T8. SURGICAL OPERATIONS**3. VASCULAR**

(vii) 61109

The service includes all preparation and immediate clinical aftercare (including excision or injection of either tributaries or incompetent perforating veins, or both) (Anaes.)

(See para TN.8.33 of explanatory notes to this Category)

Fee: \$587.35 **Benefit:** 75% = \$440.55 85% = \$499.25

Extended Medicare Safety Net Cap: \$88.15

Varicose veins, abolition of venous reflux by occlusion of a primary or recurrent great and small saphenous vein (and major tributaries of saphenous veins as necessary) in one leg of a patient, using a laser probe introduced by an endovenous catheter, if all of the following apply:

(a) it is documented by duplex ultrasound that the great and small saphenous veins of the patient demonstrate reflux of 0.5 seconds or longer;

(b) the patient has significant signs or symptoms (including one or more of the following signs or symptoms) attributable to venous reflux:

- (i) ache;
- (ii) pain;
- (iii) tightness;
- (iv) skin irritation;
- (v) heaviness;
- (vi) muscle cramps;
- (vii) limb swelling;
- (viii) discolouration;
- (ix) discomfort;
- (x) any other signs or symptoms attributable to venous dysfunction;

(c) the service does not include radiofrequency diathermy, radiofrequency ablation or cyanoacrylate adhesive;

(d) the service is not associated with a service (on the same leg) to which any of the following items apply:

- (i) 32500 to 32507;
- (ii) 35200;
- (iii) 59970 to 60021;
- (iv) 60036 to 60045;
- (v) 60060 to 60078;
- (vi) 60500 to 60509;

32760	VEIN, HARVESTING OF, FROM LEG OR ARM for bypass or replacement graft when not performed on the limb which is the subject of the bypass or graft - each vein (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20	
32763	ARTERIAL BYPASS GRAFTING, using vein or synthetic material, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$1,307.85 Benefit: 75% = \$980.90	
32766	ARTERIAL OR VENOUS ANASTOMOSIS, not being a service to which another item in this Sub-group applies, as an independent procedure (Anaes.) (Assist.) Fee: \$869.20 Benefit: 75% = \$651.90	
32769	ARTERIAL OR VENOUS ANASTOMOSIS not being a service to which another item in this Sub-group applies, when performed in combination with another vascular operation (including graft to graft anastomosis) (Anaes.) (Assist.) Fee: \$301.20 Benefit: 75% = \$225.90	

T8. SURGICAL OPERATIONS		3. VASCULAR
BYPASS, REPLACEMENT, LIGATION OF ANEURYSMS		
33050	BYPASS GRAFTING to replace a popliteal aneurysm using vein, including harvesting vein (when it is the ipsilateral long saphenous vein) (Anaes.) (Assist.) Fee: \$1,601.90 Benefit: 75% = \$1201.45	
33055	BYPASS GRAFTING to replace a popliteal aneurysm using a synthetic graft (Anaes.) (Assist.) Fee: \$1,284.60 Benefit: 75% = \$963.45	
33070	ANEURYSM IN THE EXTREMITIES, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$926.75 Benefit: 75% = \$695.10 85% = \$828.05	
33075	ANEURYSM IN THE NECK, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$1,178.90 Benefit: 75% = \$884.20	
33080	INTRA-ABDOMINAL OR PELVIC ANEURYSM, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$1,439.10 Benefit: 75% = \$1079.35	
33100	ANEURYSM OF COMMON OR INTERNAL CAROTID ARTERY, OR BOTH, replacement by graft of vein or synthetic material (Anaes.) (Assist.) Fee: \$1,580.95 Benefit: 75% = \$1185.75 85% = \$1482.25	
33103	THORACIC ANEURYSM, replacement by graft (Anaes.) (Assist.) Fee: \$2,218.25 Benefit: 75% = \$1663.70	
33109	THORACO-ABDOMINAL ANEURYSM, replacement by graft including re-implantation of arteries (Anaes.) (Assist.) Fee: \$2,681.90 Benefit: 75% = \$2011.45 85% = \$2583.20	
33112	SUPRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by graft including re-implantation of arteries (Anaes.) (Assist.) Fee: \$2,325.85 Benefit: 75% = \$1744.40	
33115	INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by tube graft, not being a service associated with a service to which item 33116 applies (Anaes.) (Assist.) Fee: \$1,564.50 Benefit: 75% = \$1173.40	
33116	INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by tube graft using endovascular repair procedure, excluding associated radiological services (Anaes.) (Assist.) Fee: \$1,539.90 Benefit: 75% = \$1154.95 85% = \$1441.20	
33118	INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by bifurcation graft to iliac arteries (with or without excision of common iliac aneurysms) not being a service associated with a service to which item 33119 applies (Anaes.) (Assist.) Fee: \$1,738.30 Benefit: 75% = \$1303.75	

T8. SURGICAL OPERATIONS		3. VASCULAR
33119	<p>INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by bifurcation graft to one or both iliac arteries using endovascular repair procedure, excluding associated radiological services (Anaes.) (Assist.)</p> <p>Fee: \$1,711.10 Benefit: 75% = \$1283.35 85% = \$1612.40</p>	
33121	<p>INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by bifurcation graft to 1 or both femoral arteries (with or without excision or bypass of common iliac aneurysms) (Anaes.) (Assist.)</p> <p>Fee: \$1,912.15 Benefit: 75% = \$1434.15</p>	
33124	<p>ANEURYSM OF ILIAC ARTERY (common, external or internal), replacement by graft - unilateral (Anaes.) (Assist.)</p> <p>Fee: \$1,332.75 Benefit: 75% = \$999.60</p>	
33127	<p>ANEURYSMS OF ILIAC ARTERIES (common, external or internal), replacement by graft - bilateral (Anaes.) (Assist.)</p> <p>Fee: \$1,746.60 Benefit: 75% = \$1309.95 85% = \$1647.90</p>	
33130	<p>ANEURYSM OF VISCERAL ARTERY, excision and repair by direct anastomosis or replacement by graft (Anaes.) (Assist.)</p> <p>Fee: \$1,523.05 Benefit: 75% = \$1142.30</p>	
33133	<p>ANEURYSM OF VISCERAL ARTERY, dissection and ligation of arteries without restoration of continuity (Anaes.) (Assist.)</p> <p>Fee: \$1,142.20 Benefit: 75% = \$856.65</p>	
33136	<p>FALSE ANEURYSM, repair of, at aortic anastomosis following previous aortic surgery (Anaes.) (Assist.)</p> <p>Fee: \$2,880.30 Benefit: 75% = \$2160.25</p>	
33139	<p>FALSE ANEURYSM, repair of, in iliac artery and restoration of arterial continuity (Anaes.) (Assist.)</p> <p>Fee: \$1,746.60 Benefit: 75% = \$1309.95</p>	
33142	<p>FALSE ANEURYSM, repair of, in femoral artery and restoration of arterial continuity (Anaes.) (Assist.)</p> <p>Fee: \$1,630.70 Benefit: 75% = \$1223.05 85% = \$1532.00</p>	
33145	<p>RUPTURED THORACIC AORTIC ANEURYSM, replacement by graft (Anaes.) (Assist.)</p> <p>Fee: \$2,805.90 Benefit: 75% = \$2104.45</p>	
33148	<p>RUPTURED THORACO-ABDOMINAL AORTIC ANEURYSM, replacement by graft (Anaes.) (Assist.)</p> <p>Fee: \$3,484.65 Benefit: 75% = \$2613.50</p>	
33151	<p>RUPTURED SUPRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by graft (Anaes.) (Assist.)</p> <p>Fee: \$3,310.85 Benefit: 75% = \$2483.15</p>	
33154	<p>RUPTURED INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by tube graft (Anaes.) (Assist.)</p> <p>Fee: \$2,450.00 Benefit: 75% = \$1837.50</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
33157	RUPTURED INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by bifurcation graft to iliac arteries (with or without excision or bypass of common iliac aneurysms) (Anaes.) (Assist.) Fee: \$2,731.40 Benefit: 75% = \$2048.55	
33160	RUPTURED INFRARENAL ABDOMINAL AORTIC ANEURYSM, replacement by bifurcation graft to 1 or both femoral arteries (Anaes.) (Assist.) Fee: \$2,731.40 Benefit: 75% = \$2048.55	
33163	RUPTURED ILIAC ARTERY ANEURYSM, replacement by graft (Anaes.) (Assist.) Fee: \$2,317.80 Benefit: 75% = \$1738.35	
33166	RUPTURED ANEURYSM OF VISCERAL ARTERY, replacement by anastomosis or graft (Anaes.) (Assist.) Fee: \$2,317.80 Benefit: 75% = \$1738.35 85% = \$2219.10	
33169	RUPTURED ANEURYSM OF VISCERAL ARTERY, simple ligation of (Anaes.) (Assist.) Fee: \$1,804.50 Benefit: 75% = \$1353.40	
33172	ANEURYSM OF MAJOR ARTERY, replacement by graft, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$1,407.10 Benefit: 75% = \$1055.35	
33175	RUPTURED ANEURYSM IN THE EXTREMITIES, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$1,296.75 Benefit: 75% = \$972.60	
33178	RUPTURED ANEURYSM IN THE NECK, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$1,649.05 Benefit: 75% = \$1236.80	
33181	RUPTURED INTRA-ABDOMINAL OR PELVIC ANEURYSM, ligation, suture closure or excision of, without bypass grafting (Anaes.) (Assist.) Fee: \$2,016.15 Benefit: 75% = \$1512.15	
ENDARTERECTOMY AND ARTERIAL PATCH		
33500	ARTERY OR ARTERIES OF NECK, endarterectomy of, including closure by suture (where endarterectomy of 1 or more arteries is undertaken through 1 arteriotomy incision) (Anaes.) (Assist.) Fee: \$1,249.70 Benefit: 75% = \$937.30	
33506	INNOMINATE OR SUBCLAVIAN ARTERY, endarterectomy of, including closure by suture (Anaes.) (Assist.) Fee: \$1,398.85 Benefit: 75% = \$1049.15	
33509	AORTIC ENDARTERECTOMY, including closure by suture, not being a service associated with another procedure on the aorta (Anaes.) (Assist.) Fee: \$1,564.50 Benefit: 75% = \$1173.40	
33512	AORTO-ILIAC ENDARTERECTOMY (1 or both iliac arteries), including closure by suture not being a service associated with a service to which item 33515 applies (Anaes.) (Assist.) Fee: \$1,738.30 Benefit: 75% = \$1303.75	

T8. SURGICAL OPERATIONS		3. VASCULAR
33515	AORTO-FEMORAL ENDARTERECTOMY (1 or both femoral arteries) or BILATERAL ILIO-FEMORAL ENDARTERECTOMY, including closure by suture, not being a service associated with a service to which item 33512 applies (Anaes.) (Assist.) Fee: \$1,912.15 Benefit: 75% = \$1434.15	
33518	ILIAC ENDARTERECTOMY, including closure by suture, not being a service associated with another procedure on the iliac artery (Anaes.) (Assist.) Fee: \$1,398.85 Benefit: 75% = \$1049.15 85% = \$1300.15	
33521	ILIO-FEMORAL ENDARTERECTOMY (1 side), including closure by suture (Anaes.) (Assist.) Fee: \$1,514.60 Benefit: 75% = \$1135.95	
33524	RENAL ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$1,787.90 Benefit: 75% = \$1340.95	
33527	RENAL ARTERIES (both), endarterectomy of (Anaes.) (Assist.) Fee: \$2,077.40 Benefit: 75% = \$1558.05	
33530	COELIAC OR SUPERIOR MESENTERIC ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$1,787.90 Benefit: 75% = \$1340.95	
33533	COELIAC AND SUPERIOR MESENTERIC ARTERY, endarterectomy of (Anaes.) (Assist.) Fee: \$2,077.40 Benefit: 75% = \$1558.05	
33536	INFERIOR MESENTERIC ARTERY, endarterectomy of, not being a service associated with a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$1,481.65 Benefit: 75% = \$1111.25	
33539	ARTERY OF EXTREMITIES, endarterectomy of, including closure by suture (Anaes.) (Assist.) Fee: \$1,067.70 Benefit: 75% = \$800.80	
33542	EXTENDED DEEP FEMORAL ENDARTERECTOMY where the endarterectomy is at least 7cms long (Anaes.) (Assist.) Fee: \$1,523.05 Benefit: 75% = \$1142.30	
33545	ARTERY, VEIN OR BYPASS GRAFT, patch grafting to by vein or synthetic material where patch is less than 3cm long (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$301.20 Benefit: 75% = \$225.90	
33548	ARTERY, VEIN OR BYPASS GRAFT, patch grafting to by vein or synthetic material where patch is 3cm long or greater (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$612.65 Benefit: 75% = \$459.50	
33551	VEIN, harvesting of from leg or arm for patch when not performed through same incision as operation (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$301.20 Benefit: 75% = \$225.90	

T8. SURGICAL OPERATIONS		3. VASCULAR
33554	ENDARTERECTOMY, in conjunction with an arterial bypass operation to prepare the site for anastomosis - each site (Anaes.) (Assist.) Fee: \$299.85 Benefit: 75% = \$224.90	
EMBOLECTOMY, THROMBECTOMY AND VASCULAR TRAUMA		
33800	EMBOLUS, removal of, from artery of neck (Anaes.) (Assist.) Fee: \$1,299.50 Benefit: 75% = \$974.65 85% = \$1200.80	
33803	EMBOLECTOMY or THROMBECTOMY, by abdominal approach, of an artery or bypass graft of trunk (Anaes.) (Assist.) Fee: \$1,241.70 Benefit: 75% = \$931.30	
33806	Embolectomy or thrombectomy (including the infusion of thrombolytic or other agents) from an artery or bypass graft of extremities, or embolectomy of abdominal artery via the femoral artery, item to be claimed once per extremity, regardless of the number of incisions required to access the artery or bypass graft (Anaes.) (Assist.) Fee: \$893.95 Benefit: 75% = \$670.50 85% = \$795.25	
33810	INFERIOR VENA CAVA OR ILIAC VEIN, closed thrombectomy by catheter via the femoral vein (Anaes.) (Assist.) Fee: \$652.15 Benefit: 75% = \$489.15 85% = \$554.35	
33811	INFERIOR VENA CAVA OR ILIAC VEIN, open removal of thrombus or tumour (Anaes.) (Assist.) Fee: \$1,941.40 Benefit: 75% = \$1456.05	
33812	THROMBUS, removal of, from femoral or other similar large vein (Anaes.) (Assist.) Fee: \$1,026.30 Benefit: 75% = \$769.75 85% = \$927.60	
33815	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by lateral suture (Anaes.) (Assist.) Fee: \$943.55 Benefit: 75% = \$707.70	
33818	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by direct anastomosis (Anaes.) (Assist.) Fee: \$1,100.90 Benefit: 75% = \$825.70	
33821	MAJOR ARTERY OR VEIN OF EXTREMITY, repair of wound of, with restoration of continuity, by interposition graft of synthetic material or vein (Anaes.) (Assist.) Fee: \$1,258.10 Benefit: 75% = \$943.60	
33824	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by lateral suture (Anaes.) (Assist.) Fee: \$1,200.10 Benefit: 75% = \$900.10	
33827	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by direct anastomosis (Anaes.) (Assist.) Fee: \$1,407.10 Benefit: 75% = \$1055.35	
33830	MAJOR ARTERY OR VEIN OF NECK, repair of wound of, with restoration of continuity, by interposition graft of synthetic material or vein (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$1,613.95 Benefit: 75% = \$1210.50	
33833	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by lateral suture (Anaes.) (Assist.) Fee: \$1,465.20 Benefit: 75% = \$1098.90	
33836	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by direct anastomosis (Anaes.) (Assist.) Fee: \$1,746.60 Benefit: 75% = \$1309.95	
33839	MAJOR ARTERY OR VEIN OF ABDOMEN, repair of wound of, with restoration of continuity by means of interposition graft (Anaes.) (Assist.) Fee: \$2,044.40 Benefit: 75% = \$1533.30	
33842	ARTERY OF NECK, re-operation for bleeding or thrombosis after carotid or vertebral artery surgery (Anaes.) (Assist.) Fee: \$1,009.75 Benefit: 75% = \$757.35	
33845	LAPAROTOMY for control of post operative bleeding or thrombosis after intra-abdominal vascular procedure, where no other procedure is performed (Anaes.) (Assist.) Fee: \$703.65 Benefit: 75% = \$527.75	
33848	EXTREMITY, re-operation on, for control of bleeding or thrombosis after vascular procedure, where no other procedure is performed (Anaes.) (Assist.) Fee: \$703.65 Benefit: 75% = \$527.75	
	LIGATION, EXCISION, ELECTIVE REPAIR, DECOMPRESSION OF VESSELS	
34100	MAJOR ARTERY OF NECK, elective ligation or exploration of, not being a service associated with any other vascular procedure (Anaes.) (Assist.) Fee: \$778.10 Benefit: 75% = \$583.60	
34103	Great artery (aorta or pulmonary artery) or great vein (superior or inferior vena cava), ligation or exploration of immediate branches or tributaries, or ligation or exploration of the subclavian, axillary, iliac, femoral or popliteal arteries or veins, if the service is not associated with item 32508, 32511, 32520, 32522, 32523, 32526, 32528 or 32529 - for a maximum of 2 services provided to the same patient on the same occasion (H) (Anaes.) (Assist.) Fee: \$455.20 Benefit: 75% = \$341.40	
34106	ARTERY OR VEIN (including brachial, radial, ulnar or tibial), ligation of, by elective operation, or exploration of, not being a service associated with any other vascular procedure except those services to which items 32508, 32511, 32514 or 32517 apply (Anaes.) (Assist.) Fee: \$321.05 Benefit: 75% = \$240.80 85% = \$272.90 Extended Medicare Safety Net Cap: \$256.85	
34109	TEMPORAL ARTERY, biopsy of (Anaes.) (Assist.) Fee: \$372.45 Benefit: 75% = \$279.35 85% = \$316.60	
34112	ARTERIO-VEIN FISTULA OF AN EXTREMITY, dissection and ligation (Anaes.) (Assist.) Fee: \$943.55 Benefit: 75% = \$707.70	

T8. SURGICAL OPERATIONS		3. VASCULAR
34115	ARTERIO-VEINUS FISTULA OF THE NECK, dissection and ligation (Anaes.) (Assist.) Fee: \$1,067.70 Benefit: 75% = \$800.80	
34118	ARTERIO-VEINUS FISTULA OF THE ABDOMEN, dissection and ligation (Anaes.) (Assist.) Fee: \$1,523.05 Benefit: 75% = \$1142.30 85% = \$1424.35	
34121	ARTERIO-VEINUS FISTULA OF AN EXTREMITY, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,216.65 Benefit: 75% = \$912.50	
34124	ARTERIO-VEINUS FISTULA OF THE NECK, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,332.75 Benefit: 75% = \$999.60	
34127	ARTERIO-VEINUS FISTULA OF THE ABDOMEN, dissection and repair of, with restoration of continuity (Anaes.) (Assist.) Fee: \$1,746.60 Benefit: 75% = \$1309.95	
34130	SURGICALLY CREATED ARTERIO-VEINUS FISTULA OF AN EXTREMITY, closure of (Anaes.) (Assist.) Fee: \$546.25 Benefit: 75% = \$409.70 85% = \$464.35	
34133	SCALENOTOMY (Anaes.) (Assist.) Fee: \$612.65 Benefit: 75% = \$459.50	
34136	FIRST RIB, resection of portion of (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
34139	CERVICAL RIB, removal of, or other operation for removal of thoracic outlet compression, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
34142	COELIAC ARTERY, decompression of, for coeliac artery compression syndrome, as an independent procedure (Anaes.) (Assist.) Fee: \$1,216.65 Benefit: 75% = \$912.50	
34145	POPLITEAL ARTERY, exploration of, for popliteal entrapment, with or without division of fibrous tissue and muscle (Anaes.) (Assist.) Fee: \$885.60 Benefit: 75% = \$664.20	
34148	CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or reconstruction of internal or common carotid arteries, when tumour is 4cm or less in maximum diameter (Anaes.) (Assist.) Fee: \$1,580.95 Benefit: 75% = \$1185.75	
34151	CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or reconstruction of internal or common carotid arteries, when tumour is greater than 4cm in maximum diameter (Anaes.) (Assist.) Fee: \$2,160.25 Benefit: 75% = \$1620.20	
34154	RECURRENT CAROTID ASSOCIATED TUMOUR, resection of, with or without repair or replacement of portion of internal or common carotid arteries (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		3. VASCULAR
	Fee: \$2,574.25 Benefit: 75% = \$1930.70 85% = \$2475.55	
34157	NECK, excision of infected bypass graft, including closure of vessel or vessels (Anaes.) (Assist.) Fee: \$1,307.85 Benefit: 75% = \$980.90	
34160	AORTO-DUODENAL FISTULA, repair of, by suture of aorta and repair of duodenum (Anaes.) (Assist.) Fee: \$2,450.00 Benefit: 75% = \$1837.50	
34163	AORTO-DUODENAL FISTULA, repair of, by insertion of aortic graft and repair of duodenum (Anaes.) (Assist.) Fee: \$3,145.25 Benefit: 75% = \$2358.95	
34166	AORTO-DUODENAL FISTULA, repair of, by oversewing of abdominal aorta, repair of duodenum and axillo-bifemoral grafting (Anaes.) (Assist.) Fee: \$3,145.25 Benefit: 75% = \$2358.95	
34169	INFECTED BYPASS GRAFT FROM TRUNK, excision of, including closure of arteries (Anaes.) (Assist.) Fee: \$1,746.60 Benefit: 75% = \$1309.95	
34172	INFECTED AXILLO-FEMORAL OR FEMORO-FEMORAL GRAFT, excision of, including closure of arteries (Anaes.) (Assist.) Fee: \$1,423.65 Benefit: 75% = \$1067.75	
34175	INFECTED BYPASS GRAFT FROM EXTREMITIES, excision of including closure of arteries (Anaes.) (Assist.) Fee: \$1,307.85 Benefit: 75% = \$980.90	
OPERATIONS FOR VASCULAR ACCESS		
34500	ARTERIOVENOUS SHUNT, EXTERNAL, insertion of (Anaes.) (Assist.) Fee: \$339.50 Benefit: 75% = \$254.65 85% = \$288.60	
34503	ARTERIOVENOUS ANASTOMOSIS OF UPPER OR LOWER LIMB, in conjunction with another venous or arterial operation (Anaes.) (Assist.) Fee: \$455.20 Benefit: 75% = \$341.40	
34506	ARTERIOVENOUS SHUNT, EXTERNAL, removal of (Anaes.) (Assist.) Fee: \$231.60 Benefit: 75% = \$173.70	
34509	ARTERIOVENOUS ANASTOMOSIS OF UPPER OR LOWER LIMB, not in conjunction with another venous or arterial operation (Anaes.) (Assist.) Fee: \$1,075.95 Benefit: 75% = \$807.00	
34512	ARTERIOVENOUS ACCESS DEVICE, insertion of (Anaes.) (Assist.) Fee: \$1,183.75 Benefit: 75% = \$887.85	
34515	ARTERIOVENOUS ACCESS DEVICE, thrombectomy of (Anaes.) (Assist.) Fee: \$844.20 Benefit: 75% = \$633.15	

T8. SURGICAL OPERATIONS		3. VASCULAR
34518	<p>STENOSIS OF ARTERIOVENOUS FISTULA OR PROSTHETIC ARTERIOVENOUS ACCESS DEVICE, correction of (Anaes.) (Assist.)</p> <p>Fee: \$1,415.25 Benefit: 75% = \$1061.45</p>	
34521	<p>INTRA-ABDOMINAL ARTERY OR VEIN, cannulation of, for infusion chemotherapy, by open operation (excluding aftercare) (Anaes.) (Assist.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$869.55 Benefit: 75% = \$652.20</p>	
34524	<p>ARTERIAL CANNULATION for infusion chemotherapy by open operation, not being a service to which item 34521 applies (excluding after-care) (Anaes.) (Assist.)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$455.20 Benefit: 75% = \$341.40</p>	
34527	<p>CENTRAL VEIN CATHETERISATION by open technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, including any associated percutaneous central vein catheterisation, on a patient 10 years of age or over (Anaes.)</p> <p>Fee: \$607.15 Benefit: 75% = \$455.40 85% = \$516.10</p>	
34528	<p>CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, on a patient 10 years of age or over (Anaes.)</p> <p>Fee: \$299.85 Benefit: 75% = \$224.90 85% = \$254.90</p>	
34529	<p>CENTRAL VEIN CATHETERISATION by open technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, including any associated percutaneous central vein catheterisation, on a patient under 10 years of age (Anaes.)</p> <p>Fee: \$789.35 Benefit: 75% = \$592.05 85% = \$690.65</p>	
34530	<p>CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital on a patient 10 years of age or over (Anaes.)</p> <p>Fee: \$224.75 Benefit: 75% = \$168.60 85% = \$191.05</p>	
34533	<p>ISOLATED LIMB PERFUSION, including cannulation of artery and vein at commencement of procedure, regional perfusion for chemotherapy, or other therapy, repair of arteriotomy and venotomy at conclusion of procedure (excluding aftercare) (Anaes.) (Assist.)</p> <p>Fee: \$1,365.55 Benefit: 75% = \$1024.20 85% = \$1266.85</p>	
34534	<p>CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnel with pump or access port as with central venous line catheter or other chemotherapy delivery device, on a patient under 10 years of age (Anaes.)</p> <p>Fee: \$389.80 Benefit: 75% = \$292.35 85% = \$331.35</p>	
34538	<p>CENTRAL VEIN CATHETERISATION by percutaneous technique, using subcutaneous tunnelled cuffed catheter or similar device, for the administration of haemodialysis or parenteral nutrition (Anaes.)</p> <p>Fee: \$299.85 Benefit: 75% = \$224.90 85% = \$254.90</p>	
34539	<p>TUNNELLED CUFFED CATHETER, OR SIMILAR DEVICE, removal of, by open surgical procedure (Anaes.)</p> <p>Fee: \$224.75 Benefit: 75% = \$168.60 85% = \$191.05</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
34540	CENTRAL VENOUS LINE, OR OTHER CHEMOTHERAPY DEVICE, removal of, by open surgical procedure in the operating theatre of a hospital, on a patient under 10 years of age (Anaes.) Fee: \$292.20 Benefit: 75% = \$219.15 85% = \$248.40	
COMPLEX VENOUS OPERATIONS		
34800	INFERIOR VENA CAVA, plication, ligation, or application of caval clip (Anaes.) (Assist.) Fee: \$893.95 Benefit: 75% = \$670.50 85% = \$795.25	
34803	INFERIOR VENA CAVA, reconstruction of or bypass by vein or synthetic material (Anaes.) (Assist.) Fee: \$1,970.10 Benefit: 75% = \$1477.60	
34806	CROSS LEG BYPASS GRAFTING, saphenous to iliac or femoral vein (Anaes.) (Assist.) Fee: \$1,067.70 Benefit: 75% = \$800.80	
34809	SAPHENOUS VEIN ANASTOMOSIS to femoral or popliteal vein for femoral vein bypass (Anaes.) (Assist.) Fee: \$1,067.70 Benefit: 75% = \$800.80	
34812	VENOUS STENOSIS OR OCCLUSION, vein bypass for, using vein or synthetic material, not being a service associated with a service to which item 34806 or 34809 applies (Anaes.) (Assist.) Fee: \$1,291.20 Benefit: 75% = \$968.40	
34815	VEIN STENOSIS, patch angioplasty for, (excluding vein graft stenosis)-using vein or synthetic material (Anaes.) (Assist.) (See para TN.8.36 of explanatory notes to this Category) Fee: \$1,067.70 Benefit: 75% = \$800.80	
34818	VENOUS VALVE, plication or repair to restore valve competency (Anaes.) (Assist.) Fee: \$1,175.35 Benefit: 75% = \$881.55	
34821	VEIN TRANSPLANT to restore valvular function (Anaes.) (Assist.) Fee: \$1,597.55 Benefit: 75% = \$1198.20 85% = \$1498.85	
34824	EXTERNAL STENT, application of, to restore venous valve competency to superficial vein - 1 stent (Anaes.) (Assist.) Fee: \$546.25 Benefit: 75% = \$409.70	
34827	EXTERNAL STENTS, application of, to restore venous valve competency to superficial vein or veins - more than 1 stent (Anaes.) (Assist.) Fee: \$662.25 Benefit: 75% = \$496.70	
34830	EXTERNAL STENT, application of, to restore venous valve competency to deep vein (1 stent) (Anaes.) (Assist.) Fee: \$778.10 Benefit: 75% = \$583.60 85% = \$679.40	
34833	EXTERNAL STENTS, application of, to restore venous valve competency to deep vein or veins (more than 1 stent) (Anaes.) (Assist.) Fee: \$1,009.75 Benefit: 75% = \$757.35	
SYMPATHECTOMY		

T8. SURGICAL OPERATIONS		3. VASCULAR
35000	LUMBAR SYMPATHECTOMY (Anaes.) (Assist.) Fee: \$778.10 Benefit: 75% = \$583.60 85% = \$679.40	
35003	CERVICAL OR UPPER THORACIC SYMPATHECTOMY by any surgical approach (Anaes.) (Assist.) Fee: \$1,009.75 Benefit: 75% = \$757.35	
35006	CERVICAL OR UPPER THORACIC SYMPATHECTOMY, where operation is a reoperation for previous incomplete sympathectomy by any surgical approach (Anaes.) (Assist.) Fee: \$1,266.45 Benefit: 75% = \$949.85	
35009	LUMBAR SYMPATHECTOMY, where operation is following chemical sympathectomy or for previous incomplete surgical sympathectomy (Anaes.) (Assist.) Fee: \$984.85 Benefit: 75% = \$738.65	
35012	SACRAL or PRE-SACRAL SYMPATHECTOMY (Anaes.) (Assist.) Fee: \$778.10 Benefit: 75% = \$583.60	
DEBRIDEMENT AND AMPUTATIONS FOR VASCULAR DISEASE		
35100	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, when debridement includes muscle, tendon or bone (Anaes.) (Assist.) Fee: \$405.65 Benefit: 75% = \$304.25	
35103	ISCHAEMIC LIMB, debridement of necrotic material, gangrenous tissue, or slough in, in the operating theatre of a hospital, superficial tissue only (Anaes.) Fee: \$258.20 Benefit: 75% = \$193.65	
MISCELLANEOUS VASCULAR PROCEDURES		
35200	OPERATIVE ARTERIOGRAPHY OR VENOGRAPHY, 1 or more of, performed during the course of an operative procedure on an artery or vein, 1 site (Anaes.) Fee: \$188.80 Benefit: 75% = \$141.60	
35202	MAJOR ARTERIES OR VEINS IN THE NECK, ABDOMEN OR EXTREMITIES, access to, as part of RE-OPERATION after prior surgery on these vessels (Anaes.) (Assist.) Fee: \$899.35 Benefit: 75% = \$674.55	
ENDOVASCULAR INTERVENTIONAL PROCEDURES		
35300	TRANSLUMINAL BALLOON ANGIOPLASTY of 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) Fee: \$567.25 Benefit: 75% = \$425.45 85% = \$482.20	
35303	TRANSLUMINAL BALLOON ANGIOPLASTY of aortic arch branches, aortic visceral branches, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) Fee: \$727.30 Benefit: 75% = \$545.50 85% = \$628.60	

T8. SURGICAL OPERATIONS		3. VASCULAR
35306	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.)</p> <p>Fee: \$671.30 Benefit: 75% = \$503.50 85% = \$572.60</p>	
35307	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents (not drug-eluting), with or without associated balloon dilatation, for 1 carotid artery, percutaneous (not direct), with or without the use of an embolic protection device, in patients who:</p> <ul style="list-style-type: none"> - meet the indications for carotid endarterectomy; and - have medical or surgical comorbidities that would make them at high risk of perioperative complications from carotid endarterectomy, <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.37 of explanatory notes to this Category)</p> <p>Fee: \$1,234.05 Benefit: 75% = \$925.55</p>	
35309	<p>TRANSLUMINAL STENT INSERTION, 1 or more stents, including associated balloon dilatation for visceral arteries or veins, or more than 1 peripheral artery or vein of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare. (Anaes.) (Assist.)</p> <p>Fee: \$839.10 Benefit: 75% = \$629.35 85% = \$740.40</p>	
35312	<p>PERIPHERAL ARTERIAL ATHERECTOMY including associated balloon dilatation of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$951.05 Benefit: 75% = \$713.30</p>	
35315	<p>PERIPHERAL LASER ANGIOPLASTY including associated balloon dilatation of 1 limb, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>Fee: \$951.05 Benefit: 75% = \$713.30</p>	
35317	<p>PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY CONTINUOUS INFUSION, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35319 or 35320 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)</p> <p>(See para TN.8.38 of explanatory notes to this Category)</p> <p>Fee: \$391.60 Benefit: 75% = \$293.70 85% = \$332.90</p>	
35319	<p>PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY PULSE SPRAY TECHNIQUE, using percutaneous approach, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another item in Subgroup 11 of Group T1 or items 35317 or 35320 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.)</p> <p>Fee: \$701.95 Benefit: 75% = \$526.50 85% = \$603.25</p>	
35320	<p>PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION with administration of thrombolytic or chemotherapeutic agents, BY OPEN EXPOSURE, excluding associated radiological services or preparation, and excluding aftercare (not being a service associated with a service to which another</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
	item in Subgroup 11 of Group T1 or items 35317 or 35319 applies and not being a service associated with photodynamic therapy with verteporfin) (Anaes.) (Assist.) Fee: \$942.95 Benefit: 75% = \$707.25 85% = \$844.25	
35321	PERIPHERAL ARTERIAL OR VENOUS CATHETERISATION to administer agents to occlude arteries, veins or arterio-venous fistulae or to arrest haemorrhage, (but not for the treatment of uterine fibroids or varicose veins) percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare, not being a service associated with photodynamic therapy with verteporfin (Anaes.) (Assist.) (See para TN.8.32 of explanatory notes to this Category) Fee: \$895.20 Benefit: 75% = \$671.40 85% = \$796.50	
35324	ANGIOSCOPY not combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) Fee: \$335.70 Benefit: 75% = \$251.80	
35327	ANGIOSCOPY combined with any other procedure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) Fee: \$449.90 Benefit: 75% = \$337.45	
35330	INSERTION of INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.) Fee: \$567.25 Benefit: 75% = \$425.45 85% = \$482.20	
35331	RETRIEVAL OF INFERIOR VENA CAVAL FILTER, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare (Anaes.) Fee: \$652.15 Benefit: 75% = \$489.15	
35360	Retrieval of foreign body in PULMONARY ARTERY, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare <i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.) Fee: \$911.60 Benefit: 75% = \$683.70	
35361	Retrieval of foreign body in RIGHT ATRIUM, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare <i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.) Fee: \$781.80 Benefit: 75% = \$586.35	
35362	Retrieval of foreign body in INFERIOR VENA CAVA or AORTA, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare	

T8. SURGICAL OPERATIONS		3. VASCULAR
	<p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p>Fee: \$652.15 Benefit: 75% = \$489.15</p>	
35363	<p>Retrieval of foreign body in PERIPHERAL VEIN or PERIPHERAL ARTERY, percutaneous or by open exposure, not including associated radiological services or preparation, and not including aftercare</p> <p><i>(foreign body does not include an instrument inserted for the purpose of a service being rendered)</i> (Anaes.) (Assist.)</p> <p>Fee: \$522.45 Benefit: 75% = \$391.85</p>	
INTERVENTIONAL RADIOLOGY PROCEDURES		
35401	<p>Vertebroplasty, for one or more fractures in one or more vertebrae, performed by an interventional radiologist, for the treatment of a painful osteoporotic thoracolumbar vertebral compression fracture of the thoracolumbar spinal segment (T11, T12, L1 or L2), if:</p> <p>(a) pain is severe (numeric rated pain score greater than or equal to 7 out of 10); and</p> <p>(b) symptoms are poorly controlled by opiate therapy; and</p> <p>(c) severe pain duration is 3 weeks or less; and</p> <p>(d) there is MRI (or SPECT-CT if MRI unavailable) evidence of acute vertebral fracture</p> <p>Applicable only once for the same fracture, but is applicable for a new fracture of the same vertebra or vertebrae (H) (Anaes.)</p> <p>Fee: \$751.60 Benefit: 75% = \$563.70</p>	
35404	<p>DOSIMETRY, HANDLING AND INJECTION OF SIR-SPHERES for selective internal radiation therapy of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p> <p>The procedure must be performed by a specialist or consultant physician recognised in the specialties of nuclear medicine or radiation oncology on an admitted patient in a hospital. To be claimed once in the patient's lifetime only.</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p>Fee: \$381.50 Benefit: 75% = \$286.15</p>	
35406	<p>Trans-femoral catheterisation of the hepatic artery to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p> <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p>Fee: \$895.20 Benefit: 75% = \$671.40</p>	

T8. SURGICAL OPERATIONS		3. VASCULAR
35408	<p>Catheterisation of the hepatic artery via a permanently implanted hepatic artery port to administer SIR-Spheres to embolise the microvasculature of hepatic metastases which are secondary to colorectal cancer and are not suitable for resection or ablation, for selective internal radiation therapy used in combination with systemic chemotherapy using 5-fluorouracil (5FU) and leucovorin, not being a service to which item 35317, 35319, 35320 or 35321 applies</p> <p>excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.3.1, TN.8.40 of explanatory notes to this Category)</p> <p>Fee: \$671.50 Benefit: 75% = \$503.65</p>	
35410	<p>UTERINE ARTERY CATHETERISATION with percutaneous administration of occlusive agents, for the treatment of symptomatic uterine fibroids in a patient who has been referred for uterine artery embolisation by a specialist gynaecologist, excluding associated radiological services or preparation, and excluding aftercare (Anaes.) (Assist.)</p> <p>(See para TN.8.34 of explanatory notes to this Category)</p> <p>Fee: \$895.20 Benefit: 75% = \$671.40 85% = \$796.50</p>	
Amend 35412	<p>Intracranial aneurysm, ruptured or unruptured, endovascular occlusion with detachable coils, and assisted coiling (if performed), with parent artery preservation, not for use with liquid embolics only, including intra-operative imaging, but in association with pre-operative diagnostic imaging under item 60009 and one of items 60072, 60075 and 60078, including aftercare</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.35 of explanatory notes to this Category)</p> <p>Fee: \$3,145.25 Benefit: 75% = \$2358.95 85% = \$3046.55</p>	
35414	<p>Mechanical thrombectomy, in a patient with a diagnosis of acute ischaemic stroke caused by occlusion of a large vessel of the anterior cerebral circulation, including intra-operative imaging and aftercare, if:</p> <p>(a) the diagnosis is confirmed by an appropriate imaging modality such as computed tomography, magnetic resonance imaging or angiography; and</p> <p>(b) the service is performed by a specialist or consultant physician with appropriate training that is recognised by the Conjoint Committee for Recognition of Training in Interventional Neuroradiology; and</p> <p>(c) the service is provided in an eligible stroke centre.</p> <p>For any particular patient - applicable once per presentation by the patient at an eligible stroke centre, regardless of the number of times mechanical thrombectomy is attempted during that presentation (Anaes.) (Assist.)</p> <p>(See para TR.8.1 of explanatory notes to this Category)</p> <p>Fee: \$3,852.45 Benefit: 75% = \$2889.35</p>	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Group T8. Surgical Operations	
	Subgroup 4. Gynaecological	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	GYNAECOLOGICAL EXAMINATION UNDER ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.)	
35500	Fee: \$89.50	Benefit: 75% = \$67.15 85% = \$76.10
	Introduction of an intra-uterine device for abnormal uterine bleeding or contraception or for endometrial protection during oestrogen replacement therapy, if the service is not associated with a service to which another item in this Group applies (other than a service described in item 30062, 35506 or 35620) (Anaes.)	
35503	Fee: \$88.25	Benefit: 75% = \$66.20 85% = \$75.05
	Intra-uterine device, removal of under general anaesthesia, for a retained or embedded device, not being a service associated with a service to which another item in this Group applies (other than a service described in item 35503) (Anaes.)	
35506	Fee: \$59.10	Benefit: 75% = \$44.35 85% = \$50.25
	Vulval or vaginal warts, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block), if the time taken is less than or equal to 45 minutes—other than a service associated with a service to which item 32236 applies (H) (Anaes.)	
35507	Fee: \$192.00	Benefit: 75% = \$144.00
	Vulval or vaginal warts, removal of under general anaesthesia, or under regional or field nerve block (excluding pudendal block), if the time taken is greater than 45 minutes—other than a service associated with a service to which item 32236 applies (H) (Anaes.) (Assist.)	
35508	Fee: \$282.85	Benefit: 75% = \$212.15
	HYMENECTOMY (Anaes.)	
35509	Fee: \$98.50	Benefit: 75% = \$73.90 85% = \$83.75
	Bartholin's abscess, cyst or gland, excision of (Anaes.)	
35513	Fee: \$244.05	Benefit: 75% = \$183.05 85% = \$207.45
	Bartholin's abscess, cyst or gland, marsupialisation of (Anaes.)	
35517	Fee: \$160.75	Benefit: 75% = \$120.60 85% = \$136.65
	Ovarian cyst aspiration, for cysts of at least 4 cm in diameter in a premenopausal patient and at least 2 cm in diameter in a postmenopausal patient, by abdominal or vaginal route, using interventional imaging techniques and not associated with services provided for assisted reproductive techniques, and not in cases of suspected or possible malignancy (Anaes.)	
35518	(See para TN.4.11 of explanatory notes to this Category) Fee: \$228.80	Benefit: 75% = \$171.60 85% = \$194.50
	Urethral caruncle, symptomatic excision of, if: (a) conservative management has failed; or (b) there is a suspicion of malignancy (Anaes.)	
35527	Fee: \$160.75	Benefit: 75% = \$120.60 85% = \$136.65
	Vulvoplasty or labioplasty, for repair of: (a) female genital mutilation; or	
35533		

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(b) an anomaly associated with a major congenital anomaly of the uro-gynaecological tract other than a service associated with a service to which item 35536, 37836, 37050, 37842, 37851 or 43882 applies (Anaes.) (See para TN.8.123 of explanatory notes to this Category) Fee: \$385.05 Benefit: 75% = \$288.80	
35534	Vulvoplasty or labioplasty, in a patient aged 18 years or more, performed by a specialist in the practice of the specialist's speciality, for a structural abnormality that is causing significant functional impairment, if the patient's labium extends more than 8 cm below the vaginal introitus while the patient is in a standing resting position (Anaes.) (See para TN.8.123 of explanatory notes to this Category) Fee: \$385.05 Benefit: 75% = \$288.80	
35536	Vulva, wide local excision or hemivulvectomy, one or both procedures, for suspected malignancy or vulval lesions with a high risk of malignancy (Anaes.) (Assist.) (See para TN.8.235 of explanatory notes to this Category) Fee: \$383.55 Benefit: 75% = \$287.70 85% = \$326.05	
35539	Colposcopically directed laser therapy for histologically-confirmed high grade intraepithelial neoplastic changes of the vagina, vulva, urethra or anal canal, including any associated biopsies—one anatomical site (Anaes.) Fee: \$300.45 Benefit: 75% = \$225.35 85% = \$255.40	
35545	Colposcopically directed laser therapy for condylomata, unsuccessfully treated by other methods (Anaes.) Fee: \$202.10 Benefit: 75% = \$151.60 85% = \$171.80	
35548	VULVECTOMY, radical, for malignancy (H) (Anaes.) (Assist.) (See para TN.8.235, TN.8.239 of explanatory notes to this Category) Fee: \$1,377.05 Benefit: 75% = \$1032.80	
35551	Pelvic lymph nodes, radical excision of, unilateral, or sentinel node dissection (including any pre-operative injection) (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
35552	Pelvic lymph nodes, radical excision of, unilateral or sentinel node dissection, following similar previous dissection, radiation or chemotherapy (H) (Anaes.) (Assist.) Fee: \$1,531.20 Benefit: 75% = \$1148.40	
35554	VAGINA, DILATATION OF, as an independent procedure including any associated consultation (Anaes.) Fee: \$47.85 Benefit: 75% = \$35.90 85% = \$40.70	
35557	Vagina, complete excision of benign tumour (including Gartner duct cyst), with histological documentation (Anaes.) (See para TN.8.237 of explanatory notes to this Category) Fee: \$236.05 Benefit: 75% = \$177.05 85% = \$200.65	
35560	Partial or complete vaginectomy, for either or both of the following: (a) deeply infiltrating vaginal endometriosis, if accompanied by histological confirmation from excised tissue;	

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(b) pre-invasive or invasive lesions Not being a service associated with hysterectomy for non invasive indications (H) (Anaes.) (Assist.) (See para TN.8.235, TN.8.238 of explanatory notes to this Category) Fee: \$752.80 Benefit: 75% = \$564.60	
35561	VAGINECTOMY, radical, for proven invasive malignancy - 1 surgeon (H) (Anaes.) (Assist.) (See para TN.8.235 of explanatory notes to this Category) Fee: \$1,689.60 Benefit: 75% = \$1267.20	
35562	VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - abdominal surgeon (including aftercare) (H) (Anaes.) (Assist.) (See para TN.8.235 of explanatory notes to this Category) Fee: \$1,423.40 Benefit: 75% = \$1067.55	
35564	VAGINECTOMY, radical, for proven invasive malignancy, conjoint surgery - perineal surgeon (H) (Assist.) (See para TN.8.235 of explanatory notes to this Category) Fee: \$711.70 Benefit: 75% = \$533.80	
35565	VAGINAL RECONSTRUCTION for congenital absence, gynatresia or urogenital sinus (Anaes.) (Assist.) Fee: \$752.80 Benefit: 75% = \$564.60	
35566	VAGINAL SEPTUM, excision of, for correction of double vagina (Anaes.) (Assist.) Fee: \$437.25 Benefit: 75% = \$327.95	
35568	Procedures for the management of symptomatic upper vaginal (vault or cervical) prolapse by sacrospinous or ilococcygeus fixation (H) (Anaes.) (Assist.) Fee: \$687.45 Benefit: 75% = \$515.60	
35569	PLASTIC REPAIR TO ENLARGE VAGINAL ORIFICE (Anaes.) Fee: \$177.05 Benefit: 75% = \$132.80	
35570	Anterior vaginal compartment repair by vaginal approach for pelvic organ prolapse: (a) involving repair of urethrocele and cystocele; and (b) using native tissue without graft; other than a service associated with a service to which item 35573, 35577 or 35578 applies (Anaes.) (Assist.) Fee: \$609.65 Benefit: 75% = \$457.25	
35571	Posterior vaginal compartment repair by vaginal approach for pelvic organ prolapse: (a) involving repair of one or more of the following: (i) perineum; (ii) rectocoele; (iii) enterocoele; and

	<p>(ii) where the graft has penetrated adjacent organs such as the bladder (including urethra) or bowel; and</p> <p>(b) if required—includes retroperitoneal dissection, and mobilisation, of either or both of the bladder and bowel;</p> <p>other than a service associated with a service to which item 35581 or 35582 applies</p> <p>(Anaes.) (Assist.)</p> <p>Fee: \$1,621.50 Benefit: 75% = \$1216.15</p>
35591	<p>Rectovaginal fistula repair of, by vaginal route approach, not being a service associated with a service to which item 35592, 35596, 37029, 37333 or 37336 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.2 of explanatory notes to this Category)</p> <p>Fee: \$1,017.85 Benefit: 75% = \$763.40</p>
35592	<p>Vesicovaginal fistula closure of, by vaginal approach, not being a service associated with a service to which item 35591, 35596, 37029, 37333 or 37336 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.2 of explanatory notes to this Category)</p> <p>Fee: \$1,017.85 Benefit: 75% = \$763.40</p>
35595	<p>Procedure for the management of symptomatic vaginal vault or cervical prolapse, by uterosacral ligament suspension, by any approach, without graft, if the uterosacral ligaments are separately identified, transfixed and then incorporated into rectovaginal and pubocervical fascia of the vaginal vault, including cystoscopy to check ureteric integrity (H) (Anaes.) (Assist.)</p> <p>Fee: \$687.45 Benefit: 75% = \$515.60</p>
35596	<p>Fistula between genital and urinary or alimentary tracts, repair of, other than a service to which item 35591, 35592, 37029, 37333 or 37336 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,017.85 Benefit: 75% = \$763.40</p>
35597	<p>Sacral colpopexy, by any approach where graft or mesh is secured to vault, anterior and posterior compartments and to sacrum for correction of symptomatic upper vaginal vault prolapse (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,621.50 Benefit: 75% = \$1216.15</p>
35599	<p>Stress incontinence, procedure using a female synthetic mid-urethral sling, with diagnostic cystoscopy to assess the integrity of the lower urinary tract, other than a service associated with a service to which item 36812 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$834.20 Benefit: 75% = \$625.65</p>
35608	<p>Cervix, one or more biopsies, cauterisation (other than by chemical means), ionisation, diathermy or endocervical curettage of, with or without dilatation of cervix (Anaes.)</p> <p>Fee: \$70.40 Benefit: 75% = \$52.80 85% = \$59.85</p>
35609	<p>Cervix, cone biopsy or amputation (Anaes.)</p> <p>(See para TN.8.2, TN.8.233, TN.8.235 of explanatory notes to this Category)</p> <p>Fee: \$239.95 Benefit: 75% = \$180.00 85% = \$204.00</p>
35610	<p>Cervix, cone biopsy for histologically proven malignancy (Anaes.)</p> <p>(See para TN.8.2, TN.8.233, TN.8.235 of explanatory notes to this Category)</p>

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	Fee: \$419.90	Benefit: 75% = \$314.95 85% = \$356.95
35611	Removal of cervical or vaginal polyp or polypi, with or without dilatation of cervix, not being a service associated with a service to which item 35608 applies (Anaes.)	Fee: \$70.40 Benefit: 75% = \$52.80 85% = \$59.85
35612	Cervix, residual stump, removal of, by abdominal approach for non-malignant lesions (Anaes.) (Assist.)	Fee: \$556.90 Benefit: 75% = \$417.70 85% = \$473.40
35614	Examination of the lower genital tract using a colposcope in a patient who: (a) has a human papilloma virus related gynaecology indication; or (b) has symptoms or signs suspicious of lower genital tract malignancy; or (c) is undergoing follow-up treatment of lower genital tract malignancy; or (d) is undergoing assessment or surveillance of a vulvovaginal pre-malignant or malignant disease; or (e) is undergoing assessment or surveillance as part of an identified at risk population (See para TN.8.42, TN.8.233 of explanatory notes to this Category)	Fee: \$70.30 Benefit: 75% = \$52.75 85% = \$59.80
35615	Vulva or vagina, biopsy of, when performed in conjunction with a service to which item 35614 applies	Fee: \$77.50 Benefit: 75% = \$58.15 85% = \$65.90
35616	Endometrial ablation by thermal balloon or radiofrequency electrosurgery, for abnormal uterine bleeding, with or without endometrial sampling, including any hysteroscopy performed on the same day (H) (Anaes.)	Fee: \$494.85 Benefit: 75% = \$371.15
35620	Endometrial biopsy for pathological assessment in women with abnormal uterine bleeding or post-menopausal bleeding (Anaes.)	Fee: \$58.75 Benefit: 75% = \$44.10 85% = \$49.95
35622	Endometrial ablation, using hysteroscopically guided electrosurgery or laser energy for abnormal uterine bleeding, with or without endometrial sampling, not being a service associated with a service to which item 30390 applies (H) (Anaes.)	Fee: \$663.20 Benefit: 75% = \$497.40
35623	Endometrial ablation and resection of myoma or uterine septum (or both), using hysteroscopic guided electrosurgery or laser energy, for abnormal uterine bleeding, with or without endometrial sampling (H) (Anaes.)	Fee: \$901.80 Benefit: 75% = \$676.35
35626	Hysteroscopy for investigation of suspected intrauterine pathology, with or without local anaesthesia, including any associated endometrial biopsy, not being a service associated with a service to which item 35630 applies (See para TN.8.43 of explanatory notes to this Category)	Fee: \$246.65 Benefit: 75% = \$185.00 85% = \$209.70
35630	Hysteroscopy for investigation of suspected intrauterine pathology if performed under general anaesthesia, including any associated endometrial biopsy, not being a service associated with a service to which item 35626 applies (H) (Anaes.)	Fee: \$201.45 Benefit: 75% = \$151.10

T8. SURGICAL OPERATIONS

4. GYNAECOLOGICAL

35631	<p>Operative laparoscopy, including any of the following: (a) unilateral or bilateral ovarian cystectomy; (b) salpingo-oophorectomy; (c) salpingectomy for tubal pathology (including ectopic pregnancy by tubal removal or salpingostomy, but excluding sterilisation); (d) excision of mild endometriosis; not being a service associated with a service to which any other intraperitoneal or retroperitoneal procedure item (other than item 30724 or 30725) applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.1.4, TN.8.2, TN.8.248, TN.8.229 of explanatory notes to this Category) Fee: \$783.20 Benefit: 75% = \$587.40</p>
35632	<p>Complicated operative laparoscopy, including either or both of the following: (a) excision of moderate endometriosis; (b) laparoscopic myomectomy for a myoma of at least 4cm, including incision and repair of the uterus; not being a service associated with a service to which any other intraperitoneal or retroperitoneal procedure item (other than item 30724 or 30725 or 35658) applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.1.4, TN.8.2, TN.8.248, TN.8.229 of explanatory notes to this Category) Fee: \$978.90 Benefit: 75% = \$734.20</p>
35633	<p>Hysteroscopy, under visual guidance, including any of the following: (a) removal of an intra-uterine device; (b) removal of polyps by any method; (c) division of minor intrauterine adhesions (Anaes.)</p> <p>(See para TN.8.249 of explanatory notes to this Category) Fee: \$239.95 Benefit: 75% = \$180.00 85% = \$204.00</p>
35635	<p>Hysteroscopy involving division of: (a) a uterine septum; or (b) moderate to severe intrauterine adhesions (H) (Anaes.)</p> <p>(See para TN.8.249 of explanatory notes to this Category) Fee: \$329.65 Benefit: 75% = \$247.25</p>
35636	<p>Hysteroscopy, resection of myoma or myoma and uterine septum (if both are performed) (H) (Anaes.)</p> <p>Fee: \$476.60 Benefit: 75% = \$357.45</p>
35637	<p>Operative laparoscopy, including any of the following: (a) excision or ablation of minimal endometriosis; (b) division of pathological adhesions; (c) sterilisation by application of clips, division, destruction or removal of tubes; not being a service associated with another laparoscopic procedure (H)</p> <p>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.) (Assist.)</p> <p>(See para TN.1.4, TN.8.46, TN.8.248, TN.8.229 of explanatory notes to this Category) Fee: \$447.55 Benefit: 75% = \$335.70</p>
35640	<p>Uterus, curettage of, with or without dilation (including curettage for incomplete miscarriage), if performed under: (a) general anaesthesia; or (b) epidural or spinal (intrathecal) nerve block; or</p>

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
	(c) sedation; including procedures (if performed) to which item 35626 or 35630 applies (Anaes.) (See para TN.8.44 of explanatory notes to this Category) Fee: \$201.45 Benefit: 75% = \$151.10 85% = \$171.25	
35641	Severe endometriosis, laparoscopic resection of, involving 2 of the following procedures: (a) resection of the pelvic side wall including dissection of endometriosis or scar tissue from the ureter; (b) resection of the Pouch of Douglas; (c) resection of an ovarian endometrioma greater than 2 cm in diameter; (d) dissection of bowel from uterus from the level of the endocervical junction or above (H) (Anaes.) (Assist.) (See para TN.1.4, TN.8.248, TN.8.229 of explanatory notes to this Category) Fee: \$1,367.85 Benefit: 75% = \$1025.90	
35643	Evacuation of the contents of the gravid uterus by curettage or suction curettage, if performed under: (a) local anaesthesia; or (b) general anaesthesia; or (c) epidural or spinal (intrathecal) nerve block; or (d) sedation; including procedures (if performed) to which item 35626 or 35630 applies (Anaes.) Fee: \$239.95 Benefit: 75% = \$180.00 85% = \$204.00	
35644	Cervix, ablation by electrocoagulation diathermy, laser or cryotherapy, with colposcopy, including any local anaesthesia and biopsies, for previously biopsy confirmed HSIL (CIN 2/3) in a patient with a Type 1 or 2 (completely visible) transformation zone, if there is: (a) no evidence of invasive or glandular disease; and (b) no discordance between cytology and previous histology; not being a service associated with a service to which item 35647 or 35648 applies (Anaes.) (See para TN.8.45, TN.8.234 of explanatory notes to this Category) Fee: \$224.15 Benefit: 75% = \$168.15 85% = \$190.55	
35645	Cervix, ablation by electrocoagulation diathermy, laser or cryotherapy, with colposcopy, including any local anaesthesia or biopsies, in conjunction with ablative therapy of additional areas of biopsy proven high grade intraepithelial lesions of one or more sites of the vagina, vulva, urethra or anus, for previously biopsy confirmed HSIL (CIN2/3) in a patient with a Type 1 of 2 (completely visible) transformation zone, if there is: (a) no evidence of invasive or glandular disease; and (b) no discordance between cytology and previous histology; not being a service associated with a service to which item 35647 or 35648 applies (Anaes.) (See para TN.8.45, TN.8.234 of explanatory notes to this Category) Fee: \$350.80 Benefit: 75% = \$263.10 85% = \$298.20	
35647	Cervix, complete excision of the endocervical transformation zone, using large loop or laser therapy, including any local anaesthesia and biopsies (Anaes.) (See para TN.8.45, TN.8.233, TN.8.235 of explanatory notes to this Category) Fee: \$224.15 Benefit: 75% = \$168.15 85% = \$190.55	
35648	Cervix, complete excision of the endocervical transformation zone, using large loop or laser therapy, including any local anaesthesia and biopsies, in conjunction with ablative treatment of additional areas of biopsy-proven high grade intraepithelial lesions of one or more sites of the vagina, vulva, urethra or anus (Anaes.) (See para TN.8.45, TN.8.233, TN.8.235 of explanatory notes to this Category)

<p>35721</p>	<p>Radical debulking, involving the radical excision of a macroscopically disseminated gynaecological malignancy from the abdominal and pelvic cavity, where cancer has extended beyond the pelvis, including any of the following:</p> <p>(a) resection of peritoneum over any of the following:</p> <p style="padding-left: 20px;">(i) the diaphragm; (ii) the paracolic gutters; (iii) the greater or lesser omentum; (iv) the porta hepatis;</p> <p>(b) cytoreduction of recurrent gynaecological malignancy from the abdominal cavity following previous abdominal surgery, radiation or chemotherapy;</p> <p>(c) cytoreduction of recurrent gynaecological malignancy from the pelvic cavity following previous pelvic surgery, radiation or chemotherapy;</p> <p>not being a service to which a service associated with a service to which item 35720 or 35726 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.2, TN.8.235, TN.8.236 of explanatory notes to this Category)</p> <p>Fee: \$3,511.10 Benefit: 75% = \$2633.35</p>
<p>35723</p>	<p>Para-aortic lymph node dissection from above the level of the aortic bifurcation (unilateral), for staging or restaging of gynaecological malignancy (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.233, TN.8.235 of explanatory notes to this Category)</p> <p>Fee: \$1,526.75 Benefit: 75% = \$1145.10</p>
<p>35724</p>	<p>Para-aortic lymph node dissection (pelvic or above the aortic bifurcation) after prior similar dissection, radiotherapy or chemotherapy for malignancy (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.2, TN.8.233, TN.8.235 of explanatory notes to this Category)</p> <p>Fee: \$2,296.90 Benefit: 75% = \$1722.70</p>
<p>35726</p>	<p>Infra-colic omentectomy, with or without multiple peritoneal biopsies, for staging or restaging of gynaecological malignancy, not being a service associated with a service to which item 35721 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$531.80 Benefit: 75% = \$398.85</p>
<p>35729</p>	<p>OVARIAN TRANSPOSITION out of the pelvis, in conjunction with radical hysterectomy for invasive malignancy (Anaes.)</p> <p>Fee: \$239.75 Benefit: 75% = \$179.85</p>

T8. SURGICAL OPERATIONS		4. GYNAECOLOGICAL
35730	<p>Ovarian repositioning for one or both ovaries to preserve ovarian function, prior to gonadotoxic radiotherapy when the treatment volume and dose of radiation have a high probability of causing infertility (Anaes.)</p> <p>Fee: \$239.75 Benefit: 75% = \$179.85</p>	
35750	<p>Hysterectomy, laparoscopic assisted vaginal, by any approach, including any endometrial sampling, with or without removal of the tubes or ovarian cystectomy or removal of the ovaries and tubes due to other pathology, not being a service associated with a service to which item 35595 or 35673 applies. (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.229, TN.8.231 of explanatory notes to this Category)</p> <p>Fee: \$863.60 Benefit: 75% = \$647.70</p>	
35751	<p>Hysterectomy, laparoscopic, by any approach, including any endometrial sampling, with or without removal of the tubes, not being a service associated with a service to which item 35595 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.2, TN.8.229, TN.8.231 of explanatory notes to this Category)</p> <p>Fee: \$863.60 Benefit: 75% = \$647.70</p>	
35753	<p>Hysterectomy, complex laparoscopic, by any approach, including endometrial sampling, with either or both of the following procedures: (a) unilateral or bilateral salpingo-oophorectomy (excluding salpingectomy); (b) excision of moderate endometriosis or ovarian cyst; including any associated laparoscopy, not being a service associated with a service to which item 35595 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.229, TN.8.231 of explanatory notes to this Category)</p> <p>Fee: \$954.95 Benefit: 75% = \$716.25</p>	
35754	<p>Hysterectomy, complex laparoscopic, by any approach, that concurrently requires either extensive retroperitoneal dissection or complex side wall dissection, or both, with any of the following procedures (if performed): (a) endometrial sampling; (b) unilateral or bilateral salpingectomy, oophorectomy or salpingo-oophorectomy; (c) excision of ovarian cyst; (d) any other associated laparoscopy; not being a service associated with a service to which item 35595 or 35641 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.229, TN.8.231 of explanatory notes to this Category)</p> <p>Fee: \$1,845.25 Benefit: 75% = \$1383.95</p>	
35756	<p>Hysterectomy, laparoscopic, by any approach, if the procedure is completed by open hysterectomy for control of bleeding or extensive pathology, including any associated laparoscopy, not being a service associated with a service to which item 35595 or 35641 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.229, TN.8.231 of explanatory notes to this Category)</p> <p>Fee: \$1,575.00 Benefit: 75% = \$1181.25</p>	
35759	<p>Procedure for the control of post operative haemorrhage following gynaecological surgery, under general anaesthesia, utilising a vaginal, abdominal or laparoscopic approach if no other procedure is performed (H) (Anaes.) (Assist.)</p> <p>Fee: \$620.10 Benefit: 75% = \$465.10</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Group T8. Surgical Operations	
	Subgroup 5. Urological	
37046	Suprapubic or perineal procedure for excision of graft material, either singly or in multiple pieces, for a symptomatic patient with graft related complications (including graft related pain or discharge and bleeding related to graft exposure), if not more than one service to which this item applies has been provided to the patient by the same practitioner in the preceding 12 months (Anaes.) (Assist.) Fee: \$762.20 Benefit: 75% = \$571.65	
37226	Prostate or prostatic bed, needle biopsy of, using prostatic magnetic resonance imaging techniques and obtaining 1 or more prostatic specimens. (Anaes.) (See para TN.8.2 of explanatory notes to this Category) Fee: \$309.20 Benefit: 75% = \$231.90 85% = \$262.85	
	GENERAL	
36502	PELVIC LYMPHADENECTOMY, open or laparoscopic, or both, unilateral or bilateral (Anaes.) (Assist.) Fee: \$752.80 Benefit: 75% = \$564.60	
36503	RENAL TRANSPLANT (not being a service to which item 36506 or 36509 applies) (Anaes.) (Assist.) Fee: \$1,531.20 Benefit: 75% = \$1148.40	
36506	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together vascular anastomosis including aftercare (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36509	RENAL TRANSPLANT, performed by vascular surgeon and urologist operating together ureterovesical anastomosis including aftercare (Assist.) Fee: \$861.85 Benefit: 75% = \$646.40	
36516	Nephrectomy, complete, by open, laparoscopic or robot-assisted approach, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.154 of explanatory notes to this Category) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36519	Nephrectomy, complete, by open, laparoscopic or robot-assisted approach, complicated by previous surgery on the same kidney, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.154 of explanatory notes to this Category) Fee: \$1,421.15 Benefit: 75% = \$1065.90	
36522	Nephrectomy, partial, by open, laparoscopic or robot-assisted approach, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.154 of explanatory notes to this Category) Fee: \$1,219.55 Benefit: 75% = \$914.70	
36525	Nephrectomy, partial, by open, laparoscopic or robot-assisted approach:	

T8. SURGICAL OPERATIONS	5. UROLOGICAL
	<p>(a) if complicated by previous surgery or ablative procedure on the same kidney; or</p> <p>(b) for a patient with a solitary functioning kidney; or</p> <p>(c) for a patient with an estimated glomerular filtration rate (eGFR) of less than 60ml/min/1.73m²;</p> <p>other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>Fee: \$1,732.95 Benefit: 75% = \$1299.75</p>
36528	<p>Nephrectomy, radical, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, with or without adrenalectomy, for a tumour less than 10 cm in diameter, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p>Fee: \$1,421.15 Benefit: 75% = \$1065.90</p>
36529	<p>Nephrectomy, radical, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, with or without adrenalectomy:</p> <p>(a) for a tumour 10 cm or more in diameter; or</p> <p>(b) if complicated by previous open or laparoscopic surgery on the same kidney;</p> <p>other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p>Fee: \$1,753.95 Benefit: 75% = \$1315.50</p>
36530	<p>Renal cell carcinoma, not more than 4 cm in diameter, destruction of, by percutaneous, laparoscopic or open cryoablation (including any associated imaging services), if:</p> <p>(a) malignancy has previously been confirmed by histopathological examination; and</p> <p>(b) a multi-disciplinary team has reviewed treatment options for the patient and assessed that partial nephrectomy is not suitable; and</p> <p>(c) the service is not a service associated with a service to which item 36522 or 36525 applies (H) (Anaes.)</p> <p>Fee: \$891.35 Benefit: 75% = \$668.55</p>
36531	<p>Nephroureterectomy, complete, by open, laparoscopic or robot-assisted approach, including associated bladder repair and any associated endoscopic procedure, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p>Fee: \$1,274.50 Benefit: 75% = \$955.90</p>
36532	<p>Nephroureterectomy, for tumour, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic procedures, other than a service to which item 36533 applies or a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.154 of explanatory notes to this Category)</p> <p>Fee: \$1,829.20 Benefit: 75% = \$1371.90</p>
36533	<p>Nephroureterectomy, for tumour, by open, laparoscopic or robot-assisted approach, with or without en bloc dissection of lymph nodes, including associated bladder repair and any associated endoscopic</p>

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	procedures, if complicated by previous open or laparoscopic surgery on the same kidney or ureter, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.154 of explanatory notes to this Category) Fee: \$2,162.00 Benefit: 75% = \$1621.50	
36537	KIDNEY OR PERINEPHRIC AREA, EXPLORATION OF, with or without drainage of, by open exposure, not being a service to which another item in this Sub-group applies (Anaes.) (Assist.) Fee: \$761.00 Benefit: 75% = \$570.75	
36543	Nephrolithotomy or pyelolithotomy, or both, extended, for one or more renal stones, including one or more of nephrostomy, pyelostomy, pedicle control with or without freezing, calyorrhaphy or pyeloplasty (Anaes.) (Assist.) Fee: \$1,421.15 Benefit: 75% = \$1065.90 85% = \$1322.45	
36546	EXTRACORPOREAL SHOCK WAVE LITHOTRIPSY (ESWL) to urinary tract and posttreatment care for 3 days, including pretreatment consultation, unilateral (Anaes.) Fee: \$761.00 Benefit: 75% = \$570.75 85% = \$662.30	
36549	Ureterolithotomy, by open, laparoscopic or robot-assisted approach (Anaes.) (Assist.) Fee: \$917.00 Benefit: 75% = \$687.75	
36552	NEPHROSTOMY or pyelostomy, open, as an independent procedure (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
36558	RENAL CYST OR CYSTS, excision or unroofing of (Anaes.) (Assist.) Fee: \$715.25 Benefit: 75% = \$536.45 85% = \$616.55	
36561	Renal biopsy, performed under image guidance (closed) (Anaes.) Fee: \$189.85 Benefit: 75% = \$142.40 85% = \$161.40	
36564	Pyeloplasty, (plastic reconstruction of the pelvi-ureteric junction) by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36567	Pyeloplasty in a kidney that is congenitally abnormal (in addition to the presence of pelvi-ureteric junction obstruction), or in a solitary kidney, by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.) (See para TN.8.155 of explanatory notes to this Category) Fee: \$1,118.65 Benefit: 75% = \$839.00	
36570	Pyeloplasty, complicated by previous surgery on the same kidney, by open, laparoscopic or robot-assisted approach, with or without the use of a retroperitoneal approach (Anaes.) (Assist.) Fee: \$1,421.15 Benefit: 75% = \$1065.90	
36573	DIVIDED URETER, repair of (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36576	Kidney, exposure and exploration of, including repair or nephrectomy, for trauma, by open, laparoscopic or robot-assisted approach, other than a service associated with:	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(a) any other procedure performed on the kidney, renal pelvis or renal pedicle; or (b) a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.154 of explanatory notes to this Category) Fee: \$1,274.50 Benefit: 75% = \$955.90	
36579	Ureterectomy, complete or partial: (a) for a tumour within the ureter, proven by histopathology at the time of surgery; or (b) for congenital anomaly; with or without associated bladder repair (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
36585	URETER, transplantation of, into skin (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
36588	URETER, reimplantation into bladder (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36591	URETER, reimplantation into bladder with psoas hitch or Boari flap or both (Anaes.) (Assist.) Fee: \$1,219.55 Benefit: 75% = \$914.70	
36594	URETER, transplantation of, into intestine (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36597	URETER, transplantation of, into another ureter (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
36600	URETER, transplantation of, into isolated intestinal segment, unilateral (Anaes.) (Assist.) (See para TN.8.153 of explanatory notes to this Category) Fee: \$1,219.55 Benefit: 75% = \$914.70 85% = \$1120.85	
36603	URETERS, transplantation of, into isolated intestinal segment, bilateral (Anaes.) (Assist.) (See para TN.8.153 of explanatory notes to this Category) Fee: \$1,421.15 Benefit: 75% = \$1065.90	
36604	Ureteric stent, passage of through percutaneous nephrostomy tube, using interventional radiology techniques, but not including imaging (Anaes.) Fee: \$294.65 Benefit: 75% = \$221.00 85% = \$250.50	
36606	INTESTINAL URINARY RESERVOIR, continent, formation of, including formation of nonreturn valves and implantation of ureters (1 or both) into reservoir (Anaes.) (Assist.) Fee: \$2,549.05 Benefit: 75% = \$1911.80	
36607	Ureteric stent insertion of, with balloon dilatation of: (a) the pelvicalyceal system; or (b) ureter; or	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(c) the pelvicalyceal system and ureter; through a nephrostomy tube using interventional radiology techniques, but not including imaging (Anaes.) Fee: \$760.30 Benefit: 75% = \$570.25	
36608	Ureteric stent, exchange of, percutaneously through either the ileal conduit or bladder, using interventional radiology techniques, but not including imaging, not being a service associated with a service to which items 36811 to 36854 apply (Anaes.) Fee: \$294.65 Benefit: 75% = \$221.00	
36609	Intestinal urinary conduit, reservoir or ureterostomy, revision of (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
36610	Intestinal urinary conduit, incontinent, formation of (including associated small bowel resection and anastomosis), including implantation of one or both ureters into reservoir (Anaes.) (Assist.) Fee: \$1,953.75 Benefit: 75% = \$1465.35	
36611	Intestinal urinary reservoir, continent, formation of (including associated small bowel resection and anastomosis), including formation of non-return valves and implantation of one or both ureters into reservoir, performed by open, laparoscopic or robot-assisted approach (Anaes.) (Assist.) Fee: \$3,081.70 Benefit: 75% = \$2311.30	
36612	URETER, exploration of, with or without drainage of, as an independent procedure (Anaes.) (Assist.) Fee: \$715.25 Benefit: 75% = \$536.45	
36615	Ureterolysis, unilateral, with or without repositioning of the ureter, for obstruction of the ureter, if: (a) the obstruction: (i) is evident either radiologically or by proximal ureteric dilatation at operation; and (ii) is secondary to retroperitoneal fibrosis; and (b) there is biopsy proven fibrosis, endometriosis or cancer at the site of the obstruction at time of surgery (Anaes.) (Assist.) (See para TN.8.156 of explanatory notes to this Category) Fee: \$816.15 Benefit: 75% = \$612.15	
36618	REDUCTION URETEROPLASTY (Anaes.) (Assist.) Fee: \$715.25 Benefit: 75% = \$536.45	
36621	CLOSURE OF CUTANEOUS URETEROSTOMY (Anaes.) (Assist.) Fee: \$511.35 Benefit: 75% = \$383.55	
36624	Nephrostomy, percutaneous, using interventional radiology techniques, but not including imaging (Anaes.) (Assist.) Fee: \$614.35 Benefit: 75% = \$460.80 85% = \$522.20	
36627	Nephroscopy, percutaneous, with or without any one or more of; stone extraction, biopsy or diathermy, not being a service to which item 36639 or 36645 applies (Anaes.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$761.00 Benefit: 75% = \$570.75	
36633	Nephroscopy, percutaneous, with incision of any one or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, not being a service associated with a service to which item 36627, 36639 or 36645 applies (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15 85% = \$717.45	
36636	Nephroscopy, percutaneous, with incision of any one or more of; renal pelvis, calyx or calyces or ureter and including antegrade insertion of ureteric stent, being a service associated with a service to which item 36627, 36639 or 36645 applies (Anaes.) (Assist.) Fee: \$440.15 Benefit: 75% = \$330.15	
36639	Nephroscopy, percutaneous, with destruction and extraction of one or two stones using ultrasound or electrohydraulic shock waves or lasers, other than a service to which item 36645 applies (Anaes.) Fee: \$917.00 Benefit: 75% = \$687.75	
36645	NEPHROSCOPY, percutaneous, with removal or destruction of a stone greater than 3 cm in any dimension, or for 3 or more stones (Anaes.) (Assist.) Fee: \$1,173.70 Benefit: 75% = \$880.30	
36649	Nephrostomy drainage tube, exchange of, using interventional radiology techniques, but not including imaging (Anaes.) (Assist.) Fee: \$294.65 Benefit: 75% = \$221.00 85% = \$250.50	
36650	Nephrostomy tube, removal of, using interventional radiology techniques, but not including imaging, if the ureter has been stented with a double J ureteric stent and that stent is left in place (Anaes.) Fee: \$164.80 Benefit: 75% = \$123.60	
36652	PYELOSCOPY, retrograde, of one collecting system, with or without any one or more of, cystoscopy, ureteric meatotomy, ureteric dilatation, not being a service associated with a service to which item 36803, 36812 or 36824 applies (Anaes.) (Assist.) Fee: \$715.25 Benefit: 75% = \$536.45	
36654	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus 1 or more of extraction of stone from the renal pelvis or calyces, or biopsy or diathermy of the renal pelvis or calyces, not being a service associated with a service to which item 36656 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) Fee: \$917.00 Benefit: 75% = \$687.75	
36656	PYELOSCOPY, retrograde, of one collecting system, being a service to which item 36652 applies, plus extraction of 2 or more stones in the renal pelvis or calyces or destruction of stone with ultrasound, electrohydraulic or kinetic lithotripsy, or laser in the renal pelvis or calyces, with or without extraction of fragments, not being a service associated with a service to which item 36654 applies to a procedure performed in the same collecting system (Anaes.) (Assist.) Fee: \$1,173.70 Benefit: 75% = \$880.30	
OPERATIONS ON BLADDER		
Amend 36504	Rigid cystoscopy using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with biopsy of bladder, not being a service associated with a service to which item 36505, 36507, 36508, 36812, 36830, 36836, 36840, 36845, 36848, 36854, 37203 or 37215 applies (Anaes.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	(See para TN.8.2 of explanatory notes to this Category) Fee: \$324.50 Benefit: 75% = \$243.40 85% = \$275.85	
36505	<p>RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with urethroscopy with or without urethral dilatation, not being a service associated with any other urological endoscopic procedure on the lower urinary tract except a service to which item 37327 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$255.00 Benefit: 75% = \$191.25 85% = \$216.75</p>	
36507	<p>RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with resection, diathermy or visual laser destruction of bladder tumour or other lesion of the bladder, not being a service to which item 36840 or 36845 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$427.25 Benefit: 75% = \$320.45 85% = \$363.20</p>	
36508	<p>RIGID CYSTOSCOPY using blue light with hexaminolevulinate as an adjunct to white light, including catheterisation, with diathermy, resection or visual laser destruction of multiple tumours in more than 2 quadrants of the bladder or solitary tumour greater than 2cm in diameter, not being a service to which item 36845 applies.</p> <p>(Anaes.)</p> <p>(See para TN.8.2 of explanatory notes to this Category) Fee: \$832.60 Benefit: 75% = \$624.45 85% = \$733.90</p>	
36663	<p>Both:</p> <p>(a) percutaneous placement of sacral nerve lead or leads using fluoroscopic guidance, or open placement of sacral nerve lead or leads; and</p> <p>(b) intra-operative test stimulation, to manage:</p> <p style="padding-left: 40px;">(i) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p style="padding-left: 40px;">(ii) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p>(Anaes.)</p> <p>Fee: \$727.50 Benefit: 75% = \$545.65 85% = \$628.80</p>	
36664	<p>Both:</p> <p>(a) percutaneous repositioning of sacral nerve lead or leads using fluoroscopic guidance, or open repositioning of sacral nerve lead or leads; and</p> <p>(b) intra-operative test stimulation, to correct displacement or unsatisfactory positioning, if inserted for the management of:</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	<p>(i) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p>(ii) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p>—other than a service to which item 36663 applies (Anaes.)</p> <p>Fee: \$653.35 Benefit: 75% = \$490.05 85% = \$555.35</p>	
36665	<p>Sacral nerve electrode or electrodes, management and adjustment of the pulse generator by a medical practitioner, to manage detrusor overactivity or non obstructive urinary retention - each day</p> <p>Fee: \$138.00 Benefit: 75% = \$103.50 85% = \$117.30</p>	
36666	<p>Pulse generator, subcutaneous placement of, and placement and connection of extension wire or wires to sacral nerve electrode or electrodes, for the management of:</p> <p>(a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p>(b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment (Anaes.)</p> <p>Fee: \$367.65 Benefit: 75% = \$275.75 85% = \$312.55</p>	
36667	<p>Sacral nerve lead or leads, removal of, if the lead was inserted to manage:</p> <p>(a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p>(b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p>(Anaes.)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
36668	<p>Pulse generator, removal of, if the pulse generator was inserted to manage:</p> <p>(a) detrusor over-activity that has been refractory to at least 12 months conservative non-surgical treatment; or</p> <p>(b) non-obstructive urinary retention that has been refractory to at least 12 months conservative non-surgical treatment</p> <p>(Anaes.)</p> <p>Fee: \$172.05 Benefit: 75% = \$129.05 85% = \$146.25</p>	
36671	<p>Percutaneous tibial nerve stimulation, initial treatment protocol, for the treatment of overactive bladder, by a specialist urologist, gynaecologist or urogynaecologist, if:</p> <p>(a) the patient has been diagnosed with idiopathic overactive bladder; and</p>

	ENDOSCOPIC EXAMINATION of intestinal conduit or reservoir (Anaes.)	
36860	(See para TN.8.158 of explanatory notes to this Category) Fee: \$183.50 Benefit: 75% = \$137.65 85% = \$156.00	
	Litholapaxy, with or without cystoscopy (Anaes.)	
36863	(See para TN.8.158 of explanatory notes to this Category) Fee: \$513.30 Benefit: 75% = \$385.00	
	BLADDER, partial excision of (Anaes.) (Assist.)	
37000	(See para TN.8.157 of explanatory notes to this Category) Fee: \$816.15 Benefit: 75% = \$612.15	
	BLADDER, repair of rupture (Anaes.) (Assist.)	
37004	Fee: \$715.25 Benefit: 75% = \$536.45	
	Open cystostomy or cystotomy, suprapubic, other than:	
	(a) a service to which item 37011 applies; or	
	(b) a service associated with a service to which item 37245 applies; or	
	(c) another open bladder procedure (Anaes.) (Assist.)	
37008	Fee: \$458.40 Benefit: 75% = \$343.80 85% = \$389.65	
	Suprapubic stab cystotomy, other than a service associated with a service to which item 36827 applies (Anaes.)	
37011	(See para TN.8.159 of explanatory notes to this Category) Fee: \$102.70 Benefit: 75% = \$77.05 85% = \$87.30	
	BLADDER, total excision of (Anaes.) (Assist.)	
37014	(See para TN.8.157 of explanatory notes to this Category) Fee: \$1,173.70 Benefit: 75% = \$880.30	
	Bladder, total excision of, following previous open, laparoscopic or robot-assisted surgery, or radiation therapy or chemotherapy to the pelvis (Anaes.) (Assist.)	
37015	Fee: \$1,408.40 Benefit: 75% = \$1056.30	
	Cystectomy, including prostatectomy and pelvic lymph node dissection, other than a service associated with a service to which items 37000, 37014, 37015, 37209, 35551 or 36502 applies (Anaes.) (Assist.)	
37016	Fee: \$2,196.15 Benefit: 75% = \$1647.15	
	Cystectomy, including prostatectomy and pelvic lymph node dissection, following previous open, laparoscopic or robot-assisted surgery, or radiation therapy or chemotherapy to the pelvis, other than a service associated with a service to which items 37000, 37014, 37015, 37016, 37209, 35551 or 36502 applies (Anaes.) (Assist.)	
37018	Fee: \$3,294.30 Benefit: 75% = \$2470.75	
	Cystectomy, including anterior exenteration and pelvic lymph node dissection, other than a service associated with a service to which any of items 37000, 37014, 37015, 35551, 36502, and 35653 to 35756 apply (Anaes.) (Assist.)	
37019	Fee: \$2,193.65 Benefit: 75% = \$1645.25	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37020	BLADDER DIVERTICULUM, excision or obliteration of (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
37021	Cystectomy, including anterior exenteration and pelvic lymph node dissection, following previous open, laparoscopic or robot-assisted surgery, radiation therapy or chemotherapy to the pelvis, other than a service associated with a service to which any of items 37000, 37014, 37015, 35551, 36502 and 35653 to 35756 apply (Anaes.) (Assist.) Fee: \$3,290.40 Benefit: 75% = \$2467.80	
37023	VESICAL FISTULA, cutaneous, operation for (Anaes.) Fee: \$458.40 Benefit: 75% = \$343.80	
37026	CUTANEOUS VESICOSTOMY, establishment of (Anaes.) (Assist.) Fee: \$458.40 Benefit: 75% = \$343.80	
37029	VESICOVAGINAL FISTULA, closure of, by abdominal approach (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
37038	VESICOINTESTINAL FISTULA, closure of, excluding bowel resection (Anaes.) (Assist.) Fee: \$761.35 Benefit: 75% = \$571.05	
37039	Bladder stress incontinence, sling procedure for, using a non-autologous biological sling (Anaes.) (Assist.) Fee: \$742.45 Benefit: 75% = \$556.85	
37040	Bladder stress incontinence, sling procedure for, using a non-adjustable synthetic male sling system, other than a service associated with a service to which item 37042 applies (H) (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37041	BLADDER ASPIRATION by needle Fee: \$51.30 Benefit: 75% = \$38.50 85% = \$43.65	
37042	Bladder stress incontinence—sling procedure for, using autologous fascial sling, including harvesting of sling, other than a service associated with a service to which item 35599 applies (H) (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37044	Bladder stress incontinence, suprapubic operation for (such as Burch colposuspension), open or laparoscopic route, using native tissue without graft, with diagnostic cystoscopy to assess the integrity of the lower urinary tract, not being a service associated with a service to which item 35599 or 36812 applies (H) (Anaes.) (Assist.) Fee: \$853.15 Benefit: 75% = \$639.90	
37045	CONTINENT CATHETERISATION BLADDER STOMAS (eg. Mitrofanoff), formation of (Anaes.) (Assist.) Fee: \$1,572.55 Benefit: 75% = \$1179.45	
37047	BLADDER ENLARGEMENT using intestine (Anaes.) (Assist.) Fee: \$1,833.80 Benefit: 75% = \$1375.35	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37048	Bladder neck closure for the management of urinary incontinence (Anaes.) (Assist.) Fee: \$1,017.85 Benefit: 75% = \$763.40	
37050	BLADDER EXSTROPHY CLOSURE, not involving sphincter reconstruction (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
37053	BLADDER TRANSECTION AND RE-ANASTOMOSIS TO TRIGONE (Anaes.) (Assist.) Fee: \$942.95 Benefit: 75% = \$707.25	
OPERATIONS ON PROSTATE		
37200	Prostatectomy, by open, laparoscopic or robot-assisted approach (Anaes.) (Assist.) (See para TN.8.162 of explanatory notes to this Category) Fee: \$1,118.65 Benefit: 75% = \$839.00	
Amend 37201	Prostate, transurethral radio-frequency needle ablation of, with or without cystoscopy and with or without urethroscopy, in patients with moderate to severe lower urinary tract symptoms who are not medically fit for transurethral resection of the prostate (that is, prostatectomy using diathermy or cold punch) and including services to which item 36854, 37203, 37207, 37208, 37245, 37303, 37321 or 37324 applies (H) (Anaes.) (See para TN.8.53 of explanatory notes to this Category) Fee: \$912.35 Benefit: 75% = \$684.30	
Amend 37203	Prostatectomy, transurethral resection using cautery, with or without cystoscopy and with or without urethroscopy, and including services to which item 36854, 37201, 37207, 37208, 37245, 37303, 37321 or 37324 applies (H) (Anaes.) (See para TN.8.158 of explanatory notes to this Category) Fee: \$1,147.05 Benefit: 75% = \$860.30	
New 37204	Cystoscopy with insertion of prostatic implants for the treatment of benign prostatic hyperplasia (Anaes.) Fee: \$876.75 Benefit: 75% = \$657.60 85% = \$778.05	
New 37205	Prostate, ablation by water vapour with or without cystoscopy and with or without urethroscopy (Anaes.) Fee: \$355.95 Benefit: 75% = \$267.00 85% = \$302.60	
Amend 37207	Prostate, endoscopic non-contact (side firing) visual laser ablation, with or without cystoscopy and with or without urethroscopy, and including services to which items 36854, 37201, 37203, 37245, 37303, 37321 or 37324 applies (H) (Anaes.) Fee: \$1,147.05 Benefit: 75% = \$860.30	
37208	PROSTATE, endoscopic non-contact (side firing) visual laser ablation, with or without cystoscopy and with or without urethroscopy, and including services to which item 36854, 37303, 37321 or 37324 applies, continuation of, within 10 days of the procedure described by items 37201, 37203, 37207 or 37245 which had to be discontinued for medical reasons (Anaes.) Fee: \$614.35 Benefit: 75% = \$460.80	
37209	PROSTATE, and/or SEMINAL VESICLE/AMPULLA OF VAS, unilateral or bilateral, total excision of, not being a service associated with a service to which item number 37210 or 37211 applies (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$1,421.15 Benefit: 75% = \$1065.90	
37210	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated) with or without bladder neck reconstruction, other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p>Fee: \$1,753.95 Benefit: 75% = \$1315.50</p>	
37211	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated):</p> <p>(a) with or without bladder neck reconstruction; and</p> <p>(b) with pelvic lymphadenectomy;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p>Fee: \$2,130.05 Benefit: 75% = \$1597.55</p>	
37213	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated):</p> <p>(a) complicated by:</p> <p style="padding-left: 40px;">(i) previous radiation therapy (including brachytherapy) on the prostate; or</p> <p style="padding-left: 40px;">(ii) previous ablative procedures on the prostate; and</p> <p>(b) with bladder neck reconstruction;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p>Fee: \$2,630.70 Benefit: 75% = \$1973.05</p>	
37214	<p>Prostatectomy, radical, involving total excision of the prostate, sparing of nerves around the prostate (where clinically indicated):</p> <p>(a) complicated by:</p> <p style="padding-left: 40px;">(i) previous radiation therapy (including brachytherapy) on the prostate; or</p> <p style="padding-left: 40px;">(ii) previous ablative procedures on the prostate; and</p> <p>(b) with bladder neck reconstruction and pelvic lymphadenectomy;</p> <p>other than a service associated with a service to which item 30390, 30627, 35551, 36502 or 37375 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.161 of explanatory notes to this Category)</p> <p>Fee: \$3,195.40 Benefit: 75% = \$2396.55</p>	
37215	<p>Prostate, biopsy of, endoscopic, with or without cystoscopy (Anaes.)</p> <p>Fee: \$458.40 Benefit: 75% = \$343.80 85% = \$389.65</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37216	<p>Prostate or prostatic bed, needle biopsy of, by the transrectal route, using prostatic ultrasound guidance and obtaining one or more prostatic specimens, being a service associated with a service to which item 55603 applies (Anaes.)</p> <p>(See para TN.8.160 of explanatory notes to this Category)</p> <p>Fee: \$154.60 Benefit: 75% = \$115.95 85% = \$131.45</p>	
37217	<p>Prostate, implantation of radio-opaque fiducial markers into the prostate gland or prostate surgical bed, under ultrasound guidance, being an item associated with a service to which item 55603 applies (Anaes.)</p> <p>(See para TN.8.54 of explanatory notes to this Category)</p> <p>Fee: \$152.20 Benefit: 75% = \$114.15 85% = \$129.40</p>	
37218	<p>Prostate, injection into, one or more, excluding insertion of fiduciary markers (Anaes.)</p> <p>(See para TN.8.54 of explanatory notes to this Category)</p> <p>Fee: \$152.20 Benefit: 75% = \$114.15 85% = \$129.40</p>	
37219	<p>Prostate or prostatic bed, needle biopsy of, by the transperineal route, using prostatic ultrasound guidance and obtaining one or more prostatic specimens, being a service associated with a service to which item 55600 or 55603 applies (Anaes.)</p> <p>(See para TN.8.160 of explanatory notes to this Category)</p> <p>Fee: \$371.05 Benefit: 75% = \$278.30 85% = \$315.40</p>	
37220	<p>Prostate, radioactive seed implantation of, urological component, using transrectal ultrasound guidance:</p> <p>(a) for a patient with:</p> <p style="padding-left: 40px;">(i) localised prostatic malignancy at clinical stages T1 (clinically inapparent tumour not palpable or visible by imaging) or T2 (tumour confined within prostate); and</p> <p style="padding-left: 40px;">(ii) a Gleason score of less than or equal to 7 (Grade Group 1 to Grade Group 3); and</p> <p style="padding-left: 40px;">(iii) a prostate specific antigen (PSA) of not more than 10ng/ml at the time of diagnosis; and</p> <p>(b) performed by a urologist at an approved site in association with a radiation oncologist; and</p> <p>(c) being a service associated with:</p> <p style="padding-left: 40px;">(i) services to which items 15338 and 55603 apply; and</p> <p style="padding-left: 40px;">(ii) a service to which item 60506 or 60509 applies (Anaes.)</p> <p>(See para TN.8.55 of explanatory notes to this Category)</p> <p>Fee: \$1,149.35 Benefit: 75% = \$862.05</p>	
37221	<p>Prostatic abscess, endoscopic drainage of (Anaes.)</p> <p>Fee: \$513.30 Benefit: 75% = \$385.00</p>	
37223	<p>PROSTATIC COIL, insertion of, under ultrasound control (Anaes.)</p> <p>Fee: \$227.05 Benefit: 75% = \$170.30</p>	
Amend 37224	<p>Prostate, diathermy or cauterisation, other than a service associated with a service to which item 37201, 37203, 37207, 37208 or 37215 applies (Anaes.)</p> <p>Fee: \$355.75 Benefit: 75% = \$266.85 85% = \$302.40</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	<p>PROSTATE, transperineal insertion of catheters into, for high dose rate brachytherapy using ultrasound guidance including any associated cystoscopy. The procedure must be performed at an approved site in association with a radiation oncologist, and be associated with a service to which item 15331 or 15332 applies. (Anaes.)</p> <p>(See para TN.8.56 of explanatory notes to this Category)</p>	
37227	Fee: \$622.80	Benefit: 75% = \$467.10 85% = \$529.40
Amend 37245	<p>Prostate, endoscopic enucleation of, for the treatment of benign prostatic hyperplasia:</p> <p>(a) with morcellation, including mechanical morcellation or by an endoscopic technique; and</p> <p>(b) with or without cystoscopy; and</p> <p>(c) with or without urethroscopy; and</p> <p>other than a service associated with a service to which item 36827, 36854, 37008, 37201, 37203, 37207, 37208, 37303, 37321 or 37324 applies (H) (Anaes.)</p>	
	Fee: \$1,389.25	Benefit: 75% = \$1041.95
OPERATIONS ON URETHRA, PENIS OR SCROTUM		
37300	<p>URETHRAL SOUNDS, passage of, as an independent procedure (Anaes.)</p> <p>Fee: \$51.30 Benefit: 75% = \$38.50 85% = \$43.65</p>	
37303	<p>URETHRAL STRICTURE, dilatation of (Anaes.)</p> <p>Fee: \$81.55 Benefit: 75% = \$61.20 85% = \$69.35</p>	
37306	<p>URETHRA, repair of rupture of distal section (Anaes.) (Assist.)</p> <p>Fee: \$715.25 Benefit: 75% = \$536.45</p>	
37309	<p>URETHRA, repair of rupture of prostatic or membranous segment (Anaes.) (Assist.)</p> <p>Fee: \$1,017.85 Benefit: 75% = \$763.40</p>	
37318	<p>Urethroscopy, with or without cystoscopy, with one or more of biopsy, diathermy, visual laser destruction of urethral calculi or removal of foreign body or calculi (Anaes.)</p> <p>Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80</p>	
37321	<p>URETHRAL MEATOTOMY, EXTERNAL (Anaes.)</p> <p>Fee: \$102.70 Benefit: 75% = \$77.05 85% = \$87.30</p>	
37324	<p>Urethrotomy or urethrostomy, internal or external (Anaes.) (Assist.)</p> <p>Fee: \$253.05 Benefit: 75% = \$189.80</p>	
37327	<p>URETHROTOMY, optical, for urethral stricture (Anaes.) (Assist.)</p> <p>Fee: \$355.75 Benefit: 75% = \$266.85</p>	
37330	<p>URETHRECTOMY, partial or complete, for removal of tumour (Anaes.) (Assist.)</p> <p>Fee: \$715.25 Benefit: 75% = \$536.45</p>	
37333	<p>URETHROVAGINAL FISTULA, closure of (Anaes.) (Assist.)</p> <p>Fee: \$614.35 Benefit: 75% = \$460.80</p>	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37336	URETHRORECTAL FISTULA, closure of (Anaes.) (Assist.) Fee: \$816.15 Benefit: 75% = \$612.15	
37338	Urethral synthetic male sling system, division or removal of, for urethral obstruction, sling erosion, pain or infection, following previous surgery for urinary incontinence, other than a service associated with a service to which item 37340 or 37341 applies (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37339	Periurethral or transurethral injection of urethral bulking agents for the treatment of urinary incontinence, including cystoscopy and urethroscopy, other than a service associated with a service to which item 18375 or 18379 applies (Anaes.) Fee: \$264.05 Benefit: 75% = \$198.05 85% = \$224.45	
37340	Urethral synthetic sling, division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, vaginal approach, other than a service associated with a service to which item 37341 or 37344 applies (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37341	Urethral sling, division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, suprapubic, combined suprapubic and vaginal or combined suprapubic and perineal approach, other than a service associated with a service to which item 37340 or 37344 applies (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37342	URETHROPLASTY single stage operation (Anaes.) (Assist.) Fee: \$917.00 Benefit: 75% = \$687.75	
37343	URETHROPLASTY, single stage operation, transpubic approach via separate incisions above and below the symphysis pubis, excluding laparotomy, symphysectomy and suprapubic cystotomy, with or without re-routing of the urethra around the crura (Anaes.) (Assist.) Fee: \$1,531.20 Benefit: 75% = \$1148.40	
37344	Urethral autologous fascial sling (or other biological sling), division or removal of, for urethral obstruction, sling erosion, pain or infection following previous surgery for urinary incontinence, vaginal approach, other than a service to which 37340 or 37341 applies (Anaes.) (Assist.) Fee: \$1,003.10 Benefit: 75% = \$752.35	
37345	URETHROPLASTY 2 stage operation first stage (Anaes.) (Assist.) Fee: \$761.00 Benefit: 75% = \$570.75	
37348	URETHROPLASTY 2 stage operation second stage (Anaes.) (Assist.) Fee: \$761.00 Benefit: 75% = \$570.75	
37351	URETHROPLASTY, not being a service to which another item in this Group applies (Anaes.) (Assist.) Fee: \$304.45 Benefit: 75% = \$228.35	
37354	HYPOSPADIAS, meatotomy and hemicircumcision (Anaes.) (Assist.) Fee: \$355.75 Benefit: 75% = \$266.85	
37369	URETHRA, excision of prolapse of (Anaes.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$205.40	Benefit: 75% = \$154.05
37372	Urethral diverticulum, excision of (Anaes.) (Assist.)	
	Fee: \$1,017.85	Benefit: 75% = \$763.40
37375	URETHRAL SPHINCTER, reconstruction by bladder tubularisation technique or similar procedure (Anaes.) (Assist.)	
	Fee: \$1,274.50	Benefit: 75% = \$955.90
37381	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, perineal approach (Anaes.) (Assist.)	
	Fee: \$816.15	Benefit: 75% = \$612.15
37384	ARTIFICIAL URINARY SPHINCTER, insertion of cuff, abdominal approach (Anaes.) (Assist.)	
	Fee: \$1,274.50	Benefit: 75% = \$955.90
37387	ARTIFICIAL URINARY SPHINCTER, insertion of pressure regulating balloon and pump (Anaes.) (Assist.)	
	Fee: \$355.75	Benefit: 75% = \$266.85
37388	Artificial urinary sphincter, sterile, percutaneous adjustment of filling volume	
	Fee: \$107.85	Benefit: 75% = \$80.90 85% = \$91.70
37390	ARTIFICIAL URINARY SPHINCTER, revision or removal of, with or without replacement (Anaes.) (Assist.)	
	Fee: \$1,017.85	Benefit: 75% = \$763.40
37393	PRIAPISM, decompression by glanular stab cavernospongiosum shunt or penile aspiration with or without lavage (Anaes.)	
	Fee: \$253.05	Benefit: 75% = \$189.80 85% = \$215.10
37396	PRIAPISM, shunt operation for, not being a service to which item 37393 applies (Anaes.) (Assist.)	
	Fee: \$816.15	Benefit: 75% = \$612.15
37402	PENIS, partial amputation of (Anaes.) (Assist.)	
	Fee: \$513.30	Benefit: 75% = \$385.00
37405	PENIS, complete or radical amputation of (Anaes.) (Assist.)	
	Fee: \$1,017.85	Benefit: 75% = \$763.40
37408	PENIS, repair of laceration of cavernous tissue, or fracture involving cavernous tissue (Anaes.) (Assist.)	
	Fee: \$513.30	Benefit: 75% = \$385.00
37411	PENIS, repair of avulsion (Anaes.) (Assist.)	
	Fee: \$1,017.85	Benefit: 75% = \$763.40 85% = \$919.15
37415	Penis, injection of, for the investigation and treatment of erectile dysfunction. Applicable not more than twice in a 36-month period	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$51.30	Benefit: 75% = \$38.50 85% = \$43.65
37417	Penis, correction of chordee by plication techniques including Nesbit's corporoplasty (Anaes.) (Assist.)	Fee: \$614.35 Benefit: 75% = \$460.80
37418	Penis, correction of chordee with incision or excision of fibrous plaque or plaques, with or without mobilisation of one or both of the neuro-vascular bundle and urethra (Anaes.) (Assist.)	Fee: \$816.15 Benefit: 75% = \$612.15 85% = \$717.45
37423	Penis, lengthening by translocation of corpora, in conjunction with partial penectomy or penile epispadias secondary repair, either as primary or secondary procedures (Anaes.) (Assist.) (See para TN.8.164 of explanatory notes to this Category)	Fee: \$1,017.85 Benefit: 75% = \$763.40
37426	PENIS, artificial erection device, insertion of, into 1 or both corpora (Anaes.) (Assist.)	Fee: \$1,072.70 Benefit: 75% = \$804.55
37429	PENIS, artificial erection device, insertion of pump and pressure regulating reservoir (Anaes.) (Assist.)	Fee: \$355.75 Benefit: 75% = \$266.85
37432	PENIS, artificial erection device, complete or partial revision or removal of components, with or without replacement (Anaes.) (Assist.)	Fee: \$1,017.85 Benefit: 75% = \$763.40
37435	PENIS, frenuloplasty as an independent procedure (Anaes.)	Fee: \$102.70 Benefit: 75% = \$77.05 85% = \$87.30
37438	Scrotum, partial excision of, for histologically proven malignancy or infection (Anaes.) (Assist.)	Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80
	OPERATIONS ON TESTES, VASA OR SEMINAL VESICLES	
37601	SPERMATOCELE OR EPIDIDYMAL CYST, excision of, 1 or more of, on 1 side (Anaes.)	Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80
37604	Exploration of scrotal contents, with or without fixation and with or without biopsy, unilateral or bilateral, other than a service associated with sperm harvesting for IVF (Anaes.)	Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80
37605	Transcutaneous sperm retrieval, unilateral, from either the testis or the epididymis, for the purposes of intracytoplasmic sperm injection, for male factor infertility, excluding a service to which item 13218 applies. (Anaes.) (See para TN.1.5, TN.8.58 of explanatory notes to this Category)	Fee: \$411.05 Benefit: 75% = \$308.30 85% = \$349.40
37606	Open surgical sperm retrieval, unilateral, including the exploration of scrotal contents, with our without biopsy, for the purposes of intracytoplasmic sperm injection, for male factor infertility, performed in a hospital, excluding a service to which item 13218 or 37604 applies. (Anaes.) (See para TN.1.5, TN.8.59 of explanatory notes to this Category)	Fee: \$610.40 Benefit: 75% = \$457.80 85% = \$518.85

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37607	Bilateral retroperitoneal lymph node dissection, for testicular tumour, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.165 of explanatory notes to this Category) Fee: \$1,526.75 Benefit: 75% = \$1145.10	
37610	Bilateral retroperitoneal lymph node dissection, for testicular tumour, following previous similar retroperitoneal dissection, retroperitoneal radiation therapy or chemotherapy, other than a service associated with a service to which item 30390 or 30627 applies (Anaes.) (Assist.) (See para TN.8.165 of explanatory notes to this Category) Fee: \$2,296.90 Benefit: 75% = \$1722.70	
37613	EPIDIDYMECTOMY (Anaes.) Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80	
37616	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, using operating microscope, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.) Fee: \$761.00 Benefit: 75% = \$570.75	
37619	VASOVASOSTOMY or VASOEPIDIDYMOSTOMY, unilateral, not being a service associated with sperm harvesting for IVF (Anaes.) (Assist.) Fee: \$304.45 Benefit: 75% = \$228.35 85% = \$258.80 Extended Medicare Safety Net Cap: \$243.60	
37623	VASOTOMY OR VASECTOMY, unilateral or bilateral <i>NOTE: Strict legal requirements apply in relation to sterilisation procedures on minors. Medicare benefits are not payable for services not rendered in accordance with relevant Commonwealth and State and Territory law. Observe the explanatory note before submitting a claim. (Anaes.)</i> (See para TN.8.46 of explanatory notes to this Category) Fee: \$253.05 Benefit: 75% = \$189.80 85% = \$215.10	
PAEDIATRIC GENITURINARY SURGERY		
37800	PATENT URACHUS, excision of, on a patient 10 years of age or over. (Anaes.) (Assist.) Fee: \$573.80 Benefit: 75% = \$430.35	
37801	PATENT URACHUS, excision of, when performed on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$745.95 Benefit: 75% = \$559.50	
37803	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37806 applies, on a patient 10 years of age or over. (Anaes.) (Assist.) Fee: \$573.80 Benefit: 75% = \$430.35	
37804	UNDESCENDED TESTIS, orchidopexy for, not being a service to which item 37807 applies, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$745.95 Benefit: 75% = \$559.50	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
37806	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$662.95 Benefit: 75% = \$497.25 85% = \$564.25	
37807	UNDESCENDED TESTIS in inguinal canal close to deep inguinal ring or within abdominal cavity, orchidopexy for, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$861.85 Benefit: 75% = \$646.40 85% = \$763.15	
37809	UNDESCENDED TESTIS, revision orchidopexy for, on a patient 10 years of age or over. (Anaes.) (Assist.) Fee: \$662.95 Benefit: 75% = \$497.25	
37810	UNDESCENDED TESTIS, revision orchidopexy for, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$861.85 Benefit: 75% = \$646.40	
37812	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37803, 37806 and 37809 applies, on a patient 10 years of age or over. (Anaes.) (Assist.) Fee: \$611.95 Benefit: 75% = \$459.00	
37813	IMPALPABLE TESTIS, exploration of groin for, not being a service associated with a service to which items 37804, 37807 and 37810 applies, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$795.55 Benefit: 75% = \$596.70	
37815	HYPOSPADIAS, examination under anaesthesia with erection test on a patient 10 years of age or over. (Anaes.) Fee: \$102.10 Benefit: 75% = \$76.60	
37816	HYPOSPADIAS, examination under anaesthesia with erection test, on a patient under 10 years of age (Anaes.) Fee: \$132.75 Benefit: 75% = \$99.60	
37818	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$540.95 Benefit: 75% = \$405.75 85% = \$459.85	
37819	HYPOSPADIAS, glanuloplasty incorporating meatal advancement, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$703.25 Benefit: 75% = \$527.45 85% = \$604.55	
37821	HYPOSPADIAS, distal, 1 stage repair, on a patient 10 years of age or over. (Anaes.) (Assist.) Fee: \$917.00 Benefit: 75% = \$687.75	
37822	HYPOSPADIAS, distal, 1 stage repair, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$1,192.15 Benefit: 75% = \$894.15	
37824	HYPOSPADIAS, proximal, 1 stage repair, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$1,275.00 Benefit: 75% = \$956.25	
37825	HYPOSPADIAS, proximal, 1 stage repair, on a patient under 10 years of age (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		5. UROLOGICAL
	Fee: \$1,657.45 Benefit: 75% = \$1243.10	
37827	HYPOSPADIAS, staged repair, first stage, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$587.35 Benefit: 75% = \$440.55	
37828	HYPOSPADIAS, staged repair, first stage, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$763.55 Benefit: 75% = \$572.70	
37830	HYPOSPADIAS, staged repair, second stage, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$761.00 Benefit: 75% = \$570.75 85% = \$662.30	
37831	HYPOSPADIAS, staged repair, second stage, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$989.40 Benefit: 75% = \$742.05 85% = \$890.70	
37833	Hypospadias, repair of urethral fistula, on a patient 10 years of age or over (Anaes.) (Assist.) Fee: \$363.20 Benefit: 75% = \$272.40	
37834	Hypospadias, repair of urethral fistula, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$472.20 Benefit: 75% = \$354.15	
37836	EPISPADIAS, staged repair, first stage (Anaes.) (Assist.) Fee: \$764.95 Benefit: 75% = \$573.75	
37839	EPISPADIAS, staged repair, second stage (Anaes.) (Assist.) Fee: \$866.85 Benefit: 75% = \$650.15	
37842	Exstrophy of bladder or epispadias, primary or secondary repair with or without bladder neck tightening, with or without ureteric reimplantation (Anaes.) (Assist.) Fee: \$1,683.05 Benefit: 75% = \$1262.30

6. CARDIO-THORACIC

Percutaneous coronary intervention:

- (a) for a patient:
 - (i) eligible for the service under clause 5.10.17C; and
 - (ii) for whom selective coronary angiography has not been completed in the previous 3 months; and
- (b) including selective coronary angiography and all associated imaging, catheter and contrast; and
- (c) including either or both:
 - (i) percutaneous angioplasty; and
 - (ii) transluminal insertion of one or more stents; and
- (d) performed on 3 coronary vascular territories; and
- (e) excluding aftercare;

other than a service associated with a service to which item 38200, 38203, 38206, 38244, 38247, 38248, 38249, 38251, 38252, 38307, 38308, 38310, 38311, 38313, 38316, 38317, 38319, 38320, 38322 or 38323 applies (Anaes.) (Assist.)

(See para TR.8.4, TR.8.5, TR.8.7, TN.8.226, TN.8.218, TN.8.219 of explanatory notes to this Category)

Fee: \$2,538.75 **Benefit:** 75% = \$1904.10 85% = \$2440.05

Note: (acute coronary syndrome - 1 coronary territory without selective angiography) the service only applies if the patient meets the requirements of the descriptor and the requirements of Note: TR.8.2 and TR.8.5

Percutaneous coronary intervention:

- (a) for a patient:
 - (i) eligible for the service under clause 5.10.17A; and
 - (ii) for whom selective coronary angiography has been completed in the previous 3 months; and
- (b) including any associated coronary angiography; and
- (c) including either or both:
 - (i) percutaneous angioplasty; and
 - (ii) transluminal insertion of one or more stents; and

38423	<p>Fibreoptic bronchoscopy with one or more transbronchial lung biopsies, with or without bronchial or broncho-alveolar lavage, with or without the use of interventional imaging (Anaes.) (Assist.)</p> <p>Fee: \$282.85 Benefit: 75% = \$212.15 85% = \$240.45</p>	
Amend 38425	<p>Endoscopic resection of endobronchial tumours for relief of obstruction including any associated endoscopic procedures, other than a service associated with a service to which another item in Group T8 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$665.10 Benefit: 75% = \$498.85</p>	
38428	<p>Bronchoscopy with treatment of tracheal stricture (Anaes.)</p> <p>Fee: \$271.35 Benefit: 75% = \$203.55 85% = \$230.65</p>	
38429	<p>Tracheal excision and repair of, without cardiopulmonary bypass</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,894.20 Benefit: 75% = \$1420.65</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38431	Tracheal excision and repair of, with cardiopulmonary bypass (H) (Anaes.) (Assist.) Fee: \$2,562.10 Benefit: 75% = \$1921.60	
Amend 38815	Thoracoscopy, with or without division of pleural adhesions, with or without biopsy, including insertion of intercostal catheter where necessary, other than a service associated with: (a) a service to which item 18258, 18260 or 38828 applies; or (b) a service to which item 38816 applies that is performed on the same lung (H) (Anaes.) (Assist.) Fee: \$274.85 Benefit: 75% = \$206.15	
Amend 38816	Thoracotomy, exploratory, with or without biopsy, including insertion of an intercostal catheter where necessary, other than a service associated with: (a) a service to which item 18258, 18260 or 38828 applies; or (b) a service to which item 38815 applies that is performed on the same lung (H) (Anaes.) (Assist.) Fee: \$1,054.95 Benefit: 75% = \$791.25	
38817	Thoracotomy, thoracoscopy or sternotomy, by any procedure: (a) including any division of adhesions if the time taken to divide the adhesions exceeds 30 minutes; and (b) other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18258, 18260, 33824, 38815, 38816, 38818, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,658.35 Benefit: 75% = \$1243.80	
38818	Thoracotomy, thoracoscopy or median sternotomy for post operative bleeding, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18258, 18260, 33824, 38815, 38816, 38817, 38828 or 45503 applies (H) (Anaes.) (Assist.) Fee: \$1,054.95 Benefit: 75% = \$791.25	
38820	Lung, wedge resection of, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38820, 38821 or 38828 applies (H) (Anaes.) (Assist.) Fee: \$1,262.75 Benefit: 75% = \$947.10	
38821	Lung, wedge resection of, 2 or more wedges, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38820 or 38828 applies	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(H) (Anaes.) (Assist.) Fee: \$1,894.10 Benefit: 75% = \$1420.60	
38822	Pneumonectomy, lobectomy, bilobectomy or segmentectomy, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38823, 38824 or 38828 applies (H) (Anaes.) (Assist.) Fee: \$1,686.25 Benefit: 75% = \$1264.70	
38823	Radical lobectomy, pneumonectomy, bilobectomy, segmentectomy or formal mediastinal node dissection (greater than 4 nodes), other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38822, 38824 or 38828 applies (H) (Anaes.) (Assist.) Fee: \$2,083.50 Benefit: 75% = \$1562.65	
38824	Segmentectomy, lobectomy, bilobectomy or pneumonectomy, including resection of chest wall, diaphragm, pericardium, and formal mediastinal node dissection (greater than 4 nodes), other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38822, 38823 or 38828 applies (H) (Anaes.) (Assist.) Fee: \$2,604.35 Benefit: 75% = \$1953.30	
38828	Intercostal drain, insertion of: (a) not involving resection of rib; and (b) excluding aftercare; and (c) other than a service associated with a service to which item 38815, 38816, 38829, 38830, 38831, 38832, 38833 or 38834 applies (Anaes.) Fee: \$147.05 Benefit: 75% = \$110.30 85% = \$125.00	
38829	Intercostal drain, insertion of, with pleurodesis: (a) not involving resection of rib; and (b) excluding aftercare; and (c) other than a service associated with a service to which item 38815, 38816, 38828, 38830, 38831, 38832, 38833 or 38834 applies (Anaes.) Fee: \$181.15 Benefit: 75% = \$135.90 85% = \$154.00	
38830	Empyema, radical operation for, involving resection of rib, other than a service associated with a service to which item 38828, 38829, 38831, 38832, 38833 or 38834 applies (H) (Anaes.) (Assist.) Fee: \$439.60 Benefit: 75% = \$329.70	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
38831	<p>Thoracoscopy or thoracotomy and drainage of paraneumonic effusion and empyema, exploratory, with or without biopsy, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38828, 38829, 38830, 38832, 38833 or 38834 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,582.35 Benefit: 75% = \$1186.80</p>	
38832	<p>Thoracotomy or thoracoscopy, with pulmonary decortication, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38828, 38829, 38830, 38831, 38833 or 38834 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,686.25 Benefit: 75% = \$1264.70</p>	
38833	<p>Thoracotomy or thoracoscopy, with pleurectomy or pleurodesis, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38828, 38829, 38830, 38831, 38832 or 38834 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,054.95 Benefit: 75% = \$791.25</p>	
38834	<p>Thoracotomy and radical extra pleural pneumonectomy or radical lung preserving decortication and pleurectomy for malignancy, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38828, 38829, 38830, 38831, 38832 or 38833 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$3,906.65 Benefit: 75% = \$2930.00</p>	
38837	<p>Mediastinum, cervical exploration of, with or without biopsy, other than a service associated with a service to which item 18258, 18260, 38815, 38816 or 38828 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$399.60 Benefit: 75% = \$299.70</p>	
38838	<p>Thoracotomy or thoracoscopy or sternotomy, for removal of thymus or mediastinal tumour, other than a service associated with a service to which item 18258, 18260, 38815, 38816 or 38828 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,302.65 Benefit: 75% = \$977.00</p>	
38839	<p>Pericardium, subxiphoid open surgical drainage of, other than a service associated with a service to which item 18258, 18260, 38815, 38816, 38828 or 38840 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$631.50 Benefit: 75% = \$473.65</p>

(Assist.)</p> <p>(See para AN.33.1, TN.8.135, TN.8.278 of explanatory notes to this Category)</p> <p>Fee: \$1,576.45 Benefit: 75% = \$1182.35</p>
38516	<p>Simple valve repair:</p> <p>(a) with or without annuloplasty; and</p> <p>(b) including quadrangular resection, cleft closure or alfieri; and</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<p>(c) including retrograde cardioplegia (if performed);</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,750.40 Benefit: 75% = \$2062.80</p>	
38517	<p>Complex valve repair:</p> <p>(a) with or without annuloplasty; and</p> <p>(b) including retrograde cardioplegia (if performed); and</p> <p>(c) including one of the following:</p> <ul style="list-style-type: none"> (i) neochords; (ii) chordal transfer; (iii) patch augmentation; (iv) multiple leaflets; <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$3,385.10 Benefit: 75% = \$2538.85</p>	
38519	<p>Valve explant of a previous prosthesis, if performed during open cardiac surgery, not being a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,163.65 Benefit: 75% = \$872.75</p>	
38522	<p>TAVI, for the treatment of symptomatic severe native calcific aortic stenosis, performed via transfemoral delivery, unless transfemoral delivery is contraindicated or not feasible, if:</p> <p>(a) the TAVI Patient is at low risk for surgery; and</p> <p>(b) the service:</p> <ul style="list-style-type: none"> (i) is performed by a TAVI Practitioner in a TAVI Hospital; and (ii) includes all intraoperative diagnostic imaging that the TAVI Practitioner performs upon the TAVI Patient; and (iii) includes valvuloplasty, if required; <p>not being a service which has been rendered within 5 years of a service to which this item or item 38495 or 38514 applies (H) (Anaes.) (Assist.)</p> <p>(See para AN.33.1, TN.8.135, TN.8.278 of explanatory notes to this Category)</p> <p>Fee: \$1,576.45 Benefit: 75% = \$1182.35</p>	
38523	<p>Percutaneous transcatheter delivery of dual-filter cerebral embolic protection system during a TAVI procedure, for the reduction of postoperative embolic ischaemic strokes, if:</p> <p>a. the service is performed upon a TAVI Patient in a TAVI Hospital; and</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<p>b. where the service is performed by the practitioner performing the TAVI procedure, the service includes all intraoperative diagnostic imaging that the TAVI Practitioner performs upon the TAVI Patient</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$286.55 Benefit: 75% = \$214.95</p>	
SURGERY FOR ISCHAEMIC HEART DISEASE		
38502	<p>Coronary artery bypass, including cardiopulmonary bypass, with or without retrograde cardioplegia, with or without vein grafts, and including at least one of the following:</p> <p>(a) harvesting of left internal mammary artery and vein graft material;</p> <p>(b) harvesting of left internal mammary artery;</p> <p>(c) harvesting of vein graft material;</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,593.30 Benefit: 75% = \$1945.00</p>	
38508	<p>Repair or reconstruction of left ventricular aneurysm, including plication, resection and primary and patch repairs, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,111.65 Benefit: 75% = \$1583.75</p>	
38509	<p>Repair of ischaemic ventricular septal rupture,, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,629.20 Benefit: 75% = \$1971.90</p>	
38510	<p>Artery harvesting (other than of the left internal mammary), for coronary artery bypass, if:</p> <p>(a) more than one arterial graft is required; and</p> <p>(b) the service is performed in conjunction with coronary artery bypass surgery performed by any medical practitioner</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$686.80 Benefit: 75% = \$515.10</p>	
38511	<p>Coronary artery bypass, with the aid of tissue stabilisers, if the service is performed:</p> <p>(a) without cardiopulmonary bypass; and</p> <p>(b) in conjunction with a service to which item 38502 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$660.45 Benefit: 75% = \$495.35</p>	
38513	<p>Creation of Y-graft, T-graft and graft-to-graft extensions, with micro-arterial or micro-venous anastomosis using microsurgical techniques, if:</p>	

T8. SURGICAL OPERATIONS

6. CARDIO-THORACIC

	<p>(a) the service is for one or more anastomoses; and</p> <p>(b) the service is performed in conjunction with a service to which item 38502 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,100.75 Benefit: 75% = \$825.60</p>
	<p>ARRHYTHMIA SURGERY</p>
38512	<p>Division of accessory pathway, isolation procedure, procedure on atrioventricular node or perinodal tissues involving one atrial chamber only, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,309.85 Benefit: 75% = \$1732.40</p>
38515	<p>Division of accessory pathway, isolation procedure, procedure on atrioventricular node or perinodal tissues involving both atrial chambers and including curative surgery for atrial fibrillation, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,941.05 Benefit: 75% = \$2205.80</p>
38518	<p>Ventricular arrhythmia with mapping and muscle ablation, with or without aneurysmeotomy, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$3,156.85 Benefit: 75% = \$2367.65</p>
	<p>PROCEDURES ON THORACIC AORTA</p>
38550	<p>Repair or replacement of ascending thoracic aorta:</p> <p>(a) including:</p> <ul style="list-style-type: none"> (i) cardiopulmonary bypass; and (ii) retrograde cardioplegia (if performed); and <p>(b) not including valve replacement or repair or implantation of coronary arteries;</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$2,472.70 Benefit: 75% = \$1854.55</p>
38553	<p>Repair or replacement of ascending thoracic aorta:</p> <p>(a) including:</p> <ul style="list-style-type: none"> (i) aortic valve replacement or repair; and (i) cardiopulmonary bypass; and (ii) retrograde cardioplegia (if performed); and <p>(b) not including implantation of coronary arteries;</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	<p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$3,113.15 Benefit: 75% = \$2334.90</p>	
38554	<p>Valve sparing aortic root surgery, with reimplantation of aortic valve and coronary arteries and replacement of the ascending aorta, including cardiopulmonary bypass, and including retrograde cardioplegia (if performed), other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$4,481.50 Benefit: 75% = \$3361.15</p>	
38555	<p>Simple replacement or repair of aortic arch, performed in conjunction with a service to which item 38550, 38553, 38554, 38556, 38568 or 38571 applies, including:</p> <p>(a) deep hypothermic circulatory arrest; and</p> <p>(b) peripheral cannulation for cardiopulmonary bypass; and</p> <p>(c) antegrade or retrograde cerebral perfusion (if performed);</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38603, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,750.40 Benefit: 75% = \$2062.80</p>	
38556	<p>Repair or replacement of ascending thoracic aorta, including:</p> <p>(a) aortic valve replacement or repair; and</p> <p>(b) implantation of coronary arteries; and</p> <p>(c) cardiopulmonary bypass; and</p> <p>(d) retrograde cardioplegia (if performed);</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38603, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category)</p> <p>Fee: \$3,417.35 Benefit: 75% = \$2563.05</p>	
Amend 38557	<p>Complex replacement or repair of aortic arch, performed in conjunction with a service, performed by any medical practitioner, to which item 38550, 38553, 38554, 38556, 38568 or 38571 applies, including:</p> <p>(a) debranching and reimplantation of head and neck vessels; and</p> <p>(b) deep hypothermic circulatory arrest; and</p> <p>(c) peripheral cannulation for cardiopulmonary bypass; and</p> <p>(d) antegrade or retrograde cerebral perfusion (if performed);</p> <p>other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies</p>	

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(H) (Anaes.) (Assist.) Fee: \$4,760.30 Benefit: 75% = \$3570.25	
38558	Aortic repair involving augmentation of hypoplastic or interrupted aortic arch, if: (a) the patient is a neonate; and (b) the service includes: (i) the use of antegrade cerebral perfusion or deep hypothermic circulatory arrest and associated myocardial preservation; and (ii) retrograde cardioplegia; other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) Fee: \$5,377.75 Benefit: 75% = \$4033.35	
38568	Repair or replacement of descending thoracic aorta, without shunt or cardiopulmonary bypass, by open exposure, percutaneous or endovascular means, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,050.55 Benefit: 75% = \$1537.95	
38571	Repair or replacement of descending thoracic aorta, with shunt or cardiopulmonary bypass, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,337.45 Benefit: 75% = \$1753.10	
38572	Operative management of acute rupture or dissection, if the service: (a) is performed in conjunction with a service to which item 38550, 38553, 38554, 38555, 38556, 38557, 38558, 38568, 38571, 38706 or 38709 applies; and (b) is not associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38603, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,187.25 Benefit: 75% = \$1640.45	
CIRCULATORY SUPPORT PROCEDURES		
38600	CENTRAL CANNULATION for cardiopulmonary bypass excluding post-operative management, not being a service associated with a service to which another item in this Subgroup applies (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,686.25 Benefit: 75% = \$1264.70	
38603	Peripheral cannulation for cardiopulmonary bypass, excluding post-operative management, other than a service:	

T8. SURGICAL OPERATIONS

6. CARDIO-THORACIC

	<p>(a) in which peripheral cannulation is used in preference to central cannulation for valve or coronary bypass procedures; or</p> <p>(b) associated with a service to which item 38555 or 38572 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$1,054.95 Benefit: 75% = \$791.25</p>
38609	<p>Insertion of intra-aortic balloon pump, by arteriotomy, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$527.40 Benefit: 75% = \$395.55</p>
38612	<p>Removal of intra-aortic balloon pump, with closure of artery by direct suture, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 338816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$591.25 Benefit: 75% = \$443.45</p>
38615	<p>Insertion of a left or right ventricular assist device, for use as:</p> <p>(a) a bridge to cardiac transplantation in patients with refractory heart failure who are:</p> <p style="padding-left: 20px;">(i) currently on a heart transplant waiting list, or</p> <p style="padding-left: 20px;">(ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular assist device; or</p> <p>(b) acute post cardiectomy support for failure to wean from cardiopulmonary transplantation; or</p> <p>(c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6 weeks;</p> <p>other than a service associated with a service to which:</p> <p>(d) item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies; or</p> <p>(e) another item in this Schedule applies if the service described in the item is for the use of a ventricular assist device as destination therapy in the management of a patient with heart failure who is not expected to be a suitable candidate for cardiac transplantation</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$1,686.25 Benefit: 75% = \$1264.70</p>
38618	<p>Insertion of a left and right ventricular assist device, for use as:</p> <p>(a) a bridge to cardiac transplantation in patients with refractory heart failure who are:</p> <p style="padding-left: 20px;">(i) currently on a heart transplant waiting list, or</p>

T8. SURGICAL OPERATIONS

6. CARDIO-THORACIC

	<p>(ii) expected to be suitable candidates for cardiac transplantation following a period of support on the ventricular assist device; or</p> <p>(b) acute post cardiectomy support for failure to wean from cardiopulmonary transplantation; or</p> <p>(c) cardio-respiratory support for acute cardiac failure which is likely to recover with short term support of less than 6 weeks;</p> <p>other than a service associated with a service to which:</p> <p>(d) item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies; or</p> <p>(e) another item in this Schedule applies if the service described in the item is for the use of a ventricular assist device as destination therapy in the management of a patient with heart failure who is not expected to be a suitable candidate for cardiac transplantation</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$2,101.85 Benefit: 75% = \$1576.40</p>
38621	<p>Left or right ventricular assist device, removal of, as an independent procedure, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38627, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$839.10 Benefit: 75% = \$629.35</p>
38624	<p>Left and right ventricular assist device, removal of, as an independent procedure, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38627, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$942.90 Benefit: 75% = \$707.20</p>
38627	<p>Extra-corporeal membrane oxygenation, bypass or ventricular assist device cannulae, adjustment and re-positioning of, by open operation, in patients supported by these devices, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38627, 38816, 38828 or 45503 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$737.00 Benefit: 75% = \$552.75</p>
<p>RE-OPERATION</p>	
38637	<p>Patent diseased coronary artery bypass vein graft or grafts, dissection, disconnection and oversewing of, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.67 of explanatory notes to this Category) Fee: \$610.40 Benefit: 75% = \$457.80</p>
<p>MISCELLANEOUS CARDIOTHORACIC SURGICAL PROCEDURES</p>	
38653	<p>Open heart surgery, other than a service:</p> <p>(a) to which another item in this Group applies; or</p>

T8. SURGICAL OPERATIONS		6. CARDIO-THORACIC
	(b) associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,211.40 Benefit: 75% = \$1658.55	
38764	Ventricular myectomy, for relief of right or left ventricular obstruction, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) Fee: \$2,349.50 Benefit: 75% = \$1762.15	
CARDIAC TUMOURS		
38670	Cardiac tumour, excision of, involving the wall of the atrium or inter-atrial septum, without patch or conduit reconstruction, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,101.45 Benefit: 75% = \$1576.10	
38673	Cardiac tumour, excision of, involving the wall of the atrium or inter-atrial septum, requiring reconstruction with patch or conduit, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,365.30 Benefit: 75% = \$1774.00	
38677	Cardiac tumour arising from ventricular myocardium, partial thickness excision of, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$2,212.75 Benefit: 75% = \$1659.60	
38680	Cardiac tumour arising from ventricular myocardium, full thickness excision of including repair or reconstruction, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) Fee: \$2,624.70 Benefit: 75% = \$1968.55	
CONGENITAL CARDIAC SURGERY		
38474	Repair, augmentation or replacement of branch pulmonary arteries—left or right (or both), with cardiopulmonary bypass, for congenital heart disease, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) Fee: \$2,387.65 Benefit: 75% = \$1790.75	
38700	Patent ductus arteriosus, shunt, collateral or other single large vessel, division or ligation of, without cardiopulmonary bypass, for congenital heart disease, other than a service associated with a service to which item 11704, 11705, 11707, 11714, 18260, 33824, 38816, 38828 or 45503 applies (H) (Anaes.) (Assist.) (See para TN.8.67 of explanatory notes to this Category) Fee: \$1,174.85 Benefit: 75% = \$881.15	
38703	Patent ductus arteriosus, shunt, collateral or other single large vessel, division or ligation of, with cardiopulmonary bypass, for congenital heart disease, other than a service associated with a service to

39000	<p>LUMBAR PUNCTURE (Anaes.)</p> <p>Fee: \$82.85 Benefit: 75% = \$62.15 85% = \$70.45</p>	
39007	<p>Procedure to obtain access to intracranial space (including subdural space, ventricle or basal cistern), percutaneously or by burr-hole (Anaes.)</p> <p>Fee: \$175.45 Benefit: 75% = \$131.60 85% = \$149.15</p>	
39013	<p>Injection of one or more zygo-apophyseal or costo-transverse joints with one or more of contrast media, local anaesthetic or corticosteroid under image guidance (Anaes.)</p> <p>(See para TN.7.5, TN.7.6, TN.8.4, TN.8.240 of explanatory notes to this Category)</p> <p>Fee: \$120.10 Benefit: 75% = \$90.10 85% = \$102.10</p>	
39015	<p>Intracranial parenchymal pressure monitoring device, insertion of—including burr hole (excluding after care) (Anaes.)</p>	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	(See para TN.8.166, TN.8.4 of explanatory notes to this Category) Fee: \$413.85 Benefit: 75% = \$310.40	
39018	Cerebrospinal reservoir, ventricular reservoir or external ventricular drain, insertion of, with or without stereotaxy (Anaes.) (Assist.) Fee: \$909.90 Benefit: 75% = \$682.45	
	PAIN RELIEF	
39100	Injection of primary branch of trigeminal nerve (ophthalmic, maxillary or mandibular branches) with alcohol, cortisone, phenol, or similar neurolytic substance, under image guidance (Anaes.) (See para TN.7.6, TN.8.4 of explanatory notes to this Category) Fee: \$261.50 Benefit: 75% = \$196.15 85% = \$222.30	
39109	Trigeminal gangliotomy by radiofrequency, balloon or glycerol, including stereotaxy (Anaes.) (Assist.) Fee: \$1,560.35 Benefit: 75% = \$1170.30 85% = \$1461.65	
39113	Cranial nerve, neurectomy or intracranial decompression of, using microsurgical techniques, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$2,617.55 Benefit: 75% = \$1963.20	
39118	Left cervical percutaneous zygapophyseal joint denervation by radio-frequency probe, or cryoprobe, using radiological imaging control Applicable to one or more services provided in a single attendance, for not more than 3 attendances in a 12 month period (Anaes.) (See para TN.8.4, TN.8.245, PN.0.34 of explanatory notes to this Category) Fee: \$360.60 Benefit: 75% = \$270.45 85% = \$306.55	
39121	PERCUTANEOUS CORDOTOMY (Anaes.) (Assist.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$695.35 Benefit: 75% = \$521.55 85% = \$596.65	
39124	CORDOTOMY OR MYELOTOMY, partial or total laminectomy for, or operation for dorsal root entry zone (Drez) lesion (Anaes.) (Assist.) Fee: \$1,779.60 Benefit: 75% = \$1334.70	
39125	Spinal catheter, insertion or replacement of, and connection to a subcutaneous implanted infusion pump, for the management of chronic pain, including cancer pain (H) (Anaes.) (Assist.) (See para TN.8.244 of explanatory notes to this Category) Fee: \$328.05 Benefit: 75% = \$246.05	
39126	All of the following: (a) infusion pump, subcutaneous implantation or replacement of; (b) connection of the pump to a spinal catheter; (c) filling of reservoir with a therapeutic agent or agents;	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	with or without programming the pump, for the management of chronic pain, including cancer pain (H) (Anaes.) (Assist.) (See para TN.8.244 of explanatory notes to this Category) Fee: \$398.30 Benefit: 75% = \$298.75	
39127	Subcutaneous reservoir and spinal catheter, insertion of, for the management of chronic pain, including cancer pain (H) (Anaes.) (See para TN.8.4, TN.8.244 of explanatory notes to this Category) Fee: \$521.40 Benefit: 75% = \$391.05	
39128	All of the following: (a) infusion pump, subcutaneous implantation of; (b) spinal catheter, insertion of; (c) connection of pump to catheter; (d) filling of reservoir with a therapeutic agent or agents; with or without programming the pump, for the management of chronic pain, including cancer pain (H) (Anaes.) (Assist.) (See para TN.8.244 of explanatory notes to this Category) Fee: \$726.35 Benefit: 75% = \$544.80	
39130	Epidural lead or leads, percutaneous placement of, including intraoperative test stimulation, for the management of chronic neuropathic pain or pain from refractory angina pectoris (H) (Anaes.) (Assist.) (See para TN.8.4, TN.8.244 of explanatory notes to this Category) Fee: \$742.00 Benefit: 75% = \$556.50	
39131	Epidural or peripheral nerve electrodes (management, adjustment, or reprogramming of neurostimulator), with a medical practitioner attending, for the management of chronic neuropathic pain or pain from refractory angina pectoris—each day (See para TN.8.244, TN.8.253 of explanatory notes to this Category) Fee: \$140.70 Benefit: 75% = \$105.55 85% = \$119.60	
39133	Either: (a) subcutaneously implanted infusion pump, removal of; or (b) spinal catheter, removal or repositioning of; for the management of chronic pain, including cancer pain (H) (Anaes.) (See para TN.8.4, TN.8.244 of explanatory notes to this Category) Fee: \$175.45 Benefit: 75% = \$131.60	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
39134	<p>Neurostimulator or receiver, subcutaneous placement of, including placement and connection of extension wires to epidural or peripheral nerve electrodes, for the management of chronic neuropathic pain or pain from refractory angina pectoris (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.244 of explanatory notes to this Category)</p> <p>Fee: \$374.85 Benefit: 75% = \$281.15</p>	
39135	<p>Neurostimulator or receiver that was inserted for the management of chronic neuropathic pain or pain from refractory angina pectoris, open surgical removal of, performed in the operating theatre of a hospital (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.244 of explanatory notes to this Category)</p> <p>Fee: \$175.45 Benefit: 75% = \$131.60</p>	
39136	<p>Epidural or peripheral nerve lead that was implanted for the management of chronic neuropathic pain or pain from refractory angina pectoris, open surgical removal of, performed in the operating theatre of a hospital (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.4, TN.8.244 of explanatory notes to this Category)</p> <p>Fee: \$175.45 Benefit: 75% = \$131.60</p>	
39137	<p>Epidural or peripheral nerve lead that was implanted for the management of chronic neuropathic pain or pain from refractory angina pectoris, open surgical repositioning of, to correct displacement or unsatisfactory positioning, including intraoperative test stimulation, other than a service to which item 39130, 39138 or 39139 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.244 of explanatory notes to this Category)</p> <p>Fee: \$666.35 Benefit: 75% = \$499.80</p>	
39138	<p>Peripheral nerve lead or leads, surgical placement of, including intraoperative test stimulation, for the management of chronic neuropathic pain where the leads are intended to remain in situ long term (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.241 of explanatory notes to this Category)</p> <p>Fee: \$742.00 Benefit: 75% = \$556.50</p>	
39139	<p>Epidural lead, surgical placement of one or more of by partial or total laminectomy, including intraoperative test stimulation, for the management of chronic neuropathic pain or pain from refractory angina pectoris (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.244 of explanatory notes to this Category)</p> <p>Fee: \$996.25 Benefit: 75% = \$747.20</p>	
39140	<p>EPIDURAL CATHETER, insertion of, under imaging control, with epidurogram and epidural therapeutic injection for lysis of adhesions (Anaes.)</p> <p>Fee: \$322.35 Benefit: 75% = \$241.80 85% = \$274.00</p>	
39141	<p>Epidural or peripheral nerve electrodes (management, adjustment, or reprogramming of neurostimulator), with a medical practitioner attending remotely by video conference, for the management of chronic neuropathic pain or pain from refractory angina pectoris—each day</p> <p>(See para TN.8.244, TN.8.253 of explanatory notes to this Category)</p> <p>Fee: \$140.70 Benefit: 75% = \$105.55 85% = \$119.60</p>	
PERIPHERAL NERVES		
39300	<p>Nerve, digital or cutaneous, primary repair of, using microsurgical techniques, other than a service associated with a service to which item 39330 applies—applicable once per nerve (H) (Anaes.) (Assist.)</p>	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$389.00 Benefit: 75% = \$291.75	
	Nerve, digital or cutaneous, delayed repair of, using microsurgical techniques, including either or both of the following (if performed): (a) neurolysis; (b) transposition of nerve to facilitate repair; other than a service associated with a service to which item 30023 applies that is performed at the same site—applicable once per nerve (H) (Anaes.) (Assist.) Amend 39303 (See para TN.8.283 of explanatory notes to this Category) Fee: \$513.05 Benefit: 75% = \$384.80	
39306	Nerve trunk, primary repair of, using microsurgical techniques, other than a service associated with a service to which item 39330 applies (H) (Anaes.) (Assist.) Fee: \$744.95 Benefit: 75% = \$558.75	
39307	Reconstruction of nerve trunk using biological or synthetic nerve conduit, using microsurgical techniques, other than a service associated with a service to which item 39330 applies (Anaes.) (Assist.) Fee: \$907.10 Benefit: 75% = \$680.35 85% = \$808.40	
	Nerve trunk, delayed repair of, using microsurgical techniques, including either or both of the following (if performed): (a) neurolysis; (b) transposition of nerve or nerve transfer to facilitate repair; other than a service associated with: (c) a service to which item 39321 applies; or (d) a service to which item 30023 applies that is performed at the same site (H) (Anaes.) (Assist.) Amend 39309 (See para TN.8.283 of explanatory notes to this Category) Fee: \$786.35 Benefit: 75% = \$589.80	
	Nerve trunk, internal (interfascicular), neurolysis of, using microsurgical techniques, other than a service associated with a service to which item 30023 applies that is performed at the same site (H) (Anaes.) (Assist.) Amend 39312 (See para TN.8.283 of explanatory notes to this Category) Fee: \$438.70 Benefit: 75% = \$329.05	
	Nerve trunk, nerve graft to, by cable graft, using microsurgical techniques, including any of the following (if performed): (a) harvesting of nerve graft; (b) proximal and distal anastomosis of nerve graft; Amend 39315 (c) transposition of nerve to facilitate grafting;	

T8. SURGICAL OPERATIONS	7. NEUROSURGICAL
	<p>(d) neurolysis; other than a service associated with:</p> <p>(e) a service to which item 39330 applies; or</p> <p>(f) a service to which item 30023 applies that is performed at the same site</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.283 of explanatory notes to this Category) Fee: \$1,133.95 Benefit: 75% = \$850.50</p>
39318	<p>Nerve, digital or cutaneous, nerve graft to, using microsurgical techniques, including either or both of the following (if performed):</p> <p>(a) harvesting of nerve graft from separate donor site;</p> <p>(b) proximal and distal anastomosis of nerve graft;</p> <p>other than a service associated with a service to which item 39330 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$703.65 Benefit: 75% = \$527.75</p>
39319	<p>Reconstruction of digital or cutaneous nerve using biological or synthetic nerve conduit, using microsurgical techniques, other than a service associated with a service to which item 39330 applies (Anaes.) (Assist.)</p> <p>Fee: \$513.05 Benefit: 75% = \$384.80 85% = \$436.10</p>
39321	<p>Transposition of nerve, excluding the ulnar nerve at the elbow, other than a service associated with a service to which item 39330 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.189, TN.8.254 of explanatory notes to this Category)</p> <p>Fee: \$521.40 Benefit: 75% = \$391.05</p>
39323	<p>Percutaneous denervation (excluding medial branch nerve) by cryotherapy or radiofrequency probe, other than a service to which another item applies, applicable not more than 6 times for a given nerve in a 12 month period (Anaes.)</p> <p>(See para TN.8.245 of explanatory notes to this Category)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00</p>
39324	<p>Neurectomy or removal of tumour or neuroma from superficial peripheral nerve (Anaes.) (Assist.)</p> <p>(See para TN.8.4, TN.8.254 of explanatory notes to this Category)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00</p>
39327	<p>NEURECTOMY, NEUROTOMY or removal of tumour from deep peripheral or cranial nerve, by open operation, not being a service to which item 41575, 41576, 41578 or 41579 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.4, TN.8.254 of explanatory notes to this Category)</p> <p>Fee: \$521.50 Benefit: 75% = \$391.15</p>
39328	<p>Neurectomy, neurotomy or removal of tumour from deep peripheral nerve, by open operation, for upper limb surgery (H) (Anaes.) (Assist.)</p> <p>Fee: \$521.50 Benefit: 75% = \$391.15</p>

T8. SURGICAL OPERATIONS

7. NEUROSURGICAL

<p>Amend 39329</p>	<p>Extensive neurolysis of radial, median or ulnar nerve trunk nerve in the forearm or arm, other than a service associated with:</p> <p>(a) a service to which item 39303, 39309, 39312, 39315, 39318, 39324 or 39327 applies; or</p> <p>(b) a service to which item 30023 applies that is performed at the same site</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.186, TN.8.283 of explanatory notes to this Category)</p> <p>Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65</p>
<p>Amend 39330</p>	<p>Neurolysis by open operation without transposition, other than a service associated with:</p> <p>(a) a service to which item 39321, 39328, 39329, 39332, 39336, 39339, 39342, 39345, 49774 or 49775 applies; or</p> <p>(b) a service to which item 30023 applies that is performed at the same site</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.200, TN.8.196, TN.8.283, TN.8.254 of explanatory notes to this Category)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50</p>
<p>Amend 39331</p>	<p>Carpal tunnel release, including division of transverse carpal ligament or release of median nerve, by any method, including either or both of the following (if performed):</p> <p>(a) synovectomy;</p> <p>(b) neurolysis;</p> <p>other than a service associated with:</p> <p>(c) a service to which item 46339 applies; or</p> <p>(d) a service to which item 30023 applies that is performed at the same site</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.283 of explanatory notes to this Category)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00</p>
<p>Amend 39332</p>	<p>Revision of carpal tunnel release, including division of transverse carpal ligament or release of median nerve, by any method, including either or both of the following (if performed):</p> <p>(a) synovectomy;</p> <p>(b) neurolysis;</p> <p>other than a service associated with:</p> <p>(c) a service to which item 46339 applies; or</p> <p>(d) a service to which item 30023 applies that is performed at the same site</p> <p>(Anaes.) (Assist.)</p> <p>(See para TN.8.283 of explanatory notes to this Category)</p> <p>Fee: \$457.00 Benefit: 75% = \$342.75 85% = \$388.45</p>

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
Amend 39336	Ulnar nerve decompression at elbow or wrist (cubital tunnel or Guyon's canal) without transposition, by any method, including neurolysis (if performed), other than a service associated with a service to which item 30023 applies that is performed at the same site (Anaes.) (Assist.) (See para TN.8.283 of explanatory notes to this Category) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00	
Amend 39339	Revision of ulnar nerve decompression at elbow (cubital tunnel) without transposition, by any method, including neurolysis (if performed), other than a service associated with a service to which item 30023 applies that is performed at the same site (Anaes.) (Assist.) (See para TN.8.283 of explanatory notes to this Category) Fee: \$457.00 Benefit: 75% = \$342.75 85% = \$388.45	
Amend 39342	Ulnar nerve decompression at elbow (cubital tunnel), including any of the following (if performed): (a) associated transposition; (b) subcutaneous or submuscular transposition of the nerve; (c) medial epicondylectomy; (d) ostetomy and reconstruction of the flexor origin; (e) neurolysis; other than a service associated with a service to which item 30023 applies that is performed at the same site (Anaes.) (Assist.) (See para TN.8.283 of explanatory notes to this Category) Fee: \$599.55 Benefit: 75% = \$449.70 85% = \$509.65	
Amend 39345	Localised decompression of radial, median or ulnar nerve, or branches of, in the forearm for compressive neuropathy, including neurolysis (if performed), other than a service associated with a service to which item 30023 applies that is performed at the same site (Anaes.) (Assist.) (See para TN.8.186, TN.8.283 of explanatory notes to this Category) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00	
CRANIAL NERVES		
39503	Facio-hypoglossal nerve or facio-accessory nerve, anastomosis of (Anaes.) (Assist.) (See para TN.8.166 of explanatory notes to this Category) Fee: \$1,051.20 Benefit: 75% = \$788.40	
CRANIO-CEREBRAL INJURIES		
39604	Any of the following procedures for intracranial haemorrhage or swelling: (a) craniotomy, craniectomy or burr-holes for removal of intracranial haemorrhage, including stereotaxy; (b) craniotomy or craniectomy for brain swelling, stroke, or raised intracranial pressure, including for subtemporal decompression, including stereotaxy; or (c) post-operative re-opening, including for swelling or post-operative cerebrospinal fluid leak. (Anaes.) (Assist.) Fee: \$1,974.15 Benefit: 75% = \$1480.65	
39610	Fractured skull, without brain laceration or dural penetration, repair of (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$1,051.20 Benefit: 75% = \$788.40	
39612	Fractured skull, with brain laceration or dural penetration but without cerebrospinal fluid, rhinorrhoea or otorrhoea, repair of (Anaes.) (Assist.) Fee: \$1,233.35 Benefit: 75% = \$925.05	
39615	Fractured skull, after trauma, with cerebrospinal fluid rhinorrhoea or otorrhoea, repair of, including stereotaxy and dermofat graft (Anaes.) (Assist.) Fee: \$2,104.55 Benefit: 75% = \$1578.45	
SKULL BASE SURGERY		
39638	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, principal surgeon (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$4,685.80 Benefit: 75% = \$3514.35	
39639	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, co-surgeon (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,744.50 Benefit: 75% = \$2808.40	
39641	Anterior or middle cranial fossa or cavernous sinus, tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty - one surgeon (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$4,942.40 Benefit: 75% = \$3706.80	
39651	Petro-clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty - one surgeon (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$6,097.70 Benefit: 75% = \$4573.30	
39654	Petro-clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, principal surgeon (Anaes.) (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$4,685.80 Benefit: 75% = \$3514.35	
39656	Petro clival, clival or foramen magnum tumour or vascular lesion, removal or radical excision of, including stereotaxy and cranioplasty—conjoint surgery, co surgeon (Assist.) (See para TN.8.70 of explanatory notes to this Category) Fee: \$3,744.50 Benefit: 75% = \$2808.40	
INTRA-CRANIAL NEOPLASMS		
39700	Skull tumour, benign or malignant, excision of, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$1,994.80 Benefit: 75% = \$1496.10	
39703	Intracranial tumour, cyst or other brain tissue, either or both of: (a) burr hole and biopsy of; (b) drainage of; including stereotaxy (Anaes.) (Assist.) Fee: \$1,601.80 Benefit: 75% = \$1201.35	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
39710	Intracranial tumour, one or more, biopsy, drainage, decompression or removal of, through a single craniotomy, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$2,667.45 Benefit: 75% = \$2000.60	
39712	Transcranial tumour removal or biopsy of one or more of any of the following: (a) meningioma; (b) pinealoma; (c) cranio pharyngioma; (d) pituitary tumour; (e) intraventricular lesion; (f) brain stem lesion; (g) any other intracranial tumour; by any means (with or without endoscopy), through a single craniotomy, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$4,074.45 Benefit: 75% = \$3055.85	
39715	Pituitary tumour, removal of, by transphenoidal approach, including stereotaxy and dermis, dermofat or fascia grafting, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.) Fee: \$2,973.65 Benefit: 75% = \$2230.25	
39718	Arachnoidal cyst, craniotomy for, including stereotaxy and neuroendoscopy (Anaes.) (Assist.) Fee: \$1,796.25 Benefit: 75% = \$1347.20	
39720	Awake craniotomy for functional neurosurgery (Anaes.) (Assist.) Fee: \$3,811.60 Benefit: 75% = \$2858.70	
CEREBROVASCULAR DISEASE		
39801	Aneurysm, clipping, proximal ligation, or reinforcement of sac, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$6,097.70 Benefit: 75% = \$4573.30	
39803	Intracranial arteriovenous malformation or fistula, treatment through a craniotomy, including stereotaxy, cranioplasty and all angiography (Anaes.) (Assist.) Fee: \$6,097.70 Benefit: 75% = \$4573.30	
39815	CAROTID-CAVERNOUS FISTULA, obliteration of - combined cervical and intracranial procedure (Anaes.) (Assist.) Fee: \$2,011.25 Benefit: 75% = \$1508.45 85% = \$1912.55	
39818	Intracranial vascular bypass using indirect techniques, including stereotaxy (Anaes.) (Assist.) Fee: \$2,669.45 Benefit: 75% = \$2002.10	
39821	Intracranial vascular bypass using direct anastomosis techniques, including stereotaxy (Anaes.) (Assist.) Fee: \$3,803.35 Benefit: 75% = \$2852.55	
40004	Ventricular, lumbar or cisternal shunt diversion, insertion or revision of, including stereotaxy (Anaes.) (Assist.) Fee: \$1,821.05 Benefit: 75% = \$1365.80	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
INFECTION		
39900	Intracranial infection, treated by burr hole, including stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	Fee: \$1,601.80 Benefit: 75% = \$1201.35
39903	Intracranial infection, treated by craniotomy, including stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	Fee: \$2,404.65 Benefit: 75% = \$1803.50
39906	Osteomyelitis of skull or removal of infected bone flap, craniectomy for, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.) (See para TN.8.166 of explanatory notes to this Category)	Fee: \$877.35 Benefit: 75% = \$658.05
CEREBROSPINAL FLUID CIRCULATION DISORDERS		
40012	Endoscopic ventriculostomy for treatment of cerebrospinal fluid circulation disorders, including stereotaxy (Anaes.) (Assist.)	Fee: \$1,883.15 Benefit: 75% = \$1412.40
Amend 40018	Lumbar cerebrospinal fluid drain, insertion of, other than a service associated with a service to which item 22053 applies (Anaes.)	Fee: \$175.45 Benefit: 75% = \$131.60 85% = \$149.15
CONGENITAL DISORDERS		
40104	Spinal myelomeningocele or spinal meningocele, excision and closure of, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.) (See para TN.8.166 of explanatory notes to this Category)	Fee: \$1,117.45 Benefit: 75% = \$838.10
40106	Chiari malformation, decompression or reconstruction of, including laminectomy, dermofat graft and stereotaxy, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	Fee: \$2,652.80 Benefit: 75% = \$1989.60
40109	Encephalocele or cranial meningocele, excision and closure of, including stereotaxy and dermofat graft (Anaes.) (Assist.)	Fee: \$2,059.00 Benefit: 75% = \$1544.25
40112	Tethered cord, release of, including lipomeningocele or diastematomyelia, multiple levels, including laminectomy and rhizolysis, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	Fee: \$2,630.20 Benefit: 75% = \$1972.65
40119	Craniostenosis, operation for, other than a service associated with a service to which item 40600 applies (Anaes.) (Assist.)	Fee: \$1,051.20 Benefit: 75% = \$788.40
SKULL RECONSTRUCTION		

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
40600	Cranioplasty, reconstructive, other than a service associated with a service to which item 39113, 39638, 39639, 39641, 39651, 39654, 39656, 39700, 39710, 39712, 39715, 39801, 39803, 40703 or 41887 applies (H) (Anaes.) (Assist.) Fee: \$1,051.20 Benefit: 75% = \$788.40	
EPILEPSY		
40700	Corpus callosotomy, for epilepsy, including stereotaxy (Anaes.) (Assist.) Fee: \$2,578.45 Benefit: 75% = \$1933.85	
40701	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, subcutaneous placement of electrical pulse generator, for: (a) management of refractory generalised epilepsy; or (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.) Fee: \$374.85 Benefit: 75% = \$281.15	
40702	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of electrical pulse generator inserted for: (a) management of refractory generalised epilepsy; or (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.) Fee: \$175.45 Benefit: 75% = \$131.60	
40703	Corticectomy, topectomy or partial lobectomy, for epilepsy, including stereotaxy and cranioplasty (Anaes.) (Assist.) Fee: \$2,667.45 Benefit: 75% = \$2000.60	
40704	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical placement of lead, including connection of lead to left vagus nerve and intra-operative test stimulation, for: (a) management of refractory generalised epilepsy; or (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.) Fee: \$742.00 Benefit: 75% = \$556.50	
40705	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical repositioning or removal of lead attached to left vagus nerve for: (a) management of refractory generalised epilepsy; or (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.) Fee: \$666.35 Benefit: 75% = \$499.80	
40706	Hemispherectomy or functional hemispherectomy, for intractable epilepsy, including stereotaxy (Anaes.) (Assist.) Fee: \$3,811.65 Benefit: 75% = \$2858.75	
40707	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, electrical analysis and programming of vagus nerve stimulation therapy device using external wand, for:	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	(a) management of refractory generalised epilepsy; or (b) treatment of refractory focal epilepsy not suitable for resective epilepsy surgery Fee: \$208.80 Benefit: 75% = \$156.60 85% = \$177.50	
40708	Vagus nerve stimulation therapy through stimulation of the left vagus nerve, surgical replacement of battery in electrical pulse generator inserted for: (a) management of refractory generalised epilepsy; or (b) treating refractory focal epilepsy not suitable for resective epilepsy surgery (Anaes.) (Assist.) Fee: \$374.85 Benefit: 75% = \$281.15	
40709	Intracranial electrode placement by burr hole, including stereotaxy (Anaes.) (Assist.) Fee: \$1,601.80 Benefit: 75% = \$1201.35	
40712	Intracranial electrode placement by craniotomy, single or multiple, including stereotactic EEG, including stereotaxy (Anaes.) (Assist.) Fee: \$3,811.65 Benefit: 75% = \$2858.75	
STEREOTACTIC PROCEDURES		
40801	Functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation, and lesion production, by any method, in the basal ganglia, brain stem or deep white matter tracts, other than a service associated with deep brain stimulation for Parkinson's disease, essential tremor or dystonia (Anaes.) (Assist.) Fee: \$1,921.60 Benefit: 75% = \$1441.20	
40803	Intracranial stereotactic procedure by any method, other than: (a) a service to which item 40801 applies; or (b) a service associated with a service to which item 39018, 39109, 39113, 39604, 39615, 39638, 39639, 39641, 39651, 39654, 39656, 39700, 39703, 39710, 39712, 39715, 39718, 39720, 39801, 39803, 39818, 39821, 39900, 39903, 40004, 40012, 40106, 40109, 40700, 40703, 40706, 40709 or 40712 applies (Anaes.) (Assist.) (See para TN.8.166 of explanatory notes to this Category) Fee: \$1,316.10 Benefit: 75% = \$987.10 85% = \$1217.40	
New 40804	Magnetic resonance imaging—scan of head (including magnetic resonance angiography if performed) by a radiologist on request by a specialist or consultant physician, for the sole purpose of guiding focused ultrasound for the treatment of medically refractory essential tremor in association with the services described in items 40805 and 40806, including: (a) stereotactic scan of brain, with frame in place; and (b) assistance with computerised planning; and (c) interpretation of intraprocedural imaging Applicable once per patient per lifetime (H) (Anaes.)	

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
	Fee: \$1,035.55 Benefit: 75% = \$776.70	
New 40805	<p>Neurological assessment and evaluation during the treatment of medically refractory essential tremor with magnetic resonance imaging-guided focused ultrasound, performed by a neurologist in association with the services described in items 40804 and 40806, including:</p> <p>(a) assistance with target localisation incorporating anatomical and physiological techniques; and</p> <p>(b) continuous intraprocedural neurological assessment and evaluation</p> <p>Applicable once per patient per lifetime (H) (Anaes.)</p> <p>Fee: \$2,139.70 Benefit: 75% = \$1604.80</p>	
New 40806	<p>Treatment of medically refractory essential tremor with magnetic resonance imaging-guided focused ultrasound, performed by a neurosurgeon in association with the services described in items 40804 and 40805, including:</p> <p>(a) computer assisted anatomical localisation; and</p> <p>(b) frame placement; and</p> <p>(c) target verification using anatomical and physiological techniques; and</p> <p>(d) delivery of treatment with lesion production in the basal ganglia, brain stem, thalamus or deep white matter tracts</p> <p>Applicable once per patient per lifetime (H) (Anaes.)</p> <p>Fee: \$3,295.85 Benefit: 75% = \$2471.90</p>	
40850	<p>DEEP BRAIN STIMULATION (unilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability (Anaes.) (Assist.)</p> <p>Fee: \$2,492.50 Benefit: 75% = \$1869.40</p>	
40851	<p>DEEP BRAIN STIMULATION (bilateral) functional stereotactic procedure including computer assisted anatomical localisation, physiological localisation including twist drill, burr hole craniotomy or craniectomy and insertion of electrodes for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.)</p> <p>Fee: \$4,362.15 Benefit: 75% = \$3271.65</p>	

T8. SURGICAL OPERATIONS	7. NEUROSURGICAL
40852	<p>DEEP BRAIN STIMULATION (unilateral) subcutaneous placement of neurostimulator receiver or pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.) (Assist.)</p> <p>Fee: \$374.85 Benefit: 75% = \$281.15</p>
40854	<p>DEEP BRAIN STIMULATION (unilateral) revision or removal of brain electrode for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$579.40 Benefit: 75% = \$434.55</p>
40856	<p>DEEP BRAIN STIMULATION (unilateral) removal or replacement of neurostimulator receiver or pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$281.15 Benefit: 75% = \$210.90</p>
40858	<p>DEEP BRAIN STIMULATION (unilateral) placement, removal or replacement of extension lead for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$579.40 Benefit: 75% = \$434.55</p>
40860	<p>DEEP BRAIN STIMULATION (unilateral) target localisation incorporating anatomical and physiological techniques, including intra-operative clinical evaluation, for the insertion of a single neurostimulation wire for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$2,226.40 Benefit: 75% = \$1669.80</p>

T8. SURGICAL OPERATIONS		7. NEUROSURGICAL
40862	<p>DEEP BRAIN STIMULATION (unilateral) electronic analysis and programming of neurostimulator pulse generator for the treatment of:</p> <p>Parkinson's disease where the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>Essential tremor or dystonia where the patient's symptoms cause severe disability. (Anaes.)</p> <p>Fee: \$208.80 Benefit: 75% = \$156.60 85% = \$177.50</p>	
40863	<p>Deep brain stimulation (unilateral), remote electronic analysis and programming of neurostimulator pulse generator for the treatment of:</p> <p>(a) Parkinson's disease, if the patient's response to medical therapy is not sustained and is accompanied by unacceptable motor fluctuations; or</p> <p>(b) essential tremor or dystonia, if the patient's symptoms cause severe disability</p> <p>Applicable not more than 8 times in any 12 month period</p> <p>Fee: \$208.80 Benefit: 75% = \$156.60 85% = \$177.50</p>	
MISCELLANEOUS		
40905	<p>Craniotomy, performed by a neurosurgeon in conjunction with the correction of craniofacial abnormalities (Anaes.) (Assist.)</p> <p>Fee: \$662.30 Benefit: 75% = \$496.75</p>	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	Group T8. Surgical Operations	
	Subgroup 8. Ear, Nose And Throat	
41500	<p>EAR, foreign body (other than ventilating tube) in, removal of, other than by simple syringing (Anaes.)</p> <p>(See para TN.8.72 of explanatory notes to this Category)</p> <p>Fee: \$90.75 Benefit: 75% = \$68.10 85% = \$77.15</p>	
41501	<p>Examination of glottal cycles and vibratory characteristics of the vocal folds by a specialist in the practice of the specialist's specialty of otolaryngology using videostroboscopy, including capturing audio, video, frequency and intensity, for confirmation of diagnosis, or for confirmation of treatment effectiveness where there is failure to progress or respond as expected, for:</p> <ul style="list-style-type: none"> a. dysphonia where non stroboscopic techniques of the visualising the larynx have failed to identify any frank abnormality of the vocal folds; or b. benign or malignant vocal fold lesions; or c. premalignant or malignant laryngeal lesions; or d. vocal fold motion impairment or glottal insufficiency; or e. evaluation of vocal fold function after treatment or phonosurgery <p>other than a service associated with a service to which item 41764 applies or with a services associated with the administration of a general anaesthetic</p> <p>(See para TN.8.76 of explanatory notes to this Category)</p> <p>Fee: \$204.25 Benefit: 75% = \$153.20 85% = \$173.65</p>	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	Ear, foreign body in (other than ventilating tube), removal of, involving incision of external auditory canal, other than a service associated with a service to which another item in this Subgroup applies (Anaes.)	
41503	Fee: \$262.85	Benefit: 75% = \$197.15 85% = \$223.45
	AURAL POLYP, removal of (Anaes.)	
41506	Fee: \$158.55	Benefit: 75% = \$118.95 85% = \$134.80
	External auditory meatus, surgical removal of keratosis obturans from, performed under general anaesthesia, other than: (a) a service to which another item in this Subgroup applies; or (b) a service associated with a service to which item 41647 applies (H) (Anaes.)	
41509	Fee: \$179.35	Benefit: 75% = \$134.55
	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, not being a service to which item 41515 applies (Anaes.) (Assist.)	
41512	Fee: \$644.90	Benefit: 75% = \$483.70
	MEATOPLASTY involving removal of cartilage or bone or both cartilage and bone, being a service associated with a service to which item 41530, 41548, 41557, 41560 or 41563 applies (Anaes.) (Assist.) (See para TN.8.73 of explanatory notes to this Category)	
41515	Fee: \$423.25	Benefit: 75% = \$317.45
	EXTERNAL AUDITORY MEATUS, removal of EXOSTOSES IN (Anaes.) (Assist.)	
41518	Fee: \$1,022.25	Benefit: 75% = \$766.70
	Correction of auditory canal stenosis, including meatoplasty, with or without grafting, other than a service associated with a service to which an item in Subgroup 18 applies (H) (Anaes.) (Assist.)	
41521	Fee: \$1,088.40	Benefit: 75% = \$816.30
	Reconstruction of external auditory canal (H) (Anaes.) (Assist.) (See para TN.8.74 of explanatory notes to this Category)	
41524	Fee: \$314.40	Benefit: 75% = \$235.80
	Ossicular chain reconstruction, other than a service associated with a service to which item 41611 applies (H) (Anaes.) (Assist.)	
41539	Fee: \$1,199.65	Benefit: 75% = \$899.75
	Ossicular chain reconstruction and myringoplasty, other than a service associated with a service to which item 41611 applies (H) (Anaes.) (Assist.)	
41542	Fee: \$1,314.55	Benefit: 75% = \$985.95
	OBLITERATION OF THE MASTOID CAVITY (Anaes.) (Assist.)	
41548	Fee: \$761.35	Benefit: 75% = \$571.05
	Decompression of facial nerve in its mastoid portion, other than a service associated with a service to which item 41617 applies (H) (Anaes.) (Assist.)	
41569	Fee: \$1,314.55	Benefit: 75% = \$985.95

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41572	LABYRINTHOTOMY OR DESTRUCTION OF LABYRINTH (Anaes.) (Assist.) Fee: \$1,137.25 Benefit: 75% = \$852.95	
41575	CEREBELLO PONTINE ANGLE TUMOUR, removal of by 2 surgeons operating conjointly, by transmastoid, translabyrinthine or retromastoid approach transmastoid, translabyrinthine or retromastoid procedure (including aftercare) (Anaes.) (Assist.) Fee: \$2,680.95 Benefit: 75% = \$2010.75	
41576	CEREBELLO - PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach - intracranial procedure (including aftercare) not being a service to which item 41578 or 41579 applies (Anaes.) (Assist.) Fee: \$4,021.55 Benefit: 75% = \$3016.20	
41578	CEREBELLO PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, principal surgeon (Anaes.) (Assist.) Fee: \$2,680.95 Benefit: 75% = \$2010.75	
41579	CEREBELLO-PONTINE ANGLE TUMOUR, removal of, by transmastoid, translabyrinthine or retromastoid approach, (intracranial procedure) - conjoint surgery, co-surgeon (Assist.) Fee: \$2,010.70 Benefit: 75% = \$1508.05	
41581	TUMOUR INVOLVING INFRA-TEMPORAL FOSSA, removal of, involving craniotomy and radical excision of (Anaes.) (Assist.) Fee: \$3,083.65 Benefit: 75% = \$2312.75	
41584	PARTIAL TEMPORAL BONE RESECTION for removal of tumour involving mastoidectomy with or without decompression of facial nerve (Anaes.) (Assist.) Fee: \$2,116.25 Benefit: 75% = \$1587.20	
41587	TOTAL TEMPORAL BONE RESECTION for removal of tumour (Anaes.) (Assist.) Fee: \$2,882.30 Benefit: 75% = \$2161.75	
41590	ENDOLYMPHATIC SAC, TRANSMASTOID DECOMPRESSION with or without drainage of (Anaes.) (Assist.) Fee: \$1,314.55 Benefit: 75% = \$985.95	
41593	TRANSLABYRINTHINE VESTIBULAR NERVE SECTION (Anaes.) (Assist.) Fee: \$1,713.20 Benefit: 75% = \$1284.90	
41596	RETROLABYRINTHINE VESTIBULAR NERVE SECTION or COCHLEAR NERVE SECTION, or BOTH (Anaes.) (Assist.) Fee: \$1,914.70 Benefit: 75% = \$1436.05	
41599	INTERNAL AUDITORY MEATUS, exploration by middle cranial fossa approach with cranial nerve decompression (Anaes.) (Assist.) Fee: \$1,914.70 Benefit: 75% = \$1436.05	
41603	Osseo-integration procedure-implantation of bone conduction hearing system device, in a patient: (a) With a permanent or long-term hearing loss; and	

	T8. SURGICAL OPERATIONS	8. EAR, NOSE AND THROAT
	<p>(b) Unable to utilise conventional air or bone conduction hearing aid for medical or audiological reasons; and</p> <p>(c) With bone conduction thresholds that accord with recognised criteria for the implantable bone conduction hearing device being inserted.</p> <p>other than a service associated with a service to which item 41554, 45794 or 45797 applies (Anaes.)</p> <p>Fee: \$657.30 Benefit: 75% = \$493.00 85% = \$558.75</p>	
41608	<p>STAPEDECTOMY (Anaes.) (Assist.)</p> <p>Fee: \$1,199.65 Benefit: 75% = \$899.75</p>	
41611	<p>Stapes mobilisation, other than a service associated with a service to which item 41539, 41542, or an item in Subgroup 18, applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$771.95 Benefit: 75% = \$579.00</p>	
41614	<p>Round window surgery including repair of cochleotomy, other than a service associated with a service to which item 41617 applies (Anaes.) (Assist.)</p> <p>Fee: \$1,199.65 Benefit: 75% = \$899.75 85% = \$1100.95</p>	
41615	<p>OVAL WINDOW SURGERY, including repair of fistula, not being a service associated with a service to which any other item in this Group applies (Anaes.) (Assist.)</p> <p>Fee: \$1,199.65 Benefit: 75% = \$899.75 85% = \$1100.95</p>	
41617	<p>Cochlear implant, insertion of, including mastoidectomy, cochleotomy and exposure of facial nerve where required, other than a service associated with a service to which item 41569 or 41614 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,086.10 Benefit: 75% = \$1564.60</p>	
41618	<p>Middle ear implant, partially implantable, insertion of, via mastoidectomy, for patients with:</p> <p>(a) stable sensorineural hearing loss; and</p> <p>(b) outer ear pathology that prevents the use of a conventional hearing aid; and</p> <p>(c) a PTA4 of less than 80 dBHL; and</p> <p>(d) bilateral, symmetrical hearing loss with PTA thresholds in both ears within 20 dBHL (0.5-4kHz) of each other; and</p> <p>(e) speech perception discrimination of at least 65% correct for word lists with appropriately amplified sound; and</p> <p>(f) a normal middle ear; and</p> <p>(g) normal tympanometry; and</p> <p>(h) on audiometry, an air-bone gap of less than 10 dBHL (0.5-4kHz) across all frequencies; and</p> <p>(i) no other inner ear disorders</p> <p>(Anaes.) (Assist.)</p> <p>Fee: \$2,066.00 Benefit: 75% = \$1549.50</p>	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41620	GLOMUS TUMOUR, transtympanic removal of (Anaes.) (Assist.) Fee: \$907.60 Benefit: 75% = \$680.70	
41623	GLOMUS TUMOUR, transmastoid removal of, including mastoidectomy (Anaes.) (Assist.) Fee: \$1,314.55 Benefit: 75% = \$985.95	
41626	Incision of tympanic membrane, or installation of therapeutic agent, to the middle ear through an intact drum: (a) not including local anaesthetic; and (b) excluding aftercare; and (c) other than a service associated with a service to which item 41632 applies (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$158.55 Benefit: 75% = \$118.95 85% = \$134.80	
41632	Middle ear, insertion of tube for drainage of (including myringotomy), other than a service associated with a service to which item 41626 applies (Anaes.) Fee: \$262.85 Benefit: 75% = \$197.15 85% = \$223.45	
41641	PERFORATION OF TYMPANUM, cauterisation or diathermy of (Anaes.) Fee: \$52.20 Benefit: 75% = \$39.15 85% = \$44.40	
41644	EXCISION OF RIM OF EARDRUM PERFORATION, not being a service associated with myringoplasty (Anaes.) Fee: \$157.30 Benefit: 75% = \$118.00 85% = \$133.75	
41647	Micro inspection of tympanic membrane and auditory canal, requiring use of operating microscope or endoscope, including any removal of wax, with or without general anaesthesia, other than a service associated with a service to which item 41509 applies. Not applicable for the removal of uncomplicated wax in the absence of other disorders of the ear (Anaes.) (See para TN.8.255 of explanatory notes to this Category) Fee: \$120.95 Benefit: 75% = \$90.75 85% = \$102.85	
41650	TYMPANIC MEMBRANE, microinspection of 1 or both ears under general anaesthesia, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$120.95 Benefit: 75% = \$90.75 85% = \$102.85	
41656	NASAL HAEMORRHAGE, POSTERIOR, ARREST OF, with posterior nasal packing with or without cauterisation and with or without anterior pack (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90	
41659	NOSE, removal of FOREIGN BODY IN, other than by simple probing (Anaes.) Fee: \$85.35 Benefit: 75% = \$64.05 85% = \$72.55	
41662	Nasal polyp or polypi (simple), removal of, other than a service associated with a service to which item 41702, 41703 or 41705 applies on the same side (See para TN.8.75 of explanatory notes to this Category) Fee: \$90.75 Benefit: 75% = \$68.10 85% = \$77.15	

T8. SURGICAL OPERATIONS	8. EAR, NOSE AND THROAT
41668	<p>Nasal polyp or polypi, removal of (Anaes.)</p> <p>(See para TN.8.75 of explanatory notes to this Category)</p> <p>Fee: \$242.05 Benefit: 75% = \$181.55 85% = \$205.75</p>
41674	<p>Cauterisation (other than by chemical means) or cauterisation by chemical means when performed under general anaesthesia or diathermy of septum or turbinates—one or more of these procedures (including any consultation on the same occasion) other than a service associated with another operation on the nose (Anaes.)</p> <p>Fee: \$110.60 Benefit: 75% = \$82.95 85% = \$94.05</p>
41677	<p>NASAL HAEMORRHAGE, arrest of during an episode of epistaxis by cauterisation or nasal cavity packing or both (Anaes.)</p> <p>Fee: \$99.10 Benefit: 75% = \$74.35 85% = \$84.25</p>
41683	<p>DIVISION OF NASAL ADHESIONS, with or without stenting not being a service associated with any other operation on the nose and not performed during the postoperative period of a nasal operation (Anaes.)</p> <p>Fee: \$129.05 Benefit: 75% = \$96.80 85% = \$109.70</p>
41686	<p>DISLOCATION OF TURBINATE OR TURBINATES, 1 or both sides, not being a service associated with a service to which another item in this Group applies (Anaes.)</p> <p>Fee: \$79.20 Benefit: 75% = \$59.40 85% = \$67.35</p>
41698	<p>Maxillary antrum, proof puncture and lavage of, other than a service associated with a service to which item 41702, 41703, 41705, 41710, 41734 or 41737 applies on the same side (Anaes.)</p> <p>Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50</p>
41701	<p>MAXILLARY ANTRUM, proof puncture and lavage of, under general anaesthesia (requiring admission to hospital) not being a service associated with a service to which another item in this Group applies (Anaes.)</p> <p>Fee: \$101.15 Benefit: 75% = \$75.90</p>
41704	<p>MAXILLARY ANTRUM, LAVAGE OF each attendance at which the procedure is performed, including any associated consultation (Anaes.)</p> <p>Fee: \$40.00 Benefit: 75% = \$30.00 85% = \$34.00</p>
41707	<p>Maxillary or sphenopalatine artery, ligation of (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.256 of explanatory notes to this Category)</p> <p>Fee: \$493.70 Benefit: 75% = \$370.30</p>
41713	<p>Vidian neurectomy or exposure of vidian canal (H) (Anaes.) (Assist.)</p> <p>Fee: \$667.60 Benefit: 75% = \$500.70</p>
41719	<p>Antrum, drainage of, through tooth socket, other than a service associated with a service to which item 41722 applies (Anaes.)</p> <p>Fee: \$129.40 Benefit: 75% = \$97.05 85% = \$110.00</p>
41722	<p>Oroantral fistula, plastic closure of, other than a service associated with a service to which item 41719 or 45009 applies (Anaes.) (Assist.)</p> <p>Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75</p>

T8. SURGICAL OPERATIONS	8. EAR, NOSE AND THROAT
41725	Ligation of ethmoidal artery or arteries, anterior, posterior or both, by any approach (unilateral) (H) (Anaes.) (Assist.) (See para TN.8.256 of explanatory notes to this Category) Fee: \$493.70 Benefit: 75% = \$370.30
41728	Removal of sinonasal or nasopharyngeal tumour, excluding inflammatory nasal polyps, by any approach (H) (Anaes.) (Assist.) Fee: \$987.65 Benefit: 75% = \$740.75
41740	Frontal sinus, catheterisation of, other than a service associated with a service to which item 41749 applies on the same side (H) (Anaes.) Fee: \$64.75 Benefit: 75% = \$48.60
41743	Frontal sinus, trephine of, other than a service associated with a service to which item 41749 applies on the same side (H) (Anaes.) (Assist.) Fee: \$371.45 Benefit: 75% = \$278.60
41746	Paranasal sinus, radical obliteration of, including any graft harvest (Anaes.) (Assist.) Fee: \$855.40 Benefit: 75% = \$641.55 85% = \$756.70
41749	Paranasal sinus, external operation on, unilateral, other than a service associated with a service to which item 41740 or 41743 applies on the same side (H) (Anaes.) (Assist.) Fee: \$667.60 Benefit: 75% = \$500.70
41755	EUSTACHIAN TUBE, catheterisation of (Anaes.) Fee: \$51.15 Benefit: 75% = \$38.40 85% = \$43.50
41764	Nasendoscopy or sinoscopy or fiberoptic examination of nasopharynx and larynx, one or more of these procedures, unilateral or bilateral examination, other than a service associated with a service to which item 41693, 41702, 41703, 41705, 41734 or 41737 applies (Anaes.) (See para TN.8.257 of explanatory notes to this Category) Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90
41770	PHARYNGEAL POUCH, removal of, with or without cricopharyngeal myotomy (Anaes.) (Assist.) Fee: \$771.95 Benefit: 75% = \$579.00
41776	Cricopharyngeal myotomy by any approach, including open inversion of pharyngeal pouch or endoscopic repair of pharyngeal pouch (H) (Anaes.) (Assist.) Fee: \$645.80 Benefit: 75% = \$484.35
41779	PHARYNGOTOMY (lateral), with or without total excision of tongue (Anaes.) (Assist.) Fee: \$771.95 Benefit: 75% = \$579.00
41785	Partial pharyngectomy, by any approach, with or without partial glossectomy (H) (Anaes.) (Assist.) Fee: \$1,255.25 Benefit: 75% = \$941.45
41786	UVULOPALATOPHARYNGOPLASTY, with or without tonsillectomy, by any means (Anaes.) (Assist.) Fee: \$811.25 Benefit: 75% = \$608.45

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41789	Tonsils or tonsils and adenoids, removal of, in a patient aged less than 12 years (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies (Anaes.) Fee: \$325.45 Benefit: 75% = \$244.10	
41793	Tonsils or tonsils and adenoids, removal of, in a patient 12 years of age or over (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies (Anaes.) Fee: \$408.95 Benefit: 75% = \$306.75	
41797	TONSILS OR TONSILS AND ADENOIDS, ARREST OF HAEMORRHAGE requiring general anaesthesia, following removal of (Anaes.) Fee: \$158.55 Benefit: 75% = \$118.95	
41801	Adenoids, removal of (including any examination of the postnasal space and nasopharynx and the infiltration of local anaesthetic), not being a service to which item 41764 applies (Anaes.) Fee: \$179.35 Benefit: 75% = \$134.55	
41804	Removal of lingual tonsil (H) (Anaes.) Fee: \$99.10 Benefit: 75% = \$74.35	
41807	PERITONSILLAR ABSCESS (quinsy), incision of (Anaes.) Fee: \$77.10 Benefit: 75% = \$57.85 85% = \$65.55	
41810	UVULOTOMY or UVULECTOMY (Anaes.) Fee: \$39.20 Benefit: 75% = \$29.40 85% = \$33.35	
41813	VALLECULAR OR PHARYNGEAL CYSTS, removal of (Anaes.) (Assist.) Fee: \$392.25 Benefit: 75% = \$294.20	
41822	Oesophagoscopy, with rigid oesophagoscope, with or without biopsy, other than a service associated with a service to which item 30473 or 30478 applies (H) (Anaes.) Fee: \$211.55 Benefit: 75% = \$158.70	
41825	Removal of a foreign body from the pharynx, larynx or oesophagus, by any means, other than a service associated with a service to which item 30478 applies (H) (Anaes.) (Assist.) Fee: \$392.25 Benefit: 75% = \$294.20	
41828	OESOPHAGEAL STRICTURE, dilatation of, without oesophagoscopy (Anaes.) Fee: \$57.50 Benefit: 75% = \$43.15 85% = \$48.90	
41831	Oesophagus, endoscopic pneumatic dilatation of, for treatment of achalasia (Anaes.) (Assist.) Fee: \$392.95 Benefit: 75% = \$294.75 85% = \$334.05	
41832	OESOPHAGUS, balloon dilatation of, using interventional imaging techniques (Anaes.) Fee: \$251.50 Benefit: 75% = \$188.65 85% = \$213.80	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
41834	Total laryngectomy, including cricopharyngeal myotomy and tracheo oesophageal puncture (H) (Anaes.) (Assist.) Fee: \$1,741.45 Benefit: 75% = \$1306.10	
41837	Complete vertical hemi laryngectomy, involving removal of true and false vocal cords, including tracheostomy. Applicable only once per provider per patient per lifetime (H) (Anaes.) (Assist.) (See para TN.8.258 of explanatory notes to this Category) Fee: \$1,360.55 Benefit: 75% = \$1020.45	
41840	Total supraglottic laryngectomy, involving removal of ventricular folds, epiglottis and aryepiglottic folds including tracheostomy. Applicable only once per provider per patient per lifetime (H) (Anaes.) (Assist.) (See para TN.8.258 of explanatory notes to this Category) Fee: \$1,672.80 Benefit: 75% = \$1254.60	
41843	LARYNGOPHARYNGECTOMY or PRIMARY RESTORATION OF ALIMENTARY CONTINUITY after laryngopharyngectomy USING STOMACH OR BOWEL (Anaes.) (Assist.) Fee: \$1,471.00 Benefit: 75% = \$1103.25	
41855	Micro-laryngoscopy, by any approach, with or without biopsy (H) (Anaes.) (Assist.) Fee: \$317.20 Benefit: 75% = \$237.90	
41861	Micro-laryngoscopy with complete removal of benign or malignant lesions of the larynx, including papillomata, by any approach or technique, unilateral, other than a service associated with a service to which item 41870 applies on the same side (H) (Anaes.) (Assist.) Fee: \$665.10 Benefit: 75% = \$498.85	
41867	Micro-laryngoscopy, with partial or complete arytenoidectomy or arytenoid repositioning (H) (Anaes.) (Assist.) Fee: \$675.15 Benefit: 75% = \$506.40	
41870	Laryngeal augmentation or modification by injection techniques, other than a service associated with a service to which item 41879 applies or item 41861 applies on the same side (Anaes.) (Assist.) Fee: \$500.65 Benefit: 75% = \$375.50 85% = \$425.60	
41873	Larynx, fractured, operation for (H) (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10	
41876	LARYNX, external operation on, OR LARYNGOFISSURE with or without cordectomy (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75	
41879	Tracheoplasty, laryngoplasty or thyroplasty, not by injection techniques, including tracheostomy, other than a service associated with a service to which item 41870 applies (H) (Anaes.) (Assist.) Fee: \$1,048.00 Benefit: 75% = \$786.00	
41880	Tracheostomy by a percutaneous technique (H) (Anaes.) Fee: \$279.70 Benefit: 75% = \$209.80	
41881	Tracheostomy by open exposure of the trachea (H) (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		8. EAR, NOSE AND THROAT
	Fee: \$442.25 Benefit: 75% = \$331.70	
41884	Cricothyrostomy (H) (Anaes.) Fee: \$100.20 Benefit: 75% = \$75.15	
41885	TRACHE-OESOPHAGEAL FISTULA, formation of, as a secondary procedure following laryngectomy, including associated endoscopic procedures (Anaes.) (Assist.) Fee: \$316.90 Benefit: 75% = \$237.70 85% = \$269.40	
41886	TRACHEA, removal of foreign body in (Anaes.) Fee: \$195.95 Benefit: 75% = \$147.00 85% = \$166.60	
41887	Pituitary tumour, removal of, by trans-sphenoidal approach, including stereotaxy and dermis, dermofat or fascia grafting, as part of conjoint surgery, other than a service associated with a service to which item 40600 applies (H) (Anaes.) (Assist.) Fee: \$2,973.65 Benefit: 75% = \$2230.25	
41888	Fractured skull, after trauma only, or spontaneous defects with cerebrospinal fluid rhinorrhoea or otorrhoea, repair of, including stereotaxy and dermofat graft (H) (Anaes.) (Assist.) Fee: \$2,104.55 Benefit: 75% = \$1578.45	
41890	Orbit, decompression of, by fenestration of 2 or more walls, or by the removal of intraorbital peribulbar and retrobulbar fat from each quadrant of the orbit, one eye by endonasal approach (H) (Anaes.) (Assist.) Fee: \$1,407.10 Benefit: 75% = \$1055.35	
41907	NASAL SEPTUM BUTTON, insertion of (Anaes.) Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90	
41910	DUCT OF MAJOR SALIVARY GLAND, transposition of (Anaes.) (Assist.) Fee: \$429.55 Benefit: 75% = \$322.20	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Group T8. Surgical Operations	
	Subgroup 9. Ophthalmology	
42503	OPHTHALMOLOGICAL EXAMINATION under general anaesthesia, not being a service associated with a service to which another item in this Group applies (Anaes.) Fee: \$112.80 Benefit: 75% = \$84.60	
42504 S	Glaucoma, implantation of a micro-bypass surgery stent system into the trabecular meshwork, if: (a) conservative therapies have failed, are likely to fail, or are contraindicated; and (b) the service is performed by a specialist with training that is recognised by the Conjoint Committee for the Recognition of Training in Micro-Bypass Glaucoma Surgery	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	(Anaes.) (See para GN.5.16 of explanatory notes to this Category) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40 Extended Medicare Safety Net Cap: \$49.70	
42505	Complete removal from the eye of a trans-trabecular drainage device or devices, with or without replacement, following device related medical complications necessitating complete removal. (Anaes.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40 Extended Medicare Safety Net Cap: \$49.70	
42506	EYE, ENUCLEATION OF, with or without sphere implant (Anaes.) (Assist.) Fee: \$529.70 Benefit: 75% = \$397.30 85% = \$450.25	
42509	EYE, ENUCLEATION OF, with insertion of integrated implant (Anaes.) (Assist.) Fee: \$670.45 Benefit: 75% = \$502.85	
42510	EYE, enucleation of, with insertion of hydroxy apatite implant or similar coralline implant (Anaes.) (Assist.) Fee: \$772.75 Benefit: 75% = \$579.60	
42512	GLOBE, EVISCERATION OF (Anaes.) (Assist.) Fee: \$529.70 Benefit: 75% = \$397.30 85% = \$450.25	
42515	GLOBE, EVISCERATION OF, AND INSERTION OF INTRASCLERAL BALL OR CARTILAGE (Anaes.) (Assist.) Fee: \$670.45 Benefit: 75% = \$502.85	
42518	ANOPHTHALMIC ORBIT, INSERTION OF CARTILAGE OR ARTIFICIAL IMPLANT as a delayed procedure, or REMOVAL OF IMPLANT FROM SOCKET, or PLACEMENT OF A MOTILITY INTEGRATING PEG by drilling into an existing orbital implant (Anaes.) (Assist.) Fee: \$389.00 Benefit: 75% = \$291.75	
42521	ANOPHTHALMIC SOCKET, treatment of, by insertion of a wired-in conformer, integrated implant or dermofat graft, as a secondary procedure (Anaes.) (Assist.) Fee: \$1,324.40 Benefit: 75% = \$993.30	
42524	ORBIT, SKIN GRAFT TO, as a delayed procedure (Anaes.) Fee: \$225.15 Benefit: 75% = \$168.90 85% = \$191.40	
42527	CONTRACTED SOCKET, RECONSTRUCTION INCLUDING MUCOUS MEMBRANE GRAFTING AND STENT MOULD (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42530	ORBIT, EXPLORATION with or without biopsy, requiring REMOVAL OF BONE (Anaes.) (Assist.) Fee: \$695.35 Benefit: 75% = \$521.55	
42533	ORBIT, EXPLORATION OF, with drainage or biopsy not requiring removal of bone (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20	
42536	ORBIT, EXENTERATION OF, with or without skin graft and with or without temporalis muscle transplant (Anaes.) (Assist.) Fee: \$918.60 Benefit: 75% = \$688.95	
42539	ORBIT, EXPLORATION OF, with removal of tumour or foreign body, requiring removal of bone (Anaes.) (Assist.) Fee: \$1,307.85 Benefit: 75% = \$980.90	
42542	ORBIT, exploration of anterior aspect with removal of tumour or foreign body (Anaes.) (Assist.) Fee: \$554.65 Benefit: 75% = \$416.00	
42543	ORBIT, exploration of retrobulbar aspect with removal of tumour or foreign body (Anaes.) (Assist.) Fee: \$972.85 Benefit: 75% = \$729.65	
42545	ORBIT, decompression of, for dysthyroid eye disease, by fenestration of 2 or more walls, or by the removal of intraorbital peribulbar and retrobulbar fat from each quadrant of the orbit, 1 eye (Anaes.) (Assist.) Fee: \$1,407.10 Benefit: 75% = \$1055.35	
42548	OPTIC NERVE MENINGES, incision of (Anaes.) (Assist.) Fee: \$835.85 Benefit: 75% = \$626.90	
42551	EYE, PENETRATING WOUND OR RUPTURE OF, not involving intraocular structures repair involving suture of cornea or sclera, or both, not being a service to which item 42632 applies (Anaes.) (Assist.) Fee: \$695.35 Benefit: 75% = \$521.55 85% = \$596.65	
42554	EYE, PENETRATING WOUND OR RUPTURE OF, with incarceration or prolapse of uveal tissue repair (Anaes.) (Assist.) Fee: \$811.25 Benefit: 75% = \$608.45	
42557	EYE, PENETRATING WOUND OR RUPTURE OF, with incarceration of lens or vitreous repair (Anaes.) (Assist.) Fee: \$1,133.95 Benefit: 75% = \$850.50	
42563	INTRAOCULAR FOREIGN BODY, removal from anterior segment (Anaes.) (Assist.) Fee: \$571.25 Benefit: 75% = \$428.45 85% = \$485.60	
42569	INTRAOCULAR FOREIGN BODY, removal from posterior segment (Anaes.) (Assist.) Fee: \$1,133.95 Benefit: 75% = \$850.50	
42572	ORBITAL ABSCESS OR CYST, drainage of (Anaes.) Fee: \$129.20 Benefit: 75% = \$96.90 85% = \$109.85	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42573	DERMOID, periorbital, excision of, on a patient 10 years of age or over (Anaes.) Fee: \$250.35 Benefit: 75% = \$187.80 85% = \$212.80	
42574	DERMOID, orbital, excision of (Anaes.) (Assist.) Fee: \$531.95 Benefit: 75% = \$399.00 85% = \$452.20	
42575	TARSAL CYST, extirpation of (Anaes.) Fee: \$91.05 Benefit: 75% = \$68.30 85% = \$77.40	
42576	DERMOID, periorbital, excision of, on a patient under 10 years of age (Anaes.) Fee: \$325.45 Benefit: 75% = \$244.10 85% = \$276.65	
42581	ECTROPION OR ENTROPION, tarsal cauterisation of (Anaes.) Fee: \$129.20 Benefit: 75% = \$96.90 85% = \$109.85	
42584	TARSORRHAPHY (Anaes.) (Assist.) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00	
42587	TRICHIASIS (due to causes other than trachoma), treatment of by cryotherapy, laser or electrolysis - each eyelid (Anaes.) Fee: \$57.25 Benefit: 75% = \$42.95 85% = \$48.70	
42588	TRICHIASIS (due to trachoma), treatment of by cryotherapy, laser or electrolysis - each eyelid (Anaes.) Fee: \$57.25 Benefit: 75% = \$42.95 85% = \$48.70	
42590	CANTHOPLASTY, medial or lateral (Anaes.) (Assist.) Fee: \$372.45 Benefit: 75% = \$279.35 85% = \$316.60 Extended Medicare Safety Net Cap: \$298.00	
42593	LACRIMAL GLAND, excision of palpebral lobe (Anaes.) Fee: \$225.15 Benefit: 75% = \$168.90	
42596	LACRIMAL SAC, excision of, or operation on (Anaes.) (Assist.) Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50	
42599	LACRIMAL CANALICULAR SYSTEM, establishment of patency by closed operation using silicone tubes or similar, 1 eye (Anaes.) (Assist.) Fee: \$695.35 Benefit: 75% = \$521.55 85% = \$596.65	
42602	LACRIMAL CANALICULAR SYSTEM, establishment of patency by open operation, 1 eye (Anaes.) (Assist.) Fee: \$695.35 Benefit: 75% = \$521.55 85% = \$596.65	
42605	LACRIMAL CANALICULUS, immediate repair of (Anaes.) (Assist.) Fee: \$513.05 Benefit: 75% = \$384.80 85% = \$436.10	
42608	LACRIMAL DRAINAGE by insertion of glass tube, as an independent procedure (Anaes.) (Assist.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42610	<p>NASOLACRIMAL TUBE (unilateral), removal or replacement of, or LACRIMAL PASSAGES, probing for obstruction, unilateral, with or without lavage - under general anaesthesia (Anaes.)</p> <p>Fee: \$105.95 Benefit: 75% = \$79.50 85% = \$90.10</p>	
42611	<p>NASOLACRIMAL TUBE (bilateral), removal or replacement of, or LACRIMAL PASSAGES, probing for obstruction, bilateral, with or without lavage - under general anaesthesia (Anaes.)</p> <p>Fee: \$158.90 Benefit: 75% = \$119.20 85% = \$135.10</p>	
42614	<p>NASOLACRIMAL TUBE (unilateral), removal or replacement of, or LACRIMAL PASSAGES, probing to establish patency of the lacrimal passage and/or site of obstruction, unilateral, including lavage, not being a service associated with a service to which item 42610 applies (excluding aftercare)</p> <p>(See para TN.8.4 of explanatory notes to this Category)</p> <p>Fee: \$53.15 Benefit: 75% = \$39.90 85% = \$45.20</p>	
42615	<p>NASOLACRIMAL TUBE (bilateral), removal or replacement of, or LACRIMAL PASSAGES, probing to establish patency of the lacrimal passage and/or site of obstruction, bilateral, including lavage, not being a service associated with a service to which item 42611 applies (excluding aftercare)</p> <p>Fee: \$79.50 Benefit: 75% = \$59.65 85% = \$67.60</p>	
42617	<p>PUNCTUM SNIP operation (Anaes.)</p> <p>Fee: \$150.75 Benefit: 75% = \$113.10 85% = \$128.15</p>	
42620	<p>PUNCTUM, occlusion of, by use of a plug (Anaes.)</p> <p>Fee: \$58.00 Benefit: 75% = \$43.50 85% = \$49.30</p>	
42622	<p>PUNCTUM, permanent occlusion of, by use of electrical cautery (Anaes.)</p> <p>Fee: \$91.05 Benefit: 75% = \$68.30 85% = \$77.40</p>	
42623	<p>DACRYOCYSTORHINOSTOMY (Anaes.) (Assist.)</p> <p>Fee: \$769.90 Benefit: 75% = \$577.45</p>	
42626	<p>DACRYOCYSTORHINOSTOMY where a previous dacryocystorhinostomy has been performed (Anaes.) (Assist.)</p> <p>Fee: \$1,241.70 Benefit: 75% = \$931.30 85% = \$1143.00</p>	
42629	<p>CONJUNCTIVORHINOSTOMY including dacryocystorhinostomy and fashioning of conjunctival flaps (Anaes.) (Assist.)</p> <p>Fee: \$935.30 Benefit: 75% = \$701.50</p>	
42632	<p>CONJUNCTIVAL PERITOMY OR REPAIR OF CORNEAL LACERATION by conjunctival flap (Anaes.)</p> <p>Fee: \$129.20 Benefit: 75% = \$96.90 85% = \$109.85</p>	
42635	<p>CORNEAL PERFORATIONS, sealing of, with tissue adhesive (Anaes.) (Assist.)</p> <p>Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40</p>	
42638	<p>CONJUNCTIVAL GRAFT OVER CORNEA (Anaes.) (Assist.)</p> <p>Fee: \$413.85 Benefit: 75% = \$310.40 85% = \$351.80</p>	
42641	<p>AUTOCONJUNCTIVAL TRANSPLANT, or mucous membrane graft (Anaes.) (Assist.)</p>	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$538.00	Benefit: 75% = \$403.50 85% = \$457.30
42644	CORNEA OR SCLERA, complete removal of embedded foreign body from - not more than once on the same day by the same practitioner (excluding aftercare) (Anaes.) (See para TN.8.4, TN.8.78 of explanatory notes to this Category) Fee: \$79.40 Benefit: 75% = \$59.55 85% = \$67.50	
42647	CORNEAL SCARS, removal of, by partial keratectomy, not being a service associated with a service to which item 42686 applies (Anaes.) Fee: \$225.15 Benefit: 75% = \$168.90 85% = \$191.40	
42650	CORNEA, epithelial debridement for corneal ulcer or corneal erosion (excluding aftercare) (Anaes.) (See para TN.8.4 of explanatory notes to this Category) Fee: \$79.40 Benefit: 75% = \$59.55 85% = \$67.50	
42651	CORNEA, epithelial debridement for eliminating band keratopathy (Anaes.) Fee: \$177.00 Benefit: 75% = \$132.75 85% = \$150.45	
42652	Corneal collagen cross linking, on a patient with a corneal ectatic disorder, with evidence of progression—per eye (Anaes.) (See para TN.8.136 of explanatory notes to this Category) Fee: \$1,320.85 Benefit: 75% = \$990.65 85% = \$1222.15	
42653	CORNEA transplantation of (Anaes.) (Assist.) Fee: \$1,439.40 Benefit: 75% = \$1079.55	
42656	CORNEA, transplantation of, second and subsequent procedures (Anaes.) (Assist.) Fee: \$1,837.60 Benefit: 75% = \$1378.20	
42662	SCLERA, transplantation of, full thickness, including collection of donor material (Anaes.) (Assist.) Fee: \$993.15 Benefit: 75% = \$744.90	
42665	SCLERA, transplantation of, superficial or lamellar, including collection of donor material (Anaes.) (Assist.) Fee: \$662.25 Benefit: 75% = \$496.70 85% = \$563.55	
42667	RUNNING CORNEAL SUTURE, manipulation of, performed within 4 months of corneal grafting, to reduce astigmatism where a reduction of 2 dioptres of astigmatism is obtained, including any associated consultation Fee: \$156.20 Benefit: 75% = \$117.15 85% = \$132.80	
42668	CORNEAL SUTURES, removal of, not earlier than 6 weeks after operation requiring use of slit lamp or operating microscope (Anaes.) Fee: \$82.85 Benefit: 75% = \$62.15 85% = \$70.45	
42672	CORNEAL INCISIONS, to correct corneal astigmatism of more than 1 ¹ / ₂ dioptres following anterior segment surgery, including appropriate measurements and calculations, performed as an independent procedure (Anaes.) (Assist.) (See para TN.8.79 of explanatory notes to this Category) Fee: \$993.15 Benefit: 75% = \$744.90 85% = \$894.45	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42673	ADDITIONAL CORNEAL INCISIONS, to correct corneal astigmatism of more than 1 ¹ / ₂ dioptres, including appropriate measurements and calculations, performed in conjunction with other anterior segment surgery (Anaes.) (Assist.) Fee: \$496.45 Benefit: 75% = \$372.35 85% = \$422.00	
42676	CONJUNCTIVA, biopsy of, as an independent procedure Fee: \$127.35 Benefit: 75% = \$95.55 85% = \$108.25	
42677	CONJUNCTIVA, CAUTERY OF, INCLUDING TREATMENT OF PANNUS each attendance at which treatment is given including any associated consultation (Anaes.) Fee: \$67.10 Benefit: 75% = \$50.35 85% = \$57.05	
42680	CONJUNCTIVA, cryotherapy to, for melanotic lesions or similar using CO ² or N ² O (Anaes.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40	
42683	CONJUNCTIVAL CYSTS, removal of, requiring admission to hospital or approved day-hospital facility (Anaes.) Fee: \$132.50 Benefit: 75% = \$99.40	
42686	PTERYGIUM, removal of (Anaes.) Fee: \$301.20 Benefit: 75% = \$225.90 85% = \$256.05	
42689	PINGUECULA, removal of, not being a service associated with the fitting of contact lenses (Anaes.) Fee: \$129.20 Benefit: 75% = \$96.90 85% = \$109.85	
42692	LIMBIC TUMOUR, removal of, excluding Pterygium (Anaes.) (Assist.) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00	
42695	LIMBIC TUMOUR, excision of, requiring keratectomy or sclerectomy, excluding Pterygium (Anaes.) (Assist.) Fee: \$496.45 Benefit: 75% = \$372.35 85% = \$422.00	
42698	LENS EXTRACTION, excluding surgery performed for the correction of refractive error <i>except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye</i> (Anaes.) (See para TN.8.80 of explanatory notes to this Category) Fee: \$654.60 Benefit: 75% = \$490.95 85% = \$556.45	
42701	INTRAOCULAR LENS, insertion of, excluding surgery performed for the correction of refractive error <i>except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye</i> (Anaes.) (See para TN.8.80 of explanatory notes to this Category) Fee: \$365.05 Benefit: 75% = \$273.80 85% = \$310.30	
42702	LENS EXTRACTION AND INSERTION OF INTRAOCULAR LENS, excluding surgery performed for the correction of refractive error except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye (Anaes.) Fee: \$837.20 Benefit: 75% = \$627.90 85% = \$738.50 Extended Medicare Safety Net Cap: \$125.60	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42703	<p>INTRAOCULAR LENS or IRIS PROSTHESIS insertion of, into the posterior chamber with fixation to the iris or sclera (Anaes.) (Assist.)</p> <p>Fee: \$629.60 Benefit: 75% = \$472.20 85% = \$535.20</p>	
42704	<p>INTRAOCULAR LENS, REMOVAL or REPOSITIONING of by open operation, not being a service associated with a service to which item 42701 applies (Anaes.)</p> <p>Fee: \$513.05 Benefit: 75% = \$384.80 85% = \$436.10</p>	
42705	<p>LENS EXTRACTION AND INSERTION OF INTRAOCULAR LENS, excluding surgery performed for the correction of refractive error except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye, performed in association with insertion of a trans-trabecular drainage device or devices, in a patient diagnosed with open angle glaucoma who is not adequately responsive to topical anti-glaucoma medications or who is intolerant of anti-glaucoma medication. (Anaes.)</p> <p>Fee: \$1,002.90 Benefit: 75% = \$752.20 85% = \$904.20 Extended Medicare Safety Net Cap: \$150.45</p>	
42707	<p>INTRAOCULAR LENS, REMOVAL of and REPLACEMENT with a different lens, excluding surgery performed for the correction of refractive error except for anisometropia greater than 3 dioptres following the removal of cataract in the first eye (Anaes.)</p> <p>Fee: \$877.35 Benefit: 75% = \$658.05 85% = \$778.65</p>	
42710	<p>INTRAOCULAR LENS, removal of, and replacement with a lens inserted into the posterior chamber and fixated to the iris or sclera (Anaes.) (Assist.)</p> <p>Fee: \$993.15 Benefit: 75% = \$744.90 85% = \$894.45</p>	
42713	<p>IRIS SUTURING, McCannell technique or similar, for fixation of intraocular lens or repair of iris defect (Anaes.) (Assist.)</p> <p>Fee: \$413.85 Benefit: 75% = \$310.40 85% = \$351.80</p>	
42716	<p>CATARACT, JUVENILE, removal of, including subsequent needlings (Anaes.) (Assist.)</p> <p>Fee: \$1,316.10 Benefit: 75% = \$987.10 85% = \$1217.40</p>	
42719	<p>REMOVAL OF VITREOUS, and/or CAPSULAR or LENS MATERIAL, via a limbal approach, not being a service associated with a service to which item 42698, 42702, 42716, 42725 or 42731 applies (Anaes.) (Assist.)</p> <p>Fee: \$571.25 Benefit: 75% = \$428.45 85% = \$485.60</p>	
42725	<p>Vitrectomy via pars plana sclerotomy, including one or more of the following:</p> <ul style="list-style-type: none"> (a) removal of vitreous; (b) division of vitreous bands; (c) removal of epiretinal membranes; (d) capsulotomy (Anaes.) (Assist.) <p>Fee: \$1,473.25 Benefit: 75% = \$1104.95</p>	
42731	<p>LIMBAL OR PARS PLANA LENSECTOMY combined with vitrectomy, not being a service associated with items 42698, 42702, 42719, or 42725 (Anaes.) (Assist.)</p>	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$1,671.95 Benefit: 75% = \$1254.00	
42734	Capsulotomy, other than by laser, and other than a service associated with a service to which item 42725 or 42731 applies (Anaes.) (Assist.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40	
42738	PARACENTESIS OF ANTERIOR CHAMBER OR VITREOUS CAVITY, or both, for the injection of therapeutic substances, or the removal of aqueous or vitreous humours for diagnostic or therapeutic purposes, 1 or more of, as an independent procedure. (See para TN.8.121 of explanatory notes to this Category) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40 Extended Medicare Safety Net Cap: \$264.85	
42739	PARACENTESIS OF ANTERIOR CHAMBER OR VITREOUS CAVITY, or both, for the injection of therapeutic substances, or the removal of aqueous or vitreous humours for diagnostic or therapeutic purposes, one or more of, as an independent procedure, for a patient requiring the administration of anaesthetic by an anaesthetist. (Anaes.) (See para TN.8.121 of explanatory notes to this Category) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40 Extended Medicare Safety Net Cap: \$264.85	
42740	INTRAVITREAL INJECTION OF THERAPEUTIC SUBSTANCES, or the removal of vitreous humour for diagnostic purposes, 1 or more of, as a procedure associated with other intraocular surgery. (Anaes.) (See para TN.8.121 of explanatory notes to this Category) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40 Extended Medicare Safety Net Cap: \$264.85	
42741	Posterior juxtасcleral depot injection of a therapeutic substance, for the treatment of subfoveal choroidal neovascularisation due to age-related macular degeneration, 1 or more of (Anaes.) (See para TN.8.81 of explanatory notes to this Category) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40	
42743	ANTERIOR CHAMBER, IRRIGATION OF BLOOD FROM, as an independent procedure (Anaes.) (Assist.) Fee: \$695.35 Benefit: 75% = \$521.55 85% = \$596.65	
42744	Needle revision of glaucoma filtration bleb, following glaucoma filtering procedure (Anaes.) Fee: \$330.85 Benefit: 75% = \$248.15 85% = \$281.25	
42746	GLAUCOMA, filtering operation for, where conservative therapies have failed, are likely to fail, or are contraindicated (Anaes.) (Assist.) Fee: \$1,051.20 Benefit: 75% = \$788.40	
42749	GLAUCOMA, filtering operation for, where previous filtering operation has been performed (Anaes.) (Assist.) Fee: \$1,316.10 Benefit: 75% = \$987.10	
42752	GLAUCOMA, insertion of drainage device incorporating an extraocular reservoir for, such as a Molteno device (Anaes.) (Assist.) (See para TN.8.83 of explanatory notes to this Category) Fee: \$1,473.25 Benefit: 75% = \$1104.95	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
42755	GLAUCOMA, removal of drainage device incorporating an extraocular reservoir for, such as a Molteno device (Anaes.) Fee: \$182.10 Benefit: 75% = \$136.60 85% = \$154.80	
42758	Goniotomy for the treatment of primary congenital glaucoma, excluding the minimally invasive implantation of glaucoma drainage devices (Anaes.) (Assist.) Fee: \$769.90 Benefit: 75% = \$577.45	
42761	DIVISION OF ANTERIOR OR POSTERIOR SYNECHIAE, as an independent procedure, other than by laser (Anaes.) (Assist.) Fee: \$571.25 Benefit: 75% = \$428.45 85% = \$485.60	
42764	IRIDECTOMY (including excision of tumour of iris) OR IRIDOTOMY, as an independent procedure, other than by laser (Anaes.) (Assist.) Fee: \$571.25 Benefit: 75% = \$428.45 85% = \$485.60	
42767	TUMOUR, INVOLVING CILIARY BODY OR CILIARY BODY AND IRIS, excision of (Anaes.) (Assist.) Fee: \$1,200.10 Benefit: 75% = \$900.10	
42770	CYCLODESTRUCTIVE procedures for the treatment of intractable glaucoma, treatment to 1 eye, to a maximum of 2 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.82 of explanatory notes to this Category) Fee: \$324.45 Benefit: 75% = \$243.35 85% = \$275.80	
42773	DETACHED RETINA, pneumatic retinopexy for, not being a service associated with a service to which item 42776 applies (Anaes.) (Assist.) Fee: \$993.15 Benefit: 75% = \$744.90 85% = \$894.45	
42776	DETACHED RETINA, buckling or resection operation for (Anaes.) (Assist.) Fee: \$1,473.25 Benefit: 75% = \$1104.95	
42779	DETACHED RETINA, revision of scleral buckling operation for (Anaes.) (Assist.) Fee: \$1,837.60 Benefit: 75% = \$1378.20	
42782	LASER TRABECULOPLASTY, for the treatment of glaucoma. Each treatment to 1 eye, to a maximum of 4 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.84 of explanatory notes to this Category) Fee: \$496.45 Benefit: 75% = \$372.35 85% = \$422.00	
42785	LASER IRIDOTOMY - each treatment episode to 1 eye, to a maximum of 3 treatments to that eye in a 2 year period (Anaes.) (Assist.) (See para TN.8.85 of explanatory notes to this Category) Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65	
42788	Laser capsulotomy—each treatment episode to one eye, to a maximum of 2 treatments to that eye in a 2 year period—other than a service associated with a service to which item 42702 applies (Anaes.) (Assist.) (See para TN.8.86 of explanatory notes to this Category) Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65	

T8. SURGICAL OPERATIONS	9. OPHTHALMOLOGY
42791	<p>Laser vitreolysis or corticolysis of lens material or fibrinolysis, excluding vitreolysis in the posterior vitreous cavity—each treatment to one eye, to a maximum of 3 treatments to that eye in a 2 year period (Anaes.) (Assist.)</p> <p>(See para TN.8.87 of explanatory notes to this Category)</p> <p>Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65</p>
42794	<p>DIVISION OF SUTURE BY LASER following glaucoma filtration surgery, each treatment to 1 eye, to a maximum of 2 treatments to that eye in a 2 year period (Anaes.)</p> <p>(See para TN.8.88 of explanatory notes to this Category)</p> <p>Fee: \$74.55 Benefit: 75% = \$55.95 85% = \$63.40</p>
42801	<p>EPISCLERAL RADIOACTIVE PLAQUE (Ruthenium 106 or Iodine 125), for the treatment of choroidal melanomas, insertion of (Anaes.) (Assist.)</p> <p>Fee: \$1,155.45 Benefit: 75% = \$866.60</p>
42802	<p>EPISCLERAL RADIOACTIVE PLAQUE (Ruthenium 106 or Iodine 125), for the treatment of choroidal melanomas, removal of (Anaes.) (Assist.)</p> <p>Fee: \$577.50 Benefit: 75% = \$433.15</p>
42805	<p>TANTALUM MARKERS, surgical insertion to the sclera to localise the tumour base to assist in planning of radiotherapy of choroidal melanomas, 1 or more (Anaes.) (Assist.)</p> <p>Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75</p>
42806	<p>IRIS TUMOUR, laser photocoagulation of (Anaes.) (Assist.)</p> <p>Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65</p>
42807	<p>PHOTOMYDRIASIS, laser</p> <p>Fee: \$391.60 Benefit: 75% = \$293.70 85% = \$332.90</p>
42808	<p>Laser peripheral iridoplasty</p> <p>Fee: \$391.60 Benefit: 75% = \$293.70 85% = \$332.90</p>
42809	<p>RETINA, photocoagulation of, not being a service associated with photodynamic therapy with verteporfin (Anaes.) (Assist.)</p> <p>Fee: \$496.45 Benefit: 75% = \$372.35 85% = \$422.00</p>
42810	<p>PHOTOTHERAPEUTIC KERATECTOMY, by laser, for corneal scarring or disease, excluding surgery for refractive error (Anaes.)</p> <p>Fee: \$624.85 Benefit: 75% = \$468.65 85% = \$531.15</p>
42811	<p>TRANSPUPILLARY THERMOTHERAPY, for treatment of choroidal and retinal tumours or vascular malformations (Anaes.)</p> <p>Fee: \$496.45 Benefit: 75% = \$372.35 85% = \$422.00</p>
42812	<p>Removal of scleral buckling material, from an eye having undergone previous scleral buckling surgery (Anaes.)</p> <p>Fee: \$182.10 Benefit: 75% = \$136.60 85% = \$154.80</p>
42815	<p>VITREOUS CAVITY, removal of silicone oil or other liquid vitreous substitutes from, during a procedure other than that in which the vitreous substitute is inserted (Anaes.) (Assist.)</p>

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	Fee: \$695.35 Benefit: 75% = \$521.55	
42818	RETINA, CRYOTHERAPY TO, as an independent procedure, or when performed in conjunction with item 42809 or 42770 (Anaes.) Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75	
42821	OCULAR TRANSILLUMINATION, for the diagnosis and measurement of intraocular tumours (Anaes.) Fee: \$99.50 Benefit: 75% = \$74.65 85% = \$84.60	
42824	RETROBULBAR INJECTION OF ALCOHOL OR OTHER DRUG, as an independent procedure Fee: \$76.90 Benefit: 75% = \$57.70 85% = \$65.40	
42833	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 1 OR 2 MUSCLES on a patient aged 15 years or over (Anaes.) (Assist.) Fee: \$645.55 Benefit: 75% = \$484.20	
42836	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 1 OR 2 MUSCLES, on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.) Fee: \$802.85 Benefit: 75% = \$602.15	
42839	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 3 OR MORE MUSCLES on a patient aged 15 years or over (Anaes.) (Assist.) Fee: \$769.90 Benefit: 75% = \$577.45	
42842	SQUINT, OPERATION FOR, ON 1 OR BOTH EYES, the operation involving a total of 3 or MORE MUSCLES, on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.) Fee: \$960.15 Benefit: 75% = \$720.15	
42845	READJUSTMENT OF ADJUSTABLE SUTURES, 1 or both eyes, as an independent procedure following an operation for correction of squint (Anaes.) (See para TN.8.89 of explanatory notes to this Category) Fee: \$208.50 Benefit: 75% = \$156.40 85% = \$177.25	
42848	SQUINT, muscle transplant for (Hummelsheim type, or similar operation) on a patient aged 15 years or over (Anaes.) (Assist.) Fee: \$769.90 Benefit: 75% = \$577.45	
42851	SQUINT, muscle transplant for (Hummelsheim type, or similar operation) on a patient aged 14 years or under, or where the patient has had previous squint, retinal or extra ocular operations on the eye or eyes, or on a patient with concurrent thyroid eye disease (Anaes.) (Assist.) Fee: \$960.15 Benefit: 75% = \$720.15	
42854	RUPTURED MEDIAL PALPEBRAL LIGAMENT or ruptured EXTRAOCULAR MUSCLE, repair of (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20 85% = \$379.90	

T8. SURGICAL OPERATIONS		9. OPHTHALMOLOGY
	RESUTURING OF WOUND FOLLOWING INTRAOCULAR PROCEDURES with or without excision of prolapsed iris (Anaes.) (Assist.)	
42857	Fee: \$446.90	Benefit: 75% = \$335.20 85% = \$379.90
	EYELID (upper or lower), scleral or Goretex or other non-autogenous graft to, with recession of the lid retractors (Anaes.) (Assist.)	
42860	Fee: \$993.15	Benefit: 75% = \$744.90 85% = \$894.45
	EYELID, recession of (Anaes.) (Assist.)	
42863	Fee: \$852.60	Benefit: 75% = \$639.45 85% = \$753.90
	ENTROPION or TARSAL ECTROPION, repair of, by tightening, shortening or repair of inferior retractors by open operation across the entire width of the eyelid (Anaes.) (Assist.)	
42866	Fee: \$827.55	Benefit: 75% = \$620.70 85% = \$728.85
	EYELID closure in facial nerve paralysis, insertion of foreign implant for (Anaes.) (Assist.)	
42869	Fee: \$604.30	Benefit: 75% = \$453.25 85% = \$513.70
	EYEBROW, elevation of, by skin excision, to correct for a reduced field of vision caused by parietic, involuntal, or traumatic eyebrow descent/ptosis to a position below the superior orbital rim (Anaes.)	
42872	Fee: \$264.90	Benefit: 75% = \$198.70 85% = \$225.20
	Photodynamic therapy, one eye, including the infusion of Verteporfin continuously through a peripheral vein, using a non-thermal laser at a wavelength of 689nm, for the treatment of choroidal neovascularisation.	
43021	Fee: \$500.90	Benefit: 75% = \$375.70 85% = \$425.80
	Photodynamic therapy, both eyes, including the infusion of Verteporfin continuously through a peripheral vein, using a non-thermal laser at a wavelength of 689nm, for the treatment of choroidal neovascularisation.	
43022	Fee: \$601.15	Benefit: 75% = \$450.90 85% = \$511.00
	Infusion of Verteporfin for discontinued photodynamic therapy, where a session of therapy which would have been provided under item 43021 or 43022 has been discontinued on medical grounds.	
43023	Fee: \$97.35	Benefit: 75% = \$73.05 85% = \$82.75

T8. SURGICAL OPERATIONS		10. OPERATIONS FOR OSTEOMYELITIS
	Group T8. Surgical Operations	
	Subgroup 10. Operations For Osteomyelitis	
	CHRONIC	
	OPERATION ON SKULL (Anaes.) (Assist.)	
43521	Fee: \$511.35	Benefit: 75% = \$383.55
	Operation on sternum, clavicle, rib, metacarpus, carpus, phalanx, metatarsus, tarsus, mandible or maxilla (other than alveolar margins), by open or arthroscopic means, for septic arthritis or osteomyelitis—one approach, inclusive of the adjoining joint (H) (Anaes.) (Assist.)	
43527		

T8. SURGICAL OPERATIONS		10. OPERATIONS FOR OSTEOMYELITIS
	Fee: \$392.25	Benefit: 75% = \$294.20
43530	Operation on scapula, ulna, radius, tibia, fibula, humerus or femur, by open or arthroscopic means, for septic arthritis or osteomyelitis—one approach, inclusive of the adjoining joint (Anaes.) (Assist.)	
	Fee: \$392.25	Benefit: 75% = \$294.20 85% = \$333.45
43533	Operation on spine or pelvic bones, by open or arthroscopic means, for septic arthritis or osteomyelitis—one approach, inclusive of the adjoining joint (Anaes.) (Assist.)	
	Fee: \$646.75	Benefit: 75% = \$485.10 85% = \$549.75

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	Group T8. Surgical Operations	
	Subgroup 11. Paediatric	
	SURGERY IN NEONATE OR YOUNG CHILD	
43801	INTESTINAL MALROTATION with or without volvulus, laparotomy for, not involving bowel resection (Anaes.) (Assist.)	
	Fee: \$1,053.75	Benefit: 75% = \$790.35
43804	INTESTINAL MALROTATION with or without volvulus, laparotomy for, with bowel resection and anastomosis, with or without formation of stoma (Anaes.) (Assist.)	
	Fee: \$1,121.90	Benefit: 75% = \$841.45
43805	UMBILICAL, EPIGASTRIC OR LINEA ALBA HERNIA, repair of, on a patient under 10 years of age (Anaes.)	
	Fee: \$392.25	Benefit: 75% = \$294.20
43807	DUODENAL ATRESIA or STENOSIS, duodenoduodenostomy or duodenojejunostomy for (Anaes.) (Assist.)	
	Fee: \$1,223.95	Benefit: 75% = \$918.00
43810	JEJUNAL ATRESIA, bowel resection and anastomosis for, with or without tapering (Anaes.) (Assist.)	
	Fee: \$1,427.95	Benefit: 75% = \$1071.00
43813	MECONIUM ILEUS, laparotomy for, complicated by 1 or more of associated volvulus, atresia, intestinal perforation with or without meconium peritonitis (Anaes.) (Assist.)	
	Fee: \$1,427.95	Benefit: 75% = \$1071.00
43816	ILEAL ATRESIA, COLONIC ATRESIA OR MECONIUM ILEUS not being a service associated with a service to which item 43813 applies, laparotomy for (Anaes.) (Assist.)	
	Fee: \$1,325.90	Benefit: 75% = \$994.45
43819	Aganglionsis Coli, laparotomy for, with or without frozen section biopsies and formation of stoma (Anaes.) (Assist.)	
	Fee: \$1,071.00	Benefit: 75% = \$803.25
43822	ANORECTAL MALFORMATION, laparotomy and colostomy for (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	Fee: \$1,071.00 Benefit: 75% = \$803.25	
43825	NEONATAL ALIMENTARY OBSTRUCTION, laparotomy for, not being a service to which any other item in this Subgroup applies (Anaes.) (Assist.) Fee: \$1,223.95 Benefit: 75% = \$918.00	
43828	ACUTE NEONATAL NECROTISING ENTEROCOLITIS, laparotomy for, with resection, including any anastomoses or stoma formation (Anaes.) (Assist.) Fee: \$1,352.25 Benefit: 75% = \$1014.20	
43831	ACUTE NEONATAL NECROTISING ENTEROCOLITIS where no definitive procedure is possible, laparotomy for (Anaes.) (Assist.) Fee: \$1,053.75 Benefit: 75% = \$790.35	
43832	Branchial fistula, removal of, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$718.70 Benefit: 75% = \$539.05	
43834	BOWEL RESECTION for necrotising enterocolitis stricture or strictures, including any anastomoses or stoma formation (Anaes.) (Assist.) Fee: \$1,223.95 Benefit: 75% = \$918.00	
43835	STRANGULATED, INCARCERATED OR OBSTRUCTED HERNIA, repair of, without bowel resection, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$745.95 Benefit: 75% = \$559.50	
43837	CONGENITAL DIAPHRAGMATIC HERNIA, repair by thoracic or abdominal approach, with diagnosis confirmed in the first 24 hours of life (Anaes.) (Assist.) Fee: \$1,529.90 Benefit: 75% = \$1147.45	
43838	Diaphragmatic hernia, congenital repair of, by thoracic or abdominal approach, not being a service to which any of items 31569 to 31581 apply, on a patient under 10 years of age (Anaes.) (Assist.) Fee: \$1,369.75 Benefit: 75% = \$1027.35	
43840	CONGENITAL DIAPHRAGMATIC HERNIA, repair by thoracic or abdominal approach, diagnosed after the first day of life and before 20 days of age (Anaes.) (Assist.) Fee: \$1,325.90 Benefit: 75% = \$994.45	
43841	Femoral or inguinal hernia or infantile hydrocele, repair of, on a patient under 10 years of age, other than a service to which item 30651 or 43835 applies (H) (Anaes.) (Assist.) Fee: \$664.65 Benefit: 75% = \$498.50	
43843	OESOPHAGEAL ATRESIA (with or without repair of tracheo-oesophageal fistula), complete correction of, not being a service to which item 43846 applies (Anaes.) (Assist.) Fee: \$2,040.00 Benefit: 75% = \$1530.00	
43846	OESOPHAGEAL ATRESIA (with or without repair of tracheo-oesophageal fistula), complete correction of, in infant of birth weight less than 1500 grams (Anaes.) (Assist.) Fee: \$2,192.90 Benefit: 75% = \$1644.70	
43849	OESOPHAGEAL ATRESIA, gastrostomy for (Anaes.) (Assist.) Fee: \$561.00 Benefit: 75% = \$420.75	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
43852	OESOPHAGEAL ATRESIA, thoracotomy for, and division of tracheo-oesophageal fistula without anastomosis (Anaes.) (Assist.) Fee: \$1,784.85 Benefit: 75% = \$1338.65	
43855	OESOPHAGEAL ATRESIA, delayed primary anastomosis for (Anaes.) (Assist.) Fee: \$1,887.05 Benefit: 75% = \$1415.30	
43858	OESOPHAGEAL ATRESIA, cervical oesophagostomy for (Anaes.) (Assist.) Fee: \$662.95 Benefit: 75% = \$497.25	
43861	CONGENITAL CYSTADENOMATOID MALFORMATION OR CONGENITAL LOBAR EMPHYSEMA, thoracotomy and lung resection for (Anaes.) (Assist.) Fee: \$1,836.05 Benefit: 75% = \$1377.05	
43864	GASTROSCHISIS, operation for (Anaes.) (Assist.) Fee: \$1,377.00 Benefit: 75% = \$1032.75	
43867	GASTROSCHISIS or Exomphalos, secondary operation for, with removal of silo (Anaes.) (Assist.) Fee: \$764.95 Benefit: 75% = \$573.75	
43870	EXOMPHALOS containing small bowel only, operation for (Anaes.) (Assist.) Fee: \$1,071.00 Benefit: 75% = \$803.25	
43873	EXOMPHALOS containing small bowel and other viscera, operation for (Anaes.) (Assist.) Fee: \$1,427.95 Benefit: 75% = \$1071.00	
43876	SACROCOCCYGEAL TERATOMA, excision of, by posterior approach (Anaes.) (Assist.) Fee: \$1,223.95 Benefit: 75% = \$918.00	
43879	SACROCOCCYGEAL TERATOMA, excision of, by combined posterior and abdominal approach (Anaes.) (Assist.) Fee: \$1,427.95 Benefit: 75% = \$1071.00	
43882	Cloacal exstrophy, operation for (H) (Anaes.) (Assist.) Fee: \$1,836.05 Benefit: 75% = \$1377.05	
THORACIC SURGERY		
43900	TRACHEO-OESOPHAGEAL FISTULA without atresia, division and repair of (Anaes.) (Assist.) Fee: \$1,223.95 Benefit: 75% = \$918.00	
43903	OESOPHAGEAL ATRESIA or CORROSIVE OESOPHAGEAL STRICTURE, oesophageal replacement for, utilizing gastric tube, jejunum or colon (Anaes.) (Assist.) Fee: \$2,040.00 Benefit: 75% = \$1530.00	
43906	OESOPHAGUS, resection of congenital, anastomotic or corrosive stricture and anastomosis, not being a service to which item 43903 applies (Anaes.) (Assist.) Fee: \$1,784.85 Benefit: 75% = \$1338.65	
43909	TRACHEOMALACIA, aortopexy for (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	Fee: \$1,784.85 Benefit: 75% = \$1338.65	
43912	THORACOTOMY and excision of 1 or more of bronchogenic or enterogenous cyst or mediastinal teratoma (Anaes.) (Assist.) Fee: \$1,686.25 Benefit: 75% = \$1264.70	
43915	EVENTRATION, plication of diaphragm for (Anaes.) (Assist.) Fee: \$1,275.00 Benefit: 75% = \$956.25	
ABDOMINAL SURGERY		
43930	HYPERTROPHIC PYLORIC STENOSIS, pyloromyotomy for (Anaes.) (Assist.) Fee: \$490.30 Benefit: 75% = \$367.75	
43933	IDIOPATHIC INTUSSUSCEPTION, laparotomy and manipulative reduction of (Anaes.) (Assist.) Fee: \$573.95 Benefit: 75% = \$430.50	
43936	INTUSSUSCEPTION, laparotomy and resection with anastomosis (Anaes.) (Assist.) Fee: \$1,071.00 Benefit: 75% = \$803.25	
43939	VENTRAL HERNIA following neonatal closure of exomphalos or gastroschisis, repair of (Anaes.) (Assist.) Fee: \$815.95 Benefit: 75% = \$612.00	
43942	ABDOMINAL WALL VITELLO INTESTINAL REMNANT, excision of (Anaes.) Fee: \$255.00 Benefit: 75% = \$191.25	
43945	PATENT VITELLO INTESTINAL DUCT, excision of (Anaes.) (Assist.) Fee: \$1,071.00 Benefit: 75% = \$803.25	
43948	UMBILICAL GRANULOMA, excision of, under general anaesthesia (Anaes.) Fee: \$153.10 Benefit: 75% = \$114.85	
43951	GASTRO-OESOPHAGEAL REFLUX with or without hiatus hernia, laparotomy and fundoplication for, without gastrostomy (Anaes.) (Assist.) Fee: \$959.05 Benefit: 75% = \$719.30	
43954	GASTRO-OESOPHAGEAL REFLUX with or without hiatus hernia, laparotomy and fundoplication for, with gastrostomy (Anaes.) (Assist.) Fee: \$1,173.10 Benefit: 75% = \$879.85	
43957	GASTRO-OESOPHAGEAL REFLUX, LAPAROTOMY AND FUNDOPLICATION for, with or without hiatus hernia, in child with neurological disease, with gastrostomy (Anaes.) (Assist.) Fee: \$1,275.00 Benefit: 75% = \$956.25	
43960	ANORECTAL MALFORMATION, perineal anoplasty of (Anaes.) (Assist.) Fee: \$448.55 Benefit: 75% = \$336.45	
43963	ANORECTAL MALFORMATION, posterior sagittal anorectoplasty of (Anaes.) (Assist.) Fee: \$1,784.85 Benefit: 75% = \$1338.65	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
43966	ANORECTAL MALFORMATION, posterior sagittal anorectoplasty of, with laparotomy (Anaes.) (Assist.) Fee: \$2,040.00 Benefit: 75% = \$1530.00	
43969	PERSISTENT CLOACA, total correction of, with genital repair using posterior sagittal approach, with or without laparotomy (Anaes.) (Assist.) Fee: \$2,805.00 Benefit: 75% = \$2103.75	
43972	CHOLEDOCHAL CYST, resection of, with 1 duct anastomosis (Anaes.) (Assist.) Fee: \$2,040.00 Benefit: 75% = \$1530.00	
43975	CHOLEDOCHAL CYST, resection of, with 2 duct anastomoses (Anaes.) (Assist.) Fee: \$2,397.05 Benefit: 75% = \$1797.80	
43978	BILIARY ATRESIA, portoenterostomy for (Anaes.) (Assist.) Fee: \$2,040.00 Benefit: 75% = \$1530.00	
43981	NEPHROBLASTOMA, NEUROBLASTOMA OR OTHER MALIGNANT TUMOUR, laparotomy (exploratory), including associated biopsies, where no other intra-abdominal procedure is performed (Anaes.) (Assist.) Fee: \$561.00 Benefit: 75% = \$420.75	
43984	NEPHROBLASTOMA, radical nephrectomy for (Anaes.) (Assist.) Fee: \$1,427.95 Benefit: 75% = \$1071.00	
43987	NEUROBLASTOMA, radical excision of (Anaes.) (Assist.) Fee: \$1,581.05 Benefit: 75% = \$1185.80	
43990	Aganglioneosis Coli, definitive resection with pull-through anastomosis, with or without frozen section biopsies, when aganglionic segment extends to sigmoid colon (Anaes.) (Assist.) Fee: \$1,938.05 Benefit: 75% = \$1453.55	
43993	Aganglioneosis Coli, definitive resection with pull-through anastomosis, with or without frozen section biopsies, when aganglionic segment extends into descending or transverse colon with or without resiting of stoma (Anaes.) (Assist.) Fee: \$2,091.00 Benefit: 75% = \$1568.25	
43996	Aganglioneosis Coli, total colectomy for total colonic aganglioneosis with ileoanal pull-through, with or without side to side ileocolic anastomosis (Anaes.) (Assist.) Fee: \$2,346.00 Benefit: 75% = \$1759.50	
43999	Aganglioneosis Coli, anal sphincterotomy as an independent procedure for (Anaes.) (Assist.) Fee: \$293.35 Benefit: 75% = \$220.05	
44101	RECTUM, examination of, on a patient under 2 years of age, under general anaesthesia with full thickness biopsy or removal of polyp or similar lesion (Anaes.) (Assist.) Fee: \$367.70 Benefit: 75% = \$275.80	
44102	RECTUM, examination of, on a patient 2 years of age or over, under general anaesthesia with full thickness biopsy or removal of polyp or similar lesion (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		11. PAEDIATRIC
	Fee: \$282.85 Benefit: 75% = \$212.15	
44104	RECTAL PROLAPSE, SUBMUCOSAL or perirectal injection for, on a patient under 2 years of age, under general anaesthesia (Anaes.) Fee: \$64.60 Benefit: 75% = \$48.45 85% = \$54.95	
44105	RECTAL PROLAPSE, SUBMUCOSAL or perirectal injection for, on a patient 2 years of age or over, under general anaesthesia (Anaes.) Fee: \$49.60 Benefit: 75% = \$37.20 85% = \$42.20	
44108	Inguinal hernia, laparoscopic or open repair of, at age less than 12 months (H) (Anaes.) (Assist.) Fee: \$664.65 Benefit: 75% = \$498.50	
44111	Obstructed or strangulated inguinal hernia, laparoscopic or open repair of, at age less than 12 months, including orchidopexy when performed (H) (Anaes.) (Assist.) Fee: \$745.95 Benefit: 75% = \$559.50	
44114	Inguinal hernia, laparoscopic or open repair of, at age less than 12 months when orchidopexy also required (H) (Anaes.) (Assist.) Fee: \$745.95 Benefit: 75% = \$559.50	
MISCELLANEOUS SURGERY		
44130	LYMPHADENECTOMY, for atypical mycobacterial infection or other granulomatous disease (Anaes.) (Assist.) Fee: \$509.95 Benefit: 75% = \$382.50 85% = \$433.50	
44133	TORTICOLLIS, open division of sternomastoid muscle for (Anaes.) (Assist.) Fee: \$404.75 Benefit: 75% = \$303.60	
44136	INGROWN TOE NAIL, operation for, under general anaesthesia (Anaes.) Fee: \$186.55 Benefit: 75% = \$139.95 85% = \$158.60	

T8. SURGICAL OPERATIONS		12. AMPUTATIONS
	Group T8. Surgical Operations	
	Subgroup 12. Amputations	
44325	Amputation of hand, transcarpal (H) (Anaes.) (Assist.) (See para TN.8.190 of explanatory notes to this Category) Fee: \$325.45 Benefit: 75% = \$244.10	
44328	Amputation of hand, proximal to wrist radiocarpal joint, through forearm (H) (Anaes.) (Assist.) Fee: \$392.25 Benefit: 75% = \$294.20	
44331	AMPUTATION AT SHOULDER (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10	
44334	INTERSCAPULOTHORACIC AMPUTATION (Anaes.) (Assist.) Fee: \$1,314.55 Benefit: 75% = \$985.95 85% = \$1215.85	

T8. SURGICAL OPERATIONS

12. AMPUTATIONS

44338	<p>Amputation of one digit of one foot, distal to metatarsal head, including any of the following (if performed):</p> <ul style="list-style-type: none"> (a) resection of bone or joint; (b) excision of neuroma; (c) skin cover with homodigital flaps <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category)</p> <p>Fee: \$158.55 Benefit: 75% = \$118.95</p>
44342	<p>Amputation of 2 digits of one foot, distal to metatarsal head, including any of the following (if performed):</p> <ul style="list-style-type: none"> (a) resection of bone or joint; (b) excision of neuroma; (c) skin cover with homodigital flaps <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category)</p> <p>Fee: \$242.05 Benefit: 75% = \$181.55</p>
44346	<p>Amputation of 3 digits of one foot, distal to metatarsal head, including any of the following (if performed):</p> <ul style="list-style-type: none"> (a) resection of bone or joint; (b) excision of neuroma; (c) skin cover with homodigital flaps <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category)</p> <p>Fee: \$279.55 Benefit: 75% = \$209.70</p>
44350	<p>Amputation of 4 digits of one foot, distal to metatarsal head, including any of the following (if performed):</p> <ul style="list-style-type: none"> (a) resection of bone or joint; (b) excision of neuroma; (c) skin cover with homodigital flaps <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category)</p> <p>Fee: \$317.20 Benefit: 75% = \$237.90</p>
44354	<p>Amputation of 5 digits of one foot, distal to metatarsal head, including any of the following (if performed):</p>

T8. SURGICAL OPERATIONS

12. AMPUTATIONS

	<p>(a) resection of bone or joint;</p> <p>(b) excision of neuroma;</p> <p>(c) skin cover with homodigital flaps</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category) Fee: \$363.05 Benefit: 75% = \$272.30</p>
44358	<p>Amputation of one ray of one foot, proximal to the metatarsal head, including any of the following (if performed):</p> <p>(a) resection of bone;</p> <p>(b) excision of neuromas;</p> <p>(c) skin cover or recontouring with homodigital flaps</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category) Fee: \$242.05 Benefit: 75% = \$181.55</p>
44359	<p>Amputation of one or more toes of one foot, or amputation at midfoot or hindfoot of one foot, for diabetic or other microvascular disease;</p> <p>(a) including any of the following (if performed):</p> <ul style="list-style-type: none"> (i) resection of bone; (ii) excision of neuromas; (iii) excision of one or more bones of the foot; (iv) treatment of underlying infection; (v) skin cover or recontouring with homodigital flaps; and <p>(b) excluding aftercare;</p> <p>—applicable only once per foot per occasion on which the service is performed (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category) Fee: \$290.50 Benefit: 75% = \$217.90</p>
44361	<p>Amputation of foot, at ankle or hindfoot, including any of the following (if performed):</p> <p>(a) resection of bone;</p> <p>(b) excision of neuromas;</p> <p>(c) skin cover;</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.199 of explanatory notes to this Category) Fee: \$480.35 Benefit: 75% = \$360.30</p>

T8. SURGICAL OPERATIONS		12. AMPUTATIONS
44364	Amputation of foot, transtarsal, including any of the following (if performed): (a) resection of bone; (b) excision of neuromas; (c) skin cover; (H) (Anaes.) (Assist.) (See para TN.8.199 of explanatory notes to this Category) Fee: \$325.45 Benefit: 75% = \$244.10	
44367	Amputation through thigh, at knee or below knee (H) (Anaes.) (Assist.) Fee: \$574.50 Benefit: 75% = \$430.90	
44370	AMPUTATION AT HIP (Anaes.) (Assist.) Fee: \$792.75 Benefit: 75% = \$594.60	
44373	HINDQUARTER, amputation of (Anaes.) (Assist.) Fee: \$1,627.25 Benefit: 75% = \$1220.45 85% = \$1528.55	
44376	Amputation stump, re-amputation of, to provide adequate skin and muscle cover (Anaes.) (Assist.) Derived Fee: 75% of the original amputation fee	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	Group T8. Surgical Operations	
	Subgroup 13. Plastic And Reconstructive Surgery	
45440	Split thickness skin graft to a small defect that is: (a) less than 40 mm in diameter: (i) on areas below the knee; or (ii) distal to the ulnar styloid; or (iii) on the genital area; or (iv) on areas above the clavicle; or (b) less than 80 mm in diameter on any other part of the body (Anaes.) (Assist.) (See para TN.8.266 of explanatory notes to this Category) Fee: \$313.00 Benefit: 75% = \$234.75 85% = \$266.05	
45443	Split thickness skin graft to a large defect that is: (a) 40 mm or more in diameter: (i) on areas below the knee; or (ii) distal to the ulnar styloid; or (iii) on the genital area; or (iv) on areas above the clavicle; or	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	(b) 80 mm or more in diameter on any other part of the body (Anaes.) (Assist.) (See para TN.8.266 of explanatory notes to this Category) Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75	
45507	Microvascular repair using microsurgical techniques, with restoration of continuity of artery and vein of distal extremity or digit, including anastomoses of all required vessels for that extremity or digit, other than a service associated with a service to which item 45564, 45565 or 45567 applies (H) (Anaes.) (Assist.) Fee: \$1,800.20 Benefit: 75% = \$1350.15	
45510	Scar, of face or neck, not more than 3 cm in length, revision of, if: (a) undertaken in the operating theatre of a hospital; or (b) performed by a specialist in the practice of the specialist's specialty (Anaes.) (See para TN.8.95 of explanatory notes to this Category) Fee: \$242.05 Benefit: 75% = \$181.55 85% = \$205.75	
45529	Breast reconstruction (bilateral), following mastectomy, using permanent prostheses, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.) (See para TN.8.97 of explanatory notes to this Category) Fee: \$2,063.35 Benefit: 75% = \$1547.55	
45531	Post-mastectomy breast reconstruction, autologous (bilateral), using a large muscle or myocutaneous flap, isolated on its vascular pedicle, excluding repair of muscular aponeurotic layer, other than a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45006 or 45012 applies (H) (Anaes.) (Assist.) (See para TN.8.97, TN.8.8 of explanatory notes to this Category) Fee: \$2,117.70 Benefit: 75% = \$1588.30	
45532	Revision of post-mastectomy breast reconstruction, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.) Fee: \$298.15 Benefit: 75% = \$223.65	
45537	Perforator flap, such as a thoracodorsal artery perforator (TDAP) flap or a lateral intercostal artery perforator (LICAP) flap, or similar, raising on a named source vessel, for reconstruction of a partial mastectomy defect, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.) Fee: \$865.80 Benefit: 75% = \$649.35	
45538	Perforator flap, such as a deep inferior epigastric perforator (DIEP) flap or similar, raising in preparation for microsurgical transfer of a free flap for post mastectomy breast reconstruction, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.) Fee: \$990.65 Benefit: 75% = \$743.00	
45540	Breast reconstruction (bilateral), following mastectomy, using tissue expansion—insertion of tissue expansion unit and all attendances for subsequent expansion injections, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.) Fee: \$2,777.60 Benefit: 75% = \$2083.20	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45541	<p>Breast reconstruction (bilateral), following mastectomy, using tissue expansion—removal of tissue expansion unit and insertion of permanent prosthesis, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,181.55 Benefit: 75% = \$886.20</p>	
45547	<p>Revision of breast prosthesis pocket, if:</p> <p>(a) breast prosthesis or tissue expander has been placed for the purpose of breast reconstruction in the context of breast cancer or for developmental breast abnormality; and</p> <p>(b) the prosthesis or tissue expander has migrated or rotated from its intended position or orientation; and</p> <p>(c) the existing prosthesis is used</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.262 of explanatory notes to this Category)</p> <p>Fee: \$769.90 Benefit: 75% = \$577.45</p>	
45567	<p>Free transfer of tissue (reconstructive surgery) for the repair of major tissue defect of the head and neck or other non-breast defect, using microvascular techniques, all necessary elements of the operation including (but not limited to):</p> <p>(a) anastomoses of all required vessels; and</p> <p>(b) raising of tissue on a vascular pedicle; and</p> <p>(c) preparation of recipient vessels; and</p> <p>(d) transfer of tissue; and</p> <p>(e) inseting of tissue at recipient site; and</p> <p>(f) direct repair of secondary cutaneous defect, if performed;</p> <p>other than a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45501, 45502, 45504, 45505, 45507, 45562, 45564 or 45565 applies—single surgeon (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$3,232.65 Benefit: 75% = \$2424.50</p>	
45571	<p>Closure of abdomen with reconstruction of umbilicus, with or without lipectomy, to be used following the harvest of an autologous flap, being a service associated with a service to which item 45530, 45531, 45562, 45564, 45565, 45567, 46080, 46082, 46084, 46086, 46088 or 46090 applies, including repair of the musculoaponeurotic layer of the abdomen (including insertion of prosthetic mesh if used) (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.97, TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$1,139.20 Benefit: 75% = \$854.40</p>	
45592	<p>Orbital cavity, reconstruction of wall and floor with bone graft, cartilage graft or foreign implant, other than a service associated with a service to which item 45594 applies on the same side (H) (Anaes.) (Assist.)</p> <p>Fee: \$936.90 Benefit: 75% = \$702.70</p>	
45594	<p>Orbital cavity, exploration of wall or floor without bone graft, cartilage graft or foreign implant, other than a service associated with a service to which item 45590 or 45592 applies on the same side (H) (Anaes.) (Assist.)</p> <p>Fee: \$439.10 Benefit: 75% = \$329.35</p>	
45717	<p>Alveolar cleft (congenital), unilateral, bone grafting of, including local flap closure of associated oro-nasal fistulae and ridge augmentation, other than a service associated with a service to which item 45718 applies (H) (Anaes.) (Assist.)</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	Fee: \$1,294.40 Benefit: 75% = \$970.80	
45718	<p>Face, contour restoration of one region, for the correction of deformity using autogenous bone or cartilage, if the deformity:</p> <p>(a) is secondary to congenital absence of tissue; or</p> <p>(b) has arisen from:</p> <p>(i) trauma (other than from previous cosmetic surgery); or</p> <p>(ii) a diagnosed pathological process;</p> <p>other than a service associated with a service to which item 45644 or 45717 (alveolar bone grafting) applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.105 of explanatory notes to this Category)</p> <p>Fee: \$1,408.25 Benefit: 75% = \$1056.20</p>	
45874	<p>Temporomandibular joint, including condylar head and glenoid fossa, total alloplastic replacement (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,450.55 Benefit: 75% = \$1087.95</p>	
46050	<p>Perforator flap, raising on a named source vessel, for pedicled transfer for head or neck or other non-breast reconstruction (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.268 of explanatory notes to this Category)</p> <p>Fee: \$865.80 Benefit: 75% = \$649.35</p>	
46052	<p>Perforator Flap, such as anterolateral thigh flap or similar, raising in preparation for microsurgical transfer of a free flap for head or neck or other non-breast reconstruction (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.268 of explanatory notes to this Category)</p> <p>Fee: \$273.25 Benefit: 75% = \$204.95</p>	
46060	<p>Free transfer of tissue with a vascularised bone component (including chimeric/composite flap), for the repair of major defect of the head or neck or other non-breast defect, all necessary elements of the operation, including (but not limited to):</p> <p>(a) anastomoses of all required vessels using microvascular techniques; and</p> <p>(b) harvesting of flap (including osteotomies); and</p> <p>(c) raising of tissue on a vascular pedicle; and</p> <p>(d) preparation of recipient vessels; and</p> <p>(e) transfer of tissue, including fixation of bony element and inset of tissue at recipient site; and</p> <p>(f) direct repair of secondary cutaneous defect, if performed;</p> <p>other than the following:</p> <p>(g) bony reshaping for purposes of reconstruction of maxilla, mandible or skull base;</p> <p>(h) a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45501, 45502, 45504, 45505 or 45562 applies</p> <p>Single surgeon (H) (Anaes.) 45060	Developmental breast abnormality, single stage correction of, if:	

T8. SURGICAL OPERATIONS

13. PLASTIC AND RECONSTRUCTIVE SURGERY

(a) the correction involves either:

- (i) bilateral mastopexy for symmetrical tubular breasts; or
- (ii) surgery on both breasts with a combination of insertion of one or more implants (which must have at least a 10% volume difference), mastopexy or reduction mammoplasty, if there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least 20% in normally shaped breasts, or 10% in tubular breasts or in breasts with abnormally high inframammary folds; and

(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes

Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)

Fee: \$1,399.30 **Benefit:** 75% = \$1049.50

Developmental breast abnormality, 2 stage correction of, first stage, involving surgery on both breasts with a combination of insertion of one or more tissue expanders, mastopexy or reduction mammoplasty, if:

(a) there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least:

- (i) 20% in normally shaped breasts; or
- (ii) 10% in tubular breasts or in breasts with abnormally high inframammary folds; and

(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes.

Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)

45061 **Fee:** \$1,399.30 **Benefit:** 75% = \$1049.50

Developmental breast abnormality, 2 stage correction of, second stage, involving surgery on both breasts with a combination of exchange of one or more tissue expanders for one or more implants (which must have at least a 10% volume difference), mastopexy or reduction mammoplasty, if:

(a) there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least:

- (i) 20% in normally shaped breasts; or
- (ii) 10% in tubular breasts or in breasts with abnormally high inframammary folds; and

(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes.

Applicable only once per occasion on which the service is provided (Anaes.) (Assist.)

45062 **Fee:** \$1,012.60 **Benefit:** 75% = \$759.45

SKIN FLAP SURGERY

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45200	<p>Single stage local flap, if indicated to repair one defect, simple and small, excluding flap for male pattern baldness and excluding H-flap or double advancement flap not in association with any of items 31356 to 31383 (Anaes.)</p> <p>(See para TN.8.93 of explanatory notes to this Category) Fee: \$313.00 Benefit: 75% = \$234.75 85% = \$266.05 Extended Medicare Safety Net Cap: \$250.40</p>	
45201	<p>Muscle, myocutaneous or skin flap, where clinically indicated to repair one surgical excision made in the removal of a malignant or non-malignant skin lesion (only in association with items 31000, 31001, 31002, 31003, 31004, 31005, 31358, 31359, 31360, 31363, 31364, 31369, 31370, 31371, 31373, 31376, 31378, 31380 or 31383)-may be claimed only once per defect (Anaes.)</p> <p>(See para TN.8.93 of explanatory notes to this Category) Fee: \$455.60 Benefit: 75% = \$341.70 85% = \$387.30</p>	
45202	<p>Muscle, myocutaneous or skin flap, where clinically indicated to repair one surgical excision made in the removal of a malignant or non-malignant skin lesion in a patient, if the clinical relevance of the procedure is clearly annotated in the patient's record and either:</p> <p>(a) item 45201 applies and additional flap repair is required for the same defect; or</p> <p>(b) item 45201 does not apply and either:</p> <p style="padding-left: 20px;">(i) the patient has severe pre-existing scarring, severe skin atrophy or sclerodermoid changes; or</p> <p style="padding-left: 20px;">(ii) the repair is contiguous with a free margin (Anaes.)</p> <p>(See para TN.8.93, TN.8.126 of explanatory notes to this Category) Fee: \$455.60 Benefit: 75% = \$341.70 85% = \$387.30</p>	
45203	<p>Single stage local flap, if indicated to repair one defect, complicated or large, excluding flap for male pattern baldness and excluding H-flap or double advancement flap not in association with any of items 31356 to 31383 (Anaes.) (Assist.)</p> <p>(See para TN.8.93, TN.8.207 of explanatory notes to this Category) Fee: \$446.90 Benefit: 75% = \$335.20 85% = \$379.90 Extended Medicare Safety Net Cap: \$357.55</p>	
45206	<p>Single stage local flap if indicated to repair one defect, on eyelid, nose, lip, ear, neck, hand, thumb, finger or genitals and excluding H-flap or double advancement flap not in association with any of items 31356 to 31383 (Anaes.)</p> <p>(See para TN.8.93 of explanatory notes to this Category) Fee: \$422.20 Benefit: 75% = \$316.65 85% = \$358.90 Extended Medicare Safety Net Cap: \$337.80</p>	
45207	<p>H-flap or double advancement flap if indicated to repair one defect, on eyelid, eyebrow or forehead not in association with any of items 31356 to 31383 (Anaes.)</p> <p>Fee: \$422.20 Benefit: 75% = \$316.65 85% = \$358.90</p>	
Amend 45209	<p>Pedicled flap repair (forehead, cross arm, cross leg, abdominal or similar), first stage of a multistage procedure (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.271 of explanatory notes to this Category) Fee: \$521.50 Benefit: 75% = \$391.15</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45212	<p>Pedicled flap repair (forehead, cross arm, cross leg, abdominal or similar), subsequent stage of a multistage procedure (Anaes.) (Assist.)</p> <p>(See para TN.8.271 of explanatory notes to this Category)</p> <p>Fee: \$258.75 Benefit: 75% = \$194.10 85% = \$219.95</p>	
45221	<p>DIRECT FLAP REPAIR, small (cross finger or similar), first stage (Anaes.)</p> <p>Fee: \$287.95 Benefit: 75% = \$216.00 85% = \$244.80</p>	
45224	<p>DIRECT FLAP REPAIR, small (cross finger or similar), second stage (Anaes.)</p> <p>Fee: \$129.40 Benefit: 75% = \$97.05 85% = \$110.00</p>	
45227	<p>INDIRECT FLAP OR TUBED PEDICLE, formation of (Anaes.) (Assist.)</p> <p>Fee: \$490.30 Benefit: 75% = \$367.75 85% = \$416.80</p>	
45230	<p>DIRECT OR INDIRECT FLAP OR TUBED PEDICLE, delay of (Anaes.)</p> <p>Fee: \$245.15 Benefit: 75% = \$183.90 85% = \$208.40</p>	
45233	<p>INDIRECT FLAP OR TUBED PEDICLE, preparation of intermediate or final site and attachment to the site (Anaes.) (Assist.)</p> <p>Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30</p>	
45239	<p>Direct, indirect, free or local flap, revision of, by incision and suture and/or liposuction, applicable once per flap, not being a service associated with a service to which item 45497 applies (Anaes.)</p> <p>Fee: \$287.95 Benefit: 75% = \$216.00 85% = \$244.80</p>	
FREE GRAFTS		
45451	<p>Full thickness skin graft to one defect, with an average diameter of 5 mm or more (Anaes.) (Assist.)</p> <p>(See para TN.8.266 of explanatory notes to this Category)</p> <p>Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30</p>	
OTHER GRAFTS AND MISCELLANEOUS PROCEDURES		
45496	<p>FLAP, free tissue transfer using microvascular techniques - <i>revision of</i>, by open operation (Anaes.)</p> <p>Fee: \$458.00 Benefit: 75% = \$343.50</p>	
45497	<p>Flap, free tissue transfer using microvascular techniques or any autologous breast reconstruction, revision of, by liposuction, other than a service associated with a service to which item 45239 applies (H) (Anaes.)</p> <p>Fee: \$348.95 Benefit: 75% = \$261.75</p>	
45500	<p>Microvascular repair using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit; cannot be claimed by the same provider for both artery and vein (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,200.10 Benefit: 75% = \$900.10</p>	
45501	<p>Microvascular anastomosis of artery or vein using microsurgical techniques, for replantation or revascularisation of limb or digit, if the limb or digit is devitalised and the repair is critical for restoration of blood supply, other than a service associated with a service to which item 45564, 45565, 45567, 46060, 46062, 46064, 46066, 46068, 46070 or 46072 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,953.40 Benefit: 75% = \$1465.05</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45502	<p>Microvascular anastomoses of artery and vein using microsurgical techniques, for replantation or revascularisation of limb or digit, if the limb or digit is devitalised and the repair is critical for restoration of blood supply, including anastomoses of all required vessels for that extremity or digit, unless a micro-arterial or micro-venous graft is being used, other than a service associated with a service to which item 45564, 45565, 45567, 46060, 46062, 46064, 46066, 46068, 46070 or 46072 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,930.10 Benefit: 75% = \$2197.60</p>	
45503	<p>Micro-arterial or micro-venous graft using microsurgical techniques, if the graft is critical for restoration of blood supply, including harvest of graft and suturing of all related anastomoses (not to be claimed in the context of cardiac surgery) (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,234.80 Benefit: 75% = \$1676.10</p>	
45504	<p>Microvascular anastomosis of artery, vein or veins, using microsurgical techniques, for free transfer of tissue, including setting in of free flap, other than:</p> <p>(a) a service for the purpose of breast reconstruction; or</p> <p>(b) a service associated with a service to which item 45564, 45565, 45567, 46060, 46062, 46064, 46066, 46068, 46070 or 46072 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$1,953.40 Benefit: 75% = \$1465.05</p>	
45505	<p>Microvascular anastomoses of artery and vein or veins, using microsurgical techniques, for free transfer of tissue, including setting in of free flap, other than:</p> <p>(a) a service for the purpose of breast reconstruction; or</p> <p>(b) a service associated with a service to which item 45564, 45565, 45567, 46060, 46062, 46064, 46066, 46068, 46070 or 46072 applies</p> <p>(H) (Anaes.) (Assist.)</p> <p>Fee: \$2,958.20 Benefit: 75% = \$2218.65</p>	
45512	<p>SCAR, of face or neck, more than 3 cm in length, revision of, where undertaken in the operating theatre of a hospital, or where performed by a specialist in the practice of his or her specialty (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$325.45 Benefit: 75% = \$244.10 85% = \$276.65</p>	
45515	<p>Scar, other than on face or neck, not more than 7 cm in length, revision of, if:</p> <p>(a) the service is:</p> <p>(i) undertaken in the operating theatre of a hospital; or</p> <p>(ii) performed by a specialist in the practice of the specialist's specialty; and</p> <p>(b) the service is not performed in conjunction with the insertion of breast implants for cosmetic purposes; and</p> <p>(c) the incision made for revision of the scar is not used as an approach for another procedure (including a non rebatable procedure); and</p> <p>(d) sufficient photographic evidence demonstrating the clinical need for the service is included in patient notes</p> <p>(Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category)</p> <p>Fee: \$205.30 Benefit: 75% = \$154.00 85% = \$174.55</p>	
45518	<p>Scar, other than on face or neck, more than 7 cm in length, revision of, if:</p> <p>(a) the service is:</p> <p>(i) undertaken in the operating theatre of a hospital; or</p>	

T8. SURGICAL OPERATIONS

13. PLASTIC AND RECONSTRUCTIVE SURGERY

	<p>(ii) performed by a specialist in the practice of the specialist’s specialty; and (b) the service is not performed in conjunction with the insertion of breast implants for cosmetic purposes; and (c) the incision made for revision of the scar is not used as an approach for another procedure (including a non rebatable procedure); and (d) sufficient photographic evidence demonstrating the clinical need for the service is included in patient notes (Anaes.)</p> <p>(See para TN.8.95 of explanatory notes to this Category) Fee: \$248.45 Benefit: 75% = \$186.35 85% = \$211.20</p>
45520	<p>Reduction mammoplasty (unilateral) with surgical repositioning of nipple, in the context of breast cancer or developmental abnormality of the breast, other than a service associated with a service to which item 31512, 31513 or 31514 applies on the same side (H) (Anaes.) (Assist.)</p> <p>Fee: \$991.10 Benefit: 75% = \$743.35</p>
45522	<p>Reduction mammoplasty (unilateral) without surgical repositioning of the nipple: (a) excluding the treatment of gynaecomastia; and (b) not with insertion of any prosthesis; other than a service associated with a service to which item 31512, 31513 or 31514 applies on the same side (H) (Anaes.) (Assist.)</p> <p>Fee: \$695.35 Benefit: 75% = \$521.55</p>
45523	<p>Reduction mammoplasty (bilateral) with surgical repositioning of the nipple: (a) for patients with macromastia who are experiencing pain in the neck or shoulder region; and (b) not with insertion of any prosthesis; other than a service associated with a service to which item 31512, 31513 or 31514 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,486.75 Benefit: 75% = \$1115.10</p>
45524	<p>Mammoplasty, augmentation (unilateral) in the context of: (a) breast cancer; or (b) developmental abnormality of the breast, if there is a difference in breast volume, as demonstrated by an appropriate volumetric measurement technique, of at least: (i) 20% in normally shaped breasts; or (ii) 10% in tubular breasts or in breasts with abnormally high inframammary folds.</p> <p>Applicable only once per occasion on which the service is provided, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.96 of explanatory notes to this Category) Fee: \$816.35 Benefit: 75% = \$612.30</p>
45527	<p>Breast reconstruction (unilateral), following mastectomy, using a permanent prosthesis, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.97 of explanatory notes to this Category) Fee: \$1,179.10 Benefit: 75% = \$884.35</p>
45528	<p>Mammoplasty, augmentation, bilateral (other than a service to which item 45527 applies), if:</p>

T8. SURGICAL OPERATIONS

13. PLASTIC AND RECONSTRUCTIVE SURGERY

	<p>(a) reconstructive surgery is indicated because of:</p> <ul style="list-style-type: none"> (i) developmental malformation of breast tissue (excluding hypomastia); or (ii) disease of or trauma to the breast (other than trauma resulting from previous elective cosmetic surgery); or (iii) amastia secondary to a congenital endocrine disorder; and <p>(b) photographic or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,224.35 Benefit: 75% = \$918.30</p>
45530	<p>Post-mastectomy breast reconstruction, autologous (unilateral), using a large muscle or myocutaneous flap, isolated on its vascular pedicle, excluding repair of muscular aponeurotic layer, other than a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.97, TN.8.8 of explanatory notes to this Category)</p> <p>Fee: \$1,210.10 Benefit: 75% = \$907.60</p>
45534	<p>Autologous fat grafting, unilateral service (harvesting, preparation and injection of adipocytes) if:</p> <p>(a) the autologous fat grafting is for one or more of the following purposes:</p> <ul style="list-style-type: none"> (i) the correction of defects arising from treatment and prevention of breast cancer in patients with contour defects, greater than or equal to 20% volume asymmetry, post-treatment pain or poor prosthetic coverage; (ii) the preparation of post mastectomy thin or irradiated skin flaps in patients intending to have breast reconstruction; (iii) breast reconstruction in breast cancer patients; (iv) the correction of developmental disorders of the breast; and <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>Up to a total of 4 services per side (for total treatment of a single breast), other than a service associated with a service to which item 45006 or 45012 applies</p> <p>(H) (Anaes.)</p> <p>Fee: \$695.35 Benefit: 75% = \$521.55</p>
45535	<p>Autologous fat grafting, bilateral service (harvesting, preparation and injection of adipocytes) if:</p> <p>(a) the autologous fat grafting is for one or more of the following purposes:</p>

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>(i) the correction of defects arising from treatment and prevention of breast cancer in patients with contour defects, greater than or equal to 20% volume asymmetry, post-treatment pain or poor prosthetic coverage;</p> <p>(ii) the preparation of post mastectomy thin or irradiated skin flaps in patients intending to have breast reconstruction;</p> <p>(iii) breast reconstruction in breast cancer patients;</p> <p>(iv) the correction of developmental disorders of the breast; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>Up to a total of 4 services, other than a service associated with a service to which item 45006 or 45012 applies</p> <p>(H) (Anaes.)</p> <p>Fee: \$1,216.95 Benefit: 75% = \$912.75</p>
45539	<p>Breast reconstruction (unilateral), following mastectomy, using tissue expansion—insertion of tissue expansion unit and all attendances for subsequent expansion injections, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,587.25 Benefit: 75% = \$1190.45</p>
45542	<p>Breast reconstruction (unilateral), following mastectomy, using tissue expansion—removal of tissue expansion unit and insertion of permanent prosthesis, other than a service associated with a service to which item 45006 or 45012 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$675.15 Benefit: 75% = \$506.40</p>
45545	<p>NIPPLE OR AREOLA or both, reconstruction of, by any surgical technique (Anaes.) (Assist.)</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p>Fee: \$685.25 Benefit: 75% = \$513.95 85% = \$586.55</p> <p>Extended Medicare Safety Net Cap: \$548.20</p>
45546	<p>NIPPLE OR AREOLA or both, intradermal colouration of, following breast reconstruction after mastectomy or for congenital absence of nipple</p> <p>(See para TN.8.100 of explanatory notes to this Category)</p> <p>Fee: \$217.80 Benefit: 75% = \$163.35 85% = \$185.15</p>
45548	<p>BREAST PROSTHESIS, removal of, as an independent procedure (Anaes.)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00</p>
45551	<p>Breast prosthesis, removal of, with excision of at least half of the fibrous capsule, not with insertion of any prosthesis. The excised specimen must be sent for histopathology and the volume removed must be documented in the histopathology report (Anaes.) (Assist.)</p> <p>(See para TN.8.167 of explanatory notes to this Category)</p> <p>Fee: \$488.40 Benefit: 75% = \$366.30</p>
45553	<p>Breast prosthesis, removal of and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), if:</p>

T8. SURGICAL OPERATIONS

13. PLASTIC AND RECONSTRUCTIVE SURGERY

	<p>(a) either:</p> <ul style="list-style-type: none"> (i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or (ii) the original implant was inserted in the context of breast cancer or developmental abnormality; and <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98, TN.8.262 of explanatory notes to this Category) Fee: \$629.15 Benefit: 75% = \$471.90</p>
45554	<p>Breast prosthesis, removal and replacement with another prosthesis, following medical complications (for rupture, migration of prosthetic material or symptomatic capsular contracture), including excision of at least half of the fibrous capsule or formation of a new pocket, or both, if:</p> <p>(a) either:</p> <ul style="list-style-type: none"> (i) it is demonstrated by intra-operative photographs post-removal that removal alone would cause unacceptable deformity; or (ii) the original implant was inserted in the context of breast cancer or developmental abnormality; and <p>(b) the excised specimen is sent for histopathology and the volume removed is documented in the histopathology report; and</p> <p>(c) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>(See para TN.8.98, TN.8.262 of explanatory notes to this Category) Fee: \$769.90 Benefit: 75% = \$577.45</p>
45556	<p>Breast ptosis, correction of (unilateral), in the context of breast cancer or developmental abnormality, if photographic evidence (including anterior, left lateral and right lateral views) and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>Applicable only once per occasion on which the service is provided, other than a service associated with a service to which item 31512, 31513 or 31514 applies on the same side (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.99 of explanatory notes to this Category) Fee: \$843.15 Benefit: 75% = \$632.40</p>
45558	<p>Correction of bilateral breast ptosis by mastopexy, if:</p> <p>(a) at least two-thirds of the breast tissue, including the nipple, lies inferior to the inframammary fold where the nipple is located at the most dependent, inferior part of the breast contour; and</p> <p>(b) photographic evidence (including anterior, left lateral and right lateral views), with a marker at the level of the inframammary fold, demonstrating the clinical need for this service, is documented in the patient notes</p> <p>Applicable only once per lifetime, other than a service associated with a service to which item 31512, 31513 or 31514 applies</p>

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	(H) (Anaes.) (Assist.) (See para TN.8.99 of explanatory notes to this Category) Fee: \$1,264.70 Benefit: 75% = \$948.55	
45560	HAIR TRANSPLANTATION for the treatment of alopecia of congenital or traumatic origin or due to disease, excluding male pattern baldness, not being a service to which another item in this Group applies (Anaes.) Fee: \$521.40 Benefit: 75% = \$391.05 85% = \$443.20 Extended Medicare Safety Net Cap: \$182.50	
45561	Microvascular anastomosis of artery and/or vein, if considered necessary to salvage a vascularly compromised pedicled or free flap, either during the primary procedure or at a subsequent return to theatre (H) (Anaes.) (Assist.) Fee: \$1,953.40 Benefit: 75% = \$1465.05	
Amend 45562	Free transfer of tissue (microvascular free flap) for non-breast defect involving raising of tissue on vascular pedicle, including direct repair of secondary cutaneous defect (if performed), other than a service associated with a service to which item 45564, 45565, 45567, 46060, 46062, 46064, 46066, 46068, 46070 or 46072 applies (H) (Anaes.) (Assist.) Fee: \$1,210.10 Benefit: 75% = \$907.60	
Amend 45563	Neurovascular island flap for restoration of essential sensation in the digits or sole of the foot, or for genital reconstruction, including: (a) direct repair of secondary cutaneous defect (if performed); and (b) formal dissection of the neurovascular pedicle; other than a service performed on simple V-Y flaps or other standard flaps, such as rotation or keystone (H) (Anaes.) (Assist.) Fee: \$1,210.10 Benefit: 75% = \$907.60	
45564	Free transfer of tissue (reconstructive surgery) for the repair of major tissue defect of the head and neck or other non-breast defect, using microvascular techniques, all necessary elements of the operation including (but not limited to): (a) anastomoses of all required vessels; and (b) raising of tissue on a vascular pedicle; and (c) preparation of recipient vessels; and (d) transfer of tissue; and (e) inseting of tissue at recipient site; and (f) direct repair of secondary cutaneous defect, if performed; other than a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45501, 45502, 45504, 45505, 45507, 45562 or 45567 applies—conjoint surgery, principal specialist surgeon (H) (Anaes.) (Assist.) (See para TN.8.8 of explanatory notes to this Category) Fee: \$2,802.75 Benefit: 75% = \$2102.10	
45565	Free transfer of tissue (reconstructive surgery) for the repair of major tissue defect of the head and neck or other non-breast defect, using microvascular techniques, all necessary elements of the operation including (but not limited to): (a) anastomoses of all required vessels; and (b) raising of tissue on a vascular pedicle; and (c) preparation of recipient vessels; and (d) transfer of tissue; and	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	<p>(e) insetting of tissue at recipient site; and (f) direct repair of secondary cutaneous defect, if performed; other than a service associated with a service to which item 30166, 30169, 30175, 30176, 30177, 30179, 45501, 45502, 45504, 45505, 45507, 45562 or 45567 applies—conjoint surgery, conjoint specialist surgeon (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.8 of explanatory notes to this Category) Fee: \$2,102.15 Benefit: 75% = \$1576.65</p>	
45566	<p>Insertion of a temporary prosthetic tissue expander which requires subsequent removal, including all attendances for subsequent expansion injections, other than a service for breast or post-mastectomy tissue expansion (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,179.10 Benefit: 75% = \$884.35</p>	
45568	<p>Tissue expander, removal of, including complete excision of fibrous capsule if performed (H) (Anaes.) (Assist.)</p> <p>Fee: \$488.40 Benefit: 75% = \$366.30</p>	
45572	<p>Intra-operative tissue expansion using a prosthetic tissue expander, performed under general anaesthetic or intravenous sedation during an operation, if combined with a service to which another item in Group T8 applies (including expansion injections), not to be used for breast tissue expansion (Anaes.)</p> <p>Fee: \$321.05 Benefit: 75% = \$240.80 85% = \$272.90</p>	
45575	<p>FACIAL NERVE PARALYSIS, free fascia graft for (Anaes.) (Assist.)</p> <p>Fee: \$792.75 Benefit: 75% = \$594.60 85% = \$694.05</p>	
45578	<p>FACIAL NERVE PARALYSIS, muscle transfer for (Anaes.) (Assist.)</p> <p>Fee: \$918.05 Benefit: 75% = \$688.55</p>	
45581	<p>Facial nerve paralysis, excision of tissue for (Anaes.)</p> <p>Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00</p>	
45584	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), for treatment of post traumatic pseudolipoma, if photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.101 of explanatory notes to this Category) Fee: \$695.35 Benefit: 75% = \$521.55</p>	
45585	<p>Liposuction (suction assisted lipolysis) to one regional area (one limb or trunk), other than a service associated with a service to which item 31525 or 31526 applies, if:</p> <p>(a) the liposuction is for:</p> <p style="padding-left: 40px;">(i) the treatment of Barraquer-Simons syndrome, lymphoedema or macrodystrophia lipomatosa; or (ii) the reduction of a buffalo hump that is secondary to an endocrine disorder or pharmacological treatment of a medical condition; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	(H) (Anaes.) (See para TN.8.101 of explanatory notes to this Category) Fee: \$695.35 Benefit: 75% = \$521.55	
45587	Meloplasty for correction of facial asymmetry if: (a) the asymmetry is secondary to trauma (including previous surgery), a congenital condition or a medical condition (such as facial nerve palsy); and (b) the meloplasty is limited to one side of the face (Anaes.) (Assist.) (See para TN.8.102 of explanatory notes to this Category) Fee: \$980.60 Benefit: 75% = \$735.45	
45588	Meloplasty (excluding browlifts and chinlift platysmaplasties), bilateral, if: (a) surgery is indicated to correct a functional impairment due to a congenital condition, disease (excluding post-acne scarring) or trauma (other than trauma resulting from previous elective cosmetic surgery); and (b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.) (See para TN.8.102 of explanatory notes to this Category) Fee: \$1,470.95 Benefit: 75% = \$1103.25	
45589	Autologous fat grafting (harvesting, preparation and injection of adipocytes) if: (a) the autologous fat grafting is for either or both of the following purposes: (i) the correction of asymmetry arising from volume and contour defects in craniofacial disorders—up to a total of 4 services if each service is provided at least 3 months after the previous service; (ii) the treatment of burn scar or associated skin graft in the context of scar contracture, contour deformity or neuropathic pain, for patients who have undergone a minimum of 3 months of topical therapies, including silicone and pressure therapy, with an unsatisfactory or minimal level of improvement—up to a total of 4 services per region of the body (upper or lower limbs, trunk, neck or face) if each service provided per region of the body is provided at least 3 months after the previous such service; and (b) both: (i) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes; and (ii) for craniofacial disorders, evidence of diagnosis of the qualifying craniofacial disorder is documented in the patient notes (H) (Anaes.) Fee: \$695.35 Benefit: 75% = \$521.55	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45590	Orbital cavity, reconstruction of wall or floor, with or without bone graft, cartilage graft or foreign implant, other than a service associated with a service to which item 45594 applies on the same side (H) (Anaes.) (Assist.) Fee: \$531.95 Benefit: 75% = \$399.00	
45596	Hemimaxillectomy (H) (Anaes.) (Assist.) (See para TN.8.264 of explanatory notes to this Category) Fee: \$991.10 Benefit: 75% = \$743.35	
45597	Total maxillectomy (bilateral) (H) (Anaes.) (Assist.) (See para TN.8.264 of explanatory notes to this Category) Fee: \$1,326.75 Benefit: 75% = \$995.10	
45599	Mandible, total resection of, other than a service associated with a service to which item 45608 applies (H) (Anaes.) (Assist.) Fee: \$1,030.90 Benefit: 75% = \$773.20	
45602	MANDIBLE, including lower border, OR MAXILLA, sub-total resection of (Anaes.) (Assist.) Fee: \$769.90 Benefit: 75% = \$577.45	
45605	MANDIBLE OR MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10	
45608	Mandible, segmental mandibular or maxilla reconstruction with bone graft, not being a service associated with a service to which item 45599 applies (H) (Anaes.) (Assist.) Fee: \$910.65 Benefit: 75% = \$683.00	
45609	Mandible, maxilla or skull base, reconstruction of, using bony free flap, all osteotomies, shaping, inset and fixation by any means, including all necessary 3 dimensional planning, if performed in conjunction with one or more services covered by items 46060 to 46068 (H) (Anaes.) (Assist.) (See para TN.8.267 of explanatory notes to this Category) Fee: \$910.65 Benefit: 75% = \$683.00	
45611	Mandible, condylectomy of (H) (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15	
Amend 45614	Eyelid, reconstruction of a defect (greater than one quarter of the length of the lid) involving all 3 layers of the eyelid, if unable to be closed by direct suture or wedge excision, including all flaps and grafts that may be required (H) (Anaes.) (Assist.) Fee: \$918.05 Benefit: 75% = \$688.55 Extended Medicare Safety Net Cap: \$734.45	
45617	Upper eyelid, reduction of, if: (a) the reduction is for any of the following: (i) history of a demonstrated visual impairment; (ii) intertriginous inflammation of the eyelid;	

T8. SURGICAL OPERATIONS

13. PLASTIC AND RECONSTRUCTIVE SURGERY

	<p>(iii) herniation of orbital fat in exophthalmos;</p> <p>(iv) facial nerve palsy;</p> <p>(v) post-traumatic scarring;</p> <p>(vi) the restoration of symmetry of contralateral upper eyelid in respect of one of the conditions mentioned in subparagraphs (i) to (v); and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.103 of explanatory notes to this Category) Fee: \$258.75 Benefit: 75% = \$194.10 85% = \$219.95 Extended Medicare Safety Net Cap: \$207.00</p>
45620	<p>Lower eyelid, reduction of, if:</p> <p>(a) the reduction is for:</p> <p> (i) herniation of orbital fat in exophthalmos, facial nerve palsy or post-traumatic scarring; or</p> <p> (ii) the restoration of symmetry of the contralateral lower eyelid in respect of one of these conditions; and</p> <p>(b) photographic and/or diagnostic imaging evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.103 of explanatory notes to this Category) Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10 Extended Medicare Safety Net Cap: \$287.15</p>
45623	<p>Ptosis of upper eyelid (unilateral), correction of, by:</p> <p>(a) sutured elevation of the tarsal plate on the eyelid retractors (Muller’s or levator muscle or levator aponeurosis); or</p> <p>(b) sutured suspension to the brow/frontalis muscle;</p> <p>Not applicable to a service for repair of mechanical ptosis to which item 45617 applies (Anaes.) (Assist.)</p> <p>Fee: \$795.80 Benefit: 75% = \$596.85 85% = \$697.10 Extended Medicare Safety Net Cap: \$636.65</p>
45624	<p>Ptosis of upper eyelid, correction of, by:</p> <p>(a) sutured elevation of the tarsal plate on the eyelid retractors (Muller’s or levator muscle or levator aponeurosis); or</p> <p>(b) sutured suspension to the brow/frontalis muscle;</p> <p>if a previous ptosis surgery has been performed on that side (Anaes.) (Assist.)</p> <p>Fee: \$1,031.85 Benefit: 75% = \$773.90 85% = \$933.15 Extended Medicare Safety Net Cap: \$825.50</p>

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45625	<p>PTOSIS of eyelid, correction of eyelid height by revision of levator sutures within one week of primary repair by levator resection or advancement, performed in the operating theatre of a hospital (Anaes.)</p> <p>Fee: \$206.45 Benefit: 75% = \$154.85</p>	
45626	<p>Ectropion or entropion, not caused by trachoma, correction of (unilateral) (Anaes.)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>	
45627	<p>Ectropion or entropion, caused by trachoma, correction of (unilateral) (Anaes.)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>	
45629	<p>SYMBLEPHARON, grafting for (Anaes.) (Assist.)</p> <p>Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30</p>	
45632	<p>Rhinoplasty, partial, involving correction of one or both lateral cartilages, one or both alar cartilages or one or both lateral cartilages and alar cartilages, if:</p> <p>(a) the indication for surgery is:</p> <p style="padding-left: 40px;">(i) airway obstruction and the patient has a self reported NOSE Scale score of greater than 45; or</p> <p style="padding-left: 40px;">(ii) significant acquired, congenital or developmental deformity; and</p> <p>(b) photographic and/or NOSE Scale evidence demonstrating the clinical need for this service is documented in the patient notes</p> <p>(Anaes.)</p> <p>(See para TN.8.104 of explanatory notes to this Category)</p> <p>Fee: \$563.50 Benefit: 75% = \$422.65 85% = \$479.00</p> <p>Extended Medicare Safety Net Cap: \$450.80</p>	
45635	<p>Rhinoplasty, partial, involving correction of bony vault only, if:</p> <p>(a) the indication for surgery is:</p> <p style="padding-left: 40px;">(i) airway obstruction and the patient has a self-reported NOSE Scale score of greater than 45; or</p> <p style="padding-left: 40px;">(ii) significant acquired, congenital or developmental deformity; and</p> <p>(b) photographic and/or NOSE Scale evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.)</p> <p>(See para TN.8.104 of explanatory notes to this Category)</p> <p>Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75</p> <p>Extended Medicare Safety Net Cap: \$517.40</p>	
45641	<p>Rhinoplasty, total, including correction of all bony and cartilaginous elements of the external nose, with or without autogenous cartilage or bone graft from a local site (nasal), if:</p> <p>(a) the indication for surgery is:</p> <p style="padding-left: 40px;">(i) airway obstruction and the patient has a self-reported NOSE Scale score of greater than 45; or</p> <p style="padding-left: 40px;">(ii) significant acquired, congenital or developmental deformity; and</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	(b) photographic and/or NOSE Scale evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (See para TN.8.104 of explanatory notes to this Category) Fee: \$1,173.35 Benefit: 75% = \$880.05	
45644	Rhinoplasty, total, including correction of all bony and cartilaginous elements of the external nose involving autogenous bone or cartilage graft obtained from distant donor site, including obtaining of graft, if: (a) the indication for surgery is: (i) airway obstruction and the patient has a self-reported NOSE Scale score of greater than 45; or (ii) significant acquired, congenital or developmental deformity; and (b) photographic and/or NOSE Scale evidence demonstrating the clinical need for this service is documented in the patient notes; other than a service associated with a service to which item 45718 applies (H) (Anaes.) (Assist.) (See para TN.8.104 of explanatory notes to this Category) Fee: \$1,408.25 Benefit: 75% = \$1056.20	
45645	CHOANAL ATRESIA, repair of by puncture and dilatation (Anaes.) Fee: \$246.10 Benefit: 75% = \$184.60	
45646	CHOANAL ATRESIA - correction by open operation with bone removal (Anaes.) (Assist.) Fee: \$991.10 Benefit: 75% = \$743.35 85% = \$892.40	
45650	Rhinoplasty, revision of, if: (a) the indication for surgery is: (i) airway obstruction and the patient has a self-reported NOSE Scale score of greater than 45; or (ii) significant acquired, congenital or developmental deformity; and (b) photographic and/or NOSE Scale evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (See para TN.8.104 of explanatory notes to this Category) Fee: \$162.60 Benefit: 75% = \$121.95 85% = \$138.25	
45652	Rhinophyma of a moderate or severe degree, carbon dioxide laser or erbium laser excision - ablation of (Anaes.) Fee: \$392.25 Benefit: 75% = \$294.20 85% = \$333.45 Extended Medicare Safety Net Cap: \$313.80	
45653	RHINOPHYMA, shaving of (Anaes.) Fee: \$392.25 Benefit: 75% = \$294.20 85% = \$333.45	
45656	COMPOSITE GRAFT (Chondrocutaneous or chondromucosal) to nose, ear or eyelid (Anaes.) (Assist.) Fee: \$552.80 Benefit: 75% = \$414.60 85% = \$469.90	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45658	<p>Correction of a congenital deformity of the ear if:</p> <p>(a) the congenital deformity is not related to a prominent ear; and</p> <p>(b) the deformity has been clinically diagnosed as a constricted ear, Stahl's ear, or a similar congenital deformity; and</p> <p>(c) photographic evidence demonstrating the clinical need for this service is documented in the patient notes. (Anaes.) (Assist.)</p> <p>Fee: \$573.80 Benefit: 75% = \$430.35</p>	
45659	<p>Correction of a congenital deformity of the ear if:</p> <p>(a) the patient is less than 18 years of age; and</p> <p>(b) the deformity is characterised by an absence of the antihelical fold and/or large scapha and/or large concha; and</p> <p>(c) photographic evidence demonstrating the clinical need for this service is documented in the patient notes (Anaes.) (Assist.)</p> <p>Fee: \$573.80 Benefit: 75% = \$430.35</p>	
45660	<p>External ear, complex total reconstruction of, using costal cartilage grafts to form a framework, including the harvesting and sculpturing of the cartilage and its insertion, for congenital absence, microtia or post-traumatic loss of entire or substantial portion of pinna (first stage) - performed by a specialist in the practice of the specialist's specialty (H) (Anaes.) (Assist.)</p> <p>Fee: \$3,168.60 Benefit: 75% = \$2376.45</p>	
45661	<p>External ear, complex total reconstruction of, elevation of costal cartilage framework using cartilage previously stored in abdominal wall, including the use of local skin and fascia flaps and skin graft to cover cartilage (second stage) - performed by a specialist in the practice of the specialist's specialty (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,408.25 Benefit: 75% = \$1056.20</p>	
45665	<p>Lip, eyelid or ear, full thickness wedge excision of, with repair by direct sutures, excluding eyelid wedge when performed in conjunction with a cosmetic eyelid procedure (Anaes.)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>	
45668	<p>VERMILIONECTOMY, by surgical excision (Anaes.)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>	
45669	<p>Vermilionectomy for biopsy-confirmed cellular atypia, using carbon dioxide laser or erbium laser excision - ablation (Anaes.)</p> <p>(See para TN.8.106 of explanatory notes to this Category)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>	
Amend 45671	<p>Lip or eyelid reconstruction, single stage or first stage of a two-stage flap reconstruction of a defect involving all 3 layers of tissue, if the flap is switched from the opposing lip or eyelid respectively (H) (Anaes.) (Assist.)</p> <p>Fee: \$918.05 Benefit: 75% = \$688.55</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	Lip or eyelid reconstruction, second stage of a two-stage flap reconstruction, division of the pedicle and inset of flap and closure of the donor (Anaes.)	
45674	Fee: \$267.05	Benefit: 75% = \$200.30 85% = \$227.00
	MACROCHEILIA or macroglossia, operation for (Anaes.) (Assist.)	
45675	Fee: \$531.95	Benefit: 75% = \$399.00
	MACROSTOMIA, operation for (Anaes.) (Assist.)	
45676	Fee: \$633.25	Benefit: 75% = \$474.95
	Cleft lip, unilateral—primary repair of nasolabial complex, one stage, without anterior palate repair (H) (Anaes.) (Assist.)	
45677	Fee: \$628.40	Benefit: 75% = \$471.30
	Cleft lip, unilateral—primary repair of nasolabial complex, one stage, with anterior palate repair (H) (Anaes.) (Assist.)	
45680	Fee: \$819.50	Benefit: 75% = \$614.65
	Cleft lip, bilateral—primary repair of nasolabial complex, one stage, without anterior palate repair (H) (Anaes.) (Assist.)	
45683	Fee: \$910.40	Benefit: 75% = \$682.80
	Cleft lip, bilateral—primary repair of nasolabial complex, one stage, with anterior palate repair (H) (Anaes.) (Assist.)	
45686	Fee: \$1,074.55	Benefit: 75% = \$805.95
	CLEFT LIP, lip adhesion procedure, unilateral or bilateral (Anaes.) (Assist.)	
45689	Fee: \$288.15	Benefit: 75% = \$216.15
	CLEFT LIP, partial revision, including minor flap revision alignment and adjustment, including revision of minor whistle deformity if performed (Anaes.)	
45692	Fee: \$331.05	Benefit: 75% = \$248.30 85% = \$281.40
	CLEFT LIP, total revision, including major flap revision, muscle reconstruction and revision of major whistle deformity (Anaes.) (Assist.)	
45695	Fee: \$538.00	Benefit: 75% = \$403.50
	CLEFT LIP, primary columella lengthening procedure, bilateral (Anaes.)	
45698	Fee: \$504.95	Benefit: 75% = \$378.75
	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), first stage (Anaes.) (Assist.)	
45701	Fee: \$910.65	Benefit: 75% = \$683.00
	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), second stage (Anaes.)

45761	Genioplasty, including transposition of nerves and vessels and bone grafts taken from the same site, if: (a) the deformity: (i) is secondary to congenital absence of tissue; or (ii) has arisen from trauma (other than from previous cosmetic surgery) or a diagnosed pathological process; and (b) the service is required for maintaining lip competency; and (c) sufficient photographic evidence demonstrating the clinical need for the service is included in patient notes (H) (Anaes.) (Assist.) (See para TN.8.108 of explanatory notes to this Category) Fee: \$824.05 Benefit: 75% = \$618.05	
45767	Hypertelorism, correction of, using intracranial approach (H) (Anaes.) (Assist.) Fee: \$2,764.60 Benefit: 75% = \$2073.45	
45773	Syndromic orbital dystopia, such as Treacher Collins Syndrome, bilateral facial or periorbital reconstruction, with bone grafts from a distant site (H) (Anaes.) (Assist.) Fee: \$1,929.95 Benefit: 75% = \$1447.50	
45776	ORBITAL DYSTOPIA (UNILATERAL), CORRECTION OF, with total repositioning of 1 orbit, intracranial (Anaes.) (Assist.) Fee: \$1,929.95 Benefit: 75% = \$1447.50	
45779	ORBITAL DYSTOPIA (UNILATERAL), CORRECTION OF, with total repositioning of 1 orbit, extracranial (Anaes.) (Assist.) Fee: \$1,418.95 Benefit: 75% = \$1064.25	
45782	Fronto-orbital advancement (H) (Anaes.) (Assist.) Fee: \$1,084.90 Benefit: 75% = \$813.70	
45785	Cranial vault reconstruction for single suture synostosis (H) (Anaes.) (Assist.) Fee: \$1,836.10 Benefit: 75% = \$1377.10	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45788	<p>Glenoid fossa, construction of, from bone and cartilage graft, and creation of condyle and ascending ramus of mandible, in hemifacial microsomia, not including harvesting of graft material (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,815.20 Benefit: 75% = \$1361.40</p>	
45791	<p>Absent condyle and ascending ramus in craniofacial microsomia, construction of, not including harvesting of graft material (H) (Anaes.) (Assist.)</p> <p>Fee: \$980.60 Benefit: 75% = \$735.45</p>	
45794	<p>Osseo-integration procedure, first stage, implantation of fixture, following congenital absence, tumour or trauma, other than a service associated with a service to which item 41603 applies (Anaes.)</p> <p>Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50</p>	
45797	<p>Osseo-integration procedure, second stage, fixation of transcutaneous abutment, following congenital absence, tumour or trauma, other than a service associated with a service to which item 41603 applies (Anaes.)</p> <p>Fee: \$205.30 Benefit: 75% = \$154.00 85% = \$174.55</p>	
ORAL AND MAXILLOFACIAL SURGERY		
45801	<p>Tumour, cyst, ulcer or scar (other than a scar removed during the surgical approach at an operation), in the oral cavity, removal from mucosa or submucosal tissues, if the removal is by surgical excision and suture (Anaes.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$148.55 Benefit: 75% = \$111.45 85% = \$126.30</p>	
45807	<p>TUMOUR, CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), ULCER OR SCAR (other than a scar removed during the surgical approach at an operation), in the oral and maxillofacial region, removal of, not being a service to which another item in this Subgroup applies, involving muscle, bone, or other deep tissue (Anaes.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$271.35 Benefit: 75% = \$203.55 85% = \$230.65</p>	
45809	<p>TUMOUR OR DEEP CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), in the oral and maxillofacial region, removal of, requiring wide excision, not being a service to which another item in this Subgroup applies (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$408.95 Benefit: 75% = \$306.75 85% = \$347.65</p>	
45811	<p>TUMOUR, in the oral and maxillofacial region, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, without skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p> <p>Fee: \$552.80 Benefit: 75% = \$414.60 85% = \$469.90</p>	
45813	<p>TUMOUR, in the oral and maxillofacial region, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, with skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para TN.8.109 of explanatory notes to this Category)</p>	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
	Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75	
45815	<p>Operation on: (a) mandible or maxilla (other than alveolar margins) for chronic osteomyelitis with radiological and laboratory evidence of osteomyelitis; or (b) mandible or maxilla for necrosis of the jaw from any cause including medication or radiation that requires debridement of the alveolar bone or beyond (Anaes.) (Assist.)</p> Fee: \$392.25 Benefit: 75% = \$294.20 85% = \$333.45	
45823	<p>Arch bars or similar, one or more, that were inserted for dental fixation purposes to the maxilla or mandible, removal of, requiring general anaesthesia, if the service is undertaken in the operating theatre of a hospital (H) (Anaes.)</p> Fee: \$119.85 Benefit: 75% = \$89.90	
45825	<p>MANDIBULAR OR PALATAL EXOSTOSIS, excision of (Anaes.) (Assist.)</p> Fee: \$372.45 Benefit: 75% = \$279.35 85% = \$316.60	
45827	<p>MYLOHYOID RIDGE, reduction of (Anaes.) (Assist.)</p> Fee: \$355.95 Benefit: 75% = \$267.00 85% = \$302.60	
45829	<p>MAXILLARY TUBEROSITY, reduction of (Anaes.)</p> Fee: \$271.55 Benefit: 75% = \$203.70 85% = \$230.85	
45831	<p>Papillary hyperplasia of the palate, surgical reduction of—cannot be claimed more than once per occasion of service (Anaes.) (Assist.)</p> Fee: \$355.95 Benefit: 75% = \$267.00 85% = \$302.60	
45837	<p>VESTIBULOPLASTY, submucosal or open, including excision of muscle and skin or mucosal graft when performed - unilateral or bilateral (Anaes.) (Assist.)</p> Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75	
45841	<p>ALVEOLAR RIDGE AUGMENTATION with bone or alloplast or both - unilateral (Anaes.) (Assist.)</p> Fee: \$521.40 Benefit: 75% = \$391.05 85% = \$443.20	
45845	<p>Osseo-integration procedure, intra-oral implantation of titanium or similar fixture to facilitate restoration of the dentition following: (a) resection of part of the maxilla or mandible for a benign or a malignant tumour; or (b) segmental loss from trauma or congenital absence of a segment of the maxilla or mandible (multiple adjacent teeth) Fixture must be placed at site of the missing segment following appropriate reconstructive procedures (Anaes.)</p> Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50	
45847	<p>Osseo-integration procedure, fixation of transmucosal abutment to fixtures that are placed following: (a) resection of part of the maxilla or mandible for a benign or a malignant tumour; or (b) segmental loss from trauma or congenital absence of a segment of the maxilla or mandible (multiple adjacent teeth) Fixture must be placed at site of the missing segment following appropriate reconstructive procedures (Anaes.)</p> Fee: \$205.30 Benefit: 75% = \$154.00 85% = \$174.55	

T8. SURGICAL OPERATIONS		13. PLASTIC AND RECONSTRUCTIVE SURGERY
45849	Maxillary sinus, allograft, bone graft or both, to floor of maxillary sinus following elevation of mucosal lining (sinus lift procedure), unilateral (Anaes.) (Assist.) Fee: \$639.40 Benefit: 75% = \$479.55 85% = \$543.50	
45851	Temporomandibular joint, manipulation of, as an independent procedure performed in the operating theatre of a hospital, other than a service associated with a service to which any other item in this Group applies (H) (Anaes.) Fee: \$157.45 Benefit: 75% = \$118.10	
Amend 45855	Temporomandibular joint, arthroscopy of, with or without biopsy, other than a service associated with another arthroscopic procedure of that joint (H) (Anaes.) (Assist.) Fee: \$319.80 Benefit: 75% = \$239.85	
Amend 45857	Temporomandibular joint, arthroscopy of, removal of loose bodies, debridement, or lysis and lavage or biopsy (including repositioning of meniscus where indicated)—one or more such procedures of that joint, other than a service associated with any other arthroscopic or open procedure of the temporomandibular joint (H) (Anaes.) (Assist.) Fee: \$719.65 Benefit: 75% = \$539.75	
45865	ARTHROCENTESIS, irrigation of temporomandibular joint after insertion of 2 cannuli into the appropriate joint space(s) (Anaes.) (Assist.) Fee: \$319.80 Benefit: 75% = \$239.85 85% = \$271.85	
45871	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with meniscus, capsular and condylar head surgery, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,473.25 Benefit: 75% = \$1104.95 85% = \$1374.55	
45873	Temporomandibular joint, surgery of, involving procedures to which item 45871 applies and also involving the use of tissue flaps, or cartilage graft, or allograft implants, with or without microsurgical techniques (Anaes.) (Assist.) Fee: \$1,655.50 Benefit: 75% = \$1241.65 85% = \$1556.80	
45882	The treatment of a premalignant lesion of the oral mucosa by a treatment using cryotherapy, diathermy or carbon dioxide laser. Fee: \$47.35 Benefit: 75% = \$35.55 85% = \$40.25	
45888	FOREIGN BODY, in the oral and maxillofacial region, deep, removal of using interventional imaging techniques (Anaes.) (Assist.) Fee: \$455.20 Benefit: 75% = \$341.40 85% = \$386.95	
45891	SINGLE-STAGE LOCAL FLAP where indicated, repair to 1 defect, using temporalis muscle (Anaes.) (Assist.) Fee: \$663.20 Benefit: 75% = \$497.40 85% = \$564.50	
45894	Grafting (mucosa or split skin), in the oral cavity of a mucosal defect (Anaes.) Fee: \$225.30 Benefit: 75% = \$169.00 85% = \$191.55	
45939	PERIPHERAL BRANCHES OF THE TRIGEMINAL NERVE, cryosurgery of, for pain relief (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS	13. PLASTIC AND RECONSTRUCTIVE SURGERY
Fee: \$492.10	Benefit: 75% = \$369.10 85% = \$418.30

T8. SURGICAL OPERATIONS	14. HAND SURGERY
	Group T8. Surgical Operations
	Subgroup 14. Hand Surgery
46300	<p>Arthrodesis of interphalangeal or metacarpophalangeal joint of hand, including either or both of the following (if performed):</p> <p>(a) joint debridement;</p> <p>(b) synovectomy</p> <p>—one joint (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.190 of explanatory notes to this Category)</p> <p>Fee: \$446.95 Benefit: 75% = \$335.25</p>
46303	<p>Arthrodesis of carpometacarpal joint of hand, including either or both of the following (if performed):</p> <p>(a) joint debridement;</p> <p>(b) synovectomy</p> <p>—one joint (H) (Anaes.) T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	(b) including phenolisation (if performed) (Anaes.) (Assist.) (See para TN.8.199 of explanatory notes to this Category) Fee: \$259.20 Benefit: 75% = \$194.40 85% = \$220.35	
47921	Orthopaedic pin or wire, insertion of, as an independent procedure (Anaes.) Fee: \$124.20 Benefit: 75% = \$93.15 85% = \$105.60	
47924	Removal of one or more buried wires, pins or screws (inserted for internal fixation purposes), with incision, other than a service associated with a service to which item 47927 or 47929 applies—one bone (Anaes.) (See para TN.8.179 of explanatory notes to this Category) Fee: \$41.45 Benefit: 75% = \$31.10 85% = \$35.25	
47927	Removal of one or more buried wires, pins or screws (inserted for internal fixation purposes)—one bone (H) (Anaes.) (See para TN.8.179 of explanatory notes to this Category) Fee: \$155.40 Benefit: 75% = \$116.55	
47929	Removal of fixation elements (including plate, rod or nail and associated wires, pins, screws or external fixation), other than a service associated with a service to which item 47924 or 47927 applies—one bone (H) (Anaes.) (Assist.) (See para TN.8.179 of explanatory notes to this Category) Fee: \$414.45 Benefit: 75% = \$310.85	
47953	Repair of distal biceps brachii tendon, by any method, performed as an independent procedure (Anaes.) (Assist.) Fee: \$476.55 Benefit: 75% = \$357.45 85% = \$405.10	
47954	Repair of traumatic tear or rupture of tendon, other than a service associated with: (a) a service to which item 39330 applies; or (b) a service to which another item in this Schedule applies if the service described in the other item is for the purpose of repairing peripheral nerve items in the same region (Anaes.) (Assist.) (See para TN.8.180 of explanatory notes to this Category) Fee: \$414.45 Benefit: 75% = \$310.85 85% = \$352.30	
47955	Repair of gluteal or rectus femoris tendon, by open or arthroscopic means, when performed as an independent procedure, including either or both of the following (if performed): (a) bursectomy; (b) preparation of greater trochanter; other than a service associated with a service to which another item in this Schedule applies if the service described in the other item is for the purpose of performing a procedure on the hip (H) (Anaes.) (Assist.) Fee: \$717.25 Benefit: 75% = \$537.95	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
47956	<p>Repair of proximal hamstring tendon, performed as an independent procedure, other than a service associated with a service to which another item in this Schedule applies if the service described in the other item is for the purpose of performing a procedure on the hip (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,075.85 Benefit: 75% = \$806.90</p>	
47960	<p>TENOTOMY, SUBCUTANEOUS, not being a service to which another item in this Group applies (Anaes.)</p> <p>(See para TN.8.290 of explanatory notes to this Category)</p> <p>Fee: \$145.05 Benefit: 75% = \$108.80 85% = \$123.30</p>	
47964	<p>Iliopsoas tenotomy, by open or arthroscopic means, when performed as an independent procedure, other than a service associated with a service to which another item in this Schedule applies if the service described in the other item is for the purpose of performing a procedure on the hip (H) (Anaes.) (Assist.)</p> <p>Fee: \$238.30 Benefit: 75% = \$178.75</p>	
47967	<p>Restoration of shoulder or elbow function by major muscle tendon transfer, including associated dissection of neurovascular pedicle, excluding micro-anastomosis and biceps tenodesis—one transfer (H) (Anaes.) (Assist.)</p> <p>Fee: \$476.55 Benefit: 75% = \$357.45</p>	
47975	<p>Forearm or calf, decompression fasciotomy of, for acute compartment syndrome, requiring excision of muscle and deep tissue (H) (Anaes.) (Assist.)</p> <p>Fee: \$406.35 Benefit: 75% = \$304.80</p>	
47978	<p>Forearm or calf, decompression fasciotomy of, for chronic compartment syndrome, requiring excision of muscle and deep tissue (H) (Anaes.)</p> <p>Fee: \$246.85 Benefit: 75% = \$185.15</p>	
47981	<p>Forearm, calf or interosseous muscle space of hand, decompression fasciotomy of, other than a service to which another item in this Group applies (Anaes.)</p> <p>Fee: \$165.70 Benefit: 75% = \$124.30 85% = \$140.85</p>	
47982	<p>Forage (Drill decompression), of neck or head of femur, or both (H) (Anaes.) (Assist.)</p> <p>Fee: \$401.70 Benefit: 75% = \$301.30</p>	
47983	<p>Stabilisation of slipped capital femoral epiphysis, by internal fixation (H) (Anaes.) (Assist.)</p> <p>Fee: \$953.40 Benefit: 75% = \$715.05</p>	
47984	<p>Open subcapital realignment of slipped capital femoral epiphysis, other than a service associated with a service to which item 48427 applies (H) (Anaes.) (Assist.)</p> <p>Fee: \$953.40 Benefit: 75% = \$715.05</p>	
BONE GRAFTS		
48245	<p>Harvesting and insertion of bone graft (autograft) via separate incisions and at separate surgical fields (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.177 of explanatory notes to this Category)</p> <p>Fee: \$344.25 Benefit: 75% = \$258.20</p>	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
48248	<p>Harvesting and insertion of bone graft (autograft) via separate incisions, including internal fixation of the graft or fusion fixation (or both) (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.177, TN.8.282 of explanatory notes to this Category)</p> <p>Fee: \$533.15 Benefit: 75% = \$399.90</p>	
48251	<p>Harvesting and insertion of osteochondral graft (autograft) via separate incisions at the same joint or joint complex (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.177, TN.8.282 of explanatory notes to this Category)</p> <p>Fee: \$438.75 Benefit: 75% = \$329.10</p>	
48254	<p>Harvesting and insertion of pedicled bone flap (autograft), including internal fixation of the bone flap (if performed), other than a service associated with a service to which item 45562, 45504 or 45505 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.177, TN.8.282 of explanatory notes to this Category)</p> <p>Fee: \$1,005.20 Benefit: 75% = \$753.90</p>	
48257	<p>Preparation and insertion of metallic, cortical or other graft substitute (allograft), where substitute is structural cortico-cancellous bone or structural bone (or both), including internal fixation (if performed) (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.177, TN.8.178, TN.8.282 of explanatory notes to this Category)</p> <p>Fee: \$438.75 Benefit: 75% = \$329.10</p>	
OSTEOTOMY AND OSTEECTOMY		
Amend 48400	<p>Operation on foot:</p> <p>(a) with either or both of the following:</p> <p style="padding-left: 40px;">(i) osteotomy of phalanx or metatarsal for correction of deformity;</p> <p style="padding-left: 40px;">(ii) excision of accessory bone or sesamoid bone; and</p> <p>(b) including any of the following (if performed):</p> <p style="padding-left: 40px;">(i) removal of bone;</p> <p style="padding-left: 40px;">(ii) excision of surrounding osteophytes;</p> <p style="padding-left: 40px;">(iii) synovectomy;</p> <p style="padding-left: 40px;">(iv) joint release;</p> <p>—one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168, TN.8.200, TN.8.223, TN.8.196, TN.8.199 of explanatory notes to this Category)</p> <p>Fee: \$362.75 Benefit: 75% = \$272.10</p>	
Amend 48403	<p>Osteotomy of phalanx of first toe or metatarsal, for correction of deformity, with internal fixation, including any of the following (if performed):</p> <p>(a) removal of bone;</p> <p>(b) excision of surrounding osteophytes;</p> <p>(c) synovectomy;</p>	

T8. SURGICAL OPERATIONS

15. ORTHOPAEDIC

	<p>(d) joint release; —one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168, TN.8.200, TN.8.223, TN.8.196, TN.8.199 of explanatory notes to this Category) Fee: \$569.95 Benefit: 75% = \$427.50</p>
48406	<p>Osteotomy of fibula, radius, ulna, clavicle, scapula (other than acromion), rib, tarsus or carpus, for correction of deformity, including any of the following (if performed):</p> <p>(a) removal of bone; (b) excision of surrounding osteophytes; (c) synovectomy; (d) joint release; —one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168, TN.8.200, TN.8.196, TN.8.190 of explanatory notes to this Category) Fee: \$362.75 Benefit: 75% = \$272.10</p>
48409	<p>Osteotomy of fibula, radius, ulna, clavicle, scapula (other than acromion), rib, tarsus or carpus, for correction of deformity, with internal fixation, including any of the following (if performed):</p> <p>(a) removal of bone; (b) excision of surrounding osteophytes; (c) synovectomy; (d) joint release; —one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168, TN.8.200, TN.8.196, TN.8.190 of explanatory notes to this Category) Fee: \$569.95 Benefit: 75% = \$427.50</p>
48412	<p>Osteotomy of humerus, without internal fixation (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$694.15 Benefit: 75% = \$520.65</p>
48415	<p>Osteotomy of humerus, with internal fixation (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$880.80 Benefit: 75% = \$660.60</p>
48419	<p>Osteotomy of distal tibia, for correction of deformity, without internal or external fixation, including any of the following (if performed):</p> <p>(a) excision of surrounding osteophytes; (b) release of joint; (c) removal of bone; (d) synovectomy;</p>

T8. SURGICAL OPERATIONS

15. ORTHOPAEDIC

	<p>—one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.200 of explanatory notes to this Category) Fee: \$694.15 Benefit: 75% = \$520.65</p>
48420	<p>Osteotomy of distal tibia, for correction of deformity, with internal or external fixation by any method, including any of the following (if performed):</p> <p>(a) excision of surrounding osteophytes;</p> <p>(b) release of joint;</p> <p>(c) removal of bone;</p> <p>(d) synovectomy;</p> <p>—one bone (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.200 of explanatory notes to this Category) Fee: \$880.80 Benefit: 75% = \$660.60</p>
48421	<p>Osteotomy of proximal tibia, to alter lower limb alignment or rotation (or both), with internal or external fixation (or both) (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168, TN.8.196 of explanatory notes to this Category) Fee: \$1,011.65 Benefit: 75% = \$758.75</p>
48422	<p>Osteotomy of distal femur, to alter lower limb alignment or rotation (or both), with internal or external fixation (or both) (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$1,005.20 Benefit: 75% = \$753.90</p>
48423	<p>Osteotomy of pelvis, in a patient aged 18 years or over, including any of the following (if performed):</p> <p>(a) associated intra-articular procedures;</p> <p>(b) bone grafting;</p> <p>(c) internal fixation</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$829.10 Benefit: 75% = \$621.85</p>
48424	<p>Osteotomy of pelvis, in a patient aged less than 18 years, with application of hip spica, including internal fixation (if performed), other than a service to which item 48245, 48248, 48251, 48254 or 48257 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$829.10 Benefit: 75% = \$621.85</p>
48426	<p>Osteotomy of femur, in a patient aged 18 years or over, including either or both of the following (if performed):</p> <p>(a) bone grafting;</p> <p>(b) internal fixation</p>

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	<p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.168 of explanatory notes to this Category) Fee: \$1,005.20 Benefit: 75% = \$753.90</p>

LIMB LENGTHENING AND DEFORMITY CORRECTION		
50245	<p>Revision of reconstructive procedure, if item 50215, 50218 or 50224, or an item that describes a service substantially similar to any of those items, applied to the initial procedure, by any technique or combination of techniques (H) (Anaes.) (Assist.)</p> <p>Fee: \$2,798.00 Benefit: 75% = \$2098.50</p>	
50300	<p>Gradual correction of joint deformity, with application of external fixator (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.193 of explanatory notes to this Category)</p> <p>Fee: \$1,274.25 Benefit: 75% = \$955.70</p>	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50303	<p>Limb lengthening, by gradual distraction, with application of external fixator or intra-medullary device (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.193 of explanatory notes to this Category)</p> <p>Fee: \$1,739.75 Benefit: 75% = \$1304.85</p>	
50306	<p>Bipolar limb lengthening:</p> <p>(a) with application of external fixator or intra-medullary device; and</p> <p>(b) by any of the following:</p> <p style="padding-left: 40px;">(i) gradual distraction;</p> <p style="padding-left: 40px;">(ii) bone transport;</p> <p style="padding-left: 40px;">(iii) fixator extension, to correct for an adjacent joint deformity</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.193 of explanatory notes to this Category)</p> <p>Fee: \$2,716.40 Benefit: 75% = \$2037.30</p>	
50309	<p>Ring fixator or similar device, adjustment of, with or without insertion or removal of fixation pins, performed under general anaesthesia, other than a service to which item 50303 or 50306 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.193 of explanatory notes to this Category)</p> <p>Fee: \$335.80 Benefit: 75% = \$251.85</p>	
50310	<p>Major adjustment of ring fixator or similar device, other than a service associated with a service to which item 50303, 50306, or 50309 applies</p> <p>(See para TN.8.192 of explanatory notes to this Category)</p> <p>Fee: \$48.05 Benefit: 75% = \$36.05 85% = \$40.85</p>	
50312	<p>Synovectomy or debridement, and microfracture, of ankle joint for osteochondral large defect greater than 1.5cm², by arthroscopic or open means, including any of the following (if performed):</p> <p>(a) capsulotomy;</p> <p>(b) debridement or release of ligament;</p> <p>(c) debridement or release of tendon;</p> <p>other than a service associated with a service to which any of the following apply:</p> <p>(d) item 49703;</p> <p>(e) another item in this Schedule if the service described in the other item is for the purpose of performing an arthroscopic procedure of the ankle</p> <p>(H) (Anaes.) (Assist.)</p> <p>(See para TN.8.202 of explanatory notes to this Category)</p> <p>Fee: \$827.95 Benefit: 75% = \$621.00</p>	
50321	<p>Release of soft tissue of talipes equinovarus, by open means (H) (Anaes.) (Assist.)</p> <p>Fee: \$1,022.35 Benefit: 75% = \$766.80</p>	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50324	Revision of release of soft tissue of talipes equinovarus, by open means (H) (Anaes.) (Assist.) Fee: \$1,457.55 Benefit: 75% = \$1093.20	
50330	Post-operative manipulation, and change of plaster, of vertical, congenital talipes equinovarus or talus, other than a service to which item 50321 or 50324 applies (H) (Anaes.) Fee: \$251.70 Benefit: 75% = \$188.80	
50333	Excision of tarsal coalition, with interposition of muscle, fat graft or similar graft, including any of the following (if performed): (a) capsulotomy; (b) synovectomy; (c) excision of osteophytes; —one coalition (H) (Anaes.) (Assist.) Fee: \$678.90 Benefit: 75% = \$509.20	
50335	Treatment of vertical, congenital talus, by percutaneous or open stabilisation of talonavicular joint and Achilles' tenotomy (H) (Anaes.) (Assist.) Fee: \$678.90 Benefit: 75% = \$509.20	
50336	Talus, vertical, congenital, combined anterior and posterior reconstruction (H) (Anaes.) (Assist.) Fee: \$1,014.90 Benefit: 75% = \$761.20	
50339	Tibialis anterior or tibialis posterior tendon transfer (split or whole) (H) (Anaes.) (Assist.) Fee: \$649.95 Benefit: 75% = \$487.50	
50345	Hyperextension deformity of toe, release incorporating V-Y plasty of skin, lengthening of extensor tendons and release of capsule contracture (H) (Anaes.) (Assist.) Fee: \$381.55 Benefit: 75% = \$286.20	
50348	Knee, deformity of, post-operative manipulation and change of plaster, performed under general anaesthesia (H) (Anaes.) Fee: \$251.70 Benefit: 75% = \$188.80	
50351	Treatment of developmental dislocation of hip, by open reduction, including application of hip spica (H) (Anaes.) (Assist.) Fee: \$1,758.10 Benefit: 75% = \$1318.60	
50352	Treatment of developmental dysplasia of hip, including supervision of initial application of splint, harness or cast, other than a service to which another item in this Group applies (Anaes.) Fee: \$62.15 Benefit: 75% = \$46.65 85% = \$52.85	
50354	Resection and fixation of congenital pseudarthrosis of tibia (Anaes.) (Assist.) Fee: \$1,442.00 Benefit: 75% = \$1081.50 85% = \$1343.30	
50357	Transfer of tendon of rectus femoris or medial or lateral hamstring (H) (Anaes.) (Assist.) Fee: \$618.05 Benefit: 75% = \$463.55	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50360	Combined medial and lateral hamstring tendon transfer (H) (Anaes.) (Assist.) Fee: \$717.25 Benefit: 75% = \$537.95	
50369	Unilateral posterior release of knee contracture, with multiple tendon lengthening or tenotomies, including release of joint capsule (if performed), other than a service associated with a service to which another item of this Schedule applies if the service described in the other item is for the purpose of knee replacement (H) (Anaes.) (Assist.) Fee: \$717.25 Benefit: 75% = \$537.95	
50372	Bilateral posterior release of knee contracture, with multiple tendon lengthening or tenotomies, including release of joint capsule (if performed), other than a service associated with a service to which another item of this Schedule applies if the service described in the other item is for the purpose of knee replacement (H) (Anaes.) (Assist.) Fee: \$1,259.00 Benefit: 75% = \$944.25	
50375	Unilateral medial release of hip contracture, with lengthening or division of the adductors and psoas, including division of obturator nerve (if performed) (H) (Anaes.) (Assist.) Fee: \$549.35 Benefit: 75% = \$412.05	
50378	Bilateral medial release of hip contracture, with lengthening or division of adductors and psoas, including division of obturator nerve (if performed) (H) (Anaes.) (Assist.) Fee: \$961.45 Benefit: 75% = \$721.10	
50381	Unilateral anterior release of hip contracture, with lengthening or division of hip flexors and psoas, including division of joint capsule (if performed) (H) (Anaes.) (Assist.) Fee: \$717.25 Benefit: 75% = \$537.95	
50384	Bilateral anterior release of hip contracture, with lengthening or division of hip flexors and psoas, including division of joint capsule (if performed) (H) (Anaes.) (Assist.) Fee: \$1,259.00 Benefit: 75% = \$944.25	
50390	Application of cast under general anaesthesia, for patient with perthes, cerebral palsy, or other neuromuscular conditions, affecting hips or knees (H) (Anaes.) Fee: \$251.70 Benefit: 75% = \$188.80	
50393	Acetabular shelf procedure, other than a service associated with a service to which another item of this Schedule applies if the service in the other item is for the purpose of performing arthroplasty on the hip (H) (Anaes.) (Assist.) Fee: \$930.85 Benefit: 75% = \$698.15	
50394	Multiple peri-acetabular osteotomy, including internal fixation (if performed) (H) (Anaes.) (Assist.) Fee: \$3,057.05 Benefit: 75% = \$2292.80	
50396	Amputation of congenital abnormalities or duplication of digits of the hand or foot, including any of the following (if performed): (a) splitting of phalanx or phalanges; (b) ligament reconstruction; (c) joint reconstruction	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	(H) (Anaes.) (Assist.) Fee: \$511.40 Benefit: 75% = \$383.55	
50399	Forearm, radial aplasia or dysplasia (radial club hand), centralisation or radialisation of (H) (Anaes.) (Assist.) Fee: \$1,014.90 Benefit: 75% = \$761.20	
50411	Lower limb deficiency, treatment of congenital deficiency of the femur by resection of the distal femur and proximal tibia followed by knee fusion (Anaes.) (Assist.) Fee: \$1,442.00 Benefit: 75% = \$1081.50 85% = \$1343.30	
50414	Lower limb deficiency, treatment of congenital deficiency of the femur by resection of the distal femur and proximal tibia followed by knee fusion and rotationplasty (Anaes.) (Assist.) Fee: \$1,945.65 Benefit: 75% = \$1459.25 85% = \$1846.95	
50417	Lower limb deficiency, treatment of congenital deficiency of the tibia by reconstruction of the knee, involving transfer of fibula or tibia, and repair of quadriceps mechanism (Anaes.) (Assist.) Fee: \$1,442.00 Benefit: 75% = \$1081.50 85% = \$1343.30	
50420	Patella, congenital dislocation of, reconstruction of the quadriceps (H) (Anaes.) (Assist.) Fee: \$1,190.25 Benefit: 75% = \$892.70	
50423	Tibia, fibula or both, congenital deficiency of, transfer of the fibula to tibia, with internal fixation (Anaes.) (Assist.) Fee: \$1,098.70 Benefit: 75% = \$824.05 85% = \$1000.00	
50426	Removal of one or more lesions from bone, for osteochondroma occurring solitary or in association with hereditary multiple exotoses, with histological examination—one approach (H) (Anaes.) (Assist.) Fee: \$511.40 Benefit: 75% = \$383.55	
50428	Percutaneous drilling of osteochondritis dessicans or other osteochondral lesion, for a patient: (a) with open growth plates; or (b) less than 18 years of age (H) (Anaes.) (Assist.) Fee: \$853.70 Benefit: 75% = \$640.30	
SINGLE EVEN MULTILEVEL SURGERY FOR CHILDREN WITH CEREBRAL PALSY		
50450	Unilateral single event multilevel surgery, for a patient less than 18 years of age with hemiplegic cerebral palsy, comprising 3 or more of the following: (a) lengthening of a contracted muscle tendon unit or units by tendon lengthening, muscle recession, fractional lengthening or intramuscular lengthening; (b) correction of muscle imbalance by transfer of a tendon or tendons; (c) correction of femoral torsion by rotational osteotomy of the femur; (d) correction of tibial torsion by rotational osteotomy of the tibia;

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50528	<p>Radius or ulna, shaft of, with open growth plate, treatment of fracture of, in conjunction with dislocation of distal radio-ulnar joint or proximal radio-humeral joint (Galeazzi or Monteggia injury), by reduction with or without internal fixation by open or percutaneous means (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118, TN.8.190 of explanatory notes to this Category)</p> <p>Fee: \$725.35 Benefit: 75% = \$544.05</p>	
50532	<p>Treatment of fracture of shafts of radius or ulna (or both), by closed reduction, for a patient with open growth plate (H) (Anaes.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$631.10 Benefit: 75% = \$473.35</p>	
50536	<p>Treatment of fracture of shafts of radius or ulna (or both), by open or closed reduction, with internal fixation, for a patient with open growth plate (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$841.45 Benefit: 75% = \$631.10</p>	
50540	<p>Olecranon, with open growth plate, treatment of fracture of, by open reduction (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$580.45 Benefit: 75% = \$435.35</p>	
50544	<p>Radius, with open growth plate, treatment of fracture of head or neck of, by closed reduction of (Anaes.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$290.15 Benefit: 75% = \$217.65 85% = \$246.65</p>	
50548	<p>Radius, with open growth plate, treatment of fracture of head or neck of, by reduction with or without internal fixation by open or percutaneous means (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$580.45 Benefit: 75% = \$435.35</p>	
50552	<p>Humerus, proximal, with open growth plate, treatment of fracture of, by closed reduction (H) (Anaes.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$500.55 Benefit: 75% = \$375.45</p>	
50556	<p>Treatment of fracture of proximal humerus, by open or closed reduction, with internal fixation, for a patient with open growth plate (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$667.25 Benefit: 75% = \$500.45</p>	
50560	<p>Humerus, shaft of, with open growth plate, treatment of fracture of, by closed reduction (H) (Anaes.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$522.20 Benefit: 75% = \$391.65</p>	
50564	<p>Treatment of fracture of shaft of humerus, by open or closed reduction, with internal or external fixation, for a patient with open growth plate (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$696.35 Benefit: 75% = \$522.30</p>	
50568	<p>Humerus, with open growth plate, supracondylar or condylar, treatment of fracture of, by closed reduction (H) (Anaes.)</p> <p>(See para TN.8.119, TN.8.118 of explanatory notes to this Category)</p>	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Fee: \$609.35 Benefit: 75% = \$457.05	
50572	Humerus, with open growth plate, supracondylar or condylar, treatment of fracture of, by reduction with or without internal fixation by open or percutaneous means (H) (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$812.45 Benefit: 75% = \$609.35	
50576	Treatment of fracture of femur, by closed reduction or traction, including application of hip spica (if performed), for a patient with open growth plate (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$667.25 Benefit: 75% = \$500.45 85% = \$568.55	
50580	Tibia, with open growth plate, plateau or condyles, medial or lateral, treatment of fracture of, by reduction with or without internal fixation by open or percutaneous means (H) (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$696.35 Benefit: 75% = \$522.30	
50584	Tibia, distal, with open growth plate, treatment of fracture of, by reduction with or without internal fixation by open or percutaneous means (H) (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$667.25 Benefit: 75% = \$500.45	
50588	Tibia and fibula, with open growth plates, treatment of fracture of, by internal fixation (H) (Anaes.) (Assist.) (See para TN.8.119, TN.8.118 of explanatory notes to this Category) Fee: \$870.35 Benefit: 75% = \$652.80	
50592	Treatment of fracture of shaft of femur, by open or closed reduction, with internal or external fixation, for a patient with open growth plate (H) (Anaes.) (Assist.) Fee: \$1,056.95 Benefit: 75% = \$792.75	
50596	Treatment of fracture of shaft of tibia, by open or closed reduction, including casting, for a patient with open growth plate (H) (Anaes.) (Assist.) Fee: \$330.40 Benefit: 75% = \$247.80	
SPINE SURGERY FOR SCOLIOSIS AND KYPHOSIS IN PAEDIATRIC PATIENTS		
50600	Scoliosis or kyphosis, in a child, manipulation of deformity and application of a localiser cast, under general anaesthesia, in a hospital (H) (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$478.50 Benefit: 75% = \$358.90	
50604	Scoliosis or kyphosis, in a child or adolescent, spinal fusion for (without instrumentation) (H) (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$2,030.75 Benefit: 75% = \$1523.10	
50608	Scoliosis or kyphosis, in a child or adolescent, treatment by segmental instrumentation and fusion of the spine, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.) (See para TN.8.118 of explanatory notes to this Category) Fee: \$3,772.05 Benefit: 75% = \$2829.05	

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
50612	<p>Scoliosis or kyphosis, in a child or adolescent, with spinal deformity, treatment by segmental instrumentation, utilising separate anterior and posterior approaches, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$5,365.40 Benefit: 75% = \$4024.05</p>	
50616	<p>Scoliosis, in a child or adolescent, re-exploration for adjustment or removal of segmental instrumentation used for correction of spine deformity (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$681.70 Benefit: 75% = \$511.30</p>	
50620	<p>Scoliosis, in a child or adolescent, revision of failed scoliosis surgery, involving more than one of osteotomy, fusion, removal of instrumentation or instrumentation, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$3,772.05 Benefit: 75% = \$2829.05</p>	
50624	<p>Scoliosis, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar) - not more than 4 levels (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$3,772.05 Benefit: 75% = \$2829.05</p>	
50628	<p>Scoliosis, in a child or adolescent, anterior correction of, with fusion and segmental fixation (Dwyer, Zielke or similar)—more than 4 levels (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$4,659.55 Benefit: 75% = \$3494.70</p>	
50632	<p>Scoliosis or kyphosis, in a child or adolescent, requiring segmental instrumentation and fusion of the spine down to and including the pelvis or sacrum, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$3,917.10 Benefit: 75% = \$2937.85</p>	
50636	<p>Scoliosis, in a child or adolescent, requiring anterior decompression of the spinal cord with vertebral resection and instrumentation in the presence of spinal cord involvement, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$4,352.30 Benefit: 75% = \$3264.25</p>	
50640	<p>Scoliosis, in a child or adolescent, congenital, resection and fusion of abnormal vertebra via an anterior or posterior approach, other than a service to which any of items 51011 to 51171 apply (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$2,405.90 Benefit: 75% = \$1804.45</p>	
50644	<p>Spine, bone graft to, for a child or adolescent, associated with surgery for correction of scoliosis or kyphosis or both (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.118 of explanatory notes to this Category)</p> <p>Fee: \$2,321.30 Benefit: 75% = \$1741.00</p>	
TREATMENT OF HIP DYSPLASIA OR DISLOCATION IN PAEDIATRIC PATIENTS		

T8. SURGICAL OPERATIONS		15. ORTHOPAEDIC
	Examination or closed reduction (or both) of hip for a patient under the age of 18 years, including any of the following (if performed):	
	(a) diagnostic injection;	
	(b) arthrography;	
	(c) application or reapplication of a hip spica	
	(H) (Anaes.) (Assist.)	
Amend 50654	(See para TN.8.118 of explanatory notes to this Category) Fee: \$546.60 Benefit: 75% = \$409.95	

T8. SURGICAL OPERATIONS		16. TISSUE ABLATION
	Group T8. Surgical Operations	
	Subgroup 16. Tissue ablation	
	Unresectable primary malignant tumour of the liver, destruction of, by percutaneous ablation (including any associated imaging services), other than a service associated with a service to which item 30419 or 50952 applies	
	(Anaes.)	
50950	Fee: \$899.35 Benefit: 75% = \$674.55 85% = \$800.65	
	Unresectable primary malignant tumour of the liver, destruction of, by open or laparoscopic ablation (including any associated imaging services), if a multi-disciplinary team has assessed that percutaneous ablation cannot be performed or is not practical because of one or more of the following clinical circumstances:	
	(a) percutaneous access cannot be achieved;	
	(b) vital organs or tissues are at risk of damage from the percutaneous ablation procedure;	
	(c) resection of one part of the liver is possible, however there is at least one primary liver tumour in an unresectable portion of the liver that is suitable for ablation;	
	other than a service associated with a service to which item 30419 or 50950 applies	
	(Anaes.)	
	(See para TN.8.120 of explanatory notes to this Category)	
50952	Fee: \$899.35 Benefit: 75% = \$674.55 85% = \$800.65	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	Group T8. Surgical Operations	
	Subgroup 17. Spinal Surgery	
	Direct spinal decompression or exposure (via a partial or a total laminectomy or a partial vertebrectomy), or a posterior spinal release, one motion segment, not being a service associated with a service to which item 51012, 51013, 51014 or 51015 applies (H) (Anaes.) (Assist.)	
51011	(See para TN.8.141, TN.8.142 of explanatory notes to this Category)	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	Fee: \$1,580.05 Benefit: 75% = \$1185.05	
51012	<p>Direct spinal decompression or exposure (via a partial or a total laminectomy or a partial vertebrectomy), or a posterior spinal release, 2 motion segments, not being a service associated with a service to which item 51011, 51013, 51014 or 51015 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$2,106.50 Benefit: 75% = \$1579.90</p>	
51013	<p>Direct spinal decompression or exposure (via a partial or a total laminectomy or a partial vertebrectomy), or a posterior spinal release, 3 motion segments, not being a service associated with a service to which item 51011, 51012, 51014 or 51015 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$2,633.20 Benefit: 75% = \$1974.90</p>	
51014	<p>Direct spinal decompression or exposure (via a partial or a total laminectomy or a partial vertebrectomy), or a posterior spinal release, 4 motion segments, not being a service associated with a service to which item 51011, 51012, 51013 or 51015 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$3,159.80 Benefit: 75% = \$2369.85</p>	
51015	<p>Direct spinal decompression or exposure (via a partial or a total laminectomy or a partial vertebrectomy), or a posterior spinal release, more than 4 motion segments, not being a service associated with a service to which item 51011, 51012, 51013 or 51014 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.142 of explanatory notes to this Category)</p> <p>Fee: \$3,686.45 Benefit: 75% = \$2764.85</p>	
51020	<p>Simple fixation of part of one vertebra (not motion segment) including pars interarticularis, spinous process or pedicle, or simple interspinous wiring between 2 adjacent vertebral levels, not being a service associated with:</p> <p>(a) interspinous dynamic stabilisation devices; or</p> <p>(b) a service to which item 51021, 51022, 51023, 51024, 51025 or 51026 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category)</p> <p>Fee: \$842.55 Benefit: 75% = \$631.95</p>	
Amend 51021	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, one motion segment, excluding vertebral body tethering for the treatment of scoliosis and not being a service associated with a service to which item 51020, 51022, 51023, 51024, 51025 or 51026 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category)</p> <p>Fee: \$1,410.25 Benefit: 75% = \$1057.70</p>	
Amend 51022	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 2 motion segments, excluding vertebral body tethering for the treatment of scoliosis and not being a service associated with a service to which item 51020, 51021, 51023, 51024, 51025 or 51026 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category)</p> <p>Fee: \$1,754.25 Benefit: 75% = \$1315.70</p>	
Amend 51023	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 3 or 4 motion segments, excluding vertebral body tethering for the treatment</p>	

T8. SURGICAL OPERATIONS	17. SPINAL SURGERY
	<p>of scoliosis and not being a service associated with a service to which item 51020, 51021, 51022, 51024, 51025 or 51026 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$2,087.65 Benefit: 75% = \$1565.75</p>
Amend 51024	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 5 or 6 motion segments, excluding vertebral body tethering for the treatment of scoliosis and not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51025 or 51026 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$2,410.10 Benefit: 75% = \$1807.60</p>
Amend 51025	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, 7 to 12 motion segments, excluding vertebral body tethering for the treatment of scoliosis and not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51024 or 51026 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$2,816.90 Benefit: 75% = \$2112.70</p>
Amend 51026	<p>Fixation of motion segment with vertebral body screw, pedicle screw or hook instrumentation including sublaminar tapes or wires, more than 12 motion segments, excluding vertebral body tethering for the treatment of scoliosis and not being a service associated with a service to which item 51020, 51021, 51022, 51023, 51024 or 51025 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.143 of explanatory notes to this Category) Fee: \$3,084.10 Benefit: 75% = \$2313.10</p>
51031	<p>Spine, posterior and/or posterolateral bone graft to, one motion segment, not being a service associated with a service to which item 51032, 51033, 51034, 51035 or 51036 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category) Fee: \$1,036.25 Benefit: 75% = \$777.20</p>
51032	<p>Spine, posterior and/or posterolateral bone graft to, 2 motion segments, not being a service associated with a service to which item 51031, 51033, 51034, 51035 or 51036 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category) Fee: \$1,243.55 Benefit: 75% = \$932.70</p>
51033	<p>Spine, posterior and/or posterolateral bone graft to, 3 motion segments, not being a service associated with a service to which item 51031, 51032, 51034, 51035 or 51036 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category) Fee: \$1,450.80 Benefit: 75% = \$1088.10</p>
51034	<p>Spine, posterior and/or posterolateral bone graft to, 4 to 7 motion segments, not being a service associated with a service to which item 51031, 51032, 51033, 51035 or 51036 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category) Fee: \$1,554.40 Benefit: 75% = \$1165.80</p>
51035	<p>Spine, posterior and/or posterolateral bone graft to, 8 to 11 motion segments, not being a service associated with a service to which item 51031, 51032, 51033, 51034 or 51036 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category) Fee: \$1,658.05 Benefit: 75% = \$1243.55</p>

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
51036	<p>Spine, posterior and/or posterolateral bone graft to, 12 or more motion segments, not being a service associated with a service to which item 51031, 51032, 51033, 51034 or 51035 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.144 of explanatory notes to this Category)</p> <p>Fee: \$1,761.65 Benefit: 75% = \$1321.25</p>	
51041	<p>Spinal fusion, anterior column (anterior, direct lateral or posterior interbody), one motion segment, not being a service associated with a service to which item 51042, 51043, 51044 or 51045 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.145 of explanatory notes to this Category)</p> <p>Fee: \$1,191.70 Benefit: 75% = \$893.80</p>	
51042	<p>Spinal fusion, anterior column (anterior, direct lateral or posterior interbody), 2 motion segments, not being a service associated with a service to which item 51041, 51043, 51044 or 51045 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.145 of explanatory notes to this Category)</p> <p>Fee: \$1,668.45 Benefit: 75% = \$1251.35</p>	
51043	<p>Spinal fusion, anterior column (anterior, direct lateral or posterior interbody), 3 motion segments, not being a service associated with a service to which item 51041, 51042, 51044 or 51045 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.145 of explanatory notes to this Category)</p> <p>Fee: \$2,085.60 Benefit: 75% = \$1564.20</p>	
51044	<p>Spinal fusion, anterior column (anterior, direct lateral or posterior interbody), 4 motion segments, not being a service associated with a service to which item 51041, 51042, 51043 or 51045 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.145 of explanatory notes to this Category)</p> <p>Fee: \$2,264.30 Benefit: 75% = \$1698.25</p>	
51045	<p>Spinal fusion, anterior column (anterior, direct lateral or posterior interbody), 5 or more motion segments, not being a service associated with a service to which item 51041, 51042, 51043 or 51044 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.145 of explanatory notes to this Category)</p> <p>Fee: \$2,383.45 Benefit: 75% = \$1787.60</p>	
51051	<p>Pedicle subtraction osteotomy, one vertebra, not being a service associated with a service to which item 51052, 51053, 51054, 51055, 51056, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,036.30 Benefit: 75% = \$1527.25</p>	
51052	<p>Pedicle subtraction osteotomy, 2 vertebrae, not being a service associated with a service to which item 51051, 51053, 51054, 51055, 51056, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,476.60 Benefit: 75% = \$1857.45</p>	
51053	<p>Vertebral column resection osteotomy performed through single posterior approach, one vertebra, not being a service associated with a service to which item 51051, 51052, 51054, 51055, 51056, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,817.75 Benefit: 75% = \$2113.35</p>	

T8. SURGICAL OPERATIONS

17. SPINAL SURGERY

51054	<p>Vertebral body, piecemeal or subtotal excision of (where piecemeal or subtotal excision is defined as removal of more than 50% of the vertebral body), one vertebra, not being a service associated with:</p> <p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51055, 51056, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$1,502.40 Benefit: 75% = \$1126.80</p>
51055	<p>Vertebral body, piecemeal or subtotal excision of (where piecemeal or subtotal excision is defined as removal of more than 50% of the vertebral body), 2 vertebrae, not being a service associated with:</p> <p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51054, 51056, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,253.65 Benefit: 75% = \$1690.25</p>
51056	<p>Vertebral body, piecemeal or subtotal excision of (where piecemeal or subtotal excision is defined as removal of more than 50% of the vertebral body), 3 or more vertebrae, not being a service associated with:</p> <p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51054, 51055, 51057, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,629.25 Benefit: 75% = \$1971.95</p>
51057	<p>Vertebral body, en bloc excision of (complete spondylectomy), one vertebra, not being a service associated with:</p> <p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51054, 51055, 51056, 51058 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,641.70 Benefit: 75% = \$1981.30</p>
51058	<p>Vertebral body, en bloc excision of (complete spondylectomy), 2 vertebrae, not being a service associated with:</p> <p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51054, 51055, 51056, 51057 or 51059 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category)</p> <p>Fee: \$2,972.40 Benefit: 75% = \$2229.30</p>
51059	<p>Vertebral body, en bloc excision of (complete spondylectomy), 3 or more vertebrae, not being a service associated with:</p>

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	<p>(a) anterior column fusion when at the same motion segment; or</p> <p>(b) a service to which item 51051, 51052, 51053, 51054, 51055, 51056, 51057 or 51058 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.146 of explanatory notes to this Category) Fee: \$3,632.35 Benefit: 75% = \$2724.30</p>	
51061	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at one motion segment, posterior and/or posterolateral bone graft, and anterior column fusion, not being a service associated with a service to which item 51062, 51063, 51064, 51065 or 51066 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$3,120.10 Benefit: 75% = \$2340.10</p>	
51062	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at 2 motion segments, posterior and/or posterolateral bone graft, and anterior column fusion, not being a service associated with a service to which item 51061, 51063, 51064, 51065 or 51066 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$4,044.35 Benefit: 75% = \$3033.30</p>	
51063	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at 3 motion segments, posterior and/or posterolateral bone graft, and anterior column fusion, not being a service associated with a service to which item 51061, 51062, 51064, 51065 or 51066 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$4,898.45 Benefit: 75% = \$3673.85</p>	
51064	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at 4 to 7 motion segments, posterior and/or posterolateral bone graft, and anterior column fusion, not being a service associated with a service to which item 51061, 51062, 51063, 51065 or 51066 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$5,451.60 Benefit: 75% = \$4088.70</p>	
51065	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at 8 to 11 motion segments, posterior and/or posterolateral bone graft, and anterior column fusion, not being a service associated with a service to which item 51061, 51062, 51063, 51064 or 51066 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$6,029.50 Benefit: 75% = \$4522.15</p>	
51066	<p>Spinal fusion, anterior and posterior, including spinal instrumentation at 12 or more motion segments, posterior and/or posterolateral bone graft, and anterior column fusion not being a service associated with a service to which item 51061, 51062, 51063, 51064 or 51065 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.147 of explanatory notes to this Category) Fee: \$6,348.35 Benefit: 75% = \$4761.30</p>	
51071	<p>Removal of intradural lesion, or primary extradural tumour or lesion, where the pathology is confirmed by histology - not including removal of synovial or juxtafacet cyst and not being a service associated with a service to which item 51072 or 51073 applies (H) (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category) Fee: \$2,751.75 Benefit: 75% = \$2063.85</p>	
51072	<p>Craniocervical junction lesion, transoral approach for, not being a service associated with a service to which item 51071 or 51073 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p>	

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	Fee: \$2,861.85 Benefit: 75% = \$2146.40	
51073	Removal of intramedullary tumour or arteriovenous malformation, not being a service associated with a service to which item 51071 or 51072 applies (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$3,632.35 Benefit: 75% = \$2724.30	
51102	Thoracoplasty in combination with thoracic scoliosis correction—3 or more ribs (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$1,302.65 Benefit: 75% = \$977.00	
51103	Odontoid screw fixation (Anaes.) (Assist.) (See para TN.8.141, TN.8.148 of explanatory notes to this Category) Fee: \$2,289.20 Benefit: 75% = \$1716.90	
51110	Spine, treatment of fracture, dislocation or fracture dislocation, with immobilisation by calipers or halo, not including application of skull tongs or calipers as part of operative positioning (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$829.10 Benefit: 75% = \$621.85 85% = \$730.40	
51111	Skull calipers or halo, insertion of, as an independent procedure (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$352.40 Benefit: 75% = \$264.30	
51112	Plaster jacket, application of, as an independent procedure (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$238.30 Benefit: 75% = \$178.75 85% = \$202.60	
51113	Halo, application of, in addition to spinal fusion for scoliosis, or other conditions (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$264.25 Benefit: 75% = \$198.20	
51114	Halo thoracic orthosis—application of both halo and thoracic jacket (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$466.45 Benefit: 75% = \$349.85	
51115	Halo femoral traction, as an independent procedure (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$466.45 Benefit: 75% = \$349.85 85% = \$396.50	
51120	Bone graft, harvesting of autogenous graft, via separate incision or via subcutaneous approach, in conjunction with spinal fusion, other than for the purposes of bone graft obtained from the cervical, thoracic, lumbar or sacral spine (Anaes.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$259.20 Benefit: 75% = \$194.40	
51130	Lumbar artificial intervertebral total disc replacement, at one motion segment only, including removal of disc and marginal osteophytes: (a) for a patient who: (i) has not had prior spinal fusion surgery at the same lumbar level; and	

T8. SURGICAL OPERATIONS	17. SPINAL SURGERY
	<p>(ii) does not have vertebral osteoporosis; and</p> <p>(iii) has failed conservative therapy; and</p> <p>(b) not being a service associated with a service to which item 51011, 51012, 51013, 51014 or 51015 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$1,974.25 Benefit: 75% = \$1480.70</p>
51131	<p>Cervical artificial intervertebral total disc replacement, at one motion segment only, including removal of disc and marginal osteophytes, for a patient who:</p> <p>(a) has not had prior spinal surgery at the same cervical level; and</p> <p>(b) is skeletally mature; and</p> <p>(c) has symptomatic degenerative disc disease with radiculopathy; and</p> <p>(d) does not have vertebral osteoporosis; and</p> <p>(e) has failed conservative therapy (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$1,191.70 Benefit: 75% = \$893.80</p>
51140	<p>Previous spinal fusion, re-exploration for, involving adjustment or removal of instrumentation up to 3 motion segments, not being a service associated with a service to which item 51141 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$487.00 Benefit: 75% = \$365.25</p>
51141	<p>Previous spinal fusion, re-exploration for, involving adjustment or removal of instrumentation more than 3 motion segments, not being a service associated with a service to which item 51140 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$901.00 Benefit: 75% = \$675.75</p>
51145	<p>Wound debridement or excision for post operative infection or haematoma following spinal surgery (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$487.00 Benefit: 75% = \$365.25</p>
51150	<p>Coccyx, excision of (Anaes.) (Assist.)</p> <p>(See para TN.8.141 of explanatory notes to this Category)</p> <p>Fee: \$490.30 Benefit: 75% = \$367.75</p>
51160	<p>Anterior exposure of thoracic or lumbar spine, one motion segment, not being a service to which item 51165 applies (Anaes.) (Assist.)</p> <p>(See para TN.8.141, TN.8.149 of explanatory notes to this Category)</p> <p>Fee: \$1,265.80 Benefit: 75% = \$949.35</p>
Amend 51165	<p>Anterior exposure of thoracic or lumbar spine, more than one motion segment, excluding vertebral body tethering for the treatment of scoliosis and not being a service to which item 51160 applies (H) (Anaes.) (Assist.)</p>

T8. SURGICAL OPERATIONS		17. SPINAL SURGERY
	(See para TN.8.141, TN.8.149 of explanatory notes to this Category) Fee: \$1,596.05 Benefit: 75% = \$1197.05	
51170	Syringomyelia or hydromyelia, craniotomy for, with or without duraplasty, intradural dissection, plugging of obex or local cerebrospinal fluid shunt (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$2,404.60 Benefit: 75% = \$1803.45	
51171	Syringomyelia or hydromyelia, treatment by direct cerebrospinal fluid shunt (for example, syringosubarachnoid shunt, syringopleural shunt or syringoperitoneal shunt) (Anaes.) (Assist.) (See para TN.8.141 of explanatory notes to this Category) Fee: \$1,009.75 Benefit: 75% = \$757.35	

T8. SURGICAL OPERATIONS		18. MYRINGOPLASTY AND TYMPANOMASTOID PROCEDURES
	Group T8. Surgical Operations	
	Subgroup 18. Myringoplasty and Tympanomastoid Procedures	
41527	Myringoplasty, by transcanal approach, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10	
41530	Myringoplasty, post-aural or endaural approach, with or without mastoid inspection, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) Fee: \$1,053.75 Benefit: 75% = \$790.35	
41533	Atticotomy without reconstruction of the bony defect, with or without myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,259.50 Benefit: 75% = \$944.65	
41536	Atticotomy with reconstruction of the bony defect, with or without myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,410.80 Benefit: 75% = \$1058.10	
41545	Mastoidectomy (cortical), other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$573.80 Benefit: 75% = \$430.35	
41551	Mastoidectomy, intact wall technique, with myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,753.50 Benefit: 75% = \$1315.15	
41554	Mastoidectomy, intact wall technique, with myringoplasty and ossicular chain reconstruction, other than a service associated with a service to which item 41603 or another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$2,066.00 Benefit: 75% = \$1549.50	
41557	Mastoidectomy (radical or modified radical), other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.)	

T8. SURGICAL OPERATIONS		18. MYRINGOPLASTY AND TYMPANOMASTOID PROCEDURES
	Fee: \$1,199.65 Benefit: 75% = \$899.75	
41560	Mastoidectomy (radical or modified radical) and myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) Fee: \$1,314.55 Benefit: 75% = \$985.95	
41563	Mastoidectomy (radical or modified radical), myringoplasty and ossicular chain reconstruction, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,627.25 Benefit: 75% = \$1220.45	
41564	Mastoidectomy (radical or modified radical), obliteration of the mastoid cavity, blind sac closure of external auditory canal and obliteration of eustachian tube, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$2,104.35 Benefit: 75% = \$1578.30	
41566	Revision of mastoidectomy (radical, modified radical or intact wall), including myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,199.65 Benefit: 75% = \$899.75	
41629	Middle ear, exploration of, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$573.80 Benefit: 75% = \$430.35	
41635	Clearance of middle ear for granuloma, cholesteatoma and polyp, one or more, with or without myringoplasty, other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,259.50 Benefit: 75% = \$944.65	
41638	Clearance of middle ear for granuloma, cholesteatoma and polyp, one or more, with or without myringoplasty with ossicular chain reconstruction other than a service associated with a service to which another item in this Subgroup applies (H) (Anaes.) (Assist.) Fee: \$1,572.15 Benefit: 75% = \$1179.15	

T8. SURGICAL OPERATIONS		19. FUNCTIONAL SINUS SURGERY
	Group T8. Surgical Operations	
		Subgroup 19. Functional Sinus Surgery
41702	Functional sinus surgery of the ostiomeatal unit, including ethmoid, unilateral, other than a service associated with a service to which item 41662, 41698, 41703, 41705, 41710 or 41764 applies on the same side (H) (Anaes.) (Assist.) Fee: \$751.10 Benefit: 75% = \$563.35	
41703	Functional sinus surgery, complete dissection of all 5 sinuses and creation of single sinus cavity, unilateral, other than a service associated with a service to which item 41662, 41698, 41702, 41705, 41710, 41734, 41737, 41752 or 41764 applies on the same side (H) (Anaes.) (Assist.) Fee: \$1,110.40 Benefit: 75% = \$832.80	

T8. SURGICAL OPERATIONS		19. FUNCTIONAL SINUS SURGERY
	Functional sinus surgery, complete dissection of all 5 sinuses to create a single sinus cavity, with extended drilling of frontal sinuses, unilateral, other than a service associated with a service to which item 41662, 41698, 41702, 41703, 41710, 41734, 41737, 41752 or 41764 applies on the same side (H) (Anaes.) (Assist.)	
41705	Fee: \$1,806.75	Benefit: 75% = \$1355.10

T8. SURGICAL OPERATIONS		20. SINUS PROCEDURES
	Group T8. Surgical Operations	
	Subgroup 20. Sinus Procedures	
	Antrostomy by any approach, other than a service associated with a service to which item 41702, 41703, 41705 or 41698 applies on the same side (H) (Anaes.) (Assist.)	
41710	Fee: \$389.45	Benefit: 75% = \$292.10
	Endoscopic Lothrop procedure or radical external frontal sinusotomy with osteoplastic flap, unilateral, other than a service associated with a service to which item 41698, 41703, 41705 or 41764 applies on the same side (H) (Anaes.) (Assist.)	
41734	Fee: \$1,116.15	Benefit: 75% = \$837.15
	Frontal sinus, unilateral, intranasal operation on, including complete dissection of frontal recess and exposure of frontal sinus ostium (excludes simple probing, dilatation or irrigation of frontal sinus), other than a service associated with a service to which item 41698, 41703, 41705 or 41764 applies on the same side (H) (Anaes.) (Assist.)	
41737	Fee: \$531.95	Benefit: 75% = \$399.00
	Sphenoidal sinus, unilateral, intranasal operation on, other than a service associated with a service to which item 41703 or 41705 applies on the same side (H) (Anaes.) (Assist.)	
41752	Fee: \$325.45	Benefit: 75% = \$244.10

T8. SURGICAL OPERATIONS		21. AIRWAY PROCEDURES
	Group T8. Surgical Operations	
	Subgroup 21. Airway Procedures	
	Septal surgery, including septoplasty, septal reconstruction, septectomy, closure of septal perforation or other modifications of the septum, not including cauterisation, by any approach, other than a service associated with a service to which item 41689, 41692 or 41693 applies (H) (Anaes.) (Assist.)	
	(See para TN.8.104 of explanatory notes to this Category)	
41671	Fee: \$577.30	Benefit: 75% = \$433.00
	Turbinate reduction, partial or total, unilateral or bilateral, other than a service associated with a service to which item 41671, 41692 or 41693 applies (Anaes.)	
41689	Fee: \$225.40	Benefit: 75% = \$169.05 85% = \$191.60
	Turbinate, submucous resection with removal of bone, unilateral or bilateral, other than a service associated with a service to which item 41671, 41689 or 41693 applies (H) (Anaes.)	
41692	Fee: \$293.95	Benefit: 75% = \$220.50

T8. SURGICAL OPERATIONS	21. AIRWAY PROCEDURES
--------------------------------	------------------------------

41693	Septal surgery with submucous resection of turbinates, unilateral or bilateral, other than a service associated with a service to which item 41671, 41689, 41692 or 41764 applies (H) (Anaes.) (Assist.) Fee: \$844.30 Benefit: 75% = \$633.25
-------	---

T9. ASSISTANCE AT OPERATIONS

	Group T9. Assistance At Operations
51300	Assistance at any operation mentioned in an item in Group T8 that includes “(Assist.)” for which the fee does not exceed \$614.55 or at a series or combination of operations mentioned in an item in Group T8 that include “(Assist.)” for which the aggregate fee does not exceed \$614.55 (See para TN.9.2, TN.9.1 of explanatory notes to this Category) Fee: \$95.00 Benefit: 75% = \$71.25 85% = \$80.75
51303	Assistance at any operation mentioned in an item in Group T8 that includes “(Assist.)” for which the fee exceeds \$614.55 or at a series or combination of operations mentioned in an item in Group T8 that include “(Assist.)” for which the aggregate fee exceeds \$614.55 (See para TN.9.1, TN.9.3 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the operation or combination of operations
51306	Assistance at a birth involving Caesarean section (See para TN.9.1 of explanatory notes to this Category) Fee: \$137.25 Benefit: 75% = \$102.95 85% = \$116.70
51309	Assistance at a series or combination of operations that include “(Assist.)” and assistance at a birth involving Caesarean section (See para TN.9.1, TN.9.4 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the operation or combination of operations (the fee for item 16520 being the Schedule fee for the Caesarean section component in the calculation of the established fee)
51312	Assistance at any interventional obstetric procedure covered by items 16606, 16609, 16612, 16615 and 16627 (See para TN.4.11, TN.9.1 of explanatory notes to this Category) Derived Fee: one fifth of the established fee for the procedure or combination of procedures
51315	Assistance at cataract and intraocular lens surgery covered by item 42698, 42701, 42702, 42704 or 42707, when performed in association with services covered by item 42551 to 42569, 42653, 42656, 42725, 42746, 42749, 42752, 42776 or 42779 (See para TN.9.1 of explanatory notes to this Category) Fee: \$299.85 Benefit: 75% = \$224.90 85% = \$254.90
51318	Assistance at cataract and intraocular lens surgery where patient has: <ul style="list-style-type: none"> - total loss of vision, including no potential for central vision, in the fellow eye; or - previous significant surgical complication in the fellow eye; or - pseudo exfoliation, subluxed lens, iridodonesis, phacodonesis, retinal detachment, corneal scarring, pre-existing uveitis, bound down miosed pupil, nanophthalmos, spherophakia, Marfan's syndrome, homocysteinuria or previous blunt trauma causing intraocular damage (See para TN.9.5, TN.9.1 of explanatory notes to this Category) Fee: \$197.90 Benefit: 75% = \$148.45 85% = \$168.25

20790	Initiation of the management of anaesthesia for procedures within the peritoneal cavity in upper abdomen, including any of the following:

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

6. UPPER ABDOMEN

	(a) open cholecystectomy; (b) gastrectomy; (c) laparoscopically assisted nephrectomy; (d) bowel shunts (8 basic units) Fee: \$174.40 Benefit: 75% = \$130.80 85% = \$148.25
20791	Initiation of the management of anaesthesia for bariatric surgery in a patient with clinically severe obesity (10 basic units) (See para TN.8.29 of explanatory notes to this Category) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20792	INITIATION OF MANAGEMENT OF ANAESTHESIA for partial hepatectomy (excluding liver biopsy) (13 basic units) Fee: \$283.40 Benefit: 75% = \$212.55 85% = \$240.90
20793	INITIATION OF MANAGEMENT OF ANAESTHESIA for extended or trisegmental hepatectomy (15 basic units) Fee: \$327.00 Benefit: 75% = \$245.25 85% = \$277.95
20794	INITIATION OF MANAGEMENT OF ANAESTHESIA for pancreatectomy, partial or total (12 basic units) Fee: \$261.60 Benefit: 75% = \$196.20 85% = \$222.40
20798	INITIATION OF MANAGEMENT OF ANAESTHESIA for neuro endocrine tumour removal in the upper abdomen (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20799	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous procedures on an intra-abdominal organ in the upper abdomen (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

7. LOWER ABDOMEN

	Group T10. Relative Value Guide For Anaesthesia - Medicare Benefits Are Only Payable For Anaesthesia Performed In Association With An Eligible Service
	Subgroup 7. Lower Abdomen
20800	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the skin or subcutaneous tissue of the lower anterior abdominal walls, not being a service to which another item in this Subgroup applies (3 basic units) Fee: \$65.40 Benefit: 75% = \$49.05 85% = \$55.60

**T10. RELATIVE VALUE GUIDE FOR
ANAESTHESIA - MEDICARE BENEFITS ARE
ONLY PAYABLE FOR ANAESTHESIA
PERFORMED IN ASSOCIATION WITH AN
ELIGIBLE SERVICE**

7. LOWER ABDOMEN

20802	INITIATION OF MANAGEMENT OF ANAESTHESIA for lipectomy of the lower abdomen (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65
20803	INITIATION OF MANAGEMENT OF ANAESTHESIA for all procedures on the nerves, muscles, tendons and fascia of the lower abdominal wall, not being a service to which another item in this Subgroup applies (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20804	INITIATION OF MANAGEMENT OF ANAESTHESIA for microvascular free tissue flap surgery involving the anterior or posterior lower abdomen (10 basic units) (See para TN.10.28 of explanatory notes to this Category) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20806	INITIATION OF MANAGEMENT OF ANAESTHESIA for laparoscopic procedures in the lower abdomen (7 basic units) Fee: \$152.60 Benefit: 75% = \$114.45 85% = \$129.75
20810	INITIATION OF MANAGEMENT OF ANAESTHESIA for lower intestinal endoscopic procedures (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20815	INITIATION OF MANAGEMENT OF ANAESTHESIA for extracorporeal shock wave lithotripsy to urinary tract (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20820	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the skin, its derivatives or subcutaneous tissue of the lower posterior abdominal wall (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65
20830	INITIATION OF MANAGEMENT OF ANAESTHESIA for hernia repairs in lower abdomen, not being a service to which another item in this Subgroup applies (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20832	INITIATION OF MANAGEMENT OF ANAESTHESIA for repair of incisional herniae and/or wound dehiscence of the lower abdomen (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20840	Initiation of the management of anaesthesia for all open procedures within the lower abdominal peritoneal cavity, including appendectomy, not being a service to which another item in this Subgroup applies (6 basic units) (See para TN.10.27 of explanatory notes to this Category) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20841	INITIATION OF MANAGEMENT OF ANAESTHESIA for bowel resection, including laparoscopic bowel resection not being a service to which another item in this Subgroup applies (8 basic units) Fee: \$174.40 Benefit: 75% = \$130.80 85% = \$148.25

**T10. RELATIVE VALUE GUIDE FOR
ANAESTHESIA - MEDICARE BENEFITS ARE
ONLY PAYABLE FOR ANAESTHESIA
PERFORMED IN ASSOCIATION WITH AN
ELIGIBLE SERVICE**

7. LOWER ABDOMEN

20842	INITIATION OF MANAGEMENT OF ANAESTHESIA for amniocentesis (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20844	INITIATION OF MANAGEMENT OF ANAESTHESIA for abdominoperineal resection, including pull through procedures, ultra low anterior resection and formation of bowel reservoir (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20845	INITIATION OF MANAGEMENT OF ANAESTHESIA for radical prostatectomy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20846	INITIATION OF MANAGEMENT OF ANAESTHESIA for radical hysterectomy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20847	INITIATION OF MANAGEMENT OF ANAESTHESIA for ovarian malignancy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20848	INITIATION OF MANAGEMENT OF ANAESTHESIA for pelvic exenteration (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20850	INITIATION OF MANAGEMENT OF ANAESTHESIA for Caesarean section (12 basic units) Fee: \$261.60 Benefit: 75% = \$196.20 85% = \$222.40
20855	INITIATION OF MANAGEMENT OF ANAESTHESIA for Caesarean hysterectomy or hysterectomy within 24 hours of birth (15 basic units) Fee: \$327.00 Benefit: 75% = \$245.25 85% = \$277.95
20860	INITIATION OF MANAGEMENT OF ANAESTHESIA for extraperitoneal procedures in lower abdomen, including those on the urinary tract, not being a service to which another item in this Subgroup applies (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20862	INITIATION OF MANAGEMENT OF ANAESTHESIA for renal procedures, including upper 1/3 of ureter (7 basic units) Fee: \$152.60 Benefit: 75% = \$114.45 85% = \$129.75
20863	INITIATION OF MANAGEMENT OF ANAESTHESIA for nephrectomy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20864	INITIATION OF MANAGEMENT OF ANAESTHESIA for total cystectomy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20866	INITIATION OF MANAGEMENT OF ANAESTHESIA for adrenalectomy (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
20867	INITIATION OF MANAGEMENT OF ANAESTHESIA for neuro endocrine tumour removal in the lower abdomen (10 basic units)

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE		7. LOWER ABDOMEN
	Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30	
20868	INITIATION OF MANAGEMENT OF ANAESTHESIA for renal transplantation (donor or recipient) (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30	
20880	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on major lower abdominal vessels, not being a service to which another item in this subgroup applies (15 basic units) Fee: \$327.00 Benefit: 75% = \$245.25 85% = \$277.95	
20882	INITIATION OF MANAGEMENT OF ANAESTHESIA for inferior vena cava ligation (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30	
20884	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous umbrella insertion (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65	
20886	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous procedures on an intra-abdominal organ in the lower abdomen (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20

ANAESTHESIA - MEDICARE BENEFITS ARE
ONLY PAYABLE FOR ANAESTHESIA
PERFORMED IN ASSOCIATION WITH AN
ELIGIBLE SERVICE**

8. PERINEUM

20932	INITIATION OF MANAGEMENT OF ANAESTHESIA for complete amputation of penis (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20934	INITIATION OF MANAGEMENT OF ANAESTHESIA for complete amputation of penis with bilateral inguinal lymphadenectomy (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20936	INITIATION OF MANAGEMENT OF ANAESTHESIA for complete amputation of penis with bilateral inguinal and iliac lymphadenectomy (8 basic units) Fee: \$174.40 Benefit: 75% = \$130.80 85% = \$148.25
20938	INITIATION OF MANAGEMENT OF ANAESTHESIA for insertion of penile prosthesis (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20940	INITIATION OF MANAGEMENT OF ANAESTHESIA for per vagina and vaginal procedures (including biopsy of vagina, cervix or endometrium), not being a service to which another item in this Subgroup applies (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20942	INITIATION OF MANAGEMENT OF ANAESTHESIA for vaginal procedures including repair operations and urinary incontinence procedures (perineal) (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65
20943	INITIATION OF MANAGEMENT OF ANAESTHESIA for transvaginal assisted reproductive services (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20944	INITIATION OF MANAGEMENT OF ANAESTHESIA for vaginal hysterectomy (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
20946	INITIATION OF MANAGEMENT OF ANAESTHESIA for vaginal birth (8 basic units) Fee: \$174.40 Benefit: 75% = \$130.80 85% = \$148.25
20948	INITIATION OF MANAGEMENT OF ANAESTHESIA for purse string ligation of cervix, or removal of purse string ligature (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
20950	INITIATION OF MANAGEMENT OF ANAESTHESIA for culdoscopy (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65
20952	INITIATION OF MANAGEMENT OF ANAESTHESIA for hysteroscopy (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE		8. PERINEUM
20954	INITIATION OF MANAGEMENT OF ANAESTHESIA for correction of inverted uterus (10 basic units) Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30	
20956	INITIATION OF MANAGEMENT OF ANAESTHESIA for evacuation of retained products of conception, as a complication of confinement (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15	
20958	INITIATION OF MANAGEMENT OF ANAESTHESIA for manual removal of retained placenta or for repair of vaginal or perineal tear following birth (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65	
20960	INITIATION OF MANAGEMENT OF ANAESTHESIA for vaginal procedures in the management of post partum haemorrhage (blood loss > 500mls) (7 basic units) Fee: \$152.60 Benefit: 75% = \$114.45 85% = \$129.75	

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE		9. PELVIS (EXCEPT HIP)
Group T10. Relative Value Guide For Anaesthesia - Medicare Benefits Are Only Payable For Anaesthesia Performed In Association With An Eligible Service		
Subgroup 9. Pelvis (Except Hip)		
21100	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the skin or subcutaneous tissue of the anterior pelvic region (anterior to iliac crest), except external genitalia (3 basic units) Fee: \$65.40 Benefit: 75% = \$49.05 85% = \$55.60	
21110	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the skin, its derivatives or subcutaneous tissue of the pelvic region (posterior to iliac crest), except perineum (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65	
21112	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous bone marrow biopsy of the anterior iliac crest (4 basic units) Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15	
21114	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous bone marrow biopsy of the posterior iliac crest (5 basic units) Fee: \$109.00 Benefit: 75% = \$81.75 85% = \$92.65	
21116	INITIATION OF MANAGEMENT OF ANAESTHESIA for percutaneous bone marrow harvesting from the pelvis (6 basic units) Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20	

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

9. PELVIS (EXCEPT HIP)

	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the bony pelvis (6 basic units)
21120	Fee: \$130.80 Benefit: 75% = \$98.10 85% = \$111.20
	INITIATION OF MANAGEMENT OF ANAESTHESIA for body cast application or revision when performed in the operating theatre of a hospital (3 basic units)
21130	Fee: \$65.40 Benefit: 75% = \$49.05 85% = \$55.60
	INITIATION OF MANAGEMENT OF ANAESTHESIA for interpelviabdominal (hind-quarter) amputation (15 basic units)
21140	Fee: \$327.00 Benefit: 75% = \$245.25 85% = \$277.95
	INITIATION OF MANAGEMENT OF ANAESTHESIA for radical procedures for tumour of the pelvis, except hind-quarter amputation (10 basic units)
21150	Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
	INITIATION OF MANAGEMENT OF ANAESTHESIA for microvascular free tissue flap surgery involving the anterior or posterior pelvis (10 basic units) (See para TN.10.28 of explanatory notes to this Category)
21155	Fee: \$218.00 Benefit: 75% = \$163.50 85% = \$185.30
	INITIATION OF MANAGEMENT OF ANAESTHESIA for closed procedures involving symphysis pubis or sacroiliac joint when performed in the operating theatre of a hospital (4 basic units)
21160	Fee: \$87.20 Benefit: 75% = \$65.40 85% = \$74.15
	INITIATION OF MANAGEMENT OF ANAESTHESIA for open procedures involving symphysis pubis or sacroiliac joint (8 basic units)
21170	Fee: \$174.40 Benefit: 75% = \$130.80 85% = \$148.25

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

10. UPPER LEG (EXCEPT KNEE)

	Group T10. Relative Value Guide For Anaesthesia - Medicare Benefits Are Only Payable For Anaesthesia Performed In Association With An Eligible Service
	Subgroup 10. Upper Leg (Except Knee)
	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on the skin or subcutaneous tissue of the upper leg (3 basic units)
21195	Fee: \$65.40 Benefit: 75% = \$49.05 85% = \$55.60
	INITIATION OF MANAGEMENT OF ANAESTHESIA for procedures on nerves, muscles, tendons, fascia or bursae of the upper leg (4 basic units)
21199	

**T10. RELATIVE VALUE GUIDE FOR
ANAESTHESIA - MEDICARE BENEFITS ARE
ONLY PAYABLE FOR ANAESTHESIA
PERFORMED IN ASSOCIATION WITH AN

---	--------------------------------------

	Group T10. Relative Value Guide For Anaesthesia - Medicare Benefits Are Only Payable For Anaesthesia Performed In Association With An Eligible Service
--	---

	Subgroup 26. Assistance At Anaesthesia
--	--

	Assistance in the management of anaesthesia requiring continuous anaesthesia on a patient in imminent danger of death requiring continuous life saving emergency treatment, to the exclusion of attendance on all other patients (5 basic units)
	(See para TN.10.9 of explanatory notes to this Category)
25200	Derived Fee: An amount of \$109.05 (5 basic units) plus an item in the range 23010 - 24136 plus, where applicable - an item in the range 25000 - 25020 plus, where performed, any associated therapeutic or diagnostic service/s in the range 22001 - 22051

	Assistance in the management of elective anaesthesia, if:
	(a) the patient has complex airway problems; or
	(b) the patient is a neonate; or
	(c) the patient is a paediatric patient and is receiving one or more of the following services:
	(i) invasive monitoring, either intravascular or transoesophageal;
	(ii) organ transplantation;
	(iii) craniofacial surgery;
	(iv) major tumour resection;
	(v) separation of conjoint twins; or
	(d) there is anticipated to be massive blood loss (greater than 50% of blood volume) during the procedure; or
	(e) the patient is critically ill, with multiple organ failure; or
	(f) the service time of the management of anaesthesia exceeds 6 hours and the assistance is provided to the exclusion of attendance on all other patients (5 basic units)
25205	(See para TN.10.9 of explanatory notes to this Category)

T10. RELATIVE VALUE GUIDE FOR ANAESTHESIA - MEDICARE BENEFITS ARE ONLY PAYABLE FOR ANAESTHESIA PERFORMED IN ASSOCIATION WITH AN ELIGIBLE SERVICE

26. ASSISTANCE AT ANAESTHESIA

	Derived Fee: An amount of \$109.05 (5 basic units) plus an item in the range 23010 - 24136 plus, where applicable - an item in the range 25000 - 25020 plus, where performed, any associated therapeutic or diagnostic service/s in the range 22001 - 22051

T11. BOTULINUM TOXIN INJECTIONS

Group T11. Botulinum Toxin Injections	
18350	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of hemifacial spasm in a patient who is at least 12 years of age, including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category)</p> <p>Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18351	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport), injection of, for the treatment of hemifacial spasm in a patient who is at least 18 years of age, including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category)</p> <p>Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18353	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox) or Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of cervical dystonia (spasmodic torticollis), including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category)</p> <p>Fee: \$274.85 Benefit: 75% = \$206.15 85% = \$233.65</p>
18354	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox) or Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport), injection of, for the treatment of dynamic equinus foot deformity (including equinovarus and equinovalgus) due to spasticity in an ambulant cerebral palsy patient, if:</p> <p>(a) the patient is at least 2 years of age; and</p> <p>(b) the treatment is for all or any of the muscles subserving one functional activity and supplied by one motor nerve, with a maximum of 4 sets of injections for the patient on any one day (with a maximum of 2 sets of injections for each lower limb), including all injections per set (Anaes.)</p> <p>(See para TN.7.5, TN.11.1 of explanatory notes to this Category)</p> <p>Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18360	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), or Clostridium Botulinum Type A Toxin Haemagglutinin Complex (Dysport), injection of, for the treatment of moderate to severe focal spasticity, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) the spasticity is associated with a previously diagnosed neurological disorder; and</p> <p>(c) treatment is provided as:</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>(i) second line therapy when standard treatment for the conditions has failed; or</p> <p>(ii) an adjunct to physical therapy; and</p> <p>(d) the treatment is for all or any of the muscles subserving one functional activity and supplied by one motor nerve, with a maximum of 4 sets of injections for the patient on any one day (with a maximum of 2 sets of injections for each limb), including all injections per set; and</p> <p>(e) the treatment is not provided on the same occasion as a service mentioned in item 18365</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18361	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of moderate to severe upper limb spasticity due to cerebral palsy if:</p> <p>(a) the patient is at least 2 years of age; and</p> <p>(b) the treatment is for all or any of the muscles subserving one functional activity and supplied by one motor nerve, with a maximum of 4 sets of injections for the patient on any one day (with a maximum of 2 sets of injections for each upper limb), including all injections per set (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18362	<p>Botulinum Toxin type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of severe primary axillary hyperhidrosis, including all injections on any one day, if:</p> <p>(a) the patient is at least 12 years of age; and</p> <p>(b) the patient has been intolerant of, or has not responded to, topical aluminium chloride hexahydrate; and</p> <p>(c) the patient has not had treatment with botulinum toxin within the immediately preceding 4 months; and</p> <p>(d) if the patient has had treatment with botulinum toxin within the previous 12 months - the patient had treatment on no more than 2 separate occasions (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$271.55 Benefit: 75% = \$203.70 85% = \$230.85</p>
18365	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox) or Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of moderate to severe spasticity of the upper limb following an acute event, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) treatment is provided as:</p> <p style="padding-left: 40px;">(i) second line therapy when standard treatment for the condition has failed; or</p> <p style="padding-left: 40px;">(ii) an adjunct to physical therapy; and</p> <p>(c) the patient does not have established severe contracture in the limb that is to be treated; and</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>(d) the treatment is for all or any of the muscles subserving one functional activity and supplied by one motor nerve, with a maximum of 4 sets of injections for the patient on any one day (with a maximum of 2 sets of injections for each upper limb), including all injections per set; and</p> <p>(e) for a patient who has received treatment on 2 previous separate occasions - the patient has responded to the treatment</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18366	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of strabismus, including all such injections on any one day and associated electromyography (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$172.15 Benefit: 75% = \$129.15 85% = \$146.35</p>
18368	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of spasmodic dysphonia, including all such injections on any one day</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$293.90 Benefit: 75% = \$220.45 85% = \$249.85</p>
18369	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$49.55 Benefit: 75% = \$37.20 85% = \$42.15</p>
18370	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of unilateral blepharospasm in a patient who is at least 12 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$49.55 Benefit: 75% = \$37.20 85% = \$42.15</p>
18372	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of bilateral blepharospasm, in a patient who is at least 12 years of age; including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18374	<p>Clostridium Botulinum Type A Toxin-Haemagglutinin Complex (Dysport) or IncobotulinumtoxinA (Xeomin), injection of, for the treatment of bilateral blepharospasm in a patient who is at least 18 years of age, including all such injections on any one day (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18375	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <p>(a) the urinary incontinence is due to neurogenic detrusor overactivity as demonstrated by urodynamic study of a patient with:</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>(i) multiple sclerosis; or</p> <p>(ii) spinal cord injury; or</p> <p>(iii) spina bifida and who is at least 18 years of age; and</p> <p>(b) the patient has urinary incontinence that is inadequately controlled by anti-cholinergic therapy, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin type A; and</p> <p>(c) the patient is willing and able to self-catheterise; and</p> <p>(d) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with; and</p> <p>(e) treatment is not provided on the same occasion as a service described in item 104, 105, 110, 116, 119, 11900 or 11919</p> <p>For each patient - applicable not more than once except if the patient achieves at least a 50% reduction in urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$253.05 Benefit: 75% = \$189.80</p>
18377	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), injection of, for the treatment of chronic migraine, including all injections in 1 day, if:</p> <p>(a) the patient is at least 18 years of age; and</p> <p>(b) the patient has experienced an inadequate response, intolerance or contraindication to at least 3 prophylactic migraine medications before commencement of treatment with botulinum toxin, as manifested by an average of 15 or more headache days per month, with at least 8 days of migraine, over a period of at least 6 months, before commencement of treatment with botulinum toxin; and</p> <p>(c) the requirements relating to botulinum toxin type A under the Pharmaceutical Benefits Scheme are complied with</p>

T11. BOTULINUM TOXIN INJECTIONS

	<p>For each patient-applicable not more than twice except if the patient achieves and maintains at least a 50% reduction in the number of headache days per month from baseline after 2 treatment cycles (each of 12 weeks duration)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85</p>
18379	<p>Botulinum Toxin Type A Purified Neurotoxin Complex (Botox), intravesical injection of, with cystoscopy, for the treatment of urinary incontinence, including all such injections on any one day, if:</p> <ul style="list-style-type: none">(a) the urinary incontinence is due to idiopathic overactive bladder in a patient: and(b) the patient is at least 18 years of age; and(c) the patient has urinary incontinence that is inadequately controlled by at least 2 alternative anti-cholinergic agents, as manifested by having experienced at least 14 episodes of urinary incontinence per week before commencement of treatment with botulinum toxin; and(d) the patient is willing and able to self-catheterise; and(e) treatment is not provided on the same occasion as a service mentioned in item 104, 105, 110, 116, 119, 11900 or 11919 <p>For each patient-applicable not more than once except if the patient achieves at least a 50% reduction in urinary incontinence episodes from baseline at any time during the period of 6 to 12 weeks after first treatment</p> <p>(H) (Anaes.)</p> <p>(See para TN.11.1 of explanatory notes to this Category) Fee: \$253.05 Benefit: 75% = \$189.80</p>

CATEGORY 4: ORAL AND MAXILLOFACIAL SERVICES

SUMMARY OF CHANGES FROM 01/03/2024

The 01/03/2024 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 01/03/2024

ORAL AND MAXILLOFACIAL SERVICES NOTES

ON.1.1 Benefits for Medical Services Performed by Approved Dental Practitioners

Under the provisions of the *Health Insurance Act 1973* (the Act), Medicare benefits are payable where an eligible person incurs medical expenses in respect of certain professional services rendered by a approved dental practitioner approved before 1 November 2004.

Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004 for the provision of oral and maxillofacial surgery services and relevant attendances.

Approved dental practitioners may also request certain diagnostic imaging services - refer to Category 5 - Diagnostic Imaging Services for more information.

ON.1.2 Changes to the Scheme Effective from 1 November 2004

From 1 November 2004, access to Category 4 is restricted to those dental practitioners who were approved by the Minister prior to 1 November 2004. No new approvals will be granted after that date.

Background

Since 2000, practitioners performing oral and maxillofacial surgery in Australia are required to have both dental and medical qualifications in order to sit for their FRACDS(OMS) exam. This effectively means that since then, any practitioner who has obtained an FRACDS(OMS) or equivalent can access Category 3 of the MBS because they are medically qualified. The Government, in consultation with the Australian and New Zealand Association of Oral and Maxillofacial Surgeons, the Australian Dental Association, the Royal Australian College of Surgeons, the Royal Australian College of Dental Surgeons and the Australian Medical Association, has agreed that access by new practitioners to Category 4 will be withdrawn from 1 November 2004. Practitioners who were approved prior to that date will continue to have access to Category 4. The long-term proposal is that once all practitioners who currently access Category 4 have left the workforce, Category 4 will be removed from the Medicare Benefits Schedule.

Details of the services attracting Medicare benefits are set out in the Medicare Benefits Schedule.

ON.2.1 Definition of Oral and Maxillofacial Surgery

Oral and Maxillofacial Surgery is defined as the surgical specialty which deals with the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects of the oral and maxillofacial region.

ON.2.2 Services That Can Be Provided

Dental practitioners holding the FRACDS (OMS) or equivalent who were approved by the Minister prior to 1 November 2004 may perform prescribed oral and maxillofacial services listed in this category. All dental practitioners approved for the purposes of subsection 3(1) of the Act are also recognised to perform those items of oral and maxillofacial surgery listed in Group C2 of the booklet "Medicare Benefits for Treatment of Cleft Lip and Cleft Palate Conditions".

It is emphasised that -

- the sole purpose of granting approval to dental practitioners is to enable payment of Medicare benefits;
- the services set out in Groups 01 to 011 of the Medicare Benefits Schedule book, and in the Cleft Lip and Cleft Palate Schedule are the only ones for which Medicare benefits are payable when the services are performed by an eligible dental practitioner.

ON.3.1 Principles of Interpretation

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

ON.3.2 Multiple Operation Rule

The Schedule fees for two or more operations performed on a patient on the one occasion are calculated by the following rule:-

100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

NOTE:

1. Fees so calculated which result in a sum which is not a multiple of 5 cents are to be taken to the next higher multiple of 5 cents
2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes all services in Groups O3 to O9.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

ON.3.3 After Care (Post-operative Treatment)

The fee specified for each of the operations listed in the Schedule contains a component for the consequential after-care customarily provided unless otherwise indicated. After-care is deemed to include all post-operative treatment rendered by practitioners and need not necessarily be limited to treatment given by the approved dental practitioner or to treatment given by any one practitioner. This does not preclude, however, the payment of benefit for professional services for the treatment by a dental practitioner of an intercurrent condition or an unusual complication arising from the operation.

Some minor operations are merely stages in the treatment of a particular condition. Professional services by dental practitioners subsequent to such operations should not be regarded as after-care but rather as continuation of the treatment of the original condition and should attract benefit. Item 52057 is a service to which this policy applies.

ON.3.4 Administration of Anaesthetics by Medical Practitioners

When a medical practitioner administers an anaesthetic in connection with a procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an approved dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

The Schedule fee for anaesthesia is established using the RVG schedule at Category 3 - Group T10.

Before the payment of benefits for the administration of anaesthesia, or for the services of an assistant anaesthetist, a number of additional details are required on the anaesthetist's account:

- The anaesthetist's account must show the name/s of the medical practitioner/s who performed the associated operation/s. Also, where the after hours emergency modifier applies to the anaesthesia service, the account must include the start time, the end time and the total time of the anaesthesia;

- The assistant anaesthetist's account must show the name/s of the medical practitioners who performed the associated operation/s, as well as the name of the principle anaesthetist. In addition, where the after hours emergency modifier applies, the assistant anaesthetist's account must record the start time, the end time and the total time for which he or she was providing professional attention to the patient during the anaesthesia.

ON.4.1 Consultations - (Items 51700 and 51703)

The consultation item numbers (51700 and 51703) are to be used by approved dental practitioners in the practice of oral and maxillofacial surgery.

The referral must be from a registered dental practitioner or a medical practitioner.

ON.4.2 Assistance at Operations - (Items 51800 and 51803)

Items covering operations which are eligible for benefits for assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery or surgical assistance have been identified by the inclusion of the word "Assist" in the item description. Medicare benefits are not payable for surgical assistance associated with procedures which have not been so identified.

The assistance must be rendered by a practitioner other than the surgeon, the anaesthetist or the assistant anaesthetist.

Where more than one practitioner provides assistance to an approved dental practitioner no additional benefits are payable. The assistance benefit is the same irrespective of the number of practitioners providing assistance.

Benefits payable under item 51800

Medicare benefits are payable under Item 51800 for assistance rendered at the following procedures:

51900, 51904, 52010, 52018, 52039, 52048, 52051, 52062, 52063, 52066, 52078, 52090, 52092, 52095, 52105, 52108, 52111, 52130, 52138, 52141, 52144, 52147, 52182, 52300, 52303, 52312, 52315, 52321, 52324, 52336, 52339, 52424, 52440, 52452, 52480, 52482, 52600, 52603, 52609, 52612, 52615, 52624, 52626, 52627, 52800, 52803, 52806, 52809, 52818, 52824, 52828, 52830, 53006, 53009, 53016, 53215, 53220, 53225, 53226, 53236, 53239, 53242, 53406, 53409, 53412, 53413, 53415, 53416, 53453, 53460.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under item 51300.

Benefits payable under Item 51803

Medicare benefits are payable under Item 51803 for assistance rendered at the following procedures:

51906, 52054, 52094, 52114, 52117, 52120, 52122, 52123, 52126, 52129, 52131, 52148, 52158, 52184, 52186, 52306, 52330, 52333, 52337, 52342, 52345, 52348, 52351, 52354, 52357, 52360, 52363, 52366, 52369, 52372, 52375, 52378, 52379, 52380, 52382, 52430, 52442, 52444, 52446, 52456, 52484, 52618, 52621, 52812, 52815, 52821, 52832, 53015, 53017, 53019, 53209, 53212, 53218, 53221, 53224, 53227, 53230, 53233, 53414, 53418, 53419, 53422, 53423, 53424, 53425, 53427, 53429, 53455.

or at a combination of procedures (including those identified as payable under item 51800 above) for which the aggregate fee exceeds the amount specified in the item.

Where assistance with any of the above procedures is provided by a medical practitioner, benefits are payable under Item 51303.

Assistance at multiple operations

Where assistance is provided at two or more operations performed on a patient on the one occasion the multi operation formula is applied to all the operations to determine the surgical fee payable to each approved dental

practitioner. The multi-operation formula is then applied to those items at which assistance was rendered and for which Medicare benefits for assistance is payable to determine the abated fee level for assistance. The abated fee is used to determine the appropriate Schedule item covering the surgical assistance (ie either Items 51800/51300 or 51803/51303).

The derived fee applicable to Item 51803/51303 is calculated on the basis of one-fifth of the abated Schedule fee for the surgery.

ON.4.3 Repair of Wound - (Item 51900)

Item 51900 covers debridement of "deep and extensively contaminated" wound. Benefits are not payable under this item for debridement which would be expected to be encountered as part of an operative approach to the treatment of fractures.

ON.4.4 Lipectomy, Wedge Excision - Two or More Excisions - (Item 51906)

Multiple lipectomies attract benefits under Item 51906 once only, i.e. the multiple operation rule does not apply.

Medicare benefits are not payable in respect of liposuction.

ON.4.5 Upper Aerodigestive Tract Endoscopic Procedure - (Item 52035)

The following are guidelines of appropriate minimum standards for the performance of GI endoscopy in relation to (a) cleaning, disinfection and sterilisation procedures, and (b) anaesthetic and resuscitation equipment. These guidelines are based on the advice of the Gastroenterological Society of Australia, the Sections of HPB and Upper GI and of Colon and Rectal Surgery of the Royal Australasian College of Surgeons, and the Colorectal Surgical Society of Australia.

Cleaning, disinfection and sterilisation procedures

Endoscopic procedures should be performed in facilities where endoscope and accessory reprocessing protocols follow procedures outlined in:-

- (i) 'Infection and Endoscopy' (3rd edition), Gastroenterological Society of Australia;
- (ii) 'Infection control in the health care setting - Guidelines for the prevention of transmission of infectious diseases', National Health and Medical Research Council; and
- (iii) Australian Standard AS 4187-1994 (and Amendments), Standards Association of Australia.

Anaesthetic and resuscitation equipment

Where the patient is anaesthetised, anaesthetic equipment, administration and monitoring, and post operative and resuscitation facilities should conform to the standards outlined in 'Sedation for Endoscopy', Australian & New Zealand College of Anaesthetists, Gastroenterological Society of Australia and Royal Australasian College of Surgeons. These guidelines will be taken into account in determining appropriate practice in the context of the Professional Services Review process.

ON.4.6 Tumour, cyst, Ulcer or Scar - (Items 52036 to 52054)

It is recognised that odontogenic keratocysts, although not neoplastic, often require the surgical management of benign tumours.

ON.4.7 Aspiration of Haematoma - (Item 52056)

Aspiration of haematoma is indicated in clinical situations where incision may leave an unsightly scar or where access is difficult for conventional drainage.

ON.4.8 Osteotomy of Jaw - (Items 52342 to 52375)

The fee and benefit for these items include the various forms of internal or dental fixation, jaw immobilisation, the transposition of nerves and vessels and bone grafts taken from the same site.

Bone grafts taken from a separate site, e.g. iliac crest, would attract additional benefit under Item 52318 or 52319 for the harvesting, plus item 52130 or 52131 for the grafting.

Where the site of grafting under item 52131 requires closure by single stage local flap, item 52300 may be claimed where clinically appropriate. Clinically appropriate in this instance means that the flap is required to close defects because the defect cannot be closed directly.

A local skin flap is an area of skin or subcutaneous tissue designed to be elevated from the skin adjoining a defect requiring closure. The flap remains partially attached by pedicle and is moved to the defect by rotation, advancement or transposition, or a combination of these manoeuvres.

Benefits are only payable where the flap is required for adequate wound closure. A secondary defect will be created which may be closed by direct suture, skin grafting or sometimes a further local skin flap. This latter procedure will also attract benefit if closed by graft or flap repair but not been closed by direct suture.

By definition, direct wound closure (e.g. by suture) does not constitute skin flap. Similarly, angled, curved or trapdoor incisions which are used for exposure and which are sutured back into the same position relative to the adjacent tissues are not skin flap repairs. Undermining of the edges of the wound prior to suturing is considered a normal part of wound closure and is not considered to skin flap repair.

For the purposes of these items, a reference to maxilla includes the zygoma.

ON.4.9 Genioplasty - (Item 52378)

Genioplasty attracts benefit once only although a section is made on both sides of the symphysis of the mandible.

ON.4.10 Fracture of Mandible or Maxilla - (Items 53400 to 53439)

There are two maxillae in the skull and for the purpose of these items the mandible is regarded as comprising two bones.

Hence a bilateral fracture of the mandible would be assessed as:

- Item 53409 x 1½;
- two maxillae and one side of the mandible as Item 53406 x 1½ + 53409 x ¼.

Splinting in Item 53406 or 53409 refers to cap splints, arch bars, silver (cast metal) or acrylic splints.

ON.4.12 Destruction of Nerve Branch by Neurolytic Agent - (Item 53706)

Item 53706 includes the use of botulinum toxin as a neurolytic agent.

ORAL AND MAXILLOFACIAL SERVICES ITEMS

O1. CONSULTATIONS	
	Group O1. Consultations
	APPROVED DENTAL PRACTITIONER, REFERRED CONSULTATION - SURGERY, HOSPITAL OR RESIDENTIAL AGED CARE FACILITY
	Professional attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner, at consulting rooms, hospital or residential aged care facility where the patient is referred to him or her (See para ON.4.1 of explanatory notes to this Category) Fee: \$94.10 Benefit: 75% = \$70.60 85% = \$80.00
51700	Extended Medicare Safety Net Cap: \$282.30
	Professional attendance by an approved dental practitioner, each attendance subsequent to the first in a single course of treatment at consulting rooms, hospital or residential aged care facility where the patient is referred to him or her (See para ON.4.1 of explanatory notes to this Category) Fee: \$47.35 Benefit: 75% = \$35.55 85% = \$40.25
51703	Extended Medicare Safety Net Cap: \$142.05

O1. CONSULTATIONS		1. DENTAL PRACTITIONER TELEHEALTH SERVICES
	Group O1. Consultations	
		Subgroup 1. Dental practitioner telehealth services
	Telehealth attendance (other than a second or subsequent attendance in a single course of treatment) by an approved dental practitioner in the practice of oral and maxillofacial surgery, if the patient is referred to the approved dental practitioner Fee: \$94.10 Benefit: 85% = \$80.00	
54001	Extended Medicare Safety Net Cap: \$282.30	
	Telehealth attendance by an approved dental practitioner in the practice of oral and maxillofacial surgery, each attendance after the first in a single course of treatment, if the patient is referred to the approved dental practitioner Fee: \$47.35 Benefit: 85% = \$40.25	
54002	Extended Medicare Safety Net Cap: \$142.05	

O1. CONSULTATIONS		2. DENTAL PRACTITIONER PHONE SERVICES
	Group O1. Consultations	
		Subgroup 2. Dental practitioner phone services
	Phone attendance by an approved dental practitioner in the practice of oral and maxillofacial surgery, each attendance after the first in a single course of treatment, if the patient is referred to the approved dental practitioner Fee: \$47.35 Benefit: 85% = \$40.25	
54004	Extended Medicare Safety Net Cap: \$142.05	

O2. ASSISTANCE AT OPERATION

Group O2. Assistance At Operation	
51800	<p>Assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery at any operation mentioned in an item that includes “(Assist.)” for which the fee does not exceed \$614.55 or at a series or combination of operations mentioned in an item in Groups O3 to O9 that include “(Assist.)” for which the aggregate fee does not exceed \$614.55</p> <p>(See para ON.4.2 of explanatory notes to this Category)</p> <p>Fee: \$95.00 Benefit: 75% = \$71.25 85% = \$80.75</p>
51803	<p>Assistance by an approved dental practitioner in the practice of oral and maxillofacial surgery at any operation mentioned in an item that includes “(Assist.)” for which the fee exceeds \$614.55 or at a series or combination of operations mentioned in an item that include “(Assist.)” if the aggregate fee exceeds \$614.55</p> <p>(See para ON.4.2 of explanatory notes to this Category)</p> <p>Derived Fee: one fifth of the established fee for the operation or combination of operations</p>

O3. GENERAL SURGERY

Group O3. General Surgery	
51900	<p>WOUND OF SOFT TISSUE, deep or extensively contaminated, debridement of, under general anaesthesia or regional or field nerve block, including suturing of that wound when performed (Anaes.) (Assist.)</p> <p>(See para ON.4.3 of explanatory notes to this Category)</p> <p>Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10</p>
51902	<p>WOUNDS, DRESSING OF, under general anaesthesia, with or without removal of sutures, not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.)</p> <p>Fee: \$81.40 Benefit: 75% = \$61.05 85% = \$69.20</p>
51904	<p>LIPECTOMY - wedge excision of skin or fat - 1 EXCISION (Anaes.) (Assist.)</p> <p>Fee: \$500.65 Benefit: 75% = \$375.50 85% = \$425.60</p>
51906	<p>LIPECTOMY - wedge excision of skin or fat - 2 OR MORE EXCISIONS (Anaes.) (Assist.)</p> <p>(See para ON.4.4 of explanatory notes to this Category)</p> <p>Fee: \$761.35 Benefit: 75% = \$571.05 85% = \$662.65</p>
52000	<p>SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, small (NOT MORE THAN 7 CM LONG), superficial (Anaes.)</p> <p>Fee: \$90.75 Benefit: 75% = \$68.10 85% = \$77.15</p>
52003	<p>SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, small (NOT MORE THAN 7 CM LONG), involving deeper tissue (Anaes.)</p> <p>Fee: \$129.40 Benefit: 75% = \$97.05 85% = \$110.00</p>
52006	<p>SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, large (MORE THAN 7 CM LONG), superficial (Anaes.)</p> <p>Fee: \$129.40 Benefit: 75% = \$97.05 85% = \$110.00</p>
52009	<p>SKIN AND SUBCUTANEOUS TISSUE OR MUCOUS MEMBRANE, REPAIR OF RECENT WOUND OF, on face or neck, large (MORE THAN 7 CM LONG), involving deeper tissue (Anaes.)</p> <p>Fee: \$204.25 Benefit: 75% = \$153.20 85% = \$173.65</p>
52010	<p>FULL THICKNESS LACERATION OF EAR, EYELID, NOSE OR LIP, repair of, with accurate apposition of each layer of tissue (Anaes.) (Assist.)</p>

O3. GENERAL SURGERY	
	Fee: \$279.55 Benefit: 75% = \$209.70 85% = \$237.65
52012	SUPERFICIAL FOREIGN BODY, removal of, as an independent procedure (Anaes.) Fee: \$25.90 Benefit: 75% = \$19.45 85% = \$22.05
52015	SUBCUTANEOUS FOREIGN BODY, removal of, requiring incision and suture, as an independent procedure (Anaes.) Fee: \$120.95 Benefit: 75% = \$90.75 85% = \$102.85
52018	FOREIGN BODY IN MUSCLE, TENDON OR OTHER DEEP TISSUE, removal of, as an independent procedure (Anaes.) (Assist.) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00
52021	ASPIRATION BIOPSY of 1 or MORE JAW CYSTS as an independent procedure to obtain material for diagnostic purposes and not being a service associated with an operative procedure on the same day (Anaes.) Fee: \$32.35 Benefit: 75% = \$24.30 85% = \$27.50
52024	BIOPSY OF SKIN OR MUCOUS MEMBRANE, as an independent procedure (Anaes.) Fee: \$57.50 Benefit: 75% = \$43.15 85% = \$48.90
52025	LYMPH NODE OF NECK, biopsy of (Anaes.) Fee: \$202.40 Benefit: 75% = \$151.80 85% = \$172.05
52027	BIOPSY OF LYMPH NODE, MUSCLE OR OTHER DEEP TISSUE OR ORGAN, as an independent procedure and not being a service to which item 52025 applies (Anaes.) Fee: \$164.85 Benefit: 75% = \$123.65 85% = \$140.15
52030	SINUS, excision of, involving superficial tissue only (Anaes.) Fee: \$99.10 Benefit: 75% = \$74.35 85% = \$84.25
52033	SINUS, excision of, involving muscle and deep tissue (Anaes.) Fee: \$202.40 Benefit: 75% = \$151.80 85% = \$172.05
52034	PREMALIGNANT LESIONS of the oral mucous, treatment by <u>cryotherapy, diathermy or carbon dioxide laser</u> Fee: \$47.35 Benefit: 75% = \$35.55 85% = \$40.25
52035	ENDOSCOPIC LASER THERAPY for neoplasia and benign vascular lesions of the oral cavity (Anaes.) (See para ON.4.5 of explanatory notes to this Category) Fee: \$524.00 Benefit: 75% = \$393.00 85% = \$445.40
52036	TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, not being a service to which item 52039 applies (Anaes.) (See para ON.4.6 of explanatory notes to this Category) Fee: \$139.75 Benefit: 75% = \$104.85 85% = \$118.80
52039	TUMOURS, CYSTS, ULCERS OR SCARS, (other than a scar removed during the surgical approach at an operation), up to 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane, where the removal is by surgical excision and suture, and the procedure is performed on more than 3 but not more than 10 lesions (Anaes.) (Assist.) (See para ON.4.6 of explanatory notes to this Category) Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10

O3. GENERAL SURGERY	
52042	<p>TUMOUR, CYST, ULCER OR SCAR, (other than a scar removed during the surgical approach at an operation), more than 3 cm in diameter, removal from cutaneous or subcutaneous tissue or from mucous membrane (Anaes.)</p> <p>(See para ON.4.6 of explanatory notes to this Category)</p> <p>Fee: \$189.85 Benefit: 75% = \$142.40 85% = \$161.40</p>
52045	<p>TUMOUR, CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), ULCER OR SCAR (other than a scar removed during the surgical approach at an operation), removal of, not being a service to which another item in Groups O3 to O9 applies, involving muscle, bone, or other deep tissue (Anaes.)</p> <p>(See para ON.4.6 of explanatory notes to this Category)</p> <p>Fee: \$271.35 Benefit: 75% = \$203.55 85% = \$230.65</p>
52048	<p>TUMOUR OR DEEP CYST (other than a cyst associated with a tooth or tooth fragment unless it has been established by radiological examination that there is a minimum of 5mm separation between the cyst lining and tooth structure or where a tumour or cyst has been proven by positive histopathology), removal of, requiring wide excision, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.)</p> <p>(See para ON.4.6 of explanatory notes to this Category)</p> <p>Fee: \$408.95 Benefit: 75% = \$306.75 85% = \$347.65</p>
52051	<p>TUMOUR, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, without skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para ON.4.6 of explanatory notes to this Category)</p> <p>Fee: \$552.80 Benefit: 75% = \$414.60 85% = \$469.90</p>
52054	<p>TUMOUR, removal of, from soft tissue (including muscle, fascia and connective tissue), extensive excision of, with skin or mucosal graft (Anaes.) (Assist.)</p> <p>(See para ON.4.6 of explanatory notes to this Category)</p> <p>Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75</p>
52055	<p>HAEMATOMA, SMALL ABSCESS OR CELLULITIS, not requiring admission to a hospital, INCISION WITH DRAINAGE OF (excluding after care)</p> <p>Fee: \$30.10 Benefit: 75% = \$22.60 85% = \$25.60</p>
52056	<p>HAEMATOMA, aspiration of (Anaes.)</p> <p>(See para ON.4.7 of explanatory notes to this Category)</p> <p>Fee: \$30.10 Benefit: 75% = \$22.60 85% = \$25.60</p>
52057	<p>LARGE HAEMATOMA, LARGE ABSCESS, CARBUNCLE, CELLULITIS or similar lesion, requiring admission to a hospital, INCISION WITH DRAINAGE OF (excluding aftercare) (Anaes.)</p> <p>(See para ON.3.3 of explanatory notes to this Category)</p> <p>Fee: \$179.35 Benefit: 75% = \$134.55 85% = \$152.45</p>
52058	<p>PERCUTANEOUS DRAINAGE OF DEEP ABSCESS, using interventional imaging techniques - but not including imaging (Anaes.)</p> <p>Fee: \$261.50 Benefit: 75% = \$196.15 85% = \$222.30</p>
52059	<p>ABSCESS, DRAINAGE TUBE, exchange of using interventional imaging techniques - but not including imaging (Anaes.)</p> <p>Fee: \$294.65 Benefit: 75% = \$221.00 85% = \$250.50</p>
52060	<p>MUSCLE, excision of (Anaes.)</p>

O3. GENERAL SURGERY	
	Fee: \$208.50 Benefit: 75% = \$156.40 85% = \$177.25
52061	MUSCLE, RUPTURED, repair of (limited), not associated with external wound (Anaes.) Fee: \$246.10 Benefit: 75% = \$184.60 85% = \$209.20
52062	MUSCLE, RUPTURED, repair of (extensive), not associated with external wound (Anaes.) (Assist.) Fee: \$325.45 Benefit: 75% = \$244.10 85% = \$276.65
52063	BONE TUMOUR, INNOCENT, excision of, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.) Fee: \$392.25 Benefit: 75% = \$294.20 85% = \$333.45
52064	BONE CYST, injection into or aspiration of (Anaes.) Fee: \$186.55 Benefit: 75% = \$139.95 85% = \$158.60
52066	SUBMANDIBULAR GLAND, extirpation of (Anaes.) (Assist.) Fee: \$490.30 Benefit: 75% = \$367.75 85% = \$416.80
52069	SUBLINGUAL GLAND, extirpation of (Anaes.) Fee: \$218.55 Benefit: 75% = \$163.95 85% = \$185.80
52072	SALIVARY GLAND, DILATATION OR DIATHERMY of duct (Anaes.) Fee: \$64.75 Benefit: 75% = \$48.60 85% = \$55.05
52073	SALIVARY GLAND, repair of CUTANEOUS FISTULA OF (Anaes.) Fee: \$164.85 Benefit: 75% = \$123.65 85% = \$140.15
52075	SALIVARY GLAND, removal of CALCULUS from duct or meatotomy or marsupialisation, 1 or more such procedures (Anaes.) Fee: \$164.85 Benefit: 75% = \$123.65 85% = \$140.15
52078	TONGUE, partial excision of (Anaes.) (Assist.) Fee: \$325.45 Benefit: 75% = \$244.10 85% = \$276.65
52081	TONGUE TIE, division or excision of frenulum (Anaes.) Fee: \$51.15 Benefit: 75% = \$38.40 85% = \$43.50
52084	TONGUE TIE, MANDIBULAR FRENULUM OR MAXILLARY FRENULUM, division or excision of frenulum, in a patient aged not less than 2 years (Anaes.) Fee: \$131.50 Benefit: 75% = \$98.65 85% = \$111.80
52087	RANULA OR MUCOUS CYST OF MOUTH, removal of (Anaes.) Fee: \$225.30 Benefit: 75% = \$169.00 85% = \$191.55
52090	OPERATION ON MANDIBLE OR MAXILLA (other than alveolar margins) for chronic osteomyelitis - 1 bone or in combination with adjoining bones (Anaes.) (Assist.) Fee: \$392.25 Benefit: 75% = \$294.20 85% = \$333.45
52092	OPERATION on SKULL for OSTEOMYELITIS (Anaes.) (Assist.) Fee: \$511.35 Benefit: 75% = \$383.55 85% = \$434.65
52094	OPERATION ON ANY COMBINATION OF ADJOINING BONES, being bones referred to in item 52092 (Anaes.) (Assist.) Fee: \$646.70 Benefit: 75% = \$485.05 85% = \$549.70
52095	BONE GROWTH STIMULATOR, insertion of (Anaes.) (Assist.)

O3. GENERAL SURGERY	
	Fee: \$419.20 Benefit: 75% = \$314.40 85% = \$356.35
52096	ORTHOPAEDIC PIN OR WIRE, insertion of, into maxilla or mandible or zygoma, as an independent procedure (Anaes.) Fee: \$124.20 Benefit: 75% = \$93.15 85% = \$105.60
52097	EXTERNAL FIXATION, removal of, in the operating theatre of a hospital (Anaes.) Fee: \$176.20 Benefit: 75% = \$132.15
52098	EXTERNAL FIXATION, removal of, in conjunction with operations involving internal fixation or bone grafting or both (Anaes.) Fee: \$207.15 Benefit: 75% = \$155.40 85% = \$176.10
52099	BURIED WIRE, PIN or SCREW, 1 or more, which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, per bone, not being a service associated with a service to which item 52102 or 52105 applies (Anaes.) Fee: \$155.40 Benefit: 75% = \$116.55 85% = \$132.10
52102	BURIED WIRE, PIN or SCREW, 1 or more, which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, where undertaken in the operating theatre of a hospital, per bone (Anaes.) Fee: \$155.40 Benefit: 75% = \$116.55 85% = \$132.10
52105	PLATE, 1 or more of, and associated screw and wire which were inserted for internal fixation purposes into maxilla or mandible or zygoma, removal of, requiring anaesthesia, incision, dissection and suturing, per bone, not being a service associated with a service to which item 52099 or 52102 applies (Anaes.) (Assist.) Fee: \$290.15 Benefit: 75% = \$217.65 85% = \$246.65
52106	ARCH BARS, 1 or more, which were inserted for dental fixation purposes to the maxilla or mandible, <u>removal of</u> , requiring general anaesthesia where undertaken in the operating theatre of a hospital (Anaes.) Fee: \$119.85 Benefit: 75% = \$89.90
52108	LIP, full thickness wedge excision of, with repair by direct sutures (Anaes.) (Assist.) Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10
52111	VERMILIONECTOMY (Anaes.) (Assist.) Fee: \$358.90 Benefit: 75% = \$269.20 85% = \$305.10
52114	MANDIBLE or MAXILLA, segmental resection of, for tumours or cysts (Anaes.) (Assist.) Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75
52117	MANDIBLE, including lower border, or MAXILLA, sub-total resection of (Anaes.) (Assist.) Fee: \$769.90 Benefit: 75% = \$577.45 85% = \$671.20
52120	MANDIBLE, hemimandiblectomy of, including condylectomy where performed (Anaes.) (Assist.) Fee: \$910.65 Benefit: 75% = \$683.00 85% = \$811.95
52122	MANDIBLE, hemi-mandibular reconstruction of, OR MAXILLA, reconstruction of, with BONE GRAFT, PLATE, TRAY OR ALLOPLAST, not being a service associated with a service to which item 52123 applies (Anaes.) (Assist.) Fee: \$910.65 Benefit: 75% = \$683.00 85% = \$811.95
52123	MANDIBLE, total resection of both sides, including condylectomies where performed (Anaes.) (Assist.)

O3. GENERAL SURGERY	
	Fee: \$1,030.90 Benefit: 75% = \$773.20 85% = \$932.20
52126	MAXILLA, total resection of (Anaes.) (Assist.) Fee: \$991.10 Benefit: 75% = \$743.35 85% = \$892.40
52129	MAXILLA, total resection of both maxillae (Anaes.) (Assist.) Fee: \$1,326.75 Benefit: 75% = \$995.10 85% = \$1228.05
52130	BONE GRAFT, not being a service to which another item in Groups O3 to O9 applies (Anaes.) (Assist.) Fee: \$487.00 Benefit: 75% = \$365.25 85% = \$413.95
52131	BONE GRAFT WITH INTERNAL FIXATION, not being a service to which an item in the range (a) 51900 to 52186; or (b) 52303 to 53460 applies (Anaes.) (Assist.) Fee: \$673.60 Benefit: 75% = \$505.20 85% = \$574.90
52132	TRACHEOSTOMY (Anaes.) Fee: \$274.05 Benefit: 75% = \$205.55 85% = \$232.95
52133	CRICOTHYROSTOMY by direct stab or Seldinger technique, using Minitrach or similar device (Anaes.) Fee: \$100.20 Benefit: 75% = \$75.15 85% = \$85.20
52135	POST-OPERATIVE or POST-NASAL HAEMORRHAGE, or both, control of, where undertaken in the operating theatre of a hospital (Anaes.) Fee: \$158.90 Benefit: 75% = \$119.20
52138	MAXILLARY ARTERY, ligation of (Anaes.) (Assist.) Fee: \$493.70 Benefit: 75% = \$370.30 85% = \$419.65
52141	FACIAL, MANDIBULAR or LINGUAL ARTERY or VEIN or ARTERY and VEIN, ligation of, not being a service to which item 52138 applies (Anaes.) (Assist.) Fee: \$488.40 Benefit: 75% = \$366.30 85% = \$415.15
52144	FOREIGN BODY, deep, removal of using interventional imaging techniques (Anaes.) (Assist.) Fee: \$455.20 Benefit: 75% = \$341.40 85% = \$386.95
52147	DUCT OF MAJOR SALIVARY GLAND, transposition of (Anaes.) (Assist.) Fee: \$429.55 Benefit: 75% = \$322.20 85% = \$365.15
52148	PAROTID DUCT, repair of, using micro-surgical techniques (Anaes.) (Assist.) Fee: \$759.30 Benefit: 75% = \$569.50 85% = \$660.60
52158	SUBMANDIBULAR DUCTS, relocation of, for surgical control of drooling (Anaes.) (Assist.) Fee: \$1,222.50 Benefit: 75% = \$916.90 85% = \$1123.80
52180	MALIGNANT DISEASE

O3. GENERAL SURGERY	
	AGGRESSIVE OR POTENTIALLY MALIGNANT BONE OR DEEP SOFT TISSUE TUMOUR, biopsy of (not including aftercare) (Anaes.) Fee: \$207.15 Benefit: 75% = \$155.40 85% = \$176.10
52182	BONE OR MALIGNANT DEEP SOFT TISSUE TUMOUR, lesional or marginal excision of (Anaes.) (Assist.) Fee: \$455.95 Benefit: 75% = \$342.00 85% = \$387.60
52184	BONE TUMOUR, lesional or marginal excision of, combined with any 1 of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$673.60 Benefit: 75% = \$505.20 85% = \$574.90
52186	BONE TUMOUR, lesional or marginal excision of, combined with any 2 or more of: liquid nitrogen freezing, autograft, allograft or cementation (Anaes.) (Assist.) Fee: \$829.10 Benefit: 75% = \$621.85 85% = \$730.40

O4. PLASTIC & RECONSTRUCTIVE	
	Group O4. Plastic & Reconstructive
52300	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with skin or mucosa (Anaes.) (Assist.) Fee: \$313.00 Benefit: 75% = \$234.75 85% = \$266.05
52303	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, with buccal pad of fat (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20 85% = \$379.90
52306	SINGLE-STAGE LOCAL FLAP, where indicated, repair to 1 defect, using temporalis muscle (Anaes.) (Assist.) Fee: \$663.20 Benefit: 75% = \$497.40 85% = \$564.50
52309	FREE GRAFTING (mucosa or split skin) of a granulating area (Anaes.) Fee: \$225.30 Benefit: 75% = \$169.00 85% = \$191.55
52312	FREE GRAFTING (mucosa, split skin or connective tissue) to 1 defect, including elective dissection (Anaes.) (Assist.) Fee: \$313.00 Benefit: 75% = \$234.75 85% = \$266.05
52315	FREE GRAFTING, FULL THICKNESS, to 1 defect (mucosa or skin) (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30
52318	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - small quantity (Anaes.) Fee: \$155.40 Benefit: 75% = \$116.55 85% = \$132.10
52319	BONE GRAFT, harvesting of, via separate incision, being a service associated with a service to which another item in Groups O3 to O9 applies - Autogenous - large quantity (Anaes.) Fee: \$259.20 Benefit: 75% = \$194.40 85% = \$220.35
52321	FOREIGN IMPLANT (NON-BIOLOGICAL), insertion of, for CONTOUR RECONSTRUCTION of pathological deformity, not being a service associated with a service to which item 52624 applies (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30

O4. PLASTIC & RECONSTRUCTIVE	
52324	DIRECT FLAP REPAIR, using tongue, first stage (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30
52327	DIRECT FLAP REPAIR, using tongue, second stage (Anaes.) Fee: \$258.75 Benefit: 75% = \$194.10 85% = \$219.95
52330	PALATAL DEFECT (oro-nasal fistula), plastic closure of, including services to which item 52300, 52303, 52306 or 52324 applies (Anaes.) (Assist.) Fee: \$860.65 Benefit: 75% = \$645.50 85% = \$761.95
52333	CLEFT PALATE, primary repair (Anaes.) (Assist.) Fee: \$860.65 Benefit: 75% = \$645.50 85% = \$761.95
52336	CLEFT PALATE, secondary repair, closure of fistula using local flaps (Anaes.) (Assist.) Fee: \$538.00 Benefit: 75% = \$403.50 85% = \$457.30
52337	ALVEOLAR CLEFT (congenital) unilateral, grafting of, including plastic closure of associated oro-nasal fistulae and ridge augmentation (Anaes.) (Assist.) Fee: \$1,176.75 Benefit: 75% = \$882.60 85% = \$1078.05
52339	CLEFT PALATE, secondary repair, lengthening procedure (Anaes.) (Assist.) Fee: \$612.65 Benefit: 75% = \$459.50 85% = \$520.80
52342	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,064.15 Benefit: 75% = \$798.15
52345	MANDIBLE or MAXILLA, unilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,200.10 Benefit: 75% = \$900.10
52348	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,356.15 Benefit: 75% = \$1017.15
52351	MANDIBLE or MAXILLA, bilateral osteotomy or osteectomy of, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,523.05 Benefit: 75% = \$1142.30
52354	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,544.00 Benefit: 75% = \$1158.00
52357	MANDIBLE or MAXILLA, osteotomies or osteectomies of, involving 3 or more such procedures on the 1 jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category)

O4. PLASTIC & RECONSTRUCTIVE	
	Fee: \$1,738.20 Benefit: 75% = \$1303.65
52360	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,773.25 Benefit: 75% = \$1329.95
52363	MANDIBLE and MAXILLA, osteotomies or osteectomies of, involving 2 such procedures of each jaw, including transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,994.80 Benefit: 75% = \$1496.10
52366	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$1,950.75 Benefit: 75% = \$1463.10
52369	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of 1 jaw and 2 such procedures of the other jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$2,193.40 Benefit: 75% = \$1645.05
52372	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$2,128.30 Benefit: 75% = \$1596.25
52375	MANDIBLE and MAXILLA, complex bilateral osteotomies or osteectomies of, involving 3 or more such procedures of each jaw, including genioplasty when performed and transposition of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (H) (Anaes.) (Assist.) (See para ON.4.8 of explanatory notes to this Category) Fee: \$2,383.80 Benefit: 75% = \$1787.85
52378	GENIOPLASTY including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) (See para ON.4.9 of explanatory notes to this Category) Fee: \$824.05 Benefit: 75% = \$618.05 85% = \$725.35
52379	FACE, contour reconstruction of 1 region, using autogenous bone or cartilage graft (Anaes.) (Assist.) Fee: \$1,408.25 Benefit: 75% = \$1056.20 85% = \$1309.55
52380	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition of nerves and vessels and bone grafts taken from the same site (Anaes.) (Assist.) Fee: \$2,397.95 Benefit: 75% = \$1798.50 85% = \$2299.25
52382	MIDFACIAL OSTEOTOMIES - Le Fort II, Modified Le Fort III (Nasomalar), Modified Le Fort III (Malar-Maxillary), Le Fort III involving 3 or more osteotomies of the midface including transposition

O4. PLASTIC & RECONSTRUCTIVE	
	of nerves and vessels and bone grafts taken from the same site and stabilisation with fixation by wires, screws, plates or pins, or any combination (Anaes.) (Assist.) Fee: \$2,874.65 Benefit: 75% = \$2156.00 85% = \$2775.95
52420	MANDIBLE, fixation by intermaxillary wiring, excluding wiring for obesity Fee: \$265.40 Benefit: 75% = \$199.05 85% = \$225.60
52424	DERMIS, DERMOFAT OR FASCIA GRAFT (excluding transfer of fat by injection) (Anaes.) (Assist.) Fee: \$521.40 Benefit: 75% = \$391.05 85% = \$443.20
52430	MICROVASCULAR REPAIR OF, using microsurgical techniques, with restoration of continuity of artery or vein of distal extremity or digit (Anaes.) (Assist.) Fee: \$1,200.10 Benefit: 75% = \$900.10 85% = \$1101.40
52440	CLEFT LIP, unilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) Fee: \$595.80 Benefit: 75% = \$446.85 85% = \$506.45
52442	CLEFT LIP, unilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) Fee: \$744.95 Benefit: 75% = \$558.75 85% = \$646.25
52444	CLEFT LIP, bilateral - primary repair, 1 stage, without anterior palate repair (Anaes.) (Assist.) Fee: \$827.55 Benefit: 75% = \$620.70 85% = \$728.85
52446	CLEFT LIP, bilateral - primary repair, 1 stage, with anterior palate repair (Anaes.) (Assist.) Fee: \$976.95 Benefit: 75% = \$732.75 85% = \$878.25
52450	CLEFT LIP, partial revision, including minor flap revision alignment and adjustment, including revision of minor whistle deformity if performed (Anaes.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40
52452	CLEFT LIP, total revision, including major flap revision, muscle reconstruction and revision of major whistle deformity (Anaes.) (Assist.) Fee: \$538.00 Benefit: 75% = \$403.50 85% = \$457.30
52456	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), first stage (Anaes.) (Assist.) Fee: \$910.65 Benefit: 75% = \$683.00 85% = \$811.95
52458	CLEFT LIP RECONSTRUCTION using full thickness flap (Abbe or similar), second stage (Anaes.) Fee: \$331.05 Benefit: 75% = \$248.30 85% = \$281.40
52460	VELO-PHARYNGEAL INCOMPETENCE, pharyngeal flap for, or pharyngoplasty for (Anaes.) Fee: \$860.65 Benefit: 75% = \$645.50 85% = \$761.95
52480	COMPOSITE GRAFT (Chondro-cutaneous or chondro-mucosal) to nose, ear or eyelid (Anaes.) (Assist.) Fee: \$552.80 Benefit: 75% = \$414.60 85% = \$469.90
52482	MACROCHEILIA or macroglossia, operation for (Anaes.) (Assist.) Fee: \$531.95 Benefit: 75% = \$399.00 85% = \$452.20
52484	MACROSTOMIA, operation for (Anaes.) (Assist.) Fee: \$633.25 Benefit: 75% = \$474.95 85% = \$538.30

O5. PREPROSTHETIC	
	Group O5. Preprosthetic
52600	MANDIBULAR OR PALATAL EXOSTOSIS, excision of (Anaes.) (Assist.) Fee: \$372.45 Benefit: 75% = \$279.35 85% = \$316.60
52603	MYLOHYOID RIDGE, reduction of (Anaes.) (Assist.) Fee: \$355.95 Benefit: 75% = \$267.00 85% = \$302.60
52606	MAXILLARY TUBEROSITY, reduction of (Anaes.) Fee: \$271.55 Benefit: 75% = \$203.70 85% = \$230.85
52609	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - less than 5 lesions (Anaes.) (Assist.) Fee: \$355.95 Benefit: 75% = \$267.00 85% = \$302.60
52612	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - 5 to 20 lesions (Anaes.) (Assist.) Fee: \$446.90 Benefit: 75% = \$335.20 85% = \$379.90
52615	PAPILLARY HYPERPLASIA OF THE PALATE, removal of - more than 20 lesions (Anaes.) (Assist.) Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50
52618	VESTIBULOPLASTY, submucosal or open, including excision of muscle and skin or mucosal graft when performed - unilateral or bilateral (Anaes.) (Assist.) Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75
52621	FLOOR OF MOUTH LOWERING (Obwegeser or similar procedure), including excision of muscle and skin or mucosal graft when performed - unilateral (Anaes.) (Assist.) Fee: \$645.55 Benefit: 75% = \$484.20 85% = \$548.75
52624	ALVEOLAR RIDGE AUGMENTATION with bone or alloplast or both - unilateral (Anaes.) (Assist.) Fee: \$521.40 Benefit: 75% = \$391.05 85% = \$443.20
52626	ALVEOLAR RIDGE AUGMENTATION - unilateral, insertion of tissue expanding device into maxillary or mandibular alveolar ridge region for (Anaes.) (Assist.) Fee: \$319.80 Benefit: 75% = \$239.85 85% = \$271.85
52627	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, extra oral implantation of titanium fixture (Anaes.) (Assist.) Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50
52630	OSSEO-INTEGRATION PROCEDURE - in the practice of oral and maxillofacial surgery, fixation of transcutaneous abutment (Anaes.) Fee: \$205.30 Benefit: 75% = \$154.00 85% = \$174.55
52633	OSSEO-INTEGRATION PROCEDURE - intra-oral implantation of titanium fixture to facilitate restoration of the dentition following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.) Fee: \$554.65 Benefit: 75% = \$416.00 85% = \$471.50
52636	OSSEO-INTEGRATION PROCEDURE - fixation of transmucosal abutment to fixtures placed following resection of part of the maxilla or mandible for benign or malignant tumours (Anaes.) Fee: \$205.30 Benefit: 75% = \$154.00 85% = \$174.55
O6. NEUROSURGICAL	
	Group O6. Neurosurgical

O6. NEUROSURGICAL	
52800	NEUROLYSIS BY OPEN OPERATION, without transposition, not being a service associated with a service to which item 52803 applies (Anaes.) (Assist.) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00
52803	NERVE TRUNK, internal (interfascicular), NEUROLYSIS of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$438.70 Benefit: 75% = \$329.05 85% = \$372.90
52806	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from superficial peripheral nerve (Anaes.) (Assist.) Fee: \$304.65 Benefit: 75% = \$228.50 85% = \$259.00
52809	NEURECTOMY, NEUROTOMY or REMOVAL OF TUMOUR from deep peripheral nerve (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30
52812	NERVE TRUNK, PRIMARY repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$744.95 Benefit: 75% = \$558.75 85% = \$646.25
52815	NERVE TRUNK, SECONDARY repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$786.35 Benefit: 75% = \$589.80 85% = \$687.65
52818	NERVE, TRANSPOSITION OF (Anaes.) (Assist.) Fee: \$521.50 Benefit: 75% = \$391.15 85% = \$443.30
52821	NERVE GRAFT TO NERVE TRUNK, (cable graft) including harvesting of nerve graft using microsurgical techniques (Anaes.) (Assist.) Fee: \$1,133.95 Benefit: 75% = \$850.50 85% = \$1035.25
52824	PERIPHERAL BRANCHES OF THE TRIGEMINAL NERVE, cryosurgery of, for pain relief (Anaes.) (Assist.) Fee: \$488.40 Benefit: 75% = \$366.30 85% = \$415.15
52826	INJECTION OF PRIMARY BRANCH OF TRIGEMINAL NERVE with alcohol, cortisone, phenol, or similar substance (Anaes.) Fee: \$261.50 Benefit: 75% = \$196.15 85% = \$222.30
52828	CUTANEOUS NERVE, primary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$389.00 Benefit: 75% = \$291.75 85% = \$330.65
52830	CUTANEOUS NERVE, secondary repair of, using microsurgical techniques (Anaes.) (Assist.) Fee: \$513.05 Benefit: 75% = \$384.80 85% = \$436.10
52832	CUTANEOUS NERVE, nerve graft to, using microsurgical techniques (Anaes.) (Assist.) Fee: \$703.65 Benefit: 75% = \$527.75 85% = \$604.95
O7. EAR, NOSE & THROAT	
	Group O7. Ear, Nose & Throat
53000	MAXILLARY ANTRUM, PNEUMATIC PUNCTURE AND LAVAGE OF (Anaes.) Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50

07. EAR, NOSE & THROAT	
	MAXILLARY ANTRUM, proof puncture and lavage of, under general anaesthesia (requiring admission to hospital) not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.)
53003	Fee: \$101.15 Benefit: 75% = \$75.90 85% = \$86.00
	MAXILLARY ANTRUM, LAVAGE OF - each attendance at which the procedure is performed, including any associated consultation (Anaes.)
53004	Fee: \$39.20 Benefit: 75% = \$29.40 85% = \$33.35
	ANTROSTOMY (RADICAL) (Anaes.) (Assist.)
53006	Fee: \$573.80 Benefit: 75% = \$430.35 85% = \$487.75
	ANTRUM, intranasal operation on, or removal of foreign body from (Anaes.) (Assist.)
53009	Fee: \$325.45 Benefit: 75% = \$244.10 85% = \$276.65
	ANTRUM, drainage of, through tooth socket (Anaes.)
53012	Fee: \$129.40 Benefit: 75% = \$97.05 85% = \$110.00
	ORO-ANTRAL FISTULA, plastic closure of (Anaes.) (Assist.)
53015	Fee: \$646.75 Benefit: 75% = \$485.10 85% = \$549.75
	NASAL SEPTUM, septoplasty, submucous resection or closure of septal perforation (Anaes.) (Assist.)
53016	Fee: \$531.95 Benefit: 75% = \$399.00 85% = \$452.20
	NASAL SEPTUM, reconstruction of (Anaes.) (Assist.)
53017	Fee: \$663.60 Benefit: 75% = \$497.70 85% = \$564.90
	MAXILLARY SINUS, BONE GRAFT to floor of maxillary sinus following elevation of mucosal lining (sinus lift procedure), (unilateral) (Anaes.) (Assist.)
53019	Fee: \$639.40 Benefit: 75% = \$479.55 85% = \$543.50
	POST-NASAL SPACE, direct examination of, with or without biopsy (Anaes.)
53052	Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90
	NASENDOSCOPY or SINOSCOPY or FIBROPTIC EXAMINATION of NASOPHARYNX one or more of these procedures (Anaes.)
53054	Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90
	EXAMINATION OF NASAL CAVITY or POST-NASAL SPACE, or NASAL CAVITY AND POST-NASAL SPACE, UNDER GENERAL ANAESTHESIA, not being a service associated with a service to which another item in this Group applies (Anaes.)
53056	Fee: \$79.20 Benefit: 75% = \$59.40 85% = \$67.35
	NASAL HAEMORRHAGE, POSTERIOR, ARREST OF, with posterior nasal packing with or without cauterisation and with or without anterior pack (excluding aftercare) (Anaes.)
53058	Fee: \$135.15 Benefit: 75% = \$101.40 85% = \$114.90
	CAUTERISATION (other than by chemical means) OR CAUTERISATION by chemical means when performed under general anaesthesia OR DIATHERMY OF SEPTUM, TURBINATES FOR OBSTRUCTION OR HAEMORRHAGE SECONDARY TO SURGERY (OR TRAUMA) - 1 or more of these procedures (including any consultation on the same occasion) not being a service associated with any other operation on the nose (Anaes.)
53060	Fee: \$110.60 Benefit: 75% = \$82.95 85% = \$94.05

07. EAR, NOSE & THROAT	
	POST SURGICAL NASAL HAEMORRHAGE, arrest of during an episode of epistaxis by cauterisation or nasal cavity packing or both (Anaes.)
53062	Fee: \$99.10 Benefit: 75% = \$74.35 85% = \$84.25
	CRYOTHERAPY TO NOSE in the treatment of nasal haemorrhage (Anaes.)
53064	Fee: \$179.35 Benefit: 75% = \$134.55 85% = \$152.45
	TURBINECTOMY or TURBINECTOMIES, partial or total, unilateral (Anaes.)
53068	Fee: \$150.25 Benefit: 75% = \$112.70 85% = \$127.75
	TURBINATES, submucous resection of, unilateral (Anaes.)
53070	Fee: \$195.95 Benefit: 75% = \$147.00 85% = \$166.60

08. TEMPOROMANDIBULAR JOINT	
	Group 08. Temporomandibular Joint
	MANDIBLE, treatment of a dislocation of, not requiring open reduction (Anaes.)
53200	Fee: \$77.85 Benefit: 75% = \$58.40 85% = \$66.20
	MANDIBLE, treatment of a dislocation of, requiring open reduction (Anaes.)
53203	Fee: \$130.65 Benefit: 75% = \$98.00 85% = \$111.10
	TEMPOROMANDIBULAR JOINT, manipulation of, performed in the operating theatre of a hospital, not being a service associated with a service to which another item in Groups O3 to O9 applies (Anaes.)
53206	Fee: \$157.45 Benefit: 75% = \$118.10
	GLENOID FOSSA, ZYGOMATIC ARCH and TEMPORAL BONE, reconstruction of (Obwegeser technique) (Anaes.) (Assist.)
53209	Fee: \$1,815.20 Benefit: 75% = \$1361.40 85% = \$1716.50
	ABSENT CONDYLE and ASCENDING RAMUS in hemifacial microsomia, construction of, not including harvesting of graft material (Anaes.) (Assist.)
53212	Fee: \$980.60 Benefit: 75% = \$735.45 85% = \$881.90
	TEMPOROMANDIBULAR JOINT, arthroscopy of, with or without biopsy, not being a service associated with any other arthroscopic procedure of that joint (Anaes.) (Assist.)
53215	Fee: \$449.90 Benefit: 75% = \$337.45 85% = \$382.45
	TEMPOROMANDIBULAR JOINT, arthroscopy of, removal of loose bodies, debridement, or treatment of adhesions - 1 or more such procedures (Anaes.) (Assist.)
53218	Fee: \$719.65 Benefit: 75% = \$539.75 85% = \$620.95
	TEMPOROMANDIBULAR JOINT, arthrotomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53220	Fee: \$362.75 Benefit: 75% = \$272.10 85% = \$308.35
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without microsurgical techniques (Anaes.) (Assist.)
53221	Fee: \$960.15 Benefit: 75% = \$720.15 85% = \$861.45
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with condylectomy or condylotomy, with or without microsurgical techniques (Anaes.) (Assist.)
53224	Fee: \$1,064.35 Benefit: 75% = \$798.30 85% = \$965.65

O8. TEMPOROMANDIBULAR JOINT	
	ARTHROCENTESIS, irrigation of temporomandibular joint after insertion of 2 cannuli into the appropriate joint space(s) (Anaes.) (Assist.)
53225	Fee: \$319.80 Benefit: 75% = \$239.85 85% = \$271.85
	TEMPOROMANDIBULAR JOINT, synovectomy of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53226	Fee: \$343.75 Benefit: 75% = \$257.85 85% = \$292.20
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with or without meniscus or capsular surgery, including meniscectomy when performed, with or without microsurgical techniques (Anaes.) (Assist.)
53227	Fee: \$1,307.85 Benefit: 75% = \$980.90 85% = \$1209.15
	TEMPOROMANDIBULAR JOINT, open surgical exploration of, with meniscus, capsular and condylar head surgery, with or without microsurgical techniques (Anaes.) (Assist.)
53230	Fee: \$1,473.25 Benefit: 75% = \$1104.95 85% = \$1374.55
	TEMPOROMANDIBULAR JOINT, surgery of, involving procedures to which items 53224, 53226, 53227 and 53230 apply and also involving the use of tissue flaps, or cartilage graft, or allograft implants, with or without microsurgical techniques (Anaes.) (Assist.)
53233	Fee: \$1,655.50 Benefit: 75% = \$1241.65 85% = \$1556.80
	TEMPOROMANDIBULAR JOINT, stabilisation of, involving 1 or more of: repair of capsule, repair of ligament or internal fixation, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53236	Fee: \$518.10 Benefit: 75% = \$388.60 85% = \$440.40
	TEMPOROMANDIBULAR JOINT, arthrodesis of, not being a service to which another item in this Group applies (Anaes.) (Assist.)
53239	Fee: \$518.10 Benefit: 75% = \$388.60 85% = \$440.40
	TEMPOROMANDIBULAR JOINT OR JOINTS, application of external fixator to, other than for treatment of fractures (Anaes.) (Assist.)
53242	Fee: \$343.75 Benefit: 75% = \$257.85 85% = \$292.20

O9. TREATMENT OF FRACTURES	
	Group O9. Treatment Of Fractures
	MAXILLA, unilateral or bilateral, treatment of fracture of, not requiring splinting (See para ON.4.10 of explanatory notes to this Category)
53400	Fee: \$142.15 Benefit: 75% = \$106.65 85% = \$120.85
	MANDIBLE, treatment of fracture of, not requiring splinting (See para ON.4.10 of explanatory notes to this Category)
53403	Fee: \$173.75 Benefit: 75% = \$130.35 85% = \$147.70
	MAXILLA, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category)
53406	Fee: \$447.55 Benefit: 75% = \$335.70 85% = \$380.45
	MANDIBLE, treatment of fracture of, requiring splinting, wiring of teeth, circumosseous fixation or external fixation (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category)
53409	

O9. TREATMENT OF FRACTURES	
	Fee: \$447.55 Benefit: 75% = \$335.70 85% = \$380.45
53410	ZYGOMATIC BONE, treatment of fracture of, not requiring surgical reduction (See para ON.4.10 of explanatory notes to this Category) Fee: \$94.25 Benefit: 75% = \$70.70 85% = \$80.15
53411	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction by a temporal, intra-oral or other approach (Anaes.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$262.85 Benefit: 75% = \$197.15 85% = \$223.45
53412	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation at 1 site (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$431.60 Benefit: 75% = \$323.70 85% = \$366.90
53413	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 2 sites (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$528.75 Benefit: 75% = \$396.60 85% = \$449.45
53414	ZYGOMATIC BONE, treatment of fracture of, requiring surgical reduction and involving internal or external fixation or both at 3 sites (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$607.40 Benefit: 75% = \$455.55 85% = \$516.30
53415	MAXILLA, treatment of fracture of, requiring open reduction (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$479.55 Benefit: 75% = \$359.70 85% = \$407.65
53416	MANDIBLE, treatment of fracture of, requiring open reduction (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$479.55 Benefit: 75% = \$359.70 85% = \$407.65
53418	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$623.40 Benefit: 75% = \$467.55 85% = \$529.90
53419	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$623.40 Benefit: 75% = \$467.55 85% = \$529.90
53422	MAXILLA, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$791.10 Benefit: 75% = \$593.35 85% = \$692.40
53423	MANDIBLE, treatment of fracture of, requiring open reduction and internal fixation involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$791.10 Benefit: 75% = \$593.35 85% = \$692.40
53424	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category)

O9. TREATMENT OF FRACTURES	
	Fee: \$678.70 Benefit: 75% = \$509.05 85% = \$580.00
53425	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction not involving plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$678.70 Benefit: 75% = \$509.05 85% = \$580.00
53427	MAXILLA, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$927.05 Benefit: 75% = \$695.30 85% = \$828.35
53429	MANDIBLE, treatment of a complicated fracture of, involving viscera, blood vessels or nerves, requiring open reduction involving the use of plate(s) (Anaes.) (Assist.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$927.05 Benefit: 75% = \$695.30 85% = \$828.35
53439	MANDIBLE, treatment of a closed fracture of, involving a joint surface (Anaes.) (See para ON.4.10 of explanatory notes to this Category) Fee: \$262.85 Benefit: 75% = \$197.15 85% = \$223.45
53453	ORBITAL CAVITY, reconstruction of a wall or floor with or without foreign implant (Anaes.) (Assist.) Fee: \$531.95 Benefit: 75% = \$399.00 85% = \$452.20
53455	ORBITAL CAVITY, bone or cartilage graft to orbital wall or floor including reduction of prolapsed or entrapped orbital contents (Anaes.) (Assist.) Fee: \$624.80 Benefit: 75% = \$468.60 85% = \$531.10
53458	NASAL BONES, treatment of fracture of, not being a service to which item 53459 or 53460 applies Fee: \$47.40 Benefit: 75% = \$35.55 85% = \$40.30
53459	NASAL BONES, treatment of fracture of, by reduction (Anaes.) Fee: \$259.20 Benefit: 75% = \$194.40 85% = \$220.35
53460	NASAL BONES, treatment of fractures of, by open reduction involving osteotomies (Anaes.) (Assist.) Fee: \$528.75 Benefit: 75% = \$396.60 85% = \$449.45

O11. REGIONAL OR FIELD NERVE BLOCKS	
	Group O11. Regional Or Field Nerve Blocks
	(Note. Where an anaesthetic combines a regional nerve block with a general anaesthetic for an operative procedure, benefits will be paid only under the anaesthetic item relevant to the operation. The items in this Group are to be used in the practice of oral and maxillofacial surgery and are not to be used for dental procedures (eg. restorative dentistry or dental extraction.))
53700	TRIGEMINAL NERVE, primary division of, injection of an anaesthetic agent Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85
53702	TRIGEMINAL NERVE, peripheral branch of, injection of an anaesthetic agent Fee: \$68.85 Benefit: 75% = \$51.65 85% = \$58.55
53704	FACIAL NERVE, injection of an anaesthetic agent

O11. REGIONAL OR FIELD NERVE BLOCKS	
	Fee: \$41.45 Benefit: 75% = \$31.10 85% = \$35.25
	NERVE BRANCH, destruction by a neurolytic agent, not being a service to which any other item in this Group applies (See para ON.4.12 of explanatory notes to this Category)
53706	Fee: \$137.45 Benefit: 75% = \$103.10 85% = \$116.85

CATEGORY 5: DIAGNOSTIC IMAGING SERVICES

SUMMARY OF CHANGES FROM 01/03/2024

The 01/03/2024 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

(a) new item	New
(b) amended description	Amend
(c) fee amended	Fee
(d) item number changed	Renum
(e) EMSN changed	EMSN

New Items

63019 63020

Description Amended

55135

Other changes to the General Medical Services Table and Diagnostic Imaging Services Table

From 1 March 2024, the following changes will be made to medical and diagnostic imaging services under the MBS:

- Insert two new items (63019 and 63020) for related magnetic resonance imaging services into the DIST;
- Amend one existing procedural item 55135 to restrict co-claiming with the new items.

Diagnostic Imaging Explanatory Note IN.7.1 and Item 55126 Correction

Diagnostic Imaging Explanatory Note IN.7.1 and item 55126 correction to include relevant references

DIAGNOSTIC IMAGING SERVICES NOTES

IN.0.1 Diagnostic Imaging Services – Overview

Section 4AA of the *Health Insurance Act 1973* (the Act) enables the *Health Insurance (Diagnostic Imaging Services Table) Regulations (No. 2) 2020* to prescribe a table of diagnostic imaging services that sets out rules for interpretation of the table, items of diagnostic imaging services and the amount of fees applicable to each item. For further information on diagnostic imaging, visit the Department of Health and Aged Care's website.

IN.0.2 What is a Diagnostic Imaging Service and who may provide a service

What is a diagnostic imaging service

A diagnostic imaging service is defined in the Act as "an R-type diagnostic imaging service or an NR-type diagnostic imaging service to which an item in the DIST applies".

A diagnostic imaging service includes the diagnostic imaging procedure, which is defined in the Act as 'a procedure for the production of images (for example x-rays, computerised tomography scans, ultrasound scans, magnetic resonance imaging scans and nuclear scans) for use in the rendering of diagnostic imaging services as well as the report'.

The Schedule fee for each diagnostic imaging service described in the DIST covers both the diagnostic imaging procedure and the reading and report on that procedure by the diagnostic imaging service provider. Exceptions to the reporting requirement are as follows:

- where the service is provided in conjunction with a surgical procedure, the findings may be noted on the operation record (items 55054, 55130, 55135, 55848, 57341, 59312, 59314, 60506, 60509 and 61109);
- where a service is provided in preparation of a radiological procedure (items 60918 and 60927).

As for all Medicare services, diagnostic imaging services have to be clinically relevant before they are eligible for Medicare benefits. A clinically relevant service is a service that is generally accepted by the profession as being necessary for the appropriate treatment of the patient.

For R-type services rendered at the request of another practitioner, responsibility for determining the clinical relevance of the service lies with the requesting practitioner. For NR-type services (and R-type services provided without a request under the exemption provisions - see IN.0.6 - 'Exemptions from the written request requirements for R-type diagnostic imaging services'), the clinical relevance of the service is determined by the providing practitioner.

Who may provide a diagnostic imaging service

Unless otherwise stated, a diagnostic imaging service specified in the DIST may be provided by:

- a) a medical practitioner; or
- b) a person, other than a medical practitioner, who provides the service under the supervision of a medical practitioner in accordance with accepted medical practice.

For the purposes of Medicare, however, the rendering practitioner is the medical practitioner who provides the report.

Medicare benefits are not payable, for example, when a medical practitioner refers patients to self-employed paramedical personnel, such as radiographers or other persons, who either bill the patient or the practitioner requesting the service.

Reports provided by practitioners located outside Australia

Under the Act, Medicare benefits are only payable for services rendered in Australia. Where a service consists of a number of components, such as a diagnostic imaging service, all components need to be rendered in Australia in order to qualify for Medicare benefits. For diagnostic imaging services, this means that all elements of the service, including the preparation of report on the procedure, would need to be rendered in Australia.

IN.0.3 Registration of Sites Undertaking Diagnostic Imaging Procedures

All sites (including hospitals) and bases for mobile equipment at or from which diagnostic imaging procedures are performed need to be registered with Services Australia in order for Medicare benefits to be payable for diagnostic imaging procedures provided at the site, or in the case of procedures reported remotely, for procedures reported for the site.

Registered sites and bases for mobile equipment are allocated a Location Specific Practice Number (LSPN). The LSPN is a unique identifier comprising a six digit numeric and is required on all accounts, receipts and Medicare assignment of benefits forms for diagnostic imaging services before patients can receive Medicare benefits. In addition, benefits are not payable unless there is equipment of appropriate type listed on the register for the practice.

Sites or bases for mobile equipment need only register once. To maintain registration, sites are required to advise of any changes to their primary information within 28 days of the change occurring. Primary information is:

- proprietor details;
- ACN (for companies);
- business name and ABN;
- address of practice site or base for mobile equipment;
- type of equipment located at the site;
- information about any health care provider not employed at, or contracted to provide services for the site or base, who has an interest in any of the equipment listed on the register.

Suspension or Cancellation

Registration will be suspended if a proprietor fails to respond to notices from Services Australia about registration details. The suspension will be lifted as soon as the notices are responded to and Medicare benefits will be backdated for the period of suspension.

Registration will be cancelled after a continuous period of three months suspension. Cancellation under these circumstances is taken to have commenced from the date of suspension.

The proprietor may, at any time, request cancellation of the registration of a practice site or base for mobile equipment. Otherwise, registration may be cancelled by Service Australia if the registration was obtained improperly (false information supplied) or if the proprietor fails to notify Services Australia of changes to primary information. A decision to cancel a registration will only be made following due consideration of a submission by the site or base. The proprietor may apply to the Administrative Appeals Tribunal for a review of this decision. If registration is cancelled involuntarily, the proprietor may not apply to re-register the site or base for a period of 12 months unless permitted to do so.

Proprietors of unregistered practices (including where the registration is under suspension or has been cancelled) need to either advise patients in writing or display a notice that no Medicare benefits will be payable for the diagnostic imaging services.

From 1 July 2010 practices applying for an LSPN will also need to apply for and be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order to be eligible to provide diagnostic imaging services under Medicare. Information about DIAS is available here: [Diagnostic Imaging Accreditation Scheme \(the DIAS\)](#).

For full details about LSPNs including how to register a practice site are available at Services Australia' website at <https://www.servicesaustralia.gov.au/search/LSPN>.

IN.0.4 Accreditation of Practices

Background

All practices providing diagnostic imaging services needed to be accredited under the Diagnostic Imaging Accreditation Scheme (DIAS) in order for Medicare benefits to be payable for those services.

First time accreditation

New practices entering the Scheme may choose to be accredited against either three entry-level Standards or the full suite of Standards. Practices initially choosing to be accredited against the entry level Standards have a further period of two years to become accredited against the full suite of Standards.

Re-accreditation of Practices

Practices previously accredited must seek re-accreditation against the full suite of Standards and cannot apply for re-accreditation against the entry level Standards. Accreditation against the full suite of Standards is for a four year period.

Non-Accredited Practices

Practices may choose not to be accredited and still provide diagnostic imaging services, but these services do not attract a Medicare rebate.

Practices which are not accredited under the DIAS must inform patients prior to carrying out the service that the practice is not accredited and as such the service does not attract a Medicare rebate. It is an offence under the *Health Insurance Act 1973* not to do so.

The Medical Imaging Accreditation Program (MIAP)

The Royal Australian and New Zealand College of Radiologist (RANZCR) offers a voluntary accreditation program jointly with the National Association of Testing Authorities (NATA).

Practices participating in MIAP can seek recognition of their MIAP accreditation under the DIAS. This recognition will grant MIAP Practices accreditation against the full suite of Standards until the date of the expiration of the recognised MIAP accreditation. By this date Practices will need to either provide their Approved Accreditor with evidence of renewal of MIAP accreditation or have been granted accreditation against the full suite of Standard.

The Standards

The current Standards are made up of three entry level Standards and the full suite of Practice Accreditation Standards. If a practice is applying for accreditation against the entry level Standards, an accreditation decision will be made by an Approved Accreditor within 15 business days of the lodgement of an application for accreditation. If a practice is applying for accreditation against the full suite of Standards, an accreditation decision will be made by an Approved Accreditor within 30 business days of the lodgement of an application for accreditation.

From the date of being granted accreditation, the practice site can provide diagnostic imaging services under Medicare.

Entry Level Standards

- Registration and Licensing Standard (Standard 1.2)
- Radiation Safety Standard (Standard 1.3)

- Equipment Inventory Standard (Standard 1.4)

Full Suite Standards

- Part 1 - Organisational Standards
- Part 2 - Pre-procedure Standards
- Part 3 - Procedure Standards
- Part 4 - Post Procedure Standards

Applying for accreditation

Whether a practice is applying for accreditation against entry-level Standards or the full suite Standards, the application process is the same. A practice is required to submit to an Approved Accrerator either:

- an application for accreditation providing written documentary evidence of compliance with the entry level Standards or the full suite Standards; or
- written evidence of accreditation under the Medical Imaging Accreditation Program (MIAP) jointly administered by RANZCR and NATA.

Renewal of Accreditation

Practices awarded accreditation against the full suite of Standards enter the maintenance program which requires them to be re-accredited every 4 years.

Approved Accreditors

There are three Accreditation agencies approved by the Minister for Health to provide Accreditation services:

HDAA Australia	(HDAA)	Ph: 1800 601 696
National Association of Testing Authorities	(NATA)	Ph: 1800 621 666
Quality Innovation Performance	(QIP)	Ph: 1300 888 329

Further information can be obtained from:

Website: www.diagnosticimaging.health.gov.au

Email: DIAS@health.gov.au

Phone: 02 6289 8859

IN.0.5 Capital Sensitivity Diagnostic Imaging Equipment

Except where there is an exemption in force, Medicare benefits are not payable for diagnostic imaging services rendered using equipment, other than positron emission tomography (PET), that has exceeded its 'effective life age' for new equipment or 'maximum extended life age' for upgraded equipment as shown in the table below.

This is known as capital sensitivity and is intended to ensure that patients have access to quality diagnostic imaging services by encouraging providers to upgrade and replace aged equipment as appropriate.

Life ages of diagnostic imaging equipment

Type of Equipment	Definition of type of equipment	Effective life age for new equipment (years)	Maximum extended life age (years)
Ultrasound	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I1 applies	10	15
CT	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I2 applies	10	15
Mammography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 10 of Group I3 applies	10	15
Angiography	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroup 13 of Group I3 applies	10	15
Other diagnostic radiology	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Subgroups 1 to 9, 12, 14, 15 or 17 of Group I3 applies	15	20
Nuclear medicine imaging (other than for PET)	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I4 applies (other than items 61523 to 61647)	10	15
MRI	Equipment primarily used in carrying out a diagnostic imaging procedure used in rendering a service to which an item in Group I5 applies	10	20

Capital sensitivity exemptions

An exemption is available for practices where they have not been able to replace or upgrade equipment due to delays beyond the control of the practice.

For full details about the rules for capital sensitivity, how to apply for an exemption and the definition of upgrade, providers should access the Department of Health and Aged Care's website at www.health.gov.au/capitalsensitivity or send an email enquiry to capsens@health.gov.au.

IN.0.6 Requests for R-type Diagnostic Imaging Services

IN.0.6

Requests for R-type Diagnostic Imaging Services

Request requirements

Medicare benefits are not payable for diagnostic imaging services that are classified as R-type (requested) services unless, prior to commencing the relevant service, the practitioner receives a request from a requesting practitioner who determined the service was necessary.

There are exemptions to the request requirements in specified circumstances. These circumstances are detailed below under 'Exemptions from the written request requirements for R-type diagnostic imaging services'.

Expiry of a diagnostic imaging request

Requests for diagnostic imaging do not expire and are valid until the required test has been performed.

Form of a diagnostic imaging request

Responsibility for the adequacy of requesting details rests with the requesting practitioner. A request for a diagnostic imaging service does not have to be in a particular form, however, the legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested.

The *Electronic Transactions Act 1999* allows for documents required by law to be in writing, to instead be provided electronically in a range of circumstances. Diagnostic imaging requests may be made by email or other electronic medium, either directly to the imaging practice (with the patient's consent), or via the patient, as long as:

- the recipient agrees to the request being made in that form;
- it would be accessible for subsequent reference; and
- it contains the information prescribed as for requests made in writing.

There is no requirement for a diagnostic imaging request to be signed.

A written request must contain the name and address or name and provider number in respect of the place of practice of the requesting practitioner.

A request to a medical imaging specialist for a diagnostic imaging service should include sufficient clinical information to assist the service provider to accurately provide the diagnostic imaging service requested and:

- ensure compliance with the MBS item descriptors, and
- where the requested service involves ionising radiation (x-ray, CT etc.), make a decision whether to expose the patient to radiation, consistent with the diagnostic imaging providers' obligations under the International Commission on Radiological Protection's doctrine of radiation protection.

Unless sufficient clinical information is provided, the requesting practitioner may be asked to provide additional information to the diagnostic imaging provider, which could result in delays for the patient.

The following should be provided on a request for a diagnostic imaging service:

- ***A clear and legible request*** - a request must be in writing, dated and be legible so that all information contained is transferred between requestor and provider without loss of content or meaning, or risk of misinterpretation. The use of abbreviations should be avoided. Where permitted, verbal referrals should ensure clear communication between the requestor and provider.

Under the *Electronic Transactions Act 1999*, this information can be provided in electronic form.

Identity of the patient – a request should include details which confirm the identity of the patient, including their contact details.

Identity of the requestor – a request should include the identity and contact details of the requesting practitioner, including their Medicare provider number, to ensure effective and timely communication.

Clinical detail - a request should include a clinical justification for each examination requested and performed to support the performance of the diagnostic imaging examination.

- Requests should contain information to enable the provider to confirm that the requested diagnostic imaging modality and examination are appropriate to that individual patient's presentation and circumstances, to answer the referrer's diagnostic question with the least number of diagnostic steps (with due regard for patient safety, radiation dose, local expertise and cost).
- Where the request is for diagnostic imaging involving ionising radiation (e.g. x-ray, CT) the request should include clinical information for the provider to determine whether the expected clinical benefit to the

patient of being exposed to diagnostic radiation outweighs the risk of radiation exposure ('justification for medical radiation exposure').

- The provider must have sufficient information to justify and approve a medical radiation procedure. Where known, this information should include pregnancy status for women of child-bearing age.

Before requesting a diagnostic imaging service, the requesting practitioner must turn their mind to the clinical relevance of the request and determine that the service is necessary. For example, an ultrasound to determine the sex of a foetus is generally not a clinically relevant service, unless there is an indication this service will determine further courses of treatment (e.g. where there is a genetic risk of a sex-related disease or condition).

The requestor should consider whether:

- they are duplicating recent tests.
- the results would change the diagnosis, affect patient management or do more harm than good.
- Royal Australian and New Zealand College of Radiologist (RANZCR)'s Education Modules for appropriate Imaging Referrals contains decision support tools for select clinical scenarios.
- the Australian Radiation Protection and Nuclear Safety Agency's Radiation Protection of the Patient Module provides information about diagnostic imaging for medical practitioners, to ensure radiation use is justified, and may aid in communicating benefits and risks of diagnostic imaging modalities to patients.
- the benefits and risks to the patient or carer have been communicated, including any alternatives available, and
- there is information available to the patient about the tests requested. Consumer resources available include the:
 - o NPS Medicine Wise Choosing Wisely program
 - o Consumers Health Forum's Why do I even need this test? A Diagnostic Imaging and Informed Consent Consumer Resource
 - o RANZCR's Inside Radiology website.

MBS requirements - a request should meet any specific MBS item requirements. Failure to provide this information may mean that a Medicare benefit is not paid for the service.

Who may request a diagnostic imaging service?

The following practitioners may request a diagnostic imaging service:

Medical practitioners, specialists and consultant physicians

Specialists and consultant physicians can request any diagnostic imaging service (some exceptions apply, for example, obstetric ultrasound item 55712 where the requester needs to have obstetric qualifications).

Other medical practitioners can request any service and specific MRI Services – including on behalf of the treating practitioner, for example, by a resident medical officer at a hospital on behalf of the patient's treating practitioner.

Dentists

All dental practitioners who are registered under the National Law may request the following items:

57509, 57515, 57521, 57523, 57527, 57901 to 57969, 58100, 58300, 58503, 58903, 59733, 59739, 59751, 60500 and 60503.

Dental specialists are able to request the items listed above, as well as specific additional items depending on their specialty as set out below.

Approved dental practitioners

55028, 55030, 55032, 56001 to 56220, 56224, 56301 to 56507, 56801 to 57007, 57341, 57362, 57703, 57709, 57712, 57715, 58103 to 58115, 58306, 58506, 58521 to 58527, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

Note: Approved dental practitioners are dentists who were approved by the Minister before 1 November 2004 for the definition of professional service in subsection 3(1) of the *Health Insurance Act 1973*. Practitioners should contact Services Australia to determine their eligibility for requesting these services.

Oral and maxillofacial surgeons (with medical specialist registration)

Oral and maxillofacial surgeons who also have a medical qualification and are registered as medical specialist can request items in the Diagnostic Imaging Services Table, subject to their scope of practice and any clauses or requirements relevant to the individual item.

Prosthodontists

55028, 56013, 56016, 56022, 56028, 57362, 58306, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462 and 63334.

Periodontists, endodontists, paediatric dentistry specialists and orthodontists

56022, 57362, 58306, 61421, 61454, 61457 and 63334.

Specialists in oral medicine, oral and maxillofacial pathology, oral surgery and special needs dentistry

55028, 55030, 55032, 56001, 56007, 56010, 56013, 56016, 56022, 56028, 56101, 56107, 56301, 56307, 56401, 56407, 57341, 57362, 58306, 58506, 58909, 59103, 59703, 60000 to 60009, 60506, 60509, 61109, 61372, 61421, 61425, 61429, 61430, 61433, 61434, 61446, 61449, 61450, 61453, 61454, 61457, 61462, 63007 and 63334.

Chiropractors

57712, 57715, 58100 to 58106, 58109 and 58112.

Physiotherapists and Osteopaths

57712, 57715, 58100 to 58106, 58109, 58112, 58120 and 58121.

Podiatrists

55844, 55888, 55889, 55890, 55891, 55892, 55893, 55894, 55895, 57521, 57523 and 57527.

Participating Nurse Practitioners

55036, 55066, 55070, 55071, 55076, 55600, 55768, 55812, 55844, 55848, 55850, 55852, 55856, 55858, 55860, 55862, 55864, 55866, 55868, 55870, 55872, 55874, 55876, 55878, 55880, 55882, 55884, 55886, 55888, 55890, 55892, 55894, 57509, 57515, 57521, 57523, 57527, 57703, 57709, 57712, 57715, 57721, 58503 to 58527.

Participating Midwives

55700, 55704, 55706, 55707, 55718.

Request to specified provider not required

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider. Request forms containing relevant information about a diagnostic imaging provider supplied, or made available to, a requesting practitioner by a diagnostic imaging provider must include a statement that informs the patient that the request may be taken to a diagnostic imaging provider of the patient's choice.

Request for more than one service and limit on time to render services

The requesting practitioner may use a single request to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after the rendering of the first service.

Contravention of request requirements

A practitioner who, without reasonable excuse makes a request for a diagnostic imaging service that does not include the required information in their request or in a request made on their behalf is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine of up to 10 penalty units.

A practitioner who renders "R-type" diagnostic imaging services and who, without reasonable excuse, provides either directly or indirectly, to a requesting practitioner a document to be used in the making of a request which would contravene the request information requirements is guilty of an offence under the *Health Insurance Act 1973*. The offence is punishable, upon conviction, by a fine of up to 10 penalty units.

Exemptions from the written request requirements for R-type diagnostic imaging services

There are exemptions from the general written request requirements (R-type) diagnostic imaging services and these are outlined as follows:

Consultant physician or specialist

A consultant physician or specialist is a medical practitioner recognised for the purposes of the *Health Insurance Act 1973* as a specialist or consultant physician, in a particular specialty.

A written request is not required for the payment of Medicare benefits when the diagnostic imaging service is provided by or on behalf of a consultant physician or a specialist (other than a specialist in diagnostic radiology) in their specialty and after clinical assessment determines that the service was necessary.

However, if in the referral to the consultant physician or specialist, the referring practitioner specifically requests a diagnostic imaging service (eg to a cardiologist to perform an echocardiogram) the service provided is a requested, not self-determined service. If further services are subsequently provided, these further services are self-determined - see "Additional services".

Additional services

A written request is not required for a diagnostic imaging service if that service was provided after one which has been formally requested and the providing practitioner determines that, on the basis of the results obtained from the requested service, that an additional service was necessary. However, the following services cannot be self-determined as "additional services":

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8.

Substituted services

A provider may substitute a service for the service originally requested when:

- the provider determines, from the clinical information provided on the request, that the substituted service would be more appropriate for the diagnosis of the patient's condition; and
- the provider has consulted with the requesting practitioner or taken all reasonable steps to do so before providing the substituted service; and
- the substituted service was one that would be accepted as a more appropriate service in the circumstances by the practitioner's speciality group.

However, the following services cannot be substituted:

- MRI services;
- PET services; and
- services not otherwise able to be requested by the original requesting practitioner.

For details required for accounts/receipts see Note IN.0.8.

Remote areas

A written request is not required for the payment of Medicare benefits for a R-type diagnostic imaging service rendered by a medical practitioner in a remote area provided:

- the R-type service is not one for which there is a corresponding NR-type service; and
- the medical practitioner rendering the service has been granted a remote area exemption for that service.

For details required for accounts/receipts see Note IN.0.8.

Definition of remote area

The definition of a remote area is one that is more than 30 kilometres by road from:

- a) a hospital which provides a radiology service under the direction of a specialist in the specialty of diagnostic radiology; and
- b) a free-standing radiology facility under the direction of a specialist in the specialty of diagnostic radiology.

Application for remote area exemption

A medical practitioner, other than a consultant physician or specialist, who believes that they qualify for exemption under the remote area definition, should obtain an application form from Services Australia website <https://www.servicesaustralia.gov.au> or by contacting Services Australia' Provider Eligibility Section, by email at sa.prov.elig@servicesaustralia.gov.au or via phone on 1800 032 259 Monday to Friday, between 8.30 am and 5.00 pm, Australian Eastern Standard Time.

Quality assurance requirement for remote area exemption

Application for, or continuation of, a remote area exemption will be contingent on practitioners being enrolled in an approved continuing medical education and quality assurance program. For further information, please visit the Australian College of Rural and Remote Medicine (ACRRM) website at www.acrrm.org.au, or call the ACRRM on 1800 223 226.

Emergencies

The written request requirement does not apply if the providing practitioner determines that, because the need for the service arose in an emergency, the service should be performed as quickly as possible.

For details required for accounts/receipts see Note IN.0.8.

Lost requests

The written request requirement does not apply where:

- the person who received the diagnostic imaging service, or someone acting on that person's behalf, claimed that a written request had been made for such a service but that the request had been lost; and
- the provider of the diagnostic imaging service or that provider's agent or employee obtained confirmation from the requesting practitioner that the request had been made.

The lost request exemption is applicable only to services that the practitioner could originally request.

For details required for accounts/receipts see Note IN.0.8.

Pre-existing diagnostic imaging practices

The legislation provides for exemption from the written request requirement for services provided by practitioners who have operated pre-existing diagnostic imaging practices. The exemption applies to the services covered by the following items: 57712, 57715, 57901, 57902, 57907, 57915, 57921, 58100 to 58115, 58521, 58524, 58527, 58700 and 59103.

To qualify for this pre-existing exemption the providing practitioner must:

- be treating their own patient;
- have determined that the service was necessary;
- have rendered between 17 October 1988 and 16 October 1990 at least 50 services (which resulted in the payment of Medicare benefits) of the kind which have been designated "R-type" services from 1 May 1991;
- provide the exempted services at the practice location where the services which enabled the practitioner to qualify for this exemption were rendered; and
- be enrolled in an approved continuing medical education and quality assurance program from 1 January 2001. For further information, please contact the Royal Australian College of General Practitioners (RACGP), at www.racgp.org.au, on 1800 472 247 or via email to racgp@racgp.org.au, or the Australian College of Rural and Remote Medicine (ACRRM), at www.acrrm.org.au or by calling 1800 223 226.

Benefits are only payable for services exempted under these provisions where the service was provided by the exempted medical practitioner at the exempted location. Exemptions are not transferable.

For details required for accounts/receipts see Note IN.0.8.

Retention of requests

A medical practitioner who has rendered an R-type diagnostic imaging service in response to a written request must retain that request for a period of two years commencing on the day on which the service was rendered.

A medical practitioner must, if requested by Services Australia, produce written requests retained by that practitioner for an R-type diagnostic imaging service as soon as practicable and in any case by the end of the day after the day on which Services Australia's request was made. An employee of Services Australia is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations of lost requests.

A medical practitioner who, without reasonable excuse, fails to comply with the above requirements is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine of up to 10 penalty units.

The Department of Health and Aged Care has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#), which is located online at www.health.gov.au.

IN.0.7 Maintaining Records of Diagnostic Imaging Services

Providers of diagnostic imaging services must keep records of diagnostic imaging services in a manner that facilitates retrieval on the basis of the patient's name and date of service. Records of R-type diagnostic imaging services must be retained for a period of 2 years commencing on the day on which the service was rendered.

The records must include the report by the providing practitioner on the diagnostic imaging service. For ultrasound services, where the service is performed on behalf of a medical practitioner the report must record the name of the sonographer.

- Where the provider substitutes a service for the service originally requested, the provider's records must include:
 - words indicating that the providing practitioner has consulted with the requesting practitioner and the date of consultation; or
 - if the providing practitioner has not consulted with the requesting practitioner, sufficient information to demonstrate that he or she has taken all reasonable steps to do so.
 - o For services rendered after a lost request, the records must include words to the effect that the request was lost but confirmed by the requesting practitioner and the manner of confirmation, e.g. how and when.
 - o For emergency services, the records must indicate the nature of the emergency.

If requested by Services Australia, records retained by a providing practitioner must be produced to an officer of Services Australia as soon as practicable but in any event within seven days after the request. Service Australia officers may make and retain copies, or take and retain extracts, of such records. A medical practitioner who, without reasonable excuse, contravenes any of the above provisions is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine of \$1000.

IN.0.8 Details Required on Accounts, Receipts and Medicare Assignment of Benefit Forms

In addition to the normal particulars of the patient, date of service, the services performed and the fees charged, the details which must be entered on accounts or receipts, and Medicare assignment of benefits forms in respect of diagnostic imaging services are as follows:

- the LSPN of the diagnostic imaging premises or mobile facility where the diagnostic imaging procedure was undertaken;
- if the professional service is provided by a specialist in diagnostic radiology the name and either the address of the place of practice, or the provider number, of that specialist;
- if the medical practitioner is not a specialist in diagnostic radiology the name and either the practice address or provider number of the practitioner who is claiming or receiving fees;
- for R-type (requested) services and services rendered subsequent to lost requests, the account or receipt or the Medicare assignment form must indicate the date of the request and the name and provider number, or the name and address, of the requesting practitioner.
- services that are self-determined must be endorsed with the letters 'SD' to indicate that the service was self-determined. Services are classified as self-determined when rendered:
 - by a consultant physician or specialist, in the course of that consultant physician or specialist practicing his or her specialty (other than a specialist in diagnostic radiology), or - to provide additional services to those specified in the original request and the additional services are of the type that would have otherwise required a referral from a specialist or consultant physician in a remote area, or
 - under a pre-existing diagnostic imaging practice exemption.
 - substituted services the account etc. must be endorsed 'SS'.
 - emergencies, the account etc. must be endorsed 'emergency'.
 - lost requests the account etc. must be endorsed 'lost request'.

IN.0.9 Contravention of State and Territory Laws and Disqualified Practitioners

Medicare benefits are not payable where a diagnostic imaging service is provided by, or on behalf of, a medical practitioner, and the provision of that service by that practitioner or any other person contravenes a state or territory law which, directly or indirectly, relates to the use of diagnostic imaging procedures or equipment. The Managing Director of Services Australia may notify the relevant state or territory authorities if he/she believes that a person may have contravened a law of a state or territory relating directly or indirectly to the use of diagnostic imaging procedures or equipment.

IN.0.10 Prohibited Practices

Part IIBA of the *Health Insurance Act 1973* contains a number of provisions prohibiting inducements to request diagnostic imaging (and pathology) services.

Who might be affected?

Anyone who can provide or request a Medicare-funded diagnostic imaging service.

Anyone who has a relevant connection to a provider or a requester, including relatives, bodies corporate, trusts, partnerships and employees may also be affected.

What is prohibited?

- it is unlawful to ask for, accept, offer or provide a benefit, or make a threat, that is reasonably likely to induce a requester to make diagnostic imaging requests, or is related to the business of providing diagnostic imaging services.
- it is a criminal offence to ask for, accept, offer, or provide a benefit, or make a threat that is intended to induce requests to a particular provider.
- the prohibitions apply to the provision of benefits, or the making of threats, that are directed to a requester by a provider, whether directly or through another person.

A requester of diagnostic imaging services means:

- a medical practitioner;
- a dental practitioner, a chiropractor, a physiotherapist, a podiatrist or an osteopath (in relation to certain types of services prescribed in Regulations);
- a person who employs, or engages under a contract for services, one of the people mentioned above; or
- a person who exercises control or direction over one of the people mentioned above (in his or her professional capacity).

A provider of a diagnostic imaging service means:

- a person who renders that kind of service;
- a person who carries on a business of rendering that kind of service;
- a person who employs, or engages under a contract for services, one of the people detailed above; or
- a person who exercises control or direction over a person who renders that kind of service or a person who carries on a business of rendering that kind of service.

What is permitted?

Under the Act it is permitted to:

- share the profits of a diagnostic imaging business, provided the dividend is in proportion to the beneficiary's interest in the business;
- accept or pay remuneration, including salary, wages, commission, provided the remuneration is not substantially different from the usual remuneration paid to people engaged in similar employment;
- make or accept payments for property, goods or services, provided the amount paid is not substantially different from the market value of the property, goods or services;
- make or accept payments for shared property, goods or services, provided the amount paid is proportionate to the person's share of the cost of the property, goods or services and shared staff and/or equipment are not used to provide diagnostic imaging services;
- provide or accept property, goods or services, provided the benefit exchanged is not substantially different from the market value of the property, goods or services;
- provide benefits of a type determined by the Minister. These include items to support a requester to view diagnostic imaging reports, such as specially designed computer monitors. Modest gifts and hospitality may also be permitted, under certain circumstances. A full list of the Ministerial determined permitted benefits are contained in the *Health Insurance (Permitted benefits — diagnostic imaging services) Determination 2018*.

What are the penalties for those not complying with the provisions?

If the provisions are breached, a range of penalties would apply, depending on the kind of breach, including: civil penalties; criminal offences; referral to a Medicare Participation Review Committee (MPRC), possibly resulting in loss of access to Medicare. For further information on prohibited practices visit the Department of Health and Aged Care's publication 'Guidance on Laws Relating to Pathology and Diagnostic Imaging - Prohibited Practices'.

IN.0.11 Multiple Services Rules

Multiple Services Rules

Background

There are several rules that may apply when calculating Medicare benefits payable when multiple diagnostic imaging services are provided to a patient at the same attendance (same day). These rules were developed in association with the diagnostic imaging profession representative organisations and reflect that there are efficiencies to the provider when these services are performed on the same occasion. Unless there are clinical reasons for doing so, they should be provided to the patient at the one attendance and the efficiencies from doing this reflected in the overall fee charged.

General diagnostic imaging - multiples services

The diagnostic imaging multiple services rules apply to all diagnostic imaging services. There are three rules, and more than one rule may apply in a patient episode. The rules do not apply to diagnostic imaging services rendered in a remote area by a medical practitioner who has a remote area exemption for that area - see IN.0.6.

Rule A. When a medical practitioner renders two or more diagnostic imaging services to a patient on the same day, then:

- the diagnostic imaging service with the highest Schedule fee has an unchanged Schedule fee; and
- the Schedule fee for each additional diagnostic imaging service is reduced by \$5.

Rule B. When a medical practitioner renders at least one R-type diagnostic imaging service and at least one consultation to a patient on the same day, there is a deduction to the Schedule fee for the diagnostic imaging service with the highest Schedule fee as follows:

- if the Schedule fee for the consultation is \$40 or more - by \$35; or

- if the Schedule fee for the consultation is less than \$40 but more than \$15 - by \$15; or
- if the Schedule fee for the consultation is less than \$15 - by the amount of that fee.

The deduction under Rule B is made once only. If there is more than one consultation, the consultation with the highest Schedule fee determines the deduction amount. There is no further deduction for additional consultations.

A 'consultation' is a service rendered under an item from Category 1 of the MBS, that is, items 1 to 10816 and 90020 to 90096.

Rule C. When a medical practitioner renders an R-type diagnostic imaging service and at least one non-consultation service to the same patient on the same day, the Schedule fee for the diagnostic imaging service with the highest Schedule fee is reduced by \$5.

A deduction under Rule C is made once only. There is no further deduction for any additional medical services.

For Rule C, a 'non-consultation' is defined as any following item from the MBS:

- Category 2, items 11000 to 12533;
- Category 3, items 13020 to 51318;
- Category 4, items 51700 to 53460;
- Cleft Lip and Palate services, items 75001 to 75854 (as specified in the 'Medicare Benefits for the treatment of cleft lip and cleft palate conditions' book.)

Pathology services are not included in Rule C.

When both Rules B and C apply, the sum of the deductions in the Schedule fee for the diagnostic imaging service with the highest Schedule fee is not to exceed that Schedule fee.

Ultrasound - Vascular

This rule applies to all vascular ultrasound items claimed on the same day of service ie whether performed at the same attendance by the same practitioner or at different attendances.

Where more than one vascular ultrasound service is provided to the same patient by the same practitioner on the same date of service, the following formula applies to the Schedule fee for each service:

- 100% for the item with the greatest Schedule fee
- plus 60% for the item with the next greatest Schedule fee
- plus 50% for each other item.

When the Schedule fee for some of the items are the same, the reduction is calculated in the following order:

- 100% for the item with the greatest Schedule fee and the lowest item number
- plus 60% for the item with the greatest Schedule fee and the second lowest item number
- plus 50% for each other item.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee e.g. item 55238 and 55280, item 55238 would be considered the highest.

When calculating the benefit, it should be noted that despite the reduction, the collective items are treated as one service for the application of Rule A of the General Diagnostic Imaging Multiple Services rules and the patient gap. Examples can be found on the Services Australia website.

Cardiac - transthoracic and stress echocardiograms

This rule applies to all transthoracic and stress echo items claimed on the same day of service, whether performed at the same attendance by the same practitioner or at different attendances.

Where more than one transthoracic and stress echo service is provided to the same patient by the same practitioner on the same date of service, the following formula applies to the Schedule fee for each service:

- 100% for the item with the greatest Schedule fee
- plus 60% for the item with the next greatest Schedule fee

If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee.

As for the vascular multiple services rules, the collective items are treated as one service for the application of Rule A of the General Diagnostic Imaging Multiple Services rules and the patient gap.

Magnetic Resonance Imaging (MRI) - Musculoskeletal

If a medical practitioner performs 2 or more scans from subgroup 12 and 13 for the same patient on the same day, the fees specified for items that apply to the service are affected as follows:

- the item with the highest schedule fee retains 100% of the schedule fee; and
- any other fee, except the highest is reduced by 50%.

Note: If 2 or more Schedule fees are equally the highest, the one with the lowest item number is taken to have the higher fee eg. item 63322 and 63331, item 63322 would be considered the highest.

If the reduced fee is not a multiple of 5 cents, the reduced fee is taken to be the nearest amount that is a multiple of 5 cents.

In addition, the modifying item for contrast may only be claimed once for a group of services subject to this rule.

If a medical practitioner provides:

- 2 or more MRI services from subgroups 12 and 13 for the same patient on the same day; and
- 1 or more other diagnostic imaging services for that patient on that day

the amount of the fees payable for the MRI services is taken, for the purposes of this rule, to be an amount payable for 1 diagnostic imaging service in applying Rule A of the General Diagnostic Imaging Multiple Services rules.

IN.0.12 Co-claiming consultations with DIST items Specialist radiologists - services other than MRI

Benefits are not payable for consultations rendered by specialist radiologists in conjunction with one of the following diagnostic imaging services:

- All musculoskeletal ultrasound – Group II, Subgroup 6 (items 55812 – 55895)
- Diagnostic radiology items as follows:
 - Group I3, Subgroup 1 – Radiographic Examination of the Extremities - items 57506 to 57527
 - Group I3, Subgroup 2 – Radiographic Examination of Shoulder and Pelvis - items 57700 to 57721
 - Group I3, Subgroup 3 – Radiographic Examination of the Head - items 57901 to 57969
 - Group I3, Subgroup 4 – Radiographic Examination of the Spine - items 58100 to 58121
 - Group I3, Subgroup 5 – Bone Age Study and Skeletal Survey - items 58300 and 58306

- Group I3, Subgroup 6 – Radiographic Examination of Thoracic Region - items 58500 to 58527
- Group I3, Subgroup 7 – Radiographic Examination of Urinary Tract - items 58700 to 58721
- Group I3, Subgroup 8 – Radiographic Examination of Alimentary Tract and Biliary System - items 58900 and 58903
- Group I3, Subgroup 9 – Radiographic Examination of Localisation of Foreign Bodies - item 59103

Radiologists may claim consultation items when they attend the patient before, during or after the rendering of other diagnostic imaging services. However, consultation items should only be claimed where the attendance on the patient is meaningful. That is:

- the radiologist utilises their medical knowledge, clinical acumen, technical skills and personal experience in clinical radiology to consult with a patient so as to alter, or potentially alter, the course of the patient's management in the best interests of the patient.
- the radiologist takes primary clinical responsibility for the management decisions made during the consultation (even if the decision is to proceed with the planned course of management).
- the consultation itself includes components of history taking; physical examination; discussion with the patient; formulation of management plans; and referral for additional opinion or tests.

Not all the components need be present in any one consultation, but presence of at least some indicates that a meaningful consultation occurred.

To claim a specialist referred consultation (item 104 or 105), the specialist radiologist must have received a valid referral (not simply a request for a diagnostic imaging service) from a medical practitioner for the investigation, opinion, treatment and/or management of a condition or problem of a patient or for the performance of a specific examination(s) or test(s). The requesting practitioner must have undertaken a professional attendance with the patient and turned their mind to the patient's need for referral and have communicated relevant information about the patient to the specialist or consultant physician (this need not mean an attendance on the occasion of the referral) – see note GN.6.16.

A request for the undertaking of a diagnostic imaging service in the absence of the other elements of a referral as noted above does not constitute a valid referral for a specialist referred consultation.

The new consultation co-claiming rules do not apply to consultant physicians, other specialists and specialist radiologists who are also specialists in other medical disciplines. However, where a specialist radiologist has more than one qualification, co-claiming is only permitted where the patient has been referred to the provider in their non-radiologist capacity.

Where a specialist or consultant physician receives a request for diagnostic imaging service only, for example, a request to a cardiologist to do an echocardiogram, a consultation should not be claimed.

In addition, consultations must not be claimed in place of claiming a diagnostic imaging service.

Consultations with MRI services

Benefits are not payable for consultations rendered by any credentialed MRI provider in conjunction with MRI services unless the providing practitioner determines that a consultation is necessary for the treatment or management of the patient's condition. A consultation has to be meaningful. The definition of a meaningful consultation is the same as shown under the heading 'Specialist radiologists - services other than MRI' and the valid referral requirements for specialist referred consultations as noted under that heading also apply.

IN.0.13 Ultrasound

Professional supervision for ultrasound services - R-type eligible services

Ultrasound services (items 55028 to 55895) marked with the symbol (R), except items 55600 and 55603, are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

(a) specialist or a consultant physician in the practice of his or her specialty who is available to monitor and influence the conduct and diagnostic quality of the examination, and if necessary to personally attend the patient; or

(b) practitioner who is not a specialist or consultant physician, and who is available to monitor and influence the conduct and diagnostic quality of the examination and, if necessary, to personally attend the patient, and meets either of the following requirements:

(i) Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner at the location where the service was rendered and the rendering of those services entitled the payment of Medicare benefits.

(ii) Between 1 September 1997 and 31 August 1999, at least 50 services were rendered by or on behalf of the practitioner in nursing homes or patients' residences and the rendering of those services entitled payment of Medicare benefits.

If paragraph (a) or (b) cannot be complied with, ultrasound services are eligible for a Medicare rebate:

- in an emergency; or
- in a location that is not less than 30 kilometres by the most direct road route from another practice where services that comply with paragraph (a) or (b) are available.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

The rules regarding items 55600 and 55603 are set out under the heading 'Subgroup 4: Urological ultrasound – Items 55600 and 55603'.

Sonographer accreditation

Sonographers performing medical ultrasound examinations (either R or NR type items) on behalf of a medical practitioner must be suitably qualified, involved in a relevant and appropriate Continuing Professional Development program and be Registered on the Register of Accredited Sonographers held by Services Australia.

Eligibility for registration

To be eligible for registration on the Register of Accredited Sonographers held by Services Australia, the person must be accredited with the Australian Sonographer Accreditation Registry. For accreditation with the Australian Sonographer Accreditation Registry the person must hold an accredited postgraduate qualification in medical ultrasound or be studying ultrasound.

For further information, please contact Services Australia, Provider Liaison Section, on 132 150 for the cost of a local call or the Australian Sonographer Accreditation Registry through its website at www.asar.com.au

Report requirements

The sonographer's initial and surname are to be written on the report. They are not required on billing documents or on the copy of the report given to the patient.

Benefits payable

In most instances, a benefit is payable once only for ultrasonic examination at the one attendance, irrespective of the areas involved.

Attendance means that there is a clear separation between one service and the next. For example, where there is a short time between one ultrasound and the next, benefits will be payable for one service only. As a guide, Services Australia will look to a separation of three hours between services and this must be stated on accounts issued for more than one service on the one day.

Where more than one ultrasound service is rendered on the same occasion and the service relates to a non-contiguous body area, and they are "clinically relevant", (i.e. the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered), benefits greater than the single rate may be payable. Accounts should be marked "non-contiguous body areas".

Benefits for two contiguous areas may be payable where it is generally accepted that there are different preparation requirements for the patient and a clear difference in set-up time and scanning. Accounts should be endorsed "contiguous body area with different set-up requirements".

Subgroup 1: General Ultrasound

Abdominal Ultrasound Items 55036 and 55037

Medicare benefits are not payable for ultrasound items 55036 and 55037 unless a morphological assessment of the abdomen has been performed. That is, the items should be used for imaging purposes, not for non-imaging procedures such as transient elastography.

Urinary ultrasound Items 55084 and 55085

When a post-void residual is the only service clinically indicated and/or rendered, it is inappropriate to report a pelvic, urinary or abdominal ultrasound, instead of or in addition to this service (55084 or 55085). Similarly, if a complete pelvic, urinary or abdominal ultrasound is billed, it is inappropriate to bill separately for a post-void residual determination, since payment of this has already been included in the payment for the complete scans.

The report must contain an entry denoting the post-void residual amount and/or bladder capacity as calculated/estimated from the ultrasound device. In addition, the medical record must contain documentation of the indication for the service and the number of times performed to ensure an empty bladder has been reached.

Subgroup 2: Transoesophageal echocardiography

This subgroup now only contains transoesophageal echocardiography - items 55118, 55130 and 55135. Transthoracic and stress echocardiography are now in subgroup 7, the notes for which are covered in notes IN.1.3 to IN.1.10. and IR.0.1 to IR.1.3.

Subgroup 3: Vascular Ultrasound

General

Medicare benefits are only payable for:

- a maximum of two vascular ultrasound studies in a seven-day period. A vascular ultrasound study may include one or more items. Additionally, where a patient is referred for a bilateral study of both arms or both legs, the account should indicate 'bilateral' or 'left' and 'right' to enable a benefit to be paid.
- clinically relevant services, that is, the service is generally accepted in the medical profession as being necessary for the appropriate treatment or management of the patient to whom it is rendered. Any decision to have a patient return on a different day to complete a multi-area diagnostic imaging service should only be made based on clinical necessity.

Deep vein thrombosis (DVT) – Items 55244 and 55246

Medical practitioners referring patients for duplex ultrasound for suspected lower limb DVT (items 55244 and 55246) should read and consider the Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCR) 2015 Choosing Wisely recommendations or RANZCR Choosing Wisely recommendations that succeed it.

Examination of peripheral vessels

Vascular ultrasound services can be claimed in conjunction with item 11612 (Exercise study for the evaluation of lower extremity arterial disease).

Subgroup 4: Urological ultrasound - Items 55600 and 55603

Benefits for these items are payable where the service is rendered in the following circumstances:

- a digital rectal examination of the prostate was personally performed by the medical practitioner who also personally rendered the ultrasound service; and
- the transducer probe or probes used can obtain both axial and sagittal scans in 2 planes at right angles; and
- the patient was assessed prior to the service by a medical practitioner recognised in one or more of the specialties specified, not more than 60 days prior to the ultrasound service. Item 55600 applies where the service is rendered by a medical practitioner who did not assess the patient, whereas item 55603 applies where the service was rendered by a medical practitioner who did assess the patient.

Subgroup 5: Obstetric and Gynaecological ultrasound

NR Services

Except for item 55758, Medicare benefits are not payable for more than three NR-type ultrasound services in Subgroup 5 of Group I1 (ultrasound) that are performed on the same patient in any one pregnancy.

Pre-requisite services

A patient must have previously had either a 55706 or 55709 ultrasound in the same pregnancy to be eligible to claim for either a 55712 or 55715 obstetric service. To be eligible to claim for either a 55721 or 55725 obstetric service, a patient must have previously had either a 55718 or 55723 ultrasound in the same pregnancy.

Frequency of services

Medicare benefits are only payable once per item per pregnancy for items 55706, 55707, 55708, 55709, 55718, 55723, 55742, 55743, 55759, 55762, 55768 and 55770.

Dating of pregnancy

When dating a pregnancy for the purpose of items 55700 to 55774, a patient is:

- "less than 12 weeks of gestation" means up to 11 weeks and 6 days of pregnancy;
- "12 to 16 weeks of gestation" means from 12 weeks 0 days of pregnancy up to 16 weeks plus 6 days of pregnancy (inclusive);
- "17 to 22 weeks of gestation" means from 17 weeks 0 days of pregnancy up to 22 weeks plus 6 days of pregnancy (inclusive);
- "after 22 weeks of gestation" means from 23 weeks 0 days of pregnancy onwards;
- "after 24 weeks of gestation" means from 25 weeks 0 days of pregnancy onwards;
- "between 14 and 30 weeks of gestation" means from 14 weeks 0 days of pregnancy to 30 weeks plus 6 days of pregnancy (inclusive); and
- "before 28 weeks gestation" means up to 27 weeks plus 6 days of pregnancy (inclusive).

Singleton pregnancies

Obstetric ultrasound items 55700 to 55725 (except for items 55736 and 55739 which are performed pre-pregnancy) cover scanning of a patient who is experiencing a singleton pregnancy, with the items including requested and non-requested services. Item 55729 covers both single and multiple pregnancies.

Except for items 55700 (R) and 55703 (NR) all singleton items restrict the claiming of cervical length items 55757 and 55758 within 24 hours. Items 55700 and 55703 advise that the ultrasound service cannot be performed on the same patient within 24 hours of a service mentioned in item 55704, 55705, 55707, 55708, 55740, 55741, 55742 or 55743. This accords with clinical practice guidelines which do not recommend repeat scanning at intervals less than 24 hours.

For all other singleton items, the ultrasound cannot be performed on the same patient within 24 hours of a service mentioned in another item in Subgroup 5 of Group II. The most appropriate item to be claimed should be chosen based on clinical need, with each ultrasound scan representing a completed medical service.

Nuchal Translucency Testing

A nuchal translucency measurement ultrasound is performed to assess the patient's risk of fetal abnormality when the pregnancy is dated by a crown rump length of 45 to 84mm. If a nuchal translucency measurement is performed for a singleton pregnancy, items 55707 (R) or 55708 (NR) should be claimed. If a nuchal translucency measurement is performed for a multiple pregnancy, items 55742 (R) or 55743 (NR) should be claimed.

The nuchal translucency measurement ultrasound service should not be performed on the same patient within 24 hours of a service mentioned in another item in Subgroup 5 of Group II. If nuchal translucency measurement for risk of foetal abnormality is performed (items 55707, 55708, 55742 or 55743) within 24 hours of any other additional items in Subgroup 5 of Group II, only one fee is payable. It is the treating practitioner's responsibility to consider the clinical circumstances of any services rendered and to determine the appropriate MBS item(s) to claim, if any.

The RANZCR provides a credentialling program for providers of nuchal translucency scans.

Cervical length items 55757 and 55758

Items 55757 (R) and 55758 (NR) are to assess the cervical length of the patient to determine risk of preterm labour and can be claimed for any pregnancy. These items cannot be co-claimed within 24 hours of another item in Subgroup 5 of Group II. There are no clinical grounds for repeat scanning within 24 hours.

Multiple pregnancies

Obstetric ultrasound items 55740 to 55774 (except for items 55757 and 55758) cover scanning of a patient who is experiencing a multiple pregnancy. Based on the recommendations of the profession, the items apply only to patients where a multiple pregnancy has been confirmed by ultrasound. The items include identical restrictions and provisions as the second and third trimester items (55706-55725) and include items for requested and non-requested services. Due to the ongoing risks and complications associated with multiple pregnancies regardless of pregnancy outcomes, any pregnancy identified as multiple at the commencement of the second trimester (13+0 weeks) should continue to utilise the multiple pregnancy items for the duration of that pregnancy.

With the exception of items 55740 (R) and 55741 (NR), the multiple pregnancy items cannot be co-claimed within 24 hours of cervical length items 55757 (R) or 55758 (NR). Items 55740 and 55741 cannot be co-claimed within 24 hours of another item in Subgroup 5 of Group II. There are no clinical grounds for repeat scanning within 24 hours.

Obstetric and gynaecological services—Requests and clinical notes

For R-type obstetric and gynaecological ultrasound services, the request form must state the relevant condition or clinical indication for the service.

For NR type obstetric and gynaecological ultrasound services, the clinical notes of the services must state the relevant condition or clinical indication for the service.

Obstetric ultrasound and non-metropolitan providers (items 55712, 55721, 55764 and 55772)

In addition to the requirement that the request form and clinical notes must state the relevant condition or clinical indication for the service, where a practitioner has obstetric privileges at a non-metropolitan hospital and requests items 55712, 55721, 55764 and 55772, the practitioner must confirm his/her eligibility by stating 'non-metropolitan obstetric privileges' on the request form.

In relation to items 55712, 55721, 55764 and 55772, a non-metropolitan area includes any location outside of the Sydney, Melbourne, Brisbane, Adelaide, Perth, Greater Hobart, Darwin or Canberra major statistical divisions, as defined in the Australian Standard Geographical Classification 2010 published by the Australian Bureau of Statistics.

Subgroup 6: Musculoskeletal (MSK)

Multiple Musculoskeletal Ultrasound Scans

Generally, Medicare benefits are payable for more than one musculoskeletal ultrasound scan performed on the same day, however the scans are subject to Rule A of the general diagnostic imaging multiple services rules.

It is not permitted to split a bilateral scan. Where bilateral ultrasound scans are performed, the relevant item should be itemised once only on accounts and receipts or Medicare bulk billing forms. For example, if both shoulders are scanned, item 55866 or 55867, as the case may be, should be claimed once only. This is because the item descriptor for these items covers both sides. A patient should not be asked to make a second appointment in order to attract a benefit for multiple scans.

Shoulder and knee (items 55864 to 55867 and 55880 to 55883)

Benefits for shoulder and knee ultrasound items are only payable when the request is based on the clinical indicators outlined in the item descriptions. Benefits are not payable when referred for non-specific shoulder or knee pain alone or other specific conditions such as meniscal and cruciate ligament tears and assessment of chondral surfaces.

Items in association with a surgical procedure (55848 and 55850)

Item 55848 is a musculoskeletal (MSK) ultrasound service for use in association with a surgical procedure, such as a joint injection.

Item 55850 is a musculoskeletal ultrasound service for use in association with a surgical procedure, such as a joint injection, which is inclusive of a diagnostic ultrasound. This item cannot be claimed if diagnostic ultrasound was not conducted during the examination.

Subgroup 7 - Transthoracic and stress echocardiography

The notes for these items are shown in notes IN.1.3 to IN.1.10. and IR.0.1 to IR.1.3.

IN.0.14 Restriction anaesthetic items in conjunction with item 55054

An item in Group T10 (Relative Value Guide) cannot be claimed in association with item 55054 (ultrasound when used in conjunction with procedures). Medicare benefits will continue to be available for the procedures alone and whether individual anaesthetists choose to use ultrasound to assist with those procedures is a matter of clinical judgement for those providers.

IN.0.15 Group I2 - Computed Tomography (CT) Professional supervision

CT services (items 56001 to 57362) are not eligible for a Medicare rebate unless the service is performed, for an eligible person:

- (a) under the professional supervision of a specialist in diagnostic radiology who is available:
 - to monitor and influence the conduct and diagnostic quality of the examination; and
 - if necessary, to personally attend the patient;
- (b) reported by a specialist in diagnostic radiology (who may or may not be the supervising specialist); or
- (c) if the above criteria cannot be complied with
 - in an emergency, or
 - because of medical necessity in a remote location.

The definition of a remote location is one that is more than 30 kilometres by road from:

- (a) a hospital which provides a radiology service under the direction of a specialist in the specialty of diagnostic radiology; or
- (b) a free-standing radiology facility under the direction of a specialist in the specialty of diagnostic radiology.

Note: Practitioners do not have to apply for a remote location exemption in these circumstances.

Restriction on items—attenuation correction and anatomical correlation

Items in this Division do not apply to a CT service that is performed for the purpose of attenuation correction or anatomical correlation of another diagnostic imaging procedure.

Use of PET/CT or SPECT/CT machines

CT scans rendered on Positron Emission Tomography (PET)/CT or Single Photon Emission Computed Tomography (SPECT)/CT units are eligible for a Medicare benefit provided the CT scan is rendered under the same conditions as those applying to services rendered on stand-alone CT equipment.

Scan of more than one area/region

Where multiple regions are scanned on one occasion and a combination item exists that covers those regions, the combination item must be claimed. Items covering individual contiguous regions must not be used when scans of multiple regions are performed and a combination item exists that covers those regions.

More than one attendance of the patient to complete a scan

Items 56219 to 56238 (CT of the spine) and 56620 to 56630 (CT of the extremities) apply once only for a service described in any of those items, regardless of the number of patient attendances (ie patient visits) required to complete the service. For example, where a request relates to two or more regions of the spine and only one region is scanned on one occasion with the balance of regions being scanned on a subsequent occasion, benefits are payable for one service only.

Pre-contrast scans

Pre-contrast scans are included in an item of service with contrast medium only when the pre-contrast scans are of the same region.

Inclusive of intrathecal contrast medium – item 56219

The fee for item 56219 incorporates the cost of contrast medium for intrathecal injection and associated x-rays. Benefits are not payable for this item when rendered in association with myelogram item 59724. Where a myelogram is rendered under item 59724 and a CT is necessary, the relevant item would be scan of spine without intravenous contrast (items 56220, 56221 or 56223).

Computed tomography of the head

Exclusion of acoustic neuroma

If an axial scan is performed for the exclusion of acoustic neuroma, Medicare benefits are payable under item 56001 or 56007.

Assessment of headache

If item 56007 or 56036 is used for the assessment of headache of a patient, the fee mentioned in the item applies only if:

- (a) a scan without intravenous contrast medium has been undertaken on the patient; and
- (b) the service is required because the result of the scan is abnormal.

This rule applies to a patient who:

- is under 50 years; and
- is (apart from the headache) otherwise well; and
- has no localising symptoms or signs; and
- has no history of malignancy or immunosuppression.

Computed tomography of the spine

Multiple regions

CT items exist which separate the examination of the spine into the cervical, thoracic and lumbosacral regions.

These items are 56220 to 56238 inclusive. They include items for CT scans of two regions of the spine (56233 and 56234) and for all three regions of the spine (56237 and 56238). Restrictions apply to the following items:

- item 56233 should be claimed where two examinations of the kind referred to in items 56220, 56221 and 56223 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.
- item 56234 should be claimed where two examinations of the kind referred to in items 56224, 56225 and 56226 are performed. The item numbers of the examination which are performed must be shown on any accounts issued or patient assignment forms completed.

Example: for a CT examination of the spine where the cervical and thoracic regions are to be studied (item 56233), item numbers 56220 and 56221 must be specified.

Computed tomography of the upper abdomen and pelvis

Items 56501 and 56507 are not eligible for benefits if performed for the purpose of performing a virtual colonoscopy (otherwise known as CT colonography and CT colography). Item 56553 is to be used for a CT colonography.

Computed tomography of the colon

In item 56553, the terms 'high risk' and 'incomplete colonoscopy' are defined as follows:

High Risk

Asymptomatic people fit into this category if they have any of the following:

- at least three first-degree relatives diagnosed with colorectal cancer at any age
- at least three first-degree or second-degree relatives with colorectal cancer with at least one diagnosed before age 55 years.

Relative risk for category 3 is 7–10 times average risk. For the majority of people in this category, the risk of colorectal cancer is 7 times higher than average.

Source: Cancer Council Australia – Short Form Summary of NHMRC Approved Recommendations - January 2018 - *Clinical practice guidelines for the prevention, early detection and management of colorectal cancer – category 3 – those at high risk* (page 12) .

Incomplete Colonoscopy

An incomplete colonoscopy is defined as one that is not completed for technical or medical reasons.

Computed tomography angiography

If items 57352, 57353, 57354 or 57357 are requested by a medical practitioner (other than a specialist or consultant physician) the patient’s case must be discussed with a specialist or consultant physician (not the radiologist likely to perform the service) and noted as such on the request.

Item 57357 (angiography of the pulmonary arteries and their branches) may be requested by a medical practitioner (other than a specialist or consultant physician), without the patient’s case being discussed with a specialist or consultant physician if the service is performed for the exclusion of pulmonary embolism as stated on the request.

Computed Tomography Coronary Angiography (CTCA) for coronary artery disease

Items 57360 and 57364 apply only to a CT service that is:

- performed under the professional supervision of a specialist or consultant physician recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography who is available:
 - to monitor and influence the conduct and diagnostic quality of the examination; and
 - if necessary, to personally attend the patient; and
- reported by a specialist or consultant physician (who may or may not be the supervising specialist) recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography; or
- if paragraphs a and b cannot be complied with
 - in an emergency, or
 - because of medical necessity in a remote location.

The definition of a remote location is one that is more than 30 kilometres by road from:

- a hospital which provides a radiology service under the direction of a specialist in the specialty of diagnostic radiology; or
- a free-standing radiology facility under the direction of a specialist in the specialty of diagnostic radiology.

Note: Practitioners do not have to apply for a remote location exemption in these circumstances.

IN.0.16 Group I3 - Diagnostic Radiology

Examination and report

As for all diagnostic imaging services, the benefits allocated to each item from 57506 to 60509 inclusive cover the total service, i.e. the image, reading and report. Separate benefits are not payable for individual components of the service, e.g. preliminary reading. Benefits are not separately payable for associated plain films involved with these items.

Exposure of more than one film

Where the radiographic examination of a specific area involves the exposure of more than one film, benefits are payable once only, except where special provision is made in the description of the item for the inclusion of all films taken for the purpose of the examination. This means that if an x-ray of the foot is requested, regardless of the number of exposures from different angles, the completed service comprises x-ray of the foot by one or more exposures and the report. The exception to this would be the plain x-ray of the spine items (58100 to 58121) where the item number differs dependent upon the regions of the spine that are examined at the same occasion, ie. 58112 applies where two regions are examined.

Comparison X-rays

Where it is necessary for one or more films of the opposite limb to be taken for comparison purposes, benefits are payable for radiographic examination and reporting of one limb only. Comparison views are considered to be part of the examination requested.

Images produced using Dual Energy X-ray Absorptiometry (DEXA) equipment

X-ray items of the spine 58100 to 58121 and hip 57712 cannot be claimed when images are produced using Dual Energy X-ray Absorptiometry (DEXA) equipment. DEXA should be claimed under General Medical Services Table items 12306 to 12322.

Subgroup 1 – Radiographic examination of the extremities

Hand and wrist combination X-ray

An examination of the hand and the wrist on the same side should be claimed as item 57512 (NR) or 57515 (R). If items 57506 (NR) or 57509 (R) are claimed for multiple non-adjacent areas on the same side, or areas on different sides, the account should include annotation on this e.g. L and R hand, or hand and humerus.

Subgroup 4: Radiographic examination of the spine

Multiple regions

Multiple region items require that the regions of the spine to be studied must be specified on any account issued or patient assignment form completed.

Item 58112 - spine, two regions

Where item 58112 is rendered (spine, two regions), the item numbers for the regions of the spine being studied must be specified (i.e. from items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical and thoracic regions are to be studied, item numbers 58100 and 58103 must be specified on any account issued or patient assignment forms completed.

Item 58115 - spine, three region

Where item 58115 is rendered (spine, three regions), the item numbers for the regions of the spine being studied must be specified (items 58100, 58103, 58106 and 58109).

Example: for a radiographic examination of the spine where the cervical, the thoracic and the lumbosacral regions are to be studied, item numbers 58100, 58103 and 58106 must be specified on any accounts issued or patient assignment forms completed.

Item 58115 and 58108 - spine, three and four regions – request by medical practitioner

Three and four region radiographic examinations items 58115 and 58108 only apply when requested by a medical practitioner.

Items 58120 and 58121 - spine, three and four regions – request by non-medical practitioner

Items 58120 and 58121 apply to physiotherapists and osteopaths who request a three or four region x-ray. Benefits are payable for one of these items only per patient per calendar year.

Subgroup 8: Radiographic examination of alimentary tract and biliary system

Plain abdominal film - items 58900 and 58903

Benefits are not payable for items 58900 and 58903 in association with barium meal examinations or cholecystograms whether provided on the same day or previous day. Preliminary plain films are covered in each study.

Subgroup 10: Radiographic examination of the breasts

Request requirements - items 59300 and 59303

Benefits under items 59300 and 59303 are payable only where the patient has been referred in specific circumstances as indicated in the description of the items. To facilitate these provisions, the requesting medical practitioner is required to include in the request the clinical indication for the procedure.

Professional supervision

Mammography services (items 59300 to 59318) are not eligible for a Medicare rebate unless the diagnostic imaging procedure is performed under the professional supervision of a:

- specialist in the specialty of diagnostic radiology who is available to monitor and influence the conduct and diagnostic quality of the examination, and, if necessary, to personally attend on the patient; or
- if paragraph (a) cannot be complied with:
- in an emergency; or
- because of medical necessity in a remote location.

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Subgroup 12: Radiographic examination with opaque or contrast media

Myelogram- item 59724

Benefits are not payable where a myelogram is rendered in association with a CT myelogram (item 56219 – see IN.0.16). Where it is necessary to render a CT and a myelogram, CT items 56220, 56221 and 56223 would apply.

Subgroup 13: Angiography

Digital subtraction angiography (DSA) - items 60000-60078

Benefits are payable only where these services are rendered in an angiography suite (a room that contains only equipment designed for angiography that is able to perform digital subtraction or rapid-sequence film angiography). Benefits are not payable when these services are rendered using mobile DSA imaging equipment as these services are covered by item 59970.

Each item includes all preparation and contrast injections other than for selective catheterisation. For DSA, benefits are payable for a maximum of one DSA item (from Items 60000 to 60069). For selective DSA - one DSA item (from 60000 to 60069) and one item covering selective catheterisation (from 60072, 60075 or 60078).

If a DSA examination covers more than one of the specified regions/combinations, then the region/combination forming the major part of the examination should be selected, with itemisation to cover the total number of film runs obtained. A run is the injection of contrast, data acquisition, and the generation of a hard copy record.

Subgroup 16: Preparation for radiological procedure

Preparation items - 60918 and 60927

Items 60918 and 60927 apply only to the preparation of a patient for a radiological procedure for a service to which item 59970 applies. A report is not required for these services.

IN.0.17 Group I4 - Nuclear Medicine Imaging Nuclear medicine imaging services other than PET

Benefits for a nuclear scanning service (other than PET) are only payable when the service is performed:

- by a credentialed specialist or consultant physician, or by a person acting on behalf of the specialist; and
- the final report of the service is compiled by the specialist or consultant physician who performed the preliminary examination of the patient and the estimation and administration of the dosage.

Additional benefits will only be attracted for specialist physician or consultant physician attendance under Category 1 of the Schedule where there is also a referral letter from the patient's treating medical practitioner for a full medical examination of the patient. The referral letter needs to be distinct from the request for the nuclear medicine scan.

Credentialling for nuclear medicine imaging services

Payment of Medicare rebates for nuclear medicine imaging services is limited to specialists or consultant physicians who are credentialled by the Joint Nuclear Medicine Credentialling and Accreditation Committee (JNMCAC) of the Royal Australian College of Physicians (RACP) and the Royal Australian and New Zealand College of Radiologists (RANZCR).

The scheme was developed by the profession in consultation with Government to ensure that specialists in nuclear medicine are appropriately trained and licensed, provide appropriate personal supervision of procedures and are involved in ongoing continuing medical education.

For information regarding the Scheme and for application forms, please go to RANZCR's website at www.ranzcr.com or RACP's website at www.racp.edu.au.

Radiopharmaceuticals

The schedule fees for nuclear medicine imaging services incorporate the costs of radiopharmaceuticals.

Myocardial perfusion studies - various items

See notes IN.1.10 to IN.4.3 and IR.0.1 to IR.4.2.

Pulmonary Embolism (PE) – items 61328, 61340 and 61348

Medical practitioners requesting imaging for suspected PE should read and consider the RANZCR 2015 Choosing Wisely recommendations, or such clinical RANZCR Choosing Wisely recommendations that succeed it.

Hepatobiliary study (pre-treatment) - item 61360

Item 61360 - the standard hepatobiliary item - also includes allowance of the pre-procedural chologogue administration for preparatory emptying of the gall bladder and also morphine augmentation.

Hepatobiliary study (infusion) - item 61361

Item 61361 applies specifically to a standard hepatobiliary study to which has been added an infusion of chologogue following which acquisition is continued and quantification of gallbladder ejection fraction and/or common bile duct activity time curves are performed.

Whole body studies - items 61426-61438

"Whole body" studies must include the trunk, head and upper and lower limbs down to the elbow and knee joints respectively, whether acquired as multiple overlapping camera views or whole body sweeps (runs) with additional camera views as required. Any study that does not fulfil these criteria is a localised study.

Repeat studies - item 61462

Item 61462 covers repeat planar (whole body or localised) and/or SPECT imaging performed on a separate occasion using the same administration of radiopharmaceutical. The repeat planar and SPECT imaging when performed on a separate occasion using the same administration of radiopharmaceutical should be itemised as item 61462 and the original item and date of service should be indicated for reference purposes.

This item does not apply to bone scans, adrenal studies or gastro-oesophageal reflux studies, myocardial perfusion studies, colonic transit or CFS transport studies, where allowance for performance of the delayed study is incorporated into the baseline benefit fee.

Thyroid study - item 61473

Item 61473 incorporates the measurement of thyroid uptake on a gamma camera using a proven technique, where clinically indicated.

Positron Emission Tomography (PET) - items 61523 to 61647

General

PET services must be:

- performed by or under the personal supervision of:
 - specialist or consultant physician credentialled under the Joint Nuclear Medicine Specialist Credentialling Program for the Recognition of the Credentials of Nuclear Medicine Specialists for Positron Emission Tomography overseen by the Joint Nuclear Medicine Credentialling and Accreditation Committee of the RACP and RANZCR; or
 - practitioner who is a Fellow of either the RACP or RANZCR, and who, prior to 1 November 2011, reported 400 or more studies forming part of PET services for which a Medicare benefit was payable, and who holds a current license from the relevant State radiation licensing body to prescribe and administer the intended PET radiopharmaceuticals to humans;
- provided in a comprehensive facility that can provide a full range of diagnostic imaging services (including PET, CT, X-Ray and diagnostic ultrasound) and cancer treatment services (including chemotherapy, radiation oncology and surgical oncology) at the one site;
- provided using equipment that meets the Requirements for PET Accreditation (Instrumentation & Radiation Safety) 3rd Edition (2017) issued by the Australian and New Zealand Society of Nuclear

Medicine Inc;

- only provided following a request from a specialist or consultant physician; and
- all PET providers must complete a specific PET provider Statutory Declaration prior to being eligible to claim Medicare rebates. Statutory declarations can be obtained directly from Services Australia.

Whole body FDG PET

In patients with Hodgkin and non- Hodgkin lymphoma (excluding indolent non- Hodgkin lymphoma), whole body FDG PET studies should not be used for surveillance nor for assessment of patients with suspected (as opposed to confirmed) disease recurrence.

PET for Alzheimer's disease

For item 61560:

- the study must include a quantitative comparison of the results with the results obtained from a PET study in a reference library of a normal brain.
- benefits are not payable for the item if the patient has a previous PET scan for Alzheimer's disease claimed in the previous 12 months.
- benefits are not payable for the item if a cerebral perfusion study (item 61402) for the diagnosis or management of Alzheimer's disease has been claimed in the previous 12 months.
- benefits are only payable for a maximum of three services in the patient's lifetime.

Prostate-specific membrane antigen (PSMA) PET study for Prostate Cancer

Item 61563 - Whole body PSMA PET study for the initial staging of the patient

- The requesting specialist or consultant physician is to record in the clinical notes and the imaging request that the patient:
 - has intermediate to high-risk prostate adenocarcinoma, as defined below;
 - has previously been untreated; and
 - is considered suitable for locoregional therapy with curative intent.
- Patients with intermediate risk prostate adenocarcinoma can be defined as having at least one of the following risk factors in the absence of any high-risk features: PSA of 10-20 ng/ml, or Gleason score of 7 or International Society of Urological Pathology (ISUP) grade group 2 or 3, or Stage T2b.
- Patients with high-risk prostate adenocarcinoma can be defined as having at least one of the following risk factors: PSA >20 ng/ml, or Gleason score >7 or ISUP grade group 4 or 5, or Stage T2c or ≥T3.
- Benefits are only payable for a maximum of one service in the patient's lifetime.

Item 61564 - Whole body PSMA PET study for the restaging of the patient

- The requesting specialist or consultant physician is to record in the clinical notes and the imaging request that the patient has undergone prior locoregional therapy for prostatic adenocarcinoma and is considered potentially suitable for further locoregional therapy for recurrent disease.
- This item can be claimed by patients with:
 - a prostate specific antigen (PSA) increase of 2ng/ml above the nadir after radiation therapy; or
 - failure of PSA levels to fall to undetectable levels; or

- rising serum PSA after a radical prostatectomy.
- Benefits are only payable for a maximum of two services in the patient's lifetime.

Whole body PSMA PET study items 61563 and 61564 are not to be used for surveillance nor for assessment of patients with suspected (as opposed to confirmed) prostate adenocarcinoma or disease recurrence.

Claiming of diagnostic Computed Tomography (CT) with PET scans

Diagnostic CT items should not be co-claimed with a whole body PET scan unless the service is clinically relevant and appropriately requested. Under the *Health Insurance (Diagnostic Imaging Services Table) Regulations (No. 2) 2020*, diagnostic CT items cannot be claimed with a PET item where the purpose of the CT is for attenuation correction or anatomical correlation. CT attenuation item 61505 is the correct item to be claimed in these circumstances.

Item 61612 – FDG PET study of the initial staging of eligible cancer types

For item 61612, the requesting specialist or consultant physician is to record in the clinical notes and the imaging request that the patient has a rare or uncommon cancer that meets the eligibility criteria as stated in the item descriptor. Benefits are only payable once per cancer diagnosis.

The following list of eligible cancers is intended to support providers in determining who may be eligible for the service. If a cancer is not included in the list but does meet all of the eligibility criteria in the item descriptor, the service can still be provided.

The Medical Services Advisory Committee noted that FDG PET/CT for initial staging would provide effective change management for the following rare or uncommon cancer types:

- adrenocortical carcinoma
- advanced thyroid cancer
- anal cancer
- gallbladder and extrahepatic bile ducts (cancer of the)
- gastrointestinal stromal tumours (GIST)
- Kaposi sarcoma
- Langerhans cell histiocytosis (LCH)
- liver cancer
- Merkel cell cancer
- mesothelioma
- multiple myeloma
- muscle invasive bladder cancer
- Neuroendocrine cancer [NEC]) grade 2 and above
- Neuroendocrine neoplasms (neuroendocrine tumours [NETs])
- ovarian cancer and serous carcinomas of the fallopian tube
- pancreatic cancer
- Parathyroid cancer
- penile cancer
- peritoneal cancer
- pheochromocytoma/paraganglioma ([PPGL] malignant or syndromic)
- placenta cancer
- primary brain cancer
- small cell lung cancer
- small intestine (cancer of the)
- stomach cancer
- testicular cancer

- thymic epithelial neoplasm
- unknown primary site (cancer of)
- uterine cancer
- vaginal cancer
- vulvar cancer
- Wilms tumour

IN.0.18 Group I5 - Magnetic Resonance Imaging
Meaning of the term ‘scan’ in MRI items

In items 63001 to 63563 and 63740 to 63743, scan means a minimum of 3 sequences.

Eligible services

Items in Subgroups 1 to 21 (other than items 63541 and 63543) apply to an MRI or MRA service performed:

- (a) on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- (b) under the professional supervision of an eligible provider; and
- (c) with fully eligible equipment.

For information on what constitutes fully eligible equipment, please refer to ‘**MRI equipment eligibility**’ below.

Items 63395 to 63397 and the items in Subgroups 19, 20 and 21 (other than item 63461) apply to an MRI service performed:

- (a) on request by a recognised specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- (b) under the professional supervision of an eligible provider; and
- (c) with fully eligible equipment or partially eligible equipment.

For information on what constitutes partially eligible equipment, please refer to ‘**MRI equipment eligibility**’ below.

Items in Subgroup 22 apply to an MRI or MRA service performed:

- (a) on request by a medical practitioner, where the request made in writing identifies the clinical indication for the service;
- (b) under the professional supervision of an eligible provider; and
- (c) with fully eligible equipment or partially eligible equipment.

Items in Subgroups 33 and 34 of Group I5 apply to an MRI service performed:

- (a) on request by a medical practitioner other than a specialist or consultant physician, where the request made in writing identifies the clinical indication for the service;
- (b) under the professional supervision of an eligible provider; and
- (c) with fully eligible equipment or partially eligible equipment.

Prostate Multiparametric MRI items 63541 and 63543 apply to a service performed:

- (a) at the request of a specialist in the speciality of urology, radiation oncology, or medical oncology; and
- (b) under the professional supervision of an eligible provider; and
- (c) using fully eligible equipment or partially eligible equipment.

See also note IN.5.2 for specific conditions relating to items 63541 and 63543.

Requests

A request must identify the clinical indications for the service.

MRI services can only be requested by a recognised specialist medical practitioner or consultant physician for the purposes of the *Health Insurance Act 1973*. However, there are exceptions to this provision for a limited number of MRI services:

- all dental specialists, prosthodontists, oral and maxillofacial surgeons, oral medicine specialists and oral pathology specialists may request item 63334 - scan of musculoskeletal system for derangement of the temporomandibular joint(s); and
- oral and maxillofacial surgeons and oral medicine and oral pathology specialists can also request item 63007 - scan of the head for skull base or orbital tumour; and
- items in subgroup 33 and 34 may only be requested by a medical practitioner other than a specialist or a consultant physician.

For cardiac MRI items 63395 and 63397 (scan for diagnosis of arrhythmogenic right ventricular cardiomyopathy (ARVC)), the request must specify that ARVC is suspected on the basis of diagnostic criteria endorsed by the Cardiac Society of Australia and New Zealand (CSANZ), in force at the time the service is requested.

Permissible circumstances for performance of service

Benefits are only payable for MRI when performed as follows:

- (a) both
 - under the professional supervision of an eligible provider who is available to monitor and influence the conduct and diagnostic quality of the examination, including, if necessary, by personal attendance on the patient; and
 - reported by an eligible provider; or
- (b) if paragraph (a) is not complied with
 - in an emergency; or
 - because of medical necessity, in a remote location (refer to IN.0.6).

Note: Practitioners do not have to apply for a remote area exemption in these circumstances.

Eligible providers

For items in Group I5 (excluding cardiac MRI items 63395 to 63397), an eligible provider is a specialist in diagnostic radiology who satisfies the Chief Executive Medicare (Services Australia) that he or she is a participant of the RANZCR Quality and Accreditation Program.

For cardiac MRI items 63395 to 63397, an eligible provider is a specialist in diagnostic radiology or a consultant physician, who is recognised by the Conjoint Committee for Certification in Cardiac MRI. The conjoint committee is comprised of specialists from RANZCR and the Cardiac Society of Australia and New Zealand (CSANZ).

MRI equipment eligibility

Fully eligible equipment is equipment which:

- (a) is located at premises of a comprehensive practice in Modified Monash Areas 2 to 7; OR
- (b) is located at premises:
 - (i) of a comprehensive practice in Modified Monash Areas 1; and
 - (ii) is made available to the practice by a person:
 - who is subject to a deed with the Commonwealth that relates to the equipment
 - (iii) is not identified as partial eligible equipment in the deed

Partially eligible equipment is equipment which:

- (a) is located at premises of a comprehensive practice; and
 - (i) is made available to the practice by a person:
 - who is subject to a deed with the Commonwealth that relates to the equipment; and
 - (ii) is identified as partial eligible equipment in the deed

A comprehensive practice for MRI services

The *Health Insurance (Diagnostic Imaging Services Table) Regulations (No. 2) 2020* defines a comprehensive practice as a medical practice, or a radiology department of a hospital, that provides X-ray, ultrasound and computed tomography services (whether or not it provides other services).

The location of Medicare-eligible MRI machines is available at the Department of Health and Aged Care's website at www.health.gov.au by searching for “MRI Unit Locations”.

Limitation period for certain Medicare eligible MRI services

Item	MRI or MRA items	Limitation Period	Maximum number of services
1	63040 to 63073	12 months	3
2	63101	12 months	3
3	63125 to 63131	12 months	3
4	63161 to 63185	12 months	3
5	63219 to 63243	12 months	3
6	63271 to 63280	12 months	3
7	63322 to 63340	12 months	3
8	63361	12 months	2
9	63385 to 63391	12 months	2
10	63395	12 months	1
11	63397	36 months	1
12	63401 to 63404	12 months	3
13	63416	12 months	1

14	63425 to 63428	12 months	2
15	63461 to 63467	12 months	1
15A	63541	12 months	1
*	63545 and 63546	12 months	1
16	63547	patient's lifetime	1
17	63482	12 months	3
18	63507 to 63522 and 63551 to 63560	12 months	3
19	63563	24 months	1

Please note the * indicates restriction is included in the item descriptor.

The frequency restrictions are considered to be rolling restrictions and not based on calendar or financial years.

MRI items for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater (63470 or 63473)

Items 63470 or 63473 in subgroup 20 may be claimed only once ever. After either 63470 or 63473 is claimed the patient is no longer eligible for Medicare benefits under either item.

MRI items for Crohn's disease (63740 to 63743)

Medicare benefits are only payable once in a 12 month period for item 63740, where it is provided for assessment of change to therapy in a patient with small bowel Crohn's disease. The 12 month limitation does not apply to this item otherwise.

Medicare benefits are only payable once in a 12 month period for item 63743, where it is provided for assessment of change to therapy of pelvis sepsis and fistulas from Crohn's disease. The 12 month limitation does not apply to this item otherwise.

MRI Subgroup 22 Modifying Items and eligible MRI and MRA service

Items in subgroup 22 (modifying items) may only be claimed in conjunction with an eligible MRI/MRA service.

Restrictions when applied to bilateral anatomical sites

Restrictions on the number of services of the kind described in subgroup 12 apply to specific anatomical sites. Where an item description applies to more than one anatomical site the restriction on the number of services applies to each site.

For example, item 63328 provides for an MRI scan for derangement of the knee or its supporting structures and applies to two specific anatomical sites, ie, right knee and left knee. Each anatomical site may be scanned up to 3 times in any 12-month period as clinically required.

Co-claiming head and spine MRI scans – items 63001-63131 and 63151 to 63280

Benefits are payable for only one head MRI scan at the same attendance. The items that will restrict with each other are in the range 63001 to 63131.

Benefits are payable for only one spine MRI scan at the same attendance. The items that will restrict with each other are in the range 63151 to 63280.

The head or spine item with the highest schedule fee can be claimed where indications spanning two or more service have been requested.

More than one item can be claimed where the clinical need for the additional service is:

- stated in the request for the service; and
- appropriately documented in the record of the service.

These rules clarify the policy intent for the items, that is, only one item should be claimable for a scan irrespective of the:

- number of clinical conditions being investigated; and
- the number of sequences required to complete the scan.

Where a request form seeks an investigation of more than one clinical condition, the item to claim is the item with the highest schedule fee. If the items have the same schedule fee, the item to be claimed is the item applicable to the first mentioned indication on the request form.

More than one item can be claimed where the request for the scan states that there is a clinical need for the additional service, and this is appropriately documented in the diagnostic imaging record for the patient. This does not mean different clinical indications listed in a request, rather it means that the requester is seeking separate and distinct scans.

Providers will need to indicate on the claim that separate and distinct scans have been requested.

MRI scan of the pelvis for pregnancy - 18 weeks gestation – suspected fetal abnormality (MBS item 63454)

Clinical Notes and Diagnostic Imaging Request

For item 63454 the requesting specialist practising in the specialty of obstetrics is to record in their clinical notes and the imaging request:

- the pregnancy is at, or after, 18 weeks gestation; and
- fetal abnormality is suspected; and
- an ultrasound has been previously performed and the diagnosis of fetal abnormality is indeterminate or requires further examination of the patient.

Providers

The service can only be requested by a specialist practising in the specialty of obstetrics.

Gestation period

For item 63454, “at or after 18 weeks gestation” means from 18 weeks 0 days of pregnancy onwards as confirmed by an ultrasound.

MRI scan of both breast for detection of cancer – younger than 60 years (MBS Item 63464)

Clinical Notes

For item 63464 the requesting specialist or consultant physician is to record in their clinical notes:

- the patient is asymptomatic; and
- the patient is younger than 60 years of age; and
- the patient is at a high risk of developing breast cancer due to one or more of the clinical indicators contained in the item descriptor. Reference the relevant clinical indicator/s in the clinical notes and request.

Clinically Relevant Evaluation Algorithm

A clinically relevant evaluation algorithm referenced in item 63464(c)(v) is considered to be the Tyrer-Cuzick (IBIS Risk Evaluator) algorithm version 8 (or later version). The lifetime risk estimation is one of a number of clinical indicators contained in the item descriptor which can support a patient being eligible to claim item 63464.

Restrictions

For item 63464, the service is not to be performed with items 55076 or 55079.

The service can only be claimed once in any 12-month period.

Age requirements

The age references in item 63464 are as follows:

- younger than 60 years of age refers to a patient who has not yet turned 60 years of age.
- before the age of 50 years refers to the patient being up to and including 49 years of age.
- at age 45 years or younger refers to the patient being up to and including 45 years of age.

MRI scan of the pelvis for multiple pregnancy - 18 weeks gestation – suspected fetal abnormality (MBS Item 63549)

Clinical Notes and Diagnostic Imaging Request

For item 63549 the requesting specialist practising in the specialty of obstetrics is to record in their clinical notes and the imaging request:

- the patient has a multiple pregnancy; and
- the pregnancy is at, or after, 18 weeks gestation; and
- fetal abnormality is suspected; and
- an ultrasound has been previously performed and diagnosis of fetal abnormality is indeterminate or requires further examination of the patient.

Providers

The service can only be requested by a specialist practising in the specialty of obstetrics.

Gestation period

For item 63549, “at or after 18 weeks gestation” means from 18 weeks 0 days of pregnancy onwards as confirmed by an ultrasound.

MRI scan of the liver (MBS Item 63545)

Clinical Notes

For item 63545 the requesting specialist or consultant physician is to record in their clinical notes:

- the patient has a confirmed extra hepatic primary malignancy (other than hepatocellular carcinoma);
- computed tomography is negative or inconclusive for hepatic metastatic disease; and
- the identification of liver metastases would change the patient’s treatment planning.

Restrictions

The service can only be claimed once in any 12 month period.

MRI scan of the pelvis for sub-fertility and deep endometriosis (MBS Item 63563)

Clinical Notes and Diagnostic Imaging Request

For item 63563 the requesting specialist or consultant physician is to record in their clinical notes and the imaging request that the scan is for the investigation of

- sub-fertility requiring one or more of the following:
 - o an investigation of suspected Mullerian duct anomaly seen in pelvic ultrasound or hysterosalpingogram;
 - o an assessment of uterine mass identified on pelvic ultrasound before consideration of surgery;
 - o an investigation of recurrent implantation failure in IVF (2 or more embryo transfer cycles without viable pregnancy); or
- surgical planning of a patient with known or suspected deep endometriosis involving either the bowel, bladder or ureter, where the results of pelvic ultrasound are inconclusive.

Restrictions

The service can only be claimed once in any 2 year period.

Definitions

“Recurrent implantation failure” is defined as failure to establish clinical pregnancy following two or more embryo transfer cycles. The number of embryos per cycle can be one or more.

“Viable pregnancy” is defined as any pregnancy that results in a live birth.

IN.0.19 Bulk Billing Incentive

Out-of-hospital services attract higher benefits when they are bulk billed by the provider.

For all diagnostic imaging items (except those in Group 6 – Management of Bulk Billed Services and items 61369, 61466, 61485) benefits for bulk billed services are payable at 95% of the schedule fee for the item.

IN.0.20 Management of bulk-billed services

Additional bulk billing payment for diagnostic imaging services (items 64990 to 64995)

The items cannot be claimed where the associated diagnostic imaging service:

- has been requested by another practitioner;
- has been self determined by a specialist or consultant physician in the course of practicing as a specialist or consultant physician;
- is an additional service rendered because the providing practitioner formed the opinion that the results obtained following a requested diagnostic imaging service necessitated an additional service; or
- is a service that has been substituted for the originally requested service.

For more information about the provision of self determined, additional or substituted services see note IN.0.6 under the heading 'Exemptions from the written request requirements for R-type diagnostic imaging services'.

IN.1.3 Echocardiography - Initial study

Indications

Examples of other rare but acceptable indications include (but are not limited to): sudden death of an immediate relative, prior to the commencement of specific drugs which require cardiac monitoring, and for patients scheduled for cardiac surgery who have not previously had an echocardiogram.

Providers

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent. https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.1.4 Echocardiography - Primary valvular

Recommended intervals adapted from the 2014 American Heart Association/American College of Cardiology Guideline for the Management of Patients with Valvular Heart Disease.

The guidelines are available at: http://my.americanheart.org/idc/groups/ahamah-public/@wcm/@sop/@smd/documents/downloadable/ucm_462851.pdf

Mild to moderate disease:

- i. Aortic stenosis should have a repeat every 3–5 years for mild disease and 1–2 years for moderate disease.
- ii. Other valvular disease should NOT have repeat imaging more frequently than every 3 years for mild disease and every 1–2 years for moderate disease.

Severe disease:

- i. should be monitored in line with the guidelines.

Provider

Providers of this item number should meet the Level 1 requirements described in the CSANZ Guidelines for Training and Performance in Adult Echocardiography or equivalent. https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.1.5 Echocardiography - Structural Heart Disease and Heart failure

Indications

When requesting this service the provider should adhere to the National Heart Foundation/Cardiac Society of Australia & New Zealand guidelines which state “An echocardiogram is usually repeated 3–6 months after commencing medical therapy in patients with heart failure and reduced ejection fraction (HFrEF) or if there is a change in clinical status, or to determine eligibility for other pharmacological treatments (e.g. switching an ACE inhibitor or angiotensin receptor blocker to an angiotensin receptor neprilysin inhibitor [ARNI], adding ivabradine) or to determine eligibility for device therapy (ICD and CRT)”

Providers

Providers of this item number should meet the Level 1 requirements described in the CSANZ Guidelines for Training and Performance in Adult Echocardiography or equivalent. https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.1.6 Echocardiography - Paediatric and Adult Congenital Heart Disease

Providers

- i. For patients under 17 years it is expected that this service will be conducted by a paediatric cardiologist or appropriately qualified sonographer under the paediatric cardiologist's supervision.
- ii. For patients 17 years and over with complex congenital heart disease it is expected that this service will be provided by a specialist practicing in the area of congenital heart disease or appropriately qualified sonographer under the specialist's supervision.

Providers of this service for patients under 17 years should meet the requirements described in the Cardiac Society of Australia & New Zealand guidelines for paediatric echocardiography, and should be competent to perform paediatric echocardiography.

https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice_2015_ratified_11-March-2016.pdf

Providers of this item number for patients 17 years and over with complex congenital heart disease should meet the Level 2 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography.

https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Indications

Complex congenital heart disease does not include single lesions which are haemodynamically insignificant and uncomplicated.

Examples of non-complex congenital lesions include but are not limited to:

i) isolated atrial septal defect, ii) ventricular septal defect, iii) patent ductus arteriosus, iv) mitral valve prolapse, v) bicuspid aortic valve, vi) other isolated congenital valvular disease including congenital aortic stenosis or vii) aortic root dilation

Accepted for use in those persons under 17 years with significant genetic syndromes or dysrhythmias that are likely to lead to substantial structural or functional abnormalities.

Results

Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

Paediatric Investigations and Consultations

For investigations performed by a specialist paediatric or fetal cardiologist, co-claiming of a consultation with the investigation is permitted even when a consultation was not specifically requested when:

- the paediatric patient was referred for an investigation; and
- the paediatric patient was not known to the provider; and
- the paediatric patient was not under the care of another paediatric cardiologist; and
- the findings on the investigation appropriately warranted a consultation.

The paediatric co-claiming exception should not be applied to adult cardiologists treating or investigating adult congenital heart disease, unless the consultation service is provided after the echocardiographic examination where clinical management decisions are made, or the decision to perform the echocardiographic examination on the same day was made during the consultation service subject to clinical assessment.

IN.1.7 Echocardiography - Frequent repetition (Item 55133)

Providers

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent.

https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.1.8 Repeat Echocardiogram (Item 55134)

Providers

It is expected that on average, a limited percentage of a provider's services would be claimed under this item. However it is acknowledged that some providers in specific areas of clinical practice may have higher rates that are clinically appropriate, and substantiation of this appropriateness (such as compliance with guidelines or best

practice) may be requested by the Department of Health and Aged Care's compliance area and will be considered during any clinical audit activities.

Providers of this item number should meet the Level 1 requirements described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or equivalent at

https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult

IN.1.9 Echocardiogram fetal item (55137)

Providers

This item may be claimed for fetal cardiac evaluation (claimed against the mother). It is expected that this service will be conducted by a paediatric cardiologist trained in fetal echocardiography or appropriately qualified sonographer under the paediatric cardiologist's supervision.

Providers of this item number should meet the:

- the Cardiac Society of Australia & New Zealand Guidelines for Paediatric Echocardiography for paediatric patients; and
- be competent to perform fetal echocardiography.

The Cardiac Society of Australia & New Zealand Guidelines for Paediatric Echocardiography are available at

https://www.csanz.edu.au/wp-content/uploads/2016/09/Paeds-Echo-Standards-of-Practice_2015_ratified_11-March-2016.pdf

Indications

For use when there is suspected or confirmed congenital structural or functional abnormality, fetal cardiac rhythm abnormalities, or where co-pathology, maternal illness or family history creates an increased risk of congenital cardiac abnormality requiring review by a paediatric cardiologist with specialist training and ongoing involvement in fetal cardiology.

Results

Discussion of these findings with a patient (mother) does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

For investigations performed by a specialist paediatric cardiologist (with fetal cardiology training), co-claiming of a consultation with the investigation is permitted even when a consultation was not specifically requested when:

- the patient was referred for an investigation; and
- the patient was not known to the provider; and
- the findings on the investigation appropriately warranted a consultation.

IN.1.10 Functional studies include stress echocardiograms and myocardial perfusion studies **Functional studies include stress echocardiograms and nuclear myocardial perfusion studies**

Indications

Assessment before cardiac surgery or catheter-based interventions to ensure the criteria for intervention are met could include assessment of the severity of aortic stenosis in patients with impaired left ventricular function or obtaining objective evidence of the correlation between functional capacity and ischaemic threshold.

A calcium score of zero is normal in adults and clinician judgement should be applied for scores of 0–10 (does not apply to persons under 17 years).

Providers

Appropriately trained means a provider that meets the level 2 requirements for stress echocardiography as described in the Cardiac Society of Australia & New Zealand Guidelines for Training and Performance in Adult Echocardiography or CSANZ Guidelines for Training and Performance in Paediatric Echocardiography, or an equivalent training standard.

This available at: https://www.csanz.edu.au/wp-content/uploads/2015/04/Adult-Echo_2015-February.pdf

A complete echocardiogram refers to services performed under items 55126, 55127, 55128, 55129, 55132, 55134 and 55137.

In most cases, stress echocardiography and myocardial perfusion studies provide equivalent information. Consideration should be given to the radiation burden of any test that is requested when determining the appropriate modality for a patient, and the patient should be fully informed and involved in this decision.

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.2.1 Indications for Computed Tomography Coronary Angiography (CTCA) Non-Coronary Artery Indication

Heart rate during CTCA should be less than 65 beats per minute wherever possible, and sublingual glyceryl trinitrate (GTN) should be administered immediately prior to scanning where clinically appropriate.

The presence of coronary calcium alone does not preclude CTCA.

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a separate consultation. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a separate consultation.

Indication (b)(iv) of the item recognises the increasing role of CTCA as an alternative to selective coronary angiography (invasive) in the assessment of the coronary arteries (including bypass grafts).

The service only applies if the patient meets the requirements of Notes: TR.8.3 (item 38247), TR.8.2 (item 38249) or item 38252 if subclause (iv) of the item applies.

IN.2.2 Computed Tomography Coronary Angiography (CTCA) for Coronary Artery Disease Time restriction and claiming guidance for item 57360

Benefits are not payable for item 57360 more than once in a 5 year period following a service to which itself or 57364 applies that detected no obstructive coronary artery disease unless the patient meets the eligibility criteria for selective invasive coronary angiography (items 38244, 38247, 38248 or 38249). The criteria for these items are set out in explanatory notes TR8.2 and TR8.3.

The 5 year frequency restriction on the claiming of this item does not apply if obstructive coronary artery disease was detected as part of the previous service.

The 5 year frequency restriction does not apply if no obstructive coronary disease was detected at the previous service AND the patient meets the criteria for item 38244, 38247, 38248 or 38249.

Item 57360 can be claimed if the patient has known obstructive coronary disease.

IN.4.1 Single Rest Myocardial Perfusion Study - Item 61321 Item interpretation

A service provided under item 61321 is for a single rest myocardial perfusion study (MPS) for the assessment of extent and severity of viable and non-viable heart tissue (myocardium), when performed on a patient with left ventricular systolic dysfunction, using a single rest technetium-99m (Tc-99m) protocol for item 61321.

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.4.2 Single Rest Myocardial Perfusion Study Item 61325 Item indication

A service provided under new item 61325 is for a single rest myocardial perfusion study (MPS) for the assessment of extent and severity of viable and non-viable heart tissue (myocardium), when performed on a patient with left ventricular systolic dysfunction. This item allows the use of an initial rest study followed by redistribution study, later the same day, with or without 24 hour imaging, with thallous chloride-201 (TI-201).

Claiming

This item can be claimed twice in a 24 month period, however it would be expected that the item would be claimed twice in a 24 hour period to reflect the requirements of the study.

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.4.3 Myocardial Perfusion Study Items

Stress Myocardial Perfusion Study Items (61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 and 61414)

Functional studies include stress echocardiograms and nuclear myocardial perfusion studies.

In most cases, stress echocardiography and myocardial perfusion studies provide equivalent information. Consideration should be given to the radiation burden of any test that is requested when determining the appropriate modality for a patient, the patient should be fully informed and involved in this decision.

A calcium score of zero is normal in adults and clinician judgement should be applied for scores of 0–10 (does not apply to persons under 17 years).

Results

Discussions of the results, findings or interpretation of a study are reasonably expected to be part of a formal report. Discussion of these findings with a patient does not constitute a consult. Similarly, discussion(s) during the course of a study or to determine the safety or appropriateness of the study is part of the service and should not be claimed as a consult.

IN.4.4 Substitute PET items for use in radiopharmaceutical supply disruptions

Substitute PET items are available for use in radiopharmaceutical supply disruptions. The following items are available:

Technetium-99m: items 61333, 61336 and 61341 can be used following a valid request for a service to which items 61348, 61402, 61421 or 61425 would apply.

Gallium-67: item 61527 can be used following a valid request for a service to which items 61429, 61430, 61442, 61450 or 61453 would apply.

Thallium-201: Item 61644 can be used following a valid request for a service to which item 61325 would apply.

For substitute PET items listed above, the following conditions must also be met:

- a. the requested service is not available due to a supply disruption of the relevant radioisotope; and
- b. the patient's clinical condition requires the service to be performed before the resumption of normal radioisotope supply is anticipated by the practitioner who provides the service; and
- c. the report of the service performed includes a justification for the substitute service and the unavailability of the original item.

IN.4.5 Radiopharmaceutical price offset items

Gallium-67

Item 61477 is a temporary item that provides additional funding for services that use gallium-67 to offset some of the recent price increases of the radiopharmaceutical.

Item 61477 can be claimed in conjunction with items 61429, 61430, 61442, 61450 or 61453 and must be bulk-billed*.

Item 61477 is available from 8 November 2022 until 30 June 2024.

Thallium-201

Item 61470 is a temporary item that provides additional funding for services that use thallium-201 to offset some of the recent price increases of the radiopharmaceutical.

Item 61470 can be claimed in conjunction with items 61438, 61461 or 61325 and must be bulk-billed*.

Item 61470 is available from 1 July 2023 until 30 June 2024.

***Note:** As there will be two or more services claimed for the patient, the diagnostic multiple services rules will apply to these services. See Rule A under IN.0.11 for more information on the diagnostic imaging multiple services rules.

IN.5.1 Item 63541 - meaning of clause 2.5.9

Clause 2.5.9 mentioned in item 63541 is a clause in Schedule 1 of the DIST. The clause covers the patient categories to which the items apply.

In summary, the clause means that before the item applies:

- for a person 70 years or older, at least two PSA tests performed within an interval of 1- 3 months have a PSA concentration of greater than 5.5 µg/L and the free/total PSA ratio is less than 25%.
- for a person under 70 years, at least two prostate specific antigen (PSA) tests performed within an interval of 1- 3 months have PSA concentration of greater than 3.0 ng/ml, and the free/total PSA ratio is less than 25%, or the repeat PSA exceeds 5.5 µg/L; or
- for a person under 70 years with a relevant family history, at least two PSA tests performed within an interval of 1- 3 months have a PSA concentration greater than 2.0 ng/ml, and the free/total PSA ratio is less than 25%, or the repeat PSA exceeds 5.5 µg/L. Relevant family history is a first degree relative with or has had prostate cancer, or suspected of carrying a BRCA 1 or BRCA 2 mutation.

Benefits for this item are payable once only in a 12 month period.

IN.5.2 Item 63543 - claiming restrictions

A period of at least 12 months needs to have elapsed before benefits for a second service under 63543 are payable. Benefits are then only payable after a period of three years has elapsed from the date of the second scan and at least each three years thereafter.

Item 63543 is also applicable to a service described in that item if the clinical need for the service is stated in the request and documented in the record of the service.

Benefits are not payable where the service is provided for the purposes of treatment planning or monitoring after treatment for prostate cancer.

IN.5.3 Item 63399 - temporary availability

Item 63399 has been introduced temporarily to diagnose myocarditis that may occur after vaccination with the mRNA COVID-19 vaccines Comirnaty (Pfizer) and Spikevax (Moderna).

The Medical Services Advisory Committee (MSAC) recommended a temporary item to allow time for a full health technology assessment on the use of cardiac MRI in diagnosing myocarditis more broadly to be considered.

Item 63399 is for use in patients where:

- the patient has suspected myocarditis after receiving a mRNA COVID-19 vaccine; and
- the patient had symptom onset within 21 days of a mRNA COVID-19 vaccine administration; and
- myocarditis cannot be definitively diagnosed using conventional imaging and other diagnostic tests.

The item can be used once in a patient's lifetime after the first vaccine dose, second vaccine dose or booster dose.

The item commenced on 1 January 2022 and will be available until 31 December 2024, pending a full assessment by the MSAC.

This service is able to be performed on both partially and fully Medicare-eligible MRIs.

IN.5.4 Requirements for imaging under Item 63564

A service described under item 63564 applies only if the same patient has not received a service to which the same item applies within the preceding 12 months.

The use of this item is limited to individuals carrying a heritable germline or mosaic pathogenic or likely pathogenic mutation in the TP53 gene, ascertained by a clinical report from an accredited pathology laboratory.

IN.7.1 Time exclusion clarification for item 55126

Item 55126 does not apply to a service provided to a patient if, in the previous 24 months, a service associated with a service to which item 55127, 55128, 55129, 55132, 55133 or 55134 applies has been provided to the patient.

IR.0.1 Stress echocardiography indications and requirements of use

1. For any particular patient, item 55141, 55143, 55145 or 55146 applies if one or more of the following is applicable:

- a. the patient displays one or more of the following symptoms of typical or atypical angina:
 - i. constricting discomfort in the:
 - a. front of the chest; or
 - b. neck; or
 - c. shoulders; or
 - d. jaw; or
 - e. arms; or
 - ii. the patient's symptoms, as described in subparagraph (1)(a)(i) above, are precipitated by physical exertion; or
 - iii. the patient's symptoms, as described in subparagraph (1)(a)(i) above, are relieved by rest or glyceryl trinitrate within 5 minutes or less.
- b. the patient has known coronary artery disease and displays one or more symptoms that are suggestive of ischaemia which:
 - i. are not adequately controlled with medical therapy; or
 - ii. have evolved since the last functional study.
- c. the patient qualifies for one or more of the following indications:
 - i. assessment of myocardial ischaemia with exercise is required because a patient with congenital heart lesions has undergone surgery and reversal of ischemia is considered possible; or
 - ii. assessment indicates that resting 12 lead electrocardiogram changes are consistent with coronary artery disease or ischaemia in a patient that is without known coronary artery disease; or
 - iii. coronary artery disease related lesions, of uncertain functional significance, have previously been identified on computed tomography coronary angiography or invasive coronary angiography; or
 - iv. assessment by a specialist or consultant physician indicates that the patient has potential non-coronary artery disease, where a stress echocardiography study is likely to assist the diagnosis; or
 - v. assessment indicates that the patient has undue exertional dyspnoea of uncertain aetiology; or
 - vi. a pre-operative assessment of a patient with functional capacity of less than 4 metabolic equivalents confirms that surgery is intermediate to high risk, and the patient has at least one of following conditions:
 - a. ischaemic heart disease;
 - b. previous myocardial infarction;
 - c. heart failure;
 - d. stroke;

- e. transient ischaemic attack;
- f. renal dysfunction (serum creatinine greater than 170µmol/L or 2 mg/dL or a creatinine clearance of less than 60 mL/min);
- g. diabetes mellitus requiring insulin therapy; or
- vii. assessment before cardiac surgery or catheter-based interventions is required to:
 - a. increase the cardiac output to assess the severity of aortic stenosis; or
 - b. determine whether valve regurgitation worsens with exercise and/or correlates with functional capacity; or
 - c. correlate functional capacity with the ischaemic threshold; or
- viii. for patients where silent myocardial ischaemia is suspected, or due to the patient's cognitive capacity or expressive language impairment, it is not possible to accurately assess symptom frequency based on medical history.

2. For any particular patient, the request for a service to be provided under item 55141, 55143, 55145 or 55146 must identify the symptoms or clinical indications that apply to the patient, as outlined above in paragraph 1.

3. For any particular patient, item 55141, 55143, 55145 or 55146 applies to a service if:

- a. the diagnostic imaging procedure is performed on premises equipped with resuscitation equipment, which includes a defibrillator; and
- b. the diagnostic imaging procedure is performed by a person trained in exercise testing and cardiopulmonary resuscitation who is in personal attendance during the procedure; and
- c. a second person trained in safely performing exercise or pharmacological stress monitoring and recording, recognising the symptoms and signs of cardiac disease, and cardiopulmonary resuscitation is located at the diagnostic imaging premises where the procedure is performed and is immediately available to respond at the time the exercise test is performed on the patient, if required; and
- d. one of the persons mentioned in paragraphs 3 (b) and (c) must be a medical practitioner.

4. Limitation of ultrasound items 55141, 55143, 55145 and 55146

- 1. For any particular patient, a service under items 55141, 55143, 55145 and 55146 does not apply if:
 - a. the patient has body habitus or other physical condition/s (including heart rhythm disturbance) to the extent where a stress echocardiography would not provide adequate information; or
 - b. the patient is unable to exercise to the extent where a stress echocardiography would not provide adequate information; or
 - c. results of a previous imaging service indicate that a stress echocardiography service would not provide adequate information.

IR.1.1 Repeat Stress echo requirements 55143

1. For any particular patient, item 55143 applies to a service if:

- a. the service is for an exercise stress echocardiography and includes all of the following:
 - i. two-dimensional recordings before exercise (baseline) from at least 2 acoustic windows; and
 - ii. matching recordings at or immediately after peak exercise, which include at least parasternal short and long axis views, and apical 4-chamber and 2 chamber views; and
 - iii. recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and
 - iv. resting electrocardiogram and continuous multi-channel electrocardiogram monitoring and recording during stress; and
 - v. blood pressure monitoring and the recording of other parameters (including heart rate); or
- b. the service is for a pharmacological stress echocardiography and includes all of the following:
 - i. two-dimensional recordings before drug infusion (baseline) from at least 2 acoustic windows; and

- ii. matching recordings at least twice during drug infusion, including a recording at the peak drug dose, which include at least parasternal short and long axis views, and apical 4-chamber and 2 chamber views; and
- iii. recordings on digital media with equipment permitting display of baseline and matching peak images on the same screen; and
- iv. resting electrocardiogram and continuous multi-channel electrocardiogram monitoring and recording during stress; and
- v. blood pressure monitoring and the recording of other parameters (including heart rate).

IR.1.2 Echocardiography and attendance requirements

1. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 55126, 55127, 55128, 55129, 55132, 55133, 55134, 55137, 55141, 55143, 55145 or 55146 applies is provided on the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

IR.1.3 Echocardiography Multiple Services Rule (EMSR)

1. If one or more services in paragraph (a) is rendered with one or more services in paragraph (b) for the same patient on the same day by the same medical practitioner, then the item with the lesser fee will be reduced by 40% of the fee.

2. The items applicable to the echocardiography multiple services fee reduction rule are:

- a. a service to which one or more of items 55126, 55127, 55128, 55129, 55132, 55133, 55134 or 55137 apply; and
- b. a service to which one or more of items 55141, 55143, 55145 or 55146 apply.

IR.4.1 Stress myocardial perfusion studies - Indications and requirements of use

1. For any particular patient, item 61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 or 61414 applies if one or more of the following is applicable:

- a. if the patient displays one or more of the following symptoms of typical or atypical angina:
 - i. constricting discomfort in the:
 - a. front of the chest; or
 - b. neck; or
 - c. shoulders; or
 - d. jaw; or
 - e. arms; or
 - ii. the patient's symptoms, as described in subparagraph (3)(a)(i), are precipitated by physical exertion; or
 - iii. the patient's symptoms, as described in subparagraph (3)(a)(i), are relieved by rest or glyceryl trinitrate within 5 minutes or less; or
- b. if the patient has known coronary artery disease, and displays one or more symptoms that are suggestive of ischaemia:
 - i. which are not adequately controlled with medical therapy; or
 - ii. which have evolved since the last functional study; or
- c. if the patient qualifies for one or more of the following indications:
 - i. assessment indicates that resting 12 lead electrocardiogram changes are consistent with coronary artery disease or ischaemia, in a patient that is without known coronary artery disease; or

- ii. coronary artery disease related lesions, of uncertain functional significance, which have previously been identified on computed tomography coronary angiography or invasive coronary angiography; or
- iii. an assessment by a specialist or consultant physician indicates that the patient has possible painless myocardial ischaemia, which includes undue exertional dyspnoea of uncertain aetiology; or
- iv. a pre-operative assessment of a patient with functional capacity of less than 4 metabolic equivalents, confirming that surgery is intermediate to high risk, and the patient has at least one of following conditions:
 - a. ischaemic heart disease or previous myocardial infarction; or
 - b. heart failure; or
 - c. stroke or transient ischaemic attack; or
 - d. renal dysfunction (serum creatinine greater than 70umol/L or 2 mg/dL or a creatinine clearance of less than 60 mL/min); or
 - e. diabetes mellitus requiring insulin therapy: or
- v. quantification of extent and severity of myocardial ischaemia, before either percutaneous coronary intervention or coronary bypass surgery, to ensure the criteria for intervention are met; or
- vi. assessment of relative amounts of ischaemic viable myocardium and non-viable (infarcted) myocardium, in patients with previous myocardial infarction; or
- vii. assessment of myocardial ischaemia with exercise is required, if a patient with congenital heart lesions has undergone surgery and ischemia is considered possible; or
- viii. assessment of myocardial perfusion in a person who is under 17 years old with coronary anomalies, before and after cardiac surgery for congenital heart disease, or where there is a probable or confirmed coronary artery abnormality; or
- ix. for patients where myocardial perfusion abnormality is suspected but due to the patient's cognitive capacity or expressive language impairment, it is not possible to accurately assess symptom frequency based on medical history.

2. For any particular patient, the request for a service to be provided under item 61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 or 61414 must identify the symptom/s or clinical indications/s, as outlined in subclause 1.2.1(1).

3. For any particular patient, item 61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 or 61414 applies to a service if:

- a. the diagnostic imaging procedure is performed on premises equipped with resuscitation equipment, which includes a defibrillator; and
- b. the diagnostic imaging procedure is performed by a person trained in cardiopulmonary resuscitation who is in personal attendance during the procedure; and
- c. a second person trained in exercise testing and cardiopulmonary resuscitation is located at the diagnostic imaging premise where the procedure is performed and is immediately available to respond at the time the exercise test is performed on the patient, if required; and
- d. one of the persons mentioned in paragraphs (b) and (c) must be a medical practitioner.

4. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406, 61410 or 61414 applies is provided in the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

5. Limitations of items 61321, 61324, 61329, 61345, 61357, 61394, 61398, 61406 or 61414

- a. items 61321, 61324, 61329, 61345, 61357, 61394, 61398, 61406 or 61414 are applicable not more than once in any 24-month period if the patient is 17 years old or older.

IR.4.2 Single rest myocardial perfusion studies - requirements for use

1. For any particular patient, a service associated with an attendance item listed in Part 2 of the general medical services table does not apply if a service to which item 61321 or 61325 or 61644 applies is provided in the same day; unless:

- a. the attendance service is provided after the service where clinical management decisions are made; or
- b. the decision to perform the service on the same day was made during the attendance service subject to clinical assessment.

2. Limitations of items 61321 and 61325

- a. Item 61321 is applicable not more than once in any 24 month period if the patient is 17 years old or older.
- b. Item 61325 is applicable not more than twice in any 24 month period if the patient is 17 years old or older.

Item 61644 has been introduced as a direct substitute for MBS item 61325. See IN.4.4 of explanatory notes to this Category for further information.

DIAGNOSTIC IMAGING SERVICES ITEMS

I1. ULTRASOUND		1. GENERAL
	Group I1. Ultrasound	
	Subgroup 1. General	
	Head, ultrasound scan of (R)	
55028	(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55	
	Head, ultrasound scan of (NR)	
55029	(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85	
	Orbital contents, ultrasound scan of (R)	
55030	(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55	
	Orbital contents, ultrasound scan of (NR)	
55031	(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85	
	Neck, one or more structures of, ultrasound scan of (R)	
55032	(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55	
	Neck, one or more structures of, ultrasound scan of (NR)	
55033	(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85	
	Abdomen, ultrasound scan of (including scan of urinary tract when performed), for morphological assessment, if: (a) the service is not solely a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra; and (b) within 24 hours of the service, a service mentioned in item 55038 is not performed on the same patient by the providing practitioner (R)	
55036	(See para IN.0.19 of explanatory notes to this Category) Fee: \$120.50 Benefit: 75% = \$90.40 85% = \$102.45	
	Abdomen, ultrasound scan of (including scan of urinary tract when performed), for morphological assessment, if the service is not solely a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra (NR)	
55037	(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85	
55038	Urinary tract, ultrasound scan of, if:	

I1. ULTRASOUND **1. GENERAL**

	<p>(a) the service is not solely a transrectal ultrasonic examination of any of the following:</p> <ul style="list-style-type: none"> (i) prostate gland; (ii) bladder base; (iii) urethra; and <p>(b) within 24 hours of the service, a service mentioned in item 55036 or 55065 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55</p>
55039	<p>Urinary tract, ultrasound scan of, if the service is not solely a transrectal ultrasonic examination of any of the following:</p> <ul style="list-style-type: none"> (a) prostate gland; (b) bladder base; (c) urethra (NR) <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85</p>
55048	<p>Scrotum, ultrasound scan of (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.65 Benefit: 75% = \$89.00 85% = \$100.90</p>
55049	<p>Scrotum, ultrasound scan of (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85</p>
55054	<p>Ultrasonic cross-sectional echography, in conjunction with a surgical procedure (other than a procedure to which item 55848 or 55850 applies) using interventional techniques, not being a service associated with a service to which any other item in this Group applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55 Extended Medicare Safety Net Cap: \$94.60</p>
55065	<p>Pelvis, ultrasound scan of, by any or all approaches, if:</p> <ul style="list-style-type: none"> (a) the service is not solely a service to which an item (other than item 55736 or 55739) in Subgroup 5 of this Group applies or a transrectal ultrasonic examination of any of the following: <ul style="list-style-type: none"> i. prostate gland; ii. bladder base; iii. urethra; and (b) within 24 hours of the service, a service mentioned in item 55038 is not performed on the same patient by the providing practitioner (R) <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$106.45 Benefit: 75% = \$79.85 85% = \$90.50</p>
55066	<p>Breasts, both, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if:</p>

I1. ULTRASOUND		1. GENERAL
	<p>(a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and (b) the service is not performed in conjunction with any other item in this Group (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$236.40 Benefit: 75% = \$177.30 85% = \$200.95</p>	
55068	<p>Pelvis, ultrasound scan of, by any or all approaches, if the service is not solely a service to which an item (other than item 55736 or 55739) in Subgroup 5 of this Group applies or a transrectal ultrasonic examination of any of the following: (i) prostate gland; (ii) bladder base; (iii) urethra (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$37.85 Benefit: 75% = \$28.40 85% = \$32.20</p>	
55070	<p>Breast, one, ultrasound scan of (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$106.45 Benefit: 75% = \$79.85 85% = \$90.50</p>	
55071	<p>Breast, one, ultrasound scan, in conjunction with a surgical procedure using interventional techniques, if: (a) the request for the scan indicates that an ultrasound guided breast intervention be performed; and (b) the service is not performed in conjunction with any other item in this group (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$224.60 Benefit: 75% = \$168.45 85% = \$190.95</p>	
55073	<p>Breast, one, ultrasound scan of (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$36.85 Benefit: 75% = \$27.65 85% = \$31.35</p>	
55076	<p>Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$118.25 Benefit: 75% = \$88.70 85% = \$100.55</p>	
55079	<p>Breasts, both, ultrasound scan of, including an ultrasound scan for post mastectomy surveillance (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85</p>	
55084	<p>Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55036, 55038, 55065, 55600 or 55603 is not performed on the same patient by the providing practitioner (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$106.45 Benefit: 75% = \$79.85 85% = \$90.50</p>	
55085	<p>Urinary bladder, ultrasound scan of, by any or all approaches, if within 24 hours of the service, a service mentioned in item 11917, 55037, 55039, 55068, 55600 or 55603 is not performed on the same patient by the providing practitioner (NR)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$36.85 Benefit: 75% = \$27.65 85% = \$31.35</p>

	Subgroup 3. Spine	
56219	<p>Computed tomography—scan of spine, one or more regions with intrathecal contrast medium, including the preparation for intrathecal injection of contrast medium and any associated plain X rays, not being a service to which item 59724 applies (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$353.40 Benefit: 75% = \$265.05 85% = \$300.40</p>	
56220	<p>Computed tomography—scan of spine, cervical region, without intravenous contrast medium (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$260.05 Benefit: 75% = \$195.05 85% = \$221.05</p>	
56221	<p>Computed tomography—scan of spine, thoracic region, without intravenous contrast medium (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$260.05 Benefit: 75% = \$195.05 85% = \$221.05</p>	
56223	<p>Computed tomography—scan of spine, lumbosacral region, without intravenous contrast medium (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$260.05 Benefit: 75% = \$195.05 85% = \$221.05</p>	
56224	<p>Computed tomography—scan of spine, cervical region, with intravenous contrast medium and with any scans of the cervical region of the spine before intravenous contrast injection when undertaken (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$380.65 Benefit: 75% = \$285.50 85% = \$323.60</p>	
56225	<p>Computed tomography—scan of spine, thoracic region, with intravenous contrast medium and with any scans of the thoracic region of the spine before intravenous contrast injection when undertaken (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$380.65 Benefit: 75% = \$285.50 85% = \$323.60</p>	

I2. COMPUTED TOMOGRAPHY		3. SPINE
56226	<p>Computed tomography—scan of spine, lumbosacral region, with intravenous contrast medium and with any scans of the lumbosacral region of the spine prior to intravenous contrast injection when undertaken (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$380.65 Benefit: 75% = \$285.50 85% = \$323.60</p>	
56233	<p><i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i></p> <p>Computed tomography—scan of spine, 2 examinations of the kind referred to in items 56220, 56221 and 56223, without intravenous contrast medium (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$260.05 Benefit: 75% = \$195.05 85% = \$221.05</p>	
56234	<p><i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i></p> <p>Computed tomography—scan of spine, 2 examinations of the kind referred to in items 56224, 56225 and 56226, with intravenous contrast medium and with any scans of these regions of the spine before intravenous contrast injection when undertaken (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$380.65 Benefit: 75% = \$285.50 85% = \$323.60</p>	
56237	<p>Computed tomography—scan of spine, 3 regions cervical, thoracic and lumbosacral, without intravenous contrast medium (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$260.05 Benefit: 75% = \$195.05 85% = \$221.05</p>	
56238	<p>Computed tomography—scan of spine, 3 regions, cervical, thoracic and lumbosacral, with intravenous contrast medium and with any scans of these regions of the spine before intravenous contrast injection when undertaken (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$380.65 Benefit: 75% = \$285.50 85% = \$323.60</p>	

I2. COMPUTED TOMOGRAPHY		4. CHEST AND UPPER ABDOMEN
	Group I2. Computed Tomography	
	Subgroup 4. Chest and upper abdomen	
56301	<p>Computed tomography—scan of chest, including lungs, mediastinum, chest wall and pleura, with or without scans of the upper abdomen, without intravenous contrast medium, not being a service to which item 56801 or 57001 applies and not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$319.60 Benefit: 75% = \$239.70 85% = \$271.70</p>	
56307	<p>Computed tomography—scan of chest, including lungs, mediastinum, chest wall and pleura, with or without scans of the upper abdomen, with intravenous contrast medium and with any scans of the chest, including lungs, mediastinum, chest wall or pleura and upper abdomen before intravenous contrast</p>	

I2. COMPUTED TOMOGRAPHY		4. CHEST AND UPPER ABDOMEN	
	injection, when undertaken, not being a service to which item 56807 or 57007 applies and not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
	Fee: \$433.35	Benefit: 75% = \$325.05	85% = \$368.35

I2. COMPUTED TOMOGRAPHY		5. UPPER ABDOMEN ONLY	
	Group I2. Computed Tomography		
	Subgroup 5. Upper abdomen only		
	Computed tomography—scan of upper abdomen only (diaphragm to iliac crest) without intravenous contrast medium, not being a service to which item 56301, 56501, 56801 or 57001 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56401	Fee: \$270.85	Benefit: 75% = \$203.15	85% = \$230.25
	Computed tomography—scan of upper abdomen only (diaphragm to iliac crest), with intravenous contrast medium, and with any scans of upper abdomen (diaphragm to iliac crest) before intravenous contrast injection, when undertaken, not being a service to which item 56307, 56507, 56807 or 57007 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56407	Fee: \$390.05	Benefit: 75% = \$292.55	85% = \$331.55
	Computed tomography—scan of pelvis only (iliac crest to pubic symphysis) without intravenous contrast medium not being a service associated with a service to which item 56401 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56409	Fee: \$270.85	Benefit: 75% = \$203.15	85% = \$230.25
	Computed tomography—scan of pelvis only (iliac crest to pubic symphysis), with intravenous contrast medium and with any scans of pelvis (iliac crest to pubic symphysis) before intravenous contrast injection, when undertaken, not being a service to which item 56407 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56412	Fee: \$390.05	Benefit: 75% = \$292.55	85% = \$331.55

I2. COMPUTED TOMOGRAPHY		6. UPPER ABDOMEN AND PELVIS	
	Group I2. Computed Tomography		
	Subgroup 6. Upper abdomen and pelvis		
	Computed tomography—scan of upper abdomen and pelvis without intravenous contrast medium, not for the purposes of virtual colonoscopy and not being a service to which item 56801 or 57001 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56501	Fee: \$417.00	Benefit: 75% = \$312.75	85% = \$354.45
	Computed tomography—scan of upper abdomen and pelvis with intravenous contrast medium and with any scans of upper abdomen and pelvis before intravenous contrast injection, when performed, not for the purposes of virtual colonoscopy and not being a service to which item 56807 or 57007 applies (R) (Anaes.)		
	(See para IN.0.19 of explanatory notes to this Category)		
56507	Fee: \$520.10	Benefit: 75% = \$390.10	85% = \$442.10

I2. COMPUTED TOMOGRAPHY		6. UPPER ABDOMEN AND PELVIS	
56553	<p>Computed tomography—scan of colon for exclusion or diagnosis of colorectal neoplasia in a symptomatic or high risk patient if:</p> <p>(a) one or more of the following applies:</p> <p>(i) the patient has had an incomplete colonoscopy in the 3 months before the scan;</p> <p>(ii) there is a high grade colonic obstruction;</p> <p>(iii) the service is requested by a specialist or consultant physician who performs colonoscopies in the practice of the specialist's or consultant physician's speciality; and</p> <p>(b) the service is not a service to which item 56301, 56307, 56401, 56407, 56409, 56412, 56501, 56507, 56801, 56807 or 57001 applies (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$563.35	Benefit: 75% = \$422.55 85% = \$478.85

I2. COMPUTED TOMOGRAPHY		7. EXTREMITIES	
	Group I2. Computed Tomography		
	Subgroup 7. Extremities		
56620	<p>Computed tomography—scan of knee, without intravenous contrast medium, not being a service to which item 56622 or 56629 applies (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$238.35	Benefit: 75% = \$178.80 85% = \$202.60
56622	<p>Computed tomography—scan of lower limb, left or right or both, one region (other than knee), or more than one region (which may include knee), without intravenous contrast medium, not being a service to which item 56620 applies (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$238.35	Benefit: 75% = \$178.80 85% = \$202.60
56623	<p>Computed tomography—scan of lower limb, left or right or both, one region (other than knee), or more than one region (which may include knee), with intravenous contrast medium and with any scans of the lower limb before intravenous contrast injection, when performed, not being a service to which item 56626 applies (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$362.55	Benefit: 75% = \$271.95 85% = \$308.20
56626	<p>Computed tomography—scan of knee, with intravenous contrast medium and with any scans of the knee before intravenous contrast injection, when performed, not being a service to which items 56623 or 56630 apply (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$362.55	Benefit: 75% = \$271.95 85% = \$308.20
56627	<p>Computed tomography—scan of upper limb, left or right or both, any one region, or more than one region, without intravenous contrast medium (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>	Fee: \$238.35	Benefit: 75% = \$178.80 85% = \$202.60
56628	<p>Computed tomography—scan of upper limb, left or right or both, any one region, or more than one region, with intravenous contrast medium and with any scans of the upper limb before intravenous contrast injection, when performed (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>		

I2. COMPUTED TOMOGRAPHY		7. EXTREMITIES
	Fee: \$362.55 Benefit: 75% = \$271.95 85% = \$308.20	
56629	<p>Computed tomography—scan of upper limb and lower limb, left or right or both, any one region (other than knee), or more than one region (which may include knee) without intravenous contrast medium not being a service to which item 56620 applies (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$238.35 Benefit: 75% = \$178.80 85% = \$202.60</p>	
56630	<p>Computed tomography—scan of upper limb and lower limb, left or right or both, any one region (other than knee), or more than one region (which may include knee) with intravenous contrast medium with any scans of the limbs before intravenous contrast injection, when performed, not being a service to which item 56626 applies (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$362.55 Benefit: 75% = \$271.95 85% = \$308.20</p>	

I2. COMPUTED TOMOGRAPHY		8. CHEST, ABDOMEN, PELVIS AND NECK
	Group I2. Computed Tomography	
	Subgroup 8. Chest, abdomen, pelvis and neck	
56801	<p>Computed tomography—scan of chest, abdomen and pelvis with or without scans of soft tissues of neck without intravenous contrast medium, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$505.45 Benefit: 75% = \$379.10 85% = \$429.65</p>	
56807	<p>Computed tomography—scan of chest, abdomen and pelvis with or without scans of soft tissues of neck with intravenous contrast medium and with any scans of chest, abdomen and pelvis with or without scans of soft tissue of neck before intravenous contrast injection, when performed, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$606.70 Benefit: 75% = \$455.05 85% = \$515.70</p>	

I2. COMPUTED TOMOGRAPHY		9. BRAIN, CHEST AND UPPER ABDOMEN
	Group I2. Computed Tomography	
	Subgroup 9. Brain, chest and upper abdomen	
57001	<p>Computed tomography—scan of brain and chest with or without scans of upper abdomen without intravenous contrast medium, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$505.55 Benefit: 75% = \$379.20 85% = \$429.75</p>	
57007	<p>Computed tomography—scan of brain and chest with or without scans of upper abdomen with intravenous contrast medium and with any scans of brain and chest and upper abdomen before intravenous contrast injection, when performed, not including a study performed to exclude coronary artery calcification or image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$615.05 Benefit: 75% = \$461.30 85% = \$522.80</p>	

I2. COMPUTED TOMOGRAPHY		10. PELVIMETRY
	Group I2. Computed Tomography	
	Subgroup 10. Pelvimetry	
57201	Computed tomography—pelvimetry (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$168.15 Benefit: 75% = \$126.15 85% = \$142.95	

I2. COMPUTED TOMOGRAPHY		11. INTERVENTIONAL TECHNIQUES
	Group I2. Computed Tomography	
	Subgroup 11. Interventional techniques	
57341	Computed tomography, in conjunction with a surgical procedure using interventional techniques (R) (Anaes.) (See para IN.0.19, IN.0.2 of explanatory notes to this Category) Fee: \$509.20 Benefit: 75% = \$381.90 85% = \$432.85	

I2. COMPUTED TOMOGRAPHY		12. SPIRAL ANGIOGRAPHY
	Group I2. Computed Tomography	
	Subgroup 12. Spiral angiography	
57352	Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of: (a) the arch of the aorta; or (b) the carotid arteries; or (c) the vertebral arteries and their branches (head and neck); including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if: (d) either: (i) the service is requested by a specialist or consultant physician; or (ii) the service is requested by a medical practitioner (other than a specialist or consultant physician) and the request indicates that the patient's case has been discussed with a specialist or consultant physician; and (e) the service is not a service to which another item in this group applies; and (f) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and (g) the service is not a study performed to image the coronary arteries (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$552.50 Benefit: 75% = \$414.40 85% = \$469.65	
57353	Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of:	

12. COMPUTED TOMOGRAPHY

12. SPIRAL ANGIOGRAPHY

	<p>(a) the ascending and descending aorta; or</p> <p>(b) the common iliac and abdominal branches including upper limbs (chest, abdomen and upper limbs); including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(c) either:</p> <p>(i) the service is requested by a specialist or consultant physician; or</p> <p>(ii) the service is requested by a medical practitioner (other than a specialist or consultant physician) and the request indicates that the patient’s case has been discussed with a specialist or consultant physician; and</p> <p>(d) the service is not a service to which another item in this group applies; and</p> <p>(e) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and</p> <p>(f) the service is not a study performed to image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$552.50 Benefit: 75% = \$414.40 85% = \$469.65</p>
57354	<p>Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of:</p> <p>(a) the descending aorta; or</p> <p>(b) the pelvic vessels (aorto-iliac segment) and lower limbs;</p> <p>including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>(c) either:</p> <p>(i) the service is requested by a specialist or consultant physician; or</p> <p>(ii) the service is requested by a medical practitioner (other than a specialist or consultant physician) and the request indicates that the patient’s case has been discussed with a specialist or consultant physician; and</p> <p>(d) the service is not a service to which another item in this group applies; and</p> <p>(e) the service is performed for the exclusion of arterial stenosis, occlusion, aneurysm or embolism; and</p> <p>(f) the service is not a study performed to image the coronary arteries (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$552.50 Benefit: 75% = \$414.40 85% = \$469.65</p>
57357	<p>Computed tomography—angiography with intravenous contrast medium of any or all, or any part, of the pulmonary arteries and their branches, including any scans performed before intravenous contrast injection—one or more data acquisitions, including image editing, and maximum intensity projections or 3 dimensional surface shaded display, with hardcopy or digital recording of multiple projections, if:</p> <p>a. the service is not a service to which another item in this group applies; and</p>

I2. COMPUTED TOMOGRAPHY	12. SPIRAL ANGIOGRAPHY
	<p>b. the service is not a study performed to image the coronary arteries; and</p> <p>c. the service is:</p> <ul style="list-style-type: none"> (i) performed for the exclusion of pulmonary arterial stenosis, occlusion, aneurysm or embolism and is requested by a specialist or consultant physician; or (ii) performed for the exclusion of pulmonary arterial stenosis, occlusion or aneurysm and is requested by a medical practitioner (other than a specialist or consultant physician) and the request indicates that the patient's case has been discussed with a specialist or consultant physician; or (iii) for the exclusion of pulmonary embolism and is requested by a medical practitioner (other than a specialist or consultant physician) (R) (Anaes.) <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$552.50 Benefit: 75% = \$414.40 85% = \$469.65</p>
57360	<p>Computed tomography of the coronary arteries performed on a minimum of a 64 slice (or equivalent) scanner if:</p> <ul style="list-style-type: none"> (a) the request is made by a specialist or consultant physician; and (b) the patient has stable or acute symptoms consistent with coronary ischaemia; and (c) the patient is at low to intermediate risk of an acute coronary event, including having no significant cardiac biomarker elevation and no electrocardiogram changes indicating acute ischaemia (R) <p>Note: See explanatory note IN.2.2 for claiming restrictions for this item.</p> <p>(Anaes.)</p> <p>(See para IN.0.19, IN.2.2 of explanatory notes to this Category) Fee: \$758.30 Benefit: 75% = \$568.75 85% = \$659.60</p>
57364	<p>Note: the service only applies if the patient meets the requirements of the descriptor and the requirements of Note: TR.8.3 (item 38247), TR.8.2 (item 38249) or item 38252 if subclause (iv) applies.</p> <p>Computed tomography of the coronary arteries performed on a minimum of a 64 slice (or equivalent) scanner, if:</p> <ul style="list-style-type: none"> (a) the service is requested by a specialist or consultant physician; and (b) at least one of the following apply to the patient: <ul style="list-style-type: none"> (i) the patient has stable symptoms and newly recognised left ventricular systolic dysfunction of unknown aetiology; (ii) the patient requires exclusion of coronary artery anomaly or fistula; (iii) the patient will be undergoing non-coronary cardiac surgery; (iv) the patient meets the criteria to be eligible for a service to which item 38247, 38249 or 38252 applies, but as an alternative to selective coronary angiography will require an assessment of the patency of one or more bypass grafts <p>(R) (Anaes.)</p> <p>(See para TR.8.2, TR.8.3, TR.8.6, IN.2.1, IN.0.19 of explanatory notes to this Category) Fee: \$758.30 Benefit: 75% = \$568.75 85% = \$659.60</p>

I2. COMPUTED TOMOGRAPHY		13. CONE BEAM COMPUTED TOMOGRAPHY	
	Group I2. Computed Tomography		
	Subgroup 13. Cone beam computed tomography		
	Cone beam computed tomography—dental and temporo mandibular joint imaging (without contrast medium) for diagnosis and management of any of the following: (a) mandibular and dento alveolar fractures; (b) dental implant planning; (c) orthodontics; (d) endodontic conditions; (e) periodontal conditions; (f) temporo mandibular joint conditions Applicable once per patient per day, not being for a service to which any of items 57960 to 57969 apply, and not being a service associated with another service in Group I2 (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)		
57362	Fee: \$122.60	Benefit: 75% = \$91.95	85% = \$104.25

I3. DIAGNOSTIC RADIOLOGY		1. RADIOGRAPHIC EXAMINATION OF EXTREMITIES	
	Group I3. Diagnostic Radiology		
	Subgroup 1. Radiographic Examination Of Extremities		
	Hand, wrist, forearm, elbow or humerus (NR)		
57506	(See para IN.0.19 of explanatory notes to this Category) Fee: \$32.20	Benefit: 75% = \$24.15	85% = \$27.40
	Hand, wrist, forearm, elbow or humerus (R)		
57509	(See para IN.0.19 of explanatory notes to this Category) Fee: \$43.05	Benefit: 75% = \$32.30	85% = \$36.60
	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (NR)		
57512	(See para IN.0.19 of explanatory notes to this Category) Fee: \$43.80	Benefit: 75% = \$32.85	85% = \$37.25
	Hand and wrist, or hand, wrist and forearm, or forearm and elbow, or elbow and humerus (R)		
57515	(See para IN.0.19 of explanatory notes to this Category) Fee: \$58.50	Benefit: 75% = \$43.90	85% = \$49.75
	Foot, ankle, leg or femur (NR)		
57518	(See para IN.0.19 of explanatory notes to this Category) Fee: \$35.25	Benefit: 75% = \$26.45	85% = \$30.00
	Foot, ankle, leg or femur (R)		
57521	(See para IN.0.19 of explanatory notes to this Category) Fee: \$47.05	Benefit: 75% = \$35.30	85% = \$40.00
	Knee (NR)		
57522	(See para IN.0.19 of explanatory notes to this Category) Fee: \$35.25	Benefit: 75% = \$26.45	85% = \$30.00

I3. DIAGNOSTIC RADIOLOGY		1. RADIOGRAPHIC EXAMINATION OF EXTREMITIES
57523	Knee (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.05 Benefit: 75% = \$35.30 85% = \$40.00	
57524	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$53.50 Benefit: 75% = \$40.15 85% = \$45.50	
57527	Foot and ankle, or ankle and leg, or leg and knee, or knee and femur (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$71.25 Benefit: 75% = \$53.45 85% = \$60.60	

I3. DIAGNOSTIC RADIOLOGY		2. RADIOGRAPHIC EXAMINATION OF SHOULDER OR PELVIS
	Group I3. Diagnostic Radiology	
	Subgroup 2. Radiographic Examination Of Shoulder Or Pelvis	
57700	Shoulder or scapula (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$43.80 Benefit: 75% = \$32.85 85% = \$37.25	
57703	Shoulder or scapula (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$58.50 Benefit: 75% = \$43.90 85% = \$49.75	
57706	Clavicle (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$35.25 Benefit: 75% = \$26.45 85% = \$30.00	
57709	Clavicle (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.05 Benefit: 75% = \$35.30 85% = \$40.00	
57712	Hip joint (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40	
57715	Pelvic girdle (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$66.00 Benefit: 75% = \$49.50 85% = \$56.10	
57721	Femur, internal fixation of neck or intertrochanteric (pertrochanteric) fracture (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$107.55 Benefit: 75% = \$80.70 85% = \$91.45	

I3. DIAGNOSTIC RADIOLOGY		3. RADIOGRAPHIC EXAMINATION OF HEAD
	Group I3. Diagnostic Radiology	
	Subgroup 3. Radiographic Examination Of Head	

I3. DIAGNOSTIC RADIOLOGY	3. RADIOGRAPHIC EXAMINATION OF HEAD
57901	Skull, not in association with item 57902 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$69.85 Benefit: 75% = \$52.40 85% = \$59.40
57902	Cephalometry, not in association with item 57901 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$69.85 Benefit: 75% = \$52.40 85% = \$59.40
57905	Mastoids or petrous temporal bones (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$69.85 Benefit: 75% = \$52.40 85% = \$59.40
57907	Sinuses or facial bones – orbit, maxilla or malar, any or all (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.25 Benefit: 75% = \$38.45 85% = \$43.60
57915	Mandible, not by orthopantomography technique (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40
57918	Salivary calculus (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40
57921	Nose (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40
57924	Eye (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40
57927	Temporo mandibular joints (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$53.75 Benefit: 75% = \$40.35 85% = \$45.70
57930	Teeth—single area (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$35.70 Benefit: 75% = \$26.80 85% = \$30.35
57933	Teeth - full mouth (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$84.75 Benefit: 75% = \$63.60 85% = \$72.05
57939	Palato pharyngeal studies with fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$69.85 Benefit: 75% = \$52.40 85% = \$59.40

I3. DIAGNOSTIC RADIOLOGY		3. RADIOGRAPHIC EXAMINATION OF HEAD
57942	Palato pharyngeal studies without fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$53.75 Benefit: 75% = \$40.35 85% = \$45.70	
57945	Larynx, lateral airways and soft tissues of the neck, not being a service associated with a service to which item 57939 or 57942 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.05 Benefit: 75% = \$35.30 85% = \$40.00	
57960	Orthopantomography for diagnosis or management (or both) of trauma, infection, tumour or a congenital or surgical condition of the teeth or maxillofacial region (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.40 Benefit: 75% = \$38.55 85% = \$43.70	
57963	Orthopantomography for diagnosis or management (or both) of any of the following conditions, if the signs and symptoms of the condition is present: (a) impacted teeth; (b) caries; (c) periodontal pathology; (d) periapical pathology (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.40 Benefit: 75% = \$38.55 85% = \$43.70	
57966	Orthopantomography for diagnosis or management (or both) of missing or crowded teeth, or developmental anomalies of the teeth or jaws (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.40 Benefit: 75% = \$38.55 85% = \$43.70	
57969	Orthopantomography for diagnosis or management (or both) of temporo mandibular joint arthroses or dysfunction (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.40 Benefit: 75% = \$38.55 85% = \$43.70	

I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE
	Group I3. Diagnostic Radiology	
	Subgroup 4. Radiographic Examination Of Spine	
58100	Spine—cervical (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$72.70 Benefit: 75% = \$54.55 85% = \$61.80	
58103	Spine—thoracic (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$59.70 Benefit: 75% = \$44.80 85% = \$50.75	
58106	Spine—lumbosacral (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$83.40 Benefit: 75% = \$62.55 85% = \$70.90	
58108	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal (R)	

I3. DIAGNOSTIC RADIOLOGY		4. RADIOGRAPHIC EXAMINATION OF SPINE	
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$119.15 Benefit: 75% = \$89.40 85% = \$101.30		
58109	Spine—sacrococcygeal (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$50.90 Benefit: 75% = \$38.20 85% = \$43.30		
58112	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i> Spine—2 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$105.35 Benefit: 75% = \$79.05 85% = \$89.55		
58115	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i> Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$119.15 Benefit: 75% = \$89.40 85% = \$101.30		
58120	Spine—4 regions, cervical, thoracic, lumbosacral and sacrococcygeal, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R) Fee: \$119.15 Benefit: 75% = \$89.40 85% = \$101.30		
58121	<i>NOTE: An account issued or a patient assignment form must show the item numbers of the examinations performed under this item</i> Spine—3 examinations of the kind mentioned in items 58100, 58103, 58106 and 58109, if the service to which item 58120 or 58121 applies has not been performed on the same patient within the same calendar year (R) Fee: \$119.15 Benefit: 75% = \$89.40 85% = \$101.30		

I3. DIAGNOSTIC RADIOLOGY		5. BONE AGE STUDY AND SKELETAL SURVEYS	
	Group I3. Diagnostic Radiology		
	Subgroup 5. Bone Age Study And Skeletal Surveys		
58300	Bone age study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$43.40 Benefit: 75% = \$32.55 85% = \$36.90		
58306	Skeletal survey (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$96.85 Benefit: 75% = \$72.65 85% = \$82.35		

I3. DIAGNOSTIC RADIOLOGY		6. RADIOGRAPHIC EXAMINATION OF THORACIC REGION
	Group I3. Diagnostic Radiology	
	Subgroup 6. Radiographic Examination Of Thoracic Region	
	Chest (lung fields) by direct radiography (NR) (See para IN.0.19 of explanatory notes to this Category)	
58500	Fee: \$38.30	Benefit: 75% = \$28.75 85% = \$32.60
	Chest (lung fields) by direct radiography (R) (See para IN.0.19 of explanatory notes to this Category)	
58503	Fee: \$51.05	Benefit: 75% = \$38.30 85% = \$43.40
	Chest (lung fields) by direct radiography with fluoroscopic screening (R) (See para IN.0.19 of explanatory notes to this Category)	
58506	Fee: \$65.85	Benefit: 75% = \$49.40 85% = \$56.00
	Thoracic inlet or trachea (R) (See para IN.0.19 of explanatory notes to this Category)	
58509	Fee: \$43.05	Benefit: 75% = \$32.30 85% = \$36.60
	Left ribs, right ribs or sternum (R) (See para IN.0.19 of explanatory notes to this Category)	
58521	Fee: \$47.05	Benefit: 75% = \$35.30 85% = \$40.00
	Left and right ribs, left ribs and sternum, or right ribs and sternum (R) (See para IN.0.19 of explanatory notes to this Category)	
58524	Fee: \$61.20	Benefit: 75% = \$45.90 85% = \$52.05
	Left ribs, right ribs and sternum (R) (See para IN.0.19 of explanatory notes to this Category)	
58527	Fee: \$75.20	Benefit: 75% = \$56.40 85% = \$63.95

I3. DIAGNOSTIC RADIOLOGY		7. RADIOGRAPHIC EXAMINATION OF URINARY TRACT
	Group I3. Diagnostic Radiology	
	Subgroup 7. Radiographic Examination Of Urinary Tract	
	Plain renal only (R) (See para IN.0.19 of explanatory notes to this Category)	
58700	Fee: \$49.85	Benefit: 75% = \$37.40 85% = \$42.40
	Intravenous pyelography, with or without preliminary plain films and with or without tomography (R) (See para IN.0.19 of explanatory notes to this Category)	
58706	Fee: \$171.05	Benefit: 75% = \$128.30 85% = \$145.40
	Antegrade or retrograde pyelography with or without preliminary plain films and with preparation and contrast injection, one side (R) (See para IN.0.19 of explanatory notes to this Category)	
58715	Fee: \$164.20	Benefit: 75% = \$123.15 85% = \$139.60

I3. DIAGNOSTIC RADIOLOGY		7. RADIOGRAPHIC EXAMINATION OF URINARY TRACT
58718	Retrograde cystography or retrograde urethrography with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$136.60 Benefit: 75% = \$102.45 85% = \$116.15	
58721	Retrograde micturating cysto urethrography, with preparation and contrast injection (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$149.75 Benefit: 75% = \$112.35 85% = \$127.30	

I3. DIAGNOSTIC RADIOLOGY		8. RADIOGRAPHIC EXAMINATION OF ALIMENTARY TRACT AND BILIARY SYSTEM
Group I3. Diagnostic Radiology		
Subgroup 8. Radiographic Examination Of Alimentary Tract And Biliary System		
58900	Plain abdominal only, not being a service associated with a service to which item 58909, 58912 or 58915 applies (NR) (See para IN.0.19 of explanatory notes to this Category) Fee: \$38.75 Benefit: 75% = \$29.10 85% = \$32.95	
58903	Plain abdominal only, not being a service associated with a service to which item 58909, 58912 or 58915 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.60 Benefit: 75% = \$38.70 85% = \$43.90	
58909	Barium or other opaque meal of one or more of pharynx, oesophagus, stomach or duodenum, with or without preliminary plain films of pharynx, chest or duodenum, not being a service associated with a service to which item 57939, 57942 or 57945 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$97.40 Benefit: 75% = \$73.05 85% = \$82.80	
58912	Barium or other opaque meal of oesophagus, stomach, duodenum and follow through to colon, with or without screening of chest and with or without preliminary plain film (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$119.45 Benefit: 75% = \$89.60 85% = \$101.55	
58915	Barium or other opaque meal, small bowel series only, with or without preliminary plain film (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$85.55 Benefit: 75% = \$64.20 85% = \$72.75	
58916	Small bowel enema, barium or other opaque study of the small bowel, including duodenal intubation, with or without preliminary plain films, not being a service associated with a service to which item 30488 applies (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$150.05 Benefit: 75% = \$112.55 85% = \$127.55	
58921	Opaque enema, with or without air contrast study and with or without preliminary plain films (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$146.55 Benefit: 75% = \$109.95 85% = \$124.60	

I3. DIAGNOSTIC RADIOLOGY		8. RADIOGRAPHIC EXAMINATION OF ALIMENTARY TRACT AND BILIARY SYSTEM
58927	Cholecgraphy direct, with or without preliminary plain films and with preparation and contrast injection, not being a service associated with a service to which item 30439 applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$82.80 Benefit: 75% = \$62.10 85% = \$70.40	
58933	Cholecgraphy, percutaneous transhepatic, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$222.75 Benefit: 75% = \$167.10 85% = \$189.35	
58936	Cholecgraphy, drip infusion, with or without preliminary plain films, with preparation and contrast injection and with or without tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$212.30 Benefit: 75% = \$159.25 85% = \$180.50	
58939	Defaecogram (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$150.90 Benefit: 75% = \$113.20 85% = \$128.30	

I3. DIAGNOSTIC RADIOLOGY		9. RADIOGRAPHIC EXAMINATION FOR LOCALISATION OF FOREIGN BODIES
	Group I3. Diagnostic Radiology	
	Subgroup 9. Radiographic Examination For Localisation Of Foreign Bodies	
59103	Localisation of foreign body, if provided in conjunction with a service described in Subgroups 1 to 12 of Group I3 (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$23.05 Benefit: 75% = \$17.30 85% = \$19.60	

I3. DIAGNOSTIC RADIOLOGY		10. RADIOGRAPHIC EXAMINATION OF BREASTS
	Group I3. Diagnostic Radiology	
	Subgroup 10. Radiographic Examination Of Breasts	
59300	Mammography of both breasts if there is reason to suspect the presence of malignancy because of: (a) the past occurrence of breast malignancy in the patient; or (b) significant history of breast or ovarian malignancy in the patient's family; or (c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner (R) (Note: These items are intended for use in the investigation of a clinical abnormality of the breast/s and NOT for individual, group or opportunistic screening of asymptomatic patients)	

13. DIAGNOSTIC RADIOLOGY	10. RADIOGRAPHIC EXAMINATION OF BREASTS
	<p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$96.95 Benefit: 75% = \$72.75 85% = \$82.45</p>
59302	<p>Three dimensional tomosynthesis of both breasts, if there is reason to suspect the presence of malignancy because of:</p> <ul style="list-style-type: none"> a) the past occurrence of breast malignancy in the patient; or b) significant history of breast or ovarian malignancy in the patient's family; or c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner <p>Not being a service to which item 59300 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$218.85 Benefit: 75% = \$164.15 85% = \$186.05</p>
59303	<p>Mammography of one breast if:</p> <ul style="list-style-type: none"> (a) the service is specifically requested for a unilateral mammogram; and (b) there is reason to suspect the presence of malignancy because of: <ul style="list-style-type: none"> (i) the past occurrence of breast malignancy in the patient; or (ii) significant history of breast or ovarian malignancy in the patient's family; or (iii) symptoms or indications of breast disease found on examination of the patient by a medical practitioner (R) <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$58.45 Benefit: 75% = \$43.85 85% = \$49.70</p>
59305	<p>Three dimensional tomosynthesis of one breast, if there is reason to suspect the presence of malignancy because of:</p> <ul style="list-style-type: none"> a) the past occurrence of breast malignancy in the patient; or b) significant history of breast or ovarian malignancy in the patient's family; or c) symptoms or indications of breast disease found on examination of the patient by a medical practitioner <p>Not being a service to which item 59303 applies (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$123.45 Benefit: 75% = \$92.60 85% = \$104.95</p>
59312	<p>Radiographic examination of both breasts, in conjunction with a surgical procedure on each breast, using interventional techniques (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>

13. DIAGNOSTIC RADIOLOGY		10. RADIOGRAPHIC EXAMINATION OF BREASTS
	Fee: \$94.25	Benefit: 75% = \$70.70 85% = \$80.15
	Radiographic examination of one breast, in conjunction with a surgical procedure using interventional techniques (R)	
	(See para IN.0.19 of explanatory notes to this Category)	
59314	Fee: \$56.90	Benefit: 75% = \$42.70 85% = \$48.40
	Radiographic examination of excised breast tissue to confirm satisfactory excision of one or more lesions in one breast or both following pre-operative localisation in conjunction with a service under item 31536 (R)	
	(See para IN.0.19 of explanatory notes to this Category)	
59318	Fee: \$50.95	Benefit: 75% = \$38.25 85% = \$43.35

13. DIAGNOSTIC RADIOLOGY		12. RADIOGRAPHIC EXAMINATION WITH OPAQUE OR CONTRAST MEDIA
	Group 13. Diagnostic Radiology	
	Subgroup 12. Radiographic Examination With Opaque Or Contrast Media	
	Discography, each disc, with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (Anaes.)	
	(See para IN.0.19 of explanatory notes to this Category)	
59700	Fee: \$104.60	Benefit: 75% = \$78.45 85% = \$88.95
	Dacryocystography, one side, with or without preliminary plain film and with preparation and contrast injection (R)	
	(See para IN.0.19 of explanatory notes to this Category)	
59703	Fee: \$82.25	Benefit: 75% = \$61.70 85% = \$69.95
	Hysterosalpingography, with or without preliminary plain films and with preparation and contrast injection (R)(Anaes.) (Anaes.)	
	(See para IN.0.19 of explanatory notes to this Category)	
59712	Fee: \$123.15	Benefit: 75% = \$92.40 85% = \$104.70
	Bronchography, one side, with or without preliminary plain films and with preparation and contrast injection, on a person under 16 years of age (R) (Anaes.) (Anaes.)	
	(See para IN.0.19 of explanatory notes to this Category)	
59715	Fee: \$155.50	Benefit: 75% = \$116.65 85% = \$132.20
	Phlebography, one side, with or without preliminary plain films and with preparation and contrast injection (R) (Anaes.) (Anaes.)	
	(See para IN.0.19 of explanatory notes to this Category)	
59718	Fee: \$145.90	Benefit: 75% = \$109.45 85% = \$124.05
	Myelography, one or more regions, with or without preliminary plain films and with preparation and contrast injection, not being a service associated with a service to which item 56219 applies (R)(Anaes.) (Anaes.)	
	(See para IN.0.19 of explanatory notes to this Category)	
59724	Fee: \$245.30	Benefit: 75% = \$184.00 85% = \$208.55
	Sialography, one side, with preparation and contrast injection, not being a service associated with a service to which item 57918 applies (R)	
59733		

13. DIAGNOSTIC RADIOLOGY		12. RADIOGRAPHIC EXAMINATION WITH OPAQUE OR CONTRAST MEDIA
	(See para IN.0.19 of explanatory notes to this Category) Fee: \$116.70 Benefit: 75% = \$87.55 85% = \$99.20	
59739	Sinogram or fistulogram, one or more regions, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$79.85 Benefit: 75% = \$59.90 85% = \$67.90	
59751	Arthrography, each joint, excluding the facet (zygapophyseal) joints of the spine, single or double contrast study, with or without preliminary plain films and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$150.75 Benefit: 75% = \$113.10 85% = \$128.15	
59754	Lymphangiography, one or both sides, with preliminary plain films and follow-up radiography and with preparation and contrast injection (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$237.65 Benefit: 75% = \$178.25 85% = \$202.05	
59763	Air insufflation during video—fluoroscopic imaging including associated consultation (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$145.00 Benefit: 75% = \$108.75 85% = \$123.25	

13. DIAGNOSTIC RADIOLOGY		13. ANGIOGRAPHY
	Group 13. Diagnostic Radiology	
	Subgroup 13. Angiography	
59970	Angiography or digital subtraction angiography, or both, with fluoroscopy and image acquisition, using a mobile image intensifier, including any preliminary plain films, preparation and contrast injection— one or more regions (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$182.30 Benefit: 75% = \$136.75 85% = \$155.00	
60000	Digital subtraction angiography, examination of head and neck with or without arch aortography—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40	
60003	Digital subtraction angiography, examination of head and neck with or without arch aortography—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35	
60006	Digital subtraction angiography, examination of head and neck with or without arch aortography—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45	
60009	Digital subtraction angiography, examination of head and neck with or without arch aortography—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30	

13. DIAGNOSTIC RADIOLOGY	13. ANGIOGRAPHY
60012	Digital subtraction angiography, examination of thorax—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40
60015	Digital subtraction angiography, examination of thorax—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35
60018	Digital subtraction angiography, examination of thorax—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45
60021	Digital subtraction angiography, examination of thorax—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30
60024	Digital subtraction angiography, examination of abdomen—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40
60027	Digital subtraction angiography, examination of abdomen—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35
60030	Digital subtraction angiography, examination of abdomen—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45
60033	Digital subtraction angiography, examination of abdomen—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30
60036	Digital subtraction angiography, examination of upper limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40
60039	Digital subtraction angiography, examination of upper limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35
60042	Digital subtraction angiography, examination of upper limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45
60045	Digital subtraction angiography, examination of upper limb or limbs—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30

13. DIAGNOSTIC RADIOLOGY		13. ANGIOGRAPHY
60048	Digital subtraction angiography, examination of lower limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40	
60051	Digital subtraction angiography, examination of lower limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35	
60054	Digital subtraction angiography, examination of lower limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45	
60057	Digital subtraction angiography, examination of lower limb or limbs—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30	
60060	Digital subtraction angiography, examination of aorta and lower limb or limbs—1 to 3 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$611.05 Benefit: 75% = \$458.30 85% = \$519.40	
60063	Digital subtraction angiography, examination of aorta and lower limb or limbs—4 to 6 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$896.05 Benefit: 75% = \$672.05 85% = \$797.35	
60066	Digital subtraction angiography, examination of aorta and lower limb or limbs—7 to 9 data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,274.15 Benefit: 75% = \$955.65 85% = \$1175.45	
60069	Digital subtraction angiography, examination of aorta and lower limb or limbs—10 or more data acquisition runs (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$1,491.00 Benefit: 75% = \$1118.25 85% = \$1392.30	
60072	Selective arteriography or selective venography by digital subtraction angiography technique—one vessel (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$52.10 Benefit: 75% = \$39.10 85% = \$44.30	
60075	Selective arteriography or selective venography by digital subtraction angiography technique—2 vessels (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$104.15 Benefit: 75% = \$78.15 85% = \$88.55	
60078	Selective arteriography or selective venography by digital subtraction angiography technique—3 or more vessels (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)	

I3. DIAGNOSTIC RADIOLOGY	13. ANGIOGRAPHY
Fee: \$156.25	Benefit: 75% = \$117.20 85% = \$132.85

I3. DIAGNOSTIC RADIOLOGY	15. FLUOROSCOPIC EXAMINATION
	Group I3. Diagnostic Radiology
	Subgroup 15. Fluoroscopic Examination
60500	Fluoroscopy, with general anaesthesia (not being a service associated with a radiographic examination) (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$47.05 Benefit: 75% = \$35.30 85% = \$40.00
60503	Fluoroscopy, without general anaesthesia (not being a service associated with a radiographic examination) (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$32.20 Benefit: 75% = \$24.15 85% = \$27.40
60506	Fluoroscopy using a mobile image intensifier, in conjunction with a surgical procedure lasting less than 1 hour, not being a service associated with a service to which another item in this Group applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$69.10 Benefit: 75% = \$51.85 85% = \$58.75
60509	Fluoroscopy using a mobile image intensifier, in conjunction with a surgical procedure lasting 1 hour or more, not being a service associated with a service to which another item in this Group applies (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$107.15 Benefit: 75% = \$80.40 85% = \$91.10

I3. DIAGNOSTIC RADIOLOGY	16. PREPARATION FOR RADIOLOGICAL PROCEDURE
	Group I3. Diagnostic Radiology
	Subgroup 16. Preparation For Radiological Procedure
60918	Arteriography (peripheral) or phlebography—one vessel, when used in association with a service to which item 59970 applies, not being a service associated with a service to which any of items 60000 to 60078 apply (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40
60927	Selective arteriogram or phlebogram, when used in association with a service to which item 59970 applies, not being a service associated with a service to which any of items 60000 to 60078 apply (NR) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$41.15 Benefit: 75% = \$30.90 85% = \$35.00

I3. DIAGNOSTIC RADIOLOGY	17. INTERVENTIONAL TECHNIQUES
	Group I3. Diagnostic Radiology

I3. DIAGNOSTIC RADIOLOGY		17. INTERVENTIONAL TECHNIQUES	
	Subgroup 17. Interventional Techniques		
	Fluoroscopy in an angiography suite with image intensification, in conjunction with a surgical procedure using interventional techniques, not being a service associated with a service to which another item in this Group applies (R)		
61109	(See para IN.0.19 of explanatory notes to this Category) Fee: \$280.50 Benefit: 75% = \$210.40 85% = \$238.45		

I3. DIAGNOSTIC RADIOLOGY		18. MISCELLANEOUS	
	Group I3. Diagnostic Radiology		
	Subgroup 18. Miscellaneous		
	<p>Fee for a service rendered using first eligible x-ray procedure carried out during attendance at residential aged care facility, where the service has been requested by a medical practitioner who has attended the patient in person and the request identifies one or more of the following indications:</p> <ul style="list-style-type: none"> a. the patient has experienced a fall and one or more of the following items apply to the service 57509, 57515, 57521, 57527, 57703, 57709, 57712, 57715, 58521, 58524, 58527; or b. pneumonia or heart failure is suspected and item 58503 applies to the service; or c. acute abdomen or bowel obstruction is suspected and item 58903 applies to the service. <p>This call-out fee can be claimed once only per visit at a residential aged care facility irrespective of the number of patients attended.</p> <p>NOTE: If the service is bulked billed 95% of the fee is payable. The multiple services rule does not apply to this item.</p> <p>(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>		
57541	Fee: \$79.75 Benefit: 75% = \$59.85 85% = \$67.80		

I4. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET	
	Group I4. Nuclear Medicine Imaging		
	Subgroup 1. Nuclear medicine - non PET		
	Myocardial infarct avid study (R)		
61310	(See para IN.0.19 of explanatory notes to this Category) Fee: \$367.30 Benefit: 75% = \$275.50 85% = \$312.25		
	Gated cardiac blood pool study, (equilibrium) (R)		
61313	(See para IN.0.19 of explanatory notes to this Category) Fee: \$303.35 Benefit: 75% = \$227.55 85% = \$257.85		
	Gated cardiac blood pool study, with or without intervention, and first pass blood flow or cardiac shunt study (R)		
61314			

I4. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
	<p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$420.00 Benefit: 75% = \$315.00 85% = \$357.00</p>
61321	<p>Single rest myocardial perfusion study for the assessment of the extent and severity of viable and non-viable myocardium, with single photon emission tomography, with or without planar imaging, if:</p> <ul style="list-style-type: none"> (a) the patient has left ventricular systolic dysfunction and probable or confirmed coronary artery disease; and (b) the service uses a single rest technetium-99m (Tc-99m) protocol; and (c) the service is requested by a specialist or a consultant physician; and (d) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61325, 61329, 61345, 61398 or 61406 applies; and (e) if the patient is 17 years or older—a service to which this item, or item 61325, 61329, 61345, 61398 or 61406 applies has not been provided to the patient in the previous 24 months (R) <p>(See para IR.4.1, IN.0.19, IR.4.2, IN.4.1 of explanatory notes to this Category) Fee: \$329.00 Benefit: 75% = \$246.75 85% = \$279.65</p>
61324	<p>Single stress myocardial perfusion study, with single photon emission tomography, with or without planar imaging, if:</p> <ul style="list-style-type: none"> (a) the patient has symptoms of cardiac ischaemia; and (b) at least one of the following applies: <ul style="list-style-type: none"> (i) the patient has body habitus or other physical conditions (including heart rhythm disturbance) to the extent that a stress echocardiography would not provide adequate information; (ii) the patient is unable to exercise to the extent required for a stress echocardiography to provide adequate information; (iii) the patient has had a failed stress echocardiography provided in a service to which item 55141, 55143, 55145 or 55146 applies; and (c) the service includes resting ECG, continuous ECG monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and (d) the service is requested by a specialist or consultant physician; and (e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61325, 61329, 61345, 61357, 61394, 61398, 61406 or 61414 applies; and (f) if the patient is 17 years or older—a service to which this item, or item 61329, 61345, 61357, 61394, 61398, 61406, 61410 or 61414, applies has not been provided to the patient in the previous 24 months (R) <p>(See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category) Fee: \$653.05 Benefit: 75% = \$489.80 85% = \$555.10</p>

14. NUCLEAR MEDICINE IMAGING

1. NUCLEAR MEDICINE - NON PET

61325	<p>Single rest myocardial perfusion study for the assessment of the extent and severity of viable and non-viable myocardium, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has left ventricular systolic dysfunction and probable or confirmed coronary artery disease; and</p> <p>(b) the service uses:</p> <ul style="list-style-type: none"> (i) an initial rest study followed by a redistribution study on the same day; and (ii) a thallous chloride-201 (Tl-201) protocol; and <p>(c) the service is requested by a specialist or a consultant physician; and</p> <p>(d) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61329, 61345, 61398 or 61406 applies; and</p> <p>(e) if the patient is 17 years or older:</p> <ul style="list-style-type: none"> (i) a service to which item 61321, 61329, 61345, 61398 or 61406 applies has not been provided to the patient in the previous 24 months; and (ii) the service is applicable only twice each 24 months (R) <p>(See para IN.0.19, IR.4.2, IN.4.2 of explanatory notes to this Category)</p> <p>Fee: \$329.00 Benefit: 75% = \$246.75 85% = \$279.65</p>
61328	<p>Lung perfusion study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$227.65 Benefit: 75% = \$170.75 85% = \$193.55</p>
61329	<p>Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) at least one of the following applies:</p> <ul style="list-style-type: none"> (i) the patient has body habitus or other physical conditions (including heart rhythm disturbance) to the extent that a stress echocardiography would not provide adequate information; (ii) the patient is unable to exercise to the extent required for a stress echocardiography to provide adequate information; (iii) the patient has had a failed stress echocardiography provided in a service to which item 55141, 55143, 55145 or 55146 applies; and <p>(c) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p>

14. NUCLEAR MEDICINE IMAGING

1. NUCLEAR MEDICINE - NON PET

	<p>(d) the service is requested by a medical practitioner (other than a specialist or consultant physician); and</p> <p>(e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61345, 61357, 61394, 61398, 61406 or 61414 applies; and</p> <p>(f) if the patient is 17 years or older—a service to which this item, or item 61321, 61324, 61325, 61345, 61357, 61394, 61398, 61406 or 61414, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35</p>
61340	<p>Lung ventilation study using aerosol, technegas or xenon gas (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$253.00 Benefit: 75% = \$189.75 85% = \$215.05</p>
61345	<p>Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) at least one of the following applies:</p> <ul style="list-style-type: none"> (i) the patient has body habitus or other physical conditions (including heart rhythm disturbance) to the extent that a stress echocardiography would not provide adequate information; (ii) the patient is unable to exercise to the extent required for a stress echocardiography to provide adequate information; (iii) the patient has had a failed stress echocardiography provided in a service to which item 55141, 55143, 55145 or 55146 applies; and <p>(c) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(d) the service is requested by a specialist or consultant physician; and</p> <p>(e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61357, 61394, 61398, 61406 or 61414 applies (R); and</p> <p>(f) if the patient is 17 years or older—a service to which this item, or item 61321, 61324, 61325, 61329, 61357, 61394, 61398, 61406 or 61414, applies has not been provided to the patient in the previous 24 months (R)</p>

I4. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
	(See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35
61348	Lung perfusion study and lung ventilation study using aerosol, technegas or xenon gas (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$443.35 Benefit: 75% = \$332.55 85% = \$376.85
61349	Repeat combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if: (a) both: (i) a service has been provided to the patient in the previous 24 months to which this item, or item 61324, 61329, 61345, 61357, 61394, 61398, 61406, 61410 or 61414 applies; and (ii) the patient has subsequently undergone a revascularisation procedure; and (b) the patient has one or more symptoms of cardiac ischaemia that have evolved and are not adequately controlled with optimal medical therapy; and (c) at least one of the following applies: (i) the patient has body habitus or other physical conditions (including heart rhythm disturbance) to the extent that a stress echocardiography would not provide adequate information; (ii) the patient is unable to exercise to the extent required for a stress echocardiography to provide adequate information; (iii) the patient has had a failed stress echocardiography provided in a service to which item 55141, 55143, 55145 or 55146 applies; and (d) the service is requested by a specialist or a consultant physician; and (e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730 or 61410 applies; and (f) if the patient is 17 years or older—a service to which this item, or item 61410, applies has not been provided to the patient in the previous 12 months (R) (See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35
61353	Liver and spleen study (colloid) (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$386.60 Benefit: 75% = \$289.95 85% = \$328.65
61356	Red blood cell spleen or liver study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$392.80 Benefit: 75% = \$294.60 85% = \$333.90
61357	Single stress myocardial perfusion study, with single photon emission tomography, with or without planar imaging, if: (a) the patient has symptoms of cardiac ischaemia; and

14. NUCLEAR MEDICINE IMAGING

1. NUCLEAR MEDICINE - NON PET

	<p>(b) at least one of the following applies:</p> <p>(i) the patient has body habitus or other physical conditions (including heart rhythm disturbance) to the extent that a stress echocardiography would not provide adequate information;</p> <p>(ii) the patient is unable to exercise to the extent required for a stress echocardiography to provide adequate information;</p> <p>(iii) the patient has had a failed stress echocardiography provided in a service to which items 55141, 55143, 55145 or 55146 applies; and</p> <p>(c) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(d) the service is requested by a medical practitioner (other than a specialist or consultant physician); and</p> <p>(e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61345, 61394, 61398, 61406 or 61414 applies; and</p> <p>(f) if the patient is 17 years or older—a service to which this item, or item 61324, 61329, 61345, 61394, 61398, 61406, or 61414, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category) Fee: \$653.05 Benefit: 75% = \$489.80 85% = \$555.10</p>
61360	<p>Hepatobiliary study, including morphine administration or pre-treatment with a chologogue when performed (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$403.35 Benefit: 75% = \$302.55 85% = \$342.85</p>
61361	<p>Hepatobiliary study with formal quantification following baseline imaging, using a chologogue (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$461.40 Benefit: 75% = \$346.05 85% = \$392.20</p>
61364	<p>Bowel haemorrhage study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$496.95 Benefit: 75% = \$372.75 85% = \$422.45</p>
61368	<p>Meckel’s diverticulum study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65</p>
61369	<p>Indium-labelled octreotide study (including single photon emission tomography when undertaken), if:</p> <p>(a) a gastro-entero-pancreatic endocrine tumour is suspected on the basis of biochemical evidence with negative or equivocal conventional imaging; or</p> <p>(b) both:</p> <p>(i) a surgically amenable gastro-entero-pancreatic endocrine tumour has been identified on the basis of conventional techniques; and</p>

I4. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
	(ii) the study is to exclude additional disease sites (R) Fee: \$2,015.75 Benefit: 75% = \$1511.85 85% = \$1917.05
61372	Salivary study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65
61373	Gastro-oesophageal reflux study, including delayed imaging on a separate occasion when performed (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$489.70 Benefit: 75% = \$367.30 85% = \$416.25
61376	Oesophageal clearance study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$143.35 Benefit: 75% = \$107.55 85% = \$121.85
61381	Gastric emptying study, using single tracer (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$574.35 Benefit: 75% = \$430.80 85% = \$488.20
61383	Combined solid and liquid gastric emptying study using dual isotope technique or the same isotope on separate days (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$624.95 Benefit: 75% = \$468.75 85% = \$531.25
61384	Radionuclide colonic transit study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$687.70 Benefit: 75% = \$515.80 85% = \$589.00
61386	Renal study, including perfusion and renogram images and computer analysis or cortical study with planar imaging (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$332.50 Benefit: 75% = \$249.40 85% = \$282.65
61387	Renal cortical study, with single photon emission tomography and planar quantification (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$430.75 Benefit: 75% = \$323.10 85% = \$366.15
61389	Single renal study with pre-procedural administration of a diuretic or angiotensin converting enzyme (ACE) inhibitor (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$370.55 Benefit: 75% = \$277.95 85% = \$315.00
61390	Renal study with diuretic administration after a baseline study (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$409.95 Benefit: 75% = \$307.50 85% = \$348.50
61393	Combined examination involving a renal study following angiotensin converting enzyme (ACE) inhibitor provocation and a baseline study, in either order and related to a single referral episode (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$605.50 Benefit: 75% = \$454.15 85% = \$514.70

I4. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
61394	<p>Single stress myocardial perfusion study, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) the service is provided at, or from, a practice located in a Modified Monash 3, 4, 5, 6 or 7 area; and</p> <p>(c) a stress echocardiography service is not available in the Modified Monash area where the service is provided; and</p> <p>(d) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(e) the service is requested by a specialist or consultant physician; and</p> <p>(f) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61345, 61357, 61398, 61406 or 61414 applies; and</p> <p>(g) if the patient is 17 years or older—a service to which this item, or item 61324, 61329, 61345, 61357, 61398, 61406 or 61414, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IR.4.1, IN.0.19, IN.4.3 of explanatory notes to this Category)</p> <p>Fee: \$653.05 Benefit: 75% = \$489.80 85% = \$555.10</p>
61397	<p>Cystoureterogram (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$246.85 Benefit: 75% = \$185.15 85% = \$209.85</p>
61398	<p>Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) the service is provided at, or from, a practice located in a Modified Monash 3, 4, 5, 6 or 7 area; and</p> <p>(c) a stress echocardiography service is not available in the Modified Monash area where the services is provided; and</p> <p>(d) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(e) the service is requested by a medical practitioner (other than a specialist or consultant physician); and</p> <p>(f) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61345, 61357, 61394, 61406 or 61414 applies; and</p>

I4. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
	<p>(g) if the patient is 17 years or older—a service to which this item, or item 61321, 61324, 61325, 61329, 61345, 61357, 61394, 61406 or 61414, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IR.4.1, IN.4.3, IN.0.19 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35</p>
61402	<p>Cerebral perfusion study, with single photon emission tomography and with planar imaging when performed (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$605.05 Benefit: 75% = \$453.80 85% = \$514.30</p>
61406	<p>Combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) the service is provided at, or from, a practice located in a Modified Monash 3, 4, 5, 6 or 7 area; and</p> <p>(c) a stress echocardiography service is not available in the Modified Monash area where the service is provided; and</p> <p>(d) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(e) the service is requested by a specialist or consultant physician; and</p> <p>(f) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61345, 61357, 61394, 61398 or 61414 applies; and</p> <p>(g) if the patient is 17 years or older—a service to which this item, or item 61321, 61324, 61325, 61329, 61345, 61357, 61394, 61398 or 61414, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IN.4.3, IR.4.1, IN.0.19 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35</p>
61409	<p>Cerebro-spinal fluid transport study using technetium 99m, with imaging on 2 or more separate occasions (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$873.50 Benefit: 75% = \$655.15 85% = \$774.80</p>
61410	<p>Repeat combined stress and rest, stress and re-injection or rest and redistribution myocardial perfusion study, including delayed imaging or re-injection protocol on a subsequent occasion, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) both:</p>

14. NUCLEAR MEDICINE IMAGING	1. NUCLEAR MEDICINE - NON PET
	<p>(i) a service has been provided to the patient in the previous 24 months to which this item, or item 61324, 61329, 61345, 61349, 61357, 61394, 61398, 61406 or 61414 applies; and</p> <p>(ii) the patient has subsequently undergone a revascularisation procedure; and</p> <p>(b) the patient has one or more symptoms of cardiac ischaemia that have evolved and are not adequately controlled with optimal medical therapy; and</p> <p>(c) the service is provided at, or from, a practice located in a Modified Monash 3, 4, 5, 6 or 7 area; and</p> <p>(d) a stress echocardiography service is not available in the Modified Monash area where the service is provided; and</p> <p>(e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729 or 11730 applies; and</p> <p>(f) if the patient is 17 years or older—a service to which item 61349 applies has not been provided to the patient in the previous 12 months</p> <p>(See para IN.0.19, IN.4.3, IR.4.1 of explanatory notes to this Category) Fee: \$982.05 Benefit: 75% = \$736.55 85% = \$883.35</p>
61413	<p>Cerebro spinal fluid shunt patency study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$225.95 Benefit: 75% = \$169.50 85% = \$192.10</p>
61414	<p>Single stress myocardial perfusion study, with single photon emission tomography, with or without planar imaging, if:</p> <p>(a) the patient has symptoms of cardiac ischaemia; and</p> <p>(b) the service is provided at, or from, a practice located in a Modified Monash 3, 4, 5, 6 or 7 area; and</p> <p>(c) a stress echocardiography service is not available in the Modified Monash area where the service is provided; and</p> <p>(d) the service includes resting electrocardiograph, continuous electrocardiograph monitoring during exercise (with recording), blood pressure monitoring and the recording of other parameters (including heart rate); and</p> <p>(e) the service is requested by a medical practitioner (other than a specialist or consultant physician); and</p> <p>(f) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729, 11730, 61321, 61324, 61325, 61329, 61345, 61357, 61394, 61398 or 61406 applies; and</p> <p>(g) if the patient is 17 years or older—a service to which this item, or item 61324, 61329, 61345, 61357, 61398 or 61406, applies has not been provided to the patient in the previous 24 months (R)</p> <p>(See para IN.0.19, IR.4.1, IN.4.3 of explanatory notes to this Category)</p>

I4. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	Fee: \$653.05	Benefit: 75% = \$489.80 85% = \$555.10
61421	Bone study—whole body, with, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$479.80	Benefit: 75% = \$359.85 85% = \$407.85
61425	Bone study—whole body and single photon emission tomography, with, when undertaken, blood flow, blood pool and delayed imaging on a separate occasion (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$600.70	Benefit: 75% = \$450.55 85% = \$510.60
61426	Whole body study using iodine (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$554.80	Benefit: 75% = \$416.10 85% = \$471.60
61429	Whole body study using gallium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$543.00	Benefit: 75% = \$407.25 85% = \$461.55
61430	Whole body study using gallium, with single photon emission tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$659.45	Benefit: 75% = \$494.60 85% = \$560.75
61433	Whole body study using cells labelled with technetium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$496.95	Benefit: 75% = \$372.75 85% = \$422.45
61434	Whole body study using cells labelled with technetium, with single photon emission tomography (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$615.40	Benefit: 75% = \$461.55 85% = \$523.10
61438	Whole body study using thallium (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$672.95	Benefit: 75% = \$504.75 85% = \$574.25
61441	Bone marrow study—whole body using technetium labelled bone marrow agents (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$489.70	Benefit: 75% = \$367.30 85% = \$416.25
61442	Whole body study, using gallium—with single photon emission tomography of 2 or more body regions acquired separately (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$752.35	Benefit: 75% = \$564.30 85% = \$653.65
61445	Bone marrow study—localised using technetium labelled agent (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$286.80	Benefit: 75% = \$215.10 85% = \$243.80
61446	Regional scintigraphic study, using an approved bone scanning agent, including when undertaken, blood flow imaging, blood pool imaging and repeat imaging on a separate occasion (R)	

I4. NUCLEAR MEDICINE IMAGING		1. NUCLEAR MEDICINE - NON PET
	<p>(a) The service is bulk billed;</p> <p>(b) The service is performed in conjunction with a service described in items 61438, 61461 or 61325.</p> <p>(See para IN.4.5 of explanatory notes to this Category)</p> <p>Fee: \$1,126.00 Benefit: 75% = \$844.50 85% = \$1027.30</p>	
61473	<p>Thyroid study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$175.40 Benefit: 75% = \$131.55 85% = \$149.10</p>	
61477	<p>Whole body or localised study using gallium, if all of the following apply:</p> <p>(a) the service is bulk-billed;</p> <p>(b) the service is performed in conjunction with a service described in items 61429, 61430, 61442, 61450 or 61453</p> <p>(See para IN.4.5 of explanatory notes to this Category)</p> <p>Fee: \$740.00 Benefit: 75% = \$555.00 85% = \$641.30</p>	
61480	<p>Parathyroid study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$386.85 Benefit: 75% = \$290.15 85% = \$328.85</p>	
61485	<p>Adrenal study, with single photon emission tomography (R)</p> <p>Fee: \$3,364.00 Benefit: 75% = \$2523.00 85% = \$3265.30</p>	
61495	<p>Tear duct study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$223.10 Benefit: 75% = \$167.35 85% = \$189.65</p>	
61499	<p>Particle perfusion study (infra arterial) or Le Vein shunt study (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$253.00 Benefit: 75% = \$189.75 85% = \$215.05</p>	
61650	<p>LeukoScan study of the long bones and feet for suspected osteomyelitis, if:</p> <p>(a) the patient does not have access to ex vivo white blood cell scanning; and</p> <p>(b) the patient is not being investigated for other sites of infection (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$878.70 Benefit: 75% = \$659.05 85% = \$780.00</p>	

I4. NUCLEAR MEDICINE IMAGING		2. PET
	Group I4. Nuclear Medicine Imaging	
	Subgroup 2. PET	
61333		

14. NUCLEAR MEDICINE IMAGING		2. PET
	<p>Lung ventilation study using Galligas and lung perfusion study using gallium-68 macro aggregated albumin (⁶⁸Ga-MAA), with PET, if the service is performed because the service to which item 61348 applies cannot be performed due to unavailability of technetium-99m (R)</p> <p>(See para IN.4.4 of explanatory notes to this Category) Fee: \$443.35 Benefit: 75% = \$332.55 85% = \$376.85</p>	
61336	<p>Cerebral study, with PET, if the service is performed because the service to which item 61402 applies cannot be performed due to unavailability of technetium-99m (R)</p> <p>(See para IN.4.4 of explanatory notes to this Category) Fee: \$605.05 Benefit: 75% = \$453.80 85% = \$514.30</p>	
61341	<p>Bone study – whole body with PET, with delayed imaging when undertaken, if the service is performed because the services to which item 61421 or 61425 apply cannot be performed due to unavailability of technetium-99m (R)</p> <p>(See para IN.4.4 of explanatory notes to this Category) Fee: \$600.70 Benefit: 75% = \$450.55 85% = \$510.60</p>	
61523	<p>Whole body FDG PET study, performed for evaluation of a solitary pulmonary nodule where the lesion is considered unsuitable for transthoracic fine needle aspiration biopsy, or for which an attempt at pathological characterisation has failed.(R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61524	<p>Whole body FDG PET study, performed for the staging of locally advanced (Stage III) breast cancer, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61525	<p>Whole body FDG PET study, performed for the evaluation of suspected metastatic or suspected locally or regionally recurrent breast carcinoma, for a patient who is considered suitable for active therapy (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61527	<p>Whole body study using PET, if the service is performed because the services to which items 61429, 61430, 61442, 61450 or 61453 apply cannot be performed due to unavailability of gallium-67 (R)</p> <p>(See para IN.4.4 of explanatory notes to this Category) Fee: \$752.35 Benefit: 75% = \$564.30 85% = \$653.65</p>	
61529	<p>Whole body FDG PET study, performed for the staging of proven non-small cell lung cancer, where curative surgery or radiotherapy is planned (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	

I4. NUCLEAR MEDICINE IMAGING		2. PET
61538	<p>FDG PET study of the brain for evaluation of suspected residual or recurrent malignant brain tumour based on anatomical imaging findings, after definitive therapy (or during ongoing chemotherapy) in patients who are considered suitable for further active therapy. (R)</p> <p>Fee: \$901.00 Benefit: 75% = \$675.75 85% = \$802.30</p>	
61541	<p>Whole body FDG PET study, following initial therapy, for the evaluation of suspected residual, metastatic or recurrent colorectal carcinoma in patients considered suitable for active therapy (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61553	<p>Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected metastatic or recurrent malignant melanoma in patients considered suitable for active therapy (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$900.30</p>	
61559	<p>FDG PET study of the brain, performed for the evaluation of refractory epilepsy which is being evaluated for surgery (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$918.00 Benefit: 75% = \$688.50 85% = \$819.30</p>	
61560	<p>FDG PET study of the brain, performed for the diagnosis of Alzheimer's disease, if:</p> <ul style="list-style-type: none"> a. clinical evaluation of the patient by a specialist, or in consultation with a specialist, is equivocal; and b. the service includes a quantitative comparison of the results of the study with the results of an FDG PET study of a normal brain from a reference database; and c. a service to which this item applies has not been performed on the patient in the previous 12 months; and d. a service to which item 61402 applies has not been performed on the patient in the previous 12 months for the diagnosis or management of Alzheimer's disease <p>Applicable not more than 3 times per lifetime (R)</p> <p>Fee: \$605.05 Benefit: 75% = \$453.80 85% = \$514.30</p>	
61563	<p>Whole body prostate-specific membrane antigen PET study performed for the initial staging of intermediate to high-risk prostate adenocarcinoma, for a previously untreated patient who is considered suitable for locoregional therapy with curative intent</p> <p>Applicable once per lifetime (R)</p> <p>(See para IN.0.17, IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$1,300.00 Benefit: 75% = \$975.00 85% = \$1201.30</p>	
61564	<p>Whole body prostate-specific membrane antigen PET study performed for the restaging of recurrent prostate adenocarcinoma, for a patient who:</p> <ul style="list-style-type: none"> (a) has undergone prior locoregional therapy; and (b) is considered suitable for further locoregional therapy to determine appropriate therapeutic pathways and timing of treatment initiation <p>Applicable twice per lifetime (R)</p> <p>(See para IN.0.17, IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$1,300.00 Benefit: 75% = \$975.00 85% = \$1201.30</p>	

I4. NUCLEAR MEDICINE IMAGING		2. PET
61565	Whole body FDG PET study, following initial therapy, performed for the evaluation of suspected residual, metastatic or recurrent ovarian carcinoma in patients considered suitable for active therapy. (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61571	Whole body FDG PET study, for the further primary staging of patients with histologically proven carcinoma of the uterine cervix, at FIGO stage IB2 or greater by conventional staging, prior to planned radical radiation therapy or combined modality therapy with curative intent. (R) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61575	Whole body FDG PET study, for the further staging of patients with confirmed local recurrence of carcinoma of the uterine cervix considered suitable for salvage pelvic chemoradiotherapy or pelvic exenteration with curative intent. (R) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61577	Whole body FDG PET study, performed for the staging of proven oesophageal or GEJ carcinoma, in patients considered suitable for active therapy (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61598	Whole body FDG PET study performed for the staging of biopsy-proven newly diagnosed or recurrent head and neck cancer (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61604	Whole body FDG PET study performed for the evaluation of patients with suspected residual head and neck cancer after definitive treatment, and who are suitable for active therapy (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61610	Whole body FDG PET study performed for the evaluation of metastatic squamous cell carcinoma of unknown primary site involving cervical nodes (R). Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61612	Whole body FDG PET study for the initial staging of eligible cancer types, for a patient who is considered suitable for active therapy, if: (a) the eligible cancer type is: (i) a rare or uncommon cancer (less than 12 cases per 100,000 persons per year); and (ii) a typically FDG-avid cancer; and (b) there is at least a 10% likelihood that the PET study result will inform a significant change in management for the patient Applicable once per cancer diagnosis (R) (See para IN.0.19, IN.0.17 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	
61620	Whole body FDG PET study for the initial staging of newly diagnosed or previously untreated Hodgkin or non-Hodgkin lymphoma (R) (See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	

I4. NUCLEAR MEDICINE IMAGING		2. PET
61622	<p>Whole body FDG PET study to assess response to first line therapy either during treatment or within three months of completing definitive first line treatment for Hodgkin or non-Hodgkin lymphoma (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61628	<p>Whole body FDG PET study for restaging following confirmation of recurrence of Hodgkin or non-Hodgkin lymphoma (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61632	<p>Whole body FDG PET study to assess response to second-line chemotherapy if haemopoietic stem cell transplantation is being considered for Hodgkin or non-Hodgkin lymphoma (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30</p>	
61640	<p>Whole body FDG PET study for initial staging of patients with biopsy-proven bone or soft tissue sarcoma (excluding gastrointestinal stromal tumour) considered by conventional staging to be potentially curable. (R)</p> <p>Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$900.30</p>	
61644	<p>Single rest myocardial perfusion study for the assessment of the extent and severity of non-viable myocardium, with PET, if:</p> <p>(a) the service is performed because the service to which item 61325 applies cannot be performed due to unavailability of thallous chloride 201 (Tl-201); and</p> <p>(b) the patient has left ventricular systolic dysfunction and probable or confirmed coronary artery disease; and</p> <p>(c) the service is performed in conjunction with a rest myocardial perfusion study using technetium-99m; and</p> <p>(d) the service is requested by a specialist or a consultant physician; and</p> <p>(e) the service is not associated with a service to which item 11704, 11705, 11707, 11714, 11729 or 11730 applies; and</p> <p>(f) this service and item 61325 are applicable only twice each 24 months (R)</p> <p>(See para IR.4.2 of explanatory notes to this Category)</p> <p>Fee: \$329.00 Benefit: 75% = \$246.75 85% = \$279.65</p>	
61646	<p>Whole body FDG PET study for the evaluation of patients with suspected residual or recurrent sarcoma (excluding gastrointestinal stromal tumour) after the initial course of definitive therapy to determine suitability for subsequent therapy with curative intent. (R)</p> <p>Fee: \$999.00 Benefit: 75% = \$749.25 85% = \$900.30</p>	
61647	<p>Whole body ⁶⁸Ga DOTA peptide PET study, if:</p> <p>(a) a gastro entero pancreatic neuroendocrine tumour is suspected on the basis of biochemical evidence with negative or equivocal conventional imaging; or</p> <p>(b) both:</p> <p>(i) a surgically amenable gastro entero pancreatic neuroendocrine tumour has been identified on the basis of conventional techniques; and</p> <p>(ii) the study is for excluding additional disease sites (R)</p>	

I4. NUCLEAR MEDICINE IMAGING	2. PET
(See para IN.0.19 of explanatory notes to this Category) Fee: \$953.00 Benefit: 75% = \$714.75 85% = \$854.30	

I4. NUCLEAR MEDICINE IMAGING	3. ADJUNCTIVE SERVICES
	Group I4. Nuclear Medicine Imaging
	Subgroup 3. Adjunctive services
	CT scan performed at the same time and covering the same body area as single photon emission tomography or positron emission tomography for the purpose of anatomic localisation or attenuation correction if no separate diagnostic CT report is issued and performed in association with a service to which an item in Subgroup 1 or 2 of Group I4 applies (R) (See para IN.0.19 of explanatory notes to this Category)
61505	Fee: \$100.00 Benefit: 75% = \$75.00 85% = \$85.00

I5. MAGNETIC RESONANCE IMAGING	1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Group I5. Magnetic Resonance Imaging
	Subgroup 1. Scan Of Head - For Specified Conditions
	MRI—scan of head (including MRA, if performed) for tumour of the brain or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)
63001	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55
	MRI—scan of head (including MRA, if performed) for inflammation of brain or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)
63004	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55
	MRI—scan of head (including MRA, if performed) for skull base or orbital tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)
63007	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55
	MRI—scan of head (including MRA, if performed) for stereotactic scan of brain, with fiducials in place, for the sole purpose of allowing planning for stereotactic neurosurgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)
63010	Fee: \$355.45 Benefit: 75% = \$266.60 85% = \$302.15
	MRI—scan of head (including MRA if performed) for the assessment of suitability for the treatment of medically refractory essential tremor with magnetic resonance imaging-guided focused ultrasound Applicable once per patient per lifetime (R) (Contrast) (Anaes.)
New 63019	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55
New 63020	MRI—scan of head (including MRA if performed) for the post-procedure assessment of the patient following magnetic resonance imaging-guided focused ultrasound for the treatment of medically refractory essential tremor

I5. MAGNETIC RESONANCE IMAGING		1. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Applicable once per patient per lifetime (R) (Contrast) (Anaes.)	
	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	

I5. MAGNETIC RESONANCE IMAGING		2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS
	Group I5. Magnetic Resonance Imaging	
	Subgroup 2. Scan Of Head - For Specified Conditions	
63040	MRI—scan of head (including MRA, if performed) for acoustic neuroma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$355.45 Benefit: 75% = \$266.60 85% = \$302.15	
63043	MRI—scan of head (including MRA, if performed) for pituitary tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30	
63046	MRI—scan of head (including MRA, if performed) for toxic or metabolic or ischaemic encephalopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63049	MRI—scan of head (including MRA, if performed) for demyelinating disease of the brain (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63052	MRI—scan of head (including MRA, if performed) for congenital malformation of the brain or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63055	MRI—scan of head (including MRA, if performed) for venous sinus thrombosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63058	MRI—scan of head (including MRA, if performed) for head trauma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63061	MRI—scan of head (including MRA, if performed) for epilepsy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63064	MRI—scan of head (including MRA, if performed) for stroke (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	

15. MAGNETIC RESONANCE IMAGING		2. SCAN OF HEAD - FOR SPECIFIED CONDITIONS	
63067	MRI—scan of head (including MRA, if performed) for carotid or vertebral artery dissection (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55		
63070	MRI—scan of head (including MRA, if performed) for intracranial aneurysm (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55		
63073	MRI—scan of head (including MRA, if performed) for intracranial arteriovenous malformation (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55		

15. MAGNETIC RESONANCE IMAGING		3. SCAN OF HEAD AND NECK VESSELS - FOR SPECIFIED CONDITIONS	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 3. Scan Of Head And Neck Vessels - For Specified Conditions		
63101	MRI and MRA of extracranial or intracranial circulation (or both)—scan of head and neck vessels for stroke (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15		

15. MAGNETIC RESONANCE IMAGING		4. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 4. Scan Of Head And Cervical Spine - For Specified Conditions		
63111	MRI—scan of head and cervical spine (including MRA, if performed) for tumour of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15		
63114	MRI—scan of head and cervical spine (including MRA, if performed) for inflammation of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15		

15. MAGNETIC RESONANCE IMAGING		5. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS	
	Group 15. Magnetic Resonance Imaging		
	Subgroup 5. Scan Of Head And Cervical Spine - For Specified Conditions		

5. SCAN OF HEAD AND CERVICAL SPINE - FOR SPECIFIED CONDITIONS	
I5. MAGNETIC RESONANCE IMAGING	
63125	<p>MRI—scan of head and cervical spine (including MRA, if performed) for demyelinating disease of the central nervous system (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15</p>
63128	<p>MRI—scan of head and cervical spine (including MRA, if performed) for congenital malformation of the central nervous system or meninges (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15</p>
63131	<p>MRI—scan of head and cervical spine (including MRA, if performed) for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15</p>

6. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR	
I5. MAGNETIC RESONANCE IMAGING	
Group I5. Magnetic Resonance Imaging	
Subgroup 6. Scan Of Spine - One Region Or Two Contiguous Regions - For Infection or Tumour	
63151	<p>MRI—scan of one region or 2 contiguous regions of the spine for infection (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63154	<p>MRI—scan of one region or 2 contiguous regions of the spine for tumour (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>

7. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR OTHER CONDITIONS	
I5. MAGNETIC RESONANCE IMAGING	
Group I5. Magnetic Resonance Imaging	
Subgroup 7. Scan Of Spine - One Region Or Two Contiguous Regions - For Other Conditions	
63161	<p>MRI—scan of one region or 2 contiguous regions of the spine for demyelinating disease (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63164	<p>MRI—scan of one region or 2 contiguous regions of the spine for congenital malformation of the spinal cord or the cauda equina or the meninges (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>

7. SCAN OF SPINE - ONE REGION OR TWO CONTIGUOUS REGIONS - FOR OTHER CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
63167	<p>MRI—scan of one region or 2 contiguous regions of the spine for myelopathy (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63170	<p>MRI—scan of one region or 2 contiguous regions of the spine for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63173	<p>MRI—scan of one region or 2 contiguous regions of the spine for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63176	<p>MRI—scan of one region or 2 contiguous regions of the spine for sciatica (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63179	<p>MRI—scan of one region or 2 contiguous regions of the spine for spinal canal stenosis (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63182	<p>MRI—scan of one region or 2 contiguous regions of the spine for previous spinal surgery (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63185	<p>MRI—scan of one region or 2 contiguous regions of the spine for trauma (R) (Anaes.) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>

8. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 8. Scan Of Spine - Three Contiguous Regions Or Two Non-Contiguous Regions - For Infection or Tumour
63201	<p>MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for infection (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85</p>
63204	<p>MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for tumour (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>

15. MAGNETIC RESONANCE IMAGING	8. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR INFECTION OR TUMOUR
	Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85

15. MAGNETIC RESONANCE IMAGING	9. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR OTHER CONDITIONS
	Group 15. Magnetic Resonance Imaging
	Subgroup 9. Scan Of Spine - Three Contiguous Regions Or Two Non-Contiguous Regions - For Other Conditions
63219	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for demyelinating disease (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63222	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for congenital malformation of the spinal cord or the cauda equina or the meninges (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63225	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for myelopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63228	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for syrinx (congenital or acquired) (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63231	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63234	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for sciatica (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63237	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for spinal canal stenosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63240	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for previous spinal surgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85
63243	MRI—scan of 3 contiguous or 2 non contiguous regions of the spine for trauma (R) (Anaes.) (Anaes.)

I5. MAGNETIC RESONANCE IMAGING	9. SCAN OF SPINE - THREE CONTIGUOUS REGIONS OR TWO NON-CONTIGUOUS REGIONS - FOR OTHER CONDITIONS
(See para IN.0.19 of explanatory notes to this Category)	
Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85	

I5. MAGNETIC RESONANCE IMAGING	10. SCAN OF CERVICAL SPINE AND BRACHIAL PLEXUS - FOR SPECIFIED CONDITIONS
Group I5. Magnetic Resonance Imaging	
Subgroup 10. Scan Of Cervical Spine And Brachial Plexus - For Specified Conditions	
63271	MRI—scan of cervical spine and brachial plexus for tumour (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15
63274	MRI—scan of cervical spine and brachial plexus for trauma (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15
63277	MRI—scan of cervical spine and brachial plexus for cervical radiculopathy (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15
63280	MRI—scan of cervical spine and brachial plexus for previous surgery (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15

I5. MAGNETIC RESONANCE IMAGING	11. SCAN OF MUSCULOSKELETAL SYSTEM - FOR TUMOUR, INFECTION OR OSTEONECROSIS
Group I5. Magnetic Resonance Imaging	
Subgroup 11. Scan Of Musculoskeletal System - For Tumour, Infection or Osteonecrosis	
63301	MRI—scan of musculoskeletal system for tumour arising in bone or musculoskeletal system, excluding tumours arising in breast, prostate or rectum (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$402.85 Benefit: 75% = \$302.15 85% = \$342.45
63304	MRI—scan of musculoskeletal system for infection arising in bone or musculoskeletal system, excluding infection arising in breast, prostate or rectum (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$402.85 Benefit: 75% = \$302.15 85% = \$342.45
63307	MRI—scan of musculoskeletal system for osteonecrosis (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$402.85 Benefit: 75% = \$302.15 85% = \$342.45

15. MAGNETIC RESONANCE IMAGING		12. SCAN OF MUSCULOSKELETAL SYSTEM - FOR JOINT DERANGEMENT
	Group 15. Magnetic Resonance Imaging	
	Subgroup 12. Scan Of Musculoskeletal System - For Joint Derangement	
63322	MRI—scan of musculoskeletal system for derangement of hip or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63325	MRI—scan of musculoskeletal system for derangement of shoulder or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63328	MRI—scan of musculoskeletal system for derangement of knee or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63331	MRI—scan of musculoskeletal system for derangement of ankle or foot (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
63334	MRI—scan of musculoskeletal system for derangement of one or both temporomandibular joints or their supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$355.45 Benefit: 75% = \$266.60 85% = \$302.15	
63337	MRI—scan of musculoskeletal system for derangement of wrist or hand (or both) or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85	
63340	MRI—scan of musculoskeletal system for derangement of elbow or its supporting structures (R) (Anaes.) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	

15. MAGNETIC RESONANCE IMAGING		13. SCAN OF MUSCULOSKELETAL SYSTEM - FOR GAUCHER DISEASE
	Group 15. Magnetic Resonance Imaging	
	Subgroup 13. Scan Of Musculoskeletal System - For Gaucher Disease	
63361	MRI—scan of musculoskeletal system for Gaucher disease (R) (Anaes.) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	

14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 14. Scan Of Cardiovascular System - For Specified Conditions
63385	<p>MRI—scan of cardiovascular system for congenital disease of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85</p>
63388	<p>MRI—scan of cardiovascular system for tumour of the heart or a great vessel (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85</p>
63391	<p>MRI—scan of cardiovascular system for abnormality of thoracic aorta (R) (Anaes.) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63395	<p>MRI—scan of cardiovascular system for assessment of myocardial structure and function involving:</p> <p>(a) dedicated right ventricular views; and</p> <p>(b) 3D volumetric assessment of the right ventricle; and</p> <p>(c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that:</p> <p>(d) the patient presented with symptoms consistent with arrhythmogenic right ventricular cardiomyopathy (ARVC); or</p> <p>(e) investigative findings in relation to the patient are consistent with ARVC</p> <p>(R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$904.70 Benefit: 75% = \$678.55 85% = \$806.00</p>
63397	<p>MRI—scan of cardiovascular system for assessment of myocardial structure and function involving:</p> <p>(a) dedicated right ventricular views; and</p> <p>(b) 3D volumetric assessment of the right ventricle; and</p> <p>(c) reporting of end diastolic and end systolic volumes, ejection fraction and BSA indexed values; if the request for the scan indicates that the patient:</p> <p>(d) is asymptomatic; and</p> <p>(e) has one or more first degree relatives diagnosed with confirmed arrhythmogenic right ventricular cardiomyopathy (ARVC)</p> <p>(R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$904.70 Benefit: 75% = \$678.55 85% = \$806.00</p>
63399	

15. MAGNETIC RESONANCE IMAGING		14. SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS
	<p>MRI—scan of cardiovascular system for the assessment of myocardial structure and function, if the service is requested by a consultant physician who has assessed the patient, and the request for the scan indicates:</p> <ul style="list-style-type: none"> a. the patient has suspected myocarditis after receiving a mRNA COVID-19 vaccine; and b. the patient had symptom onset within 21 days of a mRNA COVID-19 vaccine administration; and c. the results from the following examinations are inconclusive to form a diagnosis of myocarditis: <ul style="list-style-type: none"> (i) echocardiogram; and (ii) troponin; and (iii) chest X-ray. <p>Applicable not more than once in a patient’s lifetime (R) (Contrast) (Anaes.)</p> <p>(See para IN.5.3 of explanatory notes to this Category)</p> <p>Fee: \$904.70 Benefit: 75% = \$678.55 85% = \$806.00</p>	

15. MAGNETIC RESONANCE IMAGING		15. MAGNETIC RESONANCE ANGIOGRAPHY - SCAN OF CARDIOVASCULAR SYSTEM - FOR SPECIFIED CONDITIONS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 15. Magnetic Resonance Angiography - Scan Of Cardiovascular System - For Specified Conditions	
63401	<p>MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for vascular abnormality in a patient with a previous anaphylactic reaction to an iodinated contrast medium (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>	
63404	<p>MRA—if the request for the scan specifically identifies the clinical indication for the scan—scan of cardiovascular system for obstruction of the superior vena cava, inferior vena cava or a major pelvic vein (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>	

15. MAGNETIC RESONANCE IMAGING		16. MAGNETIC RESONANCE ANGIOGRAPHY - FOR SPECIFIED CONDITIONS - PERSON UNDER THE AGE OF 16 YEARS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 16. Magnetic Resonance Angiography - For Specified Conditions - Person Under The Age Of 16 Years	
63416	<p>MRA—scan of person under the age of 16 for the vasculature of limbs prior to limb or digit transfer surgery in congenital limb deficiency syndrome (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>	

17. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR PHYSEAL FUSION OR GAUCHER DISEASE	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 17. Magnetic Resonance Imaging - Person Under the Age of 16 Years - For Physeal Fusion or Gaucher Disease
63425	<p>MRI—scan of person under the age of 16 for post inflammatory or post traumatic physeal fusion (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63428	<p>MRI—scan of person under the age of 16 for Gaucher disease (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>

18. MAGNETIC RESONANCE IMAGING - PERSON UNDER THE AGE OF 16 YEARS - FOR OTHER CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 18. Magnetic Resonance Imaging - Person Under The Age Of 16 Years - For Other Conditions
63440	<p>MRI—scan of person under the age of 16 for pelvic or abdominal mass (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63443	<p>MRI—scan of person under the age of 16 for mediastinal mass (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63446	<p>MRI—scan of person under the age of 16 for congenital uterine or anorectal abnormality (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>

19. SCAN OF BODY - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	
	Group 15. Magnetic Resonance Imaging
	Subgroup 19. Scan Of Body - For Specified Conditions
63461	<p>MRI—scan of the body for adrenal mass in a patient with a malignancy that is otherwise resectable (R) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30</p>
63464	MRI scan of both breasts for the detection of cancer in a patient, if:

15. MAGNETIC RESONANCE IMAGING

19. SCAN OF BODY - FOR SPECIFIED CONDITIONS

	<p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient is asymptomatic and is younger than 60 years of age; and</p> <p>(c) the request for the scan identifies that the patient is at high risk of developing breast cancer due to one or more of the following:</p> <ul style="list-style-type: none"> (i) genetic testing has identified the presence of a high risk breast cancer gene mutation in the patient or in a first degree relative of the patient; (ii) both: <ul style="list-style-type: none"> (A) one of the patient’s first or second degree relatives was diagnosed with breast cancer at age 45 years or younger; and (B) another first or second degree relative on the same side of the patient’s family was diagnosed with bone or soft tissue sarcoma at age 45 years or younger; (iii) the patient has a personal history of breast cancer before the age of 50 years; (iv) the patient has a personal history of mantle radiation therapy; (v) the patient has a lifetime risk estimation greater than 30% or a 10 year absolute risk estimation greater than 5% using a clinically relevant risk evaluation algorithm; and <p>(d) the service is not performed in conjunction with item 55076 or 55079</p> <p>Applicable not more than once in a 12 month period (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19, IN.0.18 of explanatory notes to this Category) Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>
63467	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the person has had an abnormality detected as a result of a service mentioned in item 63464 performed in the previous 12 months (R)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>
63487	<p>MRI—scan of both breasts, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <ul style="list-style-type: none"> (i) the patient has been diagnosed with metastatic cancer restricted to the regional lymph nodes; and (ii) clinical examination and conventional imaging have failed to identify the primary cancer (R) <p>(Anaes.)</p> <p>Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>
63489	<p>MRI—scan of one breast, performed in conjunction with a biopsy procedure on that breast and an ultrasound scan of that breast, if:</p> <p>(a) the request for the MRI scan identifies that the patient has a suspicious lesion seen on MRI but not on conventional imaging; and</p>

15. MAGNETIC RESONANCE IMAGING	19. SCAN OF BODY - FOR SPECIFIED CONDITIONS
	<p>(b) the ultrasound scan is performed immediately before the MRI scan and confirms that the lesion is not amenable to biopsy guided by conventional imaging; and</p> <p>(c) a dedicated breast coil is used (R)</p> <p>(Anaes.)</p> <p>Fee: \$1,066.30 Benefit: 75% = \$799.75 85% = \$967.60</p>
63531	<p>MRI—scan of both breasts, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <p>(i) the patient has a breast lesion; and</p> <p>(ii) the results of conventional imaging are inconclusive for the presence of breast cancer; and</p> <p>(iii) biopsy has not been possible (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>
63533	<p>MRI—scan of both breasts, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <p>(i) the patient has been diagnosed with a breast cancer; and</p> <p>(ii) there is a discrepancy between the clinical assessment and the conventional imaging assessment of the extent of the malignancy; and</p> <p>(c) the results of breast MRI imaging may alter treatment planning (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>
63541	<p>Multiparametric MRI—scan of the prostate for the detection of cancer, requested by a specialist in the speciality of urology, radiation oncology or medical oncology:</p> <p>(a) if the request for the scan identifies that the patient is suspected of developing prostate cancer:</p> <p>(i) on the basis of a digital rectal examination; or</p> <p>(ii) in the circumstances mentioned in clause 2.5.9A; and</p> <p>(b) using a standardised image acquisition protocol involving:</p> <p>(i) T2-weighted imaging; and</p>

15. MAGNETIC RESONANCE IMAGING

19. SCAN OF BODY - FOR SPECIFIED CONDITIONS

	<p>(ii) diffusion-weighted imaging; and</p> <p>(iii) (unless contraindicated) dynamic contrast enhancement</p> <p>(R)</p> <p>Note: See explanatory note IN.5.1 for the meaning of Clause 2.5.9 in the descriptor for this item and the claiming limitations.</p> <p>(Anaes.)</p> <p>(See para IN.0.19, IN.5.1 of explanatory notes to this Category)</p> <p>Fee: \$476.00 Benefit: 75% = \$357.00 85% = \$404.60</p>
63543	<p>Multiparametric MRI—scan of the prostate for the assessment of cancer, requested by a specialist in the speciality of urology, radiation oncology or medical oncology:</p> <p>(a) if the request for the scan identifies that the patient:</p> <p>(i) is under active surveillance following a confirmed diagnosis of prostate cancer by biopsy histopathology; and</p> <p>(ii) is not undergoing, or planning to undergo, treatment for prostate cancer; and</p> <p>(b) using a standardised image acquisition protocol involving:</p> <p>(i) T2-weighted imaging; and</p> <p>(ii) diffusion-weighted imaging; and</p> <p>(iii) (unless contraindicated) dynamic contrast enhancement</p> <p>(R)</p> <p>Note: See explanatory note IN.5.2 for claiming restrictions for this item.</p> <p>(Anaes.)</p> <p>(See para IN.0.19, IN.5.2 of explanatory notes to this Category)</p> <p>Fee: \$476.00 Benefit: 75% = \$357.00 85% = \$404.60</p>
63547	<p>MRI—scan of both breasts for the detection of cancer, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that:</p> <p>(i) the patient has a breast implant in situ; and</p> <p>(ii) anaplastic large cell lymphoma has been diagnosed</p> <p>(R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$729.95 Benefit: 75% = \$547.50 85% = \$631.25</p>

15. MAGNETIC RESONANCE IMAGING		19. SCAN OF BODY - FOR SPECIFIED CONDITIONS
63564	<p>Note: the requirements for services provided under item 63564 are detailed under note IN.5.4</p> <p>MRI – whole body scan for the early detection of cancer:</p> <p>a) requested by a specialist or consultant physician in consultation with a clinical geneticist in a familial cancer or genetic clinic; and</p> <p>b) the request identifies that the patient has a high risk of developing cancer malignancy due to heritable TP53 - related cancer (hTP53rc) syndrome</p> <p>(R) (Anaes.)</p> <p>(See para IN.5.4 of explanatory notes to this Category)</p> <p>Fee: \$1,561.75 Benefit: 75% = \$1171.35 85% = \$1463.05</p>	

15. MAGNETIC RESONANCE IMAGING		20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS
Group 15. Magnetic Resonance Imaging		
Subgroup 20. Scans Of Pelvis And Upper Abdomen - For Specified Conditions		
63454	<p>MRI scan of the pelvis or abdomen, for a patient who is pregnant, if:</p> <p>(a) the pregnancy is at, or after, 18 weeks gestation; and</p> <p>(b) fetal abnormality is suspected; and</p> <p>(c) an ultrasound has been performed and is provided by, or on behalf of, or at the request of, a specialist who is practising in the specialty of obstetrics; and</p> <p>(d) the diagnosis of fetal abnormality as a result of the ultrasound is indeterminate or requires further examination; and</p> <p>(e) the MRI service is requested by a specialist practising in the specialty of obstetrics (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$1,269.40 Benefit: 75% = \$952.05 85% = \$1170.70</p>	
63470	<p>MRI—scan of the pelvis for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and</p> <p>(b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>	
63473	<p>MRI—scan of the pelvis and upper abdomen, in a single examination, for the staging of histologically diagnosed cervical cancer at FIGO stage 1B or greater, if the request for the scan identifies that:</p> <p>(a) a histological diagnosis of carcinoma of the cervix has been made; and</p>	

20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS	
15. MAGNETIC RESONANCE IMAGING	<p>(b) the patient has been diagnosed with cervical cancer at FIGO stage 1B or greater (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$663.50 Benefit: 75% = \$497.65 85% = \$564.80</p>
63476	<p>MRI—scan of the pelvis for the initial staging of rectal cancer, if:</p> <p>(a) a phased array body coil is used; and (b) the request for the scan identifies that the indication is for the initial staging of rectal cancer (including cancer of the rectosigmoid and anorectum) (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63549	<p>MRI scan of the pelvis or abdomen, for a patient with a multiple pregnancy, if:</p> <p>(a) the multiple pregnancy is at, or after, 18 weeks gestation; and (b) fetal abnormality is suspected; and (c) an ultrasound has been performed and is provided by, or on behalf of, or at the request of, a specialist who is practising in the specialty of obstetrics; and (d) the diagnosis of fetal abnormality as a result of the ultrasound is indeterminate or requires further examination; and (e) the MRI service is requested by a specialist practising in the specialty of obstetrics (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.18, IN.0.19 of explanatory notes to this Category) Fee: \$1,904.10 Benefit: 75% = \$1428.10 85% = \$1805.40</p>
63563	<p>MRI scan of the pelvis or abdomen, if the request for the scan identifies that the investigation is for:</p> <p>(a) sub-fertility that requires one or more of the following:</p> <p>(i) an investigation of suspected Mullerian duct anomaly seen in pelvic ultrasound or hysterosalpingogram; (ii) an assessment of uterine mass identified on pelvic ultrasound before consideration of surgery; (iii) an investigation of recurrent implantation failure in IVF (2 or more embryo transfer cycles without viable pregnancy); or</p> <p>(b) surgical planning of a patient with known or suspected deep endometriosis involving the bowel, bladder or ureter (or any combination of the bowel, bladder or ureter), where the results of pelvic ultrasound are inconclusive</p> <p>Applicable not more than once in a 2 year period (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19, IN.0.18 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
63740	<p>MRI—scan to evaluate small bowel Crohn's disease if the service is provided to a patient for:</p>

15. MAGNETIC RESONANCE IMAGING		20. SCANS OF PELVIS AND UPPER ABDOMEN - FOR SPECIFIED CONDITIONS
	(a) evaluation of disease extent at time of initial diagnosis of Crohn's disease; or (b) evaluation of exacerbation, or suspected complications, of known Crohn's disease; or (c) evaluation of known or suspected Crohn's disease in pregnancy; or (d) assessment of change to therapy in a patient with small bowel Crohn's disease (R) (Contrast)	
	Fee: \$483.60 Benefit: 75% = \$362.70 85% = \$411.10	
63741	MRI—scan with enteroclysis for Crohn's disease if the service is related to item 63740 (R)	
	Fee: \$280.60 Benefit: 75% = \$210.45 85% = \$238.55	
	MRI—scan for fistulising perianal Crohn's disease if the service is provided to a patient for: (a) evaluation of pelvic sepsis and fistulas associated with established or suspected Crohn's disease; or (b) assessment of change to therapy of pelvis sepsis and fistulas from Crohn's disease (R) (Contrast)	
63743	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	

15. MAGNETIC RESONANCE IMAGING		21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY
	Group 15. Magnetic Resonance Imaging	
	Subgroup 21. Scan Of Body - For Suspected Hepato-biliary or Pancreatic Pathology	
	MRI—scan of pancreas and biliary tree for suspected biliary or pancreatic pathology (R) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)	
63482	Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55	
	MRI - multiphase scans of liver (including delayed imaging, if performed) with a contrast agent, for characterisation, or staging where surgical resection or interventional techniques are under consideration, if: (a) the patient has a confirmed extra-hepatic primary malignancy (other than hepatocellular carcinoma); and (b) computed tomography is negative or inconclusive for hepatic metastatic disease; and (c) the identification of liver metastases would change the patient's treatment planning Applicable not more than once in a 12 month period (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category)	
63545	Fee: \$581.80 Benefit: 75% = \$436.35 85% = \$494.55	

15. MAGNETIC RESONANCE IMAGING		21. SCAN OF BODY - FOR SUSPECTED HEPATO-BILIARY OR PANCREATIC PATHOLOGY
63546	<p>MRI – multiphase scans of the liver (including delayed imaging, if performed) with a contrast agent, for diagnosis or staging, if:</p> <p>(a) the patient has: (i) known or suspected hepatocellular carcinoma; and (ii) chronic liver disease that has been confirmed by a specialist or consultant physician; and (b) the patient’s liver function has been identified as Child Pugh class A or B; and (c) the patient has an identified hepatic lesion over 10 mm in diameter. For any particular patient—applicable not more than once in a 12 month period (R) (Contrast)</p> <p>(Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$581.80 Benefit: 75% = \$436.35 85% = \$494.55</p>	

15. MAGNETIC RESONANCE IMAGING		22. MODIFYING ITEMS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 22. Modifying Items	
63491	<p>NOTE: Benefits in Subgroup 22 are only payable for modifying items where claimed simultaneously with MRI services. Modifiers for sedation and anaesthesia may not be claimed for the same service.</p> <p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and (b) the item for the service includes in its description ‘(Contrast)’; and (c) the service is performed using a contrast agent</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$47.40 Benefit: 75% = \$35.55 85% = \$40.30</p>	
63494	<p>MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if:</p> <p>(a) the service is performed on a person in accordance with clause 2.5.1; and (b) the service is performed using intravenous or intra muscular sedation</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$47.40 Benefit: 75% = \$35.55 85% = \$40.30</p>	
63496	<p>NOTE: Benefits in Subgroup 22 are only payable for modifying items where claimed simultaneously with MRI services. Modifiers for sedation and anaesthesia may not be claimed for the same service.</p> <p>MRI service to which item 63545 or 63546 applies if:</p> <p>(a) the service is performed on a person under the supervision of an eligible provider; and</p>	

15. MAGNETIC RESONANCE IMAGING		22. MODIFYING ITEMS
	(b) the service is performed using an hepatobiliary specific contrast agent (See para IN.0.19 of explanatory notes to this Category) Fee: \$264.45 Benefit: 75% = \$198.35 85% = \$224.80	
	MRI or MRA service to which an item in this Group (other than an item in this Subgroup) applies if: (a) the service is performed on a person in accordance with clause 2.5.1; and (b) the service is performed under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic (See para IN.0.19 of explanatory notes to this Category)	
63497	Fee: \$165.90 Benefit: 75% = \$124.45 85% = \$141.05	
	MRI service to which item 63501, 63502, 63504 or 63505 applies, if the service is performed on a person using intravenous or intra muscular sedation (See para IN.0.19 of explanatory notes to this Category)	
63498	Fee: \$47.40 Benefit: 75% = \$35.55 85% = \$40.30	
	MRI service to which item 63501, 63502, 63504 or 63505 applies, if the service is performed on a person under anaesthetic in the presence of a medical practitioner who is qualified to perform an anaesthetic (See para IN.0.19 of explanatory notes to this Category)	
63499	Fee: \$165.90 Benefit: 75% = \$124.45 85% = \$141.05	

15. MAGNETIC RESONANCE IMAGING		32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT
	Group 15. Magnetic Resonance Imaging	
	Subgroup 32. Magnetic Resonance Imaging - Pip Breast Implant	
	MRI—scan of one or both breasts for the evaluation of implant integrity, if: (a) a dedicated breast coil is used; and (b) the request for the scan identifies that the patient: (i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and (ii) the result of the scan confirms a loss of integrity of the implant (R) (See para IN.0.19 of explanatory notes to this Category)	
63501	Fee: \$528.95 Benefit: 75% = \$396.75 85% = \$449.65	
	MRI—scan of one or both breasts for the evaluation of implant integrity, if: (a) a dedicated breast coil is used; and (b) the request for the scan identifies that the patient:	
63502		

15. MAGNETIC RESONANCE IMAGING		32. MAGNETIC RESONANCE IMAGING - PIP BREAST IMPLANT
	<p>(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p>(ii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$528.95 Benefit: 75% = \$396.75 85% = \$449.65</p>	
63504	<p>MRI—scan of one or both breasts for the evaluation of implant integrity, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p style="padding-left: 40px;">(ii) presents with symptoms where implant rupture is suspected; and</p> <p style="padding-left: 40px;">(iii) the result of the scan confirms a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$528.95 Benefit: 75% = \$396.75 85% = \$449.65</p>	
63505	<p>MRI—scan of one or both breasts for the evaluation of implant integrity, if:</p> <p>(a) a dedicated breast coil is used; and</p> <p>(b) the request for the scan identifies that the patient:</p> <p style="padding-left: 40px;">(i) has or is suspected of having a silicone breast implant manufactured by Poly Implant Prosthese (PIP); and</p> <p style="padding-left: 40px;">(ii) presents with symptoms where implant rupture is suspected; and</p> <p style="padding-left: 40px;">(iii) the result of the scan does not demonstrate a loss of integrity of the implant (R)</p> <p>(See para IN.0.19 of explanatory notes to this Category) Fee: \$528.95 Benefit: 75% = \$396.75 85% = \$449.65</p>	
15. MAGNETIC RESONANCE IMAGING		33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS
	Group 15. Magnetic Resonance Imaging	
	Subgroup 33. Scan of Body - Person Under the Age of 16 Years - General Practice Requests	
63507	<p>MRI—scan of head for a patient under 16 years if the service is for:</p> <p>(a) an unexplained seizure; or</p> <p>(b) an unexplained headache if significant pathology is suspected; or</p> <p>(c) paranasal sinus pathology that has not responded to conservative therapy (R) (Contrast) (Anaes.)</p> <p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>	

33. SCAN OF BODY - PERSON UNDER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS

I5. MAGNETIC RESONANCE IMAGING

	<p>MRI—scan of spine following radiographic examination for a patient under 16 years if the service is for:</p> <p>(a) significant trauma; or (b) unexplained neck or back pain with associated neurological signs; or (c) unexplained back pain if significant pathology is suspected (R) (Contrast)</p> <p>(Anaes.)</p>
63510	<p>Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85</p>
	<p>MRI—scan of knee for internal joint derangement for a patient under 16 years (R) (Contrast) (Anaes.)</p> <p>(See para IN.0.19 of explanatory notes to this Category)</p>
63513	<p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
	<p>MRI—scan of hip following radiographic examination for a patient under 16 years if any of the following is suspected:</p> <p>(a) septic arthritis; (b) slipped capital femoral epiphysis; (c) Perthes disease (R) (Contrast)</p> <p>(Anaes.)</p>
63516	<p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
	<p>MRI—scan of elbow following radiographic examination for a patient under 16 years if a significant fracture or avulsion injury, which would change the way in which the patient is managed, is suspected (R) (Contrast) (Anaes.)</p>
63519	<p>Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55</p>
	<p>MRI—scan of wrist following radiographic examination for a patient under 16 years if a scaphoid fracture is suspected (R) (Contrast)</p> <p>(Anaes.)</p>
63522	<p>Fee: \$473.90 Benefit: 75% = \$355.45 85% = \$402.85</p>

34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS

I5. MAGNETIC RESONANCE IMAGING

	Group I5. Magnetic Resonance Imaging
	Subgroup 34. Scan of Body - Person Over the Age of 16 Years - General Practice Requests
	<p>MRI - scan of head for a patient 16 years or older, after a request by a medical practitioner (other than a specialist or consultant physician), for any of the following:</p> <p>(a) unexplained seizure(s); (b) unexplained chronic headache with suspected intracranial pathology (R) (Contrast)</p>
63551	

34. SCAN OF BODY - PERSON OVER THE AGE OF 16 YEARS - GENERAL PRACTICE REQUESTS

I5. MAGNETIC RESONANCE IMAGING

	(Anaes.) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55
63554	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical radiculopathy (R) (Contrast) (Anaes.) Fee: \$379.15 Benefit: 75% = \$284.40 85% = \$322.30
63557	MRI - scan of spine for a patient 16 years or older, after referral by a medical practitioner (other than a specialist or consultant physician), for suspected cervical spinal trauma (R) (Contrast) (Anaes.) Fee: \$521.35 Benefit: 75% = \$391.05 85% = \$443.15
63560	MRI - scan of knee following acute knee trauma, after referral by a medical practitioner (other than a specialist or consultant physician), for a patient 16 to 49 years with: (a) inability to extend the knee suggesting the possibility of acute meniscal tear; or (b) clinical findings suggesting acute anterior cruciate ligament tear (R) (Contrast) (Anaes.) (See para IN.0.19 of explanatory notes to this Category) Fee: \$426.50 Benefit: 75% = \$319.90 85% = \$362.55

I6. MANAGEMENT OF BULK-BILLED SERVICES

	Group I6. Management Of Bulk-Billed Services
64990	A diagnostic imaging service to which an item in this table (other than this item or item 64991, 64992, 64993, 64994 or 64995) applies if: (a) the service is an unreferral service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: (i) this item; and (ii) the other item in this table applying to the service (See para IN.0.19, IN.0.20 of explanatory notes to this Category) Fee: \$7.60 Benefit: 85% = \$6.50
64991	A diagnostic imaging service to which an item in this table (other than this item or item 64990, 64992, 64993, 64994 or 64995) applies if: (a) the service is an unreferral service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and

16. MANAGEMENT OF BULK-BILLED SERVICES

	<p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p style="padding-left: 20px;">(i) this item; and</p> <p style="padding-left: 20px;">(ii) the other item in this table applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location in a Modified Monash 2 area</p> <p>(See para IN.0.19, IN.0.20 of explanatory notes to this Category) Fee: \$11.50 Benefit: 85% = \$9.80</p>
64992	<p>A diagnostic imaging service to which an item in this table (other than this item or item 64990, 64991, 64993, 64994 or 64995) applies if:</p> <p>(a) the service is an unREFERRED service; and</p> <p>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</p> <p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p style="padding-left: 20px;">(i) this item; and</p> <p style="padding-left: 20px;">(ii) the other item in this Schedule applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location in:</p> <p style="padding-left: 20px;">(i) a Modified Monash 3 area; or</p> <p style="padding-left: 20px;">(ii) a Modified Monash 4 area</p> <p>(See para IN.0.20 of explanatory notes to this Category) Fee: \$12.20 Benefit: 85% = \$10.40</p>
64993	<p>A diagnostic imaging service to which an item in this table (other than this item or item 64990, 64991, 64992, 64994 or 64995) applies if:</p> <p>(a) the service is an unREFERRED service; and</p> <p>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</p> <p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p style="padding-left: 20px;">(i) this item; and</p>

I6. MANAGEMENT OF BULK-BILLED SERVICES

	<p>(ii) the other item in this Schedule applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location in a Modified Monash 5 area</p> <p>(See para IN.0.20 of explanatory notes to this Category) Fee: \$12.95 Benefit: 85% = \$11.05</p>
64994	<p>A diagnostic imaging service to which an item in this table (other than this item or item 64990, 64991, 64992, 64993 or 64995) applies if:</p> <p>(a) the service is an unREFERRED service; and</p> <p>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</p> <p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p>(i) this item; and</p> <p>(ii) the other item in this Schedule applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location in a Modified Monash 6 area</p> <p>(See para IN.0.20 of explanatory notes to this Category) Fee: \$13.75 Benefit: 85% = \$11.70</p>
64995	<p>A diagnostic imaging service to which an item in this table (other than this item or item 64990, 64991, 64992, 64993 or 64994) applies if:</p> <p>(a) the service is an unREFERRED service; and</p> <p>(b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and</p> <p>(c) the person is not an admitted patient of a hospital; and</p> <p>(d) the service is bulk-billed in respect of the fees for:</p> <p>(i) this item; and</p> <p>(ii) the other item in this Schedule applying to the service; and</p> <p>(e) the service is provided at, or from, a practice location in a Modified Monash 7 area</p> <p>(See para IN.0.20 of explanatory notes to this Category) Fee: \$15.05 Benefit: 85% = \$12.80</p>

CATEGORY 6: PATHOLOGY SERVICES

SUMMARY OF CHANGES FROM 01/03/2024

The 01/03/2024 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

- | | |
|-------------------------|-------|
| (a) new item | New |
| (b) amended description | Amend |
| (c) fee amended | Fee |
| (d) item number changed | Renum |
| (e) EMSN changed | EMSN |

There are no changes to this Category for 01/03/2024

PATHOLOGY SERVICES NOTES

PN.0.1 Changes to the Pathology Services Table Health Insurance Regulations

The *Health Insurance Act 1973* allows the Minister for Health to determine an appropriate Pathology Services Table which is then prescribed by Regulation.

Pathology submissions relating to new medical services and technologies should be submitted to the Medical Services Advisory Committee (MSAC). MSAC has been established to advise the Minister on the strength of evidence pertaining to new and emerging medical technologies and procedures in relation to their safety, effectiveness and cost effectiveness, and under what circumstances public funding should be supported. Details of how to submit an application to MSAC and guidelines for applying can be found on MSAC's website - www.msac.gov.au.

PN.0.2 Explanatory Notes - Definitions Excessive Pathology Service

This means a pathology service for which a Medicare benefit has become or may become payable and which is not reasonably necessary for the adequate medical or dental care of the patient concerned.

PN.0.3 Group of Practitioners

This means:

- (i) a practitioner conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice together with another practitioner, or other practitioners, participating (whether as employees or otherwise) in the provision of professional services as part of that practice; or
- (ii) two or more practitioners conducting a medical practice or a dental practice, or a participating nurse practitioner practice, or a participating midwife practice as partners; or
- (iii) those partners together with any other practitioner who participates (whether as an employee or otherwise) in the provision of professional services as part of that practice.

PN.0.4 Initiate

In relation to a pathology service this means to request the provision of pathology services for a patient.

PN.0.5 Patient Episode

A patient episode comprises a pathology service or services specified in one or more items which are provided for a single patient, the need for which was determined under subsection 16A(1) of the Act on the same day, whether they were provided by one or more approved pathology practitioners on one day or over several days and whether they are requested by one or more treating practitioners. Even if a treating practitioner writes separate request forms to cover the collection of specimens at different times, where the decision to collect the multiple specimens was made at the same time, the multiple tests are deemed to belong to the same patient episode. In addition, if more than one request is made, on the same or different days, for tests on the same specimen within 14 days, they are part of the same patient episode.

Rule 4 of the Pathology Services Table provides an exemption to the above and enables services requested on one day which are performed under strictly limited circumstances for seriously or chronically ill patients with certain specified conditions to each be classified as a patient episode. See PN.0.33 and PN.1.2 for further information on exemptions.

Rule 14.(8) also provides that only a single patient episode initiation fee will be payable for all the specimens collected on one day from one patient in or by one Approved Pathology Authority.

PN.0.7 Personal Supervision

This means that an Approved Pathology Practitioner will, to the fullest extent possible, be responsible for exercising an acceptable level of control over the rendering of pathology services. See PN.13.1, PN.13.2 and PN.13.3 for a full description of the responsibilities involved in personal supervision.

PN.0.8 Prescribed Pathology Service

These are simple basic pathology services which are included in Group P9 and may be performed by a medical practitioner in the practitioner's surgery without the need to obtain Approved Pathology Authority, Approved Pathology Practitioner or Accredited Pathology Laboratory status.

PN.0.9 Proprietor of a Laboratory

This means in relation to a pathology laboratory the person, authority or body of persons having effective control of:

- (i) the laboratory premises, whether or not the holder of an estate or interest in the premises;
- (ii) the use of equipment used in the laboratory; and
- (iii) the employment of staff in the laboratory.

PN.0.10 Specialist Pathologist

This means a medical practitioner recognised for the purposes of the *Health Insurance Act 1973* as a specialist in pathology (see GN.5.14). The principal specialty of pathology includes a number of sectional specialties. Accordingly, a medical practitioner who is recognised as a specialist in a sectional specialty of pathology is recognised as a specialist pathologist for this purpose.

PN.0.11 Designated Pathology Service

This means a pathology service specified in items 65150, 65175 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some but not all the estimations in a coned item and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the rest, the service provided by the second practitioner is deemed to be the "designated pathology service". Thus the first practitioner claims under the appropriate item for the services which he/she provides while the second practitioner claims one of items 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165. Where one Approved Pathology Practitioner in an Approved Pathology Authority has performed some, but not all estimations and has requested another Approved Pathology Practitioner in another Approved Pathology Authority to do the remainder, the first Approved Pathology Practitioner can raise a "patient episode initiation fee". The second Approved Pathology Practitioner who receives the specimen can raise a "specimen referred fee".

PN.0.12 Interpretation of The Schedule - Items Referring to 'The Detection Of'

Items that contain the term 'detection of' should be taken to mean 'testing for the presence of'.

PN.0.13 Blood Grouping - (Item 65096)

Where a request includes 'Group and Hold' or 'Group and Save', the appropriate item is 65096.

PN.0.14 Glycosylated Haemoglobin - (Item 66551)

The requirement of "established diabetes" in this item may be satisfied by:

- (a) a statement of the diagnosis by the ordering practitioner on the current request form or on a previous request form held in the database of the Approved Pathology Authority; or

(b) two or more blood glucose levels that are in the diabetic range and is contained in the database of the Approved Pathology Authority; or

(c) an oral glucose tolerance test result that is in the diabetic range and is contained in the database of the Approved Pathology Authority.

PN.0.15 Iron Studies - (Item 66596)

Where a request includes 'Iron Studies', 'IS', 'Fe', '% saturation' or 'Iron', the relevant item is 66596.

PN.0.17 Antibiotics/Antimicrobial Chemotherapeutic Agents

A test for the quantitation of antibiotics/antimicrobial chemotherapeutic agents is claimable under item 66800 or 66812 - 'quantitation of a drug being used therapeutically'.

PN.0.18 Human Immunodeficiency Virus (HIV) Diagnostic Tests - (Included in Items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413 and 69415)

Prior to ordering an HIV diagnostics tests (included in items 69384, 69387, 69390, 69393, 69396, 69405, 69408, 69411, 69413, 69415) the ordering practitioner should ensure that the patient has given informed consent. Appropriate discussion should be provided to the patient. Further discussion may be necessary upon receipt of the test results.

PN.0.19 Hepatitis - (Item 69481)

Benefits for item 69481 are payable only if the request from the ordering practitioner indicates in writing that the patient is suspected of suffering from acute or chronic hepatitis; either by the use of the provisional diagnosis of hepatitis or by relevant clinical or laboratory information eg "hepatomegaly", "jaundice" or "abnormal liver function tests".

PN.0.20 Eosinophil Cationic Protein - (Item 71095)

Item 71095 applies to children aged less than 12 years who cannot be reliably monitored by spirometry or flowmeter readings.

PN.0.21 Tissue Pathology and Cytology - (Items 72813 to 73061)

When services described in Group P5 need to be performed upon material which is submitted for cytology items listed in Group P6 only the fee for the P6 item can be claimed.

PN.0.22 Cervical and Vaginal Screening - (Items 73070 to 73076)

It is the responsibility of the treating healthcare practitioner to determine if the sample is being collected as part of the routine screening program under 73070 or 73071 or represents a sample falling under 73072 or 73074 or 73075 or 73076, and to indicate this on the request form. Unless a co-test is specifically requested, requiring the pathology laboratory to perform both a human papillomavirus (HPV) test and a liquid based cytology (LBC) test on the same specimen, for a clinician-collected sample, the pathology laboratory will by default perform an HPV test and then only undertake reflex LBC testing if oncogenic HPV (any type) is detected. The pathology laboratory will issue the HPV test result, the LBC test result and overall screening risk rating as a combined report as prescribed by the National Pathology Accreditation Advisory Council (NPAAC) Requirements for Laboratories reporting tests for the National Cervical Screening Program (NPAAC Requirements).

The test used for detecting oncogenic HPV must allow partial HPV genotyping to identify HPV16, HPV18 with or without HPV45 as well as meet the criteria for a population based screening test as prescribed by the NPAAC Requirements.

When used together, the self-collection device and the HPV test must meet the NPAAC Requirements, including the HPV test must be a polymerase chain reaction (PCR) test.

73070 applies to an HPV test on a cervical specimen for primary screening purposes and collected by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner). 73071 applies to HPV tests for primary screening purposes requested by a healthcare practitioner (or an accredited test provider under the supervision of a healthcare practitioner) on a self-collected vaginal specimen. Tests for both 73070 and 73071 must be from an asymptomatic patient as part of routine five yearly screening recommended by the National Cervical Screening Program. The *Health Insurance Act 1973* excludes payment of Medicare Benefits for health screening services except where Ministerial directions have been issued to enable benefits to be paid, this includes HPV testing that is performed in accordance with the policy of the National Cervical Screening Program (available at <https://www.health.gov.au/initiatives-and-programs/national-cervical-screening-program>). This policy provides for a screening interval of five years for an asymptomatic patient commencing at 24 years and 9 months of age and for a patient aged between 70 to 74 years of age to cease cervical screening if the last test result is normal (i.e. low risk). A patient aged 75 years of age or older who has never had a cervical screening test or has not had one in the previous five years, may request a cervical screening test and be screened.

In accordance with the national policy for the National Cervical Screening Program, where oncogenic HPV (any type) is detected from a sample collected by a healthcare practitioner (73070), the pathology laboratory will conduct reflex LBC automatically under 73076 (a) without requiring an additional request by the treating healthcare professional. Where oncogenic HPV (non 16/18) is detected from a self-collected vaginal sample (73071), the participant will need to return to their healthcare practitioner for the collection of a cervical sample for LBC. The healthcare practitioner collected liquid based sample from the cervix that follows, can be claimed under 73076 (a) with a further request by the treating healthcare practitioner.

73072 applies to HPV tests where the specimen has been collected in accordance with the National Cervical Screening Program: Guidelines for the Management of Screen Detected Abnormalities, Screening in Specific Populations and Investigation of Abnormal Vaginal Bleeding (NCSP Clinical Guidelines) which provides for:

- (a) an HPV test performed on a patient within a specific population suggestive of a higher risk of pre cancerous or cancerous cervical changes. HPV tests carried out in specific populations under Item 73072 should be in accordance with the NCSP Clinical Guidelines including:
 - (i) screening with a primary HPV test every 3 years for an immune-deficient patient; or
 - (ii) a single HPV test between 20 and 24 years of age could be considered by healthcare practitioners on a case by case basis for a patient who experienced first sexual activity at a young age (less than 14 years of age) and who has not received the HPV vaccine before sexual debut; or
- (b) an HPV test performed for the follow up management of previously detected oncogenic HPV infection; or
- (c) a co-test (HPV+LBC) for the investigation of symptoms of cervical cancer, most commonly abnormal vaginal bleeding; or
- (d) co-test (HPV+LBC) for the management of a patient following treatment of high grade squamous intraepithelial lesions (HSIL) of the cervix as part of a 'test of cure' process performed at 12 months after treatment and annually thereafter, until receiving a negative co-test on two separate consecutive occasions, then the patient can return to routine five yearly screening. In accordance with the NCSP Clinical Guidelines this also applies to a patient undergoing follow up or post-treatment for a glandular abnormality as part of annual surveillance performed indefinitely; or
- (e) a co-test (HPV+LBC) for the follow up management of glandular abnormalities; or
- (f) a co-test (HPV+LBC) for screening a patient exposed to diethylstilbestrol (DES) in utero and daughters of patients exposed to DES in utero, if requested; or
- (g) a co-test (HPV+LBC) for a patient previously treated for a genital tract malignancy.

A co-test requires both HPV and LBC tests to be performed irrespective of the HPV test result and so must be performed on a clinician collected cervical sample. In other HPV tests, LBC is only required if oncogenic HPV (any

type) is detected; where oncogenic HPV (any type) has been detected in a liquid based sample from the cervix by a healthcare professional, the pathology laboratory will conduct LBC automatically without requiring an additional request. It is the intention of the National Cervical Screening Program where a co-test is requested or oncogenic HPV has previously been detected under this item, the LBC can be claimed under 73076 without requiring an additional request by the treating healthcare professional.

73074 applies to an HPV test on a vaginal vault specimen from a patient with past history of total hysterectomy, in accordance with the NCSP Clinical Guidelines which provides for:

- (a) an HPV test for a patient who has no evidence of cervical pathology and the patient's screening history is not available, performed at 12 months following a total hysterectomy and annually thereafter until a patient has two negative HPV tests (i.e. oncogenic HPV not detected) on two separate consecutive occasions and can be advised that no further testing is required; or
- (b) a co-test (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months following a total hysterectomy and annually thereafter until two consecutive co-tests are negative:
 - (i) if unexpected LSIL or HSIL is identified in the cervix at the time of total hysterectomy after completed 'test of cure' process; or
 - (ii) if the total hysterectomy was for treatment of high-grade cervical intraepithelial neoplasia in the presence of benign gynaecological disease; or
 - (iii) if the total hysterectomy was after histologically confirmed HSIL without Test of Cure and there is no cervical pathology; or
- (c) indefinite co-testing (HPV+LBC) for a patient who has had a total hysterectomy, performed at 12 months after treatment and annually thereafter if the total hysterectomy was after adenocarcinoma in situ (AIS).

73075 applies to HPV tests repeated due to an unsatisfactory HPV test under 73070 or 73071 or 73072 or 73074.

73076 applies to a liquid-based cytology (LBC) test on a cervical or vaginal vault specimen:

- (a) as part of a reflex test following detection of oncogenic HPV described in the national policy and NCSP Clinical Guidelines associated with items 73070 or 73071 or 73072 (a) or (b) or 73074 or 73075; or
- (b) as part of a co-test described in the national policy and NCSP Clinical Guidelines under 73072 (c) or (d) or (e) or (f) or 73074; or
- (c) where the previous specimen collected is unsatisfactory; or
- (d) for the follow up management of a patient with a past history of total hysterectomy for endometrial adenocarcinoma.

PN.0.23 Informed consent and genetic counselling for genetic tests

Items 73297, 73300, 73305, 73334, 73339, 73340, 73393, 73394, 73417, 73418, 73440, 73441, 73442, 73443, and 73444

Prior to ordering these tests the ordering practitioner should ensure the patient (or approximate proxy) has given written informed consent. Testing should only be performed after genetic counselling. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral. Further counselling may be necessary upon receipt of the test results.

Items 73295, 73296, 73304, 73333, 73392, 73395, 73416 and 73419

Patients who are found to have any form of affected allele should be referred for post-test genetic counselling as there may be implications for other family members. Appropriate genetic counselling should be provided to the patient either by the specialist treating practitioner, a genetic counselling service or a clinical geneticist on referral.

PN.0.24 Additional Bulk Billing Payment for Pathology Services

Additional Bulk Billing Payment for Pathology Services - (Item 74990, 74991, 75861, 75862, 75863 and 75864)

The Additional Bulk Billing Payment for Pathology Services operates in the same way as the equivalent items for unREFERRED medical services (see note MN.1.1), apart from the following differences:

- Item 74990 and 74991 can only be used in conjunction with items in the Pathology Services Table of the MBS
- Item 74990 and 74991 applies to unREFERRED pathology services performed by a medical practitioner which are included in Group P9 of the Pathology Services Table, and unREFERRED pathology services provided by category M laboratories
- Item 74990 and item 74991 applies to pathology services self determined by general practitioners and specialists with dual qualifications acting in their capacity as general practitioners.

Specialists and consultant physicians who provide pathology services are not able to claim the Additional Bulk Billing Payment unless, for the purposes of the *Health Insurance Act 1973*, the medical practitioner is also a general practitioner and the service provided by the medical practitioner has not been referred to that practitioner by another medical practitioner or person with referring rights.

The pathology rules (see note PN.0.33) have been amended to exclude the Additional Bulk Billing Payment items from the Multiple Services Rule and the Coning Rule.

Item 74991 can only be used where the service is provided at, or from, a practice location that is in a MMM 2 area under the Modified Monash Model classification system

Item 75861 can only be used where the service is provided at, or from, a practice location that is in a MMM 3 or 4 area under the Modified Monash Model classification system

Item 75862 can only be used where the service is provided at, or from, a practice location that is in a MMM 5 area under the Modified Monash Model classification system

Item 75863 can only be used where the service is provided at, or from, a practice location that is in a MMM 6 area under the Modified Monash Model classification system

Item 75864 can only be used where the service is provided at, or from, a practice location that is in an MMM 7 area under the Modified Monash Model classification system.

PN.0.25 Transfer of Existing Items from Group P1 (Haematology) to Group P7 Genetics Effective 1 May 2006.

PN.0.25 has been created to note the transfer of existing items from Group P1 (Haematology) items 65168, 65174, 65200 and item 66794 from Group P2 (Chemistry) to Group P7 (Genetics) as items 73308, 73311, 73314, 73317 and the introduction of the new item in Group P7 (Genetics) item 73320 HLA-B27 typing by nucleic acid amplification (NAA) which was effective as of 1 May 2006.

PN.0.26 RAS gene mutation status (Item 73338)

Item 73338 provides for testing of RAS mutations to limit subsidy of anti-EGFR antibodies to only those patients demonstrated to have no RAS mutations.

For a Medicare benefit to be payable, the test must be conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3 and 4, or until a RAS mutation is found.

Enabling the requirements of the item descriptor to be met once any RAS mutation is found means that once the test indicates that the patient is not RAS wild-type and therefore not suitable for access to cetuximab and panitumumab under the PBS, a pathologist is not required to continue testing for other clinically relevant mutations.

PN.0.27 Germline gene mutation tests (Items 73416 and 73392)
Genomic testing methods for future re-analysis

Items 73416 and 73392

The rapidly expanding field of genomic medicine has resulted in recognition of an increasing number of genetic causes of cardiac diseases. Use of genomic testing methods that permit reanalysis of existing data for variants in newly described clinically relevant genes are recommended/encouraged.

PN.0.28 Abbreviations, Groups of Tests

As stated at PN.3.2, details that must be recorded on accounts, receipts or assignment forms of an Approved Pathology Practitioner/Authority include a description of the pathology service that is of sufficient detail to identify the specific service rendered. The lists of abbreviations for group tests are contained in PN.0.31. The abbreviations are provided to allow users to identify and refer to particular pathology services, or particular groups of pathology services, more accurately and conveniently.

The above requirements may be used for billing purposes but treating practitioners requesting pathology services are encouraged to use the approved abbreviations. In this regard treating practitioners should note that:

- pathology services cannot be self determined by a rendering pathologist responding to a request. This places the onus for medical necessity on the treating practitioner who, in normal circumstances would, if he or she was unclear in deciding the appropriate test for a clinical situation, consult a pathologist for assistance; and
- Approved Pathology Practitioners/Authorities undertake not to issue accounts etc unless the pathology service was rendered in response to an unambiguous request.

PN.0.29 Tests not Listed

Tests which are not listed in the Pathology Services Table do not attract Medicare benefits. As explained in PN.0.1, changes to the Pathology Services Table can only be made by the Minister for Health and Aged Care.

PN.0.30 Audit of Claims

Services Australia is undertaking routine audits of claims for pathology benefits against requested services to ensure compliance with the provisions of the *Health Insurance Act 1973*.

PN.0.31 Groups of Tests

For the purposes of recording a description of the pathology service on accounts etc, an Approved Pathology Practitioner /Authority may use group abbreviations or group descriptions for the following specified groups of tests. These groups consist of two or more tests within the same item. These groups exclude abbreviations such as MBA and TORCH.

Treating practitioners are encouraged to use these group abbreviations or group descriptions where appropriate.

For ease of identification of group tests, it is recommended that practitioners use the following abbreviations. Tests requested individually may attract Medicare benefits.

Group	Estimations included in Group	Group Abbreviation	Item Numbers
Cardiac enzymes or cardiac markers	Creatine kinase isoemzymes, Myoglobin, Troponin	CE / CM	66518, 66519

Group	Estimations included in Group	Group Abbreviation	Item Numbers
Coagulation studies	Full blood count, Prothrombin time, Activated partial thromboplastin time and two or more of the following tests - Fibrinogen, Thrombin, Clotting time, Fibrinogen degradation products, Fibrin monomer, D-dimer factor XIII screening tests	COAG	65129, 65070
Electrolytes	Sodium (NA), Potassium (K), Chloride (CL) and Bicarbonate (HCO ₃)	E	66509
Full Blood Examination	Erythrocyte count, Haematocrit, Haemoglobin, Platelet count, Red cell count, Leucocyte count, Manual or instrument generated differential, Morphological assessment of blood film where appropriate	FBE, FBC, CBC	65070
Lipid studies	Cholesterol (CHOL) and Triglycerides (TRIG)	FATS	66503
Liver function tests	Alkaline phosphatase (ALP), Alanine aminotransferase (ALT), Aspartate aminotransferase (AST), Albumin (ALB), Bilirubin (BIL), Gamma glutamyl transpeptidase (GGT), Lactate dehydrogenase (LDH), and Protein (PROT)	LFT	66512
Syphilis serology	Rapid plasma regain test (RPR), or Venereal disease research laboratory test (VDRL), and Treponema pallidum haemagglutination test (TPHA), or Fluorescent treponemal antibody-absorption test (FTA)	STS	69387
Urea, Electrolytes, Creatinine	Urea, Electrolytes, Creatinine	U&E	66512

PN.0.32 Complexity Levels for Histopathology Items

Only one of these histopathology examination items (72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838) can be claimed in a patient episode.

The remaining items (72844, 72846, 72847, 72848, 72849, 72850, 72851, 72852, 72855, 72856 and 72857) are add-on items, covering enzyme histochemistry and immunohistochemistry, electron microscopy and frozen sections, which can be claimed in addition to the main item.

The list of complexity levels by type of specimen are contained at the back of this Section.

PN.0.33 Pathology Services Table

Rules for the Interpretation of the Pathology Services Table

Please note that in the *Health Insurance (Pathology Services Table) Regulations 2020* rules and sub-rules are referred to as clauses and sub-clauses. In addition in the Regulations a rule that refers to specific items within a pathology group, for example Group P1 Haematology, is listed directly above the Schedule of Services for that group. A table cross referencing the following rules with the clauses in the Regulations is at the end of this section.

1. (1) In this table

patient episode means:

(a) a pathology service or pathology services (other than a pathology service to which paragraph 1 (1) (b) refers) provided for a single patient whose need for the service or services was determined under section 16A of the Act:

(i) on the same day; or

(ii) if more than 1 test is performed on the 1 specimen within 14 days - on the same or different days;

whether the services:

(iii) are requested by 1 or more practitioners; or

(iv) are described in a single item or in more than 1 item; or

(v) are rendered by 1 approved pathology practitioner or more than 1 approved pathology practitioner; or

(vi) are rendered on the same or different days; or

(b) a pathology service to which rule 4 refers that is provided in the circumstances set out in that rule that relates to the service.

receiving APP means an approved pathology practitioner in an approved pathology authority who performs one or more pathology services in respect of a single patient episode following receipt of a request for those services from a referring APP.

recognised pathologist means a medical practitioner recognised as a specialist in pathology by a determination under section 3D, 3DB or 3E of the Act.

referring APP means an approved pathology practitioner in an approved pathology authority who:

(i) has been requested to render 1 or more pathology services, all of which are requested in a single patient episode; and

(ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the pathology services; and

(iii) requests an approved pathology practitioner (the ***receiving APP***) in another approved pathology authority to render the pathology service or services that the referring APP is unable to render; and

(iv) renders each pathology service (if any) included in that patient episode, other than the pathology service or services in respect of which the request mentioned in subparagraph (iii) is made.

serial examinations means a series of examinations requested on 1 occasion whether or not:

(a) the materials are received on different days by the approved pathology practitioner; or

(b) the examinations or cultures were requested on 1 or more request forms by the treating practitioner.

the Act means the *Health Insurance Act 1973*.

1. (2) In these rules, a reference to a request to an approved pathology practitioner includes a reference to a request for a pathologist-determinable service to which subsection 16A (6) of the Act applies.

1. (3) A reference in this table by number to an item that is not included in this table is a reference to the item that has that number in the general medical services table or the diagnostic imaging services table, as the case requires.

1. (4) A reference to a **Group** in the table includes every item in the Group and a reference to a **Subgroup** in the table includes every item in the Subgroup.

Precedence of items

2. (1) If a service is described:

- (a) in an item in general terms; and
- (b) in another item in specific terms;

only the item that describes the service in specific terms applies to the service.

2. (2) Subject to subrule (3), if:

- (a) subrule (1) does not apply; and
- (b) a service is described in 2 or more items;

only the item that provides the lower or lowest fee for the service applies to the service.

2. (3) If an item is expressed to include a pathology service that is described in another item, the other item does not apply to the service in addition to the first-mentioned item, whether or not the services described in the 2 items are requested separately.

Application of Additional Bulk Billing Payment for Pathology Services (items 74990, 74991, 75861, 75862, 75863 and 75864)

2. (4) Despite subrules (1), (2) and (3):

(a) if an Additional Bulk Billing Payment item applies to a pathology service, the fee specified in that item applies in addition to the fee specified in any other item in the table that applies to the service.

2. (5) For the Additional Bulk Billing Payment for Pathology Services:

bulk-billed, in relation to a pathology service, means:

- (a) a medicare benefit is payable to a person in respect of the service; and
- (b) under an agreement entered into under section 20A of the Act:
 - (i) the person assigns to the practitioner by whom, or on whose behalf, the service is provided, his or her right to the payment of the medicare benefit; and
 - (ii) the practitioner accepts the assignment in full payment of his or her fee for the service provided.

Concessional beneficiary means a person who is a concessional beneficiary within the meaning given by subsection 84(1) of the *National Health Act 1953*.

unreferred service means a pathology service that:

(a) is provided to a person by, or on behalf of, a medical practitioner, being a medical practitioner who is not a consultant physician, or specialist, in any speciality (other than a medical practitioner who is, for the purposes of the Act, both a general practitioner and a consultant physician, or specialist, in a particular speciality); and

(b) has not been referred to the medical practitioner by another medical practitioner or person with referring rights.

2. (6) For items 74991, 75861, 75862, 75863 and 75864:

practice location, in relation to the provision of a pathology service, means the place of practice in respect of which the practitioner by whom, or on whose behalf, the service is provided, has been allocated a provider number by the Commission.

Circumstances in which services rendered following 2 requests to be taken to have been rendered following 1 request

3. (1) In subrule 3(2), ***service*** includes assay, estimation and test.

3. (2) Two or more pathology services (other than services to which, under rule 4, this rule does not apply) rendered for a patient following 2 or more requests are taken to have been rendered following a single request if:

(a) the services are listed in the same item; and

(ab) that item is not item 74990, 74991, 75861, 75862, 75863 or 75864; and

(b) the patient's need for the services was determined under subsection 16A (1) of the Act on the same day even if the services are rendered by an approved pathology practitioner on more than one day.

Services to which rule 3 does not apply

4. (1) Rule 3 does not apply to a pathology service described in item 65060, 65070, 65120, 65123, 65126, 65129, 65150, 65153, 65156, 66500, 66503, 66506, 66509, 66512, 66584 or 66800, if:

(a) the service is rendered in relation to one or more specimens taken on each of not more than 6 separate occasions in a period of 24 hours; and

(b) the service is rendered to an inpatient in a hospital; and

(c) each service must be rendered as soon as possible after collection and after authorization of the result of the previous specimen; and

(d) the account for the service is endorsed 'Rule 3 Exemption'.

4. (2) Rule 3 does not apply to any of the following pathology services:

(a) estimation of prothrombin time (INR) in respect of a patient undergoing anticoagulant therapy;

(b) quantitative estimation of lithium in respect of a patient undergoing lithium therapy;

(c) a service described in item 65070 in relation to a patient undergoing chemotherapy for neoplastic disease or immunosuppressant therapy;

(d) a service described in item 65070 in relation to clozaril, ticlopidine hydrochloride, methotrexate, gold, sulphasalazine or penicillamine therapy of a patient;

(e) a service described in item 66500 - 66512 in relation to methotrexate or leflunomide therapy of a patient;

(f) quantitative estimation of urea, creatinine and electrolytes in relation to:

(i) cis-platinum or cyclosporin therapy of a patient; or

- (ii) chronic renal failure of a patient being treated in a dialysis program conducted by a recognised hospital;
- (g) quantitative estimation of albumin and calcium in relation to therapy of a patient with vitamin D, its metabolites or analogues;
- (h) quantitative estimation of calcium, phosphate, magnesium, urea, creatinine and electrolytes in cancer patients receiving bisphosphonate infusions.

if:

- (i) under a request for a service, other than a request for a service described in paragraph (a), no more than 6 tests are requested; and
- (ii) the tests are performed within 6 months of the request; and
- (iii) the account for the service is endorsed "Rule 3 Exemption".

4. (3) Rule 3 does not apply to a pathology service described in items 65109 or 65110 if:

- (a) The service is rendered on not more than 5 separate occasions in the case of item 65109 and 2 separate occasions in the case of item 65110 in a period of 24 hours; and
- (b) The service is rendered in response to a written request separated in time from the previous request; and
- (c) The account for the service is endorsed "Rule 3 Exemption".

Item taken to refer only to the first service of a particular kind

5. (1) For an item in Group P1 (Haematology):

- (a) if pathology services of a kind referred to in item 65090 or 65093 are rendered for a patient during a period when the patient is in hospital, the item applies only to the first pathology service of that kind rendered for the patient during the period; and
- (b) if:
 - (i) tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out in relation to a patient episode; and
 - (ii) specimen material from the patient episode is stored; and
 - (iii) in response to a request made within 14 days of the patient episode, further tests (except tests mentioned in item 65099, 65102, 65105 and 65108) are carried out on the stored material; the later tests and the earlier tests are taken to be part of one patient episode.

5. (2) Benefits for items 65102 and 65108 are payable only if a minimum of 6 units are issued for the patient's care in any 1 day.

5.(3) For items 65099 and 65102:

compatibility tests by crossmatch means that, in addition to all the tests described in paragraphs (a) and (b) of the item, donor red cells from each unit must have been tested directly against the serum of the patient by 1 or more accepted crossmatching techniques.

Certain items not to apply to a service referred by one pathology practitioner to another

6. (1) In this rule:

designated pathology service means a pathology service in respect of tests relating to a single patient episode that are tests of the kind described in item 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165.

6. (2) This rule applies in respect of a designated pathology service where:

- (a) an approved pathology practitioner (**practitioner A**) in an approved pathology authority:
 - (i) has been requested to render the designated pathology service; and
 - (ii) is unable, because of the lack of facilities in, or expertise or experience of the staff of, the laboratory of the authority, to render 1 or more of the tests included in the service; and
 - (iii) requests an approved pathology practitioner (**practitioner B**) in another approved pathology authority to render the test or tests that practitioner A is unable to render; and
 - (iv) renders each test (if any) included in the service, other than the test or tests in respect of which the request mentioned in subparagraph (iii) is made; and
- (b) the tests mentioned in subparagraph (a) (iv) that practitioner A renders are not tests constituting a service described in item 65156, 65179, 66653, 66712, 66734, 66788, 66806, 66815, 66822, 66828, 69496, 71093, 71159 or 71168.

6. (3) If this rule applies in respect of a designated pathology service:

- (a) item 65150, 65153, 65175, 65176, 65177, 65178, 66650, 66695, 66698, 66701, 66704, 66707, 66711, 66722, 66725, 66728, 66731, 66785, 66800, 66803, 66812, 66819, 66825, 69384, 69387, 69390, 69393, 69396, 69494, 69495, 71089, 71091, 71153, 71155, 71157, 71165, 71166 or 71167 (as the case requires) applies in respect of the test or tests rendered by practitioner A; and
- (b) where practitioner B renders a service under a request referred to in subparagraph (2) (a) (iii) and:
 - (i) practitioner A has rendered one or more of the tests that the service comprises - subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each test that the service comprises; or
 - (ii) practitioner A has not rendered any of the tests that the service comprises -
 - (A) the amount specified in item 65157, 65180, 66651, 66696, 66714, 66723, 66789, 66804, 66816, 66820, 66826, 69400, 69497, 71090, 71154 or 71169 (as the case requires) shall be taken to be the fee for the first test that the service comprises; and
 - (B) subject to subrule (4), the amount specified in item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 (as the case requires) shall be taken to be the fee for each subsequent test that the service comprises.

6. (4) For paragraph (3) (b), the maximum number of tests to which item 65158, 65181, 66652, 66697, 66715, 66724, 66790, 66805, 66817, 66821, 66827, 69401, 69498, 71092, 71156 or 71170 applies is:

(a) for item 66652, 66715, 66790, 66817, 66821 or 66827:

2 - X; and

(b) for item 65158, 66805, 69498 or 71092:

3 - X; and

(c) for item 71156 or 71170:

4 - X; and

(d) for item 65181 or 66724:

5 - X; and

where X is the number of tests rendered by practitioner A in relation to the designated pathology service in respect of which the request mentioned in that paragraph is made.

6. (5) Items in Group P10 (Patient episode initiation) do not apply to the second mentioned approved pathology practitioner in subrule (2).

Items not to be split

7. Except as stated in rule 6, the amount specified in an item is payable only to one approved pathology practitioner in respect of a single patient episode.

Creatinine ratios - Group P2 (chemical)

8. A pathology service mentioned in an item (except item 66500) in Group P2 (chemical) that:

(a) involves the measurement of a substance in urine; and

(b) requires calculation of a substance/creatinine ratio;

is taken to include the measurement of creatinine necessary for the calculation.

Thyroid function testing

9. (1) For item 66719:

abnormal level of TSH means a level of TSH that is outside the normal reference range in respect of the particular method of assay used to determine the level.

9. (2) Except where paragraph (a) of item 66719 is satisfied, the amount specified in the item is not payable in respect of a pathology service described in the item unless the pathologist who renders the service has a written statement from the medical practitioner who requested the service that satisfies subrule (3).

9. (3) The written statement from the medical practitioner must indicate:

(a) that the tests are required for a particular purpose, being a purpose specified in paragraph (b) of item 66719; or

(b) that the medical practitioner who requested the tests suspects the patient has pituitary dysfunction; or

(c) that the patient is on drugs that interfere with thyroid hormone metabolism or function.

Meaning of "serial examinations or cultures"

10. For an item in Group P3 (Microbiology):

(a) ***serial examinations or cultures*** means a series of examinations or cultures requested on 1 occasion whether or not:

(i) the materials are received on different days by the approved pathology practitioner; or

(ii) the examinations or cultures were requested on 1 or more request forms by the treating practitioner; and

(b) if:

(i) tests are carried out in relation to a patient episode; and

(ii) specimen material from the patient episode is stored; and

(iii) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

Investigation for hepatitis serology

11. A medicare benefit is not payable in respect of more than one of items 69475, 69478 and 69481 in a patient episode.

Tests in Group P4 (Immunology) relating to antibodies

12. For items in Group P4 (Immunology), in items 71119, 71121, 71123 and 71125, if:

(a) tests are carried out in relation to a patient episode; and

(b) specimen material from the patient episode is stored; and

(c) in response to a request made within 14 days of the patient episode, further tests are carried out on the stored material;

the later tests and the earlier tests are taken to be part of one patient episode.

Tests on biopsy material - Group P5 (Tissue pathology) and Group P6 (Cytology)

13. (1) For items in Group P5 (Tissue pathology):

(a) *biopsy material* means all tissue received by the Approved Pathology Practitioner:

(i) from a medical procedure or group of medical procedures performed on a patient at the same time; or

(ii) after being expelled spontaneously from a patient.

(b) *cytology* means microscopic examination of 1 or more stained preparations of cells separated naturally or artificially from their normal environment by methods recognised as adequate to demonstrate their structure to a degree sufficient to enable an opinion to be formed about whether they are likely to be normal, abnormal but benign, or abnormal and malignant but, in accordance with customary laboratory practice, does not include examination of a blood film and a bone marrow aspirate; and

(c) *separately identified specimen* means an individual specimen collected, identified so that it is clearly distinguished from any other specimen, and sent for testing by or on behalf of the treating practitioner responsible for the procedure in which the specimen was taken.

13. (2) For Groups P5 and P6 of the pathology services table, services in Group P6 include any services described in Group P5 on the material submitted for a test in Group P6.

13. (3) For subrule (2), any sample submitted for cytology from which a cell block is prepared does not qualify for a Group P5 item.

13.(4) If more than 1 of the services mentioned in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 are performed in a single patient episode, only the fee for the item performed having the highest specified fee is applicable to the services.

13.(5) If more than 1 histopathological examinations are performed on separate specimens, of different complexity levels, from a single patient episode, a medicare benefit is payable only for the examination that has the highest schedule fee.

13.(6) In items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 a reference to a **complexity level** is a reference to the level given to a specimen type mentioned in Part 4 of this Table.

13.(7) If more than 1 of the services mentioned in items 72846, 72847, 72848; 72849 and 72850 or 73059, 73060, 73061, 73064 and 73065 are performed in a single patient episode, a medicare benefit is payable only for the item performed that has the highest scheduled fee.

13.(8) If more than 1 of the services mentioned in items 73049, 73051, 73062, 73063, 73066 and 73067 are performed in a single patient episode, only the fee for the item performed having the higher or highest specified fee applies to the services.

Items in Groups P10 (Patient episode initiation) and P11 (Specimen referred) not to apply in certain circumstances

14. (1) For this rule and items in Groups P10 (Patient episode initiation) and P11 (Specimen referred):

approved collection centre has the same meaning as in Part IIA of the Act.

institution means a place at which residential accommodation or day care is, or both residential accommodation and day care are, made available to:

- (a) disadvantaged children; or
- (b) juvenile offenders; or
- (c) aged persons; or
- (d) chronically ill psychiatric patients; or
- (e) homeless persons; or
- (f) unemployed persons; or
- (g) persons suffering from alcoholism; or
- (h) persons addicted to drugs; or
- (i) physically or mentally handicapped persons;

but does not include:

- (j) a hospital; or
- (k) a residential aged care home; or
- (l) accommodation for aged persons that is attached to a residential aged care home or situated within a residential aged care home.

prescribed laboratory means a laboratory operated by:

- (a) the Australian Government; or
- (b) an authority of the Commonwealth; or

- (c) a State or internal Territory; or
- (d) an authority of a State or internal Territory; or
- (e) an Australian tertiary education institution.

specimen collection centre has the same meaning as in Part IIA of the Act.

treating practitioner has the same meaning as in paragraph 16A(1)(a) of the Act.

14. (2) If a service described in an item in Group P10 is rendered by, or on behalf of, an approved pathology practitioner who is a recognised pathologist, the relevant one of those items does not apply to the service if:

(a) the service is rendered upon a request made in the course of a service provided to a public patient in a recognised hospital or when attending an outpatient service of a recognised hospital.

14. (3) An item in Group P10 or P11 does not apply to a pathology service to which subsection 16A(7) of the Act applies.

14. (4) An item in Group P10 or P11 does not apply to a pathology service unless at least 1 item in Groups P1 to P8 also applies to the service.

14. (5) Subject to subrule (7), if one item in Group P10 applies to a patient episode, no other item in the Group applies to the patient episode.

14. (6) An item in Group P11 applies only to the approved pathology practitioner or approved pathology authority to whom the specimen mentioned in the item was referred.

14. (7) If, in respect of the same patient episode:

(a) services referred to in 1 or more items in Group P5 and 1 or more of Groups P1, P2, P3, P4, P6, P7 and P8 are rendered by an approved pathology practitioner in the laboratory of another approved pathology authority; or

(b) services referred to in 1 or more items in Group P6 and 1 or more of Groups P1, P2, P3, P4, P5, P7 and P8 are rendered by another approved pathology practitioner in the laboratory of another approved pathology authority;

the fee specified in the applicable item in Group P10 is payable to both approved pathology practitioners.

14. (8) If more than one specimen is collected from a person on the same day for the provision of pathology services:

(a) in accordance with more than 1 request; and

(b) in or by a single approved pathology authority;

the fee specified in the applicable item in Group P10 applies once only to the services unless an exemption listed in Rule 4 applies or an exemption has been granted under Rule 3 "S4B(3)".

14. (9) The amount specified in item 73940 is payable only once in respect of a single patient episode.

Application of an item in Group P11 (Specimen referred) to a service excludes certain other items

15. If item 73940 applies to a patient episode, none of the items in Group P10 applies to any pathology service rendered by the approved pathology authority or approved pathology practitioner who claimed item 73940 in respect of the patient episode.

Circumstances in which an item in Group P11 (Specimen referred) does not apply

16. (1) An item in Group P11 does not apply to a referral if:

(a) a service in respect of the same patient episode has been carried out by the referring approved pathology authority; and

(b) the approved pathology authority to which the referral is made is related to the referring approved pathology authority.

16. (2) An approved pathology authority is *related to* another approved pathology authority for subrule (1) if:

(a) both approved pathology authorities are employed (including employed under contract) by the same person, whether or not the person is also an approved pathology authority; or

(b) either of the approved pathology authorities is employed (including employed under contract) by the other; or

(c) both approved pathology authorities are corporations and are related corporations within the meaning of the Corporations Act; or

(d) the approved pathology authorities are partners (whether or not either or both of the approved pathology authorities are individuals and whether or not other persons are in partnership with either or both of the approved pathology authorities); or

(e) both approved pathology authorities are operated by the Commonwealth or an authority of the Commonwealth; or

(f) both approved pathology authorities are operated by the same State or internal Territory or an authority of the same State or internal Territory.

16. (3) An item in Group P11 does not apply to a referral if the following common tests are referred either singly or in combination (except if the following items are referred in combination with other items not similarly specified): 65060, 65070, 65120, 66500, 66503, 66506, 66509, 66512, 66536, 66596, 69300, 69303, 69333 or 73527.

Abbreviations

17. (1) The abbreviations in Part 4 of this table may be used to identify particular pathology services or groups of pathology services.

17. (2) The names of services or drugs not listed in Part 4 of this table must be written in full.

Certain pathology services to be treated as 1 service

18. (1) In this rule:

general practitioner means a medical practitioner who:

(a) is not a consultant physician in any specialty; and

(b) is not a specialist in any specialty.

set of pathology services means a group of pathology services:

(a) that consists of services that are described in at least 4 different items; and

(b) all of which are requested in a single patient episode; and

(c) each of which relates to a patient who is not an admitted patient of a hospital; and

(d) excludes services referred to in an item in Group P10, Group P11, Group P12 or

Group P13, items 66900, 69484, 73070, 73071, 73072, 73074, 73075 or 73076; and

(e) excludes services described in the following items:

65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66610, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 66832, 66834, 66837, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69484, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318, 73321 and 73324;

where those services are performed by an approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority following referral by another approved pathology practitioner in an accredited pathology laboratory of an approved pathology authority which is not **related to** the first mentioned approved pathology authority.

(1A) An approved pathology authority is **related to** another approved pathology authority for the purposes of paragraph 18(1)(e) if that approved pathology authority would be related to the other approved pathology authority for the purposes of rule 16(2).

18. (2) If a general practitioner requests a set of pathology services, the pathology services in the set are to be treated as individual pathology services in accordance with this rule.

18. (3) If the fee specified in 1 item that describes any of the services in the set of pathology services is higher than the fees specified in the other items that describe the services in the set:

(a) the pathology service described in the first-mentioned item is to be treated as 1 pathology service; and

(b) either:

(i) the pathology service in the set that is described in the item that specifies the second-highest fee is to be treated as 1 pathology service; or

(ii) if 2 or more items that describe any of those services specify the second-highest fee, the pathology service described in the item that specifies the second-highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

(c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

18. (4) If the fees specified in 2 or more items that describe any of the services in the set of pathology services are the same, and higher than the fees specified in the other items that describe the services in the set:

(a) the pathology service in the set that is described in the item that specifies the highest fee, and has the lowest item number, is to be treated as 1 pathology service; and

(b) the pathology service in the set that is described in the item that specifies the highest fee, and has the second-lowest item number, is to be treated as 1 pathology service; and

(c) the pathology services in the set, other than the services that are to be treated as 1 pathology service under paragraphs (a) and (b), are to be treated as 1 pathology service.

18. (5) If pathology services are to be treated as 1 pathology service under paragraph (3)(c) or (4)(c), the fee for the 1 pathology service is the highest fee specified in any of the items that describe the pathology services that are to be treated as the 1 pathology service.

Hepatitis C viral RNA testing

19. For item 69499 and 69500:

Hepatitis C sero-positive, for a patient, means 2 different assays of Hepatitis C antibodies are positive.

serological status is uncertain, for a patient, means any result where 2 different assays of Hepatitis C antibodies are inconclusive.

Haemochromatosis testing

20. For items 73317 and 73318:

elevated serum ferritin for a patient, means a level of ferritin above the normal reference range in respect of the particular method of assay used to determine the level.

Nutritional and toxicity metals testing

22. (1) For this rule:

nutritional metals testing group means items 66819, 66820, 66821 and 66822.

metal toxicity testing group means items 66825, 66826, 66827, 66828, 66831 and 66832.

22. (2) An item in the nutritional metals testing group or the metal toxicity testing group does not apply in relation to a service performed if medicare benefits are paid or payable for tests that are performed for the same patient in 3 patient episodes requested within 6 months before the request for that service, under any of:

- (a) that item; or
- (b) the other item in the same group; or
- (c) an item in the other group.

Antineutrophil Cytoplasmic Antibody

23. A request for Antineutrophil Cytoplasmic Antibody immunofluorescence test (ANCA) shall be deemed to include requests for antineutrophil proteinase 3 antibody test (PR-3 ANCA) and antimyeloperoxidase antibody test (MPO ANCA) where the immunofluorescence test for ANCA is abnormal, or has been abnormal, or those specific antibodies have been previously detected.

Satisfying Requirements Described in Items

24. Unless stated elsewhere in these rules, where an item contains a requirement, this requirement is satisfied if:

- (a) The requirement/s as stipulated in the item descriptor are contained in the request form; or
- (b) The requirement/s as stipulated in the item descriptor were supplied previously in writing to the APA and this documentation is retained by the APA; or
- (c) The results of other laboratory tests performed in the same episode meet the requirement/s as stipulated in the item descriptor; or
- (d) The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are supplied on the request form; or

The results of laboratory tests that meet the requirement/s as stipulated in the item descriptor are contained in the APA's records.

Limitation on certain items

25. (a) For any particular patient, items 66539, 66605, 66606, 66607, 66610, 69380, 69488, 69489, 71075, 71127, 71135 or 71137 is applicable not more than twice in a 12 month period.

- (b) For any particular patient, item 66626 is applicable not more than 36 times in a 12 month period.
- (c) For any particular patient, items 66655, 66659, 66838, 66841, 69482, 69491, 69499 or 69500 are applicable not more than once in a 12 month period.
- (d) For any particular patient, item 66750 or 66751 is applicable not more than once in a pregnancy.
- (e) For any particular patient, item 69336 is applicable not more than once in each period of 7 days.
- (f) For any particular patient, items 66660, 69445, 69451, 69483, 71079 or 73523 are applicable not more than 4 times in a 12 month period.
- (g) For any particular patient, items 66554, 66830 and 71077 are applicable not more than 6 times in a 12 month period.
- (h) For any particular patient, item 66819, 66820, 66821, 66822, 66825, 66826, 66827 or 66828 is applicable not more than 3 times in a 6 month period.
- (i) For any particular patient, items 73339 and 73340 are applicable not more than once.

Antigen Detection - Group P3 (Microbiology)

26. If the service listed in 69316, 69317, 69319, 69494, 69495, 69496, 69497 or 69498 is a pathologist determinable service the specialist pathologist is required to record the reasons for determining the need for this service.

27. If the service rendered in 71148, 73320 or 73321 is a pathologist determinable service, the specialist pathologist is required to record the reason for determining the need for this service including the result of the service in 71147.

Second Opinion morphology, limitations on items 72858 and 72859

28.1 Items 72858 and 72859 apply:

- (a) only to a service that is covered by:
 - (i) item 65084 or 65087; or
 - (ii) item 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 or 72838; or
 - (iii) an item in Group P6 (other than item 73070, 73071, 73072, 73074, 73075 or 73076); and
- (b) only if the treating practitioner and the approved pathology practitioner who provided the original opinion on the patient specimen agree that a second opinion is reasonably necessary for diagnostic purposes.

28.2 Items 72858 and 72859 do not apply if the accredited pathology laboratory in which the second opinion is provided is the same laboratory in which the original opinion was provided.

PN.0.35 Detection of measurable residual disease in patients with acute lymphoblastic leukaemia (MBS items 71202 and 73310)

The number of measurable residual disease (MRD) tests per patient, per episode of disease or per relapse is not expected to exceed 12, inclusive of a baseline assessment.

**PN.1.1 Pathology Services in Relation to Medicare Benefits - Outline of Arrangements
Basic Requirements**

Determination of Necessity of Service

The treating practitioner must determine that the pathology service is necessary.

Request for Service

The service may only be provided:

- (i) in response to a request from the treating practitioner, including a participating midwife or a participating nurse practitioner, or from another Approved Pathology Practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days); or
- (ii) if determined to be necessary by an Approved Pathology Practitioner who is treating the patient.

Services requested by participating midwives and participating nurse practitioners:

- (i) A participating midwife can request the following services:

Items 65060, 65070, 65090 to 65099 (inclusive), 65114, 66500 to 66512 (inclusive), 66545, 66548, 66566, 66743, 66750, 66751, 69303 to 69317 (inclusive), 69324, 69384 to 69415 (inclusive), 73070, 73071, 73075, 73076 and 73529.

- (ii) A participating nurse practitioner can request items in the range 65060 to 73529 (inclusive).

Provision of Service

The following conditions relate to provision of services:

- (i) the service has to be provided by or on behalf of an Approved Pathology Practitioner;
- (ii) the service has to be provided in a pathology laboratory accredited for that kind of service;
- (iii) the proprietor of the laboratory where the service is performed must be an Approved Pathology Authority;
- (iv) the Approved Pathology Practitioner providing the service must either be the proprietor of the laboratory or party to an agreement, either by way of contract of employment or otherwise, with the proprietor of the laboratory in which the service is provided; and
- (v) no benefit will be payable for services provided by an Approved Pathology Practitioner on behalf of an Approved Pathology Authority if they are not performed in the laboratories of that particular Approved Pathology Authority.

Therapeutic Goods Act 1989

For any service listed in the MBS to be eligible for a Medicare rebate, the service must be rendered in accordance with the provisions of the relevant Commonwealth and State and Territory laws. Approved Pathology Practitioners have the responsibility to ensure that the supply of medicines or medical devices used in the provision of pathology services is strictly in accordance with the provisions of the *Therapeutic Goods Act 1989*.

PN.1.2 Exemptions to Basic Requirements

Satisfying requirements described in pathology service

Unless the contrary intention appears, a requirement contained in the description of a pathology service in Part 2 is satisfied if:

- (a) for a requirement for information - the information:
 - (i) is included in the request for the service; or
 - (ii) was supplied in writing on an earlier occasion to the approved pathology authority that rendered the service, and has been kept by the approved pathology authority; or
- (b) for a requirement for laboratory test results - the results are:
 - (i) included in the request for the service; or
 - (ii) obtained from another laboratory test performed in the same patient episode; or
 - (iii) included in results from an earlier laboratory test that have been kept by the approved pathology authority.

Services Where Request Not Required

A pathologist-determinable service is a pathology service:

- (a) that is rendered by or on behalf of an approved pathology practitioner for a person who is a patient of that approved pathology practitioner who has determined that the service is necessary.
- (b) that is specified in item 73332, 73336, 73337, 73389, 73341, 73342, 73344, 73436, 73429 or only one immunohistochemistry items 72846, 72847, 72848, 72849, 72850 and 72860 or electronmicroscopy items 72851 and 72852 or immunocytochemistry items 73059, 73060 or 73061, and 73364 to 73383 and is considered necessary by the approved pathology practitioner as a consequence of information resulting from a pathology service contained in tissue examination items 72813 - 72838 or cytology items 73045 - 73051 respectively.

Please note: a written request is required for a service contained in items 72813 to 72838 and items 73045 to 73051.

- (c) that is specified in one of the antigen detection items 69494, 69495 or 69496 is considered necessary by the approved pathology practitioner as a consequence of information provided by the requesting practitioner or by the nature or appearance of the specimen or as a consequence of information resulting from a pathology service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

Please note: a written request is required for a service contained in items 69303, 69306, 69312, 69318, 69321 and 69345.

- (d) that is specified in item 73320, HLA-B27 typing by nucleic acid amplification, and is considered necessary by the approved pathology practitioner because the results of HLA-B27 typing described in item 71147 are unsatisfactory.
- (e) that is specified in item 73305, detection of mutation of the FMRI gene by Southern Blot analysis where the results in item 73300 are inconclusive.
- (f) that is specified in alpha thalassaemia genetic testing items 73411, 73412 or 73413 and is considered necessary by the approved pathology practitioner because the results of testing described in item 73410 were inconclusive.

PN.1.3 Circumstances Where Medicare Benefits Not Attracted ***Services Rendered by Disqualified Practitioner***

Medicare benefits are not payable for pathology services if at the time the service is rendered, the person, by or on whose behalf the service is rendered, is a person in relation to whom a determination is in force in relation to that class of services. That is, where an Approved Pathology Practitioner has breached an undertaking, and a determination has been made that Medicare benefits should not be paid during a specified period (of up to five years) in respect of specified pathology services rendered by the practitioner.

Note: An Approved Pathology Practitioner may be disqualified for reasons other than a breach of undertaking.

Certain Pathology Tests Do Not Attract Medicare Benefits

Certain tests of public health significance do not qualify for payment of Medicare benefits. Examples of services in this category are:

- examination by animal inoculation;
- Guthrie test for phenylketonuria;
- neonatal screening for hypothyroidism (T4/TSH estimation);
- neonatal screening for Cystic Fibrosis;
- neonatal screening for Galactosemia;

- pathology services used with the intention of monitoring the performance enhancing effects of any substance;
- pathology tests carried out on specimens collected from persons occupationally exposed to sexual transmission of disease where the purpose of the collection of specimens is for testing in accordance with conditions determined by the health authority of the State or Territory in which the service is performed.

In addition to the above, certain other tests do not qualify for payment of Medicare benefits. These include:

- cytotoxic food testing;
- pathology services performed for the purposes of control estimation, repeat tests (eg. for confirmation of earlier tests on the same specimen, etc);
- preparation of autogenous vaccines;
- tissue banking and preparation procedures;
- pathology services performed on stillborn babies or cadavers;
- pathology services which are performed routinely in association with the termination of pregnancy without there being any indication for the necessity of the services.

However, benefits will be paid for the following pathology tests:

- item 65060 - haemoglobin estimation;
- item 65090 - blood grouping ABO and Rh (D antigen);
- item 65096 - examination of serum for Rh and other blood group antibodies.

PN.2.1 Responsibilities of Treating/Requesting Practitioners

Form of Request

A treating practitioner may request a pathology service either orally or in writing but oral requests must be confirmed in writing within fourteen days from the day when the oral request was made.

Pathology request forms and combined pathology request/offer to assign forms which are prepared by the pathologists and distributed to requesting practitioners on or after 1 August 2012 must include the minimum information detailed under PN.2.2.

All written requests for pathology services should contain the following particulars:

- (i) a description of the individual pathology services, or recognised groups of pathology tests to be rendered (see PN.0.28 and PN.0.31). The description must be sufficient to enable the item in which the service is specified to be identified;
- (ii) the date of request;
- (iii) the name of the requesting practitioner and their practice address or provider number;
- (iv) the patient's name and address;
- (v) details of the hospital status of the patient, as follows (for benefit rate assessment). That is, whether the patient was or will be, at the time of the service and when the specimen is obtained:
 - (a) a private patient in a private hospital, or approved day hospital facility;

- (b) a private patient in a recognised hospital;
- (c) a public patient in a recognised hospital;
- (d) an outpatient of a recognised hospital;

Offence Not to Confirm an Oral Request

A requesting practitioner who, without reasonable excuse, does not confirm in writing an oral request within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding \$1,100 (10 Penalty Units in accordance with the *Crimes Act 1914*), and the request is deemed never to have been made.

Services Australia has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the Department of Health and Aged Care website.

PN.2.2 Responsibilities of Approved Pathology Practitioners

Form of Request

There is no official "request in writing" form, and the requesting practitioner's own stationery, or pre-printed forms supplied by Approved Pathology Practitioners/Authorities are acceptable.

For the purposes of Medicare eligible services, the minimum information requirements for a pre-printed pathology request and combined pathology request/offer to assign are detailed within the: *Health Insurance Act 1973*; *Health Insurance Regulations 2018*; and the *Privacy Act 1988*.

The following table presents the minimum details that pre-printed pathology request forms and combined pathology request/offer to assign forms must contain for the purposes of a subsequent Medicare claim:

Requesting Practitioner
a) name
b) practice address or provider number

Patient Details
a) name - surname, first name
b) address
c) date of birth
d) sex
e) Medicare card number
f) hospital status Two acceptable versions are as follows: State the patient's status at the time of the service or when the specimen was collected: OR cross out the statements that do not apply Was or will the patient be, at the time of the service or when the specimen is obtained: (a) a private patient in a private hospital or approved day hospital facility (b) a private patient in a recognised hospital (c) a public patient in a recognised hospital (d) an outpatient of a recognised hospital

Tests Requested
a) an area titled "Tests Requested"

Self Determined (SD)
A tick box is required for SD. This is used when the APP determines that pathologist-determinable tests are necessary. This tick box can be put in the Clinical Notes area.

Mandatory patient advisory statement
<p>One of the following statements:</p> <p>'Your doctor has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your doctor has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your doctor.'</p> <p>'Your treating practitioner has recommended that you use (insert name of pathology provider). You are free to choose your own pathology provider. However, if your treating practitioner has specified a particular pathologist on clinical grounds, a Medicare rebate will only be payable if that pathologist performs the service. You should discuss this with your treating practitioner.'</p>

Privacy Note
<p>The wording of the note must be:</p> <p>"Privacy Note: The information provided will be used to assess any Medicare benefit payable for the services rendered and to facilitate the proper administration of government health programs, and may be used to update enrolment records. Its collection is authorised by the provisions of the <i>Health Insurance Act 1973</i>. The information may be disclosed to the Department of Health and Aged Care or to a person in the medical practice associated with this claim, or as authorised/required by law." The placement of the note is only necessary on the patient's copy and could be incorporated into the clinical notes area. Alternatively, the back of the patient copy could be used if that is more practicable.</p>

Services Australia has developed a [Health Practitioner Guideline to substantiate that a valid request existed \(pathology or diagnostic imaging\)](#) which is located on the Department of Health and Aged Care website.

Combined Request/Assignment form only
Offer to Assign and Reference to Section 20A
<p>An example of a Section 20A Offer to Assign is as follows:</p> <p>"Medicare Agreement (Section 20A of the <i>Health Insurance Act 1973</i>)</p> <p>I offer to assign my right to benefits to the approved pathology practitioner who will render the requested pathology service(s) and any eligible pathologist determinable service(s) established as necessary by the practitioner.</p> <p>Patient signature _____ Date / /</p>
Practitioners Use Only
<p>A text box is also required for 'Practitioner's Use Only' this section is used where the patient is unable to sign and an appropriate person endorses on behalf of patient, eg.</p> <p>Practitioner's Use Only</p> <p>_____</p> <p>(Reason patient cannot sign)</p>

An Approved Pathology Practitioner or Approved Pathology Authority who, without reasonable excuse, provides to practitioners (directly or indirectly) combined request/assignment forms which are not in accordance with the legislation is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*).

Patient Copy

Assignment of benefits requires the patient to receive a copy of the request. The doctor must cause the particulars relating to the professional service (tests requested) to be set out on the assignment form, before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

Authority to lodge a Patient Claim electronically

Where an Approved Pathology Practitioner or Approved Pathology Authority renders a service and the patient has not assigned the benefit the Approved Pathology Practitioner or Approved Pathology Authority can lodge a claim electronically to Services Australia on behalf of the patient where consent is provided. This consent can be provided verbally.

Combined Online Patient Claiming Authority

Authority for APP/APA to submit an electronic patient claim on behalf of the claimant

An example of wording that could be used is:
'I authorise the approved pathology practitioner who will render the requested pathology services, and any further pathology services which the practitioner determines to be necessary, to submit my unpaid account to Medicare, so that Medicare can assess my claim and issue me a cheque made payable to the practitioner, for the Medicare benefit.'

Patient Signature _____ Date ____/____/____

Verbal consent was provided by patient to submit unpaid account to Medicare. No signature available.

Request to Approved Pathology Authority

It is acceptable for a request to be made to an Approved Pathology Authority who is the proprietor or one of the proprietors of a laboratory instead of making the request to the Approved Pathology Practitioner who renders the service or on whose behalf the service is rendered.

Holding, Retention, Recording and Production of Request Forms

Approved Pathology Practitioners must hold a request in writing for all services requested by any other practitioner before billing patients. An Approved Pathology Practitioner is required to retain written requests/confirmation of requests for pathology services for 2 years from the day when the service was rendered. This also applies to requests which an Approved Pathology Practitioner receives of which only some tests are referred to another Approved Pathology Practitioner (the first Approved Pathology Practitioner would retain the request for 2 years). If all tests were referred, the second pathologist would retain the original request.

If the written request or written confirmation has been recorded on film or other magnetic medium approved by the Minister for Health and Aged Care, for the purposes of storage and subsequent retrieval, the record so made shall be deemed to be a retention of the request or confirmation. The production or reproduction of such a record shall be deemed to be a production of the written request or written confirmation.

An Approved Pathology Practitioner or an Approved Pathology Authority is required to produce, on request from the Services Australia CEO, no later than the end of the day following the request from the CEO, a written request

or written confirmation retained pursuant to the above paragraphs. An employee of Services Australia is authorised to make and retain copies of or take and retain extracts from written requests or written confirmations.

Offences in Relation to Retaining and Producing Request Forms

The following offences are punishable upon conviction by a fine not exceeding 10 penalty units:

- i. an Approved Pathology Practitioner who, without reasonable excuse, does not keep request forms for 2 years;
- ii. an Approved Pathology Practitioner who, without reasonable excuse, does not produce a request form to an employee of Services Australia before the end of the day following the day of Services Australia CEO's request;
- iii. an Approved Pathology Authority which, without reasonable excuse, does not keep request forms for 2 years;
- iv. an Approved Pathology Authority which, without reasonable excuse, does not produce a request form to an employee of the Services Australia before the end of the day following the day of Services Australia CEO's request.

Referral From An Approved Pathology Practitioner To Another Approved Pathology Practitioner

Where an Approved Pathology Practitioner refers some or all services requested to another Approved Pathology Practitioner not associated with the same Approved Pathology Authority the following apply:

- i. where all the services are referred, the first Approved Pathology Practitioner should forward the original request to the second Approved Pathology Practitioner, and the document bearing the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare;
- ii. where some of the services which are listed in different items in the Schedule are referred, the first Approved Pathology Practitioner must issue his/her own request in writing listing the tests to be performed, and when necessary, forward a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can direct-bill Medicare

in addition to the details of the first Approved Pathology Practitioner, the second Approved Pathology Practitioner must show on the account/receipt/assignment form:

- a. name and provider number of the original requesting practitioner; and
 - b. date of original request;
- iii. under the item coning rules (which limit benefits for multiple services) only one Medicare benefit is payable for services included in coned items except for estimations covered by Rule 6 entitled "designated pathology services". The exemption allows payment of more than one Medicare benefit where various components of the one item number from the same request e.g. drug assays (items 66800 and 66812) are performed by two Approved Pathology Authorities.

Although the provisions concerning designated pathology services in Rule 6 permit similar services (e.g. hormone estimations) to be performed by 2 or more laboratories, with different Approved Pathology Authorities, the sum of the Medicare benefit payable for services provided by the laboratories concerned will not exceed the maximum amount payable under the item coning rules when a single laboratory performs all the estimations.

Notes:

- i. the patient should be billed by each Approved Pathology Practitioner only for those services rendered by or on his/her behalf;
- ii. photocopies of requests are not acceptable;
- iii. in the case of "designated pathology services" 65150, 65175, 66650, 66695, 66711, 66722, 66785, 66800, 66812, 66819, 66825, 69384, 69494, 71089, 71153 or 71165 a patient episode initiation fee (PEI) is payable for the services provided by the laboratory which receives the original request and performs one or more of the estimations. However, no PEI is payable for services provided by the other laboratory which performs the remainder of the estimations. A "specimen referred fee" is payable instead. One Approved

Pathology Practitioner cannot claim both a PEI and a "specimen referred fee" in relation to the same patient episode.

Offence Not To Confirm An Oral Request

An Approved Pathology Practitioner who, without reasonable excuse, does not confirm in writing an oral request to another Approved Pathology Practitioner within fourteen days of making the oral request is guilty of an offence under the *Health Insurance Act 1973* punishable, upon conviction, by a fine not exceeding 10 Penalty Units (in accordance with the *Crimes Act 1914*), and the request is deemed never to have been made.

PN.2.3 Pathology Tests not Covered by Request

An Approved Pathology Practitioner, who has been requested to perform one or more pathology services, may consider it necessary, in the interest of the patient, that additional tests to those requested be carried out. The Approved Pathology Practitioner must discuss this need with the requesting practitioner, and if the requesting practitioner determines that additional tests are necessary, the Approved Pathology Practitioner must arrange with the requesting practitioner to forward an amended or second request for those services. The account will then be issued in the ordinary way and the additional services will attract benefits providing the Approved Pathology Practitioner is a recognised specialist pathologist.

PN.2.4 Faecal Calprotectin Testing (Items 66522 & 66523)

A patient previously diagnosed with inflammatory bowel disease is not eligible for this item.

Clinical alarms:

Unexplained weight loss (> 3 kg or 5% bodyweight), iron deficiency ± anaemia, melaena, overt rectal bleeding, positive faecal human haemoglobin, abdominal pain awaking patient from sleep, diarrhoea, disturbing sleep or faecal incontinence, documented unexplained fever, family history of colon cancer, family history of inflammatory bowel disease (IBD) in symptomatic patients, or a family history of coeliac disease in symptomatic patients

PN.2.5 NT-proBNP testing in patients with systemic sclerosis - MBS item 66585

NT-proBNP testing under MBS item 66585 should be performed along with a pulmonary function test (PFT) measuring diffusing capacity for carbon monoxide in accordance with the 2012 Australian Scleroderma Interest Group (ASIG) pulmonary arterial hypertension (PAH) screening algorithm.

Repeat testing within a 12 month period should only be performed for a patient presenting with new symptoms suggestive of PAH since last assessment or a patient that has a borderline NT-proBNP level between 168-209 pg/mL.

Where MBS item 66585 is requested by a medical practitioner (other than a specialist or consultant physician), the request should be made in consultation with a specialist or consultant physician who manages the treatment of the patient.

PN.3.1 Details Required on Accounts, Receipts or Assignment Forms

General

Medicare benefit is not payable in respect of a pathology service unless specified details are provided, by the practitioner rendering the service, on his or her account, receipt or assignment form.

PN.3.2 Approved Pathology Practitioners

In addition to holding a request in writing from the treating medical or dental practitioner or from another Approved Pathology Practitioner, the following additional details must be recorded on the account, receipt or assignment form of the Approved Pathology Practitioner providing the service:

- (i) the surname and initials of the Approved Pathology Practitioner who performed the service and either his/her practice address or the provider number for the address;
- (ii) the name of the person to whom the service was rendered;
- (iii) the date on which the service was rendered;
- (iv) the name of the requesting practitioner; or in the case of a referred test, the name of the original requesting practitioner;
- (v) the date on which the request was made; or in the case of a referred test, the date on which the original request was made;
- (vi) the requesting practitioner's provider number;
- (vii) a description of the pathology service in words which are derived from the item description in the Schedule and are of sufficient detail to identify the specific test in the Schedule that was rendered. Instead of such a full description, the abbreviations contained in the group abbreviations listed at PN.0.31 are acceptable alternatives (see PN.0.28);
- (viii) where the Approved Pathology Practitioner determines or provides a pathology service on his/her own patient, the account must be endorsed "sd"; and
- (ix) provide collection centre identification number if the specimen was collected in a licensed collection centre (or approved pathology collection centre).

Where some services are referred from one Approved Pathology Practitioner to another Approved Pathology Practitioner, the request details to be shown on the second Approved Pathology Practitioner's account, receipt or assignment form must be identical to those of the original requesting practitioner including the date of request.

PN.3.3 Prescribed Pathology Services

For Prescribed Pathology Services (that is, pathology items in Group P9) the medical practitioner who renders the service must ensure his or her account, receipt or assignment form includes his or her name, address or provider number, the date of the service, and a description to clearly identify the service in the Schedule that was rendered.

If the service was determined necessary by another medical practitioner who is a member of the same group practice as the practitioner who rendered the service, the name of the requesting practitioner, sufficient to identify the practitioner from other practitioners in the same group practice with the same surname, must also be included together with the date on which the request was made.

PN.3.4 Interferon Gamma Release Assay (IGRA) for detection of latent tuberculosis - (Item 69471)

Before undertaking testing it is advisable to consult with a medical practitioner experienced in the management of tuberculosis. Neither IGRA tests or the tuberculin skin test (Mantoux) can absolutely exclude latent tuberculosis and following close contact exposure preventative therapy should always be considered in young children and immunosuppressed patients.

IGRA testing for the diagnosis of latent tuberculosis should be requested in compliance with recommendations made by the National Tuberculosis Advisory Committee in 2016 or later. https://www.health.gov.au/committees-and-groups/national-tuberculosis-advisory-committee?utm_source=health.gov.au&utm_medium=callout-auto-custom&utm_campaign=digital_transformation including:

- IGRAs have no place in the initial investigation of active TB disease and cannot and should not be used to exclude suspected TB disease.
- IGRA should not be used for the purpose of screening prior to BCG vaccination.
- While IGRA tests can be used in children less than 5 years of age, there may be a higher proportion of indeterminate test results and tuberculin skin testing is preferred, unless there is a history of BCG.

At least eight weeks should elapse following last possible TB exposure before testing of a contact of a confirmed case of active tuberculosis – testing of contacts should be performed only after discussion with appropriate State or Territory public health authorities.

PN.3.5 Non-Public Health Laboratory Network laboratory use of item 69480

Accredited pathology laboratories providing or planning to provide clinical diagnostic testing and reporting for SARS-CoV-2 (MBS item 69480 and 69479) must be enrolled and participate in a relevant External Quality Assurance Program for testing methods.

The Royal College of Pathologists of Australasia (RCPA) Quality Assurance Programs offers a SARS-CoV-2 Quality Assurance Program. Further details can be found at this link: <https://repaqap.com.au>

In addition, it is recommended that laboratories:

- a) Access and utilise positive control material provided by a state or territory reference laboratory (usually a Public Health Laboratory Network (PHLN) laboratory); and
- b) Arrange for parallel testing to be conducted by a PHLN laboratory to validate the results. This means referring all positive samples for confirmatory testing until a level of confidence is reached, determined by the jurisdictional PHLN laboratory; referring a subset of negative samples where a strong clinical or epidemiological suspicion exists; and referring all indeterminate samples for confirmatory testing.

PN.3.6 Note for item 69501

Item 69501 - Detection of a SARS-CoV-2 nucleic acid 1 or more tests - is restricted to people employed, hired, retained or contracted;

- i. by an approved aged care provider, or are working in an aged care service in Victoria; or
- ii. to travel interstate as a driver of a heavy vehicle; or
- iii. to travel interstate as a rail crew member.

Results of the tests must be provided within 24 hours of receipt of the specimen to all appropriate authorities in accordance with relevant state or territory legislation or regulations.

The test can only be performed out of hospital by a private pathology provider.

The test must bulk-billed. PEI and bulk billing items cannot be claimed with this item.

A request from a medical practitioner is not necessary for a private pathology provider to perform this service.

PN.4.1 Inbuilt Multiple Services Rule

The term "Multiple Services Rule" (Rule 3 of the Pathology Services Table) describes an arrangement which places limits on the benefits payable for items in the Pathology Services Table depending on the range of services performed during a single patient episode. A patient episode is defined in PN.0.5.

PN.4.2 Exemptions

Under Rule 4 of the Pathology Services Table, exemptions to the multiple services rule have been granted for certain specified tests. In some circumstances tests which are repeated up to 6 times over a 24 hour period, or tests which are requested up to 6 times on a single request form and are performed within 6 months of the date of request may be eligible for separate Medicare benefits. The services to which the exemptions apply are listed under Rule 4.(1 and 2) and cover seriously or chronically ill patients who require particular tests under specified circumstances. In order to claim the exemptions, accounts should be endorsed "Rule 3 Exemption".

Where a practitioner seeks an exemption to the multiple services rule for a patient whose condition requires a series of pathology investigations at various times throughout any one day or over a longer period of time, and the services required are not exempted under Rule 4, an application for exemption can be made which is endorsed "S4B(3)". Some factors that the delegate of the Minister may take into consideration in approving an exemption are: the patient is seriously ill; there are distinct and separate collections and performances of tests; and the services involve substantial additional expenses for the Approved Pathology Practitioner. These, and other clinical details, should be supplied by the practitioner when seeking an S4B(3) exemption.

If Rule 3 exemptions are endorsed "S4B(3)", claim assessment could take longer as all S4B(3) claims are passed to the delegate for assessment. S4B(3) covers all exemptions to the multiple services rule but, where applicable, specific "Rule 3 exemption" endorsements will speed up the payment of claims. Rule 3 and S4B(3) exemptions cannot be used to overcome time based restrictions within items e.g. "-. each test to a maximum of 4 tests in a 12 month period".

PN.5.1 Episode Cone Description of Rule 18

The term "Episode Cone" describes an arrangement under which Medicare benefits payable in a patient episode for a set of pathology services, containing more than three items, ordered by a general practitioner for a non-hospitalised patient, will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Further information on the episode coning arrangements is provided in PR.6.1.

PN.5.2 Exemptions

Some items are not included in the count of the items performed when applying episode coning. The items which have been exempted from the cone include all the items identified in Rule 18.(1)(d) and (e).

PN.6.1 Bulk Billing Incentives for Episodes Consisting of a P10 Service

The Fees for items in Group P13 are additional payments for bulk billing a patient episode consisting of a pathology service to which a Group P10 item (Pathology Episode Initiation fee) applies.

PN.6.2 Patient Episode Initiation Fees (PEIs)

Items in Groups P10 of the Pathology Services Table are only applicable to services performed:

- (i) by or on behalf of an Approved Pathology Practitioner who is a recognised specialist pathologist; and
- (ii) in private practice.

Accordingly, these fees are not payable for pathology services rendered by an Approved Pathology Practitioner, being a specialist pathologist when requested for a privately referred out-patient of a recognised hospital.

The patient episode initiation fees (PEIs) will be applicable on an episodic basis i.e. a claim may be made for the provision of pathology services requested by a practitioner in respect of one individual on the same day. For example, if a practitioner orders three pathology tests for a person on the one day, Medicare benefits will be payable for each of those tests but only one PEI will be applicable.

This Rule applies even when the treating practitioner has requested pathology tests from two or more Approved Pathology Practitioners. Thus a PEI will only be paid for the first account submitted unless an exemption listed in Rule 4 or 14.(7) applies or an exemption has been granted under "S4B(3)".

Under Rule 14.(7) two PEIs are payable in relation to the same patient episode where a referring practitioner refers two different specimens to two different Approved Pathology Authorities in the following circumstances:

- a tissue pathology specimen and any other non-tissue pathology specimen; or
- a cytopathology specimen and any other non-cytopathology specimen.

Rule 14.(8) also provides that only one PEI will be paid for the collection of specimens from a patient on one day in or by a single Approved Pathology Authority.

The patient episode initiation benefits are two-tiered. Higher benefits are paid for the collection of specimens from patients who are not private inpatients or private outpatients of a recognised hospital where the specimens are tested in a private laboratory.

A lower and uniform PEI benefit is paid where patients are private patients associated with a recognised hospital and the specimens are tested in a private laboratory or where the testing is performed by a prescribed laboratory on specimen collected from a patient eligible to claim Medicare benefits.

PN.6.3 Patient Episode Initiation Fees for Certain Tissue Pathology and Screening Items

Tissue Pathology items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72830 and 72836 and Cervical screening items 73070, 73071, 73072, 73074, 73075, 73076 will be subject to a different patient episode initiation fee structure - items 73922 to 73939 refer.

PN.6.4 Hospital, Government etc Laboratories

The following laboratories have been prescribed for the purposes of payment of Medicare benefits:

- (i) laboratories operated by the Australian Government (these include health laboratories operated by the Australian Government Department of Health and Aged Care as well as the laboratories operated by other Departments, e.g. the Departments of Defence and Veterans' Affairs operate laboratories from which pathology services are provided);
- (ii) laboratories operated by a State Government or authority of a State (laboratories operated or associated with recognised hospitals are also included);
- (iii) laboratories operated by the Northern Territory and the Australian Capital Territory; and
- (iv) laboratories operated by Australian tertiary education institutions eg Universities.

PN.7.1 Assignment of Medicare Benefits - Patient Assignment

In addition to the general arrangements relating to the assignment of benefits, as outlined at paragraph 7 of the "General Explanatory Notes" in Section 1 of this book, it should be noted that, where the treating practitioner requests pathology services but the patient does not physically attend the Approved Pathology Practitioner, the patient may complete an assignment voucher at the time of the visit to the requesting doctor offering to assign benefits for the Approved Pathology Practitioner's services.

If an Approved Pathology Practitioner refers some of the tests requested by the treating practitioner to another Approved Pathology Authority, he/she should provide the second Approved Pathology Authority with a photocopy of the patient's assignment voucher so that the second Approved Pathology Authority can also direct-bill Medicare.

PN.7.2 Approved Pathology Practitioner Eligibility

If a practitioner requests an Approved Pathology Practitioner to perform a necessary pathology service, that Approved Pathology Practitioner must personally perform the service or have it performed on his/her behalf in order to be eligible to receive benefits by way of assignment. If, however, the first Approved Pathology Practitioner arranges for the service to be rendered by a second Approved Pathology Practitioner with the same Approved Pathology Authority, the second Approved Pathology Practitioner and not the first, is eligible to receive an assignment of the Medicare benefit for the service in question.

PN.7.3 Cystic fibrosis gene testing

(1) For any particular patient, item 73345, 73347, 73348 and 73349 is applicable not more than once in a lifetime.

(2) For any particular patient, item 73346 and 73350 is applicable not more than once in a pregnancy.

(3) The testing laboratory used to undertake tests for items 73345, 73346, 73347, 73348, 73349 and 73350 must use a cystic fibrosis transmembrane conductance regulator methodology appropriate to the clinical setting with:

(a) sufficient diagnostic range and sensitivity to detect at least 95% of pathogenic cystic fibrosis transmembrane conductance regulator variants likely to be present in the patient; and

(b) with at least 25 of the most frequently encountered cystic fibrosis transmembrane conductance regulator variants in the Australian population.

PN.7.4 Intellectual disability or global developmental delay

Intellectual disability or global developmental delay of at least moderate severity, to be determined by a specialist paediatrician according to Diagnostic and Statistical Manual of Mental Disorders (DSM) criteria.

PN.7.5 'Abnormal red cell indices' for the purpose of genetic testing for thalassaemia and item 73410

'Abnormal red cell indices' refers to a mean corpuscular volume <80 fL and/or mean corpuscular haemoglobin <28 pg and haematological studies suggestive of thalassaemia.

PN.7.6 Genetic testing for the diagnosis of neuromuscular disorders (NMDs)

Where a neuromuscular disorder (NMD) is clinically suspected that is tested for using a single gene test described under items 73434 or 73435, the single gene test should be conducted prior to gene panel testing items on the Medicare Benefits Schedule (MBS).

PN.7.7 Genetic testing for the diagnosis of neuromuscular disorders (NMDs) - data reanalysis

Variants may be previously unreported because the relevant gene was not included in the original virtual panel, or because the pathogenicity of the variant has been re-classified in the interim.

PN.7.10 Somatic gene testing for the diagnosis and characterisation of gliomas - Item 73429

Testing should include, but not be restricted to, genes described in the current World Health Organization Classification of Tumours.

PN.7.11 Single gene testing for the diagnosis of heritable neuromuscular disorders - item 73434

Where a recessive variant has been identified using item 73434, reproductive partners should first be tested using item 73434, prior to gene sequencing under item 73427 where no relevant variant was detected by item 73434 and if considered appropriate, after genetic counselling.

PN.7.12 Item 73434 minimum gene list

Testing for pathogenic or likely pathogenic gene variants associated with neuromuscular disorders (item 73434) should include, but is not limited to, any one of the following genes: DMPK, CNBP, HTT, PABPN1, C9orf72, AR, SMN1, PRNP, MTND1, MT-ND4, MT-ND4L, MT-ND6, MT-TK, MT-L1, MT-ATP6, FXN, ATN1; or all five of the following genes: ATXN1, ATXN2, ATXN3, CACNA1A, ATXN7.

PN.7.13 Genetic testing for childhood hearing loss - MBS items 73440, 73441, 73443, 73444 MBS Items 73440 and 73441

When determining the genes to be assessed on the virtual panel, the list of phenotypically driven genes should be based on a recognised test directory.

MBS Items 73443 and 73444

Prior to requesting or performing these tests, the requesting practitioner or pathologist should consider if the patient has previously received equivalent testing. Testing should not be required more than:

- once per variant per lifetime, for item 73443
- once per gene per lifetime, for item 73444

Additional testing should only be performed if it is clinically relevant.

PN.7.14 Note for haematological malignancy gene panel tests

Testing should include, but not be restricted to, genes described in the current World Health Organization Classification of Haematolymphoid Tumours: Lymphoid Neoplasms or other appropriate international guidelines.

PN.7.15 Repeat testing for non-small cell lung cancer (NSCLC) by multiple methodologies

Prior to requesting or performing these tests, the requesting practitioner or pathologist should consider if the patient has already received equivalent testing under the same or another methodology in the same new diagnosis of non-small cell lung cancer (NSCLC).

Repeat testing by multiple methods in the same new diagnosis of NSCLC should only be performed if it is clinically relevant.

Items 73337, 73341, 73344 and 73436 support sequential single-gene testing for biomarkers in patients with NSCLC.

Item 73437 supports use of one next generation sequencing (NGS) panel for testing of all biomarkers supported under items 73337, 73341, 73344 and 73436.

Items 73438 and 73439 support sequential use of two NGS panels for testing of all biomarkers supported under 73337 and 73436, and 73341 and 73344 respectively.

PN.7.16 Reproductive carrier testing for cystic fibrosis, spinal muscular atrophy, and fragile X syndrome - MBS items 73451 and 73452
MBS items 73451 and 73452

Fragile X syndrome (FXS) is inherited in an X-linked dominant fashion.

The sex chromosomal pattern of a patient determines the likelihood of being a genetic carrier of FXS and the risk of FXS carriers passing on a variant(s) in the FMR1 gene that would cause their child to be born with the condition. Patients with certain sex chromosomal patterns have no risk of influencing whether their child is born with FXS, regardless of whether they are a carrier of the condition.

The intent of MBS item 73451 is to test a patient who:

- (a) is either planning a pregnancy or is already pregnant; and
- (b) if found to be a genetic carrier of fragile X syndrome, is at risk of passing on a variant(s) in the FMR1 gene that would cause their child to be born with the condition

The intent of MBS item 73452 is to test a patient who:

- (a) is the reproductive partner of the patient planning pregnancy or already pregnant tested under item 73451.
- (b) is not at risk of passing on a variant(s) in the FMR1 gene that would cause their child to be born with fragile X syndrome, regardless of whether they are a genetic carrier of the condition

The patient who is planning pregnancy or already pregnant must be tested first under MBS item 73451 prior to testing the reproductive partner patient under MBS item 73452, to ensure an informative and clinically relevant test result is obtained in the FMR1 gene.

MBS item 73451

The laboratory used to undertake reproductive carrier testing under item 73451 should use a methodology appropriate to the clinical setting with:

- (a) sufficient diagnostic range and sensitivity to detect at least 95% of pathogenic variants likely to be present in the patient; and
- (b) at least 50 of the most frequently encountered cystic fibrosis transmembrane conductance regulator variants in the Australian population.

PN.7.18 Targeted carrier testing for severe monogenic conditions - MBS item 73453

Where the couple is already pregnant and both patients are of Ashkenazi Jewish descent, concurrent testing of any partner(s) not already tested is recommended.

PN.8.1 Accredited Pathology Laboratories - Need for Accreditation

A pathology service will not attract Medicare benefits unless that service is provided in a pathology laboratory which is accredited for that kind of service. Details of the administration of the pathology laboratory accreditation arrangements are set out below.

PN.8.2 Applying for Accreditation

To become an Accredited Pathology Laboratory it is necessary to lodge a completed application form with the Manager, Pathology Section, Services Australia, PO Box 1001, TUGGERANONG ACT 2901. The prescribed fees for Approved Pathology Laboratories are:

- \$2500 for Category GX labs
- \$2000 for Category GY labs
- \$1500 for Category B labs
- \$ 750 for Category M & S labs.

It is necessary for an application for inspection be made to the National Association of Testing Authorities (NATA) NATA is the independent body chosen to act on the Australian Government's behalf as the primary inspection agency. The Royal Australian College of General Practitioners (RACGP) has also been appointed to inspect laboratories in Category M (general practitioner) in Victoria only.

Details of laboratory categories and associated supervisory requirements can be found on the Department of Health and Aged Care's internet site (www.health.gov.au/topics/pathology).

PN.8.3 Effective Period of Accreditation

Accreditation takes effect from the date of approval by the Minister for Health and Ageing. The Minister has no power to backdate an approval. Transitional accreditation may be given pending full accreditation. An application and fee are required annually.

PN.8.4 Assessment of Applications for Accreditation

The principles of accreditation for pathology laboratories as determined by the Minister are used to assess applications for accreditation. These principles also require pathology laboratories to address National Pathology Accreditation Advisory Council standards. Copies of the principles and standards are available from the Secretariat, National Pathology Accreditation Advisory Council (see PH.6) on (02) 6289 4017 or email npaac@health.gov.au.

PN.8.5 Refusal of Accreditation and Right of Review

An applicant who has been notified of the intention to refuse accreditation may, within 28 days of being notified, provide further information to the Minister which may be taken into consideration prior to a final decision being made.

Applicants refused accreditation or any person affected by the decision have the right to appeal to the Administrative Appeals Tribunal.

PN.8.6 National Pathology Accreditation Advisory Council (NPAAC)

NPAAC was established in 1979. Its functions are to develop policy for accreditation of pathology laboratories, introduce and maintain uniform standards of practice in pathology services throughout Australia and initiate and coordinate educational programs in relation to pathology practice. The agencies used to inspect laboratories on the Australian Government's behalf are required to conduct inspections using the standards set down by NPAAC. For further information the NPAAC Secretariat can be contacted on (02) 6289 4017 or email npaac@health.gov.au.

PN.8.7 Change of Address/Location

Laboratories are accredited for the particular premises given on the application form. Where a laboratory is relocated to other premises, any previously issued approvals for that Accredited Pathology Laboratory lapse. Medicare benefits are not payable for any pathology services performed at the new location until a new application has been approved by the Minister for Health and Ageing. Paragraph PH.2 sets out the method for applying for accreditation.

PN.8.8 Change of Ownership of a Laboratory

Part of the assessment of an application for an Accredited Pathology Laboratory relates to the Approved Pathology Authority status. Where the ownership, or some other material change occurs affecting the laboratory, the Minister for Health and Ageing must be provided with those changed details. Medicare benefits will not be payable for any pathology services performed on any premises other than those premises for which approval has been given.

PN.8.9 Approved Collection Centres (ACC)

New arrangements for specimen collection centres commenced on 1 December 2001 and replaced the Licensed Collection Centre (LCC) Scheme.

To enable the payment of Medicare benefits for pathology services performed on pathology specimens collected in a collection centre, the centre must first be approved. The exception to this rule is collection centres on the premises of recognised hospitals (recognised hospital in this context means the same as "recognized hospital" in Part 1 Section 3 of the *Health Insurance Act 1973*) as they do not need approval.

In order for a collection centre to be approved, a public or private Approved Pathology Authority must submit a completed application form to Services Australia including details of the type of application (renewal, new or cancellation of collection centre), the location of the premises, the owner, and any leasing arrangements.

Application forms can be accessed by going to the [Services Australia website](#). Completed application forms and any enquiries should be forwarded to Pathology Registration, PO Box 9822 MELBOURNE VIC 3001.

PN.9.1 Approved Pathology Practitioners

Introduction

A pathology service will not attract Medicare benefits unless that service is provided by or on behalf of an Approved Pathology Practitioner. (Approved Pathology Practitioners must be registered medical practitioners.) Set out below is information which relates to Approved Pathology Practitioner requirements.

PN.9.2 Applying for Acceptance of the Approved Pathology Practitioner Undertaking

To apply for acceptance of an Approved Pathology Practitioner Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Practitioner Undertaking; and
- (ii) a signed Approved Pathology Practitioner Undertaking to the Pathology Registration, Services Australia,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

Payment of Acceptance Fee

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and

(iv) there will therefore be a period during which Medicare benefits cannot be paid.

PN.9.3 Undertakings - Approved Pathology Practitioner

Consideration of Undertakings

The Minister is unable to accept an undertaking from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, amongst other things, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Practitioner.

When an undertaking has been given, the Minister may require the person giving the undertaking to provide additional information within a fixed period of time and if the person does not comply the Minister may refuse to accept the undertaking.

Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, for any of the reasons shown above, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

Effective Period of Undertaking

The following applies:

(i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;

(ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving undertakings of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;

(iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by Services Australia until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and

(iv) **Cessation of Undertaking** the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Practitioner may terminate an undertaking at any time providing that the practitioner gives at least 30 days notice of his/her intention to do so.

PN.9.4 Obligations and Responsibilities of Approved Pathology Practitioners

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Practitioners and the Minister. The more complex of these not already dealt with are considered in PK, PL and PM dealing with Breaches of Undertakings, Excessive Pathology Services and Personal Supervision.

PN.10.1 Approved Pathology Authorities

Introduction

A pathology service will not attract Medicare benefits unless the proprietor of the laboratory in which the pathology service is performed is an Approved Pathology Authority. Following is information which relates to Approved Pathology Authority requirements.

PN.10.2 Applying for Acceptance of an Approved Pathology Authority Undertaking

To apply for acceptance of an Approved Pathology Authority Undertaking, it is necessary to send:

- (i) a completed application for acceptance of an Approved Pathology Authority Undertaking; and
- (ii) a signed Approved Pathology Authority Undertaking to the Pathology Registration, Services Australia,

PO Box 9822, Melbourne Victoria 3001.

An application form, undertaking and associated literature can be obtained from the Pathology Registration Coordinator.

Payment of Acceptance Fee

On receipt of advice that the Minister has accepted an undertaking, a cheque for \$1,500 should be sent to the Pathology Registration Coordinator. Applicants are required to pay this fee within 14 days of the notice being given. As there is no discretion under the *Health Insurance Act 1973* to accept late payments, failure to pay the fee within the required time means that:

- (i) acceptance of the undertaking will be revoked;
- (ii) a new application must be completed;
- (iii) acceptance of the new undertaking cannot be backdated; and
- (iv) there will therefore be a period during which Medicare benefits cannot be paid.

PN.10.3 Undertakings - Approved Pathology Authority

Consideration of Undertakings

The Minister is unable to accept undertakings from a person in respect of whom there is a determination in force that the person has breached the undertaking, or from a person who, if the undertaking were accepted, would be likely to carry on the business of a prescribed person or would enable a person to avoid the financial consequences of the disqualification (or likely disqualification) of that prescribed person. A 'prescribed person' includes, inter alia, fully or partially disqualified persons (or persons likely to be so disqualified).

Similarly an undertaking cannot be accepted unless the Minister is satisfied that the person giving such undertaking is a fit and proper person to be an Approved Pathology Authority.

When an undertaking has been given the Minister may require the person giving the undertaking to provide additional information within a specified period of time and if the person does not comply the Minister may refuse to accept the undertaking.

Refusal of Undertaking and Rights of Review

Where the Minister refuses to accept an undertaking, the Minister must notify the person of the decision. The notification must include advice of a right of internal review of the decision and a right of further appeal to the Administrative Appeals Tribunal if the internal review upholds the original decision to refuse the undertaking.

Effective Period of Undertaking

The following applies:

- (i) **Date of Effect** the earliest day from which the Minister or delegate can accept an undertaking is the day of the decision in respect of the undertaking. The day the undertaking is signed is to be the day it is actually signed and must not be backdated;
- (ii) **Period of Effect** in determining the period of effect of the undertaking the Minister shall, unless the Minister considers that special circumstances exist, determine that the period of effect shall be twelve months from the day on which the undertaking comes into force. There is a requirement for the Minister to notify persons giving an undertaking of the period of time for which the undertaking is to have effect, and the notice is to advise persons whose interests are affected by the decision of their rights of appeal to the Administrative Appeals Tribunal against the Minister's decision;
- (iii) **Renewals** when an undertaking is given and accepted by the Minister while a former undertaking is current, the new undertaking does not take effect until the former undertaking ceases to be in force. When an undertaking is given while a former undertaking is current and the date on which the former undertaking is to expire passes without the Minister giving notice to accept or reject the new undertaking, the former undertaking remains in force until the Minister gives such notification. This provision does not apply when the renewal application is not received by Services Australia until after the expiry of the existing undertaking. Under these circumstances there will be a period during which Medicare benefits cannot be paid unless the new application can be backdated to the expiry of the previous undertaking. This is a limited discretion for periods up to one month and special conditions apply; and
- (iv) **Cessation of Undertaking** the undertaking ceases to be in force if it is terminated, if the Minister revokes acceptance of the undertaking, or if the period of effect for the undertaking expires whichever event first occurs.

An Approved Pathology Authority may terminate an undertaking at any time providing that at least 30 days notice of the intention to terminate the undertaking is given.

PN.10.4 Obligations and Responsibilities of Approved Pathology Authorities

The requirements of the legislation and the undertaking impose a number of obligations and responsibilities on Approved Pathology Authorities and the Minister. The more complex of these which have not already been covered are considered in paragraphs PK and PL dealing with Breaches of Undertakings and Excessive Pathology Services.

PN.11.1 Breaches of Undertakings

Notice Required

Where the Minister has reasonable grounds for believing that an Approved Pathology Practitioner or an Approved Pathology Authority has breached the undertaking, the Minister is required to give notice in writing to the person explaining the grounds for that belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

PN.11.2 Decisions by Minister

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively the Minister may refer the matter to a Medicare Participation Review Committee, notifying the grounds for believing that the undertaking has been breached. If after 28 days no submission has been received from the person, the Minister must refer that matter to the Committee.

PN.11.3 Appeals

The Minister is empowered to suspend an undertaking where notice has been given to a Medicare Participation Review Committee of its possible breach, pending the outcome of the Committee's proceedings. The Minister must give notice in writing to the person who provided the undertaking of the determination to suspend it, and the notice shall inform the person of a right of appeal against the determination to the Administrative Appeals Tribunal. The Minister may also publish a notice of a determination in the Public Service Gazette. Rights of appeal to the Administrative Appeals Tribunal also exist in respect of any determination made by a Medicare Participation Review Committee.

PN.12.1 Initiation of Excessive Pathology Services Notice Required

Where the Minister has reasonable grounds for believing that a person, of a specified class of persons, has initiated, or caused or permitted the initiation of excessive pathology services the Minister is required to give notice in writing to the person explaining the grounds for the belief and inviting the person to put a submission to the Minister to show cause why no further action should be taken in the matter.

PN.12.2 Classes of Persons

The classes of persons are:

- (i) the practitioner who initiated the services;
- (ii) the employer of the practitioner who caused or permitted the practitioner to initiate the services; or
- (iii) an officer of the body corporate employing the practitioner who caused or permitted the practitioner to initiate the services.

PN.12.3 Decisions by Minister for Health and Ageing

Where a person provides a submission, the Minister may decide to take no further action against the person. Alternatively, the Minister may refer the matter to a Professional Services Review (PSR) Committee, notifying the grounds for believing that excessive pathology services have been initiated. If after 28 days no submission has been received from the person, the Minister must refer the matter to the Committee. The Minister must give to the person notice in writing of the decision.

PN.12.4 Appeals

Unlike the procedures relating to breaches of undertaking there is no power given to the Minister to determine a penalty. The Minister's role is either deciding to take no further action or referring the matter to a PSR Committee. Accordingly, there are no rights of appeal to the Administrative Appeals Tribunal applicable to the above procedures. However, rights of appeal to the Administrative Appeals Tribunal exist in respect of any determination made by a Medicare Participation Review Committee.

PN.13.1 Personal Supervision Introduction

The *Health Insurance Act 1973* provides that the form of undertaking to be given by an Approved Pathology Practitioner may make provision for pathology services carried out under the personal supervision of the Approved Pathology Practitioner.

PN.13.2 Extract from Undertaking

The following is an extract from the Approved Pathology Practitioner (APP) undertaking:

Part 2 - Personal supervision

2.1 I acknowledge that it is my obligation, subject to Parts 2.2 and 2.4, personally to supervise any person who renders any service on my behalf and I undertake to accept personal responsibility for the rendering of that service under the following conditions of personal supervision:

(i) Subject to the following conditions, I will usually be physically available in the laboratory while services are being provided at the laboratory;

(ii) I may, subject to paragraph (vi) below, be physically absent from the laboratory while services are being rendered outside its normal hours of operation but in that event I will leave with the person rendering the service particulars of the manner in which I may be contacted while the service is being rendered and I must be able to personally attend at the laboratory while the service is being rendered or formally designate another APP present while I am absent;

(iii) I may, subject to paragraph (vi) below, be absent from the laboratory for brief periods due to illness or other personal necessity, or to take part in activities which, in accordance with normal and accepted practice, relate to the provision of services by that laboratory;

(iv) I will personally keep a written log of my absences from the laboratory that extend beyond one workday in respect of that laboratory and will retain that log in the laboratory for 18 months from date of last entry;

(v) If I am to be absent from the laboratory for more than 7 consecutive workdays, I will arrange for another APP to personally supervise the rendering of services in the laboratory. That arrangement shall be recorded in writing and retained in the laboratory for 18 months from date of last entry. Until such person is appointed, and his or her appointment is recorded in writing, I will remain personally responsible to comply with this undertaking;

(vi) If a service is being rendered on my behalf by a person who is not:

(a) a medical practitioner;

(b) a scientist; or

(c) a person having special qualifications or skills relevant to the service being rendered;

and no person in the above groups is physically present in the laboratory, then I must be physically present in the laboratory and closely supervise the rendering of the service;

(vii) I accept responsibility for taking all reasonable steps to ensure that in regard to services rendered by me or on my behalf:

(a) all persons who render services are adequately trained;

(b) all services which are to be rendered in the laboratory are allocated to persons employed by the APA and, these persons shall have appropriate qualifications and experience to render the services;

(c) the methods and procedures in operation in the laboratory for the purpose of rendering services are in accordance with proper and correct practices;

(d) for services rendered, proper quality control methods are established and reviewed to ensure their reliability and effectiveness; and

(e) results of services and tests rendered are accurately recorded and sent to the treating practitioner and, where applicable, a referring practitioner;

(viii) If I perform, or there is performed on my behalf, a service which consists of the analysis of a specimen which I know, or have reason to believe, has been taken other than in accordance with the provisions of section 16A(5AA) of the Act I will endorse, or cause to be endorsed, on the assignment form or the account for that service,

as the case may be, particulars of the circumstances in which I believe, or have reason to believe, the specimen was taken.

2.2 Where services are to be rendered on my behalf in a Category B laboratory as defined in the *Health Insurance (Accredited Pathology Laboratories - Approval) Principles 2002*, I undertake to take all reasonable measures to ensure that the service is rendered under the supervision of an appropriate person as required by those Principles as in force from time to time.

2.3 I acknowledge to the best of my ability that any act or omission by a person, when acting with my authority, whether express or implied, that would, had it been done by me, have resulted in a breach of this undertaking, constitutes a breach of this undertaking by me.

2.4 Parts 2.1(i) to 2.1(vi) and 2.2 of this undertaking do not apply where a laboratory is limited to services (and associated equipment for those services) as detailed in Schedule 3.

PN.13.3 Notes on the Above

Part 2 of the APP Undertaking outlines the requirements for the personal supervision by an Approved Pathology Practitioner where a pathology service is rendered by another person on behalf of the APP. It should be noted that "on behalf of" does not relieve an Approved Pathology Practitioner of professional responsibility for the service or from being personally involved in the supervision of services in the laboratory.

PR.2.2 Restriction on items 66551, 73812 and 73826—timing

For any particular patient, item 66551 is applicable not more than 4 times in 12 months, either individually or in combination with a service to which item 73812 or 73826 applies.

PR.5.1 Limitation of item 72860

Item 72860 applies to a service (the relevant service) for a patient if:

- (a) the relevant service is subsequent to one or more earlier patient episodes involving:
 - (i) the rendering of services to which one or more items in Groups P5, P6 or P7 apply (other than item 72860); and
 - (ii) the collection of tissue material (either biopsy material or samples submitted for cytology) from which a tissue block was prepared; and
 - (iii) the archiving of the tissue material in formalin fixed paraffin embedded blocks; and
- (b) following the earlier patient episode or episodes, the treating practitioner determines that a service to which an item in Group P7 (which deal with genetic testing) applies is clinically necessary for the patient; and
- (c) the relevant service is rendered in a patient episode with services to which one or more items in Group P7 apply, but is not rendered in the same accredited pathology laboratory as those services.

PR.6.1 Episode Cone

The episode cone is an arrangement, described in Rule 18, which effectively places an upper limit on the number of items for which Medicare benefits are payable in a patient episode. This cone only applies to services requested by general practitioners for their non-hospitalised patients. Pathology services requested for hospital in-patients, or ordered by specialists, are not subject to these coning arrangements.

When more than 3 items are requested by a general practitioner in a patient episode, the benefits payable will be equivalent to the sum of the benefits for the three items with the highest Schedule fees. Rule 18 provides that for the two items with the highest Schedule fees, Medicare benefits will be payable for each item. The remaining items are regarded as one service for which the benefit payable will be equivalent to that for the item with the third highest Schedule fee. Where items have the same Schedule fee, their item numbers are used as an artificial means to rank them.

The episode cone will apply even when the pathology services in a patient episode are performed by 2 or more Approved Pathology Authorities, with the exception of the services listed below.

The following items are not included in the count of the items performed when applying the episode cone:

- (i) all the items in Groups P10, P11, P12 and P13;
- (ii) Cervical Screening (items 73070, 73071, 73072, 73074, 73075, 73076);
- (iii) all the items detailed at Rule 18 (e) (items 65079, 65082, 65157, 65158, 65166, 65180, 65181, 66606, 66609, 66639, 66642, 66651, 66652, 66663, 66666, 66696, 66697, 66714, 66715, 66723, 66724, 66780, 66783, 66789, 66790, 66792, 66804, 66805, 66816, 66817, 66820, 66821, 66826, 66827, 69325, 69328, 69331, 69379, 69383, 69400, 69401, 69451, 69500, 69489, 69492, 69497, 69498, 71076, 71090, 71092, 71096, 71148, 71154, 71156, 71169, 71170, 73309, 73312, 73315, 73318);
- (iv) supplementary test for Hepatitis B and Hepatitis C (item 69484); and
- (v) the carbon-labelled urea breath test to confirm or monitor *Helicobacter pylori* (item 66900).

PR.7.1 Items 73384 to 73387 (relating to pre implantation genetic testing under clause 2.7.3A of the pathology services table)—patient eligibility

A patient is eligible for a service described in any of items 73384 to 73387 only if:

- (a) the patient or the patient's reproductive partner:
 - i. has an identified gene variant which places the patient at risk of having a pregnancy affected by a Mendelian or mitochondrial disorder; or
 - ii. is at risk of an autosomal dominant disorder which places the patient at risk of having a child who develops the autosomal dominant disorder; or
 - iii. has a chromosome re-arrangement or copy number variant which places the patient at risk of having a pregnancy affected by a chromosome disorder; and
- (b) there is no curative treatment for the disorder and there is severe limitation of quality of life despite contemporary management of the disorder; and
- (c) the patient has previously had a consultation, with a specialist or consultant physician practising as a clinical geneticist, that included a discussion about the disorder.

PR.7.2 Restriction on item 73290—conjunction with item 73391

2.7.1B Restriction on item 73290—conjunction with item 73391

Item 73290 applies to a service described in that item only if the service is not performed in conjunction with a service described in item 73391.

PR.7.3 Restriction on item 73287—conjunction with item 73388

2.7.1A Restriction on item 73287—conjunction with item 73388

Item 73287 applies to a service described in that item only if the service is not performed in conjunction with a service described in item 73388.

PR.9.1 Quality Assurance in Aboriginal Medical Services (QAAMS) Program items

Item numbers 73839, 73840 and 73844 can only be performed in the following circumstances:

- a) the service is rendered by or on behalf of a medical practitioner;
- b) the practitioner referred to in paragraph (a), or the organisation for which the practitioner works, is participating in the Quality Assurance in Aboriginal Medical Services Program; and
- c) the service is provided in accordance with that Program; and
- d) the practitioner referred to in paragraph (a) has determined the service to be necessary for his or her patient.

PR.9.3 Limitation of item 73826

Item 73826 does not apply to a service provided to a patient who has already been provided, in the last 12 months, 4 other services to which any of the following apply:

- a. item 73826;
- b. item 66551;
- c. item 73812.

PR.9.4 Limitation of item 73812

Item 73812 does not apply to a service provided to a patient who has already been provided, in the last 12 months, 4 other services to which any of the following apply:

- a. item 73812;
- b. item 66551;
- c. item 73826.

PATHOLOGY SERVICES ITEMS

P1. HAEMATOLOGY	
	Group P1. Haematology
65060	Haemoglobin, erythrocyte sedimentation rate, blood viscosity - 1 or more tests (See para PN.0.33, PN.1.1 of explanatory notes to this Category) Fee: \$7.85 Benefit: 75% = \$5.90 85% = \$6.70
65066	Examination of: (a) a blood film by special stains to demonstrate Heinz bodies, parasites or iron; or (b) a blood film by enzyme cytochemistry for neutrophil alkaline phosphatase, alpha-naphthyl acetate esterase or chloroacetate esterase; or (c) a blood film using any other special staining methods including periodic acid Schiff and Sudan Black; or (d) a urinary sediment for haemosiderin including a service described in item 65072 Fee: \$10.40 Benefit: 75% = \$7.80 85% = \$8.85
65070	Erythrocyte count, haematocrit, haemoglobin, calculation or measurement of red cell index or indices, platelet count, leucocyte count and manual or instrument generated differential count - not being a service where haemoglobin only is requested - one or more instrument generated sets of results from a single sample; and (if performed) (a) a morphological assessment of a blood film; (b) any service in item 65060 or 65072 Fee: \$16.95 Benefit: 75% = \$12.75 85% = \$14.45
65072	Examination for reticulocytes including a reticulocyte count by any method - 1 or more tests Fee: \$10.20 Benefit: 75% = \$7.65 85% = \$8.70
65075	Haemolysis or metabolic enzymes - assessment by: (a) erythrocyte autohaemolysis test; or (b) erythrocyte osmotic fragility test; or (c) sugar water test; or (d) G-6-P D (qualitative or quantitative) test; or (e) pyruvate kinase (qualitative or quantitative) test; or (f) acid haemolysis test; or (g) quantitation of muramidase in serum or urine; or (h) Donath Landsteiner antibody test; or

P1. HAEMATOLOGY	
	<p>(i) other erythrocyte metabolic enzyme tests</p> <p>1 or more tests</p> <p>Fee: \$51.95 Benefit: 75% = \$39.00 85% = \$44.20</p>
65078	<p>Tests for the diagnosis of thalassaemia consisting of haemoglobin electrophoresis or chromatography and at least 2 of:</p> <p>(a) examination for HbH; or</p> <p>(b) quantitation of HbA₂; or</p> <p>(c) quantitation of HbF;</p> <p>including (if performed) any service described in item 65060 or 65070</p> <p>Fee: \$90.20 Benefit: 75% = \$67.65 85% = \$76.70</p>
65079	<p>Tests described in item 65078 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$90.20 Benefit: 75% = \$67.65 85% = \$76.70</p>
65081	<p>Tests for the investigation of haemoglobinopathy consisting of haemoglobin electrophoresis or chromatography and at least 1 of:</p> <p>(a) heat denaturation test; or</p> <p>(b) isopropanol precipitation test; or</p> <p>(c) tests for the presence of haemoglobin S; or</p> <p>(d) quantitation of any haemoglobin fraction (including S, C, D, E);</p> <p>including (if performed) any service described in item 65060, 65070 or 65078</p> <p>Fee: \$96.60 Benefit: 75% = \$72.45 85% = \$82.15</p>
65082	<p>Tests described in item 65081 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$96.60 Benefit: 75% = \$72.45 85% = \$82.15</p>
65084	<p>Bone marrow trephine biopsy - histopathological examination of sections of bone marrow and examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p>Fee: \$165.85 Benefit: 75% = \$124.40 85% = \$141.00</p>
65087	<p>Bone marrow - examination of aspirated material (including clot sections where necessary), including (if performed):</p> <p>any test described in item 65060, 65066 or 65070</p> <p>Fee: \$83.10 Benefit: 75% = \$62.35 85% = \$70.65</p>
65090	<p>Blood grouping (including back-grouping if performed) - ABO and Rh (D antigen)</p> <p>(See para PN.0.33, PN.1.1 of explanatory notes to this Category)</p>

P1. HAEMATOLOGY	
	Fee: \$11.15 Benefit: 75% = \$8.40 85% = \$9.50
65093	Blood grouping - Rh phenotypes, Kell system, Duffy system, M and N factors or any other blood group system - 1 or more systems, including item 65090 (if performed) Fee: \$22.00 Benefit: 75% = \$16.50 85% = \$18.70
65096	Blood grouping (including back-grouping if performed), and examination of serum for Rh and other blood group antibodies, including: (a) identification and quantitation of any antibodies detected; and (b) (if performed) any test described in item 65060 or 65070 (See para PN.1.1 of explanatory notes to this Category) Fee: \$41.00 Benefit: 75% = \$30.75 85% = \$34.85
65099	Compatibility tests by crossmatch - all tests performed on any 1 day for up to 6 units, including: (a) direct testing of donor red cells from each unit against the serum of the patient by one or more accepted crossmatching techniques; and (b) all grouping checks of the patient and donor; and (c) examination for antibodies, and if necessary identification of any antibodies detected; and (d) (if performed) any tests described in item 65060, 65070, 65090 or 65096 (Item is subject to rule 5) Fee: \$108.90 Benefit: 75% = \$81.70 85% = \$92.60
65102	Compatibility tests by crossmatch - all tests performed on any 1 day in excess of 6 units, including: (a) direct testing of donor red cells from each unit against serum of the patient by one or more accepted crossmatching techniques; and (b) all grouping checks of the patient and donor; and (c) examination for antibodies, and if necessary identification of any antibodies detected; and (d) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105 (Item is subject to rule 5) Fee: \$164.60 Benefit: 75% = \$123.45 85% = \$139.95
65105	Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day for up to 6 units, including: (a) all grouping checks of the patient and donor; and (b) examination for antibodies and, if necessary, identification of any antibodies detected; and (c) (if performed) any tests described in item 65060, 65070, 65090 or 65096 (Item is subject to rule 5) Fee: \$108.90 Benefit: 75% = \$81.70 85% = \$92.60

P1. HAEMATOLOGY

65108	<p>Compatibility testing using at least a 3 cell panel and issue of red cells for transfusion - all tests performed on any one day in excess of 6 units, including:</p> <p>(a) all grouping checks of the patient and donor; and</p> <p>(b) examination for antibodies and, if necessary, identification of any antibodies detected; and</p> <p>(c) (if performed) any tests described in item 65060, 65070, 65090, 65096, 65099 or 65105</p> <p>(Item is subject to rule 5)</p> <p>Fee: \$164.60 Benefit: 75% = \$123.45 85% = \$139.95</p>
65109	<p>Release of fresh frozen plasma or cryoprecipitate for the use in a patient for the correction of a coagulopathy - 1 release.</p> <p>Fee: \$12.90 Benefit: 75% = \$9.70 85% = \$11.00</p>
65110	<p>Release of compatible fresh platelets for the use in a patient for platelet support as prophylaxis to minimize bleeding or during active bleeding - 1 release.</p> <p>Fee: \$12.90 Benefit: 75% = \$9.70 85% = \$11.00</p>
65111	<p>Examination of serum for blood group antibodies (including identification and, if necessary, quantitation of any antibodies detected)</p> <p>Fee: \$23.20 Benefit: 75% = \$17.40 85% = \$19.75</p>
65114	<p>1 or more of the following tests:</p> <p>(a) direct Coombs (antiglobulin) test;</p> <p>(b) qualitative or quantitative test for cold agglutinins or heterophil antibodies</p> <p>Fee: \$9.10 Benefit: 75% = \$6.85 85% = \$7.75</p>
65117	<p>1 or more of the following tests:</p> <p>(a) Spectroscopic examination of blood for chemically altered haemoglobins;</p> <p>(b) detection of methaemalbumin (Schumm's test)</p> <p>Fee: \$20.25 Benefit: 75% = \$15.20 85% = \$17.25</p>
65120	<p>Prothrombin time (including INR where appropriate), activated partial thromboplastin time, thrombin time (including test for the presence of heparin), test for factor XIII deficiency (qualitative), Echis test, Styppen test, reptilase time, fibrinogen, or 1 of fibrinogen degradation products, fibrin monomer or D-dimer - 1 test</p> <p>Fee: \$13.70 Benefit: 75% = \$10.30 85% = \$11.65</p>
65123	<p>2 tests described in item 65120</p> <p>Fee: \$20.35 Benefit: 75% = \$15.30 85% = \$17.30</p>
65126	<p>3 tests described in item 65120</p> <p>Fee: \$27.85 Benefit: 75% = \$20.90 85% = \$23.70</p>
65129	<p>4 or more tests described in item 65120</p> <p>(See para PN.0.28 of explanatory notes to this Category)</p>

P1. HAEMATOLOGY	
	Fee: \$35.50 Benefit: 75% = \$26.65 85% = \$30.20
65137	Test for the presence of lupus anticoagulant not being a service associated with any service to which items 65175, 65176, 65177, 65178 and 65179 apply Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55
65142	Confirmation or clarification of an abnormal or indeterminate result from a test described in item 65175, by testing a specimen collected on a different day - 1 or more tests Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55
65144	Platelet aggregation in response to ADP, collagen, 5HT, ristocetin or other substances; or heparin, low molecular weight heparins, heparinoid or other drugs - 1 or more tests Fee: \$56.55 Benefit: 75% = \$42.45 85% = \$48.10
65147	Quantitation of anti-Xa activity when monitoring is required for a patient receiving a low molecular weight heparin or heparinoid - 1 test Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
65150	Quantitation of von Willebrand factor antigen, von Willebrand factor activity (ristocetin cofactor assay), von Willebrand factor collagen binding activity, factor II, factor V, factor VII, factor VIII, factor IX, factor X, factor XI, factor XII, factor XIII, Fletcher factor, Fitzgerald factor, circulating coagulation factor inhibitors other than by Bethesda assay - 1 test (Item is subject to rule 6) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65153	2 tests described in item 65150 (Item is subject to rule 6) Fee: \$141.85 Benefit: 75% = \$106.40 85% = \$120.60
65156	3 or more tests described in item 65150 (Item is subject to rule 6) Fee: \$212.75 Benefit: 75% = \$159.60 85% = \$180.85
65157	A test described in item 65150, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65158	Tests described in item 65150, other than that described in 65157, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18) Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65159	Quantitation of circulating coagulation factor inhibitors by Bethesda assay - 1 test Fee: \$70.90 Benefit: 75% = \$53.20 85% = \$60.30
65162	Examination of a maternal blood film for the presence of fetal red blood cells (Kleihauer test) Fee: \$10.45 Benefit: 75% = \$7.85 85% = \$8.90

P1. HAEMATOLOGY	
65165	<p>Detection and quantitation of fetal red blood cells in the maternal circulation by detection of red cell antigens using flow cytometric methods including (if performed) any test described in item 65070 or 65162</p> <p>Fee: \$34.45 Benefit: 75% = \$25.85 85% = \$29.30</p>
65166	<p>A test described in item 65165 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p> <p>Fee: \$34.45 Benefit: 75% = \$25.85 85% = \$29.30</p>
65171	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency or activated protein C resistance in a first degree relative of a person who has a proven defect of any of the above - 1 or more tests</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65175	<p>Test for the presence of antithrombin III deficiency, protein C deficiency, protein S deficiency, lupus anticoagulant, activated protein C resistance - where the request for the test(s) specifically identifies that the patient has a history of venous thromboembolism - quantitation by 1 or more techniques - 1 test (Item is subject to Rule 6)</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65176	<p>2 tests described in item 65175 (Item is subject to rule 6)</p> <p>Fee: \$48.65 Benefit: 75% = \$36.50 85% = \$41.40</p>
65177	<p>3 tests described in item 65175 (Item is subject to rule 6)</p> <p>Fee: \$71.95 Benefit: 75% = \$54.00 85% = \$61.20</p>
65178	<p>4 tests described in item 65175 (Item is subject to rule 6)</p> <p>Fee: \$95.20 Benefit: 75% = \$71.40 85% = \$80.95</p>
65179	<p>5 tests described in item 65175 (Item is subject to rule 6)</p> <p>Fee: \$118.50 Benefit: 75% = \$88.90 85% = \$100.75</p>
65180	<p>A test described in item 65175, if rendered by a receiving APA, where no tests in the item have been rendered by the referring APA - 1 test (Item is subject to rule 6 and 18)</p> <p>Fee: \$25.35 Benefit: 75% = \$19.05 85% = \$21.55</p>
65181	<p>A test described in item 65175, if rendered by a receiving APP, if one or more tests described in the item have been rendered by the referring APP - one test (Item is subject to rule 6 and 18)</p>

P1. HAEMATOLOGY	
	Fee: \$23.30 Benefit: 75% = \$17.50 85% = \$19.85
P2. CHEMICAL	
	Group P2. Chemical
	Quantitation in serum, plasma, urine or other body fluid (except amniotic fluid), by any method except reagent tablet or reagent strip (with or without reflectance meter) of: acid phosphatase, alanine aminotransferase, albumin, alkaline phosphatase, ammonia, amylase, aspartate aminotransferase, bicarbonate, bilirubin (total), bilirubin (any fractions), C-reactive protein, calcium (total or corrected for albumin), chloride, creatine kinase, creatinine, gamma glutamyl transferase, globulin, glucose, lactate dehydrogenase, lipase, magnesium, phosphate, potassium, sodium, total protein, total cholesterol, triglycerides, urate or urea - 1 test
66500	Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
	2 tests described in item 66500
66503	Fee: \$11.65 Benefit: 75% = \$8.75 85% = \$9.95
	3 tests described in item 66500
66506	Fee: \$13.65 Benefit: 75% = \$10.25 85% = \$11.65
	4 tests described in item 66500
66509	Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35
	5 or more tests described in item 66500
66512	Fee: \$17.70 Benefit: 75% = \$13.30 85% = \$15.05
	Quantitation of bile acids in blood in pregnancy. Applicable not more than 3 times in a pregnancy.
66517	Fee: \$19.65 Benefit: 75% = \$14.75 85% = \$16.75
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 1 specimen in a 24 hour period
66518	Fee: \$20.05 Benefit: 75% = \$15.05 85% = \$17.05
	Investigation of cardiac or skeletal muscle damage by quantitative measurement of creatine kinase isoenzymes, troponin or myoglobin in blood - testing on 2 or more specimens in a 24 hour period
66519	Fee: \$40.15 Benefit: 75% = \$30.15 85% = \$34.15
	Faecal calprotectin test for the diagnosis of inflammatory bowel disease, if all the following apply: <ul style="list-style-type: none"> a. the patient is under 50 years of age; b. the patient has gastrointestinal symptoms suggestive of inflammatory or functional bowel disease of more than 6 weeks' duration; c. infectious causes have been excluded; d. the likelihood of malignancy has been assessed as low; e. no relevant clinical alarms are present
66522	Fee: \$75.00 Benefit: 75% = \$56.25 85% = \$63.75
66523	Faecal calprotectin test for the diagnosis of inflammatory bowel disease, if all the following apply:

P2. CHEMICAL	
	<p>a. the results of a service to which item 66522 applies were inconclusive for the patient (that is, the results showed a faecal calprotectin level of more than 50 µg/g but not more than 100 µg/g);</p> <p>b. the patient has ongoing gastrointestinal symptoms suggestive of inflammatory or functional bowel disease;</p> <p>c. the service is requested by a specialist or consultant physician practising as a specialist gastroenterologist;</p> <p>d. the request indicates that an endoscopic examination is not initially required;</p> <p>e. no relevant clinical alarms are present</p> <p>Fee: \$75.00 Benefit: 75% = \$56.25 85% = \$63.75</p>
66536	<p>Quantitation of HDL cholesterol</p> <p>Fee: \$11.05 Benefit: 75% = \$8.30 85% = \$9.40</p>
66539	<p>Electrophoresis of serum for demonstration of lipoprotein subclasses, if the cholesterol is >6.5 mmol/L and triglyceride >4.0 mmol/L or in the diagnosis of types III and IV hyperlipidaemia - (Item is subject to rule 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66542	<p>Oral glucose tolerance test for the diagnosis of diabetes mellitus that includes:</p> <p>(a) administration of glucose; and</p> <p>(b) at least 2 measurements of blood glucose; and</p> <p>(c) (if performed) any test described in item 66695</p> <p>Fee: \$18.95 Benefit: 75% = \$14.25 85% = \$16.15</p>
66545	<p>Oral glucose challenge test in pregnancy for the detection of gestational diabetes that includes:</p> <p>(a) administration of glucose; and</p> <p>(b) 1 or 2 measurements of blood glucose; and</p> <p>(c) (if performed) any test in item 66695</p> <p>Fee: \$15.80 Benefit: 75% = \$11.85 85% = \$13.45</p>
66548	<p>Oral glucose tolerance test in pregnancy for the diagnosis of gestational diabetes that includes:</p> <p>(a) administration of glucose; and</p> <p>(b) at least 3 measurements of blood glucose; and</p> <p>(c) any test in item 66695 (if performed)</p> <p>Fee: \$19.90 Benefit: 75% = \$14.95 85% = \$16.95</p>
66551	<p>Quantitation of glycated haemoglobin performed in the management of established diabetes</p> <p>(See para PR.2.2 of explanatory notes to this Category)</p> <p>(See para PR.2.2 of explanatory notes to this Category)</p> <p>Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30</p>

P2. CHEMICAL	
66554	Quantitation of glycated haemoglobin performed in the management of pre-existing diabetes where the patient is pregnant - including a service in item 66551 (if performed) - (Item is subject to rule 25) Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
66557	Quantitation of fructosamine performed in the management of established diabetes - each test to a maximum of 4 tests in a 12 month period Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
66560	Microalbumin - quantitation in urine Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
66563	Osmolality, estimation by osmometer, in serum or in urine - 1 or more tests Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00
66566	Quantitation of: (a) blood gases (including pO ₂ , oxygen saturation and pCO ₂) ; and (b) bicarbonate and pH; including any other measurement (eg. haemoglobin, lactate, potassium or ionised calcium) or calculation performed on the same specimen - 1 or more tests on 1 specimen Fee: \$33.70 Benefit: 75% = \$25.30 85% = \$28.65
66569	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 2 specimens performed within any 1 day Fee: \$42.60 Benefit: 75% = \$31.95 85% = \$36.25
66572	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 3 specimens performed within any 1 day Fee: \$51.55 Benefit: 75% = \$38.70 85% = \$43.85
66575	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 4 specimens performed within any 1 day Fee: \$60.45 Benefit: 75% = \$45.35 85% = \$51.40
66578	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 5 specimens performed within any 1 day Fee: \$69.35 Benefit: 75% = \$52.05 85% = \$58.95
66581	Quantitation of blood gases, bicarbonate and pH as described in item 66566 on 6 or more specimens performed within any 1 day Fee: \$78.25 Benefit: 75% = \$58.70 85% = \$66.55
66584	Quantitation of ionised calcium (except if performed as part of item 66566) - 1 test Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25
66585	Quantification of laboratory-based BNP or NT-proBNP testing in a patient with systemic sclerosis (scleroderma) to assess risk of pulmonary arterial hypertension

P2. CHEMICAL	
	<p>Maximum of 2 tests in a 12 month period</p> <p>(See para PN.2.5 of explanatory notes to this Category) Fee: \$58.50 Benefit: 75% = \$43.90 85% = \$49.75</p>
66587	<p>Urine acidification test for the diagnosis of renal tubular acidosis including the administration of an acid load, and pH measurements on 4 or more urine specimens and at least 1 blood specimen</p> <p>Fee: \$47.55 Benefit: 75% = \$35.70 85% = \$40.45</p>
66590	<p>Calculus, analysis of 1 or more</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66593	<p>Ferritin - quantitation, except if requested as part of iron studies</p> <p>Fee: \$18.00 Benefit: 75% = \$13.50 85% = \$15.30</p>
66596	<p>Iron studies, consisting of quantitation of:</p> <p>(a) serum iron; and</p> <p>(b) transferrin or iron binding capacity; and</p> <p>(c) ferritin</p> <p>Fee: \$32.55 Benefit: 75% = \$24.45 85% = \$27.70</p>
66605	<p>Vitamins - quantitation of vitamins B1, B2, B3, B6 or C in blood, urine or other body fluid - 1 or more tests</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66606	<p>A test described in item 66605 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18 and 25)</p> <p>Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05</p>
66607	<p>Vitamins - quantitation of vitamins A or E in blood, urine or other body fluid - 1 or more tests within a 6 month period</p> <p>Fee: \$75.75 Benefit: 75% = \$56.85 85% = \$64.40</p>
66610	<p>A test described in item 66607 if rendered by a receiving APP - 1 or more tests</p> <p>Fee: \$75.75 Benefit: 75% = \$56.85 85% = \$64.40</p>
66623	<p>All qualitative and quantitative tests on blood, urine or other body fluid for:</p> <p>(a) a drug or drugs of abuse (including illegal drugs and legally available drugs taken other than in appropriate dosage); or</p> <p>(b) ingested or absorbed toxic chemicals;</p> <p>including a service described in item 66800, 66803, 66806, 66812 or 66815 (if performed), but excluding:</p> <p>(c) the surveillance of sports people and athletes for performance improving substances; and</p>

P2. CHEMICAL	
	(d) the monitoring of patients participating in a drug abuse treatment program Fee: \$41.50 Benefit: 75% = \$31.15 85% = \$35.30
66626	Detection or quantitation or both (not including the detection of nicotine and metabolites in smoking withdrawal programs) of a drug, or drugs, of abuse or a therapeutic drug, on a sample collected from a patient participating in a drug abuse treatment program; but excluding the surveillance of sports people and athletes for performance improving substances; including all tests on blood, urine or other body fluid (Item is subject to rule 25) Fee: \$24.10 Benefit: 75% = \$18.10 85% = \$20.50
66629	Beta-2-microglobulin - quantitation in serum, urine or other body fluids - 1 or more tests Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
66632	Caeruloplasmin, haptoglobins, or prealbumin - quantitation in serum, urine or other body fluids - 1 or more tests Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
66635	Alpha-1-antitrypsin - quantitation in serum, urine or other body fluid - 1 or more tests Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10
66638	Isoelectric focussing or similar methods for determination of alpha-1-antitrypsin phenotype in serum - 1 or more tests Fee: \$49.05 Benefit: 75% = \$36.80 85% = \$41.70
66639	A test described in item 66638 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
66641	Electrophoresis of serum or other body fluid to demonstrate: (a) the isoenzymes of lactate dehydrogenase; or (b) the isoenzymes of alkaline phosphatase; including the preliminary quantitation of total relevant enzyme activity - 1 or more tests Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
66642	A test described in item 66641 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$29.20 Benefit: 75% = \$21.90 85% = \$24.85
66644	C-1 esterase inhibitor - quantitation Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
66647	C-1 esterase inhibitor - functional assay Fee: \$45.10 Benefit: 75% = \$33.85 85% = \$38.35

P2. CHEMICAL	
66650	<p>Alpha-fetoprotein, CA-15.3 antigen (CA15.3), CA-125 antigen (CA125), CA-19.9 antigen (CA19.9), cancer associated serum antigen (CASA), carcinoembryonic antigen (CEA), human chorionic gonadotrophin (HCG), neuron specific enolase (NSE), thyroglobulin in serum or other body fluid, in the monitoring of malignancy or in the detection or monitoring of hepatic tumours, gestational trophoblastic disease or germ cell tumour - quantitation - 1 test</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$24.35 Benefit: 75% = \$18.30 85% = \$20.70</p>
66651	<p>A test described in item 66650 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$24.35 Benefit: 75% = \$18.30 85% = \$20.70</p>
66652	<p>A test described in item 66650 if rendered by a receiving APP - other than that described in 66651, if rendered by a receiving APP, 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$20.30 Benefit: 75% = \$15.25 85% = \$17.30</p>
66653	<p>2 or more tests described in item 66650</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$44.60 Benefit: 75% = \$33.45 85% = \$37.95</p>
66654	<p>Prostate specific antigen – quantitation in the monitoring of high-risk patients</p> <p>For any particular patient, applicable not more than once in 11 months</p> <p>Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15</p>
66655	<p>Prostate specific antigen—quantitation</p> <p>For any particular patient, applicable not more than once in 23 months</p> <p>Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15</p>
66656	<p>Prostate specific antigen (PSA) quantitation in the monitoring of previously diagnosed prostatic disease (including prostate cancer, prostatitis or a premalignant condition such as atypical small acinar proliferation)</p> <p>Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15</p>
66659	<p>Prostate specific antigen (PSA), quantitation of 2 or more fractions of PSA and any derived index, including, if performed, a test described in item 66656, in the follow up of a PSA result under item 66654 or 66655 that lies at:</p> <p>(a) more than 2.0 ug/L but less than or equal to 5.5 ug/L for patients with a family history of prostate cancer; or</p> <p>(b) more than 3.0 ug/L but less than or equal to 5.5 ug/L for patients who are at least 50 years of age but under 70 years of age; or</p> <p>(c) more than 5.5 ug/L but less than or equal to 10.0 ug/L for patients who are at least 70 years of age</p>

P2. CHEMICAL	
	For any particular patient, applicable not more than once in 11 months Fee: \$37.30 Benefit: 75% = \$28.00 85% = \$31.75
66660	Prostate specific antigen (PSA), quantitation of 2 or more fractions of PSA and any derived index, in the monitoring of previously diagnosed prostatic disease, including, if performed, a test described in item 66656, if the current PSA level lies at: (a) more than 2.0 ug/L but less than or equal to 5.5 ug/L for patients with a family history of prostate cancer; or (b) more than 3.0 ug/L but less than or equal to 5.5 ug/L for patients who are at least 50 years of age but under 70 years of age; or (c) more than 5.5 ug/L but less than or equal to 10.0 ug/L for patients who are at least 70 years of age For any particular patient, applicable not more than 4 times in 11 months Fee: \$37.30 Benefit: 75% = \$28.00 85% = \$31.75
66662	Quantitation of hormone receptors on proven primary breast or ovarian carcinoma or a metastasis from a breast or ovarian carcinoma or a subsequent lesion in the breast - 1 or more tests Fee: \$79.95 Benefit: 75% = \$60.00 85% = \$68.00
66663	A test described in item 66662 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$79.95 Benefit: 75% = \$60.00 85% = \$68.00
66665	Lead quantitation in blood or urine (other than for occupational health screening purposes) to a maximum of 3 tests in a 6 month period - each test Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66666	A test described in item 66665 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66667	Quantitation of serum zinc in a patient receiving intravenous alimentation - each test Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66671	Quantitation of serum aluminium in a patient in a renal dialysis program - each test Fee: \$36.90 Benefit: 75% = \$27.70 85% = \$31.40
66674	Quantitation of: (a) faecal fat; or (b) breath hydrogen in response to loading with disaccharides; 1 or more tests within a 28 day period Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00

P2. CHEMICAL	
66677	<p>Test for tryptic activity in faeces in the investigation of diarrhoea of longer than 4 weeks duration in children under 6 years old</p> <p>Fee: \$11.15 Benefit: 75% = \$8.40 85% = \$9.50</p>
66680	<p>Quantitation of disaccharidases and other enzymes in intestinal tissue - 1 or more tests</p> <p>Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30</p>
66683	<p>Enzymes - quantitation in solid tissue or tissues other than blood elements or intestinal tissue - 1 or more tests</p> <p>Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30</p>
66686	<p>Performance of 1 or more of the following procedures:</p> <ul style="list-style-type: none"> (a) growth hormone suppression by glucose loading; (b) growth hormone stimulation by exercise; (c) dexamethasone suppression test; (d) sweat collection by iontophoresis for chloride analysis; (e) pharmacological stimulation of growth hormone <p>Fee: \$50.65 Benefit: 75% = \$38.00 85% = \$43.10</p>
66695	<p>Quantitation in blood or urine of hormones and hormone binding proteins - ACTH, aldosterone, androstenedione, C-peptide, calcitonin, cortisol, DHEAS, 11-deoxycortisol, dihydrotestosterone, FSH, gastrin, glucagon, growth hormone, hydroxyprogesterone, insulin, LH, oestradiol, oestrone, progesterone, prolactin, PTH, renin, sex hormone binding globulin, somatomedin C(IGF-1), free or total testosterone, urine steroid fraction or fractions, vasoactive intestinal peptide, - 1 test</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95</p>
66696	<p>A test described in item 66695, if rendered by a receiving APP - where no tests in the item have been rendered by the referring APP</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95</p>
66697	<p>Tests described in item 66695, other than that described in 66696, if rendered by a receiving APP - each test to a maximum of 4 tests</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$13.20 Benefit: 75% = \$9.90 85% = \$11.25</p>
66698	<p>2 tests described in item 66695</p> <p>(Item is subject to rule 6)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p>

P2. CHEMICAL	
	Fee: \$43.70 Benefit: 75% = \$32.80 85% = \$37.15
66701	3 tests described in item 66695 (Item is subject to rule 6) (See para TN.1.4 of explanatory notes to this Category) Fee: \$56.90 Benefit: 75% = \$42.70 85% = \$48.40
66704	4 tests described in item 66695 (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6) (See para TN.1.4 of explanatory notes to this Category) Fee: \$70.15 Benefit: 75% = \$52.65 85% = \$59.65
66707	5 or more tests described in item 66695 (Item is subject to rule 6) (See para TN.1.4 of explanatory notes to this Category) Fee: \$83.35 Benefit: 75% = \$62.55 85% = \$70.85
66711	Quantitation in saliva of cortisol in: (a) the investigation of Cushing's syndrome; or (b) the management of children with congenital adrenal hyperplasia (Item is subject to rule 6) Fee: \$30.15 Benefit: 75% = \$22.65 85% = \$25.65
66712	Two tests described in item 66711 (Item is subject to rule 6) Fee: \$43.05 Benefit: 75% = \$32.30 85% = \$36.60
66714	A test described in item 66711, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP (Item is subject to rule 6 and 18) Fee: \$30.15 Benefit: 75% = \$22.65 85% = \$25.65
66715	Tests described in item 66711, other than that described in 66714, if rendered by a receiving APP, each test to a maximum of 1 test

P2. CHEMICAL	
	(Item is subject to rule 6 and 18) Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95
66716	TSH quantitation Fee: \$25.05 Benefit: 75% = \$18.80 85% = \$21.30
66719	Thyroid function tests (comprising the service described in item 66716 and either or both of a test for free thyroxine and a test for free T3) for a patient, if: <p>(a) the patient has a level of TSH that is outside the normal reference range for the particular method of assay used to determine the level; or</p> <p>(b) the request from the requesting medical practitioner indicates that the tests are performed: <p>(i) for the purpose of monitoring thyroid disease in the patient; or</p> <p>(ii) to investigate the sick euthyroid syndrome if the patient is an admitted patient; or</p> <p>(iii) to investigate dementia or psychiatric illness of the patient; or</p> <p>(iv) to investigate amenorrhoea or infertility of the patient; or</p> <p>(c) the request from the requesting medical practitioner indicates that the medical practitioner suspects the patient has a pituitary dysfunction; or</p> <p>(d) the request from the requesting medical practitioner indicates that the patient is on drugs that interfere with thyroid hormone metabolism or function</p> Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60</p>
66722	TSH quantitation described in item 66716 and 1 test described in item 66695 (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6) Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
66723	Tests described in item 66722, that is, TSH quantitation and 1 test described in 66695, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$37.90 Benefit: 75% = \$28.45 85% = \$32.25
66724	Tests described in item 66722, if rendered by a receiving APP, other than that described in 66723. It is to include a quantitation of TSH - each test to a maximum of 4 tests described in item 66695 (Item is subject to rule 6 and 18) Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20
66725	TSH quantitation described in item 66716 and 2 tests described in item 66695

P2. CHEMICAL

	<p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 tests specified on the request form or performs 3 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$51.05 Benefit: 75% = \$38.30 85% = \$43.40</p>
66728	<p>TSH quantitation described in item 66716 and 3 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 tests specified on the request form or performs 4 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$64.20 Benefit: 75% = \$48.15 85% = \$54.60</p>
66731	<p>TSH quantitation described in item 66716 and 4 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 tests specified on the request form or performs 5 tests and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$77.40 Benefit: 75% = \$58.05 85% = \$65.80</p>
66734	<p>TSH quantitation described in item 66716 and 5 tests described in item 66695</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs 6 or more tests specified on the request form)</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$90.55 Benefit: 75% = \$67.95 85% = \$77.00</p>
66743	<p>Quantitation of alpha-fetoprotein in serum or other body fluids during pregnancy except if requested as part of items 66750 or 66751</p> <p>Fee: \$20.10 Benefit: 75% = \$15.10 85% = \$17.10</p>
66749	<p>Amniotic fluid, spectrophotometric examination of, and quantitation of:</p> <ul style="list-style-type: none">(a) lecithin/sphingomyelin ratio; or(b) palmitic acid, phosphatidylglycerol or lamellar body phospholipid; or(c) bilirubin, including correction for haemoglobin

P2. CHEMICAL	
	1 or more tests Fee: \$32.95 Benefit: 75% = \$24.75 85% = \$28.05
66750	Quantitation, in pregnancy, of any 2 of the following to detect foetal abnormality - total human chorionic gonadotrophin (total HCG), free alpha human chorionic gonadotrophin (free alpha HCG), free beta human chorionic gonadotrophin (free beta HCG), pregnancy associated plasma protein A (PAPP-A), unconjugated oestriol (uE ₃), alpha-fetoprotein (AFP) - including (if performed) a service described in item 73527 or 73529 - Applicable not more than once in a pregnancy Fee: \$39.75 Benefit: 75% = \$29.85 85% = \$33.80
66751	Quantitation, in pregnancy, of any three or more tests described in 66750 (Item is subject to rule 25) Fee: \$55.25 Benefit: 75% = \$41.45 85% = \$47.00
66752	Quantitation of acetoacetate, beta-hydroxybutyrate, citrate, oxalate, total free fatty acids, cysteine, homocysteine, cystine, lactate, pyruvate or other amino acids and hydroxyproline (except if performed as part of item 66773 or 66776) - 1 test Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00
66755	2 or more tests described in item 66752 Fee: \$38.85 Benefit: 75% = \$29.15 85% = \$33.05
66756	Quantitation of 10 or more amino acids for the diagnosis of inborn errors of metabolism - up to 4 tests in a 12 month period on specimens of plasma, CSF and urine. Fee: \$98.30 Benefit: 75% = \$73.75 85% = \$83.60
66757	Quantitation of 10 or more amino acids for monitoring of previously diagnosed inborn errors of metabolism in 1 tissue type. Fee: \$98.30 Benefit: 75% = \$73.75 85% = \$83.60
66758	Quantitation of angiotensin converting enzyme, or cholinesterase - 1 or more tests Fee: \$24.70 Benefit: 75% = \$18.55 85% = \$21.00
66761	Test for reducing substances in faeces by any method (except reagent strip or dipstick) Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20
66764	Examination for faecal occult blood (including tests for haemoglobin and its derivatives in the faeces except by reagent strip or dip stick methods) with a maximum of 3 examinations on specimens collected on separate days in a 28 day period Fee: \$8.90 Benefit: 75% = \$6.70 85% = \$7.60
66767	2 examinations described in item 66764 performed on separately collected and identified specimens Fee: \$17.85 Benefit: 75% = \$13.40 85% = \$15.20
66770	3 examinations described in item 66764 performed on separately collected and identified specimens Fee: \$26.70 Benefit: 75% = \$20.05 85% = \$22.70

P2. CHEMICAL	
66773	<p>Quantitation of products of collagen breakdown or formation for the monitoring of patients with proven low bone mineral density, and if performed, a service described in item 66752 - 1 or more tests</p> <p><i>(Low bone densitometry is defined in the explanatory notes to Category 2 - Diagnostic Procedures and Investigations of the Medicare Benefits Schedule)</i></p> <p>Fee: \$24.65 Benefit: 75% = \$18.50 85% = \$21.00</p>
66776	<p>Quantitation of products of collagen breakdown or formation for the monitoring of patients with metabolic bone disease or Paget's disease of bone, and if performed, a service described in item 66752 - 1 or more tests</p> <p>Fee: \$24.65 Benefit: 75% = \$18.50 85% = \$21.00</p>
66779	<p>Adrenaline, noradrenaline, dopamine, histamine, hydroxyindoleacetic acid (5HIAA), hydroxymethoxymandelic acid (HMMA), homovanillic acid (HVA), metanephrines, methoxyhydroxyphenylethylene glycol (MHPG), phenylacetic acid (PAA) or serotonin quantitation - 1 or more tests</p> <p>Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00</p>
66780	<p>A test described in item 66779 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00</p>
66782	<p>Porphyryns or porphyryns precursors - detection in plasma, red cells, urine or faeces - 1 or more tests</p> <p>Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20</p>
66783	<p>A test described in item 66782 if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$13.15 Benefit: 75% = \$9.90 85% = \$11.20</p>
66785	<p>Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 1 test</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00</p>
66788	<p>Porphyryns or porphyryns precursors - quantitation in plasma, red cells, urine or faeces - 2 or more tests</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$65.85 Benefit: 75% = \$49.40 85% = \$56.00</p>
66789	<p>A test described in item 66785 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$39.95 Benefit: 75% = \$30.00 85% = \$34.00</p>
66790	<p>A test described in item 66785 other than that described in 66789, if rendered by a receiving APP - to a maximum of 1 test</p>

P2. CHEMICAL	
	(Item is subject to rule 6 and 18) Fee: \$25.90 Benefit: 75% = \$19.45 85% = \$22.05
66791	Porphyrin biosynthetic enzymes - measurement of activity in blood cells or other tissues - 1 or more tests Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66792	A test described in item 66791 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18) Fee: \$74.45 Benefit: 75% = \$55.85 85% = \$63.30
66800	Quantitation in blood, urine or other body fluid by any method (except reagent tablet or reagent strip) of any of the following being used therapeutically by the patient from whom the specimen was taken: amikacin, carbamazepine, digoxin, disopyramide, ethanol, ethosuximide, gentamicin, lithium, lignocaine, netilmicin, paracetamol, phenobarbitone, primidone, phenytoin, procainamide, quinidine, salicylate, theophylline, tobramycin, valproate or vancomycin - 1 test (Item to be subject to rule 6) (See para PN.0.17 of explanatory notes to this Category) Fee: \$18.15 Benefit: 75% = \$13.65 85% = \$15.45
66803	2 tests described in item 66800 (Item is subject to rule 6) Fee: \$30.50 Benefit: 75% = \$22.90 85% = \$25.95
66804	A test described in item 66800 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$18.15 Benefit: 75% = \$13.65 85% = \$15.45
66805	A test described in item 66800 other than that described in 66804, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18) Fee: \$12.35 Benefit: 75% = \$9.30 85% = \$10.50
66806	3 tests described in item 66800 (Item is subject to rule 6) Fee: \$41.85 Benefit: 75% = \$31.40 85% = \$35.60
66812	Quantitation, not elsewhere described in this Table by any method or methods, in blood, urine or other body fluid, of a drug being used therapeutically by the patient from whom the specimen was taken - 1 test (This fee applies where 1 laboratory performs the only test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6)

P2. CHEMICAL	
	(See para PN.0.17 of explanatory notes to this Category) Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60
66815	2 tests described in item 66812 (This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 tests specified on the request form or performs 2 tests and refers the rest to the laboratory of a separate APA) (Item is subject to rule 6) Fee: \$59.55 Benefit: 75% = \$44.70 85% = \$50.65
66816	A test described in item 66812 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$34.80 Benefit: 75% = \$26.10 85% = \$29.60
66817	A test described in item 66812, other than that described in 66816, if rendered by a receiving APP - to a maximum of 1 test (Item is subject to rule 6 and 18) Fee: \$24.75 Benefit: 75% = \$18.60 85% = \$21.05
66819	Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 1 test. (Item is subject to rule 6, 22 and 25) Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66820	A test described in item 66819 if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6, 18, 22 and 25) Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
66821	A test described in item 66819 other than that described in 66820 if rendered by a receiving APP to a maximum of 1 test (Item is subject to rule 6, 18, 22 and 25) Fee: \$21.80 Benefit: 75% = \$16.35 85% = \$18.55
66822	Quantitation of copper, manganese, selenium, or zinc (except if item 66667 applies), in blood, urine or other body fluid - 2 or more tests. (Item is subject to rule 6, 22 and 25) Fee: \$52.45 Benefit: 75% = \$39.35 85% = \$44.60
66825	Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 1 test. To a maximum of 3 of this item in a 6 month period (Item is subject to rule 6, 22 and 25)

P2. CHEMICAL	
	Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
	A test described in item 66825 if rendered by a receiving APP where no tests have been rendered by the referring APP - 1 test (Item is subject to rules 6, 18, 22 and 25)
66826	Fee: \$30.60 Benefit: 75% = \$22.95 85% = \$26.05
	A test described in item 66825, other than that described in 66826, if rendered by a receiving APP to a maximum of 1 test (Item is subject to rules 6, 18, 22 and 25)
66827	Fee: \$21.80 Benefit: 75% = \$16.35 85% = \$18.55
	Quantitation of aluminium (except if item 66671 applies), arsenic, beryllium, cadmium, chromium, gold, mercury, nickel, or strontium, in blood, urine or other body fluid or tissue - 2 or more tests. To a maximum of 3 of this item in a 6 month period (Item is subject to rule 6, 22 and 25)
66828	Fee: \$52.45 Benefit: 75% = \$39.35 85% = \$44.60
	Quantitation of BNP or NT-proBNP for the diagnosis of heart failure in patients presenting with dyspnoea to a hospital Emergency Department (Item is subject to rule 25)
66830	Fee: \$58.50 Benefit: 75% = \$43.90 85% = \$49.75
	Quantitation of copper or iron in liver tissue biopsy
66831	Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35
	A test described in item 66831 if rendered by a receiving APP (Item is subject to rule 18A and 22)
66832	Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35
	25-hydroxyvitamin D, quantification in serum, for the investigation of a patient who:
	(a) has signs or symptoms of osteoporosis or osteomalacia; or
	(b) has increased alkaline phosphatase and otherwise normal liver function tests; or
	(c) has hyperparathyroidism, hypo- or hypercalcaemia, or hypophosphataemia; or
	(d) is suffering from malabsorption (for example, because the patient has cystic fibrosis, short bowel syndrome, inflammatory bowel disease or untreated coeliac disease, or has had bariatric surgery); or
	(e) has deeply pigmented skin, or chronic and severe lack of sun exposure for cultural, medical, occupational or residential reasons; or
	(f) is taking medication known to decrease 25OH-D levels (for example, anticonvulsants); or
	(g) has chronic renal failure or is a renal transplant recipient; or
	(h) is less than 16 years of age and has signs or symptoms of rickets; or
66833	

P2. CHEMICAL	
	<p>(i) is an infant whose mother has established vitamin D deficiency; or</p> <p>(j) is a exclusively breastfed baby and has at least one other risk factor mentioned in a paragraph in this item; or</p> <p>(k) has a sibling who is less than 16 years of age and has vitamin D deficiency</p> <p>Fee: \$30.05 Benefit: 75% = \$22.55 85% = \$25.55</p>
66834	<p>A test described in item 66833 if rendered by a receiving APP</p> <p>(Item is subject to Rule 18)</p> <p>Fee: \$30.05 Benefit: 75% = \$22.55 85% = \$25.55</p>
66835	<p>1, 25-dihydroxyvitamin D - quantification in serum, if the request for the test is made by, or on advice of, the specialist or consultant physician managing the treatment of the patient</p> <p>Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20</p>
66836	<p>1, 25-dihydroxyvitamin D-quantification in serum, if:</p> <p>(a) the patient has hypercalcaemia; and</p> <p>(b) the request for the test is made by a general practitioner managing the treatment of the patient</p> <p>Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20</p>
66837	<p>A test described in item 66835 or 66836 if rendered by a receiving APP (Item is subject to Rule 18)</p> <p>Fee: \$39.05 Benefit: 75% = \$29.30 85% = \$33.20</p>
66838	<p>Serum vitamin B12 test</p> <p>(Item is subject to Rule 25)</p> <p>Fee: \$23.60 Benefit: 75% = \$17.70 85% = \$20.10</p>
66839	<p>Quantification of vitamin B12 markers such as holoTranscobalamin or methylmalonic acid, where initial serum vitamin B12 result is low or equivocal</p> <p>Fee: \$42.95 Benefit: 75% = \$32.25 85% = \$36.55</p>
66840	<p>Serum folate test and, if required, red cell folate test for a patient at risk of folate deficiency, including patients with malabsorption conditions, macrocytic anaemia or coeliac disease</p> <p>Fee: \$23.60 Benefit: 75% = \$17.70 85% = \$20.10</p>
66841	<p>Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk. (Item is subject to rule 25)</p> <p>Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30</p>
66900	<p>CARBON-LABELLED UREA BREATH TEST using oral C-13 or C-14 urea, including the measurement of exhaled ¹³CO₂ or ¹⁴CO₂ (except if item 12533 applies) for either:-</p> <p>(a) the confirmation of <i>Helicobacter pylori</i> colonisation OR</p> <p>(b) the monitoring of the success of eradication of <i>Helicobacter pylori</i>.</p> <p>Fee: \$77.65 Benefit: 75% = \$58.25 85% = \$66.05</p>

P3. MICROBIOLOGY	
	Group P3. Microbiology
69300	<p>Microscopy of wet film material other than blood, from 1 or more sites, obtained directly from a patient (not cultures) including:</p> <p>(a) differential cell count (if performed); or</p> <p>(b) examination for dermatophytes; or</p> <p>(c) dark ground illumination; or</p> <p>(d) stained preparation or preparations using any relevant stain or stains;</p> <p>1 or more tests</p> <p>Fee: \$12.50 Benefit: 75% = \$9.40 85% = \$10.65</p>
69303	<p>Culture and (if performed) microscopy to detect pathogenic micro-organisms from nasal swabs, throat swabs, eye swabs and ear swabs (excluding swabs taken for epidemiological surveillance), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in item 69300;</p> <p>specimens from 1 or more sites</p> <p>Fee: \$22.00 Benefit: 75% = \$16.50 85% = \$18.70</p>
69306	<p>Microscopy and culture to detect pathogenic micro-organisms from skin or other superficial sites, including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p>Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70</p>
69309	<p>Microscopy and culture to detect dermatophytes and other fungi causing cutaneous disease from skin scrapings, skin biopsies, hair and nails (excluding swab specimens) and including (if performed):</p> <p>(a) the detection of antigens not elsewhere specified in this Schedule; or</p> <p>(b) a service described in items 69300, 69303, 69306, 69312, 69318;</p> <p>1 or more tests on 1 or more specimens</p> <p>Fee: \$48.15 Benefit: 75% = \$36.15 85% = \$40.95</p>
69312	<p>Microscopy and culture to detect pathogenic micro-organisms from urethra, vagina, cervix or rectum (except for faecal pathogens), including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; or</p> <p>(b) a service described in items 69300, 69303, 69306 and 69318;</p>

P3. MICROBIOLOGY	
	1 or more tests on 1 or more specimens Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70
69316	Detection of Chlamydia trachomatis by any method - 1 test (Item is subject to rule 26) Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
69317	1 test described in item 69494 and a test described in 69316. (Item is subject to rule 26) Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50
69318	Microscopy and culture to detect pathogenic micro-organisms from specimens of sputum (except when part of items 69324, 69327 and 69330), including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in items 69300, 69303, 69306 and 69312; 1 or more tests on 1 or more specimens Fee: \$33.75 Benefit: 75% = \$25.35 85% = \$28.70
69319	2 tests described in item 69494 and a test described in 69316. (Item is subject to rule 26) Fee: \$42.95 Benefit: 75% = \$32.25 85% = \$36.55
69321	Microscopy and culture of post-operative wounds, aspirates of body cavities, synovial fluid, CSF or operative or biopsy specimens, for the presence of pathogenic micro-organisms involving aerobic and anaerobic cultures and the use of different culture media, and including (if performed): (a) pathogen identification and antibiotic susceptibility testing; or (b) a service described in item 69300, 69303, 69306, 69312 or 69318; specimens from 1 or more sites Fee: \$48.15 Benefit: 75% = \$36.15 85% = \$40.95
69324	Microscopy (with appropriate stains) and culture for mycobacteria - 1 specimen of sputum, urine, or other body fluid or 1 operative or biopsy specimen, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service described in item 69300 Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
69325	A test described in item 69324 if rendered by a receiving APP (Item is subject to rule 18) Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
69327	Microscopy (with appropriate stains) and culture for mycobacteria - 2 specimens of sputum, urine, or other body fluid or 2 operative or biopsy specimens, including (if performed): (a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or

P3. MICROBIOLOGY	
	<p>(b) pathogen identification and antibiotic susceptibility testing; including a service mentioned in item 69300</p> <p>Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25</p>
69328	<p>A test described in item 69327 if rendered by a receiving APP (Item is subject to rule 18)</p> <p>Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25</p>
69330	<p>Microscopy (with appropriate stains) and culture for mycobacteria - 3 specimens of sputum, urine, or other body fluid or 3 operative or biopsy specimens, including (if performed):</p> <p>(a) microscopy and culture of other bacterial pathogens isolated as a result of this procedure; or (b) pathogen identification and antibiotic susceptibility testing; including a service mentioned in item 69300</p> <p>Fee: \$128.00 Benefit: 75% = \$96.00 85% = \$108.80</p>
69331	<p>A test described in item 69330 if rendered by a receiving APP (Item is subject to rule 18)</p> <p>Fee: \$128.00 Benefit: 75% = \$96.00 85% = \$108.80</p>
69333	<p>Urine examination (including serial examinations) by any means other than simple culture by dip slide, including:</p> <p>(a) cell count; and (b) culture; and (c) colony count; and (d) (if performed) stained preparations; and (e) (if performed) identification of cultured pathogens; and (f) (if performed) antibiotic susceptibility testing; and (g) (if performed) examination for pH, specific gravity, blood, protein, urobilinogen, sugar, acetone or bile salts</p> <p>Fee: \$20.55 Benefit: 75% = \$15.45 85% = \$17.50</p>
69336	<p>Microscopy of faeces for ova, cysts and parasites that must include a concentration technique, and the use of fixed stains or antigen detection for cryptosporidia and giardia - including (if performed) a service described in item 69300 - 1 of this item in any 7 day period</p> <p>Fee: \$33.45 Benefit: 75% = \$25.10 85% = \$28.45</p>
69339	<p>Microscopy of faeces for ova, cysts and parasites using concentration techniques examined subsequent to item 69336 on a separately collected and identified specimen collected within 7 days of the examination described in 69336 - 1 examination in any 7 day period</p> <p>Fee: \$19.10 Benefit: 75% = \$14.35 85% = \$16.25</p>

P3. MICROBIOLOGY

	<p>Culture and (if performed) microscopy without concentration techniques of faeces for faecal pathogens, using at least 2 selective or enrichment media and culture in at least 2 different atmospheres including (if performed):</p> <p>(a) pathogen identification and antibiotic susceptibility testing; and</p> <p>(b) the detection of clostridial toxins; and</p> <p>(c) a service described in item 69300;</p> <p>- 1 examination in any 7 day period</p>
69345	<p>Fee: \$52.90 Benefit: 75% = \$39.70 85% = \$45.00</p>
	<p>Blood culture for pathogenic micro-organisms (other than viruses), including sub-cultures and (if performed):</p> <p>(a) identification of any cultured pathogen; and</p> <p>(b) necessary antibiotic susceptibility testing;</p> <p>to a maximum of 3 sets of cultures - 1 set of cultures</p>
69354	<p>Fee: \$30.75 Benefit: 75% = \$23.10 85% = \$26.15</p>
	<p>2 sets of cultures described in item 69354</p>
69357	<p>Fee: \$61.45 Benefit: 75% = \$46.10 85% = \$52.25</p>
	<p>3 sets of cultures described in item 69354</p>
69360	<p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
	<p>Detection of <i>Clostridium difficile</i> or <i>Clostridium difficile</i> toxin (except if a service described in item 69345 has been performed) - one or more tests</p>
69363	<p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>
	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of a HIV sero-positive patient not on antiretroviral therapy - 1 or more tests</p>
69378	<p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
	<p>A test described in item 69378 if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)</p>
69379	<p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
	<p>Genotypic testing for HIV antiretroviral resistance in a patient with confirmed HIV infection if the patient's viral load is greater than 1,000 copies per ml at any of the following times:</p> <p>(a) at presentation; or</p> <p>(b) before antiretroviral therapy; or</p> <p>(c) when treatment with combination antiretroviral agents fails;</p> <p>maximum of 2 tests in a 12 month period</p>
69380	<p>Fee: \$770.30 Benefit: 75% = \$577.75 85% = \$671.60</p>

P3. MICROBIOLOGY

69381	<p>Quantitation of HIV viral RNA load in plasma or serum in the monitoring of antiretroviral therapy in a HIV sero-positive patient - 1 or more tests on 1 or more specimens</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69382	<p>Quantitation of HIV viral RNA load in cerebrospinal fluid in a HIV sero-positive patient - 1 or more tests on 1 or more specimens</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69383	<p>A test described in item 69381 if rendered by a receiving APP - 1 or more tests on 1 or more specimens (Item is subject to rule 18)</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
69384	<p>Quantitation of 1 antibody to microbial antigens not elsewhere described in the Schedule - 1 test</p> <p>(This fee applies where a laboratory performs the only antibody test specified on the request form or performs 1 test and refers the rest to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69387	<p>2 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 2 estimations specified on the request form or performs 2 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$29.00 Benefit: 75% = \$21.75 85% = \$24.65</p>
69390	<p>3 tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 3 estimations specified on the request form or performs 3 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$42.35 Benefit: 75% = \$31.80 85% = \$36.00</p>
69393	<p>4 tests described in item 69384</p>

P3. MICROBIOLOGY

	<p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 4 estimations specified on the request form or performs 4 of the antibody estimations specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$55.70 Benefit: 75% = \$41.80 85% = \$47.35</p>
69396	<p>5 or more tests described in item 69384</p> <p>(This fee applies where 1 laboratory, or more than 1 laboratory belonging to the same APA, performs the only 5 estimations specified on the request form or performs 5 of the antibody tests specified on the request form and refers the remainder to the laboratory of a separate APA)</p> <p>(Item is subject to rule 6)</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$69.10 Benefit: 75% = \$51.85 85% = \$58.75</p>
69400	<p>A test described in item 69384, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rules 6 and 18)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69401	<p>A test described in item 69384, other than that described in 69400, if rendered by a receiving APP - each test to a maximum of 4 tests</p> <p>(Item is subject to rule 6, 18 and 18A)</p> <p>Fee: \$13.35 Benefit: 75% = \$10.05 85% = \$11.35</p>
69405	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 1 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category) Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69408	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 2 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p>

P3. MICROBIOLOGY	
	Fee: \$29.00 Benefit: 75% = \$21.75 85% = \$24.65
69411	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 3 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$42.35 Benefit: 75% = \$31.80 85% = \$36.00</p>
69413	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of 4 of the following - rubella immune status, specific syphilis serology, carriage of Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$55.70 Benefit: 75% = \$41.80 85% = \$47.35</p>
69415	<p>Microbiological serology during a pregnancy (except in the investigation of a clinically apparent intercurrent microbial illness or close contact with a patient suffering from parvovirus infection or varicella during that pregnancy) including:</p> <p>(a) the determination of all 5 of the following - rubella immune status, specific syphilis serology, carriage of</p> <p style="padding-left: 40px;">Hepatitis B, Hepatitis C antibody, HIV antibody and</p> <p>(b) (if performed) a service described in 1 or more of items 69384, 69475, 69478 and 69481</p> <p>(See para PN.0.18 of explanatory notes to this Category)</p> <p>Fee: \$69.10 Benefit: 75% = \$51.85 85% = \$58.75</p>
69445	<p>Detection of Hepatitis C viral RNA in a patient undertaking antiviral therapy for chronic HCV hepatitis (including a service described in item 69499) - 1 test. To a maximum of 4 of this item in a 12 month period</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
69451	<p>A test described in item 69445 if rendered by a receiving APP - 1 test.</p> <p>(Item is subject to rule 18 and 25)</p> <p>Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40</p>
69471	<p>Test of cell-mediated immune response in blood for the detection of latent tuberculosis by interferon gamma release assay (IGRA) in the following people:</p> <p>(a) a person who has been exposed to a confirmed case of active tuberculosis;</p>

P3. MICROBIOLOGY

	<p>(b) a person who is infected with human immunodeficiency virus;</p> <p>(c) a person who is to commence, or has commenced, tumour necrosis factor (TNF) inhibitor therapy;</p> <p>(d) a person who is to commence, or has commenced, renal dialysis;</p> <p>(e) a person with silicosis;</p> <p>(f) a person who is, or is about to become, immunosuppressed because of a disease, or a medical treatment, not mentioned in paragraphs (a) to (e)</p> <p>(See para PN.3.4 of explanatory notes to this Category) Fee: \$34.90 Benefit: 75% = \$26.20 85% = \$29.70</p>
69472	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 1 test</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69474	<p>Detection of antibodies to Epstein Barr Virus using specific serology - 2 or more tests</p> <p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>
69475	<p>One test for hepatitis antigen or antibodies to determine immune status or viral carriage following exposure or vaccination to Hepatitis A, Hepatitis B, Hepatitis C or Hepatitis D</p> <p>(Item subject to rule 11)</p> <p>Fee: \$15.65 Benefit: 75% = \$11.75 85% = \$13.35</p>
69478	<p>2 tests described in 69475</p> <p>(Item subject to rule 11)</p> <p>Fee: \$29.25 Benefit: 75% = \$21.95 85% = \$24.90</p>
69481	<p>Investigation of infectious causes of acute or chronic hepatitis - 3 tests for hepatitis antibodies or antigens,</p> <p>(Item subject to rule 11)</p> <p>(See para PN.0.19 of explanatory notes to this Category) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50</p>
69482	<p>Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and have chronic hepatitis B, but are not receiving antiviral therapy - 1 test</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$152.10 Benefit: 75% = \$114.10 85% = \$129.30</p>
69483	<p>Quantitation of Hepatitis B viral DNA in patients who are Hepatitis B surface antigen positive and who have chronic hepatitis B and are receiving antiviral therapy - 1 test</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$152.10 Benefit: 75% = \$114.10 85% = \$129.30</p>
69484	<p>Supplementary testing for Hepatitis B surface antigen or Hepatitis C antibody using a different assay on the specimen which yielded a reactive result on initial testing</p>

P3. MICROBIOLOGY	
	(Item is subject to rule 18) Fee: \$17.10 Benefit: 75% = \$12.85 85% = \$14.55
69488	Quantitation of HCV RNA load in plasma or serum in: (a) the pre-treatment evaluation, of a patient with chronic HCV hepatitis, for antiviral therapy; or (b) the assessment of efficacy of antiviral therapy for such a patient (including a service in item 69499 or 69445) (Item is subject to rule 18 and 25) Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25
69489	A test described in item 69488 if rendered by a receiving APP (Item is subject to rule 18 and 25) Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25
69491	Nucleic acid amplification and determination of Hepatitis C virus (HCV) genotype if the patient is HCV RNA positive and is being evaluated for antiviral therapy of chronic HCV hepatitis. To a maximum of 1 of this item in a 12 month period Fee: \$204.80 Benefit: 75% = \$153.60 85% = \$174.10
69492	A test described in item 69491 if rendered by a receiving APP - 1 test (Item is subject to rule 18 and 25) Fee: \$204.80 Benefit: 75% = \$153.60 85% = \$174.10
69494	Detection of a virus or microbial antigen or microbial nucleic acid (not elsewhere specified) 1 test (Item is subject to rule 6 and 26) Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
69495	2 tests described in 69494 (Item is subject to rule 6 and 26) Fee: \$35.85 Benefit: 75% = \$26.90 85% = \$30.50
69496	3 or more tests described in 69494 (Item is subject to rule 6 and 26) Fee: \$43.05 Benefit: 75% = \$32.30 85% = \$36.60
69497	A test described in item 69494, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6, 18 and 26)

P3. MICROBIOLOGY	
	Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40
69498	A test described in item 69494, other than that described in 69497, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6, 18 and 26) Fee: \$7.20 Benefit: 75% = \$5.40 85% = \$6.15
69499	Detection of Hepatitis C viral RNA if at least 1 of the following criteria is satisfied: (a) the patient is Hepatitis C seropositive; (b) the patient's serological status is uncertain after testing; (c) the test is performed for the purpose of: (i) determining the Hepatitis C status of an immunosuppressed or immunocompromised patient; or (ii) the detection of acute Hepatitis C prior to seroconversion where considered necessary for the clinical management of the patient; To a maximum of 1 of this item in a 12 month period (Item is subject to rule 19 and 25) Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40
69500	A test described in item 69499 if rendered by a receiving APP - 1 test (Item is subject to rule 18,19 and 25) Fee: \$92.20 Benefit: 75% = \$69.15 85% = \$78.40
69505	Sequencing and analysis of the genome of mycobacterium tuberculosis complex from an isolate or nucleic acid extract: (a) to speciate the organism: (i) at the time of a patient's initial diagnosis and commencement of initial empiric therapy; or (ii) following recurrence of a patient's symptoms or a patient's failure to respond to treatment within the expected timeframe; and (b) for the purpose of: (i) genome-wide determination of the antimicrobial resistance markers (resistome) of the isolate; and (ii) individualising the patient's treatment Applicable once at initial diagnosis and once per episode of disease recurrence Fee: \$150.00 Benefit: 75% = \$112.50 85% = \$127.50
69511	Detection of a SARS-CoV-2 nucleic acid if the person receives a bulk billed service Fee: \$68.85 Benefit: 75% = \$51.65 85% = \$58.55

P3. MICROBIOLOGY	
	Detection of a viral, fungal, atypical pneumonia pathogen or Bordetella species nucleic acid from a nasal swab, throat swab, nasopharyngeal aspirate and/or lower respiratory tract sample, including a service described in 69511, if the person receives a bulk billed service 2 to 4 tests
69512	Fee: \$74.75 Benefit: 75% = \$56.10 85% = \$63.55
	5 to 8 tests described in 69512
69513	Fee: \$80.65 Benefit: 75% = \$60.50 85% = \$68.60
	9 to 12 tests described in 69512
69514	Fee: \$86.55 Benefit: 75% = \$64.95 85% = \$73.60
	13 or more tests described in item 69512
69515	Fee: \$92.45 Benefit: 75% = \$69.35 85% = \$78.60

P4. IMMUNOLOGY	
	Group P4. Immunology
	Electrophoresis, quantitative and qualitative, of serum, urine or other body fluid all collected within a 28 day period, to demonstrate: (a) protein classes; or (b) presence and amount of paraprotein; including the preliminary quantitation of total protein, albumin and globulin - 1 specimen type
71057	Fee: \$32.90 Benefit: 75% = \$24.70 85% = \$28.00
	Examination as described in item 71057 of 2 or more specimen types
71058	Fee: \$50.50 Benefit: 75% = \$37.90 85% = \$42.95
	Immunofixation or immunoelectrophoresis or isoelectric focusing of: (a) urine for detection of Bence Jones proteins; or (b) serum, plasma or other body fluid; and characterisation of a paraprotein or cryoglobulin - examination of 1 specimen type (eg. serum, urine or CSF)
71059	Fee: \$35.65 Benefit: 75% = \$26.75 85% = \$30.35
	Examination as described in item 71059 of 2 or more specimen types
71060	Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45
	Electrophoresis and immunofixation or immunoelectrophoresis or isoelectric focussing of CSF for the detection of oligoclonal bands and including if required electrophoresis of the patient's serum for comparison purposes - 1 or more tests
71062	Fee: \$44.05 Benefit: 75% = \$33.05 85% = \$37.45

P4. IMMUNOLOGY	
71064	Detection and quantitation of cryoglobulins or cryofibrinogen - 1 or more tests Fee: \$20.75 Benefit: 75% = \$15.60 85% = \$17.65
71066	Quantitation of total immunoglobulin A by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71068	Quantitation of total immunoglobulin G by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71069	2 tests described in items 71066, 71068, 71072 or 71074 Fee: \$22.75 Benefit: 75% = \$17.10 85% = \$19.35
71071	3 or more tests described in items 71066, 71068, 71072 or 71074 Fee: \$30.95 Benefit: 75% = \$23.25 85% = \$26.35
71072	Quantitation of total immunoglobulin M by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71073	Quantitation of all 4 immunoglobulin G subclasses Fee: \$106.15 Benefit: 75% = \$79.65 85% = \$90.25
71074	Quantitation of total immunoglobulin D by any method in serum, urine or other body fluid - 1 test Fee: \$14.55 Benefit: 75% = \$10.95 85% = \$12.40
71075	Quantitation of immunoglobulin E (total), 1 test. (Item is subject to rule 25) Fee: \$23.00 Benefit: 75% = \$17.25 85% = \$19.55
71076	A test described in item 71073 if rendered by a receiving APP - 1 test (Item is subject to rule 18) Fee: \$106.15 Benefit: 75% = \$79.65 85% = \$90.25
71077	Quantitation of immunoglobulin E (total) in the follow up of a patient with proven immunoglobulin-E-secreting myeloma, proven congenital immunodeficiency or proven allergic bronchopulmonary aspergillosis, 1 test. (Item is subject to rule 25) Fee: \$27.05 Benefit: 75% = \$20.30 85% = \$23.00
71079	Detection of specific immunoglobulin E antibodies to single or multiple potential allergens, 1 test (Item is subject to rule 25) Fee: \$26.80 Benefit: 75% = \$20.10 85% = \$22.80
71081	Quantitation of total haemolytic complement Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71083	Quantitation of complement components C3 and C4 or properdin factor B - 1 test

P4. IMMUNOLOGY	
	Fee: \$20.15 Benefit: 75% = \$15.15 85% = \$17.15
71085	2 tests described in item 71083 Fee: \$28.95 Benefit: 75% = \$21.75 85% = \$24.65
71087	3 or more tests described in item 71083 Fee: \$37.70 Benefit: 75% = \$28.30 85% = \$32.05
71089	Quantitation of complement components or breakdown products of complement proteins not elsewhere described in an item in this Schedule - 1 test (Item is subject to rule 6) Fee: \$29.15 Benefit: 75% = \$21.90 85% = \$24.80
71090	A test described in item 71089, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test (Item is subject to rule 6 and 18) Fee: \$29.15 Benefit: 75% = \$21.90 85% = \$24.80
71091	2 tests described in item 71089 (Item is subject to rule 6) Fee: \$52.85 Benefit: 75% = \$39.65 85% = \$44.95
71092	Tests described in item 71089, other than that described in 71090, if rendered by a receiving APP - each test to a maximum of 2 tests (Item is subject to rule 6 and 18) Fee: \$23.70 Benefit: 75% = \$17.80 85% = \$20.15
71093	3 or more tests described in item 71089 (Item is subject to rule 6) Fee: \$76.45 Benefit: 75% = \$57.35 85% = \$65.00
71095	Quantitation of serum or plasma eosinophil cationic protein, or both, to a maximum of 3 assays in 1 year, for monitoring the response to therapy in corticosteroid treated asthma, in a child aged less than 12 years (See para PN.0.20 of explanatory notes to this Category) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71096	A test described in item 71095 if rendered by a receiving APP. (Item is subject to rule 18) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71097	Antinuclear antibodies - detection in serum or other body fluids, including quantitation if required Fee: \$24.45 Benefit: 75% = \$18.35 85% = \$20.80
71099	Double-stranded DNA antibodies - quantitation by 1 or more methods other than the Crithidia method Fee: \$26.50 Benefit: 75% = \$19.90 85% = \$22.55

P4. IMMUNOLOGY	
71101	Antibodies to 1 or more extractable nuclear antigens - detection in serum or other body fluids Fee: \$17.40 Benefit: 75% = \$13.05 85% = \$14.80
71103	Characterisation of an antibody detected in a service described in item 71101 (including that service) Fee: \$52.05 Benefit: 75% = \$39.05 85% = \$44.25
71106	Rheumatoid factor - detection by any technique in serum or other body fluids, including quantitation if required Fee: \$11.30 Benefit: 75% = \$8.50 85% = \$9.65
71119	Antibodies to tissue antigens not elsewhere specified in this Table - detection, including quantitation if required, of 1 antibody (See para PN.0.33 of explanatory notes to this Category) Fee: \$17.35 Benefit: 75% = \$13.05 85% = \$14.75
71121	Detection of 2 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) Fee: \$20.80 Benefit: 75% = \$15.60 85% = \$17.70
71123	Detection of 3 antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) Fee: \$24.25 Benefit: 75% = \$18.20 85% = \$20.65
71125	Detection of 4 or more antibodies specified in item 71119 (See para PN.0.33 of explanatory notes to this Category) Fee: \$27.65 Benefit: 75% = \$20.75 85% = \$23.55
71127	Functional tests for lymphocytes - quantitation other than by microscopy of: (a) proliferation induced by 1 or more mitogens; or (b) proliferation induced by 1 or more antigens; or (c) estimation of 1 or more mixed lymphocyte reactions; including a test described in item 65066 or 65070 (if performed), 1 of this item to a maximum of 2 in a 12 month period Fee: \$176.35 Benefit: 75% = \$132.30 85% = \$149.90
71129	2 tests described in item 71127 Fee: \$217.85 Benefit: 75% = \$163.40 85% = \$185.20
71131	3 or more tests described in item 71127 Fee: \$259.35 Benefit: 75% = \$194.55 85% = \$220.45
71133	Investigation of recurrent infection by qualitative assessment for the presence of defects in oxidative pathways in neutrophils by the nitroblue tetrazolium (NBT) reduction test Fee: \$10.40 Benefit: 75% = \$7.80 85% = \$8.85
71134	Investigation of recurrent infection by quantitative assessment of oxidative pathways by flow cytometric techniques, including a test described in 71133 (if performed)

P4. IMMUNOLOGY	
	Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45
	Quantitation of neutrophil function, comprising at least 2 of the following: (a) chemotaxis; (b) phagocytosis; (c) oxidative metabolism; (d) bactericidal activity; including any test described in items 65066, 65070, 71133 or 71134 (if performed), 1 of this item to a maximum of 2 in a 12 month period
71135	Fee: \$207.95 Benefit: 75% = \$156.00 85% = \$176.80
	Quantitation of cell-mediated immunity by multiple antigen delayed type hypersensitivity intradermal skin testing using a minimum of 7 antigens, 1 of this item to a maximum of 2 in a 12 month period
71137	Fee: \$30.25 Benefit: 75% = \$22.70 85% = \$25.75
	Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations, including a total lymphocyte count or total leucocyte count by any method, on 1 or more specimens of blood, CSF or serous fluid
71139	Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45
	Characterisation of 3 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations on 1 or more disaggregated tissue specimens
71141	Fee: \$197.35 Benefit: 75% = \$148.05 85% = \$167.75
	Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an immunological or haematological malignancy, including a service described in 1 or both of items 71139 and 71141 (if performed), on a specimen of blood, CSF, serous fluid or disaggregated tissue
71143	Fee: \$260.00 Benefit: 75% = \$195.00 85% = \$221.00
	Characterisation of 6 or more leucocyte surface antigens by immunofluorescence or immunoenzyme techniques to assess lymphoid or myeloid cell populations for the diagnosis (but not monitoring) of an immunological or haematological malignancy, including a service described in 1 or more of items 71139, 71141 and 71143 (if performed), on 2 or more specimens of disaggregated tissues or 1 specimen of disaggregated tissue and 1 or more specimens of blood, CSF or serous fluid
71145	Fee: \$424.50 Benefit: 75% = \$318.40 85% = \$360.85
	Enumeration of CD34+ cells, only for the purposes of autologous or directed allogeneic haemopoietic stem cell transplantation, including a total white cell count on the pheresis collection
71146	Fee: \$104.05 Benefit: 75% = \$78.05 85% = \$88.45
	HLA-B27 typing (Item is subject to rule 27)
71147	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71148	A test described in item 71147 if rendered by a receiving APP.

P4. IMMUNOLOGY	
	(Item is subject to rule 18 and 27) Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
71149	Complete tissue typing for 4 HLA-A and HLA-B Class I antigens (including any separation of leucocytes), including (if performed) a service described in item 71147 Fee: \$108.25 Benefit: 75% = \$81.20 85% = \$92.05
71151	Tissue typing for HLA-DR, HLA-DP and HLA-DQ Class II antigens (including any separation of leucocytes) - phenotyping or genotyping of 2 or more antigens Fee: \$118.85 Benefit: 75% = \$89.15 85% = \$101.05
71153	Investigations in the assessment or diagnosis of systemic inflammatory disease or vasculitis - antineutrophil cytoplasmic antibody immunofluorescence (ANCA test), antineutrophil proteinase 3 antibody (PR-3 ANCA test), antimyeloperoxidase antibody (MPO ANCA test) or antiglomerular basement membrane antibody (GBM test) - detection of 1 antibody (Item is subject to rule 6 and 23) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71154	A test described in item 71153, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test. (Item is subject to rule 6, 18 and 23) Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40
71155	Detection of 2 antibodies described in item 71153 (Item is subject to rule 6 and 23) Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35
71156	Tests described in item 71153, other than that described in 71154, if rendered by a receiving APP - each test to a maximum of 3 tests (Item is subject to rule 6, 18 and 23) Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95
71157	Detection of 3 antibodies described in item 71153 (Item is subject to rule 6 and 23) Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30
71159	Detection of 4 or more antibodies described in item 71153 (Item is subject to rule 6 and 23) Fee: \$73.15 Benefit: 75% = \$54.90 85% = \$62.20
71163	Detection of one of the following antibodies (of 1 or more class or isotype) in the assessment or diagnosis of coeliac disease or other gluten hypersensitivity syndromes and including a service described in item 71066 (if performed): a) Antibodies to gliadin; or

P4. IMMUNOLOGY	
	<p>b) Antibodies to endomysium; or</p> <p>c) Antibodies to tissue transglutaminase;</p> <p>- 1 test</p> <p>Fee: \$24.75 Benefit: 75% = \$18.60 85% = \$21.05</p>
71164	<p>Two or more tests described in 71163 and including a service described in 71066 (if performed)</p> <p>Fee: \$39.90 Benefit: 75% = \$29.95 85% = \$33.95</p>
71165	<p>Antibodies to tissue antigens (acetylcholine receptor, adrenal cortex, heart, histone, insulin, insulin receptor, intrinsic factor, islet cell, lymphocyte, neuron, ovary, parathyroid, platelet, salivary gland, skeletal muscle, skin basement membrane and intercellular substance, thyroglobulin, thyroid microsome or thyroid stimulating hormone receptor) - detection, including quantitation if required, of 1 antibody</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40</p>
71166	<p>Detection of 2 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35</p>
71167	<p>Detection of 3 antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30</p>
71168	<p>Detection of 4 or more antibodies described in item 71165</p> <p>(Item is subject to rule 6)</p> <p>Fee: \$73.15 Benefit: 75% = \$54.90 85% = \$62.20</p>
71169	<p>A test described in item 71165, if rendered by a receiving APP, where no tests in the item have been rendered by the referring APP - 1 test</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40</p>
71170	<p>Tests described in item 71165, other than that described in 71169, if rendered by a receiving APP - each test to a maximum of 3 tests</p> <p>(Item is subject to rule 6 and 18)</p> <p>Fee: \$12.85 Benefit: 75% = \$9.65 85% = \$10.95</p>
71175	<p>A test, requested by a specialist or consultant physician, to diagnose neuromyelitis optica spectrum disorder (NMOSD) or myelin oligodendrocyte glycoprotein antibody-related demyelination (MARD), by the detection of one or more antibodies, for a patient:</p> <ul style="list-style-type: none"> a. suspected of having NMOSD or MARD; and b. with any of the following: <ul style="list-style-type: none"> i. recurrent, bilateral or severe optic neuritis;

P4. IMMUNOLOGY

	<ul style="list-style-type: none"> ii. recurrent longitudinal extensive transverse myelitis (LETM); iii. area postrema syndrome (unexplained hiccups, nausea or vomiting); iv. acute brainstem syndrome; v. symptomatic narcolepsy or acute diencephalic clinical syndrome with typical NMOSD magnetic resonance imaging lesions; vi. symptomatic cerebral syndrome with typical NMOSD magnetic resonance imaging lesions; vii. monophasic neuromyelitis optica (no recurrence, and simultaneous or closely related optic neuritis and LETM within 30 days of each other); viii. acute disseminated encephalomyelitis; ix. aseptic meningitis and encephalomyelitis; x. poor recovery from multiple sclerosis relapses <p>Applicable not more than 4 times in 12 months</p> <p>Fee: \$50.00 Benefit: 75% = \$37.50 85% = \$42.50</p>
71180	<p>Antibody to cardiolipin or beta-2 glycoprotein I - detection, including quantitation if required; one antibody specificity (IgG or IgM)</p> <p>Fee: \$34.55 Benefit: 75% = \$25.95 85% = \$29.40</p>
71183	<p>Detection of two antibodies described in item 71180</p> <p>Fee: \$47.45 Benefit: 75% = \$35.60 85% = \$40.35</p>
71186	<p>Detection of three or more antibodies described in item 71180</p> <p>Fee: \$60.30 Benefit: 75% = \$45.25 85% = \$51.30</p>
71189	<p>Detection of specific IgG antibodies to 1 or more respiratory disease allergens not elsewhere specified.</p> <p>Fee: \$15.50 Benefit: 75% = \$11.65 85% = \$13.20</p>
71192	<p>2 items described in item 71189.</p> <p>Fee: \$28.35 Benefit: 75% = \$21.30 85% = \$24.10</p>
71195	<p>3 or more items described in item 71189.</p> <p>Fee: \$40.05 Benefit: 75% = \$30.05 85% = \$34.05</p>
71198	<p>Estimation of serum tryptase for the evaluation of unexplained acute hypotension or suspected anaphylactic event, assessment of risk in stinging insect anaphylaxis, exclusion of mastocytosis, monitoring of known mastocytosis.</p> <p>Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50</p>
71200	<p>Detection and quantitation, if present, of free kappa and lambda light chains in serum for the diagnosis or monitoring of amyloidosis, myeloma or plasma cell dyscrasias.</p> <p>Fee: \$59.60 Benefit: 75% = \$44.70 85% = \$50.70</p>
71202	<p>Measurable residual disease (MRD) testing by flow cytometry, performed on bone marrow from a patient diagnosed with acute lymphoblastic leukaemia, for the purpose of determining baseline MRD, or facilitating the determination of MRD following combination chemotherapy or after salvage therapy, requested by a specialist or consultant physician practising as a haematologist or oncologist</p> <p>(See para PN.0.35 of explanatory notes to this Category)</p>

P4. IMMUNOLOGY	
	Fee: \$550.00 Benefit: 75% = \$412.50 85% = \$467.50
71203	Determination of HLAB5701 status by flow cytometry or cytotoxicity assay prior to the initiation of Abacavir therapy including item 73323 if performed. Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
P5. TISSUE PATHOLOGY	
	Group P5. Tissue Pathology
72813	Examination of complexity level 2 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens (Item is subject to rule 13) Fee: \$71.50 Benefit: 75% = \$53.65 85% = \$60.80
72814	Immunohistochemical examination by immunoperoxidase or other labelled antibody techniques using the programmed cell death ligand 1 (PD-L1) antibody of tumour material from a patient diagnosed with: (a) non-small cell lung cancer; or (b) recurrent or metastatic squamous cell carcinoma of the oral cavity, pharynx or larynx; or (c) locally recurrent unresectable or metastatic triple-negative breast cancer. Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35
72816	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 separately identified specimen (Item is subject to rule 13) Fee: \$86.35 Benefit: 75% = \$64.80 85% = \$73.40
72817	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 2 to 4 separately identified specimens (Item is subject to rule 13) Fee: \$96.80 Benefit: 75% = \$72.60 85% = \$82.30
72818	Examination of complexity level 3 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 5 or more separately identified specimens

P5. TISSUE PATHOLOGY

	<p>(Item is subject to rule 13)</p> <p>Fee: \$107.05 Benefit: 75% = \$80.30 85% = \$91.00</p>
72823	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 separately identified specimen</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$97.15 Benefit: 75% = \$72.90 85% = \$82.60</p>
72824	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 2 to 4 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$141.35 Benefit: 75% = \$106.05 85% = \$120.15</p>
72825	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 5 to 7 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$180.25 Benefit: 75% = \$135.20 85% = \$153.25</p>
72826	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 8 to 11 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$194.60 Benefit: 75% = \$145.95 85% = \$165.45</p>
72827	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 12 to 17 separately identified specimens</p> <p>(Item is subject to Rule 13)</p> <p>Fee: \$208.95 Benefit: 75% = \$156.75 85% = \$177.65</p>
72828	<p>Examination of complexity level 4 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 18 or more separately identified specimens</p> <p>(Item is subject to Rule 13)</p>

P5. TISSUE PATHOLOGY	
	Fee: \$223.30 Benefit: 75% = \$167.50 85% = \$189.85
	Examination of complexity level 5 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens (Item is subject to rule 13)
72830	Fee: \$274.15 Benefit: 75% = \$205.65 85% = \$233.05
	Examination of complexity level 6 biopsy material with 1 or more tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens (Item is subject to rule 13)
72836	Fee: \$417.20 Benefit: 75% = \$312.90 85% = \$354.65
	Examination of complexity level 7 biopsy material with multiple tissue blocks, including specimen dissection, all tissue processing, staining, light microscopy and professional opinion or opinions - 1 or more separately identified specimens. (Item is subject to rule 13)
72838	Fee: \$466.85 Benefit: 75% = \$350.15 85% = \$396.85
	Enzyme histochemistry of skeletal muscle for investigation of primary degenerative or metabolic muscle diseases or of muscle abnormalities secondary to disease of the central or peripheral nervous system - 1 or more tests
72844	Fee: \$30.75 Benefit: 75% = \$23.10 85% = \$26.15
	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 72848 (Item is subject to rule 13)
72846	Fee: \$59.60 Benefit: 75% = \$44.70 85% = \$50.70
	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4-6 antibodies (Item is subject to rule 13)
72847	Fee: \$89.40 Benefit: 75% = \$67.05 85% = \$76.00
	Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2 (HER2) (Item is subject to rule 13)
72848	Fee: \$74.50 Benefit: 75% = \$55.90 85% = \$63.35

P5. TISSUE PATHOLOGY

72849	<p>Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7-10 antibodies</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$104.30 Benefit: 75% = \$78.25 85% = \$88.70</p>
72850	<p>Immunohistochemical examination of biopsy material by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$119.20 Benefit: 75% = \$89.40 85% = \$101.35</p>
72851	<p>Electron microscopic examination of biopsy material - 1 separately identified specimen</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$565.00 Benefit: 75% = \$423.75 85% = \$480.25</p>
72852	<p>Electron microscopic examination of biopsy material - 2 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$753.00 Benefit: 75% = \$564.75 85% = \$654.30</p>
72855	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 1 separately identified specimen</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$184.35 Benefit: 75% = \$138.30 85% = \$156.70</p>
72856	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 2 to 4 separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$245.80 Benefit: 75% = \$184.35 85% = \$208.95</p>
72857	<p>Intraoperative consultation and examination of biopsy material by frozen section or tissue imprint or smear - 5 or more separately identified specimens</p> <p>(Item is subject to rule 13)</p> <p>Fee: \$286.75 Benefit: 75% = \$215.10 85% = \$243.75</p>
72858	<p>A second opinion, provided in a written report, where the opinion and report together require no more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$180.00 Benefit: 75% = \$135.00 85% = \$153.00</p>

P5. TISSUE PATHOLOGY

72859	<p>A second opinion, provided in a written report, where the opinion and report together require more than 30 minutes to complete, on a patient specimen, requested by a treating practitioner, where further information is needed for accurate diagnosis and appropriate patient management.</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$370.00 Benefit: 75% = \$277.50 85% = \$314.50</p>
72860	<p>Retrieval and review of one or more archived formalin fixed paraffin embedded blocks to determine the appropriate samples for the purpose of conducting genetic testing, other than:</p> <p>(a) a service associated with a service to which item 72858 or 72859 applies; or</p> <p>(b) a service associated with, and rendered in the same patient episode as, a service to which an item in Group P5, P6, P10 or P11 applies</p> <p>Applicable not more than once in a patient episode</p> <p>(See para PR.5.1 of explanatory notes to this Category)</p> <p>Fee: \$85.00 Benefit: 75% = \$63.75 85% = \$72.25</p>

P6. CYTOLOGY

	Group P6. Cytology
73043	<p>Cytology (including serial examinations) of nipple discharge or smears from skin, lip, mouth, nose or anus for detection of precancerous or cancerous changes 1 or more tests</p> <p>Fee: \$22.85 Benefit: 75% = \$17.15 85% = \$19.45</p>
73045	<p>Cytology (including serial examinations) for malignancy (other than an examination mentioned in item 73076); and including any Group P5 service, if performed on:</p> <p>(a) specimens resulting from washings or brushings from sites not specified in item 73043; or</p> <p>(b) a single specimen of sputum or urine; or</p> <p>(c) 1 or more specimens of other body fluids;</p> <p>1 or more tests</p> <p>Fee: \$48.60 Benefit: 75% = \$36.45 85% = \$41.35</p>
73047	<p>Cytology of a series of 3 sputum or urine specimens for malignant cells</p> <p>Fee: \$94.70 Benefit: 75% = \$71.05 85% = \$80.50</p>
73049	<p>Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 1 identified site</p> <p>Fee: \$68.15 Benefit: 75% = \$51.15 85% = \$57.95</p>
73051	<p>Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if a recognized pathologist:</p> <p>(a) performs the aspiration; or</p>

P6. CYTOLOGY	
	(b) attends the aspiration and performs cytological examination during the attendance Fee: \$170.35 Benefit: 75% = \$127.80 85% = \$144.80
73059	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 antibodies except those listed in 73061 (Item is subject to rule 13) Fee: \$43.00 Benefit: 75% = \$32.25 85% = \$36.55
73060	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 4 to 6 antibodies (Item is subject to rule 13) Fee: \$57.35 Benefit: 75% = \$43.05 85% = \$48.75
73061	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 1 to 3 of the following antibodies - oestrogen, progesterone and c-erb-B2 (HER2) (Item is subject to rule 13) Fee: \$51.20 Benefit: 75% = \$38.40 85% = \$43.55
73062	Cytology of material obtained directly from a patient by fine needle aspiration of solid tissue or tissues - 2 or more separately identified sites. Fee: \$89.00 Benefit: 75% = \$66.75 85% = \$75.65
73063	Cytology of material obtained directly from a patient at one identified site by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy Fee: \$99.35 Benefit: 75% = \$74.55 85% = \$84.45
73064	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 7 to 10 antibodies (Item is subject to rule 13) Fee: \$71.70 Benefit: 75% = \$53.80 85% = \$60.95
73065	Immunocytochemical examination of material obtained by procedures described in items 73045, 73047, 73049, 73051, 73062, 73063, 73066 and 73067 for the characterisation of a malignancy by immunofluorescence, immunoperoxidase or other labelled antibody techniques with multiple antigenic specificities per specimen - 11 or more antibodies

P6. CYTOLOGY

	<p>(Item is subject to rule 13)</p> <p>Fee: \$86.00 Benefit: 75% = \$64.50 85% = \$73.10</p>
73066	<p>Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if a recognized pathologist:</p> <p>(a) performs the aspiration; or</p> <p>(b) attends the aspiration and performs cytological examination during the attendance</p> <p>Fee: \$221.45 Benefit: 75% = \$166.10 85% = \$188.25</p>
73067	<p>Cytology of material obtained directly from a patient at 2 or more separately identified sites by fine needle aspiration of solid tissue or tissues if an employee of an approved pathology authority attends the aspiration for confirmation of sample adequacy</p> <p>Fee: \$129.15 Benefit: 75% = \$96.90 85% = \$109.80</p>
73070	<p>73070</p> <p>A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer:</p> <p>(a) performed on a liquid based cervical specimen; and</p> <p>(b) for an asymptomatic patient who is at least 24 years and 9 months of age</p> <p>For any particular patient, once only in a 57 month period</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73071	<p>A test, including partial genotyping, for oncogenic human papillomavirus that may be associated with cervical pre-cancer or cancer, if performed:</p> <p>(a) on a self-collected vaginal specimen; and</p> <p>(b) for an asymptomatic patient who is at least 24 years and 9 months of age</p> <p>For any particular patient, applicable once in 57 months</p> <p>(See para PN.0.22 of explanatory notes to this Category)</p> <p>Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73072	<p>A test, including partial genotyping, for oncogenic human papillomavirus:</p> <p>(a) for the investigation of a patient in a specific population that appears to have a higher risk of cervical pre-cancer or cancer; or</p> <p>(b) for the follow-up management of a patient with a previously detected oncogenic human papillomavirus infection or cervical pre-cancer or cancer; or</p> <p>(c) for the investigation of a patient with symptoms suggestive of cervical cancer; or</p>

P6. CYTOLOGY	
	<p>(d) for the follow-up management of a patient after treatment of high grade squamous intraepithelial lesions or adenocarcinoma in situ of the cervix; or</p> <p>(e) for the follow-up management of a patient with glandular abnormalities; or</p> <p>(f) for the follow-up management of a patient exposed to diethylstilboestrol in utero; or</p> <p>(g) for a patient previously treated for a genital tract malignancy when performed as a co-test for both human papillomavirus (HPV) and liquid-based cytology (LBC).</p> <p>(See para PN.0.22 of explanatory notes to this Category) Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73074	<p>A test, including partial genotyping, for oncogenic human papillomavirus, for the investigation of a patient following a total hysterectomy.</p> <p>(See para PN.0.22 of explanatory notes to this Category) Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73075	<p>A test, including partial genotyping, for oncogenic human papillomavirus, if:</p> <p>(a) the test is a repeat of a test to which item 73070, 73071, 73072, 73074 or this item applies; and</p> <p>(b) the specimen collected for the previous test is unsatisfactory</p> <p>(See para PN.0.22 of explanatory notes to this Category) Fee: \$35.00 Benefit: 75% = \$26.25 85% = \$29.75</p>
73076	<p>Cytology of a liquid-based cervical or vaginal vault specimen, where the stained cells are examined microscopically or by automated image analysis by or on behalf of a pathologist, if:</p> <p>(a) the cytology is associated with the detection of oncogenic human papillomavirus infection by:</p> <p>(i) a test to which item 73070, 73071, 73074 or 73075 applies; or</p> <p>(ii) a test to which item 73072 applies for a patient mentioned in paragraph (a) or (b) of that item; or</p> <p>(b) the cytology is associated with a test to which item 73072 applies for a patient mentioned in paragraph (c), (d), (e) or (f) of that item; or</p> <p>(c) the cytology is associated with a test to which item 73074 applies; or</p> <p>(d) the test is a repeat of a test to which this item applies, if the specimen collected for the previous test is unsatisfactory; or</p> <p>(e) the cytology is for the follow-up management of a patient treated for endometrial adenocarcinoma</p> <p>(See para PN.0.22 of explanatory notes to this Category) Fee: \$46.00 Benefit: 75% = \$34.50 85% = \$39.10</p>

P7. GENETICS	
	Group P7. Genetics

P7. GENETICS	
73287	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on 1 or more of any tissue or fluid except blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p>(See para PR.7.3 of explanatory notes to this Category) Fee: \$394.55 Benefit: 75% = \$295.95 85% = \$335.40</p>
73289	<p>The study of the whole of every chromosome by cytogenetic or other techniques, performed on blood (including a service mentioned in item 73293, if performed) - 1 or more tests</p> <p>Fee: \$358.95 Benefit: 75% = \$269.25 85% = \$305.15</p>
73290	<p>The study of the whole of each chromosome by cytogenetic or other techniques, performed on blood or bone marrow, in the diagnosis and monitoring of haematological malignancy (including a service in items 73287 or 73289, if performed). - 1 or more tests.</p> <p>(See para PR.7.2 of explanatory notes to this Category) Fee: \$394.55 Benefit: 75% = \$295.95 85% = \$335.40</p>
73291	<p>Analysis of one or more chromosome regions for specific constitutional genetic abnormalities of blood or fresh tissue in</p> <p>a) diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities, in whom cytogenetic studies (item 73287 or 73289) are either normal or have not been performed; or</p> <p>b) studies of a relative for an abnormality previously identified in such an affected person.</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73292	<p>Analysis of chromosomes by genome-wide micro-array including targeted assessment of specific regions for constitutional genetic abnormalities in diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities (including a service in items 73287, 73289 or 73291, if performed)</p> <p>- 1 or more tests.</p> <p>Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$501.45</p>
73293	<p>Analysis of one or more regions on all chromosomes for specific constitutional genetic abnormalities of fresh tissue in diagnostic studies of the products of conception, including exclusion of maternal cell contamination.</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73294	<p>Analysis of the PMP22 gene for constitutional genetic abnormalities causing peripheral neuropathy, either as:</p> <p>a) diagnostic studies of an affected person; or</p> <p>b) studies of a relative for an abnormality previously identified in an affected person</p> <p>- 1 or more tests.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>

P7. GENETICS

73295	<p>Detection of germline BRCA1 or BRCA2 pathogenic or likely pathogenic gene variants, in a patient with advanced (FIGO III-IV) high-grade serous or high-grade epithelial ovarian, fallopian tube or primary peritoneal cancer for whom testing of tumour tissue is not feasible, requested by a specialist or consultant physician, to determine eligibility for treatment with a poly (adenosine diphosphate [ADP]-ribose) polymerase (PARP) inhibitor under the Pharmaceutical Benefits Scheme (PBS)</p> <p>Maximum of one test per patient's lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73296	<p>Characterisation of germline gene variants, including copy number variation where appropriate, requested by a specialist or consultant physician:</p> <p>(a) in genes associated with breast, ovarian, fallopian tube or primary peritoneal cancer, which must include at least:</p> <p>(i) BRCA1 and BRCA 2 genes; and</p> <p>(ii) one or more STK11, PTEN, CDH1, PALB2 and TP53 genes; and</p> <p>(b) in a patient:</p> <p>(i) with breast, ovarian, fallopian tube or primary peritoneal cancer; and</p> <p>(ii) for whom clinical and family history criteria place the patient at greater than 10% risk of having a pathogenic or likely pathogenic gene associated with breast, ovarian, fallopian tube or primary peritoneal cancer</p> <p>Once per cancer diagnosis</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73297	<p>Characterisation of germline gene variants, including copy number variation where appropriate, requested by a specialist or consultant physician:</p> <p>(a) in genes associated with breast, ovarian, fallopian tube or primary peritoneal cancer, which may include the following genes:</p> <p>(i) BRCA1 or BRCA2;</p> <p>(ii) STK11, PTEN, CDH1, PALB2 and TP53; and</p> <p>(b) in a patient:</p> <p>(i) who has a biological relative who has had a pathogenic or likely pathogenic gene variant identified in one or more of the genes mentioned in paragraph (a); or</p> <p>(ii) who has not previously received a service to which item 73295, 73296 or 73302 applies</p> <p>Once per variant</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73298	<p>Characterisation of germline gene variants in the following genes:</p>

P7. GENETICS

	<p>(a) COL4A3; and</p> <p>(b) COL4A4; and</p> <p>(c) COL4A5;</p> <p>in a patient for whom clinical and relevant family history criteria have been assessed by a specialist or consultant physician, who requests the service to be strongly suggestive of Alport syndrome.</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73299	<p>Characterisation of germline gene variants:</p> <p>(a) in the following genes:</p> <p style="padding-left: 40px;">(i) COL4A3; and</p> <p style="padding-left: 40px;">(ii) COL4A4; and</p> <p style="padding-left: 40px;">(iii) COL4A5;</p> <p>(b) in a patient who:</p> <p style="padding-left: 40px;">(i) is a first degree biological relative of a patient who has had a pathogenic mutation identified in one or more of the genes mentioned in subparagraphs (a)(i), (ii) and (iii); and</p> <p style="padding-left: 40px;">(ii) has not previously received a service which item 73298 applies; requested by a specialist or consultant physician.</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73300	<p>Detection of mutation of the FMR1 gene where:</p> <p>(a) the patient exhibits intellectual disability, ataxia, neurodegeneration, or premature ovarian failure consistent with an FMRI mutation; or</p> <p>(b) the patient has a relative with a FMR1 mutation</p> <p>1 or more tests</p> <p>(See para PN.0.23, PN.7.16 of explanatory notes to this Category)</p> <p>Fee: \$101.30 Benefit: 75% = \$76.00 85% = \$86.15</p>
73301	<p>A test of tumour tissue from a patient with advanced (FIGO III-IV), high grade serous or high grade epithelial ovarian, fallopian tube or primary peritoneal cancer, requested by a specialist or consultant physician, to determine eligibility relating to BRCA status for access to treatment with a poly (adenosine diphosphate [ADP]-ribose) polymerase (PARP) inhibitor under the Pharmaceutical Benefits Scheme (PBS)</p> <p>Applicable once per primary tumour diagnosis</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73302	<p>Characterisation of germline gene variants including copy number variants, in BRCA1 or BRCA2 genes, in a patient who has had a pathogenic or likely pathogenic variant identified in either gene by tumour testing and who has not previously received a service to which items 73295, 73296 or 73297 applies, requested by a specialist or consultant physician.</p>

P7. GENETICS	
	<p>Applicable once per primary tumour diagnosis</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73303	<p>A test of tumour tissue from a patient with metastatic castration-resistant prostate cancer, including subsequent characterisation of germline gene variants should tumour tissue testing undertaken during the same service be inconclusive, requested by a specialist or consultant physician, to determine eligibility relating to BRCA status for access to olaparib under the Pharmaceutical Benefits Scheme.</p> <p>Applicable once per primary tumour diagnosis</p> <p>Fee: \$1,000.00 Benefit: 75% = \$750.00 85% = \$901.30</p>
73304	<p>Detection of germline BRCA1 or BRCA2 pathogenic or likely pathogenic gene variants, in a patient with metastatic castration-resistant prostate cancer, for whom testing of tumour tissue is not clinically feasible, requested by a specialist or consultant physician, to determine eligibility for olaparib under the Pharmaceutical Benefits Scheme.</p> <p>Applicable once per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$1,000.00 Benefit: 75% = \$750.00 85% = \$901.30</p>
73305	<p>Detection of mutation of the FMR1 gene by Southern Blot analysis where the results in item 73300 are inconclusive</p> <p>(See para PN.0.23, PN.7.16 of explanatory notes to this Category)</p> <p>Fee: \$202.65 Benefit: 75% = \$152.00 85% = \$172.30</p>
73306	<p>Gene expression profiling testing using EndoPredict, for the purpose of profiling gene expression in formalin-fixed, paraffin-embedded primary breast cancer tissue from core needle biopsy or surgical tumour sample to estimate the risk of distant recurrence of breast cancer within 10 years, if:</p> <p>(a) the sample is from a new primary breast cancer, which is suitable for adjuvant chemotherapy; and</p> <p>(b) the sample has been determined to be oestrogen receptor positive and HER2 negative by IHC and ISH respectively on surgically removed tumour; and</p> <p>(c) the sample is axillary node negative or positive (up to 3 nodes) with a tumour size of at least 1 cm and no more than 5 cm determined by histopathology on surgically removed tumour; and</p> <p>(d) the sample has no evidence of distal metastasis; and</p> <p>(e) pre-testing of intermediate risk of distant metastases has shown that the tumour is defined by at least one of the following characteristics:</p> <p style="padding-left: 40px;">(i) histopathological grade 2 or 3;</p> <p style="padding-left: 40px;">(ii) one to 3 lymph nodes involved in metastatic disease (including micrometastases but not isolated tumour cells); and</p> <p>(f) the service is not administered for the purpose of altering treatment decisions</p> <p>Applicable once per new primary breast cancer diagnosis for any particular patient</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>

P7. GENETICS

73307	<p>A test of tumour tissue from a patient with advanced (FIGO III-IV), high-grade serous or other high-grade ovarian, fallopian tube or primary peritoneal carcinoma, requested by a specialist or consultant physician, if the test is:</p> <p>(a) to determine eligibility with respect to homologous recombination deficiency (HRD) status, including BRCA1 or BRCA2 status, to provide access to poly (adenosine diphosphate [ADP]-ribose) polymerase (PARP) inhibitor therapy under the Pharmaceutical Benefits Scheme; and</p> <p>(b) including a service described in item 73301</p> <p>Applicable once per primary tumour diagnosis</p> <p>Fee: \$3,000.00 Benefit: 75% = \$2250.00 85% = \$2901.30</p>
73308	<p>Characterisation of the genotype of a patient for Factor V Leiden gene mutation, or detection of the other relevant mutations in the investigation of proven venous thrombosis or pulmonary embolism - 1 or more tests</p> <p>Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00</p>
73309	<p>A test described in item 73308, if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00</p>
73310	<p>Measurable residual disease (MRD) testing by next-generation sequencing, performed on bone marrow (or a peripheral blood sample if bone marrow cannot be collected) from a patient diagnosed with acute lymphoblastic leukaemia, for the purpose of determining baseline MRD, or facilitating the determination of MRD following combination chemotherapy or after salvage therapy, requested by a specialist or consultant physician practising as a haematologist or oncologist</p> <p>(See para PN.0.35 of explanatory notes to this Category)</p> <p>Fee: \$1,550.00 Benefit: 75% = \$1162.50 85% = \$1451.30</p>
73311	<p>Characterisation of the genotype of a person who is a first degree relative of a person who has proven to have 1 or more abnormal genotypes under item 73308 - 1 or more tests</p> <p>Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00</p>
73312	<p>A test described in item 73311, if rendered by a receiving APP - 1 or more tests</p> <p>(Item is subject to rule 18)</p> <p>Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00</p>
73314	<p>Characterisation of gene rearrangement or the identification of mutations within a known gene rearrangement, in the diagnosis and monitoring of patients with laboratory evidence of:</p> <p>(a) acute myeloid leukaemia; or</p> <p>(b) acute promyelocytic leukaemia; or</p> <p>(c) acute lymphoid leukaemia; or</p> <p>(d) chronic myeloid leukaemia;</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>

P7. GENETICS

	A test described in item 73314, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18)
73315	Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35
	Detection of the C282Y genetic mutation of the HFE gene and, if performed, detection of other mutations for haemochromatosis where: (a) the patient has an elevated transferrin saturation or elevated serum ferritin on testing of repeated specimens; or (b) the patient has a first degree relative with haemochromatosis; or (c) the patient has a first degree relative with homozygosity for the C282Y genetic mutation, or with compound heterozygosity for recognised genetic mutations for haemochromatosis (Item is subject to rule 20)
73317	Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
	A test described in item 73317, if rendered by a receiving APP - 1 or more tests (Item is subject to rule 18 and 20)
73318	Fee: \$36.45 Benefit: 75% = \$27.35 85% = \$31.00
	Detection of HLA-B27 by nucleic acid amplification includes a service described in 71147 unless the service in item 73320 is rendered as a pathologist determinable service. (Item is subject to rule 27)
73320	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	A test described in item 73320, if rendered by a receiving APP - 1 or more tests. (Item is subject to rule 18 and 27)
73321	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	Determination of HLAB5701 status by molecular techniques prior to the initiation of Abacavir therapy including item 71203 if performed.
73323	Fee: \$40.55 Benefit: 75% = \$30.45 85% = \$34.50
	A test described in item 73323 if rendered by a receiving APP 1 or more tests (Item is subject to Rule 18)
73324	Fee: \$40.95 Benefit: 75% = \$30.75 85% = \$34.85

P7. GENETICS

73325	<p>Determination of JAK2 V617F variant allele frequency in the diagnostic work-up by, or on behalf of, a specialist or consultant physician, for a patient with clinical and laboratory evidence of a myeloproliferative neoplasm</p> <p>Fee: \$90.00 Benefit: 75% = \$67.50 85% = \$76.50</p>
73326	<p>Characterisation of the gene rearrangement FIP1L1-PDGFRα in the diagnostic work-up and management of a patient with laboratory evidence of:</p> <ul style="list-style-type: none"> a) mast cell disease; or b) idiopathic hypereosinophilic syndrome; or c) chronic eosinophilic leukaemia; <p>1 or more tests</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73327	<p>Detection of genetic polymorphisms in the Thiopurine S-methyltransferase gene for the prevention of dose-related toxicity during treatment with thiopurine drugs; including (if performed) any service described in item 65075.</p> <p>1 or more tests</p> <p>Fee: \$51.95 Benefit: 75% = \$39.00 85% = \$44.20</p>
73332	<p>An in situ hybridization (ISH) test of tumour tissue from a patient with breast cancer requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to human epidermal growth factor receptor 2 (HER2) gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme (PBS) or the Herceptin Program are fulfilled.</p> <p>Fee: \$315.40 Benefit: 75% = \$236.55 85% = \$268.10</p>
73333	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene:</p> <ul style="list-style-type: none"> (a) in a patient who has a clinical diagnosis of VHL syndrome and: <ul style="list-style-type: none"> (i) a family history of VHL syndrome and one of the following: <ul style="list-style-type: none"> (A) haemangioblastoma (retinal or central nervous system); (B) pheochromocytoma; (C) renal cell carcinoma; or (ii) 2 or more haemangioblastomas; or (iii) one haemangioblastoma and a tumour or a cyst of: <ul style="list-style-type: none"> (A) the adrenal gland; or (B) the kidney; or

P7. GENETICS

	<p>(C) the pancreas; or</p> <p>(D) the epididymis; or</p> <p>(E) a broad ligament (other than epididymal and single renal cysts, which are common in the general population); or</p> <p>(b) in a patient presenting with one or more of the following clinical features suggestive of VHL syndrome:</p> <p>(i) haemangioblastomas of the brain, spinal cord, or retina;</p> <p>(ii) pheochromocytoma;</p> <p>(iii) functional extra-adrenal paraganglioma</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$600.00 Benefit: 75% = \$450.00 85% = \$510.00</p>
73334	<p>Detection of germline mutations of the von Hippel-Lindau (VHL) gene in biological relatives of a patient with a known mutation in the VHL gene</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73335	<p>Detection of somatic mutations of the von Hippel-Lindau (VHL) gene in a patient with:</p> <p>(a) 2 or more tumours comprising:</p> <p>(i) 2 or more haemangioblastomas, or</p> <p>(ii) one haemangioblastoma and a tumour of:</p> <p>(A) the adrenal gland; or</p> <p>(B) the kidney; or</p> <p>(C) the pancreas; or</p> <p>(D) the epididymis; and</p> <p>(b) no germline mutations of the VHL gene identified by genetic testing</p> <p>Fee: \$470.00 Benefit: 75% = \$352.50 85% = \$399.50</p>
73336	<p>A test of tumour tissue from a patient with stage III or stage IV metastatic cutaneous melanoma, requested by, or on behalf of, a specialist or consultant physician, to determine if the requirements relating to BRAF V600 mutation status for access to dabrafenib, vemurafenib or encorafenib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$230.95 Benefit: 75% = \$173.25 85% = \$196.35</p>
73337	<p>A test of tumour tissue from a patient with a new diagnosis of non-small cell lung cancer, shown to have non-squamous histology or histology not otherwise specified, requested by, or on behalf of, a specialist or consultant physician, if the test is:</p> <p>(a) to determine if requirements relating to epidermal growth factor receptor (EGFR) gene status for access to an immunotherapy listed under the Pharmaceutical Benefits Scheme (PBS) are fulfilled; and</p>

P7. GENETICS

	<p>(b) not associated with a service to which item 73437 or 73438 applies</p> <p>(See para PN.7.15 of explanatory notes to this Category) Fee: \$397.35 Benefit: 75% = \$298.05 85% = \$337.75</p>
73338	<p>A test of tumour tissue from a patient with metastatic colorectal cancer (stage IV), requested by a specialist or consultant physician, to determine if:</p> <p>(a) requirements relating to rat sarcoma oncogene (RAS) gene variant status for access to cetuximab or panitumumab under the Pharmaceutical Benefits Scheme are fulfilled, if:</p> <ul style="list-style-type: none"> i. the test is conducted for all clinically relevant mutations on KRAS exons 2, 3 and 4 and NRAS exons 2, 3, and 4; ii. a clinically-relevant RAS variant is detected; <p>and, in cases where no RAS variant is detected</p> <p>(b) the requirements relating to BRAF V600 gene variant status for access to encorafenib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.0.26 of explanatory notes to this Category) Fee: \$362.60 Benefit: 75% = \$271.95 85% = \$308.25</p>
73339	<p>Detection of germline mutations in the RET gene in patients with a suspected clinical diagnosis of multiple endocrine neoplasia type 2 (MEN2) requested by a specialist or consultant physician who manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73340	<p>Detection of a known mutation in the RET gene in an asymptomatic relative of a patient with a documented pathogenic germline RET mutation requested by a specialist or consultant physician who manages the treatment of the patient.</p> <p>One test. (Item is subject to rule 25)</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$200.00 Benefit: 75% = \$150.00 85% = \$170.00</p>
73341	<p>Fluorescence in situ hybridisation (FISH) test of tumour tissue from a patient with a new diagnosis of locally advanced or metastatic non-small cell lung cancer, which is of non-squamous histology or histology not otherwise specified, with documented evidence of anaplastic lymphoma kinase (ALK) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score > 0, and with documented absence of activating mutations of the epidermal growth factor receptor (EGFR) gene, requested by a specialist or consultant physician, if the test is:</p> <p>(a) to determine if requirements relating to ALK gene rearrangement status for access to an immunotherapy listed under the Pharmaceutical Benefits Scheme (PBS) are fulfilled; and</p> <p>(b) not associated with a service to which item 73437 or 73439 applies</p> <p>(See para PN.7.15 of explanatory notes to this Category)</p>

P7. GENETICS	
	Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00
73342	<p>An in situ hybridisation (ISH) test of tumour tissue from a patient with metastatic adenocarcinoma of the stomach or gastro-oesophageal junction, with documented evidence of human epidermal growth factor receptor 2 (<i>HER2</i>) overexpression by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+ on the same tumour tissue sample, requested by, or on the advice of, a specialist or consultant physician who manages the treatment of the patient to determine if the requirements relating to <i>HER2</i> gene amplification for access to trastuzumab under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>(See para PN.1.2 of explanatory notes to this Category)</p> <p>Fee: \$315.40 Benefit: 75% = \$236.55 85% = \$268.10</p>
73343	<p>Detection of 17p chromosomal deletions by fluorescence in situ hybridisation or genome wide micro-array, in a patient with chronic lymphocytic leukaemia or small lymphocytic lymphoma, on a peripheral blood, bone marrow or lymph node sample, requested by a specialist or consultant physician</p> <p>For any particular patient:</p> <p>(a) at initial diagnosis; or</p> <p>(b) at disease relapse; or</p> <p>(c) on disease progression;</p> <p>but only where initiation of, or change in, therapy is anticipated</p> <p>Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$501.45</p>
73344	<p>Fluorescence in situ hybridization (FISH) test of tumour tissue from a patient with a new diagnosis of locally advanced or metastatic non-small cell lung cancer, which is of non-squamous histology or histology not otherwise specified, with documented evidence of ROS proto-oncogene 1 (ROS1) immunoreactivity by immunohistochemical (IHC) examination giving a staining intensity score of 2+ or 3+; and with documented absence of both activating mutations of the epidermal growth factor receptor (EGFR) gene and anaplastic lymphoma kinase (ALK) immunoreactivity by IHC, requested by a specialist or consultant physician, if the test is:</p> <p>(a) to determine if requirements relating to ROS1 gene arrangement status for access to an immunotherapy listed under the Pharmaceutical Benefits Scheme (PBS) are fulfilled: and</p> <p>(b) not associated with a service to which item 73437 or 73439 applies</p> <p>(See para PN.1.2, PN.7.15 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73345	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of investigating, making or excluding a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73347, 73348, or 73349 applies.</p> <p>The patient must have clinical or laboratory findings suggesting there is a high probability suggestive of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder.</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73346	<p>Testing of a pregnant patient whose carrier status for pathogenic cystic fibrosis transmembrane conductance regulator variants, as well as their reproductive partner carrier status is unknown, for the</p>

P7. GENETICS

	<p>purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus, in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73350 applies.</p> <p>The fetus must have ultrasonic findings of echogenic gut, with unknown familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category) Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73347	<p>Testing of a prospective parent for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the risk of their fetus having pathogenic cystic fibrosis transmembrane conductance regulator variants. This is indicated when the fetus has ultrasonic evidence of echogenic gut when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73348, or 73349 applies.</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category) Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73348	<p>Testing of a patient with a laboratory-established family history of pathogenic cystic fibrosis transmembrane conductance regulator variants, for the purpose of determining whether the patient is an asymptomatic genetic carrier of the pathogenic cystic fibrosis transmembrane conductance regulator variants that have been laboratory established in the family history, not being a service associated with a service to which item 73345, 73347, or 73349 applies.</p> <p>The patient must have a positive family history, confirmed by laboratory findings of pathogenic cystic fibrosis transmembrane conductance regulator variants, with a personal risk of being a heterozygous genetic carrier of at least 6%. (This includes family relatedness of: parents, children, full-siblings, half-siblings, grand-parents, grandchildren, aunts, uncles, first cousins, and first cousins once-removed, but excludes relatedness of second cousins or more distant relationships).</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category) Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>
73349	<p>Testing of a patient for pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining the reproductive risk of the patient with their reproductive partner because their reproductive partner is already known to have pathogenic cystic fibrosis transmembrane conductance regulator variants requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73345, 73347, or 73348 applies.</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category) Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73350	<p>Testing of a pregnant patient, where one or both prospective parents are known to be a genetic carrier of pathogenic cystic fibrosis transmembrane conductance regulator variants for the purpose of determining whether pathogenic cystic fibrosis transmembrane conductance regulator variants are present in the fetus in order to make or exclude a diagnosis of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder in the fetus, when requested by a specialist or consultant physician who manages the treatment of the patient, not being a service associated with a service to which item 73346 applies.</p> <p>The fetus must be at 25% or more risk of cystic fibrosis or a cystic fibrosis transmembrane conductance regulator related disorder because of known familial cystic fibrosis transmembrane conductance regulator variants.</p> <p>(See para PN.7.3, PN.7.16 of explanatory notes to this Category)</p>

P7. GENETICS	
	Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50
73351	<p>A test of tumour tissue that is derived from a new sample from a patient with locally advanced (Stage IIIb) or metastatic (Stage IV) non-small cell lung cancer (NSCLC), who has progressed on or after treatment with an epidermal growth factor receptor tyrosine kinase inhibitor (EGFR TKI). The test is to be requested by a specialist or consultant physician, to determine if the requirements relating to EGFR T790M gene status for access to osimertinib under the Pharmaceutical Benefits Scheme are fulfilled.</p> <p>Fee: \$397.35 Benefit: 75% = \$298.05 85% = \$337.75</p>
73352	<p>Characterisation of germline variants causing familial hypercholesterolaemia (which must include the LDLR, PCSK9 and APOB genes), requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> (a) for whom no familial mutation has been identified; and (b) who has any of the following: <ul style="list-style-type: none"> (i) a Dutch Lipid Clinic Network score of at least 6; (ii) an LDL-cholesterol level of at least 6.5 mmol/L in the absence of secondary causes; (iii) an LDL-cholesterol level of between 5.0 and 6.5 mmol/L with signs of premature or accelerated atherogenesis <p>Applicable only once per lifetime</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73353	<p>Detection of a familial mutation for a patient who has a first- or second-degree relative with a documented pathogenic germline gene variant for familial hypercholesterolaemia</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73354	<p>Characterisation of germline gene variants, including copy number variation, in the MLH1, MSH2, MSH6, PMS2 and EPCAM genes, requested by a specialist or consultant physician, for:</p> <ul style="list-style-type: none"> (a) a patient with suspected Lynch syndrome following immunohistochemical examination of neoplastic tissue that has demonstrated loss of expression of one or more mismatch repair proteins; or (b) a patient: <ul style="list-style-type: none"> (i) who has endometrial cancer; and (ii) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having Lynch syndrome, on the basis of clinical and family history criteria <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73355	<p>Characterisation of germline gene variants, including copy number variation, in the APC and MUTYH genes, requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> (a) who has adenomatous polyposis; and

P7. GENETICS

	<p>(b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having either of the following, on the basis of clinical and family history criteria:</p> <ul style="list-style-type: none"> (i) familial adenomatous polyposis; (ii) MUTYH-associated polyposis <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73356	<p>Characterisation of germline gene variants, including copy number variation, in the SMAD4, BMPR1A, STK11 and GREM1 genes, requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> (a) who has non-adenomatous polyposis; and (b) who is assessed by the specialist or consultant physician as being at a risk of more than 10% of having any of the following, on the basis of clinical and family history criteria: <ul style="list-style-type: none"> (i) juvenile polyposis syndrome; (ii) Peutz-Jeghers syndrome; (iii) hereditary mixed polyposis syndrome <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73357	<p>Characterisation of germline gene variants, including copy number variation, in the genes mentioned in item 73354, 73355 or 73356, requested by a specialist or consultant physician, for a patient:</p> <ul style="list-style-type: none"> (a) who has a biological relative with a pathogenic mutation identified in one or more of those genes; and (b) who has not previously received a service to which any of items 73354, 73355 and 73356 apply <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73358	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <ul style="list-style-type: none"> (a) the characterisation is: <ul style="list-style-type: none"> (i) requested by a consultant physician practising as a clinical geneticist; or (ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and (b) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of: <ul style="list-style-type: none"> (i) dysmorphic facial appearance and one or more major structural congenital anomalies; or (ii) intellectual disability or global developmental delay of at least moderate severity, as determined by a specialist paediatrician; and (c) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and

P7. GENETICS

	<p>(d) the characterisation is not performed in conjunction with a service to which item 73359 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category) Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2001.30</p>
73359	<p>Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders, if:</p> <p>(a) the characterisation is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p> <p>(b) the request for the characterisation states that singleton testing is inappropriate; and</p> <p>(c) the patient is aged 10 years or younger and is strongly suspected of having a monogenic condition, based on the presence of:</p> <p style="padding-left: 40px;">(i) dysmorphic facial appearance and one or more major structural congenital anomalies; or</p> <p style="padding-left: 40px;">(ii) intellectual disability or global developmental delay of at least moderate severity, as determined by a specialist paediatrician; and</p> <p>(d) the characterisation is performed following the performance for the patient of a service to which item 73292 applies for which the results were non-informative; and</p> <p>(e) the characterisation is performed using a sample from the patient and a sample from each of the patient's biological parents; and</p> <p>(f) the characterisation is not performed in conjunction with a service to which item 73358 applies</p> <p>Applicable only once per lifetime</p> <p>(See para PN.7.4 of explanatory notes to this Category) Fee: \$2,900.00 Benefit: 75% = \$2175.00 85% = \$2801.30</p>
73360	<p>Re-analysis of whole exome or genome data obtained in performing a service to which item 73358 or 73359 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is:</p> <p style="padding-left: 40px;">(i) requested by a consultant physician practising as a clinical geneticist; or</p> <p style="padding-left: 40px;">(ii) requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and</p>

P7. GENETICS

	<p>(b) the patient is aged 15 years or younger and is strongly suspected of having a monogenic condition; and</p> <p>(c) the re-analysis is performed at least 18 months after:</p> <ul style="list-style-type: none"> (i) a service to which item 73358 or 73359 applies; or (ii) a service to which this item applies <p>Applicable only twice per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73361	<p>Testing of a person (the person tested) for the detection of a single gene variant for diagnostic purposes, if:</p> <ul style="list-style-type: none"> a. the person tested has a biological sibling (the sibling) with a known monogenic condition; and b. a service described in item 73358, 73359 or 73360 has identified the causative variant for the sibling's condition; and c. the results of the testing performed for the sibling are made available for the purpose of providing the detection for the person tested; and d. the detection is: <ul style="list-style-type: none"> i. requested by a consultant physician practising as a clinical geneticist; or ii. requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and e. the detection is not performed in conjunction with a service to which item 73362 or 73363 applies <p>Applicable only once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73362	<p>Testing of a person (the person tested) for the detection of a single gene variant for the purpose of reproductive decision making, if:</p> <ul style="list-style-type: none"> a. the person tested has a first-degree relative (the relative) with a known monogenic condition; and b. a service described in item 73358, 73359 or 73360 has identified the causative variant for the relative's condition; and c. the results of the testing performed for the relative are made available for the purpose of providing the detection for the person tested; and d. the detection is requested by a consultant physician or specialist; and e. the detection is not performed in conjunction with item 73359, 73361 or 73363 <p>Applicable only once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73363	<p>Testing of a person (the person tested) for the detection of a single gene variant for segregation analysis in relation to another person (the patient), if:</p> <ul style="list-style-type: none"> a. the patient has a known phenotype of a suspected monogenic condition; and b. a service described in item 73358 or 73360 has identified a potentially causative variant for the patient; and c. the person tested is a biological parent or other biological relative of the patient; and

P7. GENETICS

	<p>d. a sample from the person tested has not previously been tested in relation to the patient for a service to which item 73359 applies; and</p> <p>e. the results of the testing of the person tested for this service are made available for the purpose of providing the detection for the patient; and</p> <p>f. the detection is:</p> <ul style="list-style-type: none"> i. requested by a consultant physician practising as a clinical geneticist; or ii. requested by a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist; and <p>g. the detection is not performed in conjunction with item 73361 or 73362</p> <p>Applicable only once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73364	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for:</p> <ul style="list-style-type: none"> (i) the characterisation of MYC gene rearrangement; and (ii) if the results of the characterisation mentioned in subparagraph (i) are positive—the characterisation of either or both of BCL2 gene rearrangement and BCL6 gene rearrangement; and <p>(b) is for a patient:</p> <ul style="list-style-type: none"> (i) for whom MYC immunohistochemistry is non-negative; and (ii) with clinical or laboratory evidence, including morphological features, of diffuse large B-cell lymphoma or high grade B-cell lymphoma; and <p>(c) is not performed in conjunction with item 73365</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73365	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MYC gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of Burkitt lymphoma; and</p> <p>(c) is not performed in conjunction with item 73364</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73366	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <ul style="list-style-type: none"> (i) CCND1 gene rearrangement; (ii) CCND2 gene rearrangement; and

P7. GENETICS

	<p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of mantle cell lymphoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73367	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the presence of isochromosome 7q; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of hepatosplenic T-cell lymphoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73368	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) DUSP22 gene rearrangement;</p> <p>(ii) TP63 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of ALK negative anaplastic large cell lymphoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73369	<p>Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) TCL1A gene rearrangement;</p> <p>(ii) MTCP1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of T-cell prolymphocytic leukaemia</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73370	<p>Analysis of blood or bone marrow, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of the following:</p> <p>(i) chromosome translocations t(4;14), t(14;16), t(14;20);</p> <p>(ii) 1q gain;</p> <p>(iii) 17p deletion; and</p>

P7. GENETICS	
	<p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of plasma cell myeloma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73371	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the detection of chromosome 1p/19q co-deletion; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of glial neoplasm with probable oligodendroglial component</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73372	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the identification of IDH1/2 pathological variant status; and</p> <p>(b) is for a patient with:</p> <p>(i) negative IDH1 (R132H) immunohistochemistry; and</p> <p>(ii) clinical or laboratory evidence, including morphological features, of glial neoplasm</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73373	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of MGMT promoter methylation status; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of glioblastoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73374	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes in one of the following genes:</p> <p>(i) MDM2 CNV;</p> <p>(ii) FUS;</p> <p>(iii) DDIT3;</p> <p>(iv) EWSR1;</p> <p>(v) ETV6;</p>

	<p>(vi) NTRK1; (vii) NTRK3; (viii) COL1A1; (ix) PDGFB; (x) STAT6; (xi) PAX3; (xii) PAX7; (xiii) SS18; (xiv) BCOR; (xv) CIC; (xvi) HEY1; (xvii) ALK; (xviii) USP6; (xix) NR4A3; (xx) NCOA2; (xxi) FOXO1; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73375	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 2 or 3 of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73376	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of copy number changes, gene rearrangements, or other molecular changes, in 4 or more of the genes mentioned in item 73374; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of sarcoma</p> <p>Applicable only once per lifetime</p>

P7. GENETICS	
	Fee: \$800.00 Benefit: 75% = \$600.00 85% = \$701.30
	Analysis of tumour tissue, requested by a specialist or consultant physician, that: (a) is for the detection of FOXL2.402C>G status; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of granulosa cell ovarian tumour Applicable only once per lifetime
73377	Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50
	Analysis of tumour tissue, requested by a specialist or consultant physician, that: (a) is for the characterisation of NUTM1 gene status at 15q14; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of midline NUT carcinoma Applicable only once per lifetime
73378	Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that: (a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of secretory carcinoma of the breast Applicable only once per lifetime
73379	Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that: (a) is for the characterisation of MAML2 gene rearrangement; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of mucoepidermoid carcinoma Applicable only once per lifetime
73380	Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00
	Analysis of tumour tissue, requested by a specialist or consultant physician, that: (a) is for the characterisation of ETV6-NTRK3 gene rearrangement; and (b) is for a patient with clinical or laboratory evidence, including morphological features, of mammary analogue secretory carcinoma of the salivary gland Applicable only once per lifetime
73381	Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00
73382	Analysis of tumour tissue, requested by a specialist or consultant physician, that:

P7. GENETICS	
	<p>(a) is for the characterisation of EWSR1 gene rearrangement, with or without PLAG1 gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of hyalinising clear cell carcinoma of the salivary gland</p> <p>Applicable only once per lifetime</p> <p>Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00</p>
73383	<p>Analysis of tumour tissue, requested by a specialist or consultant physician, that:</p> <p>(a) is for the characterisation of either or both of the following:</p> <p>(i) TFE3 gene rearrangement;</p> <p>(ii) TFEB gene rearrangement; and</p> <p>(b) is for a patient with clinical or laboratory evidence, including morphological features, of renal cell carcinoma</p> <p>Applicable only once per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73384	<p>Genetic analysis, for a patient who is eligible for this service under clause 2.7.3A of the pathology services table (see PR.7.1), of samples from the patient and (if relevant) the patient's reproductive partner, for the purpose of providing an assay for pre-implantation genetic testing, requested by a specialist or consultant physician</p> <p>Applicable not more than once per patient episode per disorder (of a kind described in clause 2.7.3A (PR.7.1)) per reproductive relationship</p> <p>(See para PR.7.1, TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$1,736.00 Benefit: 75% = \$1302.00 85% = \$1637.30</p>
73385	<p>Genetic analysis, for a patient who is eligible for this service under clause 2.7.3A of the Pathology Services Table (see PR.7.1), of embryonic tissue from a sample from one embryo, if:</p> <p>(a) the analysis is:</p> <p>(i) requested by a specialist or consultant physician; and</p> <p>(ii) for the purpose of providing a pre-implantation genetic test; and</p> <p>(iii) performed on an embryo that was produced in a single assisted reproductive treatment cycle; and</p> <p>(b) the service is not a service to which item 73386 or 73387 applies for the same assisted reproductive treatment cycle</p> <p>Applicable not more than once per embryo</p> <p>(See para PR.7.1, TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$635.00 Benefit: 75% = \$476.25 85% = \$539.75</p>
73386	<p>Genetic analysis, for a patient who is eligible for this service under clause 2.7.3A of the Pathology Services Table (see PR.7.1), of embryonic tissue from samples from 2 embryos, if:</p>

P7. GENETICS

	<p>(a) the analysis is:</p> <ul style="list-style-type: none"> (i) requested by a specialist or consultant physician; and (ii) for the purpose of providing a pre-implantation genetic test; and (iii) performed on embryos that were produced in a single assisted reproductive treatment cycle; and <p>(b) the service is not a service to which item 73385 or 73387 applies for the same assisted reproductive treatment cycle</p> <p>Applicable not more than once per assisted reproductive treatment cycle for the 2 embryos tested</p> <p>(See para PR.7.1, TN.1.4 of explanatory notes to this Category) Fee: \$1,270.00 Benefit: 75% = \$952.50 85% = \$1171.30</p>
73387	<p>Genetic analysis, for a patient who is eligible for this service under clause 2.7.3A of the Pathology Services Table (see PR.7.1), of embryonic tissue from samples from 3 or more embryos, if:</p> <p>(a) the analysis is:</p> <ul style="list-style-type: none"> (i) requested by a specialist or consultant physician; and (ii) for the purpose of providing a pre-implantation genetic test; and (iii) performed on embryos that were produced in a single assisted reproductive treatment cycle; and <p>(b) the service is not a service to which item 73385 or 73386 applies for the same assisted reproductive treatment cycle</p> <p>Applicable not more than once per assisted reproductive treatment cycle for the 3 or more embryos tested</p> <p>(See para PR.7.1, TN.1.4 of explanatory notes to this Category) Fee: \$1,905.00 Benefit: 75% = \$1428.75 85% = \$1806.30</p>
73388	<p>Analysis of chromosomes by genome-wide microarray, of a sample from amniocentesis or chorionic villus sampling, including targeted assessment of specific regions for constitutional genetic abnormalities in diagnostic studies of a fetus, if</p> <ul style="list-style-type: none"> a. one or more major fetal structural abnormalities have been detected on ultrasound; or b. nuchal translucency was greater than 3.5 mm <p>Applicable only once per fetus</p> <p>(See para PR.7.3 of explanatory notes to this Category) Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$501.45</p>
73389	<p>Analysis of products of conception from a patient with suspected hydatidiform mole for the characterisation of ploidy status</p> <p>Applicable once per pregnancy</p>

P7. GENETICS	
	(See para PN.1.2 of explanatory notes to this Category) Fee: \$340.00 Benefit: 75% = \$255.00 85% = \$289.00
73391	Analysis of chromosomes by genome-wide microarray in diagnostic studies of a patient with multiple myeloma Applicable once per lifetime (See para PR.7.2 of explanatory notes to this Category) Fee: \$589.90 Benefit: 75% = \$442.45 85% = \$501.45
73392	Characterisation of pathogenic or likely pathogenic germline gene variants, requested by a specialist or consultant physician: (a) in at least the following genes: (i) MYBPC3; (ii) MYH7; (iii) TNNT3; (iv) TNNT2; (v) TPM1; (vi) ACTC1; (vii) MYL2; (viii) MYL3; (ix) PRKAG2; (x) LAMP2; (xi) GLA; (xii) LMNA; (xiii) SCN5A; (xiv) TTN; (xv) RBM20; (xvi) PLN; (xvii) DSP; (xviii) DSC2; (xix) DSG2;

P7. GENETICS

	<p>(xx) JUP;</p> <p>(xxi) PKP2;</p> <p>(xxii) TMEM43; and</p> <p>(b) for a patient for whom clinical history, family history or laboratory findings suggest there is a high probability of one or more of the following heritable cardiomyopathies in the patient:</p> <p>(i) hypertrophic cardiomyopathy;</p> <p>(ii) dilated cardiomyopathy;</p> <p>(iii) arrhythmogenic cardiomyopathy</p> <p>Applicable once per lifetime</p> <p>(See para PN.0.27, PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73393	<p>Characterisation of one or more pathogenic or likely pathogenic germline gene variants, requested by a specialist or consultant physician, if:</p> <p>(a) a service described in item 73392 has not previously been performed for the patient; and</p> <p>(b) the patient is a first-degree biological relative (or a second-degree biological relative if a first-degree biological relative is unavailable) of a person who has a pathogenic or likely pathogenic germline gene variant that is confirmed by laboratory findings; and</p> <p>(c) the service is performed for the purpose of assessing present or future risk of any of the following heritable cardiomyopathies in the patient:</p> <p>(i) hypertrophic cardiomyopathy;</p> <p>(ii) dilated cardiomyopathy;</p> <p>(iii) arrhythmogenic cardiomyopathy</p> <p>Applicable once per variant per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73394	<p>Characterisation of one or more recessive pathogenic or likely pathogenic germline genes, requested by a specialist or consultant physician, for the purpose of determining the reproductive risk of heritable cardiomyopathy in a patient:</p> <p>(a) who is a reproductive partner of a known carrier of a pathogenic or likely pathogenic germline gene that is confirmed by laboratory findings ; and</p> <p>(b) for whom carrier status of a pathogenic or likely pathogenic germline gene is unknown; and</p> <p>(c) who has a clinical history, family history or laboratory findings suggesting there is a low probability of heritable cardiomyopathy</p> <p>Applicable once per gene per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p>

P7. GENETICS	
	Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30
73395	<p>Re-analysis of whole exome or genome data that is obtained in performing a service to which item 73392 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is requested by a consultant physician practising as a clinical geneticist or a cardiologist; and</p> <p>(b) the patient is strongly suspected of having a heritable cardiomyopathy; and</p> <p>(c) the re-analysis is performed at least 18 months after a service to which item 73392 or this item applies is performed for the patient</p> <p>Applicable twice per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73396	<p>Characterisation of variants in the JAK2 exon 12 in the diagnostic work-up of a patient with clinical and laboratory evidence of polycythaemia vera, requested by a specialist or consultant physician</p> <p>Fee: \$90.00 Benefit: 75% = \$67.50 85% = \$76.50</p>
73397	<p>Characterisation of variants in both the CALR and MPL genes in the diagnostic work-up of a patient with clinical and laboratory evidence of essential thrombocythaemia or primary myelofibrosis, requested by a specialist or consultant physician</p> <p>Fee: \$200.00 Benefit: 75% = \$150.00 85% = \$170.00</p>
73398	<p>Characterisation of variants in at least 8 genes, which must include all of the following genes:</p> <p>(a) JAK2 (including exons 12 and 14);</p> <p>(b) CALR;</p> <p>(c) MPL;</p> <p>in the diagnostic work-up of a patient with clinical and laboratory evidence of polycythaemia vera or essential thrombocythaemia, requested by a specialist or consultant physician</p> <p>Applicable to one test per diagnostic episode</p> <p>Fee: \$420.00 Benefit: 75% = \$315.00 85% = \$357.00</p>
73399	<p>Characterisation of variants in at least 20 genes, which must include all of the following genes:</p> <p>(a) JAK2 (including exons 12 and 14);</p> <p>(b) CALR;</p> <p>(c) MPL;</p> <p>in the diagnostic work-up of a patient, with clinical and laboratory evidence of primary myelofibrosis, who is eligible for a stem cell transplant, requested by a specialist or consultant physician</p> <p>Applicable to one test per diagnostic episode</p> <p>Fee: \$700.00 Benefit: 75% = \$525.00 85% = \$601.30</p>

P7. GENETICS

73401	<p>Characterisation, by whole exome or genome sequencing and analysis, of germline gene variants in one or more of the genes implicated in heritable cystic kidney disease, if:</p> <p>(a) the service is requested by a consultant physician practising as:</p> <ul style="list-style-type: none">(i) a clinical geneticist; or(ii) a specialist nephrologist; and <p>(b) the patient has a renal abnormality and is strongly suspected of having a monogenic condition</p> <p>Applicable once per lifetime</p> <p>Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2001.30</p>
73402	<p>Characterisation, by whole exome or genome sequencing and analysis, of germline gene variants in one or more of the genes implicated in heritable kidney disease, if:</p> <p>(a) the service is requested by a consultant physician practising as:</p> <ul style="list-style-type: none">(i) a clinical geneticist; or(ii) a specialist nephrologist; and <p>(b) the patient has chronic kidney disease (other than cystic disease or Alport syndrome) and is strongly suspected of having a monogenic condition</p> <p>Applicable once per lifetime</p> <p>Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2001.30</p>
73403	<p>Re-analysis of genetic data obtained in performing a service to which item 73401 or 73402 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is requested by a consultant physician practising as a clinical geneticist or a specialist paediatrician; and</p> <p>(b) the patient has a strong clinical suspicion of a monogenic condition; and</p> <p>(c) a service to which item 73401, 73402 or this item applies has not been performed for the patient in the previous 18 months</p> <p>Applicable twice per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73404	<p>Detection of a single gene variant in a patient, if:</p> <p>(a) the service is requested by:</p> <ul style="list-style-type: none">(i) a clinical geneticist; or(ii) a specialist or consultant physician providing professional genetic counselling services; and <p>(b) the patient has a first-degree relative with a known monogenic cause of kidney disease; and</p> <p>(c) a service described in item 73401, 73402, or 73403 has identified the causative variant for the disease for the relative</p>

P7. GENETICS

	<p>Applicable once per variant per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73405	<p>Detection of one or more variants of a single gene known to cause heritable kidney disease, for the purpose of reproductive decision making, if:</p> <p>(a) the detection is requested by a consultant physician practising as:</p> <ul style="list-style-type: none">(i) a clinical geneticist; or(ii) a specialist nephrologist; and <p>(b) the patient is the reproductive partner of an individual known to be a carrier of a pathogenic variant that causes heritable kidney disease that has a recessive mode of inheritance; and</p> <p>(c) a service described in item 73401, 73402, 73403 or 73404 has identified the causative gene for the patient's partner; and</p> <p>(d) the detection test methodology has sufficient diagnostic range and sensitivity to detect at least 95% of pathogenic variants likely to be present in the patient</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73406	<p>Testing of a pregnant patient, for the purpose of determining whether monogenic variants are present in the fetus, if:</p> <p>(a) the service is requested by a consultant physician practising as:</p> <ul style="list-style-type: none">(i) a clinical geneticist; or(ii) a specialist nephrologist; and <p>(b) the patient or the patient's reproductive partner (or both) are known to be affected by, or are carriers of, a known pathogenic variant that causes heritable kidney disease; and</p> <p>(c) the fetus is at risk, of at least 25%, of inheriting a monogenic variant known to cause kidney disease</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73410	<p>Deletion testing of HBA1 and HBA2 for:</p> <p>(a) the diagnosis of alpha thalassaemia in a patient of reproductive age:</p> <ul style="list-style-type: none">(i) who has abnormal red cell indices; and(ii) for whom thalassaemia screening was suggestive of thalassaemia; and(iii) who does not have a concurrent iron deficiency (or who, irrespective of iron status, is pregnant); and(iv) who has no historic normal cell indices; or <p>(b) the determination of carrier status in a person:</p> <ul style="list-style-type: none">(i) who is a reproductive partner of a person of child-bearing potential with diagnosed alpha thalassaemia; and

P7. GENETICS

	<p>(ii) who has abnormal red cell indices; and</p> <p>(iii) who does not have a concurrent iron deficiency</p> <p>(See para PN.7.5 of explanatory notes to this Category)</p> <p>(See para PN.7.5 of explanatory notes to this Category)</p> <p>Fee: \$100.00 Benefit: 75% = \$75.00 85% = \$85.00</p>
73411	<p>Sequencing of HBA1 or HBA2, if the results of deletion testing described in item 73410 were inconclusive and a less common or rare variant is suspected, either:</p> <p>(a) for the diagnosis of alpha thalassaemia in a patient of reproductive age; or</p> <p>(b) for the determination of carrier status in a reproductive partner of a person of child-bearing potential with diagnosed alpha thalassaemia</p> <p>Applicable once per gene per lifetime</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73412	<p>Deletion testing of HBA1 and HBA2, if the results of deletion testing described in item 73410 were inconclusive and a large deletion variant is suspected, either:</p> <p>(a) for the diagnosis of alpha thalassaemia in a patient of reproductive age; or</p> <p>(b) for the determination of carrier status in a reproductive partner of a person of child-bearing potential with diagnosed alpha thalassaemia</p> <p>Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>
73413	<p>Non-deletion testing of HBA1 and HBA2 using techniques other than sequencing, if the results of deletion testing described in item 73410 were inconclusive, either:</p> <p>(a) for the diagnosis of alpha thalassaemia in a patient of reproductive age ; or</p> <p>(b) for the determination of carrier status in a reproductive partner of a person of child-bearing potential with diagnosed alpha thalassaemia</p> <p>Fee: \$250.00 Benefit: 75% = \$187.50 85% = \$212.50</p>
73416	<p>Detection of germline gene variants, including copy number variation, requested by a specialist or consultant physician:</p> <p>(a) in at least the following genes:</p> <p>(i) KCNQ1;</p> <p>(ii) KCNH2;</p> <p>(iii) SCN5A;</p> <p>(iv) KCNE1;</p> <p>(v) KCNE2;</p> <p>(vi) KCNJ2;</p>

P7. GENETICS

	<p>(vii) CACNA1C; (viii) RYR2; (ix) CASQ2; (x) CAV3; (xi) SCN4B; (xii) AKAP9; (xiii) SNTA1; (xiv) KCNJ5; (xv) ALG10; (xvi) CALM1; (xvii) CALM2; (xviii) ANK2; (xix) TECRL; (xx) TRDN; and</p> <p>(b) for a patient for whom clinical or family history criteria is suggestive of inherited cardiac arrhythmias or channelopathies that place the patient at greater than 10% risk of having a pathogenic variant</p> <p>Applicable once per lifetime</p> <p>(See para PN.0.27, PN.0.23 of explanatory notes to this Category) Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73417	<p>Characterisation of one or more pathogenic or likely pathogenic germline gene variants, requested by a specialist or consultant physician, if:</p> <p>(a) the patient is a first-degree or second-degree biological relative of a person with a pathogenic or likely pathogenic germline gene variant that is confirmed by laboratory findings; and</p> <p>(b) the service is performed for the purpose of assessing present or future risk of a cardiac arrhythmia or channelopathy; and</p> <p>(c) a service to which item 73416 applies has not previously been performed for the patient</p> <p>Applicable once per variant per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category) Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73418	<p>Characterisation of one or more recessive pathogenic or likely pathogenic germline genes, requested by a specialist or consultant physician, for the purpose of determining the reproductive risk of cardiac arrhythmia or channelopathy in a patient:</p>

P7. GENETICS

	<p>(a) who is a reproductive partner of a person who is a known carrier of a pathogenic or likely pathogenic germline gene variant of a gene confirmed by laboratory findings; and</p> <p>(b) for whom a service to which item 73416 applies has not previously been performed; and</p> <p>(c) for whom carrier status of a pathogenic or likely pathogenic germline gene variant is unknown; and</p> <p>(d) who has a clinical history, family history or laboratory findings suggesting there is a low probability of cardiac arrhythmia or channelopathy</p> <p>Applicable once per gene per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73419	<p>Re-analysis of whole exome or genome data that was obtained in performing a service to which item 73416 applies, for characterisation of previously unreported germline gene variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is requested by a consultant physician practising as a clinical geneticist or a cardiologist; and</p> <p>(b) the patient is strongly suspected of having inheritable cardiac arrhythmia or channelopathies; and</p> <p>(c) the service is performed at least 18 months after a service to which item 73416 or this item applies was performed for the patient</p> <p>Applicable twice per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73420	<p>Non-invasive prenatal testing of blood from an RhD negative pregnant patient for the detection of the RHD gene from fetal DNA circulating in maternal blood</p> <p>Fee: \$56.00 Benefit: 75% = \$42.00 85% = \$47.60</p>
73421	<p>Non-invasive prenatal testing of blood from an RhD negative pregnant patient (in a singleton pregnancy) for the detection of the RHD gene from fetal DNA circulating in maternal blood, if the patient is alloimmunised with immune Anti-D</p> <p>Fee: \$550.00 Benefit: 75% = \$412.50 85% = \$467.50</p>
73422	<p>Characterisation of a gene variant or gene variants using a gene panel, in a patient presenting with clinical signs and symptoms suggestive of a genetic neuromuscular disorder (other than signs and symptoms associated with variants that are not detected by massively parallel sequencing), if the service is requested:</p> <p>(a) by a specialist or consultant physician; and</p> <p>(b) after exclusion of non-genetic causes</p> <p>Applicable once per lifetime</p> <p>(See para PN.7.6 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>

P7. GENETICS

73423	<p>Detection of a single identified gene variant, in a biological relative of a person with a germline gene variant for a neuromuscular disorder identified by a service described in item 73422, 73425 or 73426, if the service is requested by a specialist or consultant physician</p> <p>Applicable once per variant</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73424	<p>Prenatal detection of an actionable pathogenic familial gene variant or gene variants (including maternal cell contamination assessment), requested by a specialist or consultant physician, for a genetic neuromuscular disorder previously identified in an index person in the patient's family as a result of a service described in item 73422</p> <p>Applicable once per pregnancy</p> <p>Fee: \$1,600.00 Benefit: 75% = \$1200.00 85% = \$1501.30</p>
73425	<p>Prenatal detection of unknown gene variants (including maternal cell contamination assessment) using a gene panel, if:</p> <p>(a) the service is requested:</p> <p style="padding-left: 40px;">(i) by a specialist or consultant physician, for a suspected genetic neuromuscular disorder; and</p> <p style="padding-left: 40px;">(ii) after exclusion of non-genetic causes; and</p> <p>(b) the service is performed using a sample from the fetus; and</p> <p>(c) the service is not performed in conjunction with a service to which item 73426 applies</p> <p>Applicable once per pregnancy</p> <p>Fee: \$1,800.00 Benefit: 75% = \$1350.00 85% = \$1701.30</p>
73426	<p>Prenatal detection of unknown gene variants (including maternal cell contamination assessment) using a gene panel, if:</p> <p>(a) the service is requested:</p> <p style="padding-left: 40px;">(i) by a specialist or consultant physician; and</p> <p style="padding-left: 40px;">(ii) for a suspected genetic neuromuscular disorder; and</p> <p style="padding-left: 40px;">(iii) after exclusion of non-genetic causes; and</p> <p>(b) the request states that singleton testing is inappropriate; and</p> <p>(c) the service is performed using a sample from the fetus and a sample from each of the fetus's biological parents; and</p> <p>(d) the service is not performed in conjunction with a service to which item 73425 applies</p> <p>Applicable once per pregnancy</p> <p>Fee: \$2,400.00 Benefit: 75% = \$1800.00 85% = \$2301.30</p>
73427	<p>Single gene testing for the characterisation of a germline gene variant or germline gene variants:</p>

P7. GENETICS

	<p>(a) if requested by a specialist or consultant physician; and</p> <p>(b) within the same gene in which the patient’s reproductive partner has a documented pathogenic germline recessive gene variant for a neuromuscular disorder identified by a service described in:</p> <p>(i) item 73422, 73425 or 73426; or</p> <p>(ii) item 73434, if the patient has been provided a service described in item 73434 and that service has not identified a relevant variant</p> <p>Applicable once per gene</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73428	<p>Re-analysis of whole genome or exome data obtained in performing a service described in item 73422, 73425 or 73426, for characterisation of previously unreported gene variants related to the clinical phenotype, if the re-analysis is requested by:</p> <p>(a) a consultant physician practicing as a clinical geneticist; or</p> <p>(b) a consultant physician practising as a specialist paediatrician, following consultation with a clinical geneticist</p> <p>Applicable twice per lifetime</p> <p>(See para PN.7.7 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73429	<p>Genetic testing (including characterisation of single nucleotide variants, structural variants, fusions and copy number alterations) in a single gene panel, requested by a specialist or consultant physician, for a patient with clinical or laboratory evidence of a glioma, glioneuronal tumour or glioblastoma, to aid diagnosis and classification of the relevant tumour, including assessments of at least the following kinds:</p> <p>(a) IDH1, IDH2—variant testing;</p> <p>(b) 1p/19q—co-deletion assessment;</p> <p>(c) H3F3A—variant status;</p> <p>(d) TERT—promoter variant status;</p> <p>(e) EGFR—amplification;</p> <p>(f) CDKN2A/B—deletion;</p> <p>(g) BRAF—variants</p> <p>Applicable to one test per diagnostic episode</p> <p>(See para PN.7.10 of explanatory notes to this Category)</p> <p>Fee: \$887.90 Benefit: 75% = \$665.95 85% = \$789.20</p>

P7. GENETICS

73430	<p>Fluorescence in-situ hybridisation (FISH) test of tumour tissue from a patient with locally advanced or metastatic solid tumour, if:</p> <p>(a) the tumour is at risk of being caused by a neurotrophic receptor tyrosine kinase (NTRK) gene fusion as determined by either:</p> <ul style="list-style-type: none"> (i) occurring in a child less than 18 years of age; or (ii) being mammary analogue secretory carcinoma of the salivary gland; or (iii) being secretory breast carcinoma; and <p>(b) the test is requested by a specialist or consultant physician to determine if requirements relating to NTRK gene fusion status for access to a tropomyosin receptor kinase (Trk) inhibitor under the Pharmaceutical Benefits Scheme are fulfilled</p> <p>This item cannot be claimed if item 73433 has been claimed for the same patient during the same cancer diagnosis</p> <p>Applicable only once per cancer diagnosis</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73431	<p>Two tests described in item 73430</p> <p>Fee: \$533.00 Benefit: 75% = \$399.75 85% = \$453.05</p>
73432	<p>Three or more tests described in item 73430</p> <p>Fee: \$667.00 Benefit: 75% = \$500.25 85% = \$568.30</p>
73433	<p>Next generation sequencing (NGS) test for neurotrophic receptor tyrosine kinase (NTRK1, NTRK2, NTRK3) fusions by RNA or DNA in tumour tissue from a patient with locally advanced or metastatic solid tumour, if:</p> <p>(a) the tumour is at risk of being caused by an NTRK gene fusion as determined by either:</p> <ul style="list-style-type: none"> (i) occurring in a child less than 18 years of age; or (ii) being mammary analogue secretory carcinoma of the salivary gland; or (iii) being secretory breast carcinoma; <p>(b) the test is requested by a specialist or consultant physician to determine if requirements relating to NTRK gene fusion status for access to a tropomyosin receptor kinase (Trk) inhibitor under the Pharmaceutical Benefits Scheme are fulfilled</p> <p>This item cannot be claimed if item 73430 has been claimed for the same patient during the same cancer diagnosis</p> <p>Applicable only once per cancer diagnosis</p> <p>Fee: \$1,000.00 Benefit: 75% = \$750.00 85% = \$901.30</p>
73434	<p>Detection of pathogenic or likely pathogenic gene variants, requested by a specialist or consultant physician, for any of the following:</p> <p>(a) a patient with a suspected neuromuscular disorder;</p>

P7. GENETICS

	<p>(b) a relative of a patient with a pathogenic or likely pathogenic germline gene variant associated with a neuromuscular disorder (confirmed by laboratory findings);</p> <p>(c) the reproductive partner of a patient with a recessive pathogenic or likely pathogenic germline gene variant associated with a neuromuscular disorder (confirmed by laboratory findings)</p> <p>Applicable once per gene per lifetime</p> <p>(See para PN.7.11, PN.7.12 of explanatory notes to this Category) Fee: \$392.00 Benefit: 75% = \$294.00 85% = \$333.20</p>
73435	<p>Detection of pathogenic or likely pathogenic DUX4 gene variants, requested by a specialist or consultant physician, for:</p> <p>(a) a patient with a suspected neuromuscular disorder; or</p> <p>(b) a relative of a patient with a pathogenic or likely pathogenic germline gene variant associated with a neuromuscular disorder (confirmed by laboratory findings)</p> <p>Applicable once per gene per lifetime</p> <p>Fee: \$1,000.00 Benefit: 75% = \$750.00 85% = \$901.30</p>
73436	<p>A test of tumour tissue from a patient with a new diagnosis of locally advanced or metastatic non-small cell lung cancer requested by, or on behalf of, a specialist or consultant physician, if the test is:</p> <p>(a) to determine if the requirements relating to MET proto-oncogene, receptor tyrosine kinase (MET) exon 14 skipping alterations (METex14sk) status for access to an immunotherapy listed under the Pharmaceutical Benefits Scheme (PBS) are fulfilled: and</p> <p>(b) not associated with a service to which item 73437 or 73438 applies</p> <p>(See para PN.1.2, PN.7.15 of explanatory notes to this Category) Fee: \$397.35 Benefit: 75% = \$298.05 85% = \$337.75</p>
73437	<p>A nucleic acid-based multi-gene panel test of tumour tissue from a patient with a new diagnosis of non-small cell lung cancer requested by, or on behalf of, a specialist or consultant physician, if the test is:</p> <p>(a) to detect variants in at least EGFR, BRAF, KRAS and MET exon 14 to determine access to specific therapies relevant to these variants listed on the Pharmaceutical Benefits Scheme (PBS); and</p> <p>(b) to detect the fusion status of at least ALK, ROS1, RET, NTRK1, NTRK2 and NTRK3; and</p> <p style="padding-left: 40px;">(i) to determine access to specific therapies relevant to these variants listed on the PBS; or</p> <p style="padding-left: 40px;">(ii) determine if the requirements relating to EGFR, ALK and ROS1 status for access immunotherapies listed on the PBS are fulfilled; and</p> <p>(c) not associated with a service to which item 73438, 73439, 73337, 73341, 73344, 73436 or 73351 applies</p> <p>(See para PN.7.15 of explanatory notes to this Category) Fee: \$1,247.00 Benefit: 75% = \$935.25 85% = \$1148.30</p>
73438	<p>A DNA-based multi-gene panel test of tumour tissue from a patient with a new diagnosis of non-small cell lung cancer requested by, or on behalf of, a specialist or consultant physician, if the test is:</p> <p>(a) to detect variants in at least EGFR, BRAF, KRAS and MET exon 14; and</p>

P7. GENETICS

	<p>(b) to determine access to specific therapies relevant to these variants listed on the Pharmaceutical Benefits Scheme (PBS); or</p> <p>(c) to determine if the requirements relating to EGFR status for access to immunotherapies listed on the PBS are fulfilled; and</p> <p>(d) not associated with a service to which item 73437, 73337, 73436 or 73351 applies</p> <p>(See para PN.7.15 of explanatory notes to this Category) Fee: \$682.35 Benefit: 75% = \$511.80 85% = \$583.65</p>
73439	<p>A nucleic acid-based multi-gene panel test of tumour tissue from a patient with a new diagnosis of non-small cell lung cancer and with documented absence of activating variants of the EGFR gene, KRAS, BRAF and MET exon14, requested by, or on behalf of, a specialist or consultant physician, if the test is:</p> <p>(a) to determine the fusion status of at least ALK, ROS1, RET, NTRK1, NTRK2, and NTRK3 to determine access to specific therapies relevant to these variants listed on the Pharmaceutical Benefits Scheme (PBS) are fulfilled; or</p> <p>(b) to determine if the requirements relating to ALK and ROS1 status for access to immunotherapies listed on the PBS are fulfilled; and</p> <p>(c) not associated with a service to which item 73437, 73341, 73344 or 73351 applies</p> <p>(See para PN.7.15 of explanatory notes to this Category) Fee: \$682.35 Benefit: 75% = \$511.80 85% = \$583.65</p>
73440	<p>Genomic testing and copy number variant analysis of genes known to be causative or likely causative of childhood hearing loss in a patient, if:</p> <p>(a) the testing and analysis is requested by a specialist or consultant physician; and</p> <p>(b) the patient has congenital or childhood onset hearing loss that presented before the patient was 18 years of age and is permanent moderate, severe, or profound (>40 dB in the worst ear over 3 frequencies) and classified as sensorineural, auditory neuropathy or mixed; and</p> <p>(c) the patient is not eligible for a service to which item 73358 or 73359 applies; and</p> <p>(d) the testing and analysis is not associated with a service to which item 73441 applies</p> <p>Applicable once per lifetime</p> <p>(See para PN.0.23, PN.7.13 of explanatory notes to this Category) Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73441	<p>Genomic testing and copy number variant analysis of relevant genes known to be causative or likely causative of childhood hearing loss in a patient, if:</p> <p>(a) the testing and analysis is requested by a specialist or consultant physician; and</p> <p>(b) the patient has congenital or childhood onset hearing loss that presented before the patient was 18 years of age and is permanent bilateral moderate, severe, or profound (>40 dB in the worst ear over 3 frequencies) and classified as sensorineural, auditory neuropathy or mixed; and</p> <p>(c) the testing and analysis is performed using a sample from the patient and a sample from each of the patient's biological parents; and</p> <p>(d) the patient is not eligible for a service to which item 73358 or 73359 applies; and</p> <p>(e) the testing and analysis is not associated with a service to which item 73440 applies</p> <p>Applicable once per lifetime</p> <p>(See para PN.0.23, PN.7.13 of explanatory notes to this Category) Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2001.30</p>

P7. GENETICS

73442	<p>Re-analysis of whole exome or genome data obtained under a service to which item 73440 or 73441 applies, for characterisation of previously unreported germline gene variants for childhood hearing loss in a patient, if:</p> <p>(a) the re-analysis is requested by a specialist or consultant physician; and</p> <p>(b) the re-analysis is performed at least 24 months after:</p> <p>(i) the service to which items 73440 or 73441 applies has been provided to the patient; or</p> <p>(ii) a service to which this item applies is performed for the patient</p> <p>Applicable twice per lifetime</p> <p>(See para PN.0.23 of explanatory notes to this Category)</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73443	<p>Characterisation of one or more familial germline gene variants known to be causative or likely causative of childhood hearing loss in a person, if:</p> <p>(a) the person tested is a biological relative of a patient with a germline gene variant known to be causative or likely causative of hearing loss confirmed by laboratory findings; and</p> <p>(b) the result of a previous proband testing is made available to the laboratory undertaking the characterisation</p> <p>(See para PN.0.23, PN.7.13 of explanatory notes to this Category)</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>
73444	<p>Characterisation of all germline variants in one or more genes known to cause hearing loss in a person, if:</p> <p>(a) the characterisation is requested by a specialist or consultant physician; and</p> <p>(b) the characterisation is for the reproductive partner of a patient with a pathogenic or likely pathogenic recessive germline gene variant known to cause hearing loss confirmed by laboratory findings; and</p> <p>(c) the result of the patient's previous testing is made available to the laboratory undertaking the characterisation</p> <p>(See para PN.0.23, PN.7.13 of explanatory notes to this Category)</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73445	<p>Characterisation of a variant or variants in a panel of at least 25 genes using DNA and RNA, requested by a specialist or consultant physician, to determine the diagnosis, prognosis and/or management of a patient presenting with a clinically suspected haematological malignancy of myeloid origin</p> <p>Applicable once per diagnostic episode, at diagnosis, disease progression or relapse</p> <p>(See para PN.7.14 of explanatory notes to this Category)</p> <p>Fee: \$1,100.00 Benefit: 75% = \$825.00 85% = \$1001.30</p>
73446	<p>Characterisation of a variant or variants in a panel of at least 25 genes using DNA and RNA, requested by a specialist or consultant physician, to determine the diagnosis, prognosis and/or management of a patient presenting with a clinically suspected haematological malignancy of lymphoid origin</p> <p>Applicable once per diagnostic episode, at diagnosis, disease progression or relapse</p> <p>(See para PN.7.14 of explanatory notes to this Category)</p> <p>Fee: \$1,100.00 Benefit: 75% = \$825.00 85% = \$1001.30</p>
73447	<p>Characterisation of a variant or variants in a panel of at least 25 genes using DNA, requested by a specialist or consultant physician, to determine the diagnosis, prognosis and/or management of a patient presenting with a clinically suspected haematological malignancy of myeloid origin</p> <p>Applicable once per diagnostic episode, at diagnosis, disease progression or relapse</p>

P7. GENETICS	
	(See para PN.7.14 of explanatory notes to this Category) Fee: \$927.90 Benefit: 75% = \$695.95 85% = \$829.20
73448	Characterisation of a variant or variants in a panel of at least 25 genes using DNA, requested by a specialist or consultant physician, to determine the diagnosis, prognosis and/or management of a patient presenting with a clinically suspected haematological malignancy of lymphoid origin Applicable once per diagnostic episode, at diagnosis, disease progression or relapse (See para PN.7.14 of explanatory notes to this Category) Fee: \$927.90 Benefit: 75% = \$695.95 85% = \$829.20
73451	Testing of a patient who is pregnant, or planning pregnancy, to identify carrier status for pathogenic or likely pathogenic variants in the following genes, for the purpose of determining reproductive risk of cystic fibrosis, spinal muscular atrophy or fragile X syndrome: a. CFTR; b. SMN1; c. FMR1 One test per lifetime. (See para PN.7.16 of explanatory notes to this Category) Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00
73452	Testing of the reproductive partner of a patient who has been found to be a carrier of a pathogenic or likely pathogenic variant in the CFTR or SMN1 gene identified by testing under item 73451, for the purpose of determining the couple's reproductive risk of cystic fibrosis or spinal muscular atrophy One test per condition per lifetime (See para PN.7.16 of explanatory notes to this Category) Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00
73453	Characterisation of germline pathogenic or likely pathogenic gene variants: (a) in at least the following genes: (i) ASPA; (ii) BLM; (iii) CFTR; (iv) ELP1; (v) FANCA; (vi) FANCC; (vii) FANCG; (viii) FMR1; (ix) G6PC1; (x) GBA1;

P7. GENETICS

- (xi) HEXA;
- (xii) MCOLN1;
- (xiii) SLC37A4;
- (xiv) SMN1;
- (xv) SMPD1; and

(b) in a patient of reproductive age who is of Ashkenazi Jewish descent for the purpose of ascertaining the patient's carrier status for the following:

- (i) Bloom syndrome
- (ii) Canavan disease
- (iii) Cystic fibrosis
- (iv) Familial dysautonomia
- (v) Fanconi anaemia type C
- (vi) Fragile-X syndrome
- (vii) Gaucher disease
- (viii) Glycogen storage disease type I
- (ix) Mucopolidosis type IV
- (x) Niemann-Pick disease type A 7
- (xi) Spinal muscular atrophy
- (xii) Tay-Sachs disease

Applicable once per lifetime

(See para PN.7.18 of explanatory notes to this Category)

Fee: \$425.00 **Benefit:** 75% = \$318.75 85% = \$361.25

Whole gene sequencing of a gene or genes described in item 73453, in a patient who is the reproductive partner of an individual who is affected by, or is a known genetic carrier of, one or more conditions described in item 73453 (other than cystic fibrosis, fragile-X syndrome or spinal muscular atrophy), for the purpose of determining the couple's combined reproductive risk of the conditions, if:

- (a) the patient is not eligible for a service to which item 73453 applies; and
- (b) the patient has not received a service to which item 73453 applies; and
- (c) the patient has not received a service to which this item applies for the purpose of determining the patient's reproductive risk with the patient's current reproductive partner

Applicable once per couple per lifetime

73454

P7. GENETICS

	Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30
	<p>Testing of a pregnant patient, if at least one prospective parent is known to be affected by, or is a genetic carrier of, one or more conditions described in item 73453, for the purpose of determining whether a familial variant or variants are present in the fetus, if:</p> <p>(a) the testing is requested by a specialist or consultant physician; and</p> <p>(b) there is at least a 25% risk of the fetus inheriting a condition described in paragraph (b) of item 73453</p>
73455	Fee: \$1,600.00 Benefit: 75% = \$1200.00 85% = \$1501.30
73456	<p>Characterisation by whole genome sequencing, or by either or both whole exome sequencing and mitochondrial DNA sequencing, of germline variants present in nuclear DNA and in mitochondrial DNA of a patient with a strong suspicion of a mitochondrial disease, if:</p> <p>(a) the characterisation is requested by a specialist or consultant physician; and</p> <p>(b) the characterisation is requested because of the onset of one or more clinical features indicative of mitochondrial disease, including at least one or more of the following:</p> <ul style="list-style-type: none"> (i) meeting the clinical criteria of a probable indicator of mitochondrial disease on a relevant scoring system; (ii) evident mitochondrial dysfunction or decompensation; (iii) unexplained hypotonia or weakness, profound hypoglycaemia or “failure to thrive” in the presence of a metabolic acidosis; (iv) unexplained single or multi-organ dysfunction or fulminant failure (including, but not limited to, neuropathies, myopathies, hepatopathy, pancreatic and/or bone marrow failure); (v) refractory or atypical seizures, developmental delays or cognitive regression, or progressive encephalopathy or progressive encephalomyopathy; (vi) cardiomyopathy and/or cardiac arrhythmias; (vii) rapid hearing or painless visual loss or ptosis; (viii) stroke-like episodes or nonvasculitic strokes; (ix) ataxia, encephalopathy, seizures, muscle fatigue or weakness; (x) external ophthalmoplegia; (xi) hearing loss, diabetes, unexplained short stature, or

P7. GENETICS

	<p>endocrinopathy;</p> <p>(xii) family history of mitochondrial disease, or any of the above;</p> <p>and</p> <p>(c) the service is not a service associated with a service to which item 73358, 73359 or 73457 applies</p> <p>Applicable only once per lifetime</p> <p>Fee: \$2,100.00 Benefit: 75% = \$1575.00 85% = \$2001.30</p>
73457	<p>Characterisation by whole genome sequencing, or either or both whole exome sequencing and mitochondrial DNA sequencing, of germline variants present in nuclear DNA and in mitochondrial DNA, of a patient with a strong suspicion of a mitochondrial disease, if:</p> <p>(a) the characterisation is performed using a sample from the patient and a sample from each of the patient's biological parents; and</p> <p>(b) the request for the characterisation states that singleton testing is inappropriate; and</p> <p>(c) the characterisation is requested by a specialist or consultant physician; and</p> <p>(d) the characterisation is requested because of the onset of one or more clinical features indicative of mitochondrial disease, including at least one or more of the following:</p> <ul style="list-style-type: none">(i) meeting the clinical criteria of a probable indicator of mitochondrial disease on a relevant scoring system;(ii) evident mitochondrial dysfunction or decompensation;(iii) unexplained hypotonia or weakness, profound hypoglycaemia or "failure to thrive" in the presence of a metabolic acidosis;(iv) unexplained single or multi-organ dysfunction or fulminant failure (including, but not limited to, neuropathies, myopathies, hepatopathy, pancreatic and/or bone marrow failure);(v) refractory or atypical seizures, developmental delays or cognitive regression, or progressive encephalopathy or progressive encephalomyopathy;(vi) cardiomyopathy and/or cardiac arrhythmias;(vii) rapid hearing or painless visual loss or ptosis;(viii) stroke-like episodes or nonvasculitic strokes;(ix) ataxia, encephalopathy, seizures, muscle fatigue or weakness;(x) external ophthalmoplegia;(xi) hearing loss, diabetes, unexplained short stature, or endocrinopathy;(xii) family history of mitochondrial disease; and <p>(e) the service is not a service associated with a service to which item 73358, 73359 or 73456 applies</p>

P7. GENETICS

	<p>Applicable only once per lifetime</p> <p>Fee: \$3,300.00 Benefit: 75% = \$2475.00 85% = \$3201.30</p>
73458	<p>Re-analysis of whole genome or whole exome or mitochondrial DNA data obtained in performing a service to which item 73456 or 73457 applies, for characterisation of previously unreported germline variants related to the clinical phenotype, if:</p> <p>(a) the re-analysis is requested by a specialist or consultant physician; and</p> <p>(b) the patient is strongly suspected of having a monogenic mitochondrial disease; and</p> <p>(c) the re-analysis is performed at least 24 months after:</p> <p style="padding-left: 40px;">(i) the service to which item 73456 or 73457 applies; or</p> <p style="padding-left: 40px;">(ii) a service to which this item applies</p> <p>Applicable twice per lifetime</p> <p>Fee: \$500.00 Benefit: 75% = \$375.00 85% = \$425.00</p>
73459	<p>Testing for diagnostic purposes of a pregnant patient, for detection in the fetus of a gene variant or variants present in the parents, if:</p> <p>(a) the gene variant or variants are:</p> <p style="padding-left: 40px;">(i) a variant or variants in the mitochondrial genome identified in the oocyte donating parent; or</p> <p style="padding-left: 40px;">(ii) autosomal recessive variants identified in both biological parents within the same gene; or</p> <p style="padding-left: 40px;">(iii) an autosomal dominant or X-linked variant identified in either biological parent; or</p> <p style="padding-left: 40px;">(iv) identified in a biological sibling of the fetus; and</p> <p>(b) the causative variant or variants for the condition of the fetus' first-degree relative have been confirmed by laboratory findings; and</p> <p>(c) the detection is requested by a specialist or consultant physician; and</p> <p>(d) the service is not a service associated with a service to which item 73361, 73362, 73363 or 73462 applies</p> <p>Fee: \$1,600.00 Benefit: 75% = \$1200.00 85% = \$1501.30</p>
73460	<p>Characterisation of mitochondrial DNA deletion or variant for diagnostic purposes in a patient suspected to have mitochondrial disease, if:</p> <p>(a) the characterisation is requested by the specialist or consultant physician managing the patient's treatment; and</p> <p>(b) the patient displays onset of one or more clinical features indicative of mitochondrial disease, including at least one or more of the following:</p> <p style="padding-left: 40px;">(i) meeting the clinical criteria of a probable indicator of mitochondrial disease on a relevant scoring system;</p>

P7. GENETICS

	<p>(ii) evident mitochondrial dysfunction or decompensation;</p> <p>(iii) unexplained hypotonia or weakness, profound hypoglycaemia or ‘failure to thrive’ in the presence of a metabolic acidosis;</p> <p>(iv) unexplained single or multi-organ dysfunction or fulminant failure (including, but not limited to, neuropathies, myopathies, hepatopathy, pancreatic and/or bone marrow failure);</p> <p>(v) refractory or atypical seizures, developmental delays or cognitive regression, or progressive encephalopathy or progressive encephalomyopathy;</p> <p>(vi) cardiomyopathy and/or cardiac arrhythmias;</p> <p>(vii) rapid hearing or painless visual loss or ptosis;</p> <p>(viii) stroke-like episodes or nonvasculitic strokes;</p> <p>(ix) ataxia, encephalopathy, seizures, muscle fatigue or weakness;</p> <p>(x) external ophthalmoplegia;</p> <p>(xi) hearing loss, diabetes, unexplained short stature, or endocrinopathy;</p> <p>(xii) family history of mitochondrial disease; and</p> <p>(c) the service is performed following a service to which items 73292, 73358, 73359, 73456 or 73457 applies for the same patient if the results were non-informative Applicable 3 times per lifetime</p> <p>Fee: \$450.00 Benefit: 75% = \$337.50 85% = \$382.50</p>
73461	<p>Whole gene testing of a person for the characterisation of all germline gene variants within the same gene in which the person’s reproductive partner has a pathogenic or likely pathogenic germline recessive gene variant for mitochondrial disease, if:</p> <p>(a) the partner’s germline recessive gene variant is confirmed by laboratory findings; and</p> <p>(b) the characterisation is requested by a specialist or consultant physician</p> <p>Fee: \$1,200.00 Benefit: 75% = \$900.00 85% = \$1101.30</p>
73462	<p>Testing of a person for the detection of a single gene variant, if:</p> <p>(a) the person tested has a biological relative with a known pathogenic or likely pathogenic mitochondrial disease variant confirmed by laboratory findings; and</p> <p>(b) the testing is requested by a specialist or consultant physician; and</p> <p>(c) the service is not a service associated with a service to which item 73361, 73362 or 73363 applies</p> <p>Fee: \$400.00 Benefit: 75% = \$300.00 85% = \$340.00</p>

P8. INFERTILITY AND PREGNANCY TESTS

	<p>Group P8. Infertility And Pregnancy Tests</p>
--	---

P8. INFERTILITY AND PREGNANCY TESTS	
73521	<p>Semen examination for presence of spermatozoa or examination of cervical mucus for spermatozoa (Huhner's test)</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$9.70 Benefit: 75% = \$7.30 85% = \$8.25</p>
73523	<p>Semen examination (other than post-vasectomy semen examination), including:</p> <p>(a) measurement of volume, sperm count and motility; and</p> <p>(b) examination of stained preparations; and</p> <p>(c) morphology; and (if performed)</p> <p>(d) differential count and 1 or more chemical tests;</p> <p>(Item is subject to rule 25)</p> <p>Fee: \$41.75 Benefit: 75% = \$31.35 85% = \$35.50</p>
73525	<p>Sperm antibodies - sperm-penetrating ability - 1 or more tests</p> <p>(See para TN.1.4 of explanatory notes to this Category)</p> <p>Fee: \$28.35 Benefit: 75% = \$21.30 85% = \$24.10</p>
73527	<p>Human chorionic gonadotrophin (HCG) - detection in serum or urine by 1 or more methods for diagnosis of pregnancy - 1 or more tests</p> <p>Fee: \$10.00 Benefit: 75% = \$7.50 85% = \$8.50</p>
73529	<p>Human chorionic gonadotrophin (HCG), quantitation in serum by 1 or more methods (except by latex, membrane, strip or other pregnancy test kit) for diagnosis of threatened abortion, or follow up of abortion or diagnosis of ectopic pregnancy, including any services performed in item 73527 - 1 test</p> <p>(See para PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$28.65 Benefit: 75% = \$21.50 85% = \$24.40</p>

P9. SIMPLE BASIC PATHOLOGY TESTS	
	Group P9. Simple Basic Pathology Tests
73801	<p>Semen examination for presence of spermatozoa</p> <p>Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90</p>
73802	<p>Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count - 1 test</p> <p>Fee: \$4.55 Benefit: 75% = \$3.45 85% = \$3.90</p>
73803	<p>2 tests described in item 73802</p> <p>Fee: \$6.35 Benefit: 75% = \$4.80 85% = \$5.40</p>
73804	<p>3 or more tests described in item 73802</p> <p>Fee: \$8.15 Benefit: 75% = \$6.15 85% = \$6.95</p>
73805	<p>Microscopy of urine, excluding dipstick testing.</p> <p>Fee: \$4.55 Benefit: 75% = \$3.45 85% = \$3.90</p>

P9. SIMPLE BASIC PATHOLOGY TESTS	
73806	<p>Pregnancy test by 1 or more immunochemical methods</p> <p>Fee: \$10.15 Benefit: 75% = \$7.65 85% = \$8.65</p>
73807	<p>Microscopy for wet film other than urine, including any relevant stain</p> <p>Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90</p>
73808	<p>Microscopy of Gram-stained film, including (if performed) a service described in item 73805 or 73807</p> <p>Fee: \$8.65 Benefit: 75% = \$6.50 85% = \$7.40</p>
73809	<p>Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method</p> <p>Fee: \$2.35 Benefit: 75% = \$1.80 85% = \$2.00</p>
73810	<p>Microscopy for fungi in skin, hair or nails - 1 or more sites</p> <p>Fee: \$6.90 Benefit: 75% = \$5.20 85% = \$5.90</p>
73811	<p>Mantoux test</p> <p>Fee: \$11.20 Benefit: 75% = \$8.40 85% = \$9.55</p>
73812	<p>Quantitation of glycated haemoglobin (HbA1c) performed in the management of established diabetes, if performed:</p> <p>(a) as a point-of-care test; and</p> <p>(b) by or on behalf of a medical practitioner who works in a general practice that is accredited to the Royal Australian College of General Practitioners Standards for point-of-care testing under the National General Practice Accreditation Scheme; and</p> <p>(c) using a method certified by the National Glycohemoglobin Standardization Program (NGSP), if the instrumentation used has a total coefficient variation less than 3.0% at 48 mmol/mol (6.5%)</p> <p>Applicable not more than 3 times per 12 months per patient</p> <p>(See para PR.9.4 of explanatory notes to this Category)</p> <p>Fee: \$11.80 Benefit: 75% = \$8.85 85% = \$10.05</p>
73826	<p>Quantitation of glycated haemoglobin (HbA1c) performed by a participating nurse practitioner in the management of established diabetes when performed:</p> <p>(a) as a point-of-care test;</p> <p>(b) by a nurse practitioner who works in a general practice that is accredited to the Royal Australian College of General Practitioners Standards for point-of-care testing under the National General Practice Accreditation Scheme; and</p> <p>(c) using a method and instrument certified by the National Glycohemoglobin Standardization Program (NGSP), if the instrument has a total coefficient variation less than 3.0% at 48 mmol/mol (6.5%)</p> <p>Applicable not more than 3 times per 12 months per patient</p> <p>(See para PR.9.3 of explanatory notes to this Category)</p> <p>Fee: \$11.80 Benefit: 75% = \$8.85 85% = \$10.05</p>

P9. SIMPLE BASIC PATHOLOGY TESTS	
73828	Semen examination for presence of spermatozoa by a participating nurse practitioner Fee: \$6.90 Benefit: 85% = \$5.90
73829	Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count by a participating nurse practitioner - 1 test Fee: \$4.55 Benefit: 85% = \$3.90
73830	2 tests described in item 73829 by a participating nurse practitioner Fee: \$6.35 Benefit: 85% = \$5.40
73831	3 or more tests described in item 73829 by a participating nurse practitioner Fee: \$8.15 Benefit: 85% = \$6.95
73832	Microscopy of urine, excluding dipstick testing by a participating nurse practitioner. Fee: \$4.55 Benefit: 85% = \$3.90
73833	Pregnancy test by 1 or more immunochemical methods by a participating nurse practitioner Fee: \$10.15 Benefit: 85% = \$8.65
73834	Microscopy for wet film other than urine, including any relevant stain by a participating nurse practitioner Fee: \$6.90 Benefit: 85% = \$5.90
73835	Microscopy of Gram-stained film, including (if performed) a service described in item 73832 or 73834 by a participating nurse practitioner Fee: \$8.65 Benefit: 85% = \$7.40
73836	Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method by a participating nurse practitioner Fee: \$2.35 Benefit: 85% = \$2.00
73837	Microscopy for fungi in skin, hair or nails by a participating nurse practitioner - 1 or more sites Fee: \$6.90 Benefit: 85% = \$5.90
73839	Quantitation of HbA1c (glycated haemoglobin) performed for the diagnosis of diabetes in asymptomatic patients at high risk - not more than once in a 12 month period. (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category) (See para PR.9.1 of explanatory notes to this Category) Fee: \$16.80 Benefit: 75% = \$12.60 85% = \$14.30
73840	Quantitation of glycosylated haemoglobin performed in the management of established diabetes – each test to a maximum of 4 tests in a 12 month period. (Item is subject to restrictions in rule PR.9.1 of explanatory notes to this category) (See para PR.9.1 of explanatory notes to this Category) Fee: \$17.00 Benefit: 75% = \$12.75 85% = \$14.45

P9. SIMPLE BASIC PATHOLOGY TESTS

73844	<p>Quantitation of urinary albumin/creatinine ratio in urine on a random spot collection in the management of patients with established diabetes or patients at risk of microalbuminuria.</p> <p>(See para PR.9.1 of explanatory notes to this Category)</p> <p>Fee: \$20.35 Benefit: 75% = \$15.30 85% = \$17.30</p>
-------	---

P10. PATIENT EPISODE INITIATION

	<p>Group P10. Patient Episode Initiation</p>
73899	<p>Initiation of a patient episode that consists of a service described in item 72858 or 72859 in circumstances other than those mentioned in item 73900</p> <p>Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10</p>
73900	<p>Initiation of a patient episode that consists of a service described in item 72858 or 72859 if the service is rendered in a prescribed laboratory.</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73920	<p>Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre that the APA operates in the same premises as it operates a category GX or GY pathology laboratory</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73922	<p>Initiation of a patient episode that consists of a service described in item 73070, 73071, 73072, 73074, 73075 or 73076 (in circumstances other than those described in item 73923)</p> <p>Fee: \$8.20 Benefit: 75% = \$6.15 85% = \$7.00</p>
73923	<p>Initiation of a patient episode that consists of a service described in items 73070, 73071, 73072, 73074, 73075 or 73076 if:</p> <p>(a) the person is a private patient in a recognised hospital; or</p> <p>(b) the person receives the service from a prescribed laboratory</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73924	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73925) from a person who is an in-patient of a hospital.</p> <p>Fee: \$14.65 Benefit: 75% = \$11.00 85% = \$12.50</p>
73925	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 if the person is:</p> <p>(a) a private patient of a recognised hospital; or</p> <p>(b) a private patient of a hospital who receives the service or services from a prescribed laboratory.</p> <p>Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05</p>
73926	<p>Initiation of a patient episode that consists of 1 or more services described in items 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 (in circumstances other than those described in item 73927) from a person who is not a patient of a hospital.</p>

P10. PATIENT EPISODE INITIATION	
	Fee: \$8.20 Benefit: 75% = \$6.15 85% = \$7.00
73927	Initiation of a patient episode by a prescribed laboratory that consists of 1 or more services described in items, 72813, 72816, 72817, 72818, 72823, 72824, 72825, 72826, 72827, 72828, 72830, 72836 and 72838 from a person who is not a patient of a hospital. Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73928	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected in an approved collection centre. Unless item 73920 or 73929 applies Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
73929	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, if the specimen is collected in an approved pathology collection centre Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73930	Initiation of a patient episode by collection of a specimen for a service for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person who is an in-patient of a hospital other than a recognised hospital. Unless item 73931 applies Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
73931	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if: <ul style="list-style-type: none"> () the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person who is a private patient in a hospital or () the person is a private patient in a recognised hospital and the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73932	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in the place where the person was residing. Unless item 73933 applies Fee: \$10.25 Benefit: 75% = \$7.70 85% = \$8.75
73933	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner for a prescribed laboratory or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in the place where the person is residing Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73934	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 and 73926) if the specimen is collected by an approved pathology practitioner or an employee of an approved pathology authority from a person in a residential aged care home or institution. Unless 73935 applies

P10. PATIENT EPISODE INITIATION	
	Fee: \$17.60 Benefit: 75% = \$13.20 85% = \$15.00
73935	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by an approved pathology practitioner or by an employee of an approved pathology authority, who conducts a prescribed laboratory, from a person in a residential aged care home or institution Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73936	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected from the person by the person. Fee: \$5.95 Benefit: 75% = \$4.50 85% = \$5.10
73937	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected from the person by the person and if: <ul style="list-style-type: none"> () the service is performed in a prescribed laboratory or () the person is a private patient in a recognised hospital Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05
73938	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926) if the specimen is collected by or on behalf of the treating practitioner. Unless item 73939 applies Fee: \$7.95 Benefit: 75% = \$6.00 85% = \$6.80
73939	Initiation of a patient episode by collection of a specimen for 1 or more services (other than those services described in items 73922, 73924 or 73926), if the specimen is collected by or on behalf of the treating practitioner and if: <ul style="list-style-type: none"> () the service is performed in a prescribed laboratory or () the person is a private patient in a recognised hospital Fee: \$2.40 Benefit: 75% = \$1.80 85% = \$2.05

P11. SPECIMEN REFERRED	
	Group P11. Specimen Referred
73940	Receipt of a specimen by an approved pathology practitioner of an approved pathology authority from another approved pathology practitioner of another approved pathology authority (See para PN.0.33 of explanatory notes to this Category) Fee: \$10.25 Benefit: 75% = \$7.70 85% = \$8.75

P12. MANAGEMENT OF BULK-BILLED SERVICES

Group P12. Management Of Bulk-Billed Services	
74990	<p>A pathology service to which an item in this table (other than this item or item 74991, 75861, 75862, 75863 or 75864) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unreferral service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this table applying to the service <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$7.60 Benefit: 85% = \$6.50</p>
74991	<p>A pathology service to which an item in this table (other than this item or items 74990, 75861, 75862, 75863 or 75864) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unreferral service; and (b) the service is provided to a person who is under the age of 16 or is a Commonwealth concession card holder; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this table applying to the service; and (e) the service is provided at, or from, a practice location in a Modified Monash 2 area. <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category)</p> <p>Fee: \$11.50 Benefit: 85% = \$9.80</p>
75861	<p>A pathology service to which an item in this table (other than this item or item 74990, 74991, 75862, 75863 or 75864) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unreferral service; and (b) the service is rendered to a person who is under the age of 16 or is a concessional beneficiary; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this Schedule applying to the service; and

P12. MANAGEMENT OF BULK-BILLED SERVICES

	<p>(e) the service is rendered at, or from, a practice location in:</p> <ul style="list-style-type: none"> (i) a Modified Monash 3 area; or (ii) a Modified Monash 4 area <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category) Fee: \$12.20 Benefit: 85% = \$10.40</p>
75862	<p>A pathology service to which an item in this Schedule (other than this item or item 74990, 74991, 75861, 75863, or 75864) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is rendered to a person who is under the age of 16 or is a concessional beneficiary; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in relation to the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this Schedule applying to the service; and (e) the service is rendered at, or from, a practice location in a Modified Monash 5 area <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category) Fee: \$12.95 Benefit: 85% = \$11.05</p>
75863	<p>A pathology service to which an item in this Schedule (other than this item or item 74990, 74991, 75861, 75862 or 75864) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is rendered to a person who is under the age of 16 or is a concessional beneficiary; and (c) the person is not an admitted patient of a hospital; and (d) the service is bulk-billed in respect of the fees for: <ul style="list-style-type: none"> (i) this item; and (ii) the other item in this Schedule applying to the service; and (e) the service is rendered at, or from, a practice location in a Modified Monash 6 area <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category) Fee: \$13.75 Benefit: 85% = \$11.70</p>
75864	<p>A pathology service to which an item in this Schedule (other than this item or item 74990, 74991, 75861, 75862 or 75863) applies if:</p> <ul style="list-style-type: none"> (a) the service is an unREFERRED service; and (b) the service is rendered to a person who is under the age of 16 or is a concessional beneficiary; and (c) the person is not an admitted patient of a hospital; and

P12. MANAGEMENT OF BULK-BILLED SERVICES

	<p>(d) the service is bulk-billed in relation to the fees for:</p> <p style="padding-left: 40px;">(i) this item; and</p> <p style="padding-left: 40px;">(ii) the other item in this Schedule applying to the service; and</p> <p>(e) the service is rendered at, or from, a practice location in a Modified Monash 7 area</p> <p>(See para PN.0.24, PN.0.33 of explanatory notes to this Category) Fee: \$15.05 Benefit: 85% = \$12.80</p>
--	--

P13. BULK-BILLING INCENTIVE

Group P13. Bulk-Billing Incentive	
74992	<p>A payment when the episode is bulk billed and includes item 73920.</p> <p>Fee: \$1.60 Benefit: 75% = \$1.20 85% = \$1.40</p>
74993	<p>A payment when the episode is bulk billed and includes item 73922 or 73926.</p> <p>Fee: \$3.75 Benefit: 75% = \$2.85 85% = \$3.20</p>
74994	<p>A payment when the episode is bulk billed and includes item 73924.</p> <p>Fee: \$3.25 Benefit: 75% = \$2.45 85% = \$2.80</p>
74995	<p>A payment when the episode is bulk billed and includes item 73899, 73900, 73928, 73930 or 73936.</p> <p>Fee: \$4.00 Benefit: 75% = \$3.00 85% = \$3.40</p>
74996	<p>A payment when the episode is bulk billed and includes item 73932 or 73940.</p> <p>Fee: \$3.70 Benefit: 75% = \$2.80 85% = \$3.15</p>
74997	<p>A payment when the episode is bulk billed and includes item 73934.</p> <p>Fee: \$3.30 Benefit: 75% = \$2.50 85% = \$2.85</p>
74998	<p>A payment when the episode is bulk billed and includes item 73938.</p> <p>Fee: \$2.00 Benefit: 75% = \$1.50 85% = \$1.70</p>
74999	<p>A payment when the episode is bulk billed and includes item 73923, 73925, 73927, 73929, 73931, 73933, 73935, 73937 or 73939.</p> <p>Fee: \$1.60 Benefit: 75% = \$1.20 85% = \$1.40</p>

COMPLEXITY LEVELS FOR HISTOPATHOLOGY ITEMS

Specimen Type	Complexity level
Adrenal resection, neoplasm	5
Adrenal resection, not neoplasm	4
Anus, all specimens not otherwise specified	3
Anus, neoplasm, biopsy	4
Anus, neoplasm, radical resection	6
Anus, submucosal resection – neoplasm	5
Appendix	3
Artery, all specimens not otherwise specified	3
Artery, biopsy	4
Bartholin's gland - cyst	3
Bile duct, resection - all specimens	6
Bone, biopsy, curettings or fragments - lesion	5
Bone, biopsy or curettings quantitation - metabolic disease	6
Bone, femoral head	4
Bone, resection, neoplasm - all sites and types	6
Bone marrow, biopsy	4
Bone - all specimens not otherwise specified	4
Brain neoplasm, resection - cerebello-pontine angle	4
Brain or meninges, biopsy - all lesions	5
Brain or meninges, not neoplasm - temporal lobe	6
Brain or meninges, resection - neoplasm (intracranial)	5
Brain or meninges, resection - not neoplasm	4
Branchial cleft, cyst	4
Breast, excision biopsy, guidewire localisation - non-palpable lesion	6
Breast, excision biopsy, or radical resection, malignant neoplasm or atypical proliferative disease - all specimen types	6
Breast, incision biopsy or needle biopsy, malignant neoplasm - all specimen types	4
Breast – microdochoectomy	6
Breast, orientated wide local excision for carcinoma, with margin assessment	7
Breast tissue - all specimens not otherwise specified	4
Bronchus, biopsy	4
Carotid body - neoplasm	5
Cholesteatoma	3
Digits, amputation - not traumatic	4
Digits, amputation - traumatic	2
Ear, middle and inner - not cholesteatoma	4
Endocrine neoplasm - not otherwise specified	5
Extremity, amputation or disarticulation – neoplasm	6

Specimen Type	Complexity level
Extremity, amputation - not otherwise specified	4
Eye, conjunctiva - biopsy or pterygium	3
Eye, cornea	4
Eye, enucleation or exenteration - all lesions	6
Eye - not otherwise specified	4
Fallopian tube, biopsy	4
Fallopian tube, ectopic pregnancy	4
Fallopian tube, sterilization	2
Fetus with dissection	6
Foreskin - new born	2
Foreskin - not new born	3
Gallbladder	3
Gallbladder and porta hepatis-radical resection	6
Ganglion cyst, all sites	3
Gum or oral mucosa, biopsy	4
Heart valve	4
Heart - not otherwise specified	5
Hernia sac	2
Hydrocele sac	2
Jaw, upper or lower, including bone, radical resection for neoplasm	6
Joint and periarticular tissue, without bone - all specimens	3
Joint tissue, including bone - all specimens	4
Kidney, biopsy including transplant	5
Kidney, nephrectomy transplant	5
Kidney, partial or total nephrectomy or nephroureterectomy - neoplasm	6
Kidney, partial or total nephrectomy - not neoplasm	4
Large bowel (including rectum), biopsy - all sites	4
Large bowel, colostomy - stoma	3
Large bowel (including rectum), biopsy, for confirmation or exclusion of Hirschsprung's Disease	5
Large bowel (including rectum), polyp	4
Large bowel, segmental resection - colon, not neoplasm	5
Large bowel (including rectum), segmental resection, neoplasm	6
Large bowel (including rectum), submucosal resection – neoplasm	5
Larynx, biopsy	4
Larynx, partial or total resection	5
Larynx, resection with nodes or pharynx or both	6
Lip, biopsy - all specimens not otherwise specified	3
Lip, wedge resection or local excision with orientation	4
Liver, hydatid cyst or resection for trauma	4
Liver, total or subtotal hepatectomy - neoplasm	6
Liver - all specimens not otherwise specified	5

Specimen Type	Complexity level
Lung, needle or transbronchial biopsy	4
Lung, resection - neoplasm	6
Lung, wedge biopsy	5
Lung segment, lobar or total resection	6
Lymph node, biopsy - all sites	4
Lymph node, biopsy – for lymphoma or lymphoproliferative disorder	5
Lymph nodes, regional resection - all sites	5
Mediastinum mass	5
Muscle, biopsy	6
Nasopharynx or oropharynx, biopsy	4
Nerve, biopsy neuropathy	5
Nerve, neurectomy or removal of neoplasm	4
Nerve - not otherwise specified	3
Nose, mucosal biopsy	4
Nose or sinuses, polyps	3
Odontogenic neoplasm	5
Odontogenic or dental cyst	4
Oesophagus, biopsy	4
Oesophagus, diverticulum	3
Oesophagus, partial or total resection	6
Oesophagus, submucosal resection – neoplasm	5
Omentum, biopsy	4
Ovary with or without tube - neoplasm	5
Ovary with or without tube - not neoplasm	4
Pancreas, biopsy	5
Pancreas, cyst	4
Pancreas, subtotal or total with or without splenectomy	6
Parathyroid gland(s)	4
Penisectomy with node dissection	5
Penisectomy - simple	4
Peritoneum, biopsy	4
Pituitary neoplasm	4
Placenta - not third trimester	4
Placenta - third trimester, abnormal pregnancy or delivery	4
Pleura or pericardium, biopsy or tissue	4
Products of conception, spontaneous or missed abortion	4
Products of conception, termination of pregnancy	3
Prostate, radical prostatectomy or cystoprostatectomy for carcinoma	7
Prostate, radical resection	6
Prostate - all types of specimen not otherwise specified	4
Retroperitoneum, neoplasm	5
Salivary gland, Mucocele	3
Salivary gland, neoplasm - all sites	5

Specimen Type	Complexity level
Salivary gland - all specimens not otherwise specified	4
Sinus, paranasal, biopsy	4
Sinus, paranasal, resection - neoplasm	6
Skin, biopsy - blistering skin diseases	4
Skin biopsy - for investigation of alopecia other than for male pattern baldness, where serial horizontal sections are taken	5
Skin, biopsy - for investigation of lymphoproliferative disorder	5
Skin, biopsy - inflammatory dermatosis	4
Skin, eyelid, wedge resection	4
Skin, local resection - orientation	4
Skin, resection of malignant melanoma or melanoma in-situ	5
Skin - all specimens not otherwise specified including all neoplasms and cysts	3
Small bowel - biopsy, all sites	4
Small bowel, diverticulum	3
Small bowel, resection - neoplasm	6
Small bowel – resection, all specimens	5
Small bowel, submucosal resection – neoplasm	5
Soft tissue, infiltrative lesion, extensive resections at least 5cm in maximal dimension	6
Soft tissue, lipoma and variants	3
Soft tissue, neoplasm, not lipoma - all specimens	5
Soft tissue - not otherwise specified	4
Spleen	5
Stomach, endoscopic biopsy or endoscopic polypectomy	4
Stomach, resection, neoplasm - all specimens	6
Stomach, submucosal resection – neoplasm	5
Stomach - all specimens not otherwise specified	4
Tendon or tendon sheath, giant cell neoplasm	4
Tendon or tendon sheath - not otherwise specified	3
Testis, biopsy	5
Testis and adjacent structures, castration	2
Testis and adjacent structures, neoplasm with or without nodes	5
Testis and adjacent structures, vas deferens sterilization	2
Testis and adjacent structures - not otherwise specified	3
Thymus - not otherwise specified	5
Thyroglossal duct - all lesions	4
Thyroid - all specimens	5
Tissue or organ not otherwise specified, abscess	3
Tissue or organ not otherwise specified, haematoma	3
Tissue or organ not otherwise specified, malignant neoplasm with regional nodes	6
Tissue or organ not otherwise specified, neoplasm local	4

Specimen Type	Complexity level
Tissue or organ not otherwise specified, pilonidal cyst or sinus	3
Tissue or organ not otherwise specified, thrombus or embolus	3
Tissue or organ not otherwise specified, veins varicosity	3
Tissue or organ - all specimens not otherwise specified	3
Tongue, biopsy	4
Tongue or tonsil, neoplasm local	5
Tongue or tonsil, neoplasm with nodes	6
Tonsil, biopsy - excluding resection of whole organ	4
Tonsil or adenoids or both	2
Trachea, biopsy	4
Ureter, biopsy	4
Ureter, resection	5
Urethra, biopsy	4
Urethra, resection	5
Urinary bladder, partial or total with or without prostatectomy	6
Urinary bladder, transurethral resection of neoplasm	5
Urinary bladder - all specimens not otherwise specified	4
Uterus, cervix, curettings or biopsy	4
Uterus, cervix cone, biopsy (including LLETZ or LEEP biopsy)	5
Uterus, endocervix, polyp	3
Uterus, endometrium, polyp	3
Uterus with or without adnexa, malignant neoplasm - all specimen types not otherwise specified	6
Uterus with or without adnexa, neoplasm, Wertheim's or pelvic clearance	6
Uterus and/or cervix - all specimens not otherwise specified	4
Vagina, biopsy	4
Vagina, radical resection	6
Vaginal mucosa, incidental	3
Vulva or labia, biopsy	4
Vulval, subtotal or total with or without nodes	6

CATEGORY 7: CLEFT AND CRANIOFACIAL SERVICES

SUMMARY OF CHANGES FROM 01/03/2024

The 01/03/2024 changes to the MBS are summarised below and are identified in the Schedule pages by one or more of the following words appearing above the item number:

(a) new item	New
(b) amended description	Amend
(c) fee amended	Fee
(d) item number changed	Renum
(e) EMSN changed	EMSN

Deleted Items

75001 75004 75006 75018 75021 75033 75036 75037 75150 75153 75156 75403 75406
 75409 75412 75415 75612 75615 75803 75806 75809 75812 75821 75824 75827 75830

Cleft and Craniofacial Services

These changes will implement the Taskforce recommendations related to cleft dental services and modernise the clinical practice for treating patients with cleft and craniofacial conditions from 1 March 2024.

These changes include:

- Updates to the table of MBS items at Schedule 1 to introduce nine new items, amend 35 existing items, and delete 26 items;
- The expansion of practitioner access to include eligible paediatric dentists and eligible prosthodontists;
- The removal of sub-categories listed under Category 7; and
- Updates to referral pathways for treating dental specialists, where required.

CLEFT AND CRANIOFACIAL SERVICES NOTES

CN.0.1 Schedule Fees and Medicare Benefits

Medicare benefits are based on fees determined for each Schedule service. The fee is referred to in these notes as the "Schedule fee". The fee for any item listed in the Schedule is that which is regarded as being reasonable on average for that service having regard to usual and reasonable variations in the time involved in performing the service on different occasions and to reasonable ranges of complexity and technical difficulty encountered.

The Schedule fee and Medicare benefit levels for the medical services contained in the Schedule are located with the item descriptions. Where appropriate, the calculated benefit has been rounded to the nearest higher 5 cents. However, in no circumstances will the Medicare benefit payable exceed the fee actually charged.

There are presently two levels of Medicare benefit payable for cleft lip and cleft palate services:

(a) **75% of the Schedule fee:**

for professional services rendered to a patient as part of an episode of hospital treatment (other than public patients). Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing an asterisk '*' or the letter 'H' directly after an item number where used; or a description of the professional service and an indication the service was rendered as an episode of hospital treatment (for example, 'in hospital', 'hospital outpatient service', 'admitted' or 'in patient'). Certain services are not generally considered hospital treatments - see GN.1.2;

for professional services rendered as part of an episode of hospital-substitute treatment, and the patient who receives the treatment chooses to receive a benefit from a private health insurer. Medical practitioners must indicate on their accounts if a medical service is rendered in these circumstances by placing the words 'hospital-substitute treatment' directly after an item number where used; or a description of the professional service, preceded by the words 'hospital-substitute treatment'.

(b) **85% of the Schedule fee**, or the Schedule fee less \$98.70 (indexed annually), whichever is the greater, for all other professional services.

It should be noted that the *Health Insurance Act 1973* makes provision for private medical insurance to cover the "patient gap" (ie, the difference between the Medicare benefit and the Schedule fee) for services attracting benefit at the 75% level. Patients may insure with private health insurance organisations for the gap between the 75% Medicare benefit and the Schedule fee or for amounts in excess of the Schedule fee where the patient has an agreement with their health fund.

CN.0.2 Where Medicare Benefits are not Payable

Medicare benefits are not payable in respect of a professional service where the medical expenses for the service:-

- (a) are paid/payable to a public hospital;
- (b) are for a compensable injury or illness for which the patient's insurer or compensation agency has accepted liability. (Please note that if the medical expenses relate to a compensable injury/illness for which the insurer/compensation agency is disputing liability, then Medicare benefits are payable until the liability is accepted);
- (c) are for a medical examination for the purposes of life insurance, superannuation, a provident account scheme, or admission to membership of a friendly society; or
- (d) are incurred in mass immunisation.

Unless the Minister otherwise directs, Medicare benefits are not payable where:

- (a) the service is rendered by or on behalf of, or under an arrangement with the Australian Government, a State or Territory, a local government body or an authority established under Commonwealth, State or Territory law;

- (b) the medical expenses are incurred by the employer of the person to whom the service is rendered;
- (c) the person to whom the service is rendered is employed in an industrial undertaking and that service is rendered for the purposes related to the operation of the undertaking; or
- (d) the services is a health screening service.

Benefits are not payable for items 75150 to 75621 unless the patient was referred by letter of Referral by an eligible orthodontist.

CN.0.3 Limiting Rule

In no circumstances will the benefit payable for a professional service exceed the fee charged for the service.

CN.0.4 Penalties

Penalties of up to \$10,000 or imprisonment for up to five years, or both, may be imposed on any person who makes a statement (oral or written) or who issues or presents a document that is false or misleading in a material particular and which is capable of being used with a claim for benefits. In addition, any practitioner who is found guilty of such offences by a court shall be subject to examination by a Medicare Participation Review Committee and may be counselled or reprimanded or may have services wholly or partially disqualified from the Medicare benefit arrangements.

A penalty of up to \$1,000 or imprisonment for up to three months, or both, may be imposed on any person who obtains a patient's signature on a direct-billing form without the obligatory details having been entered on the form before the person signs, or who fails to cause a patient to be given a copy of the completed form.

CN.0.5 Billing of the Patient

CN.0.5 Billing of the Patient

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the *Health Insurance Act 1973* and Regulations, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) A description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital or day-hospital facility (other than a Medicare hospital patient), that is, the words (ie, accommodation and nursing care) "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;
- (d) The name and practice address or name and provider number of the practitioner who actually rendered the service; (Where the practitioner has more than one practice location recorded with Services Australia, the provider number used should be that which is applicable to the practice location at or from which the service was given).

A medical or dental practitioner must notate 'certified dental patient' on the patient's account or include 'certified dental patient' in the text field when submitting a Medicare claim for benefits.

Where a practitioner wishes to apportion the total fee between the appropriate professional fee for the particular service and any balance outstanding in respect of services rendered previously, the practitioner should ensure that

the balance is described in such a way (eg balance of account) that it cannot be mistaken as being a separate service. In particular no item number should be shown against the balance.

Only one original itemised account should be issued in respect of any one medical service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

CN.0.6 Claiming of Benefits

Claiming Benefits

The patient, upon receipt of a practitioner's account, has two courses open for paying the account and receiving benefits as outlined below.

Unpaid and Partially Paid Accounts

Where the patient has not paid the account, the unpaid account may be presented to Medicare with a Medicare claim form. In this case Medicare will forward to the claimant a benefit cheque made payable to the practitioner.

It will be the patient's responsibility to forward the cheque to the practitioner and make arrangements for payment of the balance of the account if any. "Pay doctor" cheques involving Medicare benefits cannot be sent direct to practitioners or to patients at a practitioner's address (even if requested by the patient to do so). "Pay doctor" cheques will be forwarded to the claimant's last known address.

When issuing a receipt to a patient in respect of an account that is being paid wholly or in part by a Medicare "pay doctor" cheque the practitioner should indicate on the receipt that a "Medicare" cheque for \$.....was involved in the payment of the account.

Assignment of Benefits (Direct-Billing) Arrangements

Under the *Health Insurance Act 1973* the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need. If a practitioner direct-bills, the practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the *Health Insurance Act 1973*.
- The practitioner must cause the particulars relating to the professional service to be set out on the assignment form before the patient signs the form and cause the patient to receive a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form:

- the signature of the patient's parent, guardian or other responsible person (other than the doctor, doctor's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable; or
- In the absence of a "responsible person" the patient signature section should be left blank.

Where the signature space is either left blank or another person signs on the patient's behalf, the form must include:

- the notation "Patient unable to sign" and
- in the section headed 'Practitioner's Use', an explanation should be given as to why the patient was unable to sign (e.g. unconscious, injured hand etc.) and this note should be signed or initialled by the doctor. If in the opinion of the practitioner the reason is of such a "sensitive" nature that revealing it would constitute an unacceptable breach of patient confidentiality or unduly embarrass or distress the recipient of the patient's copy of the assignment of benefits form, a concessional reason "due to medical condition" to signify that such a situation exists may be substituted for the actual reason. However, this should not be used routinely and in most cases it is expected that the reason given will be more specific.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of Services Australia. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

Under Medicare any eligible dental practitioner can accept assignment of benefit and direct-bill for any eligible person.

Use of Medicare Cards in Direct Billing

An eligible person who applies to enrol for Medicare benefits (using a Medicare Enrolment/Amendment Application) will be issued with a uniquely numbered Medicare card which shows the Medicare card number, the patient identification number (reference number), the applicant's first given name, initial of second given name, surname and an effective "valid to" date. These cards may be issued on an individual or family basis. Up to 5 persons may be listed on the one Medicare card, and up to 9 persons may be listed under the one Medicare card number.

The Medicare card plays an important part in direct billing as it can be used to imprint the patient details (including Medicare number) on the basic direct-billing forms. A special Medicare imprinter has been developed for this purpose and is available free of charge, on request, from Medicare.

The patient details can of course be entered on the direct-bill forms by hand, but the use of a card to imprint patient details assists practitioners and ensures accuracy of information. The latter is essential to ensure that the processing of a claim by Medicare is expedited.

The Medicare card number must be quoted on direct-bill forms. If the number is not available, then the assignment of benefit facility should not be used. To do so would incur a risk that the patient is not eligible and Medicare benefits not payable.

Where a patient presents without a Medicare card and indicates that he/she has been issued with a card but does not know the details, the practitioner may contact a Medicare telephone enquiry number to obtain the number.

Assignment of Benefit Forms

To meet varying requirements the following types of stationery are available from Medicare. Note that these forms are approved forms under the *Health Insurance Act 1973*, and no other forms can be used to assign benefits without the approval of Services Australia.

- Form DB2*. This form is used to assign benefits for services other than requested pathology. It is loose leaf for imprinting and comprises a throw away cover sheet (after imprinting), a Medicare copy, a Patient copy and a Practitioner copy.
- Form DB4*. Is a continuous stationery version of Form DB2, and has been designed for use on most office accounting machines.

The Claim for Assigned Benefits (Form DB1N, DB1H)

Practitioners who accept assigned benefits must claim from Medicare using either Claim for Assigned Benefits form DB1N or DB1H. The DB1N form should be used where services are rendered to persons for treatment provided out

of hospital or day hospital treatment. The DB1H form should be used where services are rendered to persons while hospital treatment is provided in a hospital or day hospital facility (other than public patients). Both forms have been designed to enable benefit for a claim to be directed to a practitioner other than the one who rendered the services. The facility is intended for use in situations such as where a short term locum is acting on behalf of the principal doctor and setting the locum up with a provider number and pay-group link for the principal doctor's practice is impractical. Practitioners should note that this facility cannot be used to generate payments to or through a person who does not have a provider number.

The DB1N and DB1H are also loose leaf to enable imprinting of practitioner details using the special Medicare imprinter. For this purpose, practitioner cards, showing the practitioner's name, practice address and provider numbers are available from Medicare on request.

Direct-Bill Stationery

Medical practitioners and eligible dental practitioners wishing to direct-bill may obtain information on direct-bill stationery by telephoning **132150**. Information on the completion of the forms and direct-bill procedures are provided with the forms. Information on direct-billing is available from any Medicare office.

Time Limits Applicable to Lodgement of Claims for Assigned Benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

CN.0.7 Interpretation of the Cleft and Craniofacial Services

Each professional service listed in the Schedule is a complete medical service in itself. Where a service is rendered partly by one practitioner and partly by another, only the one amount of benefit is payable.

CN.0.8 Multiple Operation Rule

The Schedule fee for two or more operations performed on a patient on the one occasion is calculated by the following rule:

· 100% for the item with the greatest Schedule fee, plus 50% for the item with the next greatest Schedule fee, plus 25% for each other item.

NOTE:

1. Fees so calculated which result in a sum which is not a multiple of 5 cents are taken to the next higher multiple of 5 cents.
2. Where two or more operations performed on the one occasion have fees which are equal, one of these amounts shall be treated as being greater than the other or others of those amounts.
3. The Schedule fee for benefits purposes is the aggregate of the fees calculated in accordance with the above formula.

The above rule does not apply to an operation which is one of two or more operations performed under the one anaesthetic on the same patient by different dental practitioners unless either practitioner assists the other. In this case, the fees and benefits specified in the Schedule apply. For these purposes the term "operation" includes items 75200 to 75610.

If the operation comprises a combination of procedures which are commonly performed together and for which a specific combined item is provided in the Schedule, it is regarded as the one item and service in applying the multiple operation rule.

CN.0.9 Administration of Anaesthetics

When a medical practitioner administers an anaesthetic in connection with a dental procedure prescribed for the payment of Medicare benefits (and the procedure has been performed by an eligible dental practitioner), Medicare benefits are payable for the administration of the anaesthetic on the same basis as if the procedure had been rendered by a medical practitioner.

To ascertain the Schedule fee for the anaesthetic, medical practitioners should refer to Group T10 - Relative Value Guide for Anaesthesia - of the Medicare Benefits Schedule Book.

CN.0.10 Definitions

Orthodontic treatment planning

Orthodontic treatment planning is defined as the measurement and analysis of the face and jaws and occlusion providing a diagnosis and planned prescription of appliances and treatment required.

Study models

Study models are defined as physical or virtual models of the upper and lower teeth and alveolar processes. This does not include working models.

CN.0.11 Referral of Oral and Maxillofacial Surgical Services

Benefits are payable for items 75002 to 75621 only where the service has been rendered to a patient who has been referred by letter of referral by a medical practitioner or referring dentist.

Item 75621 may be claimed in association with items 46150 to 46161 where the service is performed by a practitioner holding a FRACDS (OMS) qualification.

CN.0.12 General and Prosthodontic Services - (Item 75800)

Item number 75800 refers to an attendance by a dental practitioner for the management, prevention, and prophylaxis of the patient's eligible condition, and includes such services as dietary advice, oral hygiene, and fluoride treatment.

CN.0.13 Over-servicing

Over-servicing must be avoided. In the case of denture services, examples of over-servicing might be:-

- Unjustifiably frequent replacement of dentures;
- Provision of new dentures when relining or re-modelling of an existing prosthesis would meet the clinical need;
- Provision of metal dentures where an acrylic denture would meet the clinical need.

The Schedule includes an item for metal dentures to allow for the provision of a precise, long-term prosthesis. The item is not intended for use during the period of growth, where prostheses must be replaced or altered frequently, unless there is some definite and extraordinary clinical requirement.

CN.1.1 Introduction - Medicare Benefits

The Medicare Benefits Schedule includes certain professional services in respect of the treatment of cleft lip and craniofacial conditions for which Medicare benefits are payable. These services are normally described as dental services. However, for the purposes of these Notes the word "medical" is to be interpreted to include "dental". The definition of professional service as contained in the *Health Insurance Act 1973* provides that such a service must be "clinically relevant". A clinically relevant service means a service rendered by a medical or dental practitioner or optometrist that is generally accepted in the medical, dental or optometrical profession (as the case may be) as being necessary for the appropriate treatment of the patient to whom it is rendered.

Medicare benefits are payable in respect of services listed in Schedule 2 of the *Health Insurance (Section 3C General Medical Services - Cleft and Craniofacial Services) Determination 2024*, when the services are rendered by an eligible dental practitioner to patients who have been diagnosed with an eligible cleft or craniofacial condition.

CN.2.1 Dental Practitioner Eligibility

In order to attract Medicare benefits, all treatment must be carried out by eligible medical practitioners or eligible dental practitioners in Australia. For the purposes of cleft and craniofacial services, groupings for eligible practitioners include:

- Dental practitioner: all registered dental practitioners, including practitioners who hold qualifications and are registered in the specialty of orthodontics, paediatric dentistry, oral and maxillofacial surgery, and prosthodontics.
- Eligible orthodontist: dental practitioners who are registered in the specialty of orthodontics and who hold qualifications as an orthodontic specialist can provide relevant Medicare Benefits Schedule (MBS) cleft and craniofacial services.
- Eligible prosthodontist: dental practitioners who are registered in the specialty of prosthodontics and who hold qualifications as a prosthodontic specialist can provide relevant MBS cleft and craniofacial services.
- Eligible paediatric dentist: dental practitioners who hold qualifications as a paediatric dentist and are registered in the specialty of paediatric dentistry can provide relevant MBS cleft and craniofacial services.
- Eligible oral and maxillofacial surgeon: oral and maxillofacial services may be performed, following a referral from a medical practitioner or referring dentist, by:
 - medical practitioners who are specialists in the practice of their specialty of oral and maxillofacial surgery; or
 - dental practitioners who were approved by the Minister prior to 1 November 2004 for the purposes of subsection 3 (1) of the *Health Insurance Act 1973* (the Act) to carry out prescribed medical services (oral and maxillofacial surgery) contained in the MBS.

Dental practitioners who were previously accredited to provide cleft and craniofacial services who do not meet the registration requirements as a dental practitioner will be grandfathered under legislative arrangements that came into force on 1 November 2012.

All eligible dental practitioners are entitled to perform services covered by items 75009, 75023, 75200, 75203, 75206, 75400, 75402, 75800, 75802, 75815, 75818, 75820, 75833, 75836, 75842, 75845, 75848, 75851 and 75854.

All eligible orthodontists are entitled to perform services covered by items 75002, 75005, 75007, 75012, 75015, 75024, 75027, 75030, 75032, 75034, 75039, 75042, 75045, 75048, 75049, 75050, 75051, 75618 and 75621.

All eligible prosthodontists are entitled to perform services covered by items 75002, 75005, 75007, 75618 and 75621.

All eligible paediatric dentists are entitled to perform services covered by items 75002, 75005, 75007, 75024, 75027, 75600 and 75603.

All eligible oral and maxillofacial surgeons and dental practitioners who, immediately prior to 1 November 2012, held an approval granted by the Minister for the purposes of the definition of professional service in subsection 3(1) of the Act, are entitled to perform services covered by items 75002, 75005, 75007, 75012, 75015, 75405, 75600, 75603, 75606, 75609, 75610, 75618 and 75621.

Items 75002, 75005, 75200, 75203, 75206, 75400, 75402, 75600, 75603, 75618 and 75621 apply only to a service provided by an eligible oral and maxillofacial surgeon if the patient has been referred by a referring dentist or medical practitioner.

CN.3.1 Patient Eligibility

To be eligible to claim benefits for cleft and dental services performed by eligible medical and registered dental practitioners, a patient must satisfy the following criteria:

- a. The patient must be an Australian resident or any other person or class of persons whom the Minister declares to be eligible. All eligible persons will be issued with a Medicare card on application as evidence of their eligibility; and
- b. The patient must be diagnosed with an eligible cleft or craniofacial condition specified in the *Health Insurance (Section 3C General Medical Services - Cleft and Craniofacial Services) Determination 2024*.

The *Health Insurance (Section 3C General Medical Services - Cleft and Craniofacial Services) Determination 2024* specifies the eligible cleft or craniofacial conditions listed below:

1. Oral and/or facial clefting	
<i>Limited to</i>	Cleft lip, alveolus and/or palate
	Tessier facial cleft
2. Congenital or hereditary craniofacial malformation, deformation or disruption	
<i>Limited to</i>	Achondroplasia
	Branchial arch disorders including: Hemifacial/craniofacial microsomia, Goldenhar syndrome, DiGeorge syndrome, Velocardiofacial syndrome, Auriculo-condylar syndrome
	CHARGE syndrome
	Congenital hemifacial hyperplasia
	Congenital lymphatic and/or vascular malformations of the head & neck, cystic hygroma, Sturge-Weber syndrome, excluding haemangiomas, birth marks and naevi
	Craniofacial Neurofibromatosis Type 1
	Craniometaphyseal dysplasia
	Congenital lymphatic and vascular malformations and segmental haemangiomas involving the jaws and associated soft tissues including cystic hygroma and Sturge-Weber syndrome
	Ectodermal dysplasia
	Hemifacial atrophy (Parry Romberg syndrome)
	Mandibulofacial dysostosis (Treacher Collins syndrome)
	Maxillonasal dysplasia (Binder syndrome)
	Oral-facial digital syndrome Type 1
	Osteogenesis imperfecta
	Pierre Robin sequence
	Rubinstein-Taybi syndrome

	Shprintzen-Goldberg syndrome
	Solitary median maxillary central incisor syndrome
	Stickler syndrome
	Syndromic craniosynostoses including: Apert, Crouzon, Pfeiffer, Saethre Chotzen, and Muenke syndromes
	Trichorhinophalangeal syndrome Type 1
3. Hereditary conditions presenting with the absence of 6 (six) or more permanent teeth, excluding 3rd molars	
4. Hereditary conditions where the presence of supernumerary teeth is a major feature	
<i>Limited to</i>	Cleidocranial dysplasia
	Gardner's syndrome
5. Development or hereditary conditions affecting the formation of enamel and/or dentine of all teeth	
<i>Limited to</i>	Amelogenesis imperfecta
	Dentinogenesis imperfecta
	Regional odontodysplasia

CN.3.3 Visitors to Australia

Medicare benefits for the Cleft and Craniofacial Scheme are generally not payable to visitors to Australia or temporary residents.

CN.3.4 Health Care Expenses Incurred Overseas

Medicare does not cover medical or hospital expenses incurred outside Australia.

CLEFT AND CRANIOFACIAL SERVICES ITEMS

C1. CLEFT AND CRANIOFACIAL SERVICES	
Group C1. Cleft and Craniofacial Services	
New 75002	Initial professional attendance, in a single course of treatment (other than a service associated with a service to which item 75009, 75012, 75015 or 75023 applies) (See para CN.2.1 of explanatory notes to this Category) Fee: \$94.10 Benefit: 75% = \$70.60 85% = \$80.00
New 75005	Subsequent professional attendance in a single course of treatment (other than a service associated with a service to which item 75009, 75012, 75015 or 75023 applies) (See para CN.2.1 of explanatory notes to this Category) Fee: \$47.35 Benefit: 75% = \$35.55 85% = \$40.25
New 75007	Production of dental study models (other than a service associated with a service to which item 75002 or 75005 applies) prior to provision of a service to which: (a) item 75030, 75032, 75039, 75045 or 75051 apply; or (b) an item in Group T8 or Groups O3 to O9 apply; or (c) item 52321, 53212 or 75618 apply; or (d) any of items 52330 to 52382, 52600 to 52630, 53400 to 53409 or 53415 to 53429 apply; in a single treatment (See para CN.2.1, CN.0.10 of explanatory notes to this Category) Fee: \$83.85 Benefit: 75% = \$62.90 85% = \$71.30
Amend 75009	Orthodontic radiography—orthopantomography (panoramic radiography), including any consultation on the same occasion (See para CN.2.1 of explanatory notes to this Category) Fee: \$75.05 Benefit: 75% = \$56.30 85% = \$63.80
Amend 75012	Orthodontic anteroposterior cephalometric radiography with cephalometric tracings or lateral cephalometric radiography with cephalometric tracings, including any consultation on the same occasion (See para CN.2.1 of explanatory notes to this Category) Fee: \$118.95 Benefit: 75% = \$89.25 85% = \$101.15
Amend 75015	Radiography anteroposterior and lateral cephalometric radiography with cephalometric tracings, including any consultation on the same occasion (See para CN.2.1 of explanatory notes to this Category) Fee: \$163.50 Benefit: 75% = \$122.65 85% = \$139.00
Amend 75023	Intraoral radiography—single area, periapical or bitewing film (See para CN.2.1 of explanatory notes to this Category) Fee: \$51.10 Benefit: 75% = \$38.35 85% = \$43.45
Amend 75024	Pre-surgical infant maxillary arch repositioning including nasoalveolar moulding, supply of appliances and all adjustments of appliances, and supervision of all components of the service—if 1 appliance is used (See para CN.2.1 of explanatory notes to this Category) Fee: \$660.55 Benefit: 75% = \$495.45 85% = \$561.85

C1. CLEFT AND CRANIOFACIAL SERVICES

<p>Amend 75027</p>	<p>Pre-surgical infant maxillary arch repositioning including nasoalveolar moulding, supply of appliances and all adjustments of appliances, and supervision of all components of the service—if 2 appliances are used</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$905.75 Benefit: 75% = \$679.35 85% = \$807.05</p>
<p>Amend 75030</p>	<p>Maxillary arch expansion (other than a service associated with a service to which item 75039, 75042, 75045 or 75048 applies), including supply of appliances and all adjustments of appliances, removal of appliances and retention</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$806.45 Benefit: 75% = \$604.85 85% = \$707.75</p>
<p>New 75032</p>	<p>Mixed dentition treatment including incisor alignment (mandibular and/or maxillary) lateral arch expansion, including supply of appliances and all adjustments of appliances, removal of appliances and retention</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$1,815.80 Benefit: 75% = \$1361.85 85% = \$1717.10</p>
<p>Amend 75034</p>	<p>Mixed dentition treatment—incisor alignment with or without lateral arch expansion using a removable appliance in the maxillary arch, including supply of all appliances, and associated adjustments and retention</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$672.80 Benefit: 75% = \$504.60 85% = \$574.10</p>
<p>Amend 75039</p>	<p>Permanent dentition treatment—single arch (mandibular or maxillary) treatment (correction and alignment) using orthodontic fixed appliances or aligners, including supply of appliances and aligners—initial 3 months of active treatment</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$611.20 Benefit: 75% = \$458.40 85% = \$519.55</p>
<p>Amend 75042</p>	<p>Permanent dentition treatment—single arch (mandibular or maxillary) treatment (correction and alignment) using orthodontic fixed appliances or aligners, including supply of appliances and aligners—each subsequent 3 months of active treatment (including all adjustments and maintenance and removal of the appliances) after the initial three months of active treatment for a maximum of a further 33 months</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$228.45 Benefit: 75% = \$171.35 85% = \$194.20</p>
<p>Amend 75045</p>	<p>Permanent dentition treatment—2 arch (mandibular and maxillary) treatment (correction and alignment) using orthodontic fixed appliances or aligners, including supply of appliances or aligners—initial 3 months of active treatment</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$1,223.50 Benefit: 75% = \$917.65 85% = \$1124.80</p>
<p>Amend 75048</p>	<p>Permanent dentition treatment—2 arch (mandibular and maxillary) treatment (correction and alignment) using orthodontic fixed appliances or aligners, including supply of appliances or aligners—each subsequent 3 months of active treatment (including all adjustments and maintenance, and removal of the appliances) after the initial three months of active treatment for a maximum of a further 33 months</p> <p>(See para CN.2.1 of explanatory notes to this Category) Fee: \$313.75 Benefit: 75% = \$235.35 85% = \$266.70</p>
<p>Amend 75049</p>	<p>Retention, fixed or removable, single arch (mandibular or maxillary)—supply of retainer and supervision of retention</p>

C1. CLEFT AND CRANIOFACIAL SERVICES

	(See para CN.2.1 of explanatory notes to this Category) Fee: \$367.25 Benefit: 75% = \$275.45 85% = \$312.20
Amend 75050	Retention, fixed or removable, 2-arch (mandibular and maxillary)—supply of retainers and supervision of retention (See para CN.2.1 of explanatory notes to this Category) Fee: \$708.90 Benefit: 75% = \$531.70 85% = \$610.20
Amend 75051	Jaw growth guidance using removable or functional appliances, including supply of appliances and all adjustments to appliances (See para CN.2.1 of explanatory notes to this Category) Fee: \$1,088.20 Benefit: 75% = \$816.15 85% = \$989.50
New 75402	Surgical removal of tooth, or tooth fragment requiring incision of soft tissue only (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$179.25 Benefit: 75% = \$134.45 85% = \$152.40
New 75405	Surgical removal of tooth, or tooth fragment requiring removal of bone, where the patient is referred by a referring dentist or medical practitioner (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$229.20 Benefit: 75% = \$171.90 85% = \$194.85
New 75610	Surgical procedure for intraoral implantation of an osseointegrated fixture and placement of transmucosal abutments where the patient is referred by a referring dentist or medical practitioner (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$380.00 Benefit: 75% = \$285.00 85% = \$323.00
New 75802	Fabrication and fitting of acrylic base partial denture, including retainers—1 to 4 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$463.20 Benefit: 75% = \$347.40 85% = \$393.75
New 75820	Fabrication and fitting of metal framework partial denture, including all components—1 to 4 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$803.80 Benefit: 75% = \$602.85 85% = \$705.10

C2. ORAL AND MAXILLOFACIAL SERVICES

	Group C2. Oral And Maxillofacial Services
Amend 75200	Removal of tooth or tooth fragment (other than treatment to which item 75402 or 75405 applies) (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$60.45 Benefit: 75% = \$45.35 85% = \$51.40
Amend 75203	Removal of tooth or tooth fragment under general anaesthesia (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$90.70 Benefit: 75% = \$68.05 85% = \$77.10
Amend 75206	Removal of each additional tooth or tooth fragment if provided in association with a service to which item 75200 or 75203 applies (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$30.10 Benefit: 75% = \$22.60 85% = \$25.60
Amend 75400	Surgical removal of erupted tooth (See para CN.2.1, CN.0.8 of explanatory notes to this Category)

C2. ORAL AND MAXILLOFACIAL SERVICES	
	Fee: \$181.35 Benefit: 75% = \$136.05 85% = \$154.15
Amend 75600	Surgical exposure and packing of unerupted tooth (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$255.40 Benefit: 75% = \$191.55 85% = \$217.10
Amend 75603	Surgical exposure of unerupted tooth for the purpose of fitting a traction device or placement of a temporary anchorage device (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$300.25 Benefit: 75% = \$225.20 85% = \$255.25
Amend 75606	Surgical repositioning of unerupted tooth where the patient is referred by a referring dentist or medical practitioner (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$300.25 Benefit: 75% = \$225.20 85% = \$255.25
Amend 75609	Transplantation of tooth bud where the patient is referred by a referring dentist or medical practitioner (See para CN.2.1, CN.0.8 of explanatory notes to this Category) Fee: \$448.20 Benefit: 75% = \$336.15 85% = \$381.00
Amend 75618	Fabrication and fitting of a bite rising appliance or dental splint for the management of temporomandibular joint dysfunction syndrome (See para CN.2.1 of explanatory notes to this Category) Fee: \$254.90 Benefit: 75% = \$191.20 85% = \$216.70
Amend 75621	The fabrication and fitting of surgical splint or guide in conjunction with orthognathic surgical procedures and implant treatment, if provided in association with a service to which: (a) any item in the following series applies: (i) any of items 46150 to 46161 apply; or (ii) any of items 52342 to 52375 apply; or (b) item 52380 or 52382 applies; (c) item 75610 applies (See para CN.0.11, CN.2.1 of explanatory notes to this Category) Fee: \$254.90 Benefit: 75% = \$191.20 85% = \$216.70

C3. GENERAL AND PROSTHODONTIC SERVICES	
	Group C3. General And Prosthodontic Services
Amend 75800	Attendance involving consultation, preventive treatment and prophylaxis, of not less than 30 minutes in duration for each attendance to a maximum of 3 attendances in any 12 month period (other than a service associated with a service to which item 75009, 75012, 75015 or 75023 applies) (See para CN.0.12, CN.2.1 of explanatory notes to this Category) Fee: \$90.70 Benefit: 75% = \$68.05 85% = \$77.10
Amend 75815	Fabrication and fitting of acrylic base partial denture, including retainers—5 to 9 teeth (See para CN.2.1 of explanatory notes to this Category)

C3. GENERAL AND PROSTHODONTIC SERVICES

	Fee: \$683.45 Benefit: 75% = \$512.60 85% = \$584.75
Amend 75818	Fabrication and fitting of acrylic base partial denture or complete denture or overdenture, including retainers—10 to 12 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$806.45 Benefit: 75% = \$604.85 85% = \$707.75
Amend 75833	Fabrication and fitting of metal framework partial denture including all components—5 to 9 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$1,164.95 Benefit: 75% = \$873.75 85% = \$1066.25
Amend 75836	Fabrication and fitting of metal framework partial denture or complete denture or overdenture including all components—10 to 12 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$1,333.05 Benefit: 75% = \$999.80 85% = \$1234.35
Amend 75842	Adjustment of denture (other than a service associated with a service to which item 75802, 75815, 75818, 75820, 75833 or 75836 applies) (See para CN.2.1 of explanatory notes to this Category) Fee: \$44.85 Benefit: 75% = \$33.65 85% = \$38.15
Amend 75845	Relining of denture by laboratory process and associated fitting (See para CN.2.1 of explanatory notes to this Category) Fee: \$224.15 Benefit: 75% = \$168.15 85% = \$190.55
Amend 75848	Remodelling and fitting of denture of more than 4 teeth (See para CN.2.1 of explanatory notes to this Category) Fee: \$268.80 Benefit: 75% = \$201.60 85% = \$228.50
Amend 75851	Repair to metal framework of denture—1 or more points (See para CN.2.1 of explanatory notes to this Category) Fee: \$134.45 Benefit: 75% = \$100.85 85% = \$114.30
Amend 75854	Addition of a tooth or teeth to a denture to replace extracted tooth or teeth, including taking of necessary impression (See para CN.2.1 of explanatory notes to this Category) Fee: \$134.45 Benefit: 75% = \$100.85 85% = \$114.30

Other changes to the General Medical Services Table and Diagnostic Imaging Services Table

From 1 March 2024, the following changes will be made to medical and diagnostic imaging services under the MBS:

- Insert three new nurse practitioner items (82226, 82227 and 82228) for dressing burns and intradermal colouration of the nipple or areola;
- Amend 13 items for allied health services provided to a patient who is of Aboriginal or Torres Strait Islander descent to streamline access to up to 10 allied health services in a calendar year;
- Administrative amendments to most allied health services following the remake of the *Health Insurance (Allied Health Services) Determination 2014*.

MISCELLANEOUS SERVICES NOTES

MN.1.1 Bulk Billing Incentives

SUMMARY

Bulk billing incentives (BBIs) are additional payments made to medical practitioners when they bulk bill eligible patients for unREFERRED services (NB this includes almost all general practice services).

Eligible patients are:

- Under 16 years of age, or
- A Commonwealth concession card holder. Information on Commonwealth concession cards is available from [Services Australia](#).

Admitted hospital patients are not eligible for BBIs.

The specific BBI item that should be co-claimed with an eligible medical service depends on:

- The geographic location of the practice (by Modified Monash area). This can be checked on the [Health Workforce Locator](#).
- The specific medical service (MBS item) provided, and
- In some cases, whether the patient is enrolled at the practice providing the service through the MyMedicare program. Information on MyMedicare is available on the [Department of Health and Aged Care's website](#).

Claiming tables are available for each Modified Monash area:

- MN.1.3 – Modified Monash 1
- MN.1.4 – Modified Monash 2
- MN.1.5 – Modified Monash 3-4
- MN.1.6 – Modified Monash 5
- MN.1.7 – Modified Monash 6
- MN.1.8 – Modified Monash 7

USE OF THE ITEMS

BBIs can be claimed when a medical practitioner bulk bills an unREFERRED service to an eligible patient.

What is an unREFERRED service?

The Health Insurance (General Medical Services Table) Regulations 2021 defines an unREFERRED service as a "medical service provided by, or on behalf of, a medical practitioner to a patient who has not been referred to the practitioner for the service."

Which bulk billing incentive should be used?

There are 20 BBI items broken into three categories. Each category includes a BBI item number for use in each Modified Monash area (see table below). The Modified Monash area used to determine the appropriate BBI is the area where the medical practitioner's practice is located. BBI items within each category should be used with:

- Category 1: for all eligible patients, any unREFERRED services not covered by category 2 or 3 including, but not limited to:
 - Level A general attendances (and equivalents)
 - Level C, D, E telehealth (telephone and video) attendances where the patient is not enrolled with the practice through [MyMedicare](#)
 - Chronic disease management and health assessment items
 - Better Access mental health and eating disorder items
 - Antenatal attendances

- Minor procedures
- Category 2: for all eligible patients, any Level B general attendances (face to face, telephone, telehealth (video)), and Level C, D and E face to face consultations. This category also includes the equivalent items used in residential aged care facilities, out of consulting rooms, and after hours
- Category 3: for eligible patients enrolled in [MyMedicare](#) only, Level C, D and E telehealth (video) and Level C and D telephone

Note: BBIs cannot be claimed in conjunction with a COVID vaccine support item.

The **practice location** is the location associated with the Medicare provider number used by the medical practitioner when providing the service. In general, the practice location associated with the provider number is used regardless of where the medical service is provided (e.g. out of consulting rooms, in a residential aged care facility) or, in the case of telehealth, the location of the patient. However, for the after-hours BBIs (10992 and 75872), both the practice location and the patient location are considered. These items can only be claimed with specific after-hours MBS items in limited circumstances.

Practice Location:	MM1 Metropolitan Areas	MM1 (but service is provided after hours in MM 2-7)	MM2 Regional centres	MM3-4 Large or medium rural towns	MM5 Small rural towns	MM6 Remote communities	MM7 Very remote communities
Level B, C, D, E (face to face)	75870	75872	75871	75873	75874	75875	75876
Level B (telephone and telehealth (video))							
Level C, D, E telehealth (telephone and video) and the patient is enrolled in MyMedicare	75880	NA	75881	75882	75883	75884	75885
All other eligible services not covered above	10990	10992	10991	75855	75856	75857	75858

Additional information on the after-hours BBIs – MBS items 10992 and 75872

Items **10992** and **75872** can only be claimed in conjunction with specified after-hours MBS items. In addition to the standard requirements for use of BBIs, the following additional requirements apply:

- The service is not provided in consulting rooms

- The service is provided in a Modified Monash 2-7 area, and
- The service is provided by, or on behalf of, a medical practitioner whose practice is in a Modified Monash 1 area.

CO-CLAIMING RESTRICTIONS

BBIs must be claimed in conjunction with an eligible MBS item. BBIs can only be claimed when an eligible patient is bulk billed for the medical service. Only one BBI can be claimed in conjunction with each medical service (i.e. each MBS item) that is provided.

BBIs cannot be claimed in conjunction with MBS COVID vaccine support items.

BBIs cannot be claimed in conjunction with diagnostic imaging or pathology services. A separate set of incentives are available to use in conjunction with diagnostic imaging and pathology services.

ELIGIBLE PATIENTS

Bulk billed patients eligible for the BBI are:

- Under 16 years of age, or
- A Commonwealth concession card holder. Information on Commonwealth concession cards is available on the [Services Australia website](#).

Admitted hospital patients are not eligible for BBIs.

ELIGIBLE PRACTITIONERS

All medical practitioners who bulk bill a relevant medical service to an eligible patient can claim BBIs.

Different BBIs are payable for practice locations in different Modified Monash areas. The relevant Modified Monash area is determined by the location associated with the medical practitioner's provider number used to provide the service. This means that if the service is provided away from the practice location (e.g. in a residential aged care facility or home visits), the location of the practice, not the location of the consultation, is used to determine the relevant Modified Monash area for BBI purposes (except in relation to items 10992 and 75872).

The Modified Monash area for your practice can be checked on the [Health Workforce Locator](#).

RECORD KEEPING AND REPORTING REQUIREMENTS

Medicare benefits are patient benefits. It is a legal requirement that the patient assigns their benefit to the medical practitioner when a service is bulk billed. Information about recording assignment of benefit is available on the [Services Australia website](#).

When claiming BBIs, medical practitioners should ensure that the patient is under 16 or has a valid Commonwealth Concession Card.

The Department of Health and Aged Care undertakes regular post payment auditing to ensure that BBIs are claimed appropriately. Practitioners should ensure they keep relevant and contemporaneous records.

RELEVANT LEGISLATION

BBIs are specified in the [Health Insurance \(General Medical Services Table\) Regulations 2021](#).

MN.1.3 Bulk Billing Incentives for Eligible Patients in Modified Monash Area 1 General Practitioners¹

Bulk billing incentives for eligible patients² – Modified Monash 1 (Metropolitan Area)³

Applicable BBI Item	10990	75870	75880 (MyMedicare enrolled patients only)
Standard hours consultations - in consulting rooms	3	23, 36, 44, 123	
Standard hours consultations - out of consulting rooms	4	24, 37, 47, 124	
Standard hours consultations - residential aged care facility	90020	90035, 90043, 90051, 90054	
Telehealth - video	91790 (all) 91801, 91802, 91920 if not MyMedicare enrolled	91800	91801, 91802, 91920
Telehealth - phone	91890	91891	91900, 91910
After hours consultations - in consulting rooms	5000	5020, 5040, 5060, 5071	
After hours consultations - out of consulting rooms	5003 ⁴	5023 ⁵ , 5043 ⁵ , 5063 ⁵ , 5076 ⁵	
After hours consultations - residential aged care facility	5010 ⁴	5028 ⁵ , 5049 ⁵ , 5067 ⁵ , 5077 ⁵	
Other	All other “unreferred services” ⁶ , including but not limited to: chronic disease management items, Better Access mental health items, health assessments, minor procedures etc.		

¹ For the definition of GP for MBS purposes see [GN.4.13](#)

² Bulk billing incentives can be claimed when you bulk bill a child under 16 or a Commonwealth Concession Card holder www.servicesaustralia.gov.au/concession-and-health-care-cards

³ Practice located in Modified Monash area www.health.gov.au/resources/apps-and-tools/health-workforce-locator/app

⁴ If service is provided in an MM 2 – 7 area by a GP whose practice is located in an MM 1 area, then BBI item number 10992 is claimed

⁵ If service is provided in an MM 2 – 7 area by a GP whose practice is located in an MM 1 area, then BBI item number 75872 is claimed

⁶ Bulk billing incentives cannot be claimed for the provision of COVID vaccine support services

Medical Practitioners¹

Bulk billing incentives for eligible patients² – Modified Monash 1 (Metropolitan Area)³

Applicable BBI Item	10990	75870	75880 (MyMedicare enrolled patients only)
Standard hours consultations - in consulting rooms	52	53, 54, 57, 151	
Standard hours consultations - out of consulting rooms	58	59, 60, 65, 165

⁴ Bulk billing incentives cannot be claimed for the provision of COVID vaccine support services

MN.3.1 Individual Allied Health Services (Items 10950, 10951, 10952, 10953, 10954, 10956, 10958, 10960, 10962, 10964, 10966, 10968, 10970, 93000 and 93013) for Chronic Disease Management Eligible patients

Medicare benefits are available for services provided by eligible allied health professionals to patients with chronic or terminal conditions and complex care needs who are being managed by a GP or prescribed medical practitioner using Chronic Disease Management (CDM) MBS items. The allied health services must be recommended in:

- the GP Management Plan as part of the management of a chronic or terminal condition and Team Care Arrangements be undertaken, or
- the multidisciplinary care plan if the patient is a resident of a residential aged care facility.

These items are for patients with one or more medical conditions that have been (or are likely to be) present for at least 6 months, or terminal condition(s). A patient is considered to have complex care needs if they require ongoing care from a multidisciplinary team consisting of their GP or prescribed medical practitioner, and at least 2 other health or care providers.

A prescribed medical practitioner is a medical practitioner other than a GP, specialist, or consultant physician.

Number of services per year

Medicare benefits are available for up to 5 services per eligible patient, per calendar year if clinically indicated and each service meets all the item requirements. The 5 services can be made up of one type of service (e.g. 5 physiotherapy services) or a combination of different types of services (e.g. one dietetic and 4 podiatry services).

Where a patient receives more than the limit of 5 services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

Aboriginal or Torres Strait Islander patients

Aboriginal or Torres Strait Islander patients can claim additional allied health services under group M11. Refer to [MN.11.1](#) for further information.

Referral requirements

To access these allied health services, patients must have the following MBS services in place:

- GP Management Plan - GP item 721/92024 or prescribed medical practitioner item 229/92055; and
- Team Care Arrangements (TCA) - GP item 723/92025 or prescribed medical practitioner item 230/92056

Alternatively, for patients who are residents of a residential aged care facility, their GP or prescribed medical practitioner must have contributed to a multidisciplinary care plan prepared for them by the facility (MBS GP item 731/92027 or prescribed medical practitioner item 232/92058).

Referral form

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP or prescribed medical practitioner using a referral form that has been issued by the Australian Government Department of Health and Aged Care or a form that contains all the components of this form.

The form issued by the department is available on the Department of Health and Aged Care website. GPs and prescribed medical practitioners are encouraged to attach relevant information to the referral form.

GPs and prescribed medical practitioners may use one referral form to refer patients for single or multiple services of the same service type (e.g. 5 chiropractic services). If referring a patient for single or multiple services of different service types (e.g. 2 dietetic services and 3 podiatry services), a separate referral form will be needed for each service type.

Providers should retain referrals for their services for 24 months from the date the service was rendered for Medicare auditing purposes.

Referrals for people of Aboriginal or Torres Strait Islander descent

Referrals for patients of Aboriginal or Torres Strait Islander descent can be made using the 'Referral form for follow-up allied health services under Medicare for people of Aboriginal or Torres Strait Islander descent' or a referral containing the same information as the form. The form issued by the department is available on the department's website. This referral form is to be used for patients of Aboriginal or Torres Strait Islander descent for referral to allied health services under Group M11 (and equivalent telehealth items) where a GP Management Plan and Team Care Arrangements, or a multidisciplinary plan, or a health assessment has been undertaken (see [MN.11.1](#) for more information).

Referral validity

If a patient has not used all their services under a referral in a calendar year, it is not necessary to obtain a new referral for the 'unused' services. The 'unused' services will roll over into the following calendar year and will count towards the total of 5 services for which the patient is eligible in that calendar year.

When patients have used all their referred services or require a referral for a different type of allied health service recommended under their GP Management Plan and Team Care Arrangement, they will need to obtain a new referral from their GP or prescribed medical practitioner. GPs and prescribed medical practitioners may choose to use this visit to undertake a review of the patient's GP Management Plan and Team Care Arrangements or multidisciplinary care plan or, where appropriate, to manage the process using a GP/ prescribed medical practitioner consultation item.

It is not necessary to have a new GP Management Plan prepared each calendar year to access new referral/s for allied health services. Patients continue to be eligible for benefits for individual allied health services under M3 and telehealth equivalent services while they are being managed under the prerequisite GP Management Plan and Team

Care Arrangements items if the need for eligible services continues to be recommended in their plan/s. However, regular reviews are encouraged.

Eligible Allied Health Professionals

To provide services under Medicare for patients with a chronic or terminal medical condition and complex care needs, eligible allied health professionals must meet the eligibility requirements as set out in the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024*.

The following allied health professionals are eligible to provide individual allied health services under these items:

- Aboriginal and Torres Strait Islander health practitioners (10950)
- Aboriginal health workers (10950)
- audiologists (10952)
- chiropractors (10964)
- diabetes educators (10951)
- dietitians (10954)
- exercise physiologists (10953)
- mental health service (10956) provided by allied health professionals including Aboriginal and Torres Strait Islander health practitioners, Aboriginal and Torres Strait Islander health workers, mental health nurses, occupational therapists, psychologists and social workers
- occupational therapists (10958)
- osteopaths (10966)
- physiotherapists (10960)
- podiatrists (10962)
- psychologists (10968)
- speech pathologists (10970)

Membership of Team Care Arrangements

The allied health professional providing the service may be a member of the TCA team convened by the GP or prescribed medical practitioner to manage a patient's chronic condition and complex care needs. However, the service may also be provided by an allied health professional who is not a member of the TCA team, provided that the service has been identified as necessary by the patient's GP or prescribed medical practitioner and recommended in the patient's care plan/s.

Reporting back to the Referring Practitioner

Where an allied health professional provides a single service to the patient under a referral, they must provide a written report back to the referring GP or prescribed medical practitioner after each service.

Where an allied health professional provides multiple services to the same patient under the one referral, they must provide a written report back to the referring GP or prescribed medical practitioner after the first and last service only, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report/s to the referring practitioner must be kept by the allied health professional who provided the service for 2 years from the date of the service.

MN.3.2 Multidisciplinary Case Conferencing for Chronic Disease Management (Items 10955, 10957, 10959)

These items provide MBS benefits for eligible allied health professionals to participate in a multidisciplinary case conference team in a community case conference with a patient's GP or prescribed medical practitioner and other providers.

A prescribed medical practitioner is a medical practitioner other than a GP, specialist, or consultant physician. A multidisciplinary case conference means a process by which a multidisciplinary case conference team carries out all the following activities:

- discussing a patient's history;
- identifying the patient's multidisciplinary care needs;
- identifying outcomes to be achieved by members of the multidisciplinary case conference team giving care and service to the patient;
- identifying tasks that need to be undertaken to achieve these outcomes, and allocating those tasks to members of the multidisciplinary case conference team;
- assessing whether previously identified outcomes (if any) have been achieved.

These items apply to non-hospital admitted patients for chronic disease management under the care of a GP/prescribed medical practitioner in either the community or for a resident of a residential aged care facility.

Eligible allied health professionals may claim reimbursement for participating in case conferences through the following time-tiered items:

- 15–19 minutes (10955)
- 20–39 minutes (10957)
- 40 minutes or longer (10959)

Eligible Allied Health Professionals

For the purpose of these items, eligible health professionals must meet the eligibility requirements as set out in the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024* and include the following:

- Aboriginal health worker
- Aboriginal and Torres Strait Islander health practitioner
- audiologist
- chiropractor
- diabetes educator
- dietitian
- exercise physiologist
- mental health worker which includes allied health professionals that meet the requirements of a mental health service which include Aboriginal and Torres Strait Islander health practitioners, Aboriginal and Torres Strait Islander health workers, mental health nurses, occupational therapists, psychologists and social workers
- occupational therapist
- osteopath
- physiotherapist
- podiatrist
- psychologist
- speech pathologist

Organisation of a case conference

The case conference must be organised by the GP/prescribed medical practitioner. The multidisciplinary case conference team must include a GP/prescribed medical practitioner and at least 2 other members providing different kinds of care to the patient. The multidisciplinary case conference team requirements include:

- each member must provide a different kind of care or service to the patient; and
- each member must not be an unpaid carer of the patient; and
- one member may be another GP/prescribed medical practitioner.

The patient and family members or carers can attend the case conference but will not count towards the minimum team member requirements.

The allied health professional does not need all participants to be MBS-eligible to be able to claim payment for their participation. Members can include allied health professionals, home and community service providers and care organisers, including the following:

- asthma educators;
- dental therapists;
- dentists;
- optometrists;
- orthoptists;
- orthotists or prosthetists;
- pharmacists;
- podiatrists;
- registered nurses;
- education providers;
- “meals on wheels” providers;
- personal care workers; and
- probation officers.

In some instances, 2 allied health professionals from the same profession may participate in the same case conference, where both provide different aspects of care to the patient. For instance, the 2 allied health professionals from the same profession have different specialisations that are clinically relevant to the same patient and cannot be provided by one of them alone. In this instance, both allied health professionals will be able to claim the items.

Participation in a case conference

A referral is not required for an allied health professional to access the multidisciplinary case conferencing items for chronic disease management. However, the allied health professional must be invited to participate in the case conference by the patient’s treating GP/prescribed medical practitioner.

The patient must agree to the allied health professional participating in the case conference and be informed that Medicare will be accessed to fund the service. The patient may agree through discussion with their GP/prescribed medical practitioner. The GP/prescribed medical practitioner should ensure that the patient has agreed and that their agreement has been recorded appropriately.

Allied health professionals claiming a case conferencing item should record the day, start, and end times, the names of all participants and all matters discussed in the patient’s medical record.

The allied health professional is not required to have a pre-existing relationship with the patient. However, the patient should agree to their participation in the case conference and be informed that Medicare will be accessed to fund the service.

The case conference may lead to an agreed care plan between all participating providers, including the number of individual allied health services required and how they are allocated among professions within a patient’s entitlement.

The case conferencing items can be accessed in person, via videoconference or telephone, using the same item number. There is no requirement that all participants use the same communication method.

MN.6.1 Provision of Psychological Therapy Services by Clinical Psychologists

MN.6.2 to MN.6.5 provide information on Individual Psychological Therapy services delivered by clinical psychologists. These notes are also applicable for video and phone equivalent MBS items.

For information on Group Focussed Psychological Strategies services see MN.6.7.

OVERVIEW

The *Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule* initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy - provided by eligible clinical psychologists; and
- focussed psychological strategies - allied mental health - provided by eligible psychologists, occupational therapists and social workers.

MN.6.2 Individual Psychological Therapy Services Attracting Medicare Rebates **Eligible psychological therapy services**

There are eight MBS items for the provision of individual psychological therapy services to eligible patients by a clinical psychologist (80000, 80005, 80010, 80015, 91166, 91167, 91181 and 91182).

Clinical psychologists must meet the provider eligibility requirements set out below and be registered with Services Australia.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals and Referral Validity

Services provided under the Psychological Therapy items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan; or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals).

Number of services per year

Medicare rebates are available for up to 10 individual mental health services in a calendar year. The services may consist of: GP/medical practitioner focussed psychological strategies services; and/or psychological therapy services delivered by clinical psychologists; and/or focussed psychological strategies - allied mental health services.

The referring practitioner can decide how many sessions the patient will receive in a course of treatment, within the maximum session limit for the course of treatment. The maximum session limit for each course of treatment is set out below:

- Initial course of treatment – a maximum of six sessions.
- Subsequent course of treatment – a maximum of six sessions up to the patient's cap of ten sessions (for example, if the patient received six sessions in their initial course of treatment, they can only receive four sessions in a subsequent course of treatment).

The written report provided by the clinical psychologist following a course of treatment will be considered by the referring practitioner in assessing the patient's clinical need for further sessions after each course of treatment.

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services, see MN.6.7. These group services are separate from the individual services and do not count towards the individual services per calendar year maximum associated with those items.

Please note if a referral does not specify whether the referral is for individual or group therapy, the patient can use a referral to access either individual or group therapy treatment options. The patient should speak to their GP about their treatment needs and the type of treatment that might be suitable in their particular circumstances.

In the instance where a patient has received the maximum services available under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

Referrals for the Additional 10 Sessions (available until 31 December 2022)

In response to the COVID-19 pandemic, the number of Medicare rebateable individual mental health services was temporarily increased from 10 to 20 per calendar year until 31 December 2022.

A patient does not need a new referral to access Better Access sessions from 1 January 2023. If the patient has a current referral (either for the initial 10 sessions or the additional 10 sessions) and has not used all of the sessions, they can use that referral to access sessions in 2023. However, they cannot receive more than 10 individual sessions in 2023.

Service length and type

Services provided by eligible clinical psychologists under these items must be within the specified time period within the item descriptor.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

Course of treatment and reporting back to the referring medical practitioner

Eligible patients can claim Medicare subsidies for up to 10 individual mental health services per calendar year.

Within this maximum service allocation, the clinical psychologist can provide one or more courses of treatment (additional information on course of treatment session limits is above). This enables the referring medical practitioner to consider a report from the clinical psychologist on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the clinical psychologist must provide a written report to the referring GP or medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring GP or medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

Out of pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out-of-hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient.

The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Eligible patients

Individual psychological therapy service items apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan, under a referred psychiatrist assessment and management plan, or on referral from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Checking patient eligibility for psychological therapy services

If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Clinical psychologists can call Services Australia on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the clinical psychologist should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Publicly funded services

Psychological therapy items do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the items apply for services that are provided by eligible clinical psychologists salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with Services Australia. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.6.3 Referral Requirements (GPs, Medical Practitioners, Psychiatrists or Paediatricians to Clinical Psychologists for Psychological Therapy)

Referrals

Patients must be referred for psychological therapy services by a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan or a referred psychiatrist assessment and management plan; or on referral from a psychiatrist or a paediatrician.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist

items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. A referral for mental health services should be in writing (signed and dated by the referring practitioner) and include:

- the patient's name, date of birth and address;
- the patient's symptoms or diagnosis and a statement on whether a mental health treatment plan has been prepared;
- a list of any current medications;
- the number of sessions the patient is being referred for (the 'course of treatment');
- a statement about whether the patient has a mental health treatment plan, a shared care plan (prepared on or before 30 June 2021), or a psychiatrist assessment and management plan.

It may be useful for a referral to include a statement indicating whether group sessions could be considered.

A referral should include all of the above details, to assist with any auditing undertaken by the Department of Health and Aged Care. Where appropriate, and with the patient's agreement, the GP can also attach a copy of the mental health treatment plan to the referral.

Number of Sessions

The referring practitioner can decide how many sessions the patient will receive in a course of treatment, within the maximum session limit for the course of treatment. The maximum session limit for each course of treatment is set out below:

- Initial course of treatment – a maximum of six sessions.
- Subsequent course of treatment – a maximum of six sessions up to the patient's cap of ten sessions (for example, if the patient received six sessions in their initial course of treatment, they can only receive four sessions in a subsequent course of treatment).

The written report provided by the clinical psychologist following a course of treatment will be considered by the referring practitioner in assessing the patient's clinical need for further sessions after each course of treatment.

Specifying the Number of Sessions on a Referral

If the referring practitioner:

- Does not specify the number of sessions
- Specifies a number of sessions above the maximum allowed for the course of treatment
- Specifies a number of sessions above the maximum allowed for the calendar year (including any sessions the patient has already received that year)

Then the clinical psychologist can use their clinical judgment to provide services under the referral, noting the patient cannot receive more than:

- the maximum number of sessions allowed for that particular course of treatment (as set out above), and
- the maximum number of sessions allowed in a calendar year.

In these circumstances, a clinical psychologist must provide a report at the end of a course of treatment in line with standard practice for these services. This enables the referring medical practitioner to consider the treating practitioner's report on the services provided to the patient, and the need for further treatment.

Verbal Referral

A referring practitioner can verbally refer a patient for Better Access services only if:

- in their clinical judgement they consider it is necessary for the patient to have immediate access to support from a clinical psychologist, and
- it is not practicable in the circumstances to provide a written referral – for example, to do so would cause delays in treatment to the patient’s detriment, and
- the clinical psychologist documents in writing that they are treating the patient based on the referring practitioner’s verbal referral, and
- the referring practitioner provides a written referral to the clinical psychologist as soon as possible afterwards.

While waiting for the referring practitioner to provide a written referral, the treating practitioner can provide treatment according to the verbal referral until the referred number of sessions have been completed. If there is any doubt about the number of sessions the patient was verbally referred for, the treating practitioner should follow the guidance provided above under the heading ‘Specifying the number of sessions on a referral’.

A verbal referral does not replace any requirement for the GP to review the patient’s progress (taking into account the written report from their treating allied health professional) after each course of treatment.

The clinical psychologist must be in receipt of the referral at the first allied mental health consultation. The clinical psychologist must also retain the referral for w years (24 months) from the date the service was rendered.

Use of Referrals across Different Calendar Years

Eligible patients can claim Medicare subsidies for up to 10 individual and 10 group mental health services per calendar year.

If a patient has not used all their psychological therapy services and/or focussed psychological strategies services in course of treatment covered by a referral within the calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

Referrals for the Additional 10 Sessions (available until 31 December 2022)

In response to the COVID-19 pandemic, the number of Medicare rebateable individual mental health services was temporarily increased from 10 to 20 per calendar year until 31 December 2022.

A patient does not need a new referral to access Better Access sessions from 1 January 2023. If the patient has a current referral (either for the initial 10 sessions or the additional 10 sessions) and has not used all of the sessions, they can use that referral to access sessions in 2023. However, they cannot receive more than 10 individual sessions in 2023.

MN.6.4 Clinical Psychologist Professional Eligibility Eligible clinical psychologists

A person is an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. is endorsed by the Psychology Board of Australia to practice in clinical psychology.

Until 31 October 2015, a person was also an allied health professional in relation to the provision of a psychological therapy health service if the person:

- a. holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- b. on 31 October 2015 was an allied health professional in relation to the provision of a psychological therapy health service because the person:
 - i. was a member of the College of Clinical Psychologists of the Australian Psychological Society; or
 - ii. had been assessed by the College of Clinical Psychologists of the Australian Psychological Society as meeting the requirements for membership of that College.

The clinical psychologist must be registered with Services Australia.

Registering with Services Australia

Advice about registering with Services Australia to provide psychological therapy services using items 80000-80021 inclusive is available from the Services Australia provider inquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

For providers, further information is also available for providers from the Services Australia provider inquiry line on 132 150.

MN.6.7 Provision of Group Psychological Therapy Services by Clinical Psychologists

This note provides information on Group Psychological Therapy services delivered by clinical psychologists. It includes an overview of the items, patient and provider eligibility, what activities are involved in providing services rebated by these items, and additional claiming information.

For information on Individual Psychological Therapy services see MN.6.1 to MN.6.5.

OVERVIEW

The *Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule* initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy - provided by eligible clinical psychologists; and
- focussed psychological strategies – allied mental health - provided by eligible psychologists, occupational therapists and social workers.

GROUP PSYCHOLOGICAL THERAPY SERVICES

There are 6 MBS items for the provision of group psychological therapy services to eligible patients by clinical psychologists:

- 80020, 80022, 80024 for provision of psychological therapy services by a clinical psychologist; and

- 80021, 80023, 80025 for provision of video conference services to patients in telehealth eligible areas by a clinical psychologist.

Note, the clinical psychologist must be satisfied that it is clinically appropriate to provide a video consultation to a patient, and the patient must be in a telehealth eligible area (see ‘Telehealth eligible areas’ below).

In these notes, ‘GP’ means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals

Services provided under the group psychological therapy service items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan; or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service.

The clinical psychologist must be in receipt of the referral at the first mental health consultation. The clinical psychologist must also retain the referral for 2 years (24 months) from the date the service was rendered.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. A referral for mental health services should be in writing (signed and dated by the referring practitioner) and include:

- the patient’s name, date of birth and address;
- the patient’s symptoms or diagnosis and a statement on whether a mental health treatment plan has been prepared;
- a list of any current medications;
- the number of sessions the patient is being referred for;
- a statement about whether the patient has a mental health treatment plan or a psychiatrist assessment and management plan.

It may be useful for a referral to include a statement indicating whether group sessions could be considered. If a referral does not specify whether the referral is for individual or group therapy, the patient can use a referral to access either or both individual and group therapy treatment options. However, the patient should speak to their referring practitioner about their treatment needs and the type of treatment that might be suitable in their particular circumstances.

A referral should include all of the above details, to assist with any auditing undertaken by the Department of Health and Aged Care. Where appropriate, and with the patient’s agreement, the GP can also attach a copy of the mental health treatment plan to the referral.

Minimum number of patients

Group psychological therapy service MBS items can be claimed for groups of four to 10 patients. However, clinical psychologists can claim these MBS items if four patients were due to attend and one patient is unable to attend, regardless of the reason.

Number of services per year

Medicare rebates are available for up to 10 group therapy services per calendar year. The services may consist of psychological therapy services delivered by clinical psychologists and/or focussed psychological strategies - allied mental health services. These group services are separate from the individual services and do not count towards the individual services per calendar year maximum associated with those items, see MN.6.1 to MN.6.5.

The referring practitioner can decide how many sessions the patient will receive, within the maximum session limit for the calendar year. If the referring practitioner does not specify the number of sessions on the referral, or specifies a number of sessions above the maximum allowed for the calendar year (including any sessions the patient has already received that year), the clinical psychologist can use their clinical judgement to provide services under the referral up to the maximum.

In the instance where a patient has received the maximum services available under the *Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule* initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that clinical psychologists refer to their PHN for further guidance.

Service length and type

Services provided by eligible clinical psychologists under these items must be within the specified time period within the item descriptor.

In addition to psycho-education, it is recommended that cognitive-behaviour therapy be provided. However, other evidence-based therapies — such as interpersonal therapy — may be used if considered clinically relevant.

Record Keeping

Clinical psychologists must keep contemporaneous notes of the consultation including documenting the date, time and people who attended. Only clinical details recorded at the time of attendance count towards the time of the consultation. Other notes or reports added at a later time are not included.

Use of Referrals across Different Calendar Years

If a patient has not used all their psychological therapy services and/or focussed psychological strategies services covered by a referral within the calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services.

It is not necessary to have a new GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for group psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

Out-of-pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Publicly funded services

Psychological therapy services items do not apply for services that are provided by any other Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under

subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the psychological therapy service items apply for services that are provided by clinical psychologists salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with Services Australia. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

PATIENT ELIGIBILITY

Group psychological therapy service items apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan or under a referred psychiatrist assessment and management plan; or from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Telehealth eligible areas

Geographic eligibility for telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth eligible areas are those areas that are within MMM classifications 4 to 7. Patients and clinical psychologists are able to check their eligibility using the Modified Monash Model locator on the Department of Health and Aged Care's website (<https://www.health.gov.au/resources/apps-and-tools/health-workforce-locator>).

There is a requirement for the patient and clinical psychologist to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between clinical psychologist and patient video consultations is measured by the most direct (ie least distance) route by road. The patient or clinical psychologist is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

Checking patient eligibility for psychological therapy services

If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of group services already claimed by the patient during the calendar year.

Clinical psychologists can call Services Australia on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the clinical psychologist should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

CLINICAL PSYCHOLOGIST PROFESSIONAL ELIGIBILITY

A person is an allied health professional in relation to the provision of a psychological therapy health service if the person:

- holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- is endorsed by the Psychology Board of Australia to practice in clinical psychology.

Until 31 October 2015, a person was also an allied health professional in relation to the provision of a psychological therapy health service if the person:

- holds general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided; and
- on 31 October 2015 was an allied health professional in relation to the provision of a psychological therapy health service because the person:

- was a member of the College of Clinical Psychologists of the Australian Psychological Society; or
- had been assessed by the College of Clinical Psychologists of the Australian Psychological Society as meeting the requirements for membership of that College.

The clinical psychologist must be registered with Services Australia.

Registering with the Services Australia

Advice about registering with the Services Australia to provide psychological therapy services is available from the Services Australia provider enquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

For providers, further information is also available from the Services Australia provider enquiry line on 132 150.

MN.6.8 Provision of Psychological Therapy Services by Clinical Psychologists to a Person other than the Patient (80002, 80006, 80012, 80016, 91168, 91171, 91198 and 91199)

OVERVIEW

The purpose of these MBS items is to enable clinical psychologists to involve another person in a patient's treatment, under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule (Better Access) initiative, where:

- the patient has been referred for Better Access services,
- the clinical psychologist providing the service, or the referring practitioner, determines it is clinically appropriate,
- the patient consents for the service to be provided to the other person as part of their treatment,
- the service is part of the patient's treatment, and
- the patient is not in attendance.

These MBS items recognise the important role another person, such as a family member or carer, can play in supporting patients with mental illness, and the benefits that can result from involving them in treatment.

Under these MBS items, Medicare rebates are available to a patient for up to two services provided to another person per calendar year. Any services delivered using these items count towards the patient's course of treatment and calendar year allocations under Better Access. For further information on patient allocations, please see explanatory note MN.6.2.

For Medicare benefit purposes, charges relating to services covered by these MBS items should be raised against the patient rather than against the person receiving the service.

SERVICES ATTRACTING MEDICARE REBATES

MBS items

There are eight MBS items for the provision of psychological therapy health services to a person other than the patient by clinical psychologists:

- 80002, 80006, 80012, 80016 for provision of in person psychological therapy health services;

- 91168 and 91171 for provision of telehealth psychological therapy health services; and
- 91198 and 91199 for provision of phone psychological therapy health services.

Telehealth services are the preferred approach for substituting a face-to-face consultation. However, clinical psychologists will also be able to offer phone (audio-only) services if video is not available or appropriate. As outlined above, there are separate items available for phone services.

To claim these MBS items the clinical psychologist must meet the provider eligibility requirements for the delivery of psychological therapy health services. For further information, please see explanatory note MN.6.4.

Eligible psychological therapy health services

Clinical psychologists must use their professional judgement to determine what would be an appropriate psychological therapy health service to deliver to another person as part of the patient's treatment.

Publicly funded services

These MBS items do not apply for services provided by any other Commonwealth or state funded services, or provided to an admitted patient of a hospital, unless there is an exemption under subsection 19(2) of the *Health Insurance Act 1973*.

SERVICE LIMITATIONS

Medicare rebates are available to a patient for up to two services provided to another person per calendar year. The two services may consist of:

- Clinical psychologist items: 80002, 80006, 80012, 80016, 91168, 91171, 91198 and 91199
- GP items: 2739, 2741, 2743, 2745, 91859, 91861, 91864 and 91865
- Other medical practitioner items: 309, 311, 313, 315, 91862, 91863, 91866 and 91867
- Psychologist items: 80102, 80106, 80112, 80116, 91174, 91177, 91200 and 91201
- Occupational therapist items: 80129, 80131, 80137, 80141, 91194, 91195, 91202 and 91203
- Social worker items: 80154, 80156, 80162, 80166, 91196, 91197, 91204 and 91205

Any services delivered using these MBS items count towards:

- the maximum session limit for each course of treatment under Better Access, and
- the patient's calendar year allocation for individual services under Better Access.

For further information on the maximum session limits for each course of treatment and maximum calendar year allocation, please see explanatory note MN.6.2.

CLAIMING REQUIREMENTS

Referrals

Services provided under these MBS items will not attract a Medicare rebate unless the patient has been referred for Better Access services by a referring practitioner. Referring practitioner means:

- a medical practitioner who has referred the patient as part of a GP Mental Health Treatment Plan or psychiatrist assessment and management plan; or
- a specialist or consultant physician specialising in the practice of their field of psychiatry; or
- a specialist or consultant physician specialising in the practice of their field of paediatrics.

The referring practitioner can indicate in the patient's mental health treatment plan, psychiatrist assessment and management plan or the referral if they consider it would be clinically appropriate for sessions to be delivered to another person as part of the patient's treatment.

Regardless, clinical psychologists can use their clinical judgment to provide services to another person under the patient's referral. For further information on patient referrals for Better Access services, please see explanatory note MN.6.3.

Determining service is clinically appropriate

The clinical psychologist providing the service, or the referring practitioner, must use their professional judgment to determine it is clinically appropriate, and would form part of the patient's treatment, to provide a psychological therapy health service to another person.

This determination must be recorded in writing in the patient's records.

Obtaining and recording patient consent to deliver the service

The patient must consent to the other person receiving a psychological therapy health service using these MBS items. The eligible clinical psychologist providing the service must:

- Explain the service to the patient.
- Obtain the patient's consent for the service to be provided to the other person as part of the patient's treatment.
- Make a written record of the patient's consent.

The patient may withdraw their consent at any time.

In the case of a child, the general laws relating to consent to medical treatment apply. These may differ between states and territories, and the clinical psychologist should be aware of the requirements in the relevant state or territory.

Service must be part of the patient's treatment

Any service delivered using these MBS items must be part of the patient's treatment. These MBS items are not for the purposes of providing mental health treatment to the person receiving the service. Should that person also require mental health treatment, they will need to speak with a referring practitioner.

Patient is not in attendance

These MBS items are for clinical psychologists to provide services to another person when the patient is not in attendance. If the patient is in attendance, clinical psychologists can consider whether the requirements of the patient MBS items for delivering Better Access services have been met. For further information, please see explanatory note MN.6.2.

Course of treatment and reporting back to the referring practitioner

These services may be accessed at any stage of a patient's course of treatment and do not need to be accessed consecutively, provided no more than two services are delivered to another person and delivering these services does not exceed the maximum allowed for the patient in a course of treatment or calendar year under Better Access.

On completion of a course of treatment by the patient, the eligible clinical psychologist must provide a written report to the referring medical practitioner on assessments carried out on the patient, treatment provided, and recommendations on future management of the patient's disorder. This report should also include relevant information on any services delivered using these MBS items to another person where relevant.

ADDITIONAL INFORMATION

Out-of-pocket expenses and Medicare safety net

For Medicare benefit purposes, charges relating to services covered by these MBS items should be raised against the patient rather than against the person receiving the service.

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out of hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Checking patient eligibility for Better Access services

As outlined above, patients seeking Medicare rebates for services delivered to another person will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether an eligible service has been claimed, as well as the number of mental health services already claimed by the patient during the calendar year. Clinical psychologists can call Services Australia on 132 150 to check this information, while patients can call on 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the eligible clinical psychologist should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

For providers, further information is also available from the Services Australia Medicare Provider Enquiry Line on 132 150.

MN.7.1 Provision of Individual Focussed Psychological Strategies Services by Allied Health Providers - (Items 80100 to 80165)

This note provides information on Individual Focussed Psychological Strategies services delivered by allied health providers, and is also applicable for video and phone equivalent MBS items. It includes an overview of the items, patient and provider eligibility, what activities are involved in providing services rebated by these items, and additional claiming information.

For information on Group Focussed Psychological Strategies services see MN.7.4.

OVERVIEW

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

- psychological therapy - provided by eligible clinical psychologists; and
- focussed psychological strategies – allied mental health - provided by eligible psychologists, occupational therapists and social workers.

FOCUSSED PSYCHOLOGICAL STRATEGIES – ALLIED MENTAL HEALTH SERVICES ATTRACTING MEDICARE REBATES

Eligible focussed psychological strategies services

There are 24 MBS items for the provision of individual focussed psychological strategies (FPS) - allied mental health services to eligible patients by allied health professionals:

- 80100, 80105, 80110 and 80115 for provision of FPS services by a psychologist;
- 91169, 91170, 91183 and 91184 for provision of video conference and phone FPS services by a psychologist;
- 80125, 80130, 80135 and 80140 for provision of FPS services by an occupational therapist;

- 91172, 91173, 91185 and 91186 for provision of video conference and phone FPS services by an occupational therapist;
- 80150, 80155, 80160 and 80165 for provision of FPS services by a social worker; and
- 91175, 91176, 91187 and 91188 for provision of video conference and phone FPS services by a social worker.

The allied health professional must meet the provider eligibility requirements set out below and be registered with Services Australia.

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals

Services provided under the focussed psychological strategies – allied mental health items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan; or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service (see Referral Requirements for further details regarding psychiatrist and paediatrician referrals).

Number of services per year

Medicare rebates are available for up to 10 individual mental health services in a calendar year. The services may consist of: GP or medical practitioner focussed psychological strategies services; and/or psychological therapy services delivered by clinical psychologists; and/or focussed psychological strategies - allied mental health services.

Patients will also be eligible to claim up to 10 separate services within a calendar year for group therapy services see MN.7.4. These group services are separate from the individual services and do not count towards the individual services per calendar year maximum associated with those items.

Please note if a referral does not specify whether the referral is for individual or group therapy, the patient can use a referral to access either individual or group therapy treatment options. The patient should speak to their GP about their treatment needs and the type of treatment that might be suitable in their particular circumstances.

In the instance where a patient has received the maximum services available under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

Service length and type

Services provided by eligible allied health professionals under these items must be within the specified time period within the item descriptor.

It is expected that professional attendances at places other than consulting rooms would be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

A range of acceptable strategies has been approved for use by allied mental health professionals utilising the FPS items.

These are:

- 1. Psycho-education**
(including motivational interviewing)
- 2. Cognitive-behavioural therapy including:**
 - **Behavioural interventions**
 - Behaviour modification
 - Exposure techniques
 - Activity scheduling
 - **Cognitive interventions**
 - Cognitive therapy
- 3. Relaxation strategies**
 - Progressive muscle relaxation
 - Controlled breathing
- 4. Skills training**
 - Problem solving skills and training
 - Anger management
 - Social skills training
 - Communication training
 - Stress management
 - Parent management training
- 5. Interpersonal therapy (especially for depression)**
- 6. Narrative therapy (for Aboriginal and Torres Strait Islander people).**
- 7. Eye-Movement Desensitisation Reprocessing (EMDR)**

Course of treatment and reporting back to the referring medical practitioner

Eligible patients can claim Medicare subsidies for up to 10 individual mental health services per calendar year.

Within this maximum service allocation, the allied mental health professional can provide one or more courses of treatment (additional information on course of treatment session limits is above). This enables the referring medical practitioner to consider a report from the allied mental health professional on the services provided to the patient, and the need for further treatment.

On completion of the initial course of treatment, the allied mental health professional must provide a written report to the referring medical practitioner, which includes information on:

- assessments carried out on the patient;
- treatment provided; and
- recommendations on future management of the patient's disorder.

A written report must also be provided to the referring medical practitioner at the completion of any subsequent course(s) of treatment provided to the patient.

Out-of-pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out of hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Eligible patients

Individual FPS items apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan or under a referred psychiatrist assessment and management plan; or from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Checking patient eligibility for focussed psychological strategies – allied mental health services

If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of allied mental health services already claimed by the patient during the calendar year.

Allied mental health professionals can call Services Australia on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the allied mental health professional should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Publicly funded services

Focussed psychological strategies (FPS) services items do not apply for services that are provided by any other Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the FPS services items apply for services that are provided by eligible allied mental health professionals salaried by, or contracted to, the service as long as all requirements of the items are met, including registration with Services Australia. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

REFERRAL REQUIREMENTS (GPs, MEDICAL PRACTITIONERS, PSYCHIATRISTS OR PAEDIATRICIANS TO ALLIED MENTAL HEALTH PROFESSIONALS)

Referrals

Patients must be referred for focussed psychological strategies – allied mental health services by either a GP or medical practitioner managing the patient under a GP Mental Health Treatment Plan or referred by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan; or on referral from a psychiatrist or a paediatrician.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. A referral for mental health services should be in writing (signed and dated by the referring practitioner) and include:

- the patient's name, date of birth and address;

- the patient's symptoms or diagnosis and a statement on whether a mental health treatment plan has been prepared;
- a list of any current medications;
- the number of sessions the patient is being referred for (the 'course of treatment');
- a statement about whether the patient has a mental health treatment plan or a psychiatrist assessment and management plan.

It may be useful for a referral to include a statement indicating whether group sessions could be considered.

A referral should include all of the above details, to assist with any auditing undertaken by the Department of Health and Aged Care. Where appropriate, and with the patient's agreement, the GP can also attach a copy of the mental health treatment plan to the referral.

Number of Sessions

The referring practitioner can decide how many sessions the patient will receive in a course of treatment, within the maximum session limit for the course of treatment. The maximum session limit for each course of treatment is set out below:

- Initial course of treatment – a maximum of six sessions.
- Subsequent course of treatment – a maximum of six sessions up to the patient's cap of ten sessions (for example, if the patient received six sessions in their initial course of treatment, they can only receive four sessions in a subsequent course of treatment).

The written report provided by the allied mental health professional following a course of treatment will be considered by the referring practitioner in assessing the patient's clinical need for further sessions after each course of treatment.

Specifying the Number of Sessions on a Referral

If the referring practitioner:

- Does not specify the number of sessions
- Specifies a number of sessions above the maximum allowed for the course of treatment
- Specifies a number of sessions above the maximum allowed for the calendar year (including any sessions the patient has already received that year)

Then the allied mental health professional can use their clinical judgment to provide services under the referral, noting the patient cannot receive more than:

- the maximum number of sessions allowed for that particular course of treatment (as set out above), and
- the maximum number of sessions allowed in a calendar year.

In these circumstances, an allied mental health professional must provide a report at the end of a course of treatment in line with standard practice for these services. This enables the referring medical practitioner to consider the treating practitioner's report on the services provided to the patient, and the need for further treatment.

Verbal Referral

A referring practitioner can verbally refer a patient for Better Access services only if:

- in their clinical judgement they consider it is necessary for the patient to have immediate access to support from an allied mental health professional, and
- it is not practicable in the circumstances to provide a written referral – for example, to do so would cause delays in treatment to the patient's detriment, and
- the allied mental health professional documents in writing that they are treating the patient based on the referring practitioner's verbal referral, and

- the referring practitioner provides a written referral to the allied mental health professional as soon as possible afterwards.

While waiting for the referring practitioner to provide a written referral, the treating practitioner can provide treatment according to the verbal referral until the referred number of sessions have been completed. If there is any doubt about the number of sessions the patient was verbally referred for, the treating practitioner should follow the guidance provided above under the heading 'Specifying the number of sessions on a referral'.

A verbal referral does not replace any requirement for the GP to review the patient's progress (taking into account the written report from their treating allied health professional) after each course of treatment.

The allied mental health professional must be in receipt of the referral at the first allied mental health consultation. The allied health professional must also retain the referral for 2 years (24 months) from the date the service was rendered.

Use of Referrals across Different Calendar Years

Eligible patients can claim Medicare subsidies for up to 10 individual and 10 group mental health services per calendar year.

If a patient has not used all their psychological therapy services and/or focussed psychological strategies services in course of treatment covered by a referral within the calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services. Where the patient's care is being managed by a GP or medical practitioner, the GP/medical practitioner may choose to use this visit to undertake a review of the patient's GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan.

It is not necessary to have a new GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for eligible psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

Referrals for the Additional 10 Sessions (available until 31 December 2022)

In response to the COVID-19 pandemic, the number of Medicare rebateable individual mental health services was temporarily increased from 10 to 20 per calendar year until 31 December 2022.

A patient does not need a new referral to access Better Access sessions from 1 January 2023. If the patient has a current referral (either for the initial 10 sessions or the additional 10 sessions) and has not used all of the sessions, they can use that referral to access sessions in 2023. However, they cannot receive more than 10 individual sessions in 2023.

ALLIED MENTAL HEALTH PROFESSIONAL ELIGIBILITY

Eligible allied health professionals

A person is an allied health professional in relation to the provision of a FPS service if the person meets one of the following requirements:

- the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;

- the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- the person is an occupational therapist who is registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and is accredited by Occupational Therapy Australia as:
 - having a minimum of two years experience in mental health; and
 - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational Therapists and Social Workers providing FPS services are required to have completed 10hours FPS CPD.

A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

Registering with the Services Australia

Advice about registering with the Services Australia to provide focussed psychological strategies - allied mental health services is available from the Services Australia provider enquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline

For providers, further information is also available for providers from the Services Australia provider enquiry line on 132 150.

Services Australia has developed a [Health Practitioner Guideline to substantiate that a valid Allied Mental Health service has been provided \(for allied health professionals\)](#) which is located on the Department of Health and Aged Care website.

MN.7.4 Provision of Group Focussed Psychological Strategies Services by Allied Health Providers

This note provides information on Group Focussed Psychological Strategies services delivered by allied health providers. It includes an overview of the items, patient and provider eligibility, what activities are involved in providing services rebated by these items, and additional claiming information.

For information on Individual Focussed Psychological Strategies services see MN.7.1.

OVERVIEW

The Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative commenced on 1 November 2006. Under the Better Access initiative MBS items provide Medicare benefits for the following allied mental health services:

psychological therapy - provided by eligible clinical psychologists; and
focussed psychological strategies – allied mental health - provided by eligible psychologists, occupational therapists and social workers.

FOCUSSED PSYCHOLOGICAL STRATEGIES – ALLIED MENTAL HEALTH SERVICES ATTRACTING MEDICARE REBATES

Group focussed psychological strategies services

There are 18 MBS items for the provision of group focussed psychological strategies (FPS) - allied mental health services to eligible patients by allied health providers:

- 80120, 80122, 80127 for provision of FPS services by a psychologist;
- 80121, 80123, 80128 for provision of video conference FPS services to patients in telehealth eligible areas by a psychologist;
- 80145, 80147, 80152 for provision of FPS services by an occupational therapist;
- 80146, 80148, 80153 for provision of video conference FPS services to patients in telehealth eligible areas by an occupational therapist;
- 80170, 80172, 80174 for provision of FPS services by a social worker; and
- 80171, 80173, 80175 for provision of video conference FPS services to patients in telehealth eligible areas by a social worker.

Note, the allied health provider must be satisfied that it is clinically appropriate to provide a video consultation to a patient, and the patient must be in a telehealth eligible area (see 'Telehealth eligible areas' below).

In these notes, 'GP' means a medical practitioner, including a general practitioner, but not including a specialist or consultant physician.

Referrals

Services provided under the group FPS items will not attract a Medicare rebate unless:

- a referral has been made by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan;
- a referral has been made by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) who is managing the patient under a referred psychiatrist assessment and management plan; or
- a referral has been made by a psychiatrist or paediatrician from an eligible psychiatric or paediatric service.

The allied health provider must be in receipt of the referral at the first allied mental health consultation. The allied health provider must also retain the referral for 2 years (24 months) from the date the service was rendered.

Referrals from psychiatrists and paediatricians must be made from eligible Medicare services. For specialist psychiatrists and paediatricians these services include any of the specialist attendance items 104 through 109. For consultant physician psychiatrists the relevant eligible Medicare services cover any of the consultant psychiatrist items 293 through 370; while for consultant physician paediatricians the eligible services are consultant physician attendance items 110 through 133.

Referring practitioners are not required to use a specific form to refer patients for these services. A referral for mental health services should be in writing (signed and dated by the referring practitioner) and include:

- the patient's name, date of birth and address;
- the patient's symptoms or diagnosis and a statement on whether a mental health treatment plan has been prepared;
- a list of any current medications;
- the number of sessions the patient is being referred for;
- a statement about whether the patient has a mental health treatment plan or a psychiatrist assessment and management plan.

It may be useful for a referral to include a statement indicating whether group sessions could be considered. If a referral does not specify whether the referral is for individual or group therapy, the patient can use a referral to access either or both individual and group therapy treatment options. However, the patient should speak to their referring practitioner about their treatment needs and the type of treatment that might be suitable in their particular circumstances.

A referral should include all of the above details, to assist with any auditing undertaken by the Department of Health and Aged Care. Where appropriate, and with the patient's agreement, the GP can also attach a copy of the mental health treatment plan to the referral.

Minimum number of patients

Group FPS services MBS items can be claimed for groups of four to 10 patients. However, allied health professions can claim these MBS items if four **patients** were due to attend and one patient is unable to attend, regardless of the reason.

Number of services per year

Medicare rebates are available for up to 10 group therapy services per calendar year. The services may consist of psychological therapy services delivered by clinical psychologists and/or focussed psychological strategies - allied mental health services. These group services are separate from the individual services and do not count towards the individual services per calendar year maximum associated with those items, see MN.7.1.

The referring practitioner can decide how many sessions the patient will receive, within the maximum session limit for the calendar year. If the referring practitioner does not specify the number of sessions on the referral, or specifies a number of sessions above the maximum allowed for the calendar year (including any sessions the patient has already received that year), the allied health provider can use their clinical judgement to provide services under the referral up to the maximum.

In the instance where a patient has received the maximum services available under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule initiative per calendar year and is considered to clinically benefit from some additional services, the patient may be eligible for Primary Health Networks (PHNs) funded psychological therapies if they meet relevant eligibility criteria for the PHN commissioned services. It is recommended that providers refer to their PHN for further guidance.

Service length and type

Services provided by eligible allied health providers under these items must be within the specified time period within the item descriptor.

These MBS items cannot be used to deliver family and couples therapy. A range of acceptable strategies has been approved for use by allied health providers utilising the FPS items. These are:

- 1. Psycho-education**
(including motivational interviewing)
- 2. Cognitive-behavioural therapy including:**

- **Behavioural interventions**
- Behaviour modification
- Exposure techniques
- Activity scheduling
- **Cognitive interventions**
- Cognitive therapy
- 3. Relaxation strategies**
- Progressive muscle relaxation
- Controlled breathing
- 4. Skills training**
- Problem solving skills and training
- Anger management
- Social skills training
- Communication training
- Stress management
- Parent management training
- 5. Interpersonal therapy (especially for depression)**
- 6. Narrative therapy (for Aboriginal and Torres Strait Islander people).**
- 7. Eye-Movement Desensitisation Reprocessing (EMDR)**

Record Keeping

Allied health providers must keep contemporaneous notes of the consultation including documenting the date, time and people who attended. Only clinical details recorded at the time of attendance count towards the time of the consultation. Other notes or reports added at a later time are not included.

Use of Referrals across Different Calendar Years

If a patient has not used all their psychological therapy services and/or focussed psychological strategies services covered by a referral within the calendar year, it is not necessary to obtain a new referral for the "unused" services. However, any "unused" services received from 1 January in the following year under that referral will count as part of the total services for which the patient is eligible in that calendar year.

When patients have used all of their referred services they will need to obtain a new referral from the referring practitioner if they are eligible for further services.

It is not necessary to have a new GP Mental Health Treatment Plan and/or psychiatrist assessment and management plan prepared each calendar year in order to access a new referral(s) for group psychological therapy services and/or focussed psychological strategies services. Patients continue to be eligible for rebates for psychological therapy services and/or focussed psychological strategies services while they are being managed under a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan as long as the need for eligible services continues to be recommended in their plan.

Out-of-pocket expenses and Medicare safety net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Publicly funded services

FPS services items do not apply for services that are provided by any other Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, the FPS services items apply for services that are provided by eligible allied health providers salaried by, or

contracted to, the service as long as all requirements of the items are met, including registration with Services Australia. These services must be direct billed (that is, the Medicare rebate is accepted as full payment for services).

PATIENT ELIGIBILITY

Group FPS items apply to people with an assessed mental disorder and where the patient is referred by a GP or medical practitioner who is managing the patient under a GP Mental Health Treatment Plan or under a referred psychiatrist assessment and management plan; or from an eligible psychiatrist or paediatrician.

The conditions classified as mental disorders for the purposes of these services are informed by the World Health Organisation, 1996, Diagnostic and Management Guidelines for Mental Disorders in Primary Care: ICD-10 Chapter V Primary Care Version. For the purposes of these items, dementia, delirium, tobacco use disorder and mental retardation are not regarded as a mental disorder.

Telehealth eligible areas

Geographic eligibility for telehealth services funded under Medicare (in Groups M6 and M7) is determined according to the Modified Monash Model (MMM) classifications. Telehealth eligible areas are those areas that are within MMM classifications 4 to 7. Patients and providers are able to check their eligibility using the Modified Monash Model locator on the Department of Health and Aged Care's website (<https://www.health.gov.au/resources/apps-and-tools/health-workforce-locator>).

There is a requirement for the patient and allied health provider to be located a minimum of 15 kilometres apart at the time of the consultation. Minimum distance between allied health provider and patient video consultations are measured by the most direct (ie least distance) route by road. The patient or allied health provider is not permitted to travel to an area outside the minimum 15 kilometres distance in order to claim a video consultation.

Checking patient eligibility for focussed psychological strategies – allied mental health services

If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether a GP Mental Health Treatment Plan and/or a psychiatrist assessment and management plan is in place and claimed; or an eligible psychiatric or paediatric service has been claimed, as well as the number of group services already claimed by the patient during the calendar year.

Allied health providers can call Services Australia on 132 150 to check this information, while unsure patients can seek clarification by calling 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the allied health provider should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

ALLIED HEALTH PROVIDER ELIGIBILITY

Eligible allied health provider

A person is an allied health provider in relation to the provision of a FPS service if the person meets one of the following requirements:

- the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- the person is an occupational therapist who is registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and is accredited by Occupational Therapy Australia as:

- having a minimum of two years experience in mental health; and
- having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational Therapists and Social Workers providing FPS services are required to have completed 10 hours FPS CPD.

A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied health providers are required to have 10 hours of FPS related CPD, the same as full-time allied health providers.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

Registering with the Services Australia

Advice about registering with the Services Australia to provide focussed psychological strategies - allied mental health services is available from the Services Australia provider enquiry line on 132 150.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

For providers, further information is also available for providers from the Services Australia provider enquiry line on 132 150.

MN.7.5 Provision of Focussed Psychological Strategies Services by Eligible Allied Health Professionals to a Person Other than the Patient

Relevant MBS items - 80102, 80106, 80112, 80116, 80129, 80131, 80137, 80141, 80154, 80156, 80162, 80166, 91174, 91177, 91194, 91195, 91196, 91197, 91200, 91201, 91202, 91203, 91204 and 91205

OVERVIEW

The purpose of these MBS items is to enable psychologists, eligible occupational therapists and eligible social workers (referred to as eligible allied health professionals) to involve another person in a patient's treatment, under the Better Access to Psychiatrists, Psychologists and General Practitioners through the Medicare Benefits Schedule (Better Access) initiative, where:

- the patient has been referred for Better Access services,
- the eligible allied health professional providing the service, or the referring practitioner, determines it is clinically appropriate,

- the patient consents for the service to be provided to the other person as part of their treatment,
- the service is part of the patient's treatment, and
- the patient is not in attendance.

These MBS items recognise the important role another person, such as a family member or carer, can play in supporting patients with mental illness, and the benefits that can result from involving them in treatment.

Under these MBS items, Medicare rebates are available to a patient for up to two services provided to another person per calendar year. Any services delivered using these items count towards the patient's course of treatment and calendar year allocations under Better Access. For further information on patient allocations, please see explanatory note MN.7.1.

For Medicare benefit purposes, charges relating to services covered by these MBS items should be raised against the patient rather than against the person receiving the service.

SERVICES ATTRACTING MEDICARE REBATES

MBS items

There are 24 MBS items for the provision of focussed psychological strategies (FPS) health services to a person other than the patient by eligible allied health professionals:

- 80102, 80106, 80112 and 80116 for provision of in person FPS services by a psychologist;
- 91174 and 91177 for provision of telehealth FPS services by a psychologist;
- 91200 and 91201 for provision of phone FPS services by a psychologist;
- 80129, 80131, 80137 and 80141 for provision of in person FPS services by an occupational therapist;
- 91194 and 91195 for provision of telehealth FPS services by an occupational therapist;
- 91202 and 91203 for provision of phone FPS services by an occupational therapist;
- 80154, 80156, 80162 and 80166 for provision of in person FPS services by a social worker;
- 91196 and 91197 for provision of telehealth FPS services by a social worker; and
- 91204 and 91205 for provision of phone FPS services by a social worker.

Telehealth services are the preferred approach for substituting a face-to-face consultation. However, eligible allied health professionals will also be able to offer phone (audio-only) services if video is not available or appropriate. As outlined above, there are separate items available for phone services.

To claim these MBS items the eligible allied health professional must meet the provider eligibility requirements for the delivery of FPS services. For further information, please see explanatory note MN.7.1.

Eligible focussed psychological strategies services

A range of acceptable strategies have been approved for use by eligible allied health professionals utilising FPS items. For further information, please see explanatory note MN.7.1.

Eligible allied health professionals must use their professional judgement to determine what would be an appropriate FPS service to deliver to another person as part of the patient's treatment within the approved list of FPS.

Publicly funded services

These MBS items do not apply for services provided by any other Commonwealth or state funded services, or provided to an admitted patient of a hospital, unless there is an exemption under subsection 19(2) of the *Health Insurance Act 1973*.

SERVICE LIMITATIONS

Medicare rebates are available to a patient for up to two services provided to another person per calendar year. The two services may consist of:

- Psychologist items: 80102, 80106, 80112, 80116, 91174, 91177, 91200 and 91201
- Occupational therapist items: 80129, 80131, 80137, 80141, 91194, 91195, 91202 and 91203
- Social worker items: 80154, 80156, 80162, 80166, 91196, 91197, 91204 and 91205
- Clinical psychologist items: 80002, 80006, 80012, 80016, 91168, 91171, 91198 and 91199
- GP items: 2739, 2741, 2743, 2745, 91859, 91861, 91864 and 91865
- Other medical practitioner items: 309, 311, 313, 315, 91862, 91863, 91866 and 91867

Any services delivered using these MBS items count towards:

- the maximum session limit for each course of treatment under Better Access, and
- the patient's calendar year allocation for individual services under Better Access.

For further information on the maximum session limits for each course of treatment and maximum calendar year allocation, please see explanatory note MN.7.1.

CLAIMING REQUIREMENTS

Referrals

Services provided under these MBS items will not attract a Medicare rebate unless the patient has been referred for Better Access services by a referring practitioner. Referring practitioner means:

- a medical practitioner who has referred the patient as part of a GP Mental Health Treatment Plan or psychiatrist assessment and management plan; or
- a specialist or consultant physician specialising in the practice of their field of psychiatry; or
- a specialist or consultant physician specialising in the practice of their field of paediatrics.

The referring practitioner can indicate in the patient's mental health treatment plan, psychiatrist assessment and management plan or the referral if they consider it would be clinically appropriate for sessions to be delivered to another person as part of the patient's treatment.

Regardless, eligible allied health professionals can use their clinical judgment to provide services to another person under the patient's referral. For further information on patient referrals for Better Access services, please see explanatory note MN.7.1.

Determining service is clinically appropriate

The eligible allied health professional providing the service, or the referring practitioner, must use their professional judgment to determine it is clinically appropriate, and would form part of the patient's treatment, to provide a FPS service to another person.

This determination must be recorded in writing in the patient's records.

Obtaining and recording patient consent to deliver the service

The patient must consent to the other person receiving a FPS service using these MBS items. The eligible allied health professional providing the service must:

- Explain the service to the patient.
- Obtain the patient's consent for the service to be provided to the other person as part of the patient's treatment.
- Make a written record of the patient's consent.

The patient may withdraw their consent at any time.

In the case of a child, the general laws relating to consent to medical treatment apply. These may differ between states and territories, and the allied health professional should be aware of the requirements in the relevant state or territory.

Service must be part of the patient's treatment

Any service delivered using these MBS items must be part of the patient's treatment. These MBS items are not for the purposes of providing mental health treatment to the person receiving the service. Should that person also require mental health treatment, they will need to speak with a referring practitioner.

Patient is not in attendance

These MBS items are for eligible allied health professionals to provide services to another person when the patient is not in attendance. If the patient is in attendance, the allied health professional can consider whether the requirements of the patient MBS items for delivering Better Access services have been met. For further information, please see explanatory note MN.7.1.

Course of treatment and reporting back to the referring practitioner

These services may be accessed at any stage of a patient's course of treatment and do not need to be accessed consecutively, provided no more than two services are delivered to another person and delivering these services does not exceed the maximum allowed for the patient in a course of treatment or calendar year under Better Access.

On completion of a course of treatment by the patient, the eligible allied health professional must provide a written report to the referring medical practitioner on assessments carried out on the patient, treatment provided, and recommendations on future management of the patient's disorder. This report should also include relevant information on any services delivered using these MBS items to another person where relevant.

ADDITIONAL INFORMATION

Out-of-pocket expenses and Medicare safety net

For Medicare benefit purposes, charges relating to services covered by these MBS items should be raised against the patient rather than against the person receiving the service.

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, if a service was provided out of hospital, any out-of-pocket costs will count towards the Medicare safety net for that patient. The out-of-pocket costs for mental health services which are not Medicare eligible do not count towards the Medicare safety net.

Checking patient eligibility for Better Access services

As outlined above, patients seeking Medicare rebates for services delivered to another person will need to have a referral from a GP, medical practitioner, psychiatrist or paediatrician. If there is any doubt about a patient's eligibility, Services Australia will be able to confirm whether an eligible service has been claimed, as well as the number of mental health services already claimed by the patient during the calendar year. Eligible allied health professionals can call Services Australia on 132 150 to check this information, while patients can call on 132 011.

The patient will not be eligible if they have not been appropriately referred and a relevant Medicare service provided to them. If the referring service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the eligible allied health professional should, with the patient's permission, contact the referring practitioner to ensure the relevant service has been provided to the patient.

Further information

For further information about Medicare Benefits Schedule items, please go to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

For providers, further information is also available from the Services Australia Medicare Provider Enquiry Line on 132 150.

MN.7.6 Mental Health Case Conferences - Allied Health Professionals

Items 80176, 80177 and 80178 provide rebates for eligible allied health professionals to participate in mental health case conferences. They apply for a patient who is being treated under the Better Access to Psychiatrist and paediatricians, Psychologists and General Practitioners through the Medicare Benefits Schedule (MBS) initiative (Better Access) or an eating disorder treatment and management plan (EDTP).

The purpose of a case conference is to establish and coordinate the management of the care needs of the patient. A case conference is a process by which a multidisciplinary team carries out the following activities:

- discusses a patient's history;
- identifies the patient's multidisciplinary care needs;
- identifies outcomes to be achieved by members of the case conference team giving care and service to the patient;
- identifies tasks that need to be undertaken to achieve these outcomes, and allocating those tasks to members of the case conference team; and
- assesses whether previously identified outcomes (if any) have been achieved.

PATIENT ELIGIBILITY

Case conferences using these new MBS items can be held for patients who have been referred for treatment under Better Access or have an active eating disorder treatment and management plan.

Patients can be referred for treatment under Better Access by a:

- GP or OMP under a mental health treatment plan or psychiatrist assessment and management plan,
- psychiatrist, or
- paediatrician.

Treated under Better Access means a patient has been referred for a:

- a focussed psychological strategies service delivered by a GP, OMP, psychologist, social worker or occupational therapist, or
- psychological therapy service delivered by a clinical psychologist

REGULATORY REQUIREMENTS

To participate in mental health case conferences using items 80176, 80177 and 80178, the allied health professional must:

- a. explain to the patient the nature of a mental health case conference and ask for their agreement to the allied health professional's participation in the conference; and
- b. record the patient's agreement to the allied health professional's participation; and
- c. record the day on which the conference was held, and the times at which the conference started and ended; and
- d. record the names of the participants; and
- e. record all matters discussed and identified by the case conferencing team and put a copy of that record in the patient's medical records.

ADDITIONAL INFORMATION

Mental health case conference team members

The case conference must be organised by a medical practitioner (GP, OMP or consultant physician in their specialty of paediatrics or psychiatry) and involve at least two other members of the multidisciplinary case conference team providing different kinds of treatment to the patient. Participating providers must be invited to attend by the organising practitioner. The case conferencing team must include one medical practitioner (including a general practitioner, but not a specialist or consultant physician).

The case conference must be arranged in advance, within a time frame that allows for all the participants to attend. The minimum of three care providers for a case conference must be present for the whole of the case conference. All participants must be in communication with each other throughout the conference, either face to face, by telephone or by video link, or a combination of these.

The patient should be given the option to attend the case conference, however may choose not to do so. Family members or carers, as well as other individuals providing support to the patient (such as a close friend, counsellor, teacher or peer worker) can also attend the case conference if the patient has agreed. However, these individuals do not count towards the minimum number of providers required.

Eligible Allied Health Professionals

Items 80176, 80177 and 80178 can only be provided by a person who is an allied health professional in relation to the provision of psychological therapy health services, focussed psychological strategies or dietetics health services in accordance with Schedule 1 of the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024*.

In some instances, two providers from the same profession may both participate in the case conference if they each provide different aspects of care to the patient – for example, if the providers have different specialisations which are both clinically relevant to the patient.

Psychological therapy health service

A person is an allied health professional in relation to the provision of a psychological therapy health service if the person:

- (a) holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided; and
- (b) is endorsed by the Psychology Board of Australia to practice in clinical psychology.

Until 31 October 2015, a person is also an allied health professional in relation to the provision of a psychological therapy health service if the person:

- (a) holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided; and
- (b) on 31 October 2014 was an allied health professional in relation to the provision of a psychological therapy health service because the person:
 - (i) was a member of the College of Clinical Psychologists of the Australian Psychological Society; or
 - (ii) had been assessed by the College of Clinical Psychologists of the Australian Psychological Society as meeting the requirements for membership of that College.

Focussed psychological strategies health service

A person is an allied health professional in relation to the provision of a focussed psychological strategies health service if the person meets one of the following requirements:

- (a) the person holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;

(b) the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;

(c) the person:

(i) is an occupational therapist who is registered as a person who may provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and

(ii) is accredited by Occupational Therapy Australia as:

(A) having a minimum of two years experience in mental health; and

(B) having undertaken to observe the standards set out in the document published by Occupational Therapy Australia 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006.

Dietetics health service

A person is an allied health professional in relation to the provision of a dietetics health service if the person is accredited by the Dietitians Association of Australia as an 'Accredited Practising Dietitian'.

Claiming frequency

These case conferencing items can be accessed no more than once every 3 months. However, where there has been a significant change in the patient's clinical condition, another case conference may be arranged earlier than the three months limitation. This would be for exceptional circumstances and the claim must be annotated with this advice to enable Services Australia to properly assess the claim. A change of care providers does not qualify as an exceptional circumstance.

Further information

Further information is also available for providers from the Services Australia provider enquiry line on 132 150.

MN.8.1 Pregnancy Support Counselling - Eligible Patients - (Items 81000 - 81010, 93026 and 93029)

Medicare benefits are available for non-directive pregnancy support counselling services provided to a person who is pregnant or who has been pregnant in the 12 months preceding the first service to which item 81000, 81005, 81010, 93026 and 93029 applies in relation to that pregnancy. Services can be provided either by an eligible GP/medical practitioner or by an eligible psychologist, social worker or mental health nurse on referral from a GP or medical practitioner.

The items may be used to address any pregnancy related issues for which non-directive counselling is appropriate.

MN.8.2 Pregnancy Support Counselling - Eligible Services - (Items 81000, 81005, 81010, 93026 and 93029)

There are 4 in person MBS items for the provision of non-directive pregnancy support counselling services:

- Item 4001 - services provided by an eligible GP;
- Item 792 - services provided by an eligible medical practitioner;
- Item 81000 - services provided by an eligible psychologist;
- Item 81005 - services provided by an eligible social worker; and
- Item 81010 - services provided by an eligible mental health nurse.

There are 6 telehealth MBS items for the provision of non-directive pregnancy support counselling services:

- Item 92136 - services provided by an eligible GP by telehealth via videoconference

- Item 92138 - services provided by an eligible GP by telephone
- Item 92137 - services provided by an eligible medical practitioner by telehealth via videoconference
- Item 92139 - services provided by an eligible medical practitioner by telephone
- Item 93026 - services provided by an eligible psychologist, social worker or mental health nurse by telehealth via videoconference
- Item 93029 - services provided by an eligible psychologist, social worker or mental health nurse by telephone

These notes relate to items 81000, 81005, 81010, 93026 and 93029. Each individual allied health professional must meet the provider eligibility requirements set out below and be registered with Services Australia.

Service length and type

Non-directive pregnancy support counselling services provided by eligible psychologists, social workers and mental health nurses using items 81000, 81005, 81010, 93026 and 93029 must be of at least 30 minutes duration and provided to an individual patient. For items 81000, 81005 and 81010, the allied health professional must personally attend the patient.

The service involves the psychologist, social worker or mental health nurse undertaking a safe, confidential process that helps the patient explore concerns they have about a current pregnancy or a pregnancy that occurred in the preceding 12 months. This includes providing, on request, unbiased, evidence-based information about all options and services available to the patient.

Non-directive counselling is a form of counselling that is based on the understanding that, in many situations, people can resolve their own problems without being provided with a solution by the counsellor. The counsellor's role is to encourage the person to express their feelings but not suggest what decision the person should make. By listening and reflecting back what the person reveals to them, the counsellor helps them explore and understand their feelings. With this understanding, the person is able to make the decision that is best for them.

Number of services per year

Medicare benefits are available for a maximum of 3 services (including services to which items 81000, 81005, 81010, item 4001 in the general medical services table, item 792 in the *Health Insurance (Section 3C General Medical Services – Other Medical Practitioner) Determination 2018*, or items 92136, 92138, 93026, 93029, 92137 or 92139 in the COVID-19 Determination apply) for each pregnancy.

Where the patient is unsure of the number of Medicare rebated non-directive pregnancy support counselling services they have already accessed, the patient may check with Services Australia on 132 011. Alternatively, the psychologist, social worker or mental health nurse may check with Services Australia.

Partners of eligible patients may attend each or any counselling session, however, only one fee applies to each service.

Out-of-pocket expenses and Medicare Safety Net

Charges in excess of the Medicare benefit for these items are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare safety net for that patient. Non-directive pregnancy support counselling services in excess of 3 per pregnancy will not attract a Medicare benefit and the safety net arrangements will not apply to costs incurred by the patient for such services.

Publicly funded services

Items 81000, 81005, 81010, 93026 and 93029 do not apply for services that are provided by any other Commonwealth or State funded services or provided to an admitted patient of a hospital.

However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory clinic, these items can be claimed for services

provided by an eligible psychologist, social worker or mental health nurse salaried by or contracted to the service, where all requirements of the relevant item are met, including registration with Services Australia. These services must be bulk billed (that is, the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance general treatment cover (also known as ancillary or extras cover) cover to pay for these services. Patients cannot use their general treatment cover to 'top up' the Medicare rebate paid for the services.

MN.8.3 Pregnancy Support Counselling - Referral Requirements (Items 81000, 81005, 81010, 93026 and 93029)

Patients must be referred for non-directive pregnancy support counselling services by a GP or medical practitioner. GPs/medical practitioners are not required to use a specific form to refer patients for these services. The referral may be a letter or note to an eligible allied health professional signed and dated by the referring GP/medical practitioner.

Patients may be referred by a GP or medical practitioner to more than one eligible allied health professional for eligible non-directive pregnancy support counselling services (for example, where a patient does not wish to continue receiving services from the provider they were referred to in the first instance).

The relevant allied health professional must be in receipt of the referral at the first non-directive pregnancy support counselling service and must retain the referral for 2 years from the date the service was rendered, for Services Australia auditing purposes.

A copy of the referral is not required to accompany Medicare claims. However, referral details are required to be included on patients' itemised accounts/receipts or Medicare assignment of benefit forms.

Referral validity

The referral is valid for up to 3 non-directive pregnancy support counselling services, per patient, per pregnancy.

Subsequent Referrals

A new referral is required where the patient seeks to access non-directive pregnancy support counselling in relation to a different pregnancy or where the patient wishes to be referred to a different allied health professional than the one they were referred to in the first instance.

MN.8.4 Pregnancy Support Counselling - Allied Health Professional Eligibility (Items 81000, 81005, 81010, 93026 and 93029)

Eligible allied health professionals

Items 81000, 81005, 81010, 93026 and 93029 can only be claimed for services provided by psychologists, social workers and mental health nurses who meet the following specific eligibility requirements, and are registered with Services Australia.

To be eligible to provide services using MBS items 81000, 93026 and 93029, a psychologist must hold general registration in the health profession of psychology under the applicable law in force in the state or territory in which the service is provided and be certified by the Australian Psychological Society as appropriately trained in non-directive pregnancy counselling.

To be eligible to provide services using MBS items 81005, 93026 and 93029, a social worker must be a 'Member' of the Australian Association of Social Workers (AASW), be certified by AASW either as meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014 and certified by AASW as appropriately trained in non-directive pregnancy counselling.

To be eligible to provide services using MBS items 81010, 93026 and 93029, a mental health nurse must be a 'Credentialled Mental Health Nurse' as certified by the Australian College of Mental Health Nurses, and be appropriately trained in non-directive pregnancy counselling.

For this health service, a person is appropriately trained in non-directive pregnancy counselling if the person has undergone training based on the key criteria contained in the document published by the Department titled 'Key criteria for non-directive pregnancy counselling training provided to GPs and allied health professionals in relation to the Medicare non-directive pregnancy support counselling items', as in force on 1 November 2006.

Registering with Services Australia

Advice about registering with Services Australia to provide non-directive pregnancy support counselling services using items 81000 – 81010, 93026 and 93029 is available from Services Australia provider inquiry line on 132 150.

Further information

Additional information can be found on the [Department of Health and Aged Care](#) and [Services Australia website](#) by searching 'allied health'.

Further information is also available for providers from the Services Australia provider inquiry line on 132 150.

MN.9.1 Group Allied Health Services (Items 81100, 81105, 81110, 81115, 81120 and 81125) for People with Type 2 Diabetes - Eligible Patients

MBS items (81100, 81105, 81110, 81115, 81120 and 81125) are available for group allied health services for patients with type 2 diabetes. These items apply to services provided by eligible diabetes educators, exercise physiologists and dietitians, on referral from a GP or medical practitioner.

Services available under these items are in addition to the 5 individual allied health services available to patients each calendar year (refer to items 10950, 10951, 10952, 10953, 10954, 10956, 10958, 10960, 10962, 10964, 10966, 10968, 10970, 93000 and 93013).

To be eligible for these services, the patient must have in place one of the following:

- a GP Management Plan (GPMP) (GP item 721 or medical practitioner item 229); OR
- for a resident of a residential aged care facility, the GP or medical practitioner must have contributed to a multidisciplinary care plan, or contributed to a review of a multidisciplinary care plan prepared for them by the facility (GP item 731 or medical practitioner item 232). [Note: Generally, residents of an aged care facility rely on the facility for assistance to manage their type 2 diabetes. Therefore, the resident may not need to be referred for group allied health services under these items, as the self-management approach offered in group services may not be appropriate.]

Unlike the individual allied health services, there is no additional requirement for a Team Care Arrangement (GP item 723 or medical practitioner item 230) in order for the patient to be referred for group allied health services.

Once the patient has been referred by their GP or medical practitioner, a diabetes educator, exercise physiologist or dietitian will conduct an individual assessment (under items 81100, 81110, 81120, 93284 or 93286). A maximum of one assessment service is available per calendar year. After assessment, the patient may receive up to 8 group services per calendar year from an eligible diabetes educator, exercise physiologist and/or dietitian (under items 81105, 81115, 81125 or 93285). A collaborative approach, where diabetes educators, exercise physiologists and dietitians work together to develop group service programs in their local area, is encouraged.

MN.9.2 Group Allied Health Services (Items 81100, 81110, 81120, 93284 and 93286) for People with Type 2 Diabetes - GP Referral Requirements

Patients must be referred by their GP or medical practitioner to an eligible allied health professional (diabetes educator, exercise physiologist or dietitian) who will undertake an individual assessment (under item 81100, 81110, 81120, 93284 or 93286) of the patient's suitability for a group services program.

MN.9.3 Group Allied Health Services (Items 81100, 81105, 81110, 81115, 81120, 81125, 93284, 93285 and 93286) for People with Type 2 Diabetes - Eligible Allied Health Professionals

Items 81100, 81105, 81110, 81115, 81120, 81125, 93284, 93285 and 93286 only apply to services provided by eligible diabetes educators, exercise physiologists and dietitians who are registered with Services Australia. If providers are already registered with Services Australia to use items 10951, 10953, 10954, they do not need to register separately for these items. Eligibility criteria are as follows:

Diabetes educator: must be a 'credentialed diabetes educator' as credentialed by the Australian Diabetes Educators Association.

Exercise physiologist: must be an 'accredited exercise physiologist' as accredited by Exercise and Sports Science Australia.

Dietitian: must be an 'accredited practising dietitian' as recognised by the Dietitians Association of Australia.

Services Australia registration forms may be obtained from Services Australia on 132 150 or on the [Services Australia website](#).

MN.9.4 Assessment for Group Allied Health Services (Items 81100, 81110, 81120, 93284 and 93286) for People with Type 2 Diabetes

An assessment service is provided by a diabetes educator (item 81100), an exercise physiologist (item 81110) or a dietitian (items 81120, 93284 and 93286), on referral from a GP or medical practitioner.

The purpose of this service is to undertake an individual assessment and determine the patient's suitability for a group services program. It involves taking a comprehensive patient history and identification of individual goals. This may also provide an opportunity to identify any patient who is likely to be unsuitable for group services.

Number of services per year

Patients are eligible for a maximum of one assessment for group services (either item 81100, 81110, 81120, 93284 or 93286) per calendar year. If more than one assessment service is provided in a calendar year, the subsequent service/s will not attract a Medicare rebate and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for these items, the allied health professional should contact Services Australia to confirm the number of assessment services already claimed by the patient in the calendar year. Allied health professionals can call Services Australia on 132 150 to check this information.

Referral form

The GP or medical practitioner must refer the patient using the *Referral form for group allied health services* under Medicare for patients with type 2 diabetes or a form that contains all the components of this form. This includes:

- identifying that the patient has type 2 diabetes and either:
 - has prepared a new GP Management Plan (MBS item 721) OR
 - has reviewed an existing GP Management Plan (MBS item 732) OR
 - for a resident of an aged care facility, the GP or medical practitioner has contributed to or reviewed a multidisciplinary care plan prepared by the facility (MBS item 731) [Note: Generally, residents of an aged care facility rely on the facility for assistance to manage their type 2 diabetes. Therefore, residents may not need to be referred for allied health group services as the self-management approach may not be appropriate.]
- GP or medical practitioner details including provider number, name, address, signature and date of referral
- Patient details including name and address

- Allied Health Practitioner (or practice) the patient is referred to for assessment and the address

The allied health professional undertaking the assessment service will need to complete Part B of this form providing information on:

- Name of provider/s
- Name of program
- Number of sessions in the program
- Venue (if known)
- Name of allied health professional undertaking the assessment

The patient will then need to present this form/information to the provider/s of group services.

Length of service

This service must be of at least 45 minutes duration and provided to an individual patient. For items 81100, 81110 and 81120, the allied health professional must personally attend the patient.

Reporting requirements

On completion of the assessment service, the allied health professional must provide a written report back to the referring GP outlining the assessment undertaken, whether the patient is suitable for group services and, if so, the nature of the group services to be delivered.

MN.9.5 Group Allied Health Services (Items 81105, 81115, 81125 and 93285) for People with Type 2 Diabetes - Service Requirements and Referral Forms

These services are provided in a group setting to assist with the management of type 2 diabetes.

Number of services per year

Patients are eligible for up to 8 group allied health services in total (items 81105, 81115, 81125 and 93285 inclusive) per calendar year. Each separate group service must be provided to the patient by only one type of allied health professional (i.e. by a diabetes educator, or by an exercise physiologist or by a dietitian). However, the overall group services program provided for the patient could be comprised of one type of service only (e.g. 8 diabetes education services) or a combination of services (e.g. 3 diabetes education services, 3 dietitian services and 2 exercise physiology services). An eligible allied health professional with more than one Medicare provider number (e.g. for the provision of diabetes education and dietetics) may provide separate services under each of these provider numbers.

Group allied health service providers are strongly encouraged to deliver multidisciplinary group services programs that allow patients to benefit from a range of interventions designed to assist in the management of their type 2 diabetes.

Where a patient receives more than the limit of 8 group services in a calendar year, the additional service/s will not attract a Medicare benefit and the MBS Safety Net arrangements will not apply to costs incurred by the patient for the service/s.

If there is any doubt about a patient's eligibility for group services, the allied health professional should contact Services Australia to confirm the number of group services already claimed by the patient in the calendar year. Allied health professionals can call Services Australia on 132 150 to check this information.

Multiple services on the same day

Where clinically relevant, up to 2 group services may be provided consecutively on the same day by the same allied health professional.

Referral form

The GP or medical practitioner must refer the patient using the referral form for group allied health services under Medicare for patients with type 2 diabetes or a form that contains all the components of this form. This includes:

- identifying that the patient has type 2 diabetes and either: has prepared a new GP Management Plan (MBS item 721/229) OR
- has reviewed an existing GP Management Plan (MBS item 732/233) OR
- for a resident of an aged care facility, the GP or medical practitioner has contributed to or reviewed a multidisciplinary care plan prepared by the facility (MBS item 731/232) [Note: Generally, residents of an aged care facility rely on the facility for assistance to manage their type 2 diabetes. Therefore, residents may not need to be referred for allied health group services as the self-management approach may not be appropriate.]
- GP or medical practitioner details including provider number, name, address, signature and date of referral
- Patient details including name and address
- Allied Health Practitioner (or practice) the patient is referred to for assessment and the address

The allied health professional undertaking the assessment service will need to complete Part B of this form providing information on:

- Name of provider/s
- Name of program
- Number of sessions in the program
- Venue (if known)
- Name of allied health professional undertaking the assessment
- The patient will then need to present this form/information to the provider/s of group services

Group size

The service must be provided to a person who is part of a group of between 2 and 12 persons.

Length of service

Each group service must be of at least 60 minutes duration.

Reporting requirements

On completion of the group services program, each allied health professional must provide, or contribute to, a written report back to the referring GP/medical practitioner in respect of each patient. The report should describe the group services provided for the patient and indicate the outcomes achieved. While each allied health professional is required to provide feedback to the GP/medical practitioner in relation to the group services they provide to the patient, allied health professionals involved in the provision of a multidisciplinary program are encouraged to combine feedback into a single report to the referring GP/medical practitioner.

MN.9.6 Group Allied Health Services (Items 81100, 81105, 81110, 81115, 81120, 81125, 93284, 93285 and 93286) for People with Type 2 Diabetes - Additional Requirements Retention of Referral Form for Services Australia Audit Purposes

It is recommended that Allied health professionals retain a copy of the referral form for 2 years from the date the service was rendered (for Services Australia auditing purposes).

Publicly funded services

Items 81100, 81105, 81110, 81115, 81120, 81125, 93284, 93285 and 93286 do not apply for services that are provided by any other Commonwealth or state-funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an

Aboriginal Community Controlled Health Service or a state/territory government health clinic, these items can be claimed for services provided by eligible allied health professionals salaried by, or contracted to, service or health clinic. All requirements of the relevant item must be met, including registration of the allied health professional with Services Australia. These services must also be bulk billed.

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance general treatment cover (also known as ancillary or extras cover) to pay for these services. Patients cannot use their private health insurance general cover to 'top up' the Medicare rebate paid.

Out-of-pocket expenses and Medicare Safety Net

Allied health professionals are free to determine their own fees for the professional service. Charges in excess of the Medicare benefit for the allied health items are the responsibility of the patient. However, such out-of-pocket costs will count toward the Medicare Safety Net for that patient.

MN.10.1 Assessment to assist with Diagnostic Formulation and Contribution to a Treatment and Management Plan by Eligible Allied Health Practitioner(s) for Complex Neurodevelopmental Disorder (such as Autism Spectrum Disorder) or Eligible Disability Services

These allied health items provide rebates for:

- the assessment of patients for the purpose of assisting the referring eligible medical practitioner with the diagnosis (including a differential diagnosis) of a complex Neurodevelopmental Disorder (such as Autism Spectrum Disorder) or an eligible disability; or
- to contribute to a treatment and management plan that is being developed by the referring eligible medical practitioner.

The list of eligible disabilities can be found at MN.10.3.

Number of services

- A maximum of 8 services can be claimed per patient per lifetime, including services consisting of any combination of 82000, 82005, 82010, 82030, 93032, 93033, 93040 or 93041.
- A course of assessment means up to 4 services.
- Up to 4 of these services may be provided to the same patient on the same day.
- Where a patient requires more than 4 services from the same eligible allied health provider, review and agreement is required by the referring medical practitioner before further Medicare eligible services can be claimed.

Provision of assessment services and need for review and agreement by the referring eligible medical practitioner

- An eligible allied health practitioner can provide up to 4 assessment services without the need for review and agreement by the referring eligible medical practitioner.
- If an eligible allied health professional has provided 4 assessment services to a patient and proposes to provide more assessment services to that patient, review and agreement from the referring eligible medical practitioner must be obtained prior.
- The referring eligible medical practitioner may specify the type of review that should be undertaken as part of the original referral. If it is not specified, an acceptable means of review includes: a case conference, phone call, written correspondence, secure online messaging exchange, or attendance with the referring eligible medical practitioner.
- The review and agreement by the referring eligible medical practitioner should be recorded by the eligible allied health practitioner in the patient notes.

Referral requirements

For an MBS rebate to be claimed for these services, a valid referral from an eligible medical practitioner (or subsequent interdisciplinary referral) is required. The eligible medical practitioner referral is only valid if the referring eligible medical practitioner used any of the following MBS items* for the suspected diagnosis of:

- **complex Neurodevelopmental Disorders** referred by a:
 - **consultant psychiatrist** using items 296 to 308, 310, 312, 314, 316, 318 or 319 to 352 of the general medical services table or items 91827, 91828, 91829, 91830, 91831, 91837, 91838, 91839, 92437, 92455, 92456, 92457, 92458, 92459 or 92460 of the COVID 19 Determination.
 - **consultant paediatrician** using items 110 to 131 of the general medical services table or items 91824, 91825, 91826 or 91836 of the COVID 19 Determination.
- **eligible disability** referred by a:
 - **specialist or consultant physician** using items 104 to 131, 296 to 308, 310, 312, 314, 316, 318 or 319 to 352 of the general medical services table or items 91822 to 91839, 92437, 92455, 92456, 92457, 92458, 92459 or 92460 of the COVID 19 Determination.
 - **GP** using items 3 to 47 of the general medical services table or item 91790, 91800, 91801, 91802, 91890, 91891 or 91894 of the COVID 19 Determination.

* Note that more information on the telehealth items that can be claimed for these services can be found in [Note AN.40.1](#).

A separate referral from the eligible medical practitioner is required for each eligible allied health practitioner providing the service. The referral may be a letter, departmental form or note to an eligible allied health practitioner, signed and dated by the referring eligible medical practitioner. A Medicare claim must be submitted for the referring MBS service before a rebate for the subsequent referred allied health service can be paid.

Allied health practitioners should retain referrals for 24 months from the date the service was rendered for Medicare auditing purposes.

Interdisciplinary referrals

If an eligible allied health practitioner seeks to make an interdisciplinary referral of the patient to another eligible allied health professional, this must be undertaken in consultation and agreement with, but without the need for a physical attendance by, the original referring eligible medical practitioner (such as but not limited to, a phone call, written correspondence or secure online messaging exchange). This consultation and agreement should be documented in the patient notes by the eligible allied health practitioner and included in the interdisciplinary referral. The referral may be a letter or note to an eligible allied health practitioner, signed and dated by the referring eligible allied health practitioner. There is no specific form to refer patients for these services. The referral should include a copy of the original referral by the eligible medical practitioner.

Interdisciplinary referrals will only be valid where the referring eligible medical practitioner's referral (whose original referral initiated the assessment and assisting with a diagnosis service/contribution to a treatment and management plan) remains valid.

Reporting requirements for assessment services

After completion of the final assessment service by an eligible allied health practitioner, a written report must be provided to the referring eligible medical practitioner that outlines the assessment findings. Preparation of the report is not counted towards the service time under the item.

The written report must include information on:

- the assessment/s provided;

- the results of the assessment/s that may assist with diagnostic formulation or development of a treatment and management plan by the referring eligible medical practitioner; and
- if applicable, advice on further assessments that could be undertaken by other eligible allied health practitioners to assist with the referring medical practitioners' diagnostic formulation or development of a treatment and management plan by the referring eligible medical practitioner.

MN.10.2 Treatment Services by Eligible Allied Health Practitioners for Complex Neurodevelopmental Disorders (such as Autism Spectrum Disorder) and Eligible Disability Services

These allied health items are available for patients that have been diagnosed with a complex Neurodevelopmental Disorder (such as Autism Spectrum Disorder) or an eligible disability. It is expected that eligible allied health practitioners will deliver treatment under these items that is consistent with the complex Neurodevelopmental Disorder or eligible disability treatment and management plan prepared by the referring eligible medical practitioner and is in keeping with commonly established interventions as practised by their profession and appropriate for the age and particular needs of the patient being treated.

It is anticipated that professional attendances at places other than consulting rooms will be provided where treatment in other environments is necessary to achieve therapeutic outcomes.

Number of services

- A maximum of 20 services can be claimed per patient per lifetime, including services consisting of any combination of 82015, 82020, 82025, 82035, 93035, 93036, 93043 or 93044.
- A course of treatment means up to 10 treatment services.
- Up to 4 of these services may be provided to the same patient on the same day.
- It is the responsibility of the referring eligible medical practitioner to allocate these services in keeping with the patient's individual treatment needs and to refer the patient to the appropriate allied health professional(s) accordingly.

Referral Requirements

For a Medicare rebate to be paid, the eligible allied health practitioner providing the service must be in receipt of a current referral provided by an eligible medical practitioner. A separate referral from an eligible medical practitioner is required for each eligible allied health practitioner. The referral is only valid if the referring provider uses any of the following MBS items*:

- For a **complex Neurodevelopmental Disorder** referred by a:
 - **consultant psychiatrist** using item 289 of the general medical services table or item 92434 of the COVID 19 Determination.

Note. If a patient has previously been provided with a service mentioned in item 289, a consultant physician specialising in the practice of the consultant physician's field of psychiatry may only refer the patient for a service to which any of items 296 to 308, 310, 312, 314, 316, 318 or 319 to 352 of the general medical services table or items 91827, 91828, 91829, 91830, 91831, 91837, 91838, 91839, 92437, 92455, 92456, 92457, 92458, 92459 or 92460 of the COVID 19 Determination applies.

- **paediatrician** using item 135 of the general medical services table or item 92140 of the COVID 19 Determination.

Note. If a patient has previously been provided with a service mentioned in item 135 of the general medical services table or item 92140 of the COVID 19 Determination, a consultant physician specialising in the practice of the consultant physician's field of paediatrics may only refer the patient for a service to which any of items 110 to 131 of the general medical services table or items 91824, 91825, 91826 or 91836 of the COVID 19 Determination applies.

If a patient has previously been provided with a service mentioned in item 137 or 139 of the general medical services table or item 92141 or 92142 of the COVID 19 Determination, the medical practitioner cannot refer the patient for a service to which item 135 or 289 of the general medical services table or item 92140 or 92434 of the COVID 19 Determination applies.

- For an **eligible disability** referred by a:

- **specialist or consultant physician** using item 137 of the general medical services table or item 92141 of the COVID 19 Determination.

- **GP** using item 139 of the general medical services table or item 92142 of the COVID 19 Determination.

Note. If a patient has previously been provided with a service mentioned in item 135 or 289 of the general medical services table or item 92140 or 92434 of the COVID 19 Determination, the medical practitioner cannot refer the patient for a service to which item 137 or 139 of the general medical services table or item 92141 or 92142 of the COVID 19 Determination applies.

* Note that more information on the telehealth items that can be claimed for these services can be found in Note [AN.40.1](#).

The referral may be a letter or note to an eligible allied health practitioner, signed and dated by the referring eligible medical practitioner. Referring eligible medical practitioners are not required to use a specific form to refer patients for these services. A Medicare claim must be submitted for the referring service before a rebate for the subsequent referred allied health service can be paid.

The referred service consists of the number of allied health services stated on the patient's referral. This enables the referring practitioner to consider a report from the allied health practitioners about the services provided to the patient, and the need for further treatment.

Within the maximum service allocation of 20 services for the treatment items, the eligible allied health practitioner/s can provide one or more courses of treatment. A new referral is required for each new course of treatment (up to 10 services). The amount of services in each course of treatment is determined by the referring eligible medical practitioner. The referring eligible medical practitioner should review the written report provided by the eligible allied health practitioner after completion of a course of treatment and prior to referring for a subsequent course of treatment.

Eligible allied health practitioners should retain the referral for 24 months from the date the service was rendered for Medicare auditing purposes.

Reporting requirements

On completion of a course of treatment (and any subsequent courses of treatment), the eligible allied health practitioner must provide a written report to the referring eligible medical practitioner which includes information on:

- treatment provided;
- recommendations on future management of the patient's disorder or disability; and
- if applicable, any advice provided to third parties (for example: parents, schools, places of employment).

The writing of the report is not counted towards the service time under the item.

MN.10.3 Eligibility for Allied Health Assessment and Treatment Services for Complex Neurodevelopmental Disorder (such as Autism Spectrum Disorder) and Eligible Disability Services

Eligible patients

These items provide Medicare rebates for allied health services provided to patients under 25 years old with a suspected or diagnosed complex Neurodevelopmental Disorder (such as Autism Spectrum Disorder) or one or more of the eligible disabilities.

Eligible Disabilities

'Eligible disabilities' for the purpose of these services means any of the following conditions:

- (a) Sight impairment that results in vision of less than or equal to 6/18 vision or equivalent field loss in the better eye, with correction.
- (b) Hearing impairment that results in:
 - a hearing loss of 40 decibels or greater in the better ear, across 4 frequencies; or
 - permanent conductive hearing loss and auditory neuropathy
- (c) Deafblindness
- (d) Cerebral palsy
- (e) Down syndrome
- (f) Fragile X syndrome
- (g) Prader-Willi syndrome
- (h) Williams syndrome
- (i) Angelman syndrome
- (j) Kabuki syndrome
- (k) Smith-Magenis syndrome
- (l) CHARGE syndrome
- (m) Cri du Chat syndrome
- (n) Cornelia de Lange syndrome
- (o) Microcephaly if a child has:
 - a head circumference less than the third percentile for age and sex; and
 - a functional level at or below 2 standard deviations below the mean for age on a standard developmental test, or an IQ score of less than 70 on a standardised test of intelligence*
- (p) Rett's disorder
- (q) Fetal Alcohol Spectrum Disorder (FASD)
- (r) Lesch-Nyhan syndrome
- (s) 22q deletion Syndrome

*"standard developmental test" refers to tests such as the Bayley Scales of Infant Development or the Griffiths Mental Development Scales; "standardised test of intelligence" means the Wechsler Intelligence Scale for Children (WISC) or the Wechsler Preschool and Primary Scale of Intelligence (WPPSI). It is up to the clinical judgement of the practitioner to determine which tests are appropriate to be used.

Eligible allied health practitioners

The allied health assessment and treatment services can be provided by eligible audiologists, occupational therapists, optometrists, orthoptists, physiotherapists, psychologists and speech pathologists.

To provide services under these items eligible allied health practitioners must meet the eligibility requirements as set out in the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024*.

It is expected that eligible providers will 'self-select' for the complex Neurodevelopmental Disorder and eligible disability items (i.e. possess the skills and experience appropriate for provision of these services and be oriented to work with patients with complex Neurodevelopmental Disorders or eligible disabilities).

MN.10.4 Complex Neurodevelopmental Disorder and Disability Services - Allied Health Case Conferencing Items (82001, 82002 and 82003)

These allied health items provide MBS benefits for eligible allied health professionals to participate in a multidisciplinary case conference team in a community case conference with a patient's medical practitioner and other providers.

A multidisciplinary case conference means a process by which a multidisciplinary case conference team carries out all of the following activities:

- discussing a patient's history;
- identifying the patient's multidisciplinary care needs;
- identifying outcomes to be achieved by members of the multidisciplinary case conference team giving care and service to the patient;
- identifying tasks that need to be undertaken to achieve these outcomes, and allocating those tasks to members of the multidisciplinary case conference team;
- assessing whether previously identified outcomes (if any) have been achieved.

These items apply to non-hospital admitted patients who are under 25 years old and have either been diagnosed with, or are suspected of having:

- a complex neurodevelopmental disorder (such as autism spectrum disorder); or
- an eligible disability.

Eligible allied health professionals may claim reimbursement for participating in case conferences through three time-tiered items:

- 15–19 minutes (82001)
- 20–39 minutes (82002)
- over 40 minutes (82003)

There are no frequency restrictions for case conferencing items for patients with or suspected of having a complex neurodevelopmental disorder or an eligible disability.

Eligible allied health professionals

For the purposes of these items, eligible allied health professional means:

- an eligible Aboriginal health worker;
- an eligible Aboriginal and Torres Strait Islander health practitioner;
- an eligible psychologist;
- an eligible speech pathologist;
- an eligible occupational therapist;
- an eligible audiologist;
- an eligible optometrist;

- an eligible mental health nurse;
- an eligible mental health worker;
- an eligible orthoptist; or
- an eligible physiotherapist.

Eligible health professionals must meet the eligibility requirements as set out in the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024*.

Eligible patients

These items apply to non-hospital admitted patients who are under 25 years old and have either been diagnosed with, or are suspected of having:

- a complex neurodevelopmental disorder; or
- an eligible disability.

Organisation of a case conference

The case conference must be organised by the medical practitioner. The multidisciplinary case conference team must include a medical practitioner and at least 2 other members providing different kinds of care to the patient. The multidisciplinary case conference team requirements include:

- each member must provide a different kind of care or service to the patient; and
- each member must not be an unpaid carer of the patient; and
- one member may be another medical practitioner.

The patient and family members or carers can attend the case conference but will not count towards the minimum team member requirements.

The eligible allied health professional does not need all participants to be MBS-eligible to be able to claim payment for their participation. Members can include allied health professionals, home and community service providers and care organisers, including the following:

- Aboriginal and Torres Strait Islander health practitioners
- asthma educators
- audiologists
- dental therapists
- dentists
- diabetes educators
- dieticians
- mental health workers
- occupational therapists
- optometrists
- orthoptists
- orthotists or prosthetists
- pharmacists
- physiotherapists
- podiatrists
- psychologists
- registered nurses
- social workers
- speech pathologists
- education providers
- “meals on wheels” providers
- personal care workers

- probation officers

In some instances, 2 eligible allied health professionals from the same profession may participate in the same case conference, where both provide different aspects of care to the patient. For example, the 2 providers from the same profession have different specialisations that are clinically relevant to the same patient and cannot be provided by one of the providers alone. In this instance, both providers will be able to claim the new items.

Participation in a case conference

A referral is not required for eligible allied health professionals to access the allied health case conferencing items for complex neurodevelopmental disorder and disability services. However, the allied health professional must be invited to participate in the case conference by the patient's treating medical practitioner.

The patient must agree to the allied health professional participating in the case conference and be informed that Medicare will be accessed to fund the service. The patient may agree through discussion with their medical practitioner. The allied health professional should ensure that the patient has agreed and that their agreement has been recorded appropriately.

Allied health professionals claiming a case conferencing item should record the day, start and end times, the names of all participants and all matters discussed in the patient's medical record.

The allied health professional is not required to have a pre-existing relationship with the patient. However, the patient must agree to the allied health professional participating in the case conference and be informed that Medicare will be accessed to fund the service.

The case conference may lead to an agreed care plan between all participating providers, including the number of allied health professional services required and how they are allocated among eligible allied health professionals within a patient's entitlement.

The case conferencing items can be accessed in person, via videoconference or telephone, using the same item number. There is no requirement that all participants use the same communication method.

MN.11.1 Individual Allied Health Services for people of Aboriginal or Torres Strait Islander descent following a health assessment or a Chronic Disease Management plan (items 81300 to 81360, 93048 and 93061)

Eligible Patients

A patient who is of Aboriginal or Torres Strait Islander descent may be referred for individual allied health services under items 81300 to 81360, 93048 and 93061 (MBS Group M11 and equivalent telehealth services) when the GP or prescribed medical practitioner:

- has undertaken a health assessment and identified a need for follow-up allied health services; or
- is managing the patient's complex care needs under a GP Management Plan and Team Care Arrangements or, if the patient is a resident of a residential aged care facility, the patient's GP/prescribed medical practitioner has contributed to a multidisciplinary care plan.

A prescribed medical practitioner is a medical practitioner other than a GP, specialist, or consultant physician.

Number of Services Per Calendar Year

Medicare benefits are available for up to 10 individual allied health services per eligible patient, per calendar year. The 10 services can be made up of one type of service (e.g. 10 physiotherapy services) or a combination of different types of services (e.g. one dietetic service, 2 podiatry services, 2 Aboriginal and Torres Strait Islander health practitioner services, and 5 physiotherapy services).

The annual total limit of 10 individual allied health services per patient can include a combination of the following items:

- up to 5 services under a GP Management Plan and Team Care Arrangement (10950, 10951, 10952, 10953, 10954, 10956, 10958, 10960, 10962, 10964, 10966, 10968, 10970, 93000 and 93013 - MBS Group M3 and equivalent telehealth services) using a referral form for Chronic Disease Management (see [MN 3.1](#)).
- up to 10 services under MBS Group M11 and equivalent telehealth services (81300 to 81360, 93048 and 93061).

Referral Requirements

A referral is required for patients of Aboriginal or Torres Strait Islander descent to access up to 10 individual allied health services following a health assessment, or where the patient is being managed under a GP Management Plan and Team Care Arrangements or a multidisciplinary care plan.

Referral form

For Medicare benefits to be payable, the patient must be referred to an eligible allied health professional by their GP or prescribed medical practitioner using a referral form that has been issued by the Australian Government Department of Health and Aged Care or a form that contains all the components of this form.

The form issued by the department is available on the Department of Health and Aged Care website. This referral form is to be used for a referral to health service/s under M11 (or equivalent telehealth service). GPs and prescribed medical practitioners are encouraged to attach relevant information to the referral form.

GPs and prescribed medical practitioners may use one referral form to refer patients for single or multiple services of the same service type (e.g. 10 dietetic services). If referring a patient for single or multiple services of different service types (e.g. 2 dietetic services and 8 podiatry services), a separate referral form will be needed for each service type.

Providers should retain referrals for their services for 24 months from the date the service was rendered for Medicare auditing purposes.

Referral validity

If a patient has not used all their services under a referral in a calendar year, it is not necessary to obtain a new referral for the 'unused' services. The 'unused' services will roll over into the following calendar year and will count towards the total of 10 services for which the patient is eligible in that calendar year.

When patients have used all their eligible referred services, they will need to obtain a new referral from their GP/prescribed medical practitioner (noting that a new referral will not enable the patient to access more than 10 services in that calendar year).

Eligible Allied Health Professionals

To provide services under these items, allied health professionals must meet the eligibility requirements as set out in the *Health Insurance (Section 3C General Medical Services – Allied Health Services) Determination 2024*.

The following allied health professionals are eligible to provide services under these items:

- Aboriginal and Torres Strait Islander health practitioners (81300)
- Aboriginal health workers (81300)
- audiologists (81310)
- chiropractors (81345)
- diabetes educators (81305)
- dietitians (81320)
- exercise physiologists (81315)
- mental health workers (81325) which include allied health professionals that meet the requirements of a mental health service which include Aboriginal and Torres Strait Islander health practitioners, Aboriginal

and Torres Strait Islander health workers, mental health nurses, occupational therapists, psychologists and social workers

- occupational therapists (81330)
- osteopaths (81350)
- physiotherapists (81335)
- podiatrists (81340)
- psychologists (81355)
- speech pathologists (81360)

The telehealth items for these services can be claimed under 93048 and 93061.

Reporting back to the GP/ Prescribed Medical Practitioner

Where an allied health professional provides a single service to the patient under a referral, they must provide a written report back to the referring GP/ prescribed medical practitioner after that service.

Where an allied health professional provides multiple services to the same patient under a referral, they must provide a written report back to the referring GP/ prescribed medical practitioner after the first and last service, or more often if clinically necessary. Written reports should include:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report/s to the referring practitioner must be kept by the allied health professional who provided the service for 2 years from the date of the service.

MN.12.1 Immunisation services provided by an Aboriginal and Torres Strait Islander health practitioner - (Item 10988)

Item 10988 can only be claimed by a medical practitioner where an immunisation is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10988 can be claimed only once per patient visit, even if more than one vaccine is administered during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to provide immunisations. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the immunisation is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The immunisation must be performed by the Aboriginal and Torres Strait Islander health practitioner in accordance with the current edition of the Australian Immunisation Handbook and the Central Australian Rural Practitioners Association (CARPA) Standard Treatment Manual.

Immunisation means the administration of a registered vaccine to a patient for any purpose other than as part of a mass immunisation of persons.

A registered vaccine means a vaccine that is included on the Australian Register of Therapeutic Goods. This includes all vaccines on the Australian Standard Vaccination Schedule and vaccines covered in the current edition of the Australian Immunisation Handbook. The following substances cannot be claimed under this item: vaccines used experimentally; homeopathic substances; immunotherapy for allergies (eg de-sensitisation preparations); and other substances that are not vaccines. There may also be territory limitations on the administration of some vaccines, such as those for tuberculosis, yellow fever and Q-fever.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by the Northern Territory Department of Health and Community Services are also eligible to claim this item.

Where the medical practitioner provides a professional attendance to the patient (in addition to the immunisation service provided by the Aboriginal and Torres Strait Islander health practitioner), the medical practitioner may also claim for the professional attendance they provide to the patient.

Item 10991 can also be claimed in conjunction with item 10988 provided the conditions of both items are satisfied.

Related Items: 10988

MN.12.2 Wound management services provided by an Aboriginal and Torres Strait Islander health practitioner (item 10989)

Item 10989 can only be claimed by a medical practitioner where wound management (other than normal aftercare) is provided to a patient by an Aboriginal and Torres Strait Islander health practitioner on behalf of the medical practitioner.

Item 10989 can be claimed only once per patient visit, even if more than one wound is treated during the same patient visit.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or 806 retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

The Aboriginal and Torres Strait Islander health practitioner must be appropriately qualified and trained to treat wounds. This includes compliance with any territory requirements.

The medical practitioner under whose supervision the treatment is provided retains responsibility for the health, safety and clinical outcomes of the patient.

Supervision may include distance supervision where the medical practitioner does not have to be physically present at the time that the service is provided by the Aboriginal and Torres Strait Islander health practitioner, but should be able to be contacted for advice if required.

The medical practitioner must conduct an initial assessment of the patient (including under a distance supervision arrangement if the medical practitioner is not physically present) in order to give instruction in relation to the treatment of the wound.

Where an Aboriginal and Torres Strait Islander health practitioner provides ongoing wound management, the medical practitioner is not required to give instruction or see the patient during each subsequent visit.

MN.12.3 Follow up service provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner, on behalf of a Medical Practitioner, for an Indigenous person who has received a health assessment (Item 10987)

Item 10987 may be claimed by a medical practitioner, where a follow up service is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner for an Indigenous person who has received a health check.

All GPs whether vocationally registered or not are eligible to claim this item. District Medical Officers (DMOs) employed by state/territory health Departments are also eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10987 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government Health clinic, item 10987 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioner salaried or contracted to, the Service or Health clinic. All requirements of the item must be met.

Item 10987 will assist Indigenous patients who have received a health check which has identified a need for follow up services which can be provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner between further consultations with the patient's GP.

Item 10987 may be used to provide:

- Examinations/interventions as indicated by the health check;
- Education regarding medication compliance and associated monitoring;
- Checks on clinical progress and service access;
- Education, monitoring and counselling activities and lifestyle advice;
- Taking a medical history; and
- Prevention advice for chronic conditions, and associated follow up.

Item 10987 may be claimed up to a maximum of 10 times per patient per calendar year.

Item 10987 may be accessed by an Indigenous patient who has received the Aboriginal and Torres Strait Islander Peoples Health Assessment (item 715), which is available to:

- a) children between the ages of 0 and 14 years;
- b) adults between the ages of 15 and 54 years; and
- c) older people over the age of 55 years.

The item can also be accessed by a child who has received a health check as part of the Northern Territory Emergency Response (NTER).

Patients whose condition is unstable/deteriorating should be referred to their GP for further treatment.

A practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a general practice or by a health service that has an exemption to claim Medicare benefits under sub-section 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP under whose supervision the health check follow-up is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP must be satisfied that the practice nurse or Aboriginal and Torres Strait Islander health practitioner is appropriately qualified and trained to provide the relevant follow up for the patient. GPs are advised to consult their insurer concerning indemnity coverage for services provided on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioners provide follow up for Indigenous people who have received a health check, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and an Aboriginal and Torres Strait Islander health practitioners providing follow up services for Indigenous people who have received a health check.

Supervision of the practice nurse/Aboriginal and Torres Strait Islander health practitioner by the GP at a distance is recognised as an acceptable form of supervision. This means that the claiming GP does not have to be physically present at the time the service is provided. However the GP should be able to be contacted if required.

Where the GP and practice nurse/Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP is not required to be present while the health check follow up is undertaken. It is up to the GP to decide whether they need to see the patient. Where the GP has a consultation with the patient, then the GP is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10987 and should not be counted as part of the Medicare items claimed for time spent with the GP. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation, cervical screening) on the same day, the GP is able to claim for all practice nurse/Aboriginal and Torres Strait Islander health practitioner services provided.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10987 provided the conditions of item 10990 or 10991 are satisfied.

MN.12.4 Provision of monitoring and support for a person with a chronic disease by a practice nurse or Aboriginal and Torres Strait Islander health practitioner (item 10997)

Item 10997 may be claimed by a medical practitioner, where a monitoring and support service for a person with a chronic disease care plan is provided by a practice nurse or Aboriginal and Torres Strait Islander health practitioner on behalf of that medical practitioner.

All GPs whether vocationally registered or not are eligible to claim this item. The term 'GP' is used in these notes as a generic reference to medical practitioners able to claim this item.

Item 10997 does not apply for services that are provided by any other Commonwealth or State funded services. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or State/Territory Government health clinic, item 10997 can be claimed for services provided by practice nurses or Aboriginal and Torres Strait Islander health practitioners salaried by or contracted to, the Service or health clinic. All requirements of the item must be met.

Item 10997 will assist patients who require access to ongoing care, routine treatment and ongoing monitoring and support between the more structured reviews of the care plan by the patient's usual GP.

Item 10997 may be used to provide:

- checks on clinical progress;
- monitoring medication compliance;
- self management advice, and;
- collection of information to support GP/medical practitioner reviews of Care Plans.

The services provided by the practice nurse or Aboriginal and Torres Strait Islander health practitioner should be consistent with the scope of the GP Management Plan, Team Care Arrangements, or Multidisciplinary Care Plan.

Item 10997 may be claimed up to a maximum of 5 times per patient per calendar year.

Item 10997 may only be accessed by a patient with a GP Management Plan, Team Care Arrangements or Multidisciplinary Care Plan (GP items 721, 723, 729, 731, 732 or medical practitioner items 229, 230, 231, 232, 233).

Patients whose condition is unstable/deteriorating should be referred to their GP or medical practitioner for further treatment.

A practice nurse means a registered or enrolled nurse or Nurse Practitioner who is employed by, or whose services are otherwise retained by a general practice.

An Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

In all cases, the GP or medical practitioner under whose supervision the chronic disease monitoring and support is being provided retains responsibility for the health, safety and clinical outcomes of the patient. The GP or medical practitioner must be satisfied that the practice nurse is appropriately qualified and trained to provide chronic disease support and monitoring. GPs and medical practitioners are advised to consult their insurer concerning indemnity coverage for services performed on their behalf.

General practices where nurses or Aboriginal and Torres Strait Islander health practitioner provide chronic disease support and monitoring, should also have a written clinical risk management strategy covering issues like clinical roles, patient follow up and patient consent.

Continuing professional development is recommended for all nurses and Aboriginal and Torres Strait Islander health practitioners providing chronic disease monitoring and support.

Supervision by the GP or medical practitioner at a distance is recognised as an acceptable form of supervision. This means that the claiming GP or medical practitioner does not have to be physically present at the time the service is provided. However, the GP/medical practitioner should be able to be contacted if required.

Where the GP/medical practitioner and the practice nurse/ Aboriginal and Torres Strait Islander health practitioner are at the same location, the GP/medical practitioner is not required to be present while the chronic disease monitoring and support is undertaken. It is up to the GP/medical practitioner to decide whether they need to see the

patient. Where the GP/medical practitioner has a consultation with the patient, then the GP/medical practitioner is entitled to claim a Medicare item for the time and complexity of their personal attendance on the patient. The time the patient spends receiving a service from the practice nurse or Aboriginal and Torres Strait Islander health practitioner is itemised separately under item 10997 and should not be counted as part of the Medicare item claimed for time spent with the GP/medical practitioner. Where the practice nurse or Aboriginal and Torres Strait Islander health practitioner provides another service (eg immunisation) on the same day, the GP/medical practitioner is able to claim for both practice nurse/ Aboriginal and Torres Strait Islander health practitioner items.

Item 10990 or 10991 (bulk billing incentives) can be claimed in conjunction with item 10997 provided the conditions of item 10990 or 10991 are satisfied (see explanatory note M.1).

MN.12.5 Telehealth Support Services by Health Professionals

These notes provide information on the telehealth MBS attendance items for health professionals to provide clinical support to their patients during video consultations with a specialist, consultant physicians and psychiatrists under items 10945 and 10946 in Group A10 which are available for participating optometrists and item 10983 in Group M12 for practice nurses, Aboriginal and Torres Strait Islander health practitioners or Aboriginal health workers for services provided for and on behalf of a medical practitioner.

From 1 January 2022, items 10945, 10946 and 10983 apply Australia wide.

Telehealth patient-end support services can only be claimed where:

- a Medicare eligible specialist service is claimed;
- the service is rendered in Australia; and
- where this is necessary for the provision of the specialist service.

Clinical indications

The specialist, consultant physician or psychiatrist must be satisfied that it is clinically appropriate to provide a video consultation to a patient. The decision to provide clinically relevant support to the patient is the responsibility of the specialist, consultant physician or psychiatrist.

Telehealth specialist services can be provided to patients when there is no patient-end support service provided.

Restrictions

The MBS telehealth attendance items are not payable for services to an admitted hospital patient (this includes hospital in the home patients). Benefits are not payable for telephone or email consultations. In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Record Keeping

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Multiple attendances on the same day

In some situations a patient may receive a telehealth consultation and a face to face consultation by the same or different practitioner on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same practitioner, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Practitioners will need to provide the times of each consultation on the patient's account or bulk billing voucher.

Aftercare Rule

Video consultations are subject to the same aftercare rules as face to face consultations.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

Technical requirements

In order to fulfill the item descriptor there must be a visual and audio link between the patient and the remote practitioner. If the remote practitioner is unable to establish both a video and audio link with the patient, a MBS rebate for a telehealth attendance is not payable.

Individual clinicians must be confident that the technology used is able to satisfy the item descriptor and that software and hardware used to deliver a video conference meets the applicable laws for security and privacy.

Duration of attendance

The practitioner attending at the patient end of the video consultation does not need to be present for the entire consultation, only as long as is clinically relevant - this can be established in consultation with the specialist. The MBS fee payable for the supporting practitioner will be determined by the total time spent assisting the patient. This time does not need to be continuous.

Aboriginal health workers

For the purpose of item 10983 an Aboriginal health worker means a person who:

- a) holds a Certificate III in Aboriginal or Torres Strait Islander Health Worker Primary Health Care (Clinical) or other appropriate qualifications; or
- b) is registered, and holds a current registration issued by a State or Territory regulatory authority, as an Aboriginal health worker; and
- c) is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes health service in relation to which a direction made under subsection 19(2) of the Act applies.

Aboriginal and Torres Strait Islander health practitioners

For the purpose of item 10983 an Aboriginal and Torres Strait Islander health practitioner means a person who has been registered as an Aboriginal and Torres Strait Islander health practitioner by the Aboriginal and Torres Strait Islander Health Practice Board of Australia and meets the Board's registration standards. The Aboriginal and Torres Strait Islander health practitioner must be employed or retained by a general practice, or by a health service that has an exemption to claim Medicare benefits under subsection 19(2) of the *Health Insurance Act 1973*.

An Aboriginal and Torres Strait Islander health practitioner may use any of the titles authorised by the Aboriginal and Torres Strait Islander Health Practice Board: Aboriginal health practitioner; Aboriginal and Torres Strait Islander health practitioner; or Torres Strait Islander health practitioner.

Practice Nurse

For the purpose of item 10983 a practice nurse means a registered or enrolled nurse who is employed by, or whose services are otherwise retained by a medical practitioner or their practice. This includes a health service in relation to which a direction made under subsection 19(2) of the *Health Insurance Act 1973* applies.

MN.13.1 Maternity Services by Participating Midwives - Overview

As at 1 November 2010, Medicare benefits are payable for antenatal, intrapartum and postnatal care for the first 6 weeks after the delivery, provided by eligible privately practising midwives. Eligible midwives can also request certain pathology and diagnostic imaging services for their patients and refer patients to obstetricians and paediatricians, as the clinical need arises. Each service that attracts a Medicare benefit is identified in the Medicare Benefits Schedule (MBS) by an item number. Each item describes the service that the item covers.

MN.13.2 Participating Midwives

To provide services under Medicare, the legislation requires that a midwife be a participating midwife. A participating midwife is an eligible midwife who provides services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

For more details on collaborative arrangements required under the regulations see Point M.13.5.

MN.13.3 Eligible Midwives

Under the legislation, to be an eligible midwife the midwife must be registered or authorised (however described) under State and Territory law to practice midwifery. The midwife must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia.

Information regarding eligibility can be found on the Nursing and Midwifery Board of Australia (NMBA) site of the Australian Health Practitioner Regulatory Agency (AHPRA) website at:

<https://www.nursingmidwiferyboard.gov.au/>.

MN.13.4 Midwife Professional Indemnity Insurance

Under National Law, which governs the National Registration and Accreditation Scheme (NRAS), it is a requirement for midwives to have appropriate professional indemnity insurance. All privately practising midwives who wish to provide private midwifery services in must have appropriate professional indemnity insurance from the date the State or Territory in which they were registered enacted National Law.

Further information about professional indemnity insurance for midwives can be found at:

<https://www.health.gov.au/internet/main/publishing.nsf/Content/Maternity+Services+Review-Q&A-PIMI>

MN.13.5 Collaborative Arrangements

To provide Medicare rebate-able services an eligible midwife must have a collaborative arrangement in place that must provide for consultation, referral or transfer of care as clinical needs dictate, to ensure safe, high quality maternity care.

Under the legislation a collaborative arrangement can be with the following "specified" medical practitioners:

1. an obstetrician;
2. a medical practitioner who provides obstetric services; or
3. a medical practitioner employed or engaged by a hospital authority and authorised by the hospital authority to participate in a collaborative arrangement.

The types of practitioners listed 1) and 2) are defined in the Regulations as "obstetric specified medical practitioners".

Collaborative arrangement can be established in the following ways:

- a. where the midwife:
 - i. is employed or engaged by 1 or more obstetric specified medical practitioners or by an entity that employs or engages 1 or more obstetric specified medical practitioners; or
 - ii. has an agreement, in writing, with an entity, other than a hospital, that employs or engages one or more obstetric specified medical practitioners, OR
- b. receiving patients by referral in writing to the midwife for midwifery treatment from a specified medical practitioner, OR
- c. having a signed written agreement with one or more specified medical practitioners, OR
- d. having an arrangement with and acknowledged by at least one specified medical practitioner
 - i. an arrangement requires that the eligible midwife must record the following in the midwife's written records:-
 - i. The name of at least one specified medical practitioner who is, or will be, collaborating with the midwife in the patient's care (a named medical practitioner);
 - ii. That the midwife has told the patient that the midwife will be providing midwifery services to the patient in collaboration with one or more specified medical practitioners;
 - iii. Acknowledgement by a named medical practitioner that the practitioner will be collaborating in the patient's care;
 - iv. Plans for the circumstances in which the midwife will do any of the following:
 - i. consult with an obstetric specified medical practitioner;
 - ii. refer the patient to a specified medical practitioner;
 - iii. transfer the patient's care to an obstetric specified medical practitioner.
 - ii. The midwife must also record the following in the midwife's written records:
 - i. Any consultation or other communication between the midwife and an obstetric specified medical practitioner about the patient's care;
 - ii. Any referral of the patient by the midwife to a specified medical practitioner;
 - iii. Any transfer by the midwife of the patient's care to an obstetric specified medical practitioner;
 - iv. When the midwife gives a copy of the hospital booking letter for the patient to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
 - v. When the midwife gives a copy of the patient's maternity care plan prepared by the midwife to a named medical practitioner - acknowledgement that the named medical practitioner has received the copy;
 - vi. If the midwife requests diagnostic imaging or pathology services for the patient - when the midwife gives the results of the services to a named medical practitioner
 - vii. That the midwife has given a discharge summary at the end of the midwife's care for the patient to:
 - i. a named medical practitioner; and
 - ii. the patient's usual general practitioner, OR
- e. In relation to a hospital, the midwife is:
 - i. credentialed to provide midwifery services after successfully completing a formal process to assess the midwife's competence, performance and professional suitability; and
 - ii. given clinical privileges for a defined scope of clinical practice for the hospital; and
 - iii. permitted to provide midwifery care to his or her own patients at the hospital.

The legislation requires that collaborative arrangements must be in place at the time the participating midwife provides the service.

- a. Being employed or engaged by a medical practice or an entity or having a written agreement with an entity
An entity may refer to, for example, a community health centre or a medical practice. For a midwife to have a collaborative arrangement in these circumstances, that midwife must be employed or engaged by or have a written agreement with an entity that also employs or engages 1 or more obstetric specified medical practitioners.

The terms employ or engage covers both employees and contractors. This will cover an eligible midwife

who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one obstetrician or medical practitioner that provides obstetric services. There must be at least one obstetric specified medical practitioner employed or engaged by the entity each time the midwife renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.

b. Referral from a medical practitioner

A participating midwife's patient will be able to access the MBS and PBS if a patient has been referred in writing to the midwife by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.

c. Written agreement with a medical practitioner

A participating midwife's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more specified medical practitioners. The agreement must be signed by the nurse practitioner and doctor. The arrangement must provide for consultation, referral and transfer of care.

d. Arrangement with, acknowledged by a medical practitioner

Evidence of 'acknowledgement' by an obstetrician/GP obstetrician for each woman for whom the midwife provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a midwife could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the midwife's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the midwife documents in their written records.

The midwife is required to record in written records communications in regard to consultations, referral and transfer of the woman's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The midwife is also required to send a copy of all pathology and diagnostic imaging results to a named medical practitioner and to record in the midwife's written records when this occurs (however, there is no requirement that the midwife consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

e. Collaborative arrangement with a hospital

This type of collaborative arrangement applies where an eligible midwife is credentialed for a hospital, having successfully completed a formal assessment of his or her qualifications, skills, experience and professional standing. It is expected that the assessment would involve an appropriately qualified medical practitioner/s. The midwife is also required to have a defined scope of clinical practice at the hospital and be eligible to treat his or her own patients at the hospital. The hospital must employ or engage at least one obstetric specified medical practitioner. It is expected that the hospital will have a formal written agreement with such midwives, addressing consultation, referral and transfer of care, relevant clinical guidelines and locally determined policies.

MN.13.6 Provider Numbers

To access the Medicare arrangements, eligible midwives will need to apply to Services Australia for a provider number. A separate provider number is required for each location at which a midwife practices.

Provider registration forms may be obtained from the Services Australia [website](#) or by contacting on Services Australia at 132 150.

MN.13.7 Schedule Fees and Medicare Benefits

Each midwifery service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description.

There are two levels of benefit payable for midwifery services:

75% of the Schedule fee for midwifery services rendered as part of an episode of hospital treatment (other than for public patients) - see GN.1.2; or

85% of the Schedule fee for all other antenatal and postnatal services.

MN.13.8 Safety Nets

Where practitioners charge more than the Medicare benefit, the resultant out-of-pocket costs are the responsibility of the patient.

Assistance is provided to families and singles for out-of-pocket costs for out-of-hospital services through the "original" and "extended" Medicare safety nets:

- the original safety net provides that once the threshold is met, the Medicare benefit increases to 100 per cent of the Schedule fee; and
- under the Extended Medicare Safety Net (EMSN), once certain thresholds are met, Medicare reimburses 80 per cent of the out-of-pocket costs. However, where the item has an EMSN benefit cap, there is a maximum limit on the EMSN benefit that will be paid for that item.

MN.13.10 Where Medicare Benefits are not payable

Medicare benefits are not available:

- a. for services listed in the MBS, where the service rendered does *not* meet the item description and associated requirements;
- b. where the midwifery service is *not* personally performed by the participating midwife;
- c. for MBS services that are time based, the inclusion of any time period in the consultation periods when the patient is *not* receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings; and
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances;
- f. group sessions; and
- g. The issuing of repeat prescriptions, updating patient notes or telephone consultations.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

MN.13.11 Billing of Patient

Where the practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the *Health Insurance Act 1973* and the *Health Insurance Regulations 2018*, Medicare benefits are not payable in respect of a professional service unless there is recorded on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:-

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;
- (d) The name and practice address and provider number of the participating midwife who actually rendered the service; (where the participating midwife has more than one practice location recorded with Services Australia, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

MN.13.12 Assignment of Benefits (Direct-Billing) Arrangements

Under the *Health Insurance Act 1973* the Assignment of Benefit (direct-billing) facility for professional services is available to all persons in Australia who are eligible for benefit under the Medicare program. This facility is NOT confined to pensioners or people in special need.

If a participating midwife direct-bills, the participating midwife undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient. Under these arrangements:-

- The patient's Medicare card number must be quoted on all direct-bill forms for that patient.
- The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.
- The forms include information required by Regulations under Subsection 19(6) of the *Health Insurance Act 1973*.
- The practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient to receive a copy of the form as soon as practicable after the patient signs it.
- Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the practitioner, practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the direct-billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of **Services Australia**. Any enquiries in regard to these matters should therefore be directed to Medicare offices or enquiry points.

MN.13.13 Assignment of Benefit Forms

Participating midwives wishing to direct-bill are required to use a specific form available from Services Australia. This stationary is available from Services Australia. Note that these forms are approved forms under the *Health Insurance Act 1973*, and no other forms can be used to assign benefits without the approval of Services Australia. Further information about direct-billing stationary can be obtained by telephoning **132150**.

MN.13.14 Time Limits Applicable to Lodgement of Claims for Assigned Benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct-billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

MN.13.15 Overview of the Maternity Items

Face to Face Services

Antenatal, intrapartum and postnatal care provided by participating midwives are covered by MBS items 82100, 82105, 82110, 82115, 82116, 82118, 82120, 82123, 82125, 82127, 82130, 82135, 82140. These items cover 13 specific types of service that allow the participating midwife to:

- undertake an initial antenatal attendance of more than 40 minutes duration (item 82100);
- provide a short antenatal attendance of up to 40 minutes duration (item 82105);
- provide a long antenatal attendance of more than 40 minutes duration (item 82110);
- make an assessment of and prepare a maternity care plan for a patient across a pregnancy that has progressed beyond 28 weeks and there have been at least two antenatal attendances with the claiming participating midwife in the preceding six months (item 82115);
- undertake management of labour (excluding birth) out of hospital for up to 6 hours (item 82116);
- undertake management of labour (including birth where performed or attendance and immediate post-birth care at an elective caesarean section) in hospital by the first participating midwife for a total of up to 6 hours (item 82118);
- undertake management of labour (including birth where performed) by the first participating midwife for a total of 6 to 12 hours, including birth (item 82120);
- undertake management of labour (including birth where performed) in hospital by the second participating midwife for a total of up to 6 hours (item 82123);
- undertake management of labour (including birth where performed) by the second participating midwife for a total of 6 to 12 hours including birth (item 82125);
- undertake management of labour (including birth where performed) in hospital by the third participating midwife for a total of up to 6 hours (item 82127);
- provide a short postnatal attendance of up to 40 minutes duration (item 82130);
- provide long postnatal attendance of at least 40 minutes duration (item 82135); and
- provide a comprehensive postnatal check to a patient 6 weeks after the birth of the baby (item 82140).

Telehealth Services

- A service may only be provided by telehealth where it is safe and clinically appropriate to do so.
- These MBS telehealth items are for out-of-hospital patients.
- Providers are expected to obtain informed financial consent from patients prior to providing the service including providing details regarding their fees and any out-of-pocket costs.

The participating midwife telehealth items are:

Service	Telehealth items via video-conference	Telephone items for when video-conferencing is not available
Short antenatal attendance lasting up to 40 minutes	91211	91218
Long antenatal attendance lasting at least 40 minutes	91212	91219
Short postnatal attendance lasting up to 40 minutes	91214	91221

Long postnatal attendance lasting at least 40 minutes	91215	91222
---	-------	-------

MN.13.16 Maternity Services Attracting Medicare Rebates

Medicare Benefits are only payable for clinically relevant services. Clinically relevant in relation to midwifery care means a service generally accepted by the midwifery profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating midwife provides care to not more than one patient on the one occasion.

Antenatal Care

Eligible maternity care plan service

MBS item 82115 is the one MBS item available for participating midwife practitioners to undertake a comprehensive assessment and prepare a written maternity care plan for a patient, who is not an admitted patient of a hospital, across a pregnancy that has progressed beyond 28 weeks. In order to claim item 82115, the participating midwife is required to have had at least two antenatal attendances (82100, 82105, 82110, 91211, 91212, 91218 or 91219) with the patient in the preceding six months; and the provider who undertakes the care plan should intend to remain the primary health care provider for the remainder of the pregnancy.

There will be a six month transition period for the restriction on the claiming participating midwife having at least two antenatal attendances in the preceding six months. This transition period acknowledges that in the six months prior to 1 March 2022 (before this requirement was legislated), participating midwives may not have had the required two antenatal visits with the patient to claim 82115 as at the time they were not aware of the upcoming requirement. The transition period will end on 1 September 2022.

For example, if 82115 is provided on 1 April 2022 and only one antenatal attendance by the same participating midwife was provided in the past 6 months, then claiming item 82115 will still be permitted. If this same scenario occurs on 1 September 2022, then the claim would not be permitted.

It is expected that the care plan would be agreed with the patient and detail such things as agreed expectation, health problems and care needs and appropriate referrals, medication and diagnostic tests.

This item cannot be claimed if items 16590 or 16591 have previously been claimed during a single pregnancy, except in exceptional circumstances. An exceptional circumstance in which the creation of a new maternity care plan may be required includes a significant change in the patient's clinical condition or maternity care requirements.

For claiming purposes, the exceptional circumstance requiring another maternity care plan needs to be recorded in the patient's notes, and "exceptional circumstance" notated when submitting the claim.

Number of services: Only one (1) midwifery care plan (82115) is payable in any pregnancy.

Antenatal Attendances

Medicare benefits are payable for an antenatal service where a participating midwife provides a clinically relevant service in respect of a miscarriage. Medicare benefits are not payable for an antenatal attendance associated with the labour. The labour items (82116-82127) include all associated intrapartum attendances.

Any clinically relevant indication that requires an antenatal attendance by a participating midwife on an admitted patient in hospital, but that is not associated with the labour, will attract a Medicare benefit.

Number of services: Only one (1) initial antenatal attendance under item 82100 is payable in any pregnancy. There is no limit attached to long and short antenatal attendances (82105, 82110, 91211, 91212, 91218 and 91219) by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

Management of labour

The MBS includes six items for management of labour by a participating midwife;

- undertake management of labour (excluding birth) out of hospital for up to 6 hours (item 82116)
- undertake management of labour (including birth where performed or attendance and immediate post-birth care at an elective caesarean section) in hospital by the first participating midwife for a total of up to 6 hours (item 82118)
- undertake management of labour (including birth where performed) by the first participating midwife for a total of 6 to 12 hours, including birth (item 82120)
- undertake management of labour (including birth where performed) in hospital by the second participating midwife for a total of up to 6 hours (item 82123)
- undertake management of labour (including birth where performed) by the second participating midwife for a total of 6 to 12 hours including birth (item 82125)
- undertake management of labour (including birth where performed) in hospital by the third participating midwife for a total of up to 6 hours (item 82127)

Management of labour out of hospital

Item 82116 is for the management of labour out of hospital for up to six hours. This item is intended to provide benefits for patients whose births occur in hospital. This item is not intended to provide benefits for planned home births.

This item is not claimable if the management of labour and birth is intended to be transferred to an obstetrician, medical practitioner or non-participating midwife. The total attendance time is to be documented in the patient notes.

Management of labour in hospital

The intrapartum items (82118-82127) are claimable for the participating midwife's total attendance managing the patient's labour in hospital. These items are claimable from when the patient is admitted to hospital. The time taken to conduct a patient handover to another participating midwife is counted towards the total attendance. Breaks taken to manage the participating midwife's fatigue are not counted towards the total claimable time. The total attendance time for each participating midwife is to be documented in the patient notes.

Example One:

- The first participating midwife manages the patient's labour at the patient's home for five hours and then for three hours in hospital. To manage their fatigue, the first participating midwife hands over care to a second participating midwife and takes a 10 hour break.
- The second participating midwife takes over the patient's care and manages the labour for 10 hours before handing over care to the first participating midwife to manage their own fatigue.
- The first participating midwife takes over the patient's care and manages their labour and birth for 6 hours.

In this scenario, the first participating midwife would be eligible to claim 82116 (for the five hours in attendance out of hospital) and 82120 (for the total of nine hours in hospital attendance). The second participating midwife would claim 82125 (for the total of 10 hours in hospital attendance).

Example Two:

- The first participating midwife manages the patient's labour in hospital for two hours and as they have been at another birth just prior to this attendance, needs to take a break to manage their fatigue. They handover the patient's care to the second participating midwife before taking a 10 hour break.
- The second participating midwife takes over the patient's care and manages the labour in hospital for six hours before handing over care to the third participating midwife to manage their fatigue.

- The third participating midwife takes over the patient's care. The third midwife has already managed a different patient's labour and birth earlier that day and is able to manage this patient's labour for four hours before handing over care to the first participating midwife to manage their fatigue.
- The first participating midwife manages the labour and birth for four hours.

In this scenario, the first participating midwife would claim 82118 (for the six hours in hospital attendance). The second participating midwife would claim 82123 (for the six hours in hospital attendance) and the third participating midwife would claim 82127 (for the four hours in hospital attendance).

Medicare benefits are payable under items 82118-82127 whether or not the participating midwife undertakes the birth i.e. including where the patient's care is escalated to an obstetrician during labour or for the birth.

Medicare benefits are only payable where the service is provided to an admitted patient of a hospital, including a hospital birthing centre. Labour is taken to commence when the participating midwife attends a patient that is in labour and who has been admitted to the hospital for labour and birth. The time period for these items is the period for which the participating midwife is in exclusive attendance on the patient for labour, and birth where performed.

Medicare benefits are only payable for management of labour where the participating midwife undertaking the service has provided the patient's antenatal care or who is a member of a practice that provided the patient's antenatal care.

It is not intended that these items be claimed routinely by participating midwives who do not intend to undertake the birth i.e. where the participating midwife has arranged beforehand for a medical practitioner to undertake the birth. Where the participating midwife does not undertake the birth it is because:

- In order to manage the participating midwife's fatigue, care was transferred to another participating midwife for management of labour; or
- There was a clinical need to escalate care to an obstetrician or medical practitioner who provides obstetric services.

Number of services: Intrapartum items 82116-82127 can only be claimed once per pregnancy.

Postnatal Care

In addition to the long and short antenatal attendance items for postnatal care in the first six weeks post birth, the MBS provides for a six week postnatal check (82140), after which the patient would be referred back to a GP.

Number of services: Only one (1) postnatal check (82140) by a participating midwife is payable in any pregnancy.

There is no limit attached to long and short postnatal attendances (82130, 82135, 91214, 91215, 91221 and 91222) by a participating midwife. However, only clinically relevant attendances should be itemised under Medicare and services provided by participating midwives will be subject to Medicare Audit and Professional Review Processes.

MN.13.17 Conditions Governing the Provision and Claiming of Items

Service length and type

- Services under these items must be for the time period specified within the item descriptor.
- Professional attendance for MBS items 82100, 82105, 82110, 82115, 82116, 82130, 82135 and 82140 may be provided in an appropriate setting that includes but is not limited to: the patient's home, a midwifery group practice, a participating midwife practitioner's rooms or a medical practice.
- Items 91211, 91212, 91214, 91215 are telehealth items provided via video-conference and items 91218, 91219, 91221 and 91222 are telephone items provided when video-conferencing is not available.

MN.13.18 Referral Requirements

A participating midwife will be able to refer a patient to specialist obstetricians and paediatricians as clinical services dictate.

This measure does not include referral by a participating midwife for allied health care. If a participating midwife refers a patient to an allied health practitioner, no benefits would be payable for that service.

Medicare benefits are not payable specifically for services provided by a lactation consultant at this time. Medicare benefits would be payable for breast feeding support provide as part of the postnatal care by the participating midwife.

A referral is valid for 12 months to cover the labour (antenatal, birthing and postnatal care for 6 weeks post birth). Should there be a new pregnancy in that period, a new referral will be required.

A new pregnancy represents a new episode of care.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring participating midwife. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

If a specialist provides a consultation without a referral, the specialist's consultation would not attract Medicare benefits at the specialist rate.

There are exemptions from this requirement in an emergency if the participating midwife considers the patient's condition requires immediate attention without a referral. In that situation, the specialist must decide that it is necessary in the patient's interests to render the professional service specified in the item as soon as practicable and they must begin rendering a service within 30 minute of the patient's presentation. If a referral is lost, stolen or destroyed, the participating midwife would need to provide a replacement referral as soon as is practicable after the service is provided.

If the patient is a privately admitted patient of a hospital a letter or note is not required. The referring participating midwife would make a notation in the patient's notes, which they would sign, approving the referral.

A referral is not required to transfer a patient's care during the intra-partum period under items 16527 and 16528. The participating midwife would make a signed notation in the patient's notes approving the transfer of care.

A referral is not required to refer the patient back to their GP after the six week postnatal period. The participating midwife would provide a discharge summary to the GP outlining the maternity history and any relevant clinical issues, which would also be recorded on the patient's notes.

MN.13.19 Requesting Requirements

Pathology Services

Determination of Necessity of Service

The participating midwife requesting a pathology service for a woman must determine that the pathology service is necessary.

Request for Service

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

Pathology Services approved for participating midwives

FBC (item 65070)	vaginal /anal swab/GBS (69312)* varicella 69384 - 69401 (antibody test) parvo virus 69384 - 69401
Hb (item 65060)	rubella titre syphilis Hep B/C - items 69405, 69408, 69411, 69413 or 69415 HIV
Group and antibodies (items 65090, 65093, 65096) glucose load (items 66545, 66548)	Serum Bilirubin (SBR); 66500
Downs Syndrome/ Spina Bifida (items 66743, 66750, 66751)	Direct Coombs; 65114
eye swab (69303)	Blood glucose level (item 66500)
skin swab (69306)	Cord PH and gases cord (O2 and CO2) (Item 66566)
skin scrapings (69309)	Group and Hold (item 65099)
Chlamydia (item 69316)	Coagulation Studies (items 65129, 65070)
Gonorrhea (item 69317)	Mid stream urine (item 69324)
Cervical screening (items 73070, 73071, 73075, 73076)	HCG (item 73529)

Diagnostic Imaging Services

Determination of Necessity of Service

The participating midwife requesting a diagnostic imaging service for a woman must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

Request for Service

The service may only be provided in response to a request from the treating practitioner, and the request must be in writing, signed and dated.

The request does not have to be in a particular form. However, legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

Ultrasound:

Routine morphology scan (item 55706)	Nuchal Translucency (item 55707)
Early dating scan (item 55700)	Post 22 weeks scan (item 55718)
Scan at 12-16 weeks (item 55704)	

MN.14.1 Participating Nurse Practitioners Services - Overview

As at 1 November 2010, Medicare benefits are payable for services provided by privately practising participating nurse practitioners in collaboration with other health care providers. Participating nurse practitioners can also

request certain pathology and diagnostic imaging services for their patients and refer patients to specialist, as the clinical need arises. The nurse practitioner services that attract a Medicare benefit are identified in the Medicare Benefits Schedule (MBS) by an item number and the each item describes the service requirements and schedule fee.

MN.14.2 Eligible Nurse Practitioners

Under the legislation, to be an eligible nurse practitioner the nurse practitioner must be registered or authorised (however described) under State and Territory law. The nurse practitioner must also demonstrate that he or she has the appropriate qualifications and experience to meet the registration standard developed by the Nursing and Midwifery Board of Australia (NMBA).

This standard was developed for the purposes of the National Registration and Accreditation Scheme (NRAS), a single regulation and accreditation scheme for health professionals, including nurse practitioners. Additional information is available at the Australian Health Practitioners Regulation Agency (AHPRA) website at: <https://www.ahpra.gov.au/index.php>

MN.14.3 Provider Numbers

To access the Medicare arrangements, eligible nurse practitioners will need to apply to Services Australia for a provider number. A separate provider number is required for each location at which a nurse practitioner practices.

Provider registration forms may be obtained from the Services Australia [website](#) or by contacting on Services Australia at 132 150.

MN.14.4 Participating Nurse Practitioners

To provide services under Medicare, the legislation requires that a nurse practitioner be a participating nurse practitioner. A participating nurse practitioner is an eligible nurse practitioner who has a Medicare provider number and who provides Medicare services in a collaborative arrangement or collaborative arrangements with one or more medical practitioners, of a kind or kinds specified in the regulations.

MN.14.5 Collaborative Arrangements

Under the Medicare program collaboration is having arrangements in place with a medical practitioner/s to consult, refer or transfer care as clinical needs dictate, to ensure safe, high quality maternity care. Under Medicare a collaborative arrangement can be with any medical practitioner.

Collaborative arrangement can be established in the following ways:

- a) being employed or engaged by 1 or more specified medical practitioners or by an entity that employs or engages 1 or more specified medical practitioners; OR
- b) receiving patients by referral in writing to the nurse practitioner for treatment from a specified medical practitioner, OR
- c) having a signed written agreement with one or more specified medical practitioners, OR
- d) having an arrangement with and acknowledged by at least one specified medical practitioners. This includes keeping comprehensive notes on all instances of consultation, referral and transfer of care, diagnostic tests requested and the test results and providing the collaborating practitioner/s with those results.

The legislation requires that collaborative arrangements must be in place at the time the participating nurse practitioner provides the service. The legislation requires that for each kind of collaborative arrangement, at least one medical practitioner is needed; it is not possible for the nurse practitioner to have a collaborative arrangement with an entity such as a health service.

- a) Being employed or engaged by a medical practice or an entity

An entity may refer to a hospital or community health centre. For a nurse practitioner to have a collaborative arrangement in these circumstances, that nurse practitioner must be employed or engaged by an entity that also employs or engages 1 or more specified medical practitioners.

The terms employ or engage covers both employees and contractors. This will cover an eligible nurse practitioner who is employed or engaged by a medical practice so long as that medical practice employs or engages at least one medical practitioner.

There must be at least one specified medical practitioner employed or engaged by the entity each time the nurse practitioner renders a service/performs treatment. However, there is no requirement that the consultation, referral or transfer of care must always be to the medical practitioner(s) employed/engaged by the entity.

b) Referral from a medical practitioner

A participating nurse practitioner's patient will be able to access the MBS and PBS if a patient has been referred in writing to the nurse practitioner by a specified medical practitioner. The arrangement must provide for consultation, referral and transfer of care should the clinical need arise.

c) Written agreement with a medical practitioner

A nurse practitioner's patient will be able to access the MBS and PBS if the nurse practitioner has a written agreement in place with one or more doctors. The agreement must be signed by the nurse practitioner and a doctor. The arrangement must deal with consultation, referral and transfer to a doctor.

d) Arrangement with, acknowledged by a medical practitioner.

Evidence of 'acknowledgement' by a medical practitioner for each patient for whom the nurse practitioner provides care is a requirement to ensure that the medical practitioner being named understands and accepts the collaborative arrangement.

The acknowledgement does not have to be obtained on an individual patient basis. This means that, for example, a nurse practitioner could obtain an acknowledgement from a specified medical practitioner that he or she will be the collaborating medical practitioner for some or all of the nurse practitioner's patients. Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

The nurse practitioner is required to record in written records any communications in regard to consultations, referral and transfer of the patient's care with the medical practitioner, including information that has been forwarded to the medical practitioner. The nurse practitioner is also required to send a copy of all pathology and diagnostic imaging results to a named medical practitioner and to record in the nurse practitioner's written records when this occurs (however, there is no requirement that the nurse practitioner consult with a medical practitioner in relation to every test result). The purpose of sharing records with the collaborating medical practitioner is to prevent duplication of services and to ensure continuity of care.

Arrangements to collaborate could be obtained in a number of ways including signing of documents, email or fax confirmation, or verbal acknowledgement which the nurse practitioner documents in their written records.

MN.14.6 Schedule Fees and Medicare Benefits

Each nurse practitioner service is identified in the MBS by an item number. The fee set for any item in the MBS is known as the "Schedule fee". The Schedule fee and Medicare benefit for each service is listed in the item description. The Medicare benefit for nurse practitioner services rendered to non-admitted patients is 85% of the Schedule fee.

MN.14.7 Where Medicare Benefits are not payable

Medicare benefits are not available:

- a. where the service rendered does not meet the item description and associated requirements;
- b. where the nurse practitioner service is not personally performed by the participating nurse practitioner;
- c. for any time period in the consultation periods when the patient is not receiving active attention e.g. the time the provider may take to travel to the patient's home or where the patient is resting between blood pressure readings;
- d. services provided where the patient is not in attendance, such as the issuing of repeat prescriptions;
- e. for telephone attendances; and
- f. group sessions.

The fee charged under Medicare must not include the cost of services that are not part of the MBS service being claimed. Medicare benefits are not payable for good or appliances associated with the service, such as bandages or other skin dressings.

Unless the Minister otherwise directs, Medicare benefits are not payable where funding has already been provided under an arrangement with the Commonwealth, state or a local governing body.

MN.14.8 Billing of the Patient

Where the nurse practitioner bills the patient for medical services rendered, the patient needs a properly itemised account/receipt to enable a claim to be made for Medicare benefits.

Under the provisions of the *Health Insurance Act 1973*, Medicare benefits are not payable in respect of a professional service unless there is record on the account setting out the fee for the service or on the receipt for the fee in respect of the service, the following particulars:

- (a) Patient's name;
- (b) The date on which the professional service was rendered;
- (c) An item number or a description of the professional service sufficient to identify the item that relates to that service, including an indication where the service is rendered to a person while hospital treatment is provided in a hospital "admitted patient" immediately preceding the description of the service or an asterisk "*" directly after an item number where used;
- (d) The name and practice address and provider number of the participating nurse practitioner who actually rendered the service; (where the participating nurse practitioner has more than one practice location recorded with Services Australia, the provider number used should be that which is applicable to the practice location at or from which the service was given).

Only one original itemised account should be issued in respect of any one service and any duplicates of accounts or receipts should be clearly marked "duplicate" and should be issued only where the original has been lost. Duplicates should not be issued as a routine system for "accounts rendered".

MN.14.9 Assignment of Benefits (Direct-Billing Arrangements)

Under the *Health Insurance Act 1973* the Assignment of Benefit (bulk billing) for professional services is available to all persons in Australia who are eligible for benefit under the MBS.

If a participating nurse practitioner bulkbills, the participating nurse practitioner undertakes to accept the relevant Medicare benefit as full payment for the service. Additional charges for that service (irrespective of the purpose or title of the charge) cannot be raised against the patient.

Under these arrangements:

The patient's Medicare card number must be quoted on all bulk bill forms for that patient.

The basic forms provided are loose leaf to enable the patient details to be imprinted from the Medicare card.

The forms include information required by Regulations under Subsection 19(6) of the *Health Insurance Act 1973*.

The nurse practitioner must include the particulars relating to the professional service out on the assignment form before the patient signs the form and ensure that the patient receives a copy of the form as soon as practicable after the patient signs it.

Where a patient is unable to sign the assignment form the signature of the patient's parent, guardian or other responsible person (other than the nurse practitioner, nurse practitioner's staff, hospital proprietor, hospital staff, residential aged care facility proprietor or residential aged care facility staff) is acceptable. The reason the patient is unable to sign should also be stated.

The administration of the bulk billing arrangements under Medicare as well as the payment of Medicare benefits on patient claims is the responsibility of Services Australia. Any enquiries regarding these matters should therefore be directed to Services Australia.

MN.14.10 Assignment of Benefit Forms

Participating nurse practitioners wishing to bulk-bill are required to use a specific form available from Services Australia. This stationary is available from Services Australia. Note that these forms are approved forms under the *Health Insurance Act 1973*, and no other forms can be used to assign benefits without the approval of Services Australia. Further information about bulk-billing stationary can be obtained by telephoning 132 150.

MN.14.11 Time Limits applicable to lodgement of claims for assigned benefits

A time limit of two years applies to the lodgement of claims with Medicare under the direct billing (assignment of benefit) arrangements. This means that Medicare benefits are not payable for any service where the service was rendered more than two years earlier than the date the claim was lodged with Medicare.

Provision exists whereby in certain circumstances (e.g. hardship cases), the Minister may waive the time limits. Special forms for this purpose are available, if required, from the processing centre to which assigned claims are directed.

MN.14.12 Overview of the Nurse Practitioner items

Services provided by participating nurse practitioners are covered by MBS items 82200, 82205, 82210, 82215. These items cover four time-tiered specific types of service that allow the participating nurse practitioner to perform a:

professional attendance for an obvious problem, straight forward in nature, with limited examination and management required (82200)

professional attendance for a patient presenting with clinical signs and symptoms with an easily identifiable underlying cause following a short consultation lasting less than 20 minutes duration (item 82205)

professional attendance for a patient presenting with clinical signs and symptoms with no obvious underlying cause requiring a more detailed consultation lasting at least than 20 minutes duration (item 82210);

professional attendance for a patient presenting with multiple clinical signs and symptoms with the possibility of multiple causes and outcomes requiring an extensive consultation of at least 40 minutes (item 82215);

MN.14.13 Nurse Practitioner services attracting Medicare rebates

Medicare Benefits are only payable for clinically relevant services. Clinically relevant in relation to nurse practitioner care means a service generally accepted by the nursing profession as necessary to the appropriate treatment of the patient's clinical condition.

Medicare benefits are only payable where the participating nurse practitioner provides care to not more than one patient on one occasion.

MN.14.14 Conditions governing the provision and claiming of items

Service length and type

Services under these items must be for the time period specified within the item descriptor.

Professional attendance for MBS items 82200, 82205, 82210, 82215, may be provided in an appropriate setting that includes but is not limited to: the patient's home, a nurse practitioner group practice, a nurse practitioner's rooms or a medical practice.

MN.14.15 Referral requirements

A participating nurse practitioner will be able to refer private patients to a specialist and consultant physician as clinical services dictate.

This measure does not include referral by a nurse practitioner for allied health care. If a participating nurse practitioner refers a patient to an allied health practitioner, no benefits would be payable for that service provided by the allied health professional.

A referral given by a participating nurse practitioner is valid until 12 months after the first service given in accordance with the referral.

If the referral is lost, stolen or destroyed, the nurse practitioner would need to provide a replacement referral as soon as is practicable after the service is provided.

A referral to a specialist must be in writing in the form of a letter or a note to the specialist and must be signed and dated by the referring nurse practitioner. The referral must contain any information relevant to the patient and the specialist must have received the referral on or prior to providing a specialist consultation.

There are exemptions from this requirement in an emergency if the specialist considers the patient's condition requires immediate attention without a referral. In that situation, the specialist is taken to be the referring practitioner.

MN.14.16 Requesting requirements

Pathology Services

Determination of Necessity of Service

The participating nurse practitioner requesting a pathology service for a patient must determine that the pathology service is necessary.

Request for Service

The service may only be provided in response to a request from the treating practitioner and the request must be in writing (or, if oral, confirmed in writing within fourteen days).

Pathology Services approved for participating nurse practitioners

Nurse practitioners may request MBS pathology items in any Groups P1 to P8 or any of items 73826 to 73837 of the pathology services table. Requesting pathology services must be within the nurse practitioner's scope of practice.

Further information

For further information about Medicare Benefits Schedule items, please refer to the Department of Health and Aged Care's website at www.health.gov.au/mbsonline.

Diagnostic Imaging Services

Determination of Necessity of Service

The participating nurse practitioner requesting a diagnostic imaging service for a patient must determine that the diagnostic imaging service is necessary for the appropriate professional care of the patient.

Request for Service

The service may only be provided in response to a request from the treating nurse practitioner, and the request must be in writing, signed and dated. The legislation provides that a request must be in writing and contain sufficient information, in terms that are generally understood by the profession, to clearly identify the item/s of service requested. This includes, where relevant, noting on the request the clinical indication(s) for the requested service. The provision of additional relevant clinical information can often assist the service provider, and enhance the overall service provided to the patient.

It is not necessary that a written request for a diagnostic imaging service be addressed to a particular provider or that, if the request is addressed to a particular provider, the service must be rendered by that provider.

A single request may be used to order a number of diagnostic imaging services. However, all services provided under this request must be rendered within seven days after rendering the first service.

Further Information

For further information on Medical Benefit Schedule items nurse practitioners can request for Diagnostic Imaging services please refer to note IN.0.6, which can be found [here](#).

MN.15.2 Non-Determinate Audiometry - (Item 82306)

This refers to audiometry covering those services, one or more, referred to in Items 82309-82318 when not performed under the conditions set out in paragraph M15.3.

MN.15.3 Conditions for Audiology Services - (Items 82309 to 82324)

A service specified in items 82309 to 82324 should be rendered:

- (a) in conditions that allow the establishment of determinate thresholds, including better ear threshold in free field testing;
- (b) in a sound attenuated environment with background noise conditions that comply with Australian Standard AS/NZS 1269.3-2005; and
- (c) using calibrated equipment that complies with Australian Standard AS IEC 60645.1-22002, ASIEC60645.2-2002 and AS IEC 60645.3-2002.

MN.15.4 Oto-Acoustic Emission Audiometry - (Item 82332)

Medicare benefits are not payable under Item 82332 for routine screening of infants. The equipment used to provide this service must be capable of displaying the recorded emission and not just a pass/fail indicator.

MN.15.5 Provision of Diagnostic Audiology Services by Audiologists - (Items 82300 to 82332) OVERVIEW

The diagnostic audiology services available through MBS items 82300 to 82332 (excepting 82301, 82302 and 82304) enable an eligible audiologist to perform diagnostic tests upon written request from a medical practitioner. MBS items 82301, 82302 and 82304, for the programming of an auditory implant or the sound processor of an auditory implant, do not require a request from a medical practitioner.

These diagnostic audiology services assist medical practitioners, including ENT specialists and neurologists, in their medical diagnosis and/or treatment and/or management of ear disease or related disorders. The diagnostic audiology items supplement Otolaryngology items for services delivered by, or on behalf of medical practitioners (MBS items 11300 to 11345, excluding 11304).

Requesting arrangements

The written request must be in writing and must contain:

- (a) the date of the request; and
- (b) the name of the medical practitioner who requested the service and either the address of his or her place of practice or the provider number in respect of his or her place of practice; and
- (c) a description of the service which provides sufficient information to identify the service as relating to a particular item (but need not specify the item number).

Written requests should, where possible, note the clinical indication/s for the requested service/s.

A request may be for the performance of more than one diagnostic audiology service making up a single audiological assessment but cannot be for more than one audiological assessment. This means that for Medicare benefits to be payable, any re-evaluation of the patient should be made at the discretion of the medical practitioner through a separate request.

Audiologists do not have the discretion to self-determine diagnostic tests under items 82300 to 82332 (excepting items 82301, 82302 and 82304). If a written request is incomplete or requires clarification, the audiologist should contact the requesting medical practitioner for further information. If an audiologist considers that additional tests may be necessary, the audiologist should contact the requesting medical practitioner to discuss the need and if the requesting practitioner determines that additional tests are necessary, an amended or separate written request must be arranged.

It is recommended that audiologists retain the written request for 24 months from the date the service was rendered (for Medicare auditing purposes). A copy of the written request is not required to accompany Medicare claims or be attached to patients' itemised accounts/receipts or assignment of benefit forms.

Eligibility requirements for audiologists

The diagnostic audiology items (82300 to 82332) can only be claimed by audiologists who are registered with Services Australia. To be eligible to register with the Services Australia to provide these services, audiologists must meet the following requirements:

Audiologists must be either:

- a 'Full Member' of Audiology Australia who is an Audiology Australia Accredited Audiologist; or
- an 'Ordinary Member - Audiologist' or 'Fellow Audiologist' of the Australian College of Audiology (ACAud).

Registering with Services Australia

Provider registration forms may be obtained from Medicare on 132 150 or at www.servicesaustralia.gov.au.

Changes to provider details

Audiologists must notify Services Australia in writing of all changes to mailing details to ensure that they continue to receive information about Medicare services.

Reporting requirements

Where an audiologist provides diagnostic audiology service/s to the patient under a written request, they must provide a copy of the results of the service/s performed together with relevant written comments on those results to the requesting medical practitioner. It is recommended that these be provided within 7 days of the date the service was performed.

Out-of-pocket expenses and Medicare Safety Net

Audiologists can determine their own fees for the professional service. Charges in excess of the Medicare benefit are the responsibility of the patient. However, out-of-pocket costs will count toward the Medicare Safety Net for that patient.

Publicly funded services

Items 82300 to 82332 do not apply for services that are provided by any Commonwealth or state funded services or provided to an admitted patient of a hospital. However, where an exemption under subsection 19(2) of the *Health Insurance Act 1973* has been granted to an Aboriginal Community Controlled Health Service or state/territory government health clinic, items 82300 to 82332 can be claimed for services provided by audiologists salaried by, or contracted to, the service or health clinic. All requirements of the relevant item must be met, including registration of the audiologist with Services Australia. Medicare services provided under a subsection 19(2) exemption must be bulk billed (i.e., the Medicare rebate is accepted as full payment for services).

Private health insurance

Patients need to decide if they will use Medicare or their private health insurance ancillary cover to pay for these services. Patients cannot use their private health insurance ancillary cover to 'top up' the Medicare rebate paid for the services.

MN.16.1 Eating Disorders General Explanatory Notes

Eating Disorders General Explanatory Notes (items 82350, 82352, 82355, 82360, 82363, 82368, 82371, 82376, 82379, 82381, 82382, 82383; 93074, 93076, 93084, 93087, 93092, 93095, 93100, 93103)

This note provides a general overview of the full range of 1 November 2019 eating disorders items and supporting information more specifically on the on the Category 8 – Miscellaneous Services: Group M16 – Eating disorders services (items 82350, 82352, 82355, 82360, 82363, 82368, 82371, 82376, 82379, 82381, 82382, 82383; 93074, 93076, 93079, 93084, 93087, 93092, 93095, 93100, 93103).

It includes an overview of the items, model of care, patient eligibility, and links to other guidance and resources.

Overview

All 1 November 2019 eating disorders items:

The eating disorders items define services for which Medicare rebates are payable where service providers undertake assessment and management of patients with a diagnosis of anorexia nervosa and patients with other

specified eating disorder diagnoses who meet the eligibility criteria (see – patient eligibility). It is expected that there will be a multidisciplinary approach to patient management through these items.

The items mean eligible patients are able to receive a Medicare rebate for development of an eating disorders treatment plan by a medical practitioner in general practice (Group A36, subgroup 1), psychiatry or paediatrics (Group A36, subgroup 2). Patients with an eating disorders treatment and management plan (EDP) will be eligible for comprehensive treatment and management services for a 12 month period, including:

- Up to 20 dietetic services under items 10954, 82350, 93074 and 93108.
- Up to 40 eating disorder psychological treatment services (EDPT service).
- Review and ongoing management services to ensure that the patient accesses the appropriate level of intervention (Group A36, subgroup 3).

An EDPT service includes mental health treatment services which are provided by an allied health professional or a medical practitioner in general practice with appropriate mental health training. These treatment services include:

- Medicare mental health treatment services currently provided to patients under the ‘Better Access to Psychiatrists, Psychologists and General Practitioners through the MBS (‘Better Access’) initiative.
 - This includes medical practitioner items 2721, 2723, 2725, 2727, 283, 285, 286, 287, 91818, 91819, 91820, 91821; 91842, 91843, 91844, 91845 and
 - This includes allied health items in Groups M6 and M7 of Category 8; and
- new items for EDPT services provided by suitably trained medical practitioners in general practice (items 90271, 90272, 90273, 90274, 90275, 90276, 90277, 90278, 92182, 92184, 92186 and 92188; 92194, 92196, 92198 and 92200)
- new items for EDPT services provided by eligible clinical psychologists (items 82352-82359, 93076 and 93079), eligible psychologists (items 82360-82367; 93084 and 93087; 93118, 93121), eligible occupational therapists (items 82368-82375; 93092 and 93095; 93126 and 93129) and eligible social workers (items 82376-82383; 93100 and 93103)

For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.

Patient Eligibility

The eating disorder items are available to eligible patients in the community. These items do not apply to services provided to admitted (in-hospital) patients.

The referring practitioner is responsible for determining that a patient is eligible for an EDP and therefore EDPT and dietetic services.

‘Eligible patient’ defines the group of patients who can access the new eating disorder services. There are two cohorts of eligible patients.

1. Patients with a clinical diagnosis of anorexia nervosa; or
2. Patients who meet the eligibility criteria (below), and have a clinical diagnosis of any of the following conditions:
 - i. bulimia nervosa;
 - ii. binge-eating disorder;
 - iii. other specified feeding or eating disorder.

The eligibility criteria, for a patient, is:

- a. a person who has been assessed as having an Eating Disorder Examination Questionnaire score of 3 or more; and
- b. the condition is characterised by rapid weight loss, or frequent binge eating or inappropriate compensatory behaviour as manifested by 3 or more occurrences per week; and
- c. a person who has at least two of the following indicators:
 - i. clinically underweight with a body weight less than 85% of expected weight where weight loss is directly attributable to the eating disorder;
 - ii. current or high risk of medical complications due to eating disorder behaviours and symptoms;
 - iii. serious comorbid medical or psychological conditions significantly impacting on medical or psychological health status with impacts on function;
 - iv. the person has been admitted to a hospital for an eating disorder in the previous 12 months;
 - v. inadequate treatment response to evidence based eating disorder treatment over the past six months despite active and consistent participation.

The Eating Disorders Items Stepped Model of Care

The eating disorder items incorporate a ‘stepped model’ for best practice care for eligible patients with eating disorders that comprise:

- assessment and treatment planning
- provision of and/or referral for appropriate evidence based eating disorder specific treatment services by allied mental health professionals and provision of services by dietitians
- review and ongoing management items to ensure that the patient accesses the appropriate level of intervention.

The Stepped Model

‘STEP 1’ – PLANNING (trigger eating disorders pathway) 90250-90257, 92146-92153 and 90260-90261

An eligible patient receives an eating disorder plan (EDP) developed by a medical practitioner in general practice (items 90250-90257 and 92146-92153), psychiatry (items 90260) or paediatrics (items 90261).

‘STEP 2’ – COMMENCE INITIAL COURSE OF TREATMENT (psychological & dietetic services)

Once an eligible patient has an EDP in place, the 12 month period commences, and the patient is eligible for an initial course of treatment up to 20 dietetic services and 10 eating disorder psychological treatment (EDPT) services. A patient will be eligible for an additional 30 EDPT services in the 12 month period, subject to reviews from medical practitioners to determine appropriate intensity of treatment.

‘STEP 3’ – CONTINUE ON INITIAL COURSE OF TREATMENT 90264-90267 (managing practitioner review and progress up to 20 EDPT services)

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90267), to assess the patient’s progress against the EDP or update the EDP, before they can access more than 10 EDPT services. This is known as the ‘first review’. The first review should be provided by the patient’s managing practitioner, where possible.

‘STEP 4’ FORMAL SPECIALIST AND PRACTITIONER REVIEW 90266-90267 (continue beyond 20 EDPT services)

A patient must have two additional reviews before they can access more than 20 EDPT services. One review (the ‘second review’) must be performed by a medical practitioner in general practice (who is expected to be the managing practitioner), and the other (the ‘third review’) must be performed by a paediatrician (90267) or psychiatrist (90266). Should both recommend the patient requires more intensive treatment, the patient would be able to access an additional 10 EDPT services in the 12 month period. These reviews are required to determine that the patient has not responded to treatment at the lower intensity levels.

The patient's managing practitioner should be provided with a copy of the specialist review.

The specialist review by the psychiatrist or paediatrician can occur at any point before 20 EDPT services. The practitioner should refer the patient for specialist review as early in the treatment process as appropriate. If the practitioner is of the opinion that the patient should receive more than 20 EDPT services, the referral should occur at the first practitioner review (after the first course of treatment) if it has not been initiated earlier.

Practitioners should be aware that the specialist review can be provided via telehealth. Where appropriate, provision has been made for practitioner participation on the patient-end of the telehealth consultation.

It is expected that the managing practitioner will be reviewing the patient on a regular, ongoing and as required basis. However, a patient must have a review of the EDP (90264-90267), to assess the patient's progress against the EDP or update the EDP, before they can access the next course of treatment.

'STEP 5' ACCESS TO MAXIMUM INTENSITY OF TREATMENT 90266-90267 (continue beyond 30 EDPT services)

To access more than 30 EDPT treatment services in the 12 month period, patients are required to have an additional review (the 'fourth review') to ensure the highest intensity of treatment is appropriate. Subject to this review, a patient could access the maximum of 40 EDPT treatment services in a 12 month period. The fourth review should be provided by the patient's managing practitioner, where possible.

An Integrated Team Approach

A patient's family and/or carers should be involved in the treatment planning and discussions where appropriate. The family can be involved in care options throughout the diagnosis and assessment, and are usually the support unit that help to bridge the gap between initial diagnosis and eating disorder specific treatment.

The National Standards for the safe treatment of eating disorders specify a multi-disciplinary treatment approach that provides coordinated psychological, physical, behavioural, nutritional and functional care to address all aspects of eating disorders. People with eating disorders require integrated inter-professional treatment that is able to work within a framework of shared goals, care plans and client and family information. Frequent communication is required between treatment providers to prevent deterioration in physical and mental health (RANZCP Clinical Guidelines: Hay et al., 2014). Consider regular case conferencing to ensure that the contributing team members are able to work within a shared care plan and with client and carers to achieve best outcomes.

Clinical guidelines and other resources

Eating Disorders Training

It is expected that allied health professionals who are providing services under these items have appropriate training, skills and experience in treatment of patients with eating disorders and meet [the national workforce core competencies](#) for the safe and effective identification of and response to eating disorders. More information is available at [National Eating Disorders Collaboration](#) and [ANZAED](#).

Training Services

Allied health professionals should contact their professional organisation to identify education and training which may assist to practitioners to gain the skills and knowledge to provide services under these items.

The following organisations provide training which may assist practitioners to meet the workforce competency standards:

- The Australia and New Zealand Academy of eating disorders (ANZAED) - National
- InsideOut Institute - National
- The Victorian Centre of Excellence in Eating Disorders (CEED) - VIC
- Queensland Eating Disorder Service (QuEDS) - QLD

- Statewide Eating Disorder Service (SEDS) - SA
- WA Eating Disorders Outreach & Consultation Service (WAEDOCS) – WA

This list is not exhaustive, but has been included to provide examples on the types of training available which may assist practitioners to upskill in this area.

MN.16.2 Eating Disorders Dietetic Treatment Services

Eating Disorders Dietetic Treatment Services (82350, 93074 and 93108)

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroup 1 (82350, 93074 and 93108) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes.

Eating Disorder Dietetic Treatment Services Overview

Provision of eating disorder dietetic services by a suitably trained Dietitian (82350, 93074 and 93108) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

A patient with an EDP plan can access up to 20 dietetic services under items 10954, 82350, 93074 and 93108 in a 12-month period. For any particular patient, an eating disorder treatment and management plan expires at the end of a 12-month period following provision of that service. After that period, a patient will require a new EDP to continue accessing eating disorders dietetic services.

Provider Eligibility

In order to provide eating disorder dietetic services, Dietitians must be an 'Accredited Practising Dietitian' as recognised by the Dietitians Association of Australia (DAA).

Checking patient eligibility for services

Note: The 12 month period commences from the date of the EDP.

Patients seeking rebates for eating disorders dietetic services must have had an Eating Disorder Treatment Plan (EDP) 90250-90257, 92146-92153, 90260 or 90261 in the previous 12 months. The plan must require that the patient needs dietetic services for treatment of their eating disorder, and the patient must be provided with a referral for access to the dietetic health services.

If the EDP service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

Support:

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call Services Australia on 132 150 to check this information, while patients can seek clarification by calling 132 011.

Additional Claiming Information (general conditions and limitations)

Reporting Back

After each course of treatment, the relevant dietitian is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

Written reports should include, at a minimum:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

MN.16.3 Eating Disorders Psychological Treatment (EDPT) Services

Eating Disorders Psychological Treatment (EDPT) services (82352, 82354, 82355, 82357-82360, 82362, 82363, 82365-82368, 82370, 82371, 82373-82376, 82378, 82379, 82381-82383)

This note provides information on the Category 8 – Miscellaneous Services: Group M16 – Subgroups 2-5 (82352, 82354, 82355, 82357-82360, 82362, 82363, 82365-82368, 82370, 82371, 82373-82376, 82378, 82379, 82381-82383) and should be read in conjunction with MN.16.1 Eating Disorders General Explanatory Notes.

For the purpose of this note Allied mental health professional is the generic term used to describe providers eligible to provider services under these items, including; clinical psychologists, registered psychologists, eligible accredited mental health social workers and eligible occupational therapists.

Eating Disorder Psychological Treatment (EDPT) Services Overview

Provision of EDPT services by a suitably trained Allied mental health professional (82352, 82354, 82355, 82357-82360, 82362, 82363, 82365-82368, 82370, 82371, 82373-82376, 82378, 82379, 82381-82383) are for patients with anorexia nervosa and other patients with complex presentations of diagnosed eating disorders who meet the eligibility requirements and would benefit from a structured approach to the management of their treatment needs in the community setting.

There are 24 items for the provision of eating disorder specific evidence based psychological treatment services by eligible allied mental health professionals:

- clinical psychologists (item 82352, 82354, 82355, 82357-82359)
- registered psychologists (item 82360, 82362, 82363, 82365-82367)
- occupational therapists (82368, 82370, 82371, 82373- 82375)
- accredited mental health social workers (items 82376, 82378, 82379, 82381-82383)

Psychological Treatment Service

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90261 in the previous 12 Months.

An 'eating disorder psychological treatment service' (EDPT) is defined in the MN.16.1 Eating Disorders General Explanatory Note. For any particular patient, an eating disorder treatment and management plan expires at the end of a 12 month period following provision of that service. After that period, a patient will require a new EDP to continue accessing EDPT services.

Rendering an EDPT item

Who can provide the service

In order to provide EDPT services, the allied mental health professional must be recognised by Services Australia as eligible to provide focussed psychological strategies (FPS) services under the Better Access to Mental Health items (see Provider Eligibility for more information).

What is Involved in an EDPT service

The eating disorder items incorporate a 'stepped model' for best practice care for eligible patients with eating disorders. Under the Eating Disorders Items Stepped Model of Care a course of treatment is defined as 10 eating disorder psychological treatment (EDPT) services. It is required that a patient must have a review (an EDR item in subgroup 3 of A36) after each course of treatment (see MN.16.1 Eating Disorders General Explanatory Notes).

A range of acceptable treatments has been approved for use by practitioners in this context. It is expected that professionals will have the relevant education and training to deliver these services. The approved treatments are:

- Family Based Treatment for Eating Disorders (EDs) (including whole family, Parent Based Therapy, parent only or separated therapy)
- Adolescent Focused Therapy for EDs
- Cognitive Behavioural Therapy (CBT) for EDs (CBT-ED)
- CBT-Anorexia Nervosa (AN) (CBT-AN)
- CBT for Bulimia Nervosa (BN) and Binge-eating Disorder (BED) (CBT-BN and CBT-BED)
- Specialist Supportive Clinical Management (SSCM) for EDs
- Maudsley Model of Anorexia Treatment in Adults (MANTRA)
- Interpersonal Therapy (IPT) for BN, BED
- Dialectical Behavioural Therapy (DBT) for BN, BED
- Focal psychodynamic therapy for EDs

After each course of treatment, the relevant allied mental health professional is required to provide the referring medical practitioner with a written report on assessments carried out, treatment provided and recommendations for future management of the patient's condition. This reporting is required after the first service, as clinically required following subsequent services and after the final service.

This reporting will inform the managing practitioner's reviews of the EDP and enable the practitioner to assess the patient's progress and response to treatment.

Written reports should include, at a minimum:

- any investigations, tests, and/or assessments carried out on the patient;
- any treatment provided; and
- future management of the patient's condition or problem.

The report to the Practitioner must be kept for 2 years from the date of service.

Where appropriate, it is expected that the report will also be provided to the patients and/or the patient's family/carer (with the patient's agreement).

Checking patient eligibility for services

Note: The 12 month period commences from the date of the EDP.

Patients seeking rebates for EDPT services must have had an EDP 90250-90257 or 90260-90261 in the previous 12 Months. The plan must require that the patient needs mental health services for treatment of their eating disorder, and the patient must be provided with a referral for access to the allied health services.

If the EDP service has not yet been claimed, Services Australia will not be aware of the patient's eligibility. In this case the allied health professional should, with the patient's permission, contact the practitioner who developed the plan to ensure the relevant service has been provided to the patient.

Support:

If there is any doubt about whether a patient has had a claim for an eating disorder service, health professionals can access the Health Professionals Online System (HPOS). HPOS is a fast and secure way for health professionals and administrators to check if a patient is eligible for a Medicare benefit for a specific item on the date of the proposed service. However, this system will only return advice that the service/item is payable or not payable.

Patients can also access their own claiming history with a My Health Record or by establishing a Medicare online account through myGov or the Express Plus Medicare mobile app.

Alternatively, health professionals can call Services Australia on 132 150 to check this information, while patients can seek clarification by calling 132 011.

Provider Eligibility

Advice about registering with Services Australia to provide focussed psychological strategies - allied mental health services is available from Services Australia provider inquiry line on 132 150.

Eligible clinical psychologist - [MN.6.4 - Clinical Psychologist Professional Eligibility](#)

Eligible allied health professionals

A person is an allied health professional in relation to the provision of Better Access to Mental Health items if the person meets one of the following requirements:

- a. the person is a psychologist who holds general registration in the health profession of psychology under the applicable law in force in the State or Territory in which the service is provided;
- b. the person is a member of the Australian Association of Social Workers (AASW) and certified by AASW as the meeting the standards for mental health set out in the document published by AASW titled 'Practice Standards for Mental Health Social Workers 2014' as in force on 25 September 2014;
- c. the person:
 - i. is an occupational therapist who is registered with the Australian Health Practitioners Regulatory Agency as a person who can provide that kind of service under the applicable law in force in the State or Territory in which the service is provided; and
 - ii. is accredited by Occupational Therapy Australia as:
 - having a minimum of two years experience in mental health; and
 - having undertaken to observe the standards set out in the document published by Occupational Therapy Australia's 'Australian Competency Standards for Occupational Therapists in Mental Health' as in force on 1 November 2006; and
 - having undertaken to observe the standards set out in the 2018 'Australian Occupational Therapy Competency Standards' published the Occupational Therapy Board of Australia.

Continuing professional development (CPD) for Occupational Therapists and Social Workers providing focussed psychological strategies (FPS) services

Occupational therapists and accredited mental health social workers providing FPS services are required to have completed 10 hours FPS CPD. A CPD year for the purposes of these items is from 1 July to 30 June annually.

Part-time allied mental health professionals are required to have 10 hours of FPS related CPD, the same as full-time allied mental health professionals.

Occupational Therapists and Social Workers who are registered during the course of the CPD year, their obligation to undertake CPD will be on a pro-rata basis. The amount of units will be calculated from the 1st of the month immediately succeeding the month they obtained initial registration. The obligation will be one-twelfth of the yearly requirement for each month.

CPD activities must be relevant to delivering FPS services. Acceptable CPD activities where the content is related to FPS can include formal postgraduate education, workshops, seminars, lectures, journal reading, writing papers, receipt of supervision and peer consultation, and online training.

There is flexibility in the CPD activities that can be undertaken to meet individual professional needs and their practice/client base and client needs. For example, activities could also include assessment and treatment of specific disorders and client types such as youth, or different modalities and delivery such as working with groups.

Additional Claiming Information (general conditions and limitations)

Other than Consultation Room (items 82354, 82357, 82362, 82365, 82370, 82373, 82378, 82381)

It is expected that this service would be provided only for patients who are unable to attend the practice.

MN.16.4 Eating Disorders Services Telehealth

Eating Disorders Services Telehealth – (items 82359, 82367, 82375, 82383; 93075, 93076, 93079, 93084, 93087, 93092, 93095, 93100, 93103; 93108, 93110, 93113, 93118, 93121, 93126, 93129, 93134 and 93137)

This note provides telehealth supporting information for eating disorders items provided via telehealth by a medical practitioner in general practice and should be read in conjunction with Eating Disorders General Explanatory Notes.

Record Keeping

Participating telehealth practitioners must keep contemporaneous notes of the consultation including documenting that the service was performed by video conference, the date, time and the people who participated.

Only clinical details recorded at the time of the attendance count towards the time of the consultation. It does not include information added at a later time, such as reports of investigations.

Aftercare Rule

Video consultations are subject to the same aftercare rules as allied health practitioners providing face-to-face consultations.

Multiple Attendances on the Same Day

In some situations a patient may receive a consultation via video conference and a face-to-face consultation by the same or different clinical psychologist on the same day.

Medicare benefits may be paid for more than one video consultation on a patient on the same day by the same clinical psychologist, provided the second (and any following) video consultations are not a continuation of the initial or earlier video consultations. Clinical psychologists will need to provide the times of each consultation on the patient's account or bulk-billing voucher.

Referrals

The referral procedure for a video consultation is the same as for conventional face-to-face consultations.

	Group M7. Focused Psychological Strategies (Allied Mental Health)		
	Subgroup 2. Psychological therapy health, focussed psychological strategies health and eating disorder case conference services		
80176	Attendance by an eligible allied health practitioner, as a member of a multidisciplinary case conference team, to participate in a mental health case conference if the conference lasts for at least 15 minutes, but for less than 20 minutes		

2. PSYCHOLOGICAL THERAPY HEALTH, FOCUSED PSYCHOLOGICAL STRATEGIES HEALTH AND EATING DISORDER CASE CONFERENCE SERVICES	
M7. FOCUSED PSYCHOLOGICAL STRATEGIES (ALLIED MENTAL HEALTH)	
	(See para MN.7.6 of explanatory notes to this Category) Fee: \$53.75 Benefit: 85% = \$45.70 Extended Medicare Safety Net Cap: \$161.25
80177	Attendance by an eligible allied health practitioner, as a member of a multidisciplinary case conference team, to participate in a mental health case conference if the conference lasts for at least 20 minutes, but for less than 40 minutes (See para MN.7.6 of explanatory notes to this Category) Fee: \$92.20 Benefit: 85% = \$78.40 Extended Medicare Safety Net Cap: \$276.60
80178	Attendance by an eligible allied health practitioner, as a member of a multidisciplinary case conference team, to participate in a mental health case conference if the conference lasts for at least 40 minutes (See para MN.7.6 of explanatory notes to this Category) Fee: \$153.45 Benefit: 85% = \$130.45 Extended Medicare Safety Net Cap: \$460.35
M8. PREGNANCY SUPPORT COUNSELLING	
	Group M8. Pregnancy Support Counselling
Amend 81000	Non-directive pregnancy support counselling health service provided to a patient who is currently pregnant or who has been pregnant in the preceding 12 months, by an eligible psychologist if: (a) the patient is concerned about a current pregnancy or a pregnancy that occurred in the 12 months preceding the provision of the first service; and (b) the patient is referred by a medical practitioner who is not a specialist or consultant physician; and (c) the eligible psychologist does not have a direct pecuniary interest in a health service that has as its primary purpose the provision of services for pregnancy termination; and (d) the service is at least 30 minutes duration; to a maximum of 3 services (including services to which items 81000, 81005 or 81010, items 792 or 4001 in the general medical services table, or items 92136, 92138, 93026, 93029, 92137 or 92139 in the Telehealth and Telephone Determination apply) for each pregnancy (See para MN.8.3, MN.8.2, MN.8.1, MN.8.4 of explanatory notes to this Category) Fee: \$80.50 Benefit: 85% = \$68.45 Extended Medicare Safety Net Cap: \$241.50
Amend 81005	Non-directive pregnancy support counselling health service provided to a patient, who is currently pregnant or who has been pregnant in the preceding 12 months, by an eligible social worker if: (a) the patient is concerned about a current pregnancy or a pregnancy that occurred in the 12 months preceding the provision of the first service; and (b) the patient is referred by a medical practitioner who is not a specialist or consultant physician; and

M8. PREGNANCY SUPPORT COUNSELLING	
	<p>(c) the eligible social worker does not have a direct pecuniary interest in a health service that has as its primary purpose the provision of services for pregnancy termination; and</p> <p>(d) the service is at least 30 minutes duration;</p> <p>to a maximum of 3 services (including services to which items 81000, 81005 or 81010, items 792 or 4001 in the general medical services table, or items 92136, 92138, 93026, 93029, 92137 or 92139 in the Telehealth and Telephone Determination apply) for each pregnancy</p> <p>(See para MN.8.3, MN.8.2, MN.8.1, MN.8.4 of explanatory notes to this Category) Fee: \$80.50 Benefit: 85% = \$68.45 Extended Medicare Safety Net Cap: \$241.50</p>
Amend 81010	<p>Non-directive pregnancy support counselling health service provided to a patient, who is currently pregnant or who has been pregnant in the preceding 12 months, by an eligible mental health nurse if:</p> <p>(a) the patient is concerned about a current pregnancy or a pregnancy that occurred in the 12 months preceding the provision of the first service; and</p> <p>(b) the patient is referred by a medical practitioner who is not a specialist or consultant physician; and</p> <p>(c) the eligible mental health nurse does not have a direct pecuniary interest in a health service that has as its primary purpose the provision of services for pregnancy termination; and</p> <p>(d) the service is at least 30 minutes duration;</p> <p>to a maximum of 3 services (including services to which items 81000, 81005 or 81010, items 792 or 4001 in the general medical services table, or items 92136, 92138, 93026, 93029, 92137 or 92139 in the Telehealth and Telephone Determination apply) for each pregnancy</p> <p>(See para MN.8.3, MN.8.2, MN.8.1, MN.8.4 of explanatory notes to this Category) Fee: \$80.50 Benefit: 85% = \$68.45 Extended Medicare Safety Net Cap: \$241.50</p>

M9. ALLIED HEALTH GROUP SERVICES	
	<p>Group M9. Allied Health Group Services</p>
Amend 81100	<p>Diabetes education health service provided to a patient by an eligible diabetes educator for assessing the patient's suitability for group services for the management of type 2 diabetes, including taking a comprehensive patient history, identifying an appropriate group services program based on the patient's needs and preparing the patient for the group services if:</p> <p>(a) the patient has type 2 diabetes; and</p> <p>(b) the patient is being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a GP Management Plan or, if the patient is a resident of an aged care facility, the patient's medical practitioner has contributed to a multidisciplinary care plan; and</p> <p>(c) the patient is referred to an eligible diabetes educator by the medical practitioner using a referral form that has been issued by the Department, or a referral form that contains all the components of the form issued by the Department; and</p> <p>(d) the service is provided to the patient individually and in person; and</p>

M9. ALLIED HEALTH GROUP SERVICES

	<p>(e) the service is of at least 45 minutes duration; and</p> <p>(f) after the service, the eligible diabetes educator gives a written report to the referring medical practitioner mentioned in paragraph (c);</p> <p>payable once in a calendar year for this or any other assessment for group services item (including services in items 81100, 81110 and 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination)</p> <p>(See para MN.9.6, MN.9.2, MN.9.3, MN.9.4, MN.9.1 of explanatory notes to this Category) Fee: \$87.95 Benefit: 85% = \$74.80 Extended Medicare Safety Net Cap: \$263.85</p>
<p>Amend 81105</p>	<p>Diabetes education health service provided to a patient by an eligible diabetes educator, as a group service for the management of type 2 diabetes if:</p> <p>(a) the patient has been assessed as suitable for a type 2 diabetes group service under assessment item 81100, 81110 or 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination; and</p> <p>(b) the service is provided to a patient who is part of a group of between 2 and 12 patients; and</p> <p>(c) the service is provided in person; and</p> <p>(d) the service is of at least 60 minutes duration; and</p> <p>(e) after the last service in the group services program provided to the patient under item 81105, 81115 or 81125 or item 93285 of the Telehealth and Telephone Determination, the eligible diabetes educator prepares, or contributes to, a written report to be provided to the referring medical practitioner; and</p> <p>(f) an attendance record for the group is maintained by the eligible diabetes educator;</p> <p>to a maximum of 8 group services in a calendar year (including services in items 81105, 81115 and 81125 or item 93285 of the Telehealth and Telephone Determination)</p> <p>(See para MN.9.6, MN.9.5, MN.9.3, MN.9.1 of explanatory notes to this Category) Fee: \$21.90 Benefit: 85% = \$18.65 Extended Medicare Safety Net Cap: \$65.70</p>
<p>Amend 81110</p>	<p>Exercise physiology health service provided to a person by an eligible exercise physiologist for assessing the person's suitability for group services for the management of type 2 diabetes, including taking a comprehensive patient history, identifying an appropriate group services program based on the patient's needs and preparing the person for the group services if:</p> <p>(a) the person has type 2 diabetes; and</p> <p>(b) the person is being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a GP Management Plan or, if the person is a resident of an aged care facility, the person's medical practitioner has contributed to a multidisciplinary care plan; and</p> <p>(c) the person is referred to an eligible exercise physiologist by the medical practitioner using a referral form that has been issued by the Department, or a referral form that contains all the components of the form issued by the Department; and</p> <p>(d) the service is provided to the person individually and in person; and</p>

M9. ALLIED HEALTH GROUP SERVICES

	<p>(e) the service is of at least 45 minutes duration; and</p> <p>(f) after the service, the eligible exercise physiologist gives a written report to the referring medical practitioner mentioned in paragraph (c);</p> <p>payable once in a calendar year for this or any other assessment for group services item (including services in items 81100, 81110 and 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination)</p> <p>(See para MN.9.6, MN.9.2, MN.9.3, MN.9.4, MN.9.1 of explanatory notes to this Category) Fee: \$87.95 Benefit: 85% = \$74.80 Extended Medicare Safety Net Cap: \$263.85</p>
<p>Amend 81115</p>	<p>Exercise physiology health service provided to a person by an eligible exercise physiologist, as a group service for the management of type 2 diabetes if:</p> <p>(a) the person has been assessed as suitable for a type 2 diabetes group service under assessment item 81100, 81110 or 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination; and</p> <p>(b) the service is provided to a person who is part of a group of between 2 and 12 patients; and</p> <p>(c) the service is provided in person; and</p> <p>(d) the service is of at least 60 minutes duration; and</p> <p>(e) after the last service in the group services program provided to the person under item 81105, 81115 or 81125 or item 93285 of the Telehealth and Telephone Determination, the eligible exercise physiologist prepares, or contributes to, a written report to be provided to the referring medical practitioner; and</p> <p>(f) an attendance record for the group is maintained by the eligible exercise physiologist;</p> <p>to a maximum of 8 group services in a calendar year (including services in items 81105, 81115 and 81125 or item 93285 of the Telehealth and Telephone Determination)</p> <p>(See para MN.9.6, MN.9.5, MN.9.3, MN.9.1 of explanatory notes to this Category) Fee: \$21.90 Benefit: 85% = \$18.65 Extended Medicare Safety Net Cap: \$65.70</p>
<p>Amend 81120</p>	<p>Dietetics health service provided to a person by an eligible dietitian for assessing the person's suitability for group services for the management of type 2 diabetes, including taking a comprehensive patient history, identifying an appropriate group services program based on the patient's needs and preparing the person for the group services if:</p> <p>(a) the person has type 2 diabetes; and</p> <p>(b) the person is being managed by a medical practitioner (including a general practitioner, but not a specialist or consultant physician) under a GP Management Plan or, if the person is a resident of an aged care facility, the person's medical practitioner has contributed to a multidisciplinary care plan; and</p> <p>(c) the person is referred to an eligible dietitian by the medical practitioner using a referral form that has been issued by the Department, or a referral form that contains all the components of the form issued by the Department; and</p> <p>(d) the service is provided to the person individually and in person; and</p>

M9. ALLIED HEALTH GROUP SERVICES

	<p>(e) the service is of at least 45 minutes duration; and</p> <p>(f) after the service, the eligible dietitian gives a written report to the referring medical practitioner mentioned in paragraph (c);</p> <p>payable once in a calendar year for this or any other assessment for group services item (including services in items 81100, 81110 and 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination)</p> <p>(See para MN.9.6, MN.9.2, MN.9.3, MN.9.4, MN.9.1 of explanatory notes to this Category) Fee: \$87.95 Benefit: 85% = \$74.80 Extended Medicare Safety Net Cap: \$263.85</p>
Amend 81125	<p>Dietetics health service provided to a person by an eligible dietitian, as a group service for the management of type 2 diabetes if:</p> <p>(a) the person has been assessed as suitable for a type 2 diabetes group service under assessment item 81100, 81110 or 81120 or items 93284 or 93286 of the Telehealth and Telephone Determination; and</p> <p>(b) the service is provided to a person who is part of a group of between 2 and 12 patients; and</p> <p>(c) the service is provided in person; and</p> <p>(d) the service is of at least 60 minutes duration; and</p> <p>(e) after the last service in the group services program provided to the person under item 81105, 81115 or 81125 or item 93285 of the Telehealth and Telephone Determination, the eligible dietitian prepares, or contributes to, a written report to be provided to the referring medical practitioner; and</p> <p>(f) an attendance record for the group is maintained by the eligible dietitian;</p> <p>to a maximum of 8 group services in a calendar year (including services to which items 81105, 81115 and 81125 or item 93285 of the Telehealth and Telephone Determination apply)</p> <p>(See para MN.9.6, MN.9.5, MN.9.3, MN.9.1 of explanatory notes to this Category) Fee: \$21.90 Benefit: 85% = \$18.65 Extended Medicare Safety Net Cap: \$65.70</p>

M10. COMPLEX NEURODEVELOPMENTAL DISORDER AND DISABILITY SERVICES

	<p>Group M10. Complex neurodevelopmental disorder and disability services</p>
Amend 82000	<p>Psychology health service provided to a patient aged under 25 years by an eligible psychologist if:</p> <p>(a) the patient was referred by an eligible medical practitioner, or by an eligible allied health practitioner following referral by an eligible medical practitioner, to:</p> <p style="padding-left: 40px;">(i) assist the eligible medical practitioner with diagnostic formulation where the patient has a suspected complex neurodevelopmental disorder or eligible disability; or</p> <p style="padding-left: 40px;">(ii) contribute to the patient's treatment and management plan developed by the referring eligible medical practitioner where a complex neurodevelopmental disorder (such as autism spectrum disorder) or eligible disability is confirmed; and</p>

M10. COMPLEX NEURODEVELOPMENTAL DISORDER AND DISABILITY SERVICES

	<p>(b) the service is provided to the patient individually and in person; and</p> <p>(c) the service is at least 50 minutes duration</p> <p>Up to 4 services to which this item or any of items 82005, 82010, 82030, 93032, 93033, 93040 or 93041 apply may be provided to the same patient on the same day</p> <p>(See para MN.10.1, MN.10.3 of explanatory notes to this Category)</p> <p>Fee: \$109.80 Benefit: 85% = \$93.35</p> <p>Extended Medicare Safety Net Cap: \$329.40</p>
<p>Amend 82005</p>	<p>Speech pathology health service provided to a patient aged under 25 years by an eligible speech pathologist if:</p> <p>(a) the patient was referred by an eligible medical practitioner, or by an eligible allied health practitioner following referral by an eligible medical practitioner, to:</p> <p style="padding-left: 40px;">(i) assist the eligible medical practitioner with diagnostic formulation where the patient has a suspected complex neurodevelopmental disorder or eligible disability; or</p> <p style="padding-left: 40px;">(ii) contribute to the patient’s treatment and management plan developed by the referring eligible medical practitioner where a complex neurodevelopmental disorder (such as autism spectrum disorder) or eligible disability is confirmed; and</p> <p>(b) the service is provided to the patient individually and in person; and</p> <p>(c) the service is at least 50 minutes duration</p> <p>Up to 4 services to which this item or any of items 82000, 82010, 82030, 93032, 93033, 93040 or 93041 apply may be provided to the same patient on the same day</p> <p>(See para MN.10.1, MN.10.3 of explanatory notes to this Category)</p> <p>Fee: \$96.80 Benefit: 85% = \$82.30</p> <p>Extended Medicare Safety Net Cap: \$290.40</p>
<p>Amend 82010</p>	<p>Occupational therapy health service provided to a patient aged under 25 years by an eligible occupational therapist if:</p> <p>(a) the patient was referred by an eligible medical practitioner, or by an eligible allied health practitioner following referral by an eligible medical practitioner, to:</p> <p style="padding-left: 40px;">(i) assist the eligible medical practitioner with diagnostic formulation where the patient has a suspected complex neurodevelopmental disorder or eligible disability; or</p> <p style="padding-left: 40px;">(ii) contribute to the patient’s treatment and management plan developed by the referring eligible medical practitioner where a complex neurodevelopmental disorder (such as autism spectrum disorder) or eligible disability is confirmed; and</p> <p>(b) the service is provided to the patient individually and in person; and</p> <p>(c) the service is at least 50 minutes duration</p> <p>Up to 4 services to which this item or any of items 82000, 82005, 82030, 93032, 93033, 93040 or 93041 apply may be provided to the same patient on the same day</p> <p>(See para MN.10.1, MN.10.3 of explanatory notes to this Category)</p>

M10. COMPLEX NEURODEVELOPMENTAL DISORDER AND DISABILITY SERVICES

	<p>Fee: \$96.80 Benefit: 85% = \$82.30 Extended Medicare Safety Net Cap: \$290.40</p>
