GLOSSARY

Bulk billing Where the patient assigns his/her Medicare benefit to the

dental practitioner, who then seeks payment for the service from Medicare Australia. The dental practitioner accepts the Medicare benefit payable to the patient as full payment for the service and is not able (by law) to charge the patient a

co-payment.

Chronic condition A medical condition that has been or is likely to be present

for at least six months including, <u>but not limited to</u>, asthma, cancer, cardiovascular illness, diabetes mellitus, arthritis, mental illness, musculoskeletal conditions and stroke.

Relates to the GP Management Plan item (see below).

Complex care needs A patient is considered to have complex care needs if they

require ongoing care from a multidisciplinary team consisting of their GP and at least two other health or care providers. Relates to the Team Care Arrangements item (see

below).

Dental practitioner A generic reference to dentists, dental specialists and dental

prosthetists used for the purposes of this book.

Dental specialist Endodontist, Orthodontist, Oral and Maxillofacial Surgeon,

Periodontist, Paedodontist (also known as Pedeodontist and Pedodontist), Prosthodontist, Specialist in Oral Medicine and/or Oral Pathology, Dento-maxillofacial Radiologist,

Oral Surgeon, or Special Needs Dentist.

DVA Department of Veterans' Affairs

Extended Medicare Safety

Net (EMSN)

Benefits Schedule, including medical, dental and allied health services. It is intended to protect patients and their

families against high out-of-pocket costs on these services.

Applies to all out-of-hospital services under the Medicare

For more information, see page 13.

General practitioner (GP) A generic reference to medical practitioners (including a

general practitioner, but not including a specialist or

consultant physician).

GP Management Plan

Refers to Medicare item 721 (or review item 725). Involves a GP preparing a management plan for a patient with a

a GP preparing a management plan for a patient with a chronic or terminal medical condition. Must be claimed with a TCA item (see below) before a patient can be referred

by a GP for dental services.

MBS

Medicare Benefits Schedule

Medicare benefit/rebate

The amount paid by Medicare Australia to the patient (or the dental practitioner if bulk billed) for the service. The actual amount payable will sometimes vary from the benefit level printed in the Medicare Benefits Schedule, depending on whether the patient has reached their Extended Medicare Safety Net threshold and/or their limit of \$4,250 in dental benefits.

Medicare dental item

These are listed on pages 24-65. Includes the Medicare item number, descriptor, any limits, and the Medicare benefit for the service.

Out-of-pocket costs

The patient's financial contribution to the cost of the service, ie the difference between the amount charged by the dental practitioner and the Medicare benefit paid to the patient. Some out-of-pocket costs are covered by the Extended Medicare Safety Net.

Referral form

Referral Form for Dental Services under Medicare provided by the Department of Health and Ageing. For more information, see page 17.

Team Care Arrangements (TCA)

Refers to Medicare item 723 (or review item 727). Involves a GP coordinating multidisciplinary care for a patient with a chronic or terminal medical condition where the patient requires ongoing care from a team of at least two other health or care providers. Must be claimed with a GPMP item (see above) before a patient can be referred by a GP for dental services.

EXPLANATORY NOTE N.1: HOW TO USE THE MEDICARE DENTAL ITEMS

1. Overview

This book sets out the Medicare arrangements for the Medicare chronic disease dental scheme (CDDS) for the provision of dental services to people with chronic medical conditions and complex care needs.

These arrangements commenced on 1 November 2007 with the introduction of new Medicare dental items (85011 to 87777). These items can only be claimed for dental services provided in the community. Medicare benefits are not payable where the person requires dental services in a hospital as an admitted patient, even if the patient is admitted to a hospital solely for the purpose of that dental treatment.

Eligible patients are able to receive up to \$4,250 in Medicare benefits (including Extended Medicare Safety Net benefits where applicable) for dental services over two consecutive calendar years.

To be eligible, a patient must meet certain eligibility criteria (described on page 9) and be referred by their GP to a dental practitioner.

The new Medicare items cover a comprehensive range of dental services provided by dentists, dental specialists and dental prosthetists. The Medicare items are based on the existing dental schedules used by the Department of Veterans' Affairs (DVA), with some modifications.

One of the key differences from the DVA dental arrangements is that, under Medicare, dental practitioners are free to set their own fees for services. Practitioners may choose to either bulk bill the patient, or charge above the Medicare rebate level. In the latter case, the patient will have an out-of-pocket cost that is not covered by Medicare.

Unlike the DVA arrangements, prior approval by a dental adviser is not required for any of the Medicare dental items. There are also no "fee-by-negotiation" items under Medicare. Instead, each Medicare item has a specific rebate amount.

There is a checklist to assist dental practitioners in using the Medicare dental items (see page 16).

2. Which dental practitioners are eligible to use the dental items?

The dental items can be used by eligible dentists, dental specialists and dental prosthetists.

To be eligible, the dental practitioner must be:

- a recognised dentist, dental specialist or dental prosthetist who is registered or licensed under relevant state or territory law (with some limitations for dental prosthetists see page 18); and
- registered with Medicare Australia (registration means having a Medicare provider/registration number for each practice location).

Dental practitioners may obtain the provider number/registration application form and the dental speciality registration form from Medicare Australia on 132 150 or at www.medicareaustralia.gov.au.

Most dentists and dental specialists will already be registered with Medicare Australia prior to 1 November 2007 (eg to order diagnostic imaging or pathology tests under Medicare, or to use the existing EPC dental items).

Dentists

Where a dentist already has a Medicare provider/registration number, you will <u>not</u> need to re-register to use the new dental items.

Dental Specialists

The following dental specialists who are already registered with Medicare Australia and recognised by Medicare Australia in their relevant specialty, do <u>not</u> need to re-register to provide services under this initiative. They may use their current Medicare provider/registration number to provide services using items 86012-86986:

• Endodontists, Orthodontists, Periodontists, Paedodontists (also known as Pedeodontists and Pedodontists), Prosthodontists, Specialists in Oral Medicine and/or Oral Pathology.

Some Oral and Maxillofacial Surgeons will need to re-register with Medicare Australia - see page 18.

From 1 November 2007 the following dental specialties were recognised by Medicare Australia for the first time:

• Dento-maxillofacial radiology, Oral Surgery and Special Needs dentistry.

Practitioners in these specialties, who are already registered with Medicare Australia as a dentist, will need to register separately to provide services using the dental specialist items 86012-86986.

Dental Prosthetists

All dental prosthetists will need to apply for a provider/registration number with Medicare Australia to use the dental items. More information on eligibility for dental prosthetist registration is set out at page 18.

3. Which patients are eligible for dental services?

It is up to the GP to determine whether a patient is eligible for referral to a dental practitioner with reference to the following criteria.

<u>Firstly</u>, a person must:

- have a chronic medical condition and complex care needs (see below for more information); and
- their oral health must also be impacting on, or likely to impact on, their general health.

In practice, this means that the patient must have received the following GP care planning services in the last two years:

- a GP Management Plan (Medicare item 721 or 725); and
- Team Care Arrangements (Medicare item 723 or 727).

Residents of aged care facilities can also be referred for dental services under Medicare. For these patients, the GP must have contributed to or reviewed a multidisciplinary care plan prepared for the resident by the aged care facility (Medicare item 731) in the last two years.

<u>Secondly</u>, the patient's GP must refer the patient initially to a dentist or dental prosthetist. There is a referral form for the GP to use when referring a patient to a dental practitioner.

In most cases, the patient will be referred to a dentist in the first instance. In some limited cases, the GP may refer the patient directly to a dental prosthetist. This can be done where the patient has no natural teeth and requires dental prosthetic services only (eg full dentures) or requires repairs or maintenance for either full or partial dentures.

A dentist may subsequently refer a patient to another dentist, dental specialist or dental prosthetist. However, a patient cannot be referred directly to a dental specialist by a GP. For more information on the referral process refer to page 17.

<u>Important – Medicare Australia cannot pay benefits for dental services until the required GP care planning items</u> have been claimed and paid for the patient

It is strongly advised that, before providing any services to the patient, the dental practitioner (or receptionist) phones Medicare Australia on 132 150 to check that the relevant GP care planning items have been claimed and paid for the patient – even where the patient has a referral form signed by their GP.

If these care planning items have not been claimed and paid by Medicare Australia, no Medicare benefits for dental services can be paid to the patient. In this case, the dental practitioner should either refer the patient back to the GP or, after discussing the proposed charges with the patient, bill the patient privately (not covered by Medicare). The care plans cannot be done retrospectively, ie after the dental services have been provided to the patient.

Chronic medical conditions and complex care needs

A chronic medical condition is one that has been or is likely to be present for at least six months including, <u>but not limited to</u>, asthma, cancer, cardiovascular illness, diabetes mellitus, arthritis, mental illness, musculoskeletal conditions, and stroke.

A patient is considered to have complex care needs if they require ongoing care from a multidisciplinary team consisting of their GP and at least two other health or care providers (eg an allied health professional or medical specialist). In some cases, the dental practitioner may be asked by the GP to be a member of the multidisciplinary team. A patient can still be referred for dental services under the Medicare items where the dental practitioner is not part of the patient's multidisciplinary team.

4. What dental services are covered by the Medicare items?

A comprehensive range of services is covered by the new dental items.

The items and Medicare rebate for each service are set out in three schedules (these can be found on pages 24-65):

- Services by eligible dentists (Medicare items 85011 85986)
- Services by eligible dental specialists (Medicare items 86012 86986)
- Services by eligible dental prosthetists (Medicare items 87011 87777).

Similar to the DVA items, the Medicare dental items are based on the Australian Dental Association (ADA) *Australian Schedule of Dental Services and Glossary*, 8th *Edition*. The Medicare dental items use an additional two digit prefix to distinguish between services by dentists, dental specialists and dental prosthetists. For example, Medicare item <u>85</u>011 (used by dentists) corresponds to ADA item 011, Medicare item <u>86</u>012 (used by dental specialists) corresponds to ADA item 012, and Medicare item <u>87</u>071 (used by dental prosthetists) corresponds to ADA item 071.

Eligible dental specialists can use any of the dental specialist items 86012 - 86986. They are not limited to only using items related to their particular specialty.

For any service listed in the Medicare Benefit Schedule to be eligible for a Medicare rebate, the service must be rendered in accordance with the provisions of the relevant Commonwealth and State and Territory laws.

Clinically relevant services

The *Health Insurance Act 1973* requires that for a Medicare benefit to be payable, a professional service must be 'clinically relevant'. A clinically relevant service means a service which is provided by an eligible dentist, dental specialist or dental prosthetist and which is generally accepted by the dental profession as being necessary for the appropriate treatment of the patient.

Cosmetic services

The dental items can only be used where the primary objective of the treatment is to improve oral health and function. The items cannot be claimed for treatment that is predominantly for the improvement of the appearance of the patient (eg cosmetic). Services which aim to improve the health or function of the patient, but which also comprise a cosmetic component may be claimed.

Hospital services

The items can only be claimed for dental services provided in the community. Medicare benefits are not payable where the person requires dental services in a hospital as an admitted patient, even if the patient is admitted to a hospital solely for the purpose of that dental treatment.

Lists of declared private and public hospitals are available on the Department of Health and Ageing's website at www.health.gov.au.

Limits on individual services

Some of the Medicare dental items have specific limitations or rules (eg frequency of the service, linkages between items, or other conditions on claiming). These limits and rules are set out in the individual item descriptors (see pages 24 to 65).

Dentures

There are some specific rules in relation to the provision of denture services (see page 20).

Publicly funded services

The Medicare dental items do not apply for services that are provided by any Commonwealth or State funded services.

However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government health clinic, the dental items can be claimed for services provided by eligible dentists, dental specialists or dental prosthetists salaried by, or contracted to, the Service or health clinic. All requirements of the relevant item must be met, including registration of the dental practitioner with Medicare Australia. These services must also be bulk billed.

5. How does the patient limit of \$4,250 in benefits work?

Eligible patients can access up to \$4,250 in Medicare benefits (including Extended Medicare Safety Net benefits where applicable) for dental services over two consecutive calendar years. This limit applies to all dental services provided to the patient under items 85011-87777 by any eligible dentist, dental specialist or dental prosthetist.

More information on the operation of the Extended Medicare Safety Net is at page 13.

The two-year period is counted from the calendar year of the patient's first eligible dental service. For example, if the patient's first dental service is on 15 November 2007, the applicable two-year period will be the 2007 and 2008 calendar years. The next two-year period commences in the calendar year that the patient receives their next dental service.

Once a patient reaches their monetary limit of \$4,250, no further Medicare benefits are payable in that two calendar year period. This means that, where a patient receives a dental service that would otherwise take the patient over their limit, only the remaining balance (up to the \$4,250) will be paid for that service. This amount may be less than the standard Medicare rebate for that item. If this "final" claim is bulk billed, the dental practitioner will <u>not</u> be able to charge the patient a co-payment to make up the difference between the fee charged and the Medicare benefit payable.

Medicare Australia Enquiry Line

To help inform patients and dental practitioners about whether the patient will exceed their benefit limit of \$4,250 during the relevant two-year period, the patient (or dental practitioner) can call a Medicare Australia Enquiry Line to obtain a progressive total of dental benefits paid to the patient. Patients should call the Patient Enquiry Line on 132 011. Dental practitioners (or their receptionist) should call the Provider Enquiry Line on 132 150.

6. Informing the patient about the cost of services

To assist patients to understand the potential cost of dental services, dental practitioners are required to provide patients with a written quote or cost estimate prior to commencing a course of treatment.

Therefore, following an examination and assessment of the patient (including any diagnostic tests), the dental practitioner <u>must</u> provide the patient with a proposed dental treatment plan including an itemised quotation of proposed charges for the future work.

7. Charging and billing for dental services

Deciding what to charge the patient

Like other providers under Medicare, dental practitioners are free to set their own fees for services. The dental practitioner may choose to either:

- bulk bill the patient (where the patient will not be charged a co-payment); or
- charge above the Medicare rebate (where the patient will have an out-of-pocket cost).

If the dental practitioner charges above the Medicare Benefits Schedule (MBS) rebate for a service, the rules of the Extended Medicare Safety Net will apply <u>up to the patient's limit of</u> \$4,250.

Charges in excess of the \$4,250 are the sole responsibility of the patient. These charges will not attract a Medicare benefit and the Extended Medicare Safety Net arrangements will not apply.

Extended Medicare Safety Net

The Extended Medicare Safety Net applies to all out-of-hospital MBS services, including medical, dental and allied health services. It is intended to protect patients and their families against high out-of-pocket costs on these services.

The Extended Medicare Safety Net has two main elements:

- Firstly, any out-of-pocket costs incurred for eligible services will count towards the patient's (or the family's) annual Medicare Safety Net threshold (currently \$529.30 for concession cardholders and eligible families, and \$1,058.70 for all other individuals and families).
- Secondly, once a patient / family reaches their annual threshold, the Government will meet 80% of the out-of-pocket costs incurred for eligible services provided in the remainder of that calendar year.

These threshold amounts of \$529.30 and \$1,058.70 are indexed on 1 January each year.

An example of how the Extended Medicare Safety Net works for MBS dental services is set out below.

If a concessional patient (Mrs Jones) has already reached her annual Medicare Safety Net threshold of \$529.30 (on any out-of-hospital Medicare services), she will receive benefits as follows:

Service Provided	Dentist charge	MBS rebate	Safety Net benefit (80% x out-of-pocket cost) once threshold is reached	Total benefit paid to patient	Total out-of- pocket cost to patient
Examination	\$60	\$40	\$16	\$56	\$4
Extraction of tooth	\$180	\$100	\$64	\$164	\$16
TOTAL	\$240	\$140	\$80	\$220	\$20

Medicare Australia will automatically calculate the amount of the Medicare benefit payable to the patient.

How to seek payment for a service

Information on billing and claiming under Medicare is at pages 21-23.

8. Private health insurance

Patients with private health insurance covering dental services can decide to be treated under Medicare (ie not claim under their private health insurance), but patients <u>cannot</u> use their private health insurance ancillary cover to 'top up' the Medicare benefit they have received for a service.

Checklist for Dental Practitioners

MBS Items 85011- 85986 – used by Dentists MBS Items 86012- 86986 – used by Dental Specialists MBS Items 87011- 87777 – used by Dental Prosthetists

	Dental practitioner is registered with Medicare Australia (has a Medicare provider/registration
_	number)
	Patient has been referred by a GP using an appropriate referral form.
	Dental practitioner/receptionist has called Medicare Australia on 132 150 to check:
	 that the required GP care planning items have been claimed and paid; and how much of the \$4,250 in Medicare benefits available has already been claimed for the period.
	Referral form placed on patient's file.
<u>Whe</u>	re the patient has been examined/assessed (including diagnostic tests) and requires further work:
	Dental treatment plan including an itemised quotation of proposed charges provided to the patient.
	Copy or summary of treatment plan sent to referring GP (may be emailed).
<u>Whe</u>	re the patient is bulk billed (Note: requirements may differ with electronic billing):
	Medicare approved bulk billing (assignment of benefit) form signed by patient and includes the information set out below under 'Billing details'.
	Completed claim forms sent to Medicare Australia.
<u>Whe</u>	re the patient is billed directly – account is paid or unpaid:
	Itemised account/receipt given to the patient; includes the information set out below under 'Billing details'.
<u>Billir</u>	ng details (Note: requirements may differ with electronic billing)
NB.	Patients cannot be billed for services not yet provided.
Bulk	billing forms and patient's accounts and invoices must include the following information:
	Patient's name and date of service; Patient's Medicare number (only required for bulk billing); MBS item numbers (and/or MBS service descriptions) - using items relevant to profession ; Dental practitioners details - name and Medicare provider/registration number, <u>or</u> name and practice address:
	Referring GP details - name and Medicare provider/registration number, <u>or</u> name and practice address; Date of GP's referral; and
	For each bulk billed service, the amount of the Medicare rebate (ie which is being assigned by the patient to the practitioner); or ;
Who	For patient accounts, the amount charged, total amount paid, and any amount outstanding.
	re dental practitioner refers patient onto another dental practitioner:
	There is no prescribed form for referrals between dental practitioners, but a written note or letter of referral is required. A copy of the initial (GP) referral form must also be attached or sent with the referral note/letter to the receiving dental practitioner.

EXPLANATORY NOTE N.2: FURTHER INFORMATION

1. Referrals and reporting

Referral Form

Under these Medicare arrangements, a patient must first be referred by a GP to a dental practitioner. The GP must use the *Referral Form for Dental Services under Medicare* issued by the Department of Health and Ageing, or a form that substantially complies with this referral form.

The referral form may be given by the GP to the patient or sent directly to the dentist or dental prosthetist.

Dental practitioners are required to retain the original or a copy of the referral form (whichever is applicable) for 24 months from the date of the patient's first service (for Medicare Australia auditing purposes).

The referral form is <u>not</u> required to accompany Medicare claims (ie dental practitioners do not need to attach a signed copy of the form to patients' itemised accounts/receipts or the Medicare bulk billing forms).

New referrals

Where further dental services are required to treat a new or existing oral health problem at the end of a patient's current two-year benefits period, the patient will need to obtain a new referral from their GP. The patient's new two-year period will be counted from the calendar year of the patient's first eligible dental service under the new referral.

Communication with the referring GP

Dental practitioners must provide a copy or summary of the patient's treatment plan to the referring (medical) GP at the commencement of the course of treatment (ie following an examination and assessment of the patient, including any diagnostic tests).

The content of the treatment plan and/or feedback to the referring GP is a matter for the treating dental practitioner, having regard to the usual clinical reporting practices within the dental profession.

Referrals between dental practitioners

The dentist may provide services to the patient themselves and/or refer the patient onto another dentist, a dental specialist, or dental prosthetist.

The dental prosthetist may provide services to the patient themselves and/or refer the patient onto another dental prosthetist or dentist only (ie not a dental specialist).

In both cases, the referral may be <u>a letter or note</u> to an eligible dental practitioner signed and dated by the referring dentist or dental prosthetist.

There is no prescribed form for referrals between dental practitioners. However, a copy of the GP referral form must be attached to the dentist's/dental prosthetist's referral letter or note. This is because the dental practitioner receiving the referral from another dental practitioner will need to include the GP's details, including the date of the original referral from the GP, on their own account/receipt (see page 22).

2. Additional information on dental practitioner eligibility requirements and registration with Medicare Australia

Oral and Maxillofacial Surgeons

Oral and Maxillofacial surgeons are able to use the dental specialist items 86012-86986 if they are registered with Medicare Australia as a dental specialist.

Medicare Australia recognised oral and maxillofacial surgeons with dental qualifications only, up to and including 31 October 2004. Since then, oral and maxillofacial surgeons have only been recognised by Medicare Australia where they also have a medical qualification and apply for recognition under the specialist recognition provisions of the *Health Insurance Act 1973* which apply to medical practitioners.

Therefore, oral and maxillofacial surgeons with dental qualifications only who are not currently recognised within their dental specialty by Medicare Australia (ie are recognised as a dentist only), will need to re-register with Medicare Australia to use the dental specialist items 86012-86986.

Registration with Medicare Australia to provide services under items 86012-86986 will not give Oral and Maxillofacial surgeons who do not meet the eligibility requirements of other Medicare items, the right to access those items (eg Category 4 items – Oral and maxillofacial services by approved dental practitioners).

Dental Prosthetists

Dental prosthetists are a new provider group under Medicare. Individual practitioners will need to apply for a provider/registration number with Medicare Australia before they can provide services under Medicare.

Dental prosthetists cannot use their existing DVA or private health insurance provider/registration number to claim under Medicare.

Registration with Medicare Australia will only allow dental prosthetists to claim services for eligible patients under the Medicare dental items 87011-87777. Dental prosthetists are currently not able to order diagnostic imaging tests under Medicare or access other Medicare items.

Eligibility for registration under Medicare (ie to apply for a provider number)

To be eligible to use the Medicare dental items 87011-87777, a dental prosthetist must be:

- an individual;
- registered or licensed to practice as a dental prosthetist under state or territory law (subject to the following limitations); and
- registered with Medicare Australia.

Where conditions or limits are imposed under relevant State or Territory law which prohibit a dental prosthetist from providing dental prosthetic services to patients, the dental prosthetist is not eligible to register with Medicare Australia to provide dental health services using items 87011-87777.

Students who are registered or licensed under relevant State or Territory law in order to complete a course of study or supervised training in dental prosthetics, are not eligible to register with Medicare Australia to provide dental health services using MBS items 87011-87777.

The following specific requirements also apply to dental prosthetists wishing to apply for a provider/registration number with Medicare Australia to use items 87011-87777.

'Short-term', interim' or 'provisional' registration

Dental prosthetists whose registration or licence to practice is granted for a 'short-term', 'interim', or 'provisional' period only, will be registered by Medicare Australia to use items 87011-87777 for the stated period only. After this time, access to items 87011-87777 will only be continued where the practitioner provides Medicare Australia with evidence of their ongoing (ie current) registration or license to practice as a dental prosthetist.

'Company' registration

Dental prosthetists whose registration or licence to practice is granted in the name of a 'Company' are not eligible to register with Medicare Australia to use items 87011-87777. In order to register with Medicare Australia to use items 87011-87777, the practitioner will need to provide Medicare Australia with evidence that they, as an <u>individual</u>, are registered or licensed to practice as a dental prosthetist under relevant state or territory law.

'Non practising' registration

Dental prosthetists whose registration or licence to practice is granted as 'non-practising' are not eligible to register with Medicare Australia to use items 87011-87777.

'Limited', 'specific' or 'special purpose' registration

Some dental prosthetists are prohibited from providing dental prosthetic services to patients where their registration or licence to practice is granted as 'limited', 'specific' or for a 'special purpose'. Where a dental prosthetist is allowed by law to provide dental prosthetic services to patients under a 'limited', 'specific' or 'special purpose' registration or licence, the person will need to provide Medicare Australia with evidence that this is the case in order to be registered by Medicare Australia to use items 87011-87777. This may be in the form of advice from the relevant state or territory registration board.

3. Dentures

The new Medicare dental items include a comprehensive range of services for dental prostheses, including dentures. Medicare benefits are now payable for the making, supply and fitting of dental prostheses. Services by dental prosthetists are covered under items 87011-87777. Dental prosthetists will need to apply for a provider/registration number with Medicare Australia to use these items – see page 18.

Limit of one set of new dentures every eight years

The intention is that patients should only receive Medicare benefits for a set of new dentures every eight years or more, with use of items for the maintenance or repair of dentures as clinically required.

In exceptional circumstances, a patient may receive a second set of new dentures during the eight-year period. Where a second set of new dentures is required, the new dentures may be provided by either the same practitioner or a different practitioner.

Exceptional circumstances refers to where there has been a significant change in the clinical condition of the patient which requires new dentures, or where a patient's existing dentures are irreparably damaged or lost.

Where exceptional circumstances apply, the patient's itemised receipt, account or Medicare bulk billing form must be annotated 'exceptional circumstances'. For audit purposes, the dental practitioner must also record in the patient's clinical notes the reason why the additional set of new dentures was required within the eight-year period.

For the purposes of the Medicare dental items, "set of new dentures" means either:

- complete maxillary and mandibular dentures (under items 85719, 86719 or 87719); OR
- a complete or partial maxillary denture (under items 85711, 86711, 87711, 85721, 86721, 87721, 85727, 86727 or 87727); and a complete or partial mandibular denture (under items 85712, 86712, 87712, 85722, 86722, 87722, 85728, 86728 or 87728).

4. Claiming under Medicare

Under Medicare, patients cannot be billed for a service until it has been provided (i.e. dentists cannot charge patients for services that are identified in the patient's dental plan, but have not yet been provided. This includes taking a deposit for a proposed service).

Dental practitioners can bill patients for items 85011-87777 in three ways.

(i) Bulk billing (also known as "direct payment" or an "assignment of benefit") – manual claiming

At the end of a visit, the dental practitioner can choose to bulk bill the patient for the services provided (ie the patient assigns the Medicare benefit payable for the service to the dental practitioner). The dental practitioner accepts the relevant Medicare benefit as full payment for the service. By law, the dental practitioner cannot charge the patient a co-payment for a bulk billed service, irrespective of the purpose or title of the additional charge.

Medicare approved bulk billing (assignment of benefit) forms must be used for bulk billing. These are approved forms under the *Health Insurance Act 1973*, and no other documentation can be used to assign benefits without the approval of Medicare Australia. The approved forms can be obtained by either visiting the Medicare Australia website at www.medicaresustralia.gov.au or by telephoning 1800 067 307.

Bulk billing- electronic claiming

Dental practitioners can also submit bulk billing claims (and patient claims) electronically via Medicare Easyclaim or Medicare Online – see below.

(ii) Patient pays for services provided (also known as a "patient claim")

At the end of a visit, the dental practitioner can require the patient to pay, in full, for the services provided. The dental practitioner will need to provide the patient with an itemised account/receipt containing all of the details listed below.

It is then the patient's responsibility to claim the relevant Medicare benefits from Medicare Australia (eg by visiting a Medicare office or sending a claim to Medicare Australia for payment by Electronic Funds Transfer (EFT)).

(iii) Patient is given an invoice for an unpaid account

At the end of a visit, the dental practitioner can provide the patient with an itemised account (invoice) for the services provided. The account must contain all of the information listed below. In this case, the patient does not pay for the service at the time of the visit. Instead, the patient takes or sends the unpaid account to Medicare Australia for a Medicare benefits cheque to be issued in the dental practitioner's name (for the total benefit payable to the patient for the service).

It is then the patient's responsibility to provide the Medicare cheque to the dental practitioner and pay the balance of the account, if any.

When issuing a receipt to a patient for an amount that is being paid wholly or in part by a Medicare benefit cheque issued in the dental practitioner's name, the dental practitioner should indicate on the receipt that a 'Medicare cheque for \$.... was included in the payment of the account'.

Information that must be included on bulk billing forms, paid and unpaid accounts)

For a Medicare benefit to be paid for an eligible service, the following information must be included on the Medicare 'assignment of benefit' form (for bulk billed services), and the dental practitioner's itemised account/receipt (for paid accounts), and unpaid accounts:

- patient's name;
- date of service:
- patient's Medicare number (only required for bulk billing);
- MBS item number(s) and/or MBS description of the service;
- dental practitioner's name and provider/registration number, or name and practice address;
- referring GP's name and provider/registration number, or name and practice address;
- date of GP referral; and
- the amount charged, that is:
 - for each bulk billed service, the amount of the Medicare rebate (ie which is being assigned by the patient to the practitioner); or
 - for patient accounts, the amount charged, total amount paid, and any amount outstanding in relation to the service.

Electronic claiming

Medicare Australia can now accept Medicare claims lodged electronically by dental practitioners.

Electronic claiming removes the need for the practice to batch bulk bill claims at the end of the day. It also simplifies banking, with benefits paid into the practitioner's nominated bank account within 1-3 working days (instead of waiting up to 14 days for a cheque). Both of Medicare Australia's electronic claiming options, Medicare Online and Medicare Easyclaim, can process bulk bill and patient claims.

Medicare Online (previously called "HIC Online") is integrated with practice management software and lets practices lodge their claims and claim on behalf of their patients via the internet. Patients and practices can either receive their rebates directly into the nominated bank account within two to three days or by a cheque. Many software vendors have integrated Medicare Online into their products and a list is available on the Medicare Australia website under Health Care Providers /Online Initiative/Software Vendor lists.

Medicare Easyclaim uses existing EFTPOS technology and is currently available as a stand-alone system. An integrated option that 'talks to' practice management software is expected to be available in late 2007. Practices that lodge bulk bill claims through Medicare Easyclaim will receive their rebate (if getting paid by EFT) usually the next working day. For patient claims, the claimant will receive their rebate directly into their bank account almost immediately or via a cheque for payment to the provider.

For more information visit www.medicareaustralia.gov.au or call 1800 700 199.

Billing practices not permitted

Under the *Health Insurance Act 1973* (as amended), it is not permissible to:

- Include the cost of a non-clinically relevant service in a consultation charge. Medicare benefits can only be paid for clinically relevant services. If a dental practitioner chooses to use a procedure that is not generally accepted in their profession as necessary for the treatment of the patient, the cost of this procedure cannot be included in the fee for a Medicare item. Any charge for non-clinically relevant services must be separately listed on the account and not included in the fee billed to Medicare.
- Re-issue modified accounts to include other charges and out-of-pocket expenses not
 previously included in the account. The account issued to a patient by a dental practitioner
 must state the amount charged for the service provided and truly reflect what occurred
 between the patient and practitioner. While re-issuing an account to correct a genuine error
 is legitimate, if an account is re-issued to increase the fee or load additional components to
 the fee, the account is not a true statement of the fee charged for the service and would
 constitute a false or misleading statement.
- charge a patient for services which have not been provided, even where those services are scheduled for a future visit.

Where a Medicare benefit has been inappropriately paid, Medicare Australia may request recovery of that benefit from the practitioner concerned.

Schedule of Dental Services

Services by

Eligible Dentists

DENTI	STS
	GROUP N1 - SERVICES BY ELIGIBLE DENTISTS
	SUBGROUP 1 - DIAGNOSTIC SERVICES
	EXAMINATIONS
85011	Comprehensive oral examination Evaluation of all teeth, their supporting tissues and the oral tissues in order to record the condition of these structures. This evaluation includes recording an appropriate medical history and any other relevant information. Limit of one (1) per provider every 2 years. (See explanatory notes N.1 and N.2) Benefit: \$40.50
85012	Periodic oral examination An evaluation performed on a patient of record to determine any changes in the patient's dental and medical health status since a previous comprehensive or periodic examination. Limit of one (1) per provider every 6 months. (See explanatory notes N.1 and N.2) Benefit: \$33.60
83012	Denent: \$55.00
85013	Oral examination - limited A limited problem-focused oral evaluation carried out immediately prior to required treatment. This evaluation includes recording an appropriate medical history and any other relevant information. Limit of three (3) per 3 month period. (See explanatory notes N.1 and N.2) Benefit: \$21.15
63013	RADIOLOGICAL EXAMINATION AND INTERPRETATION
85022	Intraoral periapical or bitewing radiograph - per exposure Limit of six (6) per day. (See explanatory notes N.1 and N.2) Benefit: \$26.50
85025	Intraoral radiograph - occlusal, maxillary or mandibular - per exposure (See explanatory notes N.1 and N.2) Benefit: \$47.25
85031	Extraoral radiograph - maxillary, mandibular - per exposure (See explanatory notes N.1 and N.2) Benefit: \$53.85
85037	Panoramic radiograph - per exposure (See explanatory notes N.1 and N.2) Benefit: \$72.35
85039	Tomography of the skull or parts thereof Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$114.15
	OTHER DIAGNOSTIC SERVICES
85047	Caries activity screening test Limit one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$31.10
85051	Biopsy of tissue (See explanatory notes N.1 and N.2) Benefit: \$95.10
85071	Diagnostic model - per model (See explanatory notes N.1 and N.2) Benefit: \$46.40

DENTI	STS
	SUBGROUP 2 - PREVENTIVE SERVICES
	DENTAL PROPHYLAXIS
85111	Removal of plaque and/or stain. Limit of one (1) per 6 month period. (See explanatory notes N.1 and N.2) Benefit: \$41.35
03111	
85113	Recontouring pre-existing restoration(s) (See explanatory notes N.1 and N.2) Benefit: \$15.60
85114	Removal of calculus - first visit Limit of one (1) per 6 month period. (See explanatory notes N.1 and N.2) Benefit: \$68.85
85115	Removal of calculus - subsequent visit Limit of two (2) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$44.80
85117	Bleaching, internal - per tooth For non-vital discoloured tooth. (See explanatory notes N.1 and N.2) Benefit: \$161.35
	REMINERALISING AGENTS
85121	Topical application of remineralising agent - one treatment Limit of one (1) per 6 month period. (See explanatory notes N.1 and N.2) Benefit: \$26.55
85123	Concentrated remineralising agent, application - single tooth Limit of one (1) per day. (See explanatory notes N.1 and N.2) Benefit: \$20.80
	OTHER PREVENTIVE SERVICES
85131	Dietary advice Where a full appointment of at least 15 minutes is used. Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$28.00
85141	Oral hygiene instruction Where a full appointment of at least 15 minutes is used. Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$38.00
85161	Fissure sealing - per tooth (See explanatory notes N.1 and N.2) Benefit: \$35.35
85165	Desensitizing procedure - per visit (See explanatory notes N.1 and N.2) Benefit: \$20.80

DENTI	STS
85171	Odontoplasty - per tooth (See explanatory notes N.1 and N.2) Benefit: \$39.00
	SUBGROUP 3 - PERIODONTICS
85213	Treatment of acute periodontal infection - per visit Limit of two (2) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$53.50
85221	Clinical periodontal analysis and recording Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$40.65
85222	Root planing and subgingival curettage - per eight teeth or less Limit of two (2) per day. (See explanatory notes N.1 and N.2) Benefit: \$99.90
85225	Non-surgical periodontal treatment where not otherwise specified - per visit Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$81.15
85231	Gingivectomy - per eight teeth or less Limit of four (4) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$130.10
85232	Periodontal flap surgery - per eight teeth or less Limit of four (4) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$197.80
85233	Osseous surgery - per eight teeth or less Limit of four (4) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$333.30
85234	Osseous graft - per tooth or implant Limit of two (2) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$383.45
85238	Periodontal flap surgery for crown lengthening - per tooth (See explanatory notes N.1 and N.2) Benefit: \$184.05
85241	Root resection - per root (See explanatory notes N.1 and N.2) Benefit: \$153.35
85245	Periodontal surgery involving one tooth or an implant Limit of one (1) per 12 month period. (See explanatory notes N.1 and N.2) Benefit: \$60.95

DENTI	STS
	SUBGROUP 4 - ORAL SURGERY
	EXTRACTIONS
	Removal of a tooth or part(s) thereof
	1 st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional extractions on the same day, use item 85316. Limit of one (1) per day.
85311	(See explanatory notes N.1 and N.2) Benefit: \$100.75
	Sectional removal of a tooth 1 st sectional removal. Inclusive of local anaesthesia and routine post-operative care. For additional extractions on the same day, use item 85316. Limit of one (1) per day. (See explanatory notes N.1 and N.2)
85314	Benefit: \$128.80
85316	Additional extraction requiring removal of a tooth or part(s) thereof, or sectional removal of a tooth To be used for additional extractions on the same day in conjunction with items 85311 or 85314. (See explanatory notes N.1 and N.2) Benefit: \$74.80
03310	SURGICAL EXTRACTIONS
	SCROICILE EXTRICTIONS
	Surgical removal of a tooth or tooth fragment not requiring removal of bone or tooth division 1 st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same day, use item 85326.
85322	Limit of one (1) per day. (See explanatory notes N.1 and N.2) Benefit: \$163.55
	Surgical removal of a tooth or tooth fragment requiring removal of bone 1 st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same day, use item 85326. Limit of one (1) per day. (See explanatory notes N.1 and N.2)
85323	Benefit: \$186.80
	Surgical removal of a tooth or tooth fragment requiring both removal of bone and tooth division 1st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same day, use item 85326.
85324	Limit of one (1) per day. (See explanatory notes N.1 and N.2) Benefit: \$251.35
	Additional extraction requiring surgical removal of a tooth or tooth fragment. To be used for additional surgical extractions on the same day in conjunction with items 85322, 85323 or 85324.
85326	(See explanatory notes N.1 and N.2) Benefit: \$157.55
	SURGERY FOR PROSTHESES
	Alveolectomy per cogment
05221	Alveolectomy – per segment Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2)
85331	Benefit: \$102.00

DENTI	STS
85337	Reduction of fibrous tuberosity Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately (See explanatory notes N.1 and N.2) Benefit: \$143.35
85338	Reduction of flabby ridge – per segment Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately (See explanatory notes N.1 and N.2) Benefit: \$67.10
85341	Removal of hyperplastic tissue Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2) Benefit: \$155.40
	GENERAL SURGICAL
85377	Removal or repair of soft tissue (not elsewhere defined) Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$155.55
85378	Surgical removal of foreign body Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$88.05
	OTHER SURGICAL PROCEDURES
85381	Surgical exposure of unerupted tooth Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$220.45
85384	Repositioning of displaced tooth/teeth - per tooth Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$146.55
85386	Splinting of displaced tooth/teeth - per tooth Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$151.15
85387	Replantation and splinting of a tooth Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$296.00
85391	Frenectomy Includes insertion of sutures, normal post-operative care and suture removal (See explanatory notes N.1 and N.2) Benefit: \$135.80
85392	Incision and drainage of abscess or cyst Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2) Benefit: \$74.40

DENTI	STS
	SUBGROUP 5 - ENDODONTICS
	PULP AND ROOT CANAL TREATMENTS
	Direct pulp capping (See explanatory notes N.1 and N.2)
85411	Benefit: \$26.80
	Incomplete endodontic therapy (inoperable or fractured)
07110	(See explanatory notes N.1 and N.2)
85412	Benefit: \$91.60
	Pulpotomy
85414	(See explanatory notes N.1 and N.2) Benefit: \$58.40
	Complete chemo-mechanical preparation of root canal - one canal (See explanatory notes N.1 and N.2)
85415	Benefit: \$164.40
	Complete shame mechanical granegation of goet concl. each additional concl. on the come tooth
	Complete chemo-mechanical preparation of root canal - each additional canal on the same tooth. To be claimed in conjunction with item 85415.
	(See explanatory notes N.1 and N.2)
85416	Benefit: \$78.35
	Root canal obturation - one canal
85417	(See explanatory notes N.1 and N.2) Benefit: \$160.10
03 117	Denetial #160.16
	Root canal obturation - each additional canal on the same tooth
	To be claimed in conjunction with item 85417. (See explanatory notes N.1 and N.2)
85418	Benefit: \$74.90
	Extirpation of pulp or debridement of root canal(s) - emergency or palliative
	(See explanatory notes N.1 and N.2)
85419	Benefit: \$105.90
	PERIRADICULAR SURGERY
	Periapical curettage - per root
85431	(See explanatory notes N.1 and N.2) Benefit: \$191.70
03 131	Denois w #151.70
	Apicectomy - per root
	Includes curettage. (See explanatory notes N.1 and N.2)
85432	Benefit: \$238.00
	Exploratory periradicular surgery Limit of one (1) per 12 month period
	Limit of one (1) per 12 month period. Not claimable if services for the following items 85431, 85432, 85434, 85436, 85437 and 85438 are provided on the same day
	(See explanatory notes N.1 and N.2)
85433	Benefit: \$97.70
	Apical seal - per canal
	Includes apicectomy and periapical curettage.
85434	(See explanatory notes N.1 and N.2) Benefit: \$294.95
3272 7	
	Sealing of perforation (See explanatory notes N.1 and N.2)
85436	Benefit: \$182.10

DENTI	STS
	Sympical treatment and pagin of an automal mosttimetime
	Surgical treatment and repair of an external root resorption - per tooth (See explanatory notes N.1 and N.2)
85437	Benefit: \$297.20
	Hemisection
	(See explanatory notes N.1 and N.2)
85438	Benefit: \$220.45
	OTHER ENDODONTIC SERVICES
	Exploration for a calcified root canal - per canal
	(See explanatory notes N.1 and N.2)
85445	Benefit: \$81.15
	Removal of root filling - per canal
05451	(See explanatory notes N.1 and N.2)
85451	Benefit: \$81.15
	Removal of cemented root canal post or post crown
85452	(See explanatory notes N.1 and N.2) Benefit: \$81.15
03432	Denent; 501.13
	Removal or bypassing fractured endodontic instrument
85453	(See explanatory notes N.1 and N.2) Benefit: \$67.70
03433	Benefit: \$67.76
	Additional visit for irrigation and/or dressing of the root canal system - per tooth
	Cannot be paid with items 85415, 85416, 85417 or 85418 on the same day.
05455	(See explanatory notes N.1 and N.2)
85455	Benefit: \$81.15
	Obturation of resorption defect or perforation (non-surgical)
85457	(See explanatory notes N.1 and N.2) Benefit: \$81.15
83437	Бенент: \$81.13
	Interim therapeutic root filling - per tooth
	Limit of three (3) in a 12 month period.
	(See explanatory notes N.1 and N.2)
85458	Benefit: \$108.20
	SUBGROUP 6 - RESTORATIVE SERVICES
	METALLIC RESTORATIONS - DIRECT
	Metallic restoration - one surface - direct
	(See explanatory notes N.1 and N.2)
85511	Benefit: \$80.10
	Metallic restoration - two surfaces - direct
0.7.7.1	(See explanatory notes N.1 and N.2)
85512	Benefit: \$98.15
	Metallic restoration - three surfaces - direct
05512	(See explanatory notes N.1 and N.2)
85513	Benefit: \$117.05
	Metallic restoration - four surfaces - direct
Q5514	(See explanatory notes N.1 and N.2) Benefit: \$133.45
85514	Denent: \$155.45
	Metallic restoration - five surfaces - direct
85515	(See explanatory notes N.1 and N.2) Benefit: \$152.40
00010	DERCIR. \$152.40

	ADHESIVE RESTORATIONS - ANTERIOR TEETH - DIRECT
	Adhesive restoration - one surface - anterior tooth - direct
	Limit of five (5) single-surface adhesive restorations (85521 or 85531) per day.
85521	(See explanatory notes N.1 and N.2) Benefit: \$88.70
	·
	Adhesive restoration - two surfaces - anterior tooth - direct (See explanatory notes N.1 and N.2)
85522	Benefit: \$107.60
	Adhesive restoration - three surfaces - anterior tooth - direct
85523	(See explanatory notes N.1 and N.2) Benefit: \$127.40
	Adhesive restoration - four surfaces - anterior tooth - direct
	(See explanatory notes N.1 and N.2)
85524	Benefit: \$147.20
	Adhesive restoration - five surfaces - anterior tooth - direct (See explanatory notes N.1 and N.2)
85525	Benefit: \$173.05
	ADHESIVE RESTORATIONS - POSTERIOR TEETH - DIRECT
	Adhesive restoration - one surface - posterior tooth - direct
	Limit of five (5) single-surface adhesive restorations (85521 or 85531) per day.
85531	(See explanatory notes N.1 and N.2) Benefit: \$94.70
	·
	Adhesive restoration - two surfaces - posterior tooth - direct (See explanatory notes N.1 and N.2)
85532	Benefit: \$118.80
	Adhesive restoration - three surfaces - posterior tooth - direct
85533	(See explanatory notes N.1 and N.2) Benefit: \$142.90
	Adhesive restoration - four surfaces - posterior tooth - direct
	(See explanatory notes N.1 and N.2)
85534	Benefit: \$161.00
	Adhesive restoration - five surfaces - posterior tooth - direct (See explanatory notes N.1 and N.2)
85535	Benefit: \$185.95
	METALLIC RESTORATIONS - INDIRECT
	Metallic restoration - one surface - indirect
85541	(See explanatory notes N.1 and N.2) Benefit: \$345.10
	·
	Metallic restoration - two surfaces - indirect (See explanatory notes N.1 and N.2)
85542	Benefit: \$467.35
	Metallic restoration - three surfaces - indirect
85543	(See explanatory notes N.1 and N.2) Benefit: \$632.00
	Metallic restoration - four surfaces - indirect
	(See explanatory notes N.1 and N.2)
85544	Benefit: \$750 .05
	Metallic restoration - five surfaces - indirect
85545	(See explanatory notes N.1 and N.2) Benefit: \$802.65

DENTI	STS
	TOOTH COLOURED RESTORATIONS - INDIRECT
	Tooth-coloured restoration - one surface - indirect
85551	(See explanatory notes N.1 and N.2) Benefit: \$427.80
65551	
	Tooth-coloured restoration - two surfaces - indirect (See explanatory notes N.1 and N.2)
85552	Benefit: \$609.85
	Tooth-coloured restoration - three surfaces - indirect
85553	(See explanatory notes N.1 and N.2) Benefit: \$715.90
	Tooth-coloured restoration - four surfaces - indirect
	(See explanatory notes N.1 and N.2)
85554	Benefit: \$818.90
	Tooth-coloured restoration - five surfaces - indirect
85555	(See explanatory notes N.1 and N.2) Benefit: \$780.30
	OTHER RESTORATIVE SERVICES
	Provisional (intermediate/ temporary) restoration Not claimable if services for endodontic items (85411 to 85458 inclusive) except 85419 are provided on the same day.
	Limit of three (3) per 3 month period.
85572	(See explanatory notes N.1 and N.2) Benefit: \$37.40
	Metal band The cementation of a metal band for diagnostic, protective purposes or for the placement of a provisional (intermediate)
	restoration.
85574	(See explanatory notes N.1 and N.2) Benefit: \$31.55
	Pin retention - per pin
	(See explanatory notes N.1 and N.2)
85575	Benefit: \$21.55
	Stainless steel crown (See explanatory notes N.1 and N.2)
85576	Benefit: \$163.00
	Cusp capping - per cusp

	EXTRACTIONS
	Removal of a tooth or part(s) thereof
	1 st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional extractions on the same day, use
	item 86316.
	Limit of one (1) per day.
86311	(See explanatory notes N.1 and N.2) Benefit: \$125.25

DENTA	L SPECIALISTS
DENTA	L SFECIALISTS
	Sectional removal of a tooth
	1 st sectional removal. Inclusive of local anaesthesia and routine post-operative care. For additional extractions on the same day, use item 86316.
	Limit of one (1) per day. (See applications notes N. Land N.2)
86314	(See explanatory notes N.1 and N.2) Benefit: \$171.40
	Additional extraction requiring removal of a tooth or part(s) thereof, or sectional removal of a tooth
	To be used for additional extractions on the same day in conjunction with items 86311 or 86314.
86316	(See explanatory notes N.1 and N.2) Benefit: \$95.40
	SURGICAL EXTRACTIONS
	BONOTONIA ENTINA
	Surgical removal of a tooth or tooth fragment not requiring removal of bone or tooth division
	1st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same day, use item 86326.
	Limit of one (1) per day. (See explanatory notes N.1 and N.2)
86322	Benefit: \$217.50
	Surgical removal of a tooth or tooth fragment requiring removal of bone
	1 st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same day, use item 86326.
	Limit of one (1) per day. (See explanatory notes N.1 and N.2)
86323	Benefit: \$270.05
	Surgical removal of a tooth or tooth fragment requiring both removal of bone and tooth division. 1st tooth extracted. Inclusive of local anaesthesia and routine post-operative care. For additional surgical extractions on the same
	day, use item 86326.
	Limit of one (1) per day.
86324	(See explanatory notes N.1 and N.2) Benefit: \$334.30
80324	Denent. \$554.50
	Additional extraction requiring surgical removal of a tooth or tooth fragment.
	To be used for additional surgical extractions on the same day in conjunction with items 86322, 86323 or 86324.
86326	(See explanatory notes N.1 and N.2) Benefit: \$208.45
	SURGERY FOR PROSTHESES
	SUNGERT FOR TRUSTILISES
	Alveolectomy - per segment
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately.
86331	(See explanatory notes N.1 and N.2) Benefit: \$128.45
30231	
	Ostectomy - per jaw Includes insertion of sutures, permel post, operative core and suture removal. Extraction items to be claimed separately.
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2)
86332	Benefit: \$354.70
	Deduction of filmens taken site.
	Reduction of fibrous tuberosity Includes insertion of sutures, normal post operative care and suture removal. Extraction items to be claimed separately.
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2)
86337	Benefit: \$190.65

DENTA	L SPECIALISTS
	Reduction of flabby ridge - per segment Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately.
	(See explanatory notes N.1 and N.2)
86338	Benefit: \$95.85
	Removal of hyperplastic tissue
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately.
86341	(See explanatory notes N.1 and N.2) Benefit: \$209.75
80341	Denent: \$209.73
	Repositioning of muscle attachment
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately.
86343	(See explanatory notes N.1 and N.2) Benefit: \$258.85
	Vestibuloplasty
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2)
86344	Benefit: \$647.15
	Vestibuloplasty with skin or mucosal graft
	Includes insertion of sutures, normal post-operative care and suture removal. Extraction items to be claimed separately. (See explanatory notes N.1 and N.2)
86345	Benefit: \$647.15
	GENERAL SURGICAL
	Removal of tumour, cyst or scar – cutaneous, subcutaneous or in mucous membrane.
	Includes insertion of sutures, normal post-operative care and suture removal.
	(See explanatory notes N.1 and N.2)
86371	Benefit: \$157.75
	Removal of tumour, cyst or scar involving muscle, bone or other deep tissue.
	Includes insertion of sutures, normal post-operative care and suture removal.
86373	(See explanatory notes N.1 and N.2) Benefit: \$555.30
80373	Delicit. \$333.30
	Surgery to salivary duct
	Includes insertion of sutures, normal post-operative care and suture removal.
86375	(See explanatory notes N.1 and N.2) Benefit: \$488.50
	Surgery to salivary gland
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86376	Benefit: \$166.90
	Democratic or remain of soft tiesus (not alcorrhore defined)
	Removal or repair of soft tissue (not elsewhere defined) Includes insertion of sutures, normal post-operative care and suture removal.
	(See explanatory notes N.1 and N.2)
86377	Benefit: \$207.05
	Surgical removal of foreign body
	Includes insertion of sutures, normal post-operative care and suture removal.
0.6270	(See explanatory notes N.1 and N.2)
86378	Benefit: \$117.00
	Marsupialisation of cyst
	Includes insertion of sutures, normal post-operative care and suture removal.
86379	(See explanatory notes N.1 and N.2) Benefit: \$249.25

DENTA	L SPECIALISTS
	OTHER SURGICAL PROCEDURES
	Surgical exposure of unerupted tooth
	Includes insertion of sutures, normal post-operative care and suture removal.
0.6201	(See explanatory notes N.1 and N.2)
86381	Benefit: \$266.90
	Surgical exposure and attachment of device for orthodontic traction
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86382	Benefit: \$302.75
	Repositioning of displaced tooth/teeth - per tooth Includes insertion of sutures, normal post-operative care and suture removal.
	(See explanatory notes N.1 and N.2)
86384	Benefit: \$195.30
	Surgical repositioning of unerupted tooth
	Includes insertion of sutures, normal post-operative care and suture removal.
86385	(See explanatory notes N.1 and N.2) Benefit: \$302.75
	Splinting of displaced tooth/teeth - per tooth
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86386	Benefit: \$203.65
	Replantation and splinting of a tooth
	Includes insertion of sutures, normal post-operative care and suture removal.
86387	(See explanatory notes N.1 and N.2) Benefit: \$390.15
00307	Benefic. \$350.13
	Transplantation of tooth or tooth bud
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86388	Benefit: \$448.00
	Surgery to isolate and preserve neurovascular tissue
	Includes insertion of sutures, normal post-operative care and suture removal.
86389	(See explanatory notes N.1 and N.2) Benefit: \$144.40
80369	Denem. \$144.40
	Frenectomy
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86391	Benefit: \$180.50
	Incision and drainage of abscess or cyst
	Includes insertion of sutures, normal post-operative care and suture removal.
0.6202	(See explanatory notes N.1 and N.2)
86392	Benefit: \$94.75
	Surgery involving the maxillary antrum
	Includes insertion of sutures, normal post-operative care and suture removal. (See explanatory notes N.1 and N.2)
86393	(See explanatory notes N.1 and N.2) Benefit: \$646.65
	Symposis for actoomylitie
	Surgery for osteomylitis Includes insertion of sutures, normal post-operative care and suture removal.
0.620 :	(See explanatory notes N.1 and N.2)
86394	Benefit: \$391.05
