91155, 91160, 91161, 91165

- An eligible social worker must be a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014.

Note: In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Service length and type

Services provided by eligible medical and allied health practitioners under the Bushfire Recovery Access Initiative must be within the specified time period within the item descriptor. Practitioners must personally attend the patient face-to-face (or by video conference for items 91001, 91011, 91101, 91111, 91126, 91136, 91151, 91161, 91371, 91372, 91729 and 91731).

Psychological therapy provided by clinical psychologists

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

Focussed psychological strategies

A range of acceptable strategies has been approved for use by health professionals utilising the FPS items:

1. Psycho-education

(including motivational interviewing)

2. Cognitive-behavioural therapy including:

Behavioural interventions

- Behaviour modification

- Exposure techniques
- Activity scheduling

Cognitive interventions

- Cognitive therapy

3. Relaxation strategies

- Progressive muscle relaxation
- Controlled breathing

4. Skills training

- Problem solving skills and training
- Anger management
- Social skills training
- Communication training
- Stress management
- Parent management training

5. Interpersonal therapy (especially for depression)

6. Narrative therapy

7. Eye-Movement Desensitisation Reprocessing (EMDR)

Out of pocket expenses

Charges in excess of the Medicare benefit for these items are the responsibility of the patient.

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for services provided by allied health professionals. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MISCELLANEOUS SERVICES ITEMS

M1. MANAGEMENT OF BULK-BILLED SERVICES	
	Group M1. Management Of Bulk-Billed Services
10990	<p>A medical service to which an item in this table (other than this item or item 10991) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this table applying to the service <p>(See para MN.1.1 of explanatory notes to this Category) Fee: \$15.20 Benefit: 85% = \$12.95</p>

M9. ALLIED HEALTH GROUP SERVICES	
	Group M9. Allied Health Group Services
81100	<p>DIABETES EDUCATION SERVICE - ASSESSMENT FOR GROUP SERVICES</p> <p>Diabetes education health service provided to a person by an eligible diabetes educator for the purposes of ASSESSING a person's suitability for group services for the management of type 2 diabetes, including taking a comprehensive patient history, identifying an appropriate group services program based on the patient's needs, and preparing the person for the group services, if:</p> <ul style="list-style-type: none"> (a) the service is provided to a person who has type 2 diabetes; and (b) the person is being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a shared care plan or a GP Management Plan [ie item 721 or 732], or if the person is a resident of an aged care facility, their medical practitioner has contributed to a multidisciplinary care plan [ie item 731]; and (c) the person is referred to an eligible diabetes educator by the medical practitioner using a referral form that has been issued by the Department of Health, or a referral form that contains all the components of the form issued by the Department; and (d) the person is not an admitted patient of a hospital; and

M9. ALLIED HEALTH GROUP SERVICES

- (e) the service is provided to the person individually and in person; and
- (f) the service is of at least 45 minutes duration; and
- (g) after the service, the eligible diabetes educator gives a written report to the referring medical practitioner mentioned in paragraph (c); and
- (h) in the case of a service in respect of which a private health insurance benefit is payable - the person who incurred the medical expenses in respect of the service has elected to claim the Medicare benefit in respect of the service, and not the private health insurance benefit.

Benefits are payable once only in a calendar year for this or any other Assessment for Group Services item (including services to which items 81100, 81110 and 81120 apply).

(See para MN.9.7, MN.9.6, MN.9.2, MN.9.3, MN.9.4, MN.9.1 of explanatory notes to this Category)

Fee: \$82.35

Benefit: 85% = \$70.00

Extended Medicare Safety Net Cap: \$247.05

DIABETES EDUCATION SERVICE - GROUP SERVICE

Diabetes education health service provided to a person by an eligible diabetes educator, as a GROUP SERVICE for the management of type 2 diabetes if:

- (a) the person has been assessed as suitable for a type 2 diabetes group service under assessment item 81100, 81110 or 81120; and
- (b) the service is provided to a person who is part of a group of between 2 and 12 patients inclusive; and
- (c) the person is not an admitted patient of a hospital; and
- (d) the service is provided to a person involving the personal attendance by an eligible diabetes educator; and
- (e) the service is of at least 60 minutes duration; and
- (f) after the last service in the group services program provided to the person under items 81105, 81115 or 81125, the eligible diabetes educator prepares, or contribute to, a written report to be provided to the referring medical practitioner; and
- (g) an attendance record for the group is maintained by the eligible diabetes educator; and
- (h) in the case of a service in respect of which a private health insurance benefit is payable - the person who incurred the medical expenses in respect of the service has elected to claim the Medicare benefit in respect of the service, and not the private health insurance benefit;

- to a maximum of eight GROUP SERVICES (including services to which items 81105, 81115 and 81125 apply) in a calendar year.
