

## Changes to cataract and coronary angiography items, and the removal of items 50124 and 50125

Information on changes to these items as announced in the 2009-10 Budget

As part of the 2009-10 Federal Budget, it was announced that as a result of improved technology and skill, taxpayers are paying more for some Medicare-funded medical services than necessary. To address this issue, the Schedule fee for cataract and coronary angiography procedures will be adjusted to more appropriately reflect the time and complexity for these services. These changes will take effect from 1 November 2009.

In addition, items 50124 and 50125, which currently provide for joint injections, will be removed from the Schedule, as the service can be delivered as part of a standard consultation.

### What Medicare Benefits Schedule (MBS) items are changing?

#### *Cataract items*

In regard to the cataract items, the Schedule fee for three cataract surgery items will be adjusted. In addition, a new item is being introduced to provide for more complex cataract procedures, with a higher Schedule fee of \$900.75, in recognition that some procedures are more complex and timely. Details of the fee changes are outlined below:

Item	Description of service	Current Schedule Fee at 1 Nov 08	Schedule Fee at 1 Nov 09
42698	Lens extraction	\$650.25	\$350.95
42701	Lens insertion	\$362.60	\$206.75
42702	Lens extraction and insertion	\$831.60	\$454.35

#### *Coronary angiography items*

The Schedule fee for eleven coronary angiography items (38215 - 38240 and 38246) will be reduced by 20 per cent. Details of the fee changes are outlined below:

### ***Joint injection items***

Items 50124 and 50125 will be removed from the Schedule, with benefits payable under existing consultation items. Under the current Medicare benefits arrangements, there are some procedural services which are not specifically listed because they are regarded as forming part of a consultation, or attract benefits on an attendance basis.
