At the time of printing, the relevant legislation giving authority for the changes included in this edition of the book may still be subject to the approval of Executive Council and the usual Parliamentary scrutiny. This book is not a legal document, and, in cases of discrepancy, the legislation will be the source document for payment of Medicare benefits.

The latest Medicare Benefits Schedule information is available from MBS Online at http://www.health.gov.au/mbsonline

INTRODUCTION

This book provides information on the arrangements for the payment of Medicare benefits for optometric services by optometrists.

Part 1 of this book contains an outline of the arrangements for optometric benefits and notes for the guidance of optometrists, including addresses of the Department of Health and the Department of Human Services. Further information on the Medicare Benefits Schedule (MBS) can be located at www.mbsonline.gov.au.

The Schedule in Part 2 shows the item number, description of service, Schedule fee and Medicare benefit payable in respect of the optometric items.

CHANGES INCLUDED IN THIS EDITION

There are no changes in this edition.

# PART 1 - OUTLINE OF ARRANGEMENTS AND NOTES FOR GUIDANCE

#### O.1. BENEFITS FOR SERVICES

All Australian residents and certain categories of visitors to Australia can claim Medicare benefits for services by optometrists. The *Health Insurance Act 1973* contains legislation covering the major elements of the Medicare program.

Responsibility for regulating the Medicare program lies with the Australian Government through the Department of Health. The Department of Human Services is responsible for consideration of applications and for the day to day operation of Medicare and the payment of benefits. Contact details of the Department of Health and the Department of Human Services are located at the end of these Notes.

#### O.2. PROVIDER NUMBERS

To ensure that benefits are paid only for services provided by optometrists registered with the Optometry Board of Australia, each optometrist providing services for which a Medicare benefit is payable requires an individual provider number.

Provider numbers will be issued only to registered optometrists. Corporations, other business entities and individuals who are not registered optometrists will not be issued with provider numbers.

Provider numbers are allocated to enable claims for Medicare benefits to be processed. The number may be up to eight characters. The second last character identifies the practice location, the last being a check character.

Optometrists can obtain a provider number from the Department of Human Services. A separate provider number is issued for each location at which an optometrist practises and has current registration. Provider numbers for additional practice locations may also be obtained from the Department of Human Services following confirmation of registration. Optometrists cannot use another optometrist's provider number.

#### **Locum Tenens**

An optometrist who is to provide services at a practice location as a locum for more than two weeks or will return to the practice on a regular basis for short periods should apply for a provider number for that location.

If the locum is to provide services at a practice for less than two weeks, the locum can use their own provider number or can obtain an additional provider number for that location.

Normally, Medicare benefits are payable for services rendered by an optometrist. .

To ensure benefits are payable when a locum practises in these circumstances, the locum optometrist should:

- Check that they will be providing optometry services on behalf of an optometrist; and
- Complete the Schedule which is available on the Department of Human Services website <a href="http://www.humanservices.gov.au/">http://www.humanservices.gov.au/</a>, before commencing the locum arrangement of the name and address of the optometrist on whose behalf they will be providing services.

Locums can direct Medicare payments to a third party, for example the principal of the practice, by either arranging a pay group link and/or by nominating the principal as the payee provider on bulk-bill stationery.

#### O.3. PATIENT ELIGIBILITY

An "eligible person" is a person who resides permanently in Australia. This includes New Zealand citizens and holders of permanent residence visas. Applicants for permanent residence may also be

eligible persons, depending on circumstances. Eligible persons must enrol with Medicare before they can receive Medicare benefits.

Medicare covers services provided only in Australia. It does not refund treatment or evacuation expenses overseas.

#### **Medicare Cards**

The *green* Medicare card is for people permanently in Australia. Cards may be issued for individuals or families.

The *blue* Medicare card bearing the words "INTERIM CARD" is for people who have applied for permanent residence.

Visitors from countries with which Australia has a Reciprocal Health Care Agreement (RHCA) receive a card bearing the words "RECIPROCAL HEALTH CARE".

### Visitors to Australia and temporary residents

Visitors and temporary residents in Australia are generally not eligible for Medicare and should therefore have adequate private health insurance.

#### **Reciprocal Health Care Agreements**

Australia has RHCAs with New Zealand, Ireland, the United Kingdom, the Netherlands, Sweden, Finland, Norway, Italy, Belgium, Slovenia and Malta.

Visitors from these countries are entitled to medical treatment while they are in Australia, comprising public hospital care (as public patients), Medicare benefits for out of hospital services and drugs under the Pharmaceutical Benefits Scheme (PBS). Visitors must enrol with the Department of Human Services to receive benefits. A passport is sufficient for public hospital care and PBS drugs.

#### **Exceptions:**

- Visitors from Ireland and New Zealand are entitled to public hospital care and PBS drugs only, and should present their passports before treatment as they are not issued with Medicare cards.
- Visitors from Italy and Malta are covered for a period of six (6) months only.

The RHCAs do not cover treatment as a private patient in a public or private hospital. People visiting Australia for the purpose of receiving treatment are not covered. Visitors from New Zealand and the Republic of Ireland are NOT entitled to optometric treatment under a RHCA.

#### O.4. BENEFITS FOR OPTOMETRISTS

#### What services are covered?

The *Health Insurance Act 1973* stipulates that Medicare benefits are payable for professional services. The professional services coming within the scope of the optometric benefit arrangements are those clinically relevant services ordinarily rendered by the optometrist in relation to a consultation on ocular or vision problems or related procedures. *The Health Insurance Act 1973* defines a 'clinically relevant service' as a service rendered by an optometrist that is generally accepted in the optometrical profession as being necessary for the appropriate treatment of the patient to whom it is rendered.

Since 1 January 2015 optometrists have been able to set their own fees for their professional services. However, the amount specified in the patient's account must be the amount charged for the service specified. The fee may not include a cost of goods or services which are not part of the MBS service specified on the account. A non-clinically relevant service must not be included in the charge for a Medicare item. The non-clinically relevant service must be separately listed on the account and not billed to Medicare. Where it is necessary for the optometrist to seek patient information from the

Department of Human Services in order to determine appropriate itemisation of accounts, receipts or bulk-billed claims, the optometrist must ensure that:

- (a) the patient is advised of the need to seek the information and the reason the information is required;
- (b) the patient's informed consent to the release of information has been obtained; and
- (c) the patient's records verify the patient's consent to the release of information.

# Benefits may only be claimed when:

- (a) a service has been performed and a clinical record of the service has been made;
- (b) a significant consultation or examination procedure has been carried out;
- (c) the service has involved the personal attendance of both the patient and the optometrist; and
- (d) the service is "clinically relevant" (as defined in the *Health Insurance Act 1973*).

# Where Medicare benefits are not payable

Medicare benefits may not be claimed for attendances for:

- (a) delivery, dispensing, adjustment or repairs of visual aids;
- (b) filling of prescriptions written by other practitioners.

# Benefits are <u>not</u> payable for optometry services associated with:

- (a) cosmetic surgery;
- (b) refractive surgery;
- (c) tests for fitness to undertake sporting, leisure or vocational activities;
- (d) compulsory examinations or tests to obtain any commercial licence (e.g. flying or driving);
- (e) entrance to schools or other educational facilities;
- (f) compulsory examinations for admissions to aged care facilities; and
- (g) vision screening.

#### Medicare benefits are not payable for services in the following circumstances:

- (a) where the expenses for the service are paid or payable to a recognised (public) hospital;
- (b) an attendance on behalf of teaching institutions on patients of supervised students of optometry; and
- (c) where the service is not "clinically relevant" (as defined in the *Health Insurance Act 1973*).

#### Unless the Minister otherwise directs, a benefit is not payable in respect of an optometric service where:

- (a) the service has been rendered by or on behalf of, or under an arrangement with, the Commonwealth, a State or a local governing body or an authority established by a law of the Commonwealth, a law of a State or a law of an internal Territory; or
- (b) the service was rendered in one or more of the following circumstances
  - (i) the employer arranges or requests the consultation;
  - (ii) the results are provided to the employer by the optometrist;
  - (iii) the employer requires that the employee have their eyes examined;
  - (iv) the account for the consultation is sent to the employer; or
  - (v) the consultation takes place at the patient's workplace or in a mobile consulting room at the patient's workplace.

# Services rendered to an optometrist's dependants, employer or practice partner or dependants

The optometrist agrees not to submit an account or claim for services rendered to any dependants of the optometrist, to his or her employer or practice partner or any dependants of the employer or partner

A 'dependant' person is a spouse or a child. The following provides definitions of these dependant persons:

a *spouse*, in relation to a dependant person means:

- (a) a person who is legally married to, and is not living, on a permanent basis, separately and apart from, that person; and
- (b) a de facto spouse of that person.

a *child*, in relation to a dependant person means:

- (a) a child under the age of 16 years who is in the custody, care and control of the person or the spouse of the person; and
- (b) a person who:
  - (i) has attained the age of 16 years who is in the custody, care and control of the person of the spouse of the person; or
  - (ii) is receiving full time education at a school, college or university; and
  - (iii) is not being paid a disability support pension under the Social Security Act 1991; and
  - (iv) is wholly or substantially dependent on the person or on the spouse of the person

#### O.5. SCHEDULE FEES AND MEDICARE BENEFITS

Medicare benefits are based on fees determined for each optometrical service. The services provided by optometrists which attract benefits are set out in the *Health Insurance (General Medical Services Table) Regulations* (as amended).

If the fee is greater than the Medicare benefit, optometrists are to inform the patient of the Medicare benefit payable for the item at the time of the consultation and that the additional fee will not attract benefits.

Medicare benefits are payable at 85% of the Schedule fee for services rendered.

#### **Medicare Safety Nets**

The Medicare safety net provides families and singles with an additional rebate for out-of-hospital Medicare services, once annual thresholds are reached. There are two safety nets: the original Medicare safety net and the Extended Medicare Safety Net (EMSN).

Under the original Medicare safety net, the Medicare benefit for out-of-hospital services is increased to 100% of the Schedule Fee (up from 85%) once an annual threshold in gap costs is reached. Gap costs refer to the difference between the Medicare benefit (85%) and the Schedule Fee.

Under the EMSN, once an annual threshold in out-of-pocket costs for out-of-hospital Medicare services is reached, Medicare will pay for 80% of any future out-of-pocket costs for out-of-hospital Medicare services for the remainder of the calendar year. However, where the item has an EMSN benefit cap, there is a maximum limit on the EMSN benefit that will be paid for that item. Further explanation about EMSN benefit caps is provided at <a href="https://www.mbsonline.gov.au">www.mbsonline.gov.au</a>.

The thresholds for the Medicare safety nets are indexed on 1 January each year.

Individuals are automatically registered with the Department of Human Services for the safety nets, however couples and families are required to register in order to be recognised as a family for the purposes of the safety nets. In most cases, registered families have their expenses combined to reach the safety net thresholds. This may help to qualify for safety net benefits more quickly. Registration forms can be obtained from the Department of Human Services offices, or completed at <a href="https://www.humanservices.gov.au">www.humanservices.gov.au</a>. If you have already registered it is important to ensure your details are up to date.

Further information on the Medicare safety nets is available at <a href="http://www.humanservices.gov.au/customer/services/medicare/medicare-safety-net">http://www.humanservices.gov.au/customer/services/medicare/medicare-safety-net</a>.

### Limiting rule for patient claims

Where a fee charged for a service is less than the Medicare benefit, the benefit will be reduced to the amount of the fee actually charged. In no case will the benefit payable exceed the fee charged.

#### **Multiple attendances**

Payment of benefit may be made for several attendances on a patient on the same day by the same optometrist provided that the subsequent attendances are not a continuation of the initial or earlier attendances. However, there should be a reasonable lapse of time between the services before they can be regarded as separate attendances.

Where two or more attendances are made on the one day by the same optometrist the time of each attendance should be stated on the account (e.g. 10.30 am and 3.15 pm) in order to assist in the payment of benefits. Times do not need to be specified where a perimetry item is performed in association with a consultation item.

In some circumstances a subsequent consultation on the same day may be judged to be a continuation of an earlier attendance and a second benefit is not payable. For example, a preliminary eye examination may be concluded with the instillation of mydriatic or cycloplegic drops and some time later additional examination procedures are undertaken. These sessions are regarded as being one attendance for benefit purposes.

# Release of prescription

Where a spectacle prescription is prepared for the patient, it becomes the property of the patient, who is free to have the spectacles dispensed by any person of the patient's choice. The optometrist will ensure that the patient is made aware that he or she is entitled to a copy of the spectacle prescription.

Contact lens prescriptions are excluded from the above provision, although the prescription remains the property of the patient and should be available to the patient at the completion of the prescription and fitting process.

#### **Reminder notices**

The optometrist will ensure that any notice sent to a patient suggesting re-examination is sent solely on the basis of the clinical needs of the patient.

#### Aftercare period following surgery

Medicare schedule items that apply to surgery include all professional attendances necessary for the post-operative treatment of the patient. The aftercare period includes all post-operative treatment, whether provided by a medical practitioner or an optometrist. The amount and duration of the aftercare may vary but includes all attendances until recovery from the operation. Attendances provided by an optometrist in the aftercare period do not attract a Medicare benefit.

The rebate for cataract surgery includes payment for aftercare attendances so payment for aftercare services provided by an optometrist on behalf of a surgeon should be arranged with the surgeon. The optometrist should not charge the patient. In the case of cataract surgery, the first visit following surgery for which the optometrist can charge a rebatable fee is generally the attendance at which a prescription for spectacles or contact lenses is written.

Medicare benefits are not available for refractive surgery, consultations in preparation for the surgery or consultations in the aftercare period. Charges for attendances by optometrists may be made directly to the patient or to the surgeon depending on the arrangements made prior to surgery. Accounts and the receipt issued to the patient should clearly indicate the fee is non-rebatable.

#### **Single Course of Attention**

A reference to a single course of attention means:

- (a) In the case of items 10905 to 10918, and old item 10900 a course of attention by one or more optometrists in relation to a specific episode of optometric care.
- (b) In relation to items 10921 to 10930 a course of attention, including all associated attendances, by one or more optometrists for the purpose of prescribing and fitting of contact lenses. This includes those after-care visits necessary to ensure the satisfactory performance of the lenses.

Referred comprehensive initial consultations (item 10905) - Read in conjunction with 08 Referrals For the purposes of item 10905, the referring optometrist, having considered the patient's need for the referred consultation, is required to provide a written referral, dated and signed, and setting out the patient's condition and the reason for the referral.

Benefits will be paid at the level of item 10905 providing the referral is received before the provision of the service, and providing the account, receipt or bulk-billing form contains the name and provider number of the referring optometrist. Referrals from medical practitioners do not attract benefits under item 10905.

The optometrist claiming the item 10905 service is obliged to retain the written referral for a period of twenty-four months.

Referrals must be at "arms length". That is to say, no commercial arrangements or connections should exist between the optometrists.

# Second comprehensive initial consultation, within 36 months for a patient who is less than 65 years of age and once every 12 months for a patient who is at least 65 years of age, of a previous comprehensive consultation (item 10907)

A patient can receive a comprehensive initial consultation by another optometrist within 36 months if the patient is less than 65 years of age, and once every 12 months if the patient is at least 65 years of age, if the patient has attended another optometrist for an attendance to which item 10905, 10907, 10910, 10911, 10912, 10913, 10914 or 10915 applies, or old item 10900 applied.

#### Comprehensive initial consultations (items 10910 and 10911)

There are two new MBS items for comprehensive initial consultation that have been introduced. Item 10910 has been introduced for a professional attendance of more than 15 minutes for a patient who is less than 65 years of age. This item is payable once only within a 36 month period, and if the patient has not received a service in this timeframe to which item 10905, 10907, 10910, 10912, 10913, 10914 or 10915 applies, or old item 10900 applied.

Item 10911 has been introduced for a professional attendance of more than 15 minutes for a patient who is at least 65 years of age. This item is payable once only within a 12 month period, and if the patient has not received a service in this timeframe to which item 10905, 10907, 10910, 10911, 10912, 10913, 10914 or 10915 applies, or old item 10900 applied.

However, a benefit is payable under item 10912, 10913, 10914 or 10915 where the patient has an ocular condition which necessitates a further course of attention being started within 36 months for a patient who is less than 65 years of age (item 10910) and within 12 months for a patient who is at least 65 years of age (item 10911) of the previous initial consultation. The conditions which qualify for a further course of attention are contained in the descriptions of these items.

Where an attendance would have been covered by item 10905, 10907, 10910, 10911, 10912, 10913, 10914 or 10915 but is of 15 minutes duration or less, item 10916 (short consultation) applies.

### Significant change in visual function requiring comprehensive re-evaluation (item 10912)

Significant changes in visual function which justify the charging of item 10912 could include documented changes of:

- vision or visual acuity of 2 lines (0.2 logMAR) or more (corrected or uncorrected);
- visual fields or previously undetected field loss;
- binocular vision; and
- contrast sensitivity or previously undetected contrast sensitivity loss.

# New signs or symptoms requiring comprehensive re-evaluation (item 10913)

When charging item 10913 the optometrist should document the new signs or symptoms suffered by the patient on the patient's record card.

# Progressive disorder requiring comprehensive re-evaluation (item 10914)

When charging item 10914, the optometrist should document the nature of the progressive disorder suffered by the patient on the patient's record card. Progressive disorders may include conditions such as maculopathy (including age related maculopathy) cataract, corneal dystrophies, glaucoma etc.

# Examination of the eyes of a patient with diabetes mellitus (item 10915)

Where an examination of the eyes, with the instillation of a mydriatic, of a patient with diabetes mellitus is being conducted, where possible this item should be billed rather than item 10914 to assist in identifying whether such patients are receiving appropriate eye care.

#### **Second or subsequent consultations (item 10918)**

Each consultation, apart from the initial consultation, in a single course of attention, other than a course of attention involving the fitting and prescription of contact lenses, is covered by item 10918.

#### **Contact lens consultations (items 10921 to 10930)**

In the case of contact lens consultations, benefit is payable only where the patient is one of the prescribed classes of patient entitled to benefit for contact lens consultations as described in items 10921 to 10929.

For claims under items 10921,10922,10923,10925 and 10930, eligibility is based on the patient's distance spectacle prescription, determining the spherical equivalent by adding to the spherical prescription, half the cylindrical correction.

Medicare benefits are not payable for item 10929 in circumstances where a patient wants contact lenses for:

- (a) reasons of appearance (because they do not want to wear spectacles);
- (b) sporting purposes;
- (c) work purposes; or
- (d) psychological reasons (because they cannot cope with spectacles).

All attendances subsequent to the initial consultation in a course of attention involving the prescription and fitting of contact lenses are collectively regarded as a single service under items 10921 to 10930, as appropriate. The date of service is deemed to be the date on which the contact lenses are delivered to the patient. In some cases, where the patient decides not to proceed with contact lenses, no Medicare fee is payable because the patient has not taken delivery of the lenses. In such instances, the patient may be charged a non-rebatable (private) fee for a 'part' service. Any visits related to the prescribing and fitting of lenses are regarded to be covered by the relevant item in the range 10921 to 10930. The bulk item includes those aftercare visits necessary to ensure the satisfactory performance of the lenses. This interpretation is unaltered by the frequency of aftercare visits associated with various lens types including extended wear lenses.

Consultations during the aftercare period that are unrelated to the prescription and fitting of contact lenses or that are not part of normal aftercare may be billed under other appropriate items (not items 10921 to 10930).

For patients not eligible for Medicare rebates for contact lens care, fees charged for contact lens consultations are a matter between the practitioner and the patient. Any account for consultations involving the fitting and prescription of contact lenses issued to a patient who does not fall into the specified categories should be prepared in such a way that it cannot be used to obtain benefits. No Medicare item should be attached to any service that does not attract benefits and the optometrist should annotate the account with wording such as "Medicare benefits not payable".

Where an optometrist wishes to apportion the total fee to show the appropriate optometric consultation benefit and the balance of the fee, he or she should ensure that the balance is described in such a way (e.g. balance of account) that it cannot be mistaken as being a separate consultation. In particular no Medicare item number should be shown against the balance.

When a patient receives a course of attention involving the prescription and fitting of contact lenses an account should not be issued (or an assignment form completed) until the date on which the patient takes delivery of the lenses.

Benefit under items 10921 to 10929 is payable once only in any period of 36 consecutive months except where circumstances are met under item 10930 within a 36 month period.

#### **Domiciliary visits (items 10931 – 10933)**

Where patients are unable to travel to an optometrist's practice for treatment, and where the request for treatment is initiated by the patient, a domiciliary visit may be conducted, which involves the optometrist travelling to the patient's place of residence, and transporting the necessary equipment. Where possible, it is preferable that the patient travel to the practice so that the full range of equipment is available for the examination of the patient.

Benefits are payable under items 10931 - 10933 to provide some financial assistance in the form of a loading to the optometrist, in recompense for travel costs and packing and unpacking of equipment. The loading is in addition to the consultation item. For the purposes of the loading, acceptable places of residence for domiciliary visits are:

- the patient's home;
- a residential aged care facility as defined by the *Aged Care Act 1997*; or
- an institution which means a place (other than a residential aged care facility or hospital) at which residential accommodation and/or day care is made available to any of the following categories: disadvantaged children, juvenile offenders, aged persons, chronically ill psychiatric patients, homeless persons, unemployed persons, persons suffering from alcoholism, persons addicted to drugs, or physically or intellectually disabled persons.

Visits to a hospital at the patient's request are not covered by the loading and instead, an extra fee in addition to the Schedule fee can be charged, providing the service is not bulk-billed. Medicare benefits are not payable in respect of the private charge.

Items 10931 – 10933 may be used whether or not the optometrist chooses to bulk-bill but it is important that if the consultation is bulk-billed the loading is also, and no private charge can then be levied. If the consultation is not bulk-billed, the loading should also not be bulk-billed and a private charge may be levied. The usual requirement that the patient must have requested the domiciliary visit applies.

The choice of appropriate item in the range 10931 - 10933 depends on how many patients are seen at the one location. Benefits are payable under item 10931 where the optometrist travels to see one patient at a

single location. Item 10931 can be billed in addition to the consultation item. If the optometrist goes on to see another single patient **at a different location**, that patient can also be billed an item 10931 plus the consultation. However, if two patients are visited at a single location on the same occasion, each of the two patients should be billed item 10932 as well as the consultation item applying to each patient. Similarly, if three patients are visited at a single location on the same occasion, each of the three patients should be billed item 10933 as well as the consultation item applying to each patient.

Where more than three patients are seen at the same location, additional benefits for domiciliary visits are not payable for the fourth, fifth etc patients. On such occasions, the first three patients should be billed item 10933 as well as the appropriate consultation item, and all subsequent patients may only be billed the appropriate consultation item. Where multiple patients are seen at one location on one occasion, there is no provision for patients to be 'grouped' into twos and threes for billing purposes.

Where a private charge is levied for a domiciliary visit, bulk-billing is precluded. Medicare benefits are not payable in respect of the private charge and the patient should be informed of this. Private charges should be shown separately on accounts issued by optometrists and must not be included in the fees for the service.

Domiciliary visit loading items cannot be claimed in conjunction with brief initial consultation item 10916, or with computerised perimetry items 10940 or 10941.

## Computerised Perimetry Services (items 10940 and 10941)

Benefit under items 10940 and 10941 is payable where full quantitative computerised perimetry (automated absolute static threshold but not including multifocal multichannel objective perimetry) has been performed by an optometrist on both eyes (item 10940) or one eye (item 10941) where indicated by the presence of relevant ocular disease or suspected pathology of the visual pathways or brain. Item 10940 for bilateral procedures cannot be claimed for patients who are totally blind in one eye. In this instance, item 10941 for unilateral procedures should be claimed, where appropriate.

These items can be billed either in association with comprehensive consultation items 10905, 10907, 10910, 10911, 10912, 10913, 10914, or 10915, or independently, but they cannot be billed with items 10916, 10918, 10931, 10932 or 10933. An assessment and report is required and, where referral to an ophthalmologist for further treatment is required, the printed results of the perimetry should be provided to the ophthalmologist to discourage repetition of perimetry unless clinically necessary. If Medicare benefits are to be claimed, a maximum of two perimetry services in any twelve month period may be provided.

#### Low Vision Assessment (item 10942)

A benefit is payable under item 10942 where one or more of the tests outlined in the item description are carried out on a patient who has already been established during a comprehensive consultation as having low vision, as specifically defined in the item. This item is not intended for patients expected to undergo cataract surgery in the near future who may temporarily meet the criteria for having low vision.

Item 10942 may be claimed on the same day as either a comprehensive initial consultation (items 10905 – 10915) or a subsequent consultation (item 10918), but only where the additional low vision testing has been carried out on an eligible patient. Item 10942 is not intended to be claimed with a brief initial consultation (item 10916), or with any of the contact lens items (items 10921-10930).

#### Children's vision assessment (item 10943)

Children aged 0 to 2 years, and 15 years and over, are not eligible for item 10943 and may be treated under appropriate attendance items.

A benefit is payable under item 10943 where one or more of the assessment and testing procedures outlined in the item description are carried out on a patient aged 3-14 years inclusive, and where a

finding of significant binocular or accommodative dysfunction is the outcome of the consultation and assessment/testing. The conditions to be assessed under this item are primarily amblyopia and strabismus, but dysfunctions relating to vergences are also covered, providing well established and evidence based optometry practice is observed.

A benefit is not payable under item 10943 for the assessment of learning difficulties or learning disabilities.

Item 10943 may be claimed on the same day as either a comprehensive consultation (items 10905 – 10915) or a subsequent consultation (item 10918), but only where the additional assessment/testing has been carried out on an eligible child. Item 10943 is not intended to be claimed with a brief initial consultation (item 10916), or with any of the contact lens items (items 10921-10930).

### Removal of an embedded corneal foreign body (item 10944)

Item 10944 has been introduced for the complete removal of an embedded corneal foreign body that is sub-epithelial or intra-epithelial and the removal of rust rings from the cornea.

The removal of an embedded foreign body should be performed using a hypodermic needle, foreign body gouge or similar surgical instrument, with magnification provided by a slit lamp biomicroscope, loupe or similar device. The removal of rust rings from the cornea should be performed with the use of a dental burr, foreign body gouge or similar instrument with magnification by a slit lamp biomicroscope. The optometrist should document the nature of the embedded corneal foreign body (sub-epithelial or intra-epithelial), method of removal and the magnification. Similarly, with rust ring removal, the optometrist should document the method of removal and the magnification.

Where complexity of the procedure is beyond the skill of the optometrist, or if other complications are present (e.g. globe perforation, penetration >25%, or patient unable to hold still due to pathological anxiety, nystagmus, or tremor etc, without some form of systemic medication), the patient should be referred to an ophthalmologist.

This item cannot be billed on the same occasion as items 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915, 10916 or 10918. If the embedded corneal foreign body or rust ring has not been completely removed, benefits are only payable under item 10916.

#### O.6. BILLING PROCEDURES

There are three ways benefits may be paid for optometric services:

- (a) the claimant may pay the optometrist's account in full and then claim benefits from the Department of Human Services by submitting the account and the receipt;
- (b) the claimant may submit the unpaid account to the Department of Human Services who will then send a cheque in favour of the optometrist, to the claimant; or
- the optometrist may bill Medicare instead of the patient for the consultation. This is known as bulk-billing. If an optometrist direct-bills, they undertake to accept the relevant Medicare benefit as full payment for the consultation. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient.

#### **Claiming of benefits**

The patient, upon receipt of an optometrist's account, has two options for paying the account and receiving benefits.

#### Paid accounts

If the account has been paid in full a claimant can claim Medicare benefits in a number of ways:

- Electronically if the claimant's doctor offers this service and the claimant has completed and lodged a bank account details collection form with Medicare.
- Online through Medicare Online Services.
- At the claimant's local Department of Human Services Service Centre.
- By mail by sending a completed Medicare claim form with the original accounts and/or receipts to:

Department of Human Services GPO Box 9822 In the claimant's capital city

• Over the phone by calling 132 011 and giving the claim details and then sending the account and/or receipt to:

Telephone Claiming Department of Human Services GPO Box 9847 In the claimant's capital city

Practitioners seeking information regarding registration to allow EFT payments and other E-Business transactions, can do so by viewing the Health Professionals section at the Department of Human Services website at <a href="www.humanservices.gov.au.">www.humanservices.gov.au.</a>

#### **Unpaid accounts**

Where the patient has not paid the account in full, the unpaid account may be presented to the Department of Human Services with a completed Medicare claim form. In this case the Department of Human Services will forward to the claimant a Medicare benefit cheque made payable to the optometrist.

It is the patient's responsibility to forward the cheque to the optometrist and make arrangements for payment of the balance of the account, if any. "Pay optometrist" cheques involving Medicare benefits must (by law), not be sent direct to optometrists, or to the claimant at an optometrist's address (even if requested by the claimant to do so). "Pay optometrist" cheques are required to be forwarded to the claimant's last known address as recorded with the Department of Human Services.

When issuing a receipt to a patient for an account that is being paid wholly or in part by a Medicare "pay optometrist" cheque the optometrist should indicate on the receipt that a "Medicare cheque for \$..... was involved in the payment of the account". The receipt should also include any money paid by the claimant or patient.

#### **Itemised accounts**

When an optometrist bills a patient for a service, the patient should be issued with a correctly itemised account and receipt to enable the patient to claim Medicare benefits. Where both a consultation and another service, for example computerised perimetry occur, these may be itemised on the same account.

Medicare benefits are only payable in respect of optometric services where it is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of each service to each patient, the following information:

- (a) patient's name;
- (b) date on which the service(s) was rendered;
- (c) a description of the service(s) (e.g. "initial consultation", "subsequent consultation" or "contact lens consultation" and/or "computerised perimetry" in those cases where it is performed);
- (d) Medicare Benefits Schedule item number(s);
- (e) the name and practice address or name and provider number of the optometrist who actually rendered the service(s). Where the optometrist has more than one practice location, the provider

number used should be that which is applicable to the practice location where the service(s) was given;

- (f) the fee charged for the service(s); and
- (g) the time each service began if the optometrist attended the patient on more than one occasion on the same day and on each occasion rendered a professional service relating to an optometric item, except where a perimetry item is performed in association with a consultation item, where times do not need to be specified.

The optometrist billing for the service bears responsibility for the accuracy and completeness of the information included on accounts, receipts and assignment of benefits forms even where such information has been recorded by an employee of the optometrist.

Payment of benefits could be delayed or disallowed if the account does not clearly identify the service as one which qualifies for Medicare benefits or that the practitioner is a registered optometrist practising at the address where the service was rendered. It is important to ensure that an appropriate description of the service, the item number and the optometrist's provider number are included on accounts, receipts and assignment of benefit forms.

Details of any charges made other than for services, e.g. a dispensing charge, a charge for a domiciliary visit, should be shown separately either on the same account or on a separate account.

# Patients must be eligible to receive Medicare benefits and must also meet the clinical requirements outlined in the relevant item descriptors.

#### **Duplicate accounts**

Only one original itemised account per service should be issued, except in circumstances where both a consultation and computerised perimetry occur, in which case these may be itemised on the same original account. Duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

#### **Assignment of benefit (bulk-billed) arrangements**

Under the *Health Insurance Act 1973* an Assignment of Benefit (bulk-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If an optometrist bulk-bills, they undertake to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:

- the patient's Medicare number must be quoted on all bulk-bill assignment of benefit forms for that patient;
- the assignment of benefit forms provided are loose leaf to enable the patient details to be imprinted from the Medicare Card;
- the forms include information required by Regulations under Section 19(6) of the *Health Insurance Act 1973*;
- the optometrist must cause the particulars relating to the professional service to be set out on the assignment of benefit form, before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it;
- where a patient is unable to sign the assignment of benefit form, the signature of the patient's parent, guardian or other responsible person (other than the optometrist, optometrist's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable.
- In the absence of a "responsible person" the patient signature section should be left blank and in

the section headed 'Practitioner's Use', an explanation should be given as to why the patient was unable to sign (e.g. unconscious, injured hand etc.) and this note should be signed or initialled by the optometrist. If in the opinion of the optometrist the reason is of such a "sensitive" nature that revealing it would constitute an unacceptable breach of patient confidentiality or unduly embarrass or distress the recipient of the patient's copy of the assignment of benefits form, a concessional reason "due to medical condition" to signify that such a situation exists may be substituted for the actual reason. However, this should not be used routinely and in most cases it is expected that the reason given will be more specific.

#### Use of Medicare cards in bulk-billing

Where a patient presents without a Medicare card and indicates that they have been issued with a card but does not know the details, the optometrist may contact the Department of Human Services on 132 150 to obtain the patient's Medicare card number.

It is important for the optometrist to check the eligibility of their patients for Medicare benefits by reference to the card, as entitlement is limited to the "valid to" date shown on the bottom of the card. Additionally the card will show if a person is enrolled through a RHCA.

#### **Assignment of benefit forms**

Only the approved assignment of benefit forms available from the Department of Human Services website, <a href="www.humanservices.gov.au">www.humanservices.gov.au</a>, can be used to bulk-bill patients for optometric services and no other form can be used without its approval.

## (a) Form DB2-OP

This form is designed for the use of optical scanning equipment and is used to assign benefits for optometrical services. It is loose leaf to enable imprinting of patient details from the Medicare card and comprises a throw away cover sheet (after imprinting), a Medicare copy, a Practitioner copy and a Patient copy.

# (b) Form DB4

This is a continuous stationery version of Form DB2 and has been designed for use on most office accounting machines.

#### The Claim for Assigned Benefits (Form DB1N, DB1H)

Optometrists who accept assigned benefits must claim from the Department of Human Services using either Claim for Assigned Benefits form DB1N or DB1H. The DB1N form should be used where services are rendered to persons for treatment provided out of hospital or day hospital treatment. The DB1H form should be used where services are rendered to persons while hospital treatment is provided in a hospital or day hospital facility (other than public patients). Both forms have been designed to enable benefit for a claim to be directed to an optometrist other than the one who rendered the services. The facility is intended for use in situations such as where a short term locum is acting on behalf of the principal optometrist and setting the locum up with a provider number and pay-group link for the principal optometrist's practice is impractical. Optometrists should note that this facility cannot be used to generate payments to or through a person who does not have a provider number.

Each claim form must be accompanied by the assignment of benefit forms to which the claim relates.

## Time limits applicable to lodgement of bulk-bill claims for benefits

A time limit of two years applies to the lodgement of claims with the Department of Human Services under the bulk-billed (assignment of benefits) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with the Department of Human Services.

Provision exists whereby in certain circumstances (e.g. hardship cases),

the Minister may waive the time limits applicable to the lodgement of bulk billed claims for benefits. Special forms for this purpose are available, if required, from the Department of Human services website www.humanservices.gov.au or the processing centre to which bulk-bill claims are directed.

#### O.7. REFERRALS

#### General

Optometrists are required to refer a patient for medical attention when it becomes apparent to them that the patient's condition is such that it would be more appropriate for treatment to be undertaken by a medical practitioner.

Optometrists may refer patients directly to specialist ophthalmologists with the patient being able to claim benefits for the ophthalmologist's services at the referred specialist rate.

Optometrists may refer patients directly to another optometrist, based on the clinical needs of the patient.

A referral letter or note must have been issued by the optometrist for all such services provided by specialist ophthalmologists or optometrists in order for patients to be eligible for Medicare benefits at the referred rate. Unless such a letter or note has been provided, benefits will be paid at the non-referred attendance rate, which has a lower rebate.

Medicare benefits at the referred rate are not paid for patients referred by optometrists to consultant physicians or to specialists other than ophthalmologists. See relevant paragraph regarding emergency situations.

#### What is a referral?

For the purposes of the optometric arrangements, a "referral" is a request to a specialist ophthalmologist or another optometrist for investigation, opinion, treatment and/or management of a condition or problem of a patient or for the performance of a specific examination(s) or test(s).

Subject to the exceptions in the paragraph below, for a valid "referral" to take place:

- (a) the referring optometrist must have turned his or her mind to the patient's need for referral and communicate relevant information about the patient to the specialist ophthalmologist or optometrist to whom the patient is referred (but this does not necessarily mean an attendance on the occasion of the referral);
- (b) the instrument of referral must be in writing by way of a letter or note and must be signed and dated by the referring optometrist; and
- (c) the practitioner to whom the patient is referred must have received the instrument of referral on or prior to the occasion of the professional service to which the referral relates.

The exceptions to the requirements in the above paragraph are that:

- (a) sub-paragraphs (b) and (c) do not apply to an emergency situation where the specialist ophthalmologist was of the opinion that the service be rendered as quickly as possible (see paragraph below on emergency situations); and
- (b) sub-paragraph (c) does not apply to instances where a written referral was completed by a referring optometrist but was lost, stolen or destroyed.

#### Period for which referral is valid

A referral from an optometrist to an ophthalmologist is valid for 12 months unless the optometrist specifies on the referral that the referral is for a different period (e.g. three, six or 18 months or valid indefinitely).

The referral applies for the period specified in the referral from the date that the ophthalmologist provides the first service to the patient. If there is no period specified in the referral then the referral is valid for 12 months from the date of the first service provided by the ophthalmologist.

Referrals for longer than 12 months should be made only when the patient's clinical condition requires continuing care and management.

An optometrist may write a new referral when a patient presents with a condition unrelated to the condition for which the previous referral to an ophthalmologist was written. In these circumstances Medicare benefits for the consultation with the ophthalmologist would be payable at initial consultation rates.

A new course of treatment for which Medicare benefits would be payable at the initial consultation rates will also be paid where the referring optometrist:

- (a) deems it necessary for the patient's condition to be reviewed; and
- (b) the patient is seen by the ophthalmologist outside the currency of the previous referral and
- (c) the patient was last seen by the specialist ophthalmologist more than nine months earlier than the attendance following a new referral.

#### Self referral

Optometrists may refer themselves to specialist ophthalmologists or other optometrists and Medicare benefits are payable at referred rates.

#### Lost, stolen or destroyed referrals

If a referral has been made but the letter or note of referral has been lost, stolen or destroyed, benefits will be payable at the referred rate if the account, receipt or the assignment form shows the name of the referring practitioner, the practice address or provider number of the referring practitioner (if either of these are known to the consultant physician or specialist) and the words 'Lost referral'. This provision only applies to the initial attendance. For subsequent attendances to attract Medicare benefits at the referred rate, a duplicate or replacement letter of referral must be obtained by the specialist or the consultant physician.

#### **Emergency situations**

Medicare benefits are payable even though there is no written referral in an emergency situation (as defined in the *Health Insurance Regulations 1975*). The specialist or the consultant physician should be of the opinion that the service must be rendered as quickly as possible and endorses the account, receipt or assignment form as an "Emergency referral".

A referral must be obtained from a medical practitioner or, in the case of a specialist ophthalmologist, a medical practitioner or an optometrist if attendances subsequent to the emergency attendance are to attract Medicare benefits at the referred rate.

#### O.8. PROVISION FOR REVIEW OF THE SCHEDULE

#### **Optometric Benefits Consultative Committee (OBCC)**

The OBCC is an advisory committee established in 1990 by arrangement between the Minister and Optometry Australia.

The OBCC's functions are:

- (a) to discuss the appropriateness of existing Medicare Benefits Schedule items for the purposes of considering whether an approach to the Medical Services Advisory Committee may be needed;
- (b) to undertake reviews of particular services and to report on the appropriateness of the existing structure of the Schedule, having regard to current optometric practice;

- (c) to consider and advise on the appropriateness of the optometrists' arrangements and the administrative rules and interpretations which determine the payment of benefits for optometric services or the level of benefits;
- (d) to investigate specific matters associated with the optometrists' arrangements and to advise on desirable changes.

The OBCC comprises two representatives from the Department of Health, two representatives from the Department of Human Services, and three representatives from Optometry Australia

#### O.9. PROVISION FOR REVIEW OF PRACTITIONER BEHAVIOUR

# Professional Services Review (PSR) Scheme

The Professional Services Review (PSR) Scheme is a scheme for reviewing and investigating the provision of services by a health practitioner to determine whether the practitioner has engaged in inappropriate practice in the rendering or initiating of Medicare services or in prescribing under the Pharmaceutical Benefits Scheme (PBS). 'Practitioner' is defined in Section 81 of the *Health Insurance Act 1973* and includes: medical practitioners, dentists, optometrists, chiropractors, midwives, nurse practitioners, physiotherapists, podiatrists and osteopaths.

Section 82 of the *Health Insurance Act 1973* defines inappropriate practice as conduct that is such that a PSR Committee could reasonably conclude that it would be unacceptable to the general body of the members of the profession in which the practitioner was practising when he or she rendered or initiated the services. It is also an offence under Section 82 for a person who is an officer of a body corporate to knowingly, recklessly or negligently cause or permit a practitioner employed by the person to engage in such conduct.

The Department of Human Services and Department of Health monitors health practitioners' claiming patterns. Where an anomaly is detected, for which a satisfactory explanation cannot be provided, the Department of Health can request that the Director of PSR review the provision of services by the practitioner. On receiving the request, the Director must decide whether to conduct a review and in which manner the review will be conducted. The Director is authorised to require that documents and information be provided.

Following a review, the Director must:

- (a) decide to take no further action; or
- (b) enter into an agreement with the person under review (which must then be ratified by an independent Determining Authority); or
- (c) refer the matter to a PSR Committee.

A PSR Committee consists of the Chairperson and two other panel members who must be members of the same profession as the practitioner under review. However, up to two additional Committee members may be appointed to provide a wider range of clinical expertise.

The Committee is authorised to:

- (a) investigate any aspect of the provision of the referred services, and without being limited by the reasons given in the review request or by a Director's report following the review;
- (b) hold hearings and require the person under review to attend and give evidence; and
- (c) require the production of documents (including clinical notes).

A PSR Committee may not make a finding of inappropriate practice unless it has given the person under review notice of its intention to review them, the reasons for its findings, and an opportunity to respond. In reaching their decision, a PSR Committee is required to consider whether or not the practitioner has

kept adequate and contemporaneous patient records. It will be up to the peer judgement of the PSR Committee to decide if a practitioner's records meet the prescribed standards.

The standards which determine if a record is adequate and contemporaneous are prescribed in the *Health Insurance (Professional Services Review) Regulations 1999*.

To be *adequate*, the patient or clinical record needs to:

- clearly identify the name of the patient; and
- contain a separate entry for each attendance by the patient for a service and the date on which the service was rendered or initiated; and
- each entry needs to provide clinical information adequate to explain the type of service rendered or initiated; and
- each entry needs to be sufficiently comprehensible that another practitioner, relying on the record, can effectively undertake the patient's ongoing care.

To be *contemporaneous*, the patient or clinical record should be completed at the time that the service was rendered or initiated or as soon as practicable afterwards. Records for hospital patients are usually kept by the hospital and the practitioner could rely on these records to document in-patient care.

The practitioner under review is permitted to make submissions to the PSR Committee before key decisions or a final report is made.

If a PSR Committee finds that the person under review has engaged in inappropriate practice, the findings will be reported to the Determining Authority to decide what action should be taken:

- (i) a reprimand;
- (ii) counselling;
- (iii) repayment of Medicare benefits; and/or
- (iv) complete or partial disqualification from Medicare benefit arrangements for up to three years.

Further information on the PSR is available at <a href="www.psr.gov.au">www.psr.gov.au</a>, and information on Medicare compliance is available at <a href="http://www.humanservices.gov.au/health-professionals/subjects/compliance?utm_id=9.">http://www.humanservices.gov.au/health-professionals/subjects/compliance?utm_id=9.</a>

#### **Penalties**

Penalties of up to \$10,000 or imprisonment for up to five years, or both may be imposed on any person who makes a statement (either orally or in writing) or who issues or presents a document that is false or misleading in a material particular and which is capable of being used with a claim for benefits. In addition, any practitioner who is found guilty of such offences shall be subject to examination by a Medicare Participation Review Committee (MPRC) and may be counselled or reprimanded or may have services wholly or partially disqualified from the Medicare benefit arrangements.

A penalty of up to \$1,000 or imprisonment for up to three months, or both, may be imposed on any person who obtains a patient's signature on an assignment of benefit form without necessary details having been entered on the form before the patient signs or who fails to cause a patient to be given a copy of the completed form.

#### **Medicare Participation Review Committee (MPRC)**

The MPRC determines what administrative action should be taken against a practitioner who:

- (a) has been successfully prosecuted for relevant criminal offences; or
- (b) has been found to have engaged in inappropriate practice under the Professional Services Review scheme.

The Committee can take no further action, counsel or reprimand the practitioner, or determine that the practitioner be disqualified from Medicare for a particular period or in relation to particular services for up to five years.

Medicare benefits are not payable in respect of services rendered by a practitioner who has been fully disqualified, or partly disqualified in relation to relevant services under the *Health Insurance Act 1973* (Section 19B applies).

#### 0.10. VISITING OPTOMETRISTS SCHEME (VOS)

Special arrangements exist under the provisions of Section 129A of the *Health Insurance Act 1973* to ensure that people in rural and remote locations have access to optometry services. Optometrists are encouraged to provide outreach services to national priority locations, particularly remote and very remote locations, Aboriginal and Torres Strait Islander communities and rural locations with an identified need for optometry services.

Under these arrangements, financial assistance may be provided to cover costs associated with delivering outreach services, including travel, accommodation and meals and facility fees.

Funding agreements are currently in place with optometrists for the delivery of services until 30 June 2016. Enquiries can be directed to <a href="wow@health.gov.au">wos@health.gov.au</a>.

#### O.11. TELEHEALTH PATIENT-END SUPPORT SERVICES BY OPTOMETRISTS

These notes provide information on the telehealth MBS attendance items for optometrists to provide clinical support to their patients, when clinically relevant, during video consultations with ophthalmologists under items 10945, 10946, 10947 and 10948 in Group A10.

Telehealth patient-end support services can only be claimed where:

- a Medicare eligible specialist service is claimed;
- the service is rendered in Australia; and
- this is necessary for the provision of the specialist service.

A video consultation will involve a single optometrist attending to the patient, with the possible participation of another medical practitioner, a participating nurse practitioner, a participating midwife, practice nurse, Aboriginal and Torres Strait Islander health practitioner or Aboriginal health worker at the patient end. The above time-tiered items provide for patient-end support services in various settings, including consulting rooms, other than consulting rooms, eligible residential aged care services and Aboriginal Medical Services.

#### Clinical indications

The ophthalmologist must be satisfied that it is clinically appropriate to provide a video consultation to a patient. The decision to provide clinically relevant support to the patient is the responsibility of the ophthalmologist.

Telehealth specialist services can be provided to patients when there is no patient-end support service provided.

#### Collaborative Consultation

The optometrist who provides assistance to the patient where this is necessary for the provision of the specialist service, may seek assistance from a health professional (e.g. a medical practitioner, practice nurse, Aboriginal or Torres Strait Islander health practitioner or Aboriginal health worker) but only one item is billable for the patient-end support service. The optometrist must be present during part or all of the consultation in order to bill an appropriate time-tiered MBS item. Any time spent by another health

professional called to assist with the consultation may not be counted against the overall time taken to complete the video consultation.

#### Restrictions

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes Hospital in the Home patients). Benefits are not payable for telephone or email consultations. In order to fulfil the item descriptor there must be a visual and audio link between the patient and the ophthalmologist. If the ophthalmologist is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

# Eligible Geographical Areas

Geographic eligibility for telehealth services funded under Medicare are determined according to the Australian Standard Geographical Classification Remoteness Area (ASGC-RA) classifications. Telehealth Eligible Areas are areas that are outside a Major City (RA1) according to ASGC-RA (RA2 – 5). Patients and providers are able to check their eligibility by following the links on the MBS Online website (<a href="www.mbsonline.gov.au/telehealth">www.mbsonline.gov.au/telehealth</a>).

There is a requirement for the patient and specialist to be located a minimum of 15km apart at the time of the consultation. Minimum distance between specialist and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or the specialist is not permitted to travel to an area outside the minimum 15 km distance in order to claim a video conference. This rule will not apply to specialist video consultations with patients who are a care recipient in an eligible residential care service; or at an eligible Aboriginal Medical Service or Aboriginal Community Controlled Health Service for which a direction, made under subsection 19(2) of the *Health Insurance Act 1973*, as these patients are able to receive telehealth services anywhere in Australia.

# Telehealth Eligible Service Areas are defined at:

 $\underline{http://www.mbsonline.gov.au/internet/mbsonline/publishing.nsf/Content/connectinghealthservices-eligible-geo.}$ 

#### Record Keeping

Telehealth optometrists must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

#### Multiple attendances on the same day

In some situations a patient may receive a telehealth consultation and a face-to-face consultation by the same or different practitioner on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same practitioner, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Practitioners will need to provide the times of each consultation on the patient's account or bulk billing voucher.

Also, if a patient has an initial consultation via telehealth, they cannot also claim an initial face-to-face consultation as part of the same course of treatment.

#### Aftercare Rule

Video consultations are subject to the same aftercare rules as face-to-face consultations.

#### Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

# Technical requirements

In order to fulfil the item descriptor there must be a visual and audio link between the patient and the ophthalmologist. If the ophthalmologist is unable to establish both a video and audio link with the patient, a MBS rebate for a specialist video consultation is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a videoconference meets the applicable laws for security and privacy.

# Duration of attendance

The optometrist attending at the patient end of the video consultation does not need to be present for the entire consultation, only as long as is clinically relevant — this can be established in consultation with the ophthalmologist. The MBS fee payable for the supporting optometrist will be determined by the total time spent assisting the patient. This time does not need to be continuous.

# PART 2 - SCHEDULE OF SERVICES

SERVI	CES SERVICES
	GROUP A10 - OPTOMETRICAL SERVICES
	SUBGROUP 1 – GENERAL
	REFERRED COMPREHENSIVE INITIAL CONSULTATION
10905	Professional attendance of more than 15 minutes duration, being the first in a course of attention, if the patient has been <u>referred</u> by another optometrist who is not associated with the optometrist to whom the patient is referred.  (See para O5 of explanatory notes to this Category)  Fee: \$66.80  85% = \$56.80
	COMPREHENSIVE INITIAL CONSULTATION BY ANOTHER PRACTITIONER
	Professional attendance of more than 15 in minutes duration being the first in a course of attention <u>if the patient has attended</u> <u>another optometrist</u> for an attendance to which this item or item 10905, 10910, 10911, 10912, 10913, 10914 or 10915 applies, or to which old item 10900 applied:
	a) for a patient who is less than 65 years of age – within the previous 36 months; or b) for a patient who is at least 65 years of age – within the previous 12 months.  (See para O5 of explanatory notes to this Category)
10907	Fee: \$33.45 85% = \$28.45  COMPREHENSIVE INITIAL CONSULTATION – PATIENT IS LESS THAN 65 YEARS OF AGE
	Professional attendance of more than 15 minutes in duration, being the first in a course of attention, if:  a) the patient is less than 65 years of age; and
	b) the patient has not, within the previous 36 months, received a service to which: (i) this item or item 10905, 10907, 10912, 10913, 10914 or 10915 applies; or (ii) old item 10900 applied.
10910	(See para O5 of explanatory notes to this Category) Fee: \$66.80 85%=\$56.80
10710	COMPREHENSIVE INITIAL CONSULTATION – PATIENT IS AT LEAST 65 YEARS OF AGE
	Professional attendance of more than 15 minutes in duration, being the first in a course of attention, if:  a) the patient is at least 65 years of age; and b) the patient has not, within the previous 12 months, received a service to which:  (i) this item or item 10905, 10907, 10910, 10912, 10913, 10914 or 10915 applies; or  (ii) old item 10900 applied.
10911	(See para O5 of explanatory notes to this Category) Fee: \$66.80 85%=\$56.80
10911	OTHER COMPREHENSIVE CONSULTATIONS
10912	Professional attendance of more than 15 minutes duration, being the first in a course of attention, if the patient has suffered a significant change of visual function requiring comprehensive reassessment:  a) for a patient who is less than 65 years of age – within 36 months of an initial consultation to which:  (i) this item, or item 10905, 10907, 10910, 10913, 10914 or 10915 at the same practice applies; or  (ii) old item 10900 at the same practice applied; or  b) for a patient who is at least 65 years of age – within 12 months of an initial consultation to which:  (i) this item, or item 10905, 10907, 10910, 10911, 10913. 10914 or 10915 at the same practice applies; or  (ii) old item 10900 at the same practice applied.  (See para O5 of explanatory notes to this Category)  Fee: \$66.80  85% = \$56.80
10913	Professional attendance of more than 15 minutes duration, being the first in a course of attention, if the patient has <b>new signs or symptoms</b> , unrelated to the earlier course of attention, requiring comprehensive reassessment:  a) for a patient who is less than 65 years of age – within 36 months of an initial consultation to which:  (i) this item, or item 10905, 10907, 10910, 10912, 10914 or 10915 at the same practice applies; or  (ii) old item 10900 at the same practice applied; or  b) for a patient who is at least 65 years of age – within 12 months of an initial consultation to which:  (i) this item, or item 10905, 10907, 10910, 10911, 10912, 10914 or 10915 at the same practice applies; or  (ii) old item 10900 at the same practice applied.  (See para O5 of explanatory notes to this Category)  Fee: \$66.80  85% = \$56.80

	Professional attendance of more than 15 minutes duration, being the first in a course of attention, if the patient has a <b>progressive disorder</b> (excluding presbyopia) requiring comprehensive reassessment:  a) for a patient who is less than 65 years of age – within 36 months of an initial consultation to which:  (i) this item, or item 10905, 10907, 10910, 10912, 10913 or 10915 applies; or
	(ii) old item 10900 applied; or b) for a patient who is at least 65 years of age – within 12 months of an initial consultation to which:
	(i) this item, or item 10905, 10907, 10910, 10911, 10912, 10913 or 10915 applies; or
	(ii) old item 10900 applied. (See para O5 of explanatory notes to this Category)
10914	Fee: \$66.80 85% = \$56.80
10915	Professional attendance of more than 15 minutes duration, being the first in a course of attention involving the examination of the eyes, with the instillation of a mydriatic, of a patient with diabetes mellitus requiring comprehensive reassessment.  (See para O5 of explanatory notes to this Category)  Fee: \$66.80  85% = \$56.80
	BRIEF INITIAL CONSULTATION
	Professional attendance, being the first in a course of attention, of not more than 15 minutes duration, not being a service associated with a service to which item 10931, 10932, 10933, 10940, 10941, 10942 or 10943 applies. (See para O5 of explanatory notes to this Category)
10916	<b>Fee:</b> \$33.45
	SUBSEQUENT CONSULTATION
	Professional attendance being the second or subsequent in a course of attention not related to the prescription and fitting of contact lenses, not being a service associated with a service to which item 10940 or 10941 applies.
10918	(See para O5 of explanatory notes to this Category)  Fee: \$33.45  85% = \$28.45
10710	1 100 400-110 0070 - 420-110

SERVIC	ES SERVICES
	CONTACT LENSES FOR SPECIFIED CLASSES OF PATIENTS - BULK ITEMS FOR ALL SUBSEQUENT CONSULTATIONS
	All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which:
	a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied.  Payable once in a period of 36 months for
10921	<ul> <li>patients with myopia of 5.0 dioptres or greater (spherical equivalent) in one eye.</li> <li>Fee: \$165.80 85% = \$140.95</li> </ul>
	All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which:
	a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied
10022	Payable once in a period of 36 months for  patients with <u>manifest hyperopia of 5.0 dioptres or greater</u> (spherical equivalent) in one eye.
10922	Fee: \$165.80 85% = \$140.95  All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which:
	a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied Payable once in a period of 36 months for
10923	patients with <u>astigmatism of 3.0 dioptres or greater</u> in one eye. Fee: $$165.80$ $85\% = $140.95$
10,25	All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which:
	a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied
10024	Payable once in a period of 36 months for  - patients with <u>irregular astigmatism</u> in either eye, being a condition the existence of which has been confirmed by keratometric observation, if the maximum visual acuity obtainable with spectacle correction is worse than 0.3 logMAR (6/12) and if that corrected acuity would be improved by an additional 0.1 logMAR by the use of a contact lens.
10924	All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to
	which: a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied
	Payable once in a period of 36 months for - patients with <u>anisometropia of 3.0 dioptres or greater</u> (difference between spherical equivalents).
10925	Fee: \$165.80 85% = \$140.95  All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which:
	a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied
	Payable once in a period of 36 months for  - patients with corrected <u>visual acuity of 0.7 logMAR (6/30) or worse</u> in both eyes, being patients for whom a contact lens is prescribed as part of a <u>telescopic system.</u>
10926	<b>Fee:</b> \$165.80 85% = \$140.95

All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied Payable once in a period of 36 months for patients for whom a wholly or segmentally opaque contact lens is prescribed for the alleviation of dazzle, distortion or pathological mydriasis; or (i) aniridia; or (ii) (iii) coloboma of the iris; or pupillary malformation or distortion; or significant ocular deformity or corneal opacity whether congenital, traumatic or surgical in origin. 10927 Fee: \$209.20 85% = \$177.85All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to which: a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied Payable once in a period of 36 months for patients who, by reason of **physical deformity**, are unable to wear spectacles. 10928 85% = \$140.95All professional attendances after the first, being those attendances regarded as a single service, in a single course of attention involving the prescription and fitting of contact lenses, being a course of attention for which the first attendance is a service to a) item 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915 or 10916 applies; or b) old item 10900 applied Payable once in a period of 36 months for patients who have a medical or optical condition (other than myopia, hyperopia, astigmatism, anisometropia or a condition to which item 10926, 10927 or 10928 applies) requiring the use of a contact lens for correction, where the **condition is specified** on the patient's account. Note: Benefits may not be claimed under item 10929 where the patient wants the contact lenses for appearance, sporting, work or psychological reasons - see paragraph O5 of explanatory notes to this category. 10929 Fee: \$209.20 85% = \$177.85All professional attendances regarded as a single service in a single course of attention involving the prescription and fitting of contact lenses where the patient meets the requirements of an item in the range 10921-10929 and requires a change in contact lens material or basic lens parameters, other than a simple power change, because of a structural or functional change in the eye or an allergic response within 36 months of the fitting of a contact lens covered by item 10921 to 10929. 10930 Fee: \$165.80 85% = \$140.95

32

SERVIO	CES SERVICES
	DOMICILIARY VISITS
	An optometric service to which an item in Group A10 of this table (other than this item or item 10916, 10932, 10933, 10940 or
	10941) applies (the applicable item) if the service is:
	a) rendered at a place other than consulting rooms, being at:
	(i) a patient's home: or
	(ii) residential aged care facility: or
	(iii) an institution; and
	b) performed on <b>one patient</b> at a single location on one occasion, and either:
	(i) bulk-billed in respect of the fees for both:
	- this item; and
	- the applicable item; or
	(ii) not bulk-billed in respect of the fees for both:
	- this item; and - the applicable item
	(See para O5 of explanatory notes to this Category)
10931	Fee: \$23.30 85% = \$19.85
	An optometric service to which an item in Group A10 of this table (other than this item or item 10916, 10931, 10933, 10940 or
	10941) applies (the applicable item) if the service is:
	a) rendered at a place other than consulting rooms, being at:
	(i) a patient's home: or
	(ii) residential aged care facility: or
	<ul><li>(iii) an institution; and</li><li>b) performed on two patients at the same location on one occasion, and</li></ul>
	c) either:
	(i) bulk-billed in respect of the fees for both:
	- this item; and
	- the applicable item; or
	(ii) not bulk-billed in respect of the fees for both:
	- this item; and
	- the applicable item (See para O5 of explanatory notes to this Category)
10932	Fee: \$11.60 85% = \$9.90
	An optometric service to which an item in Group A10 of this table (other than this item or item 10916, 10931, 10932, 10940 or
	10941) applies (the applicable item) if the service is:
	a) rendered at a place other than consulting rooms, being at:
	(i) a patient's home: or
	(ii) residential aged care facility: or
	(iii) an institution; and
	b) performed on <b>three patients</b> at the same location on one occasion, and c) either:
	(i) bulk-billed in respect of the fees for both:
	- this item; and
	- the applicable item; or
	(ii) not bulk-billed in respect of the fees for both:
	- this item; and
	- the applicable item
10933	(See para O5 of explanatory notes to this Category) <b>Fee:</b> \$7.70 85% = \$6.55
	COMPUTERISED PERIMETRY
10940	Full quantitative computerised perimetry (automated absolute static threshold) not being a service involving multifocal multichannel objective perimetry, performed by an optometrist, where indicated by the presence of relevant ocular disease or suspected pathology of the visual pathways or brain with assessment and report, bilateral - to a maximum of two examinations (including examinations to which item 10941 applies) in any twelve month period, not being a service associated with a service to which item 10916, 10918, 10931, 10932 or 10933 applies.  (See para O5 of explanatory notes to this Category)  Fee: \$63.75  85% = \$54.20
10240	<b>EVC.</b> 903.73 0370 - \$034.20

SERVIC	SERVICES SERVICES
10941	Full quantitative computerised perimetry (automated absolute static threshold) not being a service involving multifocal multichannel objective perimetry, performed by an optometrist, where indicated by the presence of relevant ocular disease or suspected pathology of the visual pathways or brain with assessment and report, unilateral - to a maximum of two examinations (including examinations to which item 10940 applies) in any twelve month period, not being a service associated with a service to which item 10916, 10918, 10931, 10932 or 10933 applies.  (See para O5 of explanatory notes to this Category)  Fee: \$38.45  85% = \$32.70
	LOW VISION ASSESSMENT
10942	Testing of residual vision to provide optimum visual performance involving one or more of spectacle correction, determination of contrast sensitivity, determination of glare sensitivity and prescription of magnification aids in a patient who has best corrected visual acuity of 6/15 or N.12 or worse in the better eye, or horizontal visual field of less than 120 degrees within 10 degrees above and below the horizontal midline, not being a service associated with a service to which item 10916 or 10921 to 10930 applies, payable twice in a twelve month period.  (See para O5 of explanatory notes to this Category)  Fee: \$33.45  85% = \$28.45
	CHILDREN'S VISION ASSESSMENT
10943	Additional testing to confirm diagnosis of, or establish a treatment regime for, a significant binocular or accommodative dysfunction, including assessment of one or more of accommodation, ocular motility, vergences, or fusional reserves and/or cycloplegic refraction, in a patient aged three to fourteen years, not to be used for the assessment of learning difficulties or learning disabilities, not being a service associated with a service to which item 10916 or 10921 to 10930 applies, payable once only in a twelve month period (See para O5 of explanatory notes to this Category)  Fee: \$33.45  85% = \$28.45
	REMOVAL OF EMBEDDED CORNEAL FOREIGN BODY
	CORNEA, complete removal of embedded foreign body from – not more than once on the same day by the same practitioner (excluding aftercare)
	The item is not to be billed on the same occasion as MBS items 10905, 10907, 10910, 10911, 10912, 10913, 10914, 10915, 10916 or 10918. Where the embedded foreign body has not been completely removed, benefits are only payable under item 10916
10944	(See para 05 of explanatory notes to this Category)  Fee: \$72.15  85% = \$61.35

SERVIO	CES SERVICES
	GROUP A10 - OPTOMETRICAL SERVICES
	SUBGROUP 2 – TELEHEALTH ATTENDANCE
	A professional attendance of less than 15 minutes (whether or not continuous) by an attending optometrist that requires the provision of clinical support to a patient who:  (a) is participating in a video conferencing consultation with a specialist practising in his or her speciality of ophthalmology; and  (b) is not an admitted patient; and  (c) either:  (i) is located within a telehealth eligible area and, at the time of the attendance, is at least 15 kilometres by road from the specialist mentioned in paragraph (a); or  (ii) is a patient of an Aboriginal Medical Service, or an Aboriginal Community Controlled Health Service, for which a direction under subsection 19(2) of the Act applies
10945	(See para O11 of explanatory notes to this Category) <b>Fee:</b> \$33.45
	A professional attendance of at least 15 minutes (whether or not continuous) by an attending optometrist that requires the provision of clinical support to a patient who:  (a) is attending a video conferencing consultation with a specialist practising in his or her speciality of ophthalmology; and  (b) is not an admitted patient; and  (c) either:  (i) is located within a telehealth eligible area and, at the time of the attendance, is at least 15 kilometres by road from the specialist mentioned in paragraph (a); or  (ii) is a patient of an Aboriginal Medical Service, or an Aboriginal Community Controlled Health Service, for which a direction under subsection 19(2) of the Act applies
10946	(See para O11 of explanatory notes to this Category) <b>Fee:</b> \$66.80   85% = \$56.80
10947	A professional attendance (not being a service to which any other item applies) of less than 15 minutes (whether or not continuous) by an attending optometrist that requires the provision of clinical support to a patient who:  a) is attending a video conferencing consultation with a specialist practising in his or her speciality of ophthalmology; and  b) at the time of the attendance, is located at a residential aged care facility (whether or not at consulting rooms situated within the facility); and  c) is a care recipient in the facility; and  d) is not a resident of a self-contained unit; for an attendance on one occasion—each patient  (See para O11 of explanatory notes to this Category)  Fee: \$33.45  85% = \$28.45
10948	A professional attendance (not being a service to which any other item applies) of at least 15 minutes (whether or not continuous) by an attending optometrist that requires the provision of clinical support to a patient who:  a) is attending a video conferencing consultation with a specialist practising in his or her speciality of ophthalmology; and  b) at the time of the attendance, is located at a residential aged care facility (whether or not at consulting rooms situated within the facility); and  c) is a care recipient in the facility; and  d) is not a resident of a self-contained unit; for an attendance on one occasion—each patient  (See para O11 of explanatory notes to this Category)  Fee: \$66.80 85% = \$56.80
